Our Twenty-Ninth Season

April 7, 1962

JEFF STEWART SAYS:

"This concludes my third year as a member of the NRC. Totals: 977 heard, with 235 veries. I have no doubt that my totals would be much lower had I not had the benefit of our fine Club and its cooperative members."

April 7, 1962

Ralph M. Johanns - 11 East Chippewa Street - Buffalo 3, New York

3/31 Marching out with soggy snowing and so was DXing. 1350 had a NSP (no-speak-person), TT/M 4-5:01 am. At 4:59 a YL mentioned a W in N.C., at 5, unk SSB; at 5:13 what sounded like WGBA and at 5:35 WNVN Norfolk Va. signed; no WORK was heard. Tomorrow (April) starts many daytimers earlier and four weeks later EDT and my local QEM goes EDT also at 3 am. Ernie, glad you got WELF verified - I got no reply. Bowab; right - WSMA said only Atmore, Ala. The FTC accuses Motorola Inc. Chicago of false radio/TV claims. Three applicants for a nearby new 1300 kc/s. station (WEXC etc.) are still FCC arguing. Local WGR-550 besides Tuesdays off, is also silent 5:30-7:30 am SM. V/1 by State University of S.D., Vermillion, 690 kc/s., lkw. on letterhead. They operated in 1922, now use two half-wave-apart 280' towers directional E/W, weekly sked is SR-SS and Sunday only to 3 pm CST, r/c-TT as listed. 4/1- Here 29° snowy, N.Y.C. 61° and CJOC-1220 said 30°. CFAC-960 and Radio 63 CKRC allcoming in nicely. WSM-650 with SM TT, WKY-930 and WEMP-250 also; WHOK Lancaster O. (WILS SM off) RS with religion at 4:40 and KTSA-550 (WGR off) with Bob McArr show. On 840 WHAS s/on 5:58:30 am and 1600 got WTYM s/on 6:30, then CHVC dampened all with OC at 6:37 to s/on 6:58. Local WUFO-1080 has new daily 6 am - 7 pm sked, also WWOL-1120. Last week I noted CHVC-1600 signing earlier at 5:30 weekdays, but WTTM East Longmeadow Mass. is good on SM 6:30, although full day, but CHVC takes over later. 3/27- Had KRMG-740 OC/c with calls half hour apart; WEJC-1360 Matewan, W. Va. f/c-TT 4:30-4:43 through WSAI AM. A local (Kemore NY) man is partner at this religious-commercial station. 3/26- WLSH-1410 Lansford Pa. f/c-M with call at 3:57 am. 3/29- WNKY-1480 Neon Ky. f/c-M from 3:40-3:55. 3/30: WFFB-910 s/on 5:00 am. 73.

J. B. "Pat" Reilley - 628 Spring Street - Jamestown, New York

CKBW WORG KKAL are the new veries this week. 3/25- Unk on 1390 with band pieces, 2:31 to after 3:00, call sounded like WMEL or TL, gave ID at 2:33 and 2:35 but very heavy static drowned out ID but no town mentioned. 3/26- TGUX-1020 2:30 to 2:36 when they left the air. 1577 was good S-5 at 2:37. WAKR-1590 was off air for a while, and back again at 2:55. Checkup with doctor so to bed early. 3/27- WKIS-740 at 2:25. 765 unk has me wondering - gave call with Say Caw Emmy or Ennay in it at 2:45. Unk weak one on 740 at 3:00 to 3:24 until KRMG came on with test - too weak to ID but a U.S. station. 3/28- Worked until after 3:00 and too tired to even turn the set on today. 3/29- KCHA-1580 flood NX at 3:00. TT on 910 atop WSBA 3:10 to 3:26 and no ID. WNKY-1480 held f/c 3:40 to 3:55. WYZE-1480 came on at 4:00 and then WRDW came on about 4:02. 3/30- 520 at 2:30 here. CHEC off 1090 at 3:00. CJOC-1220 off at 3:07 atop XEB. 750 at 2 pm yesterday. Had first meal in the front porch of the year. 3/31- Never got over 40° yesterday and now at 32° and raining. WJVA-1580 test at 2:00. KTCR-690 ET at 2:27. No answer from last Saturday's test as yet. KKAL-1580 f/c third Thursday, 2:40-2:55.

Bernie Duffy - 77 Livermore Avenue - Staten Island 2, New York

The only DX development I have to report is a v/1 from KVPH, Canyon, Tex. on stationery of KVOP Plainview, and a post card OK from KARS, Belen, N.M.

Ernie Cooper - 438 East 21 Street - Brooklyn 26, New York

Only one v/1 received this week - WMCR-1600, and only one new catch, WBSG-1350, Blackshear, Ga. f/c-TT this AM 4/3 2:05-2:25 am, which came through the powerful ANs WAVY and WADC with surprising gusto. 3/30- Unk KTOE-1420 noted on long ET/TT/M almost even with AN WEK, announcements few and far between. CX poor, as they were on MM 4/2, and nothing logged, and not even anything interesting noted. Correcting something said in my report last week which quoted Bob Semensohn, WJRZ-970 is NOT in Jersey City, but continues as its predecessor WNTA, in Newark, and is on to 3 am daily with the Bea Calmus Show, except MM and Tuesdays. SSS reception has been sensational, but actually too good - just too many on every channel to log anything new! Since this is in my report and not an editorial comment, it is the view of Ernie Cooper, NRC member, and not as NRC Editor. I would like to read more reports of other members in DX NEWS. If the issues are going to be smaller, then I feel I'm not getting all the info I could get if others would write in as the regular faithful members do, and report their late DX doings, with times/and dates heard. I also note our NRC-created abbreviations are becoming standard outside our NRC, as I see them in another publication almost as frequently as in here where they were born, hi. I guess the old adage is true - imitation is the sincerest form of flattery. To new members, we will as usual continue to use EST exclusively in DX NEWS throughout the summer, as all year 'round. Be certain to convert all times into EST in Musings and elsewhere in DX NEWS to avoid confusion.

April 7, 1962

D X N E W S

3

James E. Critchett - 1504 Glenwood Drive - San Diego 1, California

Reports of reception have been sent between 3/6 and 3/26 to: 1500 KPIR through KXRX between 9:35 and 10:00 a.m. on Wednesday 3/7; to 1400 KSLY for s/eff 2:58-3:02 MM 3/12; to 1400 KNND for an ET heard between 3:03 and 3:17 3/12; to 790 CFCW, to which I listened between 4:26 and 4:31 3/12; to KMEN-1290, ex*KITO, San Bernardino, Cal. from 2:28 to 2:46 am. MM 3/19; to KFRU-1400 AN heard from 5:31 to 6:15 for my farthest East graveyard station for the season; to 1400 KTNT for an ET between 3:50 and 4:08 3/19, and to 1020 KGBS on RS, 7 to 7:25, 3/21. Other DX notes: 1500 KPIR signed on at 9:30 weekdays for March; 1570 KWAY signed off just after KCVR at 9:15 pm, 3/7; 1570 KOLS signed on at 7:30 Friday 3/9 (all these pre-XERF's return); 1400 KXIV is not AN MMs, or I would not have heard the above distant stations 3/12 and 3/19. Doubt that 1290 KOWB was on for sked DX; only KMEN and KHSL heard here. 1400 KWIN had s/d f/c 3:15-3:30 MM 3/19; signs on at 8 am. 1290 KMEN is NOT NSP - was not on at 4:33 MM 3/19, and signed on at 9 MM 3/26. 1450 KNOT ended f/c at 4:30 3/19. Tried for 1550 KDAB at 8 Saturday 3/24, but KKHI signed on then covering them. Pacific Coast DXers should try for 1290 KLIQ, in clear here at 8 MM 3/26. Veries were received from 790 CFCW v/f for DX; 1020 KGBS QSL; 1150 KRKD, 1390 WMFO-dx mimeod v/f; and 1500 KPIR, airmail v/l. It has probably been a good DX season; wish I had had more ambition. 73.

Dave Bennett - 926 Diamond Road - Richmond, British Columbia

Well, I guess it's about time for another report from up this way. Sorry I haven't managed one since January but have heard these since 1/13: 1/13- KNDI-1270, 1ZD-1000. 1/17- KYW-1100 to KFAX s/cn. 1/24- CJAT-610 o/u KFRC (o/u- Over/under). 1/27: KXLE-1240. 1/30- KDAL-610. 2/4- KFAR-660. 2/5- HJBI-840. 2/6- CMBL-360. 2/12- KFRO-1370 on DX. 2/17- XEWK-1190. 2/19: CFLV/WMOD-1370 on DXes; KFKF-1330 heard around CHQM-1320 during the day. 2/21: WAKR-1590. 2/24- CFJC-910. 3/1- WMBD-1470, KUTY-1470 KTRN-1290 o/u an unID with cl mx, who?, WGBA-1270 fighting with KNDI. 3/5: KWAC-1490, WOWO-1190 through KLIF, Radio Americas-1160 under s/lop from CKWX, JOLB-870 dual to JOBB-830 with English lessons, KPIR-1500 testing, TGUX-1020 with EE jazz show at 1:20 am. 3/26- KAHU-920 s/fff 4 am while awaiting WKRT's DX, possibly heard, but not enough details to make out. Where is KWAC-1490? I believe the dt-reported SS on during CHAK's DX 2/6 was CMBL-360, as I heard a definite ID for Radio Habana, Cuba during the period. Did anyone hear CHAK? Veries: 1ZD-1000 KDAL-610 KFRO-1370 XEWK-1190 CFLV-1370 WAKR-1590. Anyone got a verie from WMOD yet? Reports out to: KNDI WMOD. Does anyone know if there is a new station on 660 in Australia? Heard an ABC outlet with call 2-C one night but did not get QTH. Help! Thanks for SS report forms Ray - veried XEWK with one. Roy, I tried the rabbits foot insulator - it works, but the smell of singed hair gets to you after a while, hi. I enjoyed reading Dave Roys' letter from CB73 in the 3/10 issue. Sr. Barrueto sounds like a nice guy, Dave - good luck with him

Bob Karchevski - 188 Marlborough - Boston 16, Massachusetts

3/28- Last week I left off with YVLT-825 on a DX. I couldn't get them 7:00-8:00 pm as QRN bad; QRM from WHDH WOSU WCCO WNYC WGY HJED and Radio Caribe (that's enough!) At 10:39-11:18 pm logged YVLT through QRN; and QRM from WFAA WBSO WHDH HJED. 3/24- XERF-1570 at 1:17 am, TT on 730 1:25-1:40 am when I gave up. CBK-540 1:46 am, WTNJ-620 at 2:03, WSUN-620 logged 2:03-2:25 am, CJOB-680 logged 2:29-2:43, getting s/lop from usually quiet 690, so shifted over and logged KTCR-690 ET 2:45-3:11 am. They were SINPO-54445. Are they 500w? Seems doubtful! WWRL-1600 logged 3:23-3:35 am. 3/26- WKRT-920-dx logged 4:00-4:22 am weak, with fading. They were on 500w/ directional (which way?) and the CE said he didn't get a copy of DX NEWS, so he didn't know what we said in it. What about sending complimentary copies to DX stations concerned for that week? Veries: WAIT WHLI WTIC WKBR. I had a hard time locatin Maramar, Portugal (CSB9-782) on the maps. Anyone interested can write me, and I'll attempt to locate it for you. I figure maybe others might have had trouble too. Is Pete Taylor trying to "oull our legs" with Casey M. Jay of KCMJ? Other info: CJMS-1280 has a deep null to the NE. That doesn't really effect any of us. WCOP-1150 is slightly durectional NW/SE. But they have a good signal everywhere else too. 73s. For explanation of the SINPO Signal Reporting System, see Page 52 of the 1962 WRH.

George Greene - 1527 Sunset Avenue - Akron 19, Ohio

CX are pretty bad. The reason probably is sunny skies and 100 above normal temperatures for the last half of the month. This is why I only heard two new stations since my last report. They are: KOIL-1290 heard on 3/8 about 7:00 with NX. Reception was very good and strong. CKOC-1150 was heard on 3/21 with fair strength and spill-over P4

April 7, 1962

(G. Greene) from WJJD nearby. Usually 1150 is covered with WIMA. I still have notes of surveys for anyone who wants some. I have written to some stations and have other types. I have lots of WAKR WHLO KFWE surveys and also some others. Be sure to write for some. No new reports sent out and still no verifications. I sent our f/ups to XLR and KEEL for month-old reports. I don't use a PP until my third f/up. If they on't verify after that I try to send them a report for new reception. As to my feelings on re-verifying a station, I'm against it. If a station keeps getting reports from DXers whom they already verified for, they might stop verifying for everyone. That's about it from here. Don't forget to write for surveys. 73. (Vane Jones' Log is said to be coming out during the summer, from what we hear unofficially -ed.)

Nick Haines - 2259 Lehigh Place - Dayton 39, Ohio

Hi men! I have been procrastinating about writing this report but Ernie made me feel guilty in his insertions which said those not sending in Musings were letting the Club down. I have lately laid off DX for other interesting pursuits. I just tuned to 1580 and KLOU is in very well with that great rr. I would like to ask if any of the old fashioned clear channel listeners in the Club heard the special broadcast by WLW of its last 40 years. This proved to be very interesting on the radio, and a few days later I heard and saw it on local outlet WLW-D. They showed pictures of the first Crosley radio sets and the first WLW XRs' mighty 50 watts. Of course they showed their 500,000w. XR and it was really something. They said it was still waiting for government permission to go back into operation - what a monster! They actually said the FCC is "reconsidering" giving them 500kw. again - XERF #2!* Speaking of friendly Paul, I have recently heard him. What gives? He and CFOR fight it out nightly. Veries in from WKBZ with a tentative on 850, WBAY-1360 WMAX-570 WVOK-690 WSOC-930 WGAD-1350 WFCT-1430 KFRO-370 DX, WSMA-1550 in like a ton of bricks during tests, WFNC-940 CJIC-1050 KYSK-1570 on f/c, WMAK-1300 WABH-1150 with ET, WDSK with f/c-1410, WBKN-1410 on f/c. I just heard the temperature mentioned on KLOU as 83°, and at 9 pm yet! Guess that's all- 73.

Ben Dangerfield III - 202 Governor's Drive - Sproul Estates - Chester P.O., Pa.

I don't have enough space to go over all my DX since last reporting to Musings, so will just hit some of the choicer items. Number one has to be the receipt of a v/c from SABC for mid-December reception of Johannesburg-638, caught on a rare skip. Then, the evenings of 2/27 and 3/2 found Guadeloupe-650 over and under WSM. Another report was sent in FF and a welcome v/l in this week for country #57. See Foreign section. 3/9: At 11:40 pm WKBN was atop 570 kc/s. Not exactly long distance, but seldom heard here, particularly at S-8. 3/12: Vienna-1475 was S-9 from 11:30 s/on to about midnight, while Graz-1394 was around S-6. On Tuesday AM 3/13, some really amazing reception from such European local channels as 1484 1493 and 1504. At least two FF stations were spotted over the 1484 jumble, one with the Paris Inter Program, and the other carrying the National Program. Low powered FF also on 1493 and 1594. Oldenburg-1586 was S-9 plus 20 (my meter won't go beyond) and Flensburg-1570 about S-7. I reported the latter, and had a v/c back in eight days, fastest ever from Europe. Nothing much on MM 3/19 except PRB6-1200 Sao Paulo, with its Japanese program at 3:45 am. 3/21: The Special EE program from YVLT-925, Radio Miranda, was well received here, both the early show and the later repeat. 3/23: KWWL-1330 nice signal at 12:55. Bremen-1358 a nice S-8 at times from 12:45-1:30 am, but badly QRmed. 3/26: WKRT a fair S 6-8 with DX but in the clear. 3/26: Central Europe strong around 11-12. Among those heard: Ljubljana-917, Timisoara-755; Bucharest-854; Tirana-1088. The latter also logged same time on 3/28 with occasional S-8 strength. And so it goes, almost every night, something of interest, and at least two new foreign stations a week. Other veries (not mentioned above) have come from Madrid-684 Leipzig-575 HJAF-920 (took 11 days) Timisoara-755 (February reception); Senegal-1538 (October report).

Ron Paprocki - 600 Wilkins Street - Rochester 21, New York

Greetings! Sorry I could not report sooner. This is my first Musing since I joined NRC about two months ago. Enjoy it very much. First of all some local station info. In case you don't know WHAM moved from old studios on Humboldt St. to new QTH on East Ave. In the near (?) future they will have an Open House etc. which I plan to attend. WROC will occupy WHAM's old QTH. Also WBBF-950 has ordered new equipment to be installed soon. DX because of quarterly exams and poor WX scarce, temperature reaching mid-70s. What little DX I have accomplished follows* 2/16- Heard WSR-750 Atlanta, strong signal at 7:35 pm. Also heard WGO-1040 Dew Moises, KYW-1100 WRVA WOWO WTIC and WHAS usual stuff. Where is "Radio 80?" Would very much like to hear from members of P

April 7, 1962

D X N E W S

5

(Ron Paprocki) of the NRC by mail or tape. Would like to add I'll be in South Bend, Ind. August 25-29, but I find it impossible for me to attend Indianapolis. All for now. 73. (Welcome to NRC, Ron, and we'll be watching for more of your DX Doings! -ed.)

Frank Williams - 5237 Elmwood Avenue - Lynwood, California

Quite a bit of DX lately, with 15 new loggings in March. 3/3- KWIC-1570 heard ETing 7:01-7:15 am, for a long wanted catch. 3/5- KELI-1430 5:15-5:26 with rr, KARM noted off. Also 3/5, KPIR-1500, Oregon, ET 6:00-6:15 am S-9 with 10kw. No new loggings till 3/17, then my "best catch of the season"; KICY-850 Nome, Alaska! Logged with long-hair mx 4:12-4:32, on our Pontiac Car radio. Still don't know why the car radio should bring it in very clear with 850 being blank on the Zenith. Also 3/17 noted the new KMEN-1290 (ex-KITO) on AN with "frantic" rr, as it has been appropriately described. That gives San Bernardino three rr stations, and the fourth being cw! (They now have a survey, too!) Still on the car radio, the next four were on 3/18: WYZE-1480 4:13-4:30 with cw mx; WHK-1420 AN with mood mx, and then a real fine catch with WCHB-1440, Ink-stemp Mich. on with 1kw. day, 5:30-5:50 am. Negro Spiritual mx and IDs at 5:30, 5:40 and 5:50 were heard. To back up a few hours, KSHA-860 Medford, Ore. heard with ET 3:01-3:30 am with a very strong signal. Verie already back says I "must share the honor of KSHA's first listener with an NRC member in San Diego." Larry Schwartz, as usual Hi. Still the best DX of all was to come on 3/19, MM, when WAPA-680 Puerto Rico s/on 4:45 am, with SSB and ID as "Radio Wapa" in SS. Their SSB covered an ID of an EC station, maybe WPTF but am not sure. Then WTOD-1560 s/on 6:00 am with NX, WX, etc. This one easy - I don't know why I haven't gotten them before now. 3/20- WAKR-1590 Ohio AN with rr and IDs as "Wacker Radio" through the Mexican who usually covers 1590 AN. 3/26 KSPA-1400 California end of ET 3:45 am. Then one minute later, the end of the f/c of KTNM-1400 New Mexico, at 3:46 am. That's my March DX, my best group of loggings in one month. Does anyone have any info on the qualities of a '54 Pontiac car radio? Ours seems to be excellent, and just recently I've discovered that it outdoes my Trans-Oceanic by a long shot! I don't know why this should be so, but I plan to do quite a bit more DXing on it. Recent verie from CHML-900 Hamilton says they were "astounded at my reception of CHML over a car radio" etc., and even read off a two minute announcement over the air telling about it! Anyone hear it? Am approaching 30, my Convention plans are in the next issue. 73s.

Jeff Lob - 93 Oakview Terrace - Short Hills, New Jersey

Taking heed of Ernest's earnest plea to muse a bit, I am giving ye olde typewriter some exercise. The DX den hasn't been too active, but a few (hi) things to report. Call change from WNTA-970 to WJRZ and similar change in TV call letters on Ch. 13 which is presently off the air wnd will return with educational broadcasting. National Telefilm Associates was purchased by ??, programming remaining about the same. To pick up where I left off last week (logs somewhat sketchy): 2/25- CKKW/KELO-1320 in at 11 pm, former's s/off heard - two new calls. 2/26- CHAB-800 taped (verie back promptly), WABP 1160 on ET as was WG00-1470, KRKO/KGMS-1380. 2/27: WLBG-860 noted for late s/off. 3/5 KKHI-1550 AN, WBRO-1310 f/c, WQTY-1220 f/c, WSWM-1490-dx with interference from WARK. Wonder where the veries went from this one? No one back yet. WMBO-1390 DX in fine, WQSN-1450 AN. 3/9: CFRA-580 for frequency change, WLKW-990 s/off, KKJO-1550 AN. 3/12- Beautiful signals from Guadeloupe on 650. Is this 20kw. (WRH) or 1kw (Jones Listings?) 3/17: Late evening CJKL-560 due to lack of CFRA but not heard on DX two days later. WNIL-1290 r/c, WLIV-920 mx TT. PRA3-860 s/on at 3 am EST sharp in Portuguese with slogan "Radio Mundial" and call given. Up to S-3 here. Here's a wonderful chance to log Brazil for all those needing the country. Good tape made. No KFMB-540, all WDAK. 3/19- CKSL-1290 AN. WOR off (yippee!) so good log and report on KIRO-710 s/off @ 3 am. Verie back today, 3/30. PRA3 good once again @ s/on. CHSJ-1150 regretfully noted on AN. WIND-560 WGGG-1230 test was heard with TT and announcements from 3:30-3:45 and KOWB-1290 or CJKL-560 DXes. 3/21: Tremendous static through which YVLT-825 DX logged. Report out with IRCs enclosed. Do hope they'll verie. If so, first from SA. 3/26: Very poor IM. Only new one was KBOM-1270 on r/c for second from N.D. CHED 11080 (thought to be KJJJ) heard weakly behind WINS response. FF on 1060 very late. Is this CJLR? Veries: KXLY-920 KPCA-1580 CHAB-800 KIRO-710. Veries still lacking from KAGH-800 KDJI-1270 KSUD-730 KWRE-730 KDON-1460 KRIG-1410 YVLT-825. Very poor response from totals sent out. Any help? Sorry to see our Mexican friend on 1570 again still selling Bibles and quack medicine although programming more SS. Maybe this is what keeps them on! Let's keep Herr Kooper typing! Send those Spring Musings in now! 73, no offense Ernie! (Perfectly OK, Jeff - we do need work to keep the typewriter going! -ed.)

Ev Johnson - 504 16 Street - Mendota, Illinois

Well, guess it's about time I sent in some DX doings. Haven't done much in March, only 12 reports sent out, and they are to: 3/4- WXVW-1450 Jeffersonville AN; they are on Saturday and SMS only in Indiana. Also on the same AM, KIMM-1150 new S.D. station on ETs. The WSVM DX as was WMPO in here great. On 3/7 heard an hour's test from WDEW-1570 in Mass. 3/17- KVPH-1550 Canyon, Tex. on ETs. 3/18- WBBY-590 Wood River, Ill. on RS, s/off at 7. Thanks to Len Kruse the new Minneapolis station KTCR on 790 was heard on ETs, and KJFW-1390 Waynesville, Mo. on ETs. 3/24- I heard WPLO-590 on AN sked. The DX from WKRT was very strong with 500w. Then Tuesday AM I heard WGKV-1490 ex-WHMS on AN sked. Never did verify WHMS for me. Veries very slow with 40 reports still out since 9/1/61. Will have to send f/ups soon. No veries yet from WMOD WEMX WSVM KFMB DXes. Only 12 veries for March: WSMA-1550 WABH-1150 WCCF-1580 WMCR-1600 KHBR-1560 KIMM-1150 WMPO-dx WXVW-1450 WDEW-1570 WQXQ-1380 KVPH-1550 and KTOC-920. It seems the new f/c list is good especially where marked for r/c, etc. DX will slow down here as Spring has arrived, we hope. Send me those TIPS and wish you all good DX.

Dallas John - 332-South Stewart - Lombard, Illinois

3/24: SS on 112 which isn't the first time, but no ID when I listened. YNOL on about 828 as reported in well with cl mx. 3/25: CJOY-1460 was above all at 7, but at 7:02 ~~th~~ they ended organ mx and said, "Now it's time for a pattern change" and out they went, followed by WHEC but no report to them as WBNS soon covered them up. 3/26: At 4 am I tuned to 920 to hear WKRT DX but instead caught KBAM signing off for a nice catch. Then at 4:01 Brice Mackey came on with 500w, and nighttime pattern. Terrible morning for me. Who on 1370 testing with mx most AM? WLSH-1410 ended ET way over AN KRIG at 4:20. WFUN-790 behind WTAR at 4:28. WCGL-1440 r/c 4:45-5 am. as listed. WSTL-1600 s/on 4:55 as usual, ditto WRFC at 4:57. WLOS-1380 on top for a report from 4:02 and on. A few veries in here: WBLC-1510 WTCH-960 QSLs and JFVV WIVV CHAB v/l's. The v/s at WTCH also has WX-28, poor guy. Although all the snow's gone, winter is still here because I still freeze my feet after an hour in the wind~~d~~ cellar DXing. Anybody else have rig in the depths of a basement? No doubt. I might catch Larry Schwartz in veries if he gets drafted, but I'm older! 73. Forgot, KSEL WSTL CKRM v/l's, latter QSLtoo HRVV/HRVV sent damned nice pennant, blue and white and red and gold; my first one and I'm proud of it. Seems to justify all the hours I sat down here trying to decipher the glop. Non habla espanol? Nur Deutsch.

Andy Rugg - 16 Lake Breeze - Pointe Claire, Quebec

Hi. CX seem to be going here and with exams coming up DX'll be limited. Veries: KXLY WPRO WUST WTTM HCJB WKBN WOOD. HCJB was country #23 confirmed and I'll make 25 by Convention Time. After a bit more exposure to WHN, I agree 100% with Sam McLaughlan, but Sam, I'd take WQXR any day. DX: 3/19- RTF-1376 good 12:2 am, first time in a while; WKBN-570 12:29 for new call; BBC-347 FF, 12:41; someone on 990. Hasn't 990 been cleared to give CKGM a 30 kc/s. bandwidth? They need it! HJAF-920 1:02-1:09 am for report; VOA-1196 good at 1:10; WOOD-1300, on weekly r/c 1:16 for new call; 3AM2-1466 1:18 and immediately after heard brief TT on 1260 which only lasted a minute - who? Spain-683 1:25 but not enough to report; SS on 1460 at 1:32 with 1450 slopover; Stan the Man Morss says it's "Radio Alegria", maybe in Bogota, can't find it listed. WNLC-1510 AN with "AN Jamboree" ecch; WMEX test at 2:05 am killed 'em, good riddance. CJAD was off and a Cuban, "Radio Reloj Nacional" about 8-7 with QRN; unID f/c on 1410 at 2 am, lkw. day and 500w. night. Suppose it was nnn KWYO. Two stations on 1290 but too much CJMS to copy; CJMS playing "Norman" in FF; WHSC-1450 f/c 2:13 for new call. 3/19- My birthday and received a copy of WRH, postmarked in Montreal, from an anonymous donor, who? 3/30- HJDK-750 atop WSB, 10:30-10:37 pm for report. 2/21- YVLT-825 through S-9 CKVL/CJAD splash 11:07 pm for new call. BBG approved plans for new CPs in Montreal on 1410 and 1570, yucch. 3/25- KWMT-540 7:10 pm with "Sunday Sereade"; ZBML-1235 s/off with GSQ 11 pm. Who on 1240 s/off 11 pm? 3/26- WKRT-920 DX, heard on Philco for new call and #807 logged, and 576 veries. Oh yeah, CKOY sent a QSL card for recent attempt so another PP bit the dust. With everyone getting a WGTO verie I sent a f/up to the listed v/s and hope he veries. John Tweedie says w4BPD is owner of delinquent WORG and when he gets back from Africa he might answer the reports on hand. 202 Contest Points and I'll be lucky to get 225. 73.

Jeff Stewart - 3018 Washington Street - Amarillo, Texas

Greetings from the land which is near the land where governments re-issue licenses to border stations, hi. I'm not too unhappy about XERF coming back on. It just wasn't P?

April 7, 1962

D X N E W S

7

(Jeff Stewart) the same when we couldn't hear old P.K. rattling on about one of his fabulous panaceas. Besides, it left us without anything to complain about, hi. Even though XERF was off, someone left an OC on 1570 every AM. Anyone know who this one is? The OC was so strong that even CHUB didn't stand much of a chance. DX: Have been limited to Sundays and MMs only because of a heavy load in school. 3/5- WRYT-1250, Pittsburgh, Pa. AN show. 3/11, KNEB-960 Scottsbluff, Neb. 4/c. 3/18- KKLO-1300, Mason City Ia. r/c. 3/25- WJIL-1550 Resting at 1:43 am. Whoops, left out KKHI, San Francisco, 1550, RS on 3/19. On 3/26, WGUS-1380 North Augusta, S.C. s/on @ 4:00 with SSB; KHAI-1090, Honolulu, RS @ 4:17, and WKRT-920, Cortland, N.Y. DX show. They only made it through for about four minutes (4:28-4:32) as a strong OC kept bugging them. Around 4:40, the OC started in with a tone, and completely obliterated them. Even when the OC went off for a few minutes, they were weak. Well, this concludes my third year as a member of the NRC. Totals: 977 heard, with 235 veries. I have no doubt that my totals would be much lower had I not had the benefit of our fine Club and its cooperative members. 73s.

Marvin E. Robbins - 265 Laurel Street - Apt. A4 - Broomfield Heights, Colorado

A few more Rocky Mountain Mile-High Musings from Denver's most NW DX den. A great big "howdy, partner" to newcomer Murray Mann who has moved to Colorful Colorado and will be located somewhere here in the Denver area. Murray has been staying here the last several days and has been pretty busy acquainting himself with the local radio dial here. Local KTWL-1250 is changing call letters on 4/2 to KICM ('Kiss 'em'), hi. Guess you all know it will be rr and "twist" mx. I have improvised some KTWL letterheads so anyone having a report out to KTWL, just send me a copy of your report, and I'll get a letter of verification off to you signed, of course, by the GM. 1963 Convention meeting #6 held here last Thursday; next to be at Wagner's in Longmont on 4/5. A few new loggings here since last report: 3/11- KIXX-1400 Provo, Utah at s/off 1:59. 3/12* KMBY-1240 and KKID-1240 between 2:30 and 3:00 battling each other and KROY-1240. CFCW-790 well heard on DX. KARR-1400 logged per f/c list. KHAI-1090 good at 5:00 s/off. WRSJ-1560 at s/on. 3/14: KSVN-730 Ogden, Utah good at s/off (Radio Seven) 8:30 pm. 3/17: KSDO-1130 San Diego, Cal. at 9:45-10 am. Trip to Brighton proved profitable that afternoon as we picked up our veries from KBRN-800. Fran and Bill Nittler made the trip with me. On 3/18: CHWK-1270 Chilliwack, B.C. in the clear at 3:00 s/off. 3/19: CKSW-1400 Swift Current, Sask. packing a terrific signal at 2:00 s/off, WCRM-990 Clare, Mich per f/c list; KOIN-970 Portland, Ore. in the clear at 3:00 s/off; KDIA-1310 Pakland, Cal. holding down channel 3:30-3:45; KTNT-1400, Tacoma, Wash. testing on top of KFRU @ 4:00; KWAY-1570 Forest Grove, Ore. s/off at 9:15 pm mixed with CHUB. KTKT-990 Tucson, Ariz. atop frequency at 8:00-8:05 pm with CEW QRM. Latest veries: KIXX-1400 KKID-1240 CHWK-1270 KGHM-dx-1140 WMBI-1110 and WCRM-990. Don't forget, Huntley and Brinkley will be attending the fabulous 1963 NRC Convention in Denver. 73.

Maurcie W. Nittler - 1755 South Vallejo Street - Denver 23, Colorado

Report on March DX from the den of Denver's most SW DXer: 3/3- WFUR-1570 logged on r/c prior to XERF's return to the kilocycles. WEZJ-1440 logged on r/c as was WMTL-1580 the same AM. 3/5- KBUN on r/c on 1450, WWBD-790 on with ET asking for reports after 4:00 am. WRSJ-1560 in SS on RS at 5:00, WMPO very difficult but pulled enough through KCBC for a report. WTNS-1560 on RS after 6:00 and KREB-1550 s/on 6:15 for third report. 3/6- KVSH-940 on r/c. 3/5, also taped JOBB-830 for report and JOIB-750 heard briefly for third and fourth Japs heard. 3/9- WKSJ-1420 on r/c. CFCP-1440 s/off 3:05. WPTW-1570 and WFLR-1570 both on for ETs for over an hour, for two good loggings at once. 3/12- CFCW-790 on loud and clear with their NNRC DX. 3/13- KIQS-1560 heard strong on an ET. 3/19- CKSW-1400 heard s/off 2:00 with beautiful signal. Veries in this month are: WHHM-1340 CHUM-1050 KARS-860 KVLG-1570 IYC-880 KHAI-1090 WMTL-1580 WRSJ-1560 KVSH-940 KLIV-1590 WWBD-790 WFLR-1570 WMPO-dx-1390 KABR-1420 KTAC-850 KBRN-800 CFCP-1440 KBUN-1450 WPTW-1570 and 4VE-1035 for country #18 varied. Finally topped 1,900 veries with six to spare. The exodus to Denver in preparation for the big NRC Convention in '63 continues as Murray Mann of Omaha has joined our ranks in the fast growing Denver DX League. Another experienced Convention host to add to your Convention enjoyment. April 5th is the next meeting of the local DX fraternity at Hal Wagner's in Longmont. Only five more months to this year's Convention and then obly one more year to get your reservations in for DENVER in '63.

LET'S KEEP IN MIND THAT THE INDIANAPOLIS CONVENTION DATE IS REALLY BEARING DOWN ON US! IT WILL BE B-I-G, SO BE SURE TO MAKE YOUR PLANS NOW TO PARTAKE OF ALL THE FUN!

George DeGrazio - 401 Garden Street - Golden, Colorado

Musings 9n, as I missed the last deadline and missed out on the 17th issue Musings-wise. Oh well - DX as follows from Denver's most Westerly DX den: KNAK in strong last Saturday again, two reports out to them. KVER-980, Clovis, N.M. lkw. in strong last night on top of KMBC. Thanks for the letter, Hal S.! Will get you a tape soon. Members are flowing to Denver! I had the pleasure of meeting Murray Mann, formerly of Omaha, who now adds to the growing list of Mile High DXers. Also hoping to meet Bob Spencer, who now lives in Golden, and is still interested in DXing and the NRC. Sometimes I wonder whether any Convention has ever been planned for so thoroughly and so far in advance as the Denver Convention in 1963. I'm sure you all have had the occasion by now of hearing wonderful Paul Kallinger's free Florida land advertisements, because XERF is back on the air, and it sounds like on a reduced power, because it just doesn't tip the S meter as it used to. Thanks, Marv, wonderful time at your den last Thursday. Members present were Murray Mann, Hal Wagner, Fran Nittler, Bill Nittler, Larry Godwin, not to mention the gracious host, Marv Robbins, and myself. We were hoping to see John Tucker there (the CE of KDAB) but it was no go. Bob Easterly of Billings, Mont. says he will attend the colossal Denver Convention in 1963. Will you? '73s.

Ray H. Kraul - 6423 33 Street - Berwyn, Illinois

DX was limited to MM 3/26. Too tired to get up to listen to ANs, QRN, and unID TTers, after three hours MM. Here is DX of 3/26- 1510 was occupied by KMOR from 1:50-2:00 s/off, then KGA on RS and WMEX testing. Tuned to 1340 to hear needed WEVE f/c-ET 2:10-2:25 and on. KBOM-1270 test at 2:25, unnn. DX from WKRT in very well. I listened to about 25 minutes of their DX and shifted to 1150 to hear ET from WJRD on till 4:40 anyway. WFDF-910 s/on 4:45 and back to WKRT DX, still good, but with WOKY test. At 5:10-5:20 heard needed WSTL on RS with WBLY QRM, 1600 kc/s. WOKJ s/on 5:22 1590, and CKPC-1380 s/on 5:30 with another playing GSQ in back, presumably CKLC. Veries pretty slow this week: KCLS WORG CKGB. Is it true that the Amarillo gang went door to door with a petition to get XERF back on the air? I'd like to see WCFL go silent for about a month. They have good programs and I like the station, but it would be interesting to try and DX 990 kilocycles. Larry Schwartz- 4819 Atlanta Drive - San Diego 15, Cal.

Static has been simply horrible lately. Those beautiful Ws are literally non-existent now. DX: 3/26- KTNM/KSPA-1400 r/c at 3:30 at same time; 4QN-630 at 4:30 AND CJOB-680 at 5 through KNBC's OC. 4/1: KABY-990 ET as per v/l from KNND. Also KMPC 710 was off for monthly silent period. ~~Knk finally xxxxxxxx~~ Tried for 6 am. s/ons and found two of 'em, but static so horrible couldn't ID either. KGNC-710 s/on at 8 and KMPC back on at 8:30. KWIC-1570 s/on through XERF at 7:45 but unnn. Veries: KURA-1450 v/l CFCW-790 v/f, KSHA-860 first verie, first report. FW may disagree, eh Frank? KNDE-1340 v/l "Candy Radio", KNND (not KMND as I thought)-1400 (ex-KOMB) also "Candy Radio" who gave me the tip on KABY-990. And finally after 1 1/2 months WHUN-1150 v/l, CM. Does the 'm' in the v/s mean veried on CM? (Means verie included a CM. ed.) Verie total now 374. KCBQ-1170 has been off AN past two AMs at 4, but don't think it's regular. KVOO is the only thing there anyway. My thanks to Jeff Lob and Andy Rugg for the help. Conelrad tonight, KROY-1240 said they would be silent 3-8 for it. Also KGBS and KMPC-710 are silent, the latter from 3:30-4, the former 3-7. Some questions: Who s/on on 1470 at 6:45 am with SSB? (3/31). Who s/on with SSB on 1450 at 7:30 am on 4/1? That's all for now. If any of you have any bumper stickers (XETRA) I'd appreciate a few. I've got plenty of surveys in exchange. '73 and best DX to all. One last thing - KSVN-730 was on ET on 3/11 at 2:30 asking for reports.

Arthur V. Bjork Jr. - 31 Lyman Avenue - Medford 55, Massachusetts

To George Greene - thanks for the surveys. DX since last Musing: 3/24- WLIE-1190, 5:47 pm; WDMV-540, 6:14 s/off. SM 3/25- XEB-1220, frequent IDs, "Esta es Echis-Ay-Bay." 2:35 am; WKLO-1080, 2:56 am; KTCR-690, ET with "500 Wonderful Western Watts" at 3:09 for a report. They're my best from Minnesota by 49,500 watts, hi. Finally, MM 3/26- WKRT-dx-920, 4:00 am, with their 500w. DA, instead of lkw non-directional as sked. Verie back on 3/30, today, says null points protect Providence R.I. and Fairmont, W. Va. with major lobe to NW. This probably explains why they weren't heard as well here as I'd expected. They also sent a CM. Also on 3/26, WDEV-550, 5:10 am. Somehow I have the feeling I don't go about logging stations right, or at least not efficiently. How do some of you guys do it? Also, as usual, I have a few questions: How many watts do YVQO-650 TGUX-1020 WNX-750 and Radio Tiempo-740 run? Also, what is XEDM's ID, and is XEOY-1000 AN on MMs? Oh well - '73s for now.

April 7, 1962

DX NEWS

9

Michael P. McDonald - Seven Star Lane - Concord, Massachusetts

Well, I finally got the old Spartan back to working. It still isn't perfect, but when I compared it with a new National NC-105 that I had brought home from the Lab, it came out just about a dead heat. The National, which has such handy things as bandspread, was an easy winner on SW (Radio Leopoldville came in like a local) but on the BCB the Spartan proved its equal in every respect except selectivity. The National pulled in a WBZ image on 980 - I've never had an image on the Spartan. The clincher came when I got a possible ID on KNBC - on the Spartan. DX (the first two days' loggings were taken on a GE clock radio with an internal loop antenna) 2/25- Followed a TT on about 1590 from 12:45 to 1:30 with no ID; 1:31 WKBW-1520 Buffalo TT; 1:33 WNJR Newark 1430 with the "Gospel Caravan of Detroit" (sic), a Negro fire-and-brimstone program. 3/11: Tried to get an ID from the station I keep hearing behind WEEI when I am listening to "Music till Dawn", at 2:00 seemed to be WARH-590, Scranton, Pa. Now with the National 3/16- 1:10, WFLR-1570 Dundee, N.Y. TT; 1:15, WDBF-1420 Delray Beach, Fla. TT under WHK RS; 1:18 WFLR TT again. 3/17- 1938 (must have been late SSS) WLS-890 Chicago. 3/18- 1:00, TT on 1300, possibly KGLO Mason City, Ia.; 1:15, unkn WAVZ-1300 New Haven; 1:20 WBZ-1030 putting a fine image on 980. Now, still the same AM, back to the Spartan: 1:38- WLOQ-1510 Nashville with Evangelistic mx; 1:40 WMAQ-670 Chicago; 1:58 CFRA-580 Ottawa; then from 2:07 to 2:44 what I think was KNBC-680 San Francisco faded in and out under WMAQ. The ID wasn't any too clear, but the program was one of live dance mx from a downtown hotel - does this sound like they, Californians? If it is, it will be my best catch. Too bad about XERF; I really thought The Millennium had come and the Forces of Darkness had been routed. By the way, someone recently asked for plans for a pre-selector or Q-multiplier. If he is still interested I can send him plans for the transistorized Q-multiplier that I use. 73s and a Joyous Easter to all.

Sam Simmons - 11685 Guertin Street - Montreal 9, Quebec

It's been a long time since I've showed up in these pages; last report being October '61. This season is one of the best DX years I've been through, and I've been trying to take advantage of that fact. Best logged this season was the CHAK-dx which I got on a tentative report. Verie says "Nice going. I can understand what you were up against. Yours first confirmation. CX very poor evening of DX programme." They are on PST, not CST as I reported. Other prize veries this year are KFRO-dx CKSB-1050-dx KPMC-1560 and KPIG-1450. SSS was especially good this season with CJCB-1270 CJIC-1050 WLBA-1580 WTYN-1550 WTAY-1570 and many others logged at this time. May I suggest you watch the graveyards at SSS for some rarely heard stations just before they cut power? Two stations seem to keep the daytime power later than SSS and are very strong here - WNIA-1230 500w. almost daily, and CHEF-1450 in daily. WTVL-1490 and WESX-1230 have also been heard more than once. Anyone in this area want to hear something great? Tune in CFOX Monday through Friday at 7:30 pm to 9:00. My favorite show, hi. WNTA-970 has switched to WJRZ (Jersey) a la WMGM/WOV/WRCA. This probably explains why they didn't verify a recent report. That 1410 you've been hearing is XECF-SS, 5,000w. who are now part of the Radio Mil Network. Anyone who needs WGUY-1250 try at SSS when they really boom in over a weak WIPS. IDs as "Big Guy." (WJAB-1440 IDs as 'Big Jab'). Lastly, Phil Jacobs is no longer with the NRC. Montreal '64, Hamilton '68; Denver '63. OK, Ernie, put this one in the shoe box. (It's actually a jewel box, Sam, hi -ed.)

Stan Morss - Route 3 - Bradford, Massachusetts

3/24- WENZ-1450 copied on AN show 3:30-3:52 am. KHAI-1090 Honolulu at 4:08-4:45 am. Verie, picture card from WRWJ. Veries, WRYM with CM and program sked, and KTCR. 3/25 WUST-1120 RS 6:20 am then WYOL s/on 6:30. WGTL-870 s/on 6:30. WLSH-1410 RS 6:45. 3/26- WLSH test 1:45. Mx on 1460, no ID, 1:48 and on. WKRT-920 DX at 4. Spring is here - see you at Indianapolis, if all goes well. To Carroll S., Bill H., John D. and anyone else I owe letters, will answer as able - but am on 14 hours seven days a week work sked from now till Labor Day.

Dick Kwiatkowski - 11 Walton Avenue - Celoron, New York

WKRT-920 Co tland N.Y. coming in at least S-10 over 9 dbs. Received verie in four days and said they considered it an excellent report. New veries in, WKRT-dx WKYE-1270 Keyser, W.Va., CB23-dx-730, Radio San Juan-1560. Any baby trying for TGUX verie? Does anyone have one? WDOE-1410 Dunkirk N.Y. S-7 at 10:10 pm. Concerning WGGG, they really penetrate the 1230 spot with their 1kw. CE sent me a very nice letter. WSUN-620 3/26 in at 3:30. John, how's DX coming in States? 73.

THREE MORE WEEKLY ISSUES, AND THEN IT'S MONTHLY. HELP US TO SWELL THESE THREE ISSUES INTO SOMETHING LARGER THAN THEY HAVE BEEN RECENTLY. LET'S HEAR FROM MORE OF YOU!

INTERNATIONAL DX DIGEST

Edited by Fred L. VanVoorhees, Box 132, Lemoyne, Pennsylvania, U.S.A.

Not as much this week, but still good DX and good reports. Let's take a look at it. Incidentally I have decided not to combine material copied from other publications with the member reports. This material, when used, will appear after the member report section.

A QUICK TURN DOWN THE DIAL

- 650 Guadeloupe. I was much elated to get a definite verie, by letter from this one, after my 2nd report of the season to them, re reception on 2/27 and 3/2. Daily s/on 0515; s/off at 2115 except Sat. 2300. Some special broadcasts. Signer is M. Salmon. Country #57. (BD)
- 720 ZYU-61 Porto Alegre, Brazil, air mail verie with air view of city Please note that this is listed as ZYU-58 in WRH. 47th Brazil verie. (HT)
- 737 Barcelona, Spain (No doubt about it) in with good signal at 1903 on 3/30. (BD)
- 746 Hilversum apparently signed on early on 3/29 as noted at S-7 at 2345, possibly a special program. (BD)
- 755 Timisoara, Rumania, a nice S-7 at 2310 on 3/26, with program of Rumanian folk music. (BD)
- 785 "Radio Pyongyang", North Korea, very loud and in the clear after 0700 on 3/25. (HJW)
- 840 "Radio Peking", China, S-9 plus most of the time from 0706 to 0750 on 3/25. (HJW)
- 854 Bucharest, Rumania, heard at 2315 on 3/26, weaker than Timisoara, readability difficult. (BD)
- 881 DDR Berlin, picked up thru WCBS on 3/26, around 2215, readable except for details. (BD)
- 900 KFRB Fairbanks, Alaska, IDs at 0500 and 0531, 3/25, first time heard in ages, and never verified on this frequency. (RHM)
- "Radio Peking" (Sian, Snehsi Province per FBIS & WRH-62) logged 0728-0800, 3/25, first through XEW, later under CHAB. This is same frequency I verified Shanghai on years ago, in English to Formosa. (RHM)
- 917 Ljubljana, Yugoslavia, heard just after 2300 on 3/26, but not good enough to send a report; too much confusing QRM from 920 Kcs. and not enough volume. (BD)
- 971 Langenburg, West Germany, verie by QSL card and letter from WDR, Koln. (HT)
- 1007 Hilversum, Holland, a fair signal on 3/27 at 0040. Apparently same program carried on Hilversum (746), at least a woman was speaking. (BD)
- 1020 ZCO Tonga, air mail letter and also QSL card verie, 8 beautiful Tongan stamps on envelope. Manager very pleased and wanted info about my area and this was to be aired at 0845 on April 5th. (HT)
- 1040 J... New Japanese station logged here from 0555-0700 on 3/25. Appears to be same station that Pete Taylor and Roy Millar reported several weeks ago. (HJW) / (HT)
- 1065 HLKX Inchon, South Korea, air mail verie, #2 from South Korea.
- 1088 Catch of the week, (twice) was Tirana, Albania. Picked up on 3/26 at various times between 2325 and 0005, and on 3/27, with occasionally S-8 signals between 2330 and 0030 on 3/28. Seemed to be mostly commentary and announcements. There was quite severe QRM constantly from WBAL and I had to take most of my log when WBAL had voice. (BD)
- 1090 KHAI Honolulu, Hawaii, logged on R/S at 0400 easy log. (SRM)
- Verie by letter signed by Barry Cunningham, C.E. (RHM)

- 1097 Bratislava, Czechoslovakia, has been good several nights lately around 2300 and up to about 2400. (BD)
- 1110 YVNN Punto Fijo, Venezuela, QSL card from Radio Rumbos. Please note card lists YVLL (670) as mother station, with 4 relays Carupano (940), Sucre (1020), Barcelong (1080), and Punto Fijo (1110). #38 from Venezuela. (HT)
- 1140 JOBR Kyoto, Japan, verie in via air-mail from JOBR, Kyoto Broadcasting Co., Ltd., Kyoto, Japan, signed by Mr. Yoshiki Yanagawa, DX Time Section Chief Director. He sent a fine letter and QSL card. Japanese verie #42. (HJW)
- 1160 CM-- INRA stands for "Institucion Nacional Reform Agrario". Maybe a report to INRA in Havana would get a verie? (SRM)
- 1178 Malta, letter and QSL card, positive verie from London after many failures to get a reply from Malta direct. This is called Central Mediterranean Relay Base. 143rd country. (HT)
- 1185 HRVW San Pedro Sula, Honduras, air mail verie and lovely pennant. Signer Jorge J. Sikaffy, states, in English, that this is new frequency, no longer on 1170 Kcs., correct your log. (HT)
- 1320 HJJY Bogota, Colombia, air mial hand-printed verie card in envelope, 59th Colombian. (HT)
- 1484 Benghazi, Libya, air mial verie, colorful stamps on envelope. Most unusual verie ever received. Left half of letter in English, right half in Arabic. You can compare lines and see your name in Arabic. Three attempts failed reporting direct to Benghazi, but one to Tripoli HQ clicked. (HT)
- Received with S-7/8 signals on 3/27 between 0007 and 0025, one of the French stations on this freq. carrying the Arabic program of the French National Program. Poitiers most likely station. (BD)

REPORTERS

- HT-Henry T. Tyndall, Jr., 285 North Street, Burlington, Vermont.
 SRM-Stan R. Morss, RR #3, Bradford, Massachusetts.
 HJW-Hank Wilkinson, 6620 Beeman Avenue, North Hollywood, California.
 BD-Ben Dangerfield 3rd, 202 Governors Drive, Sproul Estates, Chester, Pa.
 RHM-Roy H. Millar, P. O. Box 778, Bellevue, Washington.

A number of changes have been received from the European Broadcasting Union in Brussels, Belgium. Here they are:

Deutschlandfunk,

POWER CHANGES

- 656 Tel-Aviv, Israel, from 800 watts to 100000 watts 7/26/61.
 674 Radontheim, Austria, from 100 watts to 50 watts. 11/16/61.
 1448 Agrigento 2, Italy, from 100 watts to 1000 watts, 10/30/61.

FREQUENCY CHANGES

WEST GERMANY--*-Ravensburg and Reutlingen SWF stations changed from 1538 to 665 Kcs. 1/1/62 to make room for new Mainflingen transmitter.

April 7, 1962

ISRAEL--Haifa changed from 1025 Kcs. to 1097 Kcs. with 500 watts on 7/26/61.

POLAND--Olsztyn, 2000 watts, changed from 1580 Kcs. to 1574 Kcs. on 12/8/61.

ROUMANIA--Bancasa, 5000 watts, changed from 1432 to 1430 Kcs. on 12/12/61.

SPAIN--A lot of changes are listed as follows:

971 from 969	La Coruna	RNE	2500	11/6/61
1181 from 1196	Carlet	EFE48	400	12/31/61
1197 from 1171	Almeria	EFJ25	2000	11/22/61
1224 from 1227	Cuenca	EFJ54		12/16/61 (San Clemente)
1240 from 1568	Villena	EFJ33	400	12/30/61
1294 from 1354	Guadalajara	EFJ9	800	11/7/61
1295 from 1313	La Coruna	EAJ41	2000	12/12/61
1304 from 1345	Murcia	EOP12	2000	12/16/61
1368 from 1358	Cordoba	EAJ24		12/1/61
1374 from 1377	Sueca	EFE42	500	11/8/61
1396 from 1390	Granada	EFE45	2000	12/28/61
1405 from 1464	Leon	EAJ63	2000	11/16/61
1420 from 1461	Zamora	EAJ72	2000	Late November
1456 from 1454	Vitoria	EAJ62	2000	12/30/61
1517 from 1511	Lorida	EAJ42	2000	12/23/61
1538 from 1541	Elche	EAJ53	200	12/21/61
1565 from 1558	Villanueva y Geltru (Panades)	EAJ35	2000	11/11/61

EBU offers the following comments on the various changes reported above. "Monte Carlo (755) operates only from 0500 to 0900. Oujda, Morocco (593) increased on 11/1/61 from 1 to 100 Kw., and this has just been reported. IFRB notes one new station, Majadahunda, Spain, on 989 Kcs. with 20 Kw." Listening comments from the monitoring station are: "An Egyptian station was at times heard on 793 Kcs. in November and on 800 Kcs. in December, 1961. A Yugoslav station was at times heard on 1490 Kcs. between 11/18 and 12/8 and on 1499 Kcs. since then. The Spanish station RNE Malaga has been observed alternately on 1005.8 Kcs. and 1007.2 Kcs. since 11/21. The Yugoslav station at Nis has been observed alternately on 926 Kcs. and 932 Kcs. since the beginning of November. The Spanish station at Segura, was observed for the first time on 1/9 on 1316 Kcs., and since 12/28 on 1335 Kcs. The jamming transmission previously radiated on 647 Kcs. has not been heard since the end of October, but on the other hand, a new jamming transmission has been observed on 701 Kcs. since the middle of December."

NOTES FROM THE NEW ZEALAND DX TIMES

AFRS Iraklion, Crete, operates on 1570 Kcs. from 2 AM - 10 AM NZT. Verie by letter from Lawrence Stern, 1st Lt., USAF Overseas Network, 7122 Support Squadron, APO 291, New York, N. Y.

AUSTRALIA--2FC and 2BL have increased power from 10 to 50 Kw. It is also likely that 3LO and 3AR will also go to 50 Kw.

MALAYA--Now 10 Kw. on 660, 860, and 1040 Kcs. Wants reports to Tham Seng Kit.

NEW ZEALAND--Reports for 4YX should be sent to NZBS, Box 888, Dunedin, as this is only a repeater station of two single 1 Kw. transmitters. 4YW Alexandra on 640 had official opening on 2/24.

MISCELLANEOUS--Morocco logged on 593 (Oujda-see above), Teheran is back on 1325 Kcs. Russian on 584 Kcs. is RV78, Ijevsk, Udmurf. The one on 836 is RV450, Vinnitsa, Ukraine. Polish station now on 1578 Kcs. possibly Olsatyn. Strange Chinese on 1200 Kcs., not Macau, possible BEC27 in Taiwan.

Let me know if you like this format, keeping your reports in the frequency section, and doing the copied material separately at the end. This will be it for this week. Keep the reports coming through the end of the month, and we'll try to keep a good section coming out to you.
