### K F R O

Mr. James R. Curtis writes to say his station will be happy to put on another big two hour NRC DX on Monday 1/28, from 2 to 4 a.m., C.S.T. The channel figures to be clear until 4:30 when WIVV signs on, and at 4:45 when WMHI does likewise. They will try for phone calls, as last winter. We can look for band music, some tone and code, and Mr. Frank Noren, who did the NRC Show last year, will be back for a repeat performance. Though directional, KFRO should get out well, having this clear channel, and we hope even if you have heard KFRO that you'll still listen & report! NORMAN PILLSBURY.

### NOTES

The 12D-1000 seven-minute DX will feature greetings to NRC members from the NZDXRL annual Convention. While it may be difficult for all to hear, they may hit the WG!

CBI-1140 had a power failure on 1/7 and they have asked our forgiveness and have reset the date for February 11th, as noted above. This will be a LIVE show!

Mr. Pryor E. Neuber Jr., of WMHI, writes to ask for our NRC slips to send to non-members they hear from from time to time. Now DXes EVERY MONDAY, 4:45-5, no 4-5am!

I don't think I've even heard Canadian this season & I'm sure none that I don't already have verified so I'll be up in the morning looking for all those Canadian stations. Hope CX are good from the N. I'd like to get WMHI too, as they didn't verify last time as my report was evidently considered too skumpy. Glad to see that Ralphie is feeling well enough to submit reports again. Best 73 & DX.

Hank Wilkinson Jr. - 6620 Beeman Avenue - North Hollywood, California

The NRC DX NEWS Musings Section helped me to sell my Hallicrafters S-76. Frank Williams, of Lynwood, Cal. made final arrangements on Sunday 12/6. Frank, I hope this receiver gives you as much enjoyment & pleasurable DX as it gave me. Received two fine veries this past week, namely HJBI-840 & HOS23-1295. This HJBI has been a hard one to verify - I don't know why - but I sent him a long reception report dated 12/21 & received a fine v/l & pennant on 1/2. Logged HOS23-1295 on 12/3 & received a fine v/l on 1/2. V/s & QRAs for each have been sent to the International DX Digest. Finally logged two new Hawaiians on morning of 12/31. KTRG-990 heard with KEWB still pounding away. KHAI-1090, still on after 4:30. Has many commercials. KTRG goes off at 4:00. The Puerto Rican DX was not heard here. Was he on? The CPC doing another fine job this DX season. Will certainly be trying for WBNB, Virgin Islands, & several of those far-Eastern Maritime Province stations. I would like to hear from anyone who has any ideas to make the Supremacy Ratings more attractive & meaningful to NRC members. All letters will be read, digested & answered. By the way, some of you "Old Timers" haven't submitted your latest up-to-date lists. You've earned the right for some praise so let me have the information. Lots of good DX & good health to all.

Larry Cowles - 5910 Morning Glory Lane - Pleasure Ridge Park, Kentucky

First I want to thank the members who sent me welcome notes. I enjoy hearing from you very much. I did quite a bit of DXing during the Christmas holidays. I guess I'll start with 12/20. WCPM-1280 f/c @ 2am. WMLT-1330 f/c @ 1:16. 12/21- WJAS-1320 12:58 am. 12/24- CKVL-850 @ 3am. WHAB-1260 @ 3:59, TT. WGH-1310 1:40. XEG-1050 4:15 am. 12/26- WENN-1320 @ 5am. CMCA-730 @ 11pm - hope they verify. 12/27- WWNC-570 11pm, with heavy WKBN interference. 12/28- WTAL-1270 2:15am TT, WRC-980 1am. 12/29- WFTO-930 @ 5:17am. WACT-1420 @ 5am s/on. CKY-580 @ 4:35. 12/30- WFLA-970 @ 5:35. WOOF-560 6:30. WEMB-1420 7:00 s/on. 12/31- WGIG-1440 @ 5:30am, Radio Americas-1160 4:54am Veries are in from CFOR WCPM WPDQ WHBF KELI WGBF WJAS WCOA WWNC XEG & WYZE after five months. I still have WKLO surveys. So far this year '63 I haven't DXed. I have one resolution, to verify 200 stations this year. Wonder if I can do it? I've noticed lately that most of my new stations are from the S. I never seem to get a station from the W. Oh well, that's all for this time. 73s & good DX to all.

Bill Stone - 51 Albert Street - Box 543 - Stouffville, Ontario

Member asking, XEWA has an attractive QSL card, address letter to Sr. Jose Gonzalez Cordova, XEWA, San Luis Potosi, SLP, Mexico in EE. Ev Johnson & I correspond with him regularly. XEWA verifies 100%, he has said most reports are good, some no good. Will verify only a true report - questionable type, Slot 13 - the waste basket. 1/5, 1370, does anyone know who second station using f/c-TT 2:30am was? I think he said WKYO, Caro, Mich, gave plenty of IDs, but station using TT (WBTN Bennington, Vt.) & WSPD covering. Gave good ID 2:45 & at 3:00. WBTN also announcing as f/c. Now if you boys want a mystery, tune 730 kc/s. Who is that playing Indian-type mx? Be careful - one ID is not enough. I have sid different ones now. Mx resembles same as heard on 854-Lima. Covers CKDM, three announcers on program; first & third talk slowly & distinctly, "Radio Vallorah en Colombia." Second announcer gives most if IDs & his speech very fast. Lastly, KXEL - is anyone else having trouble with him? On WKFE DX his frequency was 1534-1556 kc/s. & since then, this seek, not steadily, has been giving heavy sideband to 1550. Exception, 1/3 when KDAB, Arvada, Col. came through him easily 4:30-4:59. WAAY changed sky hook 4:59, jumping from S-3 to S-9 plus. Won't be surprised if CBE puts in a complaint.

Mike King - North Eastham, Massachusetts

I guess it's time this member sent in a report. Quite a lot to report, so I'll get right down to it. 12/7- WKID-1580 in @ 1:30 with f/c. 12/10- KFAB-1110 @ 3:29am; KORI 650 @ 3:47, WXYJ-1340 DX in at 4:08am. 12/24- WMFD-630 in @ 12:08am, KFDA-1440 @ 1:31 am with f/c. KOB-770 @ 1:42, WNLC-1510 @ 1:54, KBCM-1270 @ 2:11am. 1/7- WEVA-860 at 12:52am with ET, WGBI-910 @ 1:24, WBKN-1410 @ 2:11, KXLY-920 in @ 2:37, CJMT-1420 DX in @ 3am, CKNB-950 DX in @ 3:31, KOMO-1000 in @ 4am, KGBS-1020 @ 4:30, WMHI-1370 @ 4:32 with their weekly DX show or should I say, ID show. Veries in are WHAT WFAU WAGY KEZU WRYM KORL WXYJ v/ls, KNBR KFAB WNLC WFBM v/cs with WFBM's a Club card, also KFDA, Club card. About 50 reports are still out.

Stan Morss - Route 3 - Bradford, Massachusetts

1/2- Verie "La Voz de la Sabana"-1533 for 12/17 report. I sent report registered air mail & to "Director" - full details in International DX Digest. No call mentioned in verie. Also CHOW & WWML whose CE seemed very interested in DX. 1/6- Radio Cristal-870 Guayaquil Ecuador AN show copied 4:18-5am. ZFB1 & CHNS both off this AM. Verie, WMAY. 12/7- CFMB-1410 Montreal under WPOP 12:41-1:01am s/off. Polish on 1502 copied 1:05-1:59 fadeout, QRM by weaker one in German. TA over KOMA-1520 @ 2:01 but faded fast, Slavic language, Czech. KTOE-1420 AN with good cw mx. Another Radio Tricolor on 1200, AN. CJMT-1420 DX over KTOE, 3:10. WGUS-1380 ET 3:25. CHLO-680 DX 3:38. CKNB-950 DX 3:40. WJCO-1510 Jackson, Mich. 4:03-4:15 mx & OC. Verie, WGMM. 1/8- WBVM-1550 Utica ID 1:06 with OC following. Verie, WCDS.

Ed Drumm - 14 Dale Road - Wethersfield 9, Connecticut

First off, I see many are putting WRYM-840 as Newington, Conn. for its QTH. It is owned by a company from Newington but is from New Britain, Conn. Studios are in West Hartford, Conn. They also operate WHNB-TV from West Hartford. Congratulations to Larry Godwin. Only new verie is in from WSAO on a test. Now for my new ones, hope I don't overlap: 12/30- WBSM-1420 logged daytime. 12/31- XETRA-690, KOIL-1290 KFH-1330 & early got WKAL-1450. Does anyone happen to know WKAL's s/on? Also on 12/31 logged WJOY-1230, Joy Radio. Still no WRH or Jones Log at this QTH. Hope 1963 is DX-filled.

Bill Wilson - 1126 Alameda de las Pulgas - San Mateo, California

Things were really hopping here on 12/31 when 12 new stations & two new states came in. #1 Hawaiian was KNDI-1270 @ 3:10-3:40 & again 3:55-4:05 s/off with SSB. Program was a request show. ID as Kandy Radio. KQMS-1400 was AN, logged @ 3:40-3:55. Will try to find out if AN will be continued. KLAS-1230 4:30 under KDOT; WACT-1420 5:03-5:20 Gospel mx, #1 from Alabama; WGBA-1270 with "Early Bird Show" 5:24-5:40; KHOW-630 7:25-7:30, then drowned out by KFI test. KHMO-1070 7:00 ID, ten covered up by WKOW; CBW-990 7:32-7:38; WKNX-1210 8:00-8:08; KVEL-1250 8:15-8:30 with KWEX under for a minute @ 8:21; KUJ-1420 s/on @ 8:30. In addition to seven of these new stations, reports have been sent out to KLAJ-1600 KCLS-600 WKOW-1070. Veries are in from KGON & CJOC by v/f, KEOS & KPTL by v/l. KPTL verie said that at the time I heard them, 8:06pm, they were using 500watts, directions E/W. Best of DX.

Dallas John - 337 South Stewart - Lombard, Illinois

1/3- WACT-1420 on 6pm s/off for relog & report. Tried 1470 under WMBD & got WBIG after a while, at 6:05pm on RS. 1/5- WTAY-1570 at 6pm s/off. KAMD-910 @ 6:30pm on RS, then WCOC broke it up. KFYR was noted on top of 550; unusual. Tried the graveyarders a little: KNOM-1230 @ 8:57pm on RS for a surprise, with basketball game. 1/6- Took log on KROS-1340 coming in well in WJOL's null. Another 1470, CHOW, @ 8:33pm on RS under WMBD of course. 1/7- KTOE resumed AN sked, so CJMT just barely logged on DX sked. CHLO-680 was in fine, bothered by KNBR at times. KSEN-1150 had great signals on r/c from 3:16 to 3:29 with lkw. Then something unexpected, CKNB with great signal on DX! They rolled in at 3:30! However, CBI-1140 wasn't heard, since there was a strong SS, probably WITA, on the frequency & nothing could be heard behind them here. WGM-1380 was on most of the morning with an ET, s/off @ 3:47 with SSB. WBNX announced test at 3:50 in SS. WJAB-1440 s/on at 4 with strong signals so maybe heard out West. WEAN-790 s/on at 5 for only my second R.I. Tape of 1340 in WJOL's null for an hour revealed WSTV s/on @ 5:25, WIZE on RS (maybe s/on 5:30) & possible KOCY & WTRC, & the lot of them were bothered by Milwaukee's AN pest, WRIT. I also heard a call which sounded exactly like WKAD but can't find anything similar. Veries are KEWB-910 JGB-1360 WVOP-970 WFIL-560 KFAL-900 CKCW-1220 WHVR-1280 KMOR-1510 WPTX-920 KDAK-1600 KZEE-1220 KBRK-1430 & WmUS-1090. CKCW sent a v/l saying their QSL was at the printer, & I got it the next day. Forgot WSMB-1350, a nice QSL. 73.

The 12/29 DX NEWS arrived here today, 11 days late! Contests News: Dallas John of Illinois has completed his first tier this week which is 26 points. He earns his ten point bonus which makes 36 points, & he then added 20 letters for Tier #2 making a total of 56 points. Dallas also has 186-37-16 in Contest #1. Ben Dangerfield III - 202 Governor's Drive - Sproul Estates - Chester P.O., Pa.

The TAs have noticeably picked up since 1/1, so I have been concentrating on those in hopes of bagging a few new ones while the bagging is good. I did get up at 4:30am on MM 12/31 for the WKFE-1550 DX only to find, like the rest, that the program did not go on as sked. However, I did catch them & with a strong signal, signing on at 5:00 with their RS. On the following days a variety of TAs, but no reports. Sunday afternoon, beginning about 4:15 some fine TA signals, including one on 1259 kc/s., weak, with EE programming until 5:30pm, which may have been the VOA at Rhodes, as "Voice of America" or "America" was mentioned on the half hours. There were many long distance signals on MM 1/7 including Saarbrucken-1421 1:20-1:35am, & CSB30, Porto, 1169, from 2am s/on to 2:15. Both of these were new loggings, & reports sent. 1/7-1/11 was a period of Central European activity & the AN East Germans on 692 728 782 881 1043 & possibly 629 were putting in appearances in the middle evening hours. On 1/11 the AN Swedish stations were noted with very weak & spotty signals, none good enough to report. These were Falun-1223 Horby-1178 & Sundsvall-593, with hets on 719 & 773. The above reception from Sweden occurred 8-10:30pm. On 1/12 I enjoyed the pleasure of a visit from members Joe Lippencott of Moorestown N.J. & Dave Dave Baughman of Camden. We DXed & talked DX 4:30-11pm & in the course of the evening tuned a number of TAs. The three of us share a common interest in foreign DX & plan to get together again. We'd also welcome any other members from the Phila. area. Recent veries: Bacau, Romania-1052; KIFG-1510-DX; Gainsflingen, W. Germany-1538. Also a nice v/l from Joe Rahrer of WLCX-1490, confirming my reception of their remote~~ly~~ XR, KD3367, on 1606 kc/s.

Jeff Lob - 93 Oakview Terrace - Short Hills, New Jersey

A much-needed Christmas vacation brought to this den some DX worth repeating, namely a week or so of excellent reception from the North. To elaborate: 12/31- Northern CX first noted when CKEC-1320 topping as has never occurred before, so log took @ 5:20pm & report sent. Prompt v/1 back. Also heard was CJCB-1270 on top with no sign of WSPR. 1/1- (Happy New Year) Early evening reception of WGIG-1440 unkn @ 6pm & CHEX-980, CKRB-1460, CFGT-1270, WABI-910 CJSO-1320 all on top with good IDs. Also, some FF crept through on 1240 so guess between La Sarre or La Tuque, Que. (WJTN-1240 was AN for New Years) & big surprise at 6:28pm brought S-6 signals from St. Pierre & Miquelon-1375 with ID & mx program on the half hour so tape & report in FF sent with all fingers crossed. If anyone, anywhere, has any info on this RTF outlet, please let me know, for I have taken a great interest in these isolated islands S. of Newfoundland. Anyone verified 'em? Well, here's the answer to my "Lille-1376" stab-in-the-dark. Believe "Radio St. Pierre" runs 1kw. 1/2- Continuing good Northern CX with CHRL-910 heard at 6:15pm with ID. 1/3- Only new catch was WKAZ-950 over/under WPEN. 1/4- WHLN-1410 s/off 5:45pm under POP. 1/5- S/off in the clear from WENN-1320 WCRT-1260. 1/6- VOA-1196 Munich good as well as other TAs noted. 1/7- This productive MM brought in all DXes except CBI (didn't stick around long enough). Signals in FF from CJMT-1420 & CKNB-950 good, KTOE-1420 giving CJMT some trouble as they were S-9 here so report sent to both as well as CKNB-950. CHLO-680 also heard, Lisbon-665 was really packing a signal that AM. Also, unIDed signal sounding like SS on 953 with loop E/W, so a TA is a good guess. A helpful tidbit of info for those of you who are puzzled by Portuguese on 620: After several SMS of hearing them, I finally caught their s/on @ 3am in the clear (some SUNy interference) & a clear ID as "Radio Asuncao" & location given as Ceara or more commonly called Fortaleza. No call is given in the WRH & none given at s/on. They must run at least 10kw. Speaking of 620, report to KTAR for s/off @ 3am on that frequency. Thanks to Ken Washburne, watch for KBAM PoP TEST on 1270 coming soon, Feb. 11. Some v/s coming soon.

P. E. Crocker - Box 76 - Monmouth, Maine

DX has been fairly well since last report. High winds over New Years weekend took down both my 100' dipole & the 40' longwire. Have put the 40' longwire back up & will use that for the rest of the season. DX by date: 1/4- HJED-820 Cali, Colombia at 3am with EE ID & asking for reports of reception. They were strong & seemed like a local. 1/5- WJDY-1470 @ 5:30am with NX & ID. 1/7- CJMT-1420 DX 3:02am, very weak & WPOP-1410 slopover. No report sent. CHLO-680 DX @ 4:56am fair signal & report was sent. CKNB-950-DX 3:30am, very good signal & report was sent. WGH-1310 at 4:28am with ID & NX. WILS-1320 @ 4:31 with ID & NX. Missed the CBAF-1300 DX by ten minutes. Thanks to Bill Stone for WERA-1590 TEST tip but I fell asleep five minutes before test, ecch! I'll write shortly, Bill. That report in the 1/5 issue with no name sounds like Dan Miller with verie shortage, hi. Only one verie here & that was v/1 from WCDS-1440 TEST. 1/11- Jones Log has finally arrived & I must say it is well worth the \$2 cost.

Doug Murray - Box 305 - Dartmouth, Nova Scotia

I trust you all had a nice Christmas & will have a successful New Year. DX here is picking up. 12/25- I caught CJLS-1340 for the last one in Nova Scotia. 1/7- CJMT-1420 DX, CJOC-1220 & San Francisco on 680 under their new call. 1/9- WGNV-1220 from under CKCW with the aid of my loop. CBI was not on due to a power failure on 1/7 so they are to be on 2/11 as on Page 1. Thanks to Bill Stone for the news on WERA. Veries in here recently from KMAM-1530 WBUC-1460 KBOX-1480 CHEF-1450-DX WFAU-1340-DX WCDS-1440-DX. Some of these November DXes are coming through with veries. Does anyone know who the FF I heard on 1360 was? Congrats to Larry Godwin. There aren't many of us bachelors left, hi! Thanks to everyone who sent me Christmas cards. 73.

Mike Fusick - 2036 West 19 Street - Chicago 8, Illinois

DX NEWS

Andy Rugg - 19 Dunbar South - Waterloo, Ontario

897 is the verie total, thanks to recent additions from WJAZ-960 WBZI-1380 WGAS-1420 WHGR-1290 WVYN-1260 CMCA-730 WGAN-560 KS00-1140 WBLF-1330 KEZU/KARK-920 XHMO-860 WKOP-1360 CFCY-630 WTVB/WAUB-1590 WTON-1240 WCRL-1570 WSDC-1560 WCDS-1440. DX, in Montreal: 12/29- 33rd BCB country logged when Guadeloupe-640 s/off 11pm. 12/31- CHRC-800 AN; CJMS-1280 off due to technical trouble for three hours. On 1280 WADO on top until lam, CKCV-to 2, both unn. & a Colombian until 3:08, COMS' return. I think I heard one ID from Denver at 2:06. On 1290 unn WIRL & needed KOIL (not reported) were battling it out. 1270 saw CHAT/KTFI together around 2:05, KTFI being State #47. Unn CKCK ruling 620, rare here. 1/1- WDON-1540 s/off 5:14pm; WILA-1580 s/off 5:31 making 1580 my third frequency with 30 stations. 1/3- Unn CKWM-710 S-9 plus 6:18pm. 1/7, back in Waterloo; unn CHLO/CKNB DXes. ZFBI-960 @ 3:06; WOPA/WOSH-1490 AN 3:30; WMIA-1070 s/on 4:30. 1/9- Unn CHRL-910 way over everything @ 5:55. 1/10- No CBAF heard here. At SES CKWM/CHRL strong; needed KBOA-830 s/off 6:15pm, not reported; CKKW-1320 reported 6:45. On 1/3 a year old Midnight prediction was fulfilled when CFCF AM & FM were sold to CKVL. CFCF will change calls & maybe go AN. CFCF used to be Montreal's top EE station but with the advent of CFOX & CKGM it lost many listeners. CKVL's owner has the necessary drive to put it near the top & should do so. By the way, CFMB-1410 has nothing to do with the old CHLP, so recent references to CFMB as ex-CHLP are in error. CHLP folded several years ago when the papers that owned it sold out. The only thing common between CFMB & CHLP is the frequency. (Seabrook-FCC release said call change, CHLP to CFMB, Andy - ERC) (Isn't this CHLP's old XR & towers? -ERC)

Harold Balitske - Eastend, Saskatchewan

Well, here goes for my first report to Musings, but first of all I would like to thank John Oldfield, Leo Fox, Charles Rader & SCALD for their welcoming me to the NRC. Now to DX. ZCO-1020 Tonga Islands was noted here nightly but KDKA QRM. KORL-650 Hawaii S 7-8 MM. WBZ-1030 Boston, very good signal nightly. KBUY-1010 Amarillo, very good signal - topping channel for a while. Veries from KTLN KXLY KMON KGCX KVOK KKEYZ & WWL. I have not been able to do much DXing as school does not permit it. 73. (Welcome to the NRC, Harold, and we hope to be able to follow your DXing here in Musings! -ERC)

Larry Godwin - Box 165 - Boulder, Colorado

Greetings from the Land of Married Life! Barbara & I want to thank all who sent congratulatory cards, which helped make these past two weeks very happy for us. Barbara is certainly the ideal DXer's wife, as she accepts the importance of the NRC & DXing to this Denver-area member, & she has offered to help plan activities for the ladies who will be attending the 1963 Denver Convention. On our honeymoon we were very pleased to meet member & editor Pete Taylor, who explained his excellent system of recording info in his section & expressed his views concerning the NRC. We agree there's not a better Club in existance. After a brief necessary lapse from DXing & Convention planning, I joined the other Denver DXers 1/9 at Bill Nittler's home where he, Murray Mann, Glen Kippel, Marv Robbins, NRC prospect Byron Barnum, & I expanded our Convention topics. The five-day Convention this year will offer the most interesting variety of activities to DXers in the history of the NRC, we feel. Come to the Rockies this Labor Day for the fun & the all-important business meeting, which will undoubtedly be one of the most pertinent in many years. If you are a new member, come to Denver to meet your editors & Executive Secretary, all of whom will be present. John Callaxman of Pampa, Tex. will be the guest of the Denver DXers 1/12 at our meeting in Mculder. By the way, welcome, Murray Mann, to Boulder & best of luck in your new job at KDEY-1360. Well, I've been DXing in earnest since our vacation, & had an excellent MM 1/7. First of all, as soon as WWL-870 s/off at 1:00 EST I heard KAIM Honolulu very well. Best catch of all was almost positive logging of CB114-1140, Santiago, Chile, with ID @ 2:38 (see Pete's fine section for details). Jap ID on 1370 at 4:00, but I couldn't make out call; KAHU-940 Hawaii s/off beautifully @ 4:04. Also heard KSEN-1150 & KVRD-1240 r/cs. No CJMT-1420 because of AN KTOE; no CHLO because of at least two others on 680; no CKNB because of KIMN-950 Denver; no CBI-1140 because of at least one SS. 1/8- KTEE-900 Twin Falls, Id. s/off 7:13pm EST. Veries are CKUA-580 KBOW-1490 WBUC-1460 WSDC-1560 KMAN-1530 KSHA-860. The best of DX & luck to all in 1963. See you in Denver, Chuck Rader!

CJCA-930 over WKY. 1/11- Unn WSEL-1440 f/c-M for test only, into WJAB s/on 4:32am. 1/10- WDLR on RS at 5:38am, WAAY QRM; CBAF DX, zero. 1/7- WITA on 1140, KTOE on 1420, KNBR at 4am then better CHLO, CKNB was fair. Latest additions are: WLIQ-1360 Mobile, logged testing atop several ANs 1/11 @ 2:15-2:27, & WCGR-1550 Canandaigua, N.Y. Eting 1/14 @ 4:00-4:30, & an unk foreign language station on 640 kc/s. at 4:30-5:00am that same MM. I'm wondering if it was Guadeloupe. Most recent veries are v/ls from KIFG Iowa Falls, & KTOE, Mankato, Minn. KNBR-680, San Francisco, is the best signaled WC station I got this winter. I'd appreciate help in IDing the unk one - they seemed to use FF. Dec. 29 DX NEWS didn't reach me till 1/10 - it was the only delayed edition of this season.

LET'S KEEP SENDING IN THESE MUSINGS, BOYS. REMEMBER YOU MUST NOT EXCEED 30 LINES OF "DX NEWS" PRINT. PLEASE CONTINUE TO DOUBLE SPACE AS YOU HAVE BEEN DOING SO KINDLY.

Hello, quality DXers; quantity DXers go on to the next Musing, hi. Regretfully I missed two past Musings for sundry reasons, but I'm back now with the latest news from the Caribbean. Many have asked me about Radio Aeropuerto-910 in Caracas. This brand new station runs 10kw & is located at the "Aeropuerto de Maquetia." Call is unk. Another point of interest; HJAV-1200 has a faulty XR that forms an image on 1226, but as long as they're actually broadcasting there you can log it for 1226 anyway. Ernie, HOU-44-1015 must be your "Radio Reloj." Something else popped up in the Caracas area, "Radio Minuto Nacional"-1200. It's heard best here for a few hours after SSS with "Radio Reloj" type programming. The time announcement goes: "Radio Minuto Nacional de la hora. (time), hora official." This is definite, YSC-1015 has dropped its "Radio Mil Vienticinco" (Radio 1025) slogan, but there is no new one, just YSC. Daylight DX, 3pm, included WFYI-1520, Mineola, L.I. & WCKY-1530. WHLI-1100 in Hempstead, L.I. should be next on this list. Out of the South Seas comes a BFO from ZCO-1020 in Tonga after KGBS s/off. 1YC-880 already made it with a man talking about something around 2 am. KAIM-870 also in with religious programming alongside LEA in Buenos Aires. KNDI-1270 is next for Hawaii if XMH in Merida, Yucatan, will stay off. What is black, white, & red all over? A dirty albino DXer after a station fades out! Ech! Anyway, don't forget our namesake in Managua; YNRC-900. Until next week adios y setenta tres!

The NOISE had been on steadily for a week solid, & suddenly it rained & it left. It's really got me wondering now! Yesterday had the coldest spell in years, temperature was below freezing & for Cal. that's COLD! 1/10- Heard KBCO-1580 from 2:30-2:45 s/off with "Golden Hits." XEDM goes off @ 2:30. 1/13- KFLY-1240 till 5am s/off with SSB. Unk TT on 1580 from 4-5:30, who? Very weak CKDA-1220 AN 4:45-5:25 with only three definite IDs during that whole time. Looking forward to logging MAINE tomorrow AM, hope the NOISE is gone. Veries: 510 now with eight this week: WNVA-1350 QSL (two months), CKUA-580-DX v/1, WHOO-990 messy form on nice letterhead, WCDS-1440-DX v/f, and KSD-550 WRFD-880 CKSB-1050 KVNU-610 v/ls. ~~They're three tower directional SW, i.e., the ocean! It seems everyone there is ANTI-DXer. They said the reports are nice to read but then go in the trash can - they're too much trouble to bother with - they get a maximum of one a month! Found one there from a N.Z. DXer, a very detailed report too I might add, completely correct. We are making an appointment with the CE, #d Murphee to get permission to answer all correct reports sent to KDEO, providing return postage is enclosed. Look for details in a few weeks. For those interested, KCEQ-1170 has six towers. I'll be looking forward to reporting Maine as a new state in next week's DX NEWS. Let's all report! 73. (Please excuse my mess -ERC)~~ PLEASE BE SURE TO REPORT TO ALL STATIONS RUNNING SPECIAL TESTS OR DXES, AS A REWARD TO THEM FOR THEIR COURTESY TOWARDS US. DON'T FAIL TO INCLUDE RETURN POSTAGE AS WELL!

First of all, to anybody having trouble with whether I mean AM or PM: When I have a time, e.g. 4:15, that means four hours & 15 minutes EST in the AM. When I list something heard in the PM, I state PM & not otherwise. In other words, nothing after a certain time means AM (antes meridian) & PM means received at the noted hour in the PM (post meridian). Latin helps, I kid you not. 1/7: WFTC-960 12:03-12:10 on r/c. WBSC-1550 12:33-12:40 ending r/c earlier than indicated in f/c list. WROX-1450 @ 2:23 on r/c. CHLO-680-DX 3-3:05 at which time an unk TT came on to team with KNBR in wrecking their chances. CKNB-950 3:35-4 on DX. Not an outstanding signal by a long shot and barely over the low level buzz. Some song titles caught (Frankie Yankovic polkas) and mention of "Campbellton Radio." 1/8- WAOK-1380 @ 3:34 ID. WSUN-620 @ 4:33 ID. WRFC-960 @ 4:56 s/on. WHVR-1280 @ 5:01 s/on. 1/9- CFAM-1290 @ 2:05 s/off in big trouble from KOIL/WIRL, I think, but not sure of the latter. KSWI-1560 9:03-9:06 NX (note: that's AM still). WLUV-1520 after many attempts @ 4:54pm (now THERE is an afternoon logging as I used "pm" after the number). 1/11- Heavy static on the band. Can summer be far away? WSEL-1440 ET/M 2:59-4 taking collect phone calls so I gave him a call & had a nice chat (three minute variety). Promised to verify & I hope he does. KLTR hasn't so far. WLOS-1380 @ 5:00 s/on. 1/12- KHOK-1560 ET/rr 3:03-4:35 asking for reports. And I obliged, natch. WEZJ-1440 @ 4:58 s/on. V/1: WLBA KWRF (re-verified), WPAP WPCF. V/q: KXLY. Might mention I'm proud owner of the new Vane Jones Long. 73s.

Ray H. Kraul - 6423 33 Street - Berwyn, Illinois

Received Vane Jones' new log this week, & as usual it is a fine, up-to-date edition. Now if I can only keep changes up to date, I'll be in good shape. The log represents a lot of work & time, & is well worth the price in my opinion. DX this week has been fair to good with these new catches: SM 1/6- KALN-1370 on f/c-TT 2:07-2:20. 1/7- CKNB-950 & CHLO-680 DXes were heard, but no sign of CBI-1140, & KTOE was too strong on 1420 to decipher weak signal behind them. Also heard Mm was ET from WJCO-1520 4:00 & on till 4:40 anyway. 1/8- Added WRGM-1590 on r/c 12:30-12:45 & KWAD-920 TT 1:12-1:25 & on. 1/9- WSOO-1230 r/c 12:45-1. 1/10- KOTE-1250 r/c 1:15-1:30. Went to bed with alarm set for CBAF & slept through it. Tried for WERA-1590 on 1/11 per Bill Stone's tip, but all WAKR - too bad. Veries this week include v/l's from KDAK WCLB WDDS-TEST WRPB WFLA KING-TEST & KELR-TEST. QSL, very colorful, from WNCA for report of last season, even though they had previously veried by letter.

This being the first report of 1963, let me wish all the members of the NRC a happy & good DX 1963. Recent DX: 12/31- CKVL-850 in FF/EE from 2:08 to 2:37; WSM-650 with TT @ 2:40; WQOK-1440 with ET from 3:15-3:24; WFLI-1070 with ET @ 3:35; WERE-1300 with RS @ 3:45-4. DX on 1/7 was WFSW-970 with RS @ 2:06; KTOE-1420 with RS @ 2:50-3:02 (no sign of CJMT NRC/CDXC DX). Veries in are WSDC (from 10/29 TEST) CHEF (from 11/26 DX) WCDS (from 11/26 TEST), WGBI WQOK WERE & WFSW. 73s.

Henry Marbach - 2 Overlook Road - White Plains, New York

Although I have made a few good domestic catches, there has been very little foreign DX. Since last report I have added these to my log: WPEP-1570 at s/on 7:00, CHSJ-1150 WREN-930 WMMN-920 (at 8 pm with West Va. basketball) CKAC-730 WEAR-1220 WBIX-950, and CHML-900. Have two unIDed SSES. One on 1580 under CBJ at 11 pm, XEDM? The other was heard at 6:55am under WADO-1280. Any ideas? Foreign stations logged but that have been heard before include YVQJ CMCA Radio Progreso-690 & XEWA. Also unIDed EE speaker on 540 kc/s. at 10pm with a play in EE accent. 73 & good DX.

CHML is suddenly a good regular here - didn't even know they were around last year but now they sneak by WLS-890 on 900. Wonder if they are directional toward here? Verie from them is postcard with "Confirmation Report" on front & pix of building on back. WMT Cedar Rapids sends not only a verie but an eight-page mimeo history of the station. KSD daytime out when snow melted but snow back & so is KSD. Verie from them, no indication given that pattern has been changed. Sure do come in, though, a la WTMJ, WNRD, 5kw. good at 3:30 12/30. Verie back quickly with unasked-for sx. (survey). Other veries: WLP WWL WBAP. New CE at WCKY is James F. Ranney. Wrote him about daytime DX of WCKY & he was surprised; said CX must have been excellent on that day, 12/27. Set RX to 1300 for CBAF DX, set alarm, & when it went off I reached over, rolled over for "just a second" & fell back asleep! Ray Kraul told me about unsked WERA TEST on 1/11 but no luck thanks to storm & WAKR. 7-11 & please good CX for WAGM! On MM 1/7 seven verie reports written & sent as follows: 1-1:30 KPRC-950. There was no fadeout, but by 1:30 plenty for report. In all cases no fade unless noted. 1:30-1:45 CFRB-1010 with WCFL off. The previous MM KRVN, 25kw. had 1010 all to itself, so "wha hopen?" Then by turning radio side to side WIRL & KOIL wrote reports on both of these 1290 5kws KOIL strangely, dominant. Is WIRL's null toward Chicago? At 2:30 reached Club's birthplace with WSBA in York Pa. lkw on 910. They were very weak at first but worked up to a good signal, readable with little difficulty before they faded. At 3 biggest surprise of AM, KFRU-1400 with fantastic strong signal. Hope they are non-directed, because they are only 250w. & a great catch. They were in better than I've ever heard any St. Louis station except maybe KMOX. To round out the MM, WSGN-610 in very well for State #30. The week before I got WQAM at 4:30 with WIND off for State 29. Mississippi was logged here during Rebel FB season via WELO-580, a Sat. PM regular. Believe they are 5kw also. So those Southerners are really getting up here. Don't know how D. John missed KRVN @ 1:30 last MM, since he recommended to me that I try 1000-1010 that MM since WCFL off. What is new rr station in Milwaukee on 1340? Logged them on MM through local WJOL. Since this is a graveyard, please tell me who they are. Calls sound like WRLV. Their mx in well "Cinamon Cinder" turned out a verie nice dance, hi~~ke~~ KFH-1330 Wichita continues to blast MMs but haven't gotten to writing them yet. (30)..

Since last report: 11/26- Odd situation at 5am - s/ons from two Lebanon stations- WLBW-1590 & WLBR-1270. 11/29- KSOO-1140 buried WRVA @ 7am; sa,e WCAL-770 over WABC. 11/30- Real surprise, WCUE-1150 even with powerful CKOC @ 7am; KCTA-1030 in solid between 7-7:30; KIOA-940 over CBM; KLCN-910 & KXGO-790 real good in same time period. 12/1- WBOW-1230 at 12:02am; 4VEH-1035 or so logged between 10:30-11pm s/off; 4WW-1325 also heard. 12/2- KYND-1580 in very briefly at 7pm fighting XEDM; CJKL-560 never stronger than at 11:55pm. 12/3- KOB-770 audible after WABC 12:20am s/off; KFJZ-1270 12:55am; "Ternisora Monserrate"-785 Bogota, first heard at 11pm; ZBML-1235 fairly good around 11:20. 12/4- KSHA TEST not heard although I probably gave up too early. 12/8- WKID-1580 f/c 1:15-1:30; lucky catch in WLAY-1450 at 1:31; WEND-1580 perfectly clear but weak at 1:50pm; WRTA-1240 over usual CJCS @ 2:15; WTOP over CHUC as early as 2:25. 12/9- WMLP-1380 s/off 4:45 even with CKPC. 12/10- KMAM-1530 way over KFBK; KORL-650 finally made it at 3:30 for two minutes; WBUC-1460 as strong as adjacent local CKFH; CJOB-680 AN; was KOMO-1000 on with TT this AM? (CFRB just too rough); Part Maria, Jamaica-750 reported 4:47-4:55 WSB s/on; WIIN-970 5:20am; KSJB-600 well on top at 7:30am; CFOX-1470 snatches of newscast at 7pm. 12/13- WFLR-1570 s/on 7:15. 12/17- WBNO-1520 ET started about ten seconds after WKEW 12:02am s/off; SS all over 770 around 12:30 - believe HJJK Bogota; WDAK-540 AN; KENO-1460 s/off 3:01; same for XETRA. Helo- who had Christmas carols in EE on 1270 3:40-3:45, any chance of KNDI? WABY-1400 AN; WGUS-1380 powerful @ 4am s/on; WOI-340 way over usual WHIO 7:30; new catch @ 7:35am, WHAK-960. 12/19- WSBT-960 7:30 am. 12/21- Home early from work & finally heard CKOX-1340 clearly under WUSJ at 3pm. 12/23- 12:07am s/off on 640 with Colombian NA; then frequent IDs from a "Radio Aero-puerto" on 640 - what are proper calls for these two stations? 12/24- CJSS-1220 rarely heard but logged at 12:06am s/off; KXOK-630 12:22; WTAL-930 12:31. Who s/off with SSB on 680 at 12:42? At 12:54 on 1440, heard "ET over last 15 minutes" - who was this one? KOB-770 much stronger than previous MM; KCRG-1600 s/off 1:03. Finally caught WNLC-1510, 1:05. At 1:09, WECB WARK among others on 1490. KTOE-1420 s/off 1:11; SS on 1370 must be XEHF; goodie in KZON-1190 logged.

Congratulations to Larry Godwin & his bride. Best of happiness in the years to come, Mr. & Mrs. Godwin! DX has been very slow lately, being limited to weekends, but a few veries have been rolling in. PJA6 back very quickly, also KPMC-1560 in a couple of weeks. Thanks to John Tweedie for the tip on PJA6 which brings 70 countries verified total to 14. Hope to have a little more to report next time. 73.

Verie, KIFG-1510. DX: 1/9- WOKJ-1590 RS s/on 5am with what seemed to be Negro programming, 5-5:15, easy with only WAKR/WSWN on then. WAKR has forbade other nearer D stations to sign on before then, apparently. 1/12-PM- Nothing new, but odd CX found FF Canadians rolling in, like CHRL-910, CHGB-1310, CHRS-1090 @ 5pm, CHRS in German this time, with IDs in FF. 1/13- Pepsi ad followed by much gab & laughter on 1440, possibly KJWI, woefully weak here. After many years of trying, finally WFLA-970 s/on SSB 5:30 under WWSW & the local WHN/WINS image. Unn WKIC-1390 s/on 6:30 SM; WTOP-1500 @ 6am. Who had Ave Maria Hour-type paly behind WTOP 6:30-7am? 6:51, "Hour of the Crucified" started on 1560 under local WQXR's OC - CHRS, perhaps? 1/14- British games on 620-646-770 again. Unn Bordeaux-1205 good, 2:25. KGA-1510 & KFBK-1530 also good, um, 2:30-2:45. KPIK-1580 ET/cw 2:42 for new one, nice signal. On 640, noted 3:44am, S-8 station with Hindustani mx & speech, not heard in PMS as such, so I GUESS this is Guadeloupe?? Unn WPMX-1510 ET 3:52-4:02 and on. PM, 4VW-1325 for report, 3:04-6:41.

"SLIPS EXPLAINING DX"

Your Exec Sec received a letter from a Radio Station In Portugal inquiring about a DX Program. They stated they had received one of our slips explaining DX and mentioned the words "In The Early Days" caused them to be interested in a future DX Program for DXers throughout the world and would be very interested in more information in regard to this type of a broadcast. The letter has been sent to Norm Pillsbury, our CPC Chairman, who will see to it that he or some CPC man will contact this station for a possible DX Program from that station. Thus my mention of the above is to inform the members that we have these slips explaining DX on hand and are for sale as is our club stationery to our members for .60¢ per 100 slips, postpaid. Dick Cooper composed the data that is set down on said slips and also printed a good quantity of them believing that if one is enclosed with your reception report, veries might be received a bit quicker. Many good comments have been received.

### MISCELLANY

BOB LEAMY ASKS WHETHER OR NOT ANYONE HAS RECEIVED HIS YVLT-DX VERIE FROM A FEW MONTHS BACK. I HAVEN'T SEEN ANYTHING ON IT IN THE REPORTS WHICH HAVE COME IN HERE. ANYONE GET ONE YET?

IN THE OVERSEAS MAILBAG DEPARTMENT, BENGT ERICKSON OF LINNEGATAN 4, SKARA, SWEDEN TELLS US THAT SWEDISH BCB DXERS WERE DISTURBED TO FIND THAT RADIO SWEDEN PLANNED TO RUN ITS STATIONS ALL NIGHT; HOWEVER, THEY DECIDED TO USE FM, SO NO PROBLEMS WITH DX! BENGT HAS ALSO REPORTED CFCB-570 CORNER BROOK, N.F., HEARD 2000 1/6 WITH A GOOD SIGNAL FOR ABOUT AN HOUR. ALSO ON 1/6, HE HEARD CHML/EE AND CJBR/FF MIXED IN WITH SHENSI, CHINA (THIS WOULD BE FUN LISTENING TO! - PVT). BENGT ALSO TELLS US THAT AIR-910 RAJKOT STILL STARTS TESTS AS EARLY AS 1900 WITH INTERVAL SIGNAL AND A CYCLE TONE. IT HAS GOOD STRENGTH, AND STARTS PROGRAMS AT 1930. ALSO HEARD HAS BEEN HUHENOT, INNER MONGOLIA ON 1460 ON 1/3 1800 WITH SIGNALS IN MONGOLIAN AND OTHER DIALECTS. POOR SIGNAL. HE HAS ALSO HEARD WQXR COMING IN WITH WONDERFUL GOOD MUSIC PROGRAMS. BENGT TELLS OF A VERY ENJOYABLE HOLIDAY SEASON, AND OF THE FACT THAT HE WILL BE VISITING ANOTHER TOWN IN SWEDEN FOR TWO WEEKS TO CHECK A NEW FACTORY. ALSO, BENGT WILL BE VISITING THE ASWAN DAM IN EGYPT ON FEBRUARY 24, AND HAS PROMISED TO CHECK RECEPTION IN THAT AREA AND LET US KNOW WHAT HE HEARD. SHOULD BE INTERESTING. (THANKS BENGT FOR THE ABOVE AND FOR YOUR OTHER FINE CONTRIBUTIONS IN THE IDXD.)

ROY PATRICK AT 3 SIDNEY STREET, DERBY, ENGLAND HAS ALSO BEEN BUSY AT THE DIALS. HE HAS HEARD CAIRO IN ARABIA ON 620, 1430, PARALLEL TO 665; BEIRUT-336 IN ARABIC 1400; CBA-1070 AROUND 1330; RADIO AMERICAS 1930; RADIO GLOBO-1180 RIO DE JANEIRO AT 2000; OPS-1430 BERLIN WITH ENGLISH 1700, s/OFF 1715; RADIO ANTWERPEN-1492 WITH PLENTY OF QRM; POLAND-1502 WITH ENGLISH AT 1630; AND RADIO VERONICA-1562 1800 WITH 1900 s/OFF NORMALLY, BUT HAVE BEEN NOTED ON LATER. ROY HAS ALSO HEARD THE FAROE ISLANDS ON 584, OR AT LEAST INDICATES THAT REPORTS FROM DENMARK INDICATE ITS NEW FREQUENCY. (THANK YOU ROY AND BEST TO YOU IN 1963.)

LARS RYDEN OF SMEDVAGEN 12, KALLHALL, SWEDEN HAS KINDLY SENT SEVERAL FINE BOOKLETS ON SWEDEN AND ONE ABOUT THE NEW MOTALA 600KW LW TRANSMITTER, PLUS A PICTURE OF HIS APARTMENT BUILDING, AND ONE OF HIMSELF AT THE CONTROLS OF THE COLLINS 51J4. LARS IS A STUDENT AT THE STOCKHOLM SCHOOL OF ECONOMICS AND WILL HAVE HIS MASTERS NEXT MONTH. LARS HAS ALSO SENT AN AFN PROGRAM SCHEDULE, ALONG WITH MANY FINE REPORTS.

THESE ARE JUST THREE OF OUR FINE FRIENDS ABROAD WHO ARE KIND ENOUGH TO KEEP US UP TO DATE ON RECEPTION CONDITIONS IN THEIR AREAS, DESPITE THE FACT THAT FOUR OR FIVE-WEEK DELIVERY ON THE DX NEWS LIMITS ITS USEFULNESS TO THEM. THANK YOU GENTLEMEN!

IN ANOTHER ENTIRELY DIFFERENT AREA, I WOULD APPRECIATE IT IF A VERY FEW OF YOU WOULD DISCONTINUE PUMPING YOUR FRIENDLY IDXD EDITOR AS TO "WHICH SIDE ARE YOU ON?" IN THE CURRENT DISAGREEMENT OR WHATEVER YOU WANT TO CALL IT. THE CLUB IS HARDLY APPROACHING A CRISIS, AND SOME OF THE "MUSINGS" ON THE SUBJECT LEAVE A BIT TO BE DESIRED AS FAR AS BEING REPRESENTATIVE OF NRC MEMBERSHIP IS CONCERNED. THERE ARE APPARENTLY BONA FIDE POINTS OF CONTENTION, BUT I DO NOT THINK THEY ARE OF SUFFICIENT MAGNITUDE TO UPSET THE CLUB'S OPERATION AT THIS TIME. I AM FRANKLY SATISFIED THAT RAY HAS ACTED IN THE BEST INTERESTS OF THE CLUB. NO ONE IS PERFECT. AT THE SAME TIME, POP HAS GIVEN "NOTICE" SO TO SPEAK AND I FIND IT GRATIFYING THAT OUR DENVER MEMBERS ARE INTERESTED ENOUGH TO VOLUNTEER. I DO THINK THE TIMING IS INAPPROPRIATE THOUGH. TIME WILL TELL. I REALIZE I DESERVE SEVERE CASTIGATION FOR USURPING THIS SPACE FOR EDITORIAL PURPOSES, BUT (1) I WILL NEVER CATCH UP ON ALL THE CORRESPONDENCE I HAVE PILED UP IN FRONT OF ME AND (2) YOU PEOPLE SHOULD BE SENDING IN ENOUGH REPORTS TO FILL FOUR PAGES ALREADY! 73s.
