NRC MEMBERS UP TO DATE

"DX NEWS" is getting better every issue. As long as all you fellows keep writing in your reports, "DX NEWS" will stay up at the top. I don't know of any better way to keep up to date with what's happening in the DX field than by being a member of the good old National Radio Club!"
- Don Kaskey, Omaha, Nebraska

- Tentative date - may be postponed to January. * - Count in NRC DX-Special contest

W A V A - Ava, Illinois ----- Lester Bilderback, Chief Engineer -----

"You will be interested to know that we have received DX letters from as far as New Zealand," writes Mr. Bilderback. There will be three programs on the 15th of each of the next 3 months, and the channel should be clear coast to coast. Info, S. Rosenbaum

W E L C - Welch, West Virginia ----- Howard R. King, Chief Engineer -----

On this show, there will be tape recordings and platters recorded by members of our club which have been sent to WELC. Regarding a DX program suggestion, Mr. King said, "We think it is a wonderful suggestion!" Quite a show is coming! Arr. S. Rosenbaum

K N V A L - Victoria, Texas ----- Douglas E. Smith, Chief Engineer -----

"Maybe we will stay on all night," adds Mr. Smith. Sid Rosenbaum pens that this program may be postponed to a January date, so we don't know if it is on or not, but the channel should be clear. KNAL is now a full-time station. Arranged by S. Rosenbaum

W K L J - Sparta, Wisconsin ----- Marvin Moberly, Chief Engineer -----

"I shall be very happy to put on a program for the National Radio Club," says Mr. Moberly. This channel should also be clear, and WKLJ has a very stunning verification card, and they will verify promptly. Arranged by Guess Who - yep, Sid Rosenbaum

K U L E - Ephrata, Washington ----- Elwood A. Eby, Chief Engineer -----

The portion 4:00-4:15 EST is their regular f/c. Station identification will follow each selection, and a log of selections will be kept. Mr. Eby wants reports on signal strength and clarity, and again, looks like a clear channel. Arr. Sid Rosenbaum

K F R O ' s write-up will be found on Page 2 under "Verie-Signers."

K F R O - Longview, Texas - James R. Curtis, President
The first 15 minutes will be KFRO's regular f/c, and then they will add 15 minutes of music for the National Radio Club. NRC publicity will be given, and again we envision a clear channel for another NRC DX Program. Arranged by Sid Rosenbaum

Musings of the Members

Joe Branner - 23 Howard Avenue - Williamsville 21, N. Y.

Fared a bit better this week, DX being both good and interesting. Started off by adding KIWW and they were easy; WBNL, not new, was like a local, but the "far" stations KFAR & CFAR failed to show here. KLMS also heard on 1480 during his regular NightOwl program, to 3 AM Sundays, finally verified this time after failing to, 3 times. WSTR, 1460, on brief test at 5 AM, and a surprise reception, WACR, 1050, through WMGM until s/off at 6 PM. Fairly good, but not heard clearly again all week. All this on 11/25. WRFS can usually be heard through WMGM until 5:45. Got a break on 11/29 when WGSM was heard testing until 3:25 on 740, very poor here and nearly knocked out by KSFO. Right after that WPAC rolled in on 1580, 4 times louder than WGSM & ETed until 4:31. XEAO heard going off 910 at 3:57. Nothing new until 12/1 when KBTA came in mostly on top of 1340 during his regular 2:55-3:10 f/c. Never got trace of him before on these. Think WEXL was off for only all-nighters heard were WEMP & CJOB. WMTE & WLAV checked on sked as did WFUR, WFYC 1280 strong on test at about 5. KLWT had f/c on 1230, 3:15-3:30, TT over all-nighters. Veries by letter from WHLM KOMW WHJC, cards WXRF & KPMO, latter on f/up. KOMW says f/s still as listed, WHJC says open 12/2, 5-sunset - should be easy for many at 5. Follow-up drive cleaned up a lot of hangovers. Only KROG KOLE & KWBM failed to return cards to date. Only other slow ones left now are WOR WHHH WPRC KJCF WSTR, f/up out to latter, and others not re-checked yet. KSEO sure looks good on the Calendar, another old one I need. 73

Musings of the MembersCpl. Jack D. Rhea - Hq. Sqdn., 370 BMTG - Lackland AFB - San Antonio, Tex.

Having set the typewriter to double-space, I'll attempt to place a few coherent thoughts on a sheet of paper. Since DX is nil, I reckon they will have very little interest to the active DXers of the NRC - and how I do envy those guys! I made it through 9 months in the Air Force without getting homesick, then the DX season started, and all the good catches were listed in the "News," so each Monday I spend a couple hours with tear-stained eyes, reading and wishing I could have been at the dials! Hi hi. Sure wish I could get in some DX, but with present set-up in barracks, it's impossible. Hope to have the S-38 down here after Christmas, and will be where I can twist the dials from time to time. Looking forward to that. Attention. Charlie Hefner. Where's that letter? Also, think Peg Callahan owes me one from 'way back. I owe several, too, and hope Hal Williams isn't too disgusted with me for not writing; that same for Don Kaskey. Letters are on the way. Hope you all heard the KIWW DX Nov/ 25. We didn't know ahead of time that we would be announcing it, so didn't have but 5 minutes to prepare for it. Since the station was under a test grant from the FCC, we couldn't throw out any dedications, but at least it was a test and they were most happy to run it for us. Hope the reports will be many. Mr. Richards says he may test again, especially if the replies warrant it. Well, they finally got around to loading my second stripe. I've been an acting corporal up to 6 weeks ago, just wearing the stripes for duty's sake, and drawing a measly PFC's pay. But now I'm a full-fledged corporal. Wow. Still got the "big head," hi. Along with that promotion came an elevation from general instructor to Scheduling NCO for the department. Now all I do is sit on my broad posterior and drink coffee all day (ah yes, the Air Force is modern - we get at least 30 minutes every morning for a 'coffee break'). This ain't, I'll assure you, the 'old Army' a lot remember. Hey - M/Sgt. Fred Anderson - sir - do you get coffee breaks at Ft. Riley? And by the way, welcome stateside. Say Carroll, or Charley - the poem on Page 5 of Nov. 17 issue was read about 2:43 AM CST over KIWW, without credit to the writer. Hope you won't take this to court as an infringement of copyright, hi hi. By the way, do any of you Pennsylvanians around the Erie vicinity remember an announcer who was up there a couple of years ago - Joe Templeton? And, does any one in Pa. or W. Va. recall a hoe-down fiddler named Slim Roberts? Both are here in the department with me. In fact, we have enough former radio men to staff a complete station! Well, guess I'll sign off for this report and partake of some crow. Hope the next report after the first of the year, will carry some notice of DX catches while home on Christmas leave.

Hank Ward - 404 North 14th, Ponca City, Oklahoma

Without checking, I had gone on the assumption that the 25th was a Monday ayem and as a result missed out on those 2 particular wonderful catches on 1540. I sure flubbed that deal, but doggon it, most of our specials have been scheduled on Mondays, and when I saw that wonderful line-up on the 25th, I didn't check the date and had assumed they were slated for a Monday. But nevertheless, Monday did prove to be a fruitful morning, the best in months for new catches. Heard were XENA, Mena, Ark., 1450 kc/s. KWFC, Hot Springs, Ark., 1340 kc/s., KORK Las Vegas, Nev. 1340 kc/s. on regular sked, KMUR Murray, Utah 1230 kc/s., s/off; WAIN Columbia, Ky., 1270 kc/s. thanks to "DX Down the Dial" tip; WKLX Lexington, Ky. 1300 TTing; KWKW Pasadena, Cal. 1300 kc/s. regular sked; WSRS, Cleveland Heights, O. 1490 kc/s., KCMJ Palm Springs, Cal. 1340 kc/s. TTing; WATG, Ashland, O. 1340 kc/s., DX special; WPDQ Jacksonville, Fla. 600 kc/s. regular sked thanks to "DX Down the Dial" tip; WAKE Greenville, S.C. 1490 kc/s. TTing; and KNAF Fredericksburg, Tex. 1340 TTing. 13 new calls heard! That isn't a bad haul in anybody's book. I am particularly glad to get KCMJ - have been after them for years. Veries in since last report: WCOT for DX; WPKE Pikeville, Ky. TT; WOKZ Alton Ill. regular sked; WADC, Akron, O. and KOLS, Pryor, Okla. both of whom were also on regular sked. XERF, Villa Acuna, Mex. 1570 as per bulletin has been checked and noted as signing off its broadcast day (?) each morning at 8:05 returning at 5:30 p.m. How's that for a twist? XERF originally reported to Hal Wagner for expedient conclusion in last bulletin. Here's a chance to get some of those daytimers on 1570. WOKZ heard here following XERF s/off. KOLS on top an hour later each day. Maybe the CPC could get XERF to knock off some AM a couple of hours early and give us a try for some sign-ons. How about it? 73s for now. Oh - I like the new masthead on the "DX News."

DON'T FORGET TO REPORT OR THANK ALL DXING STATIONS AND TO SEND RETURN POSTAGE TO ALL.

Musings of the MembersJames E. Critchett - 1210 Essex Street - San Diego 3, California

550, KFJR, Bismarck, N. D. is now an all-nighter. Is this generally known? KFJR was nearly impossible to hear during its regular schedule because of others on its frequency operating at the same time. But with it running 24 hours a day, it now can be heard Monday mornings, while KOT (another new all-nighter, incidentally) is off. 960, WDBJ, Roanoke, Va. signed on at 6:00 a.m. EST Saturday 11/17. This one is very hard to get here - might even help midwesterners by giving its s/on time. 1450, WCTC, New Brunswick, N.J. f/c time is second Monday, 5:20-5:35 a.m., not as listed in last year's list. 1570, CHUB, Nanaimo, B.C. signed on at 9:00 Friday, 11/16. Listed for the special benefit of Eldon Addy, Alan Arnold, Karl Raymond, etc. Now to report on the specials, as listed in the "DX News" and Tip Cards. Incidentally, I sent Hal a thank-you note for these cards, really appreciated. As for KNOG, certainly could have been heard here, if on, but no sign of them. CJBQ impossible here because of KSON slop-over and KGFJ and KERO both on at that hour. KIWW & WBNL were both heard here, very weakly. CFAR was completely covered by JOAK, and KFAR by 2YC, if CFAR and KFAR were on at all. Next, KPST - notice by today's "DX News" the time was changed to 2:30-3:00, too early for us PST listeners. Didn't get it. Up to date. Next, DX notes since 11/19 - For midwesterners Norm Maguire, and PST DXers, WRAY is in the clear from 5:00 to 5:30 on 1250 kc/s. Sat., 11/24, 6:20 a.m., 1340 kc/s., WTAN in clear here. (KRUX is no longer all-nighting.) Mon., 11/26, 4:30 a.m. 1290 kc/s., KOIL announced this was the first of a series of Sunday Night Watch programs, from midnight to regular program time. They were requesting reports. 5:00 a.m., 580 kc/s., sounded like the call was WKAQ, location was given as San Juan, P.R. not Santurce, as listed in Weyrich's log. Has there actually been a change in frequencies in Puerto Rico? F/cs all over the dial, best of which were KTKN, as listed, my first Alaskan here, and WAKE, 1490, 5:00 to 5:15 a.m., EST. I'm reporting my f/cs to Alan Arnold, who wants more of them. Before I forget it, for Sid Rosenbaum, KMOR is located in Oroville, Cal., the old KDAN, and test frequency with some company in Napa. They were on the air for over an hour Nov. 19, practically begging the monitor to call them, so they could get off the air and go to bed. Wanted reports. Veries received since last report are KCNA and WCTC. That is all for now. 73s.

Lew Caarter - WFMD - Frederick, Maryland

I'm starting all over here after leaving WHWB in Rutland. Much to report, of course. Got my Hallicrafters S-40B six days ago and have 212 stations logged. I don't think I'll ever get all those letters out. I am Program Director, Promotion Manager, Studio Manager, and Farm Director here, not Chief Engineer. Card and a letter from Dick Northup, nice card from Don Kaskey, letter from Len Kruse. For benefit of all, we have a new chief, and he's busy. Our AM and FM transmitters are some miles apart. Veries will be better when he gets straightened. In the meantime, I'll take care of them. Better catches here - WFEA, Manchester, N.H., 1370; KFKU, Lawrence, Kansas, 1250; WKWF, Key West, 1600; KLOU, Lake Charles, La. 1580, always top station there; WSYB, Rutland, Vt. 1380, clear with news at 10 PM nightly; KFVD on 1020 after KDKA s/off; KXYZ, Houston, Tex. 1320, has news at 12:30 a.m. ending with weather and "That's the news of Texas to the moment." KSD has a 5 minute news at 1:30. CKAC carrying CBS dance orchestra 11:30 p.m.-midnight 11/25. Lots of southerners, particularly Florida - e/g/ WTAL-Tallahassee, 1270, AM & FM, has CBS & LBS, announced at sign off 12:30. WXYZ, same frequency, signs off same time. These and 201 more. They include KIWW DX which was a little weak but easy to log, and WBNL DX which boomed in! Picked up something on 590, but couldn't make out CFAR. KFAR out of the picture completely. An enclosing complete infor on WFMD. Will try to arrange DX for you here later on. All who have veries pending from WFMD, send them to my attention. Now, back to the phones and dials.

Sid Rosenbaum - 806 Market Street - Wheeling, W. Va.

New stations scarce this week and veries continue slow. Len Kruse identified questionable *KMOR (1340) for me as being in Oroville & not Napa as I believed, so rpt sent to proper location. 11/22-WCMI f/c2-3:15, WKNK(1600) DX dedicated to N.Z. & Australia 2:00 on. CJOC (1220) 3:00 s/off. KSO (1460) on top 5 PM. WLRP (1580) s/off 5:30. WAVA (1580) hrd 11/23 5:30-5:45 s/off. 11/25- *KIWW 1540 hrd with difficulty due to WCKY side-wash. WBNL DX heard 100%, in strong all the way and the best-identified DX I've heard in a long time. The 4th Monday was a washout here due to heavy static. Nov. 26 - Nothing but a Cuban heard on 1340 through heavy QRN and no KPST. WLCK (1450) f/c 2:15-2:30 came through nicely, WATG DX came through in fine shape (cont. P. 5)

Musings of the Members

(Sid Rosenbaum, con'd) - considering receiving conditions. KOIL (1290) still on at 4:00. Are they all night on Mondays? Veries are CJOY, a letter and WVOK a card. On Nov. 25 the heavy side-wash of WMAQ made 660 impossible. Receiving conditions were excellent on that morning, but WMAQ stopped me from getting a chance for my first Alaskan. The Sunday AM schedule for WVA is now s/off 2:00, s/on 7:00. The morning mail brought "DX News" and a v/letter from WPAX. Orchids to the new letter-head. Best of DX to all the gang.

Norm Maguire - 434 North Maple - Albuquerque, N. M.

DXing has been fair of late. Still having trouble getting the Specials, due to QRM on the channels. Recent veries are: KIMO KRIB KOLS WRGO KIPA WANT KNKI KERG KBLI KVBC & KBKW. DX includes: 11/12 - RXRA, 1490, 2:50-3:00 test; KATY, 1340, 3:30-3:45 f/c; KFIR, 1340, 3:45-4:00 test. 11/13 - KGAL, 930, 3:30-4:00 special with slight QRM from WKY: 11/14 - KERG, 1280, 4:00-4:15 f/c; KXRO, 1320, 4:15-4:30 regular f/c; LYC, 880, 4:30-5:30; 12B (?) 1070, 4:55-5:30 close-down. 11/15 - WHMA 1450, 5:00-5:15 regular f/c; 11/16 - KIMR, 1340, 3:00-3:15 f/c; KBLI, 1490, 3:20-3:45 test, KNKI 1490, 3:30-3:50 test, Don Hill of NNRC handling his first test program. 11/19 - KTTR, 1490, 2:45-3:00 TT; KMOR, 1340, 4:00-4:15 f/c (For Sid Rosenbaum, KMOR is new Oroville, Cal. station who was testing with monitor in Napa.) KBKW, 1450, 4:30-4:40 test; 11/20 - XEC, 1310, 3:05-3:30 regular program; KLIX, 1340, 3:25-3:35 regular sked. 11/24 - KEEN, 1370, 2:30-3:00 regular sked to sign off; KVBC, Farmington, N.M. 1240, 3:10-3:30 test. 11/25 - KIMX, 1450, 4:05-4:30 on special. 11/26 - KORK, 1340, 2:36-3:00 s/off; KPST, 1340, 3:00 s/off, (were not on 3:00-3:30 for DX); XEAA, 1340, 3:10-3:30 regular sked; KEMX, 1470, 3:30-3:45 f/c; WATG, 1340, 4:10-4:28 on special under KVRH KAPA KGLN and others. KNOG was not on their special, although a station was trying to modulate with difficulty at that time. WCDT completely covered here both for special and f/c. Needed them, too. Lefty, ever heard of a Hawaiian KIKI? That is the one that I'm missing and it isn't in Idaho Falls either. Also, what's this about KIWW being on the air about a year? My verie from them is over 2½ years old now! Also, you and your clear channels, for DXes, grrrr.

Warren Routzahn - 231 South West Street - York, Penna.

DXing here mostly of the backyard variety picking up some daytimers needed here plus a few sign-ons and DXes from the bulletin. Nov. 19 heard WPRP and WBRW on f/c 3:00-3:15; WTUX good on DX. No luck with KONP and KNOG for other stations. WPAM on f/c 4:00-4:15. Nov. 22, WAPA at 5:00 a.m. s/on. KABC testing till 4:55. WCDL running all night selling Christmas supplies. Suppose it will be off after Christmas. Nov. 26 heard signals but could not identify it it was KPST on the DX 3:00-3:30. WATG was good and KBKH were fair copy on f/c 3:30-3:45. Nov. 28, WIWN on ET 2:15 past 2:30. Listened to that Mexican on 1290 reported as XEAP but sounded more like XEAR or something like that and mentioned California with call. This Saturday morning, Dec. 1 I found the following in clear for easy copy - WHB-710, 1:00-1:30; WMT-600 1:00 past 1:30, KCOL-1410 1:30-2:00, CHML-900, 1:30-2:00. Also heard KGGF testing most of the morning, KCSJ on regular first of month f/c 2:00-2:15, WEEI testing auxiliary transmitter till 2:13 and WPAC ET till 2:45 on 1580 kc/s. Nov. 25, WMOD-1470 ET most morning. KIWW and WBNL DXes on 1540 both good here. WACL s/on 5:00 a.m. clear at least to 5:30 gave me most new stations in one morning this season. Got veries from PRB-2 WANT WLYC WMEV WUST WHLM WRGO. That's all from here - hope to start getting some distance before long. Good DXing.

Alan E. Arnold - 644 West Fourth Street - Ontario, California

Finally getting down to business of DXing after my move to southern California. As near as I can tell so far this location is not too good for DX, Ontario being located in a valley with mountains on all 4 sides. Recent veries in from the following: KASM (follow-up from last season), WTHI (also follow up and about 4th or 5th try), KWJB & KWIN. Cards from KRAM & KATO. Recent listening managed to log the following: 11/13 - KGAL on DX. 11/25 - KIWW and WBNL on DX. 11/26 - KELK & KMBY both on f/c at 3; KPST DX impossible due to XEAA not signing till 4 AM; KELY, 1230, testing 4:25 on, WATG-DX not heard; KAPA, 1340, testing 4:57-5:08; KEMX, 1470, & KWIN, 1340, on regular f/c So far in Nov. have sent out around 30 reports. The all-nighter situation is worse here than in was in Milwaukee. Verie total now up to 1123 with the heard log at 1504. Last season I slipped badly as I added only 114, a good share of these being DX programs. Knowing what it takes to arrange these, I hope all will try to send thank-you cards to stations putting on these specials even if they aren't able to hear them. That 1/ thank-you card can create a lot of good will towards our club. 73s.

Musings of the MembersM/Sgt. Fred A. Anderson - Post Signal Office - Fort Riley, Kans.

For all concerned, (your Editor made the mistake - he just couldn't spell "snow" and as for the weather, well, it's near perfect - still no snow.) Recent letters received have been from: KBOE KOFO KWOY WLAY WLDW WROX and contest station WCDT. Past week loggings were: KBOE, 740, Oskaloosa, Iowa, at 4:20 p.m., 11/22, regular sked. KOFO, 1220, Ottawa, Kans. at 5:02 p.m. regular sked. KBRS, 1340, Springdale, Ark. at 2:10 a.m. on f/c, 11/23. KXAR, 1490, Hope, Ark. at 2:30 11/24, f/c. KIWW, 1540, San Antonio, Tex. on DX for NRC, copied solid at 3:00-4:00 - good job, Jack. WBNL, 1540, Boonville, Ind. - can see that CEs don't make good announcers, hi. Copied good mistakes and all at 4:03 to 4:30, 11/25. CFAR, 590, Flin Flon, Man. at 4:17 on 11/25. KGIW, 1450, Alamosa, Colo. (Red Ryder station) at 2:03 11/26 with f/c. KGAR, 1050, Garden City, Kans. at 2:15 on 11/26 with f/c. KCHS, 1400, Truth or Consequences, N.M. at 3:05 with f/c 11/26. WAIN, 1270, Columbia, Ky. (new one) at 3:16 11/26 with ET. Also W--- 970, Jackson, Mich. at 3:00 11/26 testing - anyone know the call? (Yes - this is WKHM, owned by same people as WKMH 1310, hence the call - Ed.) So that's about all from mid-America - except no longer stay at 522 Fremont in Manhattan - had to move back on the post, hi. So send the bulletin to Post Signal Office. 73s.

Clarence Lee Mustoe - North 4324 Stevens - Spokane 18, Wash.

I guess a lot of you fellows that know me think I have passed out of the DX picture, since you seldom if ever hear from me in the bulletin. Well, I haven't. I am starting in another busy year of DX, along with a very busy school yet, my last semester, and hardest for I left my hardest subjects till last, so I am very busy. I just got my 1110th verie. I picked up station WTUX's DX program and thought it very nice. KONP had a nice program, too. I have some 15 or so reports out from last season so I'll have to write second reports to them. Can anyone supply me with a verie signer for #8 KWBC? Also can anyone tell me of the call letters of a Salisbury, N.C. station on 1340 kc/s.? I get the town but not the call letter - I have no log listing of it. I look forward to a good DX season this year, especially after picking up a station like WTUX this early in the season, as I calculate it is 2000 miles (airline) from here. As December nears I will look back over 13 years of DX and some of it pretty good I think. In that time I have one 50 watter to my credit, Royal Oak, Mich. I might have a better record, but the way years almost stopped my DX, but it didn't stop my interest. In fact I gained interest. Well, if anyone can help me on the above two problems I would sure appreciate it, and best of DX to all for the season.

Peter Leon Jacobson - 5217 South Portland Ave. - Minneapolis, Minn.

Greeting Peggy Ann and fellows from snowy and I do mean snowy Minneapolis. It has been going at it for at $\frac{3}{4}$ of Sunday. Well enough of that, all I can say the only thing I like about winter is better DX and clearer reception, also my favorite ham band is open - 10 meters. Only 7 veries this week and not very good compared with the number that have been sent out the last few weeks. Letters, KOAT, Albuquerque, NM, 1240-250-ABC for my letter of 11/14/51. Also as far as I can tell also verified on 1450 kc/s. WAYN Rockingham, N.C. 900-1000-PO Box 591. This one on a 2nd report for 2/6/51. WCDT Winchester, Tenn. 1340-240-MBS. I enjoyed the DX from WCDT but WGAU did give it a very bad time for the first 15 minutes, 11/12. KFVD, Ft. Dodge, Iowa 1400-250-MBS a fine QSL card for 11/12 2:15 a.m. Warden Bldg. I am a member of their Pioneer Club and have been since 1948, my number, 56. KOCA, Kilgore, Tex. 1240-250. Broadcast hours 7-Mdt., rpt of 11/12, 3:15 a.m. KALL, Salt Lake City, 910-1000-MBS, finally after at least 5 or more reports, got a QSL card from KABC San Antonio, Texas, 680-50000/10000-ABC. You could have knocked me over with a feather when I got this one. Reports verified for 5/27/51, 12/2/50, 5/26/51. KALL was for 11/15. A correction on the new station here - it is WWCC & not what was previously listed in my report WWCC will be on 1/15/52 we hope. Will let you know more when I know more about it. As for DX Specials, not doing so good but I have tried for every single one however. 11/13, KGAL Lebanon, Ore., I am not sure of this one but sent them a report as I heard a very faint signal thru unmod. carried on 950. I sure would like to know who this station was - I would like to give them a piece of my mind for not being courteous enough to stay off the air. (It was WKY, but how did they know KGAL was to test? *Ed.) 11/19 WTUX came in fine after Mexican s/off 3:35. 11/19 KONP KNOG, did not get. I hope we could arrange another DX from KNOG. 11/25 KIWW WBNL CFAR all came in but sad but true KFAR did not. Tried till I am blue in the fact - it just will not come in at this DX den. I about blew my eardrums trying. All I got was lots of static. I plan to try for all DXes as I feel if stations go to all that bother, it is the least we can do.

Musings of the MembersHal Williams - 50 Third Avenue - Seymour, Connecticut

From the press comes the info that the Bridgeport Broadcasting Co., owners of WLIZ (1300) have petitioned the FCC for a stay on their hearing for increased power as they have purchased WICC (600) and are hoping to find a buyer for WLIZ. DX has been extremely bad here but I see we have some more all-nighters - WODL (1230) Carbondale, Pa. from Midnight to 6 a.m. Don't know when they are silent and WNAO (850) Raleigh N.C. on until after 4:00 a.m., may be an all-nighter. Only 1 addition to my log, 11/28 - WSDC (1590) Marine City, Mich. testing 1:40-1:50 s/off to return at 7:15 a.m. Not sure if this was f/c or ET. Who was on 620 kc/s. on Thursday 11/29 with an all-night dance party, announced as music to 7:00 a.m., giving time in EST, and call letters W--C at the 620 spot on your dial, but never heard a location. I heard them off & on for over 3 hours. Announced they had a phone call from a listener in Simsbury Conn. and saying Simsbury was located near the Massachusetts state line. They gave their phone number as 6-5507 but I could never get the middle 2 letters or location. Any help will be appreciated. 3 veries received, 11/26, ETMJ (620) Milwaukee, Wis. letter for regular sked 10/12 after 3rd report over a period of 2 years. 11/30, KXRA (1490) Alexandria, Minn., an especially fine letter for f/c 11/12, first report sent 1/18/50, never answered. "Your report at this time is of special interest to us as our official monitoring station did not pick us up very well that night. Yours, plus other DX reports from around the country enable us to know that we are putting out a fair signal. Our monitor must have been bothered by local disturbances. We always appreciate hearing from you fellows, and quite often, as in this case, your reports are very valuable to us." f/c 2nd Mon. 2:30-3:00. KFYR (550) Bismarck, N.D. letter with EKKO stamp for regular sked 11/23. Report mailed 11/23, 8 AM, verie dated 11/26 mailed 11/27 and received here 11/30. November shows only 14 reports and 22 veries here. May have more info on WLIZ/WICC deal shortly. All for now. 73.

Carroll Seth - 322 West 22 Street - Erie, Penna.

Reading the bulletin, it's still a shock to find that Dick Cooper does love me. Good Time Charley Conley is a most sensitive and sly poet, isn't he? DXing here has come to a halt as a long-dormant organic ailment is showing signs of life. I'm going to lie low for a while. It's hard to believe that just five years ago I was playing ball 6 days a week and finding time for golf on the side. Anyone who knows Ray Edge and Lefty Cooper surely will not take offence when they ask a certain consideration as regards reports. These men have been pounding away at "DX News" for a long time now and their labor of love most sometimes seem more laborious than loving. Certainly, I would not care to take over either of their jobs as will try to follow the directions they issue. This would seem to be as good a time as any to say a few nice words in connection with their performance. Top-flight, top-hole, and TOPS! There is a rumor that a syndicated column has been offered the author of "Buffalo Bull" and "KKK." Walter Winchell is shivering for sure! I close now with a final admonition to the 24 entrants in the Special Contest to stay on the ball. I was in first place for 10 days or until the first eager report was received. C'est la guerre, Lefty! 11/27 - 1:10 a.m., carrier on 962 - am I nuts? (The above printed blushing, but very thankfully. Mighty nice of you, Carroll - Ed.)

Barry Foote - 273 North Avenue - Weston 93, Mass.

Hi - everyone have a nice Thanksgiving? DX conditions here are excellent. Veries in from WNAR WODT WSRS. New Broadcast Band Log up to 1250 kc/s. in this week, a beautiful piece of workmanship. Log now stands at 708 heard and growing fast. 11/19 - WGWC and WBRW, 1340, on f/c 3:00. WTUX heard well, but not new here. No KONP or KNOG. 11/23- PM DX, WRYO 1050 easily copied behind WMGM 4 PM and WADE 1210 over WCAU 4:38. 11/24 - WHLM 690 topping CBF 8:17 a.m. 11/25- WENL & KIWW 1540 heard with WENL doing the better job. KING 1090 regular sked for new one here. No luck on CFAR. Don't think he was on, 590 clear. KFAR 660 not heard. Much slop-over from WMAQ. WITC 1370 on early asking for reports, 6. WHYU 1270 6:45 WFIN 1330 7 for new ones. WEAS 1010 s/on 7:15; WANT 990 7:19 (missed special), & WALD 1490 8:00. PM DX WJSW 1290, #700, 4:55 PM & WANN 1190 over WLIB 4:58. 11/26- WATG 1340 in here with beautiful signal, in clear all the way. Also WAOL 570 s/on 5. 11/29- PM DX CKSM 1220 over WGAR 6:10 PM. 12/1- WMTE 1340 f/c 3:30, WFUR 1570 QRM'd by XERF 3:51, WLAV 1340 4:12. PM DX WXY 1270 surprised me by topping WSPR 3:29PM. Then WDLA 1270 3:30, WGSM 740 4:10-4:30/off WPDx 750/off 5. 12/2- WWXL 1590 over XEMC 2:20. Then KFYR 550 4, believe new all-nighter & PST station on 570 4:35-5. Logged few tunes & commercials, but missed ID at 5 because of heavy QRN. 12/3- Unfortunately I missed the CHAT DX. (KAC on 570, Barry-Ed)

Musings of the MembersDon Kaskey - 908 South 25 Street - Omaha, Nebraska

I knew it was too good to last - only 1 $\frac{1}{2}$ new one since last Monday. KOSY, 790, hrd at 11:30 p.m. on 11/28 but not enough for a report. Since Monday only 1 report out, that to KADA who TT f/c on Dec. 1, Sat., 1:30-1:50, on 1230 kc/s. Was up this morning but static kept me from getting very much enthused so went back to bed. Did hear WFHG-980 s/on at 6:34 for 5 min. progr ms. Also KNEA-970 at 7:00. On the other side of the ledger my ve.ies jumped from 1089 to 1107 with a high of 6 arriving on Friday. On Monday, letters from KURV-710, WMFT-1240, KFKA-1310, and a card from KOLQ-920. On Tuesday a letter from WCOW-1590, on Wednesday. Letters from WCVS-1450 with brochure, WDGY-1130, a duplicate from KSVG-690, and a duplicate card from KOBE-1450. On Thursday a card from WPIT-730, and letters from WAVA-1580, WRFC-960, and WIST-930, who stated they hope to be on by 12/15 so watch for ETs. Friday brought letters from KMAE-1600, WLS-890, KENA-1450, WAYS-610, who said I heard their blind announcer Alonzo Squires on early-morning program. WITZ-990, and a card from KHJ-930. Last was WAVU-630 on Saturday. So I've now verified 1107 station - a long way to go yet. Log shows 1525 stations heard. I must say that the DXes look good this coming month. I will be up for CHAT tomorrow morning but don't need him, same goes for KSEO but will log him however. WACB WFTO KULE WSTR KFRO WHLM & KSRO are yet to be heard here. Hope we get some more for dates between Dec. 23- Jan. 2 as I will be home then and reception is only about 50% better there. 73s to all. Monday, 12/3 reception poor today, LQIL overlapping 1270-1320 kc/s. so can't get CHAT. WSOK*1470 Nashville ET.

Ralph Johans - 64 E. Huron St. (side) - Buffalo 15, N.Y.

The weather was too nice lately and so Pop Edge and I slept more; anyway I'm glad to read that you other bugs get enough C/K/W nourishments and so won't cocoon-up for a while yet. Have sent out a few radar impulses for some floating veries, but they've not entered the catch-basin yet. A sad item mentions drowning death of Mr. Edgar Koehl 11/30. He was publisher of the Ashland (Ohio) Times-Gazette. Mr. R. M. Beer or Ashland Printing and Broadcasting Co. was his partner at WATG. CE of WATG sent v/letter for 11/26 special. I note the EM letter is changed now to AM/EM and has both kc/s. & mg/s. now also. WATS (1470) v/letter by CE mentions sked, Dec. 6:30 (Sunday 8:00)-4:30 p.m., Jan. to 5 pm. WSDC (1590) CE sends printed v/card and mentions letter to follow. Thanks Sid for letter & you're doing some "Rosy" things on the CPC job. Now that Joe Pelletier got a baby-sitter for his 2-day special, I hope that New Zealand etc. catches his other baby, WACB. It also'd be nice if Mrs. Wachtel would sent a tiny report afterwards. Peggy Callahan could make it a 'double YL' and then the NRC "DX News" editor (Hi, bachelor Lefty) most likely would make a special 'hearty' issue. Anyway now you know that there are some YLs in this club that DX once in a while. Besides there are some Mas that help Pa also in this gang, other times there are some that DX for the lack of YEs (izzatso?) Back to shop-yap. 12/2 had WISC (1480) holding Empty-Stocking all AM for a fill, and 1590 had transcribed music by WWXL, ended 3:30. 11/29 - WPAC (1580) Laff-tee-hee organ and band ET 4:32 off. 11/28 - WSDC (1590) M/c 1:40-1:52 off to return at 7:15 a.m., WHLL (1600) ended a M/c at 2:30. KECA (790) after news-WX s/off with Lord's Prayer at 3:04 $\frac{1}{2}$, not 3:30, to return at 5:30 PST. 11/29 also KSL (1160) still at it after 3 a.m.; at 3:33 $\frac{1}{2}$, WHJC & TT, then KMOD m/program or test came in 3:36-3:50 and that WSPD call (1370) at 3:54. 11/30 - A rat was singing love-sick stuff on 1320; 1150 WTYC TT/c as Dick Northrup mentions, a little tough, as WCUE was on (4:30 s/on), WIPC (1280) TT/c at end got WTOG (1290) s/on and they then mentioned next Thursday will be 5:30 a.m.; WIIM (pest) QRM'd a TT/c by ?? located on Highway?? to return at 5:45. Every AM, I listen, some rats (TT etc. no-call) are there, but can't get the right bait for catch and so I'm letting 'em alone. Next month it'll cost you (not me) 2¢ for your prepared cards, so why not send a prepared letter for 3¢ and maybe get a v/letter instead? As Christmas and New Year will be long holidays for many, Sully said he'd have some Christmas Tree tape after WACB specials, heh, come to my house and I'll give you candy. bye-bye.

Herb Campbell - R. D. #2 - Athens, Pennsylvania

Bet you don't remember old Rip Van Winkle! Not turning up much DX - just some of the easy specials. Good receiver in shop and not much inspiration to use the old one. I got a new antenna up to replace the big one which went down in the storm about a year ago. It is the longest I can get on our place. Ungrounded its flattop should resonate at $\frac{1}{2}$ wave on about 1309 kc/s. and it appears to. Bearing NNE. Would like to correspond with anyone using or really familiar with an NC-183 receiver. Thanks.

Musings of the MembersRoger Anderson - 835 South Greenbrier Street - Arlington 4, Va.

Recent veries here have been KGHL KREI WCOR WEBR WPAK WVRL WMBL WFAC WKVF WWNC WSMB WBOK. For you that prefer letter veries, KREI has a unique hand-printing in letter body. Late reports are out to: 11/25 - KFYR (550) 3:07 with "Night Watch", all-night program, KIIWW (1540) 3:12 on DX, WBNL (1510) 4:00 with DX, very powerful. 11/26 - CJOY (1450) 3:07 On DX over WWPB. 11/29 - WMOG (1490) f/c-TT 3:01, WPDQ (600) 4:05 with "Pajama Parade." 12/1 - KSOX (1530) 5:41 with western music through S-9+ WCKY. 12/2 - WPAC (1580) on "Steamboat Jamboree" at 2:00 P.M.! Some DX for daytime with 250 watts and S-8 signal. 12/3 - CKWX (980) 3:00-3:05 s/off, WSOX (1470) ET asking for reports at 3:18. No sign of CFAR-DX here. CHAT-DX may have been on, too much QRM. Brazilians coming through again with time change on 1100 and 1200. Recently traded Hallicrafters for Hammarlund HQ-129-X. I find it a much better receiver for sensitivity, selectivity, stability, and construction. Noise level is high though - A sacrifice I guess. Good DX to all with many fine specials.

Len Kruse - 816 Euclid Street - Dubuque, Iowa

The number of new additions to my DX Log has again just averaged one per day for the past week. On 11/26 the NRC DX special from WATG, Ashland, Ohio really rolled in and I do hope a lot of the fellows were able to add this station to their logs. The scheduled DX from KPST also on the same date was not heard, and now I'm wondering if their second attempt also failed. Also on 11/26 I added CJOY (1450) Guelph, Ontario with an NNRC DX program from 3:00-3:30 a.m., well over all-nighter WWPB. Station WVKO (1580) Columbus, O. was added to my log on 11/29 with their regular scheduled programs from 7:15-7:30 a.m. when they were topping the 1580 spot at this location. On Dec. 1, added KBTA (1340) Batesville, Ark. with its first Sat. f/c-TT for a new addition; and then from 3:30-3:45 a.m. the f/c-TT from WHITE (1340) Manistee, Mich. was added as the number 2 station for December. Then on 12/2 logged WENY (1230) Elmira, N.Y. with a f/c-TT for the first time, from 2:00-2:15 a.m., and later that same morning WFPM (1150) Fort Valley, Ga. was heard with its regular Sunday morning programs 6:15-6:45 a.m. with QRM beginning at 6:3 a.m. when WAPO s/on. Recent verification letters came from WPAX KMOR WHJC WFAU, and a prepared card from KGIB on last season's DX Test. Wonder who was the lucky one to win the 10 pounds of pecans which WPAX offered to the farthest listener?

Frank Wheeler - Erie, Penna.

Here is another little report. I'm kind of confused about the NRC contest. In one bulletin a station will be listed as on for the NRC Special and in the next bulletin it won't even be listed. WTUX was listed in the Nov. 10 bulletin on for the NRC*, but in the Nov. 17 bulletin it wasn't even listed. I got it OK and sent them a report. Is this an NRC special for the contest? Here's my luck with the NRC specials - no luck with the following: KGAL KOMP KNOG KPST, on account of too much interference. I received the others as follows: WBNL R-7, WTUX R-9, WATG R-9. Other new ones that I received since last reporting are: Nov. 9 - WATS, R-9 3:48 a.m. Nov. 19 - WHAN R-6 3:20 a.m. Nov. 21 - CJOC R-9, signs off 3 a.m. Nov. 21, WXRF R-9, 3:10-3:16 a.m. Nov. 30, KREI R-9 2:22 a.m. and KYNO R-9, 2:33 a.m. New veries are WANT WPAR WCDT. (Mon. AM DXes are not listed in the previous Sat.'s "DX News" for it is received by the members after the program has been broadcast -Ed.)

Charlie Conley - 358 Market Street - Lemoyne, Penna.

Not too much to report. Logged these on DXes: KIIWW WATG WBNL & WTUX. KIIWW was a bit on the weak side here, but readable. CFAR KEAR KNOG & KPST just didn't reach this spot. Reports to the following: KHQ-590, KSTN-1420, KOKK-1340 and (don't laugh) WRVA 1140, all on regular programs. Reported KHQ 4/4/49, and f/uped, and he is only one of 9 Washington stations not to verify for me. WBEW 1340 11/19 f/c (also a holdout for me); WGWC 1340, 11/19 f/c; WHJC 1360 test 11/21; WKLK 1300 f/c 11/26 (one announcement only) and WORD, 910, 11/29 ET (for short period in back of some one's carrier and tone modulation.) Veries in from WBAF WCAE WIND WVJS WPAT WRDW WSM. No luck with "Radio Trinidad" although Fred Van Voorhess caught him Friday morning. That covers it for now.

Musings of the MembersBernie Duffy - 94 Lander Avenue - Staten Island 14, New York

Not many new additions to my heard list the past week, only nearby WPAC, 1580; newly 24-hour-a-day KOY, 550 and KSGM 1450. Verifications during that period are printed cards from WJHO & WAPX, the latter saying he gets many reports from NRCers, and letters from WCDT WFGM WJOC WIPC & WRFC. 11/29 - WPAC 1580 ETing at 3:56 a.m., KFYZ & KOY battling it out on 550 at 2:00 a.m. on. 12/1, WCDL is a new 24-hour-a-dayer on 1230 at 3:00. WMTE, 1340, at 3:40 Tting. KTAR, 620, loud and clear till 2:30 s/off. 12/3, a tone tester that seemed to give calls as KEE? 1450 at 1:12 a.m., followed by KSGM at 1:15-1:30 behind WPLH. KWCB, 1300, tested at 2:10.

Joe Enz - 288 Central Avenue - Brooklyn 21, New York

This is my first report to NRC on DX this season, not too much as I don't get much time. However veries in from WKAP WPAZ WNAW & WGSM WCDL. To Bernie Duffy - CFAR on scheduled DX weak here but heard enough for identification and two selections. Was on only with carrier first 10 minutes but came in better around 4:25 a.m. riding on WDEO carrier, who signed on at 5 a.m. Same A.M. Nov. 25th, KWHN 1320 offering 35 bucks for furthest DX. They were on 1320. WOKE, WKIN (s/on 5 a.m.) also a WESO??? 1340, sure I have call OK, signs on at 5 a.m., gives EST. Also thought I heard WOOK on 1340? Receiver had a burned condenser which has been replaced but is off a few kc/s., about 10 kc/s. out of line. Sunday AM, 12/2, CKRM, 980 kc/s. in clear signing off 4 a.m., also first time, heard here KIAC on 570 kc/s, 4:25, and then to KFYZ on 550. Tuned to 800 kc/s. after CKLW s/off, some one on but it was so weak and never could be identified. A Canadian on 1000 kc/s. gives AST heard several AMs at 5 gives time 6 A.M. AST. Also Sunday, tongue alongside of WPAT, CJCH. Coming in fair for easy logging, 3 popular selections. That's about all here so good DXing to all.

Sid Rosenbaum - 806 Market Street - Wheeling, W. Va.

New ones scarce here and veries continue slow. Only 3 new ones heard over the week. On Dec. 1, *WPAC (1580) Patchogue, N.Y. on ET, 2:15-2:45 s/off. WFUR on f/c behind XEEF as listed, but not needed. Dec. 3rd, *WKLW on musical f/c 2:15-2:30 asking for reports, so sent report for a try at a letter to replace old card. KMYR, f/c regular (1340) 2:30-2:45 through QRN/XX and WSOK (1470) on ET asking for reports, 3:15 on. KFGQ (1260) on with musical test 3:00-3:30. CHAT-DX was a blank here due to heavy QRN that steadily increased as the morning advanced. I did hear one number being played at 3:17 and earlier what sounded like a flute or whistling selection, but don't know if it was from CHAT. Veries in are letters from WATG (nice) and KBIM for their test of Oct. 16. The coming WSMB DX on Dec. 10 reminds me that I am a charter member to that station in 1925 and believe it or not, haven't heard them since 1926. Will be on deck for the WACB Convention Special and all the other swell NRC specials coming up. Best of DX to all. (Isn't this fellow doing terrific on the CPC? -Ed.)

Lefty Cooper - 438 East 21 Street - Brooklyn 26, N. Y.

Everyone seems to be doing well this week in the verie department, and I have no complaint, either. Letters in from WLCM WATG WMSC WVOP and beautiful white glossed card with big red letters (not Jello either) from KUJ, and a plainly printed one from KNBC. That makes it 2,162. DX this week - I too drew blanks on KONP KNOG KPST CEAR KFAR. 12/1 to 12/2, 11:54 p.m. to 1:00 a.m., Spanisher on 812 having a dickens of a time with WGY, went unidentified. It sounded like a Cuban. Nothing hew morning of 12/2 for me, but did hear KRLC (1350) as early as 1:22 to 2:00; KSUB (590) s/off 1:42 behind an amazingly excellent signal from KHQ which signed at 3:00. WJOL had $\frac{1}{2}$ -hour test at 4:30 on 1340, with electric organ records, no announcements until they left the air at 4:58. 12/3, acting on a very much welcomed phoned tip from Gene Francis, I logged a new country in "Radio Jamaica" listed on 880 but appearing to be smack on 870 to me, with these "fiendishly exciting" cricket matches to 2:36 s/off, and heard better next morning. CHAT's DX was very tough, but I did get somewhat of a logging on them anyhow. WCDL was silent this AM, maybe every Monday. WSOK (1470) on ET having fun with XESM. Finally I logged KLEE on Don Kaskey's tip with their mail orders and hillbilly music with KBAL silent. KLEE very weak behind S-9 WIP. 12/5 - WMEV (1010) on regular first Wednesday musical f/c 5:00-5:30, but sort of in the mud with CMBQ. Some dandy DX specials coming up, hey what? My complaint to FCC on 1340 unmodulated all-AM carrier brought a phone call from their N.Y. office, and they informed me they will track it down and get it off the air. They already have drawn a bead on this baby, placing it somewhere in up-state New York. By my aerial switching arrangement, I figured it wasn't very far west, if at all. I suggest all who are bothered by no-call TT and OCs, write to your LOCAL FCC office and tell 'em about it.

Musings of the MembersHarold Stein - 432 Sutter St., San Francisco 8, California

Just a few lines to let you know that I am still kicking around. My 9-hour per day schedule at the U.C. College of Pharmacy has kept me away from DXing since August 1. However, I still look forward each week to the NRC bulletin wherein I happily read over the exciting accounts of my DX friends. A few late veries pop in every so often. KFKA, delinquent for over one year, arrived two weeks ago. Best of luck to all, congratulations to the new officers, thanks for the second place Foreign DX Contest prize of last season, and best of DXing to you NRCers. 73s.

Lew Carter - WFMD - Frederick, Maryland

276 stations logged in 8 days here with new Hallicrafters S-40B. (I'm starting over as you know). Some better catches follow. 11/27 - As you know, WBAL in Baltimore is 50000 watts and only 40 miles from here. From 10:10-10:35 p.m. I logged 1090, KTHS, Hot Springs, Ark.-ABC under WRAL. 1380-WATL-Atlanta, Ga on top of a crowded channel. 11/28 - 600-WPDQ-Jacksonville, Fla.-ABC at 3:45. 980, CKVL-Verdun, Quebec, all-nighter. 1430-WOKE*Oak Ridge, Tenn. s/on 5:00. 1320-WKAN-Kankakee, Ill. s/on same time. 960-WRNC-Athens, Ga. s/on 5:30. 920, WMMN-Fairmont, W. Va.-CBS dominating frequency at 8:45 p.m. Likewise 910-WJHL-Johnson City, Tenn.-ABC 1000 w 970-WAAT topping WWSW with "970 Club" at 9:00. 950-KPRC-Houston, Tex.-NBC under WWJ but loggable with no fading at 9. 11/29-1370-WCOA-Pensacola, Fla.-NBC heard well after midnight. 1290-WIRK-West Palm Beach, Fla.-MBS s/off simultaneously with WHIO-Dayton CBS at 1:00, followed by WNEF-Binghamton, N.Y.-CBS DA/N 5000 w. at 1:05. 1380-KWK-St. Louis, MBS DA/N 5,000 s/off 1:00 (Saturday 2:00). 1320-KELO-Sioux Falls, S.D. NBC DA/N 5,000. 1450-WASL-Lafayette, Ind. f/c "This is WASK in Lafayette, Ind. with a special frequency check." Test with tone. No music, 1:30. 1380-KOTA-Rapid City S.D.-CBS clear here after 2:00. 1370-WTTS-Bloomington, Ind. LS 5000, N-500 s/off 2:00, s/on 7:00. 1360-KGHP-Pueblo, Col.-ABC s/off 2:00. 550-KFYR-Bismarck, N.D. NBC has report from weather bureau at 2:05. Is dominant here after 2:00, sometimes earlier. 680-KNBC, and 740-KCBS, both San Francisco, logged as expected, 2:30. 860 KONO-San Antonio, Tex. with Patti Page's "Tennessee Waltz". Thought that thing was dead. 1390-KGER-Long Beach, Cal. in clear at 3:00. 1230-WCDL-Carbondale, Pa.-MBS selling PIs at 3:00. 1410-KEFN-Bakersfield, Cal. CBS heard well on regular sked. 1430 KLO, Ogden, Utah-MBS in clear after 3:00. 1460-KENO-Las Vegas, Nev.-ABC easy catch. 1480-KANS-Wichita, Kans.-NBC coming through well at 3:30. 1470-KPLC-Lake Charles, La. NBC at 10:59. 1440-WBCM-Bay City, Mich.-ABC under WHHH WHIS and others at 11:13. 11/30- KDHL-Faribault, Minn.-920 s/off 1:00. 910-KGLC-Miami, Okla. & WRNL, Richmond, Va.-ABC s/off together with KGLC on top. 1240- WSKI-Montpelier, Vt. testing at 1:30. Not a f/c. 1350-WIOU-Kokomo, Ind.-CBS with Ft. Wayne-Syracuse basketball game transcribed, ending at 2:00 with s/off, using Pledge of Allegiance instead of National Anthem. 1580-KCHA-Charles City, Iowa, 250 w. f/c at 2:05. 1600-WHRV, Ann Arbor, Mich.-ABC clear ant strong on s/off 2:05. 1100-KJBS-San Francisco, Cal. 2:30 on regular sked. 850-WNAO-Raleigh, N.C.-ABC taking out KOA with PIs. Strongest station on this frequency in evening is WXKW, Albany, N.Y. KOA generally has it in early morning. 590-KHQ-Spokane, Wash.-NBC 5000w. non-directional; 600 KFSD-San Diego, Cal.-NBC; 790-KECA-Los Angeles, Cal.-ABC & 570 KLAC Los Angeles, 560-KSFO San Francisco, 550-KOPR-Butte, Mont.-ABC behind KFJR, all heard around 3:30 on regular sked. 610-KDAL, Duluth, Minn.-CBS DA/N 50000 much stronger than WIP at 3:35. 630-KIDOO Boise, Idaho-NBC identified tentatively 3:30. 12/1 - Heard my old station on 1000 WHEB, Rutland, Vt. 1000D. Test program 1:00-1:30. Very weak behind WCFL. 620-CKTB St. Catherines, Ont. very weak behind WROL. 1070, KNX, Los Angeles, difficult to log behind all-nighter WIBC. Hope to go well over 300 this weekend. Also hope to get letters out.

FCC NEWS.

NEW/ 1380 Central City, Ky. 500 D-1. DELETED/ 800 K W H T Wheatland, Wyoming

ON HAND - STILL TO BE PRINTED

Another poem from Carroll Seth, and a treatise on WFMD by its end our Lew Carter.

NRC FREQUENCY CHECK LIST

You have all been waiting and hoping for this, we know, and your new list is very soon to be published and sent to each of you FREE as another N.R.C. service. Alan Arnold writes that only 2 frequency monitors answered his letters asking for their monitoring schedules, but your prolific reports on f/cs have helped, as have the double cards he has been shooting all over the country to stations, asking for that info. Yet the return is no better than 50%. It makes it really a difficult thing to get out a complete list with these factors working against us, but Alan did it!

FOREIGN DX DIGEST

Edited by Fred VanVoorhees, Box 132, Lemoyne, Penna., Deadline Wed AM
Last week's format seemd to receive general approval, so we will
continue to present the column in this way.

NORTH AMERICA

ALASKA-Most everyone writing states that they were not able to hear the DX dedication from KFAR and no one reported hearing it. The NNRC has reported KENI (550), Anchorage, s/off 5 AM by a California listener. Also KIFW (1230) Sitka with FC 0540 on 10/22 by a Washington listener. AFB (1400) Nome, was reported at 0330 on 11/11 by a listener in California.

MEXICO-BF and HSW report XEWA (540) in San Luis Potosi, SLP, as good. HSW has old report out since March sent to SLP address. HSW also complains on his failure to secure veries from XEAW-XEX. Any help here on signers. On 12/3 from 3:45-4 AM on 1340 FW heard a Mexican station, sounding like KE-W, may have been XELW in Guadalajara. Did anyone else hear him? XEN is still on 695 according to SM.

GUATEMALA-Both SM and HW report evening reception of TGUX (1025) Guatemala City. Incidentally YSC in San Salvador is more powerful and on the same frequency. May be hard to identify correct one.

EL SALVADOR-Many regulars continue to report YSEB on 1075, but no verie reported as yet. SM reports on a new one heard after WTAM went off 12/3 at 1 AM. It was YSABC, "Radio Emisora Salvadorense", with a special initial test program offering prizes to local listeners, playing dance music, etc., and announcing that first regular broadcast would begin at 10 AM local time. All in Spanish and went off at 1:28 AM.

COSTA RICA-This country offers one of the most fertile fields for evening listening with all of the following on split frequencies reported by SM as regulars: TIGPH (605), TIPG (625), TIHB (684), TIRA (735), TIW (763), TICS (855), TIFC (995). Lots of good hunting here.

BAHAMAS-FW reports ZNS (1540) received from 9-10 PM through KXEL, and signing off at 10 PM. Received S-8 in Erie.

BERMUDA-SM is now tentatively hoping to set up the special over the new Bermuda station for Monday, February 4, 4:30-5 AM, but many changes may occur before that time.

PUERTO RICO-Many have reported the NNRC special following the regular 3rd Wednesday check from WXRF (1590). FW reminds us that this check is regular and well heard in Erie. WPAB (Ponce, (550) seems to be definitely checking every Monday morning from 3:30-3:45, checked last three Monday mornings by FV and others. SM corrects us on the power of WKVM. He has 25 KW, not 10 KW as reported last week. HSW complains of no veries from WIPR-WRTA-WCMN-WTIL-WORA-WIBS-WKVM. Any recent verie signers here?

JAMAICA-Following up Evan Roberts' report last week, Radio Jamaica was logged with the cricket matches by EC and SM on 12/2 and 12/3 just a hair below 870, just as Evan told us. Signed off with "God Save the King" at 2:35 AM. FV tried on 11/30 but did not hear him.

TRINIDAD-FV had more luck with "Radio Trinidad", also heard by CS, EC, and SM with the cricket matches. Logged here on 11/30 from 12:56 with piano music. Orchestral and vocal music between 1 and 1:50, and at 1:50 the cricket matches started. He went off at 2:35 also. SM had QRM from BBC-Ottringham, which was not a factor here.

HAITI-Among the regular evening stations reported by SM on split frequencies is 4VW (1315) Port-au-Prince. Anyone have a recent verie?

CUBA-News a little light on Cubans this week. BF reports Cubans on 600 and 550, undoubtedly CMKV and CMW. CMKV signing on at 6 AM Sunday with Cadena Azul programs. EC reports Cadena Azul stations still on at 2:45 AM 12/4. Heard on 570-590-600-840-960. Also heard was CMCH on 790 Kcs.

NOTE to BF: We will publish a copy of the Spanish form letter just as soon as I can find my copy. Perhaps some have ideas as to improvement

SOUTH AMERICA

ARGENTINA-HW also heard the station reported by BS last week, but he hasn't identified it either. Thinks it must be a South American. HW had it 4-4:40 AM.

COLOMBIA-HJGZ (710) Bogota, was heard on 12/2 and reported by CS thanks to the tip in this column. Thanks, CS. For all who need him, SM reports that HJKM (738) Bogota, is an evening regular.

VENEZUELA-RG reports YVML (1180) "Radio Cabinas" signing on at 5:30 AM Sunday morning with good signal in clear for at least the 1st half-hour. SM also reports YVKM (1095) as one of his regulars in the evening.

PERU-Also among the split frequency stations heard by SM during the evening is OAX4A (854) Lima. We can't see how he separates this one from TICS on 855.

OCEANIA

AUSTRALIA & NEW ZEALAND-BS reports that reception is now falling off from these countries. His only new catch is 4ZB (1040) at 5 AM on 11/28. HW thinks he had stations on 660 and 880, but not strong enough to log.

WESTERN SAMOA-A California listener of the NNRC has received 2AP (1420) Apia, from 3:30-4 AM sign-off on 10/30, perhaps a good one?

HAWAII-BF asks if Hawaiians ever get to Mass. I would say "yes" judging by the powerful signal KULA (690) puts in here. Try him around his 4 AM sign-off. HW adds that he often has foreign language programs and is sure this is the station CS reported previously on 690.

EUROPE

Here again BF asks for advice on tuning TA stations. Best time to tune for them is from Midnight to 1:30 AM. Sometimes they hold up later, but peak around 1-1:30. Strong carriers heard here from 1586 Germans, BBC on 1295, and Monte Carlo (1466) but no modulation. Almost all operate on split frequencies. WORLD RADIO HANDBOOK gives them. CS thinks maybe he had some carriers on 944 (Toulouse) and 1088 (Droitwich) as well as others, but not sure.

GERMANY-SM reports Voice of America (1195) Munich, heard during the evening hours.

ITALY-SM reports reception recently (peak on 12/4) from the synchronized stations on 656 Kcs., as well as from Rome (845). Good news to know the lower freq. stations are coming in well too.

SWITZERLAND-SM reports reception from Sottens (764) through near-by WJZ.

HOLLAND-SM reports Hilversum on 746 coming in quite well.

BELGIUM-Brussels on 926 also reported by SM, but quite weak.

FRANCE-SM's report includes Nancy (836) and Paris (863).

NORWAY-Stavanger (1313) is this country's representative this week

ENGLAND-SM reports BBC stations on 881 and 908. EC adds that BBC on 881 was broadcasting cricket matches same time as "Radio Jamaica" and that it was a bit confusing, since Jamaica was supposed to be on 880, but was actually operating on 870 or lower. Following is the list of BBC stations furnished by DD:

BBC HOME SERVICE PROGRAMS:

692 Kcs.	Northern	Moorside Edge
809 Kcs.	Scottish	Burghead; Redmoss; & Westerglen.
881 Kcs.	Welsh	Penmon; Washford; & Wrexham.
908 Kcs.	London	Brookman's Park
1052 Kcs.	West of England	Start Point
1088 Kcs.	Midland	Droitwich & Norwich.
1151 Kcs.	North Ireland	Lisnagarvey; Londonderry; & Stagshaw
1457 Kcs.	West of England	Bartley; & Clevedon.

BBC LIGHT PROGRAMS:

200 Kcs. All of England Droitwich.

(Continued)

BBC LIGHT PROGRAMS:

1214 Kcs. All

Brookmans Park; Burghead; Plymouth;
Lisnagarvey; Londonderry; Redmoss;
Moorside Edge; Newcastle-on-Tyne;
Redruth; & Westerglen.

BBC THIRD PROGRAMS:

647 Kcs.

Daventry; Edinburgh; Glasgow;
Newcastle-on-Tyne; and Redmoss.
Belfast; Bournemouth; Brighton;
Cardiff; Dundee; Exeter; Fareham;
Hull; Leeds; Liverpool; Manchester;
Preston; Plymouth; Redruth; Sheff-
field; and Stockton-on-Tees.

1546 Kcs.

The above listing does not mention the foreign language transmitters like Ottringham (1295 Kcs.)

MYSTERY

As usual we have a long list of these this week. CS asks about Spanish speakers on 1265 and 660 (Maybe XEBZ, Carroll). BS has a weak Spanish speaker on 770 Kcs 11/27 at 6 AM, used a tone and faded out before identity (Is it HJDK?) BF has a Spanish speaker on 1200 he hasn't identified. HW reports them on 1251-1253-1255-1265-1275-1425. Slicing them pretty thin, aren't you HW. SM still hasn't identified the one on 787 Kcs., which he says is a regular during the evening hours.

GENERAL

SM has something to say about the TV QRM mentioned last week. He has it too and says it is caused by the fact that each TV set has 15.75 Kcs. as the oscillator frequency, so you get a signal every 15.75 Kcs. His only comment is that HW is lucky, he can turn off his set and all is OK. Where SM lives neighbor's sets do just as much damage as his own. Guess we have no practical solution as yet. Will let you know if one turns up.

CONTEST

Too early for a very definite indication as yet, but here is the standing so far:

1. Hank Holbrook, Chevy Chase, Md.	CMKF-CMBY-NWDR-	6 Pts.
2. Roger Anderson, Arlington, Va.	CHOK-WIPR-	4 Pts.
3. Charlie Conley, Lemoyne, Pa.	CBA-CBF-CJOY-	3
4. Bob BROWN, Goshen, Indiana.	WAPA	1
5. Robert Gorsuch, Cedar Rapids, Ia.	TIW	1
6. Ernest R. Cooper, Brooklyn, N.Y.	HJKM	1
Fred VanVoorhees, Lemoyne, Pa.	CMHQ	1

The rest of the contestants have yet to score. The next published standings will be the first issue in January, space permitting.

Thanks to all of you for another banner issue. Also thanks for the kind words you have been giving me. If the column is meeting a need and is interesting and USEFUL to you, we can ask for nothing more. Here are this week's reporters:

DD-David Dary, 121 North Eighth, Manhattan, Kansas, (Also last week)
SM-Steve Mann, 125 Ward Street, Westbury, New York.
BS-Bob Sanderson, 2073 Waverley Avenue, South Burnaby, British Columbia.
CS-Carroll Seth, 228 West 22 Street, Erie, Pennsylvania.
HW-Harold Wagner, R. D. #1, North Girard, Pennsylvania.
EC-Ernest R. Cooper, 438 East 21 Street, Brooklyn, New York
RG-Bob Gorsuch, 2509 D Avenue NE, Cedar Rapids, Iowa.
HSW-Harold Williams, 50 Third Avenue, Seymour, Connecticut.
FW-Frank Wheeler, Box 174, R. D. 5, Erie, Pennsylvania.
BF-Barry Foote, 273 North Avenue, Weston 93, Massachusetts.
FV-Your editor listening from Camp Hill, Pennsylvania.

The sign on and off times that appear on another page were sent in by Lew Carter-Alan Arnold-Jim Critchett-Don Kaskey and Lefty Cooper.

Jan 19 KNEW Spokane, Washington 790 kc. 5,000 watts NRC
5:00 to 6:00 AM EST. C. E. Rodell, Manager.

This is the yearly DX program arranged by Clarence Lee Mustoe of Spokane. Clarence says he might have a tape recording of himself and another local DXer on the broadcast.

With this issue we are sending out the first sheet of the FC list compiled by Alan Arnold. This compilation is a lot of work and Alan certainly deserves lots of praise for doing it. Alan would like to issue a monthly correction sheet so how about keeping a post card addressed to Alan at 644 West 4th St., Ontario, Calif. right beside your radio & jot corrections, additions, etc. on the card as you get them. Its done then and requires no research, all you have to do is mail the card.
