

NO COLLECT CALLS ON THESE ADS, PLEASE.

FOR SALE: FRENEX back issues from January 1972 to December 1979 in very good condition and complete. Price \$60.00. SPEEDX back issues from December 1972 to November 1975 in same condition. Price \$20.00. John C. Herkimer, 3233 East Avenue, Caledonia, NY 14423.

FOR SALE: Radio West Ferrite Bar antenna (22 inch bar) with MW, SW and LW coils. Excellent condition. Price \$127.50 via UPS. ALSO: Autek QF-1 filter in excellent condition. Price \$27.50 via UPS. Jim Uerlings, 3908 Kelley Drive, Klamath Falls, OR 97601. Phone (503) 884-7659 after 0130 GMT.

FOR SALE: Palomar P-305 Pre-amp in good condition, \$50.00. Bearcat 20/20 VHF/UHF HILO 40 channel programmable scanner in excellent condition, \$250.00. Realistic DX-160, \$75.00. Realistic DX-302, \$210.00. I would also like to hear from NASWA members who own the Drake SPR-4 receiver and I would like to correspond with any NASWA members who live in Arizona. Gabriel Grijalva, 3834 West Latham, Phoenix, AZ 85009. Phone (602) 233-0374.

WANTED: Allied SX-190 service manual with schematic covering alignment procedures. Jerry Johnston, 3336 Carriage Lane, Lexington, KY 40502. Phone (606) 272-4413.

FOR SALE: Hammarlund HQ-180A receiver in good condition with speaker and operating manual, price \$310.00. ALSO: Datong AD-170 Active Antenna, 200 kHz to 30 MHz, price \$50.00. Richard Kawa, 3296 Abbott Road, Orchard Park, NY 14127.

FOR SALE: Hammarlund SP-600JX. All in one piece but needs work. Manual included. Price \$75.00, pick-up only. Bob Hughes, 2302 Briargrove Court, Richmond, VA 23233.

WANTED TO BUY: I would like to buy the following communications receivers in good operating condition and without flaws: Hammarlund HQ-180AX. This receiver has an 11-position crystal selector switch assembly installed in place of the usual clock-timer.

Yaesu FR-101 (D). I would like this receiver with the digital frequency readout.

Hammarlund HQ-215 or HQ-225 crystal-controlled solid state receiver. David McLaren, R.R. #2, County Line Road, Rock Falls, IL 61071. Phone (815) 626-5443.

FOR SALE: Allied SX-190 from last run. Crystals for 3.5, 4.6, 5.7, 7.0, 11.5, 14.0, 17.5, 21.4, 27.0. Appearance as new, performance near original. Unmodified. Never a service problem. Price \$175.00 with manual and factory carton, prepaid in U.S. Contact Hadley D. Cress, P.O. Box 481, Harrisonburg, VA 22801. Phone (703) 433-2263.

FOR SALE: Package deal! SP-600JX in nice wood cabinet. Good condition with manual, spare tubes, fuses, lamps, plus AMECO PLC-P preselector, plus Gilfer M-1 tuner, plus LAB-1 frequency calibrator and I will throw in a 4-inch speaker and co-ax patch cords for the preselector and antenna tuner. Price: all for \$200.00 but pick-up only in Fremont, CA. ALSO: SONY ICF-6700W in fair shape but with sticky bandswitch. Price \$200.00 plus UPS shipping. Bill Flynn 4425 Bidwell Drive, #4205, Fremont, CA. Phone (415) 656-8675 after 0200 GMT.

FOR SALE: Yaesu FRG-7 (mint) with Gilfer modification kit, price \$280.00. Yaesu FRA-7700 active antenna (mint), price \$50.00. Realistic TRF-655 (modified with "Transfilters" and aligned, price \$50.00. Sony ICF-6500W (mint), price \$135.00. WRTH for 1978 and 1980, price \$5.00 each. I will pay shipping. Will also consider trade for excellent SPR-4. James Vernon, 315 N. Associated #1406, Brea, CA 92621. Phone (714) 671-0270 after 10:00 pm Pacific time.

FOR SALE: R-1000 and SP-100 speaker, price \$350.00. FRG-7700 and FRT-7700 antenna tuner, price \$425.00. Both in new condition with manuals and original cartons. John Williams, 3216 West 85th Street, Bloomington, MN 55431. Phone (612) 831-2760 after 2100.

SEVENTH ANNUAL NEW ENGLAND AREA DXERS' OUTING

Time again for Sam Barto's New England Area DXers' Outing. This one is scheduled for September 17, 18, and 19 with the party on Friday, the Banquet on Saturday, and the main outing on Sunday. Try to make at least one of these, you'll have a fine time. For details write to Sam Barto, 460 Emmett Street, Apartment B-19, Bristol, CT 06010.

CENTRAL MARYLAND DXERS ASSOCIATION

Donald E. Stidwell reports that the Central Maryland DXers Association has just been formed and is actively seeking members from the following areas of Maryland: Baltimore City, Baltimore County, Howard County, and Anne Arundel County. The main area of interest is the HF Broadcast Bands from 3-30 MHz, but the association also seeks Utility and MW DXers as well. Donald writes, "We intend to be an active club with regular meetings, a bulletin, and exchange of information and DX tips. Anyone in Central Maryland who desires to join us in this endeavour is invited to contact any one of the following members. Donald Stidwell (North and Northwest) 358-6406; Anthony Kobyski (South and Central) 563-0039; Thomas Yingling (East and Northeast) 282-5649."

MIAMI VALLEY DX CLUB CONVENTION

The Miami Valley DX Club of Columbus, OH is sponsoring an All-Wave Convention to be held on August 21-22, 1982. The Convention is open to all communications enthusiasts regardless of club affiliations. It will be held in Angola, IN and is accessible to most people living in the Midwest. Details regarding the Convention and the programs to be held can be obtained by sending an SASE to Miami Valley DX Club, c/o David Hammer, 4666 Larkhall Lane, Columbus, OH 43229.

THE PNBC DX CLUB

Phil Bytheway, 9722 Mary N.W., Seattle, WA 98117 announces the formation of the Pacific Northwest, British Columbia DX Club which is open to everyone in that area who is interested in reception and DXing of all radio bands and TV. At present membership "dues" are four legal size (#10) SASE's for U.S. participants and four self-addressed envelopes of the same size and one Canadian dollar for Canadian members. Phil will buy the stamps for the Canadian mailing. For further details, please write to Phil at the above address.

GALAXY ELECTRONICS CATALOG

Robert A. Leary, President of Galaxy Electronics, writes that a copy of the new Summer Sale Catalog is available free upon request. Write to Galaxy Electronics, Box 1202, 67 Eber Avenue, Akron, OH 44309 or call (216) 376-2402.

POPULAR COMMUNICATIONS

The first issue of Popular Communications, the new magazine for Scanner, Short Wave and Survival Communications enthusiasts, is due at your newsstand on August 20. A special discount subscription rate of \$11.00 for one year (12 issues) is available from Popular Communications, 76 North Broadway, Hicksville, NY 11801. This "CQ" publication will contain Short Wave information by NASWA member Gerry Dexter, a Free Radio column by Al Muick, and a SW Utility section by Harry Helms. Check it out on August 20.

ASSOCIATION OF DX REPORTERS

A new bulletin called the "DX Reporter" is being published by the Association of DX Reporters. The bulletin has the same format as the recently discontinued Newark News Radio Club bulletin and is intended to replace that publication. More information can be obtained from the Association of DX Reporters, 7237 Fairbrook Road, Baltimore, MD 21207. The sample copy price isn't available here but I would imagine that \$1.00 should do it.

OK CORRAL, REVISTED

The following information was received from Christopher Bille, Escondido, CA:

On Labor Day weekend - 4-6 September 1982 - the famous OK Corral in Tombstone, Cochise County AZ (where the Earp brothers and Doc Holliday shot it out with the Clanton brothers) will be the site of Special Event Station KC7MG. This will be in conjunction with the First Annual Rendezvous of Gunfighters. Operations will begin at 1500Z, 4 September and continue through 2400Z, 6 September on SSB and CW. SSB frequencies are 28680, 21380, 14280 and 7280 kHz. CW frequencies are 21130 and 7130 kHz.

A certificate will be awarded to all who work us as well as SWL's. Please send a large 8 1/2 x 11" SASE with 40¢ postage to KC7MG, P.O. Box 1555, Benson, AZ 85602.

Chris writes that this information comes from the August 1982 issue of "Radio World", an amateur radio publication with a newspaper format. The SWL Certificate will be nice to try for during the Labor Day holidays. Thanks, Chris.

INFORMATION WANTED

This may seem like a strange request, but the information is needed. Does anyone know of any State Prison System in the United States that allows short wave radios to be used by the inmates? If you can supply any information at all on this, please write to John Kapinos, 86 South Quinsigamond Avenue, Shrewsbury, MA 01545. Your help will be appreciated.

ILG RATES GO UP

According to information received from Rob Harrington, the North American representative for the International Listening Guide, changes in the Deutsche Mark rate have forced a rise in ILG prices. A sample copy in the U.S. or Canada in U.S. dollars is \$1.50 cash, check or money order. In Canadian dollars the price is \$2.00 cash and \$2.25 using a check or money order. Subscriptions starting with the November 1982 issue are \$4.90 in U.S. dollars (cash, check or money order) and \$6.00 in Canadian dollars cash and \$6.25 with a check or money order. Worldwide subscriptions can also be sent to Rob at the rate of \$6.00 in U.S. dollars. The address is Rob Harrington, International Listening Guide, P.O. Box 3434, Littleton, CO 80161, U.S.A.

GUIDE TO ENGLISH SHORTWAVE PROGRAMS

These computerized schedules of shortwave programs in English are published six times a year, in January, March, May, July, September and November. A sample copy may be obtained for \$2.50 in U.S. dollars. A subscription is available for US\$12.00 for the six issues. Available in North America only. Make check or money order payable to 'DAN FERGUSON' and order from Dan Ferguson, P.O. Box 8452, South Charleston, WV 25303.

USSR HIGH FREQUENCY BROADCAST NEWSLETTER

If you are interested in DXing or QSLing the many Soviet Union transmitter sites, you should subscribe to "UHN", the USSR High Frequency Broadcast Newsletter published by Roger Legge, Box 232, McLean, VA 22101. The newsletter covers not only all the SSR locations, but also the different language transmissions and the World Service broadcasts. "UHN" is published eight times a year and the price is \$3.00 in North America and \$4.00 overseas. Please write to Roger for more information.

CLANDESTINE DIRECTORY AVAILABLE

Just issued! "1982 Directory of Clandestine Stations and Programs". A 7-page listing of all known clandestines in operation with frequencies and addresses when known. The price is \$3.00 cash, check, or money order. No stamps or IRC's. Supply is limited. Write to Gerry L. Dexter, RR 4, Box 80-D, Lake Geneva, WI 53147.

FREE STUFF (FOR POSTAGE)!!

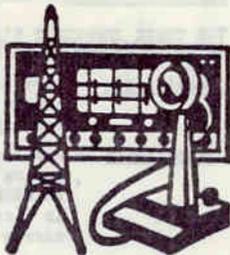

I have a few copies (different issues) of the German commercial radio magazine "FUNK" which I will send out on a first come, first served basis to NASWA members who send 50¢ postage to help with the mailing costs. "FUNK" is not a club bulletin, but a slick paper magazine covering all aspects of radio and TV. It is completely in the German language, so unless you understand or are studying German, it won't do you too much good. Send 50¢ in coin or stamps to NASWA, 45 Wildflower Road, Levittown, PA 19057. This is a promotional offer.

AUGUST, 1982

Should be an interesting column this month -- Charlie L. has checked in again with his usual -- Ed Insinger has submitted a review of the SONY ICF-6800-W -- Bill Taylor has compiled the definitive list of Hammarlund receivers from 1925 to the bitter end in the '60s. -- Ed Shaw on power -- so let's go!

SWC REVIEW: SONY ICF-6800W

by Ed Insinger, WDX2RVO

INTRODUCTION -- Considerable interest has been brewing lately over the introduction of the Sony ICF-6800W receiver. Earlier versions were not readily available in the U.S. and cost was prohibitive. Now a new version is available for sale and contains many features certain to please the serious SWL.

In recent weeks, I have come in contact with fellow hobbyists who have purchased the 6800, and felt my thoughts and observations were worth sharing with FRENCH readers at large -- especially those considering the purchase of a new receiver with good performance at a reasonable price (when discounted).

GENERAL OBSERVATIONS -- As with any new or used receiver, it is always helpful to carefully read the operating manual before using the set, despite the natural tendency to begin "knob twiddling" as soon as the carton has been opened. Fortunately, the U.S. version of the 6800 comes with easy to follow instructions -- in English.

After tuning up and down the SW spectrum, I came across many favorable design qualities. The main tuning knob was free of backlash. The front panel layout is well-designed, with knobs clustered in proper location to match their frequency of use. The two front feet adjust to tilt the unit as desired, or level it when placed on an uneven surface. The AC-line cord doesn't have the bulky external power supply found on similar portables, and performance using the required six D-cells was equal to AC -- a welcomed feature. The LED readout can also be turned off to reduce battery drain, and the panel lights fade out after 20 seconds to further aid battery life. The batteries are cleverly covered and held in place by a battery-clip, all placed under a lift-up map and SW spectrum chart. The audio quality is very good and the S-meter has common-sense calibration marks along with sensitive response to signal strength. The built-in whip antenna is rugged and very effective along the entire SW spectrum. A most pleasant feature found on the 6800 is the accurate and sensible match-up of digital readout and drum dial. Careful tuning of the drum dial, enhanced by a thumbwheel scale adjust, is accurate to ± 2 kHz, with the frequency display off. Thus, the user can turn the frequency display off, take the unit outdoors or away from AC power and using internal batteries, enjoy many hours of SWling. Best results can be obtained by using alkaline batteries, which can often be found at local drug stores and supermarkets at a discounted price. An added bonus found on the front panel of the 6800 is a memo-light, which can be used for nighttime jotting down of notes and program details.

I found one feature bothersome. The 6800 "features" repeated overloading on strong signals such as the VOA, RCI, and AFRIS, all of which I happen to listen to regularly. The RF-attenuator on the rear of the receiver helps reduce this condition, but only functions when an external antenna is used. Another feature which needs improvement is the WIDE mode filter chosen by Sony; more on this later.

One other feature, though less important, is worth considering here. The carrying handles on the 6800 are rather unique in a negative way -- since they are two different shapes, one must be careful to use only the left-side handle for lifting the unit. The right side handle is not designed for placing a hand through it. There are, inexplicably, protruding tabs on the handles; they serve no purpose, since the 6800 does not come with carrying straps.

ICF-6800W REVIEW, (CONTINUED)

THE THREE IMPORTANT S'es -- The 6800 fares very well when one considers its performance in terms of the three S'es -- sensitivity, selectivity, stability.

Sensitivity -- very good along the entire SW spectrum, even with the built-in whip, but nicely enhanced by an outdoor aerial when pure DX appears on those challenging tropical bands.

Selectivity -- excellent on AM NARROW, with the added bonus of being capable of "off-tuning" up or down 2 kHz to further improve signal quality. However, the AM WIDE filter is far too wide to be useful for shortwave listening. It is listed at 9 kHz @ -6 dB and 18.5 kHz @ -60 dB, more than double the narrow mode values.

Stability -- excellent, drift-free performance on AM, where I listen 90% of the time.

RECEIVER RUGGEDNESS - The 6800 looks a little too delicate for rough use and handling. The main tuning dial cannot take any unnecessary bumps or kicks, as may occur in portable use. The unit was built for sensible and careful handling, despite being capable of portable use.

CONCLUSIONS -- The ICF-6800W is a good-quality SW receiver capable of satisfying the listener concerned with cost versus performance. Dollar for dollar, this receiver is a wise choice for the serious SWL with leanings toward portability.

According to Mr. Min Ito of Sony Corporation, the 6800 is officially listed as a table model receiver. However, one soon learns that its portable performance makes it equally well-suited for "away-from-the-shack" DX use. Thus, it is possible to choose the 6800 as a main tabletop receiver, capable of meeting the discriminating needs of the SWL/DXer.

The 6800 can be purchased at discount electronics dealers for under \$500. However, it is important to the prospective buyer to be sure the receiver he or she chooses is the version designed for U.S. use. Ask the salesperson to show you the warranty card, owner's manual, and receiver. The U.S. version of the 6800 is listed by Underwriters Laboratories, and contains a small circular sticker on the back panel. Such safeguards are important to the buyer seeking product warranty, safety, and related useful operating information.

W.B. - Special thanks to Editor Stu Klein and shortwave expert Larry Magne, for their interest that made this article possible.

.....

THE LOUDENBOOMER REPORT -- RUNNING INTERFERENCE

As DXers, we've all been bothered by man-made interference -- QRM. I feel that the type of QRM we DXers hate most is not the type that buzzes, or the type that booms -- it's the type that we can't track to its source. Uncontrollable, seemingly sourceless QRM has driven more people to the cashew farm than any other DX dilemma. I have to confess that I, Charlie Loudenboomer, have fallen a victim to this dreaded obsession.

Ever since my return to the old manse, I had the urge to wrest back my title as the best-listened SWL in East Jabip from whoever had it now. I didn't foresee a long struggle, as to my knowledge I am the only DXer in East Jabip. My neighbors think I'm a ham, and I don't want to disabuse them of that notion.

I dug the Hammcrafters out of the linen closet, set up a longwire in the back forty, and began to tune, searching for my second-favorite station, the VOA. My favorite station is WNYW Worldwide. Remind me sometime to write about my term as Chairman of the WNYW Fan Club.

I settled back to listen to Willis Conover introducing jazz numbers (I love "Stardust"). Suddenly the signal was blotted out by the wailing of a thousand starving queen bees on the maiden flight -- the transmission was covered by the whirring of thousands of locust-wings -- "Take the A-Train" was suddenly replaced by the roar of a myriad of buzz-saws. Yes, you guessed it. I fell victim to the worst QRM I had ever experienced.

'Keep calm, Chuck!' I muttered, as I feverishly tuned the band, unsuccessfully as it turned out, for a quiet spot, 'You're not the first person to be "QRMed" out of the hobby.' I was about to get Mrs. L. to call the 7 Santinis (or is it the Wallendas -- I always get them mixed up), when the thought struck me -- why not direction-find the offending appliance and perform a little corrective operation (with a sledgehammer)?

I took out the old field-strength meter and set out triangulating the signal. I packed a box lunch and went to two cities 100 miles apart, got the directions fixed, and took the data home to my son, Charlie Jr. I failed trig in my sophomore year in high school, and I figured Charlie Jr., with his new computer, could do the trig. He'd had the computer for about a week now, and he was amazing the entire Loudenboomer family with his grasp of higher functions (he played tic-tac-toe with it, and it was winning consistently).

THE LOUDENBOOMER REPORT (CONTINUED)

I went into Charlie's room and handed him the data, explained what direction-finding entailed, and left him to it. He returned an hour later with the answer, but admitted that he was puzzled. "I did it three times and it always came up with the same answer. The QRM is in our house."

Since I pride myself on a QRM-free environment the envy of many DXers, I told young Charlie to quit fooling with those damn computers and take up a fulfilling, simple, relaxing hobby like his dad's. To avoid controversy, I cut the cord to the computer and rendered it "down". Young Charlie, chip off the old block that he is, immediately threw a tantrum.

I strode back into the shack and turned on the rig just to confirm that the QRM was still there. To my amazement, the bands were entirely clean! I don't tempt fate, however; I'm moving to a mountain ten miles from the nearest power line. (The divorce becomes final next week).

As I settled back to listen to SWL Digest, I picked up the direction-finding data and tried working them with my limited knowledge of trig. I just can't understand it, though -- every time I do it it still comes out right over the house. Ah, well, let's not to pry further into the mysteries of interference. If it returns, though, I'm ready for it -- I polished up the sledgehammer.

AN SWC EXTRA -- USING YOUR AUDIO FILTER Your humble scribe has a QF-1 audio filter which works quite well and is ever-ready to null out those pesky hats. Several years ago, however, I discovered a more sensible method of using an audio filter. The instructions, other DXers, and materials referred to all said that the filter ought to be connected to the receiver. Being a curious sort, however, I tried running the output of my tape recorder through the audio filter and, of course, it worked just as well.

I now never use the audio filter on my receiver (an R-390-A, for those interested). I tape whatever I am hearing at the widest practicable bandwidth with the noise limiter off or at its lowest setting. I now have a wide spectrum of audio signals which I can null or peak or notch. All without forever losing that crucial ID -- because I was tuning the filter. So, disconnect your audio filter from your receiver and connect it to your tape recorder for spectacular performance without losing so much as a kilohertz of audio information to Murphy's Law.

THE PERDUE SLOPER

a directive singlewire antenna
by Neil A. Perdue

Would you like to have directivity to a particular area of the world with just a quarter-wave length of wire? The Perdue Sloper will give it to you.

For many years it has been the general conception that a singlewire antenna, to give any observable directivity, needed to be at least 3 wavelength long. This was true, assuming that the wire was in a horizontal plane in relation to the ground.

In hobby use, the sloper first found recognition as a directive antenna by a small group of dedicated 80-meter ham DXers, those who were lucky enough to have the room and the high supports needed to string very long slopers needed to work this low band. Then, a few years ago, 40-meter hams started doing some experimenting with 3/2 and 1/2-wave DIPOLE Slopers. The high end would generally be 50-60 feet up and the low end would be as low as 10 feet above ground, using a slope angle of 30-45 degrees. This was simply a dipole, with one end close to ground. When constructed in this manner, it became essentially unidirectional off the low end, rather than bi-directional at right angles to the plane of the wire as in the case of the standard dipole. Experimenters claimed that directivity in the favored direction was superior to that of a horizontal dipole. The 3/2-wave design gave a bit more gain than did the 1/2-wave model. Then, later experiments included models in which only one 3/4- or 1/2-wave section (half of the antenna) sloped, with the coax connector at the top of the grounded tower, and the other half of the antenna was the ground-image, supplied by the connection to the tower, and hence to ground. ALL of these designs were considered to be superior to the basic dipole in terms of unidirectional directivity for transmitting AND receiving. So, with that background, the case for directivity had been established.

One can visualize that with this type of antenna requiring a coax downlead to the shack, placement of the shack and the supports is critical unless one wishes to run a lot of expensive coax with the inherent signal loss. The placement of the various elements here was prohibitive for the types of slopers described, and I had other reasons for wishing

(THIS ARTICLE WILL BE CONCLUDED ON THE SECOND PAGE OF "VINTAGE VIGNETTES. GR)

IT SOUNDS TO ME!

There are close to 1,000,000 shortwave listeners in the United States, according to a poll taken several years ago. There are not 1,000,000 members of NASWA. Let's examine this phenomenon.

People listen to shortwave for the following reasons:

- (1) Ethnic considerations. They often want to find out what is going on in the country from which they or their ancestors came. I believe this is the most important reason.
- (2) Information considerations. Many people feel, whether justified or not, that their access to news and information is circumscribed by the U.S. media. Some of these people turn to shortwave as an alternative news/information medium.
- (3) Adventure considerations. These people are your "mountain climbers" of radio. They comprise most of the DXer population, and are the smallest group.
- (4) Miscellaneous considerations. This group is made up of amateur radio operators straying from their bands, people who have multi-band radios and occasionally tune the "SW1" band to see what's up there, and all "other" listeners (including those with trick fillings and the like, hi!)

The above categories are my reading of the division of SWLs. Anyone who wishes to may take exception to or amplify them.

If we, for the moment, assume that my divisions are sufficient for a working hypothesis, we can see immediately that the members of group 1 are bound to be only slightly interested, if at all, in a shortwave organization such as NASWA. If we leave out group 4, we are left with the DXers, many of whom are already members, and the SWLs, who make up most of group 2.

We have a population of at least 1,000,000 potential active hobbyists in the United States, but only 5,000-7,000 active hobbyists. It sounds to me as if we need an active publicity arm of the hobby to bring our story to those potential hobbyists. After all, we enjoy our hobby -- why do we hide our light under a bushel?

Let's take the example of Mensa, the international high-IQ society. Twenty years ago, there were only 20 members in the United States, while there were several thousands overseas (mostly in Britain). Today there are more than 42,000 members in the United States alone, and U.S. membership makes up the bulk of worldwide membership. Why has there been this jump in the last 20 years? Public relations, that's why!

Had the organized hobby in the United States used public relations techniques twenty years ago, there might now be more SWLs and DXers than there actually are now.

We are therefore left with two questions, which I throw out at you for your consideration and comments in the months to come.

- (1) What kinds of public relations techniques could be profitably and systematically used to increase the number of active hobbyists in the United States?
- (2) Do we want more active hobbyists?

I am sure that there are PR people in the hobby and in NASWA who could give us some hints on effective PR. I also know that there are people out there who have done their part in bringing the word to the unconverted about shortwave listening.

In addition, it goes without saying that there are people out there who don't feel that an expansion of the hobby would be to our profit. I welcome their comments, as well as comments from those who are of the opinion that a wider awareness of shortwave would be to the benefit of the hobby as well as society as a whole. That's how it sounds to me, now how does it sound to you? Send your letters to Chris Hansen at the address on page 1 of SWC. Don't hide your light under a bushel!

A FRENEX classic

RADIO STATION WCC

by George Schnabel

(The following is a **NASWA/FRENEX Classic**, first published in the May, 1974 edition of **FRENEX**)

On the eroding Cape Cod seashore near Wellfleet stands the crumbling remains of the first transatlantic wireless station.

In January 1901, Guglielmo Marconi explored Cape Cod and settled on this site near Wellfleet, Massachusetts, where the Cape narrows to just slightly over a mile. Here are high bluffs, unobstructed sea, and supplies which could be landed from ships on the bay side and hauled only a short distance overland to the site.

After delays and disasters in February 1902, work commenced on the construction of four 250-foot timber towers, solidly anchored on concrete bases. At the heart of the rig was a three-foot whirling spark-gap rotor, a spinning disc with 240 metal studs that discharged their sparks across a stationary gap 240 times a second, producing a nearly continuous wave source. It provided 2200 volts that were then stepped up to 25,000 volts by a huge Tesla transformer. The circuit was designed to produce a wavelength in the range of 1500 to 1800 meters with around 30 kW of power. Until the tuner could be perfected, the broadcast frequency had a tendency to wander, causing interference with other transmitters. When the station first went on the air, a perspiring operator working a huge key called a 'pump handle' could send at the rate of seventeen words per minute.

By December 1902, the station was ready for operation. On January 15th, Marconi arrived carrying a message in his pocket that was intended to be transmitted to a relay station at Glace Bay, Newfoundland, and from there retransmitted to the receiving station at Poldhu, Cornwall, England. On January 18, 1903, the message was consigned to the ether. To everyone's immense elation, confirmation came back that the message had been picked up directly at Poldhu in England. For the first time the United States had been linked with England by wireless.

The station settled down to transmitting news and private messages to ships at sea. News was received by direct telegraph line from the New York Times via South Wellfleet and thence by sand-dune line to the station. There the words were transferred to tape, hand-carried down to the operator's room, and sent out by automatic apparatus from 10 PM to 2 AM EST. Private messages could be sent for 50¢ a word.

The Marconi spark-gap transmitter operated successfully until 1917 when three unrelated factors resulted in dismantling the equipment in about 1920:

- a) Censorship imposed by World War I,
- b) Erosion of the sea bank endangering the two outermost towers, and
- c) Lee DeForest's invention of the vacuum tube, which made spark-gap transmission obsolete.

In 1921 the towers were cut down, the machinery scrapped, and the building left abandoned.

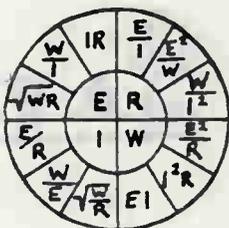

All that's left today are remains of the transmitter house base, part of the corridor that connected the transmitter with the power house, and two tower bases. Two other tower bases are now down on the beach, 100 feet below, where storms and wind may occasionally remove the sand covering them.

NEEDED FOR SWC: What would your favorite FRENEX Classic be? Tell me and I'll consider reprinting it. Also needed: ideas for interviews, and especially your articles. We also might revive FRENEX Portraits (member biogs and pix) if demand and supply appear.

TECHNICAL PICS

ED C. SHAW

604 GREEN RIDGE COURT, LEXINGTON, KY 40503

IN MEMORIAM

...ars ago on 23 August 1972, NASWA's first executive died. Bill Eddings
...ersonification of Unity and Friendship. He was not in good health
...latter years of his office, yet he devoted the main portion of his
...es to the club. He was a sincere humanitarian and dedicated hobbyist
...end. Those of us who knew him personally recall fondly the man who
...ays there when you needed him. Executives who followed have done well
...they had a prime prior example to emulate. I miss him still. E. Shaw

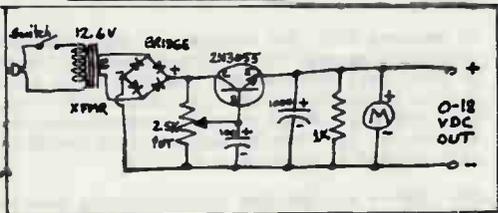

...rth we are going to construct a variable DC power supply which will
...the hobbyist to choose any needed voltage from 0 to about 18 volts.
...will have enough oomph to run any small DC appliance up to 1 amp.

...needed are minimal. You can use additional parts at extra expense if
...nt to make a more deluxe model...such as a panel meter for 0-25 VDC,
...ier box, (+) and (-) output sockets for banana test leads, etc.

...ial Parts Needed - About \$15

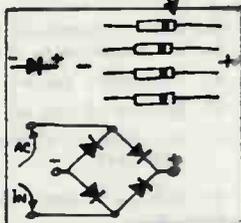

Schematic Diagram

- 12.6 VDC 2A transformer
- Bridge rectifier, 50V 2A
- 5K Ohm Linear Pot - 2W
- 2N3055 NPN transistor & socket
- 1000 uF/25VDC electrolytic
- 100 uF/25VDC electrolytic
- 10K Ohm 1/2W carbon resistor
- Hobby box, knob, power switch,
- and misc. hardware

...l Instructions: All parts are readily available at Radio Shack. If
...out around, most should be available used or scrouged free. A bridge
...ier can be made from four ordinary diodes (see diagram at right).

...t parts inside your hobby box in a fashion to hook
...to another easily. Keep leads short as you can.
...hat in using an NPN transistor, the (-) from the
...attaches to the Base capacitor (-) terminal, the
...om the bridge attaches to the Collector, and the
...r is the (+) output. Varying the control provides
...VDC output. Capacitors are polarized and must be
...led to match (+) and (-) throughout the circuit.
...ional panel meter may be installed to monitor the
...so you don't have to keep using your VOM for
...ing voltages.

...Explanation: The transformer output voltage is changed to full-wave
...the bridge rectifier. The transistor accepts the (+) voltage into the
...tor and passes it out the (+) Emitter. The Base is somewhat like a
...valve, sampling a little bit of voltage from the potentiometer. It
...is how much voltage goes through the transistor to the Emitter output.
...00 uF cap is a ripple filter which helps reduce hum caused by ordinary
...power and transistor switching noise. In doing so, it also raises the
...voltage to something more than the original 12.6 volts...in fact to
...18 volts DC. This is an electrical phenomenon needing more space

than is available here to explain. The smaller capacitor is also a ripple filter, but does it in a trickier way. Each transistor has a merit called Beta or gain. Multiplying this gain times the value of the smaller capacitor will yield a larger ripple-smoothing capacitance value to further aid the large capacitor. The higher the cap value, the smoother will be the output. Finally, the resistor is to allow the caps to drain very quickly after the power is shut off. The (M) in the schematic is where to install a panel meter if desired. I heartily recommend this as a permanent add-on.

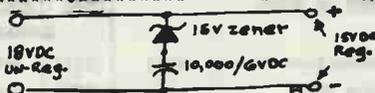

How To Use It: Observe polarity! Positive (+) terminals should be marked on every appliance. Wire terminal leads are usually red for positive and black for negative. For safety's sake, make some effort to determine which is which before attaching to any appliance. Don't use more voltage than is necessary - it could burn out your equipment. Keep your voltage output on zero when you first hook up, then turn up the control to what is needed by using your VOM or panel meter. Do not leave your power supply turned on for more than a few minutes if you are not using the output. The Base and Collector junction of your transistor is always absorbing the output of the bridge rectifier. It will get hot rather quickly if not being used.

Further Tutoring is available with correspondence. Write down your question or problem and include a postage stamp for reply.

One Last Observation: Note that when you turn on your appliance, the supply voltage will drop and possibly fluctuate according to power drawn (like varying loudness of music, etc.) This is normal. Merely turn up the voltage control to compensate. Don't forget to turn it back down, though, when you start again.

ZENER DIODES: Mini-magicians, many uses.

Most hobbyists will understand that diodes permit current to flow only in one direction. Zeners act much the same, except they also will let current pass in the other direction above a certain voltage. Zeners come in all sorts of different breakover voltages. At right is a diagram showing one unusual use for zeners not known by many. Be sure to use diodes of adequate current rating to cover your use.

Here a zener is used as a ripple filter permitting use of an "under voltage" capacitor. In this example a 15V supply is able to use a 6V cap without arcing since only 3 or 4 volts is going thru the cap. Yet, the output has the benefit of the large cap value for filtering out the ripple.

FADING: Kinds and Causes

Several persons have asked about problems they experience with fading. It is asked about often enough that perhaps some explanation should be presented. I published a short and concise treatise about ten years ago that still may be serviceable. Here are the main kinds

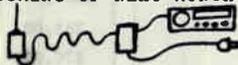

INTERFERENCE- Caused by multiple signals received from the same source, but out of phase. This is to say that part of the heard signal was reflected off a high ionospheric layer, and part reflected off a lower layer, resulting in reception of the two segments at slightly different times. It may sound like a rapidly pulsating signal.

SKIP - A normal degeneration of signal during the transition from night to day due to dissipation of the reflective ionospheric layers.

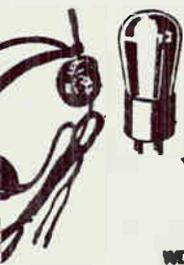

POLAR FLUTTER- Is heard as signals pass over the pole through the Aurora Borealis curtain. This type is most noticeable during winter.

ABSORPTION - Similar to skip fading, but may occur anytime at night as well when the ionosphere is too 'soft' in spots to reflect the signal consistently. This results in sometimes rather abrupt fade out, occurring at random. There are other types of fades, but these are the most common occurring.

COMING UP NEXT MONTH -

How To Build An Active Antenna. This unit is similar to the ones you see advertised by all the various suppliers. It's a three-foot whip up on your roof or extended out of your 12th floor apartment window on a broom handle.

VINTAGE VIGNETTES

WDXJUPA Bill Taylor, Box 132, Unionville, PA 18375

the greatest responses to this column occurred following my list of the Hallicrafters. As such, I felt it to be appropriate to dig into the archives and locate a information on another prolific line of amateur gear. Herein will be found a bout of trivialities dealing with the product line of a radio parts manufacturer HAMMARLUND. While the Hallicrafters list was a permission-reprint from the Wireless Association, I am deeply indebted to Morgan McMahon's Radio Collector's many old "QST" magazines, and the March, 1963 issue of "73" Magazine. In the to come, you'll find other similar lists for National, Collins, and other radio es.

ck, good hunting, and best of DX.

Well, I hope you find this listing to be informative. Hammarlund made some of the finest ham gear and general coverage equipment on the market. I hope this list can help you in acquiring an old rig.

By the way, I recently purchased a 1936 Super-Pro. As the granddad of the Pro line, it is definitely collectible. Of special interest, though, is the band switch arrangement. The coils were placed on a movable tray, rather than using an electrical switching arrangement.

So much for now.

73's *Bill*

THE PURDUE SLOPER, (CONTINUED FROM PAGE #3 OF SWC)

to come straight into the shack with the singlewire and run the coax only within the confines of the shack. I live out in the country and we keep several dogs around to let us know about any uninvited visitors at night. Unfortunately, these dogs would rather eat coax than dogfood, and have proved it several times. My idea was to use the basic concept of a sloping wire with the low and towards the desired reception area, but with a singlewire worked against ground in a groundplane configuration, with the low end of the singlewire in the shack and fed to the receiver via 50 ohm coax. This could be considered to be a tilted groundplane vertical antenna, for all practical purposes. To measure the effectiveness of the antenna, since no exotic measuring devices are available here, I decided to put two equal-length wires up at right angles, one favoring South America and the other favoring North Africa and Europe. Comparison of signals when switching antennas, and reading the S-meter on the receiver, would be the only means of measurement but would, as it turned out, be more than sufficient to prove the case of directivity of the sloper(s). A length of 90 feet for each of the two slopers was chosen because of the placement of available supports -- a 50-foot tree and a 50-foot pushup mast. The formula for figuring resonance of the 1/4-wave groundplane system is 234 divided by feet equaling frequency in MHz. The 90-foot slopers were resonant at 2.6 MHz -- and any frequency above that, for all practical purposes, with the use of a random wire tuner worked against ground. The SST T-1 Randomwire Tuner was chosen and properly grounded. The two slopers came into the shack at right angles and into a two-position switch, and then to the tuner. The tuner was then fed to the receiver via 50 ohms coax. Being of equal length and height, one position of the tuner's controls resonated both antennas simultaneously. This is important, for ease of operation. This arrangement would provide multiband use on any frequency from 2.6 MHz on up the dial. It should be noted

(THE PURDUE SLOPER WILL BE CONCLUDED ON THE LAST PAGE OF THIS MONTH'S SWC)

THE PURDUE SLOPER -- (CONCLUDED)

here that for singleband use, no tuner would be required if the wire were cut to resonance -- e.g., 48 feet or so for the 60-meter band. The single wire would be attached to the center conductor of a length of 50 ohm coax and the shield at that end would be grounded. The other end of the coax would be connected to the appropriate terminals on the receiver.

The strength and quality of reception from the desired area will improve compared to other wires of equal length. Typical gain over other simple antennas will be on the order of 1 to 3 S-units. Reception from the sides will be adequate for general listening, but a short randomwire may well outperform the sloper from any direction other than that for which the sloper is pointed. Reception from the back (the high end) will generally be considerably diminished. The sloper is shorter, and hence much easier to keep up in the air than multi-wavelength directional wires. It requires only one tall support. If the low end is placed in the shack, the coax and switching connections can be made close to the operating position of the DXer. This is the ideal situation. Up to 4 slopers can be used this way, for versatility of directivity, but should be brought into the shack at right angles to minimize interaction. Construction notes: an insulator should be used, with a length of nylon rope, to attach the high end of the sloper to the high support. Antenna construction should be heavy-duty, if you want it to stay up. Insulated wire will last longer than bare wire. Some slack in the wire is permissible, and desirable. As with the erection of any antenna, common-sense safety precautions regarding nearby power lines should be observed.

THE "SURGE SHUNT" TRANSIENT ARRESTOR

submitted by Fred Osterman, made by RL Drake

It's that time of year again ... our old friend lightning is back to put crashing bolts of static through our headphones. Lightning makes low-frequency DXing unpleasant if not impossible, but there is an even more serious side to this menace. While lightning may give you a mere headache, it can blow the "brains" out of your receiver.

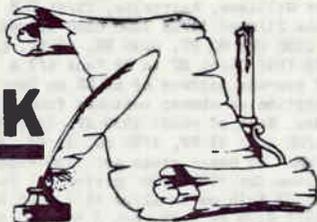

Some listeners feel that since their antenna is too low for a direct strike, that they need not worry about lightning. Folks, this is not the case! According to a recent article in Q Magazine, damage to solid state receivers is one thousand times more likely to occur from nearby strikes or static buildup, rather than a direct hit. The state-of-the-art receivers that are in abundance now have FET "front ends" and extensive CMOS circuitry and are very sensitive to static charges. A technician I know who works on communications gear says that this stuff "blows" if you look at it wrong! That is an exaggeration, but not by much. Most of the components in this new gear can aptly be described as eight- or sixteen-legged fuses.

You say you already are using a lightning arrestor? If you were to break it open you would be surprised to find what is inside -- nothing. Most arrestors work on a gap principle. There is a small adjustable air gap between the inner conductor and the outer ground. Ideally, when a large voltage enters the antenna it will "jump" across the gap and go to ground. These arrestors provide adequate protection to tube radios, but afford almost no protection to solid state radios. The air-gap arrestors are too erratic and unpredictable, since the breakdown voltage cannot be accurately controlled with such a primitive device. To address this deficiency a new generation of protection devices has been developed. The Drake Company calls their new arrestors "SURGE SHUNTS." Now the gap is enclosed in a hermetically-sealed ceramic tube filled with a special gas of known breakdown characteristics and response time. Since the gap is sealed, the response time will not be affected by temperature, humidity, pressure, etc. This makes for more reliable and predictable protection for your valuable equipment. The SURGE SHUNT offers other benefits over a conventional arrestor. When a high voltage is detected it is sent directly to the attached ground wire, versus back into the ground of the receiving system. This isolated ground design is safer. The SURGE SHUNT can be installed at ANY convenient point in the coaxial feedline with very low insertion loss. For more information contact your Drake dealer or write "R.L. Drake Company, 540 Richard Street, Miamisburg, OH 45342".

Well, we're at the end of another SWC. I would appreciate it if all correspondence which requests or requires a reply be accompanied by return postage. In addition, I have found that it helps if those writing in re SWC would write "SWC" or "Shortwave Center" on their envelopes. This helps me separate NASWA/SWC things from SPEEDX/Western Hemisphere things. Manuscripts should be typed or printed legibly, double-spaced, signed please. It's your work, take pride in it. If I can't identify it when it's been separated from its envelope, chances are it won't be printed in these pages. Write if you get *Chris Hansen #* work, and remember, No Good Deed Goes Unpunished! 73's de Chris

AUSTRALIA R Australia EG G on 12290 USF 27/6 0800-1000 (Joel Rubin, CA) RA hrd testing to E Pac on 11775 ex-15115 0900-1030. By the way, Af is even lower priority than NAM at RA-- 1 1/2 h per day vs 4 (Joe Hanlon, PA, 23/6) As from 20/6 15115 ex-11775 at 0630-1030 (Telecom 14/6 via George Poppin, CA) RA Carnarvon on 21720 ex-21470, 0800-1100 EG As to avoid Helsinki & London QRM, I think. During Jun RA had tech problem w/one Shep xmt on PNG svc 9760 --also xmitting on 4880, now seems fixed; some thought it was new NBC PNG outlet! New H 21720 has RFE QRM (Bob Padula, ADKN) RA hrd on semiharmonic 4880, PDCN 0920-1000+ 19/6, gone at 1115 recheck (Pat Fitzgerald, Bob Padula, Craig Seager, ADKN) As from S82, RA plans P to drop another Shepparton xmt; so they will not be able to devote full coverage to Common wealth Gams for 10 days in Oct, just 3-4 mins per hour on remaining fqs (Rob Williams, Australia) Could carry games only by shelving a large number of RA's other pgms; original plans for CG coverage drawn up in 1979 assumed old xmters w'd be replaced by 1982. RA's Allen Hull says it's been known for 5 yrs or 6 that the xmters would be out of replacement parts by 1982, but Telecom didn't get cabinet approval to replace them until 1981 (Melbourne Age 10/6 via Rob Williams) Contract recently signed w/Andrew Antennas of Melbourne for supply & installation of TGI-designed ants using 8 single-guyed masts supporting 7 radiating curtains and reflector screens fulfilling the Telecom Au structural design requirements to withstand a windspeed of 63 m/s; contract worth A\$3.8 million; will take up more space, so RA will lose one of two existing log periodics at Cox Peninsula site nr Darwin when construction starts. Improved service will relieve present load on Shep, which is sked to rx up to 8 new xmters before 1985, 100s & 50s. Further 250 will shortly be ordered for Carnarvon which serves SEAs & India, leaving 3 x 250 kW at Cox Pen for China. A proposal before Canberra now is for completely new SW stn to be built at Townsville [Qsd] improving RA coverage in Philippines and as far as Japan (Electronics News via Rob Williams, SCDXC) To be on air w/new Darwin ants by late '83 (ibid) RA reported 25/6 that ABC chm had suggested re-introduction of TV & radio licence fees, which were abolished 9 yrs ago (WBI 1/7) RA reported 4/7 that fed govt had ancd plans for future of ABC; Act of Parliament to establish Australian Broadcasting Corp. (ex-Commission) w/own charter and new management, similar to BBC. 5/7 RA said fed govt'd set up hi-level policy comte on RA ES. The govt supported, RA should remain independent in pgming decisions; govt w'd also separate RA budget from rest of ABC, recognising strds separate needs and priorities. (WBI 8/7)

CANADA Tnx to a suggestion from the Ontario DX Association, the CKO Network, which has out-lets in most capital cities, has started carrying my DX pgm WORLD OF RADIO, but in abbreviated form since only 14 min slots are available--Sats 7:45 am & 1:45 pm; perhaps Suns at E 3:45 pm, ET--simultaneously thruout Canada, no tape delay (gh) RCI changed a Sunday Morning fq, 15240 ex-9575 //11955 17820 (Kevin Kelly, Verona NJ) RCI Sunday Morning 1300-1600 10/7 on new 15240 repiacng 9575 which had never been ancd. // 11955 is severely splashed by WRNO 11940 from 1400; 17820 often inaudible w/VOA on top. Considering the closeness of Sackville and availability of fqs over all-daylight path, SM reception is quite poor and variable here (Richard E Wood, St Louis MO) 9575 was generally best here; now it's a toss-up(gh) 24/6 RCI ancd dropping 9590 0645-0700, but higher power on 15130 then, as from 28/6; 15130 not on J82 sked but I've hrd it before 0645-0700 (Steven R Lare, MI) & 0615-0630 EG (gh)

CFRX now perfect on 6070, best ever hrd; those new tubes in final really did work; wish I could receive other Canadian low powers like CFCX as well as this one (Paul D Amend, Portage WI, 6/7) Audible here well into daylight, 1330 but not at midday; good modulation (gh) Reason why CFCX ID is sked @ :20 is to avoid interfering w/nx pgms that may start at :00 or :30 or pgms starting at :15 or :45 (Steve Webster, DX Ontario) ID on 22/6 hrd at 2126 interrupting Peggy Lee song (Bill Dulmage, DK Ontario)

CAMEROON (oops) Bafoussam, 4000, 20/6 *0430-0445: OC, them drumbeats, ID by OM in FR & EG, repeated twice in both langs, anthem, right into instl hilife mx; great & powerful level w/ little QRM (Chris Loddell, Stoneham MA)

CHAD R Mondou, 5286, 5 kW but at greatly reduced power, 0500-0800, 1500-1900; FR nx 0545 & P 1700; directional toward Ndjamena, whose SW should be back in couple months; was 4904.5; & days on 7120 (Albert Sommerfeld, Chad, via Andy Sennitt, WRTH, RNMN 22/7)

CHINA CPBS First Netw now has EG lessons daily 1430-1500 on 4460 6620 6225 6665 6750 7095
E 7335 7440 7504 7516 7935 9064 9080 10245 11290 11330 11610 11735 as monitored by (Robert Chester, SA, ADXN) Tnx to RCI SWL Digest DX nx, Sichuan PBS hrd well 14/6 1225-1300+ on 7239; IDs 1230 1249 1254 1300; no time pips at all today or 15/6. In short pause between pgm segments 1230., played first 2 words of an ID tape at ½ speed, producing v/ distinct "Sichuan renmin..." at slow speed and accidental pitch! 1230 ID voiced over mx intro to pgm; 1249 ID before spate of taped ads or PSAs, gentle 1254 ID by W. Parallel ment on SWLD, which I copied as 6059, unhrd. Another mysterious Chinese province thus hrd--ahh! Of those reportedly on air, I lack Guangdong and Shandong, and would feel a bit more secure with a re-hearing of Guizhou. Have been adding to my list of superimposed pgming audible on 17855/15520 EG xmtr of RB (which I'll bet is the same): besides CPBS timepits I reported earlier in LN 31/5 had the AmS-targetted Cantonese underneath 17855 EG // 17745 et al; would've rivalled actual fqs in punch if EG hadn't been there. 18/6 15520 EG 1200+ also carried Amy // 15330 15260 12015. Unpleasant boominess of 17855/15520 audio evidently due mainly to overlimiting; I unintentionall simulated this effect by turning up my RF-2200 to overcome noise during an auto ride; clipping in the audio power amp caused by poor current reserve in the dying D-cells made Lord Peter W--NPR/BBC--sound as if he were sleuthing in the same telephone booth whence 17855/15520 audio appears to emanate. Mere overcompression would not cause this w/out obvious and objectional pumping; none of this on RB or my serendipitous mobile experiment (David Newkirk, WA, 30/6) Zounds, "The East is Red" at *1359 domestic minorities Kazakh svc 20/6 on 11375 was not the long version as used previously for all DM svc & used yet on CPBS 1 & 2. Usual technique was IS at :59, pause, IS on hr, then ID once by M, agn by W, bustling orchestral EIR. This time it was the FS ID twice, pause, then FS IS once on hour followed by IDs and orch version. **Sigh** Next thing you know it'll be K Peking International (Yuan Yue, a.k.a. David Newkirk, Seattle WA 8/7; ditto Uygur *1259 11375 8/7)

DENMARK [Cf July LN-30] New Herstedvester xmtr went off air 7/6, still off 17/6 so all RD pgs back on old xmtr capable of 15165 only; for 0100-0155 bc, two alt fqs sked, 11825 & 11860 (Erik K&ie, Denmark, SCDX 29/6) Other alts if new xmtr revived: 2000-2055 & 2100-2155 and 2200+ 15165 ex-11830 due QRM; 0000 11920, 0100 9695. 11830 was hrd first day on air, 2/5, 2000-2055* & 2100-2155* (Anker Peterson & Erik K&ie, Denmark, DSWCI June) Further delays on the pair of 500 kW: originally chosen site ruled out for environmental reasons [migrating birds whamming into ants?]; now 5 other sites must be investigated (Andy Sennitt, RHMN 22/7)

DOMINICAN REPUBLIC R Accion, 610, has DX pgm in SP, Suns 1300-1330 GMT, put together by RDK X Club Internacional, publisher of Monitor DX (RDKCI MDX via Peter V Taylor, IRCA DXN 10/7)

ECUADOR LW de los Caras, 4795, 0124 ID gave fq as 4635, why? 1/7 (Charles Bolland, FL)

R Zaracay on 3390, 25 kW, 1000-1400 & 2000-0500, it says; Escuelas Radiofonicas Populares says 1 kW on 5015, 1000-1300 & 2100-0300. Gte is Srta Luz Luzuriaga (T-H Ekblom, WRTH-LA 13/6) R Federacion, Sucua says 10 kW on 3210, 5 on 4830, 10 on 4960. R Baha'i now on 4990 ex-2340 at 2200-0400; Dir-Gen is Marcelo Quinteros M. (WRTH-LA 12/7) Its 1 kW xmtr will face heavy QRM 0000-0400 from 5 stns: Yerevan, RSA, Hunan, AIR, Barquisimeto (Andy Sennitt, RNMN 22/7) R Jesus del Gran Poder, 5050, c/in 1041 13/7, vy strong, ment'd "Gran Poder" (Jm Conzad, IA) R Centinela del Sur, Loja, on 4889.7 at 1141 ID (Geoff Cosier, Waratah, SCDCX DK Post) Exactly same fq as R Lux, Honduras, qv (SCDCX) R Splendit, 5026, IDs in passing w/ TCs 1149 (Sam Dellitt, Vic, SCDCX) R Splendit, 5025, 0351-0438, big sig w/ads, Cuenca ment, overuse of echo chamber by hyper CM 2/7 (Steve Reinstein, FL, DXSP) HCJB 582 plans no changes in EG to SPac; to NAM just modifying 11915 to 11910 at 0500-0700; but to Eu, 0600-0730 11810 and back on 15225 [cf Austria]; 1730-1800, 1900-2000 & 2130-2200 on 17865 ex-17790, // 21477%; and at 2130-2200 15340 ex-15295 (DXPL 26/7) John Williams, MDXC reports HCJB on 18035 at 0000 in SP, strong; my obs confirm definitely not harmonic, unlikely feeder or xmtr trouble, so why on this odd fq? (William Krause, MN, CANDX June) Date unk, but no sign of it when I checked in late July. Answer: mixing product between 17745 & 17890 if both on the air at that time (gh) At 145 kHz separation (Ibid) August RIB carries HCJB's full SP pgm sked; 1130-0500(?) on 6050 & 690; 1030-1230 11960, 1030-1600 9765, 1230-1600 11910, L 1600-2030(?) 15160, 2230-0500 11960, 0200-0500 6090. Some mx pgms are: Sat & Sun. 1100-1115 Musica Nacional. Sun 1630-1700 Selecciones Interamericanas. Daily 1800-1900 En La Sala de Conciertos (gh)

EGYPT MENA and that DST would begin this year at local midnight 25/7, continuing till end T of Sept, winter time from 1/10 (WBI 22/7) The EG svc to Eu didn't wait for that to observe E DST sked of *2115 on 9805, as noted by Bill Dulmage, 20/6, DX Ontario (gh)

EQUATORIAL GUINEA Re May LN-17, presumed log of Bata on 5003 more likely R Apintie, Surinam (Scott McClellan, MI, 5/5) Bata on 4926a 20/6 0444-0508, vy nice this nite, ID on hour as R Nacional de Guinea Ecuatorial; 5004 not hrd (Shawn McDaniel, Rolling Prairie IN)

FALKLAND ISLANDS R Nacional de Malvinas, 5952, 21/4 2035-2039, SP talk, ID (Alf Lauridsen, Denmark, Jun DSWCI SWN) Not audible 1/5 (Anker Peterson, DSWCI) I'd think a relay from Arg stn more likely (gh) FIBS resumed being on about 16/6 using former management. Due to power shortages an emergency generator was in use. BBC mx item about the reopening included the ancr's s/on anmt, and only the fq 2370 was given (Noel Green, DSWCI SWN July) QSL from Q FIBS, Port Stanley, 2370, 1 kW. Vy friendly letter rcvd via Foreign & Commonwealth Office [London?] in 3 weeks from Mr R Hunt, Governor of the Falklands, expressing his amazement at their sig having been hrd so far away during that 'memorable night' [which one?]. Following the invasion, 2370 monitored daily, and the carrier regularly there, no pgm ever noted. I suspect xmtr may have been left on as an NDB [nondirectional beacon] for the Arg military flights (Tony Marr, Titahi Bay, NZ DX Times June)

FRANCE (?) unID FR3 stn on 11880 (cf July LN) was inaudible in June due to condx, but G at 0800 5/7; one Monday in May was as strong as Tahiti on 11825, which was on past 0900 that day. Still a mystery (Ernie Behr, Ont) Hrd twice here now tho poorly; 0800-0805 taken up with GMT+2 (or GMT-10, hi) time checks every few seconds, as hrd before from France; never could get ID or hear Antarctica mentioned, but that's inconclusive. 19/7 BBC-11955 was also in w/similar sig from UK site, so France site does seem possible (gh) RFI has been testing, changing fqs at 1200 for FR from 17720 to 17620, often vy frustrating for listeners as came in middle of mx; now channing at 1157 before nx (Sevi Kokou Koumako, Togo, SCDCX 22/6) OOB fq missing from published sked (gh) RFI France, or relayed? on 25740 9/5 1305-1315, sports in FR, new fq // 25820 & 25900 (weaker), 23432 (Preben Høybye-Mortensen, R-390, DSWCI) ("weaker") rather ambiguous; however, another case of xmtr mixing product, 80 kHz apt (gh)

P As the first step in its project which will culminate in a 24h world service, RFI will soon resume its xmsns for IAm, this coming Oct, says RFI director Herve Bourges; initially 1 hr in SP using the present staff which prepares pgms for Spain, to whom will be added three IAm journalists. SW svc to IAm was interrupted in 1975 when ORTF disintegrated. But this is part of a 5 year plan with a new spirit. The key to this will be the activation in 1984 of the Guiana relay stn. In reality Oct thru Jan will be a test period (AFP Paris 8/7 via El Porvenir, Monterrey, 8/7 via Horacio Hinojosa Arce) 1/10 RFI starts IAm bcs in FR, SP, PT at 2200-0200; Guiana will be on in 1984 2th per day (Andy Sennitt, RNMN 22/7) France Inter reports the govt 7/7 gave green light in principle to introducing a 4th TV pgm. MinCom instructed to prepare report on financing before Sept. New svc will use old 819-line net chn'nels (VHF Band I & III) (WBI 15/7) If this means that ch 2, AM audio on 41.25 MHz has a new lease on life, this is good news for TV DXers and MJF followers, as this can put a good signal into NAM and worldwide around sunspot cycle peaks (gh)

GABON RFI relay on 15435 hrd 2300-0300* w/FR & mx, // 15475 via France much wkr; 11/6 only, H spl occasion? (Ernie Behr) RTWG on 9554, 13/6 2210 hiliife, VP-F, 2 x 4777 (Richard McVicar, DX Ontario) 9554 2330-2355 19/6, 2400* many ments of Libreville (Cedric J Marshall, DXO) P Africa Number One to begin bcs in Hausa in 2 months; testing now Hausa & EG M/W/F 1700-1800 E on apx 15210; 1700-1745 hrd w/tests on 9585 (Siegfried Heldt, GFR et al., SCDCX 21/7) ANO on 15600 1715 24/6, nx & mx in FR (Dick Miller, Birmingham, WDXC Contact) Maybe, but VOA has been using that fq too (gh)

[Non][SENE-]GAMBIA Re the reports of a R Senegambia, Rolf Lövdström and I discussed the phenomenon and Rolf asked R Gambia by cable what went on. R Gambia's telex answer 28/6 stated "R Gambia broadcasts on 648 kHz and 96 MHz VHF in the FM band only. R Senegambia does not exist." Signed, BROADCAST BANJUL (Finn Krone, Glostrup, Denmark & via SCDCX 6/7 & via AVR DSWCI DX report 4/7) ... (gh)

INTERNATIONAL VACUUM [for lack of any better place to put these tho I highly suspect they are ground-based xmsns -gh] NASA using 6225 LSB for comms w/space shuttle, hrd 30/6 0235-0330+, hrd on new Collins R-391 URR (Frank John Petrick, Endicott NY) SFR's DX show 28/6 reported that on the last flight of Columbia the shuttle itself was hrd on 28853 kHz; Probable nonsense (Robert Mounce, Antioch TN)

IRAN 16/6 VOIRI reported Libyan delegation was visiting, incl committee to discuss setting up joint radio stn and joint Islamic news agcy. SPLAJBC bc communique issued 20/6 after the visit which said it had been decided to set up these Islamic organizations, i.a.: Revolution radio stn, revolution news agcy, da'wa (missionary) society, university for training mission aries, world assn (WBI 24/6)

IRELAND Westside R have been testing on 11463, Suns 0915-1000; reports w/2IRCs for QSL are welcome at 53 Charleston Rd, Ranelagh, Dublin 6 (Tony Donlon, Dublin, July WDXC Contact) The most regular Irish SW stn, Westside R, which opens at 0900 almost every Sun on 6280, is also said to be testing above 10 MHz Suns around 0815-0845; 10488 via TD, 10660 via PS. Perhaps the fq is different for each test (John Campbell, DSWCI SWN June quoting Donlon and Podney Sixe)

ISRAEL B-net hrd several nites around 0300 on 12080 // 15615, sometime ancd as 12077 but is on 12080 (Joel Rubin, CA, 1/7) HB HS on 15615 hrd u/hvy Sov-style jamming as studio anc introed phoned report, 0518 11/7 (Robert Mounce, TN) Reshet Bet obs past 2310 24/6; 25/6 changed continuously during previous 2310/0400 gap; extends fqs used before 2310 exc 11655 was changed some time ago to 11610; and 25/6 12080 ex-12077, still not ancd. Prime-time [EG et E a] fqs 9815 11640 15585 supplemented by 11655, weaker maybe for C&SAm. Exc for nx flashes on the hour, R-B overnight is predominantly Israeli type MOR pop, mostly w/out anmts; incl early hours of Sabbath when used to delay s/on an hour to 0500 (Ralf Munster, CA, 26/4) Cf July LM, 0000 & 0100 EG are on 17685.5, not 17680; also at 0200 but 9/7 weaker than lower fqs; 8/7 & 9/7 IBA did not use 11640 at 0500 (Ralf Munster, GA, 9/7) Michael Schneider, NY sends clip from Jerusalem Post 20-26/6, sked of Israel Radio. Does not take into account above fq additions, and all the times for NAM are wrong, given in std time instead of DST. Also claims to be on 15606 for ANZ/SEAs at 1200 (gh)

ITALY Remember rough old operation last year testing on 7381v, Stazione Esperimentale, which requested reports to a street addr in Padova, but which replied to aI most nobody (and then with only a rough old piece of paper)? Try a different addr, Casella Postale 803, 35100 Padova (Airsounds via John Campbell, Jun DSWCI SWN) Recent letter from Timothy Holmes of R Pace says pgms are for emigrants and missionaries, but there could be EG xmsns before long (Simon Tuck, SA, SCDCX) R Tele-Pace uses 15460, 4 kW PEP Gates xmtr, yagi 4-element ant, at

GERNA, 20 km N. of Verona in mtns 750m above sea level; addr Via Oriani 2, 37122 Verona (Bob Padula, ADXN) Hrd on 15460 7/6 0438, F w/IT test tape, ID, addr, phone by YL repeated every sesquinute, mx interspersed (Harold Sellers, DX Ontario) July sked of IBC: Daily 0500-0900 & 1900-2300 on 6275, 7370, 11585; continuous Sat 0500-Sun 2300 w/90min tracks on same plus 17950; will be off entire month of Aug for holidays; addr IBC, P O Box 162, Bemmel, Holland (Play-DX 5/7)

JAPAN Due to limited number of SWBC fqs, the possibilities of SSB bcs are now being investigated; this fall R Japan will begin SSB experimental bcs to west coast of US (Kazuhiro Tajiri, Manager, Pgmng Div, Overseas BCing Dept, NHK, Tokyo, 1/7 via Bob Bodell, OR) Topic L for 'Crosscurrent' pgm during Aug: Thinking of Hiroshima & Nagasaki; sked Mondays in 1500, 1900 and 1300 genl svcs, and in regional svcs incl NAM at 0020 & 0205 GMT Tues (RJ Nx, gh)

JORDAN HKBS now noted often on 7155 after Ankara s/off, if ARO slop minimal, 2258-2325*+; 6 pips 2300, AR nx & chants; s/off varies 2325-2335, sometimes w/anthem (Reinstein, OMD)

KASHMIR AZAD AKR on 1510 //3670, IDs as Muzaffarabad, while 1410-1800 on 4980 is not //, IDs as Trarkhel (Pak DXer via Victor Goonetilleke, RNMN 22/7)

KENYA Giant ES complex is planned, using 250 kW as from spring. Kenya embassy says spring means July there (George Wood, SCDX 6/7)

KOREA NORTH KCBS HS now on 11339 after holding admirably steady on 11340 for quite a few weeks; how far will they go? (David Newkirk, WA, 8/7)

KOREA SOUTH Two-phase contest, recording & quiz, is sponsored by R Korea marking 29th anniv of EG svc; 20 winners get souvenirs, etc; must rx entries by 15/8 [so details omitted here] (July SPEEDX)

LAOS ES reactivated, VG on 7029 ex-7145, EG 1330-1400; 30 min ea from 1130 TI, VT, KM, FR E (Goonetilleke, RNMN 24/6) vy strong oriental at 1030 on 7027, this? (Jim Conrad, IA, 13/7) LNR's ES now hrd on 7028 ex-7145 (WBI 22/7)

LESOTHO Maseru, 4800, G 20/6, best I've ever hrd, 0421-0430; presumed as no ID hrd; instl MOR, serious talking 0425+ by man in vern; my copy of the Lesotho Radio Times says obits sked then! (Chris Lobbell, MA) Great wake-up fare, eh? (gh)

LIBYA SPLAJBC EG 11815 now hrd 2130-2300, retimed and expanded by 30 min since it was last E detected 12/81. Vy poor reception precludes any detailed analysis but 2230-2250 brings mx & L press review, possibly also at 2130-2150 (WBI 8/7) You ought to monitor this in NAM, then, comes in better (gh) Obs 9/7 & 11/7 show SPLAJBC & BSKSA Saudi Arabia both operating on 17930 15450 15415 (WBI 15/7) Bit of nastiness there, hardly coincidental (gh) SPLAJBC hrd on 15084!! // to usual in AR, 11/7 (Zilmer, NM, SPEEDXGRAM) So they've got it in for Iran too; time? (gh) SPLAJBC noted in AR 10/7 2155 on 15450 //15415 (R Wood, MO) No Saud. too?

MADAGASCAR RM's oid fqs 3288 & 6135 replaced by 3355 & 6170 resp exc R Freedom 1700-1900 still on old fqs (Vashek Korinek, RSA, AWR DSWCI DX 27/6) 3290 replaced by 3365 1600-2100 (Richard Ginbey, RNMN via July WDXC Contact) Think this is the 3358 I hear to 2100* in FR but no positive ID (Mike Barraclough, ibid) R Mad, 3359, local mx 1755, ID in MG 1800, FR anmts 1806, ex-3288 for this pgm, 3288 now takes ES (Sam Dellit, Vic, SCDXC DX Post July) RIM hrd 9/6 0258 usual string IS, *0259+ w/anthem, YL ancr, VP but definite so reports of new 3365 false or outdated--nothing there (Cedric Marshall, Toronto, DX Ontario) S/on mx usually their anthem "O, Our Beloved Fatherland" (Richard McVicar, DXO)

MALAWI R Chortis [GUATEMALA] off 11/7 so MBC coming in nicely w/MBC IDs 0304-0412 f/out. 12/7 tried again, clear w/rio Chortis to 0319 when distorted audio came on and then went off and on for 10 mins until audio was clear and alas it was Chortis making 3380 a bloody mess again (Shawn McDaniel, Rolling Prairie IN)

MALDIVES I expect VOM to resume SW xmsn once construxion at site is complete (Adrian Peter-P son, RNMN 29/7) No sign of SW yet, but sked on 1458 MW only is *0130-0430*, *08-1730* ex-E cept last week to 1830* or 1800*; EG nx at 1330 ex-1300; changes [temporary?] for Ramadan M [which is now over] (Victor Goonetilleke, Sri Lanka, RNMN 22/7)

MEXICO R Mex EG pgm hrd 29/5 at 0154 t/in on 15430, pgm of 50s pop mx w/Mex hosts to 0158 anmts in SP w/fqs, then nx; no ID hrd but surely XERMX (Harold Sellers, DX Ontario) XERMX E has this EG sked: Daily 2040; Tue/Wed/Sat 2045; M/W/F 2210; Su/W/F 2245, all on 15430 only. Rest on that plus 17765 11770 9705 5985; M/W/F 0000; Su/Th/Sa 0010/ F 0030 & 0100; Sun 0315. All times GMT (Nolan Stephany, Williamson NY) Need to know durations, and are times after 0000 actually on local days rather than GMT as per their previous practice; this contradicts some other recently publicized RMI skeds but may be more recent; in any event, they probably don't follow it precisely (gh) EG daily 0255, Sun 0330 & 2330, Sat 0100, Thu 2300 UTC (Andy Sennitt, RNMN 22/7)

MONACO Midway thru J82, TWR issued revised sked; new 9540 0300-0400 in RS & UK [ex-7325?]; a1 so new is 9505, PL 1530-1600 (Bob Padula, July ADXN)

MONGOLIA New 100 kW SW xmttr to be built at Ulan Bator for upgrading ES; start date unk. Also includes new 1000 kW MW at same site, per Communications Intl magazine (Bob Padula, ADXN)

RUB EG is at 2030-2130 on 12070 & 6383 (Weltweit Hören via SCDX 21/7) Really? First I've hrd of that; nothing said about usual 1200, 1400 & 1445 xmsns tho I still hear the 1200 (gh)

MOZAMBIQUE Nampula on 4984 some months now, s/off not listed 2000 as hrd 10/6 2130+ (Sarath Amukotuwa, Zambia via Finn Krone, AWR DSWCI DX 4/7) Nampul on 7536 lately ex-7392 (Korinek, RSA, AWR DSWCI DX 27/6) Maputo has addl 25m outlet for 1100-1130 EG on 11660 which drifts as far as 11595, //11818v & 9532v which wanders all over 31m, up to 10040 and even 9615 where it QRM's Maputo's other 31m. In 60m, 4865 xmttr drifts as low as 4570 (Richard Ginbey, SCDX 29/6 & RNMN 8/7)

NEPAL Our members have been successful in getting R Nepal QSLs by writing to CE Mr Khatry; Q we send 12 rupees in int Nepalese stamps along, costing about A\$3, and write airmail registered. Replies come in less than a month (Rob Williams, NSW, SCDXC, SCDX 29/6) Minor sked change: 0350* daily not to 0420 Sat, on 9590 & 5005 (Victor Goonetilleke, RNMN 22/7)

NETHERLANDS Sked for Espacio DX-ista is [Fri] 1248, 2048, 2303; [Sat] 0003, 0203, 0403 (RM)

EN IN in DT on new 9690 0630-0725 // 9630 9715, 5/6, also for 0730 EG, not since (Rhodes, ADXN)

NETHERLANDS ANTILLES Perhaps to avoid having to use both SW xmters, I notice that TWR has E curtailed 0400 EG pgm to 0455 on 9755 & 800, so that SP can then start up on 15445 & 800(gh)
NEW CALEDONIA I listened to so-called EG pop mx pgm from FR3 Sats 0900-1100--not much EG frm E anc or other than casual remarks abt the mx, singing along, etc. Some canned anmts th such as "Music Power", "Energy Source". ID is sung rather quickly, "Radio Noumea". Easy to make report, tho w/Rod Stewart & Boston tunes (Steven Lare, Holland MI)

NICARAGUA R Zinica now on exactly 6120.0; from 1100 w/ID & ranchera mx 25/5. LV de Nic. on 5949.75, hrd again 0130-0600*v, 4/6 after 3-month absence (Ernie Behr, Ont). VON ES on 5950 hrd again since 15/6 0200-0600 incl half-hourly SP mx; "This is Nicaragua". ES had last been hrd 30/6 (WBI 24/6) R Hernandez de Cordoba; 6100, hrd here w/good sigs 250 km NW of Ocotal. Much better than in Tegucigalpa; noted mainly around 1900-2010*, ranchera mx & IDs but no ads (Don Moore, Santa Barbara, Honduras) VON reported that the Comms Media Directorate had ordered that the networking of the "Voice of the Defence of the Fatherland" mx at 0600, 1200, 1800 and 2100 be suspended as from 15/6. The resumption of the "Extra", "Revolution", and "El Atabal Sandinista" newscasts produced by R Sandino, VON, and R Mundial was also ancd (WBI 24/6) Nic Ministry of Interior ancd 16/6 that emergency state had been prolonged for another 30 days because of CIA plans to overthrow the Sandinista govt. Consequently only 3 stns would be allowed to carry mx during the state of emergency: 620 La Voz de Nicaragua, 750 R Sandino, 930 R Mundial, the latter not listed in WRTVH 82. All mx will be censored by Ministry of Interior, which also made the anmt. So much for democracy (Rolf Lovstrom, Oslo, Norway, 17/6) 17/7 R Sandino reported on mx conf by head of Peoples' Radio Broadcasting Corp (CORADEP). He said his org managed radio stns "confiscated from the Somozists". The 15 CORADEP stns were in Chinandega, Matagalpa, Managua, Rivas, Jinotega, Ocotal, Chontales, Leon, Estelita and Bluefields and also included ones "established by our revolution" in Rio San Juan and Rosita in Northern Zelaya. Certain CORADEP stns were targeted at specific audiences, e.g. R Exito aimed at youth, La Futura provided popular variety pgms, La Continental bc selected mx (WBI 22/7)

NIGER ORTN Niamey 5020 12/6 2135 t/in w/drama in FR; ID 2150 w/flute mx going over into mx 2158; then into flute IS & wiped out by super strong CW ute. ORTN was weak with some FSK QRM and heavy static; first time logging for me, yet readily hrd in USA. I assume they have a highly directional E-W antenna beam (Mark Warner, WDXC Contact & DSWG1 SWN) I concur; it is very difficult to receive, yet location and power ought to mean differently (Noel Green)

NIGERIA Nice Nigerian night 20/6, 4770 4990 5965 6050 6090 6195 7145 all coming in clearly; faint sig on 6102 w/Quranic chants, gone 5 mins after came on, like to think it was Maiduguri. Also hrd Afro u/DW, possibly Calabar [6145]. Sokoto 6195 had such horrible audio, almost impossible to make out anything; all hrd 0430/0550 (Shawn McDaniel, IN) Bendel State P BC Service hrd on MW, no longer ancd or hrd on SW; if 11 new states are created as proposed, may mean more radio stns (Richard Ginbey, RSA, SCXK 29/6) Kwara State BC Corp, Ilorin, now using 7145 for all SW svcs, 0400-2305 ex *0430 as in WRTVH. 10 kW, ant is 10m long dipole, per data from stn w/QSL (Bob Padula, ADKN) FRCN DS: R Nigeria, Lagos, 7285 1000-1600 & 7275 1000-1530; 4990 & 3326 0430-2305/2309. SRI LANKA SLBC All Asia svc in Hindi and other Indian langs: 0025-0430, Sun 0430-0630, 0630 E -1630 7190 11800. AA Svc in EG 0030-0430, 1230-1600 9720 15425. ME&EAF svc 1645-1815 in Urdu, 1815-1830 Sinhala, only on 11800; other langs incl EG, Tamil, AR, deleted (Jose Jacob, India, ADKN) AA Svc in EG formerly went to 1730*; 6075 andcd but not used (Victor Goonetilleke, RNMN 22/7) AWR DX pgm Radio Monitors Intl now sked Sun 1100 on 11835 15120 17850, 1300 on 4940 +AM&FM, 1332 on 15425 9720. Upcoming topics: 15/8 Trinidad & Tobago, Radio Belize. 22/8 Chad, Ship Broadcasters, 29/8 BFBS Cyprus, RA Shepparton. 5/9 TWR Bonaire, Sunspots. 12/9 Emissora Portuguesa, R Barbados (Adrian Peterson) VOA has pending for congressional approval of its FY-1983 appropriations the construction of a completely new relay xmtr base at a site near Puttalam on the west coast. 75 mi N of Colombo where the present under-powered, antique stn has been located since the 1940s. Originally planned putting 4 new xmtrs at present rx site, 250 kW. New proposal calls for 500 kW. Would require building completely new establishment incl staff housing, \$96 instead of \$66 million. Reason: USN study indicated putting 4 250 kW near Colombo would pose significant risks to nearby airport operations (James J Halsema, PA, Aug RIB) Per interview w/DW tech chief Mr Roessler, DW will invest DM 40 million (\$18 million) in Trincomalee relay base on east tip of SL. German govt will grant DM 9 million in 1982, 20 million in next two yrs, mostly 1983. Two xmtrs should be commissioned at least in early 1984. New stn will be a copy of Cyclops, 3 x 250 SW, 1 x 600 kW MW. Except electricity won't be from SL public power, but from own generator; SL itself has many problems w/public power supply. Main target for MW at nite: Pak, India, Bang, SEAs Indo; for SW: Japan, China, Phil, Indo, SEAs, SAs, Au, NZ, and due to economic value even Africa & America during nighttime in Asia; to Am 1500-1600 timespan? (Wolfgang Bültschel GFR)

SWAZILAND 3/6 was listening to comparatively strong TIFC on 5055, when at 0340 'jammed' by stn playing IS; would you believe it was TWR? I'd think religiousstns would coordinate better (Kirk Allen, Ponca City OK)

SWEDEN [Not SWEEDEN as some insist] R Sweden now using curtain ants to Nam: 15420 0200-0300, 17790 1600-1530, 15270 2300-2400 (ANARC-FRC via Zilmer, SPEEDXGRAM) RSI andcd from 7/7 its E 1100-1130 EG to Eu & Pac would be on 17825 & 9630 (WBI 8/7) ex-21610 (SCDX 6/7)

TAIWAN unID stn on 11905 w/NAs lang & songs 1600-1615*V, 17/6 & 30/6. WRTH 82, p 198 lists "V of Asia" in CH at this time. R Peking & jammers on 11905v before 1600; need definite ID on this (Ernie Behr) WBI shows this as BCC's Std Chinese Net-1, external service at this hour, 1600-1900 //9690 7250 7150 6040 3335 3230 + 5 MW. Other times in 24h sked when on SW: 2045-0100 11905 and same //s; also 0345-0700, 0100-0345 on 7250 6040 3335, 0700-1000 11905 9690 7150 3230, 1045-1600 7250 7150 6040 3230. Some of these freqs break away for pgms in minority langs to mainland: 1000-1130 Mongolian 11905, 1045-1600 Cantonese 9690 [not minority!], 1045-1600 Hakka 3335, 1140-1310 Tibetan & 1330-1500 Uighur 11905. ID is "Chung-yang Kuang-po tien-tai tsy-yu chung-kuo chih sheng". Std Chinese Net-2 also continuous: 2150-0950 on 7105, 0950-2150 on 11775 & 7105. Std CH Nx & Mx Net, 0955-2200 9630 6087 (WBI 22/7) BCBMS includes V. of Asia pgms in VOFC ES sked as well as WYFR relays as before, perpetuating the 11855 claim at 0200-0300 EG, 0300-0400 Cantonese both to CAM; I haven't checked this month but it had always been on 11740 instead (gh) The tape I rxd from VOFC cost appx 2½ times more than the "blue light special" I sent them and the mx was well recorded, so don't skip out on VOFC because of a few piddley tapes (Patrick J Trimble, Altoona PA) WYFR SB2 sked to China shows 9765, 1200-1500 Mandarin, 1500-1600 EG; India 1400-1700 EG 19m (gh)

THAILAND [Cf Mar & July IN] Re Thai HS on unlisted 6160. I don't doubt the USDXA reporter's knowledge of Thai, but wish someone would explain how a low-power 49m sig can propagate from Thailand to S Carolina at 0800 GMT, 3 pm in Bangkok! (Ernie Behr) I have the impression USDXA does not wish to discuss this any further & probably shouldn't have printed this (gh)

TRISTAN DA CUNHA [Well, why not foray into ham rx for fun] Andy, ZD9BV, is active; will be there about 2 yrs. Tho new to ham radio, is experienced commercial op. Shows up on various 1st & net ops; logged here 10/3 1841 on 21338; full data QSL rxd. ZD9BW will also be active this August (John Tuchscherer, WI) ZD9BV active on 21338 1600-1800, SSB; Mon 14225 at 1600-1900; has daily sked w/ZDBTC at 1700 on 14140; QSL via W4FRU (QTC, Swedish ham mag, SCDX 2/7) 4/7 2053-2215 on 3295 unID stn, 2100 R Australia nx, 2107 local nx?, 2111 lite mx, 2200 closed but carrier on till 2215; tentative (Michael Schaay, Netherlands, SCDX 21/7) Snacks of PNC to me tho late in morning & both listed 3290 (gh)

TURKEY TRT on 11900 w/TK HS pgm 2300-0250*V 1/7; Morocco was here until early June, 0100-0400, now gone (Ernie Behr) TRT EG DX pgm noted 10/7 [Sat] 2215 on 11900 o/HCJB (Wood, MO) E VOT andcd 5/7 that had resumed xmsns to Au 1/7 on 17715 2300-0300; had been interrupted when an old 100 kW xmtr broke down a year ago. Also andcd that TK to USA reorganized, increased from 2 to 4h per day since 2/7 2300-0300 on 11900 (had been 0900-1100 on 9560). VOT said xmsns would be interrupted 0400-0700 7/7 to allow connexion of new 500 kW xmtr to SW ant system. Obs 5-6/7 17715 11900 // w/TK svc andcd to NEAm, SEAs, 2255-0250 (WBI 8/7) VOT EG 2200-2257 now hrd on 17715 11900 9560 7155 (WBI 15/7)

TURKS & CAICOS IS. I called Quality Media Corp and they said the Caicos Beacon will be on P air in the fall, most likely Oct or Nov, 50 kW on 1030 & 1570 kHz; also will have TV but M no plans for FM or SW (Denham, 2/7 via DXSF)

UGANDA 15/7 & 21/7 test xmsns to WEU by RU ES hrd on 15325 from at least 0630 until just E after 0800. FR & EG ammts mixed w/mx. EG rx (maybe from DS) 0700-0710. Addr for reports: R Uganda, P O Box 2038, Kampala (WBI 22/7) 0600-0800 tests in EG/FR, EG rx 0700 15325 WEU (Reiss, Austria, SGDX 21/7)

U S S R Pgms of various regional stns hrd on 12000 at 1330; Thu R Baku, Fri R Vilnius, Sat Moscow Mayak, all from same xmtr; possibly recorded at regional stns and sent to Moscow for re-bc (Robert Chester, SA, RA DX 20/6) Hrd the same thing at 1430 on various fqs in 1980, E see May 80 FRENIX p 47 for details (Behr) 9/6 at 2200-2230 I didn't hear any of the fqs listed for R Vilnius but I did find them w/gd level on 12020 (Sellers, DXO) R Kiev 582 EG sked to NAM: 2330-2359 9530 11870 17900. 0200-0229 17870 17900 (R Kiev via Kraig W Krist) Did they forget to include Eu sites? (gh) Kiev now on 15515 for EG to NAM 0200-0230 19/6; this xmtr carries a variety of other URS svc (Craig Seager, ADKN) R Moscow FR on 15500 11/7 2015-2030*, must be time shifted for summer as WRTVH lists 2030-2130 to Eu; this is followed by Yerevan in Armenian 2030-2100; RMMS up next at 2100. Also noted at 2100 on 15530, RM in AR; 2130 RM in FR to Af, 2200 RM in PT claiming to be to SAM--times Brazilian; as usual no fqs given, just mb's (miserable bands). This fq P // 15550 during PT. PT IDs to Brasil as "Radio Central de Moscovo", Central being in some Braz stn names (Tony Pavick, PA) Tashkent to SAs in EG 1200-1230 & 1400-1430 on 5950 9650 9715 11783 15460 (U.P., India, reporter to SGDX 21/7) 11783? U A E UAE Radio Dubai hrd 1615-1700 4/7; instead of s/off after nx they went into "The Arab Gulf in a Week" (Nolan Stephany, Williamson NY) "...will be Persian" hi (gh)

U K O G B A N I Can someone explain why Calling Falklands is still on one freq per 450 people, after the jamming has presumably stopped? I can understand the every-day--it's symbolic of Brit's determination. Dr Samuel Johnson said the Falklands would never be independent & self-sufficient (Joel Rubin, CA, 18/7) Has BBC dropped Calling the Falkland Islands as a daily pgm? Not hrd 26/7 on 15400 or 11820; usual EG by R hrd on 15400 to 2115 s/off; carrier continued for 5 mins but no CFI; nothing on 11820 either (Steven Lare, MI) As of this Sunday pgm cut back to Sun/Thu/Thu 2115 (Jonathan Marks, RNMN 22/7) Hrd 29/7 but on 15400 and 11820 about 5 mins of noise to 2125; apparently lost feed and no one noticed (gh) BFBS Calling the Task Force was retimed 18/6 to 1400-1425 daily on 17870 from Ascension; feeders from UK are 22930 LSB & 26490 LSB at 1130-1155. Pgm tape delayed at Ascension (Chris Greenway, BDXC via WDXC Contact) The last spl BFBS via Ascension xmsn was last wknd (Marks, RNMN 22/7) Outlook pgm is asking listeners to design suitable birthday card for BBC ES's 50th anniv jubilee in Dec; prizes. Closing date 1/12, winners ancd on Outlook Fri 17/12. Letterbox 28-29/8 will announce winner of draw in Listening Diary contest (London Calling) Sunrise R, UK, on 11415 every first Fri of month at 2200-2300, hrd 7/5; and on first Sun of month at 1000-1100; 4/7 hrd to abrupt 1045*; F-G. Addr Box 41, AA 7700 Dedemsvaart, Holland (S. Manelli & Dario Monferini, Italy, Play-DX)

U S A HCJB has a stn along the TX/Mex border, KVMV McAllen; a reliable source informs me that they are hoping to establish a chain of these stns along the border, and they have applied for a SW fq from Texas! (gh) WRNO plans to intro pgm in FR for Canada & Eu; 2 people handle mail; as of May, 1000 charter certificates and 2000 additional listener certifs had been posted. Listener response from Australia has been excellent. Studios in Metairie, about 10 min from N.O. city centre, xmtr is 20 km from studio, log periodic ant, 20° off [+], north, 68° beam width, 21° takeoff angle. Plans to sell more air time to intl advertisers & offer more 'special events' pgming rather than present mx (Malcolm Thomas, Sydney, ADKN)AWR Q RS & UK pgms via WRNO: UK Sns 0530-0545 on 6185; QSL available via AWR-Asia (RMI, India) P WYFR has 7 SW xmtrs at Okeechobee; 3 more are being built and there are plans for 5 more. The Taiwan relay is still considered experimental and some WYFR staffers aren't so happy about it (Ken MacHarg, IN, visiting WYFR) My god, WYFR going on 15 fqs at once?! (gh) Surprised to find Panama vs Nauru women's softball play by play in SP 11/7 0535 on 17805; listening further became obvious it was tape-delayed & condensed from 9/7; it was the "Quinto Mundial" championship of that sport; Chinese PA in background. VOFC via WYFR (gh) P VOA is requesting \$11 million to build MW relay stns on Grand Cayman, Grand Turk, and a permanent stn on Antigua for Carib coverage. These would be semi-automatic, satellite-fed. Existing MW xmtr at Marathorn FL would be replaced. Second EG-lang MW xmtr for coverage of Jamaica would later be erected on Grand Cayman, since the first would be in SP for CAM. VOA is also asking for a domestic satellite which could be used to service its Pac & Atl coast xmtrs plus those in Carib, from Wash studios (James J Halsema, RIB) In June VOA had an opening for chauffeur, and now one for executive producer; send resume or application on SF-171 to Frank Scott, PD (ad via Greg Monti) What is the big story on VOA-California? Is there a stn at Dixon or is it just Delano? AFRIS lists CA sites as both, what gives? (Paul D Amend, WI) As far as I know, Dixon still mothballed, but expansion plans might revive it (gh) Anyone know the site/source of the 11740 xmtr kicked on the air at 0000 for spl EG? Satellite-delayed relative to other fqs and usually comes on late, sometimes drops several times before they can keep it on air (David Newkirk, WA) List Delano; surprise--they do have (use of) satl already; they also use an NPR satl channel for bureaux such as Los Angeles to feed pgm material back to Wash (gh) Aargh, my listing of VOA A3H LSB feeder in the Great OOB Capex

should have been 15652 in Jn LN (David Newkirk, WA, 30/6) VOA using OOB 17640 21840 for EG around 2200. Per info from VOA, these two are intended primarily as feeders for various overseas relays, and are AM full carrier from Greenville (Robert Chester, Adelaide) i.e., the same status in-band VOA fqs enjoy from US sites except to target areas w/no relays (gh) OOB obs: FR 11580 0500-0630, vy strong, Greenville? 9840 EG Bkfst pgm E to 0700*; 17640 fair 1100-1400 EG, 0000-0400 EG LA m svc; 21840 to 2200* (Craig Seager, NSW, RA DX 11/7) VOA hrd on 11580 0500 22/5 FR to Af (Chuck Oliver, TX) I haven't been able to verify times when BBC 9510 Greenville are actually 9505, have you noticed? (Richard Lantz, CA) 9505 ex-9510 WS to Ams G around 0100 27/6, sked 0030-0330 (Bob Padula, ADXN)

WWV: Yes, I imply those machine-code-like sigs either side of std fq & time fqs are some how allied w/WWV; tend to be audible here only on the best WWV signal-openings. Still the case as of 8/7 the voice annt on WWV has been a second early since leap-sec insertion. Have T to relearn the rhythm now in setting my digital clocks. Life is tough (David Newkirk, WA) & I noticed in late July HCJB timesigs still a second off; leap second not apply to Ecuador? (gh)

URUGUAY El Espectador talk on world bank, 11835 14/7 0225 (Richard E Wood, MO)

VANUATU Definite ID at 1043 during island pop on 3945 13/7, vy strong (Jim Conrad, IA) 7260 E now audible in winter from 0528 w/EG, FR, Bislama talks; normally the only things audible in WA below 31mb at this time are the power lines; 20/6 (Philip Harrison, ADXN) ID at 0845 in Bislama (Pidgin) 15/6 (Ray Hackett, NSW, ADXN) EG/FR/Bislama pgm in real mixture, F at 0730 6/6 on 7260 (Malcolm Thomas, NSW, ADXN)

VENEZUELA R Tachira, 22/7 0927-1030 on 4830, ads, IDs, mx, strong het from Reloj but holding own; recent reactivation, or suddenly improved condx? (Chuck Bolland, FL) R Nac de Venez on 9529, first hrd 24/6 0033 LA mx, SP IDs, TCs between selections, 0100-0115 SP mx & spo ts, off in mid song at 0138; checked several nights but nothrd again till 30/6 at 0047 w/class mx, 0100-0115 SP mx, back to class mx, on past 0220, strong both times (Ron Howard, CA) I hrd it in morning on 9530 (gh) R Nacional, 9530, strong from 1100 w/Ven mx 1/7 after AFRTS s/off. R Occidente, 9753.7 F from *0955 to 1130 f/out w/mx, ads, 1/7, not daily (Ernie Behr, Ont) Timesig stn YVTO hrd on 11965 // 6100 QRMing DW SP, 9/7 0315-0325; hrd on two rx so either Panasonic image or YVTO messed up. I note also the Future Plans noted in WRTVH 82 for their auto announcing system seem to be complete. IDs minutely at 47 secs w/female, then time; couldn't catch if it was UTC, ending with 'cero segundos' (Tony Pavick, PA) Was in fact 11965 DW Antigua relaying 6100 fq where Malta & YVTO mix; surely Antigua could find a better fq to relay (gh) R Ideal, 5060, 1 kW at 1000-0400; addr is Av. Las Acacias, Torre de la Previsora, piso 27, Caracas, Dir-Gen is Luciano Landaeta Lovera, stn says (WRTVH-LA July)

YUGOSLAVIA Tanjug reported that foundation stone for new R Yugo SW center was laid near Bi-P jeljina, Croatia on 30/6; would be commissioned in 1984; 4 x 500 kW xmtrs (WBI 8/7) Final-ly got QSL from elusive RY after 2 yrs; how? Earlier this year I wrote to Yugo embassy in London complaining about RY; they said I should write again. I did, enclosing the embassy letter w/long report saying if RY do not reply I must conclude you do not wish to correspond with listeners. Strong stuff, but it worked! Stn sent card, sked, calendar, booklet on history of RY. Addr: 2 Hildendarskaa, Beograd (Robert Stafford, Jersey, WDXC Contact)

ZAIRE R CANDIP to 2000* on new 5090; LWZ off 15245 & 15350; at 0530 hrd on 7255 9770 11720 (Richard Ginbey, RSA, RNNN 8/7)

ZANZIBAR I think R Tanzania Zanzibar managed to get their new 60 kW xmtr installed rather quickly, for it has been fairly regular now on 3339 at *0300, there on any good Af nite w/vy solid sig on many occasions; usually have Koran chants just after s/on (Steve Webster & Cedric Marshall, DK Ontario July) Much improved sig lately on 3339, possibly the Chinese on the islands have overhauled the xmtr; carries Dar es Salaam nx 1900, 2000* (Barraclough SWN)

UNIDENTIFIED 3319 12/6 & 14/6 EG religious pgm to 2207* and 1855* resp, P-F; on 3321 9/6 same 1930-2005*, TWR Swaziland? (Play-DX, Italy)
4800 17/6 0420 "La Voz de..." something after Lara s/off or f/out; possibly OCY4S reactivated? (Rolf Lovström, Norway) 5709 sounds like Bolivia but maybe Peru, hrd during Cajamarca 5658 logging & later, tnx tip from Crawford. Guitar mx, lots of flutes; Dave thot ID sounded like R Tatapi; I hrd ID 0202 that was one word w/6 syllables or 2 words w/3 each, 0128-0250 fade. Other OOB Bolivians not noted this night so maybe a Peruvian; definite Andean sound (Crawford & Reinstein, DXSF 24/6) 6300 at 0450, sounded like class mx, but not sure of anything: static level over S9 (Chuck Oliver, Spring TX) 7370 Rock mx, 12/6 0420, severe storm static but possibly WRNR; gone at 0500 check & no further activity on fq (Kirk Baxter, KS) 7410 11/7 0414, mx, M voice asking how well hrd; QSO; 0450 said would QSY to 11605, hrd more clearly on 11603, mx, audio checking; I quit listening at 0515 (Kirk Baxter, KS) 9515 Arabian, 27/6 1120-1133 W singing near eastern melody while man makes comments after every couple of bars; later instrumental mx, poor (Chuck Bolland, FL) 16/5 at 1130 on 9515, YL & OM comment w/mx, lang sounds Malaysian, may be RTMS Kuala Lumpur (Wayne Thompson, ASWLC)

CLANDESTINE CRANNY Liberty appears to have ceased bc. Farewell bcs in EG & SP of 21/6 were repeated on 22/6, 23/6, 24/6. Last mxsn hrd was SP *2400 24/6 = 0000 25/6 (WBI 1/7) In answering listener query on 2/7, RAE claimed it had absolutely no connexion with Liberty nor had any idea where stn was (WBI 8/7) Miss Liberty in SF 20/6 to 2340* on 11740, not audible on 17738. Star Wars theme mx, more SP talk, "Yesterday" Theme and anmts, more unID mx to s/off. What's she up to? (Robert Mounce, TN) 17738 still noted at 0000 26/6 or 27/6 but not since. Never understood more than 2% of what she said, anyway (Ernie Behr, Ont) Re the steady "motorboating" noise on bcs of Argentine Annie, which was variously reported as Brit jamming--Santosuosso's article in Monitoring Times--or a crude attempt by Arg to simulate Brit jamming, I believe it was neither. Audio on Annie's sig showed all the tech characteristics of off-fq microwave link STL. This would account for apparent jamming effect and nearly complete loss of higher voice fqs. They'd probably have been better off w/HF feed (Bob Rankin, Lawrence KS) Liberty m.c.e. 'er "farewell" bc 21/6 in two versions, EG

1800 & 2200, SP 2000 & 0000. These were repeated 22/6, 23/6, 24/6, 25/6, 26/6. She was not on 27/6 and has not been hrd since. Early in this final bc Liberty carefully took note of those peculiarities and mysteries surrounding her xmsns. Meanwhile, contrary to our previous conclusion, new evidence indicates that Liberty's technical problems were not caused by a faulty STL but rather cross-modulation, and what we reported as background noise was in fact cross-mod w/that jammer aimed at Radio Atlantico del Sur. This noise was first noted on Lib's carrier at 2340 t/in 21/6, only two days after RAS commenced opns; It was last hrd 15/6, the eve RAS made its final bc. The noise was gone the following nite but that 2nd bc stn could still be hrd in the background on Lib's carrier after she s/off 0044 until carrier went off at 0051. Similar reception was noted and taped 19/6, or 18/6 NAM time (SWNS)

R Falklands-Malvinas [Cf July LN] That addr in Ontario is fake; letters returned, address unknown (Steve Bonadio & John Fisher) Surprise

R Venceremos sent me two cassette tapes, Historia de RV and Interferencia RV, off-air recordings demonstrating effects of jamming; also assorted posters, QSL, 5 p of text which says RV first went on SW 10/1/81; before that, on 22/1/80 they were on MW w/hidden xmtr in San Salvador using name R Revolucionario del Pueblo, no fq given. Jamming began 26/3/82; RV claims it originates from the Spruance class USN destroyer, The Caron, anchored in the Gulf of Fonseca. RV cites a 24/2 AP article dateline Washington which says the Caron relieved another US ship, the Deyo which contained advanced eqp for gathering intelligence and comms data. RV says J started because of several of its news stories--bodies of 4 Dutch journalists found and release of names of 33 periodistas said to be on hit list of para-military group "Brigada Maximiliano Hernandez Martinez", 20/3 Brazilian cameramen were machine-gunned by rightwing forces. Six days later the J started & has continued regularly. Indeed, it is. 29/6 I hrd RV at *0000 on 6852//6952. Salsa mx came on a few mins later on 6851, effectively QRMing & hetting RV on 6852. Mx stays on one fq for a while then jumps up to 6950/6951 and QRM's RV on 6952. My modified RF-4900 has decent selectivity and in the narrow filter mode can easily defeat the QRM but I imagine Salvs w/less expensive eqp would have a tough time separating the QRM from RV. Somedays J stays 2 kHz below RV fqs. In these cases, no het is hrd, only splatter. 29/6 TV *0000-0116* and jammer s/off only a second or two later (Steve Reinstejn, FL, 29/6) Also got tape from their Nic addr, Apdo Postale 2363, Telcor "Los Escobros", Managua (Paul E Choroszky, Saco ME & Tom Gavaras, Plymouth MN) Tnx for printed material, Tom, which I translated on World of Radio (gh) I hrd that--why are they making such a fuss about one small jammer near their fq? Have they never noticed the hundreds of Communist jammers obliterating half the SW bands? And what about the jamming of R 15 de Sept & LV de Sandino, which originates in Venceremos' own backyard? A typical example of the Marxist double standard (Ernie Behr, Ont) RV continues hrd on 6952/6953, and 3/7 that for tech reasons wouldn't bc 0230 & 1200 pgms that day but would have spl pgm w/important info 4/7. 1/7 R Havana carried communique signed by Commander Mercedes del Carmen Letrona Luisa who was responsible for the RV system, indicating RV would bc at irregular intervals under 'war conditions' (WBI 8/7) Hrd 4/7 0309 on 6852,5//6951.9, lower one stronger, neither jammed (gh) Prior to the report to Congress of El Sal's human rights record, R Venceremos had an EG message to US congressmen 28/7 0110, repeated 0325, on 6852 & 6952. The American-accented man had a list of h-r abuses over past year and an attack on Reagan and his El Sal policy (Robert Mounce, TN) Cong SWLs??

R Farabundo Marti 29/6 0106 on 7044, poor sig & lost quickly under hams. Found again 0124 on 7025; 0125 switched to 7028; 0130 7026, 0131 7027, 0132 7037, 0135 7025, 0133 7034 etc. Fq changes often too fast to follow! All the while being chased by the 'music jammer' from the Caron; Lam pop mx appearing on same fq as RFM, then RFM moves until the mx hits again. Real cat & mouse game. Can't see how anyone can listen to this, since it sometimes takes nearly a minute to find them again. Seemed that it was easier to follow the jammer in order to find RFM! Think s/off was 0145, but not sure; couldn't find either after then (Steve Reinstejn, FL) This stn hrd since 6/7 0100-0130 on fq varying 7030-7043 (WBI 15/7) What about jammer?

La Voz de Sandino In 0400 xmsn 14/6 on 6220, told listeners that if jammed, the natl directorate (of the FSLN) was afraid that the charges/denunciations would be hrd. (In case of jamming) LVS could always be hrd nearby up and down the dial at 0000 & 0400; not hrd since (WBI 24/6) Hrd again since 12/7 on 6222v6228, and as 6200, sked as 0000, 0400, 1100, but only the first two half-hour xmsns have been confirmed. Annts since 18/7 don't mention 1100 xmsn. V of Sandino claims to xmit "from our soil, in the heart of the Nic mtns" nad stated 13/7 it had been off the air 'for strategic reasons' (WBI 22/7) 21/7 0009-0037* on 6220, M&W, mostly country by M, anthem before leaving air, some ute QRM, but no signs of jammer which has bothered this one in the past. The only ID I hrd them use was R Revolucionario Sandino (Santososso)

R Quince de Septiembre and in near future would be hrd on new 4250, making 3 bands and fqs; now hrd on 6900 or 5566 (WBI 24/6) And 26/6 now on new addl fq 7415, but not traced there (WBI 8/7) Operational on 5565 & 6900 at 0230, but 6900 xmtr has such weak mod I can't understand that they're saying (Steve Bonadio, Watertown NY, 4/7) Stn on 6900.0 in SP 0311 4/7 (gh)

Guatemala/Mexico Guat TV stn Trecevison quoted Mex offls 8/6 that Guat insurgents had taken over a radio stn in Comitán, Tapachula (SE Mex near Guat border) and bc msg against Guat govt. First incident of its kind (in Mex) (WBI 24/6)

La Voz del CID (Cuba Independiente y Democratica) continues increasing airtime & pgming: GMT sked now incl: 5106 *1000 Mon-Sat; 5106 & 7350v, not always in sync & sometimes diff pgms, at *0100 Tue-Sun; 11700 via R Clarin *0000 Tue-Sat; 4980 via Ecos del Torbes, Tue-Sat time not and but usually hrd 0105+; 5106 at *0015 w/"Musica Libre" pgm Mon-Sat. And new pgm "Desfile Musical" hrd 0022-0100 on 7352 6/7, not //5106 at same time w/Musica Libre; Desfile is all Lam mx as opposed to rock/disco format of Musica Libre. Ancr gave addr 0029 for reports on Desfile: Apartado 31-30, San Jose, Costa Rica. At 0100 went into IS, ID, and regular political pgm w/features Sintesis Noticiosa, Comentario, Trinchera de Ideas, Entrevistas y Reportajes, and spl feature "Se Llama Jose Marti". A curious item during CID pgm via Ecos del Torbes: 6/7 0107-0132 on 4980, anmt of fq 4980 was purged from ID/fq tape thus leaving 4-sec blank spot

before the OM said "banda de 60 metros." Other CID pgms on other fqs do ann 4980. The gap occurred thrice amidst three separate fq anmts on 6/7 bc so seems deliberate rather than purely accidental. Is Ecos del Torbes getting a bit touchy about identifying with anti-Castro militants? (Steve Reinstein, DK South Florida) This stn is really getting out worldwide, viz.: (gh) On 4980 at 0120, presumably via Torbes (Rolf Løvström, Norway, 17/6) 5106, *1005-1010, p 30/6, chime IS & ID, soon covered by RTTY (Hirahara, Japan, RNM) 5105, 1029 long SP political talk, 1041 ID, ancd fqs as 5100, 4960 [sic], 7350, first Aussie log? (Geoff Cosier & Nick Lock, SCDXC July) Lots of dates missing in SCDXC logs... (gh) 5105, 30/6 1000-1045* SP nx, many IDs, fq anmts, ment 40m, probably referring to 7350v, not audible (Peter Bunn, AIDXN July)

La Juventud Progresista Cubana/R Libertad Cubana Have hrd Comandante Cero (of LV de Sandino) ment a few times by Mr. "LJPC", (whom John Santosuosso still believes is Comandante David). I maintain that there are/were at least 2 people using the nom de guerre of Com. David, because I have tapes of RLC w/men having totally different voices and claiming to be David (Steve Reinstein, FL, 11/6)

LV de la Cuba Libre, 7190 14/5 0035, SIO 444 ID and giving this fq, sked as Mon & Thu 8pm (Jim Boehm, TX, SPEEDX July)

R Marti The House Energy & Commerce Committee Tues approved Reagan's plan for US propaganda bcs to Cuba, rejecting attempts by Reps Wirth, CO & Tauke, IA to make the project subject to FCC review. Their plan for FCC review was beaten by a 24-18 vote, and the bill then passed 23-3. Admn didn't want FCC involved in fq choice as that would entail delays (Al Gordon, Rocky Mtn News 14/7 via Bob Shrader, TX) And didn't want it to go on SW instead of MW 1040 kHz. Panel agreed 12-11 to amendment to let FCC set guidelines for compensating US stns for losses suffered due to Cuban QRM (UPI 14/7 via Alpert)

Spy Numbers Re June LN on violin mx stn w/musician on speed, hrd it at 0300 on 6822 last night --mx was Russian or Ukrainian "chopak", male-only dance, acrobatic, sounds like record my father has of Moiseev Russian Folk Troupe tho this doesn't shed lite on origin but at least we know mx is not self-originated. Anrc says "terminat", final stress typical of Slavic langs (Joseph Slomka, Albany NY) 6824 unID 0000v in A3H, #s in Romanian, "Terminat, terminat" by OM, treat avant-garde mx, like something from Edgar Varese! (Steve Reinstein, DK S Florida) On 17966 USEB hrd long 5-letter groups in EG, 2000-2035, 2045-2133 on 8/6 and other days (Ernie Behr, Ont) When letters are used in that way they are assumed to be substituting for #s-- probably no more than 10 of them altogether (gh)

R Solidarity made brief but defiant return to air 13/7 just two days after Poland's martial law authorities said they had silenced it for good. BC for 3 mins before interrupted by strong pop mx signal presumably emitted by authorities. Anrc said there would be no further bcs for two months. In a 10-min pgm on Sunday, State-run TV detailed arrest of 7 people involved w/illegal bcs, and capture of xmtrs. R Solidarity confirmed arrest of previous anrc, Belgian Irena Komaszewska, and two others (Reuter, Warsaw, 13/7 via David Alpert) Polish TV reported 7/7 that two days previously, Warsaw Security Service arrested 'yet another' group of R Solidarity organizers, incl anrc and a Belgian citizen. Polish TV alleged that he [sic] had brought into Poland medicines and medical eqp incl apparatus for measuring blood oxygen-- inside it was a VHF radio xmtr. He also had circuit diagrams hidden in his socks. 11/7 PAP quoted TV that R Solidarity's taped pgms had been xmtied from top floors of high-rise apt bldgs in ten different Warsaw locations (WBI 15/7)

Voz da Africa Livre per Brit nxpaper the London Observer broadcasts from Transvaal (Sennitt, Voice of Free Sahara, try this addr: Polisario Front, B. P. 10, El Mouradia, Algiers, Algeria) Now daily 2200-2300; elsewhen at 2100-2200; Fransson, Sweden hears it on 15190; also try other Alg SW fqs (John Campbell, RNMN 2/7)

Corner of Arab Egypt replaces Voice of Egypt of Arabism, R Baghdad pgms since 9/7, daily on 1035 only at 2000-2140. V of Palestine at 1600-1700, V of Arab Syria 1800-2000 hrd on 1116 & 1035 (WBI 22/7)

V of Palestine. V of the Palestine Revolution Since 3/7 this Beirut-based stn controlled by PLO hrd on new fq, 1140 kHz, // 1150 to 1955*: 1270 & 1162 not obs during current crisis in the Lebanon. VOP ancd two EC nx, 1100 & 1500; Hebrew 1530, tho news flashes thruout day in that lang in addn to normal AR pgms. Currently on air continuously 0400-1955 tho ancing 0400-0630, 1000-1300, 1500-1900 (WBI 8/7)

V of the Turkish Communist Party noted on 11818.6 since 20/6, *0150 IS & TK to 0250*. Since 1/7 also has another TK pgm at 0300-0350*, perhaps Bizim Radyo, vy weak w/BBC QRM; from Romania or East Germany? (Ernie Behr, Ont)

Voice of Iran On 29/6 Radio Iran detailed the 'other' xmtr of the Natl Resistance Movement of Iran--called VOI, daily 1930-2000 on 25m; so far unhrd there but on 9605 (WBI 8/7) It has now been established that there are two "VOI" stns, one at 1930-2000 on 11640 which like R Iran supports ex-premier Bakhtiari; the other hrd since 3/81, pro-monarchist at 0330-0400 on 15315, 1805-1900 9785 9605 (WBI 15/7) So 9605 ref three lines up applies to wrong stn (gh)

V of the Mojahedin-e Khaalq tho hrd between 6800 & 6850 kHz 22/6, obs 23/6 during 1700-1800 & 1830-1930 xmsns on 6710 (WBI 1/7) Now drifted down to fq varying 6650/6750 for 1700-1800 & 1830-1930, same range used for V of Iranian Kurdistan 1330-1545 (WBI 15/7) These two stns hrd 15/7 & 16/7 on two fqs, one 6570-6720, other ranging 7500-7550 (WBI 22/7)

NORTH AMERICAN PIRATES WCRS 4/7 0144 on 6975, disco mx but then it got better, Beatles, gave Watertown MA addr; 0215 how to make dipole, 50s mx (Steve Bonadio, NY) New stn hrd on 6975 4/7 0203, "World Community Radio Service", G audio on mx, but extremely poor on voice; long unintelligible talks; vy str sig, SIO 444, 0325* saying Q95B would be on at 0330 on 7425. WCRF, as it sounded, again at 0530 w/even stronger sig, Beatles, correct time at 0537, but ute QRM also stronger, 0601* after advising to tune to 7425 for another stn. 5/7 0438 on 6974, as before, 0447 long monolog, and at 0500, 0530*. 6/7 0327 on 6975, SIO 433, somewhat distorted but G reception on ICF 2001

w/just whip ant, but needed Drake ECSS/LSB to get rid of QRM. Variety of rock but child annts between, soft & hi pitched voice absolutely incomprehensible. Bad enough to have to fight static and ute QRM without stns using unusual voices. I gave up at 0445 (Kirk Baxter, KS) WCRS hrd 5/7 6975a, 0455, Beatles, fq IDs, long talks, off 0530 but back on 0545-0700+ (Bob Streeter, NY) I can forward mail to this one (Scott McClellan, Box 982, Battle Creek MI 49016) Also hrd here 4/7 0245 on 6974.75, says is ex-WHFO; lecture on pirate radio, ment previous reports, Beatles; 0307 ID, fq as 69-75, "Yesterday"; 0325 distorted mod on voice, 0328 plug-in in KQSB next at 0330 on 7425, and so it was; again at 0530 (gh)

WCRS hrd 1/5 1800 on 144.50, off 1816, addr as Box 4948, Arcata CA 95521, rp required for QSL. Reasonable sig, tnx Bares who rxd letter from stn. My 50th NAM pirate. Also reportedly uses 14570, 7425 (Scott McClellan, MI, 5/5) Sorry this got delayed! (gh) Hrd just like WCRS said, 4/7 0330 on 7425, very pro sound, probably pgm mixed at comml stn; IS, Arcata addr, parody of fast-talking ad, 0343*, SIO 333. More stns like this which have their pgrms together would be great (Kirk Baxter, KS) 4/7 0334-0341 on 7425, G sig, "We Want the Airwaves" tune; stn always seems to have vy short bcs, don't know why (Steve Bonadio, NY) Bet I do (gh) Hrd 0330 on 7425 mx starting after OC, weaker than WCRS but local T-storm starting here (gh)

R Indiana 4/7 0344 on 7425, only lasted a few mins; 0432 on 7390, SIO 222, s/off before 0453 (Steve Bonadio, NY) 4/7 0316 on 7424 ID, test? On & off several times; 0344 on 7423, ID, testing (Kirk Baxter, KS)

V of the Pyramids 0513 4/7 on 6280, op believes in repeating things too often (Steve Bonadio, NY) 4/7 0500 on 6280, 444, audio as clear as KQSB, and good mod; opened w/IS, then several rock songs; 0514 said 100 watts (or 400?), Battle Creek addr; drifting down in fq and xmtr trouble after 0520; ID & 0523* (Kirk Baxter, KS) 0502 on 6279+ 4/7 rock, presumed this; yes, 0508 ID, 0514 ID & addr, fq as 6280, 0522 ID, 100 watts (gh)

V of Syncom 4/7 on 7373.5 0407, G sig, talk about Lani Pettit, "Psychotic Reaction" song, finale "Catch us if you Can", to 0425* (Kirk Baxter, KS) Hrd 4/7 0409-0425* on 7373, weak to fair strength but low audio, opo & rock songs, 0411 said spl Indep Day pgm (Mark Warner, UKOGBANI, WDKC Contact) Not clear if he logged it or quoting Gregg Bares (gh)

WOOF 4/7 0611 on 7425, vy vy weak; WOIS 0633 4/7 on 7415 + 5, humorous 'interview' w/Victor Goonetilleke & Arthur Cushen and a song called "Go to Hell" dedicated to members of Numero Uno & Fine Tuning; does this mean open warfare? (Steve Bonadio) Neither hrd here tho tried (Baxter, KS)

Pirate QSOs also 4/7 at 0355 & 0538 around 7425 kHz, using phonetic calls EE, YN, CO, DL, B, and RFR, RM--all on AM except RFR (Steve Bonadio, NY) Also hrd some QSOs, CQs, 7425 0530(gh) WPOT 2/7 0247 on 6815, SIO 333, positive ID 0302, fair audio, G sig here, rock, "Shortwave Music Radio" as in past, to 0334*; 3/7 0215 on 6815, G sig, 322, but severe static, phone at 0232, maybe 516-654-9906; 0233 radio play; "Staying Alive", 0250* (Kirk Baxter, KS) 2/7 0331* on 6815a, fq ancd, after cuts from Loverboy album (SWNS)

Pirate Radio Central I've hrd that this and another NYC area stn were busted in Apr; no other info yet (Scott McClellan, MI, 5/5) DX Ontario July)

V of Free Radio 19/6 0556-0559*, "Rebel Rouser", ID & s/off til next week, F-G (R McVicar,

PUBLICATIONS

AM/FM/TV Station Guides Since Communications World demise, I and I

am sure many others have been looking for list of NAM MW, FM TV stns. Do you know of any such? (Andy Reid, Peterborough Ont) Yes, and they have been mentioned here as published--best to get FM Atlas, NRC Domestic Log for AM, and WTPDA Stn Directory for TV; however all three are covered w/less detail in NAM Radio TV Stn Guide by Vane Jones, a Sams pub, and in three formats--fq, location and call. Also, Broadcasting magazine is now advertising Across the Dial listing US & Can AM/FM/TV stns, for fast ref, w/formats, TV nets. \$3.95 for 1-4 copies plus 1¢ postage & handling, a "Handy-dandy looker upper", they say. Order from 1735 DeSales St NW, Washington DC 20036 (gt, ad via Walcutt from 28/6 BCing mag)

Oregon Broadcast Band Guide, 24p FRENDX-size booklet contains details on stns, cross references and map, nicely done. \$2.50 + 40¢ postage & handling (outside US, \$2.50 in US funds + 3 IRCs for airmail) from Frank Aden, Jr., 4514 SE 83rd Apt 5, Portland OR 97266 (gh)

Galaxy Electronics invites NASWAs to obtain their new free summer-sale catalog of scanners, SW rx, fq directories, etc.; Sony, Panasonic, Yaesu, Kenwood, Bearcat, Regency; Box 1202, 67 Eber Ave., Akron OH 44309 (Robert A Leary, Galaxy pres)

Time & Frequency Standard Stations, 28p offset, a little smaller than FRENDX, in fq order; 24th stns, time order and addr, \$2.50 ppd in NAM, \$3.50 ppd airmail overseas, IMO preferred. Also have Prepared Form Cards to encourage ute QSLs, info on either or both for SASE (Bill Potorti, 912 Plumaz St, Reno NV 89509)

Invitation to Electronics 1982, premier issue of Popular Electronics pub is now on newsstand; an annual quite similar in scope to former Comms Handbook. Covers video, computer, personal comms systems, and section for SWL/DX hobbyists, "Hobby Comms for Fun & Safety", pp 78-93. Within this section are several pp, 78-84 devoted to SWL scene, incl basic radio theory, superhet rx, ants, rx selection and DXing the SW bands (Rufus Jordan, PA, 1/7)

99 Ways to Improve your Shortwave Listening by Len Buckwalter, published by Sams, has projects such as ant tuner, crystal calibrator, headphone amp; also discusses SW subjects like timezones (Chuck Bolland, FL)

Practical RF Communications Data for Engineers & Technicians by Doug DeMaw, published by Sams. A little more technical but has plans for rx & xmtrs and ants; and for two noise blankers, that with just a little study one could build (Chuck Bolland, FL)

Popular Communications, new mag which is to include SWL/DX section, supposed to bring out first issue in Aug or Sept, ed by Tom Kneitel; charter sub offer of \$11 for one year, \$20 for two years, \$30 for three, option to cancel for full refund; Visa/MC accepted. 76 N Broadway, Hicksville NY 11801; 516-681-2922 (via Rufus Jordan, and ASWLC)

Review of International Broadcasting Nothing like it if you want quick and thorough coverage of SWBC scene and advance program listening tips. Samples \$1.25 in NAM from Glenn Hauser. 73!

QSL REPORT

Sam Barto
NASWA QSL Editor
460 Emmert St. B-19
Bristol, CT. 06010 USA.

ANARC-82: By the time you read this column ANARC-82 will of taken place. Happy to meet everyone in Montreal and hope we all brought back many fond memories...Sam. Will Montreal ever be the same again.

ALBANIA: Radio Tirana 7120 f/d "Flag" cd. in 84 ds. afterf/up and 2 IRCs. (Bryant-OK). same in 84 ds. for an EG rpt. (Oakenoff-CA).

ANTIGUA: BBC 6175 n/d "Bridge" cd. in 6 wks. Site was typed on cd. (Field-MI).

ARGENTINA: Radio Al Exterior 11710 blue cd. in 1 mo. w/ tourist info. (I won't be going!) v/s Carlos A. Alais Rumbado. (Kirkland-ONT). 6060 p/d cd. in @ 1 mo. for a SP rpt. (Palmerheim-MN). LOL 15000 p/d cd. in 2 mo. for a SP rpt. and 1 IRC. (Gliksman-IL).

ARMENIAN SSR: Radio Yerevan 17870 f/d white and blue cd. in 139 ds. (Eastman-TX). f/d cd. in 50 ds. for 2 IRCs. Schedule and station pennant rcvd. (Bryant-OK).

ASCENSION ISLAND: Radio Atlantico del Sur 11820 non-verbe ltr. in 15 ds. and a cd. in 22ds Rpt. was for a program similar to 9710 w/ "Nueva Estacion Radio Atlantico del Sur ment-

* ioned frequently prior to 2359 GMT on 5/19. According to the ltr. the station went on the air one minute later on 9710 on 5/20. I must of heard the program about the station! Ltr. was from Ministry of Defence, Main Bldg., Room 5366, Whitehall, London SW1A 2HS. Card was from P.O. Box 408, London. (Craighead-KS)...Thanks...Sam. 9710 n/d "Map w/ Beam" cd. in 20 ds (Palmerheim-MN). cd. in 31 ds. (Gavaras-MN). Voice of America 17830 f/d "Bridge" cd. in 28 ds. (Palmerheim-MN).

ASIATIC RUSSIA: Radio Moscow via Khabarovsk on 12050 f/d cd. in 53 ds. (Bryant-OK).

AUSTRALIA: Radio Australia 15410 via Carnarvon f/d "Black Swans" cd. in 17 ds. v/s Peter Barnatt. (Gliksman-IL). via Lyndhurst on 15160 f/d "Kookaburras"

cd. in 2 wks. for 1 IRC. (Palmerheim-MN). 5995 same cd. in 15 ds. (George-NC). 21680 via Shepperton f/d "Regent Bowerbird" cd. in 20 ds. (Loh-AZ). 17795 f/d cd. in 4 mo. (Whysel-

AUSTRIA: ORF 21620 f/d "Contemporary Austrian Art" cd. in 2 mo. (Choroszy-ME). 15560 CT). same cd. in 85 ds. for 2 IRCs. Sticker rcvd. (Bryant-OK). 5945 f/d "Sunset" cd. in 14wks (Whysel-CT). 9770 f/d "Austrian Challenge" cd. in 72 ds. w/ sticker. (Palmerheim-MN).

AZERBAIJAN SSR: Radio Moscow via Baku 11920 f/d "Moscow at Night" cd. in 52 ds. (Meyer-VA).

BELGIUM: BRT 21810, 11695 and 9870 f/d form ltr. in 1 mo. (Barto-CT). 11695 same in 26 ds. (Whysel-CT). 11695, 15360 and 21525 f/d cds. in 18 ds. w/ sticker. (Palmerheim-MN).

* Radio Del Mare 6205 cd., ltr. and sticker in 16 ds. for 2 IRCs. (Warner-UK).

BELIZE: Radio Belize 3285 f/d "Map" cd. in 17 ds. for 2 IRCs. v/s N. Johnson. (Palmerheim).

BENIN: Voix de la Revolution 4870 f/d cd. in 109 ds. for a FR rpt. and 2 IRCs. Also rcvd. a second QSL for the same rpt. 116 days later! (Tutak-NJ).

BOLIVIA: Radio Nacional 5974 via Cochabamba n/d personal ltr. in 3½ mo. for a SP rpt. and

* ms. v/s J. William Block B., Director. (Lazarus-LA)...Nice!

BONAIRE: Radio Nederland 6165 and 9590 f/d "Country Inn" cd. in 67 ds. w/ pennant and sticker. (Palmerheim-MN). Trans World Radio 9755 f/d "Studio" cd. in 23 ds. for 2 IRCs. v/s Theresa Coehring. (Kononchik-CT). 9755 f/d "Antenna" cd. in 78 ds. for 1 IRC. Sticker rcvd. (Boone-TX).

BONAIRE: Trans World Radio 11755 f/d "Antenna" cd. in 45 ds. for ms. v/s Bob Hoke. (Stephany-NY). 11815 same cd. in 50 ds. (Tekulve-OH).

BRASIL: Radio Nacional do Brasil 17830 "RadioBras" cd in 140 ds. for an EG rpt. (Stephany-NY). cd. in 64 ds. v/s R. Hzedof. (Tekulve-OH). Radio Clube de Ribeirao Preto 15415 ltr. in 3 wks. for a PT rpt. and 1 IRC. v/s Jose I.G. Pizani. Sticker rcvd. (Gliksmann-IL). personal ltr. in 18 ds. for a PT rpt. and ms. (Lazarus-LA). 3205 f/d ltr. in 192ds. * for 2 IRCs. (Meyer-VA). Radio Nacional de Cruzeiro do Sul 4765 n/d ltr. in 5 mo. for a PT rpt. v/s Ana Maria Carneiro do Matos. (Field-MI). ZIMBABWE: ZBC Radio One 3396 p/d cd. in 72 ds. for 2 IRCs. (Streeter)

This time around we only had 97 countries reported and for the first time we were only able to fill 7 pages. I guess this is our summer lull - vacations and everthing. Hi!

NOTES: Received a very nice letter from Sheryl Paszkiewicz who says she enjoys the column and notes that the reply time varies greatly even from the same station. Claude Noneman uses a Grundig 3400 Satellit receiver. He was one of many who answered the request by Baxter Hensley as to the meaning of the words "Tidak Dituntut" on the envelope from Malaysia. I sure received a great deal of mail in response to this question. Bill Mayer is still waiting for his QSL from Libya. So are many others. Bill Campbell told me a few days ago that he recently heard his name mentioned on this station. Bill anticipates QSLs being sent out very shortly. Al Schlaugat has enrolled at the Univ. of Wisconsin majoring in Cartography (that was my major!) Al has a hard time listening to the SW bands in a dorm. So does Gregg Baras in Georgetown. Don Moman passes along the information that Radio Nederland has an excellent set of phrases in Sp and PT. Thanks Don! I hope some of our readers send for this booklet. Don Hosmer became active again in the ranks of SWLs after a 16 year absence.... If any of you old timers out there have QSLs prior to the early 60s why not send good contrast B&W copies to the Column. We'll try to get them in.

A big thank you goes out to John Herkimer of Caledonia, N.Y. John has recently been helping me by reducing some of the copies that I receive from our readers. I would love to put many of the letters from stations in the column but we just don't have the space. Now that John is helping we can print these letters! Thank you. for the name last month John - it worked out quite nicely. Till next time....

naswa AWARDS reports

Greetings from Maryland and the doldrums of summer. The following report gives all awards issued during the period 1 April 1982 through 30 June 1982. The last 3 months have seen the issuance of some awards, but more importantly the finish of a 2½ year project at work, so that during the next 6 months I will be more "available" and will probably be able to get awards out quicker. It will also give me some time to repair my R-390A. Incidentally, if any of you know where I can get some good advice regarding the repair of an R-390A, I would really appreciate the information. I have a problem that defies my diagnosis to date!

Well, thats all the awards for this quarter. This quarter's report marks the 25th report on awards that I have issued since I took over the awards program in 1973. It seems that most people understand now how the program works, and things seem to be going well now. I would ask that you only submit psyment of the 0.75 fee in check, postal money order, stamps (20¢ stamps only), and cash. Payment by stamps in denominations other than 20¢ will be returned (minus stamps to get them back to the sender). I just can't use them! Please understand and it will make my task easier. Well that's all for this month. Oh, note the change in the local ZIP code here---20707.

13,

Dan Henderson

UPCOMING DEADLINES: 11 August (Mid-August) 22 August (September) 9 September (Mid-Sept)

Reproduction permitted provided credit is given original reporter and NASWA UPDATE. Dates, times and days are GMT; freqs are kHz.

ALBANIA Reactivated Gjirokastr (??), 5057, in lang 0350-0400; vy good. Running // 5020 w/ usual "nx" and talks. Where is 5020 located? (Stu Klein, NJ)

ANGOLA RN, 9535, still daily after SRI s/off (2245) to wall past 2315 w/ US pops, highlife mx, electronic effects, IDs 2300 and into nx and more mx. Strong. (Herkimer, NY)

AUSTRALIA VNG, 12000, in EG 0640-0700; good. Time pips and IDs every quarter hour. (Joe Kononchik, CT 7-18)

BOLIVIA R. Padilla, 3478, in SP 0130; weakly there almost every night. LA pops and vocals and a few IDs. Very distorted audio and noisy. (Herkimer, NY)+++ R. Abaroa, 4730, in SP 0440-0502*; IDs, latin pops, childrens choir, and medley of songs including Col. Bogey march interrupted at s/off for closing anncmts. Then plug. (Wildier Pickard, IL 7-23)

BRAZIL R. Riberao Preto, 3205, in PT 0114-0131, tentative; pgm of Brazilian accordeon mx w/ anncmts by M. No ID but did hear mention of Riberao Preto. (Henry Lazarus, LA 7-19)+++R. Iguatemi, 3295, in PT 0111-24; presumed; apparently religious pgm w/ talks by M and interludes of religious sounding mx w/ piano, M vocalist and chorus. (Lazarus, LA 7-19)

CAMEROON Bertoua, 4750, in FR 0450; fair. Long-lost friend returns! Afr tribal mx, M anncr w/ ID 0459 and Yaounde relay 0500. (Klein, NJ)

CLANDESTINE R. Vencaremos, 6852, in SP from 0022; guitar mx, taped ID by W over mx, speech by FMLN Colonel (Francisco ?) but music jammer quickly on thereafter. 6952 much better. (Herkimer, NY)

EQUADOR LV del Napo, 3280, in SP around 0230 nightly. In well. Nica campo tunes, romantic ballads, W DJ and full ID. (Herkimer, NY)+++ CRE, 4656.5, in SP 0520-37*; ID and futbol!!! Fair. (Pickard, IL)+++ R. Nac Espejo, 4680, in SP 0425*; ordinary latin ballads. (Pickard IL)

GREECE R. Stn. Makedonias, 15040, in GK 2100-10*; excellent and // 15050 also excellent. Nx by M&W, flute melody, ID and freqs. (John Herkimer, NY)

IRAN VoIRI, 9022, in EG *1930-2013; poor. ID by W, talk by M, hard to copy because of 388 QRN at 1952. Also noisy. (Kononchik, CT 7-13)

KOREA (REP) RK, 9570, in EG 1004-33; poor. M&W w/ nx, mx. Sounded like W was speaking from bottom of a well. Began to fade deeply 1025. (Kononchik, CT 7-17)

MOZAMBIQUE Maputo, 3210, in EG 0415; fair. M&W anncrs, talk on "atrocities" in Mid East, and so weiter. (Klein, NJ)

PERU R. Madre de Dios, 4951, tentatively as follows: 7-8 0208-27*, pgm of vocal mx, apparently religious to 0224, closing anncmts and tentative ID, NA 0226-27, and M saying "Viva el Peru." Then plug. Very bad static. Also noted 7-18 0149-0223*, pgm of nondescript LA mx, anncmts by M, taps and closing anncmts at 0221, NA to 0223, "Viva el Peru" and off. Strong sig covered by stronger QRN. (Lazarus, LA)+++ R. Chota, 6296, in SP 0339-56*; local mx, anncmts by M, clear ID simply as R. Chota 0339, closing anncmts 0353, preceded by the song "Brasil," and followed by NA. Off 0356. (Lazarus, LA 7-16)

SWAZILAND TWR, 3200, in AK 0410-15; fair. Talk by M, and religious mx between talks. (Klein, NJ)+++ TWR, 3275, in lang, 0358-0405; fair. IS, M anncr, lang ID, religious pgm. (Klein, NJ)+++ TWR, 3335nf, in lang 0405-10; fair. Rel mx, M anncr w/ talk, more gospel mx. (Klein, NJ)

ZIMBABWE R. One, 3396, in EG 0345-50; good. M anncr, talk, ID, "good morning," pop and Afr mx selections, more talk. (Klein, NJ)+++ R. 2, 3306, in lang 0350-55; fair. W anncr, talk, tribal mx, more talk. (Klein, NJ)

A BRIEF WORD FROM THE EDITOR: With this number, I conclude my fifth year in the traces as UD editor. There have been a few changes over those years . . . from DX Hotline to UD, from 2 to 3 pages sometimes for the mid-month, and a few others. I look back on that time with much satisfaction, largely because of the number of truly lasting friendships I've gained through this column. AS UD has changed, so also has the hobby. But the bedrock of the whole business--at least for me--is not what the rx digs out on a good night. It is the calls and letters and the all too infrequent eyeball QSOs I have with you. I hope my next five years will give me as many friendships as this last five; if so, I'll be thrice blessed. Thank you all.

So, who said that DX is less exciting during the summer? This past month has seen some excellent DX to be had, and judging by the reports, many took advantage of it. One small editorial matter — while we appreciate all loggings received, we regret that we cannot print loggings which have no details. As long as you're sending in a logging, give us a few details to go along with the more mundane information!

Congratulations go to Chris Hansen for an excellent job done on his first SWC. Chris and I occasionally confer on matters editorial, and his advice has been of great help in the time that I have been editing the column.

Thanks to all contributors, and to those who have dropped us a line. See y'all next issue, with, hopefully, more loggings like those above. 3's & 7's,

boa

log report *section*

JERRY BERG

Some very nice summer Peruvians: check 4951 and 5658; also 5504 . . .

- 4900 VENEZUELA R. Juventud, Barquisimeto, US pops at 0245 on 6-24, ID by DJ, into more of the same. Strong and clear (Meyer-VA).
- 4911 ECUADOR Em. Gran Colombia, Quito, fast talking 0525 on 6-19, ID, no mx hrd (Alexandre-PA); tent. this one, also 6-19, soccer match to 1130-fade out, could not wait out ID (Sparks-CA). And rptd on 4910, 0100 on 7-10, LA pops, ballads, M&W DJs with frequent IDs, TCs, vry noisy w/het on high side (Herkimer-NY); cntry on auto race at 0656, 6-19, weak but in the clear (Meyer-VA).
- 4910 INDONESIA RRI-Bukittinggi, 1205 on 6-20, weak with Djakarta mx relay. No ID noted, but rchek after end of Djakarta mx found 4910 in // with 3232 local prgmg (Sparks-CA).
- 4910 ZAMBIA Lusaka at 0420 on 6-20, good and in the clear till bottom fell out at 0445. Talk, native mx, mention of Lusaka (Billr); tent. this one on 6-22 at 0420, nx, Afr mx, nx at 0430 and 0445 seemed to be in different vernaculars with different ancrs (Glikman-IL).
- 4915 BRAZIL R. Anhanguera, sports 0026 7-7, TCs, whistle sound effects, ID 0055, good (Eastman); soccer 7-1 0040, TCs, ID by man (Reinstein-FL); ID 0215 6-2, mx, fair sig (Michaud); ID 0225, talk, ads, under het from another PT stn (Meyer-VA).
- 4915 BRAZIL R. Mac. Macapá, rapid fire coverage of sports event at 0035 7-1, electronic effects, big ID (Jordan); presumed, 0933-0951 6-29, mx, cmts, ads; vry poor (Bolland-FL).
- 4915 GHANA Accra, 0540 6-12 in vernac, local mx, chants, also an EG ID (Jordan).
- 4920 ECUADOR R. Quito, strong 0254 6-24 (Meyer-VA); mx, talk, 0320 6-23 (Samuel).
- 4920 AUSTRALIA ABC-Brisbane, 1310 7-2, opera, classical mx, faded by 1330 (Boone-TX).
- 4925 COLOMBIA EM.Meridiano 70, Arauca, mx, ads, ID 0235 7-4 (Hart); ID 0330 7-2, rapid talks, LA pops, excited IDs, TCs, promos, vry poor with heavy QRM (Jordan).
- 4925 EQUATORIAL GUINEA Bata, poor 0430 6-29, local mx, ID w/QTH 0435, 0440, nx 0445 and 0500 (Jordan); Afro nx 6-12 0445, exc on good Afr night (Valko); booming 6-20 0447, hi-life, arnts, nx by gal 0500; also hrd 6-22 (Glikman-IL); ID 0515 as "R. Mac. de Bata," first time hrd that ID. Jumpy mx, good level, 6-13 (Billr-NJ).
- 4932 INDONESIA RRI-Surakarta, mx 1154 6-30, ID 1200, TC, probably nx (Hensley).
- 4934 BOLIVIA R. Morte, Montero, fair-good 0009-0025 6-24, het, Bolivian nx items, TC, ads, ID, SP vocals (Krueger-FL); 6-17, 0052, poor in QRM; brief nx item 0100, then ID ("... desde Montero, Santa Cruz"), more talk (Reinstein-FL).
- 4934 KENYA Nairobi, pop mx 0332 on 6-20, man with ID, ads, to 0355 (Cacura).
- 4935 PERU R. Tropical, Tarapoto, mx 0221 6-2, TC, ID, ads, fair sig (Michaud).
- 4940 VENEZUELA R. Yaracuy, soft mx 0234 6-26, ID 0241 (Stidwell); lively mx 0259 6-28, strong, ID 0303 (Meyer-VA); sermon 1134 6-20, ID 1153, ads, then mx; fair (Bolland-FL).
- 4945 COLOMBIA R. Colosal, Neiva, mx 0930 6-15, ID 0935, rooster crowing, LA mx (D'Angelo-PA); ads 1027 6-22, full ID 1026, arnts, short commentaries; good (Meyer-VA).
- 4951 PERU R. Madre de Dios, Pto. Maldonado, 0155 7-2, 7 or 8-note mx phrase between spoken segments, full ID and QTH 0210; very poor (Jordan); 0218 6-22, many vocals, into light instr. at 0229, man giving ID and closing arnt over it, to 0231*. Terrible QRM and QRM (Morits-OH). Tent. this one 7-8, seemingly relig. vocals 0208, closing arnts and tent. ID 0224-0226, OA anthem, "Viva el Peru" and off (Lasarus-LA).
- 4954.7 AZAD KASHMIR Tent. this one, 7-9, 1245 in unknown lang, man arnt, Indian sub-cont. mx. No ID hrd, bad sig with Banda Aceh QRM from 4955. Could AKR drift this far down? (Robertson-CA). (UANX recently rptd AKR on 4960v at 1200-1400, and an Indian DXer rptd hearing them on 4955.—JB).
- 4955 PERU R. Cultural Amanta, Huanta, 1110 on 6-19, Ind.lang., no ID noted but prgm same as hrd before from this one. Nice sig but gone completely by 1135 (Sparks-CA).
- 4960 ECUADOR R. Federación, Sucúa, slow ballads 0121 6-23, IDs 0126, 0130; fair (Jordan).
- 4961 VENEZUELA R. Sucre, Cumaná, sports 0153 6-23, ID 0200, much QRM, some QRM (Jordan).
- 4965 COLOMBIA R. Santa Fe, Bogotá, ID 0707 6-19, TC, slow LA pops (Meyer-VA); ads at 0929 on 6-29, mx, good sig (Bolland-FL).
- 4970 SABAH Kota Kinabalu, 1245 7-2, unknown lang., MoR mx, pops; fair (Robertson-CA).
- 4970 VENEZUELA R. Rumbos, Caracas, call-in prgm 0350 6-23, ID 0357, fair w/ute (Valko); 3 IDs 0905 6-19, LA vocals; exc sig (Hensley); ID 0927 6-22, TC, ads, mx (Meyer-VA).
- 4980 VENEZUELA Ecos del Torbes, San Cristóbal, exc 0210 7-8 w/slogan "el sonido mayor de los Andes" (Reinstein-FL); mx 0931 6-18, TC, ID, ads for milk, aptnts; fair (Bolland-FL); long series of imaginative ads 0933 6-22, ID 0940, exc level (Meyer-VA).
- 4985 BRAZIL R.Br. Central, Goiânia, mx, IDs, 0155-0205 6-30 (Jordan); fair at 0300 ID (Meyer-VA); IDs, mx, talks, poor in static 6-15 0420-0448 (Jordan again).

- 4990 NIGERIA Lagos 0450 6-15, weak w/chants, pips 0500, EG ID, nx (Jordan).
- 4990 SOUTH AFRICA R. RSA, EG at 0415-0430, 6-6 (Biller-NJ), 6-5 (Kononchik-CT), 6-21 (Plot-nick).
- 4990 VENEZUELA R. Barquisimeto, LA pops 0100 6-23, ads, many IDs (Jordan); ballsads 0300 6-24, ID and TC 0309, talk, mx; strong (Meyer-VA).
- 4990 ECUADOR R. Bahai, Otavalo now here w/l kw, ex-2340 (RN Med.Network). Good luck—JB.
- 4996 PERU R. Andina, Huancayo, OA ex 0242 7-11 (Wiselblood-CA); talks 0458, tent. IDs arnd 0500, pable NA 0530; tent. (Jordan); 0500 6-14 campo mx, ID, sudden 0511* (Sparks-CA).
- 4996 SURINAM R. Apintie, DT mx 0329, ID, fair sig (Michand); comments 0915 6-18, Ind. mx, ads, TC; fair (Bolland-FL); tent. 6-30 0207 mx, maybe ID 0215, tough copy (Jordan).
- 5015 PERU R. Moyobamba, OA ex 1025 6-19, IDE, vy strong morn and eve (Moore-HOND); huaynos 1037 6-22, weak but clear; ID 1035, makes me want to return to Peru! (Meyer-VA).
- 5015 USSR Vladivostok, 1642 RS amts, orch. mx, flutter; //5970, 5990; 7-11 (Wiselblood-CA).
- 5020 ALBANIA *0255 7-9, pips, 0300 opening, nx; powerhouse, better than //5057 (Moritz-OH).
- 5020 SOLOMON IS. Honiara, 0747 6-17, after 9545 s/off, in // to 0747 (D'Angelo-PA); lstrs ltrs 0835 6-23, PSAs, 0900 ID (Rapillo-NY); EG and Pidgin 0922-1029 7-6, RA nx 1000 (Plotnick); mx and island singing 6-18 at 1050, fair sig (Bolland-FL).
- 5025 BRAZIL Tent. R. Borborema, Campina Grande, pops, tent. ID 0440*, 7-1; poor (Howard-CA).
- 5025 ECUADOR R. Splendit, big sig 7-2 0350, ads, hyper stn, echos (Reinstein-FL); 0500 6-19, romantic vocals, final ID, anthem, and 0505* (Sparks-CA). In Cuenca.
- 5025 PERU R. Quillabamba, ID 0145 6-22 (Meyer-VA); to 0256* 6-23, fair-poor (Howard-CA).
- 5026 UGANDA Kampala, *0302 6-13 and after, EG nx 0400 (Krueger-FL); not ev. nite (Moritz-OH).
- 5030 VENEZUELA R. Continente, Caracas, soccer 0210 7-5 (Boone-TX); 0934 6-22 (Meyer-VA).
- 5040 GUINEA BISSAU *0600 6-19, NA, ID, mx (Valke); ditto 6-20 (Biller-NJ).

17695 NETHERLAND ANTILLES Bonaire-RN relay: 1850-1910 FR W ancr, mx (Cobb-ME).
Another fine turnout this time despite rather high QRM during June-July, there is a chance I may be living in Long Beach beginning in September where I would be enrolled in the graduate division of the Electrical Engr. pgm @ LBSU. More next month- the Dodgers play the Giants up at Candlestick park tonight with Fernando V. pitching, now that should be a game worth listening to! As far as DX: Look for good far-eastern mornings on 49m during August.

73's de Steve

73's,

Brett

LOG REPORTERS

FRENDX

Terry Colgan, 8120 Ripplewood Drive, Austin, TX 78758

A plaintive request from several Log Report editors---make certain that your reports contain sufficient detail so the editors can check and double-check your loggings! And remember, the more difficult a station is to hear, the more detail your logging should contain. Often a seemingly insignificant detail in your report may help another listener identify a station he or she has heard but has been unable to catch an ID' from. Thanks from all of us.

Thanks, also, to the following reporters for this month:

Sam Alcorn, Morrisville, PA (DX-200); Brian Alexander, Mechanicsburg, PA (FRG-7700mod); Paul Amend, Portage, WI (DX-60); Jeff Biller, East Brunswick, NJ (FRG-7700mod); Chuck Bolland, Lakeworth, FL (FRG-7000, DX-160); Arthur Bonnet, West Lafayette, IN (DX-302); John Boone, Spring, TX (RF-2600); Michael Brissett, West Allis, WI (SX-190, DX-160); Paul Buer, Miami, FL (SPR-4); Jose Castrillon, Edinburg, TX (CFS-65S); Ken Cobb, Portland, OR (RF-4900); Vladimir Cucura, Reading, PA (R-7); Richard D'Angelo, Wyoming, PA; John Dillaman, Kalamazoo, MI (HA-63); Gene Eastman, Huntsville, TX (RF-4900mod, FRG-7mod); Richard Eckman, Rockford, IL (RF-4900); John Fisher, Chelmsford, MA; Bob Fraser, Cohasset, MA (XCR-30); Sholom Gliksman, Chicago, IL (R-4C, RF-2800); Pete Grenier, Azusa, CA (FRG-7); Norman Grosvenor, Hollywood, CA (FRG-7); James Halsena, Glenmoore, PA (ICF-6700W); Greg Hart, Bradenton, FL (DX-200); Michael Hawk, Hampton, VA; Baxter Hensley, El Paso, TX (FRG-7mod, SX-190); Ruth Hesch, White Plains, NY (R-1000); Frank Hixon, Chattanooga, TN (R-1000); Donald Hosmer, Dearborn, MI (RF-3100); Ron Howard, Santa Barbara, CA (SB-310); Rufus Jordan, Pittsburgh, PA (DX-302, Transoceanic); Joseph Kononchik, Ledyard, CT (DX-302); William Kreuzinger, San Pablo, CA (RF-2200); Kraig Krist, Falls Church, VA (FRG-7700); Terry Krueger, Casselberry, FL (RF-4900, ICF-2001, RF-2900); Rick Lucas, Stockton, CA (R-1000); Bill Mayer, Allentown, PA (GE portable, DX-200); Kevin Meyer, Falls Church, VA (FRG-7000mod); Gilles Michaud, Laval, PQ (FRG-7); Don Moore, Santa Barbara, Honduras (FRG-7mod); Steve Pacetti, Lakewood, CO (ICF-6800W, R-1000); Gary R. Pieper, Fraser, MI (S-85, Patrolman 10-band); Glen Piper, Rochester, MI (SW-717); Alan Plotnick, Hamden, CT (R-7); Gene Purdum, East Lansing, MI (FRG-7700mod); Brian Prokop, Willowick, OH (RF-2200); Fred Rapiello, Buffalo, NY (RF-2600, DX-160); Chris Samuel, Winnipeg, MB (RF-2800); Brian Sarkisian, Jasper, MI (RF-2600, MKII 7800); Robert Schoone-Jongen, Edgerton, MN (DX-200); Bryan Sharpe, Castro Valley, CA (DX-302); Nolan Stepany, Williamson, NY (R-392); Donald Stidwell, Baltimore, MD (DX-302, FRG-7); Andrew Straka, West Lawn, PA (ICF-6800W); Don Sutkus, Oak Forest, IL (DX-160, NC-98); Dave Valke, Dunlo, PA; Eric Witzig, Annandale, VA (R-1000); R. Worsfold, Don Mills, ON (DX-302).

Remember that the deadline for Log Reports, except those sent directly to the column editors, is the 12th of the month. Please use FRENDX log slips whenever possible and cut the loggings apart, including one signature slip with your report.

73 de ta,

Terry

A FRENDX classic

If there is humor in the shortwave hobby, Al Sizer, North Haven, CT, will find it. The following piece first appeared in the June 1974 FRENDX and it has broken me up ever since. Al says that any resemblance between this and any other DXer is stoutly denied, but I wish in a way that he was referring to me. The article is called....

THE SNOB

LOGGING REPORT

- 3290 TRISTAN DA CUNHA (presumed) With EE nx at 2000 but did not stop to ID as not needed here.
- 3942 UNIDENTIFIED Interesting Asian lang. Station here some nights around 0100; unable to ID due to Falklands QRM.
- 4008 KIRGHIZ SSR Frunze here at 1100 in lang. Easily ID'd by Kirghizian mx rhythms with unique diatonic scale.
- 4719.534 CAPE VERDE R. Clube Mindelo with fado mx at 2152. Freq. varies between 4719.533 and 4719.535.
- 5000 U.S.A. There has repeatedly been a difference of 100^u of a second between WWV time checks here and on 10000 kHz. Most annoying.
- 6155 SWAZILAND Seems to be six stations here but easily separable with my specially adapted SWC-22A with radar notch filter.
- 6250 EQUATORIAL GUINEA Santo Isabel with most interesting political commentary at 2200 in vernacular Afro lang. Will provide translation for SASE to any desiring same.
- 11760 COOK ISLAND Rarotonga. Yes, it's there almost daily around 0800. Surprised me the rest of you can't hear it.
- 16050 FUERTO RICO R. Luz, Santurce, normally 1600 kHz has drifted up to 1605, qualifying it for short wave under NASWA rules, and heard at this QTH on 16050 on 10^u harmonic. Cry your hearts out, guys!!

QSLs RECEIVED

- LESOTHO With my QSL from 7PA-22, the 100 watt Catholic School station formerly on 3824, the fifth grade students at Maseru have sent me a hand-embroidered Lesotho flag. Must find room on my crowded walls, even if my Andorra banner goes.
- TIBET Lhasa monks have sent me parchment scroll of verification. For DXers having trouble with this one, I will translate your report into Tibetan for \$50 per page.
- MANCHURIA First verie in the world marked "Haer-pin" (Harbin). Handwritten P.S. from Chou-en-lai says unfortunately not able to do likewise for other DXers.

NASWA ABBREVIATIONS

The following abbreviations are the ones most often used, especially by the Log Report editors. Though it might be desirable to spell out words rather than to abbreviate, the use of abbreviations permits the inclusion of more items in the space available. When reporting, you can also use the same abbreviations, but feel free to write out anything that might be ambiguous. All the times used in FRENDEX, except where otherwise indicated, are in the 24-hour GMT (Greenwich Mean Time) system.
