Welcome to 35 new members joining in time to receive the August issue of FRENEX. We hope they find their new membership to be helpful.

ANDERSON, Gerald R., Ewa Beach, HI
 BABCOCK, Frank R., Seattle, WA
 BOSTWICK, William, Alameda, CA
 BRAGA, Ceasar, Jr., Fall River, MA
 BYWATER, Richard, Bowling Green, KY**
 CLARK, Dean, Clarksville, TX
 CLAYTON, Chris, Salt Lake City, UT
 DALGLEISH, Brent, Prescott, Ont.
 FARKAS, Ladislav, Maule, Chile
 FITZSIMMONS, D.P., San Francisco, CA
 FOLLENSBEE, Burton G., Hallowell, ME
 GALLUCCI, James D., Portland, OR **/GA
 GARNER, Patrick C., St. Simons Island
 HAPANOWICZ, Bruce S., Utica, NY
 HEPPE, Michael A., Houston, TX
 HESCH, Ruth M., White Plains, NY
 HILLIKER, Jim V., Anaheim, CA
 IRWIN, Douglas, Durham, NH
 JOHNSON, Chester R., Alexandria, IN

IAAG, Robert, Riverside, CA
 LUNNA, William D., Swanton, VT
 NONEMAN, Claude A., E. Lansing, MI
 ORCUTT, Frank F., Alameda, CA **
 PENNINGTON, Mark, Paris, IL
 QUTTAINEH, Majed A., North Miami, FL
 SIPOS, Stephen I., Jr., Waukegan, IL
 SLAZAS, Tom, Detroit, MI
 SLOAN, Bud EP, Boonville, CA
 SREBNICK, Daniel, Staten Island, NY
 SURFACE, Charles L., Anderson, IN
 TEDFORD, James, White Cloud, MI
 WALLACE, R. Mark, Hoboken, NJ
 WEINSTEIN, Robert E., Boulder, CO
 ZANER, John C., Heflin, AL
 ZLATKIN, Lawrence J., Montreal, Que.

** Welcome back to NASWA after a short absence!

* * * * *

"WORLDWIDE LISTENERS GUIDE TO THE RADIO SPECTRUM" A new 25" X 35" multi-color wall reference chart which lists frequency, type station, and location of over 500 stations of all types operating from 10 kHz to 30 MHz. This would make an attractive wall decor as well as being useful. They can be obtained direct from Radio Publication Co., P.O. Box 28, Lake Geneva, WI 53147 for \$4.50 postpaid and mailed in a sturdy mailing tube.

NEW ENGLAND AREA DXERS OUTING: Although this affair has been and will be mentioned elsewhere in FRENEX, we feel it worthy of some extra mention since our own QSL Report editor, Sam Barto is the coordinator of this event.

Sam tells us this will be one of the largest outings of its type in North America and that all radio hobbyists are invited. It will be held on Sept. 4, 1979 at Black Rock State Park in Watertown, CT, and we gather it is an all date affair.

Everything being planned for this fourth annual event is too lengthy to be mentioned here, but detailed information is available for a self addressed and stamped business size envelope sent to Sam Barto, NEADSO Coordinator, 245 Cherry Ave., J-11, Watertown, CT 06795.

FOR CANADIAN MEMBERS ONLY: Montreal area DXers are invited to a "DX Pic-Nic" being organized by the Montreal section of the club DX Québécois to be held at the Métro Station on Ile-Ste-Hélène, face of Biosphere on August 26, 1979. For more information, call DENIS BEAUREGARD at 637-7002 or write to him at 2425 Rue St-Antoine, Lachine, Que. H8S 1V9.....HAM TRADERS, INC., 45 Brisbane Road, Unit 18, Downsview, Ont. M3J 2K1 advise they will send NASWA members a free and postpaid copy of their latest catalog if requested. They mention that while their present catalog is mainly amateur gear, they will be adding more shortwave items as time goes along.

NASWA

A REPORT FROM
HEADQUARTERS

NORTH AMERICAN SHORT WAVE ASSOCIATION POST OFFICE BOX 13 LIBERTY, INDIANA 47353 U.S.A.
AUGUST, 1979

THANKS TOM GAVARAS FOR A JOB WELL DONE! At the beginning of Tom Gavaras' IR-C section in the July Log Report of FRENEX, he touched on the fact that he would be stepping down soon as one of FRENEX's Log Report editors due to an anticipated increased work load during his senior year in college. HQ was not aware of this in time to be mentioned in last month's HQ page.

As Tom mentioned, his first column appeared in the February, 1976 issue. It has appeared in the following 42 issues without fail which represents well over 200 pages of log reports containing thousands of items requiring countless hours of time to compile. Needless to say, we are sorry to lose our senior Log Report editor, but understand that no one can be expected to continue forever. We know all appreciate his efforts, and wish him well. Also, we hope he may find time to contribute to FRENEX in other ways in the future. We have several persons being considered as Tom's replacement, and possibly we will be able to announce our choice in the next issue.

NASWA DX INFORMATION NET: In April FRENEX, Alan Mayer (WD91RU) ask for those members who were amateur radio station operators (hams) to contact him if they would be interested in organizing a SWBC DX information net.

Alan reports that response was encouraging, so he will give it a try. Starting Sunday August 19, 1979 at 1600 UTC on about 21365 kHz on the 15 meter band, and depending on the response, that schedule will be weekly thereafter although some modifications may be made as things proceed.

We are pleased that this is about to come about because we see so many proposed ideas fall apart due to lack of interest or participation, so we hope this gains ground as time goes along.

MORE ABOUT "ANTENNAS/ACCESSORIES" In the June FRENEX, we mentioned a new feature to be known as "Antennas/Accessories" would appear in FRENEX from time to time. In our haste, we overlooked mentioning several important facts which should have been included in our announcement.

First, that this feature is a revival of a similar series which appeared in FRENEX some years back and featured hints and ideas on antenna construction as well as comments on accessories (other than receivers) which members would like to pass along to others.

To get this feature started, editor Mike Agner asks for brief descriptions and/or comments on antennas and accessories being used by our various members for their DXing which they might want to recommend to others. Such material should be sent to Mike Agner, c/o Delphi Associates, 12 New England Park, Burlington, MA 01803. This was a popular feature when it previously appeared, and we hope enough will respond so it to make it possible.

LAST CALL FOR NASWA MEMBERSHIP DIRECTORY: Response to our announcement in the July FRENEX about the new NASWA membership directory was far from overwhelming, so we will repeat it one more time in case some may have missed it.

This 40 page directory of the names and addresses of over 1,900 NASWA members, which is current as of June 1, 1979, can be obtained by members only from NASWA's HQ address. North American members can send .75 cents in U.S. or Canadian coins or in mint U.S. stamps only. Overseas members can obtain theirs for 3 IRC's by surface mail or 5 IRC's by airmail.

As mentioned in our first announcement, this is a limited printing and will be available only while the supply lasts.

FREE THINGS TO WRITE FOR: Here are some things available upon request. RADIO WEST, 3417 Purer Road, Escondido, CA 92025 are having a summer sale, and a new four page list of new and used equipment is available for the asking. RADIOS INTERNATIONAL, P.O. Box 6053, Richardson, TX 75080 have started their second year as a supplier and announce their new 1979 Catalog-B which is now available for the asking, although a SASE is suggested for quicker response. GILFER SHORTWAVE, P.O. Box 239, Park Ridge, NJ 07656 have a new catalog listing receivers, antennas, accessories, books, and hard to get items of interest to the radio hobbyist.

DX Shack

IDEAS FOR THE DX SHACK

by John W. Creamer, 670 S. Canosa Ct., Denver, CO 8021

These hints and kinks are directed to the many new members of NASWA (experienced or not in the DXing hobby). . . Old Timers may say "Why didn't I think of that?"

When it comes to remembering QTH's or radio shack locations, I will confess to having lived in over 10 different cities. My listening posts were sometimes in the basement of our home, other times in small closets, but no matter where my receivers were located, I was very happy and was always trying to improve on my reception.

Like many other DXers, I have learned much about the arrangement of receivers, and various other items connected with listening, logging stations heard, etc. Now I gladly share with others different ideas that have helped me to make my hobby a pleasure. . . I will tell you what I did to improve, and then if you think you would like to try these ideas out -- why go ahead and combine them with your own ideas, you can always better another person's plans!

LOCATION: If you can place your radio table holding receivers, speakers, clock, and other items close by a window, it will be a big aid to you. . . perhaps you can bring your antenna lead-ins near the window, or you can bring them in through a basement window, and run through a floor heating grate to your table.

RADIO TABLE: I am using a very strong and well built table just two feet square, but to the table top I bolted a 3' x 4' piece of $\frac{1}{2}$ " plywood, thus my table working area is ample. Next on the side of your table where you want to sit, cut out of the plywood a half circle about 6" in from the edge. . . this is to allow you to pull your body up closer. Get the idea?

110-115 VOLT SERVICE: Get a multiple outlet box having about six 3 prong receptacles and a switch .. the better boxes come with a circuit breaker and a pilot light. Using this neat arrangement allows you to plug in your receivers, lamps, fan, or whatever... it also permits you to shut off all items when you leave the table. But do not plug your electric clock into it.

SHELVES FOR RECEIVERS, ETC.: If your table top is at least 3 feet from front to back, and about 4 feet from side to side, you may find it useful to provide for several shelves, each about 12" deep from the back wall of the table towards your chair. Fasten shelf supports made from 2" x 7" lumber, 12 inches long to the table using small metal brackets. These supports are to hold the lower shelf about 7" above the table top. You will need to fasten upright side supports made of 1" lumber to the left and the right 2" x 7" lower supports, then above the first shelf you can build other shelves if you wish and where you wish. I use a total of three shelves, the top one is about 19" above the table top and the middle shelf is 12" above the table. On the different shelves, arrange your lighting to shine downwards on the table.

REASON FOR SHELVES: The reason is to be able to raise your receivers up above the table top, to give you working room, for papers, books, etc., at table level where you need space. You will always see radio shack pictures with the receiver on the table, thus when you use them, you are always looking downward at the dials.

I have tried all different arrangements, and I have found it better to place the receiver and speaker on a shelf about 12" above the table, this puts your receiver front controls, dials, etc. at "eye level", making it so much easier and relaxing when tuning. And your one or more speakers are level with your ears. You wont believe it until you try it out.

AUXILIARY PHONE RECEPTACLE: If your receiver has a receptacle on the front panel for head phones, I will bet (regardless of what level your receiver is at) that your phone cords

now dangle across the table top when you use them. Right?

There is no reason or need for this, letting the cords lay on the table, and always in the way. Simply get another phone plug, some small 2 conductor wire (even lamp cord), and another phone jack. Place the added phone plug in your receiver front panel, and run the wire from the plug straight down to the table top. Then, if possible, drill a small hole through the table (if that is not possible, simply run the wire over the back or side edge of the table) and lead it underneath to either front left or right side of the table. Arrange a metal bracket to hold the phone jack, then plug your head set into this jack. Use a hook to hold the phones when not in use, and your table top will always be clear for you--when you wish to use your speaker, you just pull the plug out of the front panel.

And while I am thinking about it -- if you are bedfast, or if any friend of yours is, a shortwave receiver at your bed is a wonderful help. I once visited an invalid, who had a movable arrangement over the top of the bed clothes that permitted the pulling of the shelf with receiver on it up to where the person could tune it. It could also be pushed to the foot of the bed.

The arrangement was made of two pieces of 1" x 12" lumber, one on each side of the bed, these stood vertical, with the shelf of 1" x 12" lumber from one side to the other. Underneath the bed at floor level, these two side pieces were joined to make them rigid (along with appropriate metal braces) and small metal rollers permitted the arrangement to slide easily up and down the bed.

You could do nothing better, nor more appreciated, than to build something similar for that dear person you know of.

DX Shack II

THE ULTIMATE HAM - DX SWL SHACK

by James W. Young, Box 576, Wrightwood, CA 92397

To the beginning SWLer, even a small portable with a whip antenna affords he or she with a new and exciting hobby venture. There are few of us that have not imagined the BBC Monitoring stations with their exotic receivers and massive antenna farms. Sitting at a big console with all that 'power' at ones finger tips means nearly arm-chair copy of the Falkland Islands, or whatever dream you might have. But, alas, our dream fades back to that portable and whip. So where does one go from there, we ask? Patience, time, and yes, some money always helps. To me, if you ask, I will tell each one the same thing; PATIENCE! If your interests are solid, if you are willing to work towards a goal, if you want the ultimate, then take the necessary time; 5 years, 10 years, 20 years, or whatever!

My radio interest started in 1949 listening to AM stations from my boyhood home in Portland, Oregon. WOW! I heard Chicago, Los Angeles, Dallas, New Orleans. In 1955, after a move to Seattle, my father bought me my first real radio, a Hammarlund HQ-100AC (still impressively sitting next to me this very moment). I had become a 'ham' WN7FTT. I talked to 23 states in 6 months with a kit transmitter and the HQ-100 resting on a door between two saw-horses in the cold basement. I had my ultimate shack then! Between ham contacts, I heard Sweden, Japan, Moscow, HCJB, on the SWBC bands, even had the QSLs by the time my father had fixed up and remodeled our house. I had my own room, and he even built me a desk with a glass top. So after my license expired, I kept up on SWLing. The WRTVH found its way to my warmer and neater shack in 1960.

I took some time off to go to college and then the U.S. Army, and returned to my next residence in Port Angeles, Washington. Then on to the Seattle World's Fair in 1962, back to Seattle with my trusty radio, 3 x 5 card files, and 60 or so QSLs. I still had that glass top desk, and seldom was the glass cold on weekends as I sat up all nite doing my thing. I was then living at a friends' house, boarding while working at the Fair.

The call to come to California in October, 1962, saw me leave Seattle with my 1954 Chevy convertible towing a small covered U-Haul trailer. Three days later I pulled into Wrightwood, stepped out of the car, smelled the fresh pine scented air, and took a few pictures. One of those pictures shows the chimney of the very house I was to buy three months later, the same chimney that is 10 feet from me at this very moment. That was some 17 years ago.

When I found this small house of 850 square feet with an upstairs shell for an attic, I never dreamed of the final results that are now a reality. The house was in the open, away from the trees, in the center of a shallow valley. I did not buy it because of the great location for antennas, etc., but because the price was low and affordable! I soon set up my

shack in the little single bedroom, and strung a 20 metre folded dipole that just fit between the chimney on the east and a four foot pole above the roofline on the west. That was 1963.

By 1965, I was upstairs in the attic, away from the bedroom that was too small for my bride, myself, a new dresser and bed. I had added two more 20 metre folded dipoles, to that by the new knife switching arrangement I had, I could select N-S, E-W, or SW-NE orientations. I also had built a kit preselector out of Popular Electronics. It was my ultimate shack!

In 1967, I bought through Allied Radio, a big brand new dream receiver, a Hammarlund HQ-180A. I joined several clubs, began SWLing in seriousness, wrote reports, and finally got the 100th SWBC country QSLed. My desk was so very small, or was it that I had too much on it? I pulled the desk 12 inches away from the corner wall both forward and to the side, built up leaves, as you might call them, built an antenna tuner, and added a 100 kHz calibrator. I began to DX the lower frequencies, picking up African regions I never thought possible. I joined more clubs. I became very interested in SWLing the ham bands, and soon had over 300 countries confirmed. My file cabinets were too small, or was it that I had too many 3 x 5 cards to put in them? Not only that, but a working companion at the Observatory was a ham, he recently moved to Wrightwood, cleaned out his garage, and gave me cabinets and radio parts till they nearly rolled down the step stairway, just outside my room.

In 1971 I became a ham again, WN6FNI, but this time I kept my ticket and soon became a general class with WB6FNI my present call. Another ham in town was forced to move and sold his Viking II transmitter for next to nothing. It was (and is) bigger and heavier than the Hammarlund HQ-180A. Now where was that going? I added a filing cabinet, another leaf to the desk, and a parts cabinet on the far side. My original desk was now twice its original size! It was at this stage I began to dream of the exotic or as I put it, the ULTIMATE shack. I cut a part of the desk out, set the HQ-180A at an inclined angle, put extra legs on the front of the other equipment, and the shack looked a little more impressive, and useful, I might add. But it was still too small. I had designed a CCB antenna tuner nearly half the size of the receivers and also purchased a ham band tuner of similar size. My equipment was stacked two and three high against my attic slanted roof-line. It was staggering, but absolutely absurd at the sight of the two miles of wire I must have had behind everything. My shack was now a cramped small closet. What was I to do?

In the summer of 1977, it was remodel time. We added nearly 1000 square feet of living space in which I, as the designer of the remodel plans, had so generously provided for the ULTIMATE shack. Needless to say, I sit here typing this story at the desk that is 8 feet long and 6 feet wide with a cut out center and wrap-around 200 degrees of console space. The desk is 1 1/2 inches thick, supported by two legs near the center, with additional support from the old desk my father built, or at least the drawer section from that desk; the very end section of the desk supported by a business size low-boy file cabinet. I have added a LF military receiver, a seven digit frequency marker/generator, another (yes!) HQ-180A, and an SX-190. There are four speakers, three preselectors, a cassette recorder, a reel-to-reel recorder, a new calibrator, audio jacks for diversity reception, and separate controls for all types of recording from any receiver. A 'T-R' switch as I still ham a bit, a five antenna switch, CCB loop hanger, and an audio filter round out the shack. All my line voltages are monitored and set by a massive 30 amp autotransformer. I even added several more antennas, one of which is a 235 foot inverted V up 70 feet at the apex. This is the best overall antenna, especially for the VLF, CCB, and the tropical bands, as well as the 160 metre ham band.

The ultimate shack here in Wrightwood took years to acquire, and years of patience. Less than a month ago my own son listened to four different SWBC stations, sent for QSLs, and got the bug. "Boy, would I like to have a receiver of my own," was his remark. Oh, and for you curious ones, NO, I have not yet logged the Falkland Islands, nor Tristan da Cunha, but, who knows!

RF-2900

LISTENING TO THE PANASONIC RF-2900

by Malcolm Kaufman, 244 Fieldston Terrace, 8E
Bronx, NY 10471

I recently purchased the upgraded digital Panasonic portable - the RF-2900 with readout on all bands. Here are a few comments that fellow DXers may want to weigh in considering a purchase.

I was able to purchase the receiver at a discount house in New York City, paying only \$185, considerably less than what others paid elsewhere for the 2800. For all-band digital

readout the price is certainly reasonable enough.

The FM band seems adequate, though in a test with Jeff Stover and Chris Hansen, the Sony ICF-5900 seemed to perform better on marginal, deep-fringe stations. If you intend to DX FM, you may be disappointed; if you're just listening to area outlets, there should be no problem. The readout on FM registered in 100 kHz increments (98.7; 98.8, 98.9, etc.). There are receivers that readout every 10 kHz (98.90, 98.91, 98.92, etc.). I can see the need for readout to two decimal places. When the Panasonic reads a given frequency, the listener is not necessarily right on the station. A readout of, say 99.5, could actually be 99.53 or 99.55, necessitating fine tuning. There is no such problem on AM where resolution is down to 1 kHz. The listener knows he or she is right on 880, for example, as opposed to 881 or 879 kHz; any additional fine tuning is unnecessary.

I presently live in a steel-reinforced apartment building where AM response is poor. I imagine listeners in situations where more signal actually reaches the internal loop will experience much of the same AM overload common to most of the "new generation" SW portables. DXers in rural or semi-rural areas should have no problem.

As for the SW bands, the readout is accurate to 1 kHz and can be adjusted if necessary through the use of the BFO switch and SW calibration dial. Selectivity in the narrow mode seems reasonably adequate. A recent IRCA technical column points out that the 2900 has been improved over the 2800 and 4800, so a purchaser shouldn't rush to have the set modified for selectivity before actually using it for a while.

Otherwise, performance on the SW bands did not measure up to this owner's expectations. Drift is a very serious problem. The set needs constant retuning, even after an hour or more of operation. This makes unattended taping impractical, and for a SWL like myself, who may listen to a major broadcaster for several hours while attending to various chores, repeated trips back to the receiver for retuning are a downright nuisance. This drift is serious - as much as 2 kHz in 5 minutes, and I find it inexcusable in a solid-state receiver. Problems like this should have been resolved with the refinement of transistor technology.

Equally disturbing is the presence of numerous birdies across the SW bands. The problem is particularly serious in the tropical bands, though no band is completely birdie free. The problem has rendered such major international broadcast frequencies as 15070 (BBC), 17630 (IBA's Reshet Bet frequency), and 12060 (RMWS) useless. Like the images plaguing the 2800 and 4800, the problem seems attributable to a second IF stage that is much too low in frequency - only 2 MHz. Such an arrangement defeats many of the advantages of double conversion -- images are usually found only on single conversion sets. Comparison with a 2800 indicates that the birdies are just as prevalent with that model; it's surprising that other DXers haven't noticed them, or at least commented on the problem in the pages of the DX press. The 2900 has the same image problems as the 2800.

These shortcomings have to be balanced against the unit's very reasonable pricing. All-band digital readout at under \$200 is going to require cutting corners somewhere. The individual DXer will have to decide whether he or she can live with drift and birdies in light of the modest price.

SW Marriage

FROM SHORTWAVE TO ACTION BANDS - OR A MARRIAGE OF HERE AND THERE by Mrs. Beverly Slomka, 273 Bay 8th St., Brooklyn, NY 11228

I am a shortwave listener with a 5 to 15 megahertz Hallicrafters SW receiver. My husband listens to a Bearcat 210 scanner with selected frequencies from 30 megahertz to 518 megahertz. I am interested in the world, and while my husband is interested in it too, he likes to be on top of what comes across the higher frequencies in our immediate vicinity.

With both types of receivers in our home, we have gotten a sense of being in touch with life and events as never before. While my shortwave receiver has brought me many hours of pleasureable listening to music, talks, and news, his receiver, with the public services it monitors, has served as a vital, and at one time, almost life-saving thing. He can listen to fire, police, Red Cross, Emergency services, marine, ham operators, and countless other things in the five boroughs of New York City. Only a few months ago, our area was in possible danger due to a gasoline leakage from a barge. We were the first to hear of it, to know of the danger and could have evacuated if need be in plenty of time.

Basically, though, we share the information and insights we receive through our radios.

He lets me know any interesting happening in our area. I, in turn, tell him of any new station I hear or any new bit of worldly information. He has stayed up with me to listen to some program at 0800 GMT (3 a.m. our time) and I have gone out with him on a Red Cross assignment fully bedecked with uniform and crash helmet. In the meantime, he helps me with the technical end of my receiver which I know from nothing to very little about.

Yes, there are times I grow weary of hearing the tragedy he often hears on the scanner, and then he lets me have it with the fact that he supposes I only like to listen to some operatic music on the BBC. Mostly, however, the relationship is a harmonious one.

While I know such things as scanners and shortwave radios have wrought havoc in some marriages, they have brought us closer together in ours. We have lots of fun with what we hear on them, as well as times for serious thought. In short, when anyone comes to our home, they not only get coffee or tea, but either shortwave or action bands as well.

R Sandino

CLANDESTINE VS. NATIONAL

by Juan Patricio Salas, Santo Domingo DX Club SDXC, Apartado 17-12, Santo Domingo, Republica Dominicana

After several days passed without my hearing Radio Sandino, I heard them on the same frequency of 7588 kHz at 0430 on Saturday, 2 June. Their signal was strong, compared with other times, interference was regular, and fading was slight.

However, after several minutes of listening, some continuous oscillations began and five minutes later RS was completely covered with American music and folk songs of Nicaragua that were pleasing to Somosa; for example "Que viva - Somosa" and praises as "El esfuerzo en la montana y en la costa, Somosa, Somosa; con la esperanza de Somosa Nicaragua sera. . . grandiosa, grandiosa."

That began while Radio Sandino put on an interview with Jose Somosa, Inspector General of the National Guard charged with the defense of Managua, made while he was drunk, according to the broadcaster. This interview couldn't be heard because of Somosa's station jaming with possibly double the power of RS.

I noticed that apparently the audio signal at the Somosa station was being input with more dB than the microphone resistance of the transmitter allowed, resulting in distortion. The Somosa station did not identify itself. Using my receiver controls, I could make some of the noises disappear, but the competition between the stations was being won by the Somosa station.

I also heard the blocker station on 6 and 7 June with the sound problem resolved. On the 7th I was listening to RS with Jose Radhames Caberra in my HQ, but when the Somosa station signed on at 0447, we turned off my Panasonic RF-2200 and listened to recordings of past RS programs. In the morning (8 June) I turned on my receiver and heard the Sandinist Front station with greater power than ever before at 7:10 a.m. local time (1110 GMT) on 7587. The broadcast ended at 1230 GMT after the news. It was a great experience to hear this radio battle between the clandestine station and the national radio jammer.

I hope that, after the Nicaragua conflict is over, many new shortwave stations will be born there.

Tape Your DX

SLOOW IT DOWN OR SPD IT UP!

by Syd Osterman, Toronto, Ontario

I refer to your tape recorder or cassette machine. A Pitch or speed control is a very handy thing to have. It will enable you to increase or decrease the speed of the tape by up to 20%. I can hear my readers saying, "so what." So this, when you are trying to interpret the man from Uganda or Ghana who seems to be all lips and no tongue, just speed him up by 5 to 10% and presto, you will be able to understand him. Trying to catch up with the tinkling

lady from the Far East? Well, slow her down by around 10% and she will begin to sound like the man from uganda!

Pitch controls are found on a few tape machines and are well worth having if you are a serious DXer, and would like a little help with those language and ID problems that we all experience. Check out recorders with pitch controls. After you do so, I suspect that you will want one too! Note: Obviously the speed is changed only on playback so that tapes can still be played on other machines.

Clarence

ACROSS THE BAND

Moore by Daniel L. Nevels, Box 607, Rougon, LA 70773

Clarence Moore, W9LZX and inventor of the quad antenna, passed away suddenly on 24 January, 1979, at his home in Syracuse, Indiana. He was a minister in the United Missionary Church and developed the quad while serving as an engineer at Missionary Station HCJB in Quito, Ecuador. He had been recently honored with a lifetime HCLJB license by the Ecuadorian government and was working on a new antenna design when he died at 75 (Thanks to WBWU, K8IRJ (HR Report)).

The story of the quad antenna started in the year 1939 when a group of radio engineers from the United States traveled to Ecuador in South America to install and maintain the missionary station HCJB. The new radio station was located in Quito, high in the Andes Mountains. With a carrier power of 10,000 watts, HCJB was to transmit the Gospel to the North American Continent in the 25 metre band.

The engineers at HCJB built a gigantic four element parasitic beam and centered it on North America. The excitement of this first transmission was dampened when the antenna slowly started to disintegrate. The antenna glowed red at the tips, as huge bolts of electricity jumped from the element tips into the cool Equadorian air. Part of the beam tips that glowed red fell to the ground. The sound of sizzling and crackling was heard up to half a mile away. It soon became apparent that the antenna was slowly being destroyed by corona discharge. A solution had to be found if HCJB was to continue broadcasting.

Clarence Moore, one of the engineers at HCJB, was assigned the job of solving the problem of corona discharge. The high voltage at the beam tips and the easily ionized air at the two mile high transmitter site, presented a real challenge to him. Clarence first placed six inch copper balls on the element tips. This was only a temporary measure. The copper balls detuned the antenna and in damp weather the corona discharge was still present. If HCJB was to remain on the air, something had to be done.

In the summer of 1942, Clarence took a short vacation to the coast of Ecuador. He was convinced that with the help of God, he could solve the problem. The thought slowly unfolded to him as divine inspiration. The quad shaped antenna grew from the idea of a pulled open folded dipole.

Clarence rushed back to Quito with his new idea. The crew hastily built a two element quad and erected on the tower at HCJB. They started the transmitter and waited with great anticipation. As night fell and dew collected on the quad, not once did a violent corona discharge occur. It seemed that the problem was finally solved. SWL reports began to pile into the station with high signal reports. The reports confirmed the outstanding results with the quad antenna.

When Clarence later returned to the United States, he applied for a patent to cover the new antenna. The quad soon became popular among the SW stations in Central America. Clarence built several quads for the broadcast station. He also built one for 20 metres. The outstanding signal of HCLJB brought him inquiries about his new antenna. Later the quad was built and used by amateurs in the 20 and 10 metre bands.

Whenever there is a gathering of DXers, you can bet that the quad is the foremost topic in a discussion of antennas. Clarence Moore's absence is deeply felt.

HCJB can be heard on the 11745, 11915, and 9560 kHz outlets starting at 0040 GMT, actual programming starts at 0100 with Passport. HCJB also has an amateur radio club. You can talk to the hams at HCJB (they are the engineers that operate the station) on Saturdays at 2100-2200 GMT on 28580 on 10 metres or 21280 on 15 metres. Those of our readers who are hams, give them a shout, they will be listening for you.

Mizuho sx-59

A REVIEW OF THE MIZUHO SX-59 PRESELECTOR/PREAMPLIFIER

by Don Dickey, 9130 12th Ave. South, Minneapolis, MN

The Mizuho preamplifier/preselector was originally created for ham use, but Perry Ferris at Gilfer Associates modified the unit for DXers by shunting the remote terminals on the rear panel which were provided for a transceiver.

Front panel controls are as follows: left to right, 1. attenuator switch (off-on), 2. RF gain and power switch, 3. band selector with three positions for tuning 3-7 MHz, 7-14 MHz, 14-30 MHz, 4. Tuning dial for precise adjustment, 5. LED red light to show the unit is on.

The rear panel has two screw-on coax connectors, one for direct connection to the antenna and the other for the receiver. Gilfer installs two RCA type jacks so that you can use either type of connection. The remote terminals are made inoperative by shunting. The rear panel power cord connects to house current.

The SX-59 comes in an attractive metal cabinet that measures 6" wide by 2 7/8" high (including the rubber feet), by 5 3/4" deep. My SX-59 sits atop my antenna switch. I can switch the preamplifier/preselector to all six of my receivers.

On weak signals I have noted as much as 20 dB signal strength increase on my modified 1978 model Yaesu FRG-7000 and a very definite improvement in my Drake SPR-4.

The Mizuho SX-59 is available from Gilfer, P. O. Box 239, Park Ridge, NJ 07656, for \$87.00.

Book Review

SHORTWAVE PROPAGATION HANDBOOK - A REVIEW

by Bill Smith, 145 Deryl St., Eunice, LA 70535

I have finished reading a copy of the recently published The Shortwave Propagation Handbook co-authored by George Jacobs and Theodore J. Cohen. The book is published by Cowan Publishing Corp., 14 Vanderventer Ave., Port Washington, NY 11050, and available from them and other sources, such as Gilfer, P. O. Box 239, Park Ridge, NJ 07656, for \$7.50.

For nearly 30 years I have purchased nearly every available book intended for the layman and hobbyist on the subjects of antennas, propagation, shortwave listening, amateur radio and associated topics. Frankly, within the pages of The Shortwave Propagation Handbook I find nothing new, but rather a well-written, simple-termed, near textbook collection of facts that most anyone who has spent time dialing a shortwave radio has observed, if not understood.

I would estimate that many shortwave buffs care only about what they can log and not about why or how the DX signals reached their antennas. To these individuals I suggest you are missing the plot of the DXing mystery. If you don't care how that signal reached you, forget the Handbook. If you do, the \$7.50 is well spent.

The first 28 pages of the 155 page work is a rehash of similar first chapters in many books, but more informative than most. The meat of the book starts with chapter 2 and continues non-stop for five additional chapters.

Propagation is a complex field, so don't expect to spend a couple of evenings reading the Handbook and instantly become an expert. There is more than enough information in the book to make yourself knowledgeable in the field, but the Handbook becomes a reference for constant use rather than a dust collector after the initial reading.

There is little specifically written directly to the shortwave broadcast bands other than a single chart that shows information on how the 20-meter amateur band relates to the 19 and 25 meter SWBC bands and so forth. But frequency spectrum is spectrum, whether it is 19 meters or 20.

Jacobs and Cohen are both amateurs, so the book is written toward the amateur radio market, except as mentioned in the above paragraph. Their so-called "Master DX Propagation Charts" on which a goodly portion of the book is based are referenced to transmitter power of 1 kilowatt effective radiated power (ERP). In this day of SWBC stations operating with ERPs of 5 million watts or more, this reference becomes rather invalid except in the case of the low-powered broadcasters below 5 MHz or so..

There is, however, worthwhile information on the so-called "gray line" method of DXing the lower shortwave frequencies and how the "gray line" works, although I suspect this generally is well-known by the 60 metre DXer.

All in all I find The Shortwave Propagation Handbook generally good. If you want a reference book on propagation, the Handbook is a good buy. If you want a story book, forget the Handbook or anything similar on the field of propagation -- it just doesn't happen.

In closing, I would congratulate the authors and the publisher for printing a book nearly free of typo errors and mis-labeled charts, much unlike the sloppy work of the much-heralded World DX Guide by Radio Nederland's Jim Vastenhou, whom I doubt ever had an opportunity to proof-read the text once it was typeset.

FEBC

FEBC, THE STUPENDOUS FAR EAST BROADCASTING COMPANY

by Terry Concannon, 11918 Groveside Ave.
Whittier, CA 90604

The Far East Broadcasting Company means a lot of things to a lot of people. It may mean the Philippines to some people, San Francisco or the Seychelles Islands to others. The truth is, the Far East Broadcasting Company (or FEBC for short) is all of those things and more, much more. The history of FEBC is a story of hard work and success.

It all began in 1945. That year, three men, Robert Bowman, John Broger, and William Roberts, put together their total resources of \$1000 to establish a christian broadcasting organization. On 20 December 1945, with absolutely no financial backing and no permit even to build a radio station, the Far East Broadcasting Company was incorporated. By 4 September 1948, FEBC in Manila was granted a franchise to build two 10 kW transmitters in the Philippines. Then came the big day. It was 4 June 1948 and it was raining. But, despite this, there were happy faces inside the studios of FEBC, as John Broger announced the first broadcast of KZAS, the "Call of the Orient" station, situated in Manila, Philippines, on mediumwave.

This broadcast brought forth even better things from FEBC. One year after KZAS (now DZAS) went on the air, the first shortwave operation, DZH6, was initiated. This, like KZAS, was a domestic service for the peoples of the Philippines, and it broadcasted on the tropical bands.

Still another year later, FEBC launched its first international shortwave station. Its call was DZH7 and it broadcasted in the 31 metre band. The years that followed saw the addition of three more shortwave stations. By this time, FEBC was broadcasting in 30 languages and dialects and was rapidly gaining recognition in international broadcasting as a major shortwave voice.

In 1952, a sixth international shortwave station was placed on the air. 1954 proved to hold another breakthrough for FEBC as DZFE, FEBC's first FM station, began broadcasting from Manila. Known as "Manila's Fine Music Station", it was very popular with the intellectuals of the Manila area because of its thought-provoking gospel messages.

FEBC acquired from the Voice of America two shortwave stations and their antenna systems in 1956. One of these now serves in the 13 metre band. Many other stations were acquired within the next 23 years to make a total count of 14 Philippine transmitters.

The hub of all this FEBC activity throughout the years has been the Christian Radio City in Manila (or CRCM for short). On its original 12.5 acres, CRCM today contains housing for missionary and national broadcasters, transmitting equipment, recording studios, administrative offices, and the largest missionary printing operation in all of East Asia. If you would like to know more about this broadcasting conglomerate, why not write to: FEBC Radio International, Box 1, Valenzuela, Metro Manila, Philippines.

The FEBC also operates well known shortwave stations in San Francisco (KGEI), and the Seychelles Islands (FEBA). KGEI has two shortwave transmitters which beam programs to East Asia and Latin America in 7 languages. These transmitters' once served as a freedom station operated by the U.S. Government. Should you wish to write to KGEI, their address is: KGEI, P. O. Box 15, San Francisco, California, 94101. FEBA also has two shortwave transmitters. They broadcast to South Asia, East Africa, and the Middle East in 14 Languages. Their address is: FEBA, Box 234, Victoria, Seychelles.

To conclude this article, I would like to thank the kind people at FEBC Radio International headquarters in La Mirada, California, for all their gracious help.

Pennants

FLAGS AND PENNANTS

by Ron Wendt, 4307 SE 102nd, Portland, Oregon 97266

This is a list of stations that were reported to have given flags and pennants in 1978 and reported in the QSL section of FRENDX. I would assume that, in some cases, the pennants are duplicates of the country's main service, but I have listed them here as individual stations.

ARGENTINA; RAE: AUSTRALIA; Radio Australia: BELGIUM; BRT, ORU: BOLIVIA; R. Pan Americana, R. Animas, R. Emisoras Bolivia, R. Grigota: BRAZIL; Radio Bandeirantes, R. Educadora de Agosto, Radio Nacional d Brazil: CANADA; RCI, CBC-NS: CHILE; R. Mineira, R. Universidad de Concepcion: CHINA; R. Peking: COLOMBIA; R. Colosal, Emisora 70, R. Guatapurí, La Voz del Huila, Ondas del Ortegaza, R. Santa Fe, R. Sur Colombiana: COSTA RICA; TIFC, R. Casino: CUBA; RHC.

DOMINICAN REP.; La Voz de las Fuertas Armadas, La Voz dela Libertad, R. Norte: ECUADOR; R. Rio Amazonas, HCJB, R. Zaracay: FINLAND; R. Receivers

NASWA RECEIVER DISTRIBUTION

by Bill Smith, 145 Deryl St., Eunice, LA 70535

A survey of FRENDX Credits yielded 232 contributors using a total of 34 different makes or models of receivers.

DX-160	28%	RF-2200	6%
FRG-7	27%	RF-4800	4%
RF-2800	11%	SX-190	4%
SPR-4	9%	ICF-5900W	4%
FRG-7000	6%	All Others	1% (which includes 25 receivers)

NEWS

WHAT'S NEWS ON SHORTWAVE?

by Terry Concannon, 11918 Groveside Ave.,
Whittier, CA 90604

News? On shortwave? It varies with the station, country, background of the station, and the target area. Unlike your local AM broadcast band station, world news on shortwave is a medium which lets you know the whole story presented directly by the world itself and often times coupled with the station's views on the situation.

There are, of course, many news programs being broadcast by the hundreds of stations on shortwave and all are designed to inform the listener of the events of the recent past. But what is different is the slant in which it is presented. The thing to do is keep up to date on world events through your local newspaper and tune in to the broadcasts of the countries concerned. During the China/Vietnam war we had interesting listening from Radio Peking and the Voice of Vietnam. Uneasiness in the Middle East? The IBA and Radio Cairo are the ones to listen to there.

News about the country of origin is always interesting. "News about the Soviet Union" broadcast by Radio Moscow during the "Moscow Review" programs is a good example. You can hear this at 0500 and 0700 GMT on the Pacific Coast Service and 0030 and 0230 GMT on the North American Service. "News about Britain" is an excellent show, and is worth listening to. Most SWLs know the times of this program, so I won't venture any further on that. "Asian News" from Radio Japan, broadcast at 0035 GMT on 17825 and 15270 kHz is a fine source of news for those interested in situations in the far east.

And finally, to round things out, are four of the more interesting and enjoyable programs of news. FEBC gives a new slant on news with it's "God's news behind the news" at 0245 GMT, Thursdays, on 17810, and 15395 kHz. If you want 'news that didn't make the front page,' try the old familiar "Paul Harvey, News and Commentary" at 2100 GMT on 17765, 15430, 15330, and 11790 kHz on the gold ole AFRTS. If you just want plain, in-depth news, you can't beat BBC's "World News" every hour on the hour, or Radio Nederland's "Newsline" at 0230 on 9590 and 6175 and 0530 on 9715 and 6175.

THIS & THAT Autek Research, Box 5127, Sherman Oaks, CA 91403, announces their new QF-1A audio filter. This model is an improvement on the QF-1 which has been around for several years. Audio filters process the audio output of your receiver to enhance or eliminate certain audio frequencies. This can be useful in eliminating hum, heterodynes, and certain other types of interference. The QF-1A is designed for use on voice copy. It can also be used to process the output of your recorder so you can try different settings over and over to get that hard to copy ID. It has peaking system to peak any set of audio frequencies down to 20 Hz wide. Using the selectivity control the peaking can be flattened out. There is a notch with depth up to 70 dB possible. The equipment also has a high and a low pass filter. Write them for a fact sheet and price.

Popular Electronics complied with our request for a review of the Lafayette BCR-101 shortwave receiver in their July issue. Interested members are referred to PE for details. The reviewer's impression was favorable towards the BCR-101 for casual SWLs and novice hams in spite of some shortcomings. The receiver has a drum dial and a crystal calibrator that will permit readings to 10 kHz (5 kHz possible with extreme care). There is a jack on the back for output to a counter. The receiver is single conversion up to 4 kHz and double conversion on the shortwave bands. Image rejection and lack of bothersome birdies in the SW section were considered good factors. Sensitivity ranged from about 1 to 2 uV on shortwave. Selectivity is rated as 8 kHz wide and 3 kHz narrow. The reviewer did not give results of actual reception selectivity. However, the presence of a narrow-wide selectivity option puts the BCR-101 a step ahead of the DX-160, which it is obviously designed to compete with. Price is \$249.95.

TRANS WORLD RADIO, an international Christian broadcasting organization is celebrating its 25th year of broadcasting. It began as the Voice of Tangiers, in Tangiers, Morocco, on 22 February 1954. The first broadcast was in Spanish and English over a 2.5 kW transmitter. According to Dr. Paul Freed, the president and founder of TWR, the organization now broadcasts in 80 languages with combined transmitter power of over 5 megawatts. Transmitter sites are located today in Monaco, Netherlands Antillies, Swaziland, Cyprus, Guam, and Sri Lanka. (Thanks to Ed Insinger.)

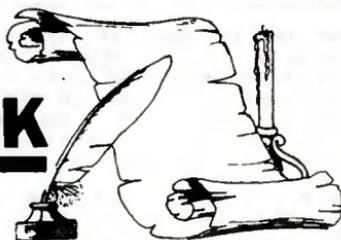

DON DICKEY, 9130 12th Ave. South, Minneapolis, MN 55420, will send a two page write-up on his memories of Radio's early years (1921 on) upon receipt of a SASE.

MONITOR AND DX HEADQUARTERS, P. O. Box 3333, Cherry Hill, NJ, 08034, is the source of WDX numbers for DXers and SWLs interested in such things. \$1.50 will bring you a certificate with your number. Write to them for an application.

GEORGE B. SHERMAN, Box 2284, Minneapolis, MN 55402, announces the availability of a NASWA Shortwave DX guide, part 1, 2000-4700 kHz. This is a comprehensive list by frequency of stations heard in North America by NASWA members (reported in Log Report and Update), from April 1976 through the June 1979 issues of FRENDX. Selected low powered stations, such as Indonesians, that were heard overseas are included where they may be logable in NA. NASWA Radio Country List names have been used. It is hoped that the relative completeness of this guide will discourage "List Logging" (the practice of counting a station as heard without actually getting an ID on the basis of what is listed in the past couple of FRENDX issues). With 39 issues combined, there are several possibilities shown for most frequencies. If the language is identified and the time considered along with the frequency, the possibilities are reduced. This suggests the IDs to listen for. Price is \$2.00 in US funds postpaid in USA, Canada, and Mexico. (Note: This is not an official NASWA publication, but we encourage members to make such available to other members-JAL. 73s till next time.)

GERMANY WEST DW has made some rare changes: NAM 0130-0150 now 11865 9605 9565 9545 6145 6100 6085 6040, i.e. 6145 ex-6075. 0530-0550 11905 11785 9650 9545 6185 5960, but a recent check showed them missing from 5960 (DW 7/79 Programm, gh) more, LN-16

GUAM (Cf July LN-2) KTWR monitoring shows a change to 15225 from 15350 at 1430-1500 (Yoshiaki Hayashi, JADX, via R. Australia Japanese DX Time 8/7)

HUNGARY (Cf June LN-2) R. Budapest's Hungarian History pgm is also aired to Eu Tu/Th 1900-1930 on 15220 11910 9835 9655 7200 6025. The daily 2100-2130 is on 6110, not 6025. Rest of sked matches (via BBC MS 5/79)

ITALY LN-8

ISRAEL Kol Yisrael tentative S79 for Nam: 0500-0515 17815 15485 15105 11655. 1200-1230 on 25625 21675 17685 17565=long path. 2000-2030 17645 15415 11655. 2230-2300 15300 12085 11655 9815 and 17815 (Larry Magne, Cheltenham PA)

KOREA NORTH R. Pyongyang: Eu 0600-0750 11905 9420. SEAs 0800-0950 11780 9977. Ams 1100-1250 & SEAs 1300-1450 9977. N&ME&Af 1500-1650 & 1700-1850 11885 9977 3840. Eu 2000-2150 on 9420 6575 3560. Ams 2300-2450 9977 (BBC MS 6/79)

KOREA SOUTH R. Korea anc'd 16/7 a new sked, including some xmsns expanded to 45 mins: NAM 0400 9755 11820, 1800 11830. Lam 0215 15350, 1800 15255. Eu 1245 12090 15570. SEAs 1245 on 7550. General svc 0400 9640 15570. They said these new 45-min pgms will be in addition to the 30-min pgms. I assume the 30-min sked remains the same, tho KBS is noted for its frequent changes (Joe Tangredi, Las Vegas NV) Their amnts are inconsistent and perhaps inaccurate. I did hear the 1800 running to 1845; the 1600 and 2300 still 30 mins. They said the additional 15 mins would include pgms "Let's Speak Korean" and editorial comment. To Nam 11820 was to replace 15345 but no times given; it was used at 2300 & 0430. To Eu at "2300" (I think this is a slip in Korean time, i.e. 1400 GMT) on 15570 ex-9870. To SEAs 7550 ex-11665, also wrong. And the GS on 15570 ex-17740. This had been at 0430. I didn't hear them say that 0430 was retained to 0400 (Wilder Pickard II, Evanston IL) What a mess! (gh) MALDIVES & more MALTA LN5

KUWAIT (Cf July LN-2) At 1800-2100 R. Kuwait on 11690, our typo as 11960 (SCDX) "Hiding" under ute QRM 11690 28/6 at 2000, sigs as good as old 12085 but mucho QRM. Believe ex-15345 (Conrad Richardson, Lynchburg VA) 0500-0800 has been on 21545 to SAs, 250 kW xmtr at Sulabiya. Anc'd //9630 to Eu, not hrd here (Adrian Peterson, Poona, India, R. Australia DX 8/7)

MALTA R. Mediterranean continues from Cyclops on 5960 and 1557, obs at 1835-1855 (BBCMS 21/6)

NETHERLANDS ANTILLES TWR tentative S79 for Nam 1100-1245 (Sat 1330, Sun -1415) shows 15225 ex-15255, but this could be a typo (gh) R. Nederland hopes in late July to change 17810 due to QRM, to 17695 at 2030-2120. Lopik which has been on 17695 will move to 17605, also at 1830-1925 (DX Juke Box 19/7) On 19/7 at 2030 17810 appeared to be missing (gh) On 20/6 Lopik at 2030-2120 changed from 15220 to 17695 due to Budapest (RN) NETHERLANDS

OMAN English obs 0900-1100 on 11890 (Rikard Johansson, DSWCI) Had been reported -1030 (gh)

Bac Thai obs on 6917v, sked now *1025-1100*, *1130-1230 Viet; 1230-1300 a Vietnamese dialect but not a minority lang, and 1300-1328* Viet with all their own pgm, ex *1030-1325*. Since 7/6, Cao Bang on same freq, 6917v, *1330-1430* having dropped Hanoi relay 1430-1515. Son La 4770 & 6330: *1130-1200 Meo-Dao, 1200-1230*(?) Tay-Nung, *1300-1330 Viet, 1330-1400* Tay-Nung. VOV dropped 10030 for ES, completely silent freq in June (Isao Ugusa, DX Front Line 3/7)

ZAIRE V. of Education & Development, Bunia, W. *0400 on 5070v; WRTH 79 *0600 is probably in local time (Richard Ginbey, RSA, RN DX Juke Box 12/7)

MISCELÁNEA RADIAL ALBANIA R. Tirana first time I've hrd on a harmonic, 18600, 3 x 6200, at 0116 20/6, very strong tho messy on fundamental; rubbish in SP on 'authentic communism' (Richard Stoller, NY) MW mxtr on 1458 kHz hrd with strong harmonic on 2916, 2300-2355 in PT (Michael Burden, Notts., England, RVDXW 3/7) On 9745 11/7 at 0230 QRMing HCJB (Steve Webster, RCI DXD 15/7) I've often noted them below 9750 but not as far down as 9745 (gh)

ALGERIA Tnx to tip from Larry Magne, RTVA hrd on new 11633 21/7 from 2100; very distorted in AR and other langs; 22/7 0005 began clandestine "Voz de la Resistencia Chilena" //7246 to 0035* On again at 0500 check with TS, //11810/7195. Voz Res was still claiming to start at 0100 GMT on other frequencies, 22/7 2000 EG, 2030 SP on 11633 (gh)

ANTIGUA You're the only person who would put such subversive things as harmonics in his department without sighing and grumping, so: BBCWS 20/6 at 0050 very poor on 24700, 4 x strong 6175. DW in PT with piano solos on 23730, very strong but suddenly worsened 0059 20/6, 2 x very strong 11865. And DW in GM 20/6 0100 on 23590, 2 x fair 11795 which now has het from Colombia 11793v. This one may be Montserrat (Richard Stoller, Old Bethpage LINY)

ANGOLA Em. Reg. de Menongue's correct name is "Emissor Regional de Kuando Kubango" and the correct addr is C.P. 37, Menongue. Letter from stn says the 4780 xmtr has problems and is not fully functional. Em. Provincial da Huila hrd on new 7350v and old 3970 to 2255* (Václav Kofínek, RSA, June DSWCI) Em. Reg. do Zaíre on 4906 at *0500, drifting to 4900 at 0553. Local ID at 0529 prior to R. Nacional nx relay. Em. Reg. do Lobito on 7001 had SP 1600-1700 for Cubans; few local IDs but one at 1100 (Rikard Johansson, m/m, June DSWCI) Huila on 7365 7/6 with organ IS 2159, Luanda ID. Lobito on 7000.77 7/6, local ID 2158 (Gordon Darling)

AUSTRALIA Because of the national industrial stoppage, both Shepparton and Lyndhurst were completely shut down 1400 20/6 to 1400 21/6. Only RA xmsns were from Carnarvon; no VNG, no Melbourne domestic 6150 9680 11880 15230, no ISB feeds. But domestic SW from Sydney, Brisbane and Perth remained on the air (Robert Jones, July ADXN)

BANGLADESH Here are some R. Bangladesh addr: Reception reports should be sent to: Research Engineer, Directorate General, R. Bangladesh (Research Wing), 23/7 Shyamoli (B-Block), Dacca-7. Comments on programs to: Dir., Ext. Servs., R. Bang., P.O. Box 2204, Dacca. Comments on publications to: Editor, Radio Publications, R. Bangladesh, P.O. Box 2966, Dacca-2 (CME)

BOLIVIA R. 21 de Diciembre, 6081.5, hrd around 1000 with nice highland Bolivian huaynos, is named for the date of the Catavi Massacre in 1944, in which military govt troops fired on tin miners of the Catavi Mining Complex (Pitt McNeil, DC, via FT via July ADXN) R. 27 de Diciembre, 3350, hrd at 0115. (Jan Tunér, RN DXJB 12/7) Another massacre date? (gh) R. Machupo, 5660, per QSL is in San Ramón de la Sierra. R. San José de Chiquitos, 5585, hrd to 0400*. On 4737, R. Cultura, Cobiya hrd, announcing 4850, so ex-R. Cobiya? Watch out for a different stn 4738v42, R. Mamoré. R. Santa Cruz, 6136, at 0100 (Jan Tunér, RN DXJB 12/7)

BRAZIL The State of Mato Grosso has been divided into M.G. do Norte and M.G. do Sul, the border being the parallel 17°S. The abbr. for the latter is MS (Robert Veltmeijer, Brazil, WRTH LA News 12/7) (Cf LN-3; July LN-16) R. Clube de Rondonópolis, 2480, testing daily from 0200 (Tony Jones, Paraguay, ADXCI) Hrd 22/6 to 0301* ("RP" in Play-DX) Hrd testing 29/5 to 2/6, good at 0015, but not since 3/6. Amnt says it's a subsidiary of R. Ponta Limitada, and the town is in Mato Grosso do Norte (Vicente Bombardiere, Argentina, 13/6) Hrd same dates, very good around 0020-0040 with ID every 15 mins (Emilio Pedro Povrženić, Argentina, 10/6) R. MEC 17875 is being hrd in Eu along with the other on 16m, R. Cultura São Paulo 17815 (Roberto Lévenstein, Madrid, Spain, RN Radioatividade 12/7)

CHINA LN-16

BYELORUSSIA R. Minsk hrd at 0800 with organ IS, RS nx on 11880 (Bill Butuk, RCI DXD 9/7)

CAMEROON (Cf July LN-3) On the contrary, 9745 is anything but dead. 10/6 Yaoundé relayed a Douala soccer match in EG, FR. 1830 EG nx, 1847 FR; also can hear R. Cameroon at 0630 with EG nx and comment, then FR (Gordon Natrass, S. Africa, SCDX 26/6) R. Garoua QSL letter says on SW 5010/7240 both 4/30 kW or 100 kW. This may mean that there are two xmtrs working simultaneously on 5010/7240, and that an additional 100 kW xmtr may be on either (Alexandros Koutamanis, Greece, June DSWCI SW News)

CANADA As of 1/7, RCI has a new head, Betty Zimmerman, as Alan Brown has taken an early retirement (Ian McFarland, PQ) CKFX 6080 appears to be peaking about an hour later in the east and south than here in Kansas. This is not surprising. So Klein is right; I am in an ideal location for the Canadians--that's why I wrote the survey--but propagation plays an important role too, even on 49m (Bob Rankin, Lawrence) CFCX 6005 noted 8/6 0633 with spoken "CFCX" ID with location, SW freq and meter band, cart played over record, not part of the CFCF MW pgm. A novelty worth getting on tape. CKZU 6160 Vancouver to 0800*, advanced from 0900 due to DST and hrd thru OC any nite, at varying levels; usually readable. At*0827 CKZN St John's easily hrd; no sign of the Colombian (Bob Foxworth, NY) CKZN new s/off around 0411* with "O Canada" and GSTQ--summer sked; likewise *0830 with marine wx. CKZU hrd from 0706 with regional, not net pgm of folk mx, Greek, etc, to 0800* (Syd Osterman, Ont, 18/6) 0810* 7/2 (Whitacre, MI)

CHAD R. Omdurman reported 15/6 that Chad Nat'l R. had ceased xmitting that morning after having resumed the previous evening after a 3-day break. The Sudanese News Agency correspondent in N'djamena reported the reason was 'certain unspecified quarters' had earlier ordered the arrest of broadcasters and technicians in Broadcasting House. They were released 14/6. CNR explained that radio officials had often requested the removal of difficulties in the way of their work, such as lack of xmsn equipment maintenance, damaged during Feb fighting (BBC 21/6)

COLOMBIA "HJCU, R. Melodía" hrd around 0230 19/6 on 12090.7, which proved to be 2 x new 6045.4, ex-6140, but not 20/6 (Dave Walcutt, Houston TX) 21/6 0953 hetting Australia 6045, same "Cadena Líder" ID as before not mentioning SW (Jack Jones, Jackson MS) Harmonic varied up almost to 12095, QRMing BBC (Larry Magne) R. Sutatenza now *1030; 6095 fq is not mentioned in amnts (Emilio Pedro Povrženić, Rosario, Argentina, 10/6) Rdif. Nacional on new 5932 around 0100 (Jean-Jacques Bloch, MD) Varies 5930-5936 (Webster). Rdif. Nacional has dropped 13848, but 15335 is hrd from *2200 (Roberto Lévenstein, Madrid, R. Nederland Radioatividade 19/7)

COSTA RICA (Cf July LN-9, 16) R. Noticias del Continente tests began 13/5 at 2300, with Argentine tangos and Peruvian waltzes, on 9615 (E.P. Povrženić, Argentina, 10/6) Relayed R. Sardino 1/7 2302-2320 and 2/7 0015-0114. Then the TIRL speaker said this had been a special pgm on the fight of the Nic people against 'la dictadura sandinista'--that's some goof, should've been 'somozista'!--to be rebroadcast Mon 1215-1315 local, i.e. 1815-1915 GMT (Jean-Jacques Bloch, MD) A Cuban stn by proxy with pgms for Chile, Perú, Argentina, in addition to the San-

dino pgms. All vehemently anti-US, sounding like a Cuban 'Peace & Progress'; heard as early as 1830 here (Dave Walcutt, TX) Cf LN-4

CYPRUS R. Bayrak, hrd on 6141 from fade in around 1900, Turkish nx 1930 to 2000* NA (No#1 Green, BBC WRC 2/7)

CHILE ARCHI, the trade organization, has furnished a list of members; many of the freqs assigned to SW stations are actually used by LVCH. Among the others not listed by WRTH are these: 6170 CE617 R. Universidad Técnica del Estado, Santiago, 1 kW. 9550 CE955 R. Valentín Letelier, Valparaíso, 1 kW. 9630 CE963 R. El Loa, Chuquicamata, 5 kW. 9650 CE965 R. Yungay, Stgo., 1 kW. 11750 CE 1175 R. Nuevo Mundo, Stgo., 1 kW. 11890 CE1189 R. Cooperativa, Valparaíso, 1 kW. ARCHI also includes as broadcasting stns CE488, R. Colo Colo on 4885, and CE493, R. Viña del Mar on 4930, as in WRTH 79. The strange thing is that in this part of the world nobody but DXers has receivers covering 60m, and Chile, especially the capital area, is not in the tropical-band zone (Carlos Maslatón, ADXCI) I think that list is more likely outdated, including deleted stations, than ultra-recent (gh)

EASTER ISLAND The ARCHI also lists R. Manu Kena with 1 kW, despite reports that it had gone off the air. If someone goes to Santiago, call the stn's rep at 737902. We've seen photos also of the ch. 7 TV stn there (Carlos Maslatón, ADXCI) R. Manu Kena presumably was MW (gh)

ECUADOR In Roger Stubbe's opinion, DXing in LAM has grown rapidly: five years ago HCJB received 100 reports per year, and now 30-40 per month (Carlos Maslatón, ADXCI Mar-May) R. Paz y Bien, 4820, extended sked to 0200* after 25 min of nx (Jan Tunér, RN DXJB 12/7)

EQUATORIAL GUINEA Whatever happened to R. Malabo? Until 2-3 months ago, provided excellent almost daily reception in ENAm. Can anyone still hear them on 6250? (CMS Telegram 9/7)

FALKLAND ISLANDS FIBS using the Stanley airport xmtr causes little hardship to the latter-only two flights are registered weekly (Weltweit H8ren via BDXC May)

GABON Libreville hrd on 7271 *0600, vernacular, into FR 0615, f/out 0655, hetting Poland 7270 until 0630f; Warsaw also in FR 0600-0630 (Bob Padula, Victoria, ADXN July)

GERMANY WEST As pointed out in LN before, the explanation of the DW xmtr on 4882 is that it is a feeder to Malta; I don't know why people connect it with Montserrat, cf mid-June UD (gh) For J79, all RFE fqs 9595 and below are from Germany, and all from 11835 and above are from Portugal; in between, could be either. No RFE xmsns come from former RL facilities, but some RL xmsns come from RFE sites. All R. Liberty xmsns 9505 and below are from Germany (gh)

GREENLAND With semi-sovereignty, the official language has been changed from Danish to Greenlandic, an Eskimo tongue, and the name of the country to Kalatlit-Nunat, meaning "Land of the People" and the capital Godthaab is now Nuk, "Point" (Time, 14/5, via Patrick Allen, SPEEDX Utility Report, June)

GRENADE R. Free Grenada, 15045, excellent signal 11/7 2347-2359* world nx; also obs 6/7 on 15105 at 2110 with C6W mx (Steven Shaffer, Hammond IN) Cf June LN-2, 15104.5 hrd 2010-2113* when goes off with no armt, coming up on 15045 after 2115, but sig not as good as 15104.5. Never hrd 15125, and 15370 not lately (Syd Osterman, Ont., 18/6) RFG making it into NV, 2300 fair on 15045, mainly religious pgms (Joe Tangredi, 16/7) A real rib-tickler is the daily obit show at 2309 contrasting with BBC news, playing a scratchy "Old Rugged Cross" record in the background. The half-hour newscast at 2330 is quite good for Caribe-watchers (gh)

GUINEA BISSAU Rdif. Nacional may well have cut back xmtr power, since 5041 not reported in Nam DX mags since 10/78, and Karaglanis /England/ reported to SCDX that it had been missing since Oct., but Miki Vcelar in South Africa says he can hear them, poorly due to Angola 5042. Reception was once good in ENAm; they haven't answered our letters (CMS Telegram 11/6)

GUINEA NON BISSAU Conakry noted at April end on varying 6076/6070/6060 // all listed fqs except 7125 (Rikard Johansson, m/m, June DSWCI SW News)

INDONESIA RRI Jakarta has reactivated 4775, hrd 1100-1500*; don't confuse with Afghanistan (G. Victor A. Goonetilleke, Sri Lanka, R. Nederland DX Juke Box 29/6) more, LN-16

IRAN VOIRI new morning AR svc, traced on 15315 from 0430 2/7 tho 11735 still anc'd (BBCMS) Returned to 9022 from 9138, noted 9/7 2300 //15084 (Steve Webster, Ont., 11/7) Since 9/7 ES pgms 1730-0130 reverted to 9022; had been misaligned on 9138v since 22/4 (BBC MS 12/7) 15/7 at 2206 on 9022, no 9138 (Arthur Bodek, NY) Last weekend it was back on 9138 again (George Wood, SCDX 17/7)

ITALY R. Milano International reactivated 1490 kHz a few days ago, 24h with 500W, and within a few days will begin testing 24h with 500W on SW 6130, but check the fq especially in the mornings. A new stn, Compagnia Italiana di Radiodiffusione, will begin testing in July on 6240 on this provisional sked: IT Thu 0500-0530, Sun 0600-0730, Tue/Thu/Fri/Sat 1200-1230.

EG: Sun 0800-0900, Wed 1200-1300, Fri 2300-2330. FR: Thu 0530-0600, Sun 0730-0800, Mon 1200-1230. SP Thu 0600-0630. GM Thu 0630-0700. Reports may be sent via Play DX, Via Devanzati 8, 20158 Milano (Play DX 25/6) In the case of Italy I'm never sure whether to consider stuff like this piratical (gh)

JIBUTI R. Jibuti, 4780, noted at 1500 tho WRTH says *1600; hrd past 1900 and is stronger than some months back when it went off the air. New xmtr: Ummis-akeable Somali mx and talks often hrd, last 16/6 (G. Victor A. Goonetilleke, Sri Lanka, ADXN) So try for it WNA before 1500(gh)

KIRIBATI (pronounced Kiri-BAS) became the world's newest country at midnite 11/7, formerly the British colony GILBERT ISLANDS plus other atolls in the LINE ISLANDS and PHOENIX ISLANDS. The U.S. has agreed to give up claims to Canton and Enderbury but this remains to be ratified by the Senate. The capital is Tarawa, and Kiribati is the only country to straddle the Date Line (Washington Post, 12/7, via Bob Foxworth) Formerly site of SWBC station; they really ought to try it again to cover this vast area of 2,000,000 square miles (gh)

KUWAIT R. Kuwait has registered a new 500 kW xmtr with the IFRB (David Sapsford, WDXC June)

LAOS Houa Phan hrd 1225-1425 in Lao on 6187.5 //4655 (Victor Goonetilleke, RN DXJB 29/6)

LIBYA The Radio Ship Al Fatah (formerly the Mebo II), Tripoli, fades in around 1240 on 7165 with Holy Koran pgm, but is subsequently jammed (Paul Karagianis, England, SCDX 10/7) cf LN 5

MALDIVES (Cf July LN-8) Oakley's log has been confirmed; she also says she has hrd and confirmed R. Maldives on 9558 at 0705 20/4 (Bob Bodell, July SPEEDX)

MEXICO R. Mexico's address is Estudios Churubusco, Atletas No. 2, México 21, DF (Miguel R. Naranjo Saroza, Tunas de Zaza, Cuba) May have curtailed sked; noted 0332* 21/7 on 15430 and 17765 after "Teletipo" (gh)

MOZAMBIQUE Nampula, formerly from 0230 on 3165, now *0255 on 3142; Pemba on 6676 or 6677 at 0255-0500, 0555-1800+. Maputo-A on 6375 //others 0756-1600+; Maputo-B 4925 missing since 27/6 (Rikard Johansson, m/m off Moz, SCDX 17/7) Cf LN-5: Quelimane on 7158 ex-7150, *1000 in EG, FR, SH, PT; variable fqs obs: Maputo 4868 4926; Beira 4893/4897, 4815/4817, 6025/6026 and 9635/9637. Nampula 4937 ex-4946, Quelimane 4902v *0300; Pemba 4838 ex-4936 not active in the morning (Rikard Johansson, June DSWCI SWN)

NETHERLANDS RN has started a press campaign to stimulate SWL, encouraging Dutch tourists abroad to listen to the stn (SCDX 3/7)

NETHERLANDS ANTILLES Unbelievable but true: RN 9590 EG 0230 3/7 was dealt heavy QRM from TWR Bonaire in EG with usual pgm, nx, Jack Van Impe, etc. Both SIO 522. Still mixing at 0328 check, gone by 0330; no EG listed at this time (Jay Novello, Endwell NY) I have also noted this other dates, presumably a mix with the 800 kHz MW outlet. RN has also had serious problems with the cable feed from Hilversum, 20/2 audio cutting out several times a minute, 21/7 continuous but quite distorted. And there sits their own satellite dish, which they are not allowed to use! (gh) 24/7 0250 HF feed, lousy for classical! Knightsbridge à la DXPL(gh)

NIGERIA Lagos 4990, noted at 0130 with election results, mx, covered by RSA at 0400 (Syd Osterman, Ont., 15/7) As I recall the elections go on for several weeks, so in early August you still might find some Nigerians running all-night (gh)

PAPUA NEW GUINEA P2T11, 11880, with propagation tests 13/6 *2245-0715*, same pgm as 4890, 9520. This is the 3925 xmtr not normally used in this time period. 18/6 to 0345* and then on 9575 at *0400-0715* this date only, with special sports pgm not //9520 (Robert Jones, NSW, ADXN) Hrd 12/7 on 11880 0633-0700 or so, off soon after. Again 13/7 after SFR 0615 close, "National Radio coming all the way from PNG" to 0708* Not hrd 16/7 (Syd Osterman, Ont.)

PERU R. Melodía, Arequipa, now on SW 5995, hrd after Mali 0002v* till VOA GM *0230, 10/7 (Jean-Jacques Bloch, MD) Asks for reports, promising picture postcards, hrd around 0100-0200 (Jan Tunér, Sweden, RN DXJB 12/7) Hrd 0016-0110 14+19+23/6 (Andrea Lawendel +3, Play-DX) Address is Calle San Camillo 501 (SWB via Play-DX) 5980 stn's exact name is Onda Panamericana Nacional, often hrd in Sweden around 0145 (SWB via Play-DX) Cf July LN-8; the "R. Santa desde Santa" was actually R. Pampas, 4854 (George B. Sherman, MN) Hrd around 0230, QRM Pará 4855 (Jan Tunér, DXJB 12/7) R. Tacna, nom. 9505, hrd on 9485 (Nicolás Eramo, ADXCI) R. Andina 4995, Huancayo, runs to 0615*, Suns 0700*. R. El Sol 5970, 1200-0545. R. Continental, Arequipa, 6055 to 0600* (Roberto H. Iglesias, ADXCI) Hrd around 0230 on 6056 (Tunér, DXJB) On 4875, R. Cooperativa Satipo, hrd fairly regularly last week in Apr, first week in May, at 2300-2400 despite heavy QRM from R. Brasil. R. Quillabamba, 5025, to 0300*, local Sun 0200*. R. Ayaviri, 5035, regularly hrd after Aparecida 0300*, sometimes to 0330*, others to 0515+, and sometimes not at all! (Tony Jones, Paraguay, ADXCI)

POLAND The seldom-heard service to seamen noted on 9525 around 2200 (Richard Utter, NY, 14/7)

SAN MARINO This republic on an Italian mountain has a radio stn, Radio Roger, which has now verified after 11 months--freqs are 90.2 and 99.3 (FM) (Dario Monferini, Play-DX, Milano)

SAUDI ARABIA Per Saudi News Agency 26/6, BSKSA 'clearly hrd in various parts of America' since installation of new xmtrs and power increase. Minfo has thus instructed the HQS in Riyadh to BC a nxcast for Moslem students in America, the agency said. On 29/6 the stn was obs linking up with Riyadh DS for 1800-1815 nx. Also HQS Jiddah on MW 1485 was to introduce pgms in Korean 'in view of the growing number of Korean communities in the Kingdom' (BBC MS 5/7) Now there will be an excuse for mixing up the words "Korean" and "Koren"! (gh)

SOLOMON ISLANDS SIBC, 9545, very good lately; local nx 0745-0755, usually quite interesting and informative, a pleasant change from the usual junk music (Syd Osterman, Ont., 10/7)

SOUTH AFRICA Has anything happened to Radio RSA's xmtrs? I can't seem to hear them anymore (Andrew Blumberg, Brooklyn NY) I hear them, but poorly. Perhaps reception will improve with the equinox (gh) /Canary Islands, L'Onde) not a likely harmonic fq (gh)

SPAIN REE hrd in SP 1805 16/6 on 15590 (Naranjo, Cuba) 1730 20/5 on 29730 (Edmundo Herrero, /

SRI LANKA QSLs from SLBC may now have ceased. Lal Herath of the Engineering Staff had been attending to DX reports until recently, but has now left for Abu Dhabi (Goonetilleke, ADXN)

SUDAN Per SNA on 1/7 Pres. Numayri opened the Goma broadcasting stn, built by a US company, in south Sudan that day (BBC MS 5/7)

SWITZERLAND The UN pgm booklet says the SSB xmtr on 7443, HBX37, at Prangins uses A3A type modulation; the carrier is centred on 7440 but at a level of -26db, and modulation is centred on 7443 with a swing of 6 kHz (Rob Kipp, Germany, June DSWCI SW News) UKOCBANI LN-16

UGANDA R. Uganda is back--EG to Nam 0300-0415 on 15325, signal as strong as ever, but now QRM'd by R. Moscú till 0400. EG IDs and anm'ts, continuous Af mx (Joe Tangredi, NV) Under Moscow at 0400 (Andrew Blumberg, NY) S/on seems variable, noted 4/7 *0300, 5/7 *0329, 6/7 *0329. Some days covers Moscow, others vice versa (Syd Osterman, Ont., 10/77) For a while the audio was excellent! from xmtr site Soroti apologizing for lack of feed from Kampala, but since then back to usual (Dave Walcutt, TX) Irr. during June on 6030 for E&CAF obs on about 9 different days, incl mx in EG 1000 & 1500, Swahili 1400. To SAF 9515 twice, EG nx 1630 (BBC MS 12/77) *0310 on 15325, news 0315; HS in EG on new 4932--not Nigeria--hrd at 0435 -0440, ID, local time, pgm preview (Jean-Jacques Bloch, MD, 18/77) unID but Telco-quality audio on 15250 17/6 1902-1908* mixing with VOA; Afro group vocals, woman in lang doing continuity. I bet Uganda; Blumberg hrd 15250 in March (Richard Stoller, Old Bethpage NY)

U S A VOA feeder, per SPEEDX Utility Guide at Bethany, on 7770 observed 19/6 and 20/6; more, 0410-0730 USB Breakfast Show, 0558-0730 LSB French, 0730-0745 Arabic (?) on LSB + USB, /LN-16 0745-0800 LSB Swahili per anc'r, possibly others; 0745-0802 USB Hausa and French, circa 3 mins each, then EG with excerpts from Carter and Brezhnev on SALT. On one or the other of the later periods I hrd the anc'r state "Returning you to SLBS" /Sierra Leone/ (Ralf Munster)

U S S R (Cf July LN-7) On apx 15025.2 at 2200 2/7 & 3/7 I received one carrier with two modulations, on AM, no hets, predominantly Slavic lang with RMSW under until former 2257* At times low freq hum like Havana also audible (Conrad Richardson, Lynchburg VA) At 2300 they become R. Vilnius; so the xmtrs involved are on 15240--not audible--and 15455 (Stanbury, Ont) RMSW very strong on 19060, 0112 20/6, better than fund 9530 (Richard Stoller, NY) (Pitt McNeil)

VENEZUELA (Cf July LN-7) 4770 indeed IDs as given, more often simply "Mundial Bolívar" /

ZAMBIA (Cf July LN-7) ZBS 6165 has rejoined the General Service net; until recently was ZBS DS. 3346 is back on with GS early morn & eve. 7250 now used from 0630 for GS in Bemba. On 27/5 ZBS quoted an Eastern Province politician that people were now happy there with R. Zambia reception (BBC MS 14/6)

ZIMBABWE-RHODESIA As of 1/6 RBC became ZREB, known as "Voice of Zimbabwe-Rhodesia"; otherwise there have been no changes (Richard Ginbey, RSA, RN DXJB 12/7)

FUTURE PLANS ANDORRA Dir. of R. Andorra, M. Marquet, would like to have from listeners in UK or Scandinavia accurate signal strength measurement in microvolts for SW xmsns, as well as suggestions for better fqs; they only have xtals for 6215 and 6230 but would get a new one if convinced. The xmtr will operate on bands other than 49m, so they could move higher with a modified aerial. Future plans are for 10 or 20 kW with a log periodic (Andy Sennitt, DSWCI SW News June)

BOTSWANA The VOA xmtr planned for southern Africa has been tabled or dropped (Tom Blossom, Austinburg OH, July REVIEW OF INTERNATIONAL BROADCASTING)

BRUNEI RTB sked effective 26/2/79 notes that the only two SW channels, 4865 and 7215, are to cease xmsn as of 1/9/79 (Stu Klein, FL; Bruce Boomer, WV) So the sked given until then is: 4865: 2200-0600 & 0900-1430 (Sun & Fri no break). 7215: 2300-0530(Sat-0630), 0800-1400, including EG 2300-0030, 0300-0530, 1200-1400 (via Boomer)

CANADA (Cf July LN-11) CKZU 6160--the SW twin of CBC British Columbia--is threatening to terminate service. Listeners interested in preserving CKZU should write Box 4600, Vancouver. Particularly valuable are letters from B.C. listeners. The problem is that their antenna requires replacement and they must somehow justify the expenditure (D. Fraser, Prince George)

ECUADOR The HCJB 3220 outlet began 18/5 with a new 10 kW xmtr, but at the outset with about 4.5 kW, to work up gradually to full power. We hope to have a second 10 kW xmtr on 6180 with Quechua by the end of the summer (Clayton Howard, via AIDX June) Whose summer?~ (gh)

FRANCE No service in EG to Am is likely at present, says Pierre Kemmer on the PCA mailbag pgm 21/6, but he went on to urge a massive letter-writing campaign that might change some minds in the government. Letters can be sent to RFI, Paris Calling Africa, Box 9516, Paris (Bill Flynn, Pittsburgh PA, July REVIEW OF INTERNATIONAL BROADCASTING)

HAWAII Around 1973 the Billy Graham Evangelistic Association applied for 4 x 250 kW xmtrs on Maui, but it is still stalled at the FCC because of nearby military bases; and BGEA can't afford it right now, anyway. KTWR, also near military bases on Guam, was approved because it is lower-powered (Roger Stubbe, HCJB, at ANARCON 79, Minneapolis)

MONGOLIA Per Montsane, a new stn in Ulan Bator, gift of the USSR, was commissioned 5/7. The Soviet ambassador said it would improve reception in central Mongolia and in many countries and continents. Mongolian leader emphasized that the Voice of Mongolia would be hrd by millions of people in various world countries via this powerful stn (BBC MS 12/7)

NAMIBIA (Cf June LN-8) On 20/6 SABC reported that SWABC had decided to proceed with construction of a SW xmsn stn near Windhoek, costing an estimated 1,320,000 rand, to include 2 x 100 kW xmtrs and will take about 15 months to complete (BBC MS 28/6)

NIGERIA VON reported 18/6 that three xmtrs are to be set up in Niger State--in Bida, Silaga, and Kantagora--part of the state's broadcasting corporation's efforts to give adequate and effective publicity to the activities of the state and local govt (BBC MS 21/6) VON is getting 3 x 500 kW Brown Boveri xmtrs with antennas for Nam/Carib/SAM; the first one should be on the air in 12/79; the other two by 3/80. Thus VON hopes to begin a NAM svc; as well as SP to Eu, and PT to SAF. A 250 kW xmtr is already being installed from Marconi, and we have already erected arrays of 34 aeriols to cover most parts of the world, including Australia and Asia (VON at ANARCON 79, Minneapolis)

SWAZILAND The new TWR 100 kW xmtr is being installed and will soon be on the air. The new curtain antenna for it to reach C&Eaf has already been erected and in use (Daily Word, via Charley Hoffman, PA, via July REVIEW OF INTERNATIONAL BROADCASTING)

U S S R Paul Kuznetsov of RM DX Club is conducting a QSL design competition for the 1980 Moscow Olympics. He gave no rules or specifications; there would be prizes, but he didn't say what. But the deadline is, 4/9 (Joe Tangredi, Las Vegas NV)

CLANDESTINE CRANNY Radio Sandino continued thru 19/7 as before, but as of 22/7 had not been hrd since 19/7, their victory having been accomplished and the need for SW ended. Here is another summary of developments:

10 June. 7317v *0300 mixed with non-stop mx from Somoza jammer (Gordon Darling, Eng, WDXC)
14 June. Date of BBCMS report of variable sked of 0300, 1030, 1900 on 7588 and 7702 not //
15 June. 7588 anc'd it would also be on 31m from next day, but no channel found (BBCMS)
16 June. 7588 logged 0305-0310 under heavy CCI; couldn't trace 7317 (Darling, UK, WDXC)
17 June. Continued to this date at times above with pgms of varying length. QRM mainly from Radiodifusión (sic) Nacional and also Estacion X, normally on 620 and 750 resp (BBC MS)
18 June. On 7315 and 7588 from 0300 and 1030, having dropped 7700; again, not // (BBC MS)
25 June. Since this date Sandino and other Nic pgms one hour later; the country apparently reverted to GMT -6 at midnight 24/6 (BBC MS)

26 June. R. Sandino anc'd that Sandinista committees in Matagalpa had begun a "R. Insurrección" on 7100 at 1700 daily. And that R. Masaya would begin broadcasting 'when it is ready'. Later that day, R. Reloj de Costa Rica said 'the Sandinistas now have 3 clandestine radio stations, mentioning in addition to R. Sandino, R. Masaya, and 'a station in Matagalpa'. The Nic govt RTV office had called an urgent meeting of R & TV directors (BBC MS 5/7)

1 July. At 0400-0510 Sandino very weak on 7587; no jammer; 0510 start of 'Somoza music' jamming on 7585. At 0532, Sandino on 7579; at 0535 RTTY on 7579; at 0542, nothing on 7579; 0544, Somoza mx on 7579; 0552 Sandino on 7702, Somoza mx on 7704.5. Sandino loud and clear on 7702, maybe different xmtr than 7587. 0651* Sandino signed off 7702 giving xmsn times as 5:30 am, 2 pm, 10 pm; as Nic is on CST now, this would be 1130, 2000, 0400-0650. Slogan: "La victoria es nuestra", as compared to "será nuestra" in May; "adelante combatientes sandinistas; no, a la intervención yanqui en Nicaragua!" Somoza mx suddenly 0658* on 7705. R. Sandino said the Front operates a stn in Matagalpa, which they first thought of naming "R. Matagalpa Libre" but it actually went on the air as "R. Quince Regional" (?). This same night I hrd 0702-0720 some vehement talk on 5955, very poor reception due to strong OC on same frequency, but I did hear them say "no al somozismo" and IDs sounding like R. Estelí. See also COSTA RICA, LN-7. (Jean-Jacques Bloch, MD) At 0458 7702 with live-sounding discussion; no other freqs on or hrd due to QRM; 0505 7587 audible, not //; 0512 mx on 7584 (gh)

3 July. 0430, 7702 saying any aid to the Nicaraguan Red Cross goes into the power of war criminal and genocidist Somoza; 7587 also on, much weaker, no jammers (gh) SCDX this date quotes James Jordan, England that Sandino was on 4795 at 0430 /on an earlier date/. More likely some LM station relaying it newly (gh)

4 July. 0420, mx on 7702, low varying het; not on a few mins earlier; and no others on yet. 0557 7702 Sandino with mx, ID 0558; no 7587; 7707 Caribbean mx jammer easily separable, with phone-quality audio. 0605-0614 7702 open carrier, then Somoza critique (gh) 7708 Latin mx 0705 in rising frenzy, OC 0727 past 0740, no anmts, assumed Sandino (Ralf Munster, GA) No.

5 July. 7702, R. Sandino 0720 "Viva Nicaragua Libre", etc. choral mx, silent 0732-0737, ID 0800, still going strong at 0820 (Ralf Munster, Decatur GA) During the first days of July R. Sandino obs with its 3 daily BCs on 7702 and 7588; but on 5/7 the 1830 xmsn was hrd on 9615 (BBCMS) Obviously, R. Noticias del Continente. Hmmm, was its xmtr ever on when both of Sandino's were? (gh)

6 July. R. Reloj reports that FSLN had set up a new "R. Revolución" in Granada (BBCMS 12/7) 0430 on 7586, man with semi-screaming voice, mass chorus snatches; too painful in terms of sound to try to listen to. 0455 on 7702, different pgm, miserable reception. 0505, different stn with mx on 7705 (Ralf Munster, GA)

8 July. Argentine news agency Latín said 'revolutionary' stns continued on MW from two cities and were hrd in Managua and almost all of the country's Pacific and central regions. R. Insurrección operated on R. Matagalpa's fq 570 kHz, and R. Venceremos could be hrd on 1410, the Ondas Populares fq in León (BBC MS 12/7)

10 July. 0415, 7317 on before others, listing firearms (captured?), e.g. mortars, machine guns, Sherman tank; casualty counts; 0426 het on, pitch varies, some mx; tries to zero-beat

but is too unstable. 0435 somewhat prematurely "La dictadura somozista está derrotada" but not his jammer, no problem, just mx on 7321. At 0505 check, 7587 was on, weak and QRMed, no jamming, and not // . At 1240, only music jammer to be hrd, on 7322. (gh) Spanish Foreign Radio mx also reports on R. Insurrección and R. Victory in León.

11 July. Around 0600, Sandino on 7316 (Steve Webster, Ont.)

13 July. Noted on 7317, R. Sandino at 1155 with eloquent speech (gh) At 0510 R. Reloj de Costa Rica relaying Sandino on 4832. After it ended, ancr said next relay would be at 6 a.m. local. At 0525 same nite I tuned to Sandino 7316 and hrd the exact same pgm as heard earlier on Reloj (Pitt McNeil, Washington DC)

15 July. Has anyone else noticed the audio characteristics of the background noise on 7316? Quite different from the sound on 7587. The rushing sound is a little like the surf and is superimposed on R. Sandino's carrier along with the regular voice modulation and music-- it is not part of the signals jamming the stn. It is a noise I have come to associate with HF feed, like BBC-Ascension (Bob Rankin, Lawrence KS)

17 July. At 0400 R. Sandino on 7587-8 with song about National Guard, marimba, 0405 ID. At 0406 mx jammer on, VFOing around (gh) Carl Beck reports /on earlier reception/ that 7702 had replaced 7315, and 0600* replaced by 0735* or 0750*. 7705 was an all-music pro-Somoza jammer. Nothing hrd on 7585 for a week (SCDX)

19 July. By now Somoza had resigned and was leaving the country. 7317 at 0410, at last no jamming, just R. Sandino with ecstatic claims of victory; 0417 "somos libres!" etc., really wild yelling of "Patria Libre", etc. 0430 hi-speed RTTY begins under Sandino mx, mx stops while RTTY continues, overlapping start of mx again at 0433. Seems to be from same xmtr rather than QRM! 0434, "transmitimos desde Nicaragua libre", 0439 announcing that Mexico had recognized their govt; RTTY starting up again. 0442 tune in 7587 now on, announcing Mexico recognition--consistently running about 2 1/2 minutes behind 7317. At 0449, trying to listen to Larry King interviewing SF writers on WSB-750, startled to hear R. Sandino //7317, so at this point they had taken over Somoza's Estación X. 0500 on 7317 repeating "our Sandinista chiefs will tell us what to do", still going past 0516. (gh)

20 July. No sign of R. Sandino or jammers on usual 7 MHz channels, in 0400-0500 period.

Its mission accomplished, R. Sandino apparently has closed down SW operations. Same situation 21 July, 22 July, 23 July, 24 July.

I had speculated on RN and RCI DX pgms that 7702/7317 was likely transmitted from Cuba (gh) I feel this is not strongly enough based in fact, If the site was in Cuba, it would not have been difficult for the Somoza govt to detect and proclaim as evidence of Cuban, and thus communist, involvement. No evidence, or even claims that the stn is in Cuba have emerged in the US press, not even in the most conservative journals. Occasional urgent commands to troops and so on further limit the xmtr site to a relatively nearby QTH in which the leaders are known to be--Costa Rica. AP, UPI, Wash. Post and Time/Life all say it's in CR. This all follows CR's open support of the FSLN since last March, when R. Sandino went off for 3 weeks and made a comeback with higher power and slicker production. Thus, the implication that Sandino is probably in Cuba is probably wrong, and in need of correction (Pitt McNeil)

My idea was that the second xmtr only (7702/7317), which did not appear until 12/6, was from Cuba. Certainly Cuba was strongly involved, as per the BBC reports in July LN. Rankin's obs of off-air-quality lends credence to 7702/7317 being outside CR. But your evidence, as well as mine, is nothing but circumstantial. Journalists are no help, of course, with their customary disdain for giving the exact frequencies of stns they write about! (gh)

Voz de la Resistencia Chilena via Algeria now hrd after FR nx, 0003-0035, instead of 2300-2330, on new 1414.8 (good), 6160 and 9705 (some QRM), ex-891, 6160, 7245 (Oscar Hansson, R. Viking DX World 3/7) Well, on 22/7 hrd at 0003-0035* on 11633 and 7246 (gh) Magallanes LN-6

Voice of the Free Sahara, anti-Moroccan from Algeria continues carrying Polisario Front BCs in AR, FR, SP 2200-2300 in the ES on 15160 11810 9640 9610 7195 575, while another anti-Moroccan pgm, Maghrib of the Peoples, is at 2200-2400 emphasizing Maghrib unity, in the remaining DS freqs, from the Oran studios (BBC MS 28/6) The latter returns to the Algiers studios for nx 2300-2315. VOFS, which does not identify its source, hrd only twice since 20/7 (sic-- should be 20/6 -gh), on 29/6 and 1/7. On 29/6 it was on all Algiers Arabic and Kabyle fqs except 980--carrying MOP--and some French service fqs (BBC MS 5/7)

R. Free Zimbabwe, first on 2775, then on 7150, variable times -1000-1145--; 1010 relays radio news from Zimbabwe (?); never mentions QTH; maybe Mozambique (R. Ginbey RN DXJB 12/7)

Zimbabwe People's Revolutionary Voice no longer carried on Zambia's 7250 channel (BBCMS 14/6)

Revolutionary Voice of Zimbabwe 30/6 Dar es Salaam radio anc'd that the ES would intro 1/7 addl half hr pgm for Zimbabwe Patriotic Front at 1915-1945. Subsequently confirmed; in Ndebele, Shona, EG, with world nx, commentaries, mx (BBC MS 5/7) Tho 15435 anc'd, on 9685 only (BBC MS 12/7)

Voice of the Eritrea Revolution (Arabic: "Sawt ath-Thawrah al Eritrea") pro-ELF, including nx, reports of ops vs Ethiopian troops, press reports of support for ELF, and talks thought to emanate from Baghdad, Iraq, now sked M/W/F 0445-0545 on 6170; Tu/Th/Su 1430-1530 on 7245; first half hour in AR, last half in Tigrigna (BBC MS 7/79)

Voice of Arab Egypt: Syrian Arab Rep. BC Serv. anc'd that from 10/6 it would BC daily at 1930 on all its fqs this one-hr pgm (Arabic: Sawt Misr al-'arabiyah) (BBC MS 14/6) Daily 1930-2030 obs on 827.782 746 666 566; 952 and 927 not confirmed. Hostile to Pres. as-Sadat and to peace treaty with Israel (BBC MS 21/6)

Bizim Radyo & Voice of the Communist Party of Turkey (cf July LN-13) I can affirm from personal experience that many of BR's xmsns do indeed come from Romania. I spent two years there in the late 60s as a Fulbright student. While exploring the FM band 88-108 MHz, I ran across the STL for R. Bucharest's foreign SW svc, I believe around 94-95 MHz. Carried on the same fq were pgms of three 'clandestines'--Bizim radyo, Radio España Independiente, and Rádio Portugal Livre--the last two of which no longer exist. Altho the R. Bucharest pgms were hifi the others had phone line hum and attenuation, indicating they were piped in from elsewhere. Turkish students here at KU tell me it is common knowledge that the studios for the Turkish broadcasts are somewhere in the GDR. Bizim radyo's SW xmts were at the little Romanian village of Țiganești, about halfway between București and Ploiești. I drove this route to the mountains many times, and my plastic Grundig would overload and go completely bananas with R. Bucharest or clandestine signals whenever I passed the cluster of telephone pole mounted antennas at Țiganești. Doubtless the clands enjoyed xmtng facilities in other 'fraternal' countries as well (Bob Rankin, Lawrence KS)

Voice of the Omani Revolution via R. PDRY 1545-1628, no longer contains a Persian pgm for Iranians at home and Iranian soliders in Oman from 1615 to 1628, per recent obs (BBCMS 5/7)

Voice of the Revolution, Voice of the People's Front for the Liberation of Oman is a cland pgm broadcast daily from Libya at 1830-1845 on 15100, hrd 23/6, with anti-British, anti-US, anti-Israeli talks in Arabic (Jean-Jacques Bloch, MD)

Iran VOIRI interviewed 20/6 the PTT Minister Dr. Mohammad Islami, who outlined moves to combat unofficial broadcasters. Certain stns broadcast after 1730 and discussed 'harmful matters' and detector vans uncovered five of them one night in Tehran. Describing them as 'foreign' and 'illegal' radio stations, the Minister said that 'the former security organization (SAVAK) provided these facilities in 26 locations all over the country which we are gradually taking over, experimenting with and will eventually use to cover all the country.'

Thai Revolutionary Peoples Radio Station Newspaper Matichon reported 11/6 (BBC MS 28/6) that per a military source this stn would be established soon to compete with the Thai Communist Party's Voice of the People of Thailand. The new stn will be set up in Laos, possibly Savannakhet. Per the newspaper Nation Review, the stn will be led by a breakaway group of Socialist Party members and may follow a pro-Soviet and pro-Vietnamese line. The move to set up a rival radio stn began early this year, after the Communist Party of Laos handed over an ultimatum to the CP of Thailand to move out part of its stronghold in Lao territory before yearend (BBC MS 21/6) Pro-Viet guerrillas are too weak to form a rival party to the CPT, per supreme command chief of staff Gen. Saiyud Kerdphol 13/6 (Far Eastern Economic Review 22/6 via Isao Ugusa, DX Front Line)

Voice of the People of Thailand 6035 & 9423 is now off the air, a move on the part of the Chinese, apparently, to better relations with Thailand (Washington Post 12/7 via Pitt McNeil) In its 1000-1055 xmsn in Thai 10/7, VOPT anc'd it was temporarily suspending BCs from 11/7. In introing the pgms final song, "Proceed to expand operational areas", the anc'r said "I bid farewell to listeners; may you enjoy good health and success in your work." Tho monitoring obs tend to place xmters in the Kunming area of Yunnan Province (China), the Bangkok Post reported 3/6/77 they were in Ken Thao, Loei Province in Laos, or somewhere in the "Golden Triangle" area of Laos. Another newspaper, Nation Review, reported 10/8/77 that VOPT was at the border point of China, Vietnam and Laos known as "Sipsong Panna" (BBC MS 12/7)

Voice of Democratic Kampuchea Exiled Khmer Rouge foreign minister Ieng Sary, in a 18/6 Peking interview with AFP, was asked about reports that this stn was based in China's Yunnan province. He replied that there was 'some truth and some falsehood' in the allegation. Observers believe this to mean that broadcasts made by the Khmer Rouge underground forces could be relayed back by a stn in Yunnan, the agency concluded (BBC MS 28/6)

Voice of the People of Malaya June obs indicate this pro-Peking stn has reduced duration of some of its BCs. The former 2230-2315 Malay is now 2230-2245 and the 2315-0015 Std Chinese now comes at 2245-2315*, signing off until *1130 (BBC MS 5/7)

Laos A high official of Lao govt admitted the leader of Meo insurgents continued to operate a cland BC, possibly from Yunnan Province, China. He said by supporting ethnic minorities, China was to establish puppet govt within Laos. He explained, however, Vang Pao, the leader of the Meo rebels is already dead and only his recorded voice is carried in that broadcast (Asahi Shimbun 15/4 via Tsukamoto, DXFL) A new pro-Chinese stn, but does it really exist? Hanoi and Vientiane continuously accuse Peking of supporting "Vang Pao and Gen. Koong Le of the reactionary 'neutralist' forces". Peking says Hanoi's just making it up (Isao Ugusa)

Ireland The govt of the Irish Rep. is to intro a new law to stop pirates, raising the current £50 fines to £10,000. This will probably deter most of the current stns (David Kenny, England, SCDX 26/6) As a result, the most active unofficial SW stns, R. Condor 6243 and West side R. 6280, were hrd making farewell broadcasts in April. But they were both back as usual 13/5. Compensating, also is the revival of Skull & Bones Radio System, dormant since 1/78, hrd on 6276 13/5 after 0930. Perhaps the fine Irish, or (Groucho) Marxist sentiment of "what ever it is, I'm against it", has produced the revival (John Campbell, DSWCI SW News June)

R. Barnas, a rare Belgian (more or less) stn, is about to appear on 6300, testing Suns at some times between 0730 & 0930, possibly 0800, and maybe also 2100-2400 Fridays. Reports can be sent to me; no, it won't be in Devon, and I'm not disguised as a Belgian (Campbell, DSWCI)

Radio Highseas International hrd on 3830a 8/7 0443-0501* talk and mx, many IDs in EG and FR 0450, "Springtime for Hitler". Jingles, British-sounding male DJ saying his name was "Broadcaster" and that "Larry" or "Lester Burns" was running the xmtx tonight. Excellent pgm. Said they would open up a toll-free phone no, but abruptly off in mid-music at 0501, SIO 444 to 333. Re the name "Burns", in the 11/77 PE article on pirates by Harry Helms, there was a stn active in mid-Dec 1973 calling itself R. Clandestine. Like R.H.I., it claimed to be on a ship off the Atlantic Coast! And, the ancr at R. Cland claimed 'be "R.F. Burns"! I wonder if there is a connection, or is it coincidental? (Mike MacC. Indianapolis IN) RHI seems to have the same operator as the sporadic "WBLO", also w/ high quality signal from the NYC area (Daniel Srebnick, Staten Island)

"CREW", Halifax NS, approx 1610, 0300-0500 24/6, seemed to have xmtx problems, as off the air frequently for a few seconds. Pop mx, Cosby records, "C.R.E.W. Commentary" ridiculing the gas-oil shortage in the US, blaming the govt and transportation laws. IDs as "Crew-AM-16", "Crew-Halifax" also giving latter as address for opposing views. Poor to fair signal (John Fisher, Chelmsford MA) More pirate madness on 1613 this time, "CRAW" Halifax, first hrd 11/6 0200-0330 sleepout with old and new rock, some disco, M ancr took some calls on request line, didn't catch number. Fair sig, very deep fades like BCB DX. Not Maritimer accents, didn't say "eh" once, the Canadian all-purpose semi-word. Raspy carrier, but quite professional. Also presumably hrd with rock mx tests at 0020, then OC, same raspy carrier (Richard Stoller, NY) I'm positive it's CREW, hrd it 8 times, sometimes with excellent signal, taped ID (Arthur Bodek, Cedarhurst NY, 16/7) On 1614.5, fair sig with bad FMing (sounds like buzzy modulation with BFO on), at 0235 10/6, ID as "ERW" or "PRW" or similar, audio fuzzy. Said was in Halifax NS and would be on until 12 o'clock local. Had staged 'calls' from 'listeners' in far places such as Edmonton saying hearing 'loud & clear' (Bob Foxworth, Mineola LINY)

"WCBX" on 1619 at 0128 25/6 with movie mx and ID, then off (Arthur Bodek, NY) The unID on 1620 with the old WMCA talk show was WCBX NY, replaying a tape of the final WMCA Alex Bennett Show --I get a powerful groundwave from them here and they seem to operate with over 250 W. Best time to listen is pre-midnight when they come on sporadically (Daniel Srebnick, Staten Is NY)

"WFAT" bustees making lots of news in NY, appearing on WEVD-FM for 5 hours, etc. Best bet if you want to contact WFAT is to call (212) 283-9979 11pm-12mid on Friday (S.D. Ehrbar, IRCA)

R. Galaxie, 6940 kHz, 250 watts, Reynosa, Mexico, sked every Saturday 0500-0545. This memo is to inform you and your loyal SW club members that a new SW stn is 'on the air'. This station is in Mexico. Permission has been granted to XEJRM, R. Galaxie, by the Mexican govt to xmit on the SW fq of 6940 kHz. We have recently concluded several test xmsns and are ready to begin regular broadcasts to North America. We sincerely (sic) hope your listeners (sic) will tune in. We have used your bulletin as a forwarding address. If this arrangement proves inadequate please inform us of such. Thank you. Sincerely, (George Beck, Technical Advisor, 12/7) Baloney that it's authorized. Postmark was Shreveport LA. I checked both GMT Sat 21/7 and Sun 22/7 at 0500 and couldn't hear a trace. Please do NOT give NASWA's address for correspondence. If you need a forwarder, the Free Radio Campaign (see previous LNs) offers this service (gh) Hrd on 6939.2 11/7 0224-0303*, announcer J.B. Boss. Long touristy talk on Mexico, mentioned DX club bulletins and claimed to be reading from them; mentioned R. Liberation. Said to send reports to NASWA's Box 13 address. Claimed that 'we try to stay away from politics'. 0302-0303 sounded like Belize off the air tape in EG and SP. Tnx to Paul Jordan in Houston who tipped me on this (David Walcutt, Houston TX)

"KDHF", 6420, noted 0545 with continuous mx, always atop some wireless stn, 12/5, 13/5, 14/5 with definite ID as KDHF, SIO 434. Also 0500 "Good evening Arizona, and thanks for your request". They usually 0610* and are on eves from 10 pm to 2 am (PDT) but not any definite days (Marjorie Oakley, June SPEEDXGRAM) Also KVHF 0745-0806 mostly pop mx, "join us Sunday, same time", "This is KVHF, six-dot-four-two-o, on your radio, now leaving the air" which it did at 0806 (Jack Lattemann, WA, June SPEEDXGRAM) We shouldn't forget that as an illegal sta tion they can use whatever call they please; say KVHF one time and KDHF another (gh)

"KYKW" (You-Know-Who), pirate hrd 3 or 4 times in past month on 1040 kHz, always between 12 and 1 am PLT (Herb Childs, Berkeley CA, IRCA DX Monitor 16/6)

PROGRAM NEWS

CANADA As of 23/7 the CBC Northern Service dropped "As It Happens" in order to include more native-language programming (Ian McFarland) A lamentable trend for us southerners, but at least this is still available via RCI. Here is the observed sked of "As It Happens Summer Theatre" oldtime radio shows at 2230+ on 15325 and 2330+ on 9755 and 5960: Mon, "Box 13" starring Alan Ladd (nothing to do with NASWA!!); Tue, "X Minus One"; Wed, "Hancock's Half Hour" from BBC; Thu, "Screen Director's Playhouse" movies adapted for radio; Fri, "Casey, Crime Photographer". Contrary to the current NS sked, Sun 0408-0500 is "Best of Radio Noon", and Mon 0230-0300 is still repeat of Fri 0004 pgm, lately "The People's Choice". I also checked for "Tony's General Store" Sat 21/7 2005, and instead there was something in French (gh)

DOMINICAN REPUBLIC Since 25/6 RTVD ES has had 2 x 30min nx at 2330 and 0100 instead of 3 x 15 min at 2300, 0000, 0100 (BBC MS 5/7)

UKOGBANI Some BBC Aug features: "Right Hand Woman" Sats 0430, Mons 0815 2315, Weds 1115. "On Their Majesties' Most Secret Service" Sats 1130, Tues 2030, Weds 0230. "The Art of the

Whodunnit" Sats 0815 1315, Suns 2015, Mons 0315. Promenade Concerts are at 1830, live, on these August dates: 9, 10, 11, 14, 16, 18, 22, 23, 27, 31. "The World of Daphne du Maurier" Tues 1715 2330, Weds 1215 (gh, from London Calling)

VENEZUELA R. Juventud 4900 is probably the best stn on SW for good progressive mx, and their late night "Blues y Jazz" pgm is a standout. Announced as only on local Wed & Thu at 0300 & 0400 (GMT Thu & Fri) but also hrd other days. Much of the mx featured on the pgm simply does not make it to the air on most US domestic stns--Muddy Waters, John Coltrane, Howlin' Wolf, Jeff Beck, and so on--and the quality of the signal being quite good even on portables makes it a good alternative to local US stns for those who prefer good progressive mx (Pitt McNeil)

DX PROGRAMS (Note: Some of these items update info in the exhaustive DX program schedule in the July REVIEW OF INTERNATIONAL BROADCASTING)

AUSTRALIA "Club Forum" is also carried on ABC domestic SW from Lyndhurst 6150 11880 GMT Fris 2200. We still hope to get DXers Calling returned as a separate pgm to R. Australia (ADNX)

CANADA A reminder that all NASWA members and FRENDX readers who have 'hot' newsworthy DX info are urged to send it right in so it can be aired as soon as possible on my RCI DX Digest reports, GMT Mons at 0020, 0120, 0320; as well as Suns 1810, 1920, and Weds 2150. The deadline for possible airing the following weekend is Fri 1400 GMT. If necessary to meet it, you may call me (prepaid please) weekdays at WUOT (615) 974-5375; or at home between 1200 and 0330 GMT, (615) 522-4497. Thanks for your participation, helping to make this the most timely DX program on the air (gh)

DOMINICAN REPUBLIC New KTVD chief says the stn's DX pgm has been cancelled. There had been no listener response to it (Mrgen Mangerich, W. Germany, SCDX 10/7) Oh, come on! It never had a chance and as far as I know never went on the air at all (gh) **HUNGARY GERMANY WEST LN-16**

PHILIPPINES R. Veritas fq changes affecting the DX pgm: 1300-1330 on 15215 ex-15220; 0030-0100 on 15280 15320 17790, ex 15275 15135 17710. (Victor Goonetilleke, Sri Lanka, ADXN July)

POLAND R. Sofia says Warsaw has DX pgms on 2nd and 4th Suns at 0630, 1200, 1600, 1830, 2230 (Rusty Serenberg, St. Petersburg Beach FL 33706, 3/7) These are Eu svc times; confirm? (gh)

SOUTH AFRICA The Monday repeat of R. RSA DX Corner, noted at a different time, 1350-1358 (Joe Tangredi, NV, 16/7)

U S A I have received about 15 favorable responses to the inquiry in April FRENDX about an SWBC DX ham net, so I will give it a try, starting Sun 19/8 at 1600 GMT on about 21365 kHz in the 15m band, and weekly thereafter. Depending on the air response we will continue this sked or modify it accordingly (Alan Mayer, Park Forest IL, WD9IRV) Of course, we all may listen in and benefit from the tips discussed on SSB (gh) Andy, W1WNH(?) gives DX news at 0130-0300 on 14280 (SFR DX 16/7) **USSR** No RM DX Sat 1130 & 1830 as in RIB sked (gh)

PROPAGATION EXPERIMENT! SWLs have an opportunity to aid in observing radio propagation effects thru an ionospheric hole created by the launch of an Atlas-Centaur rocket from Kennedy Space Flight Center in mid Sept, expected to form a large area depleted of electrons. Since the launch will be at night the sun's ionizing effect will be absent, thus allowing an event of several hours. Specific effects of such large disruptions in the F-region are unknown, and since this may be the last giant rocket to be launched in many years, observations from SWLs will be of great value.

Detailed ionospheric observations from various listening sites are desperately needed. The paths from Caribbean relay sites to the New England area will be affected most, tho many other paths may be interrupted and thus have significance. As of 20/7 two special skeds had been arranged and there may be more. The launch is expected 14/9 at 0530 GMT, but it is possible that it could be postponed a day or two; if longer, it would be a month or more. WIAW may carry announcements on the project; also see September QST.

DW Antigua will be on 15185 at 0500-0600, and WYFR at 0500-0600 on 15215; possibly RCI and RN-Bonaire as well; it is hoped to have some 11 and 17 MHz operations for MUF comparisons. Effects may last 2-3 hours, or until sunrise. One-hop paths only are of interest, since further hops would introduce too many variables. The size of the hole is a matter of conjecture --I would guess 200km. Observations from as far west as Chicago may be useful. Preferably tape recordings of the signals the day before, day of, and day after the test should be sent in. Arrangements will be made thru the USAF Geophysics Laboratory to issue a special certificate to anyone supplying quantitative observations of the event. Any listener desiring to participate should write now for further information to:

David Sarrazin, US Dept. of Commerce, Nat'l Telecomms. & Info. Adm., Institute for Telecommunications Sciences, Boulder, CO 80303.

Here are the predicted coordinates: 209km high (start of burn) 28.74 N/76.80 W. 346 km high: 28.56 N/71.82 W. 444 km high: 26.54 N/64.22 W. 466 km high (end of burn) 23.21 N/58.75 W.

There may also be effects on the mediumwave band, but not on the tropical bands (Sarrazin) Dave is a DXer himself; I hope a great many NASWAns in the east part of USA participate (gh)

UNIDENTIFIED 2370 17/7 at 0050, EG pop mx, but soon gone, s/off, or fade? Have been sitting on fq for 3 weeks (James Mulvey, Seaford NY) Also reported from Philadelphians to 0125*. FIBS? Pirate? What I hrd was local WJBE-1430 mix (gh)

LAST-MINUTE ITEMS

CHINA (Cf July LN-10) Reports via Peking of regional service fqs are now being QSLed. These have been received by European DXers: Gansu PBS, Lanzhou 4865; Guangxi Zhuang 4915; Heilongjiang 4840; Hubei, Wuhan 3940; Jilin, Changchun 2960; Xinjiang Uygar 4500; Xizang, Lhasa 4035 9655; Yunnan, Kunming 6937 (Gordon Darling, UK, International Broadcasting Journal, 7/79) Powers listed for R. Peking xmtx sites in IFBB Weekly Circular #1364 are: Beijing 100/120/240; Kunming 50/120/240, the same for Xian & Urumqi. Beijing 11945 was 500 kW M79 but not used now. None of the listed Shanghai fqs--9575, 9530, 15410--have been observed in operation. A number of the listed sites are in operation: 17705 Beijing 120 1030-1130 Cambodian. 17735 Xian 120 kW 0830-0930 Indo. 17745 Xian 120 0100-0500 Chinese to Ams (sounds more like 500 kW), 0900-1300 Ch to SEAs. 17795 Xian 120 0830-0930 Indonesian. 17810 Kunming 50 0930-1000 Tagalog, 1200-1400 EG to SEAs. 17855 Xian 120 0100-0300 EG to ENAM; Kunming 50 1030-1130 Cambodian. A listing of 17710 Kunming to ANZ corresponds with current OOB 17635 0830-1030. 15115 Kunming 50 1100-1200 Lao/Burmese. 15165 Xian 240 1100-1200 & 1230-1300 SP to Lam (M79, not J79); 15250 Xian 120 1200-1230 Tagalog. 15270 Kunming 50 1200-1400 EG to SEAs (reception indicates 240 kW). 15305 Xian 120 1400-1500 Tamil. 15430 Xian 120 1200-1400 Ch to SEAs (listed M79). 11725 Beijing 120 1130-1430 & 1500-1600 Viet. An 11820 Beijing 120 listing of 1100-1200 to Lam and 1200-1300 NAM fits with current OOB 11685 operation. 9 & 7 MHz bands--no current ES in-band op exc. Russian. 5975 Beijing 120 1100-1500 Korean (Int'l Broadcasting Journal 7/79) R. Peking EG to ANZ, fair to strong on 28380, 3 x 9460, 0830 (Nicholas Lock, Qsld., UADX)

FRANCE France Inter again has a summer newscast in EG for tourists at 0700 & 1400 on 164 kHz (missed reporter, SCDX 24/7) In past also on many SW freqs relaying Inter (gh) **ECUADOR** below

GERMANY DW's EG to As 0930-1030 currently well heard in ENAM on 17780, 24/7 (gh) DW has sked a pgm in CM 13/8 at 10-25 mins after 2nd hour (e.g. 2310, 0310 14/8) "German External Broadcasting in the Weimar Republic" (gh)

HUNGARY Topics for "DXers Weekend" 2115 GMT Sats in Aug + following GMT Suns 0215, 0315: 11th: club membership, CB, xmtx power. 18th: SWLs in Hungary; counsel on finding other lang BCs. 25th: Air-bands, marine bands and coupling selectivity. Sept list: Prospective plans at R. Budapest; Hungarian radio setup (Budapest International)

ECUADOR Summary of many HCJB mid-season changes: As of 3/7, Eu 0130-0500 11755 ex-11835. 3/7, 0500-0900 11825 ex-11835. 10/7, 1900-2030 15420 ex-15295 & 2030-2200 15180 ex-15295. 12/7, 1600-1800 17825 ex-17765, and 1800-2200 17765 thruout. 18/7 Bu 2230-2400 15205 ex-15400; 0000-0030 15270 ex-15360 (DX Party Line 24/7)

INDONESIA RRI Menado 5987 is now off the air, hrd on 3215 only (Ishida & Wakisaka, IDXR) RPKD (sic) Tkt II Ciamis, 4055, 250 W sked 2255-0300, 0555-1030, 1155-1600 (Takehara, IDXR) RRI Ujung Pandang hrd almost daily around 1200 on 19012, 4 x 4753 (S. Wakisaka, Japan, IDXR)

PAKISTAN R. Pakistan, nx in EG at 1645 on new 15515 (a USSR DXer in SCDX 24/7)

PHILIPPINES (Cf LN-15) RVA revised sked for EG as of 1/7: 1300-1330 India & SL 15215 11955 9590. 0300-0330 India & SL 15280 17790 15320. 1130-1200 SEAs 15215 11805 9590. 0030-0100 Burma 17790 15280 15135 (Frank F. Orcutt, Alameda CA)

UKOGBANI BBC WS coming in fine on unsked 17695 at 1015 24/7, nicely filling gap before *1100 of freqs intended for NAM (gh)

U S A VOA EG to Af, 0600-0730, 3 x 9530, poor, much QRM on 28590 (Nicholas Lock, Qsld, UADX) Quite a catch thru the nite, as this site is listed Greenville (gh)

PUBLICATIONS

NASWA SHORTWAVE DX GUIDE Part 1, 2.0-4.7 MHz, is a 12-page xerox comprehensive compilation of NAM loggings in FRENDX, 4/76 thru 6/79. Unlike the European-reception oriented DSWCI Tropical Band Survey, this does not discriminate against harmonics. By freq with stn, country, times, langs, and more. \$2 ppd in US funds in NAM, from George B. Sherman, Box 2284, Minneapolis MN 55402 (gh)

ADXC Club DX Argentino Internacional, which published a fine Boletín DX, is going out of business after the Mar-May 79 issue, due to lack of time of the backers to continue it (gh)

GO-DX is the publication of the new Middle Tennessee DX Association, general coverage including SWBC, ute, ham, TV, a small pond in which every new member can be a big fish. 24-p mimeo May bulletin had printing problems and widely divergent editorial styles, but presumably will improve. Samples 50c coin; \$4.50 per year from MTDXA, Box 213, Alexandria TN 37012 (gh)

List of Time-Signal Stations, 8th ed., by Gerd Klawitter, fine 40-p offset booklet duplicating some WRTVH info but upper-to-date and illustrated with 'time wheels' showing various stations' formats. By country; also cross reference by freq. 5 IRCs (possibly more for airmail?) to Gerd Klawitter, D-4430 Steinfurt, Ochtrup Str. 138, Fed. Rep. of Germany (gh)

Marine-Band Activity--a complete guide. Extensive 7-p article in July 79 73-magazine by WA2-KBZ, Karl Schulte. 11 tables of stn/fq info, the most depth I have ever seen in maritime fqs. Try your library because it's \$2.50 at the newstand (Tom Blossom, WB8TEM, Austinburg OH)

Free Radio Focus NO. 20 available in mid-July for 3 IRCs outside UK. (Michael Burden, 13 the Chase, Crawley, West Sussex, RH10 6HW, England (Burden, Radio Viking DX World)

Radio Viking DX World will be discontinued from 5/8 along with R. Viking itself (RVDWX)

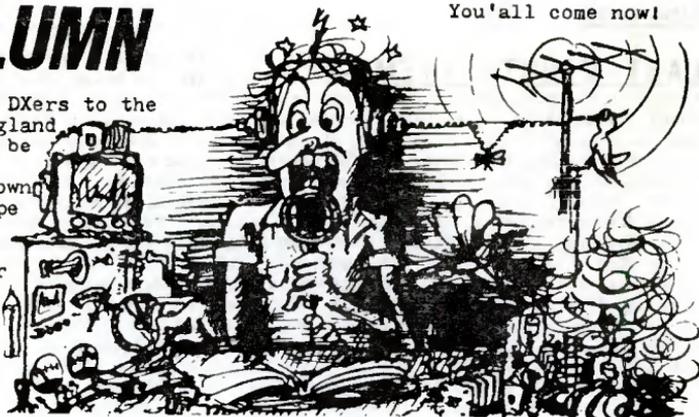

DO NOT SEND U.S. Stamps as r.p. to Canada, as they are not valid here! (Osterman) Of course.

QSL COLUMN

You'all come now!

NEAD XO UPDATE: Sunday Sept. 9th

Considering the current gas situation, it may be to your advantage to set up relay rides, most likely on the 8th, with other individuals who are coming to the Outing. People from NJ or PA could connect w/ DXers from the NYC area, up-state NY could connect w/ the Albany/Western MA area, Northern New England should be able to get rides from those in the Boston area while DXers from Central MA. and most of RI should be able to make the round trip easily...Where theres a will theres a way!...Sam...Be here on the 9th!!! As of July 20th, the gas lines here in Conn. have 99% disappeared. Gas seems to be a concern not a problem. Like other states we are in an odd-even rationing situation.

BONAIRE: TWR 11925 f/d cd. in 16 ds. for 2 IRCs. v/s J.F. Shipper.(Semesky-IN). same in 16 ds. for 1 IRC.(Dishman-ME). 11710 in 3 wks.(Barto-CT). 15440 in 17 ds.(Meyer-PERU).

BORNEO (Kalimantan): RRI Palangkaraya 3325 prepared cd. in 2 wks. for an IN rpt. and ms. v/s Sallomo Hamid.(Pitts-OR)...Very nice QSL!

BOUGANVILLE: R. North Solomons 3322.5 f/d ltr. in 3 mo. for ms. v/s Aloysius Sahoto.(Pitts-OR).

BRASIL: RadioBras 15290 ltr. in 32 ds. for an EG rpt. and 1 IRC. v/s Reginaldo Azevedo. NEAD XO

Sept. 9, 1979

NEADKO Attendees: The following individuals and their families have expressed a desire to attend the annual outing: Gregg Peters, Joe DiLeo, Bob Wirrell Bill Oliver, Steve Leite, John Kapinos, John Herkimer, and Leslie Byron. Also attending will be: Gregg Bares, Nick Pappas, Charlie Hoffman, Dave Twiggs, Steve Porter, Bill Campbell, Dick Utter, Ken Villone, Dan Jakubowski, Dick Downey, Jim Douglass, Dan Prisco, Al Sizer, Al Muick, Dave Koskovich, Mike Agner, Vlad Cucura, Al Plotnick, Bob Butterfield, Charles Schanzer and Gerry Bishop. Add Mike Lev to the list.

Fourteen of the above have not been to this outing before. Are they in for a surprise! Also, I have yet to hear from over 30 additional people who came to last years outing. I usually get most of my attendees during Aug. So far we have @ 45 people coming to the outing. I expect that figure to be at least doubled by Sept. 9th. Remember, every item that I have been selling in this column for HAP will also be available at the outing.

For further information about the outing, please send me a SASE...Sam.

CANADA: CKZU 6160 Vancouver "CBC" cd. in 23 ds. v/s Frances H. Bucher.(Mikell-IL). in 3 wks.(Klein-FL). in 19 ds.(Sedgeley-CO). Dear Listener,

This letter is to confirm your report of our Radio Liberation program of February 75, 1975 at 0700-0830 hours GMT on a frequency of 7175 kilohertz, 14.30 meters.

Thank you very much for your interest in our programming. The staff of Radio Liberation wishes you further good listening.

Comments (if any): Our offices, located at the far end of the now overflowing Mississippi River in the occupied city of Louisiana, were destroyed April 5th. The staff of RL is now living in exile, feasting on bread, locusts and dew in the Southern Bahamas.

AT RADIO LIBERATION, WE STAY ON THE FACTS; OUR REPUTATION DEPENDS ON IT.

I still don't know what it stands for?

via David Klein

NEADXO UPDATE: As **DOOR PRIZES** we have free subscriptions to DX bulletins, tapes, records, publications and much more. We also have hundreds of free items, boxes and boxes of pennants, stickers, decals, tapes and records, pins, stamps, badges, over a dozen T-shirts and hundreds of other items for the HAP Auction...So far we have raised over \$1,000.00 for HAP. We still have 2 months of BID ITEMS for NASWA along w/ the assorted small items, a mini-HAP auction in MA. on July 22nd and the main HAP Auction on Sept. 9th. I anticipate the final figure to be around \$1500.00 or more for the HAP people...Sam.

Get your bids into me as soon as possible...Sam.

NEADXO: The outing is only about a month away. If you live in this area of New England or within driving distance, you owe it to yourself to attend the outing. You will have the time of your life. For further information write to me or call (203) 274-1142 after 6PM EDT. Hope to meet you on the 9th!

After the outing we will once again start up our BID ITEMS for the benefit of HAP. I sincerely hope that during the past few months I have offered a little something for every one of you. Your support has been great! The HAP people and all of the individuals that will be helped by your contributions thank you.....Sam.

This about ends it for another month. This time around we had @ 98 countries reported. Many new stations also were in this issue. Until next issue.

Best QSLing,

Sam Barts

Sam's Caper or the SHREWSBURY SUPER SUNDAY

Having just returned from MA. I can report that John and his lovely wife put on a great outing for all in attendance. The HAP mini-auction raised just over \$114.00. This brings our total to over \$1500.00. A special thank you goes out to John, his wife and to Bob Wirrell who was of great assistance at the HAP mini-auction. Thank you very much...Sam.

UPCOMING DEADLINES: 10 August (Mid-August) 20 August (September) 12 September (Mid-Sept)

Reproduction permitted provided due credit is given original reporter and NASWA UPDATE. Dates, times and days are GMT; freqs are kHz.

AFGHANISTAN Kabul, 15075 nf; in EG 1900-20; M w/ several IDs: "This is R.A. calling Europe." Local and GMT TCs, nx, western mx and comment re Pakistan and Afghanistan. QRM from BBC 15070. (Viad Cucura, PA) --- Kabul also noted on 15075 nf in EG 1730; ID by W: "R.A., Kabul." Fair signal not bothered by weak BBC 15070. Also heard 15 July 1830 w/ ID and GM pgm. Eg at 1900. Severe BBC QRM. Wonder what freq they'll try next? (Syd Osterman, ONT)

ARGENTINA R. Splendid, 5985, in SP 0435; talk, comment, ID and LA mx. (Steven Shaffer, IND 7-9)---Splendid also noted on 5985 at 1015 in SP; extended talks, ID, TC, more talk. Deep fades. (Stu Klein, FLA) +++ R. El Mundo, 6120, in SP 0935; M anncr, nx. Very good. (Klein, FLA) AUSTRALIA VLW 9, 9610, in EG 1155; 2 men w/ many Skylab jokes!!! (Shaffer, IND 7-12)+++ RA, 17795, in EG 0335; soft rock mx and W anncr. (Shaffer, 7-12)

BOLIVIA Realed from Tony Jones comes word that Jean-Jacques Bloch's report in R. Machupo in UD 47 was correct. Machupo uses 5585-6v and San Jose 5582, but only rarely evenings. tba +++ R. Fides, 4845, in SP 0030-40; M w/ talks, occasional talks by W. Flute mx breaks, ID, local folk mx. (Neal Perdue, ALA) +++ R. Progreso tentative on 6005 in SP 0150-0230; report on Bolivia-Paraguay match behind BBC and CFCX. Same coverage heard on Panamericana 6034. Reloj not there. (Jean-Jacques Bloch, MD) ***Reloj missing from 6006 of late. Possibly gone to cover a Sandino freq??? tba *** R. Stentor, 6095a, in SP 1035; nice local mx, ID all in het. (Klein, FLA)

BRAZIL R. rural Santarem, 4765, in PT 0905; long talk by drunk-sounding M anncr; mentions of Santarem. (Klein, FLA) +++ R. Cult. de Bahia, 4895, in PT 0905; usual pops, cute canned stn promo. (Klein, FLA) +++ R. Diario de Manha, 9675, in PT 0900; probable s/on. Calls, freqs, ID and TC. (Klein, FLA)

BRUNEI RTVB, in QSL to Stu Klein announces that 4865 and 7215 will go off air 1 September. No indication of whether they will be replaced or are gone for good.

BULGARIA Sofia, 17825, in EG 2113. W w/ talk on Bulgarian industry. (Shaffer, IN 7-11)

CANADA CFCX, 6005, in EG 0724; top 40 and golden oldies. Reloj off. Confirmed by phone call to stn. (Klein, FLA)

CHINA RP, 5975, at *1000; EIR, M anncr and long talk in CH. (Klein, FLA) +++ PLA, tentative on 6000 at 1110; W w/ tirade taken up by man. No ID but sure sounds like them. (Klein, FLA) Clandestive V of Dem Kampuchea, 11600, tentative at 1227; spirited local mx, talk by M. Poor and QRMed. (Shaffer, IN 7-12)

COLOMBIA LV del Llano, 6115, in SP 0926; ID, TC and talks. (Shaffer, IN 7-15) +++ LV del Huila, 6150, in SP 0920; ID and latin mx. (Shaffer, IN 7-15)

CYPRUS BBC, 21660, in EG 1141; old time mx and talks. (Shaffer, IN 7-13)

DOMINICAN REP. RTVD, 9505, in SP 0100; Full ID including address, and nx review. Rudy Espinal said at ANARC that he might moe to this stn if things work out. (Shaffer, IN 7-14)

ECUADOR LV del Triunfo. 3255a, 0455-0457*; EzL mx, IN, two ads and gone suddenly. (Klein, FLA) +++ LV del Napo, 3280, in SP 1003; M w/ opening anncmts, IDs, LA mx. (Perdue, ALA) +++ R. Popular Ind., 4801a, in SP 0640; high voiced Indian vocals, W anncr, ID as R. Popular Independente, TC, more mx. UTE off! (Klein, FLA) +++ R. Paz y Bien 4820, in SP 0925-45; opening anncmts by M, HC march mx excerpts during short local nx pgm of Ambato, TCs, local mx, latin mx. (Perdue, ALA) +++ R. Luz y Vida, 4850, in SP 0225-0345; M anncr w/ talk, ID, orchestra mx. (Perdue, ALA) +++ R. Quito, 4920, in SP 0128-0230; guitar mx, full ID by M ("R. Quito, la voz de la capital.") (Perdue, ALA) +++ R. Federacion, 4960, tentative in SP 0130-50; varied selection of HC and ranchers mx, M anncr, muffled audio. No ID. (Perdue, ALA) +++ HCBJ's freq of 15265 now QRMed by Moscow. (Jim Conrad, IOWA)

ENGLAND BBC, 3975, in EG at *0400. Nx. (Shaffer, IN 7-12)

GRENADE RFG, 15045, in EG 2340; world nx to 2359*. RFG also noted on 15105 in EG 2110; M in EG, C&W mx, anncr had island accent. (Shaffer, IN 7-11)

HAITI 4 VEH, 11835, in EG 1135; religious px. ID 1200 (Shaffer, IN)

IRAN Tehran, 15084, tentatively at 2125; local flutes but no talks. Freq and timw check out. (shaffer, IN 7-11)

JAPAN RJ, 15270, in EG *2000-2015*; Asian nx and comment. Some fading. (Shaffer, IN 7-14)

KOREA (REP.) Seoul, 6015, in EG 1015; M w/ comment // 9580. At 1030 possible KR. Also tentatively noted on 6165 at *1030 w/ IS etc. in KR. // 6135 at 1100. (Klein, FLA)

LIBYA PRBS, 15100, tentatively in AR 2127. Chants some talk but no positive ID. If not them, who? (Shaffer, IN 7-11)

MALAYSIA RM, 6025, in CH 1105; CH-style opera, W anncr w/ anncmts mentioning Malaysia. (Klein FLA)

MEXICO "R. Galaxy" and "XEJRM", 6939.2, in EG 0224-0303*. Definitely claiming to be in Mexico or Mexico City. "Good evening, this is R. Galaxy. We are b'c'asting to NAM in the 41mb. This is your anncr, J.B. Boss (???)". Long touristy talk on Mexico, mentions of DX club bulletins and claimed to be reading from them, mentions of R. Liberation. Said to send reports to NASWA and gave Box 13 address. Claimed that stn stays away from politics. Seemed to say tx was 250 or 350 watts, but that power might go up in future. Rock mx 0248-0302. 0302-0303 off air tape in SP/EG sounding like Belize in EG part. Tnx Paul Jordan. (Dave Walcutt, TX 7-11) ***Dave has kept me informed of when this is on, but it hasn't made it to KC yet. tba*** LV

AMERICA LATINA, 15160, in SO 1337; talks by M&W, ads and TC. (Shaffer, IN 7-9)

NETHERLANDS ANTILLES/NETHERLANDS RN Bonaire changes via Jim Conrad: 17605 ex 17695 now Lopik 1430-2230; 17695, ex-17810, now Bonaire to Afr after 1830.

NIGERIA FRC, 4990, 0130 7-15 in EG for election returns. Said next nx would come at three o' clock. Highlife mx in the meantime. (Syd Osterman, ONT) +++ FRC Jos, 5965, in EG 0449-0500; religion to 0500, ID, TC, and nx. (David Schweikart, VA 7-16) +++ FRC, 6025, 2255-0005+ in EG for election night coverage. (Schweikart, VA 7-14/15)

NICARAGUA R. Sandino, 7316, in SP 0705 w/ huge sigs and usual px. (Conrad, IOWA) +++Sandino heard on 7588 at *0415 7-14; usual pgms w/o pro-Somoza accompaniment. On 7315 at 0545 15 July. Somoza stn on 7320 15 July. (Shaffer, IN 7-14/15)

PNG NBC, 11880, first heard 12 July 0633-0711a. Usual mix of ads and pop mx, and NBC IDs. Covered by SFR to 0615, then NBC to 0700 and sometimes later (0708 13 July). As with 9520, s/off occurs when anncr remembers to pull the switch. 9520 audible to after 0800. July LN-3 lists 11880 as RAustralia freq to PNG. Don't be confused. This was definitely NBC. (Osterman, ONT 7-12/13)

PERU R. Quillibamba, 5025, in SP 0100-0203*; moral talks by W, and s/off proceedings w/ NA. (Bloch, MD 7-9)+++R. El Sol, 5970, in SP 1045; ads, local mx on El sol en los Andes. (Klein, FLA)+++R.  Centinela del Sur noted here recently....I know you're sure of this ID....right? DR

That's it for August.....I'd like to bid a fond farewell to Tom Gavaras. He has been doing quite a job these past years and I wish him luck in his academic work. Watch those IDs folks.....had a couple of reports for Mauritius this time around, obviously in error. Remember, if you don't hear an ID (not just a mention of a city name) mark the item tentative. That makes it easier for me when I'm trying to list the item.

log report section **C**

6200-11699

TOM GAVARAS

16920 17th Ave. N., Wayzata, MN 55391

* I'm back again for another LR-C. This will probably be my last column as I believe that Mac has found a replacement. Thank you very much to those who sent in the kind comments after my announcement in last month's column. I sure am going to miss editing this column. Hopefully after I get my degree, I will once again have time to be actively involved with North America's number one DX magazine, NASWA. A big Thank You go to all who have contributed to my column during the last 3-4 years.

- 6419 BOOTLEG: USA KVHF; 0803-0915 English w/all types of music (Bad Company, Jan & Dean, Paul Simon, Theme from Sting, etc.) IDed at 0823 "This is KVHF, Music Radio." by man. Hard to dig out under CW. Please QSL! (Greg Ravenhorst, Box 203, Hollandale, Minnesota 56045 7/15). -Nice catch, Greg! (tgg)-
- 6939.2 BOOTLEG: MEXICO Radio Galaxy XEJRM; 0224-0303* English definitely claiming to be in Mexico or Mexico city. "Good evening, this is R. Galaxy. We are broadcasting to N. America in the 4mb. This is your announcer, J. B. Boss (?)." Long touristy talk on Mexico, mentioning dx club bulletins and claimed to be reading from them; mentioned Radio Liberation. Said to send reports to NASWA. Claimed that "we try to stay away from politics." Seemed to say xmtr was 250 or 350 watts but "we may increase in the future." Played rock/pop music. From 0302-0303 had something like an off-the-air tape in Spanish and English, sounding like Belize in the English part. Thanks to Paul Jordan who called me with tip on this. (Walcutt 7/11).
- 6986 BOOTLEG: USA (?) UNIDENTIFIED; 0154-0159* Spanish male announcer with impassioned "Cuba Libertad" speech. Strong but fuzzy audio (Novello 5/18).
- 7065 ALBANIA R. Tirana; 2222 English cmntry on China developments (Valko 7/5).
- 7110 ETHIOPIA VOIE; 0420 Amharic(?) chanting or music through heavy ARO QRM (Crawford 6/20)
- 7120 ALBANIA R. Tirana; 0130 English talk on Salt II (Kelly 6/20). *0230 English talk on communism (Hengley 6/12).
- 7140 MONACO TWR; *0445-0515* German program with good signals (Padula 5/31).
- 7145 POLAND Polish Radio; 2200-2230 Spanish program (Padula 6/1).
- 7160 SARAWAK R. Malaysia; 1110 English w/Stock Market report (D.W.Johnson 6/16).
- 7164 UNIDENTIFIED; 0250 Arabic chants, 0255 Possible ID then talk (Buer 6/14).
- 7170 NEW CALEDONIA R. Noumea; 0729 French ID, pop mx, bird calls, etc. (Cucura, Gliksmen).
- 7170 TURKEY VOT; 2232 English talk, etc.//9515 & 11955 kHz (Cucura 6/7/1).
- 7210 SWITZERLAND RCBS; 0605 English talk about Red Cross (Cucura 6/25).
- 7215 ANGOLA R. Nacional; appeared here on the old R. Ecclesia frequency. Dual 7245, brilliant level 2346-0000* Portugese w/lively ballads (Padula 6/6).
- 7215 IVORY COAST RTVI; *0600 French ads for Nescafe, ID, pop mx, etc. (Padula 6/11, Saylor 6/26, D.W. Johnson 6/26, Krueger 6/27, Cucura 6/13).
- 7245 ANGOLA R. Nacional; Really excellent level to 0000* after Portugese ID & anthem. Full list of frequencies announced at s/off. Portugese news items. (Padula 6/13).
- 7255 NIGERIA VON (Lagos); *0430 IS, Drums, NA, English ID,sked, pop music, etc. (Hensley 6/29, Gliksmen 6/17, D.W.Johnson 6/29, Saylor 6/15, Jordan 7/4).
- 7255 ZAIRE La Voix du Zaire; here again w/French 2343-0100 (Padula 6/13).
- 7265 GERMANY (WEST) Sudwestfunk; 0121-0228 German talk & pop mx (Padula 6/14, Gliksmen 6/6)
- 7265nf INDIA AIR; *2300 with program in the Hindi language (Padula 6/3).
- 7270 SOUTH AFRICA RSA; *0430 Lozi w/IS, usual s/on and talk (D.W.Johnson 6/14).
- 7271 GABON Raf TV Gabon; *0600 religious chants, news or discussions by man with heavily accented French, local rhythms, then into Vernaculars. Poland QRM. (Padula 6/15).
- 7280 LIBERIA WOA; 0308 English program with HAM QRM. (Valko 6/18).
- 7300 ALBANIA R. Tirana; 0340 English news & cmntry (Bauernhuber 6/7).
- 7316.5 CLANDESTINE R. Sandino; 0341-0715* Spanish revolutionary fare, cmntry on Somoza, "viva revolution popular, viva Sandanistas," drums, machine gun sound effects, ID's, cmntry on proposed US peace force, etc. (Cunningham 6/23, Valko 7/11, Cucura 6/25, D.W.Johnson 6/26, Klein 6/6, Hywarren 6/26, Saylor 6/26, Crawford 6/18). After hearing that Somoza was planning to leave Nicaragua, kept radio on 7316.5 all evening. At *0500 s/on with Anthems, ID's, machine gun effects into Spanish announcement that Somoza was gone! Told army loyal to Somoza to lay down arms and that they would not be harmed. Many ID's and "Viva Sandanistas, Viva Nicaragua." Very excited announcers. Played a lot of music. Later in the hour, a RTTY transmitter creamed the signal where it was very hard to listen to. Otherwise, Very strong and no sign of the anti-Sandino music jammer. (Gavaras 7/7).

- 7322.5 NICARAGUA; JAMMER; Continuous Spanish music 0450-0723* with no ID's given. Occasional technical problems noted. (Hywarren 6/26, Saylor 6/26, Gavaras 7/10).
- 7335a NUMBER STATION; 0612 Spanish lady reading 5-digit number groups (Austin 6/26).
- 7345 GRANDSTAIRS R. Prague; 0344 English reading letters (Barvermhuber 6/7).
- 7576 GRANDSTAIRS R. Sandino; 0615-0630* Spanish with usual Sandinista pgn. Believe this is not the original R. Sandino as the announcers are different from the R. Sandino I first heard on 6/11/78 on 7448. This frequency was not // to 7316 which was on at the same time. (Hywarren 6/26).
- 7585 NICARAGUA; JAMMER; 0432 no talk with all L.America music. Good level (Shaffer 6/17).
- 7586v GRANDSTAIRS R. Sandino; 0400-0545 Spanish speeches, powerful revolutionary talk, music, machine gun effects, etc. (Cunningham 6/9, Meyer 6/3, Shaffer 6/17-18, Crawford 6/18, Jordan 6/17, Saylor 6/8, Gregory 6/17).
- 7590v NICARAGUA; JAMMER; 0400 continuous Marimba mx breaking occasionally for pro-Somosa country (same country repeated each time). Sounds less professional than Sandino. Judging from the audio quality of the transmitter, it seems likely that it is one of the Tropical Radio & Telegraph utility units (either YNAJ-7600, YNA7-7700 or YNAH-7790 kHz), rather than Rdf Nacional tx formerly on 5950 (Crawford 6/18).
- 7628 BOOTLEG; UNIDENTIFIED; 0434 6/16 distorted signal here at first assumed the usual Somosa jammer, but a CHFI ID in passing after Jonny Mathis sounding vocal gone; soon gone and later relocated on 7627 (Hauser).
- 7700 NICARAGUA; JAMMER; 0600 All music (Spanish) format (Shaffer 7/1).
- 7702 GRANDSTAIRS R. Sandino; 0520-0603 Usual Spanish Sandinista pgn (Alexander 7/4, Germany (West) DAM; 0505 German news, ID, mentions of W. Germany, etc. (Jordan 7/4).
- 8639 SPAIN SFR; 0341 Spanish news about Carter Tokyo conference (Bryan 6/28).
- 9140 CHINA R. Peking; 1125 Chinese talk and beautiful music (Saylor 7/2).
- 9475 EGYPT R. Cairo; 0217-0326 English with World mx, etc. (Dieckmann 6/3, Shaffer 6/30)
- 9480v COSTA RICA R. Noticias; 0050 Spanish test tape, guitar mx, etc. VO (Klein 6/14)
- 9500 ALBANIA R. Tirana; 0625 Spanish talk & International (Jkein 6/15).
- 9500 DOMINICAN (KAT) RBI; 0230 Spanish ID and programming (Valke 6/20).
- 9505 DOMINICAN REPUBLIC RTVD; "Onda Internacional" closing with NA 6/19 0226; not audible on 5970 or vicinity. Most other evenings checked, not audible on 9505 either. RTVD seems to have lost its motivation to begin a regular international service, with the resignation of Teo Veras (Hauser). 0209 SP ID & mentions of Nicaragua (Valke).
- 9505 JAPAN R. Japan; *1200 IS, ID into English news & features (Jordan 6/26, Yajko 6/27).
- 9515 GREECE VOO; 0020 EG News//9655, 11730 (Alexander 6/15). 0215 EG mx (Jordan, Klein).
- 9515 TURKEY VOT; 2135 English Spotlight on Turkey, News, pop mx (Fraser 6/17, Earhart 6/8, Slomka 6/9). *0355 IS noted under very powerful O.C. (Klein 6/77).
- 9520 PAPUA NEW GUINEA NEC; 0808 English ID, ads & tlk about marriages//4870 (Buer 6/30).

* * * * *

Jim Conrard from Waterloo Iowa called to tell me that he had talked with Stewart Spencer of VOA. He explained that on non-topical programs such as the "Breakfast Show", are now taped and sent to the relay stations. This will explain the improved reception (better clarity) in some areas. Thanks for the information Jim.

With other "Summertime acctivities" & other "Family responsibilities" I have found it very difficult to do much SWling or DXing. I'm glad that so many of you stick with it month after month. Doing this column each month keeps me posted on what is happening.

Thats all till next month. 73's

Bof

Prices include shipping by UPS. Money orders only. Mr. James A. Conrad, 545 Kirkwood Avenue, Waterloo, IA 50701

ANTENNAS/ACCESSORIES

EDITOR: MIKE AGNER C/O DELPHI ASSOCIATES 17 NEW ENGLAND EXEC PARK
BURLINGTON MASS 01803

Greetings all! This is my first column in a long while, and it is a bit of an experiment for me, so let me know what you like/don't like, and let's see what we come up with.

What are we going to cover here? That's the \$64 question, for certain! How about this?

Mike Agner, Burlington Mass MFJ752 Audio Filter
Homebrew patchbox to interconnect receivers, tape recorder and antennas. It also has a built in 100 kc. xtal calibrator from RS.
80 foot random wire
19 meter full wave square, indoors, mounted n/s
16 meter full wave square, indoors, mounted e/w
horizontal helical antenna, fed w/RG59/U coax(see Sept. 1977 SWC for construction details)
90 foot #18 stranded wire wrapped around 6 foot fishing pole, indoors

Yep, one of the purposes of this column will be to see what you are using as an accessory or antenna design with your receivers. Pse keep all your descriptions short, as I have only 1 page to go with. Send me your stuff/ideas anytime; I am not on a strict deadline as with the other editors. All contributions will be used one time or another; of that you can be certain. I am keeping statistics on a IBM 370/158 under OS (for you computer-minded people) as well as any mailings I may get from you.

You notice I underlined the word you. That's because I need your ideas for this column. I wish to avoid straight statistical listings; I don't know abt you, but I would find that boring. What would you like to see here? Keep in mind that it must necessarily be short- this is for 2 good reasons: one, I am limited by the amount of space I have; two, I don't wish to tread on Jerry Linebeck's excellent column, SWC. Thus, pse keep all comments and contributions short; no more that is necessary to get the idea across. A couple of lines of comment on a particular item might prove interesting to someone else, though- so feel free to add them as you see fit. And don't forget to include those ideas for the column; they're most important!

As I think a little, I realize most of you probably don't know who the devil I am, so here goes; I'm 22, and a computer programmer for Delphi Associates in Burlington, presently on assignment in Cambridge. (Anyone out there also an ADLer or Delphi'er? Call me at 8645200 ext 2688!) I have been with NASWA for nearly 8 years, and also a member of the NNRC. The equipment here consists of a R4B (my prize!) a modified FRG7 and a RF2200. I like SWBC DX, Tropical band stuff (a real masochist with the rising MUF) and utes. I also fool around with FM DX on occasion.

Let's here from You (with a capital U (hi)) soon, OK?

and
73s " good DX

Mike

FRENDX CREDITS

Don't forget, send reports to: DAVE VALKO
Box 155
Dunlo, PA 15930

Deadline is the 12th

Make sure your reports are in Dunlo by the 12th of the month. A lot arrived on the 13th but I included them for this month anyhow.

YAJKO, Leeburg, PA (SPR-4, RF-2800); Robert ZILMER, Milwaukee, WI (R-390A, SPR-4).

The CPDXA (Central Pennsylvania DX Association) would like to hear from any DXer in the Johnstown and Altoona area or Central or Western Pennsylvania area also. The person to contact is the Distribution Editor of FRENDX (me). Write or call at (814) 487-7065 or Jeff O'Donnell at (814) 322-4320. So if you live in Central or Western Pennsylvania don't hesitate to give us a call.

A recent schedule from Radio Television Brunei states that 4865 and 7215 (the only frequencies on Short Wave that they use) will terminate on Sept. 1, 1979. English can be heard on 7215 only at 2330-0030, 0300-0530, and 1200-1400 GMT. So get-em while you can because after Sept 1 RTB will no longer be on Short Wave.

Thanks to all who reported and I'd like to hear from more of you next month.

73's
Dave
