YOU'RE INVITED TO A BIRTHDAY PARTY!

The Newark News Radio Club will celebrate its 50th anniversary on Saturday, October 8, 1977 at the Bloomfield Civic Center, 84 Broad Street, Bloomfield, New Jersey. The event will begin at 2:00 P.M.

Most of the day will be devoted to renewing old friendships, meeting early-day DXers and remembering radio's early days. In keeping with nostalgia, there will be a display of equipment covering NNRC's 50 years in serving DXers.

The guest of honor will be J.R. (Jack) Poppele who will have a few remarks about the early days of radio. Mr. Poppele was Chief Engineer for radio station WOR for many years, later becoming Vice President for the Mutual Broadcasting System, and under President Eisenhower, was Director of the Voice of America.

Anyone interested in attending this event should send a card to Mr. Eugene G. Vonderembse, 31-50 30th Street, Astoria, NY 11106 and indicate the number anticipated in your party. If further information or directions are needed, write to that same address.

NASWA

A REPORT FROM
HEADQUARTERS

NORTH AMERICAN SHORT WAVE ASSOCIATION POST OFFICE BOX 13 LIBERTY, INDIANA 47353 U.S.A.
SEPTEMBER, 1977

The Constitution of NASWA as adopted October, 1976 requires that a financial statement be issued annually to the membership. This month's "Report From Headquarters" is in this regard.

We are pleased to report that the financial condition of NASWA continues to improve with no outstanding debts and all payable accounts current. In addition to the cash on hand, NASWA assets also include one A.B. Dick off-set printing press, one Scriptomatic addressing machine, one collating machine, one electric typewriter and other miscellaneous equipment necessary for the organization to operate efficiently.

The following is a summary of the FRENDX and DX hotline expenses and other related expenses required to provide our services to the membership. A detailed statement of each month's expenses is provided each Executive Council member along with copies of the bank statement from Union County National Bank, Liberty, Indiana.

FINANCIAL STATEMENT 6/30/76 - 7/1/77

Cash on hand as of 6/30/76.....	\$8,561.62
Income from new memberships, renewals, and sale of other club related materials from 6/30/76 through 7/1/77.....	\$21,302.53
Total.....	\$29,864.15

EXPENDITURES 6/30/76 - 7/1/77

Printing cost for FRENDX/DX Hotline.....	\$ 8,058.76
Postage cost for mailing FRENDX/DX Hotline.....	4,811.52
*General operating expense:	
Headquarters (other than postage & printing).....	629.84
Publisher (other than FRENDX/DXH postage & printing).....	663.41
Corresponding Secretary.....	488.09
HQ mailing costs (including postage machine lease).....	1,873.60
HQ miscellaneous printing.....	1,086.17
Reimbursed expenses.....	393.83
Items purchased for resale (decals, rubber stamps, etc.).....	360.39
Subscriptions, dues, and contributions.....	203.50
Refunds for over payments and cancelled memberships.....	79.60
Miscellaneous.....	107.34
Total.....	\$18,756.05
Cash on hand as of 7/1/77.....	11,108.10

*Includes such expenses as cost of office supplies, box rents, phone expense, xerox copies, misc. postage, and other related expenses. \$29,864.15

I certify the above to be an accurate and true accounting of the income and expenditures for the North American Short Wave Association for the period indicated.

M. R. Leonhardt
Executive Director

shortwave CENTER

JERRY A. LINEBACK, EDITOR
P. O. Box 325
St. Joseph, IL 61873

SEPTEMBER 1977

Our special feature this month is the shortwave antenna and related subjects. We thank all of you who submitted material for this special issue on antennas.

A Coil Antenna: NO MUSS BUT PERFORMANCE PLUS
(Or Making a coil with little toil and results royal)

by Ed Insinger, N.J.

The advent of sophisticated solid state circuitry for communications receivers has helped the DX'er/SWL'er achieve a high degree of success with less than super shortwave aerials. However, not wanting to rely only on a whip antenna, I decided to create my own modification of a coil-type antenna based on the experiments and suggestions of fellow FRENDX members. The results are worth sharing and considering, especially if you are an apartment dweller, cannot erect an external aerial, or desire a standby that will perform well.

Simplicity surrounds the coil I constructed. The basis of the antenna is a cardboard cylinder $3\frac{1}{2}$ inches in diameter and 42 inches long. (These cylinders are commonly used as shipping containers). Around the outside circumference of the cardboard, I carefully wound 2 inch wide aluminum duct tape angularly, with the adhesive side outward. This tacky surface along the entire circumference of the tube eased the winding process by insuring that the copper wire remained evenly spaced. It is helpful to place pencil markings along the entire length of the tube (on the adhesive) to guide each turn or winding. The ends of wire can be slipped through a small hole anywhere on the circumference at the extremities, then knotted to anchor. I used 12 gauge stranded copper wire. A single strand of a similar gauge can be used equally well. Next came the attachment of a feeder, or lead in. I soldered the lead in one-third the distance from one end. Since coaxial cable was used, I stripped the outer braid sheath back on both ends, operating the lead in as a "floating ground." This system works well with the antenna quick disconnects on my FRG-7. In order to minimize bulk and visibility, I used RG-174U coaxial cable made by Alpha Wire Company. It is only one-eighth of an inch in diameter and can be easily hidden under doors, rugs, or along baseboard molding.

When erecting the antenna, be sure to remember optimum results are obtained by orienting east-west. I suspended my coil from the closet ceiling, using two small wood screws and short pieces of picture hanger wire. Keep the antenna as close to the ceiling as possible. Closets and attics provide excellent hideaways for the coil.

Previous reviews of this antenna produced favorable results. I have encountered excellent performance along the entire short wave spectrum when connected to my FRG-7. I cannot specifically detect any directionality, and can pick up signals with good S-meter readings from all continents. Despite being mounted indoors, on the first floor, I do not experience excessive noise. I am very pleased with its sensitivity. It is able to pick up signals barely capable of moving my S-meter, much to my surprise and enjoyment.

Roof Support

Free-Standing Antenna Supports for
Flat-Roofed Buildings

by Jim Roberts, Winnipeg, Manitoba

Apartment-dwelling DXers lucky enough to get permission to put up rooftop antennas may find this easily built design just what the doctor ordered to support their longwire or dipole antennas. No permanent attachment to the roof is necessary, and the supports are easily disassembled when the time comes to pull up stakes.

The design shown on the next page will allow for the antenna to be raised some eight feet or so above the rooftop. The design can easily be expanded and more concrete blocks added to brace taller masts. The University of Manitoba DX Club uses the same system on a 12-foot base to anchor 16 foot dowels. In their case, however, the concrete blocks are replaced with 5-gallon pails of a water-antifreeze mixture and some steel cables are added to brace the antenna supports to the roof parapet.

Materials required are listed below: (parts for two masts)

LUMBER

Four pieces: 1" x 6" x 8' (base supports)
Four pieces: 1" x 6" x 18" (levelling blocks)
Two pieces: 1½" x 8" hardwood dowels (masts)

Lumber should be clear-grained spruce or fir. Treat with wood preservative and paint after assembly if desired.

HARDWARE

Eight 2½" eyebolts and nuts (two nuts per eyebolt)
Sixteen flat steel washers
Two 1½" screw eyes
Two 2" hose clamps
Approximately 150' stranded steel wire (guy wire)
Wood screws for assembly

MISCELLANEOUS

Eight to ten standard concrete patio slabs (8" x 12") or similar for anchor weights

Begin assembly by attaching one eye-bolt to each end of the long 1" x 6" planks. First put one nut and washer on each bolt and screw these along the shaft. Then put the eyebolt through the 1" x 6" and attach the other nut and the washer from below as shown in the drawing. Tighten all nuts securely.

Cross the 1" x 6" planks at right angles at the center as shown. Mark the Center. Drill a 1½" inch hole at the center completely through the upper plank and halfway through the lower. DO NOT DRILL COMPLETELY THROUGH THE BOTTOM PLANK.

Fasten the two planks together securely with wood screws as shown. This is best done up on the roof itself.

Attach levelling blocks under each end of the upper portion of the base support as shown..

Attach one screw eye to one end of each of the dowels. Place a hose clamp around the dowel and set the dowel into place in the large holes drilled in the base. Attach one end of the antenna to the screw eye in the top end of the dowel.

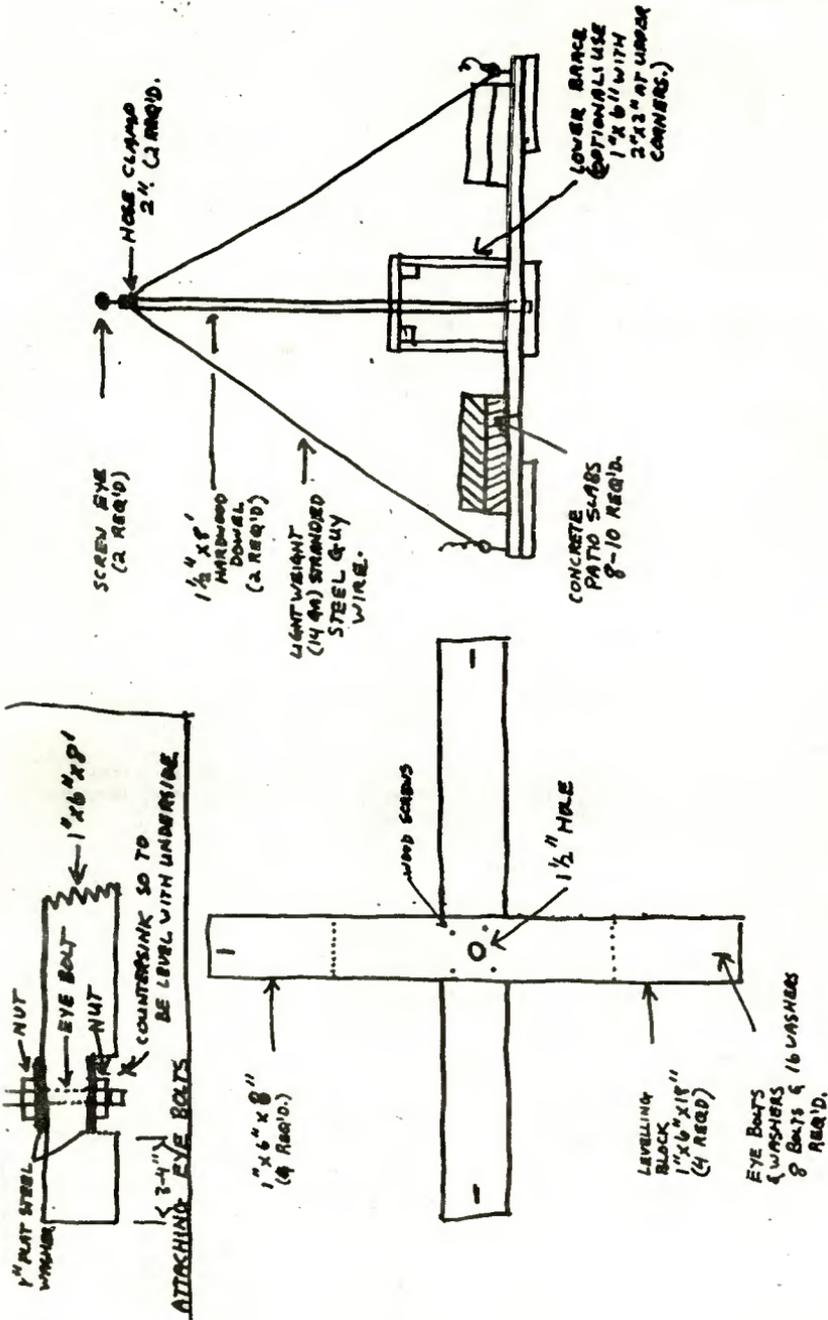

Position one base support at each end of your antenna and attach the antenna between the supports.

Cut lengths of steel wire sufficient to run from the top of the dowel to the ends of the antenna base supports (at the eye bolts) with sufficient wire left over to attach to each end. Fasten the upper end of the guy wire to the hose clamp and, when all four guy wires are attached, slide the hose clamp to a position near the top of the dowell and tighten. Pass the free ends of the guy wires through the eye bolts and tighten uniformly.

Weight the base with concrete blocks and tighten until the antenna is fairly taut but not straining. Equalize tension on the guy wires.

Run feedline to your receiver. Climb down from roof. Turn on receiver. Open beer or coke, tune, and enjoy.

This antenna has been used by several Winnipeg-area DXers for several years with excellent results and a minimum of maintenance. It is a good idea to inspect the antenna system in late fall and early spring and tighten the guy wires, which tend to stretch with temperature changes and so on. Properly constructed, your free-standing antenna will endure all types of weather extremes, and will withstand very high winds. If windstorms

TOP VIEW

FREE-STANDING ANTENNA SUPPORTS
FOR FLAT-ROOFED BUILDINGS

are a problem in your area, add additional concrete blocks to the base.

I have never heard of any case in which one of these antennas has caused any damage to a roof upon which it is erected. The apartment dweller is advised, however, to consult with his insurance agent prior to construction, as most of the standard tenants' policies specifically exclude public liability coverage for radio receiving antennas and must be endorsed to extend liability protection for damage caused by such apparatus. The minimal additional premiums charged to extend liability protection will be well worth the cost in the unlikely event that the antenna should blow down into the parking lot or upon a passer-by.

Thanks to Dave McBride and Bill Hood of UMDX who helped design this system.

New dipole

A NEW TYPE DIPOLE ANTENNA PROJECT

Tom Alleman, Rochester NY

Faithful readers of FRENEX may recall that I described an indoor fan dipole antenna arrangement that I had built described in an article in the July 1973 issue. I have more recently built an outdoor version of the antenna, and I believe, after much use, that it offers several definite advantages for DXers. First, this antenna has strong directional characteristics which are easily adjustable to suit a particular taste; second, it has significantly increased the strength of all incoming signals, probably because it allows much more wire to be put up in a given area; third, it is quite rugged (mine has survived a winter in upstate New York with no bad effects), and four, it is easy to make and put up and cheap.

This antenna is basically a dipole with two elements on each side with a coaxial lead-in of 75 ohm impedance. The important factors in its success seem to be the way it is cut and the direction of the elements.

My house, interestingly enough, runs on a line that is virtually true north-south, which made planning much easier. The chimney, which is at the midpoint of the north side of the house, was used as the site for mounting the center connector (see diagram on next page). Elements W and X are connected to one side of the center insulator (Figure 1.) and elements Y and Z (the shorter two) are connected to the other side. Element W is 55 feet long and runs directly north-south (180 deg.); element X is 57.5 feet long and runs at 163 deg. from true north; element Y is 52.8 feet long and on a line of 162 deg. from true north; element Z is 34.5 feet long and on a line of 150.5 deg from true north. W and X are connected to the south side of the house; Y and Z are attached to the east side. The center insulator on the chimney is about 5 deg. higher than any of the other mounting points.

There aren't any tricks to building this antenna. (see figure 2). Run 150 feet of copper wire through one side of the center insulator and 120 feet through the other side. When half of each length of wire is through the hole in the center insulator, twist each length of wire around itself, and solder the twisted part heavily, using a lot of solder. Then connect the center conductor of good quality 75 ohm coaxial cable to one side of the antenna, and the shield conductor to the other side, also using a lot of solder. To prevent the elements from attacking the insulation of the coax, I slopped some epoxy on the exposed end of the coax insulation. Attach a connector to the receiver end of the coax and insulators to the ends of the antenna wire and put it up.

I have had about fourteen months to test and use this unequal length fan dipole. While I am no expert, I am convinced that the antenna gets its superb directional characteristics from two factors: 1. The positioning of the elements and 2. their relative length. (Elements Y and Z have about 75% as much wire as elements W and X). In its present configuration, my antenna is most strongly directional towards the South Pacific and Australasia, and their appears to be a strong subpeak towards southern Africa. Examples: Tahiti, 15170, 11825 at 40 dB over S9; Moumea, 7170 at S9; Swazi Music Radio 4980 at 10 dB over S9. Other catches include Rhodesia, Gabon, New Zealand, Sri Lanka, and various Indonesians. I have also noticed that the amount of time that signals are available from a given area has increased: There is usually a strong opening to the South Pacific by 0130 most days and one to Africa by 0300. The antenna is connected to an SX-190 and seems to function very well on all bands from 60 to 19 metres.

I think that the results from this inexpensive project have been fabulous.

Multiple Dipole

A MULTIPLE DIPOLE ANTENNA

by Robert D. Stees, Halifax PA

The multiple dipole antenna is an excellent way to get optimum reception on up to 5 bands in one antenna, without tuners or traps! The multiple dipole is merely 5 dipoles connected together. A dipole is a length of wire made to resonate at a certain frequency. For about \$10.00, the average SWL can construct it in a few hours. The one disadvantage is the length of the antenna wire on the lower frequencies.

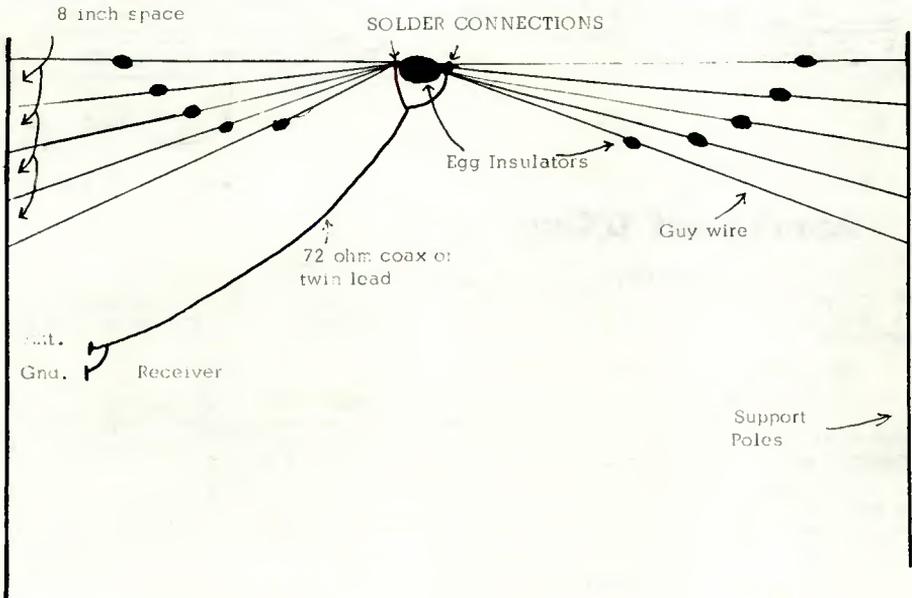

The multiple dipole antenna is simply constructed, but there are several things to keep in mind. The antenna should be supported by masts or support poles on the roof or elsewhere. The antenna should be 30 feet high or higher. Because of its directivity, mount it broadside to desired signal source.

I recommend #14 enameled copper wire, or similar for the antenna wire and 72 ohm coax or twinlead. First divide the mid-frequency of band (KHz) into 468,000 to determine the antenna length. You can choose up to 5 bands. Add a foot to the length (to fasten through the insulators) and cut it in half. Connect as shown in the illustration using strong guy wire and egg type insulators. The guy wires should be connected securely to the poles with 8 inch spacing between wires.

For the connection at the middle insulator, remove insulation, twist wires on each side together, attach one of the coax leads to each side, and solder. Make sure the solder connection is good, then tape connection for strength.

Frequency vs. Antenna Length

120 metre band:	195 ft.	31 metre band:	48 ft. 8 in.
90 " "	141 ft. 7 in.	25 " "	34 ft. 7 in.
75 " "	118 ft. 6 in.	19 " "	30 ft. 6 in.
60 " "	95 ft. 6 in.	16 " "	26 ft. 2 in.
49 " "	76 ft. 8 in.	13 " "	21 ft. 8 in.
41 " "	65 ft.	11 " "	18 ft. 3 in.

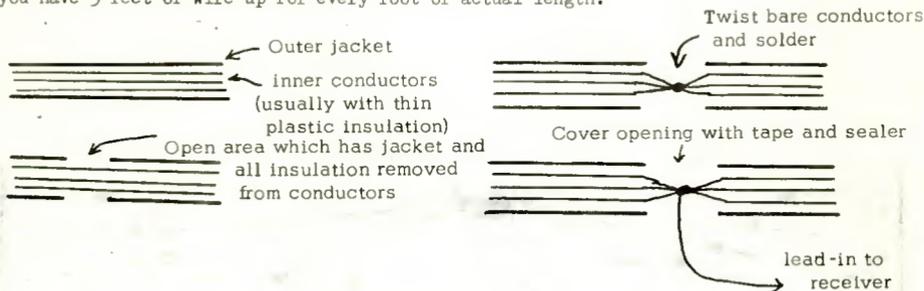

Short antenna

HOW TO PUT UP A 100 FOOT LONG WIRE IN ONLY
33 FEET by Mike Agner, Waldwick NJ

This idea may help some readers who live in restricted areas. The idea works for the creation of Window or long wire antennas that do not require coax lead-in. This antenna is tough mechanically, the only time it broke was during a hurricane. The material for the antenna itself is 3-conductor telephone hookup wire. One can usually buy this in 75 foot rolls from Radio Shack. The basic construction follows.

1. Strip a small portion of the cable so that the 3 individual conductors are bared (all insulation must be removed). For a longwire, remove insulation from the end the lead is to be attached to, for a window antenna, remove insulation for a couple of inches about 1/3 of the way from one end.
2. Take the three bare leads and twist them together so that they are firmly connected and then solder.
3. Take the lead-in wire (type not critical, the thick speaker wire is preferable for mechanical strength), remove insulation from one end and solder firmly to the three bare twisted and soldered conductors. Make sure all connections are taped and water tight after connection. Some silicone sealer may be useful in making the cable waterproof at the connection. The antenna can then be strung where convenient. This antenna should be used with receivers that have a wide range of matching impedance inputs such as most imported portables, old communications receivers, and the DX-160. No antenna tuner is required, but it helps since the impedance on the wire antenna is probably several hundred ohms.

The idea for this antenna was actually given to me by Stan Rogacki. The key is that you have 3 feet of wire up for every foot of actual length.

Apartment DXing

INDOOR APARTMENT ANTENNA DXING
by John C. Onken

For the past six months, DXing in an apartment, I've used every type of wire I could get my hands on for good reception so that I could catch that elusive station or country. Is there a better way? To the DXer who is living in an apartment, a good antenna is a necessity.

Here are some of the experimental designs that I've used to DX:

1. Long wire (insulated or non-insulated, preferably light weight copper), about 25 to 50 feet (depending on space) strung around the room, no insulator at the end. Just hook it to the antenna input. A ground is not necessary, but preferable if possible. The results: average reception, occasional interference, but not the best.
2. A short dipole, with about 9 feet on both sides. Use copper wire with a large insulator in the middle and small egg insulators at the ends. Use a coax cable (RG-59U) and connect the center conductor to one side and the braided shield to the other side at the large middle insulator. The results same as for 1.
3. Experimental antennas with fair to bad results:
 - A. The folded (fan) dipole using 300 ohm plastic coated TV-FM wire, designed the same as 2 above, but using same wire as feeder.
 - B. Coiled copper wire wound around a curtain rod, on both sides toward middle, using same wire as feeder.
 - C. Insulated wire attached to bedsprings and receiver.
4. Insulated bell wire, strung around the room, attached to a tuner (I use the Gilfer

M-1 tuner), then to the receiver. This arrangement is about the best for good to fair reception. A good tuner will not give great reception with an indoor antenna, but it helps.

The many months DXing with indoor antennas, because I had no choice, is a real challenge to the apartment DXer. So, if you're stuck high or low in an apartment, pick up some wire like I did and experiment (again an antenna tuner may help) in your limited space. Depending on your type of receiver and expenses, "get some wire", hard telling, you may just pick up Cook Island or the Antarctic.

Indoor antenna

MORE THOUGHTS ON HIDDEN AND INDOOR ANTENNAS

by Jerry A. Lineback

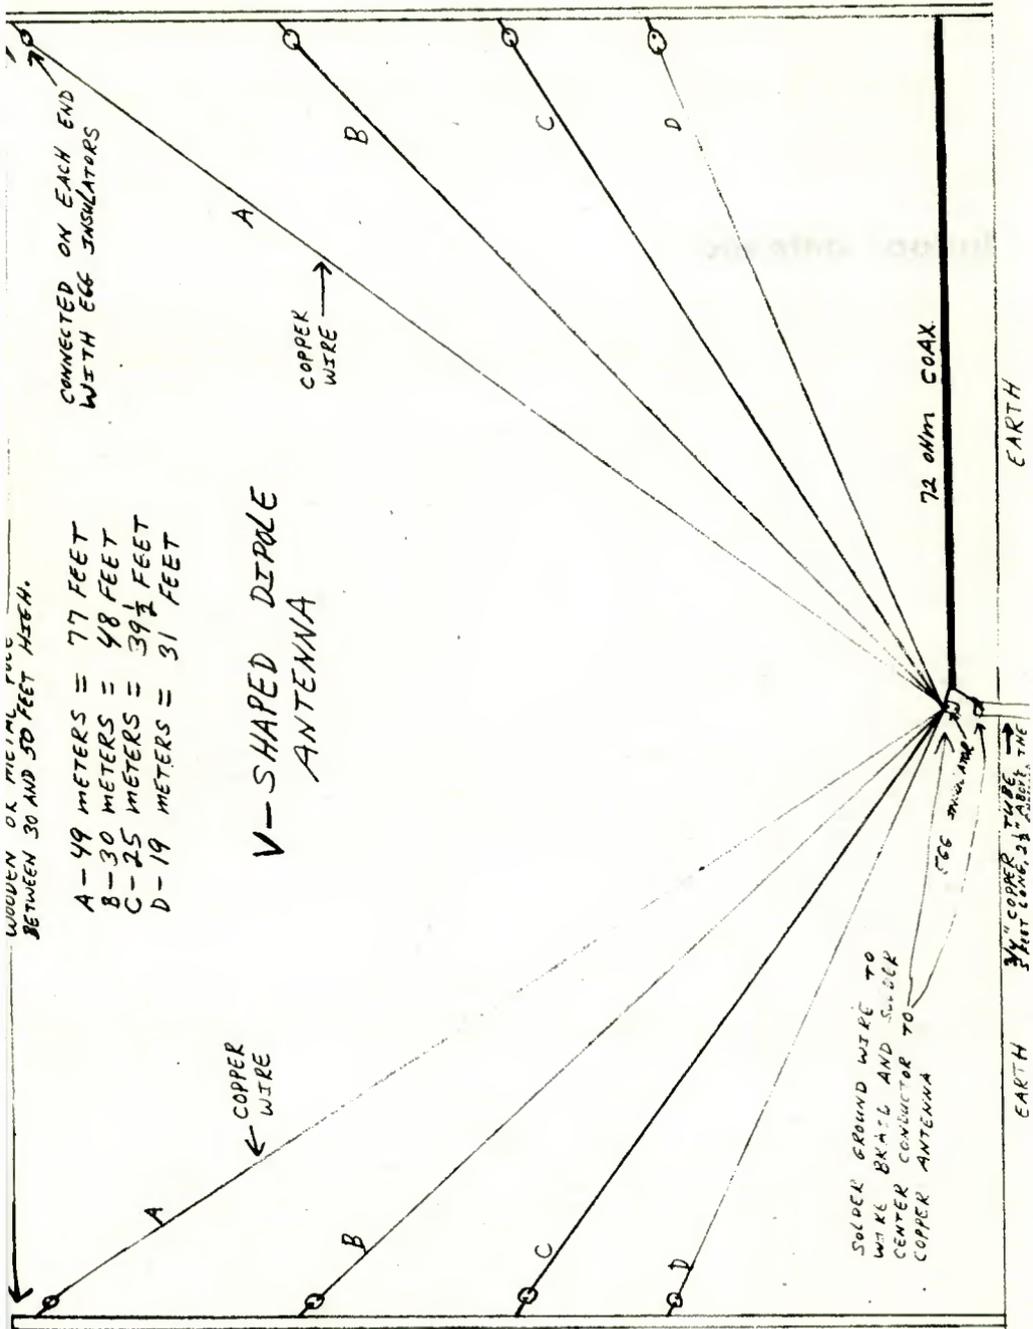

In preparation of this antenna issue, I have had numerous requests from apartment dwellers and those who live in areas where property rights have been compromised for uniformity. They usually start out, "My landlord (city code, etc.) won't permit me to put up an antenna. . . ." Well, even an AM portable has an antenna and there are many ways to get around not being able to hang an outside antenna. I would like to mention a few; some have already been discussed in this issue.

First, for those who own their own house in an area where property restrictions forbid outside antennas. For these people, the attic antenna is the best solution. You can use insulated or uninsulated (if it can be strung without touching rafters, etc.) wire and should be suspended by insulators. Avoid proximity to electrical cables for safety and noise elimination. Use coax lead to avoid noise pickup, although insulated single conductor leads may work. Attic antennas are not as efficient as outdoor antennas, but if you string lots of wire, it should work quite well in wooden houses. If your house has a metal roof or metal sheeting on the roof, you may be out of luck. Also watch out for metal backed insulation. You can also make one of the tube antennas such as the one described by Ed Insinger in this issue. These arrangements will work quite well with modern sensitive receivers. If an indoor antenna does not work, perhaps an insulated wire can be strung along the eaves of the house or fastened to the side of the house. If codes permit above ground electrical wires, run a couple of fake electric lines to the garage. Use your imagination, there are many ways. If space is the problem, several short wires will do about as well as one long one.

Most modern portables are designed to do quite well with their built-in whip antennas. These portables, such as the Sony LCF-5900 and the Panasonic 2200, or the Barlow-Wadley XCR-30 will do quite well in wood houses with no additional antennas. In fact, the addition of extensive antennas to these receivers may overload them. While a good antenna may be necessary to get the Cooks Is. with one of these receivers, you can easily log and verify over 100 countries with these portables from your livingroom chair.

Now the apartment dweller has two problems, no room and no access to attics or outside parts of the house. Now, as mentioned above, you may want to use a receiver with a whip antenna to avoid the sweat of a wire antenna indoors. This will work fine in most low-rise apartments constructed of wood. You may be faced with additional noise in a high-density area, but you would have that even with an outside antenna. If you want to use a communications receiver or add an antenna to your portable, the important thing again is to put up lots of wire. One of the coil antennas may be ideal as you can get a lot of wire on one and it can be mounted in a closet, along the ceiling, or under the bed, etc. Large loop antennas can be used also, but they will not have the directionality on shortwave that they do on mediumwave.

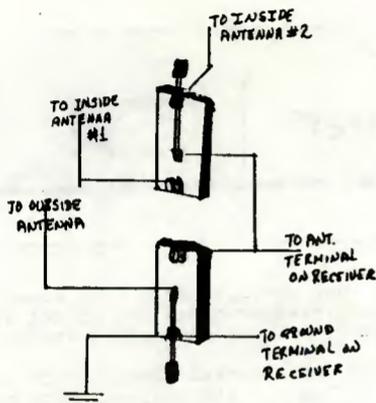

Those living in high-rise buildings with steel framing will have the greatest problem. In fact, it may be impossible to adequately receive signals without putting something outside. You can set the radio on the windowsill but if you have greater aspirations, you will have to feel your way around the problem. Perhaps you would be happier in a small apartment building with fewer reception problems. Otherwise you can try the following. If you have a balcony, fine. Perhaps you can attach a vertical antenna such as an amplified whip to a clamp and put it out when you need it and take it in when you are not using it. Perhaps you can get a neighbor to help you string an insulated wire along the outside of the building where it will not be noticed. Or, if you have no access to the outside at all, try the following. You probably noticed that many new cars have the antenna for the car radio in the windshield. Well, you can buy a car antenna to put on the inside of your windshield to convert your car radio. This consists of a thin wire in the middle of a piece of plastic tape. Buy one and stick it to the inside of your largest window. Run it back and forth, it will work best in the middle of the window. Do not place it closer than 2 inches from the metal window frame. Run a lead to your receiver, and hope for the best.

Above from Richard Swanson, Wellman, Iowa.

A NOVEL ANTENNA SWITCHING ARRANGEMENT

by Charles A. Wootten

For the SWL, who usually has a separate antenna, or perhaps two, for the shortwaves, and also retains one for the broadcast band, this novel arrangement should be useful, for it will save the necessity of plugging in the appropriate antenna and also save any possibility of confusion, at the same time providing a ground switch. Switches used are the single throw type. With the top switch open and the bottom switch up, the outdoor antenna is connected to the set, and with the top switch still open and the bottom switch down, the outdoor antenna is grounded.

With the bottom switch open, the top switch may be open or shut, thus connecting the desired antenna of the other two. If you wish to go all out for a longer antenna, close the bottom switch up and the top one either way, thus connecting the two antennas. You will find that there are many variations of this idea. For instance, if you wish to try

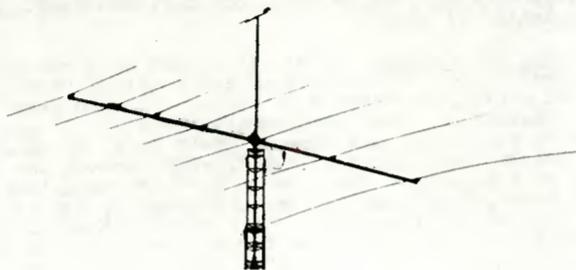

a counterpoise ground, the switches can be connected to do this, instead of one of the antennas. The connection to the set need never be undone and can be made permanent.

LOG PERIODIC

A GIANT OF AN ANTENNA, LITERALLY

THE LOG PERIODIC, by J. A. Lineback from material sent by John Lackmann.

One type of antenna that shortwave DXers with space and money ought to look into is the log periodic. These antennas are good only for the higher frequencies, generally above 7 MHz, and even there are quite large. The antenna described here was available from KLM Electronics, 1600 Decker Ave., San Martin, CA 95046 in 1974. At that time it cost \$289 and therefore is probably somewhat higher today. It is 30 feet long with a turning radius of 26 feet. The company reported that the antenna provided from 6.5 to 9 dB gain from 13-30 MHz. A modified version works well for transmitting and receiving down to 10 MHz and for receiving to 7.0 MHz. The advantage to this antenna, aside from any gain provided, is its directionality and the fact that it can be rotated to peak signal from a station, or to eliminate interference. While primarily for hams, such an antenna could be a great advantage to the DXer who likes the 41 metre band and higher frequencies.

KLM 13-30

Recently KLM Electronics began manufacturing and marketing the line of antennas designed by Oliver Swan. This line includes a full line of VHF-UHF antennas from 40 to 550 MHz. The most recent addition to this line is a rugged, high performance antenna (log periodic) that covers 13-30 MHz. A recent modification now allows usable operation from 10-31 MHz. This frequency range includes the 10, 15 and 20 meter amateur bands as well as MARS frequencies from 11-30 MHz, the shortwave broadcast bands in this frequency range and of course the citizens band at 27 MHz. In short, this array gives the user the equivalent of an optimum spaced, long boom, 3 element yagi anywhere from 13-30 MHz!

QSO/NASWA

letters to headquarters

Edward C. Shaw
P. O. Box 7053
Lexington, KY 40502

IS THERE NO END? The new exotic portables keep coming! From SONY comes word that their newest addition to the direct-frequency-dialing market is the CF-950S, with built-in cassette recorder. And, if that ain't enough..

THERE'S MORE TO THE DX-160 STORY. Last month we remarked about rumors that Radio Shack was/was not about to jerk the DX-160 off its shelves. From my ear in Fort Worth comes word that Radio Shack has been parlaying with the JVC/Nivico people in Japan, perhaps others. Then, one NASWA member, Don McCarthy got an outright suggestion from RS HQ that Tandy Corp. was considering an "advanced" version of the DX-160 within a couple of years. Holy Heterodynes! It seems to me that they had the basis for an "advanced" winner in the SX-190. With a switch to synthesized HFO and perhaps some minor RF section work, and maybe an LED digital readout thrown in, the SX-190 could be half their work already available. (Don McCarthy, Florida)

OLDIE NEEDS A HELPING HAND. Roger DeRoy isn't the oldie, but he did come across an old Zenith Long Distance Radio model 9S-202 needing tubes. Anyone knowing something about this one please contact me. And, if it turns out that you can use some old No. 10 or 30 tubes, then your problems are over, Roger, cause I got those here for you.

INTERVAL SIGNAL COLLECTIONS have been available from place to place. They are excellent ways to increase your DX-ability for identifying those once-in-a-lifetime catches. Finnish DX Association announces a collection of interval signals and station announcements on cassette available from the Finnish company ERIKOISKUSTANNUS OY, SF-02210, Espoo 21, Finland. Or, the easiest way to obtain this one-hour tape is to send your \$8.00 check or money order to Edward J. Pyatt, Agent FDXA, 510 Yorktown East, 1200 Columbia Avenue, Philadelphia, PA 19122.

WELCOME BACK TO DXING, BOB LAROSE. NASWA old-timers will remember this name from several years back. A letter from Bob relates: "I've been only remotely in touch with DXing the last five years. My main point of contact has been with C.M. Stanbury. I moved to Denmark where I had some contact with Jens Frost (WRTH publisher) and some of DSWLI gang. As an agent for Harris Corp. (the transmitter people), I've traveled around the world, and spent about 25% of my time in S.E. Asia from 74-76, getting in some fascinating listening....Burma, Thailand, Malaysia, Singapore, Sarawak, Brunei, Hong Kong, etc. I joined NASWA because I do remain interested in Int'l BC listening, and FRENEX is impressive.... a far cry from the old days. I still use an old SX-117, but hope to buy an FRG-7. 73s, Bob LaRose".

CONGRATULATIONS TO GLENN "Harmonix" HAUSER for being chosen Man of the Year at this summer's ANARC convention in Schaumburg, Illinois. A prolific producer of DX information! Well done, Glenn. We're glad you're here.

AND, ANOTHER ROWING HAND FOR TED POLING, chosen as Handicapped Aid Program Man of the Year at the ANARC Convention. Ted was first introduced to HAP thru ASWLC and was later encouraged to take a Chair with HAP's Pals Program. Still later as the Pals Chairman, he organized the HAP international Coordinating Committee. After a term of office as Assistant Director of HAP, Ted was appointed Director in 1975 upon the resignation of Gene Moser. Last Winter, Ted entered a long-term health care facility necessitating relinquishing his office to Wayne Davis, HAP's present Director. A fine job, Ted! And, we realize that world-wide HAP programs was in the main your work.

SUGGESTED READING FOR TECHNICIAN DXERS. Sam's books has a title "How To Read Schematics". (No.). This book is written in easy-to-understand wording. No advanced math and formulas necessary. But, there's more than just reading schematics. It shows-and-tells a lot of stuff that DXers who would gain experience ought to learn.

WHAT IS A QSL? Certainly, this is a question of much cussing and discussing. However, one of the points of obtaining QSLs was discussed by the Swedish DX Federation as reported in the Vol 11, No 5-6 edition of the Newsletter published by the European DX Federation. The Swedish Board seems to decry the use of "Prepared QSL Cards"...those made up by the sender which require the station official only to pen in the appropriate check mark or signature. The Swedish group rejected use of these cards..."since it has been felt that they put a psychological pressure on the station to verify details which have not been proven by the reporter. It is always easier for the station to sign the PPC (Prepared post card) and return it than to write out a correct verification themselves..." This editor does not agree with the Swedish group, and approves the use of prepared QSLs. Having seen the results of some ingenious, clever, and professionally-prepared efforts, I believe in the utility and bonafide worth of such cards. The Swedish group seems to believe that some stations can be bribed in some way with such an attractive card. To the contrary, I trust to the honesty of the station to consider the worth of my report and accompanying card (if I do use one). In the final analysis, it is...I... who must be satisfied in good conscience what will constitute a QSL...perfect data upon it or not. Care to comment, anyone?

A POINT TO PONDER. Ever wonder why your hobby has not caught on like wild fire throughout our country? Why is it that few of your acquaintances know what it is you are doing? I've thought long and hard about it, and come to the final obvious conclusion....our national radio, TV, and news or magazine media would prefer not to advertise the competition! That ain't good business. Couldn't you just imagine a quarter-page newspaper ad for NHK, BBC, Moscow or RSA on a daily basis? What about a full-page in Readers Digest?

TROPICAL BAND SURVEY, Fifth edition from the Danish Shortwave Club Int'l has been available since July. Recognized as one of the authoritative lists in the world for frequencies between 2140-5800 KHz. Especially valuable for better-than-WRTH info on Indonesians and other Asians. Typewritten and reproduced by offset. Available from GILFER.

WHERE TO FIND USED RECEIVERS? Several letters received wanting to know how to locate good used receivers at lower prices. The only quick reply I can supply is to keep tuned to the nearest Ham Convnetion. They're all just about over for the season, but they usually abound flea market type sales of receivers, transmitters, various other equipment, parts, etc. for very, very reasonable prices. It's a person-to-person thing, so beware if you're not particularly knowledgable about what you want. But the pricebeing right is the main thing. For instance, I just visited the Bluegrass thing in August and came away with an old IF filter containing four 100 KHz crystals....for \$3. That's 75c per crystal. Cheapest commercial source I know of wants at least \$4.00.

AND LAST OF ALL... This September episode of QSO/NASWA will be my last. I'm not going anywhere in particular, but I'd rather devote more time to writing articles again for Jerry Lineback's SWC section and to concentrate more on club business. Mac really does have his hands full, and Alan gets dizzy the end of each month. Of course, I'll always answer letters from any hobbyists. Stay tuned to the other sections of NASWA, and I'll forward appropriate letters and information to those sections who can use them if I cannot service them myself. Thanks bunches for all the letters. Keep them coming to me on a personal basis, won't you? 73, Ed Shaw

ENGLISH SCHEDULES ANGOLA (Cf Aug LN-2) Per recent previews the RNA "B" pgm on 4820/3375 has English at 1130 (BECMS 21/7)

AUSTRALIA Stingy RA's S77 sked not to hand at press time, but I've noticed 21455 opening at 0130, better than 15320 23/8! (gh) 17/7 changes, 15270 ex-15410 0130-0300; 17895 ex-15 MHz 0600-1000 (BECMS) 17895!?: They're nuts, that's a jammed channel (ARDXC) BANG LN-3

BENIN Voice of the Revolution was observed with EG nx 16/7 at 2012 on 4870 (BECMS) LN-3 4875

CAMEROON (Cf Aug LN-6). Yaoundé's new xmtr, now on 4925, has EG nx 1830-1845 (Mainland & Wakisaka; RA DX 7/8) R. Buea (BOO-ee-uh -gh) on 3970.88 had EG nx at 2030 (Gordon Darling, UK, WDXC Aug) And EG nx at 2150-2200* (Noël Green, BBC WRC 17/8)

CANADA RCI S77 sked, preliminary dated 28/7 with first amendment 4/8; (Sackville u.o.s.) 0615-0630, 0645-0700 both Mon-Fri only 11960/11825/9655/6140; D 7155/11720. Sun only 1400-1500 D6195/1295. Daily 1545-1559 17820/15325; D11935/9555; S11915/9565; 1645-1659 17820/15325/11855. 1800-1829 & 1900-1929 17750/15260. 1930-1959 17820/15325; D 5995/7130. 2030-2059 17820/15325/11855; D 5995. New xmsn (ex 1400-1430) at 2100-2154 in FR & EG; 17820/15325/15260/11945/9745. Mon-Fri 2200-2400 5960. 0100-0127 11940/9535; 0200-0227 11845/9605; 0300-0327 11845/9655/9605/5960; 0400-0427 11845/9655/5960. D--Davenport UK relay; S--Sines, Portugal relay (RCI) see ECUADOR below (gh)

CHINA R. Peking noted on some new NAM svc freqs, some quite good: 0000, 15520; 0100, 17679 15435/15060; 0200 17679/15435; 0300, 17650; observations 23/8 (gh)

CONGO Voice of the Congolese Revolution, 15190/4765, has news in EG around 2130 with daily variations (BECMS 4/8)

CZECHOSLOVAKIA R. Prague test freq to SAs since 4/8 at 1530-1630 is 17705 (BECMS 11/8)

CHILE La Voz de Chile, good on new 9680 EG 2250 (Rolf Löfvström, Norway, SGDX 9/8) typo for 9580? (gh) More on LN-4

DOMINICAN REPUBLIC Since 25/7, R. Clarin added another EG pgm at 2130 for Europe, Mon-Sat on 11700/4850. 2330 will remain unaffected (Heath, Pacuch, Kaeselit, et. al., SGDX 2/8) Oh, yeah? See LN-9 (gh)

ECUADOR HCJB S77 changes include 6160 ex-6130 at 0830-1200 to ANZ; 11845 ex-11915 at 0030-0700 to NAM; 17865 ex-17755 to Bu 1800-2100, partly in EG. To ANZ 11900 at 0630-1000, 9745 at 0700-1030, 1230-1300 (Roger Stubbs, via RA DX 14/8) 11845 will be a head-on conflict with RCI unless somebody gives! (gh) ETHIOPIA LN-4

FINLAND For the benefit of our Sunday audience in Eur and NAM, R. Finland starts a new 90-min EG svc as from Sept. 4, at 1325-1455, "Radio Finland in its Sunday Best" following our 1300 cast on 15105/11755 (via Chuck Self, MN) A good idea! (gh) FRANCE LN-4 GEORGIA LN-2

GREECE Just-expired VOG sked to NAM includes 0015-0030 11730/9760, same 0215-0230. At 1215-1230 and 1515-1530 17830/15345/11730. The first two freqs at 1515 on Tues are not used (via Robbie Berezowski, Alta) To ANZ 0915-0925 on 9655/15160 (Goonawardena, S.L., 8/8)

GRENADA R. Grenada's 15105 xmtr, used for the UK at 0200-2200 has been off the air since 4/7 due to repairs (a Grenadan contributor to HCJB DX Party Line 21/8) 2000-2200! (gh)

ISRAEL IBA S77: 0500-0515 7412.5/9820/11875/11960; also 12045/15105/15230/15485/15512½/17685. 1200-1230 11655/11800/15415/17815 to west, 15485 to As/Pac; also 15230/17685/17795/15512½. 2000-2030 7412.5/9815 Bu/NAM; 9009 SAF, 9425 WAF; also 15512½/9630/11960/17685. At 2230-2300 7412.5/9435/9815/11655 to NAM; also on 9009/11960 (Larry Magne, PA)

JAPAN For S77 R. Japan drops 15300 at 2345-0045 in favor of 11705 // 15270 (Zilmer, SPEEDX)

KOREA NORTH R. Pyongyang has rescheduled the entire EG section: 2000-2200 6576/9420 to Eur 0600-0800 9420/11535 Eur; 0800-1000 9420/11535 SAs; 1300-1500 7203/9977 SAs; 1500-1700 9977/7203 ME & Eur; 1700-1900 9977/7203 ME & Eur. Underlined freqs give fair reception here and the Nam svc is hrd around 0000 very poorly on 9977 (Oliver T. Goonawardena, Sri Lanka, 8/8) Also hrd at 1100-1250 on 9977/11535, no longer at 1000 as of 1/8; one day only used 11545 instead (Bob Zilmer, WI, SPEEDXGRAM) EG to the Americas is increased from 7 hours to 25h 40m per week (BECMS 11/8)

LIBYA The Libyan radio's EG pgm at 1600 has not been heard on 6205 since 16/7 (BECMS 28/7)

MALTA (Cf Aug LN-10) "Malta Calling" remains on Sat, not Sun, on 5990 at 2045-2115. Just before at 2030 Sat, IBRA Radio has EG on same freq (Bob Padula, Victoria, 30/7)

NETHERLANDS Not much change to RN's S77 EG sked; but the EG/DT at 1640-1650 has been replaced by DT for Surinam/Ants on 11790/6020 at 1630-1650 (gh)

NORWAY NRK S77, Sun into GMT Mon: 0800, 5965/11850/15175/15135; 1200, 6015/15175/17795/21730; 1400 9590/15175*/17795*/21730; 1600 15175*/17795*/17725/21730; 1800 6015/11935/15175*/15345; 2000 9550/11860/15175; 2200 11860/11870*/15175*; 0000 6160*/9245*/9550; 0200 6180*/7240/9645*; 0400 6180*/9645*/9610; 0600 11870/11860/15175. Underlined, 250 kW, rest 100 kW; *to Nam. Typo showing two 250 kW at 0600? (via Chuck Self, MN)

PAKISTAN Indonesian svc of R. Pakistan on 15325/17665 includes EG nx " warta berita dalam Bahasa Inggris" around 0240-0243 (Isao Uguza, FEDXR 27/7) Far out (gh)

PHILIPPINES DPI EG to As was missing 17-21 July, but resumed on a modified sked 1/8; 0800-1200 and 2000-2400 on 9615/6170 (BECMS) (Cf Aug LN-1) Veritas dropped 9605 @ 1400 (RA)

SEYCHELLES FEBA on 15190 ex-15280 to SAs at 0630-0815 (Goonetilleke, RA DX 14/8) At 1530-1640 on 11865/9520 (Yoshiaki Hayashi, JADK, via RA DX 21/8) Sked 9525 (Goonetilleke, SCDX)

SILERA LEONE New SLBS sked: 3316 at 0600-0745, 1300-2330; 5980 at 0800-1030, 1200-1745. Partly in EG (via Peter Bunn, Victoria, RA DX 7/8) SRI LANKA LN-5, partly in EG

SWEDEN RS to Nam 2300-2330 on new 6065 tho old 6120 still anned (Peter Bunn, RA DX 7/8), either a test or an error, methinx; 23/8 check found on usual 6120; new sked not in (gh)

TAIWAN Many VQFC changes; EG included in the full sked on LN-5 (gh)

UKOGRANI BBC WS has been excellent on 11750 all aft and eve since Sofia/Moscow left channel at beginning of August. 11780 is added for S77 to Nam at 2115-2245, likely to be QRMed, cutting 15260 from UK back to 2000-2115 only. No other major changes, except we continue (g) to do without 17640 in the norms due to xmtr usage for Masirah substitute (from Ascension) (h)

USSR R. Kiev S77 to Eur 1930-2000 9685/7390/7310/6020. Nam 0030-0100 15245/15180/12000/7150/6020/5980; 0300-0330 15425/12050/12020/9600/7390/6020/5980 (August ADXN) R. Moscow's published anticipated changes as of Sept. 4: At 2230-2400 7355 ex-9720; 0000-0200 7105 & 7355 ex-9700; 0200-0400 7105 & 6070 ex-9700. In the PCS at 0330-0730 11750 and 9610 added (via Robert Heckenlively, SD) USA WYFR LN-5, big deal

LAST MINUTE ITEMS

ANDORRA R. Andorra concluded tests on 6230, now officially sked in FR weekdays 0930-1200; Sun FR 0900-1000, DT 1000-1400, the latter to be increased to 8 hours on Sept 4, & DX pgm (Roussarie, SCDX)

BAZIL R. Cultura Caiari on 4785 plans to return to 3345 NSAF. For financial reasons, Mir. Coia has ceased installing 7 new 150 kW Brown Boveri xmtrs (Comunicação DX via ADXCI) MW? (gh)

CAMEROON Yaoundé on new 9745 in eves from 1745 8/8 // 4925 and 4972 (BECMS 11/8)

CHINA R. Pekin SP audio much degraded on 17630 at 0215, seems off-air relay // clear 17650 (gh)

CYPRUS CBC to UK in GK 2215-2230 now 7190 ex-7195 // 9770 (Gordon Darling, WDXC Aug)

CHILE R. Colo-Colo hrs 23/8 at 0240 w/mx, IDs in 3F on RC SSB 14530 (gh)

DENMARK Complete sked, not likely to change, all on 15165; 0730-0830 (exc Mon) SAs/PerGulf; 0900-100 E&CAF; 1100-1155 Grönland HS relay; 1200-1300 NAM; 1330-1345 Grönland HS relay; 1400-1500 W&CAF; 1600-1700 NAM; 1730-1805 Grönland HS relay; 1930-2030 SAs (BECMS 7/77 via)

ECUADOR Timesigger HD2ICA's sked changes a bit to 1700-2000 on 5000, 2000-0500 on 7600, 0500-1700 on 3810 (DX Party Line 23/8)

GEORGIAN SSR R. Moscow via Tbilisi, 9760, ops since 1/8 2100-2230 HG to Britain, best after 2200 VOA s/off (Roger Legge, VA)

IRAQ Sept IFRB sked lists 500 kW at Babel on 6030/9745/11905/15225. Projected xmsn to Nam at 2200-0400 on 11905 (Roger Legge, VA)

ISRAEL As of S77, last 5-10 mins of Hebrew HS nx after 2300 is also carried on Nam svc 300 kW xmtrs: 74123/9435/9815/11655 (Magne; LBN, S. Corner) IBA hrd since 6/8 on 15165 at 1355-2155 (BECMS) 15360 USB. Trying to get area of that prnto for Denmark's sake (Magne) LN-12

CLANDESTINE CRANNY

Established clandestines keep dying voluntarily, saying their mission has been accomplished!

RADIO ESPAÑA INDEPENDIENTE It was announced in the 1200-1400 transmission on 14/7 of this anti-Franco radio that "the Spanish Communist Party has decided that REI should suspend its broadcasts because it considers that its mission has been accomplished...". The announcement added that the radio started 36 years ago and had made 108,300 broadcasts.

Monitoring confirmed that the main REI broadcasts at 0600-0800, 1200-1400 and 1600-2330 carried by four transmitters probably in Romania, on out-of-band high frequencies, had ceased at 2330 14/7 at the end of the scheduled evening programmes.

REI is believed to have started in 1941 from transmitters in the USSR, but later moved to east Europe. For many years the programmes were entirely in Spanish, but material in Catalan on Mondays, Galician on Wednesdays and Basque on Fridays was added at a later stage.

In 1970, two 20-minute broadcasts, announced as "Surprise programmes on flying wavelengths", were introduced. Initially they were on channels used at other times by Radio Budapest, but subsequently these broadcasts on a single in-band HF appeared to emanate from a site in Bulgaria. (Later to below: the Sofia repeats lasted only a few days-MYC & AS WDXG)

These broadcasts of a non-controversial nature continue to be heard at 1235-1255 and 2005-2025 (not Sun) on 15965 and 15185 respectively. They were begun since the recent dispute between the USSR and the Spanish Communist Party over Eurocommunism. (BBCMS 21/7 and 28/7)

Voice of Free Sahara, Polasario Front program via Algiers formerly at 1900-2000, has not been located, although it was previously announced that it would be retimed to "11 p.m." (2100 GMT). On Algiers facilities instead at 1900-2000, an hour earlier than previously in the Spanish program "Voice of the Free Canary Islands" presented by MPAIAC (Movimiento Para la Auto-Determinación e Independencia del Archipiélago de Canarias), observed on LW 251 kHz, but the announced HF 11910 and 9610 have not been confirmed. Ditto the Algiers program in Spanish at 2000-2100, announced as on 15420, 11910, 9610 and 7245 kHz (BBCMS 28/7)

ANGOLA Recent monitoring and Luanda program previews show that the African National Congress "Voice of Freedom" and SWAPO's "Voice of Namibia" are transmitted respectively in Luanda's "B" programme at 1740-1810 and 1830-1930, announced as on 4820/3375. A daily MPLA "Fighting Angola" broadcast in the 'A' pgm at 1800-1830 is repeated in 'B' the next day at 0430-0500. Announced frequencies for the 'A' pgm are 9535/7245 (BBCMS 21/7)

Voice of Palestine, Voice of the Palestine Revolution, a Baghdad radio DS pgm, has been reduced by one hour from 1830-2030 to 1930-2030 daily (BBCMS 4/8)

Voice of the Revolutionary Party for Reunification, 2770, *1000 in EG, fair; heard intermittently since April, last on 11/6. Also hrd in PT after RN Bonaire s/off; SP at 0930 (Dave Webber, NZ, NZ DX Times) That's what the item said; it strikes me as odd that VRPR would find Portuguese and Spanish relevant to its cause. Perhaps editor merged with other item? This is the North Korean station on a previously unreported frequency (gh)

Britain Radio International Staff of station: Steve Joens, John Shepherd, Norman and Jeany. BRI started Sun 12th Sept 76 using 6 watt xmtr; the following Sunday, 10 watts, the third Sunday and subsequently, 50 W. A half-wave dipole with one reflector and one director was used at first but with the 50 W output the half wave dipole is used by itself. BRI used 6265 kHz and received reports from Norway, Sweden, East & West Germany, Holland, France, Italy, the four UKOGBANI countries. BRI has now closed down through choice, not necessity, but hopes to re-appear and info will be announced in the bulletin Free Radio Focus (WDXG)

A test from an unspecified European pirate was scheduled for 14/8 at 0400-0600, on 6260 kHz, using 200 watts ERP, hoping for reception in NAM (Mark King, Free Radio Focus. via Bill Whitacre, GLDXA)

FUTURE PLANS

BRAZIL R. Rural Brasileira, Rio, presently controlled by Ministry of Agriculture, is to be transferred to the Ministry of Communications and "Radiobras". An inventory commission is to be appointed to take over the station before the transfer is made. Another such commission will be appointed to take over R. Ministério Educação e Cultura, operating in Brasília and Rio before it is transferred to MinCom. "Radiobras" has already taken control of R. Nacional de Rio, R. Ipanema and R. Nacional de Roraima (Jornal do Brasil, Rio, 22/7, via BBCMS) more on LN-2

CAMEROON R. Garoua is expected to start English programming as early as November 1977 (Jim Achanyi Fontem, R. Garoua correspondent for R. Yaoundé, via Bobby Hobbs, Rocky Mount NC)

ECUADOR HGJB's hydroelectric plant at Papallacta was shut down in January because of a mechanical problem. Engineers repaired it temporarily but a major overhaul of the turbine will be necessary at a future date. All the towers for the steerable antenna have now been erected and work is going ahead on the final development of the feed. Soon the construction of the reflector, which will be supported by the eight towers, will begin. Some dangerous and difficult work will be involved. Please pray for Jim and Karen Heck, and pray for the 500,000 watt transmitter being built in Elkhart IN. There will be four World Radio Tours in 1978, a chance to see HGJB in person. The dates are: Jan 8-21, Apr 16-29, July 16-29, Oct 15-28, 1978. For details write HGJB, Box 3000, Opa-Locka FL 33055 (HGJB Radio Log July-Aug)

EQUATORIAL GUINEA A 50-kW transmitter is being installed at Bata, with primary frequency of 6120 for WAF coverage. Other available freqs, for Af/Eu at 0530-0700 and 2130-0100 are 7150 7190, 9555, 9585, 11715, 11895, 15110, 15190 (IFRB 28/6 via Roger Legge, VA)

GERMANY WEST DW is planning expansion. A new broadcasting house is being built in Cologne. The facility will consist of three towers, the tallest of which will be 135m high. The other two will be 120m and 86m high. The new building will give DW about 600 rooms and about 60 studios (Jeff White, IL, RIB 16/8) Hopefully DW's 1300 employees will be able to move into their new complex in about two years. Construction of the complex, with a price tag of over DM 200,000,000, was started in the Cologne suburb of Raderberg in March 1974. (DW Hallo Friends via Charley Hoffman, PA)

JAPAN Japanese government officials indicate plans of R. Japan to build relay bases in the Mediterranean and Caribbean areas, to improve reception in Europe and the eastern US (Nobuaki Takahashi, SCDX 12/7) Whoopee! A long overdue improvement. They need a Caribbean relay a heck of a lot more than DW or the BBC! (Glenn Hauser, RIB 16/8) **LIBERIA NETH ANTS** LN 12

NORWAY R. Norway announced on 31/7 that they are going to expand transmitter facilities, at two new sites, in two stages. First, two 500 kW xtrs will be installed and ready by the end of 1979. Another three 500 kW xtrs will be installed three years from now. They will continue to use their present site. They noted that it is a test for reactions, etc. I'm not sure what they meant by that (Robbie Berezowski, Calgary, Alta.) **LA trial balloon?** (gh)

Work has already started on roads, drains and power supply at the Kvitsøy site, in Rogaland, where two 500-kW HF xtrs will be erected. Per Mortensen, a director of Teledirektorat, said Parliament had allocated 14,000,000 kroner from the current year's budget--out of a total estimated cost of 160,000,000 kroner--for the new installation. Building work at Kvitsøy and Svejø, which will also have three HF xtrs, will probably take three years to be completed (R. Norway pgm brochure, translated by BECMS 28/7)

OMAN Six of the masts at the new BBC SW stn at Masirah were blown down by the June cyclone, putting back the starting date by several months. It had been due to come into operation in September (Ariel--BBC staff newspaper, via WDXC) These will not be on until early spring 1978, nor will the 700 kHz transmitter (BBC WRC 17/8) Unfortunately, these SW xtrs will not be available to substitute for transmitters off the air now, as they are being moved from Malaysia to Singapore (Letterbox 13/8 via gh)

PHILIPPINES FEBC's Iba site is used on SW for RS xmsns only, but they are planning to build a corner reflector beamed to the south, for Indonesia with the same xtr. There is one 100 kW xtr at Iba and room for two 50 kW xtrs to be relocated from Bocaus, where there are now five 50 kW xtrs and no room for expansion (Dene Lynneberg, Philippines, NZ DX Times July)

SAIPAN (Cf Aug LN-7) In addition to the MW, "...two powerful 100,000 watt SW xtrs will concentrate their beams on Japan, China and Russia." (FEBC News and Views, 4/77 via Gerry Bisher, PA) No target date or frequencies available as yet for SW (Bob Padula, 30/7) The SW transmitters won't be in use for one or two years (Dene Lynneberg, Philippines, NZ DXT)

ST. PIERRE & MIQUELON Per the Montreal Gazette, R. France is building a high-power transmitter to beam France-Culture pgms to Québec and Acadia (MWN Distance 3/77) Sounds like either SW or balderdash (Charlie Taylor, IRCA DXNW IL) Well, 1375 kHz with only 4 kW over salt-water path can already be heard in much of Acadia all day long (gh, Nova Scotia)

UNITED ARAB EMIRATES Dubai's commercial radio station is being expanded. The Director-General of DRT says it is being supplied with two 750 kW MF as well as "powerful SW" transmitters and other equipment by the Marconi Company of Britain under a five-and-a-half million pound contract. They would make it possible for the radio to be heard clearly in the ME, part of Naf and SEU and the Indian sub-continent. The station would continue to broadcast 21 hours of Arabic and 8 hours of English programmes each day, providing competition to the only other Arabic commercial station, Monte Carlo (Jordan Times 29/7 via BECMS)

UNITED KINGDOM The Central Policy Review Staff, a high-level "Think Tank" of the British Government, has recommended major cutbacks in the BBC's External Services. This would include closing down all BBC services between 2000 and 0400 GMT and terminating most services to other than communist or developing nations.

Reaction in Britain among politicians and newspapers has been negative. Nevertheless, the report could indicate that some reduction in the BBC External Services is very possible. The Think Tank's recommending shutdown between 2000 and 0400 indicates that the North American listener is not considered consequential. We should try to convince them otherwise, or we might be deprived of what is considered the best shortwave service available.

I called Richard Somerset-Ward of the BBC's New York office. He advised that letters of concern and support for the BBC should be sent to none other than the Prime Minister, so here is the address; the letter should begin in "Dear Mr. Prime Minister:"

The Right Honourable James Callaghan, M.P., Prime Minister
First Lord of the Treasury and Minister for the Civil Service
Ten Downing Street
London SW1

When writing, please stress the importance of the BBC to the U.S. listener in providing a service of news and entertainment not available domestically. You might add that the BBC World Service has earned the friendship and respect of many U.S. listeners. (Kim Andrew Elliott, Washington DC) Further coverage of this vital issue is to be found in the August issue of Review of International Broadcasting; see PUBLICATIONS(gh) The clipping at right is from the London Economist, Aug. 12, via John L. Rouse, MD. For BBC's reaction, LN-12

Think-tank and the BBC

Think small

The BBC's external services get a pat on the back in the report by the British government's "think-tank" (see page 13), which calls them "a success story for the United Kingdom". Yet in the same breath the report recommends that their programme hours be cut by 40% in return for a saving of not more than 10% on operational costs. The main recommendations are:

1. The abolition of broadcasting in all European languages except those of communist-ruled eastern Europe.

2. Outside Europe, the abolition of broadcasts in Japanese, Burmese and Somali, and the halving of broadcasts in Arabic and in Spanish for Latin America.

3. An end to all broadcasting to Australia, New Zealand, Canada and the United States.

4. A complete shutdown of all broadcasting from Bush House, the external services' headquarters, between 8pm and 4am each day, which would mean that the world service in English would cease to be a round-the-clock operation.

5. The scrapping of a third of all radio transmitters in Britain.

These recommendations are based on the proposition that the only areas which still need the BBC as the provider of factual, unbiased information are the communist world and parts of the third world. But what about, say, southern Europe? No need to worry, says the think tank, because there is no evidence that the BBC has any influence on political developments there; and the BBC could always resume broadcasting if it was found to be desirable.

This is rubbish. There is plenty of evidence that the BBC has an influence in Portugal, Spain, Greece and the other south European countries. It is not true that a broadcasting service can be taken out of mothballs in a jiffy in response to a sudden political need. Such a Lazarus-service would anyway be regarded with suspicion as a propagandist response by the British government to a new situation and would therefore be less effective than an on-going service with a regular audience.

The think-tank's claim that the cuts would make money available to improve the "audibility" of the surviving services is not a sufficient defence. The report is also wrong to pooch-pooch the BBC's imaginative plan for a trilingual Euro-service from London in co-operation with France and West Germany, something the EEC could do with.

Outside Europe, in areas to which the report rightly attaches a lot of importance, its proposals for a reduction in broadcasting hours from Bush House could lose the BBC large audiences. The 8pm-4am closure would put an end to the large breakfast-time audiences for the BBC's English and vernacular broadcasts in Asia from the Gulf to Tokyo, in eastern and central Africa and also in large parts of the Soviet Union. Peak-time evening listening in Latin America, in huge areas of Africa and in central and southern Europe would also suffer. Meanwhile a lot of expensive transmitters would be lying idle. More think, less tank, please.

PUBLICATIONS Review of International Broadcasting

was a double-size 40-page issue in August, still available as a sample for \$1 US (\$2 or 10 IRCs international air). While RIB is growing steadily, there are still hundreds of NASWA members who have not checked into it. I'm convinced if you like FRENEX, you'll like RIB even more! In this issue, a 4-page spotlight on RCI; 12 pages of listener insights on programming from Albania to Zaire, including a section on music via SW; brief articles on other topics such as VOA Monitoring, Interference Tolerance, TV-DXing, gh's visits to WINB, WYFR and RCI. A center spread of selected broadcasts in graph form, by John Wegener. Debunking popularity polls; discussions of terminology; Romantic, Closet SWLs and Classical DXers; a listing of another 48 clippings related to international broadcasting, which may be ordered separately for xerox costs; a page and a half of "Don't You Believe", and two and a half pages of DX News items, many of them scooping this issue of FRENEX. Or you can subscribe @ 12 issues for \$6.00 first class/surface; \$11 international airmail, before prices have to go up. Available only, directly from Glenn Hauser, address on page LN-1.

International Radio Broadcast Listening in the United States:

A Survey of the North American Shortwave Association. Kim Andrew Elliott's M.A. thesis for the University of Minnesota, June 1977, in which you may have participated. It covers the 1976 survey of NASWA membership and examines the role of the DX organization in U.S. SWling. 180 pages. No copies are for sale, but it may be obtainable through interlibrary loan at some libraries (Elliott) Another pub. at bottom LN-12

Far Eastern DX Review is including more illustrations. The June issue had 10 excellent DX photos of Chinese TV, and reproductions of Russian and Korean program guides; an article on how to tell Thai and Lao apart; July issue had a Burmese cartoon, Korean radio ads, and in both as always the usual selection of carefully researched monitoring observations of FE radio. Published in limited editions. To contribute or subscribe, contact NASWA member Isaac Ugusa, 1-3-10 Mikage-yamate, Higashinada, Kobe, 658, Japan (gh)

USSR High-Frequency Broadcast Newsletter (UHN) continues with monthly 4-page issues @ only \$3 for 12 issues. The August edition includes a complete frequency and site schedule for R. Moscow English to Af, S/SEAs, ANZ, and a study of how R. Moscow xmttr site designations change from season to season. Roger Legge, Box 232, McLean VA 22101 (gh)

DX Listening, my column in the Sept. Popular Electronics, includes a further survey of publications (gh)

Radio News, a German illustrated magazine, covers the subject of Mebo II broadcasts from Libya extensively. Postfach 420 224, D-1000 Berlin 42, W. Germany (SGDX 26/7)

Ex-Número Uno Members Association, the most elite of all DX groups, is now being organized by gh. Among those eligible to join are such notables as Ed Shaw, Richard Wood and Victor Goonetilleke. The extent of ENUMA depends on the enthusiasm of its members, but the possibilities are limitless--tee shirts, lapel pins, bumper stickers, certificates... All ex-NU members are welcome, whatever the reason for departure. But rejoining NU will be grounds for immediate expulsion from ENUMA. Contact gh.

MISCELÁNEA RADIAL AUSTRALIA ABC's domestic service originating in Darwin is sometimes carried on SW for listeners in the Gove area when their MW stn is out of action. But the SW xmsn does not come from new facilities at Darwin, or Adelaide, which are still some time off! Instead, a standby transmitter at Lyndhurst, Victoria is fed Darwin programming via microwave for rebroadcast back to the NT. This happened 29/7 on 15175 at *2238-0202* This setup is available at short notice whenever the Darwin-Gove link fails (Bob Padula, Victoria) "8DR" via Lyndhurst heard on 6115 2315 28/7 to around 0300 29/7. Nothing noted on alternates of 11865 and 15175. There was a fault in a microwave repeater between Darwin and Gove between 5pm and 9am the next day, which also suspended all telephone traffic (Robert Jones, NSW, ADXN) (Cf Aug LN-6) Dr. Wood says RA on 9695 might be ex-9550, but I still hear 9550, with world news at 1200 (Ed Insinger, NJ, 11/8)

AUSTRIA (Cf Aug LN-3) ORF's OOB frogs are in the fixed service bands. 12015 has the call-sign ORF43, and is registered for the Austrian PTT. 5925 is not listed, but 5905 is ORF25 (Bob Padula, ADXN) ORF annexed two OOB frequencies 'so as to make itself better heard.' ORF External Service head Alfred Macher said they were following the example of Peking, Tirane, BBC, Nederland, due to congestion in-band. 5925 is also used at 1300-1500 (Wiener Kurier, 26/7 via BEGMS)

BRAZIL Harmonics are a nuisance, but when heard from overseas are interesting. On 2460, R. Eduardo do Rio Doce has been heard in Europe, 2 x 1230. R. Rural Santarém alternates steadily between 4765 and 4772, one day to the next; noted at 0300 on 4772 one day (Jan Tunér, EN DX Juke Box 11/8)

BURMA Per Jan FRENKX, the Rangoon DX Club would issue a special QSL for BBS reception reports to a certain date. I sent one via registered mail with 3 IRCs. I waited until April 8 or 9 before filing a complaint with the PO. I'm still waiting for followup results. Were there similar experiences by any of our members? (Poppin, CA, 28/7) **GAMBROON, CHINA LN-2**

CONGO Listening to RTVC on 4765, 2/8 at 0038-0042, I became aware of breaks in xmsn, which with an AVC time constant, lasted about 1.3 seconds. They continued randomly through 0046, and occasionally later. Monitoring the receiver IF with a scope showed no break in the carrier, and no spikes as with lightning discharges. None occurred during periods of talk, discussion, news. So, I think RTVC has an intermittent in their turntable system. It makes for a very distinctive 'station signature' (Bill McMullen, Ann Arbor MI) (For how long? (gh)

COOK ISLANDS Rerotonga was back on 5045 10/7 with RA nx 0800, then pops, EG, TG; later on was missing (Robert Yeo, ADXN) Other ARDXC reporters had it here 16/7 and 18/7 to 0830/LN-2 (Bunn, Wellner, Seward) It is assumed when they are on 5045, they aren't on 3265 (gh)/**CHILE**

DOMINICAN REPUBLIC R. Clarín has vanished again from 11700, during most of the first three weeks in Aug. I suppose it's power supply problems again. But this time, they've also dropped the EG pgs on //4850 at 2330. Just as well off 11700, what with Libya and Vatican there (gh)

ECUADOR HCJB's annual correspondence report shows a total of 169,816 letters and reports arrived in 1976, from 131 countries. The Japanese Department received more letters than any other with 63,494 pieces of mail! Postage rates have more than doubled from Ecuador, ruining our budget! This will markedly affect correspondence follow-up. Pray for wisdom and provision of extra funds for answering over 14,000 letters monthly. Pray for Roger and Joyce Eshabe. (HCJB Radio Log July/August) I pray that the 500 kW xtr will put out fewer sparks than the 30s, 50s and 100s now in use. 31/7 at 0300, 9560 barely audible, but strong distorted FM spurs on 9695/9825. 2/8 15160 spurred on 15081 at 1657, stronger than Iran. 6/8 at 1330, 15155 was spurring at plus and minus 54 kHz, 15061 and 15169 (gh) Also heard last at same time, and by 1440 they had migrated to 15063, 15167; clear but 50% of signal level on 15115 (Hadley Grass, VA)

GUAM KTVR's antennae are TOI Model 611 curtains, one on 315°, the other on 285°. Both are steerable plus/minus 30°. Basic pattern thus extends from 245° to 360°. Xmters are Harris 100 kW units (Bob Padula, ADXN August) My arithaetic shows 255 to 345° (gh)

HAITI/HAWAII (Cf July LN-8, Aug LN-8) The station reported as WVRW R. Nacional de Hawaii is no doubt the planned station 4VRD, R. National, Haiti, reported in SGDX 1428 to operate on 5975 and 9545 kHz (Andreas Grimaing, GPR, SGDX 19/7) Obviously (gh)

ITALY Astonishingly, RAI hrd in EG 31/7 at 0305 on 11810. Years ago they had one to NAM at this hour. At 0310, they started to play a NAM service anmt, then switched to one for the FE, giving all the wrong freqs. Apparently a total mixup--or a bode? (gh)

JORDAN Amman apparently with new 100 kW xmgr, good sigs in AR DS 0500-0520 on 11920 (Peter Bunn, RA DX 31/7) Due to jammers at *0330 and to RNE's new 7135 outlet, Amman can be heard only on Sundays, approx. 2120-2332*, all in AR (Victor C. Jear, PQ, 27/7)

LIBERIA EIMA now on crowded 11835, AR at 2025; not to be confused with Algeria, often near this freq, nor Sudan, heard here in June around 1935 (Jear) **LIBYA, MOROCCO LN-12**

PARAGUAY Your report of 11472 kHz is ZPGL5, Asunción, running 10 kW with signals beamed to (more)

Chile and Spain (Rick Matthew, Vancouver BC, quoting ITU listing) Your Primero de Marzo on 11472 was actually ANTELO, using ZP70 as a marker. They also do this on various utz frequencies with R. Chaco Boreal. Caracas in this case is an entertainment network in Asunción—radio station, discotheque, and confitería—a kind of tea-shop (Tony Jones, Asunción) R. Primero de Marzo often heard on 20960 around 1000-1200 (Andrea Lawendel, Italy, May, PERU PLAY-DX) I'm glad to hear the station and don't really care if it's a ute relay (gh) LN-12

PHILIPPINES R. Australia via Poroc!?? 23/7 at 0230-0245 on 17750, VOA was relaying RA-15270 at equal level with Dixon UN pgm (Robert Jones, NSW, ADXN) Per Goonetilleke this freq is Tinang, not Poroc, but still... (gh) FEBG on rare OOR 9495, now. 9505 at 1100-1400* in SEAs langs (Isaac Ugusa, FEDXR, 27/7)

PORTUGAL(?) RFE on a new freq: 11780 in Czech over jamming at 2312. The first NF I've hrd from RFE for several years; a change in policy? (Bob Padula, ADXN; 23/7) ¿Stanley? (gh)

SPAIN EBC, San Fernando, heard with time signals 21/7 0959-1025 on 12008 (PG, PLAY-DX)

SYRIA Damascus heard on 15290 at 0235-0345 one day only in June, thanks to Richard Wood; had been listening to Argentina on freq, and recentlier, Australia 0300 (Victor Jaar, PQ)

TRISTAN DA CUNHA (Cf Feb LN-6) Tristan Radio was logged 22/5 on 3290 kHz at 2051-2115. Full ID was given several times, and the reception was poor, the power must be more than the listed 40 watts (Roland Schulze, Stuttgart, GFR, SGDX 12/7) Your DX-ed. is really impressed by this rare logging. As far as I know, Tristan has never been heard in Scandinavia, maybe not even in Europe, so maybe the one kW transmitter is now in use. What are other DXers hearing on 3290? (Ingemar Sandberg, substitute SGDX ed.) Answer: LN-12

UKOGBANI As of September, the BBC WS interval signal is to be Bow Bells rather than Oranges and Lemons (DX Party Line 28/7) ¿Why? (gh)

URUGUAY SODRE, heard on 15273 regularly at weak but clear level with good modulation. IDs usually as "CX4" and lots of rock music by Eagles, Chicago, etc. Listed at 800 watts. Good always to VOA carrier *0120, e.g. 15/7 at 0034 (Terry Krueger, FL Tropical DXN)

USA Writer Saul Kohler of the Star-Ledger Washington Bureau reports the US position on jamming, according to Admiral Stansfield Turner, Director of central intelligence: "...if we start jamming the airwaves, we would start interfering with television, radio, pacemakers and the like." Turner also reported that the operations staff of the CIA HQ in McLean VA, is to be trimmed down by 800. (from the Star-Ledger, 10/8 via Ed Insinger, NJ, who adds:) Can one thus assume the US is not now engaged in pulsters and/or OTH scanning, etc.? gh: No, as it's pretty certain the purpose of that is not jamming. Turner appears to be a practical man, saying nothing about the morality of jamming by a 'free' society. More on LN-12

VENEZUELA R. Tricolor is back on 4820 after a long absence, best heard at 0600-0800. Also Ecos del Torbes is now on 9640 ex-6190 as announced on the station; it continues on 4980 where heard until 0400* (the first from Carl Beck, NY; the second from Agostino Pendo-la, Genova, Italy, in Sweden Calling DXers 16/8) I checked Torbes 18/8 around 1000, and found it still very much on 6190, with only DW to be heard on 9640 (gh)

ARGENTINA LN-11

DX PROGRAMS

CANADA Since 21/8 your LN editor has been contributing a weekly 2 or 3 minute DX news report on RCI's Sunday "DX Digest". At last. Nam DXers have a way to get DX tips out fast, while they are news, via their favorite medium. Hot tips received by the previous Wednesday night will be considered for the report, but a selection must be made to fit the time available. You may phone me at home (615) 577-3741--please, no collect calls and no calls between 0400 and 1200 GMT. Or weekdays at WUOT, (615) 974-5375. Thanks to Ian McFarland for this opportunity. Also of interest is an SWL whose name seems to be Steven Fragel, appearing on "Morningside" each Monday around 1445 via the CBC NS, recounting some of the odd things he has recently heard on SW (gh) ECUADOR LN-11

GERMANY WEST DW's DX Editor gives this info on their DX pgms: One is in German and English on the 2nd Sat within "Unter Uns Gesagt" (i.e. 110 mins after start of xmsn -gh). In addition, the EG part is broadcast every 3rd Sat at the beginning of "Weekend Rendezvous" It includes a DX spot, and is beamed to AWA, S&SEAs. Also on 3rd Sats, in SF during the 2300-2430 broadcast to LAm (couldn't he be a bit more specific? gh). And on every Tue following 2nd Sat, during the JP pgm 1115-1215. (Oliver T. Goonawardena, Sri Lanka, 19/7)

MALTA AWR's French DX pgm, compiled by the Belgian "TELEX" group is hrd Sun 0730 on 9770 (John Mainland, NZ, via RA DX 7/8)

NETHERLANDS As from Nov, DX Juke Box will be cut to 15 min alternate weeks to accommodate a repeat of Dutch by Radio, for 26 weeks (Dick Speekman) ANTILLES "Radio Atividade" has expanded to encompass the last 25mins of each PT xmsn on Thus, with more and more features, DX recordings, tips, answers to correspondence; host is Jacobo Bornstein (gh) Back to the English DX Jukebox--please be taping or listening carefully at the end of my report on the third Thursday in Sept, to see if you can ID Daniel Luce's unID at 0900 on 11745. The IS will be heard only once, and a portion of an anthem (gh)

PHILIPPINES The R. Veritas DX pgn, Mon at 1440, is now repeated Wed at 0140, on 11725/15280 (Jose Jacob, and Bijanki Ramakrishna, India, SCDX 2/8)

PORTUGAL R Portugal said on their 23/7 DX pgn that it is 'not up to the standards their staff would like it to be. Plan to make some drastic changes in the near future,' including DX tips from DX-club members. There's much room for improvement--during a recent 15-min DX pgn they played four Portuguese musical selections (Charley Hoffman, PA) I'd lost track that they were still (again?) doing a DX pgn: 23/7 was a Sat--did you mean Sat in NAM, or Sat GMT? It wasn't on at 0300 GMT Sun 21/8 when I checked; is it not weekly? (gh)

SWEDEN Even if you get SCDX in the mail, it doesn't hurt to listen. On 16/8 you would have heard George Wood interviewing a visiting NZ DXer (gh)

USSR Paul Kuznetsov, producer of Radio Moscow's DX Program, obviously gets SCDX in the mail since he has been stealing DX tips from it week after week, without any acknowledgement. The correspondence in choice of items and details within them is obvious, and once he even dared to claim they were 'monitored in Moscow'. Most embarrassing and disgusting, unless you're a Russian accustomed to stealing other people's accomplishments (gh) But see LN-12

ARGENTINA Due to poor reception for several weeks, I'd given up trying to get "DXismo Argentino al Mundo" on RAB, but when I could hear them Sat 20/8 at 2250-2315, the program was missing! (gh) Because of a fall in the level of DX activity, leading to a decrease in the amount of info available, this ADXCI-produced program has been changed from weekly to fortnightly, but on the same time sked as before: Wed 1919 11710; Thu 0119 9690 & at 0419; Sat 2303 11710, Sun 0208 9690. It will rebecome weekly as soon as there is any visible increase LA DX activity (ADXCI Mar-Aug issue) So 'on' weeks should be Sept. 7, 21, etc. (gh)

ECUADOR It's no surprise, but Roger Stubbe's SP "Programa DX" was also missing during Aug, at the previously sked time of Tue 0145-0200; as was his Eng-for-Japanese Sat at 1200-1225 on HGJB. The former is utterly replaced by gospel programming as if it never existed, while the latter carries an additional airing of 5/6 of DX Party Line (gh)

PROGRAM NEWS CANADA The providing a fine selection of other comedy cuts Sats 1530-1600 on the CBC NS 9625/11720, such as a tribute to Groucho the day after his death, the Royal Canadian Air Farce itself is to resume Oct. 8 (gh)

FRANCE RFI sked to NAM issued 6 Mar, all in FR, and GMT times here will move to an hour later 25/9; 1055 Début; 1058 Inter Bourse ouverture; 1100-1200 "Inter Treize"--magazine d'informations; 1200-1500 "Le temps de vivre" de Jacques Pradel, Bernard Grand et Jean-Michel Daalan; 1452 Cours de la bourse de Paris; 1500-1600 "Radioscope" interview d'une personnalité par Jacques Chancel; 1600 Flash d'informations et fin des émissions. Modifications pour le Week-End: Samedi 1200-1600 "L'oreille en coin", émission de variétés de Pierre Godeu et Jean Garretto; Dimanche 1200-1300 même, 1300-1600 "Sports et Musique", all from the France-Inter HS. In the African service, some of the special pgms are: "24 Heures en Afrique" 1215-1245 (Sat 1200-1245, Sun 1200-1225); and "Afrique Soir", 2000-2028; "Afrique Matin" 0500-0900 (Sat -0800, Sun -0730) (BBC MS 7/77 for Af; Robert Heckenlively, SD for Am)

HONDURAS All Honduras stations broadcast the same pgn in SP 0400-0415, consisting of military government info (Jean-Jacques Bloch, France, DSWG1 6/77) Handy, for // IDING (gh)

HUNGARY R. Budapest's "Report" segment closing the Wed 1200, Thu 0300, Fri 1030, 1430, 2130 Sat 0200, and opening the Fri 1200 xmasns might be interesting this month; topics: week of Sept. 7, Can Europe cooperate on energy, transport and the environment?; Sept. 14, Is Hungary thinking of developing solar energy?; Sept. 21, Are there sanctuaries and nature reserves?; Sept. 28, Are many foreign authors published in Hungary? (gh, from Bud. Int'l)

LAOS Here is the HS sked for 6130 kHz of National Radio Laos, all sic, but here in GMT: 2230 Musics and songs, 2300 Local and foreign news, 2330 Army news, 0000 Local & Foreign news, 0030 National Construction, 0100 Emulation drive for National Development. At 0400, Army news, 0430 Local & Foreign news, 0500 Musics and songs, 0530 Local & Foreign news, 0600 Emulation drive for National Development. At 0900, Slow reading & Songs (not Sunday); 1000 Emergency announcement, 1030 Musics and songs, 1100 Local & Foreign news, 1130 National construction, 1200 Local & Foreign news, 1230 Army news, 1300 Musics & Songs, 1400 Local & Foreign news, 1430 Emulation drive for National Development (via Henry Rockwood, OH)

SOUTH AFRICA R. RSA has been plugging, even in its NAM svc, "Safari 77" each Sat from 1300 (?) in which listeners are asked to vote for the best recording artist (gh)

UKOGRANI Perhaps in deference to NAM listeners, BEC has turned 0330 into a 30-minute pgn block instead of 2 or 3 shorties designed for the eastern wake-up audience. Here's the Sept lineup at 0330: Sat, Bob Holness requests; Sun, Your Verdict back for a new season; Mon, Books and Writers and 0350 Voices to Remember; Tue, The Takeaway Man--the new comedy series about a male escort, which listeners picked last winter; Wed, Alistair Cooke's Jazzmen covering this month The Twelve Bar Blues, W.C. Handy, Jelly Roll Morton, Bix Beiderbecke, with a repeat each Wed, at 2030 and Fri 1430. Thu at 0330, documentaries: 8th, Making a Retreat 15th, The Orkneys, 22nd Antibiotics, 29th The Crown Agents. These also appear the previous

(UKOGBANI contd.) Wed at 1430, following Fri 2030. Fri 0330, On the Street Where They Lived which is about London visits by famous composers--Dvořák, Johann Strauss Sr, Haydn, Puccini in this month's pgms, which are previously hrd Weds 1030, Thurs 1615. A fun program is Anguish by Radio, back for a new series Suns 0545, Tues 0145, Weds 1115. Four distinguished scientists look back over One Man's Lifetime, Mons 0315, 1715; Tues 0745, 2145. The Secret War is a docu series about weapon development, Sats 2330, Suns 1715, Mons 1130. The classical request program The Pleasure's Yours expands to 45 min, Suns 0815, Tues 2030, Thurs 1345. Theatre of the Air's first airing is at 2015 Sats the first three weeks due to live Promenade Concerts at 1830, but don't miss "Waiting for Godot", postponed for several months (appropriately), at the resumed time of 1830 Sat 24 Sept, repeated Sun 0030, 1130. (gh)

USA "The Alpine Regions of the Netherlands", a 4-part yukker produced by Bob Haslach as a filler-after-DX-Jukebox last March will be available over WUOT (91.9 MHz, 100 kW), the last four Sept Fridays at 1930 EDT (2330 GMT) (gh) AFRTS is long overdue in putting out a new master schedule for those with magnifying glasses (gh) When a new sked is published, it will be announced on "Program Notes", daily at 0535 and 1735 GMT (0635 and 1835 Nov-Apr) (Alexander Mihajlou, Chicago)

(continued from LN-21)

LAST MINUTE ITEMS

ISRAEL S77 IBA Hebrew HS SW sked: "B" pgm 0400 (Sat 0500)-0610 to Nam on 7465/9009; also on 15547. 0615-1800 on 12077½/15547; 1800-1955 11655/12077½/15547 (at 1800-1830, 11655/15547 split off to carry the "A" pgm's Ladino and Mugarbit); 2000-2305 to Nam on 7465/9355/12077½; also 15547. The Hebrew HS is jammed during magazine news review pgms at 0500-0530, 1100-1130, 1700-1800 (Larry Magne, PA)

LIBERIA VQA is to install four more high-power SW xtrs at Monrovia (R. Ginbey, RSA, SGDX)

LIBYA Full service from Nebo 2 was to begin in Sept after tests on 6205. Addr: 20 Hanway St., London W.1 (Record Mirror via WDXG)

MOROCCO RTVM hrd evens on 30500, 5 x 6100 (Mike Barraclough, Aug WDXG Contact, UK)

NETHERLANDS ANTILLES Continental Electronics has been awarded a million-dollar contract by TMR for 2 x 250 kW SW xtrs and 1 x 50 kW MW on Curaçao (G.C.Santos, SGDX 23/8)

NICARAGUA Sept IFRB lists Managua 11875, 100 kW, 1200-0600. Was 50 kW before destroyed by earthquake (Roger Legge, VA) I thought it was 100 (gh)

PERU R. Nacional Tacna, 9530 was hrd 3/8 just before 1200 preparing to join the new ENTEL microwave "Cadena Nacional" connecting it with Lima and 26 other stns (BECMS)

PORTUGAL RDP's sked changes little but 11790 // 11840 seems new, 2300-0100 PT to Bzl, 0100-0130 SP to IAM & Bu. (Cf Aug LN-4) The RDP xmsns on 6115 and 9635 are via Sines (via BECMS)

SA'UDI ARABIA Since 5/8 Riyadh's DS in AR obs on new 15245, 1400 past 1800 (BECMS 11/8)

SENEGAL R. Tambacounda has been heard testing at 0900-1200 on 6045 // 1502 (Mohammed ---, Mauritania, SGDX 23/8) 6045 listed for St.Louis, seldom reported tho (gh)

TRISTAN DA CUNHA Whilst trying for supposed Tristan on 3290 came across Malagasy on 3288 to 2100* (Mike Barraclough, WDXG) Ditto, but Madagascar was on 3290, not listed 3288 (Gerhard März, Johannesburg, RSA, SGDX 16/8)

UKOGBANI The BBC reacted angrily Wednesday to proposals that its overseas radio broadcasts be severely pruned. Sir Michael Swann said the proposed cuts would leave the way open for the BBC's 'ideological competition at a time when the external service's effectiveness is at its highest and the need for their contribution at its greatest'... 'if the report's recommendations are accepted, Britain will be seen to have deliberately withdrawn from the dominant role it has played in world broadcasting since 1940.' (AFP via Toronto Globe and Mail, 4/8 via SWNS) The Brit ambassador to US is Peter Jay, not Ramsbotham as in RIB (gh)

URUGUAY SODRE planned to begin an international service in Spanish with Uruguayan music & news on 15/8 at 2200-0400. No freqs given, but list on 9620/15275 (Horacio A. Negro, SGDX)

USA A BBC official has admitted CIA control over VOA broadcasts and the recent dismissal of the VOA boss could be the beginning of a struggle for 'freedom' (R. Shapiro, WDXG) Oh?

USSR The 15505 xtr has been heard in the afternoons on 31010, 2x (Barraclough, UK, WDXG)

PUBLICATION Wireless World magazine for Aug 77 contains two interesting articles. One is by George Jackson, Head of Engineering at RCI, describing a method of measuring the success of a SWBC service in achieving its desired target coverage. The other describes the development of ham and SWL receivers during the past 15 years or so, and includes a comparative specification chart for ten modern receivers, including FRG-7, SPR-4, R4B, etc. Both articles are written in non-technical language and are easy to understand. WW costs 40P from UK newsgroups, and is available in many overseas countries (Andy Sennitt, WDXG Contact)

USSR The RM DX Club we have now is virtually a carbon-copy of James Young's proposal, and he got card #1 (Kuznetsov, 4/8) Not often can an American have such direct and acknowledged influence on Soviet foreign policy. Congratulations, Jim: (gh)

Another good turnout this month. A lot of new reporters, some old ones returning, and nobody quit on me this month. But there are lots more of you out there. How about sending in a report now ?

I would be interested in your reaction to the new format, which includes receiver for the first time. Is it too crowded ? I expect to change the spacing a little next time. All of you who did not send in your primary receiver model, please do so next time.

It has been a busy summer, with vacations, a couple of short business trips, and preparing for my first venture into town politics, so it should be an interesting fall. This explains why you haven't seen too many reports in the Log Sections from me.

I received a reply to my question of last month about Azores being counted as an African. Seems the committee that decides those things believes that Azores propagates like an African.

David Snyder, President of the Brooklyn DX Club, asks me to inform you that samples of the club's bulletin may be obtained for 50 cents from 1137 E. 12th St, Brooklyn, NY, 11230.

NEXT DEADLINE IS NOVEMBER 15, 1977. SPOTLIGHT IS OCEANIA/ANTARCTICA. Make sure you let me know if your oceanica figure includes Antarctica. Sure wish mine did. Till next time 73's

QSL REPORT

BILL OLIVER, EDITOR
45 Wildflower Road
Levittown, PA 19057

SEPTEMBER 1977

A very nice month for individual countries. We have Laos, Upper Volta, and almost all the rarities that start with "M". If that's not enough, Henry Lazarus QSL'ed R. Diario da Manha, Brazil, Ed Kusalik supplied R. Kashmir, India, and Jay McGonnell sent a report to the Voice of Greece and got a verie from YENED. What next? And away we go....

AFGHANISTAN: R. Afghanistan, 4775, f/d multi-colored cd in 46 days for EE rpt, 2 IRC's and used stamps. (Kusalik-ONT).

ALBANIA: R. Tirana, 7300, f/d "L'Esprit Revolutionnaire" cd in 92 days for 2 IRC's. (Onken-IL).

R. Peking Relay, 9780, blue/gold cd w/o time in 17 days w/notice of mags on the way. No rp. (Wirsz-BC); same cd, sked, letter on prgms, "Chinese for Beginners" and mag notice in 22 days. No rp. (Golkin-NY); "Logo" cd, sked and 2 pages of Mao's Memorial in 24 days. No rp. (Meehan-CT); "Festival Rejoicing" cd in 14 days. No rp. (Gadous-VT).

ALGERIA: RTVA, 11835, f/d blue/white cd w/wrong year (76) for Feb. 77 rpt received in 140 days for EE rpt and 1 IRC. (Willis-KY).

ANDORRA: R. Andorra, 6230, "Couple/Lake" cd w/only freq and 2 stickers in 42 days for EE rpt and 2 IRC's. (Pyatt-PA).

ANTIGUA: BBC Relay, 6175, no-data cd w/o site and sked in 1 month. No rp. (Lobdell-MA): 6175/6195, 2 no-data cds in 1 month. No rp. (Bolitho-ONT).

Deutsche Welle Relay, 6040, no-data cd in 90 days. No rp. I wrote the data on the cd. (Pyatt-PA): 6080, no-data form letter in 7 months for GG rpt. No rp. (Schwartz-DE): 15385, no-data cd and letter explaining that they couldn't mark site even though I had sent a tape rpt, received in 36 days for 1 IRC. This freq is now used by DW/Kigali. My country #134 according to the EDXC Country List! (Lindholm-SWEDEN).

ARGENTINA: RAE, 11710, blue/white freq-only cd and SS sked in 112 days on 2nd try for 2 IRC's. (Glazzy-CA).

R. El Mundo, 6120, long blue "Mike" cd w/o time in 3 months for 2 IRC's. (Twiggs-CT): 15290, date-only cd and personal letter thanking me for my rpt in 27 days for NASWA SS rpt and 1 IRC. Sked on letter. (Pineault-QUE).

ARMENIAN SSR: R. Yerevan, 7270, f/d paper in 3 months. No rp. Envelope was unsealed so who knows what else was sent, but I got the QSL! (Bishop-PA).

ASCENSION IS: BBC Relay, 9580, no-data cd w/o site although requested in 46 days. No rp. (McGonnell-MA).

ASIATIC RSPSR: R. Moscow via Yuzhno-Sakhalinsk, 11860. Via Chita, 9655/9700. Via Kenga, 9655/9660/11960/15175. Via Sverdlovsk, 7130/11785/15405. Via Irkutsk, 15425. Via Krasnoyarsk, 7250. Via Petropavlovsk-Kamchatsky, 12020/15180/15210. Via Khabarovsk, 12050/15100. Via Blagoveshchensk, 9580. These sites reported by Kusalik-ONT, Schipelliti-MA, Self-MN, Lister-BC, Cannon-NC, Noonan-WI and George-TX. Cards in about 40 days. No rp.

AUSTRALIA: R. Australia, 15160, QSL cd w/special ARDXC cd signed by Bob Padula in 3 1/2 months. No rp. (Vernetti-MARSHALL IS): 9515, f/d cd in 20 days for 1 IRC. (Noonan-WI): 9580, f/d cd in 22 days for 1 IRC. (Fraser-MA); in 20 days for 2 IRC's. (Ihnat-PA): 15320, f/d cd, pennant in 17 days for 1 IRC. (Blankenship-WV); f/d cd, calendar in 49 days for 1 IRC. (Miller-WV): 9580/17795, f/d cds in 5 months. No rp. (Hermann-ONT). Cards were "Parakeet", "Blue Wren" and "Strut Pea".

VW15-Perth, 15425, f/d cd in 51 days. No rp. (Lister-BC).

VNG, 7500, f/d "Melbourne" cd, letter and info in 45 days. No rp. (Berezowski-ALB): 4500/7500, same in 27 days. No rp. (Self-MN).

AUSTRIA: ORF, 9770, f/d "Lovers" cd, sked and rpt forms in 31 days for 1 IRC. (Fraser-MA); f/d "Glass Towers" cd, sked, rpt forms and "Get Well" note in 45 days for 1 IRC. (Rockwood-OH); f/d "Austrian Art" cd in 8 weeks. No rp. (Delong-PA): 6155/9770, f/d "Niederosterreich" and "ORF" cds in 65 days for 1 IRC. The most beautiful QSL's! (Gadous-VT).

AZERBAIJAN SSR: R. Moscow via Baku, 21490, green/white cd and sked in 39 days. No rp. (Kusalik-ONT).

BELGIUM: BRTV, 9725, f/d cd, nice tri-color pennant, 2 pcds, "Mailbag" transcript and 2 skeds in 32 days for 1 IRC. I really liked this one! (Howarth-PA): 9730, same w/tourist info and map of Belgium in 28 days for 1 IRC. They really send a lot of stuff! (Ihnat-PA); same bunch of "goodies" w/"Mailbag" transcript of the show on which I was mentioned in 30 days for 3 IRC's. (Self-MN).

BELIZE: R. Belize, 3285, f/d map cd and sked in 30 days for mint stamps. (Pyatt-PA).

BENIN: ORTB, 4870, date/freq cd in 2 months for FF rpt and 2 IRC's. (Lobdell-MA); f/d "Five Scenes" cd in 44 days for FF rpt, 2 IRC's, 2 color prints and a business card. (Wiles-WV); same cd w/o freq in 9 months for EE/FF rpt, 3 IRC's and used stamps. (Florian-IL); same in 219 days. No rp. (Boyd-IL); same cd in 1 month for FF rpt. No rp. (Twiggs-CT).

BRAZIL: R. Nacional, 15245, f/d cd, wallet calendar and note on closing of International Service in 40 days. No rp. I just made this one in time! (Self-MN); f/d cd and bumper sticker in 14 days for 2 IRC's. Note mentioned return next year. (Onken-IL): 11780, f/d cd, sked, sticker and pocket calendar in 63 days for 2 IRC's. (Lindholm-SWEDEN).

R. Diario da Manha, 9675, personal EE letter in 1 year and 9 months for PP rpt, tape and mint stamps after 6 f/ups. V/s Rudolf Walter Grimm, International Department. (Lazarus-LA).

BULGARIA: R. Sofia, 9705, f/d "Pamporovo" cd and mint stamps in 75 days. No rp. (Meehan-CT): 9700, f/d "University" cd in 122 days. No rp. (Gadouas-VT); same w/sked and rpt forms in 28 days for 2 IRC's. (Onken-IL).

BYELORUSSIAN SSR: R. Moscow via Minsk, 11745, f/d cd w/site in 39 days. No rp. Received a sked, too. (Kusalik-ONT).

(Bolitho-ONT): 15105, "Tachibana Dolls" cd w/o time, pennant, sked, rpt form and "RJ News" in 10 days for rpt form. No rp. (Berezowski-ALB): 11815, same in 13 days for rpt form. No rp. (Wirsz-BC).
KENYA: V. of Keyna, 4915, f/d aerogramme QSL in 30 days for cassette tape rpt on Swahili xmsn and 1 IRC. Thanks to Victor Jaar for his phone call on this. (Pineault-QUE). Nice, Andre. Do you want my phone number, Victor?
KIRGHIZ SSR: R. Moscow via Frunze, 11890, f/d cd in 6 weeks for rpt on S/SE Asian xmsn. No rp. (Cannon-NC): 15435, f/d "Clock Tower" cd in 48 days for Asian Svc rpt. No rp. (Boyd-IL): 15500/17835/11870/11890/12050, f/d cd w/site typed in in 39 days for used stamps. Also received sked, mint stamps and letter. (Kusalik-ONT).
KOREA (N): R. Pyongyang, 11535, f/d cd, pennant, small flag, pin, a set of 12 pcds, used stamps and, in the pages of a book on health care, 13 unused IRC's, all stamped in Japan. All this in only 30 days for FF rpt. No rp. (Gionet-NB).
KOREA (S): KBS, 9640, f/d "Traditional Orchestra" cd in 4 weeks for pcd and 1 IRC. One of the nicest cards I have ever seen. (Gower-IL); f/d cd, sked, pennant in 19 days for 1 IRC. (Howard-CA): 11860, f/d cd, sked and pennant in 1 month for 1 IRC. (McClure-KY).
KUWAIT: R. Kuwait, 12085, f/d folder cd in 6 weeks. No rp. (Bolitho-ONT); in 83 days. No rp. (Mikell-IL); in 57 days. No rp. (Boyd-IL); in 3 months. No rp. (Gercken-IL); in 51 days for 1 IRC. (Blankenship-WV).
LAOS: National Radio of Laos, 7145, no-data letter and skeds in 7 months for EE rpt on Lao xmsn, 2 IRC's and photographs of the Wheeling area. The letter states that they were sorry for not answering my rpt promptly! My Vic #120!!! V/s Boun-Mek Phengsavanh. (Wiles-WV).
LATVIAN SSR: R. Riga, 5935, f/d "Native Couple" cd in 4 months for EE rpt. No rp. (Schwartz-DE and Bishop-PA); f/d green/white cd and another pcd giving their sked and thanking me for my tape rpt on a Swedish xmsn received in 136 days for 2 IRC's. They returned my tape. (Pineault-QUE); f/d "Native Couple" cd and sked in 4 1/2 months for 1 IRC and EE rpt on Latvian xmsn. Thanks to Roger Legge and "UHFPHN" for this tip. (Cannon-NC).
LIBERIA: ELWA, 4770, cd in 159 days for \$1.00 donation. (Mikell-IL); f/d cd and sked in 4 months for 1 IRC. (Hermann-ONT).
LITHUANIAN SSR: R. Moscow via Kaunas, 11870, f/d "CMEA" cd, sked, rpt form in 40 days. No rp. (Boyd-IL); f/d cd in 33 days. No rp. (Self-PN).
MALAGASY REP: R. Netherland Relay, 11730, "Announcers" cd w/verification of Malagasy and Hilversum in 13 days for 2 rpts. (Delong-PA).
MALAWI: MBC, 3380, f/d blue letter on 2nd try for mint stamps in a total time of 4 1/2 months. (Gower-IL).
MALAYSIA: BBC Relay, 15435, no-data "Bridge" cd w/o site in 60 days. No rp. (Lister-BC).
MALTA: Xandir Malta, 6080, f/d letter and tourist info in 102 days for 1 IRC. (Lindholm-SWEDEN).
MARTINIQUE: FR3, 3315, f/d FF letter in 26 days for used stamps. (Hobbs-NC).
MAURITIUS: MBC, 9710, red/blue/yellow/green MBC cd w/o time after 3 rpt on Dec. 76 reception. Cd came 16 days after 3rd rpt and a total of 5 IRC's. I love it! (Willis-KY).
MONGOLIA: R. Ulan Bator, 11860 (Home Svc), f/d cd w/incorrect time in 3 months for EE registered rpt and a penny. Also received 5 Mongolian coins, stunning stamps, pcds, mags and sked. All this came in a large brown envelope with no postage! Rpt was directed to Mr. Tuvdennyam. (Hywarren-MAN).
MONTSERAT: Deutsche Welle Relay, 9590, no-data cd in 6 weeks. I sent the rpt to the island with mint stamps and SASE, but the verie came from Cologne with a note explaining why they couldn't send a QSL from the xmtr site. They also returned my stamp. (Bishop-PA).
MOROCCO: VOA-Tangier, 7190, "Capitol" cd w/o date in 6 days. (McGonnell-MA): 15205, f/d "Stamps" cd w/site in 8 days. No rp. (Hoffman-PA).
MOZAMBIQUE: R. Mozambique, 3210, f/d cd w/wrong time in 6 months for NASWA FF rpt. No rp. The time was given in local time, but the card said "GMT". (Bolitho-ONT); f/d "Globe" cd in 3 months. No rp. Meter mark reads "Lorenzo Marques". So much for the revolution! (Bishop-PA).

MEXICO: R. Universidad de Sonora, 6115, EE/SS printed cd in 36 days for EE rpt. No rp. (Howard-CA). Very nice, Ron. Sorry this got on the bottom. ed.

NETHERLANDS: R. Nederland, 11730, f/d "DX Prgm Hosts" cd in 1 month. No rp. (Bolitho-ONT); in 14 days. No rp. (Golkin-NY); in 11 days for 1 IRC. (Fraser-MA); in 1 1/2 months. No rp. (Lobdell-MA): 9715, in 9 days. No rp. (Hermann-ONT).

NETHERLANDS ANTILLES: R. Nederland Relay, 6165, f/d cd in 16 days for 1 IRC. (Howarth-PA); in 59 days for Gilfer rpt. No rp. (Berezowski-ALB).

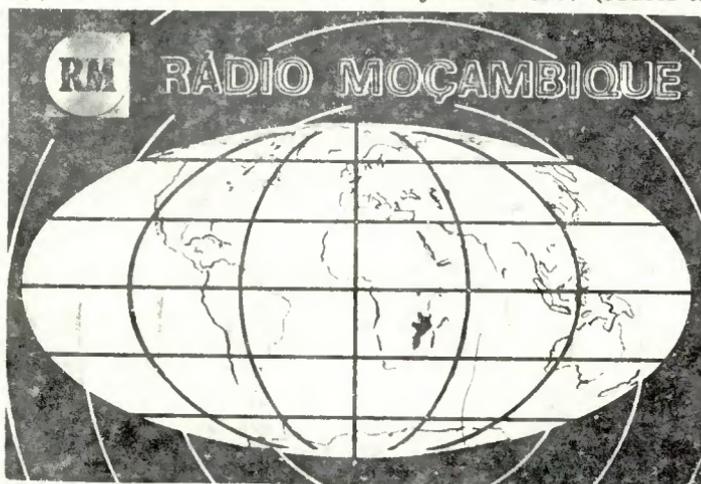

TWR, 11925, f/d cd, sked and religious info in 14 days for 1 IRC. (Ihnat-PA); same in 3 weeks for 1 IRC. (Lawrence-SASK); in 25 days with TWR sticker. No rp. They need IRC's for airmail. (Berezowski-ALB).

NEW ZEALAND: RNZ, 6105, f/d cd, sked and personal letter saying the copy of "New Zealand Listener" I requested was sent by seammil. Received in 22 days for 2 IRC's. (Howarth-PA): 11705, f/d "Lake/Mountains" cd and sked in 15 days for 1 IRC and mint stamps. (Neff-IL): 15130, same cd, sked and personal letter in 20 days for 2 IRC's. (Hartsell-CA).

NIGERIA: NBC-Jos, 5965, f/d form letter and sked in 1 month. No rp. (Howard-CA); f/d cd from Lagos in 99 days. No rp. (Bishop-PA).

NBC-Benin, 4932, f/d cd from Lagos in 99 days. No rp. (Bishop-PA).

NORWAY: R. Norway, 15175, f/d "Mountain Scene" cd and sked in 22 days for 1 IRC. (Dawson-ALB); f/d "Sogne Fjord" cd, sked and small flag in 60 days. No rp. (Self-MN); same cd and bulletin in 21 days for 1 IRC. (Fraser-MA).

UPCOMING DEADLINES: 10 Sept (mid-month)
19 Sept (Oct.)
10 Oct (mid-month)

Other clubs and broadcasters may use materials from DXH provided due credit is given the original reporter and NASWA DX Hotline. Material from DXH may NOT be reprinted by clubs and organizations which do not give reciprocal access to their publications. BBC Monitoring Service (BBCMS) items are copyrighted and may not be reprinted without their permission. All dates, times, and days are GMT. Frequencies are kHz.

A slow month, possibly because of the unusual deadline schedule; to spice things up, I have inserted several items from the Mid-Aug DXH. These are marked with an asterisk (*). Onward . . .

ANTARCTICA Following up on his report to the Mid-Aug DXH, Bill Hohnstein reports that AFAN McMurdo, 6012, will use a rhombic antenna beamed to NAM rather than the usual vertical during Aug and Sept, except during periods when the rhombic is needed for other traffic from the stn. Bill also reports that s/off of AFAN was early on 15 Aug due to transmitter trouble; stn management reports recent problems w/ the modulator and RF amp and indicates that repairs may take some time to complete. Low modulation has been a persistent problem. Bill also reports hearing AFAN on 6012, fading in at 0615 and 1015, carrier only w/o perceptible modulation. (Hohnstein, Neb.) ***thanks again, Bill---tba

ANGOLA—out of order— RNacional, 3355, at 0515 //3375 w/ PP talks and local mx. Good sig but heavy UTE QRM. UNID Angolan on 7160 at 0553 w/ light pops and Afr mx from t/in. "San Francisco" played 0557 to ID by W at 0559 in PP; ID gave undecipherable list of SW and MW freqs. Also noted at 0600 w/ xylophone IS followed by M in PP. (editor Dan Robinson, PA) ***Dan reports that 7160 was formerly a RC de Huambo freq; it is clearly a regional outlet now, because Dan reports hearing a regional ID, rather than one for RNac.---tba

AUSTRALIA RA, 15205 in usual magazine format in EG, 0400-0520, // 15160, 15320; all GE. Also reporting 11740, 11935 (Holmes, Col.)***George, your report of 11535 for this appears to be a mispronunciation by their anncr---tba*** hot news department: your ed. monitored a hot b'cast from RA at 0320, 22 Aug, when an apparently false fire alarm sounded in the RA studio!!! Nicely covered by the anncr, but you could hear him getting ready to leave quickly if necessary. Interesting . . .

CAMEROUNS R. Buea on 3970 and R. Garoua on 5010 both noted at 0430 with exc sigs of late; This is prime time for Buea: local mx, FR talks and nx at 0500, EG nx thereafter relayed via Yaounde. Local ID by W 0515 (Robinson, PA)

CANADA RCI, 17820, at 1825 in EG to Africa; fair to good (Holmes, Col.)***I hope you all tuned in to Glenn Hauser's DX segment on DX Digest last Sunday . . .tba

***CHINA (P.R.) PLA-FFBS 2 on 6000 hetting Singapore also here from 1100-1200 on 6-8 Aug. S/off of FFBS may be as late as 1225. Though both stns are in CH, FFBS is identifiable by revolutionary operative mx, nx w/ frequent mention of Taiwan, and use of East is Red at 1200. After 1225, Singapore is in the clear. When both stns are on, listen for 100 Hz het. (Wiseblood, Cal.)

CONGO Brazzaville, noted w/ Congolese mx and vocals, FR talks on 3232 at 0435. Another carrier underneath but much weaker; Madagascar??? Pt. Noire on 4843 from *0430-0446; s/on w/ NA, and into local mx and FR talks. Not bad just after s/on. (Both via Robinson, PA)

CZECHOSLOVAKIA RPrague announced on 4 Aug that it has introduced a test freq, 17705, beamed to SAsia for use in its 1530-1630 EG external service b'cast to Afr, Eur, SAsia, and the FE. // to sked 21670, 17840, 15110, 11990, 9605, 7345, and 6055. (BBCMS)

ECUADOR UNID Ecuadorian noted several nights from 0030-0200 and 0300-0400* on 3385.25m. Key was definite Ecuadorian NA. Zaracay and Iris appear to be where they are supposed to be so . . .?Mx varies from straight LA to U.S. pops to very primitive Andean. (Perdue, Al.)

FINLAND RFinland, 15110; in EG at 1318 w/ mx to 1325*. Good level. (Holmes, Col.) *** On 4 September, RFinland begins a new Sunday only service to Eur and NAM called "RFinland in its Sunday Best". Check freqs for 1300-1330 transmission; time for this is 1325-1455.

()***red faces time: I misplaced the contributor for this. Since I seem to remember that you are in the Kansas City area, please call me so that I can credit you for this. Sorry.---tba

KENYA ---out of order--- BBCMS reports that the Kenyan government intends to spend ten million pounds (no idea how much that is in dollars) to modernize its TV and radio network. Word has it that SW services will receive primary benefits of the allotment. (BBCMS)*** a miracle!!!---tba

***INDONESIA Steve Wiseblood, Cal., has submitted a list of 90m Indo loggings based on his attempts to confirm Bob Hill's reports to the April TDXN. Steve's list adds a few new reports:

3205 RRI Gorontalo (Sulawesi) relaying Jakarta nx after 1200
 3215 RRI Menado (Sulawesi) //3205 w/ Jakarta nx relay at 1200
 3225 RRI Tanjungpinang IN talk at 1320, but no ID heard
 3325 RRI Jayapura (W. Irian) IN talk by M 1306-1310, 5 August
 3345 RRI Ternate (Maluku) possible Jakarta relay after 1200
 3385 RRI Kupang (Lesser Sundas) W in IN, 1311, plano MoR mx 1313-1317

(Wiseblood, Cal.) ***all Indo outlets bear close observation because skeds may change in wake of recent earthquake---tba

LESOTHO (T) UNID stn on 4800 from 0405-0500+ w/ relig. chants and much vern talk by M; Always under heavy, grinding UTE. (Perdue, Ala.)***Neal submitted this as an UNID, but it sounds so much like Lesotho that I have identified it as such. As Neal notes, however, this needs further checks---tba

*LIBYA "Sawt al-Watan al-Arabi" (The Voice of the Arab Fatherland) heard on 6100, 9500, 11700, and 15100, all in AR and //. First noted 23 July, carrying reports on the Libyan-Egyptian crisis, some songs and marches; occasional IDs. 15100 can be heard early, for example, at 0925. Other outlets audible until after 0100, mostly on 6100 and 11700. Also IDs as the Broadcasting Service of the Peoples Libyan Arab Socialist Republic. (Jaar, PQ) ***see UNID below---tba

MOZAMBIQUE RMocambique, 4865 heard at 0445 w/ level equal to 4895. Portuguese talks and local mx. (Robinson, PA)

NORWAY R. Norway, 15175, w/ EG nx at 1405. Excellent. (Holmes, Col.)

PAKISTAN RPakistan on 9645 in unid lang from 0505-0515, poor level amid much QRM. Sub-cont orchestral, w/ deep-voiced M annr. Obliterated by Vatican R. at 0515. Not audible after 14 Aug. (Sarrazin, Col.)

PHILIPPINES BBCMS reports that Department of Public Information EG external service to Asia resumed on 1 Aug. Sked is 0800-1200 and 2000-2400 on 9615 and 6170.

SOCIETY IS. Papaete, 11825, in verns at 0332, good level. (Holmes, Col.)***often the best 19m signal in Kansas City during evening hours---tba

SOUTH AFRICA Radio 5 (Five) here from 0400 x/in on 3388 w/ pop mx, EG and Afrikaans talk and excellent signals. Played "Undercover Angel" and had tes for 6:30 and 7:30. Full ID at 0500 by M: "You are tuned to Radio 5, music radio, Radio 5 . . .". Also carried ads especially for Kawasaki 900 motorcycles. Much is unclear about this one (Robinson, PA).

SWAZILAND SCR on 3223 at 0430 w/ px of Hindi mx and talks; also some EG. Excellent level until after 0430 when fade out began. (Robinson, PA)

SWEDEN RS 15305 at 1408 w/ EG comment. (Holmes, Col.)

UNIDENTIFIED AR speaker on 9500 from 2250-0000+; ME mx to 2253, then Koran verses w/ drum beats between each. 2302-2314 ME pop mx w/ organs, then anthem, grandfather clock chimes and pips for 2315. Ignored :00, :15, and :45. Nx followed, w/ many references to Arabiya and political talks. Later had W wailing. (Sarrazin, Col.) ***this is almost certainly Libya, Dave. see above---tba

USA/LIBERIA for px watchers, VOA features a fine px every Sunday entitled "Music Time Africa," focusing on native music from African countries. Great listening, especially if you are trying to learn to ID the rare Africans by the mx played. Check 15140, 15410 at 1935 Sun. (your ed).

A WORD FROM YOUR EDITOR . . . To introduce myself, I am a 10-year DX-SWler, 6-year NASWA member, 24 years old and single. I'm also a recent law school graduate employed as a law clerk in U.S. District Court here. ABOUT THE COLUMN: with the return of DXH, I hope to readopt the style of the old Flashsheet edited by Al Niblack. That is, DXH will now solicit new DX and program loggings from any SW broadcast stn, anywhere, at all levels of difficulty. While I am always eager to print information on "Nibi-Nibi", I'd especially like to encourage beginners to report their catches to DXH for publication. Material on last minute px changes is welcome too. Together, we can make DXH a comprehensive, up-to-the-minute report of late breaking news in our quickly changing hobby.

A FEW GROUND RULES: to be as efficient as possible, I ask all contributors to abide by the following guidelines: (1) ALL SUBSCRIPTIONS GO TO HQ (PO Box 13, Liberty, IN 47353) NOT ME. This insures that you get your DXH without delay. (2) Please report by country, not frequency, on 8 1/2 by 11 inch or wider paper. Please type if you can, and skip lines between items. (3) I will try to do as little editing as possible, but I reserve the right to edit, omit, or comment on items as necessary or appropriate. (4) Unless you find it hard to read, I will print items of special interest in script-italic type.

Thanks and a tip of the Hotline Hat (w/ apologies to Jimmy Halo) to all who contributed. I hope we can fill up both pages w/ reports next installment.

Dan Robinson, EDITOR
5004 Fulton St., NW
Washington, DC 20016

1605 - 4900

SEPTEMBER 1977

PLEASE NOTE THE ABOVE ADDRESS. . . All correspondence should be sent to this new address effective August 27. Welcome to another IR-A where the DX is hot - - we have another new station, this time on 90 meters -- see SPOTLIGHT below. And we'll give the new language abbreviations one more try and if there is no reaction positive or negative, IR-A will return to NASWA standard abbreviations. Support DX HOTLINE!!

-
- 3277 INDIA All-Srinagar: 1350 when Jakarta off the air, w/Indian
mx and armts. Good level too (Willis-AIS)
- 3388a SOUTH AFRICA Radio 5: This station, reported elsewhere as UNID
is listed WRH as a pop mx stn sked 0300-2200. It was noted here
0300-0400 w/EE & Afrikaans px and pop mx, jingles and ID as
"You're listening to Radio 5" and "Musie Radio, Radio 5"
Seems SW relay of this stn and at same level as other South
African frequencies (Robinson 8/18)
-

- 4890 SENEGAL Dakar: 0700 in FR, M w/long tlk, no mx hrd (Hoffman 8/1)
- 4895 MOZAMBIQUE RM: Watch for RM on this frequency paralleling other 60 and 90 meter freqs--DR
- 4900 VENEZUELA R Juventud: 0051 in SP, LA vocals (Leffler 8/11)

As we roll into September, watch for some excellent African openings -- I can already sense the improvement in the lower bands. A new Angolan has appeared in 41m., 7160khs., so perhaps we might see some lower frequency regionals re-opened as well. And remember, when you hear Bhutan, don't just log 'em, listen to some Bhutanese music. I'll pay anyone for a good level tape! Hi.....

log report

4900 kHz-6200 kHz

section

Sam Barto 245 Cherry Ave. J-11 Watertown, CT. USA 06795

- 4904.5 CHAD RNT; 0430-0500 in FR w/ ID, cmntry, Af mx, tlks (Brooker) 2230 Ir. FR w/ local Af. vocals, drum and flute mx (C. Hoffman).
- 4905 BRASIL R. Relogio Federal; 0109-0155 in PT w/ ID, TC every minute w/ pips lasting 5 seconds, tlks 2 M (Pinchuk, Bishop).
- 4915 BRASIL Rdf. Macapa; 0815 in PT w/ ID, tlk by DJ, LA mx (Tannenwald, Bishop) 0205 w/ tlks, (Field) 0114 w/ Brazilian pops, ID (Pinchuk).
- 4915 CHINA Nanning; 1352-1400+ in EG/CH w/ language lessons (Poppin 8/3).
- 4915 GHANA GBC Accra; 0545-0605 in EG w/ nx, ID, Af. mx (Bryan, McMullen).
- 4915 KENYA VOK; 0322 in SH w/ Af. mx (Pineault).
- 4918v UNID. 0452 in SP w/ LA mx, rooster crowing IS (McMullen 8/1).
- 4920 AUSTRALIA ABC; 1200 in EG w/ ID, TC, National nx (Jones).
- 4920 HONDURAS R. Progreso; 0430 in SP w/ LA mx, US tunes, ID (Green).
- 4932 NIGERIA Benin City; 2232 in EG w/ Af. mx, ID (Schulman).
- 4940 ECUADOR RN; 0402* in SP w/ ID, freq., NA, after Yaracuy S/off (Bishop).
- 4940 IVORY COAST RTVI; 0610 in FR w/ Af. mx, MoR mx, ads (Green).
- 4940 VENEZUELA R. Yaracuy; 0053-0400* in SP w/ LA mx, ID, NA, (Tannenwald, Leffler, Sillings). Addr. 5a Av. Esquina Calle 15, San Felipe.
- 4944 VIENTNAM VOV; 1110-1120 in VT w/ tlks by a W (lineback).
- 4945 COLOMBIA R. Colosal; 0400-0850 in SP w/ ID, LA mx, nx, TC's, chimes, Todelar nx, ads (Green, Overcamp, Brooker, Westling).
- 4950 SARAWAK RMS; 1400-1416 in EG w/ nx (lister 7/4).
- 4950 UNID. 0620-0635 in FR w/ Af. mx, tlks by a W (Bishop).
- 4960 ECUADOR R. Federacion; *1110 in SP w/ NA, ID, symphony mx, calls (Jones).
- 4965 COLOMBIA R. Santa Fe; 0845 in SP w/ LA mx, ID (Westling).
- 4965 HONDURAS R. Landia; 0242 in SP w/ EG/SP pops, DJ tlks, ID as "la hora centroamericana de Honduras" (Krueger 7/12).
- 4968 VENEZUELA R. Rumbos; 0055 in SP w/ ID, LA vocals (Leffler). see 4970.
- 4970 VENEZUELA R. Rumbos; 0207-0310 in SP w/ many ID's, orch. mx, LA mx, nx, (Green, Thompson, Sbordone) 0805-0953 w/ tlks, ID, LA mx, TC (spencer, Westling, Luce, Tannenwald) 0636-0645 in SP w/ ID, ads, chimes, LA mx (Poppin). Apparently Rumbos is being received on 4968 and on 4970 or it could be that we are guilty of reading the frequency out of source-WRTVH.

Thank You to everyone who contributed with DX Tips to the log report sections this month!! Now that the Fall/Winter DX Season is approaching, lets all get going on some serious DX-ing! Don't forget to report what you hear.

The final total for the ANARC/HAP auction was \$250.33! Again thank you to Dave Browne, Jeff White and the members of the Woodfield International DX Club! To those who did not attend, you missed a great convention!

Also, a special thank you to Dan Jamison & Co. for a fantastic weekend in Columbus! I had a great time!

Until the next (oops, sorry Glenn), 73. *Em*

HELPING HAND: For Sale, DX-160, mint condition with Heath crystal calibrator - \$100 or best offer. Contact: R.C. Milam, 17711 Pebblewood Lane, Hazelcrest, IL 60429.

P.O. Box 1051,
Carbondale, IL 62901

11701 & above

SEPTEMBER, 1977

SPECIAL DEADLINE ** Because of Greg Ravenhorst's vacation plans, any contributions for the next issue that are to appear in "D" Section should be sent directly to me at the above address. No problem if you have already sent your loggings to Greg, but after you read these words up to September 15 mailing date please send loggings to me here. This will allow incorporation of the frequency changes that are due at the beginning of September. Tnx: **LANGUAGE ABBREVIATIONS** - A shorter, "core" list is in the works.

HELPING HAND Wanted: I am looking for a good pair of communication head-phones. If someone is interested in selling theirs, please drop me a post-card telling me the price, type, condition & address. Write: Alexander Mihajlou, 1353 W. Fargo Ave, Chicago, IL 60626

HELPING HAND For Sale: National HRO-500 receiver in excellent condition. w/speaker & manual. Recently aligned. Shipped postpaid by UPS. \$675. Write or call (not collect): Ken Duke, 5038 Bridgeport Rd, Columbus, OH43220 (614) 457-9548 is the phone #.

HELPING HAND Needed: Some advice on how to send in a QSL report on a Radio Budapest special QSL card with no data on it. Any advice would be much appreciated. Write: Myron L. Gercken, 558 N. 5th St, Watseka, IL 60970

THAT'S ALL for this time. While you are reading this page in September, I'll be "suffering" through my tour of Radio Nederland. Sweet suffering! '73's, Greg

NASWA

NORTH AMERICAN SHORT WAVE ASSOCIATION • POST OFFICE BOX 13 • LIBERTY, INDIANA 47353 U.S.A.

Publishing **FRENDX** Monthly

Unity and Friendship

NASWA'S dues are \$13.00 per year for members in North America, and for delivery via First Class Mail. Overseas dues are the same, but airmail is available for an additional cost. The following is the additional fee for overseas airmail: Central America, the Caribbean, South America, and Europe \$7.00. Asia, Africa and the Pacific \$9.00.

NASWA'S DX HOTLINE is compiled twice a month, giving the DXer the very latest DX news while it is hot. The DX HOTLINE is edited by veteran DXer Tom Alleman. All reports for the DX HOTLINE go directly to Tom at 615 W. 43RD Terrace, Kansas City, MO 64111, USA. One issue of DX HOTLINE is incorporated in each issue of FRENDEX, the other issue, the Mid-Month DX HOTLINE is available in a separate mailing to NASWA members for \$3.00 per year in North America. It is airmailed overseas for \$5.00 per year. These fees are, of course, in addition to the annual membership dues.

All inquiries, checks/money orders/dues/renewals/and or orders for the Mid-Month DX HOTLINE should be sent to NASWA Headquarters:

P.O. Box 13, Liberty, Indiana 47353, USA

All remittances should be in U.S. funds. Sample FRENDEX and DX HOTLINE are available for \$1.00.
