Quality Equipment From Universal Radio

PASSPORT TO WORLD BAND RADIO 2008 Edition

UNIVERSAL RADIO CATALOG

Our new huge 124 page catalog is now available. Please stop in, email or call for your FREE copy.

[07-09]

The etón E1 XM is the world's first radio that combines AM, FM, shortwave and XM Satellite radio into one ultra high-performance unit. The E1 is an elegant confluence of performance, features and capabilities. The look, feel and finish of this radio is superb. The digitally synthesized, dual conversion shortwave tuner covers all shortwave frequencies. Adjacent frequency interference can be minimized or eliminated with a choice of three bandwidths [7.0, 4.0, 2.5 kHz]. The sideband selectable Synchronous AM Detector further minimizes adjacent frequency interference and reduces fading distortion of AM signals. IF Passband Tuning is yet another advanced feature that functions in AM and SSB modes to reject interference. AGC is selectable at fast or slow. High dynamic range permits the detection of weak signals in the presence of strong signals. All this coupled with great sensitivity will bring in stations from every part of the globe. Organizing your stations is facilitated by 500 user programmable presets with atpha labeling, plus 1200 user definable country memories, for a total of 1700 presets. You can tune this radio many ways such as: direct shortwave band entry, direct frequency entry, up-down tuning and scanning. Plus you can tune the bands with the good old fashioned tuning knob (that has new fashioned variablerate tuning). There is also a dual-event programmable timer. Whether you are listening to AM, shortwave, FM or XM, you will experience superior audio quality via a bridged type audio amplifier, large built in speaker and continuous bass and treble tone controls. Stereo line-level output is provided for recording or routing the audio into another device such as a home stereo. The absolutely stunning LCD has 4 levels of backlighting and instantly shows you the status of your radio.

The E1 XM comes with an AC adapter or may be operated from four D cells (not included), 13.1"W x 7.1"H x 2.3"D Weight: 4 lbs. 3 oz.

E1 XM

Order #0101 \$499.95

> > New E1 version!
We are now also pleased to offer the basic E1
without XM upgradeability at \$100.00 less.

E1 Order #0301

CNP2000

The Eton E1 XM is XM ready, so you may purchase the Audiovox CNP2000DUO XM antenna module at any time. It has a 25 foot cable. (An optional XM-EXT50 501oot extension cable is also available #4905*39.95.) CNP2000DUO Order #0072 *58.95

Note: The CNP2000 DUO antenna module and XM subscription are sold separately. Activation and monthly subscription fee required for XM.

The Grundig YB-300PE Professional Edition is yet another model in the proud Yacht Boy series and offers impressive features and performance Coverage includes: AM and FM plus shortwave from 2.3-7.8 and 9.1-26.1 MHz. Shortwave tuning is in 5 kHz steps (AM is 9 or 10 kHz). FM stereo is provided to the earphone jack. Twenty-four memories store your favorite stations. Direct keypad entry, Band button, scanning plus Up and Down tuning provides rapid access to any frequency. The YB-300 PE features a large LCD display with display lamp for momentary illumination. A built in 24 hour clock keeps you on U.T.C. Time. An adjustable 10 to 90 minute sleep timer turns the radio off even if your fall asleep. Other refinements include: DX-Local Switch, Scan and Lock. The back of the radio even has a flip-out tilt stand. The left side of the radio features the DC input jack, the external antenna input jack and earphone output jack. Includes an AC adapter, vinyl carrying case, carrying strap, plug in external wire antenna, Owner's Manual and stereo earphones. Operates from three AA cells. Titanium colored 5.9 x 3.5 x 1.25 in. 13 oz. Criginally introduced at \$99.00. YR-300PF Order #0300 149 95

N4 Notes

Richard A. D'Angelo • 2216 Burkey Drive • Wyomissing, PA 19610 • rdangelo3@aol.com

It is with great sorrow that we report in this month's column the news of the death of long time NASWA member John Sqrulletta. Like everyone else, I was shocked and saddened to read the news about John's sudden passing. A long time club member and a recent addition to the club's Country List Committee, John was well known as a superb shortwave listener/ pxer and a reliable reporter of DX news and information. He was a true expert on all matters pertaining to radio and a great friend to many. An avid osLer, he often opened up

John Sgruletta, 1947-2008

John L. Sqrulletta of Mahopac passed away on February 12, 2008, he was 60. Mr. Sgrulletta was a Staff Product Engineer in Product Support for thirty-five years at Siemens Health Care Diagnostics in Tarrytown, NY (formerly Bayer Health Care). He was born on July 18, 1947 in Mount Kisco, NY to Angelo and Ruth Rowley Sgrulletta. John served in the US Army during the late 1960's. He earned a Masters Degree in Business Management from Mercy College in Dobbs Ferry. On May 14, 1977 he married Yolanda Murro at St. Columbanus Church. John was an avid short wave radio enthusiast and a parishioner of St. John the Evangelist Church in Mahopac. He is survived by his wife Yolanda Murro and a son John L. Sgrulletta, Jr. of Mahopac. Also survived by several nieces, nephews, great nieces and great nephews. Predeceased by his sister Linda Gorgorian, on October 3, 2007. Visitation is Thursday 2-4 and 7-9 pm at the Joseph F. Nardone Funeral Home, Peekskill, NY. The Funeral Mass is Friday, 11 am at St. John the Evangelist Church in Mahopac. Interment to follow at Oakwood Cemetery in Mt. Kisco, Joseph F. Nardone Funeral Home, 414 Washington Street, Peekskill, NY 10566.

[Obituary from the Journal News of New York's Lower Hudson Valley. Photograph of John taken at the 2003 Winter SWL Festival by Dan Henderson.]

verification targets for the rest of us. His expertise and dedication to our hobby was unmatched. He was always there to respond to questions and share his expertise with other shortwave listeners. Truly an outstanding gentleman, I always enjoyed our conversations pertaining to radio and other matters when I saw him each year at the Winter SWL Festival. John was a giant in our hobby. He will be missed by all of us in the listening hobby. On behalf of the club, its entire membership and the Executive Council we offer our condolences to his family during this difficult time, R.I.P. John...

Our Motto: Unity & Friendship

The Winter SWL Festival is the big event for this month. If you have not registered, you can still do so in person at Fest Central. The Winter SWL Festival is where many club members gather annually for a lot of fun and excitement related to our great hobby of shortwave radio listening. If your schedule permits, you should attend. It is well worth it to meet so many like-minded radio people under the same roof. Our hosts, the Festmeister's. Rich Cuff and John Figliozzi have developed another outstanding program that should hold everyone's attention and provide amble opportunities to socialize and make new friends. Check out the Calendar of Events and Easy Listening for the latest details. Last month's Journal featured a copy of the registration form, which you can also download from swlfest.com, I look forward to seeing many of our members at Kulpsville once again. Stop by the club table where Ed Mauger and Bill Oliver hold down the fort for a visit. I can usually be found close by.

David Ricquish, a Radio New Zealand International (RNZI) Mailbox contributor and -Chairman of the Radio Heritage Foundation, is making a special request of Radio New Zealand shortwave memorabilia. He has been asked by RNZI to produce a special documentary celebrating 60 years of shortwave broadcasting from New Zealand since September 1948. He is looking for any old audio recordings of RNZI shortwave broadcasts, any old program guides or frequency schedules, old QSL cards, old newspaper or magazine clippings, any interesting stories about the station, personalities, or photos. Please write and tell him what you have. as it may help with the research involved over the coming months. If it's audio, please advise the format [tape, cassette, CD or whatever] and if they're photos, please send a short list. David is especially interested in material from outside New Zealand, and reception by listeners over the years in Europe, North and South America, Asia, Africa and the Middle East, Please contact David at P. O. Box 14339, Wellington 6241, New Zealand or e-mail at info@radioheritage.net.

Sean Gilbert of the World Radio Television Handbook (WRTH) Editorial Team announced that a file containing updates to the winter

schedules of international broadcasters is now available to download from the WRTH website at: http://www.wrth.com. The file is in pdf format and runs to 9 pages with a file size of 81kB. You will need the free Adobe Acrobat reader (version 5 or above) in order to view the file. Thanks Sean and the WRTH Editorial Team for this useful update. Jerry Berg noted that after a seven-month hiatus, WRTH has resumed posting "National Radio" updates on the "WRTH Monitor" section of its website http://www.wrth.com/updates_national.html. Thanks JB for passing along that information.

Radio Heritage Foundation (www.radioheritage.net) is featuring "California Radio Dial 1928" on its website which is essentially a snap shot of the state's radio dial that month, not only listing many long gone radio calls, but adding some colorful art work from the stations themselves. Hard to believe but not one single station broadcast north of San Francisco, and nearly one half of all the stations that were on air served the Los Angeles radio market. The two most powerful signals in the entire state were KFI Los Angeles even then at 640 AM on the dial, and KGO San Francisco at 780 AM on the dial. The 'California Radio Dial 1928' is part of an ongoing series relating radio broadcasting to the culture of the times. For an entertaining and nostalgic look back at a California fast disappearing into history, this fun article is worth the time. It's with hundreds of others at www.radioheritage.net. While not shortwave, it is an important piece of radio history that the Radio Heritage Foundation does a good job of preserving. For those unfamiliar with the group's work, the Radio Heritage Foundation is a registered non-profit organization operated entirely by volunteers. It carries out research and publishing into connected aspects of radio heritage and popular culture across the entire Pacific region. Contact details are at www.radioheritage.net. The media contact is David Ricquish, Chairman. He can be reached at info@radioheritage.net.

NASWA is helping with the 2008 celebration of the tenth anniversary of the Euro-African Medium Wave Guide (EMWG). Herman Boel and the EMWG <www.emwg.info> will hold a special quiz contest in collaboration with

the Medium Wave Circle. The guiz will be held in the coming months and will target to reach a worldwide audience. It will be radio related, of course, but not aiming solely at the medium wave enthusiast. Every Dxer and radio enthusiast, regardless of location or membership, will be able to participate. The quiz will get a lot of attention including its own web site. NASWA will be donating prizes for the event and we hope many of our members will participate. Here is the latest news direct from Herman Boel: "In the coming months the EMWG will celebrate its 10th anniversary. On this occasion a quiz contest will be held, open to everybody, regardless of location or club membership. The quiz, 21 questions, will deal with many radio aspects, and will not solely cover medium wave. The contest dates have been set to 01 March 2008 through 30 April 2008. A special web site has been set up for the contest: www.emwg-contest. org. Please feel free to have a look. So as of 01 March you will be able to see/download the guiz from the web site. Until then you can see what prizes have been added for the participants. There you will find the information on schedule, prizes (for now), sponsors, etc. As participating is (really) more important than winning, some prizes are given randomly to entrants. Finally, I would already like to thank the following sponsors: Medium Wave Circle, Danish Shortwave Club International, RadioVisie, and NASWA." This contest looks like an interesting opportunity for a little radio fun that I am sure members will appreciate.

Robert Kipp informs us that Radio St. Helena has changed its QSL address. The P.O. Box number will change from 24 back to 93 for all reception reports and letters in future to Radio St. Helena. Any mail sent to Post Office Box 24 will still be received at RSH, but RSH would like to change back to using only one Post Box for any future correspondence. "Many thanks and with best greetings to all SWLs everywhere," Miss Laura Lawrence, Station Manager of Radio St. Helena. Also, Radio St. Helena is offering 40th anniversary souvenirs that are available direct from the station for those interested in these items. See the announcement elsewhere in the Journal.

The newly formed Reading Area Dxers has another meeting scheduled just before the Winter SWL Festival. The usual agenda consists of informal discussions, passing around some old radio related magazines, and some food and drink. Nothing fancy but a lot of fun. The group's next meeting is scheduled for February 29, 2008 at The Flying Dog in majestic Earlville, PA so if you would be interested in attending please contact me so I can get you on the Reading Area DXer distribution list. That way any changes in time, date, venue, etc can be rapidly transmitted to all concerned. Meeting with fellow hobbyists is a great way to add enjoyment to our fine hobby.

Speaking of local group meetings, Dan Cashin is looking into pumping some life back into our Philadelphia Chapter. It is time to re-energize the Philadelphia area meetings. Dan would love to hear from members interested in getting another round of meeting off the ground. Remember, everything is fair game from location, to starting time, to format, etc. If you have an interest, please contact Dan Cashin ((Dcsckp@aol.com or 610-446-7831). Let's see if we can get the Philly area back up and running in 2008. Please contact Dan with your thoughts, comments, suggestions and ideas.

In another sad tale about our favorite medium, shortwave radio, Wolfgang Bueschel informed us just before the column closed that Radio Sweden's German service on the medium wave frequency of 1179 kHz, shortwave on 6065 kHz and local Stockholm FM ends after 69 years in service on March 29, 2008. The report originates with Radio Sweden's German language website http://www.sr.se/rs/red/ind_tys.html>.

Here is the latest information we have on the European DX Council (EDXC) meeting scheduled for Vaasa, Finland from 5-7 September 2008. The 2008 EDXC Conference will be conducted primarily in the English language, with a few events in Finnish for the local attendees. The exact conference location is expected to be the Best Western Silveria hotel about two kilometers from the city center. The Silveria has good conference facilities, but a limited number of rooms, so

there are also other hotels in the Vaasa area where attendees may also stay. The organizers are preparing a conference package that is expected to cost around 200 euros per person which will include two nights of accommodation (double occupancy), conference fees, city tour and the traditional banquet. Fees may be paid by credit card. The conference will run from Friday evening, Sept. 5, until around noon on Sunday, Sept. 7. The city tour will be on Saturday, Sept. 6, and will include lunch and a visit to the new UNESCO world heritage area located between Finland and Sweden. A welcome reception will take place on Friday evening. Among the activities during the conference will be seminars on the latest developments in software-defined radios, a tribute to the Finnish DX Association's 50 years, presentations by shortwave stations, quizzes, an EDXC business meeting and more. There will be exhibitions of shortwave receivers. stations, QSL cards, photos, stamps, etc., plus a shortwave listening room and PCs with Internet connections. The annual EDXC banquet will include awards, a raffle of shortwave-related items and an auction. A local shortwave station—Scandinavian Weekend Radio—will take part in the conference. The station broadcasts once per month for 24 hours. The EDXC organizers are arranging an optional tour after the conference. Four options are being considered for the tour; only one will be chosen. More information on the 2008 EDXC Conference, as it becomes available, will be found at the website www.netikka.net/edxc2008 or you can contact Risto Vahakainu by e-mail at risto.vahakainu@helsinki.fi.

We are in the midst of the DX season and it appears the sunspot count will be moving upward. Are you getting the latest hot information about what is happening on the shortwave bands? Having the club's electronic Flashsheet, now over 300+ issues

old, in your hands each week you will be up to date with news and information about the DX scene as the season progresses. If you have not signed up for the club's electronic Flashsheet service, you are missing out on timely news and information that will enhance your shortwave listening pleasure. It is now time for you to get on the distribution list for the club's electronic Flashsheet to stay up-to-date. The changing DX conditions will bring different DX opportunities and new listening targets. The club's electronic Flashsheet helps members stay on top of the action with breaking shortwave news and information. If you are a current member of the club and want to receive the electronic Flashsheet just drop Rich D'Angelo (rdangelo3@aol.com) a note with your e-mail address, location and membership expiration date from your mailing label. You can participate by sending your latest logs to the electronic Flashsheet edited by Mark Taylor, markokpik@tds.net. Each week the electronic Flashsheet brings a lot of exciting, late breaking DX news and information to our members. The electronic newsletter is an excellent supplement to the monthly Journal for the timely dissemination of DX loggings and breaking news. This is a service that is only available to our members. Deadlines are posted in the NASWA Flashsheet each week.

Please remember to direct all communications about subscriptions, bulletin delivery issues, spring cleaning suggestions, the use of PayPal as a payment method, etc. to Bill Oliver at the club's Levittown address or to his electronic address, weoliver@comcast. net. The regular postal address is the familiar 45 Wildflower Road, Levittown, PA 19057. Inquires sent to Wyomissing only slow down the process. Thanks!

That's it for this month. Enjoy this month's edition of the *Journal*; it's another good one.

Visit the NASWA Loggings Database at www.naswa.net/logs/. It contains loggings from November 1998 to the present.

The Loggings Columns depend on your contributions. Send them in.

Calendar Of Events

- Feb 29 Meeting. The Reading Area DXers will hold another meeting at The Fly Dog in majestic Earlville, PA (Route 562 and Airport Road). Members gather around 5:30 PM near the bar area before heading into the restaurant for dinner and further discussions. Contact Rich D'Angelo (2216 Burkey Drive, Wyomissing, PA 19610; 610-678-0937; rdangelo3@aol.com) for further information about future meetings.
- Mar 7–8, 2008 Convention. The 21st Annual Winter swl Festival, sponsored by NASWA, will be held at the Best Western—The Inn at Towamencin on 7th and 8th March 2008. Richard Cuff and John Figliozzi co-chair the organizational committee. Although it is early, you don't want to miss this special FEST event. See you there!
- Mar 14 Meeting. Philadelphia Area NASWA Chapter. Kulpsville Holiday Inn, Kulpsville, PA at 7:30 PM. For more information contact Dan Cashin at 610-446-7831 or Internet: dcsckp@aol.com. Dan is looking to re-organize these gatherings so please contact him to re-establish these meetings.
- Mar 14 Meeting. Boston Area NASWA Chapter. The Boston Area DXers have found a new location for meetings. Inquiries about the BADXers may be sent to Paul Graveline at 978-470-1971 or Internet: ctreditor@aol.com. The URL for the BADX guys is http://www.naswa.net/badx/
- Mar 17 Meeting. Tar Heel Scanner/Shortwave Listening Group. Red, Hot and Blue restaurant, 6615 Falls of the Neuse Rd., Raleigh, Nc. Dinner @ 6:30PM, meeting @ 7:30PM. Meetings the 3rd Monday of each month. Info, Curt Phillips, 919-773-4522, <mailto:curt@nerdster.net>curt@nerdster.net.
- Mar/Apr Contest. The Euro-African Medium Wave Guide (EMWG) will celebrate its 10th anniversary. On this occasion a quiz contest will be held, open to everybody, regardless of location or club membership. The quiz, 21 questions, will deal with many radio aspects, and will not solely cover medium wave. The contest dates have been set to 01 March 2008 through 30 April 2008. A special web site has been set up for the contest: www.emwg-contest.org.
- Apr 12 Meeting. The Cincinnati/Dayton Monitoring Exchange (MONIX) meets at the Lebanon Citizens' National Bank (LCNB), 425 West Central Avenue (Ohio 73), Springboro, Ohio at 7:00 PM. For more information contact Mark Meece at 937-743-8089 or e-mail at antennapig@siscom.net. For additional information about MONIX, check out their web site at http://www.siscom.net/~mmeece/monix.html
- Aug 16, 2008 Convention. 2008 Madison-Milwaukee Radio Get-together. The 15th Annual Madison-Milwaukee Get-together for DXers and Radio Enthusiasts will take place on Saturday, August 16, starting at 1 PM CDT. This year's venue is Milwaukee WI, and Tim Noonan will be hosting. Further information will be released as it becomes available.
- Sep 5-7, 2008 Convention. The 2008 European DX Council Conference is scheduled for Vaasa, Finland on 5-7 September 2008. Former EDXC Secretary General Risto Vahakainu of the Finnish DX Association is coordinating the event. Their website is under construction at http://www.netikka.net/edxc2008/. Further information will be made available at a later date.
- Sep 12–14, 2008 Convention. The 2008 IRCA Convention will be held at the Days Inn in Flagstaff, Arizona on Route 66 from 12 to 14 September 2008. Room rates are \$65.00. There will be station tours, an auction and a banquet. Further information will be released as it becomes available.

- Sep 26–28, 2008 Conference. The Pacific Radio Conference to be held in Wellington, New Zealand on 26-28 September 2008. You'll find more information about the conference at www.radioheritage.net. Please email info@radioheritage.net or write to the Radio Heritage Foundation, P. O. Box 14339, Wellington 6241, New Zealand.
- Oct 3-5, 2008 Convention. The New Zealand Radio DX League will hold its 60th Anniversary celebration from 3 to 5 October 2008 in Oamaru, New Zealand. The program will consist of the 2008 Annual General Meeting, a celebratory luncheon and opportunities for DXing. More details to follow.
- Mar 13–14, 2009 Convention. The 22nd Annual Winter swL Festival, sponsored by NASWA, will be held at the Best Western—The Inn at Towamencin on 13th and 14th March 2009. Richard Cuff and John Figliozzi co-chair the organizational committee. Although it is early, you don't want to miss this special Fest event. See you there!

Members are invited to submit items to be included in this calendar to Rich D'Angelo (Internet: rdangelo3@aol.com) or Ralph Brandi (Internet: ralph@brandi.org).

FRENDX: Twenty-Five Years Ago (March 1983)

In the Roll Call column, Bill Oliver welcomed 116 new and rejoining members including Mark Connelly, Dave Hammer, Ron Hopkins, Ken MacHarq, Mark Mohrmann, Jim Renfrew, and Joe Talbot. In the Shortwave Center, John Herkimer interviewed Dan "whatever needs to be done" Ferguson, Part 4 of Don Jensen's "On to the Top" focused on identifying rare stations, while John Moritz covered "On Helping Out" in the It Sounds to Me feature. In Technical Topics, Ed Shaw discussed the variable capacitor, measuring AC current with an AC volt-ohm-meter and interference from television receivers. In Vintage Vignettes, Bill Taylor wrote about understanding power supplies. Sam Barto noted that 106 countries were reported to the QSL Report column and that the economy may be picking up based on QSL activity. Over 150 members contributed to Editor Jerry Lineback's Scoreboard column with 27 reporting 200 or more countries heard and 10 reporting 200 or more countries verified. Stu Klein noted in Log Report Section A that he completed his first year as editor. Jerry Berg's Log Report Section B featured Radio Arequipa from Peru on 5,949 and La Voz de la Selva in Colombia reappearing on 6,170. In "Log Reporter" column, Nick Pappas noted that 69 members contributed including Brian Alexander, Charles Bolland, Paul Buer, Richard D'Angelo, Marlin Field, John Fisher (MA), Bob Fraser, Ron Howard, Hans Johnson, Kraig Krist, Chris Lobdell, Fritz Mellberg, Kevin Mikell, Don Moman, Sheryl Paszkiewicz, Nolan Stephany, Dave Valko, Robert Wilkner, and Richard E. Wood.

Contribute!

Send your loggings and QSL information off to our Distributing Editor, Bob Montgomery (Address: 4621 C Street, Philadelphia, PA 19120). Note: this is a new postal address as of July, 2007! He will forward them to the appropriate editor. Remember, Bob also distributes QSL report information and totals for the Scoreboard column. He can also be reached through the Internet at: rmonty23@verizon.net.

Musings

George Maroti < curious.george@att.net>, Mt. Kisco, NY

It is with great sadness and sorrow that I report the passing of my good friend John Sqrulletta on Tuesday evening, 2/12/08.

John was well known in DX circles, as from 1958 he pursued almost everything that wafted through the ether. Longwave, mediumwave, shortwave, FM, and TV were among his DX pursuits, and he was an avid QSL collector. I was always amazed at his focus and persistence when it came to verifying a new country. He taught me a lot about follow-ups, although I never went to the extremes John would go as he'd even call the radio station, never mind that it might have been in Papua New Guinea!

I still remember the first time that I spoke to John on the phone. I had written him a letter, hoping that he would contact me and give me some advice regarding our DXing hobby. Unexpectedly, the call came at work, and when I heard "this is John Sgrulletta" I was just so happy and full of excitement! It was a rather bold move by John, as he had no way of knowing who I was, or whether I was a "wacko" (and there are quite a lot of those in our hobby).

We all know that DXing is a solitary type hobby, which we enjoy and spends hours at in the darkness by the glow of our radios. However, becoming good friends with John really added so much more enjoyment of our hobby for both of us.

Over the years, we talked about more than just radio, and I got to know John as more than just a top-notch DXer. He was a wonderful, devoted family man, deeply religious, and very considerate of others and their feelings.

I really enjoyed our annual trips to the SWL Fest in Pennsylvania. The 3 hour car ride would seem like only a matter of minutes as we always had so much to talk about. John and I were both creatures of habit, and we both took great comfort in our annual routine.

I'm really going to miss him, and will always think of him every time I tune my radio. Hearing a new station or country will never be the same for me, as I won't have John anymore to share that excitement with.

Please have John, Yolanda, and Johnny in your thoughts and prayers. http://www.nyjnews.com/obits/0bit1.php?pid=2452479.

George

David Palitsch <dpalitsc@nycap.rr.com>, New York Dear John.

I am now so very sorry that I did not do a better job of keeping in touch with you. As you know, I attended your funeral yesterday. My tears were real my friend. I will miss you very much. I wished I could have consoled Yolanda ... I only hope that my being there helped your family in some small way.

I never told you how I admired the way you conducted your life. Not just the SWL part, that's a given. Your demeanor was always so mature, even-tempered, genuine and honest. But what stands out the most, was and will forever be, is your humility. I know that whenever I think about you and pattern by actions after you, I will be a better man.

That my friend, is the greatest gift of all. Thank you for being in my life. You were a gift from God and one I will cherish always.

In your honor, I promise to be a better friend to George. He, like you, is one of the finest men I have ever met. I just wish I could have given you more.

So for now, rest in peace John. If anyone deserves to be in Heaven, it's you.

Your friend, Dave

P.S. Please accept this as, well a QSL verification that you truly made a difference in the world.

Pedro M. C. de Castro <pedroc@cra.inpe.br>, São Paulo, Brazil I will let you know how my Friday started and finished.

I work in a large room, together with four persons. One of them is a young woman named Claudia. She was very happy that morning, because she would travel to São Paulo after lunch and take a plane in the night to Recife, Pernambuco, on vacation. I told her: "If you find those tourist folders and pamphlets which normally exist in airports, hotels and travel agencies please bring some of them to me. I will send them to an old friend in the United States".

The next minute I switched on my computer and read your message about John. I got paralyzed; couldn't believe my eyes. All I could do was read it again, again and again, until I realized that I was not crazy nor having a nightmare. Believe me, it was very, but very difficult to tell Claudia that the tourist folders no longer would be necessary.

I will be on vacation for 20 days starting in March 24, so I considered the possibility of a brief stay in New York and a visit to John's tomb in Mount Kisco, in order to thank him for our long friendship and to take him some flowers.

After a sad day, I arrived home around 6 PM and looked for my passport. I checked my U.S. visa and noticed that it expired on 12 Feb 2008; precisely the day John passed away. I felt like he was in front of me saying goodbye.

It's necessary to point out here that I studied and lived in a college built by John's father, located at foot distance from his job. So many coincidences for just one person, living so far away from me. And we are not taking about Monaco or San Marino, but about the United States.

Below is the English version I posted in DXCB's (DX Club do Brasil - RAD) list, in order to inform about John's decease. Probably it will not transmit the same feeling as in Portuguese. Please feel free to update grammar errors.

"Dear friends:

With the deepest sorrow I inform that John Sgrulletta, our friend and a DXCB's friend, has passed away.

I said "our friend" because even those who never met him would become friends as soon as they get introduced.

John was a very special type of human being and I always asked myself how he could conciliate his job and family with so vivid activity in the world of radio, besides arranging time to devote lots of attention to his friends, and I was one of them.

I wish to express my solidarity to his family and our friends at NASWA and Cumbre DX for this privation that cannot be replaced.

Our gratitude to John for doing his part to turn this world into a more human world".

I will inform the link of John's obituary in our mailing list (I wrote some words on Friday).

Enough of sorrow today.

Best wishes for both of you (Pedro's note was sent to George Maroti and Rich D'Angelo for inclusion in The Journal).

Pedro

Jerry Berg <jsberg@rcn.com>, Lexington, MA

I am shocked by this unexpected news. I met John Sgrulletta for the first time a couple of years ago at the Fest and really enjoyed his company. He went back a long way in the hobby, and he was my kind of guy. He joined the NASWA Country List Committee just a few months ago.

Tnx for letting us know, George.

JB

Bruce Churchill <b.churchill@delcan.com>, La Mirada, CA

Truly a surprising and sad loss for our hobby—John will be missed by those of us who knew him for the many years he excelled in this pastime. It reminds us that although we are in some ways a solitary hobby, we are connected in many ways to others pursuing the same thrills, disappointments, triumphs and fellowship. Without those we bond with in this hobby, our enjoyment of "chasing the ether" would be empty indeed.

Bruce W. Churchill

Horacio Nigro <hanigrodx@yahoo.es>, Montevideo, Uruguay My good... I'm shocked...

Have just sent a protest message to Nora San Martin de Porro the owner of "Banda Oriental". They never wanted to QSL John Sgrulletta's first US reception of that Uruguayan SW station. I helped him with no luck, several times... It's too late Mrs. Nora.

Horacio

Dan Henderson dandan22@verizon.net , 7921 Anfred Drive, Laurel, MD 20723-1136 This is truly a great loss for the hobby. John Sgrulletta was helpful to all who asked, and he surely gave me many tips over the years. I agree with George-the issue of follow-ups were made much easier by John. I would suggest you all leave some words at the URL that George included in the email.

While I'm not going to be able to go to the fest this year, it was always a pleasure to see John there. He will truly be missed.

Dan

John Herkimer <jherk@netacc.net>, Caledonia, NY

This is such sad news. I can't think of anyone with a deeper love of radio than John Sgrulletta. He really was a "good guy" that would do anything for you. Rest in peace, friend.

Herk

Bob Wilkner <rlcw@earthlink.net>, Florida

A good person who will be in our thoughts and prayers. We are connected through our hobby and good lasting friendships. Condolences to his family.

Bob

Don Jensen <dnjkenosha@wi.rr.com>, Kenosha, WI

John's death comes as a huge shock! I had not known him, except by his excellent reputation as a DXer, until only a matter of weeks ago, just over two months, now. Then I invited him to join the NASWA Country List Committee. Since then, I had the occasion to exchange numerous emails with him about CLC matters. Not only was he an excellent DXer, I found him to be intelligent, thoughtful, analytical, a man of reason and common sense. On a personal level, I found him to be a good soul! I felt that with more contact he would have been a genuine friend, as well as a valued colleague. Another star the DX night has flickered and gone out. But we will remember his light!

--don.

Mike Wolfson < mwolfson@comcast.net >, Oregon

Oh wow...that is bad news. I had met John at a couple of get togethers and enjoyed talking with him. Condolences to his family.....

Mike

G. Victor A. Goonetilleke <victorg@slt.lk>, Piliyandala. Sri Lanka

As the messages crisscrossed I was asleep and when I opened my mail this morning I knew things were going to be sad. I can only agree with all those nice sentiments expressed. I had the great fortune of meeting him and George at the SWL Fest and I am so happy that I got to know him and exchanged many e-mails. Even before I read the other mails I went to the obituary page and signed the guestbook.

Goodbye to a wonderful person who made that much of a difference to our hobby by being there for us. May his soul rest in peace.

Victor

Scott R. Barbour Jr. <srbjrswl@yahoo.com>, Intervale, NH

This is sad news, RIP John.

Scott

Bob Hill <hill.writer@verizon.net>, MA

Very sorry to learn of John's death. Although I never met him, I was always impressed by his outstanding DX reports and his enthusiasm for the chase. Our hobby is much the poorer for his passing.

Bob

Larry Yamron <lyamron@us.ibm.com>, Pittsburgh, PA

Although I never met John in person I had traded e-mails with him from time to time and I could tell you that not only was he a top notch DXer but he was a gentlemen as well. John was one of the good-guys in this hobby and will be greatly missed.

Larry

John M. Fisher < Harmpman@aol.com >, North Chelmsford, MA

I just came home from work and was saddened to read the e-mails of John's passing.

I enjoyed talking with John at the SWL Winterfests. He always had an interesting story to share about a DX catch or snagging that elusive QSL. My condolences to his family and also to George. It is sad to lose such a wonderful friend.

Take care, John

Edward Kusalik <ekusalik@telusplanet.net>, Coaldale, Alberta, Canada

I met John in person at the last Winterfest that I attended. I had traded e-mails with him on from time to time and John was quite impressed on the some of the DX that I have heard (especially on Indo's). This is truly a lost to the DX Community ... definitely one of the good-guys in this hobby and will be greatly missed by one and all.

My condolences to the family.

Edward

Dr. Mark J. Ferrioli < Drmarkjf@AOL.Com>, P. O. Box 5000, Philadelphia, PA 19111 I would very much like to call your attention to a very unique radio show: 'Marion's Attic' which airs from 9 to 10 P.M. EST on WBCQ, the Planet 7.415 MHz! 'Marion's Attic' has aired over WBCQ, the Planet, broadcasting from Monticello, ME, since September 21, 1999 and features music from the 1890's to the early 1930's. Each week's show has a different theme ranging from the playing of early brown wax cylinders, 1920's dance music, two-minute wax records, Blue Amberols, and Diamond Discs. All played on original equipment from both before and just after the 'Electronic Era' such as on a 1898 Edison Home phonograph for brown wax cylinders, 900 Columbia Graphophone AG for Concert Cylinders, 908 Edison Standard Model D phonograph for 2 & 4 minute wax cylinders, 913 Edison Amberola V phonograph for Blue Amberol cylinders, 923 Edison London Upright phonograph for Diamond Discs and a 1965 Gerrard electronic turntable for 78 rpm records. Much of the recordings played on the show would have been among the very first broadcast over the radio in its earliest history. What a listening experience! Truly like going back in time! 'Marion Webster' (A very warm and lovely lady) hosts the show along with her faithful friend 'Kristina' (Whom I have met in the past) and Marion's beautiful cat 'Electra' (Heard to purr occasionally over the microphone)! All of the shows are recorded slightly in advance of their individual broadcast in 'Marion's Home Attic' located in Coventry, CT. Everyone is invited to enjoy a 'Cup of Coffee and a Piece of Cake' as you draw up to the side of your favorite SW radio for an hour of pure old time listening enjoyment! Why not tune in yourself sometime soon. You'll quickly become a regular fan. Check out 'Marion's Web Site' at: http://members.aol.com/marionweb/

Jim Meyer <jwmeyer52@hotmail.com>, 26760 Heatherford Dr., Perrysburg, OH 43551 I am returning to SWL after many years away from it! It was a pleasure that I sorely missed when I was away from it! I had my first shortwave radio when I was 10 years old (1962). It was a Philco—not sure anyone remembers it. I forgot the exact model. It was a floor model that had a loop antenna (several solid copper wire loops about 3' by 2') below

the receiver. Believe it or not, it did a respectable job of receiving SW from around the world. I suppose, though, that the majority of stations in those days used high power—but I do not recall. But I certainly enjoyed it!

I bought an ICOM last fall. Haven't decided on what kind of antenna to settle on yet. I am using a single wire about 50' long that goes from my second floor listening post up into the attic. Don't have good reception and do have too much noise. My house is close to a commercial area (about 400') so noise will probably be a problem no matter what I do. Anyway, it was an experiment to see what was on shortwave (I also subscribed to NASWA a few months prior to buying anything) and what kind of noise/reception I would get in this location.

I have been reading the NASWA's internet site and found it to be EXCELLENT! Keep up the outstanding job! My thanks to all on the staff who obviously work very hard!

The Flashsheet looks great! I don't understand all of the abbreviations—most though.

George Herr, California

I don't known why 120m and 90m were suddenly open. We have had a lot of rain and perhaps it washed off the powerlines and increased the ground conductivity under by antennas. Anyway instead of noise I all of a sudden had stations at readable levels. Guess that's what keeps us trying.

Ron Howard Monterey, CA

We should still probably check for activity on 4905, but seems they are now off the air. Per: http://ukpress.google.com/article/ALeqM5jS6eJgA5L8ruiFMp0YUtBY5YxlzA (here is a brief excerpt, see website for full story): Rebels put Chad radio off air: Chad state radio went off the air as rebels advanced into the capital, opposition leader Ibni Oumar Mahamat Saleh said. He made the claims in a telephone call from the central African nation's embattled capital, N'Djamena. He said there were no soldiers in his neighbourhood and the state broadcaster had gone off the air in the morning.

A reminder that the Chinese New Year is approaching. It's year 4706 on the lunar Chinese calendar, the year of the Rat, which begins on Feb. 7 (in Shanghai, that would be Feb. 6, at 1600 UTC). Other Asian countries also celebrate, such as Solnal, the Korean New Year, and Tet, the Vietnamese New Year. It's a good time to make plans to monitor stations from these countries, as well as other Asian stations, to see what special programming they might have and possible extended schedules.

Another SW station is gone! Was very disappointed to read in DX-Window No. 343 that R. Tikhiy Okean, via Vladivostok, is no longer broadcasting on SW, this per the new WRTH Update (Feb 2008) http://www.wrth.com/files/WRTHB07SchedulesUpdateFEB2008.pdf. Even the Primorskoye Radio/R. Tikhiy Okean website is no longer available, completely gone! This would of course explain why R. Tikhiy Okean has not been heard for a while now. For me, they were consistently the strongest Russian SW station on the air and I especially enjoyed the Russian folk songs and ballads that they played. They will be missed!

Jim Ronda, Tulsa, OK

The morning of 1/27 was an exceptional with reception of two PNGs. This is the first time I've heard R. Manus and R. West New Britain since my DX days in the 1970s in Ohio. Perhaps the anti-PNG shield here in OK has a crack or two in it! Such surprises make the hunt all the more worthwhile! Thanks to Mark Taylor and Jerry Strawman for our fine listening sessions this week.

2/08 provided exceptional openings to India and Africa. I had not heard so many AIR regionals since living in the UK. Jerry Strawman and Mark Taylor were especially helpful in identifying the AIR regionals heard here in Tulsa. Africa remained strong from late on 2/2/08 to early on 2/3/08. Angola and Burkina Faso provided lively African music in the 2240-2345 period. And hearing Chad during the attempted military coup was intriguing for what was not said; perhaps the station was playing EZL music to calm the fears of the citizenry! On 2/3/08 around 0420 all the 90 meter Meyerton relays (BBC, Channel Africa, and R. Sonder Grense) and BBC-Meyerton 7120 were at very strong levels; at bit earlier, at 0345, BBC-Meyerton on 6005 was also at fair-good levels.

And as always, thanks to Mark Taylor and Jerry Strawman for being such good listening companions. The Madison, Wisconsin-Des Moines, Iowa-Tulsa, OK listening network continues to be great fun. Thanks to quick e-mail connections it really is possible to have coordinated listening sessions. We urge others to try these stay-at-home DXpeditions.

Jerry Strawman, Des Moines, IA

Propagation Gods were smiling this weekend with pipelines to PNG and India. Let's hope these conditions are repeated regularly.

Mark Taylor, Madison, WI

Thanks to Jerry Strawman and Jim Ronda for the excellent joint listening sessions in the morning, especially on 2/2/08. They helped me stay on course while Indian regionals streamed into Southern Wisconsin an exceptional morning here.

Toshi Ohtake <ohtaket@yahoo.co.jp>, 5-31-6- Tamanawa, Kamakura 247-0071, Japan We are issuing new QSL card symbolizing the year of mouse in the 12 zodiac signs. For the first 20 reports we will issue hand-painted cards, instead of normal printed ones. So please hurry in sending in your reports, directly to me. T. Ohtake, 5-31-6- Tamanawa, Kamakura 247-0071, Japan. JSWC DX reports are heard in Wavescan program of AWR on the first Sunday and DX Partyline of HCJB on the 4th Saturday. These program are also heard through WWCR and WRMI.

Second topic is the time change for Japanese service of RAE, Radiodiffusion Argentina al Exterior. RAE Japanese service is the most difficult station to hear in Japan. The station changed its broadcast hour from the end of the last year. Now they broadcast from 09:00 to 11:00UTC, one hour earlier than before. Frequency is 11710kHz, and this gives us more chances to hear this station, because of less interference around 09:00.

This is all for this month and wishing you good DXing!!

Tom Reed <stksnbnds@verizon.net>, Bryan, Ohio

I just received my Feb. issue of the NASWA Journal. Having been a member off and on from the 70's to now, I can only say that I was totally amazed how much Bill and Sam aged....and I did not! It's a damn miracle, but I swear to you that I look just like I did in 1978! In 1978 I was 28 or 29, depending on the month you are looking at, and I look exactly the same!

Poor Bill and Sam. But, on the positive side, Bill you got rid of the horn rim glasses. Sam, well, what can we say? You are ever so much cooler today than then. Bill, still taping with the ole reel-to-reel? I actually wish I still had mine. Probably worth more today than it was back then.

Great pics, guys. Wonderful.

Sheryl Paszkiewicz <spaszdxer@comcast.net>, Manitowoc WI

I enjoyed Stephen Price's musing about special Christmas DX. Though I somehow lost the first 12 years of my logs, I do remember tuning in on a Christmas Eve, 1984 I believe, just before 2200 and hearing the sign off of Voice of Hope from Lebanon on 6215. That was the only log of Lebanon I ever got which QSL'd. Caught them at the tail end but heard enough to prove it was them.

Glenn Hauser, Enid, Oklahoma

An mp3 file of R. Solh music, 29 minutes, 6836 kb, 32 kbps, 22 kHz, recorded in late January at 1419-1459 UT on 15265 via UK, with announcements removed, is now available for all to enjoy at http://www.w4uvh.net/sohl0801.mp3. If anyone can identify any of the music, please let us know as it would be nice to obtain CD quality recordings of it. The second piece is partly in English.

Stephen J. Price <vinyltocdr@msn.com>, Johnstown, PA

Radio St. Helena 2007 was a very special one this year. I was able to share it with my newborn son of two weeks old, Noah Scott Price. It was a very special day for us. Between bottles and diaper changes we enjoyed the programming and had a good Father-Son experience. During RSH Day 2007, I took some time to think way back about all of my radio related hobbies that I have experienced since age ten in 1980. In my mind, I suddenly became aware of the incredible amount of hours spent in this exact spot over the past 28 years. The thought of sharing one of my most beloved pastimes with a son never really entered my mind back then, much less even a year ago. It seems like just a few years back when I was perched at this exact desk with my new \$49.99 Realistic DX-66 portable shortwave radio and Grandma's Detrola AM-SW tombstone. My room had wires with alligator clips strung all over the place. I remember we had a yard sale one Saturday morning. Mom and Dad promised if I help carry stuff, sell some old toys, and help clean up, I could have some yard sale money to add to my savings to buy that terribly expensive DX-66 for \$49.99 plus tax.

If a person really thinks about it, twenty-eight years is a long time. When I look at Noah, I see myself and come to realize how much radio has changed from my introduction to radio in 1980 to the present day. It will be very interesting to see how radio, and especially how shortwave radio will change by the time Noah is my age. With the internet streams, satellite radio, and digital broadcasting, I think I may have the answer: "What kind of radio, Dad?" Hopefully, that question will not have to be up for discussion in the Price house. I am working him into our hobby very early.

Noah and I have already experienced some good DX. We recently enjoyed (or at least I tried to enjoy...) Tikhy Okean in the early morning during a fit during a very unsettled night. We heard Chad with religious programming on Christmas Eve before Noah's baptism, along with Angola and Madagascar's fantastic weekend opening in late January. We regularly tune in to Cairo for some music and a few other stations for program listening. Hopefully, there will be many more good DX sessions to come with the beginning of the new solar cycle. After the reception of Angola and Madagascar a few weeks ago, there may be hope. In closing, I hope everyone can take some time to bring the hobby to the children and grandchildren. Even if it is for just three minutes between satellite television, the internet, IPODS, cell phones, gaming, chatting, and texting, there just may be another generation ready to appreciate our hobby.

Richard A. D'Angelo <rdangelo3@aol.com>, 2216 Burkey Drive, Wyomissing, PA 19610 Cool, clear weather was the forecast for our last DXpedition with no wet conditions expected. There were reports of hot PNG activity the two mornings prior to departure so I was looking forward to our final outing to French Creek for the season. I arrived a little after 1500 local with Fred Kohlbrenner already set up listening to Madagascar on 5,010 kHz. Ed Mauger arrived shortly before I did so we unloaded our gear and ran antennas to catch up with Fred. Rich Cuff, our scheduled fourth, was a "no show" because of dual heavy workloads at the office and at home.

Afternoon conditions featured outstanding reception of African stations. Ethiopia on 7,110 kHz with a nice signal at 2100 sign off and Liberia on 4,660 kHz at 2232 sign off as well as previously mentioned Madagascar. Three Indonesian stations appeared rounding out the afternoon (RRI Kendari, RRI Makassar and RRI Fak Fak) with the 2200 UTC news from Jakarta booming in on 4,750 kHz. It was very enjoyable. Later some Chinese stations added another dimension to the listening activity as did Ed's discovering a long wave opening with Spanish Morocco audible on shortwave and long wave simultaneously. Latin America was quiet but I did note XERTA active on 4,800 kHz under CODAR late in the evening. Eritrea disappointed later in the evening with 7,100 audible on an intermittent basis while 7,175 kHz was silent. Both these channels boomed in during our last DXpedition. I stated up much later than planned with Suriname, Iraqi Kurdistan and Malabo offering so good listening opportunities that I couldn't pass up. I just resigned myself that I would be tired all day, hi!

The following morning was a poor showing from Latin America. This has been a bad DX season for Latin stations. Ed noted the A Index was a meager 2 which helps explain the situation. Papua New Guinea made an appearance with Radio Central and Radio New Ireland being the best signals. Fak Fak returned at a nice level around 1130 UTC butnot much else was heard from Indonesia. The three 120 meter Aussies were in but not as strong as prior trips. As the sun rose, a few interesting stations popped up including Traxx FM on 7,295 kHz, Sri Lanka on 11,905 kHz and the Aussie weather station on, 6,230 kHz. Overall, the morning was less than terrific. Due to family commitments, Fred packed up and headed home while I enjoyed Hindi music from Sri Lanka.

Things began picking up again in the early afternoon with a test broadcast using 7,260 kHz (Wertachtal) and 7,210 kHz (Skelton) noted from Radio television Algiers thanks to an alert from Wolfgang Buschel. Family Radio on 7,160 kHz via Dhabayya made a nice appearance as did Radio Rwanda around 2000 UTC on 6,055 kHz until its 2100 sign off. Ethiopia re-appeared with an outstanding signal at 2020 UTC on 7,110 kHz and a fair signal on //5,990 kHz with terrific sounding Horn of Africa music.

Although the "A" index moved up to "4" from zero, Latin America was still relatively quiet although a few stations were spotted. The banquet was a two man deal this time since it was only Ed and I sharing pasta, meatballs and Texas toast. After dinner Ed enjoyed IBOC crowding out the DX on the medium wave band while I tried my hand at another attempt listening for Latin stations. I had some success with Radio Universitaria on 4,732 kHz from Cobija making it through the RTTY QRM until sign off at 0149 UTC and a few regular Peruvians. Clearly, the most fun was Uganda's opening on 4,976 kHz with its announcer encouraging listeners to wake up while taking phone calls at 0520 local time.

Our final morning was an interesting mixed bag. Although Peruvians seemed noticeably absent from the bands; I was able to get my first log of Radio Tacana on 4,781/5 kHz from Bolivia (thanks to recent logs from Bob Wilkner and Scott Barbour) and Radio Universitario was heard at a much better level. I had a tentative on Peruvian Radio Manantial on 4,990.8 which may have opened around 1100 UTC but couldn't pull an ID. PNG stations

were somewhat subdued today although Myanmar put in a nice signal with western pop vocals instead of the usual fare of haunting vocals and flutes. Although there appeared to be a number of carriers to the sub-continent there was very little audio from India. Only AIR-Delhi on 4,860 kHz was logged.

There are always surprises when attending a DXpedition. Just as I was about to rip apart my equipment, I noted RRI – Serui on 4,605 kHz poking through the ether. After two days of looking for this one, it was nice to log this on the way out. Also, I checked 7,250 kHz and found an English speaker with interesting local vocals which I tentatively suspect was Bangladesh. Unfortunately, the radio amateur community combined to blitz the frequency just around sign off time making positive identification impossible.

I can't complain about the overall results of this DXpedition. While it would have been nice to have better conditions to Latin America, I did manage to add two sought after Bolivian's to the log. No complaints there. Also, there was Indonesian and Papua New Guinea activity so no complaints there. India was missing but I enjoyed some pretty good Indian openings in the other outings this year. Next year will be here before you know it bring French Creek DXpedition No. 31 to the table.

Leading off this month's QSL returns is verification from the Falkland Island Broadcasting Service after almost 24 years of waiting and trying. New station manager Corina Bishop was nice enough to do the honors. I asked about the possibility of doing a shortwave broadcast to which she replied, "Also, I am afraid that we are unable to do a special broadcast on shortwave." Beth Chick in Austria verified Trans World Radio via Wertachtal. The Voice of the Islamic Republic of Iran via Kamalabad sent a reply for 3,985 kHz along with some family magazines. Radio Moldova International sent a vague electronic response ("We received Your letter and we appreciate Your interest in our radio programs.") to a postal follow up report from "The English Service." This one took many years to track down. The BBC Indian Ocean Relay Station verified a direct report with a letter from v/s Albert Quatre, Senior Engineer at VT Communications facilities in Victoria. Finally, Cotton Tree Network via Ascension Islands verified with a full data Fondation Hirondelle / Cotton Tree Network card from Anne Bennett in Sierra Leone.

Earlier in February, George Maroti reported that John Sgrulletta passed away suddenly at age 60. He died on Tuesday, February 12th. Not sure of the cause but it was unexpected with John and George planning to attend the Winter SWL Festival in Kulpsville in early March. It was quite a shock. John was a nice guy who was also a first class shortwave DX'er. He was a terrific guy who readily shared information. There was no finer individual in our hobby when it came to (sharing) knowledge, dedication, and expertise. An all around "good guy", John will be missed by all of us in the radio hobby community.

73, Rich

You are coming to the SWL Fest, right?

Final preparations are under way for the 21st Winter SWL Fest—this issue of the NASWA Journal should show up in most mailboxes a couple days before people depart for Kulpsville. Check the Fest blog, http://swlfest.blogspot.com, for any last-minute updates to Fest schedules or local items. Hopefully the weather will be easier than it was today as I edit the column; Eastern Pennsylvania received approximately five inches snow plus a layer of ice on top.

BBC World Service shuts down shortwave to Europe...and other developments

Here's something we can chat about at the Fest: the BBC World Service eliminated shortwave utilization targeting Europe as of February 18th; this follows a reduction in shortwave utilization to Europe that was put into place about one year ago.

Practically speaking, this probably isn't all that big a deal—the mediumwave service on 648 kHz reaches much of the continent, and service targeting Western Russia remains, though only for four hours per day. Here in the Eastern USA, frequencies targeting West Africa remain generally more useful than frequencies that were targeting Europe, and there are no near-term plans to scale back the services targeting Africa. I've seen forum postings from European listeners that indicate these African frequencies are generally usable in Europe as well.

My colleague and fellow column editor John Figliozzi commented on the Radio Netherlands Media Network weblog, "To be a major player in international broadcasting, you need to maintain a useful presence on all platforms used by actual and potential listeners. No one platform is paramount. Shortwave is one of those platforms." I

agree—even maintaining one frequency in service instead of multiple frequencies is better than total abandonment.

This development was picked up by the New York Times and Guardian newspapers, including a couple quotes from familiar names. Jonathan Marks-ex-host of Radio Netherlands' beloved Media Network program, stated in his weblog, Critical Distance, "frankly I think today is a rather momentous day, meaning the end of analogue shortwave as we know it in the developed parts of the world. Shortwave radio is certainly the medium of last resort. DRM has been a huge disappointment—more than 12 years since its official launch as a standard, there is still nothing in the mainstream shops." Simon Spanswick, the onetime host of Waveguide (remember that?) on the World Service, and now the president of the trade group Association of International Broadcasters, said "It is a landmark in as much that the BBC and other international broadcasters have been using shortwave forthe last three-quarters of a century and it is now coming to an end...Everybody now has to use different ways to engage listeners. Nobody in the developed world listens on noisy, crackly shortwave anymore."

One of the problems nowadays is that, as Andy Sennitt mentioned in the New York Times article, many of the transmitter sites that are used as relays by many broadcasters (including the BBC as well as Radio Netherlands) rely on on-site power generation using diesel as the fuel source, and that diesel has doubled in price over recent years. This adds yet another squeeze to the budget of international broadcasters that are already using multiple broadcast platforms (satellite, local placement, webcast, shortwave, website) to reach target audiences.

Jonathan Marks made another interesting point when it comes to international broadcasters' attempts to reach target audiences: "Radio has become too wrapped up in its own routine and has not woken up to the fact that great content must be findable/searchable. The worst human interface ever is the old SW radio dial with a 1000 stations crammed into a few mms marked as the 49 metre band. DRM's mistake was not being ready to pick up where SW analog radio left off." That's a comment I certainly identify with—nowadays, people don't go searching for information by turning a radio dial, they enter a term into Google.

Here's some more distressing news about listening habits from the *Critical Distance* weblog: Arbitron's recently-updated "American Radio Listening Trends" report, shows a 3% decline in U.S. per capita radio listening over the past year—and a 16% decline over the past nine years. (The nine-year trend includes a 25% decline among teens, but the downtrend is not just among young people: The nine-year trends also show a 19% decline in the 18-34 age group, a 12% decline in the 35-64 age group, and even a 12% decline in people 65 and older.)

It's fair to say these aren't exactly ringing endorsements for shortwave use in North America and Western Europe, are they? Thankfully, we in North America can generally hear European broadcasters' services targeting Africa; this is the best way to hear much of the day's output for the BBC World Service, Radio France International, and Deutsche Welle.

All has not been pessimistic in the general media for shortwave in the past month; there was an interesting musing regarding the romance of shortwave radio in the February 8th edition of the *International Herald Tribune* newspaper. If you have web access, check out http://www.iht.com/articles/2008/02/08/america/letter.php, "Waging A Tiny Rebellion via Shortwave Radio." Alas, as Glenn Hauser pointed out, the article doesn't tell you how to re-create this experience yourself, so those without a shortwave radio don't realize they could join in on the fun as well.

Meanwhile, speaking of alternate programming platforms in international broadcasting, one area that I'll give kudos to the

BBC World Service's Internet initiatives is in the timing of website audio updates—a recent check of the on-demand edition of *Newshour* showed the on-demand audio was updated with the most recent on-air broadcast within 50 minutes of airing—that's reasonably quick.

While this isn't shortwave, I also noted this past month that Justin Webb, who is the North American editor for the BBC, now has his own weblog—see http://www.bbc.co.uk/blogs/thereporters/justinwebb/. This strikes me as the 21st Century analog to the long-running Letter From America program. While Webb's blog doesn't exactly replace the measured tones of Alistair Cooke, it's a way to see a British take on the USA for a global audience.

Coming up in March, the BBC World Service airs a promising four-part special series, How Irag's War Shaped Our World, in which four leading voices of the BBC's coverage in the last five years give their varying assessments of how the Iraq invasion and subsequent insurgency developed. They chart the missed opportunities and faulty assessments of the Coalition and explore the murderous exploitation of Iraq's post-war frailty by Saddam loyalists and foreign Islamists. This series is in the Monday Documentary time slot: shortwave air times to Africa include Mondays at 1406 and 2106, plus Sundays 1306. Listeners to the live webcast—this is the European stream—can listen Mondays at 0906 at 1206 and 2006, plus Tuesdays 0006 and Saturdays 0906.

Language Lessons—nobody cares, I guess...

My request for suggestions regarding language lessons via shortwave garnered only one suggestion from a NASWA member... guess this must not be a category of programming that shortwave enthusiasts spend much time with.

One of the challenges with language lessons is that one has to listen regularly as vocabulary is built and grammar rules are

established. In the old days, the only way you could keep up with language lessons if you missed a week is if the station sent you a lesson plan / workbook that you could follow along with at home. Nowadays, that has become much easier—any collateral material is simply posted at the broadcaster's website, where you can download it lesson-by-lesson. Another capability most broadcasters incorporate into their websites is the option to listen to any language lesson in a series, in case you missed it when it was on the radio.

One of the more comprehensive language lesson services available from an international broadcaster is-surprise!-from Radio France International, at http:// www.rfi.fr/lfen/statiques/accueil.asp. In addition to three multipart series-a crime drama, an adventure series, and a series set in a business, there are two daily 10-minute newscasts in "simple French"—RFI's answer to the Voice of America's "Special English" capabilities. The crime drama-Mission Europe—is actually a collaboration between RFI and Deutsche Welle and Polskie Radiolessons are provided for English speakers to help them learn French, German and Polish. The French lessons also air during the English language broadcasts at 1210, 1432, and 1632 UTC. (special thanks to John Figliozzi)

China Radio International offers its "Chinese Studio" including multimedia Chinese lessons at http://english.cri.cn/chinese/. Generally speaking, the language lessons are the last five minutes of CRI's typical hour-long broadcast. There are extensive audio archives at the URL shown above.

Radio Taiwan International offers its own version of Chinese via a language lesson program called *Chinese to Go*. The program airs from 20 minutes to 30 minutes after the hour on UTC Tuesday programming to North America, plus 50 minutes to the program end on UTC Fridays to North America; North American targeted air times include 0200, 0300 and 0700.

Deutsche Welle has an extensive online inventory of German language lesson capabilities; visit the main DW website, http://

www.dw-world.de, then click <German Courses> in the left-side banner, in the section labeled Germany Info. You'll then be given choices of e-learning, adventure (the same Mission: Europe mentioned under RFI) and the beginners' course, Radio D. You might also remember the series that was on DW radio for a while, Deutsch—Warum nicht?; yep, that's available, too. There is also a daily nine-minute newscast intended as a language lesson...the speaker's pace again is evocative of the VOA's Special English.

Radio Japan no longer airs Japanese language lessons in its English language service, since the daily broadcasts were cut back to 20 or 30 minutes, depending on the edition. However, there's a deep archive of Japanese language lessons available at the NHK webiste, http://www.nhk.or.jp/english/; just click on the link for <Japanese Lessons> along the top of the web page. There are two series—Basic Japanese For You—the audio for lessons 62 through 92 is available on the website—and Brush Up Your Japanese, with the audio for lessons 32 through 46 available. For lessons earlier than these, the text transcript is available.

Questions regarding RCI's mandate resurface

Longtime listeners of Radio Canada International probably remember the name Wojtek Gwiazda; he was one of the hosts of the daily newsmagazine Canada Today and remains a contributor to The Link, RCI's successor weekday English language program. He found himself suspended for three days in February, apparently as a result of causing a bit of a stir in some dialogue between the Canadian Parliament and CBC management. Wojtek feels-probably like most of us-that RCI's new mandate focusing on prospective and new immigrants to Canada has eroded RCI's standing as a broadcaster providing views of Canada to the world. Apparentely RCI's management didn't appreciate that Wojtek enabled the Members of Parliament to be "loaded for bear" (my term, not Wojtek's) when they were grilling RCI management.

Even if you feel Gwiazda was a bit heavyhanded in how he approached this activity, nonetheless it's a fair question-has the change in mandate, dating back to late 2006, resulted in greater RCI listenership? Or have those who used to listen to RCI's English language programming instead changed their focus to the domestic CBC service? Are you listening more often to RCI nowadays, or less? Send your views to RCI via postal mail to Radio Canada Internaltional, 1400 boulevard René-Lévesque Est, Montreal, QC, Canada H2L 2M2, or e-mail to info@rcinet.ca. Gwiazda helps maintain an advocacy website devoted to restoring RCI's original mandate, autonomy, and the budget to support that mandate, http:// www.geocities.com/rciaction/index.html.

Radio Australia suggestions

Counterpoint is a commentary program which examines a range of social, economic and cultural issues in Australian life. It challenges some widely-held assumptions, and introduces some new and some seldomheard commentators. Not all of the topics are specific to Australia; a recent edition featured a segment on United States politics exploring the role of race and racial identity through the lens of Senator Barack Obama's Presidential campaign.

As is the case for most ABC programming, the past four editions of *Counterpoint* can be downloaded, podcast or streamed online; the program's website is http://www.abc.net.au/rn/counterpoint/. Shortwave listeners are, unfortunately, out of luck, as *Counterpoint* is not on the current schedule. The program airs on the domestic *Radio National* service Mondays 05005 UTC and Tuesdays 1505 UTC.

Verbatim is a weekly series that charts the history of 20th Century Australia through

the oral histories and memories of Australians. An ongoing series includes features on Australia's politics of the 1920s and 1930s. Another recent program focused on the reminisces of Louise Mack, an Australian journalist who reported from the front lines of World War One (not two...). Verbatim airs on shortwave Saturdays 1035 UTC; Radio Australia's live stream also features Verbatim at that time. The program's website: http://www.abc.net.au/rn/verbatim/.

Talking Point consists of interviews excerpted from the daily Breakfast program airing domestically on Radio National. On shortwave, Talking Point airs at approximately 0615 UTC weekdays, plus Fridays at 2330 and Saturdays at 1020. The live web stream includes these times plus Sundays 0230 and 0530 (when Grandstand airs on shortwave).

If you'd rather select your own interviews, visit the *Breakfast* website at http://www.abc.net.au/rn/breakfast/; you can listen to the entire program and then "fast forward" to specific segments as you wish.

Another of my favorites is *Lingua Franca*, continues to examine all aspects of language, including cross-cultural communication, literacy, language policy, multilingualism, neologisms, alphabets, prayers and maledictions, sledging, swearing and flattery, the language of public debate, as well as endangered, secret and even invented languages. 2008 is the International Year of Languages, in case you were curious. Alas, this program isn't on the current shortwave schedule either; you can stream, podcast or download the series at http://www.abc.net.au/rn/linguafranca/.

See you at the Fest!

73 DE Richard

Bandscan analysis of Radio Handbooks for 2008

@ DSWCI.

This article may be fully quoted, if the source is mentioned.

On 28 October 2007 the B07 winter schedules became effective. Already on 01 November in Lugano, Toshi Ohtake handed over a review copy from Larry Magne, PA, USA of his "Passport to World Band Radio - Edition 2008" (PWBR). On the 13 December I received from Joerg Klingenfuss, Germany, his "2008 Shortwave Frequency Guide" (SWFG) and after Christmas on 02 January the "2008 edition of the World Radio TV Handbook" (WRTH) arrived from Nicholas Hardyman, UK.

All three Handbooks have kept their well known, but different format. The PWBR has 560 pages and starts with articles about historical broadcasting in exotic Tangier and about the worldwide Network of the Trans World Radio, Then follows amazing 149 pages of reviews of technical equipment for the SW listener. Broadcast schedules are concentrated on broadcasts in English and an address list. The 170 Blue Pages with graphical 24 hour lines with all details on each broadcast station from 2310 till 21850 kHz. More at www.passband.com.

The SWFG 2008 (12th edition) contains 472 pages in English (273 about Broadcasting and 199 about Utility stations). The Broadcasting part begins with a new article about DRM including an up-to-date list of DRM schedules on LW, MW and SW. It is followed by the comprehensive SW frequencylist which for each frequency contains a line for each broadcast. That includes exact times. transmitter site, language and target area. The Country section contains the same data. As in my analysis a year ago, I did not listed by Station, but without details like choose the traditional way of reviewing

by Anker Petersen, Denmark, January 19, 2008 geographical coordinates, addresses, QSL info, etc.

> At the same time Klingenfuss has published the 2008 Super Frequency List (SFL) on a CD-Rom with the same 8.500 Broadcast frequencies and 10,000 utility frequencies plus 20,700 formerly active frequencies. This modern tool is very easy to use on a PC using Microsoft Windows and has excellent search functions for specific frequencies, countries, stations, languages, call signs and times - or any combination thereof! More details at www.klingenfuss.org.

> The WRTH 2008 (62nd edition) has 672 pages this year, including 64 in full colour. The first article is about Portuguese contributor Carlos Goncalves who also is a very active DSWCI member. The WRTH Receiver Reviews 2008 describes the Icom IC-R9500. Morphy Richards 27024, FLEX-5000A, Palstar MW550P, Himalaya DRM 2009 and RACAL RA1792, Articles about Falklands Radio and Radio Voice of the People follow, Finally, before the maps is a Digital Update and George Jacob's forecast on SW reception conditions in 2008.

> On page 65 begin the fully updated sections with all details about National and International Radio, MW and SW Frequency Lists, International broadcasts in English, French, German, Portuguese and Spanish. On page 610 is a useful list of current DRM International Broadcasts followed by Television and References. Read more at www.wrth. com . You can also order it from Hein Radio Bookshop www.radiobookshop.de .

Spotcheck by bandscanning

each section in the Handbooks. Instead I scanned through the shortwave bands in early January, selected 50 broadcast stations at random and identified them 100%. no matter what language, and made a com-

parative analysis.

In this I checked in the three Handbooks, if each particular broadcast heard, was mentioned in the Country Section and in the SW frequency list with the five essential details of station name, frequency, scheduled

ricquercy, beneaute
at that time, exact language and site of
transmitter. Half of the SW stations car-
ried domestic broadcasts, and half of them
international broadcasts. For further details
on my results, look: http://www.dswci.org/
specials/bookreviews/200801handbooks.
pdf.

Analysis

I consider the five details mentioned above to be essential for the DXer during his listening and identification of the transmitter and broadcast. Thus it was checked for each logging, if the Handbooks have all these essential details and if they are correct. This is then marked "+" in my detailed analysis. If one is missing, the coloumn got a "_".

In cases where the broadcast is listed, but the language is not specified (e.g. just called "other" language), it was noted as a minor mistake, probably made by an editorial decision.

I still consider it useful, if the Handbooks also can provide the DXer with additional information about Geographical Coordinates for his propagation calculations and Google Earth search, and ID in the language heard. Furthermore it is necessary to know current addresses (postal, e-mail and web) and QSLpolicy for his reception report writing.

Most of these useful details can be found in the WRTH and PWBR, but they are still missing completely in the SWFG!

Comparison

I then counted how many essential details were correct for the 25 international and 25 domestic stations randomly heard. The results were (each figure out of 5x25 = 125 possible):

	PWB	PWBR		SWFG		
	Int.	Dom.	Int.	Dom.	Int.	Dom
Analysis result	114	117	123	120	123	118
Sum(Max. 250)	231	(92%)	243	(97%)	241	(96%).

The WRTH and the SWFG contain nearly all essential details.

SWFG is slightly better, because the Domestic stations of All India Radio contain the three main languages. In PWBR furthermore the language in several cases in both International and Domestic broadcasts is just identified as "other".

It surprised me, that even though PWBR is published 11/2 month before the other Handbooks, only 3 frequencies (all international) were missing out of 50 (94% correct). Larry has ensured me that he does his utmost in order to get the latest schedules, before the printing deadline and he succeeded.

Please be aware that changes in broadcast schedules occur nearly each day and also during the period from the editorial deadline till the printed Handbook reaches the listener. It has always been so. Because of this, it is impossible to achieve a 100% score!

Conclusions

It is evident that the editors of all three Handbooks once more have done a tremendous work to gather up-to-date broadcasting schedules and other information for the B07 period and all have succeeded in this to a very high degree! Each of the Handbooks is useful for the DXer and ordinary shortwave listener. The details published are at a very high accuracy level and can hardly be much better!

An important feature when searching for and identifying broadcast stations, is their complete frequency schedules, so that all parallel frequencies can be checked. The schedules are easily available and very complete in the WRTH and SWFG and on the SFL CD-version.

For DX-purposes on SW, the **PWBR** offers an excellent overview on its "Blue pages" with incredible many details included.

The SWFG is a Frequency List with SW schedules, but without any other details about the stations. I prefer the SWFG when I scan the SW broadcast bands, because the current schedule and language is available at each frequency. But I am afraid that the ordinary Broadcast DXer does not have any use of the many Utility pages, so I suggest again this year that the book is split up into two cheaper publications in the future.

In contrary to the PWBR and SWFG, the WRTH also contains LW, MW and some FM and TV information. Therefore I use this Handbook when I DX on the bands mentioned or need more information about SW stations. It is highly appreciated that a summer edition of the International Section is available free of charge from their website and will be further expanded.

All three handbooks have complete agreement between the information in the Country Sections and in the Frequency Lists.

I must state that all three Handbooks are very comprehensive, up-to-date and accurate and absolutely worth purchasing by the active shortwave listener and DXer! It requires hard work by many experienced people to edit and publish such high quality products year after year! (Petersen)

Voice of the Tigray Revolution Update

by Maarten van Delft, Putten, the Netherlands visiting Ethiopia

Via Danish Shortwave Club International, DX Window No. 343

Mr. Fre Tesfamichael has left the Voice of the Tigray Revolution. Mr. Abera Tesfay has succeeded him as director. He told me that since May 2007 they have been using a 100 kW transmitter. It is located near Addis for better nationwide coverage. The two old 10 kW transmitters at Mekele will remain as standby. I was told that they simultaneously broadcast on two frequencies from the new transmitter. I expressed my surprise about this, but I am a technical layman, so who knows! They are still in a testing phase. Their assigned frequencies are: 5950, 5980, 6170 and 7155. I frequently heard the combination 5950 and 6170, but they were often silent altogether. They broadcast 66 hours a week in Tigrayan and 9.5 hours in Afari. They are now busy moving to a brand

new building. An FM relay is projected for Mekele, but there are no plans to use medium wave.

Before popping in at this station, I visited the impressive monument and nearby museum, dedicated to the long and bloody struggle of the TPLF (Tigrayan People's Liberation Front) against Mengistu's Derg (junta). In the museum I also saw the old transmitter and antenna which had been used for some years in a cave in the Simien Mountains at an altitude of over 3500 m. when they were still a clandestine station. There was only one narrow path to the cave and all supplies had to be taken up via this tough route. They even carried up anti-aircraft guns and so the station was never silenced by the Derg. Mr. Abera and the director of PR, Mr. Berhaie, told me of the hardships they had to endure in the cave, such as the cold up there. Before every broadcast they had to heat the frozen cooling liquid for the transmitter!

Perseus, the SDR New Frontier

By Giampiero Bernardini

Software Defined Receivers ("SDR") are the new frontier for DXers. Now on the market we can find several models and others are scheduled over the next several months. Also, companies such Rohde & Schwarz are working on this field. But the real innovative work was made in the USA (FlexRadio and RFSpace) and Italy (Elad, Ciao Radio by Claudio Re and Perseus by Nico Palermo). The last receiver I got is Perseus. I already have in use RFSpace SDR-14 & SDR-IQ, Winrad G33EM, and Ciao Radio H101. They (and Perseus too) are all really different receivers that I use for different purposes. Each one if the SDRs as its strengths. All gave excellent performances in DXing and are more flexible than traditional receivers. even if I still have in use old great Drake R4-C and SPR-4 communications receivers.

Perseus means Pretty Excellent Receiver for Software-Eager Unperceivable Signals. When I turned on Perseus the first time I had a real great impression. Its look is really nice, ergonomic is very good too. All you need is on the window, under your control, you don't need an open menu and submenu. It is easy to learn and easy to use.

Everything Under Control

In the main window you can see everything is happening inside a 400 kHz real time spectrum. You can choose, of course, to monitor "only" 200 kHz or less. Nothing will happen without you seeing it. For instance, you can monitor the 40 meters HAM band and see every new signal coming on and tune it in a while. The same on maritime or air bands. On the 60 meter tropical band you can monitor all weak signals at the same time. On International bands, no digital DRM signal will escape. You can do it in FFT 2D mode or Waterfall. You can regulate the FFT average to get the best image of spectrum activity you like.

Great Audio

I listen to the radio mostly in Milan city. I have a lot of noise so the audio quality is

important. I found it clean, soft and I wasn't tired of listening after many hours. Just like my old Drakes and the SDR Ciao Radio H101. So also with low signals the signal-to-noise ("S/N") ratio is good and it's easier to understand communications. Synchro AM helps you a lot. It's very good and locks in a fast and stable way, also weaker signals with strong fading.

Selectivity As You Want

Comprehensibility is helped also by the possibility to choose as many filters as you want. You work inside the secondary window. It can show 12 - 6 - 3 - 1.6 or 0.8 kHz of band and you can shape your filter as you want. In AM and AMS you can shape your filter in a different way in the upper side and lower side to avoid QRM as you want and get the best audio you like.

Fine Tuning

In the secondary window you can also read better signals in few kHz. So if you have Mauritania on 4845 kHz you can see also Radio Cultura in Manaus on 4845.25 kHz. Than you can try to separate them. In the small window you can also center better the signal and read the real frequency.

Sensitivity

Sensitivity is good and dynamic range excellent (see data), but what you need is not to know numbers but just DXing. So I can say that in medium wave ("MW") it performs very well even if you have really strong signals on the band. And I had no problems with MW images on shortwave ("SW"). I could listen to several Trans-Atlantic ("TA") signals on MW, North and South America, with my Wellbrook LFL1010 loop. Also some very weak signals from Indonesia on the 60 meter hand were readable also when some times other traditional receivers couldn't. Perseus' 10 dB preamplifier works fine and its preselectors are great. Also on longwave ("LW") non-directional beacons ("NDB") are very well received with no problems from

DRM

I don't like DRM, too much noise. But Perseus works well also with digital signals. You see the DRM wave, center it, select DRM button (it mutes receiver and feed only Virtual Audio Cable), open Dream (with right settings) and listen. Note, please, that you need a newer VAC edition. I use VAC 4.8.

Database

Nico Palermo added also the possibility to use, so far, 3 databases: HFCC, Eibi and User defined. The User one is in the Eibi structure, so it is not easy to create your own database. I hope Nico or another DXer will give us a tool to import data in different formats and export in Eibi format. When tuned on a frequency you can read on air scheduled broadcasting under the S-meter.

Recording a Whole Band

A great chance is the possibility to record 400 kHz band at once and to listen again to it re-demodulating all the signals. You can monitor and record the whole 60 meter band. It is simply great. We could also organize a monitoring group to see what is on International Broadcasting bands to help Eibi to maintain and update his database. Anyway, of course you will need a large hard disk. I use an external desktop 500 GB and mobile 250 GB one.

Software

Nico Palermo is also working around upgrades of the software. So it is a work in progress and it will get opinions and suggestions from DXers all around the world. Nico Palermo just wrote me that with next software (before the end of February) the maximum spectrum range will not be 400 kHz, BUT 800 kHz!!! Great!

Information

- Frequency range: 10 KHz 30 MHz
- Modes: SSB, CW, etc. (Software Defined)
- Sensitivity: 0.39 uV SSB (S+N)/N= 10 dB
- Selectivity: Software Defined
- Image Rejection: 90 dB
- Input IP3: 31 dBm
- Dynamic Range: 103 dB (SSB, 2.4 KHz BW)* / 107 dB (CW, 500 Hz BW)
- Blocking Dynamic Range: 125 dBMDS: -124 dBm (SSB, 2.4 KHz BW)*/-131 dBm (CW, 500 Hz BW)
- Output Bandwidth: 100/200/400Khz I&Q signals (Tip. 14.2 MHz) PC interface: USB 2.0 480 Mbit/s (cable included)
- Power Supply: +5Vdc +/-5% 1 A (110/220V adapter included) Dimensions: 110 x 36 x 185 mm (W x H x L)

[Editor's Note: The following items were taken from the January 2008 edition of the NASB Newsletter. The National Association of Shortwave Broadcasters is the official organization representing U.S. shortwave stations.]

2008 NASB / USA DRM Annual Meetings—Latest Information

Preliminary Agenda (times are approximate and subject to change)

Meeting Venue: Trans World Radio - Cary, North Carolina

Throughout the two days of meetings, there will be opportunities to monitor DRM transmissions from Sackville, Quito, Montsinery and other locations.

Thursday, May 8, 2008 ---Trans World Radio--- welcome remarks from Thomas Lowell, TWR Interim CEO and Chairman of the Board of Directors; and an update on TWR's global ministry from Tom Tatlow, TWR Global Media Services Officer.

9:30 am-10:30 am - Tour of Trans World Radio headquarters

10:30-11:00 am - Coffee Break, courtesy of Trans World Radio

11:00 am-5:00 pm - **USA DRM Group Meeting** at TWR headquarters building

11:00-11:15 am - USA DRM welcome remarks - Adil Mina (Continental Electronics), Jeff White (WRMI), Mike Adams (FEBC)

11:15 am-12:15 pm - Speaker(s) to be announced

12:15-1:15 pm - Lunch at TWR headquarters, sponsored by T-Systems Media & Broadcast. On the menu today are traditional North Carolina favorites: barbecue pork sandwich, slaw, potato salad, fruit cup, cookie and sweet tea.

1:15-4:00 pm - Speakers to be announced

4:00-5:00 pm - Mike Adams, FEBC, leads open discussion about plans for the USDRM platform and DRM in the United States during the coming months

5:00 pm - USA DRM Meeting ends. Departure from TWR headquarters to Comfort Suites hotel.

7:30 pm - Dinner at O'Charley's restaurant, adjacent to Comfort Suites. Sponsored by Thomson Broadcast and Multimedia, Comet North America and WMLK/Assemblies of Yahweh. Tonight's menu includes a selection of appetizers, your choice of any two entrees (the list includes bite-size fried shrimp, barbecue ribs, grilled chicken breast, Chicken O'Tenders and butcher's cut premium steak), served with salad or soup (overloaded potato soup or soup of the day), beverage and a scoop of caramel pie ice cream for dessert.

9:00 pm - NASB Board of Directors meeting in lobby at Comfort Suites

Friday, May 9, 2008

9:00 am-12:00 noon - NASB Annual Meeting (morning presentations session).

9:00-9:15 am - Welcome remarks by Jeff White, NASB President; and Mike Adams, NASB Vice-President

9:15-9:45 am - Fundamental Broadcasting Network - A presentation by representatives of NASB member FBN, which operates shortwave stations WTJC and WBOH in Newport, North Carolina

9:45-10:30 am - Shortwave's Response to Disasters - panel moderated by Mike Adams, FEBC

Trans World Radio

11:00-11:30 am - Monitoring Times - presentation by Rachel Baughn, Editor

11:30 am-12:00 pm - Audience Research for International Broadcasters--- presentation by Tom Tatlow, TWR Global Media Services Officer: Curt Detwiler and Bill Damick, also of TWR.

12:00-1:00 pm - Lunch at TWR headquarters, sponsored by Continental Electronics. Today's menu features Italian dishes: meat lasagna, Caesar salad, garlic bread, tea and tiramisu.

1:00-3:00 pm - NASB Business Meeting. Members, associate members and visitors are welcome and encouraged to attend. Reports from NASB personnel who have attended recent shortwave conferences around the world.

3:00-3:30 pm - Coffee break, courtesy of Trans World Radio

3:30-4:30 pm - NASB Business Meeting continues

4:30 pm - Official closing of NASB Annual Meeting

4:30-4:45 pm - NASB Board of Directors Meeting. This is a brief closed session for the newly-elected Board members.

Hotel Information

The conference hotel for the annual meetings is the Comfort Suites hotel, located at 350 Ashville Avenue in Cary, North Carolina (a suburb of Raleigh), ZIP Code 27518. This hotel is located near Trans World Radio headquarters (about five minutes by car), and TWR will be assisting us with transportation for those who need it between the hotel and TWR. Therefore, we strongly suggest that you stay at this hotel. We have arranged a block booking for the group at a price of \$82.00 per night, single or double occupancy. To make your reservation,

10:30-11:00 am - Coffee break, courtesy of please contact the hotel directly by phone or fax:

> Telephone +1-919-852-4318 Fax +1-919-854-4398

When making your reservation, please specify that you are with the "NASB-TRANS WORLD RADIO" group. By mentioning "NASB-TRANS WORLD RADIO," you will get the lowest available rate of \$82.00 per night, and you will have until 24 hours prior to your arrival date to cancel your reservation if necessary. (If you cancel less than 24 hours prior to your scheduled arrival, they will charge your credit card one night's accommodation.) The rate of \$82.00 per night will be available to NASB/USDRM meeting attendees for a few days before and after the meeting as well, in case you want to arrive early or stay late.

Our block booking will be held until April 21, 2008, or sooner if all rooms are reserved earlier. Reservations will be on a spaceavailable basis only after April 21, or before April 21 if we exceed our block booking. So we urge you to make your reservation as soon as possible. You can always cancel it until a day before arrival if you need to do so

Please note there is a local tax of 12.5% on hotel rates in Cary. The hotel offers a complimentary hot breakfast buffet each morning, free wireless Internet access in all rooms, and an indoor pool/spa and fitness center.

Getting to Cary

Cary is located about 20 minutes by car from the Raleigh-Durham International Airport (RUD). From the airport, you can take a taxi to the hotel in Cary (fare is approximately \$18.50), or you can rent a car at the airport. Note that the hotel does not provide transportation from the airport. The following rental car agencies have branches at Raleigh-Durham Airport: Alamo, Avis, Budget, Dollar, Enterprise, Hertz, National and Thrifty.

The following airlines offer service to Raleigh-Durham Airport from numerous cities throughout the United States: Air Tran, American, America West, Continental, Delta, Express Jet, Jet Blue, Midwest Connect, Northwest, Southwest, United and US Airways. Air Canada has service from Toronto to Raleigh-Durham, and American Airlines serves Raleigh-Durham from London-Gatwick (but this will be changing to London-Heathrow on March 29, 2008) with connections to/from many cities throughout Europe, the Middle East and Africa via London.

Directions from Raleigh Durham International Airport (RDU) to Comfort Suites:

Exit airport onto Airport Blvd. From Airport Blvd merge onto I-40 East towards Raleigh. From I-40 take Exit 293A (US 1 South / US 64 West towards Sanford.) Follow US 1 South for about four miles to Exit 98A Tryon Road East. Merge onto Tryon Road. It's only a short distance to Ashville Avenue on the left. It's a small street just before the WakeMed Cary Hospital. O'Charley's restaurant is on the corner. Follow Ashville Avenue around to Comfort Suites.

Directions from Comfort Suites to TWR:

Ashville Avenue to Tryon Road. Turn right. Tryon Road becomes US 64 West on the other side of US 1. Turn left onto Gregson Dr. (There is no street to the right, but there is a traffic light on the corner.) It's only about 1.5 miles from the hotel. After you turn you will see a BP gas station on the right, but it's not visible from the main road so there is no landmark to tell you where Gregson Dr. is—just the street sign. It's MacGregor Business Park. Just follow Gregson Drive around until you come to TWR on the right.

HFCC Report On WRC-07

by Geoff Spells, HFCC Rapporteur

The World Radiocommunication Conference (WRC-07) was held in Geneva 22nd October to 16th November 2007. The agenda contained 23 items for consideration, one of which – Agenda Item 1.13 – contained a number of issues relating to services in the high frequency bands.

1.13 taking into account Resolutions 729 (WRC-97), 351 (WRC-03) and 544 (WRC-03), to review the allocations to all services in the HF bands between 4 MHz and 10 MHz, excluding those allocations to services in the frequency range 7 000-7 200 kHz and those bands whose allotment plans are in Appendices 25, 26 and 27 and whose channeling arrangements are in Appendix 17, taking account of the impact of new modulation techniques, adaptive control techniques and the spectrum requirements for HF broadcasting;

This agenda item proved to be very complex, open to interpretation and controversial as proven during the preparation of the Conference Preparatory Meeting (CPM) Report in the ITU-R study groups. The final CPM Report as input to WRC-07 contained two views on this agenda item, particularly with respect to Resolution 544 and the issue of additional spectrum for the broadcasting service.

The Conference chairman is usually agreed upon sometime before the conference starts. Although the process for selecting a chairman has been continuing for many months, there was no agreement until Sunday, 21 October, the day before the conference was due to start. This late agreement did not appear to delay the work of the conference, as the agenda items and relevant documents were quickly allocated to subcommittees. This process continued so that a number of sub-committees were soon working in parallel on the different issues.

Unfortunately, this rapid progress soon came to a halt for Agenda Item 1.13. The initial problem was what order to deal with the various issues contained within the Agenda Item. It became obvious that all of the regional groups outside Europe (CITEL,

Arab Group, APT, RCC and ATU) wanted to deal with Resolution 544 first, while CEPT wanted to take the issues in order of the agenda item. This stalemate continued until the second week of the conference, when the Chairman of the committee managed to get an agreement to take Resolution 544 for two sessions and then deal with Resolution 351 for the next two sessions.

At this point, CEPT found that they were the only regional group with a proposal to allocate additional spectrum to the broadcasting service. All other regional groups wanted a "No Change" (NOC) for Article 5 of the Radio Regulations for all services. They also wanted to deal with Resolution 544 first as they saw a linkage with Resolution 351 in the CEPT proposal for Resolution 544. Despite protracted discussions in the formal meetings and in closed sessions with the Chairman of the conference, this situation persisted until Wednesday of the third week. The Chairman advised CEPT to seek support outside of Europe for the proposal and to draw the inevitable conclusion if none were found and withdraw their proposal. On Thursday, 8th November, with little public support outside Europe, the CEPT was forced to accept a NOC for the broadcasting service.

Even though this opened the way to discuss the other issues contained in the agenda item, very little progress was made. Resolution 729 was modified as studies were considered to be complete in ITU-Ranged poor-to-good, while Resolution 351 was modified and put on the agenda for WRC-11. No changes were agreed upon for the amateur service under the review of all services in the range 4-10 MHz.

Although there was no additional spectrum allocated to the broadcasting service, there were some more positive decisions taken by WRC-07. A summary of the outcome of WRC-07 for the HF broadcasting service is as follows:

WRC-07 took the majority view and did not agree any new spectrum for broadcasting in the HF bands;

Resolution 544 has been suppressed and will therefore not appear on the agenda of a future WRC:

Resolution 517 has been modified to suppress SSB and to extend the range of broadcasting bands where DRM can be deployed to include all tropical bands above 3200 kHz;

Various footnotes in Article 5 have been modified to remove the reference to the WARC-92 bands and the date of implementation;

A new resolution has been adopted which requests ITU-R to continue studies on HF broadcasting;

The provisional WRC-11 agenda item dealing with DRM protection ratios (Resolution 543) has been deleted as this work can be studied in ITU-R Study Group 6 with a view to revise Recommendation ITU-R BS.1615 if necessary.

On the face of it, that doesn't look like much for what is essentially 7 years of work, but all is not too bleak. SSB has been deleted and the range of bands available to introduce DRM has been extended. With the new Resolution, studies will continue in ITU-R to build on the information prepared within HFCC and contained in Report ITU-R BS.2105.

Other issues relating to the broadcasting service:

Document 30 from Cuba concerned Radio Regulation 23.3:

23.3 2) In principle, except in the frequency band 3 900-4 000 kHz, broadcasting stations using frequencies below 5 060 kHz or above 41 MHz shall not employ power exceeding that necessary to maintain economically an effective national service of good quality within the frontiers of the country concerned.

The proposal was to create a new Resolution which provided an interpretation of 23.3 such that any broadcasting station that provided coverage outside the country in

which the station is located would not be in conformity with the Radio Regulations. After much discussion, no changes were made to No. 23.3 and no Resolution was adopted. However, a note of the conclusions of the discussions was agreed to be part of the minutes of the Conference.

Agenda Item 1.4 proved to be the most contentious issue:

1.4 to consider frequency-related matters for the future development of IMT-2000 and

systems beyond IMT-2000 taking into account the results of ITU-R studies in accordance with Resolution 228 (Rev.WRC-03);

The bands proposed for IMT included the UHF bands as well as C-band used by many services, including broadcasting. WRC-07 could not agree on a worldwide allocation for IMT but has provided access to different bands in different regions for IMT by footnotes to the Table of Frequency Allocations.

France Adopts DRM For Frequencies up to 30 MHz

News release from Fanny Podworny, DRM Consortium

Paris, France – On 5th December, 2007, French Minister of Culture, Mrs. Christine Albanel, signed a decree to confirm the adoption of Digital Radio Mondiale (DRM) and Terrestrial Digital Multimedia Broadcasting (T-DMB) in band III and in the L-band as the digital radio standards in France. With the adoption of both technologies, France is one of the pioneer countries for the digitalisation of radio.

The adoption of DRM in France is the result of long-term experiments and discussions conducted with or under the scrutiny of the regulatory and governmental bodies. The statements of industry ministers along the past years have paved the way for the decision made by the Minister of Culture and Communication. Both T-DMB and the DRM standard were named as driving technologies. The decision taken a few days ago is a confirmation of earlier announcements. The DRM and T-DMB adoption will boost the commercial launch of digital radio in France, scheduled for 2008.

The combination of both digital technologies DRM and T-DMB is the perfect solution

for public and private broadcasters, and for urban, rural and international broadcasting. DRM is a great way to enjoy not only international radio stations, but also some local and national radio. Michel Penneroux, DRM Commercial Committee Chairman, welcomes this significant step towards the digitalisation of radio: "The French government decision is the result of testing and debating on digital technologies in France. DRM radio receivers will now have a wide market in France."

Regarding the DRM consortium contribution to the French process, Penneroux says that: "Our DRM national platform in France has played a key part in this process that has led to the DRM standard endorsement. This encourages the work made by other DRM national platforms in Germany, Spain and Italy. We now speed up the duplication of such a platform in countries around the world."

Early in 2008, the Conseil Supérieur de l'Audiovisuel (CSA) will invite tenders for radio stations and programme editors to broadcast digital radio. The first digital radio programmes are expected to be on air in France in the last quarter of 2008.

BANGLADESH 7250 Bangladesh Betar, *1230–1259*, Feb 17, sign on with IS. Opening English ID announcements at 1230. Short bit of local music & into English news. 10 seconds of local music at 1237 and more news. Local music at 1243–1259. Abrupt sign off. Back at *1313 with IS & into listed Nepali programming at 1315. Surprisingly strong signal but hum and low, muffled audio made reception difficult & hard to understand. Occasional HAM QRM also (Brian Alexander, PA/DX Listening Dig./Hauser-OK)

BELGIUM Two new stations via TDP:

Hmong Lao Radio in Hmong: 0100-0200 Hmong 15260 TAI Th/Su

Hmong World Christian Radio: 0100-0200 Hmong 15260 TAI Sa (DX-MIX, Bulgaria)

BOLIVIA 4451.20 Radio Santa Ana, Santa Ana de Yacuma, Beni, 2330–2356v*, Feb 06, talks in Spanish, messages to listeners, presumed news and local events ann, music at 2350. Sometimes they mention "Radiocomunicacion Roco" what could generate doubt, and should sounds like "Radio...Co," "Radio Eco." It seems to be a service company of messages from listeners to be announced throughout radio stations, to another listeners. (Arago and Bobrowiec). Also heard 2330–2354*, Feb 08 and 11, talk, reading (telephone?) numbers, no music. Also heard 1010–1050, Feb 14, fair. The 4451.20 signal is significantly stronger than the signal I was hearing on ex 4650.2 in January. (Wilkner-FL/DSWCI DX-Window/Petersen-DK)

CHAD Colonel Thierry Burkhard, a French military spokesman, said around 1,000 to 1,500 rebels had entered the capital, N'Djamena, on Sa Feb 02 and some were approaching the presidential palace and were clashing with government forces there. Opposition leader Ibni Oumar Mahamat Saleh said the state broadcaster had gone off the air in the morning. (Extracts from UKPress via Gupta and Howard/DSW-CI DX-Window/Petersen-DK)

Acc. to various news reports, the national radio station has been destroyed, or at least put out of action. This extract from the timesonline.co.uk today (Feb 03): "... Witnesses said that the latest round of fighting had destroyed the main market in N'Djamena and the national radio station. One witness said: "The public market was partly set on fire in the morning after a helicopter [belonging to government forces] fired a rocket at rebels. The start of the fire triggered a panic, after which the crowd

came back to ransack the market." Another witness reported that the radio station had been pillaged by a mob that smashed broadcasting equipment and made off with computers...." (Pennington, BDXC-UK via DXplorer/DSWCI DX-Window/Petersen-DK)

4905 *Radio Dif. Nationale Tchadienne*, Grevia, was noted off the air on Feb 02, 03 and 04, not even a carrier. (Petersen-DK/DSWCI DX-Window)

4904.97 Radio Dif. Nationale Tchadienne, Grevia, N'Diamena was still off the air Feb 04, 05 and 06. (Bernardini and Petersen). Back from temporary studio on reduced schedule from Feb 07. Heard *0437-0740 fade out, Feb 08, 09, 11, 12, 14, 15 and 17. (first sign on *0450 in mid Afropop song on Feb 13) (*0430, but off 0550-0625, Feb 17) and*1600-2126*, Feb 07, 10, 11, 12, 13, 14, 16 and 19 (Off Feb 17 and 18 at 1815), signs on and off with the orchestral National Anthem of Chad, morning mostly in French, evening in Vernacular until 1900, then French, ID's, news, reports, it is impressive to say, that merry African pops could be heard often although the political tension must be still continuing in N'Diamena. According to many reports the radio is back broadcasting from a temporary office, in a private building. (Bernardini, Bueschel, Cruz, D'Angelo, Goncalves, Goonetilleke, Hauser, Kato, Liangas, Petersen, Ratzer, Ritola, Romero, Ronda in DXplorer and Wilkner/DSWCI DX-Window/Petersen-

CHAD LOSES HISTORIC VOICE IN LOOTING OF STATE RADIO Tue Feb 19, 2008 6:06am EST

By Stephanie Hancock and Moumine Ngarmbassa, Reuters

N'DJAMENA (Reuters)—From landmark speeches made at independence to recordings of beloved musicians long since dead, Chad lost historic audio archives in the looting frenzy that accompanied a rebel assault on its capital this month.

Like many other state institutions in N'Djamena, the Radio Nationale du Tchad (RNT) was pillaged by civilians who ran amok during two days of chaos on February 2-3 when government forces were busy repelling the insurgents in the city.

All that remains is the charred shell of its offices. Walls are blackened; windows have exploded; furniture has been reduced to rubble.

Inside the gutted building, every public audio archive since Chad's independence has gone up in smoke, including recordings of the former French colony's independence day itself.

"There's nothing left to be saved," said RNT director Halime Assadia Ali, covering her mouth with her headscarf to give some protection from the choking dust.

Ash and twisted metal crackle underfoot as journalists try to salvage what they can from the wreckage. In the archives department, decades' worth of radio spools lie in neat rows, crumpled by the heat.

"I don't know why they did this because the radio is like a national institution, it's the voice of everybody, it's for the whole country, so I don't know why it would be destroyed," Halime told Reuters.

"It's existed since 1955, but with all the events we've had in Chad this is the first time the radio has been looted, burnt and trashed."

The uncomfortable truth is that civilian looters did the damage as they poured into the streets, ransacking parliament buildings, ministries and foreigners' residences, many driven by resentment against President Idriss Deby's 18-year rule.

Deby's forces said they beat off the rebel raiders on the city, whom they said were backed by Sudan—a charge denied by Khartoum. The rebels said they withdrew and would strike again.

BROADCASTING FROM A MOSQUE

"Following the destruction of the state radio station, its journalists decamped to N'Djamena's main mosque, where 'Koran FM', the mosque's in-house radio station, opened up its offices.

*In between calls to prayer from the mosque's twin minarets, state radio is now back on the air, broadcasting in French, Arabic and a host of other local languages.

The station normally employs 350 people, but only a fraction of these can fit into Koran FM's tiny offices.

"Our teams who finish working late at night are forced to sleep in the mosque because it's too late to go home, what with the curfew and security situation," said broadcast journalist Barribo Talo. "The conditions are difficult, there are no mosquito nets, and lots of us are falling ill with malaria."

Talo is angry at those who pillaged the radio, which will cost more than \$6 million to re-establish. Traditional music, as well as landmark speeches including those by Francois Tomalbaye, Chad's first president after independence, and Hissene Habre, a former dictator now awaiting trial for crimes against humanity, have all gone up in smoke.

"Those who came to loot don't even know the value of what they took," Talo said, adding that the state would be able to buy new equipment, but not replace the destroyed archives. "Certain songs, certain political speeches, these have all been ruined.

Some artists who are dead, we've lost all their songs. We've lost our cultural riches, many of the country's memories have been lost forever," Talo added. (Editing by Nick Tattersall/via Myke Weiskopf-CA/http://www.mykeweiskopf.com/Feb 19/DX Listening Digest/Hauser-OK)

7 February 2008 at 1900 *Radio Chad* had a frequency announcement on 4905 kHz. I noted they announced one 41 mb frequency, but couldn't make out what it was. Jean-Michel Aubier in France had a listen to the audio file and he says:

"Not easy to understand with their African accent! The man announces 7120 kHz in the morning and 4905 kHz in the evening + 94.5 MHz in N'Djamena. No precise schedule given."

So, 6165 was changed to 7120. Many thanks, Jean-Michel and many thanks also to Mauno Ritola and Henrik Klemetz for their help (Savolainen-Finland, Feb 9/DX Listening Digest/Hauser-OK)

Usually in the past, ex-6165: 4905 0430-ap-prox.0730 + 1800-2300 7120 0730-1030 Fri/Sat 1030-1800 daily (Wolfgang Bueschel/DX Listening Digest/Hauser-OK)

CONGO—DEMOCRATIC REPUBLIC 6210 Radio Kahuzi, Bukavu (t), 1930-2008*, Feb 01, talk and discussions, 2000 music and closing ann, weak audio and right at threshold. (Valko-PA/DSWCI DX-Window/Petersen-DK)

According to Press reports, earthquakes struck Rwanda and neighboring Democratic Republic of Congo on Sunday, Feb 03, killing at least 30 people and seriously injuring 350 more, officials said. At Radio Kahuzi, Richard, Kathy and the transmitters are all intact. Richard reported: "It happened about 1030am in Bukavu. We are having aftershocks every 20 minutes." Richard believes that Mt. Kahuzi is becoming an active volcano. Further updates will be their blog: www.radioposted to kahuzi.blogspot.com. (Churchill in DXplorer/DSWCI DX-Window/Petersen-DK)

Due to technical difficulties, *Radio Tangazeni Kristo* has no further plans to operate on [4845] shortwave. (WRTH update/DX Listening Digest/Hauser-OK)

COSTA RICA 5954 Guapiles, Limon, 2303-2320, Jan 25, Feb 01 and 16, Mexican music from the 40 kW ELCOR transmitter testing at Guapiles, Eastern province of Limon, according to Jorge Cuadra, a former Elcor engineer, who helped install it. Organization currently unknown. Too much QRM from Okeechobee 5950. (Hauser and Saavedra in DXLD/DSWCI DX-Window/Petersen-DK)

- * Alo Presidente
- ** Mesa Redonda

(DX-MIX, Bulgaria)

ECUADOR HCJB has been granted an extension of at least six months for dismantling its antennas near Pifo. HCJB agreed that 30 towers would be removed by Dec 2007. The first phase, in early 2006, saw 18 towers lowered. They were to remove 12 more in the second phase. Continued use of these will be permitted, along with 18 others that will not

impede approaching aircraft. They will continue two frequencies to Brazil, plus DRM test transmission to Europe and other countries. On Jan 26, they will inaugurate a daily, one-hour DRM program stream in Portuguese to Brazil. (HCJB via Gupta/DSWCI DX-Window/Petersen-DK)

ETHIOPIA Radio Ethiopia is a commercial government station. Re. 5990/7110/9704: From 1400 hours onwards I noted that 5990 first mixed with co-channel VOIRI and is then completely lost under them. I never managed to hear 9704 during my trip, probably due to skip.

The new Oromo Service on 6030, identifying as "Radio Oromia," is on the air daily at 0400-0600, 0900-1100 and 1600-1800. Excellent reception everywhere, must be 100 kW.

The English program in the Home Sce is now a full hour, viz. Mo-Fr 1400-1500.

Mr. Melesse Edea Beyi is the head of the English language program in the Home Service as well as the programs in English, French and Arabic of the External Service. Somali is now aired at 0700–0800 and 1200–1300, Tigrayan at 1500–1530 and Arabic at 1400–1500 and 1530–1600. The Afari, English and French programs are still broadcast as per schedule.

Radio Fana now has two 100 kW transmitters, both on 6110 and 7210. Their 5970 appears to be inactive. In a month or two, the station will increase its broadcasting time to 18 hrs daily.

Mr. Fre Tesfamichael has left the Voice of the Tigray Revolution. Mr. Abera Tesfay has succeeded him as director. He told me that since May 2007 they have been using a 100 kW transmitter. It is located near Addis for better nationwide coverage. The two old 10 kW transmitters at Mekele will remain as standby. I was told that they simultaneously broadcast on two frequencies from the new transmitter. I expressed my surprise about this, but I am a technical layman, so who knows! They are still in a testing phase. Their assigned frequencies are: 5950, 5980, 6170 and 7155. I frequently heard the combination 5950 and 6170, but they were often silent altogether. They broadcast 66 hours a week in Tigrayan and 9.5 hours in Afari. They are now busy moving to a brand new building.

Before popping in at this station, I visited the impressive monument and nearby museum, dedicated to the long and bloody struggle of the TPLF (Tigrayan Peoples Liberation Front) against Mengistus Derg (junta). In the museum I also saw the old transmitter and antenna which had been used for some years in a cave in the Simien Mountains at an altitude of over 3500 m. when they were still a clandestine station. There was only one narrow path to the cave and all supplies had to be taken up via this tough route. They even carried up anti-aircraft guns and so the station was never silenced by the Derg. Mr. Abera and the director of PR, Mr. Berhaie, told

me of the hardships they had to endure in the cave, such as the cold up there. Before every broadcast they had to heat the frozen cooling liquid for the transmitter! (Van Delft-Netherlands, visiting Ethiopia/DSWCI DX-Window/Petersen-DK)

Voice of Tigray Revolution has been heard on 5950 kHz instead of 5960 (WRTH update/DX Listening Digest/Hauser-OK)

(WRTH Feb 4 update via DXLD) Yes, delete 1300, but continues at 1400–1500 during winter time (DX Listening Digest/Hauser-OK)

New entry: Haiv Hmoob Radio

Address: 1300 Godward Ave, Suite 6900, Minneapolis, MN 55413

Tel.: +1 651 8084647

Web: http://www.haivhmoobradio.com

Schedule February 2008:

0100-0130 Hmong 15260tai Tu

For Hmong listeners in China, Thailand, Laos, Cambodia and Vietnam (WRTH update Feb 4/DX Listening Digest/Hauser-OK)

MONGOLIA Mongolian Radio 2nd program on 7260 signs off at 1500. News in English: 0835–0845 on Tues/Thurs and in Russian: 0835–0845 on Mon/Wed/Fri. 1st program relays V of Russia in Mongolian between 1230–1300.

Voice of Mongolia revised schedule:

0800-0830	Japanese	12085
0830-0900	Mongolian	12085
0900~0930	Mandarin	12085
0930-1000	English	12085
1000-1030	Mongolian	12085
1030-1100	Mandarin	12085
1500-1530	Japanese	12085
1530-1600	English	12085

(WRTH Feb 4 update/DX Listening Digest/Hauser-OK) So there still is a second English broadcast, ex-1500 now at 1530 (gh, DXLD)

MYANMAR Defence Forces Broadcasting Network noted on 5770 at 1130–1630 (WRTH 2008 lists as from 1330). Also at 0130–0430, 0630(?)-0930.

Radio Myanma (?) noted *sign on at 2300 on 576, 594 & 5986. The SW channel 5986 is noted sign off at 0130*. 594 is unlisted in WRTH 2008 but reported by Alan Davis in DXLD at 2240-0240. 594 heard in local evening also around 1300-1330 but not in parallel to 5986. 576 is blocked by Radio Nepal from 2315 and in evenings. (Jose Jacob-INDIA/DX Listening Digest/Hauser-OK)

Sign-off at 1630? Several people, myself included, have consistently observed the sign-off at about 1530 UT [as above] (within a minute or two), since their return in Oct, 2007. (Ron Howard-CA/DX Listening Digest/Hauser-OK)

Myanma Radio's Padauk Myay program is carried on 594 and 5986 & FM between 2240-0230 (WRTH update/DX Listening Digest/Hauser-OK)

PAPUA NEW GUINEA All NBC Karai Network shortwave transmitters are currently off the air, but 4890 is expected to reactivate (WRTH update/DX Listening Digest/Hauser-OK) Karai = Port Moresby outlets, and regional stations listed on 49m, none heard for ages (gh, DXLD)

PERU 3172.7v Radio Municipal, Panao, 2350-0015 and 0920-1120, Feb 08, 09, 14 and 15, back after being off the air for over a month, but off the air 2300 on Feb 11 and 12. At 0930 ID: "...escuchando...Radio Municipal..." ID, with stronger that usu-

al signal on 14 February. (Wilkner-FL/DSWCI DX-Window/Petersen-DK)

Radio Manantial is a new station from Huancayo with 1 kW on 4991 kHz. Their web page is: http://radiomanantial.pe.nu (WRTH update/DX Listening Digest/Hauser-OK)

4990.8 Radio Manantial (t), 1104-1139 fade out Jan 29. Rustic OA vocal followed by a long talk by a man announcer in Spanish with greetings to listeners and TC that fits Peru. Some talk had a bad echo/reverb effect which hurt audibility. More vocals at 1127. May have opened around 1100 since nothing there in earlier checks. Needs a better OA morning for an ID. (D'Angelo-PA/NASWA Flashsheet)

Tropical Peru List

(DX-MIX, Bulgaria)

George McClintock has filed an application for a new SW station near Nashville, TN. He is the former GM and still a partner at WWCR, and also has been managing KAIJ near Dallas. On Jan 31, FCC accepted the application for filing, the first step. Studio will be in Murfreesboro TN, the same location from which KAIJ has been programmed; transmitter site at Lebanon TN. Lebanon and Murfreesboro form a triangle with Nashville, east and southeast of it.

The application calls for one Harris SW100 transmitter to a rhombic at 50 degrees, which will cover Europe as well as parts of Africa, and the USA. Further plans are for a total of two or three transmitters; the application can be amended if necessary.

The company is called Leap of Faith, Inc., get it? And the preferred call letters would be WLOF, altho these are currently held by a religious FM station in Attica, New York, on 101.7. They would have to agree to WLOF also being used by a station on another band, which is technically allowed, but seldom authorized by FCC; or might be willing to relinquish the calls. It is difficult to predict exactly when the new station would start broadcasting, but it could take some three months to grant the CP and at least another two months to build it.

Some clients have already been lined up. WLOF would not be totally religious, but would have programming from political and other entities which have not been on SW before. Political programming would likely skew to the right of center, simply because there is not much money or interest on the Left in SW broadcasting. The station could be useful in the 2008 presidential campaign, as soon as it can be on the air. George credits his experience with KAIJ in developing new sources of shortwave programming and revenue, never explored before, a good experiment.

As for KAIJ itself, owner Mike Parker says it will definitely be returning to the air, but not known exactly when. Operational rather than technical problems are causing the delay. At least initially, it will probably resume programming as before, run out of the Murfreesboro studio, altho Parker will be taking care of further sales and programming development there, with George handling engineering. The Dallas lawyer's website gh uncovered mentioning KAIJ in a bankruptcy proceeding took place several years ago, not recently. KAIJ's webstream is supposed to be active again, following crashes of two computers handling it. (Hauser, Jan 31/DSWCI DX-Window/Petersen-DK)

Pirate Radio Report

Chris Lobdell • P.O. Box 146 • Stoneham, MA 02180-0146 • crlobdell@verizon.net

Hello and welcome to the March 2008 Pirate Radio Report. Well, The Groundhog in PA did see his shadow this year, so it looks like winter will be around for a few more weeks. Let's hope winter type conditions stay around as well.

New Pirate CD Collection Available

I've been working with Bram Stoker of Radio Azteca [1992-2002] who was nice enough to lend me the original tapes to produce "Radio Azteca - All That's Gross But Tasteful". "Radio Azteca hit the pirate airwaves in September of 1992 featuring the biting wit and bodily function humor of Bram Stoker that featured bumper music from the Rocky and Bullwinkle cartoon TV show. A total of 48 programs.

This two CD mp3 audio set has all programs ever produced by Bram for Radio Azteca from the home office in Slipup, Kentucky. Relive all those great segments such as Animal Stories, Story Time, The Top Ten Lists, Actual Stuff, Mailbag and that all time favorite, Ask Dr. Radio! Hear about Bram's favorite characters Emilano Zamboni, Monique The Mailwoman, Reverend Billy Bob Chilipecker and Jean Guy Pepsi. Cost: \$10.00 Cash in North America, \$12.00 to Canada; \$15.00 US to the rest of the world. Mail to my address on the masthead.

Many thanks to these fine folks who made this column possible. Brian Alexander-PA, John Fisher-MA, Joe Wood-TN, George Zeller-OH

BLACK SHOP RADIO, a new one, was heard on 6925 USB from 2308 to 2342 sign off on Feb 16th* A combination of rap and rock. At sign on they had a clear "Black Shop Radio testing" ID at 2325. They are showing symptoms of being a new pirate, with the transmitter off and on at times and with production techniques evolving. Gave no address. This one is worth watching in the future, but it is slightly confusing now. (Zeller-OH)

PUXATONY POTHEAD RADIO, The Official Groundhog Day pirate station was heard on 6925 USB from 1713 to 1746 sign off on Feb. 2nd. First log of this station for me. Puxatony Phil's annual broadcast on Groundhog Day Mentions of broadcasting from Puxatony, Pennsylvania, USA. Several IDs and music by the Stones and others. Address given as POB 1, Belfast NY 14711, USA. [Wood-TN]

RADIO BORDERHUNTER, the Dutch Europirate, logged on 6210 kHz at 2325 UTC on Feb. 16th with ID "This is Radio Border Hunter" Played live version of "Stir It Up" by bob Marley. Signal was just above threshold and noisy. [Fisher-MA]

RADIO PLAYBACK INTERNATIONAL, a Europirate, [tentative] very weak on 6882 kHz at 2220 past 2255 UTC on Feb. 22nd. English programming with DJ chatter. Pop music. [Alexander-PA]

SYCKO RADIO has been rather active of late, noted on February 16th at 2252 UTC on 6925 USB relaying WBNY programming. Comments by Sycko followed by Cdr. Bunny's Presidents' Day show. [Wood-TN]

WMPR, the techno music pirate, was heard on 6925 AM from 2216 to 2234 sign off on Feb. 16th. Techno mx. Several IDs and s/off announcement of "Thank you for tuning in to WMPR-Micro Power Radio." [Wood-TN] I wonder if they'll be giving out QSLs at the Winterfest this year?

WPDR-President's Day Radio noted on 6925 USB from 1752 past 1911 on Feb. 18th. Said that it was only on once a year on President's Day. Aired recorded speeches from various presidents including Franklin Roosevelt Harry Truman, Lyndon Baines Johnson, Richard Nixon, Jimmy Carter, George Bush I and George Bush II. The Nixon speech was his resignation speech, and also they aired his "I am not a crook" [Zeller-OH]

See you at The Fest!

Dear Mr. Richard D'Angelo.

It is with great pleasure we hereby confirm that you have been listening to Radio Apintie on 21 December 2003 from 0316 to 0402 UTC on a frequency of 4,990 kHz.

On 12 December this year we took our new shortwave transmitter (Omnitronics 1000 watt) on the air.

Although the transmitter is used for our interior it is nice to receive reports from outside our country.

The antenna we use is 6 element log periodic beamed to the south.

Thank you for your report.

Wishing you and your family Happy Holidays

Charles Veryuurt, Director Radio Apintie P O Boy 595 Verl Gemenelanswee #37 Paramaribo Suriname

ment, as to what is your favorite QSL and why. I know I have several of them.

It could be your first shortwave QSLor it could be the one that took a dozen follow up reports. It could be a station that used very low power or one that was only on the air for a very brief period of time. It could be some of the more famous or exotic stations such as from Swan Island, Fiji, the Cook Islands,

Whatever the case we

would like to hear from you.

REO IRIRANGI O AOTEAROA O TE MOANA-NUI-A-KIWA

Most importantly, tell us the reason(s) why the QSL was one of your prized possesions. I'm sure it will be great reading for all of us. Looking forward to your correspondence...Sam.

Country List Committee Report

Don Jensen • 5204 70th Street • Kenosha, WI 53142 • dnjkenosha@acronet.net

Country List Updater

Counting countries logged and verified is a longstanding tradition in the DXing hobby dating back to the 1930s at least. Well over 40 years ago, NASWA—it was NASA then, but the space agency had a prior claim to that acronym—established its own unique list of "radio countries."

In the years since, usage of the NASWA Country List has spread. It has been voluntarily accepted by many listeners, whether NASWA members or not, around the world. Club members use the list for purposes of NASWA awards, the Journal scoreboard and for their own personal tallies of loggings. The NASWA Country List Committee (CLC) is charged with maintaining the list.

In the last few months, the CLC has been busier than it has been for several years. The committee has taken on a new member. I am pleased to announce the appointment of John Sgruletta, an avid "country hunter" himself, to the CLC.

He joins CLC members, Jerry Berg, John Fisher, John Herkimer and myself, committee chair Don Jensen. [Ed note: this column was prepared before the recent notice of John Sgruletta's passing. See NASWA Notes and Musings for more information about John.]

Unhappily, changes in the international situation have led to more and more countries leaving shortwave, and fewer and fewer "radio country" targets remaining on the air. There is nothing any of us can do to change that situation.

But not all the news is bad. Since late last fall, the CLC has added two new radio countries to the list. They appear in the Gazetteer Section of the NASWA list as:

MICRONESIA, FEDERATED STATES OF (OC) Part of the Trust Territory of the Pacific Islands until May 10, 1979; independent Federated States of Micronesia since, and in free association with the U.S. since Nov. 3, 1986. Station location: Pohnpei.

This new country is represented by a new religious SW broadcaster, The Cross Radio of Pacific Missionary Aviation.

NAGORNO-KARABAKH (Azerbaijan S.S.R.) (AS) Part of USSR union republic until Aug. 30, 1991; part of independent Azerbaijan until December 10,1991; separatist government since.

This new country is represented by the SW Voice of Justice in the capital of Stepanakert. The CLC concluded that its status as a quasi-independent country is analogous to that of Abkhazia (Georgian S.S.R.) and Pridnestrovie (Moldavian S.S.R.), both already on the NASWA list.

In other action related to Pridnestrovie (Moldavian S.S.R.) and Moldova (Moldavian S.S.R.), the CLC moved to clarify the situation with a revision to both Gazetteer entries, which now read as follows:

MOLDOVA (Moldavian S.S.R. (EU) Part of USSR union republic until Aug. 27, 1991; independent since. Station locations: Kishinev (Chinisau) and Grigoriopol. Receptions before December 1993 to count as this country.

<u>PRIDNESTOVIE (Moldavian S.S.R.</u> (EU) Part of USSR union republic until Sept. 2, 1990, separatist government since; Reception in or after December 1993 to count as this country.

There had been some confusion about how to count loggings and verifications of SW stations in this "radio country" and MOLDOVA (Moldavian S.S.R.). The CLC recognized that in the past, there was a SW transmitter at Kishinev (the city now generally known as Chisinau), capital of the former Moldavian S.S.R. before the breakup of the Soviet Union. Radio Moscow/Voice of Russia programs once were aired by this station, but this station no longer exists.

Later, there was a station established at Grigoriopol. V. of Russia and other broadcasters' programs were and continue to be aired by the Grigoriopol transmitters.

As the new Gazetteer entries indicate, Grigoriopol lies within territory of the separatist regime of Grigoriopol, which broke free of Moldova. The rest of the former Moldavian S.S.R., constitutes today's independent Moldova, and includes the city of Kishinev (Chisinau), where there no longer are SW transmitters.

Additionally, the Voice of Russia continues to mark QSLs as from Kishinev, although in recent years they have been aired from the Grigoriopol transmitters.

The CLC advises DXers that due to the complexity of the political situation, that Radio Moscow/Voice of Russia QSLs marked Kishinev be counted as Moldova (Moldavian S.S.R.) if the reception was before December 1993. Voice of Russia QSLs marked Kishinev from December 1993 or after should be counted as Pridnestrovie (Moldavian S.S.R.)

The effective result of this admittedly complex situation is that it currently is not possible to log the "radio country" of Moldova (Moldavian S.S.R.) because no SW transmitter presently exists within this territory. It is possible, however, to log the Grigoriopol transmitter, which should count as Pridnestrovie (Moldavian S.S.R.)

And, finally, the Gazetteer entries for a handful of other countries, most of them once part of the Soviet Union, were altered to correct terminology and erroneous dates of "independence," etc.

While it was important to correct such errors, none of them are substantive changes. None will change the way any countries are counted.

Please make sure you are using the <u>current edition</u> of the NASWA Country List. Look on the bottom of page 2 of your list. The latest edition is marked with the Print Date: 1/11/2008. If you have an older edition, the CLC urges you to go to the NASWA website, http://www.naswa.net/ and print an updated issue.

If you have any questions or suggestions about the NASWA Country List, you may address them to the CLC chairman, Don Jensen, 5204 70th Street, Kenosha WI 53142, or email: dnjkenosha@wi.rr.com

- 3220 ECUADOR HCJB Pifo 1126 Prg in Quechua; poor; 2/2. (Ronda-OK) 1115-1135 M & W in Quecha talking w/ short selection of local mx; poor; improving slightly to SINPO 24222; 2/8. (Evans-TN)
- 3230 S. AFRICA WYFR Meyerton 1915 Talks in EE; good; 2/4. (Bernardini-Italy)
- PNG R. West New Britain 1245 M DJ w/island-type songs; mx continued thru 1300 without pause; longer talk at 1304 that seemed like it may have included an ID; poor; not much above the noise floor; 1/14. (Schiefelbein-MO) 1240 Island mx w/ ancment by M at 1245; poor; 1/25. (Herr-CA) 1153-1224 (T); Choral mx, including a gospel song; mostly pop ballads after 1200; M in EE; could only copy a few words here &there "...from...in...with a...we are...radio..."; signal peaked around 1215; classic PNG prgrming; local sunrise propagation conditions for PNGs & the only other station on this FQ is an irregular Brazilian; so this is tentative due to the lack of an ID; fair w/ constant noise; 1/27. (Comeau-MA) 1242 S6 pop mx w/ occasional ancment; 1/27. (Strawman-IA) 1344-1350 Talk & songs; not // to R. Manus 3315; poor w/ occasional peaks to fair; 1/27. (Ronda-OK) 1148-1205 W ancr in (P) Tok Pisin b/w indigenous mx selections; lots of percussion/wind instruments & "wailing" vocals straight thru ToH; p-f at best; 2/5. (Barbour-NH)
- 3240 SWAZILAND TWR 0335 f-g w/ M speaking in Ndau; 1/19. (Ronda-OK) 0331-0345* M w/ ID & talk in Ndau lang followed by choir vocals & relg talks; EE ID at closedown followed by IS; carrier remained on for another two minutes before being terminated; f-g; 1/25. (D'Angelo-PA) 0313-0322 Mx at t/in; ancr in lang w/ ID; banter w/ W followed by talk until 0319 choral mx; fair; 2/3. (Barbour-NH)
- 3250.07 HONDURAS R. Luz y Vida 1243 SS mixed w/ co-channel DPR Korea martial mx; fair; 1/25. (Herr-CA) 3250 1103-1200 Unmodulated carrier; 1106 opening ancments & ID by M followed by anthem; talk by M in EE translated into SS by W; 1140 ancments by M; local mx & more talk to 1200 t/out; Initially poor; improving to good (SINPO 34333); 2/8. (Evans-TN) 3249 1236 Lively morning prg; birthday greetings in SS; f-g; 1/26. (Ronda-OK) 3249.9 0335 Long talk in SS; poor; sometimes peaking to fair; 2/9. (Ronda-OK)

- 3279 ECUADOR LV de Napo-R. Maria Tena 0455 Relg prg by W in SS; poor; 1/26. (Ronda-0K) 3279.9 1056-1116 Mx ending prg; M w/ SS relg talk & several IDs at 1100; vocal at 1105 followed by more relg talks; fair; 1/26. (D'Angelo-PA) 0410 "Radio María" at t/in; M in SS; slow ballad-style song; fair; 2/1. (Taylor-WI) 3279.6 1100-1110 "atenecion.. Sra Lopez"; 2/4. (Wilkner/RDXP-FL)
- 3279.99 CHINA VO Pujiang 1244 W w/ talk prg in CC; fair; 1/25. (Herr-CA) 3280 1146-1202 (P); Ancr in unid lang; weak under band noise; w/ occasional mx bits; ballad at 1155; pips at ToH followed by ancr; possibly // 4950 weak at imagination level; poor; 2/3. (Barbour-MH)
- 3289.98 PNG R. Central 1143-1200* Island mx at t/in w/ EE ancr b/w selections; "Lady in Red" followed by "You are listening to Nat'l BC Corporation..." ID at 1156; brief mx & ancr into NA at 1159; poor; 1/22. (Barbour-NH) 3290 1007-1033 (T); Indigenous mx & singing; followed by series of conversations in vernacular; weak; also heard 1059-1131 & 1155-1200*; nx (seemed to be segment in vern. & EE); 1105 DJ playing C&W songs ("Islands In The Stream" by Kenny Rogers & Dolly Parton, etc.); NA before s/off; rare for me to hear them above threshold level; 1/25. (Howard-CA) 1149-1159* Pop songs in EE; NA at s/off; CW QRM; 1/26. (Howard-CA) 1126-1207* Prg consisting of long talks by M occasionaly talking to another M; not very interesting as I waited for mx; finally, s/off w/ orchestra NA; poor; 1/28. (D'Angelo/FCDX-PA) 1143-1159* Ancr in EE b/w ballads; only able to fully hear a few words; NA at s/off; poor; 2/2. (Barbour-NH)
- BOLIVÍA R. Mosof Chaski 2350 Local tlk & mx; poor in noise; not heard in a while; 1/26. (Straw-man-IA) 2317-2335 Talk in Quechoa by W ancr in SS hosting prg of rustic vocals; 2328 canned ID & ancments w/ echo effect by M & W; into SS prgrming at 2331; poor; 1/28. (D'Angelo/FCDX-PA)
- PNG R. Manus 1134-1218 In Tok Pisin & EE w/ prg of C&W traditional ballads plus Everly Brothers "Take A Message To Mary"; Cindy Lauper "Time After Time"; 1200 choral anthem followed by exotic bird calls; seemed to be relay of NBC, brief news in EE w/ wx forecast ("showers"); DJ playing pop songs; IDs heard: "here on Radio Manus" & "NBC National Radio"; mostly fair; best in USB; 1/27. Howard-CA) 1248 SB pop mx at t/in; rising to S9 by 1345; 1/27. (Strawman-IA) 1256-1350 Poor; increasing to fair w/ talk & a variety of pop mx; some QRM from what seemed a MARS net at 1259; continued fair w/ mx prg until 1350; 1/27. (Ronda-OK) 1303-1312 In EE w/ NBC nx & mx; good; it sure is great to hear the PNG's at this level; 1/27. (Wilson-KY) 1306 M DJ in vernacular w/the usual PNG mix of western light pop & island/reggae tunes; several tunes played back-to-back w/no talk at all; still going when it finally faded out around 1350; fair; 2/7. (Schiefelbein-MO)
- 3320 N. KOREA *Pyongyang BS* 1246 Stirring martial/operatic mx fair; 1/25. (Herr-CA)
- 3320 S. AFRICA R. Sonder Grense Meyerton 0055-0100 W ancr in Afrikaans; mx & call-ins; 30dB signal until QRMed by Navy MARS net at 0100; exc; 12/31, (Parker-PA)
- 3329.53 PERU Ondas del Huallaga Huánuco 1100-1110 Drum based exotic mx; "...ay caramba... en elOndas del Huallaga..."; vg signal; 1/23. (Wilkner-FL) 1043; Mx at 1050; 2/4. (Wilkner-FL) 3329.71 1100; 1110-1120 W w/ M as conditions to Latin America have deteriorated in the last few days; 2/12. (Wilkner-FL)
- 3334.95 PNG R. East Sepik 1247 Mx w/W ancr; C&W 1304 in EE; fair. (Herr-CA) 3335 1201-1210 (T); Nx in EE (police report, etc.); wx (list of cities; all having "showers"); DJ playing pop songs, weak; 1/26. (Howard-CA) 1250 Similar prgrming to others heard; p-f; 1/27. (Strawman-IA) 1256-1302 ID & TC at 1300 w/ anthem into NBC nx; good; 1/27. (Wilson-KY) 3335 1241-1305* W DJ spinning island & light pop tunes; NA then switched to apparent relay of national network (w/ nx in EE) for a few minutes before pulling the plug; fair; 2/7. (Schiefelbein-MO)
- HONDURAS R. Misiones Internacionale Comayagüela 0004 Modern-sounding pop/rock mx 3340 w/lots of guick ancments & promos scattered in b/w; ID in passing as "Radio Misiones" noted a few times; audio seemed somewhat low; have not heard this station in a while & I see no logs in the NASWA Flashsheet since last November; fair; 1/30. (Schiefelbein-MO) 0110 Strong signal after being off for a week; ID by M w horn sound effects & others that sounded like Disney cartoons; 1/30. (Wilkner-FL) 0205-0217 Rapid fire SS anncr w/ lite, pop-like mx; (T) ID in passing at 0213; weak but clear w/ mild fades; 1/31. (Barbour-NH) 0503-0525 (P); Talk by M & W in SS followed by what sounded like contemporary relq mx at 0505; poor w/ heavy fading & atmospheric noise (SINPO 22222); no ID heard; 1/31. (Evans-TN) 0510-0536 (P); Faint but clear signal for praise & worship mx in EE w/ M ancr in SS; poor; 2/2. (Wood-TN) 3339.99 0235-0345 SS pops/ballads; ancments; promos; relg talk at 0303; ID; contemporary Christian mx; f-g; 2/3. (Alexander-PA) 1040 Relg message; "Gracias Senor Por su Amor..."; 2/4. (Wilkner/ RDXP-FL) 0228 In SS w/ Christian rap mx; ID at BoH; S5/fair; 2/8. (Wood-TN) 1115-1205 (P); Slow relg mx & M in SS; change at 1201 to M & W talking w/ upbeat relg mx in background; moderate signal w/ significant atmospheric noise & fading (SINPO 34222); 2/8. (Evans-TN) 0435 Fair w/ what sounded like a live relg prg w/ talk in SS & lots of lively songs; 2/10. (Ronda-OK) 0712-0803 US produced EE relg prg w/ SS translations; EE relg prg at 0733 w/out any SS talk; gave California address; SS contemporary relg mx at 0738; another US produced EE relg prg at 0803 & relgious mx; fair; 2/10. (Alexander-PA)

- PNG R. Northern 1206-1213 EE pop mx by Blondie, ballad by Bette Midler w/ ancr in lang b/w selections; poor, still audible on subsequent re-checks; 1/22. (Barbour-NH) 1247 Island mx w/ M ancr; fair; 1/25. (Herr-CA)1205-1228 W in lang b/w EE disco-era selections by Lipps Inc.; Donna Summer; also pop mx in lang; p-f; 1/26. (Barbour-NH)
- 3345 S. AFRICA Channel Africa Meyerton 0350 f-p w/ prg in EE; ID in EE at 0359; 1/19. (Ronda-OK) 0352-0413 Lively African vocals w/ drums hosted by M ancr w/ EE talk; 5+1 times pips at 0400 followed by M ancr w/ ID & another M w/ the nx; fair but somewhat noisy conditions; 2/2. (D/Angelo-PA)
- 3365 PNG R. Milne Bay 1203 (P); Ancr in lang w/ mx; barely audible under band noise; 1/22. (Barbour-NH)
- 3390.14 BOLIVIA Em. Camargo Camargo 0100-0020 Weak signal; no UTE interference; best recording of this I have heard was made by Dave Valko a year ago; 1/30. (Wilkner-FL)
- ZIMBABWE ZBC 2340-0002 Ancr in lang b/w Afropops & Afroballads; no discernible ID noted; weak but clear; 1/23. (Barbour-NH) 0133-0315 Started out poor, quickly came up to fair & then on to extremely good reception; 133-0205 heard w/ alternate segments of African hilife mx & M talking in lang over the mx; 0205 changed prg to ballad/soul/rap songs; back to hilife; gospel & pop songs in lang & EE (song "True Colors"); 0300 drums; IDs in EE: "Zimbabwe Broadcasting Corporation, Radio Zimbabwe, shortwave"; drums again; repeat of same ID; long list of cities w/ their FM freqs (Harare FM 96 MHz, etc.); list of SW freqs & details of being times; back to hilife mx & in lang; the whole time 4828 was also well heard; not parallel; w/ non-stop mx (hilife, gospel songs in EE, etc.) but with no ancments; super enjoyable listening! 1/27. (Howard-CA) 0103-0108 M ancr in lang and mx; weak but 100% readable; 12/31. (Parker-PA) 0149-0202 Usual format of ancr in lang b/w easy listening Afropops; (P) phone number given at ToH; as usual, no discernible ID noted; weak but clear; 2/1. (Barbour-NH)
- 3810L **ECUADOR** *HD210A* Guayaquil 0113-0 115 Weak signal; still readable through ham QRM; 12/31. (Parker, PA)
- PNG R. New Ireland 1215-1233 Continuos lite pop mx w/ ancr in (T) EE b/w selections; (T)
 "You are listening to..." ancment at 1217; f/out after BoH; poor w/ mild USB chatter; 1/22.
 (Barbour-NH) 1300 Mx; W in EE; s/off w/ anthem; fair; 1/25. (Herr-CA) 1135-1225 Prg of island vocal selections hosted by W ancr w/ EE/Pidgin talk; p-f; 1/28. (D'Angelo/FCDX-PA) 1130 Noted again next morning w/ mx prg at slightly improved level; 1/29. (D'Angelo/FCDX-PA) 1206-1236
 W ancr in Tok Pisin w/ nx at t/in; bits of EE; "...ecomonic...April...Sudan..."; indigenous mx/ ballads from 1211 thru t/out w/ W ancr b/w selections; more EE bits at 1217; "..national...one week..."; fair at t/in & holding steady, started to fade around 1225. (Barbour-NH)
- 3925 JAPAN R. Nikkei 1243 Lively exchange in JJ b/w M & W; quick Nikkei ID at 1245; good; 1/27. (Ronda-OK)
- 3985 CROATIA Hrvatski Radio Deanovec 0254-0300 Cool jazz tune into more pop/lounge song; time pips to ToH & EE ID for Croatia Today prg; good; 434; 1/29. (Wood-MA)
- 3987 INDONESIA RRI Manokwari 1302 Pop mx w/ Indo cmments; poor in HRO slop but fair at times; 1/26. (Strawman-IA)
- 3995 INDONESIA-SULAWESI RRI Kendari 1350 (P); Weak w/ pop mx; Pontianak-3976 also in at 1408 w/ pop mx but weaker; 1/26. (Strawman-IA) 2151-220 M ancr w/ talk in Indonesian until mx fanfare at 2159 followed by SCI; M w/ RRI ID prior to Jakarta nx but a loud growl dominated the channel at that point making further reception impossible; p-f until the growling began; 1/27. (D'Angelo/FCDX-PA)
- 4005 VATICAN CITY R. Vaticana 2217-2230 M ancr in Italian w/ relg talk; ID at 2220; chruch bells followed by choral chanting/prayer until BoH; f-p; 2/5. (Barbour-NH)
- 4052.5 GUATEMALA R. Verdad Chiquimula 0430-0500 M ancr in EE w/ Christmas mx; enormous 60-70db signal; 12/20. (Parker-PA) 0438-0520 Prg of soft relg vocals to 0500 SS ID & ancments by W ancr; after a brief instrumental mx segment; a M ancr gave the station ID in EE as "Radio Truth." A couple of EE lang relg vocals followed w/ an EE talk at 0514; fair; 1/4. (D'Angelo-PA) 0515-0535 In EE w/ Hymns & short devotional talks between them; signal was good w/ fair audio; 1/19. (Wilson-KY) 1116 "Las Palabras de Dios"; 1/31. (Wilkner-FL)
- 4220 CHINA Qinghai PBS 2340 In listed Tibetan w/ Central-Asian style vocals & M ancr taking a couple of listener phone calls (requests?) between songs; 5+1 pips at 0000 & ID w/echo effects by W; remarkable S9+ signal on apparent greyline prop; near armchair copy; slight QRM from a warbling ute, otherwise good; 1/14. (Schiefelbein-MO)
- 4330 CHINA Xinjiang PBS Urumqi 1250 (P); Listed Kazakh svc had vocal mx at threshold level; poor overall; 1/26. (Strawman-IA) 0205-0220 M & W ancrs in Kazakh; slow Kazakh mx w/ M vocal; W calling into show; best in LSB to avoid CW QRM; fair; 1/5. (Parker-PA)
- 4409.79 BOLIVIA R. Eco 2306-2318 (P); M w/ SS mx & talk; poor under band noise; unusable at t/out; 1/23. (Barbour-NH) 0218-0230* EZL SS mx; ancr at 0024 w/ distorted audio; mx from 0226 until pulled the plug at 0230; poor; 1/27. (Barbour-NH)

- 4450 N. KOREA KCBS Pyongyang 1203 (P); Martial mx w/ M ancr in KK; just above static threshold in quiet conditions; 1/3. (Taylor-WI)
- 4451.202 BOLIVIA R. La Cruz del Sur 2350 M talk; no mx; ...off; 2/9. (Wilkner-FL) *2354 2/8. IDed by Lucio Otavio Bobrowiec; (Wilkner-FL)
- 4460 CHINA CPBS Beijing 2328-2345 Mx to ID at 2330 followed by various talk features in CC; series of promotional ancments at 2340 followed by another talk segment; fair; 1/27. (D'Angelo/FCDX-PA)
- 4495.88 PERU R. Frecuencia VH 2320-2333 (P); M w/ SS mx & talk; canned annmt at 2331; signal too weak under static to ID; poor; 1/23. (Barbour-NH)
- 4605v INDONESIA-IRIAN JAYA *RRI Serui* 1228-1238 Mx at t/in; W in Indo at 1230 w/ presumed Jakarta nx relay; poor, tough time locking in freq; 1/26. (Barbour-NH) 4605 1233-1315 prg of continuous Indo pop tunes until 1300 when time pip noted followed by (P) ID & local nx; poor & fading; 1/29. (D'Angelo/FCDX- PA) 4604.8 1115-1120 Srong signal; 2/4. (Wilkner/RDXP-FL)
- 4699.4 BOLIVIA R. San Miguel 2305-2317 M ancer w/ usual long SS lang talk; rustic vocal selection followed by another talk w/ TC & ID at 2313; poor; 1/28. (D'Angelo/FCDX- PA) 4699.35 1016-1032 Two M w/ SS talk thru BoH; weak but clear; 2/8. (Barbour-NH)
- 4716.65 BOLIVIA R. Yura Yura 2300 Returned to freq after a weeks absence 2300; 2/8. (Wilkner-FL)
- 4732 BOLIVIA R. Universitaria Cobija Pando 0930 W/ RTTY also present; seemed just an open carrier at 0930; mx much later at 1055 recheck; 1/22. (Wilkner-FL) 0800 Only RTTY till 1020; recheck at 1105; good signal but fading out; 1/23. (Wilkner-FL) 2350-0000 Locator en espanol y musica Boliviana; this under ryryryryryry of tty & CODAR; still Universitaria is dominating on this good CP night; exc; 1/28. (Wilkner-FL) 0135-0149* Prg of lively vocals hosted by M w/ SS talk; TCs & IDs w/ buenas noches at closedown; no NA at s/off; p-f w/ moderate splatter from CODAR but very heavy; although intermittent; RTTY QRM; 1/29. (D'Angelo/FCDX- PA) 1046-1107 Harmonizing trios & piano mx; surprising strength after f/out of R.Yura 4717v & R.San Miguel 4699v; 1/29. (Wilkner-FL) 1035-1058 "...Emisora de Bolivia..en el departamento de [sound effect] ..metros, Radio Universitaria..." by W; followed by canned sound effects & two repeated IDs; this the strongest signal yet from R.Universitaria, the f/out is very rapid! 1/31. (Wilkner-FL) *1100-1110 W/ mx; no ID slogan heard; good; 2/4. (Wilkner/RDXP-FL)4732.02 0033-0315 (P); Very weak, threshold signal at times w/ SS ballads & talk; too weak to catch an ID; 1/19. (Alexander-PA) *1014-1032 Musical bit & brief M in SS at s/on; ballad followed by ID annmts at 1019; various ads/promos thru 1024 then mx thru t/out; p-f; 1/25. (Barbour-NH) 1045-1050 Nice SS vocal ballads w/ brief ancr at 1048; weak; f/in & out; 2/5. (Barbour-NH)
- 4746.8 PERU R. Huanta 2000 1059-1110 M ancr w/ SS talk; ID & TC; hosting prg of OA mx; p-f; 1/29. (D'Angelo/FCDX- PA)
- indonesian pop songs; segments of reciting from the Qur'an; holding up well against CNR-1; has been a while since I last hear this above threshold level; 1/24. (Howard-CA) 1423 Fairly good & better than it has been recently; as late as 1423; M & W in Indo talking over mx; a quick check for VOI found it still on 9526 around the same time; 1/25. (Hauser-OK) 1352 Signal was S6-7 w/ extended chatter by W into pop mx at 1354; 1/27. (Strawman-IA) 1356 Poor w/instrumental mx; no ID at 1400; talk in Indo at 1404 recheck; poor; 1/27. (Ronda-OK) 2143-2232 Mx prg until SCI; RR ID & Jakarta nx w/ several IDs during the nx prg; national nx at 2206; ended at 2212 followed by local ID & mx prgrming; p-f at t/in w/ CODAR QRM but signal steadily improved to good during the nx; quite enjoyable; 1/27. (D'Angelo/FCDX- PA)
- 4754.9 BRAZIL R. Imaculada Conceição Campo Grande 0620-0613 W in PP; mx bridges w/M vocal & touch tone dialing; only fair due to strong CODAR; 12/5. (Parker-PA)
- 4760 ANDAMAN & NICOBAR ISLANDS AIR Port Blair 1140 F/in w/ subcontinental mx; W at 1157 & 1217; providing a steady signal; 2/4. (Wilkner/RDXP-FL)
- 4760 INDIA AIR (Leh? Port Blair?-ed.) 1410 Snatches of audio at near imagination level; not heard in a LONG time; 1/27. (Strawman-IA)
- 4760 INDIA AIR Leh 1250 (P); S. Asian mx w/ M ancr in Hindi or Kashmiri; poor; 2/2. (Taylor-WI)
 4760 LIBERIA ELWA Monrovia 2254-2303* In EE w/ relg mx; short relg talk by M; anthem at 2300
 followed by a couple of minutes of unmodulated carrier to 2303*; poor signal (SINPO 22222);
 1/17. (Evans-TN) 2030 Talks; fair; 1/26. (Bernardini-Italy) 2217-2232* Prg of vocals until closing
 ID & ancments by M in EE prior to orchestra NA; good signal; 1/27. (D'Angelo/FCDX- PA) 2253
 In EE w/ mx at 2253; s/off ancment & anthem at 2259; signal was f-g but bassy mic EQ made
 the audio VERY hard to understand; 1/30. (Wilson-KY) 2213--2303 In EE & ocal langs; M w/
 short conversation w/ W (call in?)' hymn; prg of Contemporary Christian mx w/ W ancr; 2300
 ID; prg info & sched; NA; 2303 off; p-f; 2/1. (Taylor-WI) 4759.97 2250-2302* Contemporary
 Christian mx; EE ID & closing ancments at 2300; NA at 2301; fair; 2/1. (Alexander-PA) 1912
 Relg talks in EE; f-g; 2/5. (Bernardini-Italy)
- 4760 SWAZILAND TWR 1655 Talks in lang; off at 1657; 1/26. (Bernardini-Italy)

- NIGERIA R. Nigeria Kaduna 2135-2141 M ancr in lang; drama in EE; in the clear & QRN free w/ 40dB signal; 12/26.(Parker-PA) 0450 Light pop instrumental mx; ID at 0459; fair; 1/26. (Ronda-0K) 2220-2301* Heavily-accented M DJ in EE w/ a selection of EZL tunes; ID & closing ancments to NA; some thunderstorm QRN but f-g overall; 1/29. (Schiefelbein-M0) 2236-2301* Mellow pop mx w/ ancments & IDs by M in EE; nx headlines at 2255 followed by mx at 2257; closing ancments by M at 2259; anthem to 2301*; good signal w/ fading (SINPO 34323); 1/29. (Evans-TN) 0435-0516 Choral singing followed by M w/ prayer in EE; appeared to be a relg prg w/ other choral selections & relg talks; ID at 0500 followed by nx w/ numerous remote reports; fair: 2/7. (D'Angelo-PA)
- PERU R. Tarma 1112-1127 Fast talking M ancr w/ SS talk; IDs & TCs; hosting prg of OA mx; p-f; 1/29. (D'Angelo/FCDX- PA)
- 4775 SWAZILAND TWR Manzini 0422 Relq prg in GG; poor; 1/23. (Ronda-OK)
- 4777 GABON RTG 0510-0530 M & W ancrs in FF; upbeat mx; loud 50dB signal mostly overcoming strong CODAR QRM; 12/20. (Parker-PA) 0520-0534 09 M ancr in FF w/ a Saturday morning wake up show; many "Bonjours" to go along w/ the Afropop & 1970s US pop mx; the best signal from this station in a long time. S9+10/q-vg; 2/8. (Wood-TN)
- DJIBOUTI RTD Doraleh 0354-0415 HoA mx w/ short AA ancments by M; talk by M at 0401; more mx at 0406; strong signal w/ CODAR interference (SINPO 43333); audio somewhat low; 1/26. (Evans-TN) 1659 Talks & songs; exc; 1/26. (Bernardini-Italy) 0347 EZL African pop vocals w/ "zipper" CODAR; f-p; 1/27. (Ronda-OK) 1934 Songs; really good signal; 2/4. (Bernardini-Italy) 0304 R. Cultural Coatan s/off at 0303 w/ Djbouti coming up within a minute; Qu'ranic recitations in AA; apparent cmentary in local lang (Afar?); fading down & gone by 0320; plagued by both CODAR & occasional digital bursts on USB; fair signal; poor QRM; 2/8. (Taylor-WI)
- GUATEMALA R. Cultural Coatán 0155-0207 M & W ancrin SS; exc ranchero mx prgm; huge 4780 90dB signal in the clear; louder than Ethel Merman w/ her hand caught in a car door! 1/2. (Parker-PA) 1333 A regular here in the mornings; unfortunately I don't usually fire up until after sunrise. Following John Wilkins' hypothesis that XERTA might be on 4780 too, I paid more attention than usual: around 1333 mariachi mx, mixed w/ talk but hard to ascertain lang, suspect not SS; 1401 ID mentioning 60 metros, but could not catch name of station; musical bed w/ the ID was, incongruously for either; "London Bridge"; afterwards in talk segment, evidently preaching, in non-SS, except for an occasional recognizable SS word such as "capitulo"; "versículo", i.e. chapter & verse in Bible quotations; gradually fading but still audible at 1410; almost gone by 1420 when I quit. I doubt that XERTA in the DF would be b/cing in any native lang, but TGLT certainly does; meanwhile, nothing more than a carrier detectable on 4800, if that was XERTA; there was no more than one signal on 4780, aside from the constant CODAR sweeping by that and 4800; then I see Scott Barbour's rpt of Jan 17 that TGLT s/on at 1129 w/ "London Bridge"; that clinches it for me; 1/18. (Hauser-OK) 4779.97 0235-0303* Local mx; SS ancments; ID; closing ancments at 0302; fair but some QRM from Djibouti 4780 at their 0300 s/ on; 1/20. (Alexander-PA) *1030-1040 S/on w/ SS choral mx; ID annmt "....Guatemala...Radio Coatan...4780 kHz onda corta..." brief anner at 1035 followed by mx thru t/out; fair w/ mild het via 4781v-Bolivia; 1/24. (Barbour-NH) 0235-0259* Prg of vocals & marimba mx hosted by M w/ SS talk & periodic IDs; close down at 0258 w/ M ancr providing several IDs while instrumental mx played in background; p-f signal but a growling noise in channel & CODAR made a mess of things; 1/25. (D'Angelo-PA)
- 4781.40 BOLIVIA R. Tacana Tumupasa 1000 Poor w/ CODAR dominant; recheck 1017 w/ improved signal; into mx w/ locutor ID at 1021 as "Radio Tacana"; flauta andina stayed in w/ decent signal till 1105; best signal in months; 1/23. (Wilkner-FL) 1014-1030 M w/ SS talk b/w musical bits; lite SS mx; ID at 1025; poor w/ CODAR; QRMed at 1030 via 4780 R. Coatan-Guatemala s/on; 1/24. (Barbour-NH) 1033 (P); Heard just about a minute of SS W ancr before signal wiped out by 4780-R. Coatan s/on; poor under CODAR; 2/8. (Barbour-NH)4781.48 1050-1100 Noted w/ good signal; 1/29. (Wilkner-FL) 4781.5 *1012-1038 M w/ ID & opening ancments in SS hosting prg of rustic vocals w/ TCs & IDs; ew for me & tnx to recent logs of Bob Wilkner & Scott Barbour; poor but relatively clear despite CODAR QRM until Guatemalan opened on 4,780 kHz deteriorating reception to almost useless at that point; 1/29. (D'Angelo/FCDX- PA)
- INDONESIA-W. IRIAN JAYA RRI Fak Fak 1238-1250 Indo ballads w/ brief talk by ancr; slipping under CODAR by t/out; poor; 1/26. (Barbour-NH) 1355 Similar level & prgrming as Makassar but suffering from CODAR; 4870 Wamena also in but poor; 1/27. (Strawman-IA)(P) 1358 Poor but readable w/ instrumental mx; (P) ID at 1400; 1/27. (Ronda-OK) 2138-2200 Talk by M ancr followed by W ancr in Indonesian w/ some mx; generally poor due to CODAR QRM & very faint for SCI at 2200; 1/27. (D'Angelo/FCDX- PA) 1130 Noted again at good level but faded down to poor by 1200; 1/28. (D'Angelo/FCDX- PA) 1348 W in Indo; S. Asian sounding mx; more talk; western pop; poor; 2/2. (Taylor-WI)

- 4790.20 PERU R. Visión Chiclayo 0209-0218 Loudspeaker preacher in SS; 40dB signal overcoming CODAR nicely; 1/2. (Parker-PA) Not heard 0750-1100; 1/23. (Wilkner-FL) 0958-1008 Back on after several days absence w/ familiar format of M ancr & "live" relg svc; poor under static; also sounds like possible modulation problems; 1/25. (Barbour-NH) 4790.1 0046-0215 Mix of OA vocals w/ local ancr chatting it up b/w mx selections & relgi talks before a live audience; p-f w/ some CODAR QRM; 1/29. (D'Angelo/FCDX- PA) 4790.15 0103 Usual SS preacher before a live audience both preaching & singing: fair: 2/3. (Taylor-WI)
- 4800 CHINA CPBS Geermu 2234-2245 M & W w/ talk in Mandarin; (P) ad string at 2245; p-f under CODAR; better on //4460-Beijing; 2/4. (Barbour-NH)
- GUATEMALA R. Buenas Nuevas San Sebastian 0330-0345 M ancr & mx in SS; good signal but strong CODAR was trashing it; 1/15. (Parker-PA) 4799.75 1235 M ancr on t/in w/ cmentary & a couple of near-immediate IDs as "Radio Buenas Nuevas" amid his talk; slight heterodyne from something on or near 4800 (XERTA??), but too weak to tell what it might have been; f-g; 2/7. (Schiefelbein-MO)4799.79 0415-0433* Local relg mx; SS talk; closing ancments w/ ID at 0432; poor signal in noise; CODAR QRM & slight het from (P) Mexico 4800; tnx to Mark Schiefelbein for tip; 2/8. (Alexander-PA) 4799.816 1230-1305 Same W as before; marimbas on the hour; M ID after the hour. Per M. Schiefelbein log in Cumbre; 2/8. (Wilkner-FL) 4799.9 0024 Clear ID in SS; poor; 2/9. (Ronda-OK)
- MEXICO XERTA 0242-0335 (P); Segments of non-stop relg mx & singing; segments of talking (preaching?); weak w/ usual CODAR QRM; still no ID but best reception so far; 1/15. (Howard-CA) 0350 Light classical mx; f-p; 1/15. (Ronda-0K) 0300 Similar prg; no ID heard; 1/19. (Ronda-0K) 0920 Excellent signal w/ mx; off the air at 0955 recheck; period of testing? 1/23. (Wilkner-FL) 0939-1015 Distinctive prg of non-stop songs by children in SS; clearly parallel to their live audio streaming http://www.xertaradio.com/transmision.htm (tnx to Mark Schiefelbein for noting this way for positively ID'ing them); still no ID heard; fair; decent strength but some splatter from an unusually strong Brazil on 4895; CODAR QRM; 1/26. (Howard-CA) 0344-0436 Continuous prg of vocals; poor signal & QRM from CODAR making this difficult; 1/28. (D'Angelo/FCDX-PA) 0700 (P); Mx in quick check; heavy CODAR QRM; have not had much sign of this before so maybe improved antenna &/or power; 2/3. (Hauser-OK) Seems on an irregular sched on this freq; 2/9. (Wilkner-FL)
- 4805 BRAZIL R. Difusora Manaus 1035-1041 In PP w/ ad string, "Difusora" jingle ID's & M ancr; fair; 2/5. (Barbour-NH)
- BRAZIL R. Difusora Londrina 0219-0226 M ancr & mx in PP; f-gdespite CODAR; 1/2. (Parker-PA)

 ECUADOR R. El Buen Pastor 0127-0140 M in SS w/ comment/sermon & another M giving one or two word interjections; mentions of Ecuador & economia into Andean mx; TCs then more mx; above CODAR & static; good; 333; 1/30. (Wood-MA) 0238-0301* (T); W w/ SS pop & ballads; canned promo w/ (T) ID & mentions of Ecuador amid heavy echo effect; closing ancment over mx by deep-voiced M then off at 0301; some CODAR QRM & splatter from whatever the racket is on 4810; fair; 1/30. (Schiefelbein-MO) 0257-0302 Noted w/ M ancr in SS w/ talk & eventually ID; closedown ancments; off w/out an anthem; fair; 2/2. (D'Angelo-PA) 4814-93 1110-1115

 ".en las constitution ..mucho mas directo y la ... grande .." two M in rapid SS; strong signal; 2/12. (Wilkner-FL)
- INDIA AIR Kolkata 1333 Mixing w/ PBS Xizang-Lhasa; alternated being on top of each other; mixture at S6 level; 1/27. (Strawman-IA) 1232 S. Asian mx w/ W ancr in Hindi; 2/2. (Taylor-WI)
 BRAZIL R. Canção Nova Sao Paulo 0532-0537 M & W in PP; poor band conditions & strong
- CODAR; p-f; I/10. (Parker-PA)

 ZIMBABWE ZBC 0238-0328 (P); Non-stop soul/gospel type singing in EE; seemed to be the same singer for all the songs, not the usual African hilife mx & songs; mostly fair w/ CODAR QRM; no ancments of any kind; 1/24. (Howard-CA) 1702 Pop songs; good; 1/26. (Bernardini-Italy) 0247-0305 (P); Non-stop mx; mostly S. Africa group style singing; no pause or ID at ToH; poor; 2/1. (Taylor-WI)
- 4834.92 PERU R. Maranon Jaen 0145-0315 Romantic SS ballads; Peruvian mx; SS ancments; weak; poor in noisy conditions; 1/19. (Alexander-PA) 0225-0235 SS ballads & ancments; promos; ID; poor; weak; 2/2. (Alexander-PA) 4835 0235-0250 M & W ancrs in SS; slow pops & canned ID w/ M reverb ancr; best in LSB; fair; 1/5. (Park-er-PA) 4835.4 1046-1101 M & W w/ talk in SS; IDs in passing; (P) ad strings b/w more ancr talk; ancment at ToH; fair; 2/4. (Barbour-NH)
- 4840 INDIA AIR Mumbai 1318 M speaking in Hindi; poor; 2/2. (Ronda-OK)
- MAURITANIA R. Mauritanie Nouakchott 2142-2149 M talks in lang [AA?-ed.]; outstanding 60dB signal; 12/26. (Parker-PA) 0227-0235 exc aborigonal mx w/ W vocal; full quieting w/ 70dB signal; 1/2. (Parker-PA) 0350-0403 Sitar mx; M & W ancrs; needle bending 100db signal; you could hear a pin drop in their studio! 1/5. (Parker-PA)
- 4850 INDIA AIR Kohima 1305 (P); Snatches of M in Hindi & S. Asian mx; strong digital signal on LSB; v.poor; 2/2. (Taylor-WI)

- INDIA AIR Delhi 0236-0239 M & W ancrs in lang; mx bridges; nearly buried in 20dB noise floor; 1/2. (Parker-PA) 1203-1240 While listening to 4895 kept checking this as a strong tone signal was on until 1215; from 1215-1218 there was only an open carrier; then the familiar AIR IS came on; followed by cmntaries about Sir Edmund Hillary and American-Indian nuclear cooperation; followed by prg ancments; ID & nx at 1230 focusing on PM Singh's talks w/ China; good; 1/14. (Comeau-MA) 1208-1233 W w/ Hindi lang talk hosting a prg of Hindi vocals & sitar mx; long talk commenced by M at 1215; Hindi nx at 1230; p-f; 1/28. (D'Angelo/FCDX- PA) 1241 Subcontinent tunes back-to-back; eventually a M ancr w/talk that was difficult to make out in noise; followed by extended pause of dead air; signal had been fading but seemed much weaker when it came back a moment later; f-p; 1/29. (Schiefelbein-MO) 1307 S. Asian mx; distinctive flute over strings w/ W ancr in Hindi; fair; 2/2. (Taylor-WI)
- 4865 BRAZIL R. Alvorado Londrina 0541-0545 Choir hymns; M & W in PP; signal only 10 dB but was in the clear w/ zero noise & perfectly readable; 1/10. (Parker-PA)
- 4875.208 UNID 1000-1040 Mw/long talkin PP or SS; fading in/out; very weak & noted only on 2/7. (Wilkner-FL)
 4875.9 BOLIVIA R. Estambul Guayamerin 0930-1100; 2300-0100; Not being heard here. 1/23. (Wilkner-FL)
