### TEN YEARS AGO in DX NEWS - General Alan Vallejo, California

Not much to report this week, as working nights at sub-station. My wife DXed for me for KCLE and KGRI Specials, and heard them both - her first attempt at DXing! Recent series in from WIKY KLOU KCLE KWGB KRNO KFJC KGON KOPP WVOK WMPS KWTO KSIW KIXL KONA. After Nov. 10, no more night work until Dec. 1, so will have three weeks of DXing. Hate to miss the new stations, but it can't be helped. KGYW, Vallejo, on 1190, expected to test in the next few weeks.

1340 Lefty Cooper - 438 East 21 Street - Brooklyn 26, New York

Verie letters received here came from WSKP-1450, WYOU-1270, and WSUX-1290. Where are all the veries, anyway? 11/4, p.m., finally got around to sending a report to WPOP-1410, while looking for new WHTG at twilight time. Reception was too good this afternoon, with about six fighting it out there, and I logged only WPOP, hi. 11/6- WCRY-900 with Dixieland and Jazz on ET 2:35-2:37 and later, with few announcements, and a healthy signal for 250 watts. ERs heard on WVAM-1430 and WTTM-920. 11/9, p.m. - WHTG-1410, rules the roost here on 1410 in mid-day and listened three hours and heard only four commercials, and all pop tunes. WPOP can't be heard during the day now, so no Red Sox baseball games here this next summer, I reckon. 11/11 - WAIL-dx-1460 not too strong, but clear until WFVG opened up at 5:15. 11/11- Noted new AN on 1450, WQSN. Testers not needed were KBIG-740 at 3:12, and WEZB-1320 at 3:28. An un-ID tester on 1150 at 3:43. Someone on 980 till 4 a.m. Then finally got some new ones, four in all. WMLS-1290 on MNRC DX good until 4:15 s/on of WICE. I started there rather than with WHYE-910 figuring WICE would come on at 4 as they did last Monday. WHYE-910, fine here and I'll bet they surprised a lot of you with the new call, eh? Apparently DX NEWS and the NRC pamphlet never reached them for they referred to us as radio hams with our own transmitters several times and never mentioned the NRC while I listened! TT on 1080 4:10-4:19, no ID. Noted s/on at 4:30: WWW-1520 and WISA-1450. Tuned to 1390 to try for WHPB's first program and got it nicely and fell into luck with WAVP-1390, new Avon Park, Fla. station also on at 5 and logged the two simultaneously, which is a rarity when you have 2,783 verifications, hi. WILL-1400, new Williantic, Cohn. station, definitely signs on at 5:29 a.m., but is amidst about 15 others and no report possible - yet. I had three fine phone conversations, with Anthony Lagatutta, Bernie Duffy, and Bill Stone who called all the way from Toronto to ask if I had any info on a WSLW he heard testing on 1360 11/11 and seeming to give city as Monticello. Nothing here - anyone else know about this one? 11/12, OC on 1360, but no IDs heard here, so maybe it was and maybe it wasn't this WSLW. That's it for now. 73 all, nice issue!

LET US NOT FORGET TO SUPPORT "DX DOWN THE DIAL" BY SENDING TO STAN STANBURY THOSE IMPORTANT NEW f/cs, THOSE EARLY SIGN-ONS, OR LATE SIGN-OFFS/ OR OTHER IMPORTANT DATA WHICH WILL HELP SOMEONE ELSE LOG A STATION. AND, DON'T FORGET "MUSINGS" CAN BE THIS BIG EVERY WEEK IF ALL OF YOU REPORT EACH WEEK AND EVEN BIGGER IF MORE OF YOU JOIN IN!

Anthony Lagatutta - 371 Eighth Avenue - New York, New York

DX is good now, but it could be much better. There's a song "A New Star in the Heavens". Well, there's a new station on the BCB, hi! WHTG (1410), Eatontown, N.J. is now on the air, using the slogan, "Jersey Shore's most powerful radio station" and 500 watts. They put in a good signal in this poor reception area. 11/1- WCOY (1580) Columbia, Pa. s/off at 4:45 p.m. 11/4- WWBC was heard S 9 plus at times. Where was WEMP? WRAM, weak but enough for a report. KNLR and KBOK DXes were not heard due to high noise level. WHSC (1450) Hartsville, S.C. 2:15 a.m. on r/c. WBEN (930) Buffalo, N.Y. local at 5:02 a.m. and after. WBRB (1430) Mount Clemens, Mich. strong signal at 5:30 a.m. S/on is 5:00 a.m. and verie is by card. WFHG (980) Bristol, Va. 5:30 a.m. strong local ads for Tennessee. Please help - what North Carolina station on 630, owned by Federal Broadcasting Co. s/on at 5 a.m.? Did not get up for WAIL DX. Just didn't feel like it. I will not miss the WHYE (910) Roanoke, DX on 11/11 though. Either my radios are off the beam (and I don't think so) or DX this season is extravagantly poor. Every night all I hear is static and cross-modulation. Can anyone send me a diagram of an antenna tuner or R.F. amplifier (pre-selector) for BCB use? It will be used in conjunction with a Hallicrafters S-530A set and long wire antenna. I will be glad to pay the postage on it, etc. Thanks. New York, where I live, is a horrible DX location. I am sure that some day I will have a really good location. It's merely a matter of time. 73 for now.

James E. Cpitchett - 1119 West Arbor Drive - San Diego 3, California

DX NEWS arrived tonight, 11/6, so time for another short report. Since 10/22 reception reports have gone to 1250 KVLV for 8 a.m. s/on, 950 KAHJ for ET, 1320 KOLT for 7:30 s/on, 10/21, 1410 KXIT for RS, 7:45 to 7:55, 10/21; 1050 KLMO for RS, 8:15 10/21; 850 WYDE AN 10/26; 690 KHEY 4:50 to 5 Sunday 10/27 and 1450 KURA, f/c 4:45 to 5, Monday 11/4. CX of frequencies report has gone to Len Kruse, and Club renewal and airmail postage to Hal Wagner. Veries are in from 790 KFYO, 1250 KVLV, 1390 KLOQ and 1410 KXIT. I sent an airmail post card to Stanbury 11/4; wonder when he will get it and publish it? Because of ANs and a Jap, and poor CX in receiving signals from the Northeast, none of the DX Special programs was heard here. Did get 1300 KEYJ, Nueva Rositas, Coah. with dialogue at all times heard, 3 to 5; and 1450 KURA, Moab, Utah on f/c. KENO will wreck 1460 WAIL here Sunday, 11/10. Might get 910 WRKE and 1290 WJLS on 11/11, but pessimistic. KSFO will knock out WMIK here. If XEBG isn't on, 11/17, might hear KRES; but they usually are on to 5. Enough pessimism; I realize most of the NRC members are east of the Mississippi, so the DX Specials are scheduled for the , just thankful for those I can hear at all. Welcome to Southern California, John H. Any members wintering or visiting out here are invited to stop by. Very glad to read the NRC Board activities. Will be interested in seeing the addition on the back of Report Forms, explaining the Club and aims. Hope all members co-operate with the Board members we have chosen. Almost forgot; another AN, 860 XEMO, all Spanish. Their subscription-type programming has been reduced to noon to midnight; AMs sponsored, Spanish from midnight to 6, local time. 73 to all.

Buddy Giles - 2844 Guilford Lane - Oklahoma City, 20, Oklahoma

No DX here this summer. The DX Specials have re-awakened the interest. Latest loggings are: KBOK 1310 DX over WRR 3-3:30; WRAM 1330 in clear 3:30-4. WWBC 1250 weakest signal 4:30-5. Also with the DXes same day: KWMT 540 (ex-KBOK) RS 10:45-11:05. WAIL 1460 has been logged, but am awaiting their DX to report. KUDY 1510 and KPIK 1580 have been heard, but not logged yet for verie. Am sending PP cards to following delinquents of last season: KARY-dx KCHJ WMAF-dx WBBN-dx KFJM WFVL and WVMJ. Also to YSDF thanks to Scooter's address. CJDC also sent f/up report with IRC with hope. Only Canadian reported that has not verified here. Hope to DX at least the Specials. Best of DX to all. Hope we have a fine season and many new members.

Bernie Duffy - 77 Livermore Avenue - Staten Island 2, New York

As though to show how wide-spread and helpful DX NEWS is, is that Keith Robinson of New Zealand's tip that XERC "Radio Exito" is the all-Spanish speaking Mexican that had me wonder (790). Another such indication is that I'm pleased to be able to advise Clarence Freeman of California that the Eastern station that he heard behind an Alaskan on 1270 was WKYR. Speaking of such, I'm hopeful some fellow DXer will be able to ID the foreign speaking all hymns station that I heard weakly on 545 kc/s at 5:00-5:20 a.m. 11/7. Result of my latest DXing is the hearing of the following DXes: WAIL WJLS, WHYE and XERC, the former 11/10, and the others 11/11.

DX TESTS ON THE MORNING OF MONDAY NOVEMBER 25

- K T N C** - FALLS CITY, NEBRASKA This station is only five months old, and as you  
BRUCE GRANT, S.M. undoubtedly noted, operates with just 100 watts of  
power, making them a most desirable logging for all  
of us. They normally sign off at 11 p.m. CST Sunday nights, but instead will  
run right through to 2:30 CST this time, with the last half hour a special DX  
for our club. They go by the slogan, "A Strong Voice for a Strong People," so  
we hope that will prove the case and many of us will make this fine catch.  
1230 is not completely clear, but it is as clear as it ever gets in these days  
of all-night radio. We hope you all pick up KTNC! - Len Kruse
- K U E N** - WENATCHEE, WASHINGTON Last season, if you'll recall, KUEN put on a DX  
BILL MOELLER, P.D. Test, but unfortunately, then ran into an all-night  
special show from KCOL in Colorado and thus they  
were not heard very far eastward, so here is a second chance for us. There  
will be information about Wenatchee and KUEN as well as music. KUEN is known  
as the "Queen" Broadcasting Company, hence the call letters. Mr. Moeller  
asks a favor of us all. He is very busy at KUEN, and he'd appreciate it if  
everyone would enclose a prepared verie card for him to sign, or at least a  
return envelope, self-addressed and stamped. OK? - Franic H. Nittler
- K O K O** - Warrensburg, Missouri Even though KOKO has been on the air since December  
GENE TIPTON, Stu. Mgr. of 1953, few DXers have heard this station, as they  
do not have any frequency check period in the wee  
hours. Kansas City can copy them during their regular broadcast day. Steve  
Williams will emcee this show for us, with Chuck Cunningham, Chief Engineer,  
at the controls. Len Kruse visited this station en route from the Convention  
and laid the ground-work. Interference is expected to emanate from WTIK in  
New Orleans, and WQSN in Charleston, S.C. but let's all tune in! -Len Kruse
- W T L G** - Bowling Green, Ohio Last June, WWBG changed call letters to the new  
ROY L. GALLAGHER, CE set, WTLG, and this will be our first opportunity  
of logging WTLG. They do not have an early morn-  
ing frequency check and of course are daytime, so tuning them in is difficult  
so this test will be the ideal chance. They now are located in the Waldorf  
Hotel in Toledo, 23 miles from the transmitter. The calls mean, "We're To-  
ledo's Little Giant." Correct address for DX reports is to Mr. Gallagher at  
P.O. Box 215, Bowling Green, Ohio. They should find 730 completely clear and  
their directional 250 watts should get a perfect testing. - Len Kruse
- W E H H** - Elmira Heights, N. Y. Here's another station greatly needed in the DX  
FRANK P. SALA, G.M. Circuit. They will use not only recorded music,  
but will intersperse some cycle tone during the  
course of the program. The full address is, Box 2097, Elmira Heights, N.Y.  
WEHH has been on about a year or two, and have not been heard very often dur-  
ing the testing hours. WAKR is expected to cause interference, but we feel  
that WEHH's non-directional beam will reach most of us. They also have a  
studio in the town with the odd name of Horseheads, N.Y. We thank Mr. Sala  
and hope that all will send in a reception report. - Marv Robbins

## ON THE STATION'S STATIONERY

WHYE - 910, ROANOKE VA.

To Ernest R. Cooper. "Dear Ernest;

Nov. 6, 1957

"This is to let you know that WRKE has under new management changed the call letters  
to WHYE. However we will run the test program as scheduled, Nov. 11th at 4:00 a.m."

-Sincerely, (signed) C.R.Mills Jr., C.E.

Re: KKOG

We have just seen a note at the bottom of a note from Len Kruse with the stories of the  
KTNC and KOKO DXes that Station KKOG, 730, Ogden, Utah, was to DX for NRC November 25,  
3:30-4:00 a.m. We do not appear to have received this info from the one who arranged  
the program, and we are sorry this notice did not get into print in time for the test.

Hank Ward - 404 North 14th - Ponca City, Oklahoma

In reading the 10/19 issue of DX NEWS, I was very much interested in Don Reynolds' discussion of an NRC DXers' "Who's Who" type of book as suggested by Hank Wilkinson. At the 1956 Harrisburg Convention I mentioned such a book to a couple of the other NRCers there, and while we all felt it would make an interesting and worthwhile Club venture, it was felt the members wouldn't cooperate by supplying photos and write-ups about themselves. Personally, it is possible that many would participate, but unless we could get near 100% participation, it would be too costly a thing. But, since Don has mentioned it, I would like to add my "Amen" to it and wonder how many others would like such a book also? Why not write Don a card and give him your sentiments on it? If the majority would support it, perhaps it could be worked up for presentation at the 1958 Convention in Findlay, Ohio - a nice souvenir of the Convention, the close of our 25th Silver Anniversary Year, and a lasting memento of NRC fellowship! To DX, well, the CPC is off to a flying start in the morning. I need all four of the 11/4 shows here! Hi. Added 11/3 was WMSJ 1480 Sylva, N.C. real toughie through AN KANS in Wichita. Also heard on tests but not needed were WSLM 1220 Salem, Ind. testing new kilowatt transmitter and KWVO 1370 Cheyenne, Wyoming. Hope the rain moving northward through Oklahoma this evening doesn't mar hearing the four Specials. Has anyone had a verie from WBRD 1420, Bradenton, Fla.? Remember, it's not too early to be planning for Findlay in 1958! This can be the Biggest NRC Convention yet, if we all plan NOW to attend. And, it is of especial interest to note the increasing number of family groups attending these get-togethers. I understand Marie Tewell will inaugurate next year special attractions for the wives and kiddies. It is good to see how these Conventions are growing and we three in Ponca City, Ken, Joe and myself were pleased to learn that all had such a wonderful time! Now that the season is getting under way for DXing in earnest, I hope all have a most successful season, and don't forget how fast the season goes by, then summer, and before you know it - Convention Time! That's why I urge plan NOW to include Findlay for the 1958 Convention in your plans for next year! 73s.

Stan Morss - R. R. 3 - Bradford, Massachusetts

11/1- Spanish dialogue on 1240 3:07 a.m.? CKDM at 2:17 AN show, then WNAC put on their special tone which covers 600-780. WCPH f/c 1220 at 2:24. CKOM 1420 s/off 3:02. WWWB 1360 testing, under strong carrier at 3:13. TT 1280 at 3:26. 11/2- WCAE 1250 TT 2:36. WCNG 510 ET 2:46, Canonsburg, Pa. WACO 1460 AN show, maybe not regular. WICE 1290 now s/ln 4 a.m. 11/4- WDEW 1570 ET 2:49. KTYL topping 1310 to 3:02 s/off, then KBOK over WCAM most of time, very strong, but music lost me. Not my style. WRAM 1330 3:31 easy under CMCB and over another Spanish speaker. WINS off all AM this morning. CMBQ in clear. KNUZ 1200 now AN Mondays too, 4 a.m. break, no sign of KNLR - KGMS in clear throughout half hour. WBIR s/on RS 4:30 on 1240. WWBC 1250 not needed, easy under WEMP. WION 1400 at 4:45. WIVV RS 1370 4:48. WEZY and WBLU fighting it out 5:01 a.m. s/on for two new ones. WYZE not on early this AM. Lefty's DX from WRKE shot as I copied WHYE at 5:18 from Roanoke on 910, and I needed WRKE too. WRNL 910 s/on 5:28 to cover WHYE. WUIT 970 s/on 5:30. WNBC 1340 and WTOR 1490 s/on 5:45. An unhappy experience this PM - had car radio on while taking our workers home and there was WCOY signing off 4:45 p.m. Didn't know they were on. 1580, Columbia, Pa. A nice letter verie from WSKP. 11/5- WEAM 1390 now AN for North East Airlines. 11/6- WSNJ 1240 ER at 3:08. WCRY 900 Macon, Ga. ET 3:46 a.m. I am wondering if one of the "Old Timers" could be persuaded to write a history of the NRC? Being a comparative newcomer (August 1941) I would be interested in seeing what was happening the years before I was a member.

Frank S. Johnson - 105 Pleasant Street - Concord, New Hampshire

Have been doing a little DXing lately, mostly on Sunday and Monday mornings. Veries are from KEG-1050 picture QSL card, WKWF-1600 QSL card, and WIVI-1230 (heard briefly at 5:30 s/on) letter verie together with nice picture card of station. Looks mighty nice beside WIVV verie, from last year's DX. Does WIVI count as a foreign station? And would it also count as a new country heard? If so, it makes seven countries verified! Reports out to WSDB-1430 on ET heard faintly under WIRE. I have a fairly good log on XEMC-1590, heard on 10/21 in the clear. I would appreciate the SW call given. Is it XEFC or XESC? And the location? Poor health, no aerial, AN stations and electrical noises all hamper my DXing, but I am still plugging for nice picture QSL cards and letterheads. Most wanted is KMUL-1380 and KGOL-1250. Do they have r/cs? The DX NEWS bulletins are really enjoyed.

Pat Reilley - 226 Crossman Street - Jamestown, New York

Veries back are WINE WEAG WSDB XEMR. Heard 21 new ones past month, with only seven new veries back so far. 10/28- WSDB, 1430, ET. KRAK, 1140, good at 3:29, off at 4:03. WINI, 1420, test at 4:05. 10/29- KOGT, 1600, atop WWRL at 2:25. TT atop KFI on 640, 2:46 to 2:50 and off, no voice used. KAKC, 970, atop WWSW at 3:16. TT atop WING, 1410 after 3:42, but no voice heard. 10/30- Unknown with music on 830, 2:17 to 2:55 but never gave call. KFIV, 1360, atop mess here at 2:56. WEPG, 910, 3:15, test, new call for me. 10/31- WSIX, 980, TT at 2:32. KVOD, 630, like a house afire at 3:55. Got tired of chasing Sputnik tones today. That XEMR was first Mexican verified since June 1955, first one to answer reports. 11/1- WAMY, 1580, f/c at 2:25. CJVI, 900, good at 2:45. KARM, 1430, off at 4:03. Unknown on 1280 with mess, 3:21-3:30, sounded like test from WHEP. 11/2- WGHN, 1370, f/c, 2:45. XEGE behind XERF at 3:00. WCAE, 1250, TT at 3:31. Unknown on f/c on 1260 with WVDA at 3:45 s/on, weak TT on 1580 after 4:00 and no voice yet at 4:18 when I went to bed. 11/3- KOBV, 1550, swell here at 2:41. KHEY, 690, and their weekly 690 Jamboree at 3:01 - very weak Spanish speaker on 730 at 3:10 on. WSLM, 1220, ET, new 1,000 watt transmitter at 3:45.

Charles P. Atherton - East Slough Road - Harvard, Massachusetts

Have been remiss in reporting, but have hardly turned the radio on due to being so fatigued due to the continuing downtrend in the stock market that I come home and fall into bed. Have listened a couple of Sunday mornings and did get up this Monday, 11/4, for the four Sp. specials. Have heard as follows: WNEP-1470 for second report on RS; heard on Sept. 6. Oct. 2- WLEA-1480; WPOW-1330, both on RS. Oct. 6- WMMS-730 on early s/on, as well as WILD-1090 on RS for change of call. WWKY-1380 also heard but no report, due to other signers. Oct. 7- WCBG-1590 heard on RS, no report. Oct. 20- WYZE-1480 on early morning RS. Oct. 26- WJWG-1050 through WMGM for report. Oct. 27- WIAM-900 for report on early s/on. Today, Nov. 4, got up for the four specials and was successful in logging WRAM-1330 with good signal and WWBC-1250 overriding WHEP, both good reports. No soap on KBOX due to WCAM, and nothing showed on KNLR, who was not on. While tuning for him, caught a weak signal at first but which increased so that good report was sent to KGMS. Glad to get him, as Californians seem to be rare birds here these days. KENO-1460 heard with good signal, not needed, but definitely is not silent on Mondays if anyone needs him. KWYR-1260 heard for a few minutes before spoiled by WGWR at 5:00. WFMO-860 heard signing on at 5:30 through OC of CJBC, not enough for report. All in all, a successful morning. Verie total now 1,714, having received a few PP cards on f/ups to WBLU WTRA WNEP WKBX and CHLO. Regular letter veries from WJWG WPOW WMMS WIDE (on third report, first in 1949, second in 1950, third last week) WYZE and WIAM. Had a struggle getting number 1,700 to end last season and already have added 14 so far this season. Thanks to all who have sent reports to Supremacy Ratings, and please, will some of you members who have not sent in a report, send one in now? Let's get the total number of reporters to this section up to 50 by the first of the year. Good DX to all.

Walter I. Goldy - 518 Jackson Avenue - River Forest, Illinois

Some recent loggings at this location, but not many veries in return. Since September the log book shows (#-verified) - # KLIN Lincoln, Neb., KBCL, Bossier City, La., #WISO, Ponce, P.R., # KIKS Sulphur, La., # WCCN Neillsville, Wis., KPEA Pine Bluff, Ark., # WMPS Memphis, Tenn., # WTAL Tallahassee, Fla., # WBHC, Hampton, S.C. # KWYR, Wimer, S.D., # WEAG, Alcoa, Tenn., # WJJC, Commerce, Ga., # WAIL, Baton Rouge, La., # KWAT Watertown, S.D., WCPC Houston, Miss., # XEO Matamoros, Tams., WZOK Jacksonville, Fla., # WHLT Huntington, Ind., WCLS Columbus, Ga., XEGE Mexicalá, B.C., WHLD Niagara Falls, N.Y., WDEW Westfield, Mass., # KGRN Grinnell, Iowa, # WTLS Tallahassee, Ala., WKLC St. Albans, W.Va., WEOA Evansville, Ind., WDSM Superior, Wis., WCLC Jamestown, Tenn., # WYDE Birmingham, Ala., # WFBS Fort Walton Beach, Fla., # WWWB Jasper, Ala., KACT Andrews, Tex., WCMR Elkhart, Ind., KHOB Hobbs, N.M., KPIK Colorado Springs, Col., WSLS Roanoke, Va., WLAQ Rome Ga. and two out of the three needed on the DX Calendar for the 4th, KBOX Malvern, Ark., and WRAM, Moxmouth, Ill. The verified list now reads 2,279. Wonder why WCHB verie at this listening post? Looking forward to next GPC DX skeds.

"Ole Uncle John" John R. Boase - 1426 Marion Way - Santa Ana, California

Just a few short lines to let the world know that "Ole Uncle John" is still around and still kicking, might be feeble but still kicking. No DXing has been done since the DX from KPPC two years ago but the itch is beginning to take a hold again. Took the tubes out of the Hammarlund and had them tested today and am now looking over the antenna department. Will see if I can't raise my 21' vertical up a little higher.

Hank Wilkinson - 6620 Beeman Avenue - North Hollywood, California

Over a month and a half have gone by in our new DX season and my working hours have been changed three times. My latest is from 5:30 p.m. to 2:00 or 3:00 a.m. This only gives me Sunday evening and Monday morning to get in any good DX as I'm also working six days and will be doing so until February 1. By the way, I wonder if the morning of November 4 gave the Mid-West and Eastern DXers as much joy as out here on the West Coast? Ted V. and I heard a lot of foreign stuff. Don R. hasn't been heard from as to this particular morning as he hadn't been feeling too well several days before. KBOK came in here just fine on their DX. The others were covered by other stations in the Western area. I have ordered a new 1958 World Radio Handbook through Gilfer Associates of New York as they are invaluable when it comes to wanting good addresses and leading personalities for your foreign reports. One of the finest veries received so far this season was from HKKN "Radio Metropolitana". I sent my report of October 21 on that day and received my verie on November 1. Only 11 days from time of posting. He lists his frequency as 1260 kc/s. but 1258 is about where he comes in. I believe that he is an AN as I hear him almost every AM. Our WX in Southern California has been a farce since the first week of October. We have had lightning, thunder, hail storms, snow, heavy rains, etc. This, of course, has set back our DXing at this time of the year so I suppose the Eastern DXers will lead Don and me for a while. Well Lefty I'll root for the Dodgers for you, regardless. Pete Taylor says he needs more info on stations he's hearing after the Japanese s/off. I wonder if Pete will ever be satisfied to DX for U.S., Canada and Cuban stations after his "wild" experiences in the Pacific? He's probably the only guy receiving mail regularly on ship, hi. Stop by on the way back, Pete. 73.

William J. Prater - "The Hillbilly DXer" - Grimsley, Tennessee

WCLC 1260, Jamestown, Tenn. now on RS went on the air at 6 a.m., 10/28. I visited with the CE on 11/2. He is James W. Spires, formerly of WIEA, Gainesville, Ga. They do not as yet have a r/c but Mr. Spires said that when things got straightened out he planned to run ETs at least once a month and would inform me of the dates and times so I could inform the Club. He wants DX reports and will answer all of them. DX here includes: 11/1- KMNS 620 f/c-TT 1:00-1:15 a.m., WMSJ 1480 Sylva, N.C. running program tests at 3:20 p.m. daytime. 11/2- WMNF 1280 Richwood, W. Va. ET Midnight to 2:45 a.m. s/off. KFIV 1360 through KXOL QRM, WBHC 1270 RS to 5:50 p.m. s/off. 11/3 added KOBY 1550 at 1:48 through KEBG QRM. WAVP 1390 Avon Park, Fla. ET 2:54-3:35 a.m. and later, KHEY 690 on with RS at 3:13 a.m. Verifications now total 3,186 with new ones in from: WSDB WBLU WKDX and CKCY. I sure like the looks of the DX Calendar, plenty there that I can use here, hi. Keep up the fine work, you CPC boys. Guess that's all for this week so good DX to all.

James E. (Ed) Hill - 88 St. Nicholas Street - Toronto 5, Ontario

A wee bit tardy in getting around to saying that the wife and I had a real swell time at the NRC Convention in Ponca City, what with meeting some more new faces, and the greetings from the old ones (no pun meant). Sure enjoyed ourselves. Special mention I would like to give to Mr. and Mrs. Elbert Tewell of Carey, Okla, who went all out in their efforts to aid our hosts and hostesses. The wife has bought me a new receiver, an RCA job that was made for the Canadian Air Force. Man, what a job! So guess I'll try and get in some real DX this season. So far have only been pecking at the nearby stations, but with the NRC DX Calendar here I will be trying for all of those. I am starting this season with 2,499 veries, so maybe I'll be getting a few lines to the bulletin this season. Best of luck to you, Lefty, for a good DX season.

Carroll Seth - 154 Parkridge - Buffalo 15, New York

Sad story with happy ending - Super-Pro went dead on Friday. Brother stopped in Sunday night. He pulled out rectifier tube and replaced it with an original from my 1937 GE. Set worked fine until an hour before our four DX Specials when she went dead again. No Specials! Phone call later in day to repair shop brought the outrageous suggestion that I check connections. So, there was one little screw loose which when tightened returned reception to normal! Cheers! If I had won the Irish Sweepstakes last week, Harold Wagner's little plan of the last issue would have been unnecessary. I'd be on his porch already with check book in hand. We'd buy out every home that has sprung up out there since my original visit of 1943. Harold has the finest DX location you could ask for although Grant Batson has a little more altitude. It is a shame that these members just haven't the time to DX as they have everything (cont'd on P.8)

(Carroll Seth, con'd from P. 7) else DX-wise that a man could ask. Mystery - 11/5 - Unidentified Latin, 620 kc/s. playing tango, 3:25. Good signal. Signed off while I had my head turned.

Robert R. Perrine - 38 Mason Drive - Manhasset, LI., New York

I saw the request for DX reports so I am glad to send in mine which will be the first as I am a new member. I have about  $\frac{3}{4}$  of my 450 loggings verified. Before I joined the NRC I had heard about ten of your DX programs just by accident. My most DX recently around here is at twilight when I've heard on good signals WDRF WCBG WFGH WBUD WFMJ WEEP WINE WADE WMEL WCAR, all of which I consider good. WADE was on October 25 when they completely took over WCAU while I was listening. WEEP and WINE together push WTIC, my favorite station to listen to in the morning, all over the channel, none of which able to copy as I can't tell the difference between. WCAR I sent in to "DX Down the Dial" because I've been copying them for many days now by tuning out New York WNEW with directional "Zenith Wave Magnet." By the way I employ the use of a Zenith Trans-Oceanic for BCB DXing. At night I haven't been too steady at the dials for the present. Last summer I really did it up right as I was up almost every night of July and August. On several car trips, picked up several good catches never possible here, New York. Able to DX in car as Zenith runs on own battery. One of best catches CKVM under WOR in Northport, N.Y., copied, sent report, no hear from yet. WKXH also took over WNEW there without fooling with Wave Magnet. In recent trip to Philadelphia looked for new WFLN 900 but nothing. I wonder if they will reach N.Y.C. during day hours? I usually have WJWL 900 on RS, very good signal on South Shore of Long Island (Patchogue). I suspect they are 10,000 DA-D or 1,000 D. Will look forward to next issue. Next time, up -to-date news. See you for now. 73. (Welcome to the NRC, Bob, and welcome also to these pages. We'd like to hear from your buddies out there too. Ed)

Henry T. Tyndall Jr - 285 North Street - Burlington, Vermont

Should have knocked out a resume last summer but was too busy playing golf. Note that out Shakesperian descendant, Carroll Seth, also plays golf. His divot digging aspersions got by Lefty, so I'll try my luck. We played 38 different courses this summer and the longest course was in Elmira, N.Y., 6,820 yards and is the longest in the 214 that I have played. Longest hole was the Seventh at Rawdon, Quebec, 702 yards and mighty tough. Had some nice company drop in this summer, although some were "door-yard" calls: Roy Utter (NNRC), Roy Millar and family, Fred Burleigh and family and other relatives and friends not of the DX fraternity. Very nice summer. Perhaps it is not too late to list the DX catches that were all from the wonderful NRC DX Calendar. 4VEC WCBG HJAL KLEN CJET KLFT KAAA WHRT WWXL WNIA KDAN CKLY KLLA KYTE WJOE KDBM KARY WKLM WEST CHWO WMAF WGEB KRMW WLOB WSAC KJIM WKAZ WAMO KMUL WEND CFNS CHEA CKOT WFMW WELD. All are confirmed and a few more were heard and thank-yous sent. That CPC gang were terrific! By the way, Porter Atherton was right - I got a verie from Sputnik, mailed from the satellite and signed by Laika. It seems that she has a very distant (no pun intended) cousin who is one of Porter's toy poodles and he was snooping around in some of her mail and found out about the verie. Nothing is sacred in this club, eh not? Only other thing this summer was the arrival of quite a few oldies from the "below the border" friends. Most were by International Reply Cards and TGUX (1020) was for 1953 and OAX4B (1200) was for 1954. The rest were more recent, like 1955, hi! Five Colombians arrived and now they lead with 43 in South America, with Brazil second with 39. The present total in South America is 148. Must be getting close to 30 lines so will say 73 and may eal of you have a fine DX season.

M/Sgt. John D. Hathaway - USAF Mission to Honduras c/o US Embassy, Tegucigalpa, Honduras

Loggings: WKWF-1600, Key West, Fla; HJFL-1440, Ibague, Colombia. 10/27- KBOR-1300 very weak behind WKWF. KGBC, 1540, if they are still 250 watts they are the lowest powered station heard yet! On 11/3 WWNC (570) was heard at 1:40 a.m. At 1:43 heard KLUB (570) and sent report. At 2:30 heard KMJ (580) sent report, at 10:15 p.m. heard WSUN (620) sent report. On 11/4 WRR (1310) heard while waiting for KBOK-dx, sent report. KDYL (1310) was causing QRM. KBOK-dx heard s/on and then WRR blocked out till 3:10 when KBOK began to dominate frequency. Iy made it rough that they didn't announce titles of each song, sent report. They were QSA 5 S 9 plus 8 DB. when in the clear. Being instrumental instead of vocals one couldn't even pick up the titles from the words. Not so lucky on WRAM-dx. Spanish speaker was dominant here (HJAD). No dice on KMLR, KGMS dominant here. Hear a little music down deep on 1250 but so far can't make WWBC out of it. Line noise seems high this morning. I could hear music but couldn't (con'd P.9)

November 13, 1957

D X N E W S

Page 9

(Jack Hathaway, con'd from P. 8) identify even one song, let alone the station. Sent thank you cards to the last three. 5:25 a.m. heard WABC, 770, too much QRN for a report. At 6:15 a.m. heard WNOX (990), sent report. The latest additions to my collection of verifications were a letter and BP card from QMCY and a letter from KOGT. Best 73 and DX.

Don Reynolds - 630 Figueroa Drive - Altadena, California

Another week has gone by and still very little activity here. A heavy cold and sore throat kept me quite inactive. I was up Sunday AM 10/27 and added a few new ones between 6 and 7 a.m. CFRN (1260), XEL (1260) both were taking turns on top, also KLAQ (1600) and KHRV (910). This brings my heard log to 879 with veries at 241. No new veries this season as yet. Only a few reports out and they are foreign. Hank W. has been going pretty well; but our new boy, Clarence Freeman seems to be the California fireball this season. Watch out, Hank! You've got competition. DX NEWS is still coming very late here. I guess I'll have to have Hal send them airmail. Welcome to the California Clan, John Hoogerheide. I came here seven years ago from Newburgh, N.Y. (32 miles South of Kingston). Drop in if you are ever down Pasadena way. I sure miss the DX Digest from Fred V.V. Sure hope you are feeling better by now, Fred. QMBZ (830) and HJKC (840) are heard like locals here almost nightly during the evening. Japs coming through in the early AMs along with s/ons from Colombia, Venezuela and West Indies. The only trouble is those I hear are already verified. My inactivity makes this report a "shorty" but at least it is a regular report. Let's all send regular reports to keep DX NEWS the biggest and best in the business.

PEC John A. Callarman - US 56262551 - c/o PIO - First Bat Co, 87 Inf., APO 162, NY, NY  
Greetings from Bavaria! Reports out since last time: Kalundborg, Denmark (1031); Vatican Radio (1529); Nyiregyhaza, Hungary (1250), (Budapest Foreign Service); Burghead/Westerglen, Scotland (809) (BBC Scottish Home Service); and Sofia, Bulgaria (827). New veries: Vigna-629 and Beromünster-529, bringing country total up to 13 from Aschaffenburg. Sofia was badly wanted station as, along with Portugal and Finland, those three are really troublesome Continental European countries here. Haven't yet reported to Luxembourg, as they're virtually a local and I can nab them any time. (So they burn down, hi!) Thought I had a TA this morning - TAW, Istanbul, Turkey, but turned out to be France with an Arabic transmission. Didn't make me too happy! Other European countries which'll give me trouble are Wales (the 100 kw. transmitter in Welsh Service is actually located across the border in England), Northern Ireland, Faroe Islands, Iceland, Azores, Madeira, Balearic Islands, and Karelia. (I guess the ARRL list is the accepted country guide). Trying to arrange a DX special from Libya-1052 for Europe. They are staffed by American engineers training Libyans. Is there any time at all when it'd be possible to split 1050 for 1052? If XEG goes off New Year's, still won't work as all the other Europeans will be on 1052 at that time to foul up Libya anyway. Finally replaced damaged battery in the Zenith and got rid of fluorescent buzzes. So if the DX'll come in at all, it doesn't have quite so much competition. Howdies to Pete Taylor and Jack Hathaway, the other active NRCers "transplanted" onto foreign soil. Both outrank me, but won't be too long before I outrank everyone in the Service - I'll be a civilian again in May, hi! The old song title, "It's Been a Long, Long Time." Three dollars in stamps sent to Hal Wagner this payday. Hope to start getting DX NEWS by air. Regular mail takes a month, and that's too long to wait. Well don't want to end this thing with three little dots, so 73.

Bob Seifert - Glendale, Ohio

This is my first report in quite some time. That Ponca City Convention smoked me out. I'd like to thank Hank Ward and all those presnet for making my visit to Ponca City a most enjoyable one. Next year I hope to see the same faces when they hit "Buckeye" country. My first session before the deals was this past Monday Nov. 4. Logged three Specials, KBOK WRAM and WWBC. No sign of North Little Rock. Probably Faubus kept them off the air. I hope to do some CPC work this season, so you can see I'm planning a real DX year. From the clearness of 1400 and 1450 we should land some good stuff there this year. (Huh? -Ed.)

WELL, BOYS, WITH NO MAIL DELIVERY ON MONDAY 11/11 (VETERANS' DAY) WE HAVE RECEIVED ALL THE PRECEDING REPORTS BY SATURDAY, 11/9, PLUS TWO MORE NOT YET TYPED. IT LOOKS LIKE A REALLY FINE ISSUE FROM THIS POINT OF TIME AND REMEMBER, DX NEWS CAN BE THIS BIG AND FULL OF DX INFORMATION EVERY WEEK IF YOU LADS WILL ONLY SUPPORT OUR EFFORT BY SENDING IN THOSE RECEPTION REPORTS EACH WEEK. LET'S KEEP DX NEWS BIG AND FAT FOR THE SEASON!

Albert E. Lehr - Route 1 - Box 353 - Livermore, California

7/28- KXRO-1320 s/off 2:00. 8/5- KMIN-980 r.c and KAJO-1270 ET. 8/6- CFQC-300 AN. 8/12- KPUG-1170 RS 2:15-2:30. KVOY-1400 ET 3:22. CKWX-1130 ET 5:16-5:46 on 8/14. 8/19- CKRM-980 RS 6:38, CHAB-800 RS 6:57-7. 9/8- KEPR-550 RS 2:54. 9/25- KUBE-1050 f/c 3:20-3:32. Six new ones on 9/30: WFLA-970 s/on 5:45; KTHS-1090 RS 6:47-7; KSEL-950 RS 7:19; KRBC-1470 RS 7:30; KWEW-1480 s/on 7:30; KRAC-1270 RS 7:40. The new KAHI-950 heard on ET at 3:31 on 10/7. 10/11- KPAY-1060 RS 10:45 p.m. 10/12- KBMY-1240 s/on 8:00. 10/14- CKBA-1220 RS 2:00 with CJOC, KVLV-1250 s/on 8:00, KBVM-1380 RS 8:03-8:08; KTKT-990 RS 8:36; KUTI-980 RS 8:39, KRCK-1360 s/on 8:46 behind local KFIV. 10/28- KSOO-1140 RS 6:16. 11/4- Heard two IDs from KBOK-dx, at 3:23 and 3:26. The other DXes were covered by West Coast Stations. WETO-930 s/on 4:58, WYDE-850 RS 5:09. 11/5 KEVT-690 and KFGO-790 both on r/c. 11/7- XEAK-690 Tijuana (ex-XEAC) s/off 3:00, now using 50,000 watts. 11/8- KTRM-990 and KPAC-1250 reporting on Texas tornado. 11/9- XERPM-630 ID 3:01, KEAP-980 RS 4:56 p.m. I have a new antenna nearing completion. It is 12 $\frac{1}{2}$ ' high and at the moment, 566' long. The first 155' are directed SW and the rest runs due West. 73.

Earl Raymond - 763 29th Street - Manhattan Beach, California

The Mexican I reported hearing on 10/7 was not XEFQ as I received a nice negative reply from them in Spanish. So I sent another report to XEKE 980 in Navajoa, Sonora and was pleased to receive a nice verie, in Spanish from them with two station decals. The BCB was sure dead here during October. I heard KRAC 1270 s/on on 11/2 thanks to Roy Millar's info. Also heard same morning, XESU 790 per info from Jim Critchett. XESU was again heard 11/3 Sunday but still no report sent. Am looking for more reception and better CX. They s/on weekdays 8:30 a.m. and on Sundays anyw ere from 8:45 to 9:00 a.m. Also heard on Sunday 11/3 was KWIC 1570 but not enough for a report. Too much from exicali station XEGE on there I guess. Tried for them on Tuesday 11/5 but KDAY 1580 put their carrier on too soon. Guess Sunday AM is the only morning they can be logged out here. On Sunday 11/3 heard KHEY 690 per Joe Brauner's tip in D D D. On 11/4 none of the scheduled DXes was heard although may have faint signal on 1310 kc/s. which may have been KBOK. Only new station that morning heard for three hours of listening was KHAM 1590 on ET and I had to listen to him for 34 minutes before I received an ID. About all the news from here so will sign off now until next time.

Frank Wheeler - Box 176 - Route 5 - Erie, Pennsylvania

Here's my first report of the new BCB Season. I came out of summer BCB DX retirement and started BCB DXing on the AM of October 21, when I pulled in WASA 1330 kc/s. at 4:28 a.m. EST and WCHB 1440 kc/s. at 4:32 a.m. for my first new ones of the new season. On the AM of the 4th of November I tried for the NRC Specials with half success - that is, I got half of the Specials. I brought in KBOK and WRAM R-9 for two new ones for me, but too much interference for KNLR and WWBC. That same morning I got KVOD 630 kc/s at 4 a.m. and WTXL 1490 kc/s, both of these new. My total is now 2,018 received with 1,259 veries. I sure was disappointed to find that the NRC isn't going to have a domestic BCB Contest like they have had other years. I think in this days of ANs, etc. a contest gives BCB DXing a shot in the arm and helps to create interest in BCB DXing. I know for one it keeps me more interested in BCB DXing. This year I'm using a six tube Hallicrafter for my DXing. 73s.

Francis H. Nittler - 2305 South Lincoln Street - Denver 10, Colorado

My DX activities were limited to Sunday and Monday mornings this past week because of a bad cold and still working overtime. On Sunday morning I listened for about an hour with only new catch being WGRY (1370) Gary, Ind. with s/on at 7:27. On Monday tried for DXes but reception from the East was just about dead so didn't have too good luck. Did add KBOK in fairly well and topping WRR most of the time for a new one. Also heard WRAM (1330) with s/on and first musical selection but not a peep out of them the rest of the way. No sign of KNLR with KGMS in the clear here so maybe they weren't on. No chance for WWBC with such poor reception. Couldn't even hear either AN WEMP or KTW on 1250. Oh well, can't get them all, I guess. Verie letters from KBEM (1220), KHOZ (900), KUTI (980) and from KVEL got a PP card back for 1340 kc/s. and a letter verifying my reception on 1250. Just finished taking a log on KWIC (1570) Salt Lake City at 7:08 p.m. to s/off at 7:15. Not on too well but enough for a report. Heard once before only but not good enough for a report then. No other reports sent out during past week. My offer to send out verifications for WEND still stands, so send me a copy of your report along with return postage. 75s.

Hal Williams - 50 Third Avenue - Seymour, Connecticut

On a bright and cheerful Saturday morning after a wild night of thunder and lightning and very heavy rain and wind, I'll try to get a few lines off to "Musings" before I leave for West New York, N.J. for an NNRC Board meeting. My wife is enough improved that I can leave her in the care of our grand-daughter after a 2½ week siege of Asian Flu with complications. DX by date since last report are: 11/3- WSLM-1220, Salem, Ind. testing new RCA 1 kw. transmitter 3:30-4:00 and off until 8:00 to return on RS. Good clear S-4 here for a new catch. KLIF-1190, Callas, Texas apparently on RS 4:37-5:00 with poor signal. 11/4, I tried hard enough to log KBOK for the full ½ hour but nothing readable. I did not expect to get them as WCAM always puts in a stronger signal here after 1 a.m. than the 50 kw. Philadelphia stations. WRAM-1330 heard through the Cuban for a nice new catch. I left 1330 at 3:57 to try for KNLR-1380 but no soap. The QRN was so bad that nothing could be read between WADC-1350 and WSAN-1470 but at 4:10 the noise abated and something was heard on 1380 and seemed to be on PST. Perhaps it was KGMS, not sure. WWBC-1250 in OK at 4:30 through QRM and QRN. So, two CPC catches out of four. Thank you cards have been sent to KBOK, KNLR. 11/6- WSEM-1230 again ETing. The DX Mail Bag: 11/4, a nice letter from Hank Ward, Board Chairman. Thanks, Hank. Also two PP cards returned from WAEL-690 and WABA-850, both in Puerto Rico. Of the 17 PP cards sent on 10/16, all but two have been returned signed. Signatures on WAEL and WABA are not readable. WMRE-1490 and WDDT-900 are the other two PP cards that have not yet been returned. 11/7, an air mail letter in Spanish from CMCY-550 "Radio Siboney" and my report returned from WEAT-850 marked "Reception Confirmed" and signed by the CE. I want to thank Board Chairman Hank Ward for his "Board News for Members" that appeared in the 11/2 edition of DX NEWS. Also the splendid article by President Ray Edge. Just goes to show that we do have officers who are "on the ball." The CPC boys, as usual are off to a good start. Now all that is needed are reports or thank you cards or letters to the stations from the entire NRC membership. Till next week, good health and good DXing. 73.

Len Kruse - 816 Euclid Street - Dubuque, Iowa

The first morning of this season's DX Programs, namely Monday, November 4th, found three of the four DXes being heard at this den, and all new to my DX Log. Stations KBOK (1310) Halvern, Ark.; WRAM (1330) Mornmouth, Ill.; and WWBC (1250) Bay City, Mich. were the only new loggings all week. The fourth slated to DX that morning, namely KNLR (1380) North Little Rock, Ark. did not show, and word from the station told of the engineer having the flu at that time and requested a new date for the broadcast, so Monday, December 2, 3-3:30 a.m. has been set. So add it to the DX Calendar. KBOK's program topped the frequency, although WRR and WCAM AN programs were noticeable in the background. WRAM also in charge of its frequency, but again AN CMCB was quite prominent. And as for WWBC's DX, it was heard fairly well, even though beneath AN WJLP. The 11/10 DX from 5,000 watt WAIL (1460) Baton Rouge, La. came in well, and a good show too. Slight trace of AN KENO was had, and at 5:15 a.m. WFVG, Fuquay Springs, N.C. s/on with its RS of programs, 15 minutes earlier than previously, to also interfere slightly but throughout the 30 minutes of the WAIL DX they sent a good signal into this den and as stated Bob Love, MC of the show, did a fine job. Five verie letters were received this past week, coming from KHEY KGRN KWMF WMLP WMNF. Station MLP stated my report was the farthest distance ever reported during their RS day, and likewise, WMNF also stated in their letter that my hearing them in Iowa was definitely their greatest distance reported on their ETs.

Maurice W. Nittler - 2818 South Cherokee - Englewood, Colorado

No, I'm not dead. Am finally getting good and settled in the Mile High City. DX has been poor most of the time but occasionally I get a good one. Will have to go back a way so here goes: 9/23- Was able to hear ET of KWYR (1260). 10/18- KDIO-1350 was heard testing. 10/21- XESJ-1250 in Saltillo, Coah. testing 3:30. 10/24- KAHI-950 was ETing. 10/24 also logged XEXN-1420 for a new one. 10/26- KPOK-1440 testing new 5 kw. job. 10/28- XEMU-880 running AN with some sort of live program. CMKV-600 s/on 5:00 EST. 10/29 CKDM-730 on AN. 10/29- XEAC-690 with "Mighty 690 Top 40." 10/31- KRMO-990 ETing. 11/4 Only DX program heard was KBOK-1310 with fair signal at times. Am entered in Foreign Contest again this year but don't know how good I will do. Already have four entries, XEG XEHP XEDM and XERB (four Jim-dandies). Veries since I have been a Colorado resident are KBCL-1220 KCBQ-1170 KJAY-1440 KGOL-1250 XEDM-1580 KPOK-1440 KYOR-1450. I hope to get back on weekly sked now. Will throw this in for what it's worth. I get DX NEWS mailed Monday on Wednesday. Francis gets his a day or so later. He gets his first loss and I second. Hope everyone is enjoying a better reception than I am. Good DX

Hank Holbrook - 4710 Edgemoor Lane #206 - Bethesda 14, Maryland

Recent veries include PP cards from WSGN 610 and WPVA 1290 which was formerly WCLA, now verified under both calls. Letters are in from HJKR 1220, WFLW 1570, CHUM 1050, WKWF 1600, WPRV 1460 and KEWB 760. A very nice postal was also received from 4VA 1080 with a verie message, in English on the back. Three reports out so far in November. XERC Mexico City, was logged on the 790 spot from 2:15 to 2:35 a.m. on the 3rd with strong signals. On the 4th, WWBC was well received on their DX show. They were received well above WENP. W's not up in time for the shows from KBOK and WRAM. Tried for JNLR but they didn't seem to be on. Finished out the morning by logging the new Puerto Rican WMIA en la ciudad de Arecibo, P.R. en la frecuencia de 1070 kc/s. Received with QRM from 5:11 to 5:30 but readable. Didn't ID the other station, but suppose their tormentor was WDIA. WHPE came on at 5:30 and crushed them. I think that Don Reynolds and Hank Wilkinson have come up with an interesting idea. I would enjoy seeing a booklet with pictures of various NRC DXers at their dens. The two main drawbacks would probably be the expense and finding a sufficient number of volunteers to pose before the critical lens, hi. If it could be worked out, a thumb-nail sketch of each DXer might be given under the picture. I used to take snapshots of my den and they usually came out fairly well. Occasionally mailed a photo to a station with my report. Don't know if it helped obtain any veries but got an occasional comment, hi. Seemed to interest the Latins most of all. Never did send any to Iron Curtain countries, however. Felt that they might find a way to work it into a propaganda stunt. Found out that the Spanish CPC form I've been using is readable but in an adverse way, hi. The two answers I received were both refusals. YVOA 1000 stated that their government did not allow them to transmit between 11 p.m. and 6 a.m. That seems odd because I've received YVOD on 780 kc/s. during the early AM hours on numerous occasions. YVOJ 1080 DXed for us in 1951. The other letter was from XELA 830. They praised our club but said they could not DX due to administrative reasons. My Musings may be sparse during the next few weeks since I manage a toy store and this is a very busy time of the year for us. We're Santa's helpers, you know. Best of DX to all.

Ron E. Schiller - P.O. Box 1137 - University of Delaware - Newark, Delaware

I thought I'd say "Hi" for the first time this season and report DX here as almost nil. College work being what it is, I've got virtually no time for DXing. I managed to listen on 11/9 and heard WEAM (1390) AN; a station AN on 1380, possibly WAOK, as it was much louder than WTSP (1380) usually is. CX were poor - heavy static. This was from the home location, Avenel, N.J. I have aspirations of doing some serious DXing later this winter, I hope. Only two veries arrived recently; a lengthy letter after three attempts from WMEG (920) Eau Gallie, Fla., and finally, a nice letter from WKIT, per member Bob Reck. Thanks, Bob! I didn't see the CP for South Plainfield, N.J. (1590) listed in the recent list. Has this been dropped, Lefty? (A friend said he saw it in a New Brunswick N.J. paper - never did appear on FCC lists -Ed.) No sign of WHTG (1410) yet. Here in Delaware, WAMD (970) in Aberdeen, Md. is local-like. WKEN (1600) can't be heard here, however, even though it is about 40 miles distant. It's good to see the new faces in the DX crowd. This is my sixth year of membership in the NRC so at 18 I am on the road to becoming an "old timer" in the DX ranks. Veries total 1,197 now (C. P. Atherton, please note.) 73.

J. B. "Pat" Reilley - 226 Crossman Street - Jamestown, New York

Veries are: CFTJ KHEY. Still have 24 new reports out since October 1. 11/4- KBOK and WRAM were heard for two new calls. No KNLR heard at time stated as KGMS was here alone until 4:22 when I quit this but KNLR not needed. Didn't get a peep out of WWBC DX. Spanish station on 1300 at 4:25, a Mexican. 11/5- KOGT atop WWRL, 1600, at 2:35. KFGO 790, r/c as listed. W<sup>a</sup>ak Spanish speaker on 1220 at 3:35. WGOV, 950, ET at 3:52. 11/6- WHVR, 1200, ER at 3:15. WEAM, 1390, new AN. KARM, 1430, good at 3:46 and off at 4:00. TGTO, 810, 2:34. WHJB, 620, 2:25. Unknown on 900, 2:38 to 3:09 and off with no voice at all. 11/7- WPRS, 1440, ET at 2:25 for new one. WOKO, 1460, ET at 2:43. WKIS, 740, test at 3:22. Hope they verify this time for me. A very weak one on 630 at 3:47, perhaps KPOA because of bad fading. 1370 had a TT here, 4:00 to 4:13 but no voice used at all. 11/8- WHYS, 1370, ET at 2:44 for new call, very noisy today. WSME, 1220, ET at 3:30 for another new call. WCRY, 900, ET at 3:57 for third new call. WWV had image on 730 kc/s. today at 4:25. 11/9- WHYS, 1370, ET again AN. WKTG, 730, ET at 3:20. WSAI, 1360, test at 3:40. Plenty of TT all over the dial. Had our first snow today, a real blizzard.

THIS IS WONDERFUL? GANG - LET'S KEEP THOSE REPORTS COMING! HOW ABOUT SOME MORE ?

Rou H. Millar - Route 2 - Box 6704 - Issaquah, Washington

DX & perking!) By date: Nov. 1 - KOLY-1300 Mobridge, S.D. s/pm 7 a.m. for welcome catch. Nov. 2- Fine daytime and early evening CX with KGO-810 strong all day, and CBW 990, WWL 870 heard as early as 3:30 PM PST, so I shopped up the DAK3 with a doublet antenna in the form of a diamond and parked on 990 and 1010 without much interference from local 50 kw. KOMO on 1000 kc/s. and logged two badly wanted Californians, namely KATT-990 Pittsburg, Angged 7:30-7:45 p.m. when CBW knocked out; KSAY-1010 San Francisco, Cal. logged 7:45 p.m. - 8 s/off, plagued by KCHJ QRM, but on top nicely right at s/off. Also found CKRM-980 Regina, Sask. on top a bit later and sent report to this unverified Canadian who has been in my log for years but never reported to. Nov. 3 - On 690 with DAK3 with nice results. After CBU s/off at about 3:12 a.m., KHEY-690 El Paso, Tex. logged easily thanks to DXDD tip; JOAB-690 Tokyo, Japan, ID clearly at 6:00 a.m., then "Radio Progreso", CMBC-690, Havana, Cuba took over with frequent IDs. Nov. 4- My first report on CPC DX activities. First, on 1310, after KWBR s/off, WRR heard with not too strong a signal, and JOLF taking over with YL ID at 3:30 a.m. One possible item under WRR before JOLF came in that may have been KBOK's DX, so a "thank you and tentative report" has been sent. Nothing heard on 1330 from WRAM's DX under KFAC, using the SW 54 here. Had the DAK3 on 1310 for KBOK. Nothing heard from KNLR's DX on 1380; just AN KGMS was heard on the Silvertone table model radio used as my #3 receiver. Did add a new station in KFKA-1310, Greeley, Col. s/on 6 a.m. No try at WWBC's DX on 1250, as local KTW on. Incidentally, KGMS announced on AN six days a week, so they must have a silent AM, but I don't know what day. Perhaps some one can check and send a note to Stan for "DX Down the Dial?" Nov. 6- On 1240 kc/s., as follows: KANI-Kailua, T.H., tentatively logged, s/off 4:07 a.m.; KANE-1240, New Iberia, La. f/c as listed for first 250 watt DX of 2,000 miles or over this season; KLOQ Yakima, Wash. (assigned 1390 kc/s.) testing at 4:25 a.m.; KAKE Wichita, Kans. ID at 5:05 a.m. Veries: KRAC-1270, WIL-1430, KONI-1400, and KBGF-1450, the latter a PP card f/up to knock over a no longer active call. KBGF was verie #26 from Montana, leaving four unlogged (KDBM-800; KXLO-1230; KLTZ-1240; and KVCK-1490 plus three logged but unverified (KGHL-790; KCAP-1340; KXLF-1370) in the state. 73.

Ray B. Edge - 325 Shirley Avenue - Buffalo 15, New York

A little more DX this past week. 11/4- WHLM not on at 1:30 a.m. unless they are silent Monday AMs, or as yet not an AN. 620 WVNJ going strong at 1:40. 640, some North Carolina station testing Conelrad, but just couldn't get their call, heard 1:39-1:44. 850-WYDE at 2:30 topping 'em all but KOA heard in background; 1310-KBOK heard well on DX; 1330 WRAM heard well on DX. 1380 KNLR not heard on DX but stuck to this frequency and copied KGMS instead; 1250-WWBC might have been heard, just a word now and then. WEMP was a powerhouse here, an S-9 plus. Sent WWBC the few words heard asking if it were they. 11/5- 1380-WAOK fair and seems to be an AN. 1380 WTUP heard with one announcement on f/c but WAOK yoo strong to get more of WTUP; 1300 CJRH on RS at noon. 11/6- 1220 WCLB on f/c; 680 WCTT with ET and funny, I chased this one when on graveyard channels with f/c but was never able to hear them. 11/8- 1250 CHWO on RS in late afternoon. Error, 11/2, in total veries, should have been 1,979. Veries in are letters from CKLY CJRH to bring total to 1,981, other veries in are from KOA and WJNC, both replacing old verie cards, with letters. KOA has a new verie card, but they sent a letter too, so no need for card here. CJRH's v/s same as listed in v/s list 10/26/57. Good DX to all.

Ted Weiser - 19 Fairview Avenue - Schuylkill Haven, Pennsylvania

Yes, it's time I check in with my DX doings. After many years I've been DXing with Silvertone nine tube console and Zenith table model set. I now have myself a 24 tube Royale and a Grundig/Majestic (4085) along with the S-53A Hallicrfter I purchased last year, I'm all keyed up for the DX season but now I'm having the clues because of QRM from a motor on a furnace in my neighbor's cellar. I tried a few noise limiters but to no avail. Not much done last summer at the dials. Here is a look at what I was hearing: 6/23- WBEBO, 1330 on ET, my verie back in a few days due to the fact I guess that someone at the station was from this area. Also this AM I logged WFTW on RS, letter returned for better address, verie back on second letter thanks to the help of Anthony Lagatutta with his helpful DX Listeners Bureau. 7/10- KAGE 1570, on ET. 8/25- WGOR 1580, on ET and WYSR, 1250 kc/s., on test 5:32 to 5:42 a.m. Nice letter back on a supposed to be hold out station. 8/26- WKIT, 1520, on RS over WKBW, also heard earlier this AM KFLD, 900, with f/c. 9/2- WGAU, 1570, on ET but no verie yet on (con'd p. 15)

(Ted Weiser, con'd from P. 14) this one, WTKO, 1470, on 47 f.c., WMLP, 1570, on RS, also WBRX, 1280, on RS, no verie on this one yet. Anthony Lagatutta, your 10/16 station with 6:30 s/off was WTRB, Ripley, Tenn. on 1570, heard a few times here but not needed. Some good twilight DX here the past few days. Will report them in my next letter. 73.

Bill Stone - Apt. 112 - 540 Dundas Street East - Toronto 2, Ontario

May Pat, did you see what I seen? Seth, Pop, Wagner and Walbridge all in one issue! Enough to drive me off the rum. All we need now is Routzahn, Batson and Botzum, Tell me, Ores, is the Postie still in the flesh? Well, it had to happen. Things were going too good, 4th and 5th, entire band out - sunspots. 6th, recovered a little, 7th, well from 540-1100 high end for birds, static S7, 1200-1600 OK. WYZE station 1480 s/ on 4 a.m.; WVSC 990 verie says test programs 1:00 a.m. second Thursday of each month, lot likely need him; Robert L. French, CE. Nothing startling to report. 7th/11- WDSP on f/c-TT/SI/OC 2:40-3:00, KOEL 950 ET/OC 4:45-5; SHWO 1250 ET 2:38-3; WXGI ET 950 5:55-6:01 s/off, TT; WNCC 950 s/on 6 a.m. Unless I was hearing things, announcer plainly said at 6:37 on 1590 WDEL in Springfield, however static was heavy, and could not get call at 7:00. WALB on same channel giving him the gears at times, but constant static was worst enemy. 1450 kc/s., 4:15-4:21, unknown strong station testing with music, never heard any ID, OC after 4:21, stayed on till 4:50, no ID. WHKY 1290 usual powerhouse at 5:04. must sign on at 5:00, 6th- WKRT on f/c as listed; WJBR 1450 on ER till 2:04 a.m.; WBVP 1230 still going 4 a.m.; WAFB 900 f/c as sked; CJIC 1490 topping channel 5:05; WTVB 1590 f/c-TT 1:10-1:15 still on; unknown 900 2:49-3:05 with R. & R music, no SI, faded out at 3:05, never readable again. (WCYR, Bill - Ed.) WBVL 950 s/on 5 a.m.; WOIC 1470 powerhouse at 5:30 a.m. s/on, WILS 1320 must s/on 5 a.m. Take your cherfe (en Lefty) on ERs. 8 11- Unknown on 900 is WCRY in Macon, Ga. S r-veyed 1260 kc/s. this AM, 5:35-5:40, WDOK on TT-ET, then a second station with TT, no ID; 5:43 WJOT s/on; 5:53 WHAB s/on; 6 a.m. WERC and WDOK s/on; 6:03 another s/cn, didn't get ID; using 5,000 watts power. WDVA 1250 s/on 5 a.m., has program of nice spiritual music. Congrats to Len on Statistician job, it's an important one, and to the right guy. Veries so far this month, does not include mail of 8th, That's it. Your tears are sure working, Lefty.

Scooter Segraves - The Swamp Angel DXer - Box 453 - Stuttgart, Arkansas

Veries now total 748 with reception of WRCA WYDE WGAD WCPH KFLD KCMO KTRI and KSIL. Late loggings: 11/4 - Un-needed KBOK-1310 NRC DX 3:04-3:12. WRAM-1330 NRC DX 3:30-3:40. WWBC-1250 DX 4:32-4:47. WSLs-610 r/c-TT 4:48-4:53. WATE-620 s/on 4:57-5:07. Mystery - who and where is WHYE-910? I must have been too sleepy the morning I logged them, because I have them listed as Roanoke, Va. and sent my report there, but WRKE's on 910. Did I dream I heard this call? (It's ~~at~~ WRKE, Scoot -Ed.) 11/5, KPIK-1580 RS s/off 6:49 p.m. 11/7- WCMR-1270 ET/M 3:37-3:42. KGAN-1340 AN RS 3:44-3:46. WJXN-1450 AN RS 3:51-4:01. WJAN-1400 RS 5:17-5:23. KADO-1410 RS 6:03-6:10. 11/8- WHYS-1370 ET/M 3:15 on. WEB-710 RS 7:11-7:25 p.m. New AN is KPLC-1470. Enjoy reading reports from old DX NEWSes. How about some of the fellows who are still active but not reporting sending one in to Lefty? Welcome back aborad, Ken Murphy. Lefty, if you don't like modern jazz, what kind of music do you like, hi. (Is that music? -Ed.)

Norman Maguire - 1420 Columbia Drive N.E. - Albuquerque, New Mexico

Veries in since last report: WPKO (thanks to Stan Morss), KBIG KRUN KGOL KPOR WYDE and WQOK. Recent loggings include: 10/28 WSDB, Homestead, Fla. (1430), WQOK (1430) and WYDE (850). On 11/4 logged KBOK-dx (1310), WRAM-dx (1330) and KMAM, Tularosa, N. M. on ET (1590). Had to wait one hour and 20 minutes for KMAM to make their first identification. Sorry the KNLR and WWBC DXes were completely blocked out here. The CPC sure have a fine group of Specials lined up. Hope we can all log many of them.

## INTERNATIONAL DX DIGEST

Edited by Fred L. VanVoorhees, Box 132, Lemoyne, Pennsylvania, U.S.A.

Well, I see by the DX NEWS just received that last week's DIGEST didn't reach Hal in time for the DX NEWS, so there will be a double dose in this week. Will try to keep this one short and just take care of the important items. Here they are:

## NORTH AMERICA

HAITI-\*--4VW (1325) "Radio Haiti" now has English programs as follows: Thurs & Fri 2130-2200, Sunday 1530-1600. Friday 2200-2230. (WRH)

CUBA-\*--CMGN or CMJN (960), CNC, "Reloj de Cuba" heard 0540 on 11/4 at Q5 S9 Plus. Anyone know the hours of operation of these two stations? If operate same schedule, assume I heard CMJN which has twice the power of CMGN according to Weyrich list. Just checked and CMGN isn't shown in CNC by WRH, so sent report to CMJN. (JDH) Verification received from CMCY (550) "Radio Siboney". Address is different from Weyrich or WRH. Now Escobar 452, Habana. So glad to get a report from Honduras they dedicated the Cabaret Nacional program to me on 11/1-2-3 from 2230-0300. (JDH) CMKR (1090) heard 0540 Q5 S9 Plus. Sent report. "La Hora Exacta". (JDH) CMHI (570) heard 2100 Q5 S9 Plus, CNC, Cadena Nacional Cubana, "Reloj de Cuba". (JDH) CMCB (690) Havana, frequently ID as "Radio Progreso" heard from 0605 11/3, topping Jap. (RHM) CMKV (600) Holguin, CMW Network station s/on 0500. One also heard on 960 Kcs. 10/28. (MWN) CMBC (690) Havana, s/on at 0500 in clear here. (EJ) Another Cuban on 670, but call cannot be heard as WMAQ TT on here. This one with same program as CMBC. Weyrich has both Cubans on 670 affiliated with CMBC. Anyone know which one s/on at 0500? (EJ) CMW (590) Havana, s/on at 0500 with news, very strong. (EJ) CMQ (630) Havana, also CMHQ (640) give news at 2230. CMQ gives all of their affiliated stations call at identity time. (EJ)

MEXICO-\*--Verie in from XEWB (760) Veracruz, report sent to XEWB but sent back to XEW for verification. Signer still Gloria Granada, Sec. (EJ) Verie in from XEFW (810) Tampico, Tams. "ice QSL card with Senorita at Microphone. (EJ) XEOY (1000) Mexico, D. F., heard on 10/22 covering WCFL at 2300. (EJ) XEMU (590) Piedras Negras, Coah., heard 10/27 on very powerful signal at 2300. (EJ) XEBX (610) Sabinas, Coah., good signal at 2300-2400, report sent. (EJ) XERC (790) "Radio Exito", Mexico, D. F., playing American music at 2300-2345, great signal on 11/9. (EJ) XESJ (1250) Saltillo, Coah., testing at 0330 on 10/21. (MWN) XEXX (1420) Tijuana, B. C., heard nightly until 0300. (MWN) XEMU (580) Piedras Negras, Coah, AN on 10/28 with some sort of live talent program. (MWN) XEAC (690) Tijuana, B. C., nightly to 0300 with "Top 40" show in English, identifies as "Radio 690". (MWN) XEDM (1580) Hermosillo, Son., finally returned prepared card signed by Dallas Turner, Mailed to Box 55, Nogales, Arizona. (MWN)

COSTA RICA-\*--TIJC, San Jose, in Weyrich log last year it is listed as 590 Kcs. and WRH doesn't list it. Seems to be about 585 Kcs. here. Anyone have the latest dope? Definitely "Radiopolis". (JDH)

JAMAICA-\*--ZQI (720) "Radio Jamaica", heard with sign-on at 0559 on 10/27. Thus neither of the sign-on times given in our DIGEST for 9/21 is now correct, at least for Sunday. Report sent. (CF)

PANAMA-\*--HP5C (730) Panama City, logged on 11/3 Sunday Q5 S9 Plus at 0300 announcing as both "Radio Miramar and Radio Cadena Miramar". Sent report. (JDH)

PUERTO RICO-\*--WMIA (1070) s/on weekdays at 0430 in English and Spanish. (EC)

## SOUTH AMERICA

TRINIDAD-\*--"Radio Trinidad" is now on 730 Kcs. with 20 Kw. "Radio Guardian" operates on 610 Kcs. from 0500-2200. (SW)

November 16, 1957

**BRAZIL**-\*-"Radio Rimar" is a new station broadcasting from Manaus, Amazonas, Brazil, on 1470 Kcs. Heard around 0700 and 1700. (SW) A new one is ZYU58 (720) "Radio Guaiba", Porto Alegre, 1800-2200, with 10 Kw. (WRH) ZYN20 (1440) "Radio Cultura da Bahia", Salvador, has 10 Kw. and operated from 0355-2300. (WRH) ZYR44 (1600) "Radio Aparecida" has 100 watts and operates from 0500-2200. (WRH)

**CHILE**-\*-"Radio Calama", Sotomayor 152, Casilla 1, Calama, operates CA132 (1320) 1 Kw., from 0630-2200. (WRH)

**COLOMBIA**-\*-"HJAD (1330) heard while trying to pull in WRAM-DX. Definitely "Radio Vigia", Q5 S9 Plus. Evidently have moved here from 1290 Kcs. Sent report. Played some US songs in Spanish style. Also announced as "A. B. C.". (JDH) HJGJ (1040) announced as "Radio Progreso". Sure would appreciate any dope anyone has on this. I'm positive of all call letters with the possible exception of the "C". I believe it is in Bogota. Heard 0425 11/3 and mentioned RCN "Radio Cadena Nacional". (JDH) Accion Cultural Popular, Bogota, operates "Radio Sutatenza", Boyaca on 1580 Kcs. HJGP, 1 Kw. Schedule is week-days 0550-0830, 1450-2105, 2110-2210; Sunday 1145-2130. (WRH)

## EUROPE

**SPAIN**-\*-"La Voz de Vigo", Vigo, is audible in Belgium every Sat. at 1900 on approx. 1350 Kcs. with International program. (WRH)

## ASIA

**SOUTH VIETNAM**-\*-"The Thai National Broadcasting System, Saigon, is scheduled as follows: A-Vietnamese on 1090 from 1745-2130, 2300-0135, 0400-1100. B-838 Kcs. on Vietnamese Army programs 1800-1915, 2330-0115. 0500-0815. English 1915-1945, 0115-0200, 0845-0945. Thai 1945-2015, 0815-0845. C-1360 French 1900-2000, 2400-0100, 0630-1030. Chinese 2000-2115, 0130-0315, 0500-0600, Cambodian 0600-0630. (WRH)

**TAIWAN**-\*-"BEC27 (1560) AFRS in Taipei, logged 1058-1107 s/off through DYSS (One of which off frequency) on 10/29. (PVT)

**JAPAN**-\*-"JOAB (690) has English news from 0420-0425. This is one of the strongest Japanese stations and seems to have a clear channel. Some of the midwest boys might keep an eye on this one at least thru November. (CF) RHM reports a clear ID with NHK and JOAB calls at 0600 or 11/3 but soon covered by CMCB. JOLF (1310) Tokyo, ID by YL at 0330 while looking for KBOK DX on 11/4. (RHM)

## OCEANIA

**HAWAII**-\*-"KANI (1240) Kailua, Tentatively ID with s/off at 0407 on 11/6, heavily QRMD by station ID later as KAKE. (RHM) KTOH (1490) not only promptly returned prepared card but also sent a QSL letter (Double postcard size) printed with positive verification material on one side and map of Kauai Island on the other. Signer is K. Nose, Chief Engineer. Address is P. O. Box 1748, Lihue, Kauai, T. H. (CF)

**FIJI ISLANDS**-\*-"VRH3 logged 1430-1445 before JOHK signed on with carrier at 1945 on 10/27. (PVT)

## REPORTERS

PVT-Ens. Peter V. Taylor, USCGC Winnebago, WPG-40, C/o Fleet Post Ofc., San Francisco, California. (Yokosuka, Japan)

RHM-Roy H. Millar, Rt. 2, Box 6704, Issaquah, Washington.

WRH-World Radio Handbook Bulletin, Helb rup, Denmark.

JDH-M/Sgt. John D. Hathaway, USAF Mission to Honduras, C/o U. S.

Embassy, Tegucigalpa, Honduras.

SW-Sweden Calling DXers, "Radio Sweden", Stockholm, Sweden.

CF-Clarence Freeman, P. O. Box 24, Clearlake Highlands, California.

MWN-Maurice W. Nittler, 2818 South Cherokee, Englewood, California.

EJ-Everett Johnson, 504 Sixteenth Street, Mendota, Illinois.

EC-Ernest R. Cooper, 438 East 21 Street, Brooklyn 26, New York.

We also acknowledge receipt of Medium Wave News from England and the New Zealand DX Times.

All from EC this week. First an English speaker s/on at 0500 on about 544 Kcs. with hymn program and fades out by 0520. Could it be that second Trinidad transmitter or Aruba? (I would guess it would be "Radio Kockboom" PJA5, Aruba-FV)

Another, Spanish speaker this time on 1030 Kcs. This one tested Monday, 11/4 to 0335 giving slogan as either "Radio Central" or "Radio Centro". S-7 signal in clear with WBZ off. (Don't see anything in my lists-FV)

EC also reports a Mystery AN Spanish station on 620 Kcs. on 11/6.  
GENERAL

PVT in reporting reception of BEC27 in Taiwan and VRH3 in the Fiji Islands says this is his 19th new country reported since going to the Pacific area, including Alaska. Back in Honolulu on 11/29 and DXing stops for another 3 months, due to proximity of towers of the 8 locals. Pete says KAHU (920) and KANI (1240) are the only ones which aren't really locals.

To Roy Millar and to all others, post card reports are fine and we are very glad to have them. Of course, you don't have to double space them. Mostly I'm interested in having your material on one side of the page and double spaced between items so that they can be cut apart

Don't forget that there is a Foreign DX Contest going this year. Your 25¢-entry fee should have been sent to Roger Anderson by now, but I haven't heard from Roger as to how many entries we have as yet. If we do not have very many, we may extend the time for entries, so if you are interested get your 25¢ entry fee to Roger Anderson, 5700 Eighth Road North, Arlington 5, Virginia.

That about completes the material from here for this week, so until next week, best 73s.

\* \* \* \* \*

Word from Carroll Weyrich Saturday Nov. 16th as follows:

Please insert in the bulletin that in a week or two I will be sending refunds to those who have subscribed to the BCB log. I have tried to work it in with my schedule of working which is to about 9 PM each evening Monday thru Friday, but it is physically impossible for me to run the stencils off on week ends and assemble this thing myself. I have all the stencils cut, but running off about 250 copies of 122 stencils is impossible for me at the present time. When my regular work drops to normal, I will then resume the log.

\* \* \* \* \*

Certainly seems a shame to have Carroll's fine log that close to completion and then to lose it. If I had time available here I would try to do the running of the log myself but as it is, I find it impossible to even get the bulletin out on time so it is out of the question for me too. Although Carroll did not say anything I would imagine he would be open to offers to finish the log for him. If any of you have a mimeo machine and the time why not write to Carroll at P.O. Box 1363, Baltimore 3, Maryland. I'm sure he would be agreeable to any reasonable offer. \* \* \* \* \*

On hand here for past 3 weeks another fine article by Norman Maguire. We hope to get it to you soon but as you know the bulletins for the past few weeks have not been lacking in size. Fred's stencils from last week arrived on Tuesday. Can anyone write an article on suppressing interference? Some of the boys are losing out due to electrical noise. Orchids to Ben Patch who compiled, cut stencils, mimeoed, and airmailed the Frequency check pages to me so that they would go out with last weeks bulletin. Sure hope that airmail postage didn't come out of your pocket, Ben.

Send All Items To; C.M.Stanbury II, Box 218, Crystal Beach, Ontario
