MR. E. H. SCOTT IS DEAD

See Mort Meehan's report on Page 9 for details. DXers will mourn the loss of this great pioneer, and creator of the world-renowned Scott Radio.

LIKES OUR NEW FEATURE

"The verie signers' list is a great addition to the bulletin. I'm keeping all of them handy for quick reference." - Bill Prater, Grimsley, Tennessee.

DX CALENDAR

Date	Calls	Kc/s.	Location	Watts	Legend	A.M., E.S.T.
Nov. 18	W H A Y	910	New Haven, Connecticut	5,000	N R C	3:00 - 3:30
26	K*P*S*T	1340	Preston, Idaho	250	N*R*C	3:00 - 3:30

Jan. 7	K*S*R*O	1350	Santa Rosa, California	1,000	N*R*C	3-4 or 4-5

* All programs count in our NRC Special DX Contest, except WHAY, on which we had no notification. Try to report all programs, or else send a thank-you card or letter.

K P S T - PRETSON, IDAHO

This station was not able to take the air on its scheduled DX program listed for Nov. 5, so they are re-scheduling for this date, again with insufficient time to get the information to you via "DX News." We understand that again, special N.R.C. Tip Cards were sent out about this program, and we hope you all heard them. They had transmitter trouble the first time, and thus were forced to fore-go the DX show they had been ready to put on the air for us. This should be a better time since there are so many western f/cs on the first Monday on 1340. Arranged by Don Kaskey.

CH A T - MEDICINE HAT, ALBERTA, CANADA

Our first Canadian program of the season! And it is a station many of us need, and the channel should be free of all others, also 1260's all-nighters are silent too to help out. The program will be musical and informative, with interesting items about Medicine Hat and Western Canada interspersed between the selections. Station breaks will be made after every number, and before, and phonetic identity will be given from time to time. This will be exclusively an engineer's show, with all four of CHAT's operators working on this DX! One will be at the transmitter, two will be at the mike (who have had experience with mikes as hams) and a friend of DXers for all the years since the inception of CHAT, Mr. Ian Carson, Chief Engineer, will act as control operator. They hope to reach New Zealand, and have received one report from there. So let's all be tuning for CHAT, 1:00-2:00 AM MST (3:00-4:00 AM EST) December 3rd, and add this friendly station to our logs. Arranged by Sid Rosenbaum

W A C B - W A C B ?

No, that's not an error up there - two listings for WACB. Joe Pelletier has decided to go through with the 2-hour Sunday DX with Convention Interviews by Bob Gorsuch, but so that New Zealand and western members can have a chance to hear WACB with KHON off, he is putting on a second and completely separate musical DX the following morning!

~~#####~~ Most of these stations came from one long list. We'd appreciate it if you'd send them in as you send your reports, fellows, so as not to make it such a long job of putting them in the order of their frequencies. Thank you.

STANDINGS IN THE "150" CONTEST FROM BOB GORSUCH

The following is the standing of the DX Contest as of 11/12/51 but since so few knew of the intention to publish standings at this time it isn't much of an indication. The December standing should show the first early trend in how things are going. Have your lists to me before Dec. 9 for inclusion next month. Although I'm not an official entrant, am going to play along with the rest of you and list my score too.

1 - Len Kruse, Dubuque, Iowa KSTT KSWI KWCR KWWL KFEQ WNAX WMIL - 7 points.
 2 - Pat Reilly, Jamestown, NY KATO. 1 point. 3 - Bob Gorsuch, KLIC - 1 point.
 Address standings to: Robert Gorsuch - 2509 "D" Avenue N.E. - Cedar Rapids, Iowa

Musings of the MembersCharlie Conley - 358 Market Street - Lemoyne, Pennsylvania

Fuh is fun, and I'll go along with a gag, but when you even think I may have been responsible for that bit of doggeral included in Blackbeard's annual report, y're layin' yerself wide open fer libel, Mate. I'm just "libel" tuh whip youse up some real stuff. You coulda known it was Seth's for doesn't he moan about no beer being sold? Another thing, what is this "Goo-Time" etc., he sez about me? Good thing the Missus doesn't read these bulletins, or I'd have somepointed questions to answer, hi! Before getting down to business, ## I'm really concerned over the information my fellow Graphic Arter, Electric Press Cooper dishes up about poor, OLD Sully. If the new DA has caught up with him and his penny ante, and given him his just deserts, I think we should begin a collection for "Smokes for Sully" and all chip in and buy him A cigarette. Now to be serious. Something very unusual has happened this past week. I received eleven veries, and the bulletin arrived Sat., 11/17 instead of Monday. Veries consist of KMOD on f/up of last December's report, thanks to Lefty's v/s column, CKLB and WANT on DXes, v/s Benjamin A. Franklin, CE, who used to be with old WKIN, WACL WCAU WCBM WHK* WRTA WSPD*. All were letters except WSPD. Those marked * were for one announcement reports, and CJOY's was back in 5 days! Verily, I'm afraid this can't keep up! The big mistake I've made recently was that I didn't do like a certain fellow traveller I know must have done, namely surreptitiously log stations while supposedly jotting down interesting facts about the beautiful country he was seeing for the first time. Only way I can see how WNCC was heard in Brooklyn! Reports were few last week. WLOS on regular program, AM, 11/11. WRGX on f/c AM of 12th. That was when I caught CJOY's s/off. Picked up the Scott Friday. Had a short in the IF circuit, whatever that is, and needed a new 1629 tuning indicator tube. (1629? Sounds kinda old to me -Ed.) The AM of the 17th I copied a station on 1420 from 1:36 to 2:02:30 when they left the air without identifying. During the time I heard them they played several records, including Dorsey's "Boogie Woogie" several times, and gave time at 1:40, mentioning telephone requests; but at no time during my listening identified themselves. Anyone know who it may have been? (WVOT often repeats selections on its frequent tests -Ed.) This AM, 11/18, logged HJ CZ on 710 intermittantly from 2:05 to 2:58, CJBQ on 1230 on NNRC DX, very badly QRMd. Had fine signal here but broken most of the time. CKRB, Barrie, came on just before CJBQ's sign off, calliag DXers. Have him from last year, and, as I recall had to f/up for a verie. Then a couple of pushovers I've never logged, WBAP, 570, and WIND, 560. A foreigner of some brand other than Latin from 4:31 to 4:43 on 690. Lost before able to catch any identification. Weak signal and bothered with WLW's s/over. Then, as an excuse to drop Don Kerr a thank-you note for the KGAL DX (which I forgot!) I logged them for the first time. Copied WLOX intermittantly through the 1490 mesh from 5:20 to 5:59. From several remarks he made, he sounded as though he was in New Orleans. How come, I wonder? The final, after trying to catch an identification without any success on the woman who reads Scripture in back of WLOS on 1380, I copied 15 minutes of WRDW, 1480, putting an excellent signal in here. There were many more on with 6 AM s/ons that I could use, but I finally became too sleepy to keep at it, so hit the sack. Glad to see that M/Sgt. Fred Anderson is back with us again. Thassall for now.

Barry Foote - 273 North Avenue - Weston 93, Mass.

Nature threw a monkey wrench into the weather conditions last week, 11/3. We got a taste of all four seasons in 24 hours. In the morning we got winds up to 61 MPH and a freak temperature of 70°. It also rained cats and dogs to boot. By four in the afternoon the temperature had dropped to freezing and it began to snow. Some places in New England really got a lot, too. As a result of all this, many stations were off the air and so DX was good. WHIM in Providence was off providing a clear channel on 1110. At 8:30 AM WNAR, 1110, was heard with an S-9 for a new one. He had a little QRM from WBT. Other stations I noticed off were WVOM and WCAP. The 980 channel had nothing new to offer but the 1600 one had WJKO, a rare one here with an S-2. By noon all stations wer back & conditions slowly returned to normal. Doggone it I missed the WANT WOLS DXes. Didn't feel well that night & slept right through. On 11/5 I looked for KPST but no luck. Caught KELS f/c at 3:31 for a new one. 11/12, WCDT heard swell here. A 20 db. over S9. WGAU on f/c first 15 min. bothering WCDT a bit with TT. Then someone on abt. 3:50 had no luck in knocking our DX out. Looks like 1490 is shot Mons. with WSRS. Is he silent at any period? WPDQ hrd here too. No luck on Argentines. Didn't listen hard. I hear that Spanisher on 1350 too. Wander if it is XEQK? Veries slow. 2 this week, WOKE KSTL. Anybody watch Skelton Sun. PMs? Good show. 73's, best DX.

Musings of the MembersPat Reilley - 11 Irvine Place - Jamestown, New York

Only verie back is WANT, the only new one this week. I've regusted! 11/13- 1310 had TT at 3:11 no voice heard. WKY, 930, carrier and voice, 3:22 to after 4. Heard 3 announcements of KGAL through WKY and WPAT back on at 4. 720 had tone on behind WGN at 4:03. KFYR at 4:05 on 550, is it another all-nighter? WDNC, 620, f/c at 4:09. 940 had unknown, music and tone, 4:12 to 4:26 with no voice heard. WBOC, 960, test at 4:29-4:40. WWSW, 970, had a Spanish station on top most all AM when WEBR wasn't over-riding. 11/14 - 28° yesterday, 56° today, even weather agsinst DXers. WPFB, 910, test, off 3:16. WKZO, 590, 3:18. KREL, 1360, 3:39 and off at 4:09. 1420 had tone, 4:10-4:25, no voice heard. 11/15 - No DX, 51° and noisy, so to bed. 11/16 - Noisy, 36° and rain-snow falling. 1350, unknown 3:12-3:20, no voice. 1370, 3:21-3:32, carrier and TT, no voice. 900, 3:32½-3:50, no voice and I quit. WANT checks with Hutton Monitoring Service of Catonsville, Md. This is a new monitor I've never heard of before. (They took over from the Wash. Institute, or whatever it was called - Ed.) 11/17 - Noisy, 730 had unknown TT and carrier on, 3:02-3:35, no voice yet ### when I quit. WGN was off air. WVOK, 690, test at 3:45. 1280 had unknown on and off 3:47 to after 4 but no voice. WIRK, 1290, test, 4:10 to 4:27 when I quit, will try second report, have tried before, even a follow-up prepared card, but no soap. 11/18 - CKEB on a DX, 1230, 3:39 to 4:01 for new one, not in DX listing. WRAP, 570, religious program, 4:24- WPAX, 1240, offering 10 pounds of pecans for farthest report at 4:35, snowing bad and noisy. 11/19 - WBRW, 1340, 2:58 to 3:30 f/c. WGWC, 1340, f/c 3:00-3:15. WVOK, 690, off at 3:10 and then KSVK came in on f/c for Long Beach, Cal. until 3:15 for a new one and I've chased this one for a long time. WHAN, 1340, f/c 3:15 to 3:26 s/off. WTUX on their DX, but an old one for me. No KNOG heard at all, sounded like a carrier on 1340 all AM. KOBE and WPAM on 1450, 4-4:15 with f/c. No KONP heard through WWPB on 1450, 4:14 to 4:40 quitting time, a KM-R in Cal. on with music but too noisy for call to be copied here. Have about a foot of snow up in this verieless town and still falling. What makes me mad is this - on my Saturday and Sunday nights off, I have no new ones to report to, when I work, I hear the new ones and find it hard to write out reports because of shortage of time here.

David Dary - 121 North Eighth, Manhattan, Kansas

DX here is really imporving along with verification cards which are really coming in. Of course if you were starting like myself on the BCB you also would no doubt be getting a lot of veries. To date have Hawaii, KPOA & KULA verified, Cuba, CMBC-CMBL, U.S. - some of my best heard are KPET-250 watts, 690 kc/s. on regular broadcast, KUSD 1000 watts, 690 kc/s. on regular, KVST, 1000 watts, 1260 kc/s. on regular. Also have logged a few good 250-watt ones in California but as of yet they have not verified. I picked up Hawaii, KGMB, 590 kc/s., on a little 6 tube Philco set the other night without an antenna except for a 4 foot piece of wire. My receiver is an RME 45 9 tube job ahead of which I have a DB-22-A pre-selector. As a stand-by set have an S-77 Hallicrafters. Antenna which I use on both is a 100' running NW-SE 50' high. I also have in use a 100 kc/s. frequency calibrator. It comes in handy at times. Have done most of my listening on SW BC cards for last year and a half and logged 80 countries and to date have 56 verified. All using my RME 45 and DB22A. Am 16 years old and a senior in high school. It sees that in the winter I listen most of the time on BCB and in summer on SW because SW is not open at night in winter while BCBs are and in summer SW reception is good at night and BCB ??? I would like to hear from any member interested in SW or BCB DXing.

Sid Rosenbaum - 806 Market Street - Wheeling, W. Va.

DX listening has been slow and veries are creeping in at a slow pace. WANT verified with a form letter but a note from GE Silas Bell says in part, "It was a pleasure to hear from so many DXers with the help of the NRC." Most reports were interesting and full of information. A card from WLTB also in this week. 11/17- KOLS & KIVY have changed \$/off to 6:15. 11/18 - *WPAX (1240) heard on all AM Platter Party and offering 10 lbs. of pecans to the listener at greatest distance. CJBQ (1230) DX heard with difficulty through heavy QRM, but not needed. WHAY failed to show here on their DX and I wonder if they were on? 11/19- WGWC (1340) f/c. KTTR, f/c as listed, KOFO on ET, WENC f/c & WTUX 1290 on DX from 3:30, fair signal, but plenty of background noise. Nothing heard of KONP or KNOG due to very heavy QRM. Receiving condx very unfavorable the 3rd Monday. How about the gang sending out a few cards for requests to be played by stations listed in the DX Calendar? This completes a dull week here.

Musings of the MembersHank Ward - 404 North 14th, Ponca City, Oklahoma

Well, now that we are getting well into the DX season here is how things stand at this den. Veries in from KULA, Honolulu (thanks to v/s column), WSFA, Montgomery, Ala. Heard and reported are, 11/10, KWED, Seguin, Tex. s/on 8:00 a.m. 11/12 - WPMP Pascagoula, Miss. ETing on 1580; KVFD, Fort Dodge, Iowa TTing at 1400 2:30-2:45; KYOR Blythe, Cal. Testing with music and tone at 1450 3:25-3:54; WCDT, Winchester, Tenn. with NRC DX bucking WGAU, Athens, Ga. TTing from 3:30-3:45 then in clear to 3:58 s/off; KCHJ, Delano, Cal. ETing on 1010 at 4:30; KGPB, Flagstaff, Ariz. TTing on 1230 heard with difficulty 4:10-4:15 (going to try once again for a verie using prepared card with initial report on this contact) and then last but by far not least, WOKE! By golly, I think everyone has mentioned him but yours truly and there it is, WOKE heard and reported. The following were heard also 11/12 and appear to be definite second Monday f/cs and several were requesting reports and promising to verify: WNAG Grenada, Miss., 1400 2:00-2:30; WROB, West Point 1450, 2:00-2:15; WLAU Laurel 1490 2:00-2:15, WELO Tupelo, 1490, 2:15-2:30; WROX Clarksdale 1450 2:30-2:45, ALL Mississippians. All in the clear here with exception of WLAU who bucked WTMV for a few brief moments. Here is a hot tip for those of you who go for really attractive letterhead veries (and I gather from the bulletins that most of us desire letter veries) Get WOOD, Grand Rapids. They have without a doubt the MOST attractive letterhead going if you go for art work in your items. A bit of info on KABL, Junction, Texas. "Our frequency check broadcasts are usually the second Monday of each month. Our power is only 100 watts with a vertical antenna non-directional. You should have little trouble hearing us though on our frequency check mornings, approximately 4:45 AM (presumably CST, fellows)." Joe Morgan authored the letter, no title. Here's hoping KGAL does as well this ayem as WCDT providing of course I rise and shine and twirl the dials. Hi. And s'long for now.

M/Sgt. Fred Anderson - Post Signal Office - Fort Riley, Kansas

Well I guess everybody has had snot but me. Nope, haven't seen any yet. Not here anyway, but it got a little cold a few mornings. DX fairly good here. So for the past week, no veries in, since last report. Letters out to the following on 11/5 - WNAT, 1450, Natchez, Miss. TT-f/c at 2:00. KCTX, 1510, Childress, Tex., f/c-TT at 2:08. KWCB, 1300, Searcy, Ark. testing at 2:22. KMYR, 1340, Denver, Col., f/c, lost the time. 11/8 - KXLF, 1370, Butte, Mont. s/off at 1:05 a.m. 11/10 - Two stations for Bob's contest - KTSW, 1400, Emporia, Kans. at 2:30 PM on regular sked, KOWH, 660, Omaha at 2:10 PM; KLWN, 1320, Lawrence, Kans., regular sked 9:45 AM, KRVN, 1010, Lexington, Nebr. regular at 10:00 a.m. and contest station KXXX, 790, Colby, Kansas at 4:30 PM, regular. (KWHK Hutchinson, Kans. now on 1260 kc/s.) WNOE, 1060, New Orleans, La. regular at 6:30 PM. KTHS, 1090, Hot Springs, Ark. at 7:00 PM on regular. Who is the Spanish speaking station on 730 kc/s. here at 6:00 PM? R-8 signal - is it XEX? KPET, 690, Lamesa, Tex. regular sked at 9:00 PM, pretty good signal for a 250-watter. Through and over KEPO El Paso. Now for 11/12 - WROB 1450 West Point, Miss. f/c-tone at 2:03. WLAU 1490 Laurel, Miss. f/c-TT at 2:05. WNAG, 1400, Grenada, Miss. f/c-TT and under tone. KMHL 1400, Marshall, Minn., test music at 2:10. KMHL finally in clear 2:15. KVFD, 1400, Fort Dodge, Iowa f/c at 2:35. WROX, 1450, Clarksdale, Miss. f/c at 2:40. KOCA, 1240, Kilgore, Tex. f/c at 3:15. Ah so! WCDT 1340 Winchester, Tenn. 3:30 copied solid here except not clear channel. WGAU, Athens first 15 minutes QMed slightly but WCDT overrode. Next check for Nov. 21. KGPB, 1230, Flagstaff, Ariz. f/c at 4:15, and WPDQ, 300, Jacksonville, Fla. regular sked at 4:30 with disc jockey show. Well I don't reckon I'll have any trouble dogging stations in Mississippi. Must be in the State's skip or something. Well, until next Monday 73s. Log now stations I verified, 28 heard. hi. Junior DXer, that's me. Sure wish I had my old logs and veries, but I guess I can get them back by reverify-ing. 73s.

Bob Sanderson - 2073 Waverley Avenue - South Burnaby, B. C.

Not much new DX here lately due to wet weather. 11/4 - KWOR (1490) Worland, Wyoming, heard on f/c at 5:45 AM. 11/5 6:30 AM, KTAE (1260) Taylor, Tex. 6:54, KXYZ (1320) heard with good signal. All-nighter CKNW was off making transmitter adjustments. 5:15, KLIX (1340) Twin Falls, Idaho. WBAP (570) was weak at 5:30. CHWK in Chilliwack BC has moved to 1270 with 1 kw. from 1230-250 & has been heard here with much better daytime signal. That's all from here for this time. Best of 73 & good DX to all. Reports sent out since my last reports are KWOR KTAE KXYZ KLIX. Veries received from CHML KWBR & KUKI, letters, and a very nice card from KXLA.

Musings of the MembersDick Cooper - P. O. Box 223 - Kittanning, Pennsylvania

New veries this week include letters from WCMC WUSJ CJDC EKLB WHLM WFAK WANT KBRS CKFH KJAM and a typed card from WCMC which promises more information about their new station later. The KGAL special was almost a blank here with a very high noise level, but member Wagner logged him very well. WHAY had rough going with plenty of static and not too much signal. CJBQ logged briefly on DX as per tip card and then CKEB, 1230, Barrie, Ont. from 3:30 to 4:00 with surprise DX. Harold Wagner and I listened to the specials on 11/18 together and the Kittanning Chapter convened here Saturday evening with Harold and Ethel, Joe and Doris, and the kids. Bad transmitter fire at WVAM, 1430, Altoona and some of you probably heard them testing 250-watt interim transmitter 11/16. WACB will run DX program as scheduled on Dec. 9 from 4 to 6 and then again on Dec. 10 from 5 to 6 for benefit of west coast members and New Zealand members. The "Beard" sent us a poem some weeks ago that we at COOPER TOWERS want to share with the members if Lefty can find room for it, and Carroll, you're welcome back again! Say, Pat, is it true that Lefty counts a station every time they change chief engineers? 11/19, WTUX OK on DX but too much noise for KNOG and KONP.

Ralph Johans - 64 East Huron Street (side) Buffalo 3, N. Y.

Edw. J. Oberle and staff proudly present WIVY the music station, 1050 kc/s., Professional Insurance Bldg., 135 Riverside Avenue, Jacksonville 4, Fla" and to me a nice v/letter and coverage map, folder and cute ad picture, sked: 6:45 a.m. in November and 7:15 in December, off at 5:30 p.m., f/c last Wed. at midnight. "It's Sold if it's told over WKRM, P.O. Box 71 Columbia, Tenn. (1340), R.M. McKay, Jr., Pres. v/1, sked: 6:00 a.m. (Sunday 8) - 1:00, f/c 3rd Wed. at 2:30 is a ½ hour tape with band music. CJRW (1240) by R. C. Schurman, Ass't. Mgr., sked now is 6:00 a.m. - Mtd., Sunday 10 a.m.-10p.m., CJ: from lit'd (?) CBC-call-prefixes and RW from surnames of Mr. Rogers and Mr. Wright of CJRW. After Thanksgiving I might get a few more veries, but no prepared cards for me. I've only one, 1945, WMPH-1450 for a triple report and so if they don't answer after f/up then I sign my own carbon copy. Lots of stuff and such seems to be BCing lately if one just happens to hear it. Well it's a long time off yet till next season starts again. 11/1 - (LLC:note) KENO (1460) s/off at 4:30 with Anthem via organ to return at 5:00 a.m. their time. 11/7 had several Pa. stations with Election Returns: 3-3:30 1 kw. WWRL (1600) M/c and 11/14 2:30-2:59 off/c from Woodside. 11/12 - WEMP (1580) TT/c 2:15-2:32; WHTC/c at end, return at 5:56 a.m.; KJAM nicely M/c with Point Reyes; KSIL (also 1340) clear-strong TT/c and WRHI into WTSB (5:30 on) s/on 5:46 and then WJOC (Pat Reilley station) took over at 5:55/on. WCMC (1230) ETed through pests pretty well for 100 watts. 11/13 - KLCN (900) M/c 4:00-4:30, nix for KGAL special, only WKY C/c 3:30-3:55; KEMO (1240) TT/c 3:30-3:45 & WJMA/c TT had WINX at 1:04 and WHAT at 1:05. 11/14 - WJR (760) 2-4 off and testing; WKZO (590) TT/c 3:10-3:15 and KTBC ½ hour/c then. 11/15 - Had tears in my eyes with WWRL again at 4:39/c; WKIN (ex: Kittanning call) 1320 strong regular at 5:00-5:30. 11/17 - WOKE (1430) same as WKIN; ~~#####~~. 11/18 - CHLO (580) regular s/off at 12:10 (WPTF 12:05 off) and has "Wherever You Are" and song after news to return at 6:00 and then "The King." 11/19 - WJCM (1340) c had WBBQ, c as QEM; 2:37-2:50 ½ off TT/c by KMYR; 2:57-3:00 ½. WGWC and then WBRW TT/c to 3:15 when WHAN TTed till 3:26 off and WBRW ended 3:30 ½ (nuts to all and no KNOG-special) unless it was them faint M/program 4:30 -5:00? WFAU TT/c; WFOY (1240) r/c TT 4:00-4:10, took WTUX special 4:06-4:29/end (did you note he gave 4:26 time at 4:21?) KOFO (1220) C & TT/c 3:07-3:30 etc., Who is that rat with open carrier for hours on Mondays 1340? On 11/12 WCDT special through WGAU /c; CJBC (860) regular off at 12:03 with 2 anthems to return at 7:00 a.m.; XEX (730) regular/off 1:03 and mentions XEXX, then CKAC off 1:05. WBEM (780) 2:59 off regular says tune KMOX next. Tests indicate moon can be used for radio relays, says Bob Gorsuch's boss (A.A. Collins) so far only 400 mg/s worked. Other studies have shown that reception improves from first quarter to near full moon and again from last quarter to a few days before new moon and if you tune WMGM you're tuned to the stars.

Musings of the MembersHarold Williams - 50 Third Avenue - Seymour, Connecticut

I was working during the scheduled DX of KGAL but I sent a thank-you card to WPAT for their standby. Hope the DX came in OK for you members who were dialing for it. 11/15 - WTAO (740) Cambridge, Mass. s/on in the clear at 5:30 and good until WGSM s/on at 6:45. 11/16 - KTAR (620) Phoenix, Ariz. M-f/c 3:00-3:15 as per 1950 f/c list, very noisy. 11/17 - 1420 ?? Who was on here from 1:06-2:00 saying it was a test program, asking for DX reports and saying they had received mail from New Zealand, giving time in EST and saying from the 1420 spot on the dial, but I never heard the location or call letters. All I could get was "from the 1420 spot with 1000 watt power and time in EST. I got a 54 minute log with plenty of data for a verie but don't know where to send it to. (Again I guess it's WVOT -Ed.) KROD (600) El Paso, Texas TT-f/c 3:00-3:15, frequency clear, as per 1950 list. WVOK (690) Birmingham, Ala. M-ET 3:45-4:00 s/off. I've been trying for a verie since August 1950 so another report sent on this ET. KROD was report #972 for me and my latest verie from WDEL is #778. This is being written on Saturday as I have to leave for work at 5:30 AM Sun, Mon & Tues. then off until Saturday night, 5:30. Hope to have enough ambition to get up early Monday AM for WTUX KOMP & KNOG, but working 12 hours doesn't allow too much time to sit up for DX. So I'll list my veries received for the week and hold until Mon. AM. 11/13 - WFMC (730) Goldsboro, N.C. letter from this new station for ET 10/29 #### "WFMC is an independent station operating daytime from 730 kc/s. 1000 watts non-directional. We will begin program tests Sunday 11/11." 11/15, QSL card from WAPX (1600) Birmingham, Ala. for regular sked and a nice letter from WGBS (710) Miami Fla. for regular sked 1/2/51 without a followup. Letter sent air mail and they were sorry for delay, letter got in wrong file. Current operating hours 5:55 a.m. to 2:00 a.m. (last season s/off was 3:00) and also letter from WVCH (740) Chester Pa. for July 17 ET without a follow-up. Letter headed, "Answer to report #924." WBMD (750) Baltimore, Md. note on the back of my NRC report saying part of my report was correct and part must have been from some other station. CE gave his operating time for Nov. S/on 6:45, s/off 4:45, Dec., s/on 7:15, off 4:45. Jan., 7:30-5:00. 11/16 - CKLB (1240) form letter for NNRC DX 11/4. 11/17, WCAX (620) Burlington, Vt. QSL card for regular sked 11/11. They have been a holdout since 3/21/49. I still have 4 older holdouts WIPR WHEC WOOK WHEC, but I still have hopes if my patience holds out, hi. WDEL (1150) Wilmington, Del. letter for regular sked 11/11. They were also a holdout since 7/27/50, so a couple of old ones in the fold. Sun. PM CMCH (790) was booming in here completely covering WEAN, 5 kw. in Providence, very unusual here. At 3:00 a.m. Mon. only WBEW heard with TT f/c on 1340, then at 3:15 WHAN took over, also TT-f/c and as KNOG was scheduled to be on until 5:00 I left 1340 to try first for KOMP but of course WILM was on here so over to 1290 and WTUX (a Wilmington station I needed) came in swell with occasional QRM by a Spanish speaker until 3:40, then frequency appeared to be clear. Going back to 1340 after 4, still could not hear anything that sounded like KNOG. Well at least I got one of the DX specials. 73s.

Barry Foote - 273 North Avenue - Weston 93, Massachusetts

Hi. I'm very sorry to have received the WHAY, New Britain, Conn. DX info so late. I hope that those of you who needed him heard the DX. Not much to report in the way of DX this week. 11/12 - EM DX looked promising so I decided to twist the dials for a look-see. At 4:28 p.m. I got WCPA, 900, for a new one; WPIT, 730, 4:45, CHOK 1070 on top of CBA and WIEC 5:06, WKLO 1080 heard in background at 5:30 and finally WTAC 600 7:45 with heavy QRM. 11/13 - No luck on KGAL. The "S" meter showed that there was a weak carrier on there ~~#####~~ and I thought it might be KGAL, but it turned out to be WKY on ET. Sent thank-you card to WPAT anyway. On 11/15 got the rig all fired up and ready to go when the NC-33 blew a tube. This incident gave me ulcers because tubes are hard to get for the NC-33 and also I didn't want to miss the KFAR DX coming up. I've never heard an Alaskan. The next day I had all tubes tested and found that the heater of the 12SG7 had burned out. To my surprise the radio man had one which cost \$2.50. I bought it and immediately went home and put it in the set together with the rest of them and I was ready for DX again. 11/18 - Heard the WHAY DX 3:00-3:30, good signal but lots of QSB. Pleased to hear CJBQ 1230 for a new one thanks to tip card. He was in a lot of QRM but was getting through in fine style. Heard some one on 640 at 3:30 with tone. Who? Also heard WROL, 620, on ET at 4:32. Reports out to WCDT and WSRS. Remember to support your CPC. 73s and best of DX. DON'T FORGET THAT IMPORTANT ITEM TO YOUR EDITOR. BE SURE TO DOUBLE-SPACE YOUR REPORTS

Musings of the MembersBob Brown - 721 South 9 Street - Goshen, Indiana

Just a line or two to let you know I'm still DXing a little before I hit the hay early. I'm going to try to get up for KNOG WTUX KONP and anything that might want to sneak into the DX den. I just got through fixing up my f/c lists putting the big check marks beside the stations in Bob Gorsuch's list. Possibilities for the third Monday are KSVG KOBE KVNU KGEZ and KOSF. Eight stations should be enough of a check list for one morning. Starting tomorrow we go to work a $\frac{1}{2}$ hour earlier. I wonder what that will do to DXing. I did get some DXing done. I got cards in from WROK & WLAK and letters from WAVL WRBL WRAY WAPA WCUE WATO WATS KEON KSJO CJIC WRGA WANT. The latter was the only special I didn't miss and then I almost slept through it. (I only got the last 5 minutes). I reverified WTOP WMIL and WJVA for the Collins contest and sent reports out to WLET KCIJ WALB & WPRC from Bob's list. Here are a few tips on stations: WTOP, 1500, s/on 5:30 a.m. 10/1. WLET, 1420, Toccoa, Ga. s/on 5:59 a.m. 10/1. WEAM, 1390, s/on 6:03 a.m. 10/2. KCIJ, 980, regular sked, 6:27 a.m. 10/14. WALB, 1590, on f/c 10/28 as advertised. WPRC, 1370, on f/c 6:10-6:25 11/12. All the above stations are on Bob's list. Maybe this'll help stir up some interest in a really swell contest. Anyone should be able to log quite a few of the stations. I'll go on record saying that no one will get over 100 points. About a half of the stations in the list would be easy to hear here if you had the time. Figuring about 70% verifications that would make a score of 50 to 55. When you get beyond that you are really DXing. Well, that about sums up my past 6 weeks of DXing. If I wake up I tune about an hour and usually log one or two new ones at each session. (K3 new veries this season) I sure wish I was working the schedule I did back in the 1940-1941 season. Then I worked 4 PM to 1 AM shift and DX the rest of the night.

Bernie Duffy - 94 Lander Ave. - Staten Island 14, N.Y.

Acting on 3 more of Lefty's appreciated telephoned tips I added WCMC 1230, WMAM 570, and WRFC 980, bringing my heard log to 1998. Only recent veries is WANT. My DXing had the following results: 11/12 - WCMC Wildwood, N.J. ETing at 1:15- only on par with WITH and WNOR. WCDT'S DX at 3:37 weak and marred by louder WGAU. 11/13 WPAL, 730, at 2:30 a.m., WHIN 1010 testing and offering veries at 2:40, WDXI, 1300, doing the same at 2:45, WPAT heard s/off for KGAL's DXcast at 3:00, but I couldn't hear the latter at 3:30-4:00. CJCH, 920, came in well though at 3:05. We should all thank WPAT for "shutting down." 11/14 - WPFB, 910, on at 3:19. WMAM testing with 250 w. using cycle tone at 4:03. WPDQ's daily s/on program heard well at 4:05 asking reports and reading new member David Dary's letter. WRFC heard with their daily s/on at 5:30. 11/15 - WSIR 1490 atop the all-nighters at 2:20, WVOS 1240 testing at 2:30 and the new WFNC, 1390, ETing at 2:45, WVAM 1430 ended test at 2:49. 11/18 - Some U.S. station behind the Mexican on 990 at 2:39 - maybe KTRM. HJ CZ 710 fairly loud at 2:50 and CJBQ's DX for the NNRC atop others on 1230 at 3:20-3:30.

Don Kaskey - 908 South 25 Street - Omaha, Nebraska

DX this week has been small but still something reported. On Nov. 12 WCDT, 1340, Winchester, Tenn. tough through static and WGAU-TT but good last 15 minutes. Nov. 14, WMFT, 1240, Florence, Ala. s/off f/c at 4:47 and WAYS, 610, Charlotte, N.C. making phone calls at 5:22. On Nov. 16, WIST, 930, Charlotte, N.C. one call, test at 2:02. Hope enough for verie. Nov. 17 - Thanks to a tip from Len I logged KURV, 710, Edinburg, Texas on f/c 2:00-2:15 TT very loud here. Been after them for quite a while without success. On Nov. 19, WTUX very weak on DX but 2 songs copied. Static very heavy on 11/19. No KONP although KOBE and KAWT broke through 4:00-4:15. KPRL surprised me on 1230 from 4:00-4:30 but heard no KVAS at 4:30. KPFA on for Community Chest on Nov. 17. Also reported KOLO on 920 from 1:15-3:03 s/off on Nov. 19. Veries from WACL, Waycross, Ga., WFAK, Memphis, Tenn. and WCBI, Columbus, Miss. To Ken Murphy, what is your phone number? Mine is Jackson 6071. Let's get together some time soon. Like the DXes such as WELC KIWW etc. Also WATG and WACB. WTUX was #2 in Delaware for me and I was sure glad to hear them, but KNOG wasn't heard. Hope to get some southern DXes from Texas, Oklahoma, etc. instead of westerners as my radio won't pick them up. So long for now.

We certainly would appreciate it if some of you lads whose reports run more than half a page would try to keep within that space. Ye Ed has been forced to keep typing stencils past the midnight hour on Wednesdays often, and, well - he feels a bit weary the next day at work. Don't leave out any DX info, but if you can, please try to be just a little more concise. Thanks a lot.

Musings of the MembersJoe Brauner - 23 Howard Avenue - Williamsville 21, N. Y.

Almost nothing to report this week but there goes anyway. On the DX Tests I did manage to hear a little of KGAL's test, although the R-8 carrier of WKY didn't help them any. Was heard fairly well between 3:30 and 3:45, and think he stayed on later because I'm sure I heard his call mixed with WPAT at 4:15. WPAT is not strong here, usually hard to read. The only other new station this time is CKBB, heard DXing at 3:45 this morning, 11/18, rather weak and not easy to read through WITH-WNOR. Before CKBB, heard CJBQ, also DXing. Latter is 'local' here on 1230 but never heard CKBB before though he is nearer here than anyone else on 1230 who I've not heard yet. Also heard Canadian, either CHAB or CJAD sign off 800 back of CKLW at 3:30. Don't need either one. Sure welcomed KGAL and CKBB, testers seem scarce to me. I note I missed a few I really wanted badly, WIHL and WMAM, the latter the oldest station in U.S.A. that I still have to hear. No veries this week except a nice letter from WANT on their DX test. No luck with 1340 on Monday either, WCDT was swell, but like KNOG will be, old stuff long since heard several times. KSIL was unusually good on f/c.73

Len Kruse - 816 Euclid Street - Dubuque, Iowa

This past week has added verifications from the following stations - letters from WFMC WPBC KRIC CKLB-DX KMCO WANT-DX, and a prepared card from WPKY. Station WIHL replaced the "verified" notation on my reception report with a nice letter verie on their letterhead. As for loggings the past few days, there were three added on 11/13 namely WFUL (1270) Fulton, Ky. on a f/c 2:40-2:45 a.m., then the regular 2nd Tuesday f/c-TT from WEML (1240) Macon, Ga. 3:15-3:30 a.m., and the best of the three was the logging of the hour-long DX show for the NRC by KGAL (930) in Lebanon, Oregon. Our sincere thanks to WPAT for standing by. Of course you have sent these fine folks a "thank you card." It was on 11/14 that I logged two additional stations, both with f/cs, following each other on the same frequency. Station WMOH (1450) Hamilton, Ohio 1:00-1:15 a.m. using TT, and then 1:15-1:30, WPAR (1450) Parkersburg, W. Va. also on its regular f/c-TT. Then the new WPAZ (1370) Pottstown, Pa. was logged on 11/16 using tone for its f/c 4:45-5:00 a.m., in the clear. On 11/18 I listened to all-night program from WPAX (1240) Thomasville, Ga., behind WEDC for a new addition, and on the same morning added from 8:00-8:30 a.m. Station WGLC (1580) Centreville, Miss. with its regular schedule programs, a 250 watter being heard slightly over 800 miles is quite remarkable!

Mort Meehan - V.A. Hospital - Livermore, California

(Broadcasting Magazine, 11/5/51 issue) "Ernest H. Scott, founder of E.H. Scott Labs., Chicago, and a pioneer in custom-built radio set manufacture, died in Vancouver, B.C. Oct. 27. He made his home there the last two years. (paragraph) Mr. Scott sold his interest in the firm in 1944 after manufacturing custom radio sets since 1923. He was born in Australia and served three years with the Australian Army in France during World War I. During World War II he helped sponsor the Anzac Hospitality Center for servicemen in Chicago." This news item should be of interest to the boys who DXed back in the '30s as we all looked up to the Scott as the tips in DX radios, although beyond most our means. This was before we all had communications sets. Of interest also is the fact that Scott left the firm in '44 as he stressed DX in all his sets. (Thanks for this item, Mort - quite a few of us still use his tremendous sets, and all who do will feel a personal loss, I'm sure. Best to you, fellow! -Ed.)

Lefty Cooper - 438 East 21 Street - Brooklyn 26, N. Y.

Veries are good here! I received WWST on a follow-up, plus letters from WHLM WFAK WMAM WGSM WANT and a card from WCMC, latter 5 all received on Monday. DX here - WPAT gave NRC and KGAL (and me) a swell plug when they came back on at 4, and my thanks to them. They gave up sponsored time, too, rearranging their spot announcements that morning. But alas, KGAL not heard here - not even WKY. Nil on DXes from KONP and KNOG, and did not know of WHAY and CKBB. WTUX fine here, for they aren't very far. Interesting and different type of show, too. Only one other new one and that seems to be a "Cooper Exclusive" - WPAC (1580) Patchogue, Long Island, testing on Sunday AM with carrier and TT. As I type now, with still Page 1 and special page to go, it is 12:27 a.m. and I am logging a foreigner on 1395, which I think is Graz, Austria. It is tough, of course. I wish I were finished so I could tune around, but some of the boys seem to have been a bit lengthy this week, hi.

790	K E C A	S/off daily 3:30.	1350	K C S B	S/off 3:00 daily.
970	K B I S	S/off 3:00, not all-night.	1450	K O P O	S/off 4:05 daily.
980	K F W B	All-nighter apparently.		K O R E	S/off 4:05 Sundays.
1110	K F A B	Silent Mondays to 3:00.	1480	K A N S	S/off daily 4:00.
1140	C K X L	No longer all-nighter.	1490	K T K T	Not an all-nighter.
1150	K R K D	Silent Mondays only.	1590	K S J O	Silent Mondays.

Jim also lists some info on new stations.

740 K A C E Dallas, Texas. Being opposed by KSE0. In Federal Courts.
 860 K F S T Fort Stockton, Texas. Set for hearing with possible revocation of CP.
 950 K U M O Set for hearing 9/27 on extension of competition date.
 1230 W * * * Wausau, Wisconsin. Proposed only, not final grant.
 1280 K V N J Fargo, North Dakota. Deleted 10/10/51, no reason given.
 1400 K * * * Tacoma, Washington. Proposed only, not final.
 W * * * Fort Myers, Florida. Proposed grant stayed & set for hearing.
 1430 W * * * Fostoria, Ohio. Proposed only.
 W * * * Ionia, Michigan. Proposed only.
 1450 K * * * Escondido, Calif. Proposed only, set for re-hearing 10/29/51.
 K * * * Inglewood, Calif. Same as above.

* Editor's Note: All new stations we list are taken from the F.C.C. releases, which do not list proposed grants - only final grants. Above info was taken from various issues of "Broadcasting" magazine. Our calls assigned are taken from this magazine, and the ownership of the stations also.

NEW STATION - FCC

1570 Pratt, Kansas 250 D-1 1400 Reedsburg, Wisconsin 250 U-1
Musings of the Members

Pete Jacobson - 5217 South Portland Avenue - Minneapolis Minn.

Things have picked up a little this week but it still has a long way to go. The band is still rather noisy with BCIS from S-4 to S-7. This should improve in a little while if it is ever going to. As if Minneapolis needs another radio station, but it looks like we are going to get it anyway. WWHC on 760 kc/s. 100 watts full time. They are not going to have any antenna. They feed power directly into the voltage, something new and different, don't you think? More details when they are available. Now for letter veries. KRIC, Beaumont, Tex., 1450-250-NMN, report for 3/12. Address Enterprise & Journal Station, Beaumont's Radio Center, 3130 Blanchette Street, Beaumont, Texas. "Our AM transmitter is an RCA 250-L. Antenna is series-fed with height of 400'. We are now located in our new 17-room brick building at 3130 Blanchette; that being the reason we are a little delayed in answering your report." I always say better late than never. WDXB Chattanooga, Tenn., 1490-250-LBS, report of 3/14. 6:00-Mdt. Raytheon transmitter 360' tower, ground radials, some extended into Tennessee River. 539 Vine Street. Long long awaited KWCR Cedar Rapids, Iowa 1450-250-LBS 7:30-1:00 a.m., report of 11/11. 211 First Street SW. KIMR, Lamar, Col. 1340-250-LBS. report of 2/6 and another for 7/31, after 3 times on follow-ups. Equipment is exclusively GE throughout. Southeast Colorado Broadcasting Co. The excuse used for delay is so many changes in the engineering staff. WEBH Mattoon, Ill. 1170-250D-NMN. My report got lost and the excuse is that they are a daytime station and do not get many DX reports. Report for 2/7 on 2nd try. Mattoon Broadcasting Co., 1632 1/2 Broadway. They sent a WLBH blotter which was very much appreciated but it will never be used as I want to keep it in good condition. WGNS, Murphreesboro, Tenn., 1450-250-LBS, report of 11/7 on second time out. They use an RCA transmitter, and tower is 320' overall. Elrod Bldg. KANE, New Iberia, La. 1240-250-MBS report of 11/8. KANE is using a Collins 300-G transmitter and has proven to be a very satisfactory piece of equipment. KFAB, 1110-50000-CBS on second follow-up of 11/9. CKLB, Oshawa, Ont. 1240-250-NMN. This was a DX report for NWRG of 11/4. Operate normally 5:58-1:07 Mon Sat and Sunday 7:58-12:07. Uses single vertical antenna 152' steel re-enforced wood tower providing omni-directional radiation, with excellent ground due to very moist ground. Transmitter is RCA.

FOREIGN DX DIGEST

Edited by Fred VanVoorhees, Box 132, Lemoyne, Penna. Deadline Wed PM.

Congratulations and thanks to all of you who remembered to send reports to Honesdale. Don't do it any more now. We have one really good item for all of you this week coming from EC-CC-FV. That is that from Midnight until 5 AM Sunday mornings WOR is silent on 710 Kcs., and HJZ in Bogota, Colombia, "La Voz de Colombia" is really rolling in. He was a strong S-8 on 11/18 here and easy to copy, so go to it.

A little from Mexico this week. EC has reported to XEMC (1590) an all-nighter who has been known to verify. BS reports excellent reception of XESM (1470) another all-nighter, and one which will QSL. BS also heard XEQR (1030) under WBZ at 11:30 PM 11/10 with fair signal Slogan "Radio Continental".

PUERTO RICO is represented this week by WIPR in San Juan who has recently verified for RA. HH also reports WKVM (1070) in Arecibo on top of the frequency evenings often.

As usual we have many items from CUBA. FV has reported to CMHQ (640) and CMBC (690) both with S-9 plus signals, CMHQ signing off at 12:30 AM and CMBC at 12:45 AM. BS reports CMBZ, "Radio Salas", under WCCO (830) rather weak at 2 AM. He's an all-nighter. HH reports CMHW (810) Santa Clara good 8:04-8:32 PM 11/16 and often good; CMHX (1485) off frequency and good 12:20-1:02 AM 11/15; CMBD (1520) Havana, very hard to log and identify as there is another Spanish speaker (Maybe CMKT) on the freq. They took turns coming in on 11/18. CMJQ (1580) Nuevitas comes through in the early evenings.

Over in Central America, RG reports COSTA RICA with a verie from TIW and reception from TIFC (995). RG also comments that he has sent a report to YSEB in EL SALVADOR. Still no report of a verie from him.

Switching to Europe, HH reports Radio Monte Carlo (1466) 1 AM and later on 11/18, but the only TA heard. EC adds that he has received French on 1376-1403-1493 and BBC on 1295 on 11/11, but all faded out about as soon as they started at 1:30 AM. On 11/12 he had the Dutch stations on 1594 Kcs with classical piano music and a lady announcer. They signed off at 1:30 AM definitely. Not too much, but at least we continue to have European reception.

BS continues to be our only TP contributor and he has done well in JAPAN with AFRS Tokyo (770) on 11/11 S-6-7 5:40-6:30 AM slight QRM from 3LO in Melbourne. He also had AFRS Sendai (1430) at 6 AM but a much weaker signal.

In AUSTRALIA in addition to 3LO mentioned above, BS also reports 4QR (590) Brisbane, Qsld., on 11/11 good at 7:30 AM. He heard one on 11/9 on 1300 at 6 AM very weak but signing off at 6 with the comment that they had 2000 watts. He feels that it was positively 2TM in Tamworth, NSW, according to logs he has.

BS asks about Spanish speakers on 1410 and 1420 Kcs. heard signing on at 7 AM. Who knows who they are? Remember Bob is in British Columbia. CC thought he had a Polish speaker on 690 11/18 4:31-4:43 AM. Anyone have any ideas on this one?

I would like to acknowledge contest entries from Bob Spencer, Bob Gorsuch, Ernest Cooper, and Roger Anderson. Reporters for this week are: BS-Bob Sanderson, 2073 Waverley Ave., South Burnaby, B. C.; EC-Ernest R. Cooper, 438 East 21 Street, Brooklyn 26, N. Y.; HH-Hank Holbrook, 6504 Chestnut St., Chevy Chase 15, Md.; RA-Roger Anderson, 835 South Greenbrier Street, Arlington 4, Virginia; CC-C. B. Conley, Lemoyne, Penna.; RG-Bob Gorsuch, 2509 D. Ave. NE, Cedar Rapids, Iowa; and FV-Your Editor listening from Camp Hill, Penna. Many thanks, you are all keeping this a really swell column. Don't forget the dates for HROW and "Radio Trinidad" which were listed last week. "Radio Trinidad" Nov. 30, Dec. 1 & 3 on 1295 Kcs. from Midnight-2:35 AM. Listen for cricket matches. I hope you all received KFAR on his special dedication Sunday morning. I'll be trying, but an thankful I already have my QSL.

* * * * *

Well boys thats it, everything in here that arrived in WED ~~Mail~~. No mail Thursday this week. Looks might slim as compared with last week. Hope you lads did not take offence to my remarks in last issue, they were not intended that way, my remarks were made to try to get this the best and hottest tip sheet in the country and will your cooperation it can be easily done, so come on boys lets have those tips that really mean a lot to our members. Just one thing, I wonder if you lads would be so kind as to list your tipe this way kcs-Call City and then the info. In that way it makes it easier at this end, no looking up of locations.

If and of you were DXing the morning of Nov 17th and ran across a lot of non-identifiers maybe this will explain. I was DXing but thought it was the 16th, maybe I'm wrong as I DXed both AMs. Anyway here it is.

Some 400 radio stations in 18 northeastern states co-operated in todays exercise, conducted during hours when they normally would be off the air. The test, known as a "synchronous sequential method of radio transmission" called for radio outlets to pass the same entertainment program from station to station without a break in continuity, there by creating confusion among "enemy" navigators attempting to use a broadcasting station to steer by. The STATIONS TAKING PART DID NOT IDENTIFY THEMSELVES. end of item in local paper dated Nov 17th.

At this location I happened across a strong signal, R-9 plus on 640 kcs. It wasnt KFI because they could be heard in the background but every once in a while a loud noise would appear and this loud signal would drop to an R-1 and right back up. It transmitted programs for the sale of US Defence bonds, each a quarter hour in duration, at the 1/4 hour only a pause would appear then a different program, at the half hour all I could get was "Testing jointly for the FCC and U.S. Air Force then another program of music. This was between 0400-0500. The last 1/2 hour was a repetition of the first half hours programs. It seemed too strong for WHKK in Cleveland and am wondering who it was, maybe CBN on St Johns Nfld with their 10 Kw? / Thats all, boys, how about a better showing next issue.
