So members that wish first class service from next week Dec 7 1940 up to and including the issue sent out on January 11 1941 please send to your editor  $6 \ 1-1/2$  cent stamps, this will enable me to send it 1st class as you already will have a 1-1/2 cent stamp to start with.

Dont forget to send in your tips to WTAM Cleveland Ohio as they have a tip period each week from 11:15 to 11:30 PM Saturday nights. If you have no tips tune in any way and send a report as they have a new verie card which is signed by the members of the CRC.

From the reports I have received from last weeks question on what day do the bulletins arrive it looks as if they gave real service last week I will take these reports to the Supt. of Mails and I thing we can get some action as he asked to see the results. Thanks again for writing in.

Will some member drop your editor a line as to whether station KITE has any DX tip period. Also KSL. I am sending them bulletins but if they do not broadcast tips then there is no use of sending any bulletins to them.

Well your editor finally did a little DXing, I mean little. I reported to WS00 on their DX on the 28th and then turned the dial for another half to three quarters of an hour and could not find and DXing to do. Was at it again this am 11/29 but nothing on again. Thought I had KSAN but it turned out to be WNOE in a moment of weakness:

JOHN CURGAN PHILADELPHIA PENN. Since Oct 1st have hrd the following, VONF KPAB-KVRS-WARM-KORN-WLOG-WINN-WCBI-WBRW-WDLP-WHKY-KWJB-WJOB-KDNT-WAKR-XERA-WIZE-WPID-WJPR-WGTC-WORD-WJHO-WLBJ-WBLJ-WGOV, these have verified except KDNT. Hrd but not verified, KWFC-WFHR-WSTV-WKPT-WHKC-WMOG-WKIP-WOLF-KENO-WKNE-WGAC-WMRO and WFPG. Hope all members hrd WMRO as it was certainly a fine chance as the all nighters were silent, I had some code interference but managed to get a report off. Regarding verie signers, the fellows ought to disregard the names in Radex. I have had a number of reports returned to me as unclaimed by addressing them to such signers, the latest being WJPR. I had to return the report to the station with out being addressed to any one and in a few days received verie card unsigned.

CLIFF TAVENER ROSENBERG TEXAS WTMC verified with government card, WJHO verified and said my report was the 1st from Texas, hrd KXOK on their new freq of 630 kc very well, slight QRM from a Mex or Cuban once in a while KOY signs at 2 am EST and have clear channel here for final hour, KENO is cock of the roost from 2 am EST on 1370 with KSAN taking over the 1420 spot about the same time, did not hear the CP3 special, being on a duck hunt at the time and did not know about the CX6 until the fireworks were over. Rumors hath it that Radio Guadloupe is extinct but managed to log it Saturday night for the first time.

ARTHUR BRACKBILL LANCASTER PENN. I just started DXing about 1.0 days ago and hrd but 6 new ones, one of them being verified to date. Veries are slow. I hope to log about 30 stations between now and the end of the year I find that need 1.26 active stations. That shows how they can pile up on a person when they stop DXing for a year or so. Hrd WINN on their check this am 11/25.

Hope you get that program Art.

# ANOTHER S.W. CONTEST

The International Short Wave Club, East Liverpool, Ohio, is staging a gigantic SW contest. Here are the rules: Contest opened Nov.lst and closes next July 1st. Points will be compiled in lots of 100 for each 100 miles between the listener and the transmitter, measured by the shortest possible route. To equalize the location situation no station less than 500 miles from the listener will be counted. A station operating on one or more frequencies must have each frequency specifically verified to count more than once. Amateur verifications must show post mark and state that station was heard using voice. Verifications must reach the ISWC by midnight July 1,1941. The listener with the greatest no. of pts. will be given a Sky Champion receiver. Other prizes too numerous to mention will be awarded. The contest is open to everyone regardless of their location, skill in tuning, or what radios they belong to. There will be no entry fee. Enter this contest now.
