W P A T WILL STAND BY FOR OUR TEST FROM KGAL 11/13.

Dear Mr. Cooper:

November 5, 1951

"WPAT will be happy to stand by Tuesday morning, November 13th from 3:30 - 4:00 AM, Eastern Standard Time for the DX-Test by KGAL, Lebanon, Oregon.

"Please call me at your earliest receipt of this letter to confirm this, since our all-night time is now commercial and we will have to clear for this broadcast.

"I regret this delay, but your letter just reached me."

Very truly yours, (signed) DON KERR, Program Director.

This has been taken care of by Ye Editor, and our heart-felt thanks to WPAT and to Mr. Kerr for this very gracious courtesy shown us of the NRC and KGAL. Thank-you cards are in order, gang, to Mr. Kerr at WPAT, North Jersey Broadcasting Company, Inc., 66 Hamilton Street, Paterson 1, New Jersey. Our thanks again!

The write-up on the KGAL DX-Test appeared in last week's issue of "DX News" Page 1.

W T U X - Wilmington, Delaware. "I am glad to hear from the NRC again. You say that our channel is clear from 3 to 5 AM on Sunday and Monday. With this in view, I have planned to put on a program of about $\frac{1}{2}$ hour or maybe longer. Program material will be voice announcements, comments, and records, along with technical info about the station. I have numerous items that might be of interest which I shall present at that time." So let's all be on hand for WTUX and our thanks to Mr. Houston. Arranged by Sid Rosenbaum.

K O N P - Port Angeles, Washington. Unfortunately we do not have the name of the verie-signer for KONP - just a short note that this station will honor our National Radio Club with a special DX Program on November 19 from 3:30 to 4:00 a.m. The channel should be clear of all save WWPB, Miami, and could easily be well heard in the east and elsewhere. Several years ago this station put on a DX and recorded amazingly strong signals for a 250-watt station on the west coast - the station with the fir-tree antenna. So don't miss this one! Arranged for NRC by Don Kaskey.

PLEASE SUPPORT ALL DX PROGRAMS AND TESTS WITH REPORTS, OR THANK-YOU CARDS. THANKS!

VERIE SIGNERS

Musings of the MembersBill Prater - Grimsley, Tennessee

For the latest DX in Dixie, I'll start with 10/15. That morning WKIN, Kingsport, Tenn., 1320, ET from 1:00 to 2:15 s/off. (Note you list their first ET as 10/16??) WJCM Sebring, Fla., TT f/c 2:00-2:10 with WCBI QRM. Then on 10/17, WPAK in Memphis Tenn. ETing on 1480. Address - 207 Madison Avenue. 10/27 - WNXT, Portsmouth, Ohio regular s/on at 6:00 through and over QRM to 6:30. 10/28 - I added WACL in Waycross Ga. at regular 5:01 s/on, thanks to tip in bulletin. 10/29, another new Georgia catch in WGAF Valdosta, on 910 kc/s. to 4:28 s/off from ET, saying they would begin regular sked around the first of November they hoped. On 11/1 the WANT DX was heard perfectly here, and the same morn I caught CJOB in Winnipeg on 1340 behind WEMP at 5:00 for the first time. On 11/3 I got one I've been after for a long time, from 2:12 to 2:31, WIHL was testing on 730 kc/s. with recorded music. They are in Hammond, La. And to bring my DXing completely up to date, 11/4 I added CKLB, Oshawa, Ont. on DX on 1240. WEDC stood by - and WKOY left the air at 3:09 leaving CKLB in clear and very good here. Verie total now 2,147 with new ones in from WJCM WPRS KDLM WRYO KNOG WDXE and WPRC. 73s for now, men.

David Dary - 121 North Eighth Street - Manhattan, Kansas

Having just joined the NRC some time ago, here is my first report. DX has been mostly on the SW BC bands for two years but now I am getting interested in BCB and I am beginning to like the BCB better than the SW BC bands, or for that matter, better than anything. I have around 200 stations logged on BCB and around 70-some confirmed. The recent flood this last summer took some of my better veries down the river. My receiver is a RME-45 9 tube superhet & ahead of which I have a DB22A pre-selector. Antennas are 100' long wire running NW-SE 50' high & a 12' mast on top of house. Stand-by set is S-77 Hallicrafters. Also have a 100 kc/sl frequency calibrator. I got my first Fla. station 2 weeks ago, WSUN, St. Petersburg, & already got verie. Also logged KPOA & KULA Honolulu, Hawaii Oct/ 31 with S-9plus signal. KPOA comes in good after KOH s/off at 3 & KULA s/off at 3:30 with good signal. Have a verie from KUSD Vermillion, SD, KPET, 250 w., Lamesa, Tex - 2 of my best veries. Am trying to get an Alaskan - any help? I would like to hear from any members who care to write. Am 17 and a senior in High School. Other hobbys - magic, stamps, music (drummer).

Musings of the MembersHank Ward - 404 North 14th Street - Ponca City, Oklahoma

It surely looks as if our CPC boys are getting in gear with every call listed so far needed in this den. Even KOLS, hi. A few veries in since last report - WJMX, Florence, S.C. 970 kc/s., WTRW, Two Rivers, Wisconsin, 1590 kc/s. and KRLN, Canon City, Colorado. I had to be transferred to Oklahoma to get a Colorado I'd tried to log for months when living in that state. That's the way it goes though. This Sunday ayem (10/28) logged two calls that should have been gathered in long ago, WSFA, Montgomery, Ala., 1440, s/on in the clear at 7:00 and KXOL, Fort Worth, regular sked. Ralph, you did well with WBBZ at 1:06. They apparently have a very flexible schedule and I am getting the impression their hours of operation are from 6:00 until the guy on duty on the night shift gets sleepy, hi. A month ago they were knocking off after the 10 o'clock (CST) news depending on the completion of the ball game. I note a lot of you are jubilant over WHHM's clearing the 1340 spot. I have the inside dope on that move, since a buddy of mine worked for them as engineer on the all-night shift, losing his job as a result of the move. WHHM transferred ownership and the new owners' first move was to chop off the 24-hour sked and take the FM station off the air. My friend now works for WHBQ in that city. But WHHM will definitely not pose an interference problem under the present ownership. Will pose a question asked earlier in the "DX News." Is the NRC planning issuance of a f/c list for the current season? 73's to all. (Yes, we are, Hank - Alan Arnold is in charge of it -Ed)

Ken A. Mackey - 2 Dornoch Street - Dunedin, New Zealand

Just a few lines to keep you in touch with doings of your far off member "Down Under" Firstly I must tell you that I now have a car - a Ford Prefect and also by the time you read this I will be DXing on a real receiver - I have an H.R.O. Senior due on the 28th. It is a second hand one I bought in England. Have had a lot of running around with shipping coys, banks, and such but I think it will be worth it. My 10-tube 1936 Domestic Patterson is going pretty good and it will be an interesting night when I line them up side by side. At present I am having aerial trouble - w/ wind blows them down each week. I had 3 up for a while - 1 150 feet high, 700 feet long; 2 175 feet high, 750 feet long; 3 300 feet high, 800 feet long, all of course to the cliff at the rear of the crib. Number 3 was a real wow dragging in Easterns and Aussies like locals - also Europeans. Was no good for Yanks. Here are my latest loggings: WBUT KWTO KOLN JOFF JOHB JOAR WAZL KPAT KHBR KLIC KTKT WOI KSKY KIOA WELP KANE KALG WAOV WTNB KWEW KCNA KFDA LEYE CMZ 6NA JOHG AFRB-Okinawa (250 watts, 1290 kc/s. signing off at 1 PM EST after 21 hours' broadcasting) Copenhagen - KWIE CBK Stavanger Rheinsender WWRL Belgrade DZRH Rabat II, Morocco; Rangoon, Burma, 955 kc/s., BED-33 DZAS Rome XELA XEX WPMP KSIX WENA KDZA WAKE WMT KSD KWED KEVA CMHQ KSJB WGBR KLMX WJKO 4GM. Latest veries, WLPO by L. McCann, VUJ-2 ZEK, Karachi; WCOV WRVA WWL KDAL WROL by Fred M. Andrews, CE 4GM WVNJ by B. K. Kellow; WJKO WAVA by Rev. J. F. Mifflin, Technical Director (was on first ET); KLIC by Dr. Frank P. Cerniglia, (sked is 6:45 AM-2:00 AM EST)(Sunday 7-1). As can be seen by my notes, 4GM is on the air and puts out a fair signal most nights, also 6NA is on the air on 920 kc/s. but the Voice of America transmitter in the Philippines makes this one very hard to get. KFDA, 1440, announced regular f/c 6:00-6:15 on 9/25. WENA & KEVA were good on f/c as listed. Oh yes - see Joe P. of WACB was going to take some convention chatter - well, KHON is silent Monday, 5:00 a.m., EST which is midnight Sunday in Hawaii. If this time is for the proposed DX of WACB I will arrange for a tape recorder to be attached to my set and send it over - if I get it. Same goes for any other member, owner, or engineer who would like to try this out. Well, more next time. Cheerio. (Let's all move to New Zealand, gang! -Ed.)

Bernie Duffy - 94 Lander Avenue - Staten Island 14, N. Y.

I added these three "heards" the past week - KLIC, KOLS and WANT, and got a like number of attractive letterhead veries from CKLD KWCB & WDXE. My listening was as follows: 10/31- KLIC, 1230, coming in surprisingly well over WNOR-WITH and others at 1:55-2:03, as per "DX Down the Dial" tip. 11/1 - KOLS very welcome test-cast heard weakly behind XPERF at 2:36-3:01 a.m. A weak, non-talking record player heard on 1540 at 3:30-3:55. WDYK, 1230, f/c at 4:00 over WITH-WNOR. WANT's much-appreciated test-cast at 4:03-4:23 weak but clear on 990. Their 1 kw. signal not as strong as WLOW and WNOR's 250 watts. WJMP, 1230, f/c for 25 minutes, 3:25-3:50 a.m.

DON'T FORGET TO USE DOUBLE-SPACING WHEN SENDING IN YOUR REPORTS. IT MAKES IT MUCH MORE SIMPLE TO TYPE THE STENCILS IF YOU OBSERVE THIS LITTLE POINT.

Musings of the MembersPat Reilly - 11 Irvine Place - Jamestown, New York

New ones back are KWCB KAGH WHSY WELR KPKW. 10/30 - Too noisy to DX - tried for 40 minutes and to bed. 10/31 - KOLS off at 3:13, caught one selection and announcement but XERF was too strong to copy 100%. KRMG, 740, test at 3:15 on. WANT on their DX OK for a new one. CKNW at 3:55 on 1320. KWCB, 1300, PO Box 95, H. M. Harris, CE is v/signer. A Mexican on 970 as WWSW wasn't on, but WELR bothered when they tested now and then. KMOD, 1360, still on at 4:37. WHAM, 1180, test at 4:33. 11/2 - Who was on 1090 testing 4:30 to 4:43? No voice, played "Should I Love You" in Spanish, over and over again. Didn't feel like DXing today. 11/3 - CKFH heard, but no CKCL DX on 1400. WWSW back today - guess nobody else wished the same thing I did about WWSW. Who is the Mexican on 1290 - XER? in Baja California? Lots of TT but no voice over the dial today. KWCB said they had used my slogan of their call letters but for the life of me, I can't remember what I wrote them. Guess I'll have to fall down the cellar steps to awaken my brains, question mark. 3 prepared cards back from WHSY, 1230 now, no f/c now, Charles T. Sharpling, CE, for 6/15/49 check on 1220. WELR, 1360, after 4 reports, La Verne Foster, Jr., CE and KAGH, 1240, 100 watts, John H. Fleet, CE, for last Dec. 26th report. 11/4 - Caught WWIN, 1400, on top of mess for new one, 3:09 to 3:30. CBL, CJBC and CFRB all on same chain with Red Feather fund raising program. KSL, 1160, with organ music, 4:10 to 4:30 before call given. 11/5 - TT on 1340 3:05 to 3:15, no call heard. KGO, 810, until after 3:40. KCLS, 1340, f/c 3:30 to 3:45. KCNA, 1340, f/c 3:59 to 4:15. KATO, 1340, f/c 4:15 $\frac{1}{2}$ to 4:30, KCLS and KCNA will get second reports as Oct. 1 reports never answered yet. Not a thing heard from KPST on their DX today. Card from KPKW by Walter Mott, CE, for #2179 in my log. Only 2 new ones heard this past week through the noise.

Stan Horss - Bradford, Mass.

10/23 - WOKY to 3 AM, regular sked. KSC test at 3:45, with piano music. WTYC f/c 4:30, QEM from WCUE regular s/on, and CMGA. Verie, WOKE. 10/24 - WFMC, Goldsboro, on ET 3:35 a.m. 10/26 - KHON S-4 4:50 a.m. West Coast on 1300 4:55 - KWKW? CKEW regular s/on, 5:00 a.m. WKIN, Kingsport, Tenn. first day of broadcasting, 5:25; QEM from WMSC, 5:30 on. 10/27 - Indefinite letter from WTHW thanking for my report. Am going to return with note asking for correctness of report to be added to the bottom of the thank-you. 10/31 - Veries from KORK, picture of Thunder-Bird Hotel. I am hearing an all-nighter on 1220 daily from 3:00 a.m. Language sounds more like Portuguese than Spanish ?? 11/1 - 1570 a real mess. Could hear what sounded like two stations on behind XERF, one off at 3:00 and second off at 3:12 $\frac{1}{2}$. Second one had an April Stevens selection for the only item copied. Couldn't identify either through S-8 XERF. WANT excellent 3:59 s/on. Sleet storm an early reminder that winter is just around the corner. I'm afraid this season's DX is going to suffer as I've joined the TV mob, and DX and late TV shows don't mix. So far I've seen 8 TV stations, WBZ & WNAC, locals, plus WJAR WNHC WPIX WOR WCBS & WARD. 11/3 - WIEM s/off ##### 3:14, not enough for a report, though. WHITE f/c 3:30, a new one. WFUR f/c 3:45. WLAV f/c 4:00, another new one. WCAE testing at 4:20. WPDQ, Tommy Tucker Show at 4:25. A TT on 1440 at 4:30. 11/3 - A Spanish-speaker at 4:35 on 1370, weak. Verie from WFPM.

Zane Grey Bennett - U. S. Co. - Lynch, Kentucky

(note new address) Hi, fellows. I thought I would submit a few lines to "Musings." I am now working at the Union Supply Company here in Lynch. Nice job, and good pay. Furniture is my department. I left Galax back in September and lived in Memphis, Tennessee for a short time, and then, Lynch, Kentucky. I am living in Cumberland, Kentucky, where new WCPM will be taking to the air waves in a few days. Since last report, I have logged CFOR, Orillia, Ontario on 9/17; WWBZ, Vineland, New Jersey on 9/18. These two were logged from Galax. WOKE WKIC WKIN Are all I have heard from Lynch. Will close for now. Best of DX and 73s.

CHANGES IN STATION DATA - F.C.C.NEW STATIONS

1380 Scaramento, California 1,000 P-3

DELETIONS

790 K V L U Lubbock, Texas 1400 (new) Fort Myers, Florida

740 W B A M Montgomery, Alabama (not on air yet) from 250 D-1 to 50,000 D-3

790 K F Y O Lubbock, Texas, to 5,000-1,000 U-4, from 1340 kilocycles, 250 U-1.

Musings of the MembersCharlie Conley - 358 Market Street - Lemoyne, Penna.

Not much to report. Still Radiola-ing but only added four new ones this week, due to lack of ambition more than anything else. Caught part of an NBC net program from Los Angeles on 1470 early last Sunday morning and hung on to hear it was coming through KPLC. Sent 'em a report though I only heard one identification during the time I listened to them. Then trying to locate 1490 on the set so I could hear a bit of WGKV's DX, I caught both WOLF in Syracuse and WARD in Johnstown on sign offs. I have WARD but dropped a line to WOLF with very poor report. Doggoned if I didn't have a two-line verie back in a few days saying "This is merely to confirm the reception of WOLF on October 28th, 1951, of 1:58:25 a.m.," signed by Donald A. Muir, CE. Have WGKV veried back in 1948, so I sent him a thank-you card. Then the morning of November 1, feeling optimistic, I tuned in 1570 and was able to dig several identifying items from KOLS through XERF. Could hear KOLS most of the time from 2:00 to 3:12 a.m., which I thought was pretty good for the old five-tuber! Couldn't make up my mind, however, whether I wanted to borrow money by mail, buy a doll, ## Christmas cards or pills to make me shun the filthy weed! On checking, I find I've never reported XERF so I'll have to sit through another peddling session one of these nights and try to add him to the log. WANT did not come through at all well, but I heard most of his program and sent in a report. Two entries for Comrade Seth, do they verify, provided the Beard hasn't left for warmer climes. Again I slept through WRYO's f/c time so I'll have to wait for next month. Three veries in this week. A letter and card from WTOP, to give me my first entry for Bob's contest, another letter and card from WGOD, 1490, on a report, followed-up, of 2/13/50. Had addressed the follow-up to Morton E. Green, CE, but verie, signed by Arthur Cornwall, Manager, advised that Green is now with WFGN, Gaffney, S.C. Cornwall said he spent a long time in Harrisburg, then Lancaster and Philadelphia during the war on Navy recruiting and "Great country up there!" The third was from WOLF as mentioned above. Who is running, and what is this here now # Domestic Contest mentioned 10/27? Is that some sort of a cosmetic race? Hi! Lefty, do you know if Sully and Dick may have used some methyl alcohol at the Grapefruit Juice reunion, or do you think mebbe they broke an arm, or lost their writing tools? Some reason or other, don't seem to find much from them in my copies of the Bulletin!

Ralph Johanns - 64 East Huron Street (side) - Buffalo 3, N.Y.

V/letter by return mail from WPDQ (600) who s/on 4:00 a.m. from private studio in St. John's Apartment Bldg. with Tommy Tucker program, and Bill Fraker, P.D. says, Mon. through Sat. for next several weeks to determine if audience'll warrant program on at 4. (I guess WKAT gave'em the idea). WMAM (570) Marinette Wis. & Menomee Mich by A. L. Stewart, CE and William A. Gerber, Eng. Dpt. say: "used 100 watts 1:45-1:51 CST (10/28) and 250 watts before, no regular test period, sked 6:00 AM (Sunday 7) to 11:07 PM CST, at 4:30 CST in November drops power to 100 watts, test usually till 2 AM. CKLD (1230) Gaston Bilocq is CE, 11/10 special v/letter in English and send 3 4¢ Duke-Princess stamps and 2 coverage maps (they're world's largest asbestos mines. 11/5 heard KWEW WPLH & KSGM (not 980 yet) TTing together; WDSU (1280) 1:31 s/off but WOV continued; KCTX/c with Kansas City had KGA regular and WLAC with carrier; KWCB (1300) s/off M/c at 2:28; KMYR (1340) (not 5:00-5:15) 2:35-2:50 TT/c; KERN (1410) regular/off 3:00 a.m. to return at 6 PST; no KPST special, open carrier and a fainter TT-rat only; KCLS/call at start (and Maguire waited 8 months); KGO (810) runs till 3:45/off; WFBR (1300) at 4:00 and WKLX at 4:02; KCNA (1340) TT/c 4:15, another K-TT 4:30-4:45, ended a 21° night and 5" of snow with thunderstorm Sunday here. 11/2 - WDEN (1150) TT/c 1:58-2:26 etc.; WING/c at 1:31; KSMO (1550) regular/off 2:57 with Bluebird number to return at 6:30 PST and when I heard CKLW (800) on second harmonic on 1600, I quit. 11/1 - WANT-special OK from transmitter at Belle Isle in James River; KOLS-special fine till after 3:05; KRKO (1380) at 3:00; KING (1090) wavy; 940-rat played "Wedding Bells" at 3:35; CKMO (1410) regular 4:05½ off; KENO (1460) 4:33 off; KENO (1460) 4:33/off to return at 5:00. U. N. stamps have a second release 11/16 (2, 10, 15, 20 & 50¢ available. Everyone knows first hot dog came from Pclo Grounds on a blustery day, but first hamburger was by Frank Menches in 1892 at Summit County Fair (Ohio) when he ran out of pork sausage, and now I'll run out.

HEARD SINCE LAST ISSUE

1360 W L C M Lancaster, South Carolina 1400 K B N Z La Junta, Col. (ex-KOKO)

Musings of the MembersJoe Brauner - 23 Howard Avenue - Williamsville 21, N. Y.

DX still going slow here, with conditions poor for the season. Nothing new since last report except WLCK, 1450 on f/c 10/22; WAIN, 1270 ET & f/c on 10/29 WGAF, ET on 910 on 10/29 and WKIN, 1320, on regular sked 10/29; WANT on DX-Test of 11/1 and YSEB on 11/2. Nothing much unusual to report otherwise, YSEB surely surprised me for my set is not much good on working split frequencies, but this one rolled right in the first time we tried, at 9 PM. WSRS seems to be silent Sunday mornings. Heard WJBK's usual excuse for a program along with WBEX's regular f/c and WVVW testing on AM of 11/4. WAIN, Columbia, Ky., 1270, says regular f/c is on LAST Monday at about 3:15 and is to be preceded by a musical test period, Rex Osborne, Program Director v/signer. During the past few weeks, a drive has been made here on all over-due reports. Mostly stations who have ignored second and even third reports, using return cards. Results so far were good (a few were to clear up stations who had written nice letters but failed to confirm reception in them), cards back from: WPCF WJON WPKE WCRI WBNL KCJB WMAK WGAD WPKY WJAT WGSV KJAM WDLA, station card from WLCK. Letters in from WAIN WJCM WDXE KTKT WOKE. 73.

Len Kruse - 816 Euclid Street - Dubuque, Iowa

With the month of November at hand, DX conditions have improved somewhat, and has brought an average of one new station a day to my DX Log, or seven the past week. I was happy to add station WANT (990) Richmond, Va. on a DX Test for the NRC on 11/1; although no sign of KOLS, Pryor, Okla. on its DX Test of the same date, which had to contend with powerful XERF which "wallops" into this den. Sid Rosenbaum deserves a vote of thanks for his fine efforts as a new GPC man. Also on 11/1 WDYL (1230) Cumberland, Md. was heard 4:00-4:15 a.m. with its first Thursday f/c-TT with some WNOR QRM. During the latter part of that same afternoon, I logged for the first time WPBC (980) Minneapolis, Minn. with its regular schedule of programs, with an occasional KMBC interference. Then on 11/2 again I DXed during the latter part of the afternoon, and added KMCO (900) Conroe, Texas, doing its last half-hour of regular schedule 6:00-6:30 p.m. Thanks to a tip from Don Kaskey, and after several attempts I finally logged KWSH (1260) Wewoka, Oklahoma, for several hours of regular programs also on 11/2 during the evening hours. Station WIHL (730) Hammond, La. was logged for the first time with a test program on 11/3 from 3:04-3:14 a.m., and stated it was one of a series of tests, so might be well to keep an eye open on 730. Only one announcement was heard from the new WLCM (1360) Lancaster, S. C. at 2:55 a.m. on 11/3. The NNRC DX from CKLB (1240) Oshawa, Ontario, was heard as the only new catch on 11/4 from 3:00-3:30 a.m., and again we DXers should drop a card of thanks to WEDC Chicago, for standing by. A really good friend of DXers! As for verifications the past week, were letters from: WPGW KWCB WACL KGOS and a folder card from WLOK. My heartiest congratulations to the Pelletiers on the birth of their baby girl.

Sid Rosenbaum - 806 Market Street - Wheeling, W. Va.

Unfavorable conditions held down DX here the past week and only two new ones reported. Nov. 1, KOLS DX, easy through XERF, but s/off at 3:12 instead of 4:00. I hope our good friends down in Pryor get a bundle of reports for their latest effort for NRC. WANT DX in strong and copied 100%. A nice musical program with comment and the swell way of giving titles and identifications made this DX stand out. Others heard on Nov. 1 were: KLWT (1230) on f/c and *WETE (790) f/c with music 3:45-4:00. Nov. 5 - WPLH, KSGM and KNEW on 1450 all on f/c at 1:15-1:30. An unknown K on 1340 that announced they were on the air for 5 minutes, 2:10-2:15 s/off ??? Another triple f/c was heard on 1450, WHSC WNAT & KGIW, 2:00-2:15. KOLS (1340) heard on f/c the same time as last month, so must be regular, 3:30-3:45. Nothing heard of KPST on DX even though KOLS put in a nice signal. QRN XX to XXX this morning, but western stations were getting through it. KMYR (1340) on regular f/c 2:30-2:45 instead of 5:00-5:15 as listed. KFGQ in Boone, Iowa on f/c 3:00-3:15. WWPG (1450) is still on 24 hours on Monday A.M. We had had our first touch of winter the past week with a low of 26° on Sunday A.M., and about 4 inches of snow on the hilltops. On 1570, KIVY KOLS KTAT and KTER have changed s/off on Nov. 1 to 6:30 PM. KIVY & KOLS are usually dominant. V/letters from WRMN WHAN & WOKE. Card from KORK gives HQ as Thunderbird Hotel. Just topped 1000 veries recently & reminds me my total was only 444 when I joined the NRC in 1948. Friendly club competition & tips from our bulletins have been the means of helping me reach the 1000 mark. Many thanks to all you fine fellows for the help & kind words when I was new - you can be sure it will always be remembered.

Musings of the Members.Hal Williams - 50 Third Avenue - Seymour, Connecticut.

The month of October with 11 reports and 14 veries is my worst month in the so-called DX Season since I started as an active DXer. Only 3 ECB veries received this week. 11/1, WRAL (1240) QSL card for f/c 9/11. 11/2 - WJKO (1600) ex-WSFL short letter from CE typed on plain piece of paper for third report. KWCB (1300) Searcy, Ark. nice letter of verification and apology for delay in verifying my report of ET 8/6. CE writes he was formerly CE of WKWF, Key West, Fla. Also a nice SW verie from 4VEH Cap Haitien, Haiti, I know SW has noplac in "DX News" but if anyone wants a nice photograph & QSL card, 4VEH 9710 kc/s, English 6-6:30 AM weekdays. Additions to my log are only one, but CKLB (1240) Osnawa, Ont., my first DX Special for the season, boomed in here strong and clear. CKEY (530) CBL (740) CJBC (860) CFEB (1010) CKFH (1400) all Toronto stations, on all night for Canadian Red Feather appeal. All stations gave the same phone number for pledges and requests. On till at least 5 AM. It's so long since I have been home on a first Monday I hoped to add some new stations. I had a funny experience Sunday PM between 11:00-11:30. I logged WSAN (1470) Allentown, Pa. easily with WLAM, Lewiston, Me. and WMED, Peoria, Ill. both on. It would have been easy to copy any one of the three but I only needed WSAN. Never could get them before on regular sked, or any other time, hi. Here's another good one. 11/5 at 12:45 a.m. I tuned 1600 and was surprised to pick up KCRG, Cedar Rapids very clear and strong. They signed at 12:55 and then WAPX in like a powerhouse with ABC News and s/off at 1:00. So 2 unexpected ones for me. 1600 has been a poor frequency for me but they sure boomed in this A.M. KWBB (1300) Searcy, Ark. again on ET 2:00-2:30 and later. If KPST was on from 3:00-3:30 I did not hear him. I heard a station on s/off at 3:00 saying Las Vegas - did not hear call but must have been KOKK. Also another station saying they were building 5,000 watts - don't know who but it was a K station. WPDQ (600) Jacksonville, Fla. now s/on at 4:00 a.m. Heard Tommy Tucker read a letter from Relfe Luton and also mention of one from Ralph Johanns, and a good plug for the NRC, asking members to write and now I must sign. 73.

Lefty Cooper - 438 East 21 Street - Brooklyn 26, N. Y.

Veries came in from WHJC KWCB and WJET, all nice letters, this week. WHJC was logged on 10/26, and I erroneously skipped over that date when making out my report for the 11/3 "DX News." Conditions have not been too good around these parts for the past week, and consequently, my loggings suffered with them. I got up at 3:40 to take the first 20 minutes or so of WANT at 4:00 after grabbing the last 20 from KOLS, but the latter was not heard. Now I learn from your reports in this issue they signed off at 3:12. Doggone the luck anyhow, and apparently they did right well gliding through the XERF signal. I for one am definitely NOT against DXes on 1570. I have pulled in some nice DX through XLEF - KIVY, KJFJ and WJET to name three. WANT had a steady signal, if not too loud - S-6 here. WDYK also pulled in by switching back and forth on f/c 4:00-4:15. 11/4 - Some one Tting on 1090 to 1:10 s/off, and was best on my "New England" antenna - maybe it was WHEE??? WEEL was testing on 590, and all Toronto stations except CHUM were on with Red Feather Drive with live show. 11/6, light classical music on 980 way over CKVL much of the morning, but nary a word was spoken. I thought I had added KLEE behind WUP, but waiting for station identification, I found out it was not they, but KDAL. KNBC seemed to be all-night - still going strong (and I mean strong) at 4:35 a.m. WRFC signs on on 960 at 5:30 a.m. and gets through quite well, but I didn't get his identity until 5:57 and had made no notes previous to that. Then - wham! They got hit by WWST and WDBJ and one other, so I'll put that one down for future reference - next Monday AM, another holiday for me. I always stay up the entire AM holidays, and generally am rewarded, but not this time. WHJC (1360) Matewan (Mate-one) W. Va. says MORE EARLY AM TESTS TO COME!

Bob Brown - 721 South 9th Street - Goshen, Indiana

For your "Condition of the Channels" listing: WSRS - 1490 - Cleveland Heights, Ohio, all night except 3:03 a.m. Sunday morning s/off. 73s.

FOREIGN DX DIGEST

Edited by Fred vanVoorhees, Box 132, Lemoyne, Penna. Deadline Wed AM.

First of all because of the holiday the deadline for the issue of November 24th will be Tuesday PM November 20. Please send your reports for that week only to: Fred vanVoorhees, Hotel Allen, Honesdale, Pennsylvania. Thanksgiving week only. In order to save space we are going to give credits within the column by the use of initials and then identify the reporters at the end of the column. To Dave Dary, we get the New Zealand DX Times at headquarters, but thanks for your trouble anyway. Incidentally didn't you notice that Cuban list was originally taken from our own NFG last spring?

The new issue of WORLD RADIO HANDBOOK will be ready late in the month of November. Cost \$1.50 this year and orders may be sent now to World Radio Publications, 32 Wittlesey Avenue, East Orange, N. J. The notice was in today's mail. Now on to the DX of the week.

To the list of listeners to YSEB, add LK, RG, HW, and your editor. He is still there on 1075 with excellent signals. Anyone have a verie yet? He is the only Central American in the news this week.

HW reports that he has now identified the unknown on 1072 as HJAT in Barranquilla, Colombia. Announces as "Radio Barranquilla" and has been listed on 1450 Kcs. Also new and interesting is a report from HH of reception of YVML, Cabinas, Venezuela on 1180 Kcs., on November 4th between 7 and 7:36 PM. Fair to poor signals with no QRM from WHAM.

Turning to the islands, BB reports a verie from WAPA (680), San Juan, Puerto Rico, heard October 13th and veried October 27th. Our CUBAN reports this week include CMHD (890) and CMBQ (1010) reported by BF. CMBQ is 10 KW, Barry. HW reports that his 1092 mystery station was CMBS, Havana, off frequency. He thinks that he is back on 1090 now, as he is not being heard now. HH adds CMKF (1050) in the early evening completely blocking WMGM at times. He is in Holguin, Cuba. HH also reports CMBY (1120) Havana, Cuba, from 5-5:43 PM on November 5. Be careful here as YVMF comes in well after 5:30 and may be overriding CMBY. Watch your identification carefully on these two.

HH reports unknown signals in Spanish on the following frequencies: 1100, 1110, 1030, 1140, 1090 (CMBS?), 720, 1520, 1050, 1560, and 1045. He says it is best season he's seen for CA & SA since he started.

LK & RG report Hawaiians coming in, but don't mention any in particular. DD has logged KPOA (630) Honolulu, good after KOH goes off at 3:00 AM. KULA (690) Honolulu, also logged before his sign-off at 3:30 AM. That just about winds up the DX goings on of our club members for this week.

From the New Zealand DX Times we have the following new Australia stations: 4GM (1540) Gympie, Queensland, 200w, ABC opened 8/15. 7DY (1450) is now using 500 watts. 4MK (1380) increasing to 200 watts. 3YB (1210) Warrnambool, is using new equipment and power.

The TIMES supplies us with the following list of Pakistan stations: Karachi (825); Dacca (1167); Lahore (1086); Peshawar (629); and Rawalpindi (1490). Malayan stations are as follows: Singapore (620); Penang (1280); Singapore (1333); Kuala Lumpur (1013); Seremben (1024); Malacca (1073); Penang (1110); and Kuala Lumpur (1203).

The TIMES reports Rangoon, Burma (955) is being well heard. They also list All India Radio frequencies as: 730, 767, 810, 1022, 1131, 1200, 1290, 1333, and 1420. Good luck to all of you on these.

Here, then, is the list of Philippine stations:

DZBB 580 M. Flores, 4th Floor, Calvo Bldg., Escolita, Manila.
 DZRH 650 James Laschiever, CE, 7th Floor, Ramon Rases Bldgs, Manila.
 DZAS 680 Far East B. C., Box 2041, Manila.
 DZFM 710 K. Trinidad, Mgr., Town Hall, Manila.
 DZPI 800 4th Floor, Ramon Rases Buildings, Manila.
 DYSR 840 Eliseo Araneta, CE, Dumaguete City.

Philippine List continued:

DZST 860 University of Santo Tomas, Manila.
 DZBC 1000 Bienvenido Tapang, Bolinao Electric Co., Manila.
 DYRC 1040 Jose Esplanada, C. E., Cebu City.
 DXAW 1180 F. Munoz, Asst. C. E., Davao City.
 DZBU 1250 Jose Esplanada, C. E., Cebu City.

We are indebted to the New Zealand DX TIMES and in particular to Arthur Cushen for the above information on Radio Stations in the Asiatic and Oceania portions of the world. 2AP in Apia, Samoa, is being reported in New Zealand, and he should be a good bet for this country's west coast. He is on 1420 Kcs.

Now for the list of this week's reporters to the column:

DD David Dary, 121 North Eighth, Manhattan, Kansas.
 HW Harold Wagner, R. D. #1, North Girard, Pennsylvania.
 EK Len Kruse, Dubuque, Iowa.
 RG Robert Gorsuch, Cedar Rapids, Iowa.
 HH Hank Holbrook, 6504 Chestnut Street, Chevy Chase 15, Maryland.
 BF Barry Foote, 273 North Avenue, Weston 93, Massachusetts.
 BB Bob Brown, 721 South 9th Street, Goshen, Indiana.

Let me put in a plug for the contest. Remember that your entries must be in my hands by November 15th. This is going to be a good contest for those of you who tune foreign stations. I only have a few entries so far, and the time is getting short for entries. Remember that this is the only contest the club is running this year where Canadian stations may be entered. There will be no specific times set for publishing standings, but they will be published from time to time as conditions and space warrant. I want to acknowledge contest entries this past week from Bob Brown and from Pat Reilley. Bob accompanies his quarter with the listing of WAPA in San Juan as his first contest entry and so becomes the first contestant to score with a point total of 1. Come on, let's have a lot of ~~of~~ the rest of you in this contest. Just send a quarter to me and answer the questions listed with the contest rules a few weeks back.

Dave Dary has mentioned that he is trying for an Alaskan and wonders which one would be the most likely to be heard. I don't believe that many fellows have more than one or two Alaskans verified. I think that KFAR is by far the most likely to be heard in the US. I verified him two years ago, but I didn't hear him last season at all. If any of you have any suggestions to give to Dave, send them along. Nice letters from Pat Reilley and Bob Brown, but neither had much to offer in the line of DX. What is happening to you fellows. Pat was one of the top scorers in the foreign contest last season. Well, we can look for bigger things when the season gets underway.

No report from Lefty Cooper this week. Could be that he is still carried away by that WNCC veric he received not so long ago. He still swears that he didn't report it on reception from my automobile radio, but we can't figure any other time he heard them. He does admit that he has the veric though. Well, enough for this week. See you all next Saturday.

Friday eve, North Girard, Penna.

To add to Fred's column, New Zedders heard here from 4:30 AM on on Monday and Friday 11/5 & 11/9. 660 & 880 seem to be best channels.

Available from North Girard

NOTICE-NO MAIL DELIVERED NOV 22nd-SO EDGE'S DEADLINE WILL BE NOV 21st

"D X NEWS"
DIS-A AND DATA

For the benefit of our newer members, and to refresh the memories of the DXers who have been with us for some time, we thought we'd devote this page to some explanations of various features and procedures in connection with "DX News."

THE DX CALENDAR

Daytime stations, as the general rule, are not permitted to broadcast DX programs, or any scheduled programs between sunset and the following day's sunrise. However, they may conduct frequency checks and tests between midnight and 6:00 a.m. local standard time. Therefore, any programs arranged by our Courtesy Programs Committee from daytime stations are TESTS and are listed that way in the DX Calendar. On such programs, confined generally to 1/2 hour's duration, no mention of the NATIONAL RADIO CLUB may be made. However, these tests have been arranged for your DXing by our Courtesy Programs Committee, known as the CPC, and are treated in the NRC DX Special Contest just like DX programs from full-time stations. Now some daytime stations operating on regional frequencies (Example: WACB-1580) may sign on for commercial broadcasting any time after 4:00 a.m., local standard time. So, NRC-arranged DX programs are listed under "Legend" as N*R*C and NRC-arranged tests are listed T*E*S*T. To our intent - logging the station - there is no difference. In fact, all DX programs are actually tests, as the station is testing its ability to get out to distant locations.

With programs arranged by the Newark News Radio Club, DX programs are listed under the "Legend" column as "NNRC." NNRC-arranged programs from daytime stations are listed "test" in small letters, to distinguish the program from one arranged by our CPC staff, listed in caps.

In giving credit for arranging DX programs, we add "Arranged by D.X.Nutt" but with daytime stations, we cannot list such a program as arranged by anybody, for that would make it a violation, so we give the credit by saying "Information from D.X. Nutt" at the end. This is a technicality, members, but must be adhered to, since the station might otherwise get in trouble with the FCC otherwise. Remember always that every issue of "DX News" goes to the FCC office in Washington as a courtesy to them for the consideration they give to us in supplying us with all the latest changes in station data. So lest anyone think we are slighting any CPCman or station, we thought we'd take the space to give you a full explanation.

MUSINGS OF THE MEMBERS

Every member is invited to send in reception reports for these pages, whether he has been in the club 19 years, or 19 minutes. We especially desire to hear from our new members, whether they are new in the DX game or not.

We generally put the shorter reports towards the bottom of a page, for it is easier to judge whether it will fit in the available space. We try to publish your reports word for word, unless we note grammatical errors, etc. If we find ourselves running out of space as we get toward the bottom, we will then abbreviate a bit so as not to run over to the next page. We try to make every page a complete piece, rather than carry over to the next page, feeling it is neater that way. Once in a while it becomes necessary to carry over, but not very often. So if a word or two is omitted, that is the reason.

Few of us know anything technical about radio broadcasting equipment, so we suggest that such items not be included, unless they refer to receiving equipment or antenna patterns. Great detail in technical matters is for engineers, and such is not the purpose of the NRC.

Only radio stations to receive "DX News" are those honoring us with DXes or tests the ensuing week, and they receive only the copy in which their program is written up.

NEW CPCmen

Please remember that details of the program, verie-signer's name, type of show, any comments by the verie-signer, should be sent to the Editor. Our deadline is Wednesday, don't forget. That means that a program is written up in the last issue to be received before the program is due. A Monday DX is written up in the "DX News" of the previous Monday, so for Tuesday programs also in case you don't get "DX News" on Mondays. So the Editor **MUST** have DX Program information 14 days in advance of any DX Program or TEST in order to get that information to the members. If shorter notice than that is received by any of you, it should be sent **IMMEDIATELY** to Harold Wagner who will send out special cards to the entire membership.

Please list everything in E.S.T. - DX programs, and times in your reports. Thank you.
