		u j	Both" means	s joint IRO	CA/NRC.	

WMCS-1400 will test with lkw, tones, and the ID "This is WMCS on the air for testing purposes only." This is also the r/c for 3rd Sat. Might stay on a little longer for DXers to pick them up. Reports to Rich Lindquist, 12 Cooper St., Machias, ME 04654. Arranged by James Hopkin KATE-1450. No details. V/s Gary Hoff, CE, 305 First Ave. So., Albert Lea, MN 56007. Arranged by Neil Zank. WCCP-1560 (daytime only) requests that all DXers sending reports to include a prepared card. Their "minimal staff" does not have time for personal letters. Reports to Robert Liverance, P&CE, P.O. Box 322, Clemson, SC 29631. Arranged by Skip Dabelstein.

WENN-1320 (daytime only) will have R&B music. Phone number is (no collect) 205-324-1026. Reports to WENN, Chief Engineer, P.O. Box 1874, Birmingham, AL 35201. Arranged by Kenneth Van Tassell.

CHICAGO AREA DXers GET-TOGETHER

The 6th Annual CADX get-together will take place at the home of Robert Kramer starting at 12:00 noon on December 26 and continuing until who knows when on December 30. Four all-night DX sessions are planned. Anyone is welcome to come for the entire time or an hour or two. Please let Robert know if you plan on spending the night(s). There will be a refreshment cost of about \$1.00 per night to pay for beer, pop, and taco chips, or whatever. Please write to Robert Kramer at 3406 W. Pierce, Chicago, IL 60651, or call at 312-235-5188.

·····FLASH TIPS ······

IRCAn Glenn Hauser has a classical music program on WILL-580, Urbana, Illinois, and can be heard weekends from 0700-0830/0930 Sun. EST, 0600-0730/0830 Sun. CST, 1200-1330/1430 Sun. GMT.

KSNN-1290 Pocatello, Idaho, was on for the NRC (unlisted in either bulletin) from 0300-0310 (at least) EST 12-8-75, testing with weird music. Good reception in Seattle even though another station, possibly in Montana, was testing with tone at the same time. Had PSA for the ARRL at 0302.

CKLG-730 is off midnight to 0600 PST most every night while putting in their 50kw rig. They expect to have it on the air by Christmas. (rats)

nx, wx 0158, Spirit of KC slogan, rock mx thru 610 0217. (PRM-NJ)

SK, REGINA fair but atop WSUN w/c&w, "620, CKCK" 620 CKCK.

SI, REGINA 1211 to the acop with wyczw, 525, 6km SID 0245 11/17. Local WETE returned from rare SP at 0300. (SF-TN)

TX, PASADENA in nicely on ET w/c&w 11/10 0302-0309,45 s/off. Had visions of KYAK. Said "on for last 9 minutes". Nice & quick verie. (ELK) 650

KY, LOUISVILLE in vy well on ET w/TT 0018-35 900

ON, OTTAWA noted 11/17 w/CBC wx 0107-08 so 910 still here. (ELK-OH)

FL, MELBOURNE noted thru hvy "Radio Popular" (Who they?) QRM 11/10 0426 w/"The Sunshine Bost". Nice verie. (ELK-OH)
FL, JACKSONVILLE on top of freq 11/24 w/nx 920

930 WJAX 0128-30. (ELK-OH)

NY, BUFFALO 1646 poor, 11/22 w/"uptown", c&w WBEN

mx. Alongside WSOC & WFNC. (GA-NC)
AB, CALGARY 11/17 shocker, first noted 0246 u/ 960 CFAC

MST w/ID, later 0300 w/lAM TC, nx, c&w mx to 0306, also QRM from WEAV. (PRM-NJ)
NY, PLATTSEURG 11/17 good w/CBS nx 0300, rock 0310-0435, "Super 96", QRM from CKWS/CFAC/HJHN. (PRM-NJ) WEAV

OH, WOOSTER 11/17 ID on ET 0246 o/CFAC.(PRM-NJ) WWST

IA, Des MOINES rare here w/locals, heard good 1040 WHO 11/17 0235-0240+ w/Icy Hot Spot, WHN off.(PRM) NC, SANFORD 11/23 1845 on late w/c&w & snow-

1050 storm emergency info; fair o/u/WHN. (SF-TN)

NC, MONROE ABC Nx in good 1655 11/21 w/SID 1700 1060 WMAP "Southern Piedmont wx" & rr mx. Just a trace of KYW. (GA-NC)

DC, WASHINGTON weak w/rr & ID 0458 11/17. This 1260 WWDC during the 0400-0500 WNDE SP; WNDR/WIXY also seemed off. (SF-TN)

NJ, TRENTON poor u/WWOK/CMAX w/promo & station address 0422 11/17 during break in NIS. (SF-TN) WBUD

NJ, CAMDEN believed the one hrd 1910-1920 11/20 1310 WCAM w/Spanish pops & ads. Is on R. Americas Libre hist, but can anyone confirm they actually do broadcast in SS and do or did carry the RAL program? Tremendous QRM here. (CMS-ON) (How about it NJ guys? PRM? TRS?...mrm)

NJ. ATLANTIC CITY on top 11/10 w/ET-mx 0118-1340 WMID 25. (ELK-OH)

IA, Des MOINES noted 11/15 w/wx & MoR mx 0034-1350 WRNT 50. WSLR on and off. Even WSLR's OC killed 'em, so rough go at times. (ELK-OH)

ON, OSHAWA also noted 11/15 0059-0102 w/Mor mx, CKLB ID, and then nx. (ELK-OH)

IA, SIOUX CITY noted at s/off 0105-07 w/SSB on 11/24. On top. (ELK-OH)
NY, ROCHESTER 11/20 1822 weak w/Rochester wx 1360 KSCJ

1370 WSAY

o/u/WSPD/WDEF. (SF-TN)
LA, BATON ROUGE 11/24 1815 heard s/off u/WLCY. 1380 WYNK Real surprise, as I wasn't even DXing at the time! (CH-FL)

KY, HAZARD 11/16 1730 fair w/s/off, no anthem. 1390 WKIC SF-TN)

1420 WDBF

FT., DELRAY BEACH 11/26 weak u/WHK w/CBS & local nx, s/off 0008 w/choral SSB. (SF-TN)

GA, GARDEN GITY fair, breaking thru "KBW's trash w/spot for "Levis" 1727 11/22 followed by s/off w/vocal rendition of Dixte. (GA-NC)

SC, LANCASTER noted w/ET 11/10 0136-38. 1520 WNMT

1560 WAGL Easy. (ELK-OH)

VA, CHESAPEAKE Fair 11/22 1658 w/spot for 1600 WCPK Norfolk, then s/off. Weirdest s/off I've ever heard. Sounded like Vincent Price, saying things like "We've come to the end", etc. w, funeral type organ as background. Strange. (GA-NG)

WEUP AL, HUNTSVILLE in good w/nx 11/23 0736 & "Early Morning Gospel Pgm", fighting it out w/ WFRC & WGIV. (GA-NC) VA, (location???..mrm) logged from 1815 fade

1606 WGC in 11/19. Has been audible most nights since August, but unable to identify until Colemans tip in the 10/25 DXM. Is definitely below 1610. (CMS-ON)

################################# FROM THE "DX CALENDAR":

WVOG IA, NEW ORLEANS 11/17 0247 test heard, mentioned NRC. QRM from Cuban, temp. given as 58.(CH-600

1520 WNMT

FL)
11/17 DX test noted fair/good u/CMKV 0230-0300 w/Gospel mx & TT. (SF-TN)
GA, GARDEN CITY 11/24 0303 good signal, soft mx followed by TT, then ID ("N as in Nancy, M as in Mary, T as in Tom") (CH-FL)
In easily on DX thru WANR, but tough after WKBW came back on. Logged from 0303-20 on 11/24. Even 24 watt PSA noted, albeit poorly, w/TT and TDS (ELK-OH) TT and IDs. (ELK-OH)

11/24 0308-0320 using 1000 watts and PSA 24 watts. Heard well with both powers. Little QRM. (LVF-FL)

WEXY FL, OAKLAND PARK 11/17 DX Test fair w/TT and pop mx 0330-0335 o/u/WANR/WKBW. (SF-TN)

#################################### PER THE LIST:

1240 KVRC AR, ARKADELPHIA 11/19 0141 w/slow call ID at end of r/c-TT. Fair/poor signal on ID, but TT was generally L&C. (SF-TN)

#########################
Fine job this week! PLEASE NOTE: I have gone to Saturday deadlines for the holiday mail rush, but apparently since the FS has dropped airmail, the EDXR isn't reaching SPC in time to be printed! THEREFORE: From henceforth, my deadlines will now be EVERY SATURDAY! Don't know if the trouble is at my local Post Office, or betwixt here & Seattle, but will have to move up the deadline in any case. 73rds to all, and to all good DX!

central dx forum 6617 Maryland

Hammond, IN 46323 Charles A. Taylor-939 Eastern Ave.-Indianapolis.

Having been appointed chairman of Countries List Having been appointed chairman of Countries List Committee (CosLisCom), I feel it necessary to advise all potential or previous committee members to write to me with the object of preparing an updated Countries List for publication in DX Monitor. Because of his interest, Charles Keleher has already been appointed a CosLisCom member. Be advised that I am in a radical frame of mind concerning the criteria for selecting "MW countries", despite my relative selecting "MW countries", despite my relative political conservatism; either the list should be severely contracted or it should be carried to its logical extreme. Things will be coming to a head soon: either Indonesia, with the activation of numerous new MW stations, will become a plethora of new MW countries; or Malaysia will have to be contracted. Either Jinmen and Mazu Islands, both part of the Republic of China (Taiwan), will have to be dropped; or Philippines will have to be divided into 3 or more new countries. We are experiencing, in our financial dealings, monetary inflation—a situation in which an individual unit of currency loses value due to its superabundance. A parallel situation exists in MW DX, i.e. country inflation, in which the number of MW countries expands continously and each MW country signifies less and less.

Paul R. Mount-471 Emerson Ave.-Teaneck, NJ 07666 Might as well add my 2¢ worth on the issues issue. Maybe one reason people drop out is because they see everyone worrying that we are losing members so they don't want to be in the "sinking ship" as they see it. A merger with NRC is ridiculous, since IRCA was formed to be different from NRC. Whatever people say, I'm not giving up! Since it hasn't been printed anywhere else, and someone might care, here are partial results of the Elections. President Evans, write ins- Paulsen, Erickson, Stanbury, Nelson. S-T Clements, write ins- Nixon, Rittenhouse, Dabelsteir, Krejny, Edmunds. BoD: Portzer 94, Pejza 90, N. Hardy 83, Zondlo 70, Manning 62, Foxworth 57, Schatz 49, Kramer 43, Flegle 38, Lobel 32, Mitock 28, Ogrizovich 28, Scully 28, Stanbury 28, Mount 24, Wheeler 19, Gill 16, Albrecht 12, write ins: Bertonz, Forth, Peterson, B. Hardy, Worst, Belanger, Harang, Merrill, Poterba, Jensen, Sundstrom, Heald, Krejny, Erickson, Nittler, Shaftan, Pistek, Taylor, Fader, Agnew, M. Mitchell, W. Mills, etc. Mr. Etc. was not named by the ECC, nor the # of write in votes. What happened to the Verie Signers column? If whoever had it can't do it, get some one else? How bout organizing a pool to guess if my next Forum will be pleasant or giving up! Since it hasn't been printed anywhere to guess if my next Forum will be pleasant or critical, hi. 73, support DXM and CPC. (Al Ogrizovich had the veries column, then resigned. The post is vacant right now. Thanks much for the WABC sticker, Paul-jz)

Bruce Goldsen-27 Spruce Hill Rd.-Georgetown, CT 06829

I became an IRCA member as of late October, and thought, after reading everyone's complaints in DXM about apathy among members, that I would take the opportunity to introduce myself. I am 16 years old, and a junior at Weston High School, Weston, CT. I have been involved in S.W. DX since 1971, but am just beginning BCB DX. After reading the first few issues of DXM. I thought I might add my first few issues of DXM, I thought I might add my comments, as a new member, on some of the hotter issues. First, one of the principle reasons I picked for joining IRCA was the considerably lower cost of membership. Also, I disliked the rigid organization of NRC, where I would be a number instead of a member. (I would like to mention here that in the intro letter, new members were promised a new member package, which members were promised a new member package, which I am still anxiously awaiting). Also, I like the format of DXM very much. Well, enough for now, and I'm glad to be an IRCA member. Hoping for good DX, 73's from CT.

Brian L. Cartwright-106 Leila St.-Johnstown, PA

I don't know where my head was while I was writing my last report. All the dates I quoted in DXWW and the forum were NOVEMBER, not Oct. as indicated. Lately I have been concentrating on LA DX, if any domestics are heard, I'll take them. tho. CBK was in nicely the other morning, first time ever. I question— What's a TA? HI. Last one I remember, was 7/72 when I had the ORTF from Brest on 1403. RtHeald was commenting on some violations of FCC rules. In 7/73 Shel Swartz and I went and visited w/the PD at local WJNL. They were in the process of setting up an FM. The PD told us that they were going to simulcast the AM on FM for a while, until they get something new. It is now 28 months later, and except for MMs, they have run continuous 100% simulcast. They say that the 50 kw FM (which covers all of W. PA and some of WV/VA/MD) is the primary and the AM (which is lucky if it covers 5 miles on 1490) is the secondary part. I am 2 miles from the TX (both of us on hills) and at night they occasionally get drowned out. I got past the 1700 mark in stations heard, hope to make 1976 within the next 13 months. On merger, I had sample bulletins from both clubs, and equal opportunity to join either or both, but I chose the IRCA. I still feel that it has a more organized format than DXN, and the looseleaf makes it easy to remove individual pages for references. One final note, WIOO-1000 here in PA has a very detailed s/off, Hi. It goes "At this time WIOO leaves the air. Stay tuned for more Hit Music on Super 'CFL". Also, some names may be familiar that are now working at WEEP, which has gone to all talk. These are Mike Levine, Jack Wheeler, and Bob Prince, all formerly of KDKA. Chuck Brinkman is now at WTAE, ex of the Pirates and White Sox, KQV. This may be due to rumors that KQV has gone to all-news. Can't confirm. WIXZ is also now C&W from rock. 73

John Bradley-3835 Hawk Lane-Colorado Springs, CO

DX has been good here altho I've had no time for it. Latest veries come from KBMR, WWWE, WCBS, KELI. For all you call letter change fans, KVOR-FM is now KSPZ (alias Z93). KPUB-FM is on the air at 99.9 covering half the state with 100kw. It would be interesting to find out what is most listened to station among DXers. WABC has the most listeners of any U.S. station but which station is DXed the most? It's nice to receive DXM every week. Why don't you contribute? 73.

 $\underline{\text{Tom Butas-}5612}$ Alta Dena Dr.-Huntsville, AL 35802 Hi all. DX has been poor here with only three new stations heard lately. They are WCSC, WINZ, and KGHL for my 40th state. As per the 11/29 DXM sure sorry to see that WEUP-1600 is going to 500w on nights. With them and local WAAY I might as well forget the upper end of the dial for evening DX. I sure will be glad to leave here next August so I can get away from my number 1 pest Waay. Also local WFIX dropped ABC news for CBS effective 10/1. One new rig added to the shack this month. It is a HYGAIN model 674B, singleside band mobile CB rig. It sure has the AM side beat. Sure nice to see another "old time radio" feature by Larry Flegle. I feel that he does a real fine job with them. As for the Achievement Awards, about 30 have been issued so far, and I hope to receive many more applications now that the DX season is underway. Till next time, have a good Christmas, and 73.

John Zondlo-6617 Maryland-Hammond, IN 46323 Greetings. Cx have been rather dead around these parts, as they have been elsewhere. No new veries recently. There is news on the get-together scene, though. I see that Robert Kramer will be having his annual Christmastime get-together...should be exciting, hi. I'm looking forward to seeing a lot of you folks there. Karl Forth will also be having one later on in the season. There is still talk of a get-together in Lafayette IN or Champaign IL, but I've heard nothing definite so far. Well, that's enuf for now, so 73......

Scott Mentzer-Rt. 3-Tylertown, MS 39667 For the first time around here, the DX scene has slowly faded out. Over the Turkey Day holidays there was nothing to report on the AM band. However, some veries have come in: WAGF, WEAG, WKCY, and WAYX. Seems like WTTI has some kind of transmitter troubles as they have been testing for the past three or four mornings. In the New Orleans news, WNPS has been off the air and will continue off the air for a few days as their studios were burned down when the building they are housed in went up in smoke. WNOE, another NO station, cut their daytime power over Thanks-giving for some unknown reason. I would like to thank ASL for the info on KGBS (the verie came two days after your letter came in, ASL). Now I will do something for one of my fellow members. I have written a letter to the FCC on their violations in the West for RtH. The letter has all the info Mr. Heald gave the DXM, so it better be correct, hi. Although the letter will get only to a secretary's desk, who knows? It might get to somebody who cares (probably impossible, hi)! About it for now. Contribute often and 73......

Neil G. Zank-2445 "E" St., Apt. 6-Lincoln, NE 68510 In my year in this club I have had an opportunity to evaluate and formulate my thinking and opinions The very best thing I have seen in the bulletin appeared in #9 recently. This was a quote from Bill Nittler: "The answer for improvement of DX Monitor seems to rest with us all...regular reports to all sections!" And such contributions do not mean merely gripes. This should apply to all; editors, officers, as well as the general member. The club will be what we make it. The organization is a Hobby club; no more, no less. The important thing is that we have members willing to contribute, edit and publish. Let us all remember that. I am not interested in seeing the club get completely lost again in concerns over "government", bulletin formats, and the like. DX and report!

DEADLINES

EDITOR: RICK HEALD

534 WELDON AVENUE OAKLAND, CA. 94610 Ph: (415) 452-4816

FATHER JACK PEJZA-212 S. CARPENTER RD-MODESTO, CA.

The 4th volume of the IRCA Foreign Log is now with the Seattle publishing crew; all they have to add is a couple of items like page numbers and a cover before taking it to the printer. It should be ready shortly. A couple wks ago, I put up a 300' lw, roughly N-S. Plugged it into the SPR-4 and was happy to note KXL 750 @ 629 mi at about 2pm local time. I was somewhat deflated to note that the loop also brought in the station. Since then I've detected a couple of stations at pretty good distances which weren't there during the day in the Summer, particularly KSL, 533 mi., KOB, 815 miles, and KTWO, 791 mi.. Now I'm trying to see if I can get a noontimer from o/a thousand mi. The lower angle of the sun really does make a difference in daytime ionospheric cx. (Although I guess the above receptions really are attributable to groundwave.) Haven't been doing much DXing in the last couple wks, but plan to try the first MM of Dec. Cx certainly haven't been the best the whole mo. of Nov.. Only the stronger TPs were in on the few occasions that I did DX. We had a pleasant little get-together at the Hotel Raphael in S.F. the Sat after Thanksgiving. About 14 in attendance, all BCBers. (Rick Heald is getting exclusive and not inviting the SWLers, hi). (IRCAns are an exclusive group, hi-RtH) Haven't seen Don Kaskey in a cou-ple of yrs, so it was good to chew the fat with him again. The Raphael doesn't seem any worse the wear for Don's working there. (You weren't there when the door fell off, hi-RtH). Sadly missing by his absense was Don Erickson. You don't have to worry Don, the Raphael doesn't have a swimming pool. Also strangely absent was everyone from San Jose, any special reason for the boycott? By now

Rick has clued people in the Bay Area Radio Freaks are trying to get the bid for the 1976 IRCA Convention. The Raphael would be a good place for it, located as it is in downtown SF, just one block from Union Square and the Powell Street cablecar. LEOM UNION Square and the rowell Street cablecar. (Let's all hum along w/Tony Bennett---"I left my heart----"). Rick Heald plans a tour of the local sights, such as the world's largest cockroach (or did I get that mixed up?), the island where he would like to exile a few local Chief Engineers, and a tour of North Beach, just to keep abreast of things (No aditorial comments places) I un of things. (No editorial comments please) I understand that competition for the convention bid will come from the vast assemblages of DXers in Bend, OR, and Kansas City, MO. (Or was that Boonton, NJ and Uleta, FL?). (Pssst, Father, could you double space next time, hard to read single space with these bloodshot eyes, hi-RtH).

ALBERT S. LOBEL-247 N. 1st #27-EL CAJON, CA 92021 Ph: (714)440-2544, 1900-2115, 1900-0600 1st MM, PST The controversy still roars on abour the IRCA/NRC merger! I'm still against it! IRCA is a great club and will continue to be even greater in years to come. Our new (not so new anymore) radio show on KDWN is an example of how IRCA continues to grow. Perhaps, it can be arranged that our show will be on an EC stn also. Perhaps WGN which is on the same frequency as KDWN would be a good choice. The two stns are the only ones on 720 in the entire US, except Hawaii & Alaska, and there are no stns on 720 in Canada either. They should just about cover all of the US & Canada. (Al, are you suggesting a net? If so, who foots the line charges?-RtH) Bill Harang, let's see some comment from you in WDXF in this regard. Most of the comments I have been receiving about the Ad-Visor have been very good ones. The column seems to be quite effective. Remember, the column is ther for you-the IRCA member--use it and it will serve you well. 73 and good DX to all members of both IRCA and NRC, (even if you belong to only one!!).

BILL HARANG-811 NEVADA AVE-SAN JOSE, CA. 95125 Ph: (408) 292-8198

It's a fact that many of the people coming out of college that major in broadcasting are totally unprepared to face the responsibilities of modern broadcasting. There are, of course, a few fine colleges who perform a great service. But the majority of colleges are out of tune w/the times; they concentrate to much in the area of television or have radio courses taught by professors who still think a "cluster" has something to do w/astronomy and a "sweep" is something that the janitor does in the control room every night. Unfortunately, some Broadcasting Schools aren't in much better shape. Some of them are just factories, and as long as anybody could read, write, and have the "tuition" they'll take them. There are, however, many excellent Broadcasting Schools that have very solid radio courses. Thanks to NNRC for mentioning about our DXer Report prgm in one of their club bulletins. KMBY's nightime signal is 3 mv/m in Salinas, and w/modulation level maintained, the station is quite listenable there. (That's why KOAD bombed in on my Sony in Salinas?-RtH) On our 10/8 prgm, we mentioned that XETRA 690 broadcasts in Stores. in Stereo. Due to the fact that AM does not require line-of-sight reception as FM does, it appears that if AM Stereo does become popular, it would be more preferred than FM Stereo. (Except for the 10-15% distortion level of AM o/FM-RtH) (Bill, "your" article re Broadcasting should be expanded, but not enuf room in a Forum. Why not put together a major article, and send on to the Specials editor, Bill Hardy, so that it can be expanded in a more proper manner?-RtH) CORRECTION FROM THE EDITOR

CORRECTION FROM THE EDITOR
In the Nov 22 DXM, in the WDXF, a line was dropped
in Bill Harang's Forum, thus slightly changing
the context. Incorrect line read, "...Most AM radios have a frequency response of about 50 cycles
to 15 kc....". The line SHOULD HAVE READ,
"Most AM radios have a frequency response of about 150 cycles to 2500 cycles, while most AM stns
broadcast a frequency response of about 50 cycles
to 15 kc.". Sorry Bill. Although I try to proofread everything. mistakes do crop up. most cerread everything, mistakes do crop up, most certainly unintentional. Contributors can also help by keeping their Forums as neat and free from

CHARLES A. WOLFF-4911 PROCTOR RD-CASTRO VALLEY, CA

Does anybody know anything about a bill before Congress to abolist the FCC and eight other Federal agencies on 10/01/76? I hrd a mention of this on some news prgm., but haven't been able to find out any more. Concerning Rth's comments on the FCC....

1) I don't think KYA does simulcast 100% AM/FM-their "Fantasy Park" concert was on FM only (which
I can't hear at my house) Possibly they do it only nights and weekends. (Fantasy was only time, 24 hr monitoring says 100%, see my DXF-RtH). 2) Prohibition of dual ownership was considered by the FCC, but voted down, per the "Talk to the FCC" program on local TV 11/20. (Jim Korn called FCC re KIOI & Landry said KIOI got KIQI because nobody protested, strange. -RtH). 3) KOFY used to have one of the @#%&紫嗯緣jest sounding signals around slopping worse w/their 1kw than KNBR did w/their 50kw. while they may have been fined for somewhat different reasons, their signal is now much cleaner. I do agree, though, that KIQI shouldn't be allowed to go fulltime, especially w/50 kw. Mainly because it would louse up two or three good DX ry because it would take to the time of the frequencies. Finally got in a verie, KLAN 1320 CA a v/r, so maybe now I'll start DXing again. (WFEA not good enuf, huh? Hi-RtH). Personal observation the wx for this area seems to come from the NW, OR/WA and thereabouts (via SE AK-RtH) and whenever it's raining up there, cx to N & E seem very good. Several times I'll wake up after a good MM to find it's raining here. Has anybody else no-ticed this. SAN FRANCISCO '76!!!!!!

RICK HEALD-534 WELDON AVENUE-OAKLAND, CA. 94610 Ph: (415) GLencourt 2-4816 Thanks Father Jack for fine review of BARF-III. San Francisco will also be celebrating its Bi-Centennial in 1976 (Mission Dolores, June 1776), so why not celebrate two bicentennials in everybody's favorite city, SAN FRANCISCO? One mode of transportation FJP left out, BART. Come and watch a computor break-down and leave a train stranded under the bay, hi. Glad to see that someone else has mentioned lousy cx for TPs, thought it was my rx and new QTH. Must be bad if all I get from China 1040 is a trace of audio, though LAs were excellent beginning of this last week (11/30), R. Bogota topping WLS, a rarity for me. Now using a borrowed Collins R388, yup, same rx at BARF-III, Hammurlund taking a vacation. Combined w/the wedge, what a difference!! The cali-Combined W/the Wedge, what a difference: The Calibration especially superior. Briefly re merger talks, ran across a June 13, 1964 DXN from one of our "founding fathers", Larry Godwin, and I think he really made the need of two clubs quite clear, in part, ".......Now that both clubs, the NRC and TRCA exist as generate entities. DXers are free to in part, "........Now that both clubs, the NRC and IRCA exist as seperate entities, DXers are free to chose the type of government they wish. We hope, then, that all controversy has passed and that both clubs will continue to prosper in the coming years....". Well said, Larry. For our membership cahirperson (?????) I have the file of reception reports sent to KNBR. V/s is Kay Bush. One of our accounts is KNBR (7 flrs up), their PD and CE also travel w/us. and have now been promised that we will have us, and have now been promised that we will have advance notice when KNBR will turn off their noise machine, which according to Kay, will be more often in the future. Kay, is <u>not</u> an automatic verifier, you should see all the reports marked "Insufficient" some from club members. See u in 7. 73

Herald-News, Joliet, Illinois, Sunday, September 14, 1975--17 Radio betting tips disguised as scripture

WASHINGTON (AP) - The government says ministers broadcast betting tips disguised as scriptural tips on a Washington radio station and even included testimonials of those who used the tips to win at an illegal "numbers" game.

The Federal Communications Commission disclosed the scheme in a decision revoking the license for United Broadcasting Co., Inc., to run radio station WOOK. The FCC in turn awarded the license to a new group which includes newspaper columnist Jack Anderson.

In its 7-0 decision, made Tuesday and released Friday, the commission said "the record clearly establishes that WOOK's facilities were used by various ministers to broadcast programs offering three-digit scripture citations in return for monetary

HALF A CENTURY AGO: THE INTERNATIONAL RADIO WEEK TESTS by Thomas H. White

Chapter 3

Planning was better this year, but some problems still occured. CYL in Mexico City, plus 7SR and 6KW in Cuba, held unexpected special programs that confused many American listeners, who thought only European stations would be on during the silent hour. Also causing trouble was the occasional broadcaster who strayed into the silent period. WIP was one, which on Saturday found itself approaching 11:00 with twenty minutes of the opera "Aida" unfinished. They tossed a coin, and thus chose to finish the program, saving themselves from the wrath of opera lovers, but getting it just the same from unhappy auditors.

The tests were much more successful in the United States than they had been the year before. A few thousand were able to verify reception of European signals, although the number listening may well have been in the tens of thousands. European listeners, however, did not do as well, even though the American stations were sending with higher powers. Although twelve U.S. broadcasters had been heard during the 1923 tests, only four (KDKA, WGY, WBZ, and WOO - Philadelphia) made it this time.

Because of the increase in the number of persons listening, the interference from bloopers, especially in the cities, had been worse than ever.

The New York Times article, reviewing the achievements of the 2nd annual test, noted that many felt "superpowers" of 50 to 100 kilowatts would have to be used before "New York auditors can hear London as easily as Manhattan hears Chicago today." In plans for the next year's test, it was reported that instead of November the tests would be pushed back to January of 1926, in the hope that conditions would be better.

The Third International Test took place with much nationwide publicity and support. The National Radio Trade Association raised a fund of several thousand dollars, to aid publicity, and Powell Crosley, the famous radio manufacturer, was re-elected Chairman of the International Radio Week Committee. Radio Broadcast set up shortwave station 2GY in Garden City to aid their communications, and vowed to do their best to have a full listing of programs appear in the newspapers. This would make it easier for a listener to tell whether a program heard came from Europe. It was added that the schedules would include false entries, to "mislead the misleaders." Anyone claiming reception of an unbroadcast number would be given free membership in the "Ananias Club."

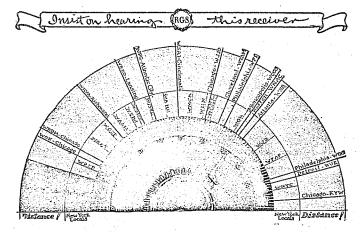

Although the tests had the vast approval of most broadcasters, there were some areas of discontent, especially in the far west. KFI, in Los Angeles, agreed, under strong public pressure, to respect the silent periods, but released a statement charging, "...the test week is designed primarily, we believe, to make the public dissatisfied with any set that does not receive European stations."

Hopes were high that reception would be much improved over that of the previous two years. During New Years some U.S. stations had been able to pick up and rebroadcast English programs, which was seen as a good omen. The chances of Europeans hearing U.S. programs was thought to be improved since many powers had been increased, including WGY and WJZ (now WABC) which had added part-time 50kw transmitters. More foreign stations had been added, as well as the countries of Austria, Czechoslovakia, Peru, and Argentina. And the broadcast band in the United States was now from 200 to 545 meters (1500 to 550 khz).

The set up for the week was slightly different from the previous year. International Radio Week ran from January 24 to January 30, but only the first five nights featured trans-Atlantic tests. On each of these nights selected U.S., Canadian, Mexican, and Cuban broadcasters sent out programs for an hour starting at 10:00 PM EST. Then the silent hour started on this side of the Atlantic, and the Europeans had an hour to tramsmit. Sunday, the first night, and Tuesday were reserved for British stations, while Monday and Wednesday Continental broadcasters transmitted. On Thursday, the last trans-Atlantic night, all the Europeans were allowed to broadcast. South American stations ran their special programs on all five nights.

For Friday a new feature was added. The 11:00 to 12:00 silent hour was divided into 15 minute segments. For the first fifteen minutes, stations in the Eastern Time zone broadcasted. Then, Central, Mountain, and Pacific time zone stations followed, each with their own fifteen minute segment. The week closed on Saturday with a similar arrangement, except this time the broadcasters were grouped by Canadian, Northern U.S., Southern U.S., Cuban and Mexican designations. This new feature was interesting, but the real enthusiasm of the average "radio fan" still was in catching European signals.

(To be concluded in next available space.)

NEW YORK IN

Where confusion reigns in the air and station overlaps station on the tuning dial of the ordinary radio receiver, the R.G.S. Receiver, in a recent two hour test, brought in sixteen local stations without "cross-talk." But that's only the beginning of the story. The R. G. S. Receiver during the short period of this test, pierced thru this heavy barrage of locals to fifteen distant stationsand still there was no trouble with "cross-talk." The actual results of this two hour test are recorded in the log above. We claim that this is meeting modern broadcast conditions—and meeting them CONCLUSIVELY.

> For a demonstration of this receiver, write today giving us your name and address and the name and address of your dealer.

Radio Annual 1938

«First patent on a wireless system was granted July 30, 1872, in the U. S. to Dr. Mahlon Loomis of Washington, D. C.

Marconi sent and received his first wireless signals across his father's estate in 1894.

First signal to be sent across the Atlantic was plucked by Marconi in Newfoundland on Dec. 12, 1901.

Broadcasting as it is known today "officially" started Nov. 2, 1920, when KDKA of Pittsburgh aired the Harding-Cox election returns. Station operated under an experimental radio-telephone license until Nov. 7, 1921, when its regular broadcasting license was issued.

First station to obtain a regular license for broadcasting was WBZ, Springfield, Mass, which was issued a license by the Department of Commerce on Sept. 15, 1921, while WWJ, Detroit, was licensed Oct. 13, 1921, although it opened experimentally on Aug. 20, 1920.

First radio station to broadcast a play by television was WGY, Schenectady, which transmitted "The Queen's Messenger," a one-act drama, on Sept. 11, 1928.

Warner Bros. was the first film studio to go on the air with a program—the cekly "Vitaphone Hour" over CBS in 1928.

A telephone tieup between WEAF, New York, and WNAC, Boston, on Jan. 4, 1923, as the first "chain" broadcast; first multiple station hookup took place in June of same year,

Dempsey-Carpentier fight was the first boxing match to be aired, with Major Andrew J. White as announcer, on July $2,\,1921,$

Opening of Congress was broadcast for the first time on Dec. 4, 1923.

First international program was rebroadcast by WJZ from Coventry via Houlton, Me. in 1924.

First coast-to-coast broadcast took place Jan. 1, 1927, when a Rose Bowl football game was aired.

First round-the-world broadcast sent from Schenectady on June 30, 1930.

President Roosevelt inaugurates "fireside chats" on March 12, 1933.

WLW in Cincinnati starts operating with 500,000 watts, first and only station with such power (experimental).

RCA starts television tests from Empire State Building, New York, on June 29, 1936.

7021 Sand Point Way NE, #215, Seattle, WA 98115 206-522-2521 Evenings

ATLANTIC DX ROUNDUP

CANARY ISLANDS, Las Palmas, EAK35. After the GPN analysis of my 836 tape (DXWW 11/29) plus his statement that this stn is still on this freq, I have no doubts the Canaries have become a bird-in-the-hand and cty #63. FL #2 rpts a shift of them to 827 & that was the only thing which made me doubtful about claiming them. I suspect I have been getting this stn for years w/o knowing who it was. When I stumbled onto Sp. Sahara-656 on 10/15/73, I rptd at the time that I could find no other TAs on the band except a carrier on 836. That carrier was prob EAK35 knocking at my door more than 2 years ago. The Canaries & Sp. Sahara are a quarter inch apart on my world globe, 100 miles or so, and reception of both places simultaneously is most reasonable. Haven't hrd So. Sahara since the fall of 73 but a carrier at 836 has been puzzling me for a long time. Meanwhile, I'm wondering if the TA carrier found here at times between 0500 & 0600 in Sept. & Oct couldn't be Kinshasa. (Martin,CO)

PAN AMERICAN DX ROUNDUP

UNID noted here w/strong het, little audio. Way u/to just u/ CBK/XEWA mess 11/28 0200. Only thing listed for 539 is Budapest w/300 kw. (Dale, MO) (Hungary not too likely due to crummy TA cx of recent weeks. Most likely a 5h0 LA slightly off freq. bp)
GRENADA, R. Grenada in w/fair signal, relaying the
W. Indies-Australia Test Matches (cricket) and ran until 072h 12/2 w/game from Brisbane. I believe: local 539 535 til 0724 12/2 w/game from Brisbane, I believe; local ID 0728 & s/off 0730. Gave dates for more test matches but not hrd clearly enuf to tell which dates. Sig ranged from poor to fairly good here. (Foxworth, NY) ST, KITTS, ZIZ was hrd w/DJ show, seemingly running AN 12/2, still going past 0730 w/lots of calypso & soul. 555

Did not hear them ment the test matches, but maybe they were on to provide coverage of them. Could not hear any stns other than 535, tho, that DID have test matches (w/possible exception of Trinidad-730 but could not tell thru jumble). ZIZ's signal was pretty good here, just as their normally AN OC is hrd well here often (Foxworth, NY)

TRINIDAD, Port-of-Spain, hrd again here briefly on 11/26 at 0000:50 w/brief ID, 8 pm TC & time pip about 50 610 sec late. Then into pgm about improving agricultural production sponsored by agr comm of T&T. Lasted briefly in continuing auroral cx, not hrd later tho. (Foxy)

660 UNID 12/1 0912 warbling effect audibly. Warbled in, hrd & taped ID which more than anything sounds like "CHER" but I have no listing. Antenna booster was not in use and by the time I had it reconnected, stn had gone. Wazzit KFAR? Calls not too similar but could be distorted by cx. (Dale, MO) (Not KFAR. Cx haven't been that good. Dunno who it could be. bp) 725

COSTA RICA, San José, TILX good w/nx 1132 12/1, then ID w/many coccoo's. Ranchera mx followed. Bothered by heavy QRN and/or KDWN slop. (Portzer,WA)

730 UNID, at least 2 stns here 1111-1159 12/1. Weak male talk noted amongst about 200 Hz of hets 1111 in what sounded like EE. Brief hymn 1130. Noted again 1145 w/SS male talk o/u Ranchera mx. CKDM s/on 1159 blew any hope for an ID. Ranchera mx was most likely XEX getting ready to s/on. Suspect the other was TGN. CKIG off most of the morning, a rare occurance.(Portzer) <u>MEXICO</u>, Mexicali, XESU 11/21 2030 finally IDed this 790

me u/KABC. Have often hrd an XE u/KABC & not been able to ID; finally hrd a def. XESU ID. (Lobel,CA)

NETH. ANTILLES, Bonaire, PJB noted AN 12/1 0358. PJB was first logging in o/3 years. CKLM obviously missing, as was the Mexican. Usual rlgs pgm, could find no SW //. Very strong o/noise & other 800 QRM. Strange, was the approach of the strong before 800 must be auroral cx. Never has been this strong before, even w/500 kw. (Dale, MO)

825 PANAMA, rptd location of R. Peninsula hrd o/u Titania HANGE, THE COCATION OF R. Pennisula and O/U II. Tanka until 0600 s/off 11/27 w/good sigs. About 70 Hz or 80 Hz away from Titania. WRTH lists on 830. (Poxworth, MY) MEXICO, Mexicali, XEWV 11/21 2120 w/strong sig u/mucho slop from XMCM-950. ID as R. Capital. (Lobel, CA) COLOMBIA, Magangue, HJHN 11/17 fair o/WEAV w/R. Hora 940

960 Sutatenza ID like HJCY-810 has, then SS mx show, frequent doorbells. male DJ 0900-0915. (Mount.NJ) MEXICO, Mexicali 11/21 21h0 w/good "R. Mundo" and "X-E-C-I, Mexicali" ID. (Lobel,CA)
MEXICO, Mexico, DF, XEOY 12/1 0307 taped but very weak.

1000 the usual screaming ancr/echo chamber junk prevalent on Mexicans. Very strange that it seemed to have a clear channel. In for abt $2\frac{1}{2}$ mins, then out till just a few secs before WCFL s/on which pegged & burned out my t/r audio meter. No KOMO, which I badly need to log WA.

audio meter. No KOMO, which I badly need to log wa. Surprised KMOX-1120 wasn't slopping over to here. How many stns does DF have anyway? (Dale, MO) (More than they need. Where do you live? The KMOX xr site? bp) COLOMBIA, Tbague, HJFT apparently the one here 0811 12/7 w/lively SS pop mx & Super Radio promo. Anmt mentioning Colombia 0814. Good signal on peaks but 1025

deep fading at times. (Portzer, WA)

MEXICO, Rosarito, XEPRS 11/24 0410 may have been on 1090

aux xr as I was able to mull them down to about S-6 & hear an unid domestic. At Ohlh I got them down to S-h but unid still not IDable. (Lobel, CA) (That's even better than my nulling KJR down to 40 db over S-9 and hearing XEGM. bp)

ST. KITTS, Basseterre, R. Paradise 11/29 0000 rlgs, poor, IDed from previous loggings. (Curtis,VT)
MEXICO, Mexicó, DF, XEVIP strong w/R. VIP ID & MoR mx w/EE anmts. Sounded like automated mx w/McMaster. 1265 1560

1248 12/1. (Portzer, WA)

PACIFIC DX ROUNDUP

UNID 12/1 0900 w/Rev. Ike-type preacher trying to sell planos. I assume he was doing the playing. In EE. 650

Maybe KORL. (Dale, MO)
JAPAN, Osaka, JOBB good 1224 12/1 w/usual JJ talk. 830 Only other TP's noted that AM were weak 655 & 1475 carriers. (Portzer, WA)

INTERNATIONAL DOMESTIC ROUNDUP

 $\underline{\text{MM}},$ Albuquerque, KABQ 11/24 0330 in SS w/m&f ancrs. Hrd ID in SS as K-A-B-Q. (Lobel,CA) $\underline{\text{CA}},$ Redlands, KCAL 11/21 1105 hrd ID in SS.(Lobel) 1350

1410

INTERNATIONAL QSL ROUNDUP

810 COLOMBIA, Bogota, HJCY sent folder type QSL w/one 33.00 stamp on it in 4 mos. for rpt of 2/10/75. Had sent f/up in July. Addr. is Senora Georgina Zauindio, Gerencia General, Accion Cultural Popular, Aereo 7170, Nal 3262, Bogotá. (Mount, NJ)

ST. KITTS, Basseterre, R. Paradise QSL in 18 days for letter & 1 IRC. QSL card for rpt dated 11/10 w/ R.L. Edmead, C.E. but no signature. (Another DXer told me 1265 it took him nearly 1 yr & 3 rpts!) (Curtis, VT)

CORRECTION DEPT.

Bob Foxworth advises that the correct date for separation of Gilbert & Ellice Islands into Gilbert Is. and Tuvalu is 1/1/76. This per HR Report, the amateur radio newsletter.

CONDITIONS

Leave a bit to be desired. Cx here in Seattle were fairly good 12/1 w/some TP's & LA's noted, but of course were nowhere near what they were in Sept. & Oct. Bob Foxworth reports: "Cx still poor for TA's, spotty for LAs and end of Nov-early Dec. giving day we had good daytime skip into E. Mass-NH. Lis were very good, esp Costa Rica that nite w/725 very good & 775 hrd thru WABC. Also had ZJB-885 briefly."

DXWW II No. 37, typed 29 November 1975. Phone: 517-638-4166; 2330 to 0300Z, Monday through Saturday; 1300 to 0300Z, Sunday.

I hereby appoint J. Charles Keleher, as a member of the Countries List Committee, effective immediately. All other persons who wish to be on the committee, should contact me at the above address.

COSLISCOM

CoeLisCom is the acronym by which Countries List Committee will be known officially and alternatively to the full name. A new country list for this season, is imminent; if you have any comments on the current list, or wish to be a member (or were a member), just write to me here.

DXWW II is now being typed fortnightly, due to lack of time (considerable overtime at work). Nevertheless, keep your material flowing in.

Especial thanks is due to Father Jack Pejza for sending along periodic copies of Medium Wave News, the newsletter of Medium Wave Circle of England. We again feature some material from MWN in this number of DXWW II.

Now, to news of the world of DX: (all times GMT=Z)

ANGOLA (SCDX) Emmisora Oficial de Angola is returning to nrmal ops with 1088 kHz, 0500-2400; 701 kHz,1700-2400; 1367 kHz, 0500-1700. (Richard Ginbey, Vanderbijlpark, Transvaal, R. of S. Africa)

BOLIVIA (SCDX) R. Mensaje, Casilla 1, Montero, Santa Gruz, Bolivia, starts ops on 730 kHz with 1 kW self-made transmitter. Programming; consisting of music, educational programmes, religious talks, et al; is directed especially to the campesino. Has a Japanese-language programme. Power will be increased to 5 kW, shortly. Padre Pacifico Feletti is Vice-Director. (Stefamo Pellegrinelli, Bologna, Italia)

GREAT BRITAIN (MWN) (following are excerpts from the MWN column Local Radio Forum:) Regular LBC and Capital new frequencies (1151 and 1546) began on March 3rd. The contract for IBA Reading was awarded to Radio Kennet, which has a strong University backing. Transmitter for MW is at Island Road, near Manor Farm. The board is headed by Sir John Colville, a prominent figure in banking, and he was private secretary to the late Sir Winston Churchill (Evening Post via Ron Gilbert). LBC is all news 0600—1930 and then continuous light and classical music. We hear that BBC Radio Bristol is to move from 1546, but no new channel is known. Both Radio Merseyside and Radio City are on beams that give a null to the north—noted in Crosby and Formby—this is to "protect" Manx Radio for political or tactical reasons. Roy Patrick says that new transmitter site at Burnaston (R. Derby) is complete and power supply has been connected. A new mast is to be built 100 yards from the old, temporary site. IBA has agreed to waive its rental fee of £168,000 from LBC for 9 months until September plus restructuring of programmes to reduce running costs, hopes to continue 24—hour schedule with music through the night.(last item from Mike London)

IBA stations due in 1975:			
Plymouth (Plymouth Sound)	1151 kHz	500 W	ND(Antenna
Nottingham (R. Trent)	998	250	DA
Teeside (Sound Bostg. Corp.	1169	1000	ND
Bradford (Bradford Communit)	
	1277	300	DA
Portsmouth (Victory R.)	1169	800	ND
Ipswich (R. Orwell)	1169	500	ND
Wolverhampton (Beacon Bc.)	989	300	ND
Belfast Community R. Serv.	1025	1000	DA
Reading (R. Kennet)	1430	700	ND

GUAM (SCDX) KATB, Agaña, 570 kHz, has been heard at 1720. Address is KATB, P.O. Box 65, Agaña, Guam 96910. (Seilchi Hasegawa, Inazawa, Japan)

TRELAND (SCDX) Radio Telefis Eireann is currently testing their new 500 kW, 566 kHz, Tullamore transmitter at a reduced power of 150 kW. This site, intended as a replacement for the Athlone transmitter, was chosen for good ground conductivity. Later this year, the station will use 500 kW and will be known as RTE R. Athlone. Reports to Reception Investigations, RTE, Domybrook, Dublin 4, Republic of Ireland (M.J. Collins, Middlesbrough, England).

MAURITIUS (SCDX) A new station is to be built here. In the meantime, the only current MW station is Mauritius Broadcasting Corporation, Forest Side, 10 kW, 683 kHz. (Raj Seeboo, Lalmatie, Mauritius)

PHILIPPINES As stated in a past number of DXWW II, The Far East Broadcast Company's all—classical music station, DZFE-1030, was closed down 1 October 1975, along with several other Greater Manila stations. DZFF is replaced by DWFE (FM) on 98.7 MHz. The non-political closings include DWIM-1500 and DWOK-830, both of the Philippine Broadcasting Service Network, Bureau of Broadcasts, Department of Public Information. DWIM is to be moved to Mindanao. In the meantime, the long-moribund DZCA (closed down c. 1957) of the Office of Civil Defense, reopens on 830 kHz. This is actually a power increase, callsign change, and format change, for DWOK, now 10 kW. (ed.)

REGULATIONS FOR APPLYING FOR BCB AWARDS (REVISED NOVEMBER, 1975)

The IRCA Achievement Awards Committee offers to all IRCA members the following series of awards:

Series I, States Award 20, 30, 40, and 50 (VAS) States Verified Series II, Provinces Award 6, 8, 10, and 12 (VAP) Provinces Verified

Series III, Countries Award 10, 15, 20, 25, 30 Countries Verified (increments of 5)

<u>Series IV, Total Stations Verified Award</u> 100, 200, 300, 400, 500, 550, 600, 650, 700, 750 Stations Verified (increments of 50)

Series V, Domestic Capital Cities 20, 25, 30, 35, 40, 45, 50, 55, 56, 57, 58, 59, 60, 61, and 62 Domestic Capital Cities Verified

<u>Series VI, Graveyard Channel Award</u> 25, 50, 75, 100 Stations Verified on all Graveyard Channels (increments of 25)

Special Award, Verified All Continents
(VAC) Antarctica not required for this award

The following set of regulations will apply to all members requesting an Achievement Award Certificate. They are simple and easy to follow; please $\ensuremath{\text{read}}$ them carefully.

- 1. You must be an IRCA member to qualify.
- 2. For each station used in the application for an award, the member must have in his possession, at the time of his application, either a verification of reception from the station concerned or a taped verification. A taped verification should include a definite ID (see below) and may be very short in duration. Some material recorded a few seconds before and after the ID gives the tape a desirable continuity.
 - A. A Canadian or U.S. station, to be tape veried, must have the station call letters PLUS either the location of the (All three are preferred. If a station promo contains the above elements, it may station AND/OR the frequency. be counted as a definite ID.
 - E. For foreign stations, a station slogan (or call) plus location and frequency is best. Minimal requirements would seem to indicate that the slogan plus the location are needed. Promos, or even spots (if they are clearly local) will help. In the case of stations (Latin American especially) on a network with no local station IDs, a network ID is the best that one can do. Make certain that your presumed station is indeed on the network heard and that there is no chance of mis-identification. In the case of a foreign language, ascertain that you heard and translated correctly.

AS A GENERAL RULE ASK "WOULD MY TAPED VERIE CONVINCE A VISITOR TO MY SHACK THAT I DID INDEED HEAR THE STATION CLAIMED?"

- 3. The Awards Committee reserves the right to require either the original or a photocopy of any verification, or a duplicate tape in the case of taped veries, and shall be the sole authority in awarding certificates. Decisions are final.
- 4. A fee will be levied to cover the cost of printing and postage. U.S. members should send the fee in U.S. mint (unused) stamps; Canadian members may do the same. Others may remit fee in any convenient form such as IRC's, etc.

FEE RATE 1 award sent by 3rd class, 30¢. 1 award sent by 1st class, 40¢. 2 or more awards sent 1st class, 30¢ each.

- 5. The term "broadcast band", for the purposes of these awards, and in accordance with IRCA Bylaws, is considered to be that range of frequencies extending from 510 kHz (kc/s) to 1630 kHz (kc/s) inclusive. All types of stations in this range may be counted. This includes commercial broadcasters, beacons, special low powered military stations, etc.
- 6. Countries and continents are based on the current edition of the IRCA Countries List. The District of Columbia will count as part of Maryland for the States Awards; the Yukon and Northwest Territories are considered as provinces for the Provinces Award. Capital Cities Award refers to capital cities of all continental U.S. states, the capital cities of Canadian provinces and territories, and the capital cities of Alaska and Hawaii. Persons verifying either capital cities of the Yukon or Northwest Territories will receive an Honorable Mention on their Domestic Capital Cities Verified Award.
- 7. Please submit your applications on standard sized paper (8 1/2 x 11") in either hand-written or typed form. Here are the formats to be used in applications:
 - A. When applying for States, Provinces, Countries, and Continents Awards:

Number	in alphabetical order	Call Letters	F'requency	Date Heard
	Name of State, etc.			
1	Alabama, Birmingham	WAPI	1070	March 3, 1971
e.g. 2	California, Riverside	KPRO	1440	April 1, 1961
3	Colorado, Denver	KOA	850	December 7, 1965

Applications for the <u>Capital Cities</u> Award should list the provinces alphabetically in one list and the states alphabetically in the other, as above.

B. When applying for the Total Stations Verified Award:

	Number	Frequency (in order)	Call Letters	Location of Station	Date Heard
	1	540	CBK	Regina, Saskatchewan	June 3, 1968
e.g.	2	590	WOW	Omaha, Nebraska	April 10, 1963
	3	834	R. Belize	Belize, Br. Hond.	December 3, 1965

Applications for the Graveyard Channel Award should list the stations on each frequency as a group. Any order desired

- 8. In both formats (A) and (B) above, please number each entry--this speeds checking. Taped veries may be listed with written ones. No special designation is required.
- 9. Initial applications for 300 or more Total Stations Verified MAY be listed in order of frequency (as in 7-B above), in order of call letters; state, provinces or country; or in order of cities. Additional applications for TV Awards should be in format 7-B.
- 10. For the purposes of the Graveyard Channel Award, the frequencies are 1230, 1240, 1340, 1400, 1450, and 1490 kHz. Any station at any location on any of these frequencies is acceptable.
- 11. Any particular station that you have heard and verified becomes a "new" station and may be counted again when verified if it has: A. Changed call letters; B. Changed frequency; or C. Changed location (one city to another).
- 12. The countries labelled "inactive" per the IRCA Countries List will be valid for pertinent awards if they have been verified before the "inactive" date.
- 13. Stations heard and verified must be neard within 25 miles of your permanent home. For fairness, stations neard while travelling cannot be counted. However, if you once resided, for example, in Utah, and then moved to Maine, you may count DX received from both points. Similarly, if you permanently reside for long periods of time at a school at another location, or are stationed at a military base, you are permitted to count the veries received from these points. When applying for an award which covers DX received from more than one point, please clearly mark this on your application, along with the particular circumstances of the case.
- 14. Please submit a <u>separate application</u> for <u>each award</u>, with your name and address on each sheet.

 15. KEEP A CARBON COPY OF EACH APPLICATION, as your original will not be returned. The system used is cumulative. For example, after applying for, and receiving, an award for "30 States Verified", you may, upon verifying another 10, apply for "40 States Verified" by merely listing the new 10 in the format mentioned in #7.
- 16. Should an application be rejected for any reason, the application and fee will be returned within 10 days for correction.

 17. Accepted applications become the property of the Achievement Awards Committee and may be used for any purpose.
- Send your completed application, with the required fee, to: IRCA Achievement Awards, Tom Butas, 5612 Alta Dena 18.

Drive Huntsville, Alahama 35802

PRECISION FREQUENCY ANALYSIS, by Ronald F. Schatz

Ident.	Mean(Hz)	Max	Min	Varienc	e Rds	Time pd.
Omega	625 043	-15	-14	12	5	4w
YSS	655 003	<u>+1</u>	-2	1	4	4w
TILX	724 867	+2	-3	2	4	4w
Belize	834 008	+2	-1	1	4	4w
YSCF	1155 231	+9	-9	5	4	4w
TIBB	1174 706	+17	-12	9	4	4w
Plata	1294 949	+2	0	늁	4	4w
TIEEAW	1524 509	+1	-1	활	4	4w

E.g: Average measurement of YSCF is 1155231 Hz; extreme measurements of +9 and -9 Hz of this figure were noted. Typical readings will vary 5 Hz of the mean given. 4 readings were taken over 4 weeks. (RFS)

Mr. D.V. Baker 4 Emlyn 18 Noble Road DURBAN

Dear Mr. Baker

We acknowledge receipt of your letter which refers to a new SABC mediumwave service.

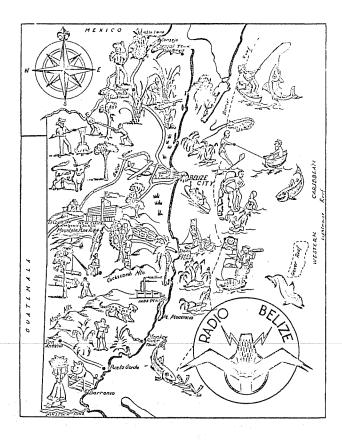

May we assure you that the SABC has at no stage envisaged replacing LM Radio with a service "HAPPY DAYS RADIO".

We wish to thank you most sincerely for the interest you have shown and assure you of our co-operation and goodwill at all times.

Yours faithfully

Christmas special! Mint condition, realistic patrolman - 3. Covers BCB, VHF-Hi and UHF bands. Has squelch, telescoping antenna, and seperate tuning dials. Comes complete with the batteries, earphone, and owners manual in original carton. Will also operate on optional AC adapter. Works great on BCB, and also very sensitive on the VHF-Hi and UHF bands! Will pay postage and ship same day I receive your order. A great buy at only \$40.00, postpaid. BILL MEREDITH, ROUTE 1, KENSINGTON, GA 30727.

100 different surveys from 100 stations. \$5, postpaid. 30 different radio station envelopes \$1.75, postpaid. 1969, 1970 & 1971 Popular Electronics Communications handbook, \$2 each, postpaid. GARY NUTHALS, 1155 MATHER STREET, GREEN BAY WI 54303

A freind of mine has an HQ-180 for sale. He is asking \$225, plus shipping costs. Please contact me and I'll direct you

CLARENCE FREEMAN, 505 SUMMIT COURT, YREKA CA 96097
