It would seem that one issue (or more, perhaps) of the FCC releases was not received, for some of the new ones coming on have not been listed in "DX NEWS". 6030 kc/s. will join in too. They were unable to make it last time, but here is another chance, and the channels should both be clear coast to coast, so a great chance to add not only new stations, but a new country. Arr: HOLBROOK

- Back at you all again, but this time they KYOK - HOUSTON, TEXAS Charles E. Hoge, Chief Engineer will have west-coast U.S. interference, appreciate it if you'd DX this program too, and then let him know how he fared this time as opposed to the program of 1/16/55. KYOK did right well at that time, and we hope they'll do right well all over again. Arr: LEN KRUSE
- WABZ ALBEMARLE, NORTH CAFOLINA Here is a station quite enthusiastic above Coleman O'Neal DX, having been thrilled by a recent re-nel with them. Having no regular frequency check, this station is undoubtedly needed by the majority, but let's all time it in and report. Arr: NORTHUP
- W K V A LEWISTOWN, PENNSYLVANIA Here is another very seldom-logged sta-ional, WKVA should spread out in all tangents, giving everyone a really fine chance to make a new logging. This station also has no regular frequency cheso here's a golden opportunity of adding them to our logs. Arr: NORTHUP
- OKLN NELSONY BERTTIH COLUMBIA Since WEDC threw a road-block on CKLN's A. R. Ramaden, Manager DX last year, eastward, Mr. Ramsden will 15-minute segment, a period of tone. So if music is not received, nor announced ments, CKLN will verify if you can tell them exactly when the tone came on an when it went off! A real addition to a tough-to-log DX! Arr: GENE CALERON
- WIL ALBANY, OREGON This is their second DX of the season. Herbert Davidson, Chief Engineer The first one met with some unidentified Will find the frequency clear. A 1,000-watter, their radiation due to the form rectional pattern of their antenna gives them aneffect of 3,000 watts to the South and West and about 100 watts eastward. A really good catch. Arr: KRUS.
- KWRN RENO, NEVADA Here is another nice DX, from a muchsought station. We expect the only othe Walter Rees, Chief Engineer be the perennial WNOR, so KWRN should be heard by most of our gang. So let's all be on hand to hear this program from Reno for us, as our second consecutive Honday morning 1230 kilocycle DX program. Good reception! Arr: KRUSE
- W A R B COVINGTON, LOUISIANA "We will run a full hour and present a David C. Blossman, Manager musical program with comments about our Mr. Blossman himself will be on the mike, and he asks us to forgive his untrained speaking voice. We've a hunch it'll be very professional-sounding. 730 should be clear, so a real chance for the whole membership. Arr: MOSEMBAUM

Martin CE W/up nextwo To Bill Prater, Erick Johnson, Dick Northup, Hal Schrock and Lefty Cooper for KCLV tip in last week's issue, and to Bill Prater again for KBIG info. Also D. Roller. We'd like to thank too those who provide us with suitable Page One plugs.

Pat Reilley - 11 Irvine Place - Jamestown, New York Only verie is WKSB, first verie in 12 days and my 2,600th one. 1/1 - No DX, too many on to try. 1/2- CKIN, 980, atop others at 2:45. KPHO, 910, s/off at 3:03. Guess they are silent each Sunday AM. KTRB, 860, said 400 there and up to 410 here. 1/3- WRTA, 1240 and WFBG, 1340, both MD. 1/4- 860 had tone all morning and no voice. WOCH, 1460 on ET at 2:43 for new one, not listed yet in "DX MEWS." WJHP 1320 at 3:04. FICE, 1290 test at 3:16. WWWB, 1360, ex-1240 on ET at 3:20. "Radio Cadena Nacional" CMCF, 910, at 2:50. KOGA, 930, ET at 3:05 with CJCA and unknown TTer for a new one. 1/6-440 and raining hard. KOGA, 930 ET again. WOCH 1460 ET at 2:47. WJOE, 1340, f/c at 2:50. WYTM, 920, test at 3:07. KBIF, 900, test at 3:23. WSBB, 1230, f/c at 3:36. A/WK-- 1340, ET 3:38 to after 4:15 but couldn't catch reas of call through the mess. 1/7- North Ireland on 1151 copied with lady announcer. Will try my luck for a verie. Unknown tester on 1290 from 3:00 to after 4:05 when I quit. The noise today was caused by my grumbling for no call was given all this time. WOCH with last ET on 1460 as they go on air at 7 a. m. today for daily programs. From 2:33 to 4:00, listened to nothing but tones on 1440 1390 910 930 and not a call heard. That 1440 seems to be on daily and I'd say from the West. No good on south or north antennas. 1/9-WMBR, 1460 and CKBI 900, with MD programs. KOGA, 930, signed off ET at 3:25.

Maurice W. Nittler - Geneva, Nebraska DXing has been rather slow here since Christmas with only a few sessions at the dials but have managed to log some good ones. First new one of the year came on 2/4 when I heard CFCW Camrose, Alta. (1230) s/off 2:00. Then KTMS was heard on its RS, 1250. WDVH (980) was heard with f/c and CKYL Peace River, Alta. (330) was noted with s/off at 3:00. Then I got my minth country with the llgging of TIRS San Jose, Costa Rica seeming to be on all night schedule with Spanish music but identifying frequently. On 1/5 had KAPK (1240) on f/c with tone. On 1/9 really hit the jackpot with nine new ones. Heard six of the seven DX shows with only CB-106 missing. WJLD was heard before asd well as KOFE and KLEM. Other new ones were XEOY (1000) s/off at 2:00, WMLV on DX show very weak. KCNY San Marcos, Texas (1470) s/on 5:00, KCYL on DX show fairly good under WJXN and WTIX mess, KSUN (1234) c/c with tone, KCLF (1400) f/c-tt behind WJLD's DX, WNOG on DX show with very strong signal, WMMB Melbourne, Fla. on f/c-tt (1240) behind other new one, presumably XEBN C. Delicias, Chi. Mexico which was in very strongly with test. Calls sounded like XERA. On 1/12 caught RS of KLAK Lakewood, Col. (1580) at 6:45 while an my way home from work. On 1/13 got WBHB (1240) per f/c list . Veries since 1/ WHAC WEDC WION KIKC KPOF CJOR WAJF WTAD KWAD WBAC WBAA KIMR WMOH WJMA CJRL. Still Reports out to DXes from WAGS WINI KOEL WLAS WPET WMVO KUTI WEOL KOFE WNCC KOWS. (How about it, Kent?) 73s.

Francis H. Nittler - 1335 Grant Street, Apt. 22 - Denver 3, Colorado DX activity here has been limited because of working at two jobs but I have made 4 few catches. On 1/8 WOKY (920) logged on their RS with KRAM apparently off their all-night schedule. Also logged WKRC (550) with no sign o KOY and think they so off at 4:00 now. Other new one was KLAK (1580) in Kakewood (a suburb of Denver). I logged them at 4 p.m. and was really surprised as I hadn't heard anything about their starting. They program with nothing but hillbilly music. On 1/9 I logged KFQD (730) 3:45-4 with a good signal for my first Alaska station. Here is how I did on the specials for 1/10. KLEM (1410) in like a local and sent a report although already verified. KCYL (1450) in fairly good with some QRM from WTIX. KOFE (1150) heard easily although not needed as reported last time. WNOG (1270) fair although there was quite a bit of fading. No sign of WMLV or CB-106. KWNA (1400) was on ETs which gave me a new logging but it blotted out WJLD. On 1/12 I logged MBRL (1300) on RS at 8 a.m. and on 1/13 KGAE (1430) with r/c, MAON (530) f c 4:00-1:15 and WGAC (580) heard behind KMJ at 4:30 although not enough for a report. This morning, 1/14, KWLC/KDEC were heard on their f/c. I also noticed CJOB (1340) not on all night 1/10. Hope this is permanent. Veries are KEOY KYJC KOCA KYOR KEAR KANE KLOU KNOK WEBQ WCBR WOIC WMOP WKBH WBAA WOKY WNCC CKOK and KWTC on a f/up. 73s.

* ANOTHER NICE FAT ISSUE, GANG. REMEMBER, LET'S ALL SEND IN OUR DX REPORTS AND

* LET US REMEMBER, PLEASE, TO DOUBLE-SPACE OUR REPORTS TO HELP SPEED THE TYPING.

Probably the last time you heard from me was about a year ago while I was still in Libya. I was discharged from the Air Force in August in Utah. I have changed addresses so many times since April that I used a permanent address for "DK NEWS"; consequently did not keep up on the happenings. The first copy arrived this address this week. By the way, this address should be permanent for a while. By first DKing since early 1952 was done in mid-November and Christmas vacation at the permanent address - Troy, W. Va. Here, I am attending Indiana Technical College; hence I have probably done my last DKing for a while. At the present I don't even have a radio here. (Two commercial receivers at hone) and hesitate to bring one in as it would tend to interfere with studies. I want to thank all the CPC men and all those who work so hard to make this a great club. Received the following verifications for November DX: WHEE KTAC WBOF WILY WEI WHEA WWNH KTJS. Only two in from December, but expecting others to be forwarded from Troy soon. Those in the KWAK and WOKE. 73s.

Don Roller - Route 1 - Dupont Road - Fort Wayne 8, Indiana Letest DK here includes: 1/8-WANN (1280) f/m test at 1:17 and WSNW (1150) testing at 1:30. 1/10-WISO (1280) hard beneath QPM on f/c at 2:26; WJID (1490) NRC DX - amazing signal - on top most of time; KLEM (1410) NRC DX strong; WMIN (1440) MRC DX fair to good with QRM from two unidentified Tiers and a weak Mexican, and MEDK (1850) testing at 3:27 for a most welcome catch. CB-106 (1060) unfortunately ailed to show here. Missed WFMO (not needed here anyway) and overslept CKDA, who probably wouldn't have made it here anyway, because of the QRM. Veries in recent from KNWS WLFH WJMA WDXN KUSD. My number of reports not answered is mounting, hi. I've now reached the 1600 mark in total loggings, and that is the exact total at this writing. All for now - test of DX to all. 73s.

2.250 doubtful since two stations (think U.S. harmoniss) on 1060 ke/s., neither identified. Also heard f/c WISO per f/c list. KCSR 1450 f/c to 2:25. WROX 1450 f/c to 2:30. Announced s/on KCSR, 7:00. WROX 5:45. CMOX 1490 English announcement 3.

2.250 MROX 1440, Clivis, N.M. says they are planning an all night kD show on the night of Feb. 5. Wants reports. Clayton D. Fuchs, CE. Verie, KOCA, give schedule 5:30-Mdt. 1/11- WBCR 1260 test 1:30. WHEE 790 test 4:40. WFMO OK.

John Hougerheide - 615 North Manry Street - Madison 6, Wisconsin Well, time for another report, and what a DX-filled week this has been! Jan. 6 had KBOR s/off 1600 kc/s. as 1. VAPX was first off with Star Spangled Banner, followed by KEOR with "Da, is Done." Should be easy to log if you need it. Jan. 7 a report out to XEQ 940, WCLS Columbus, Ga. testing behind XEDM on 1580 at 1:30. A Mexican on 1420 testing, in Matamoros. Report out to WLOX on all night show. CKYL Peace River, Alta. on 630 on RS at 2:30. Jan. 8 had reports to CJOR 300 and CJVI 900 on their all night shows. KLO till 4, XEDU on 1420. A foreigner on 760 kc/s. behind WJR at 4:15. Can anyone give me any help as to who? Afternoc of 1/8 had MATK 900 with basketball game. WERH at 6 s/off. KCMU 1580 in Columbia, hap. at 6:15 s/off. KVGB on RS at 6:30. WOKJ in Jackson, hiss. 1590 s/off at 6:30. WHWL on RS at 6:30. Jan. 9 had MD from Baton Rouge, La. with WIBR and WAFB with The show at 3:00. Jan. 10 had WOPA 1490 at 1:15 s/off. Dies heard from VJLB KLEM WMLV KCYL. Also heard were f/cs from KOCA and WPAB as listed in f/c list. XEXK in Leon, Texico Tring behind WNOG DX: Also testing were XENN (?) 1240 kc/s. at 3:30. XEDK 1250 at 3:30. WPRR testing at 4. Brazilian on 1280 with loud signal. Afternoon had WSHB at 6 s/off. WLDY 1340 on top of 1340 at 6:30. Jan. 11 had XEDA all night, KFMO f/c, KICD f/c, VLCX, all night, WHBB f/c, WPRA f/c, WDVH TT, WCBY TT, ANDEC f/c testing. Jan. 13 had KNAL s/off, WNXT f/c, KHOB f/c, KCBC all night, WLOW f/c, 1380 Salt Lake City, TT, WBHB f/c KUBC TT KGCU TT. Jan. 14 had WEIR on fic at 1:30 on 1430 kc/s. Morning DX from KLPW 1220 Union, Mo. at 8:15 s/ on, WCAZ-990 at 11 as was KUOM-770 kc/s. Veries from WWRL WMIL WLBL CJAD KBOR.

After taking our son to the 2:20 mam. train in New Haven, I got home before 3 a.m. all set for an AM of DXing, but the noise level was high and the resultant QRN terifician. KLEM 1410 heard but very difficult; WJLD 1400 was heard but mostly smothered by WELM, WMLV 1440 was well heard, but briefly as I have them verified, KCYL 1450 heard weak under QRN and a tester, CB-106 (1060) the prize of them all was not at all realable here. Something was on 1060 but could not sell if Spanish, English or what have you. KOFE 11.50 was heard briefly but not as well as when on 12/13 DX. WNOG 1270 was neard best of all with an 3-6 signal. So two good ones, one fair, three so poor doubtful he they rate a verie and GE-106 not awall, hi! Thrange - KSUN (1230) was heard with f/c-tt under WNCR 4:46-4:58. 1/11 - The new WBCR (1260) Christiansburg, Va. ET with TT 1:18-1:50 and later, easy over WNDR. WGGA (550) Gainesville, Ga. f/c-tt as per f/c list, S-6! WIRJ (740) f/c-tt as per f/c list but not needed. CYVL (850) Verdun, P.Q. heard on RS after WHDH stoff at They put in a much better signal hers when on 980 kc/s. WJNO (1230) f/c-tt as per list, not needed. WEMO (880) after waiting ten mimites they finally made it on NRC DX with an d-5 signal. Hope Hank Holbrook heard Red Foley's recording dedicated to him, hi? WJOS (1340) f/c-tt as per list. 1/12- WNER (1390) Live Oak Fla. ET 3:00-3:30 and later. They never QSLed when I reported them on 1450 lm/s. I will be at work until 6 a.m. ending at 1/19/55, so will have to miss CKDA VSIG KYOK KWIM CBAF and KNAX, all needed except WSIG. I may be lucky enough to get some on my coffee brank. DX Mail Bag: 1/10 - WKSB (930) for NRC DX (completes Delaware for me), WSSC (1240) for 1/3 ET. (E claims to be the youngest CE inthine U.S only 22 years old. Wants information about NRC. I wrote him, also lefty and Alex MacKenzie. Also a doulicate verie from WBAA (920) for MNR; DX. 1/11- WJEM (730) letter. 1/12- KSGM (980) Mail-o-Gram QSL card for reports of 9/31/53 and 12/21/53 and a third report 1/8/55, which I don't think they could have received before QSI was sent. 1/13- Three cards today - WHAW (1450) for NNRC DY and WMBS (590) for NR DX, neither one new. Also one from Lefty Cooper. 1/14- Three more QSL cards to-day - WBAM (740) and two from KREL (1360) for 10/4/54 report and a 12/15 1/up. So two QSL cards sent same day! 1/15- QSL card WNCC 950 for NRC DX, total now 1,402. Charlie Couley - 358 Market Street - Lemoyne, Pennsylvania

Corry I've missed so many issues of our fine "Musings" but with two jet-propelled crandchildren to keep the joint hopping during Chris mas week, trying to get the books closed for '54 and not feeling too hot I just haven't even been able to keep up with my reports. Want to get some out 1/16 beginning with the 12/27 DXes from WIRE, who placed a fine signal here and WELY who was a bit tough through the QRM (450. Then I'll have to write to these from 1/10 Dxes: WJID heard spasmodically shrough the 1400 hash, KLEM (fine) WMLV whose directional pattern certainly works for he was very difficult to hear here (not over 125 miles east) and WNOG with amother fine signal. A few faint traces on 1060 during the hour CB-106 was on bub nothing Identifiable for a report. No sign of KCYL or KOFE. Sent a fairly decent report to KOFE on 12/13 DK but no reply. He wasn't too difficult here through KAN who veried in four days! Didn't turn the set on until 1/16 when at 3:40 copied VMC. apparantly testing on 1600 and mentioning a phone call from Peter Bretz. Then & truly fine show from Phil Potter and WSIG with a million \$\$ worth of plugs for NRC KYOK came through very well considering XEMC. Another friendly DX booster! Only nine veries in since last report. 12/21, WFKN and WLAS on NRC DXes plus a letter from CKRC, with my report attached, on a brief log on s/off RS 11/18. 12/24- KLRS 1360 on ET of 11/6 and WTAB-dx. 12/30 brought my last of the year from WBAT 1400 for a one break ID on NNRC DX of 12/18. Very friendly letter returning postage! As I've said before, you never can tell! Long reports often bring no veries, then look at what we consider poor ones! Incidentally, I would up the year with 1,189 veries. Look out, Ed, I'm breathing down your ack! Since the first, only three have come in, WNCC (who forgot to print his call on the special card - you print them Richard?) WRAA on NNRC DX and on the 15th, finally KAIM on 11/7 DX. Still a sittin' and a-waitin' for veries on NRC DXes from WAGS WINI KOEL KNWS WPET KOFE KUTI WAYO. And all of those reports ranged from fair to excellent insofar as reception was concerned. C'est la guerre! Have three good logs on BBC 8dl (Wales) but since I've had two from BBC this year, I'll not crowd my luck. Besides, time is short. Appreciated the many fine cards received from y'all at Christmas.

Jim Critchett - 1119 West Arbor Drive - San Diego 3, California Thank you for the condolences offered in Mother's passing. Because of it, the many guests, and loss of sleep, there was no DXing until the past weekend. Sat., 1/8 found a new station on after 3, EST, namely 1240 KRWW not on Monday, 1/10, though. KRAM was not on after 5, Sat., 1/8 either. Monday, 1/10 gave me six new stations, so a good beginning for the New Year. Whanks, Sid, and the CPC gang. On 1410 KLEM was an S-3, but good MRC publicity. Wild was covered by KCIF's monthly f/c, 3-3:20 an hour earlast than in Ev. Johnson's list. KRE was on with the news until 3:23. And the new KWNA?'s ET covered the frequency until after 4, and someone else nearer than VJLD was on also . WJIB was heard Ding at 4:45, so they probably hurt those listening in the Midwest. Guess WMLV was too weak to make it here; not heard, at least. Caught last five minutes of 1450 KCYL. but very weak. CB-106 was not heard, between XEG and KNX. KOFE was on for their f/e from 3:30 and off at 4:15, no KAYO heard this time. Best catch was 1270 WNOG, though rather fady. At 3:45 on 1250 KEDK IDed continuously in Spanish for several minutes; apparently an ET. on 810 WXVM was heard s/on through MGY at 4:28; and last, the British-sounding VPH on 330 from 4:53:30 to after 5. Heard previously, but not identified. As for the future, wish CKDA could have been scheduled for Monday, with KNAK off. May try for WSIG again, and need KYDK. Also need KWIM and KNBK, just dreaming about CBAF a long ways from here. Recent veries from 790 KWIL, 1290 KALM, 1380 KOTA (after mine months), and 1340 KJAM. 930 WWNH said not them I heard; maybe KTKN or VRH. F/ups to KUDU KFQD, 1340 KRUX and 1490 KDB. That is all, up to date.

Gene Cameron - W. 5004 Hoffman Place - Spokane 14, Washington Watch for an ET from WABZ (1010 - Albemarle, N.C.) on Jan. 30 from 3:00 to 3:30. This is a Sunday morning, and I have contacted him for a Monday DX in February. He is a DXer's dream - went wild with a report from the West Coast. He reburned via air mail, sent pencil, a coverage map, percentage charts, and three stamps. Yeh, I made 6¢ on the whole deal plus a pensil. Now, let me say that Monday AM, Jan. 10 was the poorest morning I have ever listened. I did log KLEL-dx and surprisingly the WNOG-dx, but the band really closed down. The only other station I added was brand new KWNA (1400 - Finnemucca, Nev.) on for ET. On 1/7, I logged CKY (580 - Winnipeg, Man.) on RS at 10:59 plm.: On 1/3, I added KABC (790 -Mos Angeles) with s/off at 3:37; WIOL (1330 - Minneapolis) atop EFAC at 3:45; KEX (1190 - Portland, Ore.) all-nighter; KSPT (1400 - Sandpoint, Idaho) at 3:45 p.m.; KIEM (1480 - Eureka, Cal.) at 4 p.m. Also on 1/10, I logged KROW (960 - Oakland, ea,) on RS at 2:45. I was able to hear the WFMO DX on 1/11, but I assume he won't count as he was only on 21 minutes. Also heard WGAR (1220 - Cleveland) all-nights er; KTEL (1490 - Walla Walla) on r/c as per list; and KONP (1450, Bort Angeles, Cash) on r/6 as per list. My AFRS on 790 was Nakmek AFB, Alaska, and he was heard Wall for a week, but has now disappeared. Alaska seemed to open up for a couple of weeks, but is back to normal now. Veries were redeived this week from HXXX Will MKRC WIEW CKYL KTAR VRH VOA Okinawa KOBK KXO KLAN KDHL KIBH KNWS WABB WABZ (noted above). Kent, Craig, your Dec. 17 letter arrived here Jan. 11. Belated thanks. I contacted new CKYL for a DX and guess who was there before - Yes, 'Old Faithful' - Good boy, Sid! I have added 158 stations to my log in $2\frac{1}{2}$ months and 85 veries.

Ken Maylath - Men's Residence - St. Lawrence University - Canton, M.Y. Well, here I am back from a most enjoyable Christmas vacation. In the past couple of weeks my loggings have been appearing along with those of the CDXC on the DDD page. I did quite a bit of DKing at home, and picked up a number of valuable ones. Since returning to Canton, my DKing has been somewhat limited, mostly due to being quite busy. However on 1/7, I caught the 5:23 s/on of CKEC 1230 coming through is fair style. 1/8- WBAC 1340 s/on at 5 very weakly in the mess, barely readable. 9 heard sor ething s/on 1230 at 7 and from what I could make out about it and its FM outlet. I'm almost sure it was WCOL in Columbus. A tentative will be sont to find out for sure. Between 8 and 8:30 I got a real big surprise in hearing the long sought KSOO sitting atop WRVA and 1140 with ease. I listened to it for almost \$ hour, and here was the sun shinging outside! Verties lately have been coming in well, and at a good percentage. Recent ones for reception of stations both home and here include: VMUR WCBC MNRC DX, a nice letter from Phil Potter at WSIG, WOTW CKTB WLYC ACA CJOB WCBL KASM NNRC DX. Have to go out soon, so will s/off until next week. 73s.

Hi. DX seems to be best the day we have so many DXes and boy what a job with so many on in an hour's time. Heard them all this Monday 1/10. KLEM 1410 very good 3:05-3:28 a.m., WJLD 1400 through KCLF test 3:05-3:35, good to fair in strength; WMLV 1440 was poor here, but readable at times from 3:35-4:00; WNOG 1270 was very good and in clear 4:10-4:30. Sure did enjoy the DXes. Added also: KOFE 1150 f/c r/c, WISO 1260 r/c good over several others, WHSY 1230 f/c 2:05-2:15, WMMB 101004 bourne, Fla. test 1:40-1:52, and XEBN Ciudad Delicias, Chihuahua testing on 1240 2:50-3:00. Only other addition to these of 1/10 was WVLK, Lexington, Ky. 590 kc/s. 1/6 2:15-2:20. Veries in: KFRB 900 first Alaskan; airmail in one week; WAIM WCLG WMEN KCNA (leaves only KYUM and KONI to complete Arizona), WTCN KTRF WEBJ KOGA. No luck this morning with WFMO 860, were they on? Who was KCYL on for? Already had them, but couldn't help hearing some splatter during WMLV DX, 1440. See you next

Ernie Matherly - 78 Craft Street - Cincinnati 32, Ohio Exing hasn't improved as much as I hoped it would since I have been doing more elseping than DXing, but nevertheless I have logged and reported 19 stations during the period of 1/10 to 1/13 with 17 of them being new to the log. DX doings for this period are as follows: 1/10- KLEM 1+10 DX 3-2:264 a.m. S-4 at times, UJLD 1+01 DX 3-3:30 also S-4 at times, WALV 1440 DX 3:304-4:01 S-6, WNOG 1270 DX 4:012-4:29 g S-6, one of the best signals I have ever heard from Florida. 1/11- WKAP 1320 on f/c 12:15. WKSB 930 on f/c at 1:06-1:20. WFTR 1450 on f/c 1:30=1:40表, VIRJ 740 ex /c, 2:29\-2:45\frac{1}{2}. WDEC 1230 on f/c 3:09\frac{3}{4}-3:21\frac{1}{2} fade out, WBML 1240 3:22\frac{1}{2}-3:30 with "dial tone modulation" on ET? WCBY 1240 3:25-3:50 on ET. 1/12- WAVI 1210 c. 形 2:51-3:32 p.m. WRCA 660 on RS 9:15-10:38 p.m. 1/13- WBCR 1370 on r/c, 1:44衰-2 with S 8-9 signal best heard out of Georgia. WMXT 1260 on f/c 2:01-2:15, KLIR 99% on f/c 2:18-2:30, VMLT 1340 on f/c 2:15-2:28, and maybe KOAT 1240 on f/c 2:19-2:30 (They're on 860 now, Ernie -Ed.) No ID heard but sent report anyway. Verisi maceived are QSLs from WNGC-dx WMBS-dx and KNOX. Letters from WFTR WKAP WEBY WOOD MANE WIRB WHEC with mimographed letters from WJMA-dx and KFGO.

<u> Hank Holbrook - 4710 Edgenoor Lane #106 - Bethesda 14, Maryland</u> Notal too about additions to the log so far in January but I must admit that I'm rathe or happy with the catches. Following were logged and reported to date. On 1/2***OGH 1430 on ET 2:46 to 3:01 a.m. s/off. 1/3 produced some welcome foreigners as Collows: Wroclaw, Poland, 1367 from 12:55 to 1:50 a.m. with good signals haring most of the period; then RIAS Hof, Germany, 683 was heard for a short period beween 1:55 and 2:06 a.m. when they faded out. EBC stations on 908 1052 and 1088 mard well from 2:15 to 3:05 a.m. HOHO Panama City on 870 believe station heard wound 4 with talk on death of president. On 1/4 a couple of domestics found that may into the log. TNOS 1590 from 1:09 to 1:15 a.m. with unannounced f/c, follows 1:22-1:28 by WCOW 1590 also on with special test. Both received well. KGU 700 wounded out the morning, but received poorly from 3:01 to 4:15 a.m. when WIAC warmed up their transmitter prior to their 4:30 a.m. s/on. One new station logge on 1/5, and most welcome. Nerway on 890 logged from 1:28 to 2:35 a.m. with ORM at times from Algiers, but overall reception was good. On 1/7 another TA logged between 7:16 and 8 a.m., RIAS Germany on 989 with bad QRM from our neighbor south of the borler, XECL. The next AM saw Tirana, Albania, 1358 heard occasionally between 12:03 and 12:25 when Bremen's carrier took them out. North Americans on 1360 gave Tirana a hot reception with plenty of sideband QRM. My ears are still hurting, his 1/10 was a big day. Started off with HJAT 1080 on 24-hour sked, logged from 1:52 Next came VJLD 1400 and KLEM 1410 (nice they were next to each other) b to 2:18. both neard well between 3 and 3:25. With the N-S atterna WJLD had beautiful signa! With E-1 chtenna, couldn't hear 'em. Then CB-106 1060 kc/s. staggered in from 5:38 to 4:27 a.m. No ID could be made out but Spanish noted. Static was S-5 here-They received punk report with times of some announcements and musical selections. RAI Italy 1034 heard on 10th and 11th from CSB92 from 5:15 to 5:30 p.m. s/off. $orall ext{FMO}$ 830 on DX on 1/11 from 4:40 to 5 a.m. (they signed on ten minutes late). That night between 10:27 and 12:05 a.m. logged that myster AFRS baby on 1582 announcing as WIMD. Sent report to Nouscover, French Morocco - hope it's the one. Had U.S. pop music and gave call but no location and heard in good old American Maglish. 1/ 14 WTRN 1580 logged fairly easily through local WPGC 3:46-4:32 pm. Many veries, bea KWIL, mine most distant report, CE said only 20 radiated to Maryland.

Frank Wheeler - Box 176 - R.D. 5 - Erie, Pennsylvania
About time I got another report in. I had good luck with WFKN WPET WLAS, but no luck with KFIR KOFE or KAVE, too much interference. WLFH R-9, KUTI R-5, WIVG and WNCC R-9. Too much interference for WHAR and KWIL. WCRE R-9, WJLD R-7 through very bad interference. WNOG KLEM came in R-9. I received bulletin two days late (11 days from the bulletin I had received before) to try for KCYL and KOFE. think that I had CB-106 but I wasn't sure. I had a Spanish speaking station on their frequency but KNX was interference - too much to make sure. I couldn't get enough for a report or a sure ID. Too much interference for WFMO. Other new catches were WWYO 3:07-3:16 through bad interference Dec. 17, on for MNRC. WIMS 3:18-3:23 a.m. on for NNRC Dec. 18, R-9. WITA 3:00-3:15 a.m., MD program. Jan. 3, my first station in 1955. That's my DXing since my last report.

Roy H. Millar - Route 2 - Box 6704 - Issaquah, Washington DXing by date: Jan. 7 - WHIS-1440 Bluefield, W. Va. logged from 5 a.m. s/on until 5:30 a.m. with QRM from unID station; verie from KOME-1300, TulmaQ Okla. Jan. 8-Monitored mystery Asiatic on 1460 prior to WMBR, Jacksonville, Fla. s/on at 5 a.m., no idea as to ID. Jan. 9 - Monitored another mystery Asian, this time on 1390 and ID as JOKD in Kitami, Japan, heard rrom 4:57-6:15 a.m. with QRM all the way. Bearing in mind that this was a Sunday morning, I wonder who was QRMing? Jan. 10-On 1060 looking for CB-106-dx. Nothing heard except some tone which seemed to be of a "pattern" nature, so wonder if it might have been CB-106? Jan. 11- No luck n WFMO-360-DX. A weak, unreadable signal believed KIKI. Veries from VRH-930, Suva, Fiji, and WKOW-1070 Madison, Wisc. from an evening report under KNX. Jan. 22- KWIN-1400 Ashland, Ore. logged on second Wednesday f/c as in new list; KRE-1400 Berkeley, Cal, s/off at 4, then KBMI Henderson, Nev. on top with their all-night show. Varie from CBA-1070 Sackville, N.B. (another evening log under KNX). Jan. 33- WXYZ-1270 Detroit, Mich. testing and ID at 4:49 a.m. Verie from KNWS-dx, program of Nov. 8, WGBA-1270 Columbus, Ga., ID at 5:07 a.m., apparently already on RS in connection with above VRH QSL card, we now have somewhat of a mystery on hand. I heard a weather report at 4:24 a.m. Nov. 29 on 930 that was Not from VRH. phought purhaps WREB-dx, but you in East say they didn't show, so who did I hear beside VRH and JOCK on 930 before WWNH s/on?: (KTKN? -Ed.) Also, a TTer on 930 that morning from 3:26-3:30 a.m. that no one seems to have ID although I believe hey did ID at 3:30 a.m.

Stan Morss - R.R. 3 - Bradford, Massachusetts /7 - WOKY all night again. WOCH says one more night of ETs, the RS. CKVL still n 980 but plugging a switch to 850. 1/8- WILO 1570 Frankfort, Ind. givin XERF going over, 3:20 a.m. XEH Monterrey, N.L. 1420 testing with announcements and Also WCBL and KSML, 1/9- WINA 1450 running to about 3 a.m. 1460 MD show, too much BBC to identify. Phone was 24781 and Broadcasting Yearbook doesn't show th number for a 1460 station (most similar, WACO). 1/10- KIEM at 3:00 on DX test, then at 3:12 SX-42 conked out and a mad rush toget the old S-20-R hooked up. Go last eight mimutes of KLEM, then WMLV during and after KLEM. KCYL couldn't make it through on S-20-R, just WTIX and WJXN. WNOG OK at 4. WRON 1400 test at 4:10. Something at 1060 kc/s. not good enough to copy. Verie, WMIL. Sure hope I can get the SX-42 back for KWIM. It took me 22 months to get a car radio fixed this summer. It's TV first, then if any time left they fix radios. 1/11- Verie, WARN. WFMO DK test OK. A little late, 4:37, but better late than mever. 1/13- WMER 1390 testing to 3:25 a.m., 1000 watts. Verie, CJMS and WJMA. WMCW 1600 Harvard III. first ET, 2:30 a.m. QRW from German on 1602. WAMW 2:50, 1580. WWSC 1450 at 3 a.m. Somebody under XERF at 3:40. Couldn't pick 'em out though.

Tom Johnson - 766 Glendora Avenue - Akron 20, Ohio I was listening to 1020 at 7:35 a.m. on 1/16 and heard a Spaniard under KDKA s carrier. He was pretty week and pushed down by KDKA s carrier which was 40 db over S9. KDKA turned on tone at 7:45 and it practically blew the earphones off my head as I had the volume up full. Other new catches are WKTM-1050, VLYC-1050 and WJAZ-1050 on 1/9 between 5:45 and 6 p.m. Heard just enough to ID first two and got enough for report to WJAZ. On 1/12 KTRY-730 Bastrop, La. and WPAK-730 Charleston, S.C. in the mess at 7:30 a.m. plus WKMI-1360 at 7:30. Next day, 1/13 brought WLIL-730 at 5:30 p.m. and WSPA-950 at 5:40. 1/15- CJBQ-900 8:30 p.m. All for now. Best of DX to all.

Len Kruse - 816 Buclid Street - Dubuque, Iowa The past two weeks a total of 14 new stations were added to my DX Log, making an average of one new logging every day during this period. The latest were on 1/6 the new KLAX (1580) Lakewood, Col. on ETs at 4:39 a.m. Then on 1/9 the final five minutes of the RS of Station CBXA (740) Edmonton, Alta. were heard 2-2:05 a.m. when they s/off, some QRM from KCES. Of the par DX Specials slated for Jan. 10, five of them were heard, namely: KLEM (1410) LeMars, Iowa; Wall (1400) Homewood, Ala., WMLV (1440) Millville, N.J., KCYL (1450) Lampasas, Texas, WNOG (1270) Napels, Fla. The one I was unable to hear was CB-106 on their DX, and if heard would mean a new country for me. The DX from WFMO (860) Fairmont, N.C. was heard, although they s/ on ten minutes late. This was on 1/11. The new WCHF (1150) Chippewa Falls, Wis. was heard on their RS on 1/13 at 9:30 a.m., witj KWDM interference. Then on 1/13 Station CKDA (1290) Victoria, B.C. was heard but with difficulty from all-night However, a card of thanks was sent to WTCM in Manneapolis for signing of f nany of us could hear the CKDA DX. Have you sent WTCN a "thank you card?" not, please do so at once. The brand new WMCW (1600) Harvard, Ill. was heard on the second ET on 1/16 at 1:30 a.m. with slight interference. It was a real pleasure to hear Phil Potters's DX from WSIG (790) Mount Jackson, Va. on 1/16, followed at 5:30 a.m. by KYOKI's half-hour DX for the NRC. And the number four station on this date was KPEP (1420) San Angelo, Texas on tiehr third Sunday f/c 6:10 5:30 a.m. with KSTN QRM. The CPC is really doing a terrific job, and from a glass 🕾 the specials not yet listed in the DX Calendar we should all be mighty proud 🕬 Cid Rosenbaum and his staff. Latest veries in came from: WMEN KWIL-dx CHRL WIOK MCMU WSTN KWIZ WELY-dx WNCC. Veries now number 2,576. Oh yes, Peter Bretz's DX from WJLD on 1/10 was swell listening and let's hope he can arrange similar programs from several other stations in the immediate area, like WEZB and WLBS.

Dick Northup - 507 Kimball Reed - Iowa City, Iowa Veries this week from KNWS-dx WAFC WHGR CKCW XEAO WNCC-dx KOVC JIM-dx KLPW WEBY KCSR WBLE and WOHO. The air keeps up with a full tomage of new stations taking to the air. Seems like we can get a new ET most any night now. Monday 1/10 KCSR 1450 kc/s. Chadron, Neb. 2:00-2:25. Verie in, but didn't say if this was their -/c period. CE Frank Allen is most anxious to hear from DXers andI have written mim for special in February for NRC. The WJLD DX also on 1/10 was heard flairly well through the 1400 rubbish and was able to copy plenty for a report. WLLV DX mather weak here but copied easily. WNOG DX Naples, Fla. boomed in, and also on 1/10 was pleased to hear XEDK Guadalahara on 250 kc/s. at 3:50 testing. Couldn't est enough for report as he s/off shortly after I tuned in. The SFMO DX on 1/11 was very strong here. They were about ten minutes latecoming on due to heavy realist the CE said. 1/11 - Also heard WWKO, 1420, Ashland, Ky. s/on at 6:12, WFOB, Fost toria, Ohio s/on at 6 followed by WOHO, 1470, Toledo at 6:30. No sign of KTCB f which was what I was trying for. No DX Wednesday, Thursday or Friday AMs. By it. tentions were good, but slept through. Hi. Saturday 1/15 Caught two new ETs -WCLS on 1580 Columbus, Ga. 1:30-2 to go on offficially on the following Wednesday with RS. Then WMCW, the Milk Center of the World, Harvard, Ill. on 1600 2:30 to 3 ith strong signal. Their first night on the air. More next week. Hope everybody gets KWLM and CBAF.

Pat Reilley - 11 Irvine Place - Jamestown, New York

New veries are VRH KNWS VMIL WNCC WJAK KOGA. 1/10- KLEM WJLD WMLV KCYL WNOG DXes

were copied here for five new ones. My fingers flew around the dial today. 1/10

New Salt Lake City station on 1370 with ET today and sounded like KAFT but not in

"DX NEWS" yet as I can't find it. WFMO copied on DX for two new ones. KFFO, 1240

f/c atop WEDC and like a local here. 1/12- CFPL, 280, test at 3:30 and a lot of

hunters whistling for their dogs over the dial today. 1/13- Ditto on the lost dog

today. Wish these stations would give call now and then, especially the ones on

1380 1290 and 930, who have been on and off for a week now. 1/14- WNER, 1390, ET

at 2:38, ex-1450 kc/s, plus lots of TTers. 1/15- WLOL, 1330, at 2:45. KSCB 1270

f/c for Mansas City at 3:07. Guess WMMB 1240 is our latest all-nighter. CKDA no

heard after WTCN went off at 4 but KNAK spouting in. Sent WTCN a thank you letter

for leaving the air. WBCR, 1260, at 4:13 for ET and new one. 1/16- KFDA, 1440,

MD at 3:17. KOGA 930 ET again. Who bothers KFWB on 980 now since CKVL left this

frequency? KLO 1430 ET 4:06. WBOF and second one on 1600 at 4:13. WSIG DX copied

for a new one, a nice show, Phil, and many thanks.

Grant Batson - Westfield, New York

Move over boys and let me in with my SX-71 set I've had since last Jan. 2, and like quite well. I won t delve intranything back further than Jan. 1. Been on vacation the last ten days with pay and found it profitable in DX line. 12/18- Lille on 1376 for a good report. 12/24- Maraburg on 1802 kc/s. with better than S-C plus signal Q-4; 12/24, Nice on J554 good S-7. 1/1- YSS on 655 kg/s, 7:04-7:30 p.m. 1/1 - YMV on 935 kc/s. 7:54-9 p.m. 1/2 - WMOP Ocala Fig. f/c 5:26-5555 a.m. 1/4-VIRO 123 kc/s. f/c 2:15-2:30 a.m. 1/5- WKRT f/c, 1:13-1:30 a.m. WEBY 1330 kc/s. f/c 1:41-2 a.m. 1/6- WCLS Columbus, Ga. testing 2:09-2:31 a.m. Same AM ECTER 1/c under WCLS Tring, 2:23-2:39 a.m. KREL Night Train 3:33-4 s/off. 1/3- BBC on 908 mc/s. 1:30-2:46 a.m., also hisbon II on 665 ke,s., 2:31-3 a.m. 1/9- WLIK Sunday s/on o S-S:30 a.m. 1/10- KiEM EX 2:00-3:30 well heard here. CB-106 heard here poorly but definitely on 3:41-4:30 a.m. WHLV DX show logged by my 17 year old daughter on old GE set and WMOG Naples Fla. DN also on GE set. Added WKIN 1320 1/11- WFMO DX late in getting on, 4:39 Mc/s. to see if they will QSL this time. 5 a.m., weak signal. WDIA logged while KNX off 5:02-5:30 a.m. Also CKV4 over WOM 7:29-8 p.m. with old square dance music QRMs WOR here nights and early PMs. 1/10-WBGR Jesup Ga. on f/c asking for reports. KJBC Midland, Texas on@guareerly f/c 3-3:15. WBBA Pittsfield, III. @ s/on 3:57-7:30 a.m. for new one. 110 there. Sem day logged WHCU on 870 kc/s. 4-4:30 p.m. 1/14- WPTS Pittston, Pa. 1540 kc/s. 7:01 -7:15 a. . WIRN Tyrone, Pa. 1580 kc/s. 7:32-7:50 a.m. and now heard here days! 7/16- VSIG DX heard fine 4:35-5:30 a.m. with QRM from VP4RD after 5 a.m. KYOK met ORM from Texico as expected but dandy signal 5:30-6 a.m. KPEP TT and f/c on 1420 83/s. 3:15-6:30 a.m. Will list veries next time as space short, but will compliment the Croton DX boys for a dandy job being well done. Service here good since sending in extra \$1,00. Get "DX NEWS" here wonday AMs even at Christmas time. Con't let's hear any more gripes about these fellows. They are 100% on the job. Hear the 1900 mark now.

Sunday 1/16 heard WSIG and that man Phil Potter has the OK by me. KYOK mentioned for 1/23 all Houston stations would air all night the MD. On 1600 kc/s. were WYOM and a ferican at 6:30 a.m. WARU was giving the WX and too much QRM sotoch XEXO (1550) in clear with Gospel Hour till after 7:15. 1/14- WMLV (1440) r/c-TT to be used withtheir 1/10 DX. WEIR (1430) TT/s; KWO (1370) r/c-TT. 1/11-/Had CKOC (150) RS, off 1:10 a.m. to return at 5:45; WKSB (930) r/c+TT; WGGA (550) and WIRJ (940) r/c; WFMO. 1/10- WNOG KLEM and WMLV and on 930 (a little past) was "Ici dadio Magnreb Tangiers" nice with YL and man with French storing 2:26-2:59 c.m. Ox. (400 was VETM Elmira, N.Y. Reaceived the NYRC bulletin but theu've no special DX regrams listed. They mention State of Immina switching to EST from CST with possibly only Gary remaining on CST. For Mrs. Brauner's list of Convention, Ir. and Mrs. Erick Johnson and their daughter Ann also were at Williamsville shindig. That's all for you bugs from this bug.

Ken Laylath - Men's Residence - St. Lawrence University - Canton, New York Right now I'm in the midst of those masty final exams following the first semester. This has kept DXing to a minimum, mostly for the DXes. The results last Honday were disappointing to say the very least. Reception, to begin with, was horrible here. The whole band was half dead. KLEM hade it with much 1400 slop, and a miserable signal. No decent information could be taken. WJLD did not get through the 140 mess with a peep, even when everything else had news at 4. WMLV was fairly good, not needed. Everything on 1450 was mixed and weak. There was no charce of picking KCYL out of it. Those times make me wish for the long wire at home. Naturally there was no sign of CE-106. KOFE didn't get in, but was not needed. I couldn't even make out anything for WNOG on 12% 1/11 brought WFMO with a good signal, but it was not needed. ...1/15- WTCN didn't seem to be on 1280 but no CKDA made it either. There may have been something very weak on the frequency, but nothing rendable. 1/16 had WSIG loud and clear, an interesting show with Phil Potter WSIG had been previously verified at this location. KYOK was just barely brought through on my tiny Lafayette five tube table model which is well over ten years old This was used because the Trans-Oceanic doesn't get the top couple of frequencyes. For the Lafayette, KYOJ was quite a catch. To tell the truth I really aidn't expect to hear it. Under the old call KATL it was never well heard even on a much more powerful radio. That's enough for this week, I guess, so 73s to all.

Very little DXing was done this week. Did DX on the tenth when all those swell DXes were on for good old NRC. All heard here with a fine signal but KOFE and of course no CB-106. There was a Spanish speaking station very close to 1060 kc/s. I'd say it was between KNX-1070 and KXOC-1060, so maybe they were on a split. I could not understand the Spanish. Well, here is what I heard on 1/10 - All the DXes but the two mentioned above. An Englishman on 880, possibly 881, Welsh Home Service, BBC but not enough to report so will try again on a Monday when not so many DXes. It was quite a task to log five DXes in la hours, hi, but hope all of you did just that. Thanks to the CPC. They are doing a fine jcb. 1/11- TEMO DX was heard but almost gave it up as static was terrific and the gentleman signed on ten minutes late. 1/12- KOLS-1570 heard s/off at 6:30 p.m. 1/14- WWIT 970 believe it or not was in the clear here with news and s/off at 5:50 p.m. That is it this week. Will be trying for CKDA DX in the AM. I took the liberty to write to WTCN-1280 asking if they would pause for a half hour to let the Eastern DXers log CKDA but the man refused, so hope you all get through anyway. (They did stand by, Ev-Ed.) Ten veries this week - WKSB-dx WVAM 1430, KIMN 950, CKRC 630, KNOX 1310, KOGA 030, KGNB 1420, WNCC-dx WJAK 1460 and WJMA-dx

Sid Rosenbaum - 806 Market Street - Wheeling, West Virginia Worked Monday, Jan. 10 and missed all DX Specials for that AM. Jan. 11- KFIO 1240 strong on f/c 2:30-2:45. Jan. 12- A station in Georgia on 1340 with f/c 1:45-2?? WIGM (1450) (WIBM??) announced letters from Chicago, Ponca City and Iowa and invited more mail. WBEJ (1240) f/c 2-2:30. WHBU (1240) f/c-M 2-2:20 with 7:50 s/oz Jan. 13 - WNXT (1260) f/c 2-2:15. KVWO (1370) strong on f/c 2:15-2:30. WNRC (1460) ET-M said "Do not write." WMCW (1600) Harvard, Ill. initial ET all AM, "The Milk Capital of the World." CKDA (1280) DX questionable here. Thanks to Ev Johnwon for WTCN stand-by. Card of thanks mailed to WTCN. (WE all swe them thanks). WCTR (?) 1260 Christiansburg, Va. ET 4:00-4:25. Jan. 16- WCLS (1580) still on ET. KPIG f/c 2:1-2:30. KFDA (1440) MD show all AM. WSIG (790) DX with Phil Potter's wonderful DX show came in like a semi-local. KYOK (1590) DX in like a semi-local Veries: W.BS (duplicate) WSKB KBOY and WOTW. Best of DX to all the gang.

Bernie Duffy - 77 Livermore Avenue - Staten Island 2, New York Latest veries are printed cards from KNOX KREL and two from WHGR, as well as lethers from CJVI KALM WJMA WISO and WMOH. The latter is a sad-looking mimeographed one on plain paper. Speaking of station mail, KCLV's CE wrote me to advise they' 1.3 be on all night Feb. 6 with a Polio Fund appeal, so let's hope WEDC won't prevent their being heard. While on the subject of obliging stations, I feel we should all send Wan a thank-you card for standing by for CFDA's shheduled DX. I faile to get that Canadian, but instead landed PRG-3, Rio. Recent additions to my head log are: 1/11- WFMO 860 quite loud as they s/on ten minutes late at 4:40. 1/12-WSKI 1240 heard 1:30-1:40 f/c for the first time since their memorable and very successful NRC DX of four years ago. They said it's a regular second Wednesday test. 1/13- WNXT 1260 logged with their second Thursday f/c-TT at 2 despite WNDF and WWDC. KJBC 1150 was quite strong as they too f/ced at 3:10-3:35. 1/15, MICO 1600 Harvard, Ill, real strong as they transmitted their first ET at 3 on. WTCN s/off for CFDA at 4. 1/16, KWDM 1150 fairly strong with its regular TT and ID f/ at 1:35. WCLS 1580 "held their own" against XEDM at 1:55. KFDA 1440 on all nigh with Polio Fund appeal. WSIG's DX not very strong, and fady, 5-5:30. KYOK's DX easily blanked XEMC at 5:30 on. 1/17, a weak tester on 1260 at 3:45 seemed to be KFTM, Fort Morgan, Col. CBAF 1300 DX fairly loud and steady at 4-5.

Joè Enz - 288 Central Avenue - Brooklyn 21, New York Venies really slow coming in here with just a few: WEVA WION WNCC WTIK the latest. 1/15 heard three new ones here, WMCW 1600 Harvard, Ill. on first ET to go 24 hours soon, WWON 1240 with voice test at 2:50. WHAV on top of 1490 24 hours. Saw in the last issue where you are logging around 1090 and 1110. Tried this Saturday. 1090 had WBAL on and unknown s/off 4:30 p.m. Don't think this was CFJB though. (WEMS, Joe-Ed.) Sunday tried again, WTIC on and behind logged WILY 3:45-4. If WBA was on did not hear a peep. Then tuned 1110. First one heard was WNAR with WBT bardly audible. South stations weak here, then behind a weak station with choir a church program from Canadian Church was TEER. Sunday AM no DX. Alarm went off and ... turned it off and fell asleep. Guess I am getting old. Up at 4:20 and back to bed around II p.m. seems to get me down, Find CKSM over WGAR every frenchscare special sold as the control of the control o

Report on DX Shows:

_ERIC BRISTOW, ILL - KYOK(1590) Heard well. CKDA(1280) speiled by KNAK.

KARL RAYMOND, CAL - Doubt if WFMO(860) heard here with KIKI on. Heard some tunes but no IDs. WNOG(1270) and KLEM(1410) in OK.

GENE CAMERON, WASH - CKDA (1280) Heard, but only equal to KNAK here. WSIG(790) Phil made it, all readable. KYOK(1590) strong in Spokane. KWLM(1340) Even thru KAPA in first \(\frac{1}{4} \) hr. and good atop all second \(\frac{1}{4} \) hr. CBAF(1300) KYNO CE

told me they would go off and they didn't. Tentative sent-very doubtful.

HERE- CKDA(1280) not heard. WSIG(790) and KYOK(1590) both heard nicely. KWLM(1340) hasked up a bit, but still in in good shape. CBAF(1300) with plenty of KYNO QRM in OK. N. KNBX(1050) thanks to XEG et al.

Here we are again, with another big issue. We have quite a string now, hi. Just a reminder to all those having prospective members. Any member wishing a sample copy of the "DX News" sent to a prospective DXer who might like to join, please send the request direct to th. National Radio Club. P.O. Box 42; Harmon-on-Hudson, NY. Do not send them to Pop or Hal. This avoids their having to re-send the names to us. Also, we hope everyone has this straight, too. All Musings reports go to Lefty in Brooklyn; and all money for NRC membership goes to Hal. All money for first class comes here. Peter Bretz tells us that his "DX Newses" arrive regularly on Mon. and Hene Cameron says his either come on Mon. or Tues. out in Wash.

WJLD so far, has received over 35 reports, including 4 from those terrific guys down in New Zealand. Can't hear 'em in their own country, but can hear 'em 10,000 miles away, hi.

JI ISLANDS - VEC has received a beautiful QSL card from VRH signed by DXers friend a Mr. Collins, fermerly from 1XZ, who is now at VRH. RHM also has his VRH card signed by K. C. Collins, like the one received by VEC. HII has his card back too.

HAWAII-*-KGU (740) logged with fair to poor signals after KCDS sign-off on 1/4. Heard as late as 0410 when completely lost. (HH)

LIYSTERY STATIONS

From III who would appreciate any information on Spanish stations on 575 Kes, and 965 Kes, heard evenings when Latins good, He also comments about my 1475 Kc. station, fooling that it is a Colombian Would like anyone who can understand Spanish to see who it is.

From SJ who wants to know what goes on 1187 Kes. On 1/2 two were heard at 0129 when one went off at 0130, presumably Budapest. Sthor stayed on quite weak. On 1 3 French was heard at 0139 and at Cll5 Arabic was heard, then a chase to French at 0134 till 0148 when they signed off. Arabic also heard at 1743 on 1/5 and Arabic at Ollo

1/8. Doubts if it could be Endapost and wonders if maybe Pan American Radio, Tangier, may be here instead of 1178, since only Horby as being heard there. (Maybe either Ken Drownless or Roy Patrick can Lord this one out, how about it, fellows?) Also from SJ two TA's on 2034 at 1710 on 1/5, one Paredo. (Other was Italian RAI-FV) German language on 962 Hes. in CET, not Teyerischer or NWDR. A weak one on 157 at 0121 on 1/5. Also something below 540 unknown language, may ave been Aruba or Budapest, went offin middle of music at 1810 on 75. And finally a weak one on 665 on 1/5. (Lisbon ???) .. says that Pat Reilley's station on 900 Kes. was 4YC, Dunodin,

es he has heard them at that hour with classical music.

REM asks if OBlo6 used some tone in a "pattern" during their X? All he heard on 1060 was a tone. (Roy, afraid this was KYW, as 3106 didn't use any tone to our newloage-FV) REM also has taped . mystery on 1460 Kes. on 1/8 and found nothing to help identify. Ind woird music, flutes, chanting, etc. Best 0430-0445, probably in sia. Who??? VRU reported that the weather remert he logged on 930 at 0424 on 11/29 wasn't VRU, but rest of log OK. Anyone know who it might have been? 3UZ?????

Had a nice one last week, didn't we? Looks as if this week will
be just as good with foreign DX really going full blast and a lot of
but listening to it. So with no further delay let's look at Borth
bearica where the big news is still Alaska with new and interesting
Latin Americans turning up each week.

BORTH AMMRICA

Leeward Islands---Amateur radio VPERM, Ken Maddalieu, at Bassecerre, St. Kitts, new has a 2 kw. commercial transmitter with which he
copes shortly to start commercial broadcasting. He may be forced to
corate in the 90 meter tropical band on shortwave, but hopes to get
exmission to use BCB. (SM who says he will keep us advised.)

Windward Islands---The Colonial Government is operating a noncommercial BBC type station a few hours daily on shortwave now. BCB menation is planned, but when is not known. Location is at St.

oorge's, Grenada. (SM)
