KPOW-1230-POWELL WYO Pleased by our reports from last season, Mrs Rose-mary C Meyer, manager of KPOW promised to dedicate another of her stations freq check programs to the National Radio Club. Most of us heard KPOW last year even with WITH on the air. To those who havent hrd this station-they CAN be hrd thru WITH. Dont forget to report this program fellows-just because you happen to have the station verified dont let that stop you from reporting again. Tax to Mrs Meyer. Arranged by J. Becker.

WASK-1450-LAFAYETTE IND Mr Joseph Spring, C.E. here wrote asking how a DX from WASK to be on all-night would be. So Nov 25th was picked. Selections will be dedicated to Officers and CPC men and to other Clubs, but the program will be predominatly for the National Radio Club. WNOE and KSAN may be off between 5-5:30 for this show, which will begin at 1:01 AM EWT and run until Mr Spring is exausted, as he said. The National Radio Club salutes you, Mr Spring, and here's wishing you good DX. Arr-E Cooper.

KWRC-1240-PENDLETON ORE This station and its cheef engineer, Mr Paul E. Walden have cooperated with us before. This time however they present an unusual show and we have received the following letter from Mr Walden. "Just a note to let you know what We've arranged for the special DX broadcast on Nov 29th from 3-4 AM EWT. We have an Army Air Base here, and in as much as most of the fellows are from the eastern and southern parts of the U.S., have arranged to have the program originate from the Pendleton Field Air Base by remote control. The greater part of the program will be music by Pendleton Field Military Band, with some interviews with some of the fellows. The entire show will be live, with Army talent being used. The Public Relations Officer will get publicity to the newspapers of the towns the boys are from, so the program should have a good coverage Well Mr. Walden's letter should speak for itself, fellows. Lets show the Army and KWRC how much we appreciate their efforts. All reports be sent to Mr. Paul E Walden, chief engineer KWRC. Arranged by R Cooper.

The CJRL program of Nov 29th was arranged by Dick Cooper, not E Cooper as announced last week, sorry Dick. Lefty.

1490 WMJM Cordele, Ga testing 3rd MON 4-4:15. (D Cooper)
      WOSH Oshkosh, Wisc played "Pistol Packing Mama" which made quite a
back ground to spirited S rmon from WJBK-Hi (E Cooper)
```

FRANK JOHNSON-PITTSFIELD N.H. Reception at this LP has been swell for the past week. Remember I overslept WTCM's DX-Special last, well I finally caught them on a special program. Hrd WRRF test on 2nd Tues and gave NRC Tips; WISE also mentioned something about the boys of the NRC. Who checks with Marches 2nd THBH 3:15-3:30? Very weak here on a very good nite. KGER hrd here after 3AM, also KDYL-R9 and another station very weak behind them after they s-off, who could it be? It was not KXYZ. Finally caught WCBI on 11/12 for the Club, tried all last year but failed, also got WFIG, thanks to you Fulton, 1340 kcs pretty busy on 2nd FRI. Veries rec here past week are WSPD letter & card, I mean EKKO stamp, not Card; WDRC-WEBR-WSOO. I told them I was using Bed prings for an aerial as they pushed WITH right off the dial. They replied back, looks like you have some pretty good Bed oprings. WLAV a folder-WENJ-WKNE. Reports went to WKNY-WOLS-WRRF-KLRA-WTCM-WAAC-WBOW-KFYR-KGER-VCBI-WFIG-WSAY-WAML-KORN-WDAK-KDYL-WDAE-WMBG-WJEJ and WOSH. Hrd about half of program, was glad to get them as my chances outside the NRC stood 100 to 1 in getting em. Keep up the very good work CPCers.

JOE BRAUNER-WILLIAMSVILLE N.Y. Have been inactive on DXing so far this season, too many other things to get done, seldom find time to listen in more than one morning a week but expect to do better soon. Logged three stations on BCB since last spring, WALB and WAAC hrd an regeived verie promptly, WSNY who is still out after about 4 weeks. WALB hrd on reg evening programs, WAAC on monthly check and WSNY surprised by coming in Q5 R7 one morning just before 7 oclock. On the club specials had same results on KWAL as Egge, poor DX date anyway, everything way below normal strength here. WKNI strong but so was WJbK, no trouble verifying WKNY but neither was there any pleasure in listening to the mixture of music and religious service. 11/13 WSTP was running its regular monthly test at 5:30 and was knocking the WJBK-WWSW duo right off the dial, WSTP's band music was complete master of the channel here, too bad some of those other badly needed 1490 stations cant do that. If WEGO has the wallop that Mr Nelson's other xmitters have, we should have no trouble hearing it, he has installed many stations in N.C. and all were easy to listen to, st least while he owned them. Still need about 50 active stations to complete USA, ought to be a good time to catch up now, with so few being licensed, but tests are hard to find these days. 11/14 WOSH gave WJBK a real going over this AM Q5 R8 sl.l. the way until I had to leave the dial at 6:25, Detroit just a whisper now and then in the background.

LEFTY COOPER-BROOKLYN N.Y. Verie in from WSUI.Reports to XEHL-KTTS-KGCU-WOSH-CMKV(sent to CMHI) and WJBO. 11/11 Up all AM and hrd lots of tests as listed in Kilo Komment. Also KTTS was testing with carrier and announced time at 3:56; 11/12 Again alarm failed me for WCBI-I guess I need that bomb under the bed too; Then I'll go places. 11/14 WOSH came thru in fine style, ofeth over WJBK, with Negro religious service. They publicised our tips but called WASK-WBLJ-WSNY, KASK-KBLJ-KSNY, Swell show. The Circuto CMQ is on at 6:30 Sundays with half hour English religious program-hrd on 690-800-920 kcs. Also CMHI-Cadena AZUL on 570-590-600-740kc Another on 910kc. Acception excellent this AM; 11/15 Reception still swell-WJBO on a bit late and stayed on till 3:20, swell publicity and mentioned our next 4 DXes. KGER hrd until lafter 3 with loud sig. KOVO was testing in CLEAR at 3:30-hope all who needed that boby hrd em.(I didnt Lefty-kay) When did WNBC move from New Britian to Hartford-Help? HERB CAMPBELL-ATHENS PA Sorry but I forgot WOSH-WJBO was vfb, couldnt be

HERB CAMPBELL-ATHENS PA Sorry but I forgot WOSH-WJBO was vfb, couldn't be improved, but hetrodyned by one of the worst sounding carriers that I have hrd in a long time. Logged WPAB but couldn't find anything to indicate that WPRP was on the air. If it was a tone test, there were no ann.

ROGER LANE-GREENFIELD MASS I am interested in SW & BCB DXing. Have rec 412 stations from 36 states & 46 countries with 23 veries rec & 10 out.

JOE BECKER-HAMILTON O Everything here OK and have sent reports to WCBI WRBL-WKNY-WOSH. Thank you cards to KWAL although I did not hear them and also a very nice Letter to Mr Gordon of WNOE for signing off. WAAC in Ft Meyers was the 1st new one I hrd since last April. My last new station was hrd Mar 10th 1943 being CHOV. WKNY & WOSH came thru pretty good although WJBK interferes badly at times. I hope that I will be able to hear WEGO-CJRL-WSNY-WMRF-KWRC, these are all new ones for me. KWRC will be a tough one for me to crack. WEXL doesnt bother me much and I get thru WJW pretty well. (Well doe you wont have to get thru WJW anymore-Ray)

FRED VAN VOORHEES-WHITESTONE N.Y. Reports sent out since last report are to WSPR-WNAB-WLIB-WSNY-WELI-WPTF-WDRC-WFEA-KGCU-WHIT-KEX-WCBI-WOSH. The veries in this week are KHJ-WSNJ-WLIB-WSPR. The weeks DX is 11/7 Daytime report to WSPR in clear at 6PM; 11/8 WMBO test at 3:20; 11/9 Daytime rpt on WLIB at 3:40PM; WNAB at 4PM; WELI at 4:45PM and WSNY at 5PM. WSNY was fighting with WHAI on 1240; 11/10 WMMN at 5:16AM; WCXR testing 5:20AM and WDWS test 5:20-5:30AM; WPTF logged 5:40AM and WBRC daytime at 4:45PM; WFMA in clear 6-6:30PM; 1/11 KGCU test 4:40AM; WHIT 5-5:15; 11/12 KEX copied at 2:30AM; WCBI 2:40-2:50 with QRM from WLAK-WDAK-WEXL. Was able to copy them thru the stuff tho. XEMX-1380 kc at 3AM; 11/14 WSAI & WDAE with good sigs at 5AM; WOSH with NRC special 6-7AM WOSH was good and easily copied over WJBK.

BILL GABRIEL-LAKEWOOD O DX has been looking up lately and since the westher here finally turned cold I have sent out some reports, namely to WDSM-WHKY-WTMA-WFEA-KGER-WFOY-WGAC-WBLK-WOSH-WRDW-WKPA-KFAM and my pride and joy-KCRJ. Only verie was nice Letter from WKNE giving me another state. WOSH came in nicely here-really had a swell DX for us. KFAM heard 11/15 3:30-4 R7-8; WGAC 11/10 R7 thru WJW; WFOY 11/10 R8 ditto; KGER 11/ 10 on reg sked R6; WBLK 11/12 3:15-3:30 R9-tnx DON MEYER; WRDW 11/14 R9 reg sked at 7:15; 11/15 KCRJ thru WEXL R8-9 3:45-4, said it was reg freq check, boy hope they verify. How many fellows have noticed 1240 is now clear? (I did, got KFXM on first Tues they were off, on reg Mon which they are always off got nothing-Ray) (Also WJW-850 kcs comes in Buffalo R-9 plus days and nights-Ray) Well WJW is no longer-at least there. But there will no doubt be a new station in Akron in a few weeks. The new WJW in Cleveland is really a neat station. Has honey of a sig and swell programs all day-especially no deytime dramas. WDSM did a crazy thing. Sent me a booklet on the station but no verie, so sent follow up. Anyone else have this happen? Notice a lot of noise on the diels -- funny thing, too, it never seems to let up. Could it be sunspots or what? Check on WDLP. They will be on the 7th. (Bill I asked because when you are out drop me a line as I have some here, wouldn't want to have you contact stations without using it, but we have to use it only for that as not too much here.

DICK COOPER-KITTANNING PA Additional veries from KVGB-WSDI-WTAR-KROS & KTUC all letters with a card from WKIP. KTUC was a new one for me and completes Arizona. Also received a letter from KVOK advising that they are silent each WED AM and are thinking about giving their almite sked. WKNY gave us a swell program but reception conditions were not too good. WOSH show was excellent and splendid conditions. Programs arranged with CFAR-KVCV-KFMB and KICD. Among those stations I've written to without results are WDBC-KEYE-WKEY-WINC-WBML-KFIO. WJEJ seid after the war they will DX for us and ditto from WJLD. I have numerous other programs coming up and hope you fellows will respond well, especially with the special programs. Remember it costs time and money for a station to run a special program and if they get only a few reports, naturally they aren't as anxious to repeat. The future of the hobby depends on how well you respond to DX programs. I dont agree with Don Meyer that our sked is too ambitious for war time, but then we are all entitled to our opinion-Hi.

N R C MEMBERS-PLEASE REPORT TO ALL NRC SPECIALS, ITS YOUR DUTY-J BECKER.

GRANT BATSON-WESTFIELD N.Y. Well 16 more reports sent out the past week compared to 20 the week before. On 11/9 WBT test 4:58-5:29; 11/10 WDWS 5:15-5:30; 11/11 KTTS 5-5:30 and later; WINX 5:30-5:45; 11/12 KGER 2:52-3:22; KWYO 5:15-5:30; 11/13 WOMT 4:09-4:20; WBTH 4:29-4:46; WHBQ-5:05-5:20; KIT 6-6:15; CBJ-6:20-6:45; WDBJ 7:03-7:30 PM; 11/14 WOSH on NRC special Q 2-4 R 6-9 a swell DX; WNBC 10-10:15 AM and atention Fred its sent to New Britian -- . This was daytime reception. 11/15 WJBO NRC, lots of QRM from a Mex and some Californian; KLX with Cigar Box Revue 3:30-3:45; Veries received, Letters WFIN-KFI & EKEO stomp-WRUF-KLS. Have 27 reports out now and the ones from Calif are beginning to come back so hope I'll be swamped with veries soon. If they down I don't think that I will be at the end of the contest. Anyone coming my way is welcome and for DX have a nice comfortable couch bed near the radio, furnace heated rooms too, but bring your own alarm clock, I only have one.. I've figured out the Mex on 800 kc under CKLW, its XELO, hope I can dreg them thru. A Cuben there mixes everything up. The CPC boys are getting some swell ones need several of those and will be twisting the dials. Delaware stations ,one on 1450 kcs used to test around 1:45-2AM the second week, don't remember what day. Its tough to pull them thru that freq at such a time due to QRM. The QRA of KLE is Oakland, 12, Calif.

HAROLD HOWARD-WAPAKONETA O I've done pretty good for mysclf in the past 2 weeks, I think. I reported to WWL-KTBS-WBAP all on reg skeds. 11/4 WHLN on with election returns; KGNO on check; 11/5 from 2-2:30; WDSM on equipt test 11/5; On 11/9 I really pulled in the DX altho the static level was fairly high. I reported to KSJB monthly check from 2-3AM; KFUN 3-3:15 with an R9 signal for a new state; WJMC-KAVE behind WJW 3:20-3:27; KGKL 4:30-4:43; WISE with YL announcing with dedication to club (No Harold it does not count as it wasnt know they were going to do this-kay) KGER-WRRF 4:45-5 during which they read our DX Calendar; WBTM on a test; KOCY freq check; WWDC reg sked s-on at 6AM; WKAT reg sked s-on 6:30AM; 11/14 reports went to KOA, just overslept on WOSH special, got up in time to hear last 15 minutes, almost too much WJBK but did manage to get a fair report; WHBL s-on at 8:45-9AM R3 behind WFIN, boy I've wanted them for a long time. WDAY at s-on at 8 with R9 plus sigs; KMA and WFLA. Incidentally I have a verie from WOSH dated 6/22/42 stating that my reaport was one they had received from Ohio (I verified them on reg sked Harold on Mar 11 1942 believe it or not, they were on top of everything on 1490 kc-Ray) This made them hrd in 14 states and Cenada and New Zealand. TO ERIC BRISTOW-WHBL was hrd s-off one night at 10:15 PM on 1330 kcs. Only veries in are from WSM letter with EKKO stamp-KGNO-WLBL-WHLH-WBAP-KGNC.

RAY EDGE-BUFFALO N.Y. First of all I wish you boys would drop the Mr. when writing here, its just Ray or "Pop" to you all, remember this will you, tnx. Well thought I better put in my doings in DX or you fellows might think that your editor doesn't do any. Reports going out since last report are to KVGB-WCBI-XEB-WOSH-WJTN-WJWon first program on 850 kcs-WJBO-KFWB-KONO-WCRS-KFXM-WGAC, reports to WCRS-KONO are my 2nd and hope they not veries this time. KFWB was sent because nothing alse was hrd that I didnt have that AM and I wasnt going to spend an entire AM without sending at least 1 report, so by this proceedure I will probably have a few duplicates. However this has worked swell with WJTN-KWFC-WHMA as they brought swell letters where as before they verified with lousy cards. Veries since last report are from KOMO-XEFI-WSUI-WJPA-WJTN letters and cards from KVGB at last, thanks to Harold Hardy the engineer-WMRF. Total different veries now 785. Oh yes a verie today from WHAZ for our special. Also a report today to CJBC formerly CBY on 1010 kcs. R9 plus here. WOSH rec swell and WJBK interfered only when those loud Hallelujah's came from that Negro congregation. Doy could they yell and how. It looks as if I have missed somexswell stations testing, will have to keep check on them and land them nort month. DONT FORGET THAT \$5.00 PRIZE FROM WERF.

Well boys there is your DX CALENDAR, now its up to you to report to all of them that is possible. Remember its your reports that keep stations on the DXers side. If you find it impossible to tune in or if you are unable to hear the program PLEASE DONT FORGET TO SEND THAT MOST IMPORTANT THANK YOU CARD. By failing to do either of these you are HURTING your CLUB and all other DXERS. We know that many of you are working long hours etc but it should also be remembered that you like DXes from stations that you have not verified, so remember you might have a station verified but your fellow member has not. So if at all possible take time out and tune in all the Special DX programs that are on for your CLUB and report to that station. This appeal is made by both your Club President and Editor along with every one of the CPC men. Please dont fail us.

ORES WILSON-READING PA On 11/14 got up for WOSH DX special and came thru fairly good-weak to moderate till 6:30 then weak to very weak to 7 AM. Announcer had great time kidding. WJBK heavy interference with noisy religious program; WJW ended career on old freq at 7 to go to 850 kc at 2:30 AM same day. WWSW comes back at 8:45 they stated. Swell DX morning everything clear and no static. Sont Tnx card to WNOE. Only verie recthis year is WTOP and WBYN out. Well I will get a few this season anyway. Will get in touch with Bob Botzum again, visited him in 1940. (117-Ores)

STAN R MORSS-BRADFORD MASS Reports out to KFPY-WJBO-KFAM-KFVD-KELD-KGO-KFDA-WMBH-WRDW-WKAT-WOSH-KMA-WHBI-WBYN. Station on about 1.395 in French on Nov 15th seemed very weak, at 2:28 AM mentioned Vichy, but faded abt 2:32 AM. Also Spanish speaking station on 910 kc at 4AM. Veries from WGH-WJPA-WFTC-WGNC-WMGA-WGRC-WSWV-WMFR- Also who was on 1220 kcs R8 and in French at 3:10 AM Nov 15th, gone at 3:30AM? CJBC R4 in back of WINS and plugging new call between and Guring program at 6:30PM. CHSJ on top of 1150 kc at 6:15 an R7; with CKCC and WDEL audible. No WCOP? Report to CBJ at 8PM on Nov 15th.

HAROLD BURSTROM-E CLEVELAND O Well things are abt finished around house. Believe me its a lot of work when you have your own home (Your telling me) Now can relax a little. 10 hrd in shop is about enough work. WRRF on test 2nd TUES 4:30-5 gave NRC a good plug and WISE on same date, 4:15-4:30 gave NRC good plug, the announcer was a woman named Bettie Freeman. Well at last WJW if off so maybe we will get some of those on 1240 now. Will try to send dope in near future. (OK Harold, stationery will be send as soon as received from Dick. The for another \$1 for service Fund-Ray)

PAT REILLEY-JAMESTOWN N.Y. WCBI came thru OK, WEXL & WEMP bothered some. Others on 1340 were WDAK-3:10-3:25; WFIG 3:30-3:45; WGH 3:30-3:45; KVOL 4-4:10; WMAL and KVIC also on 1340, west coasters also all good. 11/13 Bad buzzing and too noisy to DX and my 76 tube burned out but have a new one now, listened to Leopoldville, Belgian Congo from 8:15-8:48PM on SW and as clear and strong as our WJTN with very little fading, all program in English, this my first try at SW DX for 6 or 7 years. They are in English at 24:15-24:45 GMT on 9860 kcs. 11/14 Bad buzzing, quite noisy, usual west coesters good-WOSH came in good and over rode WJBK until about 6:30. CMQ 800 came in at _;30 in English. 11/15 Got up for WJBO but totten shape with hetrodyne of Mckican and 2nd station on testing cycle notes and quite noisy over the dial. 11/16 Didnt DX as I was up late the night before. Veric back from WGAC after 5 tries, they check 2nd WED from 3:30-3:40 and John G Lyon is c.e. (Ex W4FAL) using 195 watts on the test. FRANK LEE-WILDWOOD N.J. Still alive, but guess you boys thought 1 had given uo. No time to give details now. I am not DXing however I always look for and read the bulletin. If I getvtime after the 1st of the year I will listen and drop a report. (OK $F_{\bf r}$ ank on your new QRA and was glad to hear from you, missed your reports, hope that you will have some time after the 1st of the year and be able to land a few of those swell specials) KRIC BRISTOW-CHICAGO ILL Have hrd WPAB-KFAC-KFH-WEBC-KRGV as new ones. Found that WHBL s-off at 10:15 PM EWT. Heard Greenville now and then and will try to log it soon for a report. Got a letter from Leo Herz which was mailed on the boat, V Mail really comes fast. I like the way Frank Wheeler is listing the Heard & Verified column, you can see how far you are behind the others and see how many you need to pas the fellow ahead. ROY PHELPS-WASHINGTON N C Well here I am. Did you hear our freq check program on 11/9. George the C.E. read off out tips and publicized the NRC for us. Getting down to brass tacks-Leslie Smith, better known to us as "Smitty" who is salesman here at WRRF told me to give you guys something to look forward to. He is offering \$5.00 Five dollars to the DXer who is the furthest reporter. He says he doesn't care a hoot whether the furthest reporter is a member of the NRC or not. but if you publicize it in DX NEWS enough it'll probably turn out to be an NRCer, hope so anyway. Can any of you get the 2nd harmonic of WCAU? They come in here R3 on 2420 kcs and by the way they were QRMing you Ray on WMJ, Looks like I'm specializing in 2nd Harmonics. My first verie was from WDOD's 2nd Harmonic. The \$5.00 mentioned above is for the furthest report on Dec 14 DX. HAROLD HARDY-RADIO STATION KVGB-GREAT BEND KAN Well thanks to the NRC we received a larger number of reports on our DX program on Nov 6th. We certainly appreciate what your club has done for us, we have never received as many reports on any one other DX program. We have ran out od DX cards but are having more printed and we'll be able to VERIFY ALL reports. As you may know we had the Air Base Band on the last program. Almost every report that we received said that the Band was very good and the signal strength of KVGB was very strong. The announcer on the program was a former CBS announcer and is now stationed here. Since receiving so many reports on the last DX program the station is some what DX conscious. Previously we merely played a few transcriptions at the transmitter and called it a DX program. But I believe most of program will be made up of live talent. The program dept are starting to work on the script for the December 4th program. I gave them all the dope on your club that I know from what you sent me, and insisted they plug your fine club. (Well thanks for your swell cooperation Harold and we will do all possible to see that you and your station got many reports. We

cal also thank Carroll Seth for getting you in contact with the NRC, &

by the way Carroll what has happened, no hear lately-Ray.)

Barracks 2013 Traux Army Air Base Madison, 7, Wisc.

PFC EDWARD WYMAN A 5 N Note new Barracks number. Well I have visited 32585765 621st T S & most of the stations around this part of the country and was refused entrence to only WRJN. (Yes they owe me a verie, got mine from WCLO Ed, a little late but a swell letter-Ray) I've been to WLBL-WOSH-WHA-WIBA-WIBU-WCLO-WROK-WTMJ-

WEMP-WISH. When I was down to WROK I intended to see Bud Kopp but couldnt find his QRA so I missed him. Boy when I hear these fellows hollar about about their bulletin being late I have to laugh, mine never comes until FRI or SAT after they are issued but they are still plenty welcome. Boy the DX around here is beautiful. The other day about 1 oclock in the PM on my 6 tube portable Zenith I had XED-XEW-KOA-KTSA-over KFYR-KPO-WWL-KFBK and quite a number of others. I didnt bother to list them because I havent got time to do much DXing so I just listen and let it go at that. I sure hope that you get that verie from WCLO. (I Lid)

- 32843579 L2th T S S Barracks 750 Scott Field, Ill.

PFC KENNETH PAGE A S N Time out for a little dope. I'm strating to get busy again now and will be until I ship over to the 4th Area. The last 3 weeks are always sorta hectic. We have small arms and first aid and dential appointments etc. We keep just abt

as busy as when we shipped in. Three weeks from Tuesday I should ship out of here, if I can pass my code checks in mockups. Usually about half of the class have trouble and wash back from mockups. Hope I dont. (Well you have all our good wishes Kenny) Until this week I have been getting the bulletins on Mondays but for 2 weeks in a row it came on Sunday and this week it didnt get here until WED. Must have been lislaid somewhere along the line. Say Ray you better get off your horse a little and get further up in the contest, dont rely too much on KHBC because the rest of them only have to get it too and what good will it do you. I hope that I can get me a furlough after I get done here. The boys have treated me swell. and kept me well supplied. Got an inspection coming up so will sign off and you better get a few thousand more miles for that contest, show em that they have to beat Buffalo DXing to win end hold up our end until I get back and releave you. (OK Kenny, but I do miss your phone calls, so I have to put the alarm so I have to get up to shut it off-Ray)

B-31015 SGT STONE W.H. 4th F D S 2nd Div. Canadian Army Overseas.

Here I am once again in the pink of condition, and as happy as can be and hope that this finds every one the same way. Expect to move again in the near future. Took exam for Class B

Wardmaster on will not know if I passed till next week. They didnt tell. me I failed like they did 3 lads so am hoping. Its pouring again and we have plenty of protective clothing so we are not worrying. I noticed about the small get-to-gether over Labor Day. Wrote a letter to Leo for this side, ought to have a reply by end of next week. OK on DXing with Dick Cooper over Labor day and that WMRF will be another I will be gunning for upon my return. Xmas cards are out over here. Well the Allies are really going to town these days. We are now in a millionaires estate now real classy dump. My family are in pink of condition too.

STATION DOPE

The CBC has been divided into 2 networks, The Transcanada with CBL as key station and the Dominion network with CJBC as key station. CBY changes call to CJBC (Nov 15th) and will increase power to 5KW. Transcanada will have CBR and CJBC as main outlets. Dominion will have CJVI & CHLT as main outlets. Also Maxell Williams c.e. of WCBI joined the Armed Forces and replaced be David Livingston, temporarly.

NOTICE TO BCB CONTEST ENTRANTS-SEND ALL ENTREY'S DIRECT TO FRED VAV VOOR* HEES 166-16 17th AVE-Whitestone NY. DONT SEND THEM TO CLUB HQ.

2915 GRC 7:00 PM to 11:30 PM.

Well Boys you did a lot better this issue. Lets keep up as good as we can. I know that we are most all working long hours and all that and we sometimes dont feel like DXing. But when ever you can listen in and send your report so that it reaches me by Tuesdays, Thanks, Ray.

NOTICE

NOTICE

NOTICE

November 20 1943

All you DXers please read the item about reporting to station WRRF on Dec 14th on 930 kcs from 4:30 to 5:00 AM EWT. This station has offered a prize of \$5.00 to the DXer who reports from the greatest distance. So maybe it would be your worth while to tune in and maybe your report will be from the greatest distance, even you SW DXers, \$5.00 isnt to be overlooked even in these good times.
