We have quite a few more v/s on hand; they will appear in the next issue of DX NEWS.

January 27, 1962

D X N E W S

3

Bob Karchevski - 188 Marlborough - Boston 16, Massachusetts

First, I'd like to thank the CPC for the fine DX programs. I enjoy reading about them in DX NEWS. And guess what? I finally got a couple: WNCG-dx on 12/4, and WBAB-dx on 12/6. Those daytimers sure look good in my log. Under my quality point system, WNCG rates a 35,879. That's third high in my log so far. And 1/8 did I hit the jackpot! Four, count them, 4 DX programs. For me, this is great. I got WEMJ-dx, CKEW-dx WRSC-dx and WADA-dx. Tried for KGEM-1440-dx but they were squashed out between WNEW and WCOP. I could only mull out one or the other, but not both. Thank you, Andy Rugg and Chris Manthey for your correspondence. Expect a reply, but don't hold your breath. Since my 12/28 report, I have logged: 12/30- WSB-750 Atlanta, 7:36-8 p.m.; WBEM-780 Chicago 8:03-8:30. 12/31- WEAN-790 R.I. 12:22-12:42 a.m.; CJAD-800 Montreal 12:47-1:12; HJED-820 Colombia, 1:16-2:30 s/off; WINZ-940 Miami, 3:03-3:31; WWSW-970 Pittsburgh 3:38-4:06; CHNS-960 Halifax, 4:25-5:01; WCAU-1210 4:50-5:00 p.m.; WLIB-1190 NYC, 5:13-5:15. 1/1- WHAM-1180 1:21-1:35 a.m.; CJIC-1050 Ont. 3:51-4:18; WSNO-1450 Vt. 4:36-4:51. 1/8- WMGM-1050 NYC (second time) 1:45-2; XEG-1050 Monterrey 3:02-3:18; WITH-1230 Baltimore 3:20-3:35; WEMJ-dx-1490 N.H. 3:36-3:51; CKEW-dx-1000 N.S. 3:59-4:11; WRSC-dx-1390 4:13-4:30; WADA-dx-1390 4:31-4:47. 1/15- CKGM-980 Montreal, 3:05-3:22; WING-990 Philadelphia 3:26-3:42; ZFY-760 Br. Guiana, 6:31-6:54 p.m. This last was an accident. I was listening to WJR-760 for entertainment but the spiral loop was in the way so I stored it and tied into the 60' horizontal wire on the roof. In came ZFY, weak but clear. The antenna runs N/S and the WX in Boston was overcast and rainy, 45° Veries in from WEZN WINX WFLI WPOP WDRC (says main lobe E) CEJ WOKO WSNO (says lkw.D, 250w. N). My veries now stand at (starting 8/20/61) 121 stations received; 118 veries requested; 63 veried for a 53.3%. I have enough veries to get me 79 points in the DX Contest. I'm not in the Contest though, just an envious braggart. Besides I don't like the idea of loaning out my precious veries. (Precious to me anyway). 73s.

Arthur V. Bjork Jr. - 31 Lyman Avenue - Medford 55, Massachusetts

A mistake. (I don't know whether it was mine or yours, Ernie) in my Musing in the 1/13 DX NEWS which probably got you confused was, in reference to KNEC "my first (and only, so far) from that date." It should be state. However, since then I've gotten KFI-640 so it isn't my only one now. Also on the front page of the same issue, my middle initial should be V. (for Vincent) now W. I've seen unnn and unkn used a lot in the Musings, but can't find them in the abbreviation list. What do they mean? Also, what does rr mean? (unn; unkn - unneeded; unknown; rr- rock 'n' roll). Now to DX. 12/25- WKAQ-580 1 a.m. s/off. 12/27- CJGX-940 1:50 a.m. 12/28- WRYT-1250 (is this ex-WDAE?) (Yes -ed.) CKDM-730 WILS-1320 WSAI-1360, all between 3:00 and 5:00. 12/30- KFI-640 2:05, WDAK-540 2:38 a.m. 1/1- WEUP-1600 on unsked ET 2:30. 1/5- WPME-1540 4:15 p.m. 1/7- WWEB-1000 4:46 p.m. 1/8- CHUM-1050 XEG-1050 WQAM-560 WEMJ-dx-1490 WRSC-dx-1390 WADA-dx-1390 WLES-dx-580 WSPA-950 WPET-950 WDNC-620 WNOX-990 all between 3:15 and 5:19. 1/13- WJVA-1590 f/c 1:14, WKID-1580 f/c 1:16. 1/18- WAIT-820 6:42 p.m. Reports were sent to WDAK WEUP WEMJ-dx CKEW-dx WRSC-dx WADA-dx. V/cs from WDAK and KNEC V/l's from WEUP WEMJ WADA. Who's "Radio Majestic" on 540? Well, that's that - see ya.

C. Alan Taylor - 2529 East 9 Street - Indianapolis 1, Indiana

Something on XERF you might like. A quack doctor in about 1936 was the scourge of the U.S. and causing all sorts of trouble, he set up Station KFKB in Kansas City, Kansas which has long since been kicked off the air. No longer having a source of steady income, he went South of the Border into what was Villa Acuna and set up Station XER. XER has long since changed to XERF and Villa Acuna has grown into Ciudad Acuna. Now, almost any night of the year, one can tune into the 1570 spot and hear the frequent announcement "This is XERF in Ciudad Acuna, Coahuila, Mexico, and this is Paul Kallinger, your good neighbor along the way." or "This is the world's most powerful commercial installation, XERF in Ciudad Acuna, Coahuila, Mexico." Probably the same for XEDM XEG XELO etc. Jones is considering increasing the price of Jones Listings to \$2 with increase in size of book and bigger printing and maybe a few maps. He has told me to relay this info to you so that you will comment. Be sure you do comment, as he needs comments to decide the future. Either send comments to him or me, and I will relay all comments received to him. Send them on post cards if you wish or letters, but send your comments - these are very important! DX like so: 1/2- KMAR-1570 Lemar/Winnsboro, La. s/off 6:25 p.m. 1/4- KSTT-1170 Davenport, Ia., WPEN-950, WJEX-970, KWAM-990 WMAV and KMGM 2:10 to 2:25 (Albuquerque, N.M.) TT/ET first Wednesday as per r/c, very strong, report off. 73s.

January 27, 1962

Doug Murray - P. O. Box # 305 - Dartmouth, Nova Scotia

DX up here is fair but time is scarce. Monday 1/8 brought me WADA-1390 DX, WRSC-1390 DX, WPUP-1390 WCAT-1390 WEMJ-1490 DX CKBW-1000 DX, WRAD-1460 DX and "Big X" Radio on 1460 - help! WIXN/WPNX/WVOX? Sunday 1/7 brought me CJSS-1220 at sunset and WMEG-920, WPDM-1470 WACE-730 on s/ons that AM. Veries in from WPDM-1470 perfect verie with all necessary info and CM, CHVC-1600 CJBR-900 and CM, St. Lucia-830, WOCB-1240, WCSH-970 Here's a little info I picked up - WRAD-1460 s/on at 5:15, off at 12:00 p.m. Sundays s/on at 6 a.m., WACE-730, s/off is 4:45 p.m. WPDM-1470 s/on weekdays 5:55 a.m. S/on for Sunday at 6:55. CHVC s/on 5:45, s/off at 1 a.m. Sundays on at 7:45 and off at 11:15. CBT hours 7 a.m. to midnight or 5:30 to 10:30 EST; WTSN hours 5:50 to 11:15, all per veries. Has anyone a verie from WSIZ or WLEO yet? I would imagine both were swamped with reports. To any of you fellows who haven't been in touch with me re surveys, I have CJCH and CHNS ones available plus a number of duplicates sent me. Write and send me your lists. Does anyone have a v/s for WMGM? 73.

Andy Rugg - 16 Lake Breeze - Pointe Claire, Quebec

New stations are as follows: 1/6: WSHN-1550 f/c; 1:10; WCOA-1370 AN; KWK-1380 1:51; WDW-1440 f/c 1:55; WYNN-540 5:31 p.m. s/off; WGTO-540 s/off 6 p.m. and KWMT in the clear till 6:15 s/off - this due to my finally finding the correct way to twiddle the dials to pull in something else on 540 besides CHLN-550. 1/7: More 540 stuff; WBIC 4:30-4:40 p.m. 1/8: Unn WEMJ-dx; heard DXes from WRSC WADA and CKBW for three new ones. WLES could not be heard - too much CFRA/CKEY. WDVA-1250 s/on 4:25. Who is "Radio Tiempo" on 740 heard 4:30-5:30 a.m. whenever I tuned to 740; SS under WOR?? On 600? unn KWMT-1580 test 4:57; JBS-750 4:59 s/pn; finally IDed VP4RD-730 5 a.m.; unID SS on 1550, 5:13-5:24 which mentioned Puerto Rico - maybe WKFE in Yauco; WTHB-1550 s/on 5:30 while still trying to ID possible WKFE; WBLR-1430 5:28 s/on. 1/9- WARO-540 5:07-5:12 p.m. ~~xxxx~~ WPNX for Pittsburgh area; Radio Caribbean-830 decided to show 6:48-8:20. Veries: CJCA WJPG WHOL WALK WRIV KFVR (after two PPs I got a v/1) CHEC WLEE WMOU WKRC WHIM-PP WSHN WDW WEZN. 467 veries and 708 logged. Sam and Phil were over here for a while 1/13. I proceeded to wow them with a complete nulqing out of locals and all clear channel stations, with split frequency English speakers and SS all over the dial. Alas, Phil happened to notice we were actually listening at position 4 on the band switch dial, or else SWBC. Unfortunately I had to admit my mistake and tuned to the BCB. Attempts at logging KYJC at sunset remain fruitless though Phil's ears perked up when WGTO-540 decided to ID. I then tried for KYJC again only to find ZBML-1235 coming in. They were in for several hours. We then drove off to Valleyfield in the Rambler to visit CFLV. However we were to interested in eating horsemeat burgers at a certain CFLV-land restaurant. A sudden desire to get back home left us without setting foot inside the XR of the nearest 1370 outlet. 'Twas nowhere to be found. Sam beat me to death with a Seven-Up bottle upon returning home when I found the address for CFLV in my verie collection. YSS YND HRUC ZBML HJAQ and a few others decided to show when we sat down at the dials. 73 especially to all the West Coasters trying for Newfoundland

Tom Johnson - 766 Glendora Avenue - Akron 20, Ohio

Guess that it's about time I sent in a report to Musings. I think it's been about four years since the last one. It's hard to believe I'm starting my tenth year in the Club now. Past five years have been spent in college; three at Purdus and the last two at Utah State University where I graduated in aeronautical technology last June. My roommate last year worked parttime as engineer at KVNU-610 in Logan. On 2/12 I will enter the Air Force Officer Training School at Lackland A.F.B. at San Antonio. After three months' training I will be in the aeronautical engineering area; however, I don't have any idea where they will send me. My last BCB DXing was in November when I added eight new ones to Log. My present radio interest is in aeronautical VHF (108-135 mg/s and aeronautical range and beacon band. I have a converter for the latter band (200-410 kc/s.) installed in car now. Having trouble with ignition noise though. The Indianapolis Convention sounds like it will be a good one after reading Dave Roys' report in last Musings. Will try to make it if I'm close enough. Also I'd like to thank Len Kruse for his fine Condition of Frequencies list. This is really great, especially when one hasn't DXed for a while and starts again. People at local WCUE-1150 say they will soon be going AN with 500 watts. I wonder how many ANs Akron can support! Received a letter from Don Roller in France this week. He seems to be making the best of his stay in Europe. One question - what does SSB mean in reference to the BCB? Best of DX to all and 73. (Star-Spangled Bamer, and lots of luck, Tom! -ed.)

Stan Morss - Route 3 - Bradford, Massachusetts

1/11, PM- WERE-1300 Rensselaer, N.Y. 4:30-4:45 s/off for a report. Verie WEMJ-dx. An odd one - a verie from WLEU for 9/15/61 report - I haven't reported WLEU for years so returned it saying some mistake someplace. 1/12- KGMO-1550 TT 1:24. TT on 1560 1:30 and on but no ID. WBSC-1550 test at 2:11. WATP-1430 2:23 a.m., very distorted. WCMT-1410 f/c 2:33-2:45 a.m. for a new one. TT 1570 3 a.m. weak. Cw mx on 900 at 3:20 but just too much CHML to get ID even though mx easy to copy. WMOZ-960 under CHNS 3:50. KFDF-1580 s/off test 4 a.m., said had been on since midnight. WRDW-1480 s/on this AM at 4. V/f from KRZY. 1/13- WPEP Taunton Mass. 1570's tester of the morning, heard at 2:37, still there at 3:30 OC and mx. ET/M 1430 at 3:45 but no ID. FM- A surprise new one on 1010 even with WINS at times in WGUN, Decatur, Ga. 5:33-5:45 s/off. Verie, WADA-dx. 1/14- KLO-1430 over WIL 2 a.m. KRAZ-1580 Albuquerque polkas 2:30 a.m. KBIM-910 Roswell N.M. s/off test 3:02 a.m. With WWL off, HCN2 "Radio Cristal" in Guayaquil, Ecuador copied 3:26-3:55 fadeout; a 350 watter per WRH. 1/15- WFDR-B 70 Manchester Ga. TT/M 1:30-3:30 a.m. Played "Who's on 1570" again, TT/OC 1:45 turned out to be ET from WOKC Okeechobee Fla. WINS noted off for second Monday. WBEI-590 TT to 3:33 a.m. CKBW-dx easy again but had Cuban AN NX station for company. "Radio Cristal"-870 AN again. WGAS caught on 1420 s/on 4:30. No WKCW but another cw mx underneath, WBRD probably. 1/16- WMSJ-1480, Sylva N.C. testing 2:22 a.m. over AN WDAS. WKIG-1580 Glennville Ga. tested 3-3:10 a.m. for a new one here. Played "Who's on 1570" again 3:15-4:30 and got an ID from KWAY plus some program material from a second not IDed - KWAY maybe on AN but mx was stronger than TT and OC. Veries, v/l and CM from WLES; plain card in envelope for KWRF. Lefty I think you're right on WETT - all SS under WAKR now. 1/17- WCCN-B 70 f/c 2:38. WSIZ-1380 f/c 2:44. WNAC-680 Boston testing for Air Fone covering band from 580-770 with a bad hum, first test of this kind in quite a spell. Hum is caused by the special equipment used. WWSW off and WMAY heard 3:30 a.m. OC off/on 1570 during AM but no ID heard. Ditto 1550. PM- Finally a log on WBAW-810 4:48-s/off tough with WGY S-8 and WCEC about equal to WABW. Verie, WGHC. 1/18- XERF back on the job. WLKW-990 test 2:55. Heard a blooper on WHK "We have just presented a message from the Cleveland Better Business Brewery." New brand! for Lefty. KCLO-1410 over all TT 3:05. WELE-1590 f/c 3:40. TT-1550 3:43 no ID; WYAL-1280 4:10.

David Burns - Box 57 - North Eastham, Massachusetts

DX still at best with five new states heard since last report: Wyo. Ark. N.M. Mont. and S.D. DX: 12/8* KCPX-1320 from 1:15-1:30, WDAX-1410 f/c 1:32, KING-1090 1:37-1:57 KKHI-1550 2-2:02, KWYO-1410 f/c at 2:26-2:18 (first Wyoming). 12/17- CJCA9930 at 1:30-1:59, KIUP-930 at 2-2:06 with r/c. Ended up in Worcester over Christmas vacation so no 12/25 and 1/1 listening. On 12/26 did hear WCOJ-1420 f/c at 12:05-12:10 and ~~my~~ much-wanted KOA-850 over WHDH. While in Worcester I visited WTAG and the CE Mr. E.A. Browning, an old friend of my father. He told me all reports should be sent to him in care of WTAG, 580, 5kw., directional N/S. It felt good to be back here on the Cape., and I found that twilight listening had become much better. Some which were heard were: WAVA-780 at 4:45, WKAR-870 at 5:00 s/off, WABW-810 around 4:30 atop WGY, WFLO-870 at 4:20-4:55, and WPIT-730 at 4:30 ID to 4:42 under CKAC. 1/4- Thanks to A. Rugg logged first Arkansas KTHS-1090 from 6-6:15 p.m. under and over WBAL. 1/5- First '62 AN session: WFCT-1430 f/c from 12:42-12:46, WDEF-1370 f/c at 1:15 ID, CFAE-960 under/over CHNS at 2:15-2:30, and WYCL-1580 test at 2:43-2:47. Also WMAX-1480 f/c at 3:20-3:35. Twilight listening on 1/5 brought in WCEC-810 around 5:00, WUFO-1080 at 5:02 s/off, and much wanted WKNX-1210 at 5:05-5:15 under WCAU. 1/7- M. King made his usual stayover. Only new stations for me were KELI-1430 ex-KTUL f/c 1:12-1:25 and KBRK-1430 at 1:43-1:51 r/c. KWNT-1580 r/c-M 1:32-1:40. Montant station 1310 with f/c 2:03, KFBE? Rough under CKOY. No KGEM KHAS DXes. Long awaited KLIF-1190 RS 3:05-3:15 And finally KSVK-980 r/c 3:16-3:20. Five DXes heard: CKBW WLES WADA WEMJ WRSC, all strong to good. Latest veries, KWYO KIUP WDLR-dx WNOR (eight months out) and WOPI. Thanks for info A. Rugg and W. Boyden. That's all - 73s.

Sam A. McLaughlan - Box 26 - Gatineau, Quebec

DX continues to be good (by my standards only) with the following logged since my last report: WSYB-80 logged fighting it out with 6KLC on 12/31 at 6:15 p.m. Sunset DX on 1/6 brought WRIC-540 and WEBC-560 both many DB over anything else on the frequency. AM of 1/8 was a real orgy with two receivers on to get five DX programs from CKSB-1050 WEMJ-1490 WRSC-1390 CKBW-1000 and WADA-1390. Then to complete the picture wonderful KBOB-1480 was heard weakly but in the clear at 3:58 a.m. Jim Ernst (P.6)

January 27, 1962

(Sam McLaughlan) was DJing the CKBW DX - you did a snappy job, despite the fact that you were tired, Jim, hi. Took Andy Rugg up on his offer to spend a little time at his den to prove to us that he really was hearing Europeans - sho' nuff he does. Although Europeans weren't coming in that particular night Andy just tunes the dial and gets Phil Jacobs and me all the LAs on split frequencies that we want. Phil dashed home to DX - maybe he will even get enthusiastic enough to send that \$4 into Ray, hi. Bob Karchevski = CKOY is on lkw. at nights; only CFRA has 50kw. in Ottawa. That's it.

Maurice W. Nittler - 1755 South Vallejo Street - Denver 23, Colorado

Musings of the Mile-Hi City's most Southwesterly DXer. The all new 10,000 watt voice of the Rocky Mountain Empire is now on the air with studios in Arvada N of here. That part isn't so bad but they put their XR only about a mile and a half S of me which presents all kinds of possibilities, image-wise. Mr. John Tucker, CE, will verify all correct reports. He states all reports he receives go directly into the waste basket if they do not enclose return postage, so please comply with NRC rules always as a report with no postage just irritates the stations. Enough about KDAB. DXing here is moving along slowly with the following logged since last report: 12/11- DX logged poorly from WNGA-1600. 12/16- Logged HJCC-1010 "Mil Viente" which now seems to be AN as heard several other mornings. 12/25 found TGJ-880 running AN for second report. HJCG-1070 taped with good signal in case they don't verify previous report. CKRB-1460 logged with AN program in French. CKSB-1050 with French program until 5:45 s/off. WTOD-1560 on s/on at 6:00. 1/1 found WEUP-1600 on ET when I arrived home from New Year's Eve Party. Then proceeded to go to bed to sleep it off. 1/2 found WEZN-1600 running an ET with surprisingly good signal. 1/14 logged new country in 4VE-1035 with fair signal off and on from 6:03-6:30. KIKK-650 s/on 7:00 beneath WSM's tone. KARA-1310 on RS at 6:45. Veries from KUOA-1290 CKSB-1050 WTOD-1560 IYZ-800 VEZN-1600 XENU-1550 and KELI-1430. Also heard unnn DXes from KHAS KGEM and CKSB. Marv Robbins of Broomfield Heights Col. says he is coming to the Fabulous NRC Convention in Denver ^{RUP} '63

Dick Northup - 507 1/2 Kimball Road - Iowa City, Iowa

Veries in this past week from KROE KLIB (from last spring) KLOE KRAN KBBA WSHN KSWM. Reception CX excellent here with several new additions to my log. 1/7- F/c-TT from WKDL, Clarksdale, Miss. on 1600 1:15-1:30; KCGM Columbia Mo. s/off 6:15 for new call; KIWA, Sheldon, Ia. s/off 6:16 both on 1580 kc/s. KARE-1470 on top of WMBD with WX and road reports from Atchison, Kans. at 6:45. 1/8 was a banner morning with three of the listed Specials making i through, namely WRSC WKDA and KHAS with its band mx. Didn't try for KCOV or KGEM as unnn. KHAS not new either though they were so strong it was a pleasure to listen to them. WRSC was equal and over KCBC most of the time on 1390, WADA not quite so good but satisfactory. Both new here. The Canadians listed for NNRC didn't show up nor did WLES. My best catch that AM though was f/c from KDHI-1250 in Twentynine Palms, Cal. heard nicely on 1250 with some WRYT QRM. WEMP and WREN were off. They ere heard from 3:30-3:45 a.m. Others on 1/8 were KABR KHAK WMAL WHIE WKIN and will send in times to DX Down the Dial. XERF has been off all week and on 1/10 logged ET on WJES, Johnston, S.C. with S-9 signal here. Another new one was f/c-TT from KBRI in Brinkley, Ark. 6-6:15 on 1/12 for a second 1570 catch. Let's hope they stay off the rest of the winter. Enclosing a few more v/s which I hope will give an assist. 73s and good DX.

Bryan and Keith Wilson - 220 5 Avenue - New Westminster, British Columbia

Considerable DX activity going on around here, with considerable distance achieved. 1/8- New loggings include: CKSB-1050 St. Boniface, Man. on their DX. They were quite strong from 3:35 until 3:50, but a large amount of XEG interference was also there. I was really quite exasperating trying to log our first French-Canadian station under "Oceantone" in care of XEG, Fort Worth 11, Texas. Report out to CKSB, though. At 4:45 a new Hawaiian heard, KHAI-1090 Honolulu, signing off after the "Hour of St. Francis" or something. Five minutes later, at 4:50, a very very welcome surprise: Radio Americas-1160, IDing in Spanish and English for about five solid minutes. Quite good signal, with little interference. Do reports for Radio Americas go to Miami? Veries in in the last little while are from KOL0-920, P.O. Box 821, Reno, Nev.; an attractiv QSL from WLOL-1330 Minneapolis; WMT-600, Paramount Theatre Building, Cedar Rapids, Ia ~~v/c~~ WNBC-660, KDIA-1310 327 22 St., Oakland 12; KTW0-1470 3900 E. 2 St., Casper, Wyo. WKNX-1210 Saginaw, Mich.; KWSC-1250 Washington State University Radio, Pullman; KFYR-550 Bismarck, N.D.; and CHEC-1090 Lethbridge, Alta., Box 1090. Homework calls so I'll s/off until next week when we'll be meeting you all in these Musings pages. 73s.

Wayne V. Plunkett - 124 John Street - Weston, Ontario

Courtesy of Joe Fela and Fred's column in 1/3 bulletin, now know who SS on 840 is - heard first here also on 12/24 and several times since - frequent mentions of Colombia. Christmas AM pretty much of a dud DX-wise here. Only French speaker of note was much heard CKRB-1460 at 5:07 a.m.; only new one was WBUY-,440 at 5:22. On Christmas afternoon went down the dial about 3:35 p.m. and surprised to hear WSAR-1480 all alone and WANN-1190 under WOWO. Also at 4:48, WCHA-800 briefly penetrated through CKLW. On 12/26, caught ID from WSMI-1540 shortly after WABQ 5 p.m. s/off with usual KXEL/WPTR QRM. Next catch of note was on 12/29 when WAUX-1510 penetrated WLAC/WMEX mess quite well before sudden s/off at 5:15 with no SSB or anything. WSIM-1220 heard at 5:32 s/off way under WGAR. The minutes later KUTT-1550 heard for first time in afternoon under/over CBE/KKJO (still my one and only N.D.) Mystery on 1070 with ABC NX at 5:55 p.m. Faded out before NX over. Help anyone? So turned up to 1580 to hear s/off song "The Time Has Come to Leave You" at 5:58 - anyone recognize this one? On 1/1, believe I heard ID from WCFV-1230 through the garble announcing as AN. At 1:55 a.m. SS (SESM?) on 1470 under WMBD. Then at 2:20, weak signal on 1530 with continuous mx. Waited a while for ID but guess it was KFBK. On 1/2, WCLS-1580 heard between 5:40-6 p.m. s/off for first of several times in last two weeks. One more new one next day was WJWS-1370 out of the WSPD/WSAY mess at 5 p.m. On 1/4, WTTN-WVKO about even on 1580 until latter's s/off at 5:30 p.m. Five minutes later, WFUR-1570 drowned out pest CFOR-1570 effectively enough for one ID. Then as I went by 1180 surprised to hear someone weak under WHAM which after a long wait finally turned out to be WLDS. Also WHOW-1520 smearing KB until their 6 p.m/ s/off. At 6:02 found another new one on 1580, WPKY, for #17 logging here in last nine months. On 1/5, heard WWST-960 for first time even though not too distant. At 4:58 p.m., rather astounded to hear French speaker weakly but audibly under CHML-900. Guess it was CHNO but didn't last for more than a minute. Heard #8 on 540 with WRIC s/off at 5:29. At 5:35 heard one that puzzles me - American station under KYW-1100 p wouldn't WLBB WHLI and WGPA all have signed off by then? Maybe you could look that up in your lists, Ray.

Sam Barto - 3 Glenwood Avenue - Naugatuck, Connecticut

Lately heard have been: 12/26- WCOJ-1420 ET at 12:03 a.m. 1/11- WPAL-730 5:26-5:30 p.m. s/off. 1/13- WTYC-1150 5:06-5:10; WBAG-1150 5:28-5:30 p.m. About the only new things since last issue have been veries which came in from CBK CFAM CFGM CJRH CHOV CKEG CKLG KFI KGMO KNBC KOAM KPRC KSD WAFC WAYN WBAM WBUX WDLR WDNC WDW WFNZ WFBM WFRO WGAP WKEN WLBG WMSC WMTL WNPV WPEP WPVA WRSJ WSRO WTNS WTOD WVSC. LA DX on 1/11 was good with YVQR-720 in at 5:15 p.m. over S-9 plus; YVMH-700 HI8Z-820 YVQO-650 St. Lucia-830 4VE-1036 HRUC-865 YVMB-800 Antigua-644 PRE9-1200 PRE3-1180 HIU-860 HJBI-840 HJED-820 HJAN-720 PJC2-865 Radio America-1160 YVMH-1000 4VS-1385 and others heard between 5:15 and 10 p.m. 73s.

Neil Eubanks - 2902 Monroe - Amarillo, Texas

Off hand I would say this is the best season I have seen. Forty-one new catches since last issue bringing my total up to 739 logged and 126 verified. QRM level is at its lowest since I don't know when. Most of the good catches have come in at s/on time from 5:00 on. Monday morning seems to be the best day for DX here, since I have an average of 11 new ones per Monday. 1/7- KCOK-1270 at 2:28 with KFJZ off, KGA-1510 on with basketball game for my 700th catch, WHK-1420 with good signal at 3:05, XEXX-1420 on with program about bullfighters at 3:06, KYNG-1420 Coos Bay, Ore. on with test at 3:10, and finally KATI-1400 RS at 3:28. 1/8- KGPC-1340 testing at 2:45, KAWT-1450 testing at 3:15, KHAS-1230 DX show heard, but not too strong, KBUN-1450 f/c at 3:25, KSEN-1150 on with r/c, KOPR-550 testing at 3:48, WWSW-970 at 3:58, WJMX-970 with s/on at 4:00, KROY-1240 at 4:13, CKBW-1000 DX heard weakly behind LZD, but finally made it through at 4:50, Radio America heard at 4:55, WPNX-1460 at 5:09, KWNT-1580 on with ET at 5:12, WCRK-1150 heard at 5:19, and WTYC-1150 s/on at 5:30. 1/12- KQVR-1570 after KACE s/off. 1/13- KJFJ-1570 on with test at 1:29, KKJI-1550 XEBG-1550 KFJM-1370 on f/c at 2:05, CJNB-1460 with s/off at 2:08, KRKC-1570 heard at 8:00 p.m. 1/14- KDAB-1550 at 6:00 p.m. 1/15- WTPR-710 testing at 3:55 with tone, WSNW-1150 with ET at 4:55 WNDP-1150 s/on at 4:59, WCEN-1150 with s, on at 5:04, WWVA-1170 at 5:35, WAAV-1550 at 5:40, WAOK-1380 heard at 5:41, KBEN-1450 on with f/c at 5:53, KRNK-1460 strong at 6:00 and oh yes, WORL-950 with s/on at 4:59. Latest veries include KROX KOLY KOBE KCJB KCHS KYNG KATI KGPC. That's about it for this trip. I hope everybody has as good DX as I am getting. 73s.

Glen Kippel - 513 North Briscoe - Tulia, Texas

Onward. First off, a word to owners of HRO-60s, GPR-90s, HQ-180s, 51J-4s and other such inferior receivers - I have decided not to put up a long, long wire and have decided instead to deliberately handicap myself by using the gas pipes as my only antenna, so as not to make anybody feel bad. (There's a good chap). ZBMI still fighting to make it through; haven't got a decent log yet. No sense in sending out poor logs, stations are less apt to verify. My overall verify percentage - 83%. Hope to improve it. Who's the SS on 1165? Heard a Cerveza Victoria spot once. They sell that stuff in Nicaragua. SS on 1185, and one on 1188.5, La Voz de --- but call sounded like HRXW. I fear I may have to call a halt in my DX activities shortly; the work load is becoming too great. The only time I have for DX now is the time I should be taking for sleep, and gee whiz already, two hours of sleep just won't do! Gotta have four, anyway. Maybe in two or three months I can get active again. Goodie, I see Bob Foxworth is a Man Who Thinks for Himself! Nice shot on the HC-10, Bob! Who needs to pay \$280 for a front end? Get an old RCA, Philco, Zenith console, hook an HC-10 to it, goodie-gee-whiz-bang, go to town! Just saw a used HC-10 for \$70.50. B&W SSB converters go for about \$50 used. Some of you might look into such. Would be better than any communications receiver selling for under \$250 new. Anybody have definite info about the Colombian on 1532? HJFD they say on my first tape, last night it sounded like HJFC, and at s/off 12:10 they said "en Bogota." Their ID every 15 minutes sounds like "Cadena Radial de Bogota - la Emisora Mas Popular de Colombia, La Voz de La Savana, estacion HJFD, 1530 kilociclos, 95.9 megaciclos frecuencia modulada." Then woman says "La Voz de la Savana - sinfonia - s----, servicio!" Then mx up and out. I do not get HJO or HJBA at any time. Help!

Marv Robbins - 265 Laurel Street - Apt. 44 - Broomfield Heights, Colorado

More Mile-High Rocky Mountain Musings from Denver's most NW DX Den. 12/19 almost shook me real well when KUJ-1420 Walla Walla Wash. was in the clear S-8 between 9:17-9:32 a.m. Then on 12/22 my teaching chores were finished for 1961 at Louisville (City of Football Champions 1961) and I headed E to visit my folks at Christmas time. The WX was kind of rough in E. Nebraska and was forced to stay overnight at Hastings before proceeding on to Omaha. It was unusual to hear the local Omaha stations again on my car radio (but get almost all of them anyway on Monday mornings from Denver, hi). Watched Ernie try to 'bug' the KOIL Christmas Tree in front of Skagway (it didn't work, did it, Ernie?) Watched the bowl games on 1/1 but almost wish that day had never come around in view of the outcomes of the games, one in particular! The phone at 7805 almost never stopped ringing with old friends (Big Eight fans) asking "Wha happon?" I don't know, but could only temper my consolation in noting that poor Larry Gádwín went down to Miami to watch it in person. Maybe Larry didn't root loud enough. Tes, now that I think of it, that was what was the trouble with the Buffs. Oh well, wait till next year! Now, back to Broomfield on 1/2 and didn't get any good DXing done until 1/8. Noted KWNT-1580 Davenport running AN and relogged because they failed to verify last report, 2:14-2:21 a.m.; KFIV-1360 Modesto, Cal. 2:41-2:48 and KWAC-1490 ex-KMAP Bakersfield 2:54-3 a.m. s/off. DX from KHAS-1230 Hastings, Neb. logged under KLAS with University of Nebraska football fight songs, 3:02-3:16; KDOT-1230 Reno with s/off at 3:05 a.m. DX from KGEM-1140 Boise in real well with their DX Identifiers, 3:07-3:17. KSEN-1150 Shelby, Mont. with r/c 3:20-3:24 a.m. Plans are already under way for the biggest and greatest NRC National Convention ever to be held here in the Mile-High City next year. We are having a big organizational meeting to appoint chairmen for the various jobs and activities and to be held at Bill Nittler's house this next Thursday evening. We expect to have five NRC members in attendance. 73.

J. Warren Routzahn - 231 South West Street - York, Pennsylvania

It's about time I show evidence of living but I'm not a very lively DXer. Enjoy DX NEWS and appreciate very much the work of the fellows putting it out each week. Verifs received here since last spring are WONG WTAQ WLSC CFNS WEGP KFEQ WFYI WMHI WNPV WFCT CFOX WARO WJUD WBAB WWCH WDLR WRYT WADA WRSC. List shows I'm not doing anything but NRC DXes and some easy routine logging. Biggest AM in a couple years was 1/8 when four report went out. CX appear good and I've heard some good calls I didn't need. Stations' reluctance to reply takes the edge off the desire to report but I heard a few I may report to later if I hear them. Glad to see so many young DXers in the Club and there seems to be lots of activity. Wish all continued good DX so you keep the NRC on top and the DX NEWS such interesting reading. 73s.

January 27, 1962

D X N E W S

Pete Taylor - 2340 Pacific Avenue - San Francisco 15, California

On 1/6, had the Gene Allens, Sid Steele, Don Martinez (welcome aboard, Don!) Mel Dilbeck and Bob Pietsch over for the first BALD meeting and a very enjoyable time. Glad you all could make it! The 'noise' has been S 5-9 all over the band of late so this has slowed activity a bit. However not completely, as per: 1/8- KGEM-1140 DX 3:30-3:45 (very colorful!) and WTIZ-690 5:15-5:30 AM. 1/13- KUTI-1470 8:21-8:38 RS. 1/15- KORL-650 12:16-12:37 a.m., XEMO-860 2:39-2:57 s/off, KABY-990 3:09-3:30 ET, KVLV-1250 3:53-4 a.m. ET, KOM-1250 3:03-3:15, 5:41, 7:11 AN, unusual, WREN usually atop (no sign of them) and finally VOA-1178 6-7:04 a.m. 1/16- KWAY-1570 3:45-4 ET and XED-1050 8:20-8:56 p.m. RS. Veries KEVE KFBB KDOT WOKJ KHAI WQIC KENN. KHAI is on RS now but were on late when I heard them 4:30-45 1/8 (left them out above, oops!) Mine was first report from mainland. Their RS is 10:30-5 a.m. M-F, 11-5 Sat., 12nn-3 a.m. Sunday which makes for 14 stations on Oahu. Good grief! On another subject I would like to discourage sending tapes to domestic English language stations. After being PD at KHVH, and handling DX mail of my own volition at WQAM and KHVH, I could see that it would be a time-consuming imposition on others who do not share our enthusiasm for the hobby. At KHVH, we had to stand in line sometimes to use the tape machines. WQAM is now automated, using about eight Ampexes (visited them 1/3/62). Imagine a CE of a station which DXed for us getting 100 tapes instead of 100 written reports! So I feel thus practice is not in the best interest of DXing and could result in an even smaller percentage of replies (and it is decreasing). If DXers are unable to transcribe a tape verbatim, then I don't think a station manager is going to do it ~~either~~. This is of course just my opinion, as the Club has no policy on it. I would like to see one. With TAs and TPs it's a different story due to the language barrier. They have been verified with written reports, however. Enough on that. This seems to be a great season for just about everyone! I have never seen as much enthusiasm in the Foreign section! Here's hoping most of you got HCJB and will fare well with CB73. So, CB-73's

Jeff Stewart - 3018 Washington Street - Amarillo, Texas

Here's a rundown of what has been heard here since last report. 12/29- WTCN-1280, Minneapolis RS at 1:54 a.m. First new catch of '62 was CJIC-1050 Sault Ste. Marie, Ont. RS AN. Also on 1/1: Jamaica-750 RS at 4:44; Radio America-1160 heard with integral signal and IDs just before 5:00 and WJJD's s/on; WGNU-920 Granite City Ill. RS at 5:29; KXLY-920 Spokane Wash. s/off at 5:30, and WBBB-920 Burlington N.C. s/on 5:30. On 1/8 KHAS-1230 Hastings, Neb. came through on their DX at 3:04; KOPR-550 Butte, Mont test at 3:40 (Get 'em, Willis?); WJMX-970 Florence, S.C. s/on at 4; WEBY-1330 Milton, Fla. s/on at 5:01; WPNX-1460 Phenix City Ala. RS @ 5:06; best catch of the AM was the CKBW DX. Jim Ernst's voice had some bad competition from 1ZD, but finally made it for my 50th Canadian logged, best heard in that country, and a new province. Thanks, Jim. On 1/11 KDAB-1550 the new one in Arvada, Col. heard on RS at 6:22 pm. On 1/14 WEER-1570 Warrenton, Va. testing at 1:40 with XERF off; and KCOL-1410, Fort Collins, Colo. on late with a basketball game. On 1/15 the following: WTPR-710 Paris, Tenn. testing @ 3:52; WSNW-1150 Seneca, S.C. test @ 4:10; WCEN-1150 Mt. Pleasant, Mich. RS @ 5:05; WRBL, Columbus, Ga. RS @ 5:33; KBEN-1450, Carrizo Springs, Tex. test @ 5:53; WKOW-1070 Madison, Wis. s/on @ 6; KTOK-1000 Oklahoma City finally heard at 6:05 RS and WDIX-1150 Orangeburg, S.C. s/pn at 4:55. Help! Who s/on 950 Mondays at 5:15 who mentions their FM outlet? Two possibilities as far as I can tell: WBBF Rochester, N.Y. and WKAZ, Charleston, W.Va. On tape call sounds like WKAZ, and FM frequency sounds like theirs but AM power sounds like WBBF's. Two new veries: KEVE-1440 Golden Valley, Minn. and WTIC-1080 Hartford, Conn. for a new state. What do you think of having a Supremacy Ratings list for Domestic DX? A lot of guys take just as much interest in domestic as foreign. That about does it from here, so 73s.

John D. Hathaway - 4701 South Milam Street - Amarillo, Texas

From the looks of Musings, DX is really available! 1/8- KHAS-1230 heard on DX; KNOW-1490 heard 3:31; KWBV-1440 s/on 6:02 a.m. 1/11- KELI-1430 heard 12:05. Veries received: CFB-1010 KCOV-1400-dx KEVE-1440 KPRO-1440 KPMC-1560. 1/13: KJFJ-1570 heard testing 1:28. WHUT-1470 heard testing 1:40. CHEC-1090 at 2:35. I have now heard 661 stations. Sorry I missed you at Christmas John. I now have 208 veries. Thanks a lot to Tony Ward for all the valuable information regarding New Zealand stations. Maybe some of our other overseas members could provide like information for countries in their respective areas. It would be a big help. 1/14- KECK-920 heard 3:29 a.m. 73. IT'S A FINE SECTION AGAIN THIS WEEK AND OUR HEARTIEST THANKS TO ALL WHO SENT A REPORT!

Len Kruse - 1675 Glen Oak Street - Dubuque, Iowa

Now that our family is settled in our new house, and I have installed a temporary antenna, I have gotten back to get some new DX in this new year of 1962. With the fine line-up of DX Specials of 1/8 I was only able to hear two of them, but both nice catches: WRSC-1390 State College, Pa. and WADA-1390 Shelby, N.C. Despite the fact that AN KCBC was on at the time, I was glad to hear both of these tests. On 1/9 Station WGHC-1570 Clayton, Ga. was heard with a test from 3:49-5:17 a.m. in the clear, thanks to the absence of AN XERF. Also on the AM of 1/9 I heard the new 10kw. daytimer KDAB-1550 Argada, Col. on ETs. The RS AN program of Station KFRC-610 San Francisco was heard for the first time on 1/11 from 2:53-3:30 a.m., with equal strength with AN WIP, which was really a surprise catch for me, as I've been after KFRC for a number of years. Station WRSL-1520 Stanford, Ky. was heard with its RS s/on at 6 a.m. and for the 30 minutes to follow. This was on 1/11 from 6-6:30 a.m. with heavy QRM from KOMA. "Kelly in Tulsa" namely KELI-1430 was heard in the evening of 1/11 from 8:25-9 p.m. atop WIL for another new logging. The RS Sunday s/on and programs of Station WHEW-1320 Washington N.C. was heard on 1/14 from 5 a.m. for approximately five minutes when Station WCPC began its RS and covered them. A f/c on 1/16 from 1:20-1:45 a.m. from KRIH-990 Rayville, La. was heard for the first time with some WIBG AN interference. Also on 1/16 Station WKIG-1580 Glennville, Ga. was heard with a f/c for ten minutes from 3-3:10 a.m. in the clear. The brand new KKAL-1580 Denver City, Tex. was heard on 1/18 with a f/c-TT and leaving the air at 2:55 a.m., again in the clear. Latest verifications were v/ls from WBTS WBRD WRYT KOKO WADA-dx WGHC KDAB and v/c KKHI and WRSC-dx.

Ernest J. Wesolowski - 1416 Pasadena Avenue - Omaha 7, Nebraska

About time that I make another few lines in DX NEWS. Here in the midwest, we have been having snow and very cold WX. Now, it is -70, cloudy, and two inches of snow is forecast. That makes good DX CX, though. Well, down to it. Veries since last report are KEYS KSIW WAKR KKJO WAIT WQMN WTOP WAVE KCOW-dx WOWO WCNT WNGA-dx KWBB and WCPC. Total for the contest is 83 points. For the KCOW-1400 DX f/c, they received reports from San Diego, Amarillo, Billings Mont., Berwyn, Ill., Cleveland, and Omaha. Mr. Bob Carr was pleased. No report yet as to KHAS-1230. On 1/8, KGEM-1140 was heard in the clear; KHAS-1230 was very weak; CKSB-1050 heard but not needed; WRSC and WADA on 1390 both heard, but too much QRM from KCBC for reports. CKEW-1000 not heard on either date. Last night, 1/20, I heard march mx but did not hear any IDs from HCJB-700. New stations are WTOL-1230 Toledo Ohio on 1/8; KWRV-1360 McCook, Neb. s/off at 6:45 p.m. on 1/13; WHUN-1150 Huntingdon, Pa. s/on at 4:59 1/15; also WGIV-1600 Charlotte N.C. on RS at 5:14. 1/16- KYND-1580 Tempe, Ariz. s/off at 7:45 p.m. with XEDM as the QRM. January s/off in Western Iowa and Eastern Nebraska is 5:15 p.m. CST. Heard where KMMJ -750 Grand Island, Neb. wants to move to 880 with 50kw., non-directional. 73s.

Fran Nittler - 2634 South Josephine Street - Denver 10, Colorado

Not too much DX to report this week. Monday 1/15 CX generally poor. CKEW-dx not heard this time as SS AN on 100 and believe it was a Cuban. Nothing new heard. A couple of unusual ones heard though like KABY-690 Albany, Ore. ET 3:15-4; KDEX-1590 ET IDing over and over at around 3:13, WFDR-1370 ET with cw mx 3:30-4, KDB-1490 two IDs at 3:15 but don't know whether RS or ET, etc. Only three new reports out this week. 1/18- KJFJ-1570 Webster City, Ia. ET 1:21-1:45 thanks to phone call from my brother. Then same evening added KRKC over KQVR at 8:10 p.m. to s/off at 8:15 and that leaves only K call on 1570 not reported or heard as KBJT, Fordynø, Ark. This AM thrilled to add HCJB-700-dx. Didn't tune in until 2 as too much slop from local KBTR-710 but heard off and on for the next hour as their band mx out through WLW quite well at times and four or five clear IDs heard. Other unnn stations heard this AM were WCWC-1600 ET/M 3:08 asing DXers to send reports to Radio Road, Ripon, Wis., KRLN-1400 f/c-TT ID at 3:40, YSKL AN and apparently moved back to 765 from 755 as heard with strong signal on 765 with clear ID with calls YSKL given. KIQS-1560 Willows, Cal. ET/M ID @ 3:26. Didn't verify December report for me yet. XERF back 1/20. Back off and on on 1/18 but not for very long periods. CE John Tucker at KDAB says CE of XERF a friend of his and says reason he is having so much trouble keeping XERF on is that he has such a small budget to operate on. KJFJ-1570 apparently got wrong tape on at about 1:43 and had about seven ccmmercials in a row. Wonder how the FCC would like that? Hi. Six veries in this week including v/1 from KWAC-1490 KGMO-1550 KDAB-1550 KTCI-690, out 3 1/2 months without f/up. WNGA-1600-dx and KKAL-1580. KWAC-1490 sent "KWActivity card #1660" for their club and Top 30 list. KKAL says I heard their first r/c third Tues. 12/21 2:30-2:45. Joe Smeedge of Route 3, Bayard, Neb. says he will attend the big NRC Convention in Denver in 1962. Will you? Best of DX to everyone. 73s.

James Gangler - 2801 Chesterfield Avenue - Baltimore 13, Maryland

DX since last report: 1/6- WUFO-1080; WHPL-610, both at sunset. 1/8- WBRN-1460 testing at 2:15; KIQS-1560 Willows, Cal. testing from 3:08 to 3:15 a.m. with very good signal. 1/8- KLIF-1190 at 1:04 a.m. There was another station with them for a few minutes which may have been much-wanted KEX; unkn KTAR-620 fair just before a a.m. s/off; unkn KGA-1510 S-7 most of the morning with unkn KCTX testing behind them; CHED-1080 strong at 2:43 with another station behind which may have been a West Coaster; unkn XERB-1090 weak around 2:45; KIQS testing again after 3 a.m.; WEPM-1340 strong at 3:30 p.m.; CJET-330 strong behind WMAL at 7 p.m. 1/9- At sunset; WEJL-630 WWNY-790 and W WWIZ-1380. 1/14- KBIM-910 s/off at 3:07, testing or RS?; KECK-920 fair behind WOKY at 3:20; WRSL-1520 covering WKBW before 5:45 p.m. s/off. 1/15- WITH-1230 off the air for the first time in several months; WKOY-1240 strong at 12:15; KWFT-620 strong for a few seconds prior to 1:25 a.m. s/off; WINI-1420 testing around 1:40; WJNC-1240 fair at 2:22, XEAZ-1270 weak at 2:38, WFDR Manchester, Ga. testing at 3:09. 1/19- Wien I-1475 strong from 12:45-12:55 a.m.; WEBC-560 fair at 1:29 ID; KGI-810 fair behind KCMO from 1:50-2. I think they are ABC in San Francisco, now. TISS-875 San Jose, C.R. very strong at 7 p.m. I have received 13 veries since my last report. They include, v/q: KMOX KDKA KGA KKHI KNBC WBT "DMX", v/1 from KOLY KXGO KPBM KPOW KENO WJWL. KENO took 1 1/2 months, but was still very welcome here. Finally to Bob Foxworth: Where is HJOL-1533 and what is their slogan? Are they ex-HJBA in Pamplona, I hope? I reported them for Christmas AM but they never gave any call, just a slogan. Oh, I also wanted to say that CKDM sent me a verie for a June '61 report. It was signed by announcer C. Paul G. Walker who said I would receive an official v/1 from Al Watson, CE, but I never did, so I am counting his letter as official since he said I was listening to his show. So anyone who has been having trouble getting a verie from them might try one of the above persons and hope for the best. 73.

J. B. "Pat" Reilly - 628 Spring Street - Jamestown, New York

WADA KKHI KDAB KBOA WRSC WPEP - no veries for a week, then five came in Friday, most veries in one day for years. 1/13, PM- DXing brought me KBOA-830 while listening to Radio Caribbean at 6 p.m. KBOA off at 6:15. 1/14- Unkn on 1580 at 2:40 to after 3:00, no ID heard, quite weak as static was very bad. KIQS-1560 f/c heard 3:10-3:16:30. XETRA atop WTIK-690 at 3:20. KDAB-1550 ET at 3:25. Who is SS on 765, 4-4:43 and never any ID or slogan used? 1/15- XETRA atop 690 again at 2:44. HJCI-890 copied for new call at 2:46. HJAT on 1080 good at 3:20 and HJCN-1100 also good at 3:30. TT on 1570 3:30 to 4:01 when I quit with never any ID. WTPR atop WOR-710 with f/c at 4:02. 750 had weak OC AN by the set's S knob. CKEW heard at 4:08. Caught WPTS-1540 at 4:45 p.m. to 5:00 for new call. 1/16- WKIG-1580 on f/c at 3:04. KWAY-1570 test 3:16 to 4 for second report as no verie yet. Unkn on 1560, 4:03-4:25, no ID yet when I quit. 1/17- TT atop 1590 at 2:37 but no ID yet at 2:59 when I quit this. WPGC-1580 test at 3:20. Tester on 940, 3:21-3:40, no ID. Unkn ET on 1570 3:41-4:35 with never any ID at all. 1/18- Guess who is back on 1570 again. WELE-1590 f/c atop WAKR for new call. TT on 1550, 3:47-4:06 but no ID given. 1/19- Awake at 3:00, back to bed at 3:15 as it was darn noisy to listen. This afternoon, WJMJ-1540 came kn for a new call at 4:40-5 s/off. 1/20- Very noisy today. HCJB couldn't be copied behind WLW but the SS on 675 and 730 were real good again. Chased 940 for a loud tester but no ID, 3:19-4:35 a.m.

Joseph Fela Jr. - 102 Hawthorne Avenue - Newark 12, New Jersey

First of all, some percentages of veries. I've sent out reports to 184 stations (none of these statistics include reports out less than two weeks to note) for a percentage of 80% (147 veries). It breaks down as so when report forms used, 84%; written reports 80%, and by tape, only 61%. Type of station - clear fulltime 95%, regional fulltime, 83%, graveyarders 91%, daytime (both on clear and regional channels) only 69%. Also, I've yet to send out my first PP and don't intend to do so for a long while to come. Latest veries are v/1 from KPGA-1580 WJMX-970 KXEL-1540 (took two months) and WSWV-1570. V/c from CBN-640 (new CBC card), CBK-540 (old CEC card) WLAC-1510 (also took only two months) and WRSC-1390 DX. To DX: 1/13- WKIG-1580 s/off 5:43 p.m., WCCF-1580 s/off 6:00. 1/15- 3:13-3:30 a.m., WFDR-1370 ET/M; 3:33 WTIK-690 on top of XETRA, 4:02 WBRD-1420 call heard, 4:13 CKEW-dx in well (no WINS-1010). Question here, who was on top of 980 around this time who kept mentioning Chattanooga, rr mx? (WRIP, Rossville Ga. -ed.) WDHG-1270 f/c-TT 4:55, WHKY-1290 s/on 4:58, WKAQ-580 s/on 5 in English. 1/20 Tried for HCJB-700 DX. Only thing on 700 was WLW and WOP slopover/hetrodyne. How can you obtain a verie from the following without PPs? Two or more reports have been sent each, last out over a month: WAVZ-1300 WNAK-730 WERA-1590 WSPR-1270. That's it so 73s

Ricky Iavine - 505 South Berks Street - Allentown, Pennsylvania

Since this musing is far overdue it will cover my DX activities from mid-November to mid-January. DXing for the past three months has been absolutely great with the South really rolling in most of the time. On 11/27 I had one of my best DX AMs. Those logged were KNX 1:30-2 EST, CEW 1-1:15 s/off, WBTS on ET from 2:21-2:32, WJET 2:45-3, WCOS 2:55-3:15, CJET on Special DX Test at 3:30, and to top that off, heard three s/ons on 1480 in a row; WIXI and WYZE at 4:00, and WRDW at 4:05. Not bad for four hours work! Forgot to mention 11/22 logged KLRA through WINS @ 8:10 p.m., and WHBQ. 12/2- Heard WJAS-1320 after WKAP's s/off. 12/3 brought in KFJZ @ 1 a.m. 12/9, heard WTMJ @ 1 a.m. s/off. 12/12 brought a great surprise. I was trying to log my first Mississippi station so I tuned 1570 to make an effort for WAMY but CFOR was blasting. So I tuned to 1580 with nothing special in mind. At 5:59 heard s/off of WESY, Leland, Miss. Lucky coincidence but no verie yet. 12/16- Heard XEG CKJL and WSUN all between 1:30-2:30 a.m. 12/13- CBJ 5:50-6:15 p.m. 12/21- Brought in WBOF 7:30 a.m. and WLIJ-580 5:30 p.m. 12/20 heard WSYR-570 @ 9 p.m. under WMCA. 12/22- WPAP-1570 5:30 s/off 12/28- CKSL/WIRL 2-2:30. 12/30, logged WDBJ-960 @ 12:05 s/off. 12/31- CJIC 12:05-12:15. Forgot to list WAAV on 12/17. New Year's morning brought several new loggings. These were WLEE/WSAR-1480 WELM-1410 WRFC-960 WJMX-970 WEUP-1600 on ET, WVOP-970 and WDAY also 970. Stayed up till 5:07 New Year's. 1/7- WCOP. 1/10- WDMB WRIC and WELD-690. 1/13- WDAK. That about brings me up to date. Tonight, 1/18 I heard "Radio Americas" on 1160 IDing as "Radio Americas, para los edades musicales." In other words, "Radio Americas, for the musical ages." Does anyone know where they broadcast from? Swan Island maybe? That's all for now DXwise. By the way, I would be glad to trade WAEB and WKAP surveys for any other surveys of your areas. Veries in are CKKW WSPR WXYZ WHBQ WHAM WCOS WGR KNX WMAL CJET WYZE CEW WJAS WTMJ WNOR (after ? 1/2 months) WSUN WAAV WSYR KLRA WRYT WLEE CKSL WDBJ. Totals are 310 heard, 224 veried. I'd better quit now or I'll be over the limit. Adios amigos. Au revoir, sayonara, even- 73s

Roy H. Millar - Box 778 - Bellevue, Washington

Hello DXers. First, back to 1/8, and 1000 kc/s. I am quite certain I heard four stations between 4:12 and 4:18 a.m., WCFL ET and LZD only ones IDed, but a TT also there (I think two weak to have been WCFL) and another with orchestral mx. It is possible the TTer was CKEW on DX; hope so! Later on in the AM, some further mx at good level was logged (after LZD cf f) from possibly 4RO Rockhampton, Queensland, although not p# positive on ID. At 6 a.m., five pips and tone noted just ahead of KTOK s/on. On 1/10 after many tries, PJG2-865 Williamstad, Curacao, Netherlands Antilles made it in from 5:59 a.m. s/on with lady announcer and good mx. Some English used, with call given as well as location. 1/15- Netted no foreign, but three new domestics in KARK-920 Little Rock, Ark. s/on 6 a.m.; KTLW-920 Texas City Tex. atop KARK at 6:10 a.m. for brief log; KRSI-950 St. Louis Park, Minn. s/on 5 a.m. Mailman found my box again, i.e.: WBLV WSTL WWRL WINK, all 1600 (latter #3 from Maryland), 1kw.; WYEE-1480 and AFKN-1200. Huh? That's right - AFKN verifies "contact with Station 'Bayonet' on 4/11/60", my VOA mystery! A re-listen to my tape for certain key assures me that this is bonifide QSL. thanks to the DXer who tipped me off on this baby - at the moment my second best Asiar verie at 1kw. Fine work, Pete, in Foreign Contest! Again the Far West shows its "DX heels" to all other sections of the country in foreign DX, hi! Will send new list of veries in this weekend, which at the moment total only 87 points, but I'm in there pitching; must have 15 or more reports out that are worth a minimum of five points each, so 73.

Norman H. Pillsbury - R. D. 3 - Jamestown, New York

DX is still good with the following veries back: WWYN three days, WTIC-29 WADA-dx-4 WEMJ-dx-4 WATE-7 WKY-7 WHLN-7 WFBR-6 WJLS-9 WAAV-15 WRSC-dx-9 WILA-5 WWRN-114 (my longest) WHIO-51 WESY-7 WHOO-43 WIKY is special one Dick. On 1/13 WPUV for new call. WNCA s/off 5:30, WAXU s/off at 5:45. 1/14- Today I got my first New Mexican, KQEO-920 briefly over WOKY. Also WINK testing, KPRC-950, WFNC-940 ET at 5:04, and KONO-860 pounding in, WPGC s/off 5:15. Finally batted 100% on Special DXes. CKEW-1000 in with fair signals. Any help on this - 4:30 a.m. someone s/on over KSTP-1500 with several gongs or bongs before National Anthem. Could this be Fort de France in Martinique? 1/16- WPKY s/off 6:00. 1/17- WCAO-600 in briefly at 5:45 p.m. Finally #2 for Arkansas KPCA-1580 s/off 6:15 on Joe Fela's tip. 1/18- Whole lot of nothing, except noise. Still no verie from WSIZ. Want to thank everybody for letters - sure is nice corresponding with you. Guess that's enough noise from me, so 73.

Daniel Miller - 1121 Parkway Avenue - Covington, Kentucky

DX around here has been kinda screwy! Got up 1/15 in hopes of hearing the CKBW DX, but instead found a mystery. It was a time station of some sort with a tock-tock-tock every second and two tones and vocal announcement every minute. Sounded like a Mandarin language of some sort. How about it, you foreign DXers? The time was about 3:55 a.m. Also on 1/15 was KXEL-1540 blasting away with cw mx. Heard many TTs, but didn't stop to ID. I am seriously thinking of buying a KT-200 RX from Lafayette Radio. Anyone who has seen or used one of these, I'd like to have your opinion. Veries in steady by jerks: WMED, v/1, QTH is WMED, 212 S.W. Jefferson Ave., Peoria, Ill. Two identical cards from WKBN, QTH, WKBN Broadcasting Corp., 3930 Sunset Blvd., Youngstown. Finally sent a PP card to WSIZ-dx. No luck after two previous f/ups. Darn 'em anyway! Got busy and wrote three CPC letters, fingers crossed. Incidentally, I noted in recent DX NEWS that WCIN-1480 here in Cincinnati went from 1,000 D-1 to 5,000 U, per FCC. Well, ever since I have been checking s/off every night. They still s/off with the rest of the daytimers, and announce 1,000 watts. ??? That does it up for one week. 6² plus 6². (When changes are listed, they have one year to put them into operation from the day they are granted by the FCC, Dan -ed.)

Ray H. Kraul - 6423 33 Street - Berwyn, Illinois

What WX - snow and cold for a month straight now. Makes for good CX though. New ones for me, on 1/14: WKAI-1510 s/on 7:58. This is operating procedure for them, to hit the air a few minutes before the rest of the boys. Also on 1510 WAUX RS 8:03-8:12, 10 kw., of which .4 of 1% is aimed my way. No wonder they are hard to log. 1/15 was good CX but one of those days when luck isn't with you. I tuned to 1310 at 1:30 just to hear "--- La., concluding f/c on 1310 kc/s." Don't know if KUZN or KIKS and what I heard was 100% readable. Then on 1570, new station in Okeechobee, Fla. TT-f/c 1:45-2:15 and on, not sure of call but believe it is WOKC. No doubt KLMX-1450 r/c 2:36-2:46. At 2:55-3 KCLS-600 RS s/off 2:55-3:00, thanks to Dave McCurdy's tip in DXDD. 1/16: KARS-860 Belen, N.M. f/c-TT 2:25-2:30 and announced as r/c. 920 had PST station on top of KERP and WOKY but WKRT test messed it up, 2:45-2:55. Veries were strong this week, all v/1, from WCNT KFJB WHIE WCIL WADA-dx KDAB WGGH WKAI WSPZ WSON WAUX and WLIQ.

Alex Bowab - Box 539 - Atmore, Alabama

1/15- No CKEW, KOMO-TT and Cuban covered 1000. WCVP-600 RS 5:15 a.m.; WRAD-1460 RS 5:20; WOOD-1300 s/on 5:00, same time as unnn WRKT. 1/17- WMAK apparently off as WERE alone on 1300. WJMX-970 s/on 4:00 per Jeff Stewart's tip. WFIX-1450 f/c-TT 4:00-4:15 reported again, as they didn't verify last summer's report. Unn WVNA-1590 ET/M 4:25. 1/19- XERF off, and had a "1570 session" thus: WFLR-1570 f/c-M 12:55, under two Florida stations testing with OC and occasional announcements, WTWB Auburndale, 1:03-1:38, and WOKC Okeechobee, a new station, 1:09-1:28. Another on 1570 had Frank Sinatra and Maguire Sisters records after 1:30, but didn't ID it. WADA-dx and WNUZ-1230 are the only veries, both v/1s. Not much activity this week due to mid-term exams in school. RHM, thanks for info on KOMO s/off. When I heard it, I didn't think it was KOMO because I thought they went off at 3:00 instead of 4. That's what I get for thinking, hi. Any of you fellow survey collectors who want a WKAB-840 "Top 60" list, let me know, as I recently obtained a supply of them. I now have 104 different survey lists. Additional veries just received from WFLI-1070 WSIZ-1380 and WRSC-dx.

Park Barton - Box 603 - Atmore, Alabama

Greeting from Alabama's most Northern DXer. That's saying a lot when you think about Atmore being on the Fla. line. DX a little slow due to midterm exams. I really studied hard not to come out any better than I did. On 1/12 after I sent in Musing, hear WPMP-1580 s/off at 6:15 through local WATM. 1/13- CHUB-1570 RS 1:55, KJFJ-1570 ET s/off at 6:15 through local QATM. 1/13- ~~CHUB-1570 RS~~ KDWT-1230 f/c-TT 2:25, WBCF 1260 RS-TT just before s/an. WRAD-1460 s/on 5:15, WCVP-600 RS 5:25, WJDX-620 RS 1:30 p.m., KIRT-1580 RS 6:30. 1/14- KIXL-1040 RS 9:30 a.m. 1/17- WCCN-1370 f/c-M 2:35, KDMS-1290 ET 2:45, WABR-1440 ET 3:28. 1/18- CFRN-1260 really putting in a signal in over XEL 2:35. KKAL-1580 f/c-TT 2:45 and what I believe to be KIQS in Willows, Cal. I heard something on 1560 playeing mx so I stuck with it 3:15-3:20 when they IDed. I heard them netion f/c and Cal. as location but didn't catch call. Sent tentative anyway. Veries in from WDAD-159-dx WIRJ-740 WLES-58-dx KMGW-730 KBLM-910 f/up CHEC-1090 WINZ-940 WCMT-1410 WKSR-1420 KFJB-1230 WNGA-1600-dx KTOK-1000 CBE-1550 KEDF-1580 WSIZ 1380-dx. That is about it from here for this week. Best of DX and 73.

John Callerman - Box 2732 - Monroe, Louisiana

I goofed. I mailed last week's report to your street address in Monroe, La. 28 veries since last report: WDXE-1370 KATQ-940 WALA-1410 WHB-710 WGUS-1380 TIW-775 KBHS-590 KSYL-970 KFFA-1360 KRYL-1360 WVKO-1380 WDVA-1250 WGL-1250 KPBM-740 WNTT-1250 KVCL-1270 KWRF-860 KXGO-790 WBTM-1330 WOOD-1300 WMTM-1300 WIOD-1560 XEDK-1250 WADA-1390 KXLY-920 CJIB-940 WSIX-980 and Clevedon-1457. The latter QSLed by letter in eight days from BBC West Regional Service Broadcasting House, Whiteladies Rd, Bristol 8, and returned my tape. They were logged along with Lille-1376 and Bordeaux-1205, and CX28-1090 on that fabulous DX AM of 1/8. Other logs that date: KABR-1420 f/c 1:18-1:31; WISM-1480 s/off 1:59-2:03; English accent on 880 or 881 but I let it slip through, thinking it was gonna be a good AM with unnlc in this early; WITA-1140, um, noted 2:15; flutter on 1387; hetrodyne on 1466, 1538; KNUZ AN and WNUZ ET botched KHAS DX; KTYM-1460 ET/M 3:12-3:15 under strong OC; KBON KTOP KNOW only logs on 1490, along with somebody who sounded like WEXT. Found KGEM-1140 for report 3:54-3:59 s/off on DX; WRSC-1390 barely through KCBC; KWNT-1580 had smething differnt - an ET-NX 4:07-4:14; CKBW-1000 faintly audible on DX and some definite items logged; scanty notes on WLES through tough CKY; WADA easer than WRSC. 1/12 PM, XERF off, so log for second report on CFOR to 11:30 s/off; WOHO-1470 atop channel 11:34-11:45; WDXR-1560 loud and clear to 12:05 s/off. 1/13, AM- KRRV-910 logged 12:24-12:36; XESJ-1250 atop briefly 12:38-12:43; WDXI-1310 logged 12:45-1 with WDOD QRM; three testers on 1570, KFJF 1:19-1:41 s/off then strong one and weak one, the latter IDing at 3:03 s/off as WPEP, Taunton, Mass. on PoP. And it sounded like Stan Morss at the mike. SS on 1580 AN, but too weak to ID. 1580 tester IDed at 3:19, all I heard was "Maryland" and I wonder if it was needed WPGC? Log on WKCW s/on 4:01:30 on 1420 and WFLW-1360 f/c ID 4:35. I have moved to a nice apartment at 1309E McGuire, and will have open house to anyone within weekend driving distance. I even have an extra bed. Glen Kippel really had a swinging morning 1/8. Welcome to new member Jack Collins. I hope no one is confused by two JACs in Monroe. 73.

Bob Easterly - Route 3 - Billings, Montana

And a shivering COLD howdy to you too. The cold WX hasn't gotten me down completely- I still DX. And all the nice warm 15 to 20^d below temperatures make for real good DX. Before getting to my DX, I want to express my very belated thanks for a wonderful Convention '61 to that great Amarillo crew. Thanks for a real good time, fellows. I rather doubt I'll make the Indianapolis affair, but will do my best to keep the '63 Convention date in Denver. Now to DX. Logged since 9/11 are CJDC KXYZ KVRH KGPC KNDE KWSL KCBC KEYS KARM WIL WORK WJAB (Thanks again, Jeff) KBUZ KIST KSRO KXOL WKAT KORK CKNW WEAN KCRA KKJO KTHH KROY KYMO KOIN CJOR CKOK KOIL KORL WTAR KWJJ KBOI KWHO KOAC CJOB WEBC XEMO CFAC KWIN KRBN WACO KRMG KJR KNEW CJAD WOWO KTOK KNEA WAKY WMT KFEQ CKRM KOLY f/c KCOW-dx KQMS KWCO KMZY KDOT CKSB-dx KOPR f/c KKHI KGMS KGAK f/c KGON KDAB KHOK KIT WLOL KAKC KDIA KREX KLMR. Veries in from KVRH WTAR CJGX WOWO KOLY KCOW KOPR KRBN KHOK. The KHOK stated that mine was the best daytime report they had received to date. That could have been due to the snow that was falling here at the time. To Ken Hooker, George DeGrazio and Wayne Alcott, how about hearing from you? Guess that will wrap things up for this time. 73s.

Harold S. Williams - 50 Third Avenue - Seymour, Connecticut

In keeping with the Editor's request here is my very brief Musing. On 1/19 with XERF apparently silent the following were logged on 1570 kc/s. WSWV Pennington Gap, Va. had f/c-TT 12:07-12:20 as per old f/c list. Also um WFLR Dundee, N.Y. had f/c using organ mx 12:25-12:45. WTWB Auburndale, Fla. ET/M using 5 kw., 1:45-2:05 for a new one here. WSWB was also new here. Unnlc CHUB well heard after 2:05. Good AM for 1570, hi. WIRV-1550 Irvine, Ky. had ET/M 2:19-2:48 s/off and on 1/20 HCJB was heard under, over, and through WIFW for a new BCE country. Not too good a report but enough, I hope, to get a verie. They better, as it cost 30¢ air mail plus the three IRCs for six bits, hi. No veries have been received since last report. KOL-1300 CFCP-1050 CKBS-1240 and WMCR-1600 are needed and I will be home on Monday 1/22 so hope for some luck, DX wise. CFJX-580, WMEJ-1450 are not needed but I'll see if they can be heard. I wonder how many, if any, got veries from Radio Antigua-644 for their NRC DX last March 27th. Never a word heard here and also WRWH-1350 Cleveland, Ga. failed to verify report for their NRC DX on February 27th. Editor Cooper stated in a Musing a couple of issues back that he wished to be henceforth known as Ernie but on his Christmas card he used Lefty, hi. 73 to all. (Those cards were left over from '60, Hal, hi-ed)

CHANGES IN STATION DATA, cont'd from PAGE 1

FACILITIES

- 930 W B C K Battle Creek, Michigan, to 5,000/1,000 U-4, from 1,000 U-4, including changes in night and day patterns, same channel.
- 990 W P R A Mayaguez, Puerto Rico, to 1,000 U-1, from 10,000 U-3, same channel. (That's right - a power reduction, but now non-directional!)
- 1230 W C M C Wildwood, New Jersey, to 250 U-1, from 100 U-1, same channel.
- W T I V Titusville, Pennsylvania, to 500/250 U-1, from 1290 kc/s., 500 D-1.

Charles A. Territo Jr. - 736 Market Street - Paterson 3, New Jersey

CX have been good here for all parts of the country. Picking up from where I left off: 1/6 brought in WRSJ-1560 with s/off in English/Spanish at 1:00 after program "Esco Standard Oil Noticias de la Hora" WSHN-1550 Premont, Mich. heard on ET with mx at 1:05. KGMO-1550 heard with test for frequency deviation. WMIC-1590 ET with TT at 2:10. Sunday 1/7 brought WKNX-1210 at 6 a.m. with mx and ID. Is this RS? Too much WCAU to copy much. WHOW-1520 s/off 6 p.m. but mentioned 1,000 watts. Didn't someone say they're 5kw. now? 1/8- CKBW in S-9 on the DX. Ditto WRSC WADA. News of WLES-dx too late. WRIP-980 s/on-5. WOPI-1490 f/c 4:15. Droitwich-1088 fair around 1:30. 1/14- WCYB-690 in well at 4:55 pm. WNAC-680 finally made it in! Good at 5:45 pm. Russian or Ikranian noted on 1090 around 5 p.m. Anyone know if this is CFJB? Ernie, we get WMGM/WINS image on 1090 too! 1/15- KDEX ET 2:55. 1/16- WDIX-1150 s/on 4:57. WEG 1390 s/on 5:30. WPUP also noted. WGHM-1150 s/on 5:59. Umm WHEE-1370 s/on 5:30. I haven't heard them an a long time. WPIT-730 s/off 5:15 p.m. 1/18- Three surprises: WKYW-900 RS 5:15 pm and WDUX-800 RS 5:34. WEAV-960 10:30 pm with WELI/CKWS QEM. That takes care of things till now. One more thing, WDLG-1490, Port Jervis, N.Y. sked is as follows: Mon-Sat: 6:30-11:15, Sun 7:45-9:00. 73s.

INTERNATIONAL DX DIGEST

Edited by Fred L. VanVoorhees, Box 132, Lemoyne, Pennsylvania, U.S.A.

Well, the bottom dropped out this week. Picked up mail yesterday and picked up only three reports, so went back this morning with the result that I found one more, so here goes what arrived.

A QUICK TURN OF THE DIAL

- 625 Home Service of Radio Pyongyang uses this frequency 1450-1200. (WRH)
- 640 Commercial Service of Radio Ceylon operates here from 0230-0430, 0730-1230 in English; 2030-2230 and 2300-0230 in Sinhalese, Sat-Sun 0230-0530. In Tamil 2330-2430 and 0430 (Sun 0530)-0730. (WRH)
- CBN Heard on Christmas Eve, but not since. (RP)
- 660 Radio North Korea uses this frequency for 2nd Program from 1450-1200 daily. (WRH)
- 665 Damascus good signal in Arabic. (RP)
- 685 North Korea with 2nd Program on here 1450-1200 daily. (WRH)
- 720 HJAN Barranquilla, Colombia, is heard most any Tuesday AM particularly around 0555-0600. Verified promptly too. (RHM)
- 785 Pyongyang's 1st Program operates on this frequency from 1450-1200 daily. (WRH)
- 800 Jordan logged with Arabic music. (RP)
- 820 North Korea, Pyongyang, 2nd Program 1450-1200 daily. (WRH)
- 840 HJ-- Colombian s/off 1/1 at 0200 and 1/5 at 0001. At former time a Cuban still on 840: no ID but don't think it is HJDK from 850. (RHM)
- 865 PJC2 Willemstad, Curacao, N. W. T., logged 1/10/62 from 0559 S/on with lady announcer and some very fine music. Announcements included call and location. (RHM)
- 920 Ceylon Commercial Service operates here in English 2030-2200, 2200-2330, 0530-0630; Sat-Sun 0230-0630. Sinhalese from 0230-0530 and 0530-0630. (WRH)
- 930 CJON Poor signal. (RP)
- 935 Lvov, relaying Radio Moscow in English at 0000 GMT. (RP)
- 953 The Eastern Nigerian Broadcasting Ltd., Enugu, gives its latest schedule as Weekdays 0000-1800, Sun 0100-1700, with 10 Kw. power. (WRE)
- 1010 WINS Poor signal, tested 12/27, S-8. (RP)
- 1030 KDKA S-4 signal. (RP)
- JOPQ Japan. Reception of 12/26 appears to almost certainly be JOPQ, a 100-watter; but, reception of 12/27 is of a different station with call I cannot find listed anywhere. Announcers quite different, and calls unlike. (RHM)
- 1050 WMGM Poor signal. (RP)
- 1070 CBA Sackville, good signal. (RP)
- 1080 North Korea, Pyongyang, operates here with 2nd Program from 1450-1200 daily. (WRH)
- 1088 "Radio Tirana", Albania operates here in Arabic 2330-2400, 1700-1730. Greek 1000-1030. Italian 1030-1100. Serbo-Croat 1100-1130. Power 50 Kw. Other times in Albanian. (WRH)
- 1090 WBAL Poor signal. (RP)
- 1140 CBI Fair to poor signal. (RP)
- 1160 Radio Swan pretty good all week. (RP)(Roy, this is now "Radio Americas", listen more closely-FV)
- 1178 BBC Relay on Malta in Arabic at 0030 GMT. (RP)
- 1180 Radio Globo, heard as early as 0000 GMT. (RP)
- 1190 WOWO Good signal from Stateside at 0100 GMT. (RP)
- 1200 Foreign Service from Radio Hanoi, Vietnam (North) is on in English 2030 exc Sunday 0500-0530, 0830-0930, 1030-1045 (Music)

"Radio Hanoi" is in French 2300-2430, 0530-0600. In Laotian 0030-and 0730. Cambodian 0415-0445 and 0800-0830. Chinese 0445-0500, 0600-0700, 0930-1000. Thai 0700-0730 and 1000-1030. (WRH)

AFKN Tongduchon, Korea (South) verifies "Contact with station BAYONET on 4/11/60" per form letter signed by T. J. Daugherty; QRA is C.of AFKN, APO 301, San Francisco, California. This is the 1 Kw station, ex-900 Kcs I believe. This was my "VOA" mystery of almost two years ago. Never give up. (RHM)

1220 WCAU Odd nights with lots of QSB. (RP)
 1510 WMEX Fair to good 0100 and later. (RP)
 1520 WKBW Good signal of the past week 0100 GMT. (RP)
 1540 WPTR Good signal on 12/24 at S-6. (RP)
 1560 WRSJ Bayamon, Puerto Rico, from 0500-0516 when I went to bed. Signed on in English, then the rest of the announcements were in Spanish. First foreign station for the season. (FW)
 WQXR Good signal on Christmas Day. (RP)

THE OVERSEAS MAILBAG

RP*-Here we are again and hoping you had a nice Christmas. Unfortunately I had to work most of the holidays except Christmas Day. However, I had a very nice time indeed. Enclosing my log of the week with quite a few state-side stations. These have been audible the best being WOWO and KDKA has also been audible; quite a few years since I last heard them. I can just remember the time when their station used to operate on SW. I was still at school and had a domestic receiver with SW coverage. Those were the days, Hi. Have added another tape recorder to the rig. It is three speed and has very good output so now will set up from the recording side. Have added two new countries to my list; Greenland and Malta, which have been verified.

GENERAL

SOUTH KOREA*-From the verie received from AFKN Bayonet, the following are the current AFKN stations: (RHM)

560	Vagabond, Seoul (Hdg)	5000	1360	Kilroy, Taegu	1000
1060	Comet, Osan	1000	1400	Gypsy, Unchon-ni	1000
1150	Chunchon Rebroadcast	250	1440	Mercury, Kunsan	250
1150	Keangju Rebroadcast	250	1440	Wonju Rebroadcast	250
1200	Bayonet, Tongduchon	1000	1485	Taejon Rebroadcast	250
1250	Homesteader, Pusan	1000	1510	Cavalier, Munsan-ni	1000

BRITISH HONDURAS*-The British Honduras Broadcasting Station at Belize was destroyed some time ago in Hurricane Hattie. The capital city is to be moved 44 miles inland in near future, and probably the BHBS will be rebuilt here. (WRH)

MYSTERY*-Last Monday 12/13 XEDM didn't s/on until 0615 instead of 0515 due to a very late Christmas program at about 0555 I noted a station on 1580 using EST. They were in fair, but faded out before any ID. Could this have been CBJ? Doubt if it was a US station, as KDAY in Los Angeles doesn't s/on till 0930. This would be a half-hour later than this unknown station. Any help, please? (Larry Schwartz, 4819 Atlanta Drive, San Diego 15, California.)

SOUTH KOREA*-Other South Korean stations (Other than AFKN) are HLKH (680) 10 Kw, formerly 760; HLKS (800) Cheju, 500 watts, ex 1080; HLKI (820) Taejon, 10 Kw., ex 880; HLKB (890) Pusan, 20 Kw, ex 820. HLKP Pusan, 1000 Kcs., operated by Christian Broadcasting System with 250 watts has moved here from 1475 Kcs. (TUNE-IN) That's it. 73.
