The heart of this system is the Pioneer SX-626, an attractive, medium-powered 2-channel receiver that delivers 54 watts of continuous RMS power and features the latest in solid-state circuitry. The FM tuner section with a low-noise FET, provides excellent selectivity and sensitivity. A full complement of switches and circuits, including a signal strength meter and two tape monitors, make this an immensely versatile, easy to use receiver. It measures 17 $\frac{1}{2}$ "W x 5 $\frac{1}{4}$ "H x 14 $\frac{1}{4}$ "D. The two compact Criterion 333 2-way speaker systems easily handle the SX-626's power and de-

liver a full, big sound. An 8" high-compliance woofer produces deep, rich bass down to 40Hz. And a 3" sealed-back tweeter widely disperses clean, clear music up to 18,000Hz. Impedance is 8 ohms. Each cabinet measures 18W x 11H x 10"D. Add a high quality Garrard 40B automatic turntable and a Pickering P/ATE-1 elliptical cartridge with a frequency response of 20 to 15,000Hz, and you have a quality system at a great price. You'll never have to worry about the Pioneer QX-747, with its 80 watts of continuous RMS power, becoming obsolete. It decodes all the 4-channel sources—SQ, regular matrix and CD-4. Balancing the sound is easy with the "scope type" level indicator. And the sensitive FM tuner receives both 2-channel and the new 4-channel SQ broadcasts. In 2-channel operation, the Power Boost circuitry lets you use all the power you pay for, delivering 40 RMS watts per channel. It's the perfect combination of versatility, high performance and power. The QX-747 measures 21 $\frac{1}{2}$ "W x 6 $\frac{1}{2}$ "H x 16 $\frac{1}{2}$ "D. Four excellent Criterion 555 3-way acoustic speaker systems give you the powerful, clear sound you want. The 10"

woofer with its huge 4 lb. magnet structure, 5" mid-range speaker and 3" tweeter combine to deliver an impressive 32 to 19,500Hz overall response. And a brilliance control lets you adjust each system to tailor the sound to fit your room. Impedance is 8 ohms. Each cabinet measures 21H x 12W x 10"D. A Garrard 40B automatic turntable and Pickering UV-15/2000Q cartridge complete your obsolescence-proof system. This cartridge, with its quadrilateral diamond stylus and frequency response of 20 to 45,000Hz, plays the new CD-4 discs as well as SQ and 2-channel records. A handsome base and all connecting cables are included.

FM Stereo Separation and Minimum Distortion**

Lafayette now sets the pace with a premium-quality AM/FM tuner with Dolby Noise Reduction at a truly reasonable price. The LT-D10 has Dolby B noise reduction circuitry to take advantage of the growing number of FM stations that are now broadcasting Dolbyized signals.
