

A QUINTET OF CANADIAN DX SPECIALS FOR MONDAY, APRIL 1!CKCM-620, Grand Falls, NewfoundlandW. C. Squires, P.D.

This program will actually begin at 11:30 p.m. Sunday night March 31, E.S.T., which is 1:00 a.m. in Newfoundland, and will run until 5:29 a.m. their time, or 4:59 a.m. E.S.T. This program should get out nicely, for we believe only CFCL & CKCK are on all night on this 620 spot. With five and one half hours on the air for NRC & CDXC, the programming should be quite varied, with frequent station breaks after each selection and item. We thank Mr. Squires for this signal honor of so long and fine a program, & here's hoping that most of us will be successful in hearing new CKCM! Arr. D. MURRAY.

CFOX-1470, Pointe Claire, Quebec

3:30-4:00 am EST

Gordon Sinclair, Pres.

This program is re-sked from Jan. 21 as they were not ready with their new transmitter at that time. Sometimes WMBD is off on Mondays, and we hope this might be the Monday they might be silent. XESM is also all night on CFOX' 1470 spot, but we feel most should be able to hear their program of country/western music, tone, Morse Code IDs, and messages from CDXC members. The address is Mr. Gordon Sinclair, President, CFOX, 223 Hymus Blvd., Pointe Claire, Quebec, to whom we offer our thanks for this big special program for NRC & CDXC. Arr. ANDY RUGG

CFDR-790, Dartmouth, Nova Scotia

3:00-3:30 am EST

Jack Hutchison, C.E.

Now that CFDR is on a fulltime basis, they can and will present this special half hour DX program for the two clubs. The program will include promo information about Dartmouth and vicinity, plus musical selections and many IDs. The music will be distinctive - Scottish type selections, with pipes & drums, fiddles, & accordions, etc. Mr. Hutchison promises to verify 100%, so be sure to tune for CFDR, which unfortunately will have interference from three S.E. U.S. stations, WTAR, WQXI & WFUN, but their music should penetrate. Add: Box 1007, Dartmouth, N.S. Arr: SAN McLAUCHLAN

CFMB-1410, Montréal, Quebec

3:00-3:30 am EST

L. G. Newton, C.E.

This is a brand new station, and the calls stand for "Created For Magnificent Broadcasting" and "Canada's Finest, Montreal's Best." CFMB has been on the air only since December 1962, and so few DXers have as yet had the opportunity of hearing them. For this chance, we thank Mr. Newton for his courtesy to us DXers. His program will consist of tone, code, and messages from the officers of the CDXC. Music is not mentioned, but we certainly imagine they will play some. On regular schedule, they use several different languages. Add: 2015 Drummond Street, Montreal 25. Arr: ANDY RUGG

VOWR-800, St. Johns, Newfoundland

3:30-4:00 am EST

Roland Peddle, A. E.

This is an old-time station owned by the United Church of Canada, and is a much-wanted station in most DXers' logs. They now run 1,000 watts, and will put this program on from 5:00 to 5:30 their time, or 3:30-4:00 EST. VOWR has been heard in Norway, Sweden and England, and Mr. Peddle, who will handle the program for us, is a ham enthusiast, and he will be hoping for your DX reports. We envision only "The Cuban Minute Man" on 800 during the course of this program, so perhaps many of us will be able to make this rare logging of VOWR. The programme will be varied as much as possible. SAN McLAUCHLAN

As you can see, DXing has been sporadic. I can't stay up for those special programs because I have early classes on WMs so I have to DX whenever I get a chance. But, these locals are causing plenty of trouble. Anyone out there who can help me by giving some info on how to build a loop? Anyone get a verie from WBNB yet? ~~KTIM TEST~~ Thanks to John Swanson for the tip about KTIM TEST which I couldn't get to. All DX in March was on my Zenith 500 transistor, not the HQ-100. DX HERE HAS & will take a powder in March due to work sked & other activities. February, however, offered a few good moments. WLBB-1100 verie about the best you could ever hope for - apparently farthest they've been heard in quite a long time. - 2/4- A very disappointing Wm here - no CKAR1 or CERC whatever. CKAR-630 so buried by CKRC/WPRO that report impossible. WDXB dominated 1490 during much-wanted CERC DX; went back to bed rather disgusted. 2/4- WKBA-1550 on top at 6pm; WQXI-790 ruling the channel around 11:30. 2/5- Unless my ears deceived me, heard 6pm s/off on 1570 with 5,000w- is anybody else besides WTWB now operating on 1570 with this higher power? 2/9- WTHI-1530 s/off 5:58; WPIT-730 s/off 6pm through CBL slop. 2/11- WTCN-1280 caught for first time on AN show; some soft mx barely audible on 660 @ 3:35 but soon faded; WVGT-1500 reported on TEST. Took log on KNBR-680 s/off 4am; CBI-1140-DX made it quite well at times despite some static & WRVA OC briefly; who was EE-1270 way under WKYR @ 4:43? 2/14- ZNS-1540 in strongest this season between 6-7 pm. 2/15- WHLS-1450 way on top @ 7:40am; WGBS-710 at SSS till pattern change at 6:15. 2/18- WDEA-1370 had strongest signal I've yet heard from Maine. KWYO-1410 logged & verified for 2-2:15am r/c (State #29 - only Alaska missing). Cricket matches galore - 620 750 770 real strong; 560 over WQAM; 700 way under WIP. SS-1270 again, believe Mexican. KDON-1460 heard @ 3am s/off. KFRU-1400 dominant. Who had almost a half hour of Burl Ives' records on 920 between 3:05-3:30? KXEX-1550 made it quite well as WPTR not slopping as badly as usual. WPTW-1570 had it real rough here, smeared by XERF/CKLM. Surprise catch was KCCL-1460 on briefly @ 4:10-4:15 with some comment re 50 mile walk per Kennedy's fitness program, I presume. WTHI-1530 powerful as expected; CB73 & CBN didn't have a prayer here. I'd be interested in knowing how far CBN was heard this AM. WSUN-620 & new catch WIRC-630 both heard shortly after 5am. Weak SS-890 @ 5:08, any ideas? Also WGIV-1600 good signal @ 5:12. Weak SS-1550 most likely WKFE - do they s/on in EE? 2/21- Finally heard WPAC-1580 briefly @ 7am. 2/25- AN-FF-1060 was welcome catch, CJLR, first heard from Quebec City. KAIM-870 weak signal @ 3:30; WINN-1240 way on top; WCOP-1150 AN again. WITA-1140 logged @ 4am s/on in EE/SS. KWBV-1440 quite good signal 4:05-4:25. 73

Mike King - North Eastham, Massachusetts

A rather good later February here but before I get to it I have one question. Who on 2/22 had ET on 1320 at 3:20am? 2/16- DX NEWS arrived late so I missed one or two. Well, here goes. 2/18- KRDS-1190 on @ 1:50am; KWYO-1410 3:00 finally welcomes here with their r/c. WDEA-1370-TEST @ 2:14, KDON-1460 @ 2:58; KBOX-1480 @ 3:16. KCEX-1550 in surprisingly well @ 3:31; WPTW-1570-TEST in @ 3:50; WSGO-1440-TEST @ 4:01; CBN-640 @ 4:10; WAUX in a week early @ 4:23; WTHI-1530 TEST @ 4:34. 2/20- WHIH-1400 at 2:00; WIRJ-740 ET @ 2:39. 2/21- New WTTT-1430 on at 2:06 with test. I got a verie from them saying I was their first listener, however distant. Well, you can't win them all. Also on 2/21 WDXN-540 @ 2:22 with f/c; WAGF-1320 @ 3:05 with test. 2/22- WDXR-1560 @ 2:28 with WQXR off; KTRH-740 @ 1:46; WETH-1420 @ 4:06 & WDVA-1250 @ 4:00. New veries are KHOK-TEST WWIL KMPC WTHI-TEST WSGO-TEST WPTW-TEST KWYO WHIH WIRJ WTTT WDXN & WETH. The Specials calendar has really diminished fast. Let's hope for more to come. Well, that's it from here for now. 73s.

Ed Drumm - 14 Dale Road - Wethersfield 9, Connecticut

Got a note in from Ken Murphy & he says hearily no Connecticut DXers picked up WPTW because CKLI was too strong on 1570. I picked them up with a 20db signal, what gives? Reading over Mort Keenan's Musing I was surprised to see another NRC DXer has an NCpl73 They are surely great for all bands. Tried 540 kc/s. & picked up WDMV S-3, & CBT (thanks to Ron Musco & NRC) on 540 with weak S-2. Got WBOL-1560 TESTING @ 3:05 S-8. Got up this AM 3/11 & logged WKNX-1210 with a good 15db TESTING. Also logged WRIT-1340 S-6, WLEU-1450 10db, WWDC-1260 S-7, all with good signals but nothing from the f/c list. Didn't try for WENE, unkn. New WRH finally arrived at this den & is well worth waiting for, I believe. I am sorry to say it will be absolutely impossible to make Denver, but I'm hoping for Buffalo in '64. Until next time, so long & 73s to all.

P. E. Crocker - Monmouth, Maine - Box 76

Here's a much overdue report from Maine's only NRC DXer. Not much DX here during the first half of February due to feeling below par. DX has been fairly good since 2/18, so here goes. 2/18- WRIT-1340 Wis. @ 3:38 with ID in the clear & then quickly QRM'd. This one really surprised me especially with only 250w. WSGO-1440 @ 4:01 on TEST, very strong & clear. WIAC-740 P.R. with ID @ 4:40 as Radio Diemco or similar. CFBC-930 @ 5:00 with s/on. 2/25- WCAO-600 @ 3:40 with NX. No sign of WIGC & I noticed other members said same thing. CKRC-630 Man. @ 3:55 with NX. Heard WMAL come on with ID & then gone. My first from Manitoba. WAUX-1510 TEST @ 4:09. KTOE-1420 @ 4:28 with c/w mx, very strong. Worked 1430 kc/s. for about 10-15 minutes but it's really too bad that KWBY Ariz. TEST had to be on 1440 kc/s., hi. WLUV-1520 @ 4:36 with very good signal; much wanted TEST. WSHP-1480 Pa. @ 4:44 with TT; were a much-wanted call. WCOM-1440 with 5:00 s/on. 2/28- WDEE-1220 s/off 5:30pm, heavy QRM. 3/3- WCMC-1230 s/off @ 12:03am. Heard a weak signal on 1470 @ 7:29:30am getting ready for ID but local WIAM with s/on & SSB full blast in those earphones & if that didn't sound good, hi. 3/4- I woke up at 1:00 & decided to stay up, otherwise would probably sleep through 3am alarm & miss all the DXes. I'm awake at 2:55 but at next time check it is 4:30 & I have missed all the DXes. I'm still having nightmares about this one. However, did pick up WEAL-1510 TEST @ 4:39. WYNR-1390 @ 4:46 with a contest trying to get rid of \$3,000. Heard unkn ZENL-1235. WGUS-1380 @ 5:00 s/on. No sign of WMHI-DX so am wondering if they DXed. Were WYOU & WKFD on as sked & if not, will they repeat? 3/5- WRIV-1390 @ 5:13pm with mention of Riverhead. 3/6- Finally got an ID on all the QRM under WMEX-1510 - CKOT @ 5:01pm with ID & WNLC @ 5:56 with ID & mx. No new veries here in the last month or so. Still have about 55 points for Contest. 870 kc/s. sounds like a good get on MMs with at least four possible calls. Was going to try for KAIH Hawaii but with controversy over LRA & ZP14 & now WHOA s/on @ 4:00 it sounds like another graveyard channel, hi. Hope to get WHOA shortly. Am really sorry to see the list of DXes slowly dwindling down. Well, that's about it so I'll say 73s & best of DX.

Stan Morss - Route 3 - Bradford, Massachusetts

WAPE-690 test 1:05. WBEX-1490 Chillicothe, O. said AN for flood, 1:30am. XEUN-860 Mexico City s/off 2am, not enough for a report. Looking for listed f/c of KIOD and there was CKLG with no sign of Tricolor, copied 2:14-3am. WBOL TEST good @ 3:00, unkn. Fla. tester on 1370. WATH-970 Athens, O. AN for flood, 3:18am. Veries, v/q from WHN finally, black & white card, also WHOA verie back from P.R., five days both ways. Another copy of Radio Rome Quarterly Magazine but no verie yet. 3/11- KOEL-950 test to 2:30. Copied Radio Tricolor-670 for a report 2:44-3:10. KBIG-740 Avalon Cal. test with 1,000w. 3:23am. TIRS-975 strong @ 3:30. Veries, PP card back from HJAN Barranquill a signed & rubber stamped. 3/12- WNKY-1480 Neon, Ky. AN flood NX, someone also on 1290. WVYO-970 @ 3:45. WNRG-940 @ 4:00, also flood.

David Deutsch - 1611 Nelson Avenue - Bronx 53, New York

Latest DX: 3/25- WOW-590 @ 1:34 for new state; CFNB-550 @ 2:03 with c/w using AST; CKRC-630 @ 2:12 with Jim Hallis Show. WBAL-1090 @ 2:32 with ET; KCBS-740 @ 3 with s/off, mentioned being on the air since 1909. - is that right?) KNBR-680 @ 3:02 RS for new call; WAUX-1510 @ 4:01 TEST; WLUV-1520 TEST @ 4:32. 3/2- No DXing as I didn't feel well on Sunday. 3/9- WNLC-1510 @ 8am with RS. 3/11- WNOR-1230 @ 1:16 with interference from WITH, Conelrad test for Philadelphia/Camden area on 640 (must have been on 1240 also) 1:38-1:45. Will be on second MM each month same time. KOA-850 from Convention Land @ 2:02 s/off; KNX-1070 2:28 with RS; WFLI-1070 A 3 ET; WKNX-1210 @ 3:05 with XR ET; WKDN-570 @ 3:45 RS when WMCA d f; WGUS-1380 @ 4:02 RS; WLEU-1450 4:18 RS; WYNR-1390 4:30 RS, WATE-620 4:55 with SSE & s/on. v/c- PDVA NOW WTHM WNLC. V/1, WLUV WGGQ.

John Sampson - 23 Terrence Terrace - Freehold, New Jersey

Surprise - I told you I'd write, Ernie, & here it is. A brief summary of brief DXing activities. Going back to 2/17, was happy to hear MSYB-1380 in the late afternoon through WBXX. That MM 2/18 heard another goodie on 1380, WBX on a special AN program. Stan M., does this one verify? WDEA TEST heard quite well as was KXEX & WSGO. WPTW TEST wasn't too easy but did manage enough for a log. CBN heard on their DX but not too well. On 2/25 added CHAT-1270 at 2:08 s/off, CTR-1060 AN, KWBX TEST, WPCO TEST, & WLVU TEST. Was really surprised to hear WPCO, since WAKR is quite strong here, but they were in & out all through their program. Along with just about everyone else on the EC heard CBT on Monday 2/25 PM. 3/2 netted WINY-1350 @ 4pm stop normally dominant MNLK & WOKK. MM 3/4 was another good night. Much wanted WDL-1270 was caught on a test @ 1:40. The CE said in the v/1 that this test was with Cambridge, Mass. so it may be somewhat regular. Darned if I know how they hear them up in Cambridge, since they throw quite a null up this way. Can't hear a beep out of them in the day. WDOA-20 AN also logged. DX programs from CKBC & CJCJ also logged. The latter, although regarded by some as "quantity" was dug out of the mud with extreme difficulty. I'll make that type of quantity over the trial water skip "quality" any day! BRVA-1330 heard on RS @ 4:30 & WEAL heard with their wild TEST. Managed to drag out of bed on 3/6 to hear WBOL's TEST, but miscalculated the time & had to dig them out from under WDXR. On SM 3/10, decided to do a little sunrise DXing. Heard WEAL-850 @ 5:30 on RS. WMEG-920 heard briefly at 6 before WIND's 6:03 s/on. CBH-860 in like a ton of bricks at 6:20, evidently on day pattern, but KOED by WAMO @ 6:30. WVOE-1390 heard with an i for baby chicks @ 6:44 to round out the AM. Had an enjoyable time over at Ron's that PM & it was lots of fun cussing & discussing various things. The gabfest pooped me all out, & I didn't get up that AM, but I guess I didn't miss too much. Won't be able to make the '63 convention, but am looking forward to Buffalo in '64. I may even be solvent by that time. 73.

Joe Fela - 102 Hawthorne Avenue - Newark 12, New Jersey

Veries since last report are v/1s from WDXE-1370 KHOK-1560 WDOA-870 WLOF-950, v/1s from WEAL-1510 KETM-870 WLVU-1520 WDEA-1370; QSLs from WLOL-1330 & CKBC-1360. Now 385 verified, 908 heard. DX since last report goes like this: 3/4-3am, CKBC-1360 DX in fairly well; 4:08 WDOA-870 a good S-7 & just under WTL's OC; 4:30 WEAL-1510 TEST; 4:59 s/gns WBIG/WOXL-1470. No CJCJ-920 DX heard & WYIU & WKFD apparently not on. 3/5- WCOY. 3/11-WKXN-1210 TEST only S 5-7 & with QRM from WHN & WNEW images after the former turned on their OC. This @ 3:37am. WBA-1330 s/on 4:01, very strong. 3/14- 1:42am WKWK-1400. 3/17-WNRV-990 TEST @ 2:07am but with much QRM from WIBG. Local WNR-1430 now s/on around 5:30 on weekdays with gossamer mx. They used to s/on around 6:00 previously. Remember, it's Buffalo in '64! 73s.

Ken Mayleth - 3306 North Calvert Street - Baltimore 18, Maryland

Veries continue to roll in at a fairly good rate. Since last time: WEAL-TEST WHIH KTOE WDEW for #1 at this location from Vermont; WQSC WSAR WGBI WNR WKBG WAVE WLVU-TEST WSGO-TEST WDEA-TEST WPTW-TEST WDAE WCOA, Brussels II-926 which included QSL plus picture post cards & tape to replace the one sent to them. 3/4, this was a big morning made bigger by the fact that two of the three NBP locals, WWIN-1400 & WCAO-600 were off that morning. WICG-600 with WCAO off, @ 3am. KTOE-1420 like a local. CKBC DX about even with the others on 1360; WYNR-1390 weak but in the clear with no 1400 slopover that AM, 3:30-4. WILS-1320 AN 4:19-4:20. WHIH & WJEF-1400 fighting with one or two others 4:30-4:45. WEAL TEST-1510 OK 4:45-4:55. WING-1410 s/on 4:55. WEAL-1390 s/pn 4:58. WISK-1390 s/on 5. 3/5-CHGB-1310 s/off in FF 12:02am. WOVY-1590 f/c s/off 12:30. WOA-1196 Munich FF 1-1:30 for second reception, & better than first time CHGC-1090 battling KVAL @ 3 s/off for first Alberta from here. KXGO-790 f/c 2:15-2:30 tough through WLAB AN. 3/6- Daytimer WATH-970 12-12:15 on for floods. WLOF-950 s/off 1. WLVU-1590 f/c s/off 1:15. 3/8-WPKY-1530 s/off 7pm. 3/9-KOAM-860 virtually in the clear for ID 7:30pm. WKAQ-580 on top 7:45-8. 3/10-WDOA-870 AN on new frequency 2:45-3:05am. KEM-1440 in the clear but too weak for a report 3:00-3:50. WMBR-1250 ID 4. 3/11-CKBC-690, EE NX aimed at the South & s/off 12:55am. WCAZ-990 f/c s/off 1:30. CKLE-1350 ID 2:05. KXYZ-1320 ID 2:32. WOV-990 in the clear with WCAO off briefly from 600. WKXN test in well 3:40-3:50. IA signal on 600 4:10-4:25 apparently LR3. WPKX-1430 s/on 5. WFBG-1450 NX end & ID 4:08. Radio Trinidad-730 in the clear 5:15. That's about enough from here, so 73s.

Hank Holbrook - 7211 Chestnut Street - Chevy Chase 14, Maryland

Summer is a-coming in - & so all the needed DX shows on 3/4 were washed out. Static was very heavy that morning. Not a complete waste, however, as I did add WGUS-1380 N. Augusta S.C. @ 4am s/on. On 3/5 we added CHFI-1540 Toronto with s/on @ 6:30 through rather heavy QRM. On 3/6 awoke for the TEST program from WBOL-1560 Bolivar Tenn. & copied them for 20 minutes commencing @ 2:42am. On the next day found WGOH-1370 Grayson, Ky. on RS 6:34-6:45am through heavy QRM. 3/13 added WFLR-1570 Dundee N.Y. with 6:55 s/on for pretty easy copy. And the last BCB logging here was WDEW-1570 Pittsfield Mass. on RS from 6-6:15am on 3/14. V/l's from HJGE-1033 plus pennant, WPTS-1540 WYOU-1550 WRSL-1520 WICE-1290 KSUD-730 WPON-1460 WAJR-1440 WDOW-1440 WLUV-1520 WBOL-1560 & WSMN-1590. V/cs from WSGO-1440 WTHM-1530 WJEH-990 & CBN-640. KOKA-1550 returned my report with verie notation written on it. A nice card from WJEH with picture of XR & studios. "I believe this is the farthest report I have received in the ten years I have been CE here. Many thanx." So I guess stations don't have to be either foreign or especially distant to rate the 'quality' seal! Veries now stand at 3,843 of which 2,060 from 77 countries are on BCB. When static increases will desert long & medium frequencies for FM during the warm months. Am looking for another job & would be pleased to hear from any NRCer in business who might be able to use a 34 year old college grad with a background of three years of airlines ticketing & reservation experience, three years as store manager for small toy chain, & four years as purchasing agent for office supply firms. Do not desire outside selling. 73s.

Now listening to the new WBRW-1510 on RS & their programming leaves a lot to be desired. Reported them on tests in mid-December with no reply yet. Just the opposite, I reported WIBT-1530 on their tests & received very nice verie in four days. Have added 26 stations to my heard log since last reporting to Musings & some of the veries since that time have arrived from WBOL-1560 CKBC-1360 KFJM-1370 WDLA-1270 CRU-690 WTBG-1290 CBH-860 Bordeaux I-1205 RJR-720 & WNBW-1470. The RJR verie was excellent & I'll quote a couple of very interesting items. "Our AM XRs are situated in four separate locations & are remotely controlled & unattended. Each of our AM stations contains a duplication of equipment, the second XR being owned & programmed by the Jamaica Broadcasting Corporation, a government broadcasting body. The two XRs are diplexed into a common vertical radiator. All maintenance is carried out by R.J.R. engineers." The letter also says the stations are 5kw. & goes on to give the locations & other details. It is a shame that DXers (?) would report to stations such as KDBM-800 when they never did get on the air with their TEST. I think that publishing of the names of such reporters would help to discourage such future actions. Incidentally I could mention the name of one such person that would make all DXers stop & do some thinking. The FCC reports WSJR-1230 on the air but has anyone heard them yet? WLTN-1400 is overdue also as they aimed for a January target date. 73s.

Seven more veries gives me one kiloverie - only five more KVs to catch up with Hank Tyndall. 3/7- WKOW-1070 SSS @ 6:49pm. 3/8- Tentative KRAD-1590 r/c 1:31am; WHK-1420 off this AM & as a result WKSR-1420 r/c easily logged @ 2am with KSTN/XEH behind; KSTN an oldie & XEH a newie. 3/9- KUSD-690 tentative on CMBC-QRMed r/c @ 5:31-5:36am. Reported CJCS-1240 @ 6:18pm; WSLM-1220 RS @ 6:59 & s/off right after. KYND-1580 RS @ 7:49 with QRM from very unKynd CBJ; WMMN-920 RS @ 11:12; WJLS-560 RS @ 11:43 for two newies I just stumbled across. 3/10- Reported CHIC-1090, CFTJ-1110 & CKOX-1340 in early PM. 3/11- Reported local CKCR-1490 @ 5:55pm; quite sure WZUM-1590 s/off @ 6:30. 3/12- Strong southern skip at SSS today, logged WLFA-1590 s/off 6:30pm & unnn WLUV-1520 a surprise @ 7pm s/off. 3/14- Finally got good signals from WAVA-780 & WCYB-690, logging former @ 6:13-6:15 & latter 6:26-6:30pm. Veries are WKKO-860 CHNO/WAFC-900 CHIC-1090 CFTJ-1110 WHLD-1270 KRNT-1350 CKBC-1360 WCOA-1370 WAUX-1510 WLUV-1520 & WCGR-1550. Ron Musco, let me know how you got a WBIC verie if you ever got one. After five reports, the last one having a PP enclosed, I still have to receive a reply. Let's all hope the Orioles keep up their present exhibition game pace & show the Yankees who the superior team is. Phil Jacobs will never forgive them for trading away Hoyt Wilhelm, such nasty people. After ten years of frustrating Brown/Oriole rooting I can take it. Hi. Where are the WBNB-1000 veries? 73.

James E. Critchett - 1504 Glenwood Drive - San Diego 3, California

I have collected a few veries, so had better report them to the Club members. Hope they help somebody, besides my own total. KBAT-680 KLUC-1050 signed & returned my PP form; KSYX-1420 (K-6); WTHM-1530, their printed form on a postcard; WVGT-1580, note & pretty advertising of Golden Triangle country; & KXEW-1600, Tuscon's newsst. Between 2/12 & 3/11 reception reports were sent to the following stations: KXEX-1550, very loud here, of course 2/18; to KAHU-940 for s/off 3:58 to 4:04 EST ?? 2/18; to WTHM-1530 heard through WCKY's ET & OC; & on 2/25 to KLFF-1590, during & after KETO test period; to KXEW-1600 testing in EE & SS at the same time as KLFF; to WAUX-1510 with good signals here; even WPCO-1590 was heard here with WAKR/XEMC interference; WLUV-1520 was an S-4 with no KOMA; & on 3/3 KHOK-1560 received another report. For 3/4 it was KICY-850, heard for third MM in a row. Nothing new reported 3/11. Only other notes of possible value are that KAYO-1150 seems to be AN MMs now; WYNR-1390 was heard alternating with KCBC from 5-5:30 on 3/11, & some foreign language station covered others on 1460 at 5:30am. 2/25 was my best morning of the season, & many thanks to the CPC for notifying all DXers of these TESTs. All were heard here, with KXEW-1600 an added bonus. The CPC has done a good job; hope they can contact more MST & PST stations next year. ANs cover many now. Don't be fooled April First, fellows - that new station is just an image or a harmonic of one of your nearby AN pests. Best wishes to all.

John Oldfield - 11623 84 Street - Edmonton, Alberta

DX: CK-"YL-31"-0 ex-330 Peace River is now daily here, also CJJC-850 GSQ s/off 3:00 occasionally; KTOK-1000 rr as KOMO was off for a week of no TT. Antenna here now runs NE/SW & a new wire N/S. This has greatly improved reception. Take note, Leo Fox on 2/14- XECL-990 "Radio Mexicali" SS s/off 3:05, KTRG 990 RS 3:06. A pink ham-type v/q received from Henry Heesman, KTRG, plus a nice letter and a post card of the tower. Take note that John White is now CE (radio) & v/s for KTRG. Mr. Hessman also said he received another report from Edmonton for the same date. John McDonald, are you still hereabouts? If so, who not call me at 479-6642. 2/18- Tried for CBN & CB73 DXes but KFI TT & SS covered 640 & KFQD topped 730 like a local. I sent second report to unverified KFQD. At 4:59 some sort of anthem was heard followed by a BBC type voice, "This is the Jamaica Broadcasting Corporation" (fade) "Assigned frequency of 750 kc/s." And then he gave what sounded like more frequencies (FM?) Organ mx was heard under WSB's Dixie s/on, but both JBC & WSB faded under JOIB's two man "debate." Anyone have recent JBC QM? XENL-860 RS in SS AN here. 2/21, umm WNOE-1060 rare here, ZOO-1020 s/off under KDKA for a new country (also 2/23). WERC-1260 s/on 5:00 SSB. 2/28, pm-CKNL-970 (CKYL's sister) RS 8-8:15 under KOOK/KREM/KOIN/WDAY. "NL" is most northerly Canadian station heard here. 2YC-660 is strongest TP or DU on the dial - c'mon, Dave Bennett! Western Canadian news: CK"SA"-1150 is AN off MM only; CHED-1080 should be on 630 kc/s. some time in April. They're installing newer equipment. CPs granted to CJJC-1350 for 560 kc/s., CBXA-740 50kw. new studio, next XR site, CBX-1010 50kw new XR & studios at Calgary. CBC completion date in June 1964. The Communists are upon us! They applied for 1220 kc/s. lkw. in Brandon, Man. & a "good mx" format, hi. Local CKUA may apply for a relay at Calgary because of poor CX there at night. CKUA is still AN illegal radio station. Thanks for the tip, Marv Robbins, but slow mail service, ten hours too late. I hope to catch on my correspondence soon. Yes, this is a threat. No, the rumors are wrong; I won't be walking to the Big '63 Convention at Denver, but I will be there. Why don't you plan NOW to attend D.C. in '63?

Larry B. Godwin - Box 165 - Boulder, Colorado

Greetings from the Land of Paraguayan reception & Portuguese veries! Yep, finally heard ZP14-870 3/10 & 3/11 for a very much-wanted country; see details in IDXD. By the way, 870 is clear until WWL s/on about 5:30 EST on SMS for KAJM WHOA ZP14 etc., but WWL s/on OC @ 4:30 on MM, cutting DX short. Back on 3/10 I heard an EST AN on 730, was this CJNR? (Yes, Larry -ERC) The phone number given sound like 6239, & CJNR's is Elgin 62209. On MM 3/11 the WKNX test came through quite well for a report. Also heard HJEM-1110 with KFAB off. VOA-1178 Okinawa continues to pound in at 8:00 every AM. I received a very interesting phone call from Len Lickwood this week on which he played a tape he took on China-1040 with terrific signals. I'll try for this one SMS with WHO off though KHVH is usually strong. By the way I have a tape of the business meeting at Indianapolis & if anyone would like a copy, just write (3" reel). Thanks to the Ohio guys for the tape which we'll answer soon. The DX season is far from over! In April '62 Jeff Stewart & I heard about six new Australia & New Zealand ones. Anyway come to Denver this Labor Day! See you here then, Tom Arko! 73s.

Raleigh Biss - 484 Marcus Road - Palm Springs, California

Heard SM 3/10- KTAT-1570 7:58-8:15am, KCAD-1560 8:16-8:35am, KRZY-1580 8:38-8:50am. all RS daytime programming & good reports out to all three. Report out to VOA-1180 Marathon, Fla. for their RS morning & evening of 3/8-9. This morning's results not so good because of a bad sand storm. If you think snow static is bad, you should hear sand static! I did hear WKNX-1210 but they are unkn, sent them a card anyway. Only verie this week was KGHT-1520 on a f/up from 4/12/62 report. Stopped in at Sunymead to give Donald Erickson a short visit yesterday.

Matthew Geller - 61 Silver Spring Road - Short Hills, New Jersey

I have one querie which is greatly troubling me. On 3/11 I heard KA335 testing under authorization of FCC with announcements @ 5:15 & 5:30pm. The station is in (Page 9)

(M. Geller) Elizabeth, N.J. What is its purpose? Note - station was on 1530 kc/s. I also would like to make a correction. In my last Musing in the issue of 3/2 it stated I received KIKY-1440. This, of course, was KOKY. Now that I have been a member of NRC for a short time I am interested in the history of the Club. I have heard rumors of there being two clubs & their joining to form NRC. When did NRC begin? Who have been the leaders? I would appreciate an answer. (NRC started in 1934 in York, Pa. with Bob Weaver of that city as its founder. -ERC)

Ronald F. Schatz - 8065 Crespi Boulevard - Miami Beach 41, Florida

A short note this week. Only new DX is a frequency drift. HJXX-770 is now on 755 & blasting this way. BFO noted on 584 & FF on 1538 in the early morning; considering Madrid & Dakar. Didn't try for TESTS - yo estuve muy cansado! HJBI-840 is apparently off its brief AN spree & the same for Radio Aeripuerto-640. I'm 99.99% convinced that ZP14-870 is not the one saying "Buenos dias Paraguay." For 5kw. they're pretty strong. Anyway, LRA-870 isn't too far from that country. That does it, quality DXers, 73s & good DXing. One more thing: Do ~~you~~ owe me a letter?

Bernie Duffy - 77 Livemore Avenue - Staten Island 2, New York

New "heards" are WNRV & WLKW, both 990 kc/s., heard 3/17 through intense QRM by WIBG. The former was caught at its 2:33am s/off & the latter at its 6am s/on. Another addition was WVIC-1430 heard for the last five minutes of its r/c 3/18, at 1:30-1:35am, thanks to WNRJ's signing off at 1:30. An unkn one, WDAX-1410 McRae, Ga. came in well with its r/c @ 1:30-1:45am that morning. Latest veries are a printed card from CKBC, Bathurst, N.B. & v/ls from WDEA Ellsworth Me. & WBOL Bolivar, Tenn. & JBC-620, Sour Tree, Jamaica.

At 5, WACT; 5:02 WKCW with singing SSB. WHK ID only @ 4:31:30. 3/15- That 1600 pest with on/off OC 2:55-4 etc. At 3:03 W--- on the air for a test (during pest off), either Mo. or Miss. & TTed. Ernie, @ 4:04 after NX, "That's the NX from KEVI, stay tuned to Radio 144." On 980 was KABC AN; On 870 @ 5:03 NX/SS & programa nacional @ 5:16. "At this time WWL New Orleans presents the Cuban Freedom Committee & SS again (no WHOA this). Cuba had to give up baseball for the Russians took the bases away, but here, the N.Y. Throwaway & now the Trans-Canada can bring you fast to the '64 NRC Buffalo Convention.

THINGS ARE A BIT SKIMPY- LET'S HAVE YOUR MUSINGS FOR THESE NEXT FEW REMAINING WEEKLY ISSUES. AS THEY SAY IN SKOWHEGAN, MAINE, "WGHM" -"WE GOTTA HAVE MUSINGS!"

EDITED BY PETER V. TAYLOR, c/o KFOG, 420 TAYLOR, SAN FRANCISCO, CALIFORNIA, U.S.A.  
 NOT A WHOLE LOT OF STUFF THIS WEEK, BUT THE QUALITY IS AMAZING. PORTUGAL IN CALIFORNIA  
 ST. PIERRE SEEMS TO BE ALL OVER THE PLACE, AND SO ON. GOOD SHOW. SHALL WE?
