- Asterisks indicate program counts for extra credits in our Domestic DX Contest.

Addresses and Information:

H C 2 A J - Reports, with International Reply Coupon, to: Sr. Leonardo Aviles, Gerente, Cia Radiodifusora del Ecuador, S.A., Casilla #3324, Guayaquil, Ecuador. (XEG is standing by for HC2AJ. How about dropping them a card thanking them for giving us this chance of hearing a real DX catch?)

W T W N - This is the first program arranged for us by our good member, Ken Murphy, and it is a station mostly all of us need. The channel should be clear of all but WHHM (excepting for brief frequency checks, possibly) for the show, which will feature familiar music, probably dedications, and also probably the voice of Ken Murphy himself. We hope you all log Vermont's new station, WTWN.

W C M B - A telegram in here from Charlie Conley says: "WCMB, 960, Lemoyne, will run National Special four to five morning December 4th stop - Conley at Mike - stop - Arranged too late to advise Addy, hence this to insure making next-bulletin - stop - All unorthodox reports will be sent headquarters for comment." This should be a clear channel, and a great opportunity of hearing WCMB, and our own Charlie Conley.

We hope that you will support all these programs and listen in, and send in a report, making sure to make it a good, worthy report, including return postage. Don't forget.

MEMORY GOOD?

We've been publishing Gene Francis' "What the Call Letters Mean" for four issues now. How about testing your memory now on these, and find them listed inside? KGLO KOCA KWTO WHAI KVMV KRBA WEIM KPFC WSJS KROD? See how good a score you can make.

Musings of the MembersDerek Wharton - 1231 Norwood Street - Chicago 40, Ill.

First of all it seems that they are making a cook of Donald L. Frey, as his new address is: Pvt. Donald L. Frey - AF 16339862 - 28th Food-Service Squadron - Rapid City Air Force Base - Weaver, S.D. Why not send the bulletin to him direct? Here goes for some very good fishing in the big pond by the only surviving Gruffy Sniff. Out of 30 re-writers sent out, 7 have come back and all within a period of 2 weeks. Starred are letters. WVWC from 2 years ago, KFIZ* the same, WDSR* I'll quote from this letter, KWDM* WIBB* and WNER & KVRH. KNCM-DX and WTAAQ* from Russ Salter, C.E. and Mgr. All the Missouri DX tests were on except KRMO and I needed them all. Heard KCHI KMMO KCRV. KIMO @ had - KBOE on ET very poor here, WAYN on short test, KSUB on f/c, WKOZ on f/c with TT & CW. Big day on 11/11. KTXC on top of 1400 mess with TT and M 2:00-2:22, KAKC regular sked, WSAV on top of KXOK, WMC under WBBM, on regular, WMAY on regular, KJSK 6:00-6:15 PM s/off under WLS, WABG regular, AM, KNUZ on top 1230 mess for first report. 11/8, I forgot this - KRCT topping WSM 7:00-7:30 s/off, WVMI DX no slop from WIND, WMAM on late with election returns, KTSA same, WEMP regular. 11/12 - WOND, WLOW fighting it out for two new ones heard. ITEM: 11/11 WJR off for transmitter trouble 1:33-1:43 AM. KGU logged, OH JOY UNTOLD. Been after him since I stated DXing in 1929. WBRW f/c, KELP f/c. 11/13 - WTIL, 1300, Mayaguez, on ET. Very little English used all AM. KASM, Albany, Minn., population 986, 1150, ET all A.M., WCUE first 15 minutes tough here, and best of all, coming in over a high level electrical QRM, BB-106 on NRRC DX, with very little Engoish used, about once every 15 minutes. Guess this 15 tube Philco is OK as I am the first ever to hear South America on the BCB here in the city proper. Getting back to the letter from WDSR it really shows the value that a station puts on the members of a club. Quote: "You will please excuse the delay in answering your DX report, but at the time we received your report we were in something of an engineering mess and your report was completely passed over." Upon checking our log, we find that we were on the air, but as to records played, a log was not kept. WERE YOU NOT A MEMBER OF THE NATIONAL RADIO CLUB we would have had to consider the report worthless. You see, we have had some non-members of the club write to us a DX report that didn't even resemble the program the party had logged.... New f/c third Monday from 2:20 to 2:30 a.m. (I assume EST, as he didn't say). You cannot beat the NRC - it's the best club going. The signer for WDSR is Ted Dudas, Staff Engineer. There is a guy around the corner who may become Gruffy-Sniff #2. He's an old-timer in radio reception and the bug seems to become restless after a sleep of more than 20 years. Bet he'll be in the club if I can swing it, and Dorothy, whom he knows, doesn't kid him too much about it being a bachelor's hobby. (Hi, Lefty!) For you who don't know, Dorothy is the Mrs. Conditions are such that the cue ball will have to let the crease in his skull continue, as there are no more "cans" available for trip into the ionosphere. Sorry OM but I have another pair which may do. Let me know. It seems that the heifer finally moved away from the door of the transmitter house at KPAN as the CE seems to be back on the job. Wants to do a test for us That's what he said at the end of last season to Don Frey. Will dig up that letter this week and see what happen. Maybe I'll try to continue a CE's diary. I'll have to give it a good think. All for now - best of 73s and DX to all.

Joe Enz - 288 Central Avenue - Brooklyn 21, New York

Doing a little DXing now that work shift is changed from 5:00 a.m. till noon. Get up around 3:00 a.m. and DX till 4:45 a.m. Work close to home and am usually home by noon. Veries in here are KSJO, out 7 months, KMED KTER KOKO KCOL WBIW WVOP WOND WATH WGI G WXRE (Signer on this, Charles Cordido, Mgr.) WKJG WJAY WGRA WGAU WBIP WIEL WSIP WETO WGCB WAFB WELR WACB WHCC WGMR WMON WAPX, all very promptly. CB-106 definitely @n Monday AM Nov. 13. Logged fairly well at 4:15 a.m. with English announcing, OK till 4:30 when XEG put the squash on them. KHON seems to come in very good but the other Hawaiians have not shown up here as yet. Lots of TT but no calls. Have reports out to CHUB WILR WMJM WGET WATS CB-106 WVOK etc. Not too much but it gives me a start. Should be able to get plenty that I missed the last few years. Nearly every AM one or more are logged that I haven't got. One has me stumped. Heard a WHDC on 1470 - William Henry Denver Charlie, heard several times. Voice. Well, that's about all here, so good DXing to all.

Alfred E. Bruce - 6615 Quinncy Street - Philadelphia 19, Pa.Received a verie from WFBC, Greenville, S.C. Came in R-9.

Musings of the MembersFrank Wheeler - R.F.D. #5 - Erie, Pennsylvania

I have just received a letter from Pat Reilly, and he asked me if I would take the VERIE*HEARD listings again. Gladly. Since last reporting (Oct. 17), I fared as follows in my DXing: Oct/ 21 - KMOD, 3:07 a.m. Oct. 22 - Fort Clayton, Canal Zone AFRS. (The postal clerk told me to send them regular postage as they use U.S. postage and I didn't have to send them an International Reply Coupon. What is right?) (That clerk is wrong, Frank - the Zone uses its own individual postage. -Ed) CBE, 9:00 a.m. Oct. 23 - WOND, 3:00 a.m., KDAL 3:20 a.m. Oct. 24 - KOBK 3:25-3:31 a.m., f/c. Oct. 27 - KOSE 4:33-4:40 a.m., transmitter test. Nov. 1 - KVLC 2:38-2:42 a.m., NRC special. Nov. 4 - KBOA 5:46 a.m. s/off. Nov. 5 - WTOB, 1:05 a.m. WCSG, 1:06 a.m. KOLA, 1:55 a.m. No luck on KALI. Nov. 10 - WMAV 8:23 a.m., regular program. Nov. 12 - WKJG, 1:00 a.m. For October I received 21 new ones, and thus far in November, 7 new ones. Since my last report I received the following new veries: WOKY WLBL WTOB WNUA WETO KSTN WWPB KSUN KOSE & WGGA. I've DXed 12 hours, 57 minutes in October and thus far in November, 5 hours and 20 minutes for an average of 1 new station every 35 minutes of DXing. Last week end, Erie had a snow fall of 11 inches. It took me one hour to make two miles on account of the cars stuck across the road, etc. I helped shove a more card in those two days. I saw 4 wrecks in 2 days. Well, I guess that's all for now boys. 73s to all.

Jeff French - 162 Englewood Avenue - West Hartford, Conn.

I am quite regretful that I won't be actively DXing this season, but have been having ear trouble off and on since March and a session with the earphones would be definitely detrimental. As it is the result of my flying during the war, I am trying to get the VA to approve a claim for partial disability. Meanwhile I will let the new stations pile up and the all-nighters go broke (we hope) so when I get back to it again I can really mop up. Currently I am without a radio worthy of the name as I have sold the HQ-129-X to the Henry Radio Company in Butler, Mo. Toobad I couldn't talk Harold Williams into buying it as at 75 bucks I think he passed up a bargain. Gene still around N.Y. or has he gone back to the wild and woolly west? (Still here, Jeff, and we are indeed sorry to learn of your trouble. Here's hoping it will be fixed up very shortly and that you'll be back DXing again in the very near future. -Ed.)

Karl Raymond - 1114 North Harper Avenue - Los Angeles 46, Cal.

Well, the DX season has finally gotten under way at this spot. 1 week of hot weather plenty of static, etc. Yesterday, 11/15, really first decent AM for DX. The verification situation on the other hand is slowing down to a stop, although I have plenty of reports out. I had one consolation, a letter verie from KSTB verifying reception after 9 months, without a follow-up. Guess KXGN finally got off the black list. I received a letter from Don Powers, CE, in response to self-prepared card. KSUN by C.W. Morris, Mgr., and KVOP by Wayne A. Hawkins, Chief Operator, sent back self-prepared cards. On my vacation down to Mexico I visited XEMC & obtained my verie. Of course they couldn't find any trace of my letter. The MC on their all-night program is Don Ramundo Lopez & if that doesn't work the Mgr. is Sr. Romon Ferreiro. I took a picture of thier layout but of course that had to be one that didn't come out. In Guernavaca XEJC informed me that XEY of that city on 930 kc/s. is silent. The station has not been deleted by the government but they are out of business at the present time. In way of loggings I heard the new KBMX (1470) on ET Oct/ 31. On Nov. 4 I tried to hear new semi-local station KAVL on 1340. Not a peep and surprised to find KMNS dominating that channel so sent them another report with plenty of commercial data. On election night KECC, 990, was running all night. Picked him up for another new one. On 11/13 KCMJ, 1340, heard on f/c s/off at 3:45. KELY on f/c, 1230, 4:00-4:15 & a long-sought for station in KIUN, 1400, on f/c 5:00-5:15. On the 14th, KGIB, 1540, on f/c 3:30-3:45. Nov. 15, WWEEZ, 690 on DX for 1 announcement & 1 call, back of terrific CMZ, QRM. Then KULE at conclusion of ET with good signal on 730 kc/s. KITO is the San Bernardino all-nighter on 1290 kc/s. They are silent Mondays. Announce as "All-night with Al Knight." As of this week so far (Nov. 13), XEAC, 690 kc/s., seems to have dropped their all-night program. Forgot to mention KSTL and WSMB not heard here on their DXes. Ralph, what's Abe Chuen doing that he never writes in any more? He must have changed shifts or else got married, hi! XEMC's address is Escuadra y Av. Morelos., Frac. Sevilla, Mexico, D.F. I forgot to mention that they are still running 24 hours a day, seven days a week.

ALREADY, TWO MONTHS OF OUR SIX-MONTH "DX" SEASON HAVE JUST ABOUT GONE DOWN THE DRAIN
HAVE YOU BEEN STANDING IN YOUR PROGRESS? PLEASE DO - DEADLINE IS EVERY FRIDAY

Musings of the MembersKen A. Mackey - 2 Derrnoch Street - Dunedin, New Zealand

Have not been able to do any listening since I last sent in notes, but hope to have a fair go at Christmas and after. Will have a month's holiday in January and will probably stay at the crib and not come into work until the end of February, so in all, I should have at least two months of the peak of the season. Have sent out at least twelve second reports during the past week. Recent veries - KENI (first outside North America) KRKD WBLI KSPR KCIJ XEQ WRGA KFDM KERG KRKD WDXO KIT. KSCO #### who said they only send 200 watts down this way of a night and as KWJJ sends 25 kw. in this direction, they reckon I'm a magician. Also 4YO 4OY and JOAB. To bring my total to 139. 11 more to make my 800. Would like to see a new list of all-nighters and silent periods. There seem to be quite a few changes lately. Not much news of New Zealand and Australian data. 4XD, 1430 kc/s., present power is 28 watts. 3YC and 3ZB are now operating their new 10 k2. transmitters. 2ZB, Wellington, low power at present. This is our Labor Day here in New Zealand (Oct. 23). Weather has been bad all week-end with low fog and fine, wet, drizzle of rain. No good for reception at all. Just seems to shut out the signals. Has brought on a power noise also. Well, this looks like the lot for the moment so will sign here. Regards and good DX. 73.

Hedley Simmonds - 148 Fairfield Avenue N. Hamilton, Ont.

Heard KFJI (1150 kc/s.), formerly on 1240 kc/s. sign off on 10/21, but not enough for a report. KBOE, 740 kc/s., 250 watts, Oskaloosa, Iowa was testing and pounding through all Sunday morning 10/22 and also KSPI, 780 kc/s., Stillwater, Oklahoma the same morning, heard from 3:55 AM on, with excellent signals. AFRS "Able-Charlie-Able" Fort Clayton, Canal Zone, 790 kc/s., 5,000 watts, was excellent on their DX program for the NNRC. They came on somewhat earlier than scheduled (listed as from 5:00 to 6:00 a.m.) but were heard as early as 4:52. Probably on much earlier than that! Swell signals, despite terrific static. Are you preparing the Heard-Verified List yet? Mine stands at 2301 heard and 2183 verified. About 25 still out. (These above were forwarded by Hal Wagner to Your Editor. We'd like to see much more from these two fine DXers, wouldn't we, members? -Ed.)

Hal Wagner - R.D. #1 - North Girard, Pennsylvania

Sorry more fellows did not get CB-106. Very good show - peaked at S-7 on the meter here. Even Seth called me at 4:00 that A.M. They were S-5 there. Also on KALI, she (Shirley, the YL announcer) did a good job but was weak here. Mad that I missed KTW. Should have stayed up. After shoveling snow had to go to a house-warming at a neighbor's. and got in at 1:30. I must have died when I hit the pillow.

Don Kaskey - Galva, Iowa

Well, I've now logged 1209 stations with about 546 veries. My DXings for the past week are: Nov. 12 - WTVB (1590) on s/on at 7:00. Nov. 13 - Very good DXing night. I started off with KFPW (1230) f/c 3:00-3:10, WDUN (1400) f/c s/off at 3:38. KCLS (1340) f/c 3:41-3:55. KHLX (1450) f/c 3:45-4:00, WUIL (1300) ET 3:45 on with music and call letters. KJAM (1340) f/c 4:45-5:00, KIUN (1400) f/c 5:00-5:15, WAAA (980) s/on at 5:30, KALG (1230) f/c 5:45-6:00. Nov. 15 - KRUS (1490) DX 4:15-4:45, KSYL (1400) DX 4:45-5:30. Nov. 17 - CJRL (1220) s/off 1:03 $\frac{1}{2}$, WJVA (1580) f/c 2:15-2:22 $\frac{1}{2}$, WPCF (1400) f/c 2:15-2:30, KJEE (1290) ET 2:45 on, WJMC (1240) f/c 3:00-3:30, KOVE (1230) f/c 3:00-3:10. Nov. 18 - KRMO (990) f/c s/off 1:45. Other f/cs heard were: Nov. 13, WCLD (1490) 2:00-2:15, WCBI (1340) f/c 2:00-2:15, WUAG (1400) 2:00-2:30, WELD (1490) 2:15-2:30, KMHL (1400) 2:00-2:30, WAML (1340) 2:15-2:30, WROB (1450) 2:30-2:45, KVFD (1400) 2:30-2:45, WROX (1450) 2:30-2:45, KXRA (1490) 2:40-3:00, KYCA (1490) 3:15-3:30, KOCA (1240) 3:15-3:30, WGAU (1340) 3:30-3:45, KXGN (1400) 4:00-4:15, KAWT (1450) 4:00-4:15, KSUN (1230) 4:15-4:30, WORD (1400) 4:40-4:50. Nov. 15 - WJMR (990) 4:00-4:15 with DX, KASI (1430) 4:00-4:30, WSOY (1340) 4:30-4:45, KOKO (1400) 4:45-5:00, WKTG (730) 4:45-5:00, KFH (1330) 4:59, KCIJ (980) DX 5:00-5:30. Veries in from these: Cards from WRKE CKCK CFRB WTAQ CFQC KTFB WTRR KOGT WAPX. Letters from: KNBY KMMO KSAC WFHG V LOU KRIS KOBK WENC WRGA ACA WGNU KVMC KYOR WCNT WTVB WBLK KBOE. KRKO verified for both 1400 and 1380 kc/s., WTRR's letters mean "Where Tourists Really Relax." KSAC's broadcast hours are 10:30-11:30 AM, 1:30-3:00 PM, and 5:30-6:30 PM. They trade with WIBW. A nice verie in from ACA, Canal Zone - three-age letter, with schedule. Well, that's all from this spot - good DX, fellows.

NEW ONES HEARD THIS WEEK

930 ~~WTVB~~ (from 1400)
1150 ~~WTVB~~ Albany, Minn.

1230 KSEY Seymour, Texas
1290 ~~WTVB~~ Jennings, La.

1470 ~~KMMO~~ Coalinga, Calif.
1600 WELD (now 5,000 w.)

Musings of the MembersSid Rosenbaum - 806 Market Street - Wheeling, West Virginia

DX News, usually in here on Monday morning (11/13) failed to show up and is still among the missing as this report is written (11/19). Listening this period produced several new ones for me and some nice veries arrived. On 11/14, WRAL (1240) ET & f/c with T & M, 3:00-3:30, WFGV (1430) ET 3:45. WGIG (1440) f/c with music 4:25-4:40. WFTM (1240) f/c 5:00-5:10. 11/16 - WSIP s/on 5:30, KOMA s/on 6:00 and KXEL like a local at 5:15 p.m. 11/17 - WJW s/on at 6:00, WHAS s/on at 6:00, WPKY s/off at 5:45, KJFJ with news and sports at 5:45, and the KCIJ Coffee Club daily 4:00-7:00. Nov. 18 WSAT (1280) at 5:30, WTVB (1590) s/on 6:00. Nov. 19 - WBBR (1330) Sunday s/on 6:00 (strong). Nov. 20 - QRN-XX here, but KCNI DX heard nicely from their s/on at 3:00 on through 4:30. Bud Crawford was at the mike and put on a nice show. KTTR on f/c as listed and WPAM TT 4:00-4:15. Other than the above mentioned stations, the third Monday was a flop here, due to QRN. Veries in - KDPH, a letter secured through help of Len Kruse. KSIW KVOL WCNT WPGW WGBB. Card from KNCM, KWCJ. WHLL (1600) is still testing with T & M usually between 1:00-3:00 a.m. Very strong signals here all week on KOMA s/on, WNOE 4:30 on, WIAK s/on, WSIP s/on, KCIF, A.M. show, KLRA, pre-sunset, WCNB WPKY & KTAT at early twilight. Thanks, Ralph, for photos. I had everybody in the group pictured wrong except Pop Edge. Other highlights of the week were Bill Prater's Hillbilly letterhead, Len Kruse's dope sheet and Barry Foote's info on BC-33. "Old Stuff." WTMJ was formerly WHAD (1925). WGHF, Fulford, Fla. (1925) is the present WFLA. KFVD was located in San Pedro, Cal. in 1924 and then owned by McWhinnie Radio Co. (per verie 1924.) KFIX (680) 1933 was in Independence, Mo., and later became KLDS. (verie card, 1925). That does it from here.

Hal Williams - 50 Third Avenue - Seymour, Connecticut

DX rather light here for the past week but I did add 6 to my reported log. 11/12 - WBBR (1330) s/on 6:00 a.m. Sunday sked, 6:00-11:00 a.m. 11/14 - WLVA (590) TT-f/c no music, 4:15-4:30 as per check list. WCUE (1150) recorded music and weather reports poor signal 4:48-5:03. 11/18 - KIUP (930) TT-f/c 2:15-2:25 as per check list (from 1400). KTXL (1240) TT-f/c 4:31-4:39 under WEMP. WAGA (590) early A.M. sacred music 5:15-5:30 in the clear until WEEI s/on at 5:30. I had tried several times to get KIUP on 1400 but never able to copy. They boomed in here on 920 with a clear strong signal. Six veries also received to bring my verified total to 561. 11/13 - WFEH (860) letter for f/c 11/5, v/signer, John Hughlett, C.E. who states they are constructing for full time operation on 980 kc/s. They expect to go on the air about the middle of January. Letter verification from WMGM - a surprise. I wrote asking for information on hockey and basketball schedules and I got a verification from their assistant Program Director. 11/15 - After 20½ months and sending four complete reports - 4/4/49, 3/27/50, 8/7/50, & 11/6/50. WGR (550) finally verified by letter for 11/6 report. 11/17 - KMOX (1120) verie card for old old report. Last one sent 9/29/50. WATA (1450) letter for ET 9/22, v/s Bill K. Phillips, CE. "Sorry for delay - we were swamped with work since taking the air. All reports will be verified in time. WBBR (1330) Watch Tower verification. This station is still using EKKO stamps. Receiver question not yet settled. Sent the NC-57 back - poor on night-time BCB. No luck on the Louisiana DX specials, On the 15th and most are needed here. KSYL heard but not needed. KCIJ heard at 5:20, but poor signal. could not copy. Got a letter off to "Sully". Hope to get one off to Sid Rosenbaum, as I owe him plenty - letter and two cards not yet answered. 73s.

Bernie Duffy - 367 Maine Avenue - Staten Island 14, N.Y.

The past week I added WABG WJIV & WHMP for a heard total of 1902. The latter is in Northampton, Mass., operating on 1400 kc/s. I caught their identity only 11/20 3:24 atop WJIB. WJIV was heard testing at 2:50-3:05 11/18. WABG comes in very well weekday AMs at 5:30-6:00. I was keenly disappointed to find atmospheric conditions bad 11/15 with the result that only WJBW of the many La. DXes was audible & NI had them verified. The new 1 kw. KENO booms in most any AM on 1460. As for veries, a photo of transmitter card from XESM written in Spanish and mailed in Mexico City, & a hand-written postal from KDLA. Nice letters from ACA KBOE WAAA & WEBK. The former is the Armed Forces station at Fort Clayton, C.Z. & they sent the most friendly, detailed confirmation I ever got. It did my heart good to read such a friendly, understanding verie. Anyone needing WEBK, 1590, can get it easily at daily s/on of 5:00 a.m., or WAAA, 980, can be logged 5:30. WETO, 930, at 5:30, WABG 980 at 5:30. They're all friendly and will gladly send nice veries. (Who signs for WABG, Bern - Ed.?)

Musings of the MembersRalph Johanna - 64 East Huron Street - Buffalo 3, N.Y.

an orchid to Hal Wagner for getting "DX News" out to us Nov. 11 and a dozen roses to the fellows that make the bulletin even better than FCC. That contest should prove interesting and hope Peggy scores. Too bad Mrs. Wachtel didn't enter. I wonder if she and Joe Becker do any listening? A correction, WMIK (560) was NOT heard by me, only mentioned station was deleted but is listed on f/c (WCPM has WMIK call now) and so Pat, you do OK, that quatro-y etc. is time given and 1330 may be CMCB (Radio Reloj) 1 kw. (Havana). A Cuban monthly "Radio Guia" - Obrapia 362 Habana, Cuba is the Editor-Printer, or send 15¢ to "Distribuidores" "Agencia, Madiedo" O'Reilly: 407 for a single copy, and another info source is 10¢ to Dep't of Transport, (Radio Division) Ottawa, Ontario. You'll get the complete Canadian station list and addresses. John Brierley - write to FCC for info in re: WMMF-27. To Andy in Korea - Your -KBW on 1525 kc/s, most likely was WKBW (that pest gets heard even in England on 1520). Hope Frey does not lose his jolly dispo while overseas (with all them JOAKS there - OK, Lefty) Some of youse could mention a little more in the line of addresses, especially Mexicans and Cubans, When you receive 'em, for the other fellow has maybe no info, a kc/s. behind() also helps during this busy DXing. Sorry that the nice specials by Steve don't want to come this way. Most NNRC can be had later on regular f/c. Heard WFCB (1410) 6:00-1:05 a.m. now, WJL (1440) now, 6:05 s/on, and WCAO (600) has test every Saturday after 12:30 a.m. (1:12 $\frac{3}{4}$ heard 11/18). WCKY (1530) was off again but a strong TT there at 4:32 11/18. KHQ (590) was 80%, also TT/c of KCSJ then (in rain) to return at 6:00, Bill P. Engineer, and test with Kansas City. WVLK TTed till 2:33 through 'em. 11/17 - The old KGIR (remember those 'copper' veries?) KXLF (1370) 1:15 s/off. KSTP (1500) TT 3:09 and KATE (1450) Albert Lea and Austin, Minn., TT 2:00-3:30 etc. KVLG/c was only 20% (WGMX-XEG QRM) On 1590 at 2:38 $\frac{1}{2}$, sounded like WBRY, Waterbury, Conn. Was that right? 1290 had music, no call. The 16th, made "whoopee" (old friends, etc.). 11/15 - Odd weather here, WHLL (1600) M/test-party, 2:30 etc. WJMR (990) special said 6:30-5:00 p.m. regular, WTPS special, WKTG (730) ~~headed~~ hour piano/c 5:00 a.m.; WRNY (680) TT/c and 5:16, WAPA regular, 5:18 KABC test-call, 5:31, WPTF s/on. 11/14 - WFVG (1460) ~~#####~~ ET/m 3:45-4:30; on 1450, a test-call & time, then WMVG r/c cuts off; 620, WDNC at 4:14 s/off and clear then; WROL, "hello, test" 1,2,3,4 etc. and at 5:00 reg s/on WJLS (560) m/c through WIND. 11/18 - WKOP (1360) s/on 5:30, WJIV (900) m/c 2:50-3:05, and KXEO (1340) TT/c a couple of hours. 3:45-5:45, had a Minnesota station at 3:35 (KROC, KVOX?) 11/20 - WCPO r/c with RCA, WGNI WASA WWNR (with RCA), KSGM r/c, WVOP (1450) 1:15-1:25 TT/c, Huntsville, Ala. at 1:45, and WRNO m/c 1:58-2:15 (WREL 2:12 start), KGNI special, 75% and same pep for KMJ (580) and KENO (1460). Has any 'dope' verie been found yet for WROM (710) or WNOE (1060)? Received WRNY (680) Ken Henderson, CE, says f/cs first and fifteenth, 5:00-5:15, Sked: 7:00 a.m. - Nov. 4:45, Dec. 4:30/off (191 East Ave., Rochester 4, NY). WCLI (1540) Allen Bell, CE (114 Walnut Street) says: WELM (1400) their affiliate. F/c LAST Monday 5:45-6:00 TT and f/c for WCLI are made into a dummy antenna and will go full time in January on 1450 (guess he means 1540?) WCMB (960) J.H. Bair, CE says, last RCA/c (11/9) was earlier, and Charlie Conley'll get next info for DX specials. WJEL (1600) Franklin Krull, CE says, H. Haley (old CE) is now WHIO-TV and no more FM (cost too high). Sked: s/off 5:15 p.m. Nov. & Dec., f/c with Peterkin (Detroit) 4th Wed., 3:00-3:15 (CKLW's 2nd harmonic is QRMing during tests. (Yeah, man - here WJBK WJLB WWJ WDR are worse (but 24 hours). WTOR (1490) v/letter and card, Joe J. Pasakarnis, CE, Sked: 7:00 (Sunday 8:00) Mdt., f/c-TT 2nd Thursday (I heard TT 1:17-2:03 on 10/12). WATA (1450) box, 72, B.K. Phillips, CE. Sked: 6:00 AM - 11:00 PM. WKBY (1340) Box 629, on letter; Box 710 on envelope, John H. Wilson, CE. KBOE (740) Ken Kilmer, CE (Box 273). KDLA (1010) Klien Evans (v/signer) opened 11/10, Sked 6:45 (Nov.), 7:00 AM (CST) in Dec. WIEC (1070) a printed card by H.J. Aderhold, CE, and that's the end of my 'bull' but don't forget the first bull was brought to America by Columbus on his second trip in 1493. Best!

Eldon Addy - Box 158 - Marcus, Iowa

DX here pretty poor with WX on the warm side. New ones heard this week include Nov. 13, KELY 1230 kc/s., Ely, Nevada, on f/c 4:00-4:15. Nov. 14, WHLL, 1600, Wheeling, W. Va., testing new 5 kw. Nov. 18 - KJEF, 1290 kc/s/, Jennings, La. ETing all AM. And this AM, Nov. 19, KFJZ and WEDR in hopes I can wiggle a verie out of each after several futile tries. New veries in- KELY WAAA WLIL KVMC KPRK WJBS WVMI & KDLA. Both KBOE & KOBK heard fair here during regular schedule. Best of DX.

Musings of the MembersPat Reilly - 11 Irvine Place - Jamestown, New York

New ones added to verified log are: WSGW WKJG WTAQ KDLA. 11/13 - WCKY was off today. KSMO, 1550 at 2:53 with news. 1520 had a Spanish-speaking station at 3:02 with WKBW also on, lots of dope, but no call and location heard. KASM, 1150, on ET at 3:24, but CMBQ bothered a lot. CB-106, 1060, heard 4:17 to 4:23, one announcement in English and Spanish and two selections as XEG and WIBC on either side of them. 11/14 - KMOD, 1360, with news, 3:00-3:07, and off at 3:10. WHLL, 1600, on test and off at 3:35. WKOZ, 1340, on test at 3:50 over WELMP, WHHM mess. 11/15 - WKJG, 220 East Jefferson Street, Fort Wayne 2, Eugene A. Chase, C.E. WSGW, Mason Bldg., John T. Travers, C.E. KMOD, 1360, good today at 2:50. WJBW, 1230 over top of mess on their DX. XEAW, 1280, on their f/c for Kansas City at 3:31. Unknown TTs on 1240, 1460, 1450, most all morning with no voice heard at all. KRUS, 1490, on f/c at 4:00. KASI on test at 4:05. WKAX, 900, on test at 4:15, then got real noisy and I to bed. 11/16 - 560 here and too noisy to DX, a lot different than first part of ##### week. WTAQ, 613 South 7th Avenue, Russ Salter, Mgr. & CE is signer. 11/17 - KASM, 1150 on ET again. KICD and WJMC on f/c, 1240, at 3:00. WTIL good reception on 1300. XEOX, 1430 at 3:08. WEIR, 1430 on test at 3:30. This is lazy dial twisting but got me two new ones for being lazy. KWRC, KDEC, 1240, 4:15 to 4:30. Anybody have a signer for KDEC never answered last month's report. 11/18 - no DX, had to take wife to hospital after work this morning for X-rays, just a tummy-ache it turned out to be. 11/19 - WMBD, 1470, off at 3:00 with a west-coaster off at 3:02 to be back at 7:00 a.m. Wonder who it is, a Bob Kirby announcing. Noise always drowns out the call and location for me. Unknown Mexican on 1460 most all A.M. with a man and lady announcing - XEYM and man yelling "Bueno Tao, testa Atlanti" with KENO in background. KBMW, 1450, with test, 4:00 to nearly 5:00 when I went to bed.

Hal Stein - 432 Sutter Street - San Francisco 8, Calif.

DXing out here in Sunny California is still above average but not yet quite up to par. Since last week, reports out have been to WOR KWTO WABG KCIJ KYAK WLKD KGU KITE KKIN JOAB JOCK JORC CHML & KFUE. Verifications received this week have been a QSL from KECC (they are situated 40 miles away from me and my first report to them was sent 9 months ago!) and letters from XEAC CKXL JOAK JOKP JOVK & JOTK. (The latter 2 are 500 watts apiece.) First of all, here is a little bit of information on two all-nighters. Here is KJBS schedule (I just phoned them up), Time, EST: 8:00 a.m. to 8:00 p.m., then they are off until 1:00 a.m. and then they go on till 6:00 a.m. and then go off again until 8:00 a.m. In a very nice letter from CKXL today. They mentioned that their RCA 1 kw. non-directional daytime and directional at night. Is on 24 hours a day. (No wonder I can't get WRVA!) 11/12 - Only stayed up long enough to log WOR on all-night schedule. 11/15 - Heard KYAK at 3:13 a.m. (They sign off at 4:00 a.m.) KGU at 3:33 a.m. for the first time I could make them out under WJR. At 4:05 a.m. heard a 7 kw. AFRS station, WLKD on 1420 kc/s. in Sapporo, Japan. (They/## seem to relay WVTR's programs from Tokyo.) Heard KSYL for two minutes only on NNRC special. Had much better luck with KCIJ at 5:02 a.m. At 5:20 a.m., picked up my first station in Mississippi, WABG, on 960 kc/s. The last few nights they have been coming in with a swell signal. At 6:00 a.m. heard KITE on s/on and finished up with KWTO at 6:27 a.m. 11/19, DX was only fair. Heard KKIN on special flood warning program at 4:30 a.m. Picked up three more Japanese stations, JOAB at 6:05 a.m., JOCK at 6:20 a.m. and HORC at 6:35 a.m. CHML at 7:00 a.m. and finished off with KFUE at 7:15 a.m. Doubt whether I will be doing any DXing for next 2 weeks as I will be out of town from Wed. till next Mon. & will then have 4 mid-terms during the following week. Best of DXing to all of you from way out here. 73s.

Barry Foote - 273 North Avenue - Weston 93, Mass.

DX is shifting into high gear here. Here are the new stations I have picked up: 11/9 - WCPS 4:48 p.m. - 5:00; WEAM s/off 1:00 a.m. 11/11 - WTSA s/on 6:30-7:05 a.m. 11/17 - WIND 4:30 a.m., WHWB 3:59-4:32 p.m., CKAC 8:30 p.m. 11/19 - CFOS special NNRC DX 3:37½ to s/off at 4:04 a.m., KONO 4:29-5:10, CBF 6:00 p.m. Others I have picked up are: WKBN WFMJ CBA WBNX WSNW WKAL WLOW WWL WLW WELI CKWS CBA KDKA WOV VNOR. On 11/12 I did some short wave DX and added my 22nd country, VP4RD, Radio Trinidad, on 9/63 megacycles. By the way, do you have any Canadian stamps yet? That's all for now. 73s and the best of DX. (Believe Hal has them on hand now, Barry. -Ed.) PS - Was my last report misplaced? (No, it was on one of those ill-fated stencils we discussed in the last issue. Barry - Ed.)

Musings of the MembersSteve Mann - 125 Ward Street - Westbury, L.I., N.Y.

A few very welcome veries have arrived. "Bayerischer Rundfunk" (740 kc/s., 100 kw/) Munich, Germany, nice letter; Radio Monte Carlo (959 kc/s., 120 kw/), Monte Carlo, Monaco (nice letter and beautiful 4-color brochure describing the station); and Kosice, Czechoslovakia (1204 kc/s., 100 kw.) (nice card); all three in reply to follow-ups to last season's reports, leaving only Tunisia un-verified on reports of last winter. All of above stations are now on different frequencies. Also in from October reports are nice letter veries from ACA, Fort Clayton, Canal Zone (who received 29 reports on the special) and from Toulouse I (944 kc/s., 100 kw.), Toulouse, France. Incidentally, lest anyone think I am getting snooty or sumpin in DXing for foreign only, the plain and simple reason is that so many new U.S. stations have come on since I quit domestic BCB DXing back in '41 that I'd go nuts sending out reports to all the new ones I can easily hear! Arranging these foreign specials is taking enough time as it is. So far, I've written about 30 stations, with 12 agreeing to come on, and 1, (Radio Jamaica) saying not now, but maybe later on. Toughest country has been Honduras where I've written all 5 stations known to be on BCB without getting a single reply! Was glad to note in November 18 bulletin received today that CB-106 was heard by many. They were heard here from 3:32 to 4:18 a.m., but very poorly through heavy sideband from WMGM till 4:02. 4VGM was prevented from coming on the 18th due to transmitter trouble again, but hope to have everything OK so as to come on 12/24. This morning, 11/20, CB-57 was logged quite easily from 3:04 (when WMCA's carrier went off) till 3:20, when they faded down into the noise level, and were barely audible from then on. There was some QRM from a weak carrier on the frequency. The way these Chileans who are over 5,000 miles away have come through, makes me hopeful that the rest will be widely heard. Toughest one will be the WSTA special I suppose, on 1340 kc/s. EA reception has been spotty, but then it's amazing to me that they're coming through at all so early in the season. Some of the best heard stations that I've logged in addition to those mentioned in my last report are the American Forces Network station at Landshut, U.S. Zone of Germany on 1106 kc/s., Rettingen, French Zone of Germany on 1538, Ottringham, England, on 1295, Kosice, Czechoslovakia on 1286, Strasbourg, France on 1376 (loudest European heard here this season). All above heard after Midnight, EST. In early evenings, following split frequency Latins are being heard here consistantly and positively identified (these are in addition to well-known TIPG, OAX4A, etc) TIRA "Radio America Latina", San Jose, Costa Rica, 1 kw. on 735 kc/s., HJKM, "Radio Cristobal Colon", Bogota, Colombia, 10 kw. on 738 kc/s.; TGUX "Radio Panamericana", Guatemala City, 350 watts on 1025 kc/s., also as yet unidentified Latins on 743 and 782 kc/s. To Pat Reilley - Haven't lived in Cleveland since going off to war in 1943, but was there last fall on business and saw both Jack Siringer and Fran Gmeiner. Jack is married (believe it or not!) and has an amateur license (W8AJW) so his radio activities are limited to ham bands. Fran is in the printing business and hasn't DXed for years. I hope to renew my acquaintance with all the old NRC gang in Buffalo next Labor Day.

Len Kruse - 817 Wilson Avenue - Dubuque, Iowa

DX continues fair at this D X den. Station KYCA (1490) Prescott, Arizona, heard with its 2nd Monday f/c 3:15-3:30 a.m. on 11/13, well over KWIK's program. Testing their new 5 kw. transmitter 2:00-3:00 a.m. on 11/14, Station WHLL (1600) Wheeling, W. Va., was a good chance to log them as a new station in my log. KPNC (1560) Bakersfield, Cal. was heard during their last hour of regular schedule also on 11/14, s/off at 3:00 a.m. The scheduled DX from KSYL (1400) Alexandria, La. was heard surprisingly well, for a new catch on 11/15 AM. After several attempts, I was fortunate in logging the new WSMI (1540) Litchfield, Ill. during its last program of the day 5:30-5:45 p.m., ## with bad QRM from KXBL. The new WTIL (1300) Mayaguez, P.R. was heard with an ET on 11/18, having KYNO to contend with. Station WRBC (620) Jackson, Miss. was heard well 7:30-7:45 a.m. on 11/19, on its regular schedule, topping everyone on this frequency. Only three verifications have been received the past week, letters from KRMO KFDA WVMI Bob Grubbs: How is the new CP= KUMO (950) 1000 watts in Columbia coming? Ken Murphy: Signer of WELS verie desired, and, Bob Brown: The signer of WPKY, please.

"Butted cigarettes around me,
Sprawled supine is how they found me -

Victim of an odd disease -
Cirrhosis of the frequencies!

-Carroll Seth

Misings of the Members
Carroll Seth - Erie, Pennsylvania

Verifications rolling in here are passing a steady stream of reports going out. For the domestic contest, my system is to attack the states alphabetically - the list here includes our possessions and I do expect some slight trouble with Alaskans although their frequency checks have been pegged for future reference. The word of early season TA reception confirms my forecast of a great DX season. Short-Wave reception here the past 8 months has been far under the past few years. My theory (Seth's Teeter-Better Theory) is that as S.W. declines, BCB rises - conversely, when BCB reception wanes, S.W. waxes. If you like hunches, there are some of us who haven't done too well in recent seasons. This could be our year. Anyhow, 2YC on 650 was the earliest TP both as to month and hour I ever heard and in very summerish weather. CB-106 surprised by showing up with readable signals here - S-5. Wagner pulled in in S-7 which is just about the difference in our set-ups. My antenna runs 70' partly between houses. North to South. On East-West reception Harold's meter readings run considerably higher. He sure has a nice spot out there. TGW (340) also on 11/13 - signed off few minutes after CB-106. Very good here.

Leo Harz - 720 Barry Avenue - Chicago 14, Ill.

Am hastening to sent in a report before some of my DX pals in the NRC think I didd & my pal Sully starts on a grave-marker. Am extremely busy with a variety of things & none of them have anything to do with DXing. Only 2 reports were sent out from this location, both on daytime listening, which in this location soon will be a thing of the past as 3 new ones came on in this area in the 1½ month period. WBCK, Battle Creek, 930 kc/s., This week the latest Chicago area station came on regular, WGRY, 1370 kc/s., Gary, Ind. Both were sent reports. WBCK already verified. Only 2 reports out from this season out longer than a week - only WPEO. Card verie from WOPA signed by Bryan A. Wright, G.E. Veries now 928.

Lefty Cooper - 433 East 21 Street - Brooklyn 26, N.Y.

Veries coming in very good the last few days with these in: WTIL CKLB ACA WELR KDLA KBOE KOBK WSMI KGGF WCBA in this week, all letters. I now have all my home state verified except WFCB, Dunkirk, but I heard them this morning (11/23) s/off at 1:00 a.m. per Ralphie's appreciated tip. This early morning was excellent for TA reception on the high end only, and I got logs on two more new countries to my log, namely Monaco in Monte Carlo (1466) which was the loudest of all, actually peaking the meter above S-9, believe it or not, and the British Forces station in Germany on 1586 kc/s. was almost as strong. Tougher was the other new country for me, Norway, in Stavenger, 1313 kc/s., LKS. Monte Carlo actually made it rough going for WFVG, Fuquay Springs, testing on 1460. Only other new DX this week was on Monday, when Steve's CB-57 came in here with a very strange signal. At 3:05, it was fine, and at 3:20 it was gone completely. It faded up to S-5 and out completely several times during that 15-minute period. A TT-er seemed to put the quietus on him. That's 4 new countries for me this season - Sweden, Norway, Monaco, and Chile. On 11/19, a Spanish-speaking station signed off of 920 kc/s. at 5:19 with "Over the Waves." I didn't get the country or anything to tell me where it was, but I seem to recall in some of the old RADEXes that some Venezuelan or Colombian around that spot used "Over the Waves" as s/off theme. Anybody's memory working that far back who can help me identify that one?

HEARD-VERIFIED LISTINGS DEC. 16

Let's make this list really something by which to compare ourselves with our fellow DXers. Today, while you are thinking about it, drop off a card to Frank Wheeler, R.F.D. #5, Erie, Pennsylvania, telling him how many stations you have verified, and how many heard. Everyone - please - participate in this listing this year!

THINGS OF INTEREST received here: Routine reply from N.Y.C. postmaster explaining it was merely the rules they followed. Also a card from Sid Rosenbaum, sent him by W.W. Brown of WALT, 1110, Tampa, thanking him for hashing old memories of old WGHB, which became WFLA later, and which Mr. Brown managed. Thanks, Sid. Also, a new Japanese BCB list from Hal Stein, which we'll publish for you in an issue or two. Thanks, Hal.

 1440 WGCB Red Lion, Penn signs on at 0630 and off 4:45 PM

REMEMBER, SEND THO. DOWN THE DIAL ITEMS to Ray Edge by THURSDAYS.

RAY EDGE-325 SHIRLEY AVE-BUFFALO N Y Thought I better get in a report of my doings or Sully will say I'm dead. Last issue was very interesting and made good reading. Reports went out from here on 11/18 WABG-WETO, both on early AM reg skeds; 11/19 to CFOS on with a Special DX, was really begging for reports; 11/21 WKBI on reg F/C; KWPM on F/C and s/off at 0200; Another one to WMCA on with reg F/C and to XEDF-790 kcs heard on what seemed to be a test, announced in English and Spanish. Letter veries in from KDLA-WCUM-WVMI-KLWT-KBOE-WRAL and WTPS. Also KTRM which was heard on 990 kcs testing when KRMO was supposed to DX on 11/6. The WRAL letter verie which replaces an old card is what I consider one of my nicest veries. Virgil D Duncan, states " It is always a pleasure for me to verify reports of reception that are as complete as yours. In particular the problem of interference that seems to always hound these DX reports which are not always as complete as yours" Yep boys it does pay off to give as much information as is possible, it may seem that a good many stations do not appreciate it, but when you get a verie back from one who does, well it gives you a real feeling of satisfaction. Not too much DX here but still a little at a time and the verie total keeps adding up and up. Despite no reports from Howard Kemp of Waterbury, Conn I see he is DXing because his verie from KBOE arrived here, so was forwarded on. Heard announced on 690 kcs, "The new powerful station in Rosario Beach", did not wait for the call but it was pounding in her an S-999 PLUS. Want to acknowledge letters from both Ernest Michels and Sid Rosenbaum, thanks a lot and you both will receive replies in the near future. KTRM says no regular test period in early AMs but do have a maintainance sked every Monday AM till early hours and sometimes have the carrier on during this time as they did 11/6; Their sked is 0600(Sun 0800)-0100) 0130 AM Ben Hughes is CE. Tuesday AM was about a good DX morning I have run across, but nothing new heard, everything I had was really pounding in with very strong signals. Well boys I am mailing these stencils at noon Friday, Hal should have them by 4:30 PM if our mail service runs according to sked. Held em for late info.

 Altho we have not seen a newspaper since Thanksgiving we believe our predicament here has received nationwide publicity, at least the wife said we made the Camel News on TV tonite. Anyhow, the reason the bulletin is so late is the 25 inches of snow dumped in on us Friday, we hope this excuse doesn't get to be an old potato, we used it two weeks ago too, but believe us, we are almighty tired of it too.

From Karl Raymond, 930 WETO, Regular 0500 S/on hrd 11/19. 960 kc. WABG. Regular 0500 s/on on 11/21 1270 KCOOK on with ET, tone and Voice on 11/22 1400 KUKI ET 0406-0448 on 11/18.

From Ralph Johanns WTIL (1300) Says opening not yet set, still tied up in FCC matters, WFGV (1460) ET on 11/23 before they go on full time now a daytime only, they also announeed that WAIM (900) Williamston, North Carolina would be on the air in a few days. WIBX(950) TT/c 0300 0330 on 11/23, WSAT (1280) Now on rglr sked WOSC (1300) Check hrd 0515-0600 on 11/22 KIRX (1450) TT/check 0355-0500 on 11/22 WRNO(1450) Check 0158-0215 on 11/20 KXEO (1340) TT/check 0345-0545 on 11/20

 Ralph also passes the news along that Mr. and Mrs (Joe and Marty) observed their fifth wedding anniversary on Thanksgiving.

 Hal Wagner-North Girard, Penna. Up 11/24 and caught both YSO & KTFI but reports not yet sent, hi. Also on 11/23 hrd some TA's, only BBC Europe service and Monte Carlo putting in loggable signals here due to noise. Frequencies hrd tho are BBC on 809,908,1088,1295,1457. French heard on 791,863,1205, Monte Carlo on 1466 and other interesting carriers on 1313, 1484, 1586. Haven't been able to get up since, what a vacation, no deer hunting, just snow shoveling. See you next week.
