OUR THIRTY-FIRST SEASON

APRIL 4, 1964

### A RAVE FROM DAVE

"I have been a member a short time and have enjoyed the NRC more than anything else as a club and as a well organized club and my full support is in the NRC."

- Dave Schneider - 17 Pine Grove St., Woodstock, N. Y.

### SPECIALS

		kc/s		Watts	A.M., E.S.T.	
Sun. Apr. 12	C F S E*	1425	Senneterre, Quebec	50	1:00 - 3:00	N R C &
Mon. Apr. 13	K M E D*	1440	Medford, Oregon	1,000	4:00 - 4:30	N R C
Sat. Apr. 18	K W F T	620	Wichita Falls, Texas	5,000	3:00 - 5:00	
Mon. Apr. 20	W C W C	1600	Ripon, Wisconsin	5,000	3:00 - 4:30	test
Mon. Apr. 27	K Y A *	1260	San Francisco, California	5,000	4:00 - 4:30	N R C

**CFSE.** We are not sure if CFSE is still running their monthly second Sunday DX shows, but we suggest looking for them anyhow. Perhaps they are on 1450 kilocycles, which would be slightly difficult. Ft. Lt. W. D. Strachan is v/s. ERCooper

**KMED.** On what is hoped will be a clear channel, KMED will be on the air for the NRC on Monday morning, April 13th. Their Chief Engineer is Mr. Ellis Feinstein, and he tells us he is very anxious to receive DX reports, and we hope it will be a good DX morning so that his station will be heard extensively. We do not have word on the type of programming, but it will probably be familiar music, with perhaps some periods of cycle tone, and frequent station IDs. Be sure to try for this fine, friendly station, at 1 a.m., PST (4 a.m., EST). DAVE OVED.

**KWFT.** The write-up will be in next week's issue, but in case it might be delayed in the mails, the v/s is Mr. Lewis Dickensheets, C.E.

**KYA.** Read Rich Heald's Musings report in this issue, Page 7, for some interesting information regarding this program. The full write-up will appear in the April 18th DX NEWS, Mr. Paul Beck is the CE here.

### "AN" SITUATION

<u>ONS</u>				<u>OFFS</u>		
730	C X 1 O	inc. MM (SS)		590	K U G N	
1230	K R D R	NSP		940	W I N Z	MMS, irregularly.
1450	W M F J	Inc. MM (temporary?)		1490	W M B M	Wed. only, on MMS.
1540	K B V U	NSP				

### CONDOLENCES

To our good member Roger Winsor, whose infant son passed away shortly after birth this past week. We all share your sorrow at this time, Roger. Also, we are sorry to hear from Ralph Johanns of an auto accident to member David Oved's dad. We hope it was very minor, Dave, and that he'll soon be OK-100% again.

REMEMBER, DX NEWS WILL CONTINUE WEEKLY THROUGH APRIL, THEN MONTHLY THROUGH THE SUMMER. SUMMER DX NEWS DATES WILL BE MAY 16, JUNE 13, JULY 18, AUGUST 15. PLEASE REPORT IN!

Joseph W. Plonka - 630 22 Street North - Lethbridge, Alberta

Say, I must have set some kind of record. Two Wusings in one year! I'm not proud of that, though. Right into some late DX. 2/23- KPRS u/KVGB, KMBY (graveyarder on 1240) I thought this one was KMBY. Replayed tape before realized what I had. KABL u/CFAC s/off @ 2:45am. KAKC, Tulsa, in on very clear 970 @ 2:49. KUPD, Arizona, @ 2:51 after CFCW s/off. 2/26- Brought following: KRMG o/KCBS usual in here. KVOR, u/KCPX. Great signal on KAGT, Anacortes, Wash. @ 12:08. 3/3, reads as follows: KCEY & KWIP, # 87 & 88 from California; KAIN #14 Idaho @ 10:21. Great morning on 3/14. KRAI @ 6:20, XERB, just before CHEC s/on @ 6:44; KRNS @ 7:00. Better catch this year must be KNOG, on 1340 o/CFSL @ 6:57. Who is "Monkey Radio"-1360, KMO? KOSI & KFDA rounded out that fine morning. 3/22 brought CFYR for #7 Manitoba. Oh dear. Finally, 3/25, KROP u/KOZE @ 9:22pm. Totals now read 942/317. Trust that CHEC Radio Special boomed out. After s/off, seemed very clear channel. KING not in sight. How about a letter, John, Leo? My CJLY in using of 2/29 should read CFAX. Didn't realize my writing was so poor, ERC. Let's keep the reports coming. We've got the guys who are willing to work. Let's keep them working and keep NRC the best BCB Club in the world. 73s.

Andy Rugg - 16 Lake Breeze - Pointe Claire, Quebec

WVOB-1520 is my only new verie, making the total 1,163. Letter from CBI says my unID CBCer of 3/16 is probably CBAN-1140, inasmuch as CBI-1140 has a MM SP. On 3/23, unnn WDEL-1150 made it poorly through WCOP on second set during their NNRC DX from 4-4:12 fadeout. That pretty well terminates my '63-'64 season as I will be hitting the books rather hard until May or so. I will definitely make an effort to make Buffalo but I can't commit myself until the financial situation ameliorates. If I owe anyone a letter (and I do quite a few cases), be patient. Thanks for the special PP and Venezuelan stamps, Stan Morss! 73.

Stan Morss - Route 3 - Bradford, Massachusetts - 01832

Verie, v/f from WVOB. 3/24- TT on 1460 at 1:10, listened to 2:30 and no ID. 3/29- CBZ -1480 Frederickton, N.B. at s/on 5:58:30 am w/WSHP too QRM, and about three others. 3/30- HJCV-1190 Bogota AN show an S-9, using slogan "Nieva Emisora Todelar en Bogota" sounds like more power. Senegal-764 at 2:43, fair signal. TT on 1520 2:49, no ID. WDBO-580 testing 3am and on. No sign of Dominican Republic station on 1340, all WGNI.

Roy H. Millar - Box 91 - Marysville, Washington - 98270

Back again! Location of Washford station in the Welsh Home Service of the BEC (881 kc/s.) has been called to my attention, and it does appear that this has to be counted as England rather than Wales, as is located in England proper. Have so corrected my logs. Now to new loggings since same last reported: 3/14- KGAR-1550 Vancouver, Wash. atop QRM at 8:25pm, but did not catch s/off. 3/16- HIL-790 Santo Domingo, Dominican Republic, s/on 5am with NA and slogan "Voz del Tropico"; WCTA-920 Andalusia, Ala. 5:58-6:35am. Veries: CBXI-610 (first CBC Relay outside of B.C.); YSAX-800, HLCA-970, HIL-790. As is most obvious, little DX has found its way in since that fabulous first few days of March, but I do look for band to open up again this weekend, so I hope for some goodies for Easter! 73.

Dan Morin - 17775 Clyde Avenue - Lansing, Illinois - 60438

DX as follows: 3/15- WCPS-760 s/off at 6:15pm u/WJR; WPIT-730 very strong at their 6:30 pm s/off. 3/16- WING-1410 at 5:50pm; WCNT-1210 along with much-tried-for WKNX; WKAR-870 o/WWL from 6:30 to their o; 4:50pm s/off; WKBJ-1000 s/off at 7pm about 15 seconds after local WCGO; KGM0-1550 s/off at 7:03pm; KDAB-1550 s/off 8pm. 3/17- WENO-1430 at 6:32pm; WCPG-940 s/off 7pm along with WMIX-940 and local WAAF-950. 3/18- WAVN-1220 s/off @ 7:15pm with interference from local WJOB-1230; KWNT-1580 s/off 7:15pm. 3/19- KKJO-1550 booming in o/CBE until their antenna change at 7:30pm. 3/22- WKRC-550 o/KSD at 11 am. Totals are now 510 heard and 231 verified. Ernie, would you give me the address and price for the "World Medium Wave Guide" which you mentioned a couple issues back? 73s to all. (Gilfer Associates, Box 239, Park Ridge, N.J. - 07656 - \$1.35 -ERC)

Len Dunikowski - 366 Lincoln Avenue East - Cranford, New Jersey - 07016

Not much time for DX here lately, as this meager report shows. 3/16- WYRE-810 6:15pm s/off SSB; WBEO-780 6:30pm s/off, asking listeners to tune to WBEO-FM; Radio Senegal-764 first noted 6:32pm, and every evening thereafter. 3/20- RNE-584 6:50pm, the first time I've heard this one, and they've supposedly got 200kw. 3/28- WJSO-1590 3:30pm s/off. V/c from CSB9, and about two pounds of printed material from NDR-1586, which came in an envelope with one side completely open! 73s.

AS THEY SAY IN ST. JOHN, N.B., "CFBC." "COME, ~~xxxxxx~~ FRIENDS, to the BUFFALO CONVENTION!"

April 4, 1964

Dave Schneider - 17 Pine Grove Street - Woodstock, New York

Greetings, all, here is my second Musing. Logged KFBK-1530, Sacramento, Cal. 3/23 3am. KSO-1460, Des Moines, Iowa s/off 1am. KYSN-1460, Colorado Springs, s/off 2am (sometimes 2:03am). KLMS-1480, 1:38am f/c, Lincoln, Neb. WDGL-1520, Douglasville, Ga. test @ 1:30am, WJRC-1510, Joliet, Ill. f/c 1:45am 500w., CJOY-1470 s/off 1:06am. Totals are 824 stations, 43 states. Anyone needing Nevada in the East should try KENO-1460 at about 2:45am MMs. They s/off f MMs @ 3am. Logged KUSB-690, Vermillion, S.D. f/c 6:45am 3/14, CBF Montreal was off. 3/14- WKID, Urbana, Ill. f/c 1:30am. Does anyone know when KYND, Tempe, Ariz. tests? I've been trying for them. Some varies out are KSO KFBK KLMS KUSD KYSN KFDA KVLA KCKW KENO. If any of you has the time to correspond, I would be glad to hear from you. I'm 16 years old. I have been a member a short time and have enjoyed the NRC more than anything else as a club and as a well-organized club and my full support is in the NRC. Best of DX, Lee, and 73s.

Walt Snyder - 710 Stewart Avenue - Apt. 1 - Ithaca, New York - 14850

Verie returns over the past two weeks have been extremely discouraging, almost had enough to make one swear off staying up all night for the rest of the year, and save on postage as well. Sometimes, it just doesn't seem to be worth it. Veries in from WEMP CKLG KSJB WINZ CEO WTOB WIEW WPXY: only these eight out of 23 sent! Under 35% with no returns in last four days. Checking v/ses, six out of 15 had veried for other members since September. Does anyone know anything of these nine? WQIK WAVZ WHOK WFBC WKAT WKMI KXLF WIL or WCLS? DX AN 3/21 AM includes: WRAP-850 u/QRM, XEMO-860-EE s/off f 3:02 am, then KONO on top, and new on 1520 WGPL (Ga.) s/off 4am way u/WKEW - ET? Some graveyard stations AN except MMs here in Ithaca and probably most of NE. WXYZ-1270 40 plus S-9, mostly clear, WHK-1420 40 o/S-9 clear, WROK-1440 40-S-9 clear, and WAKR-1590 10 S-9 clear. Also WINS noted AN at 3:50am with TT. Hope the Holidays were good ones for all of you. 73s.

Jerry Bond - 159 Bowers Avenue - Watertown, New York - 13601

This will be my first report to the Musings section since becoming an NRC member in mid-March. I have done quite a bit of DXing in the last couple of weeks, so here are my most recent new catches: 3/12- WISZ-1590 at 9:10pm o/WAKR/WBRY for about 15 seconds. 3/14- WIRD-920 at 5:30pm with NX, WEXT-1550 at 5:58pm s/off. 3/15- WEEI-590 at 12:01am. 3/16- WRYM-840 at 4:44pm, CKEW-1000 at 4:52pm, WVPO-840 at 5:15pm, WIVK-860 at 6:35pm with rr, and WLIL-730 at 6:46pm s/off. 3/18- WCPS-760 at 6:15pm s/off. 3/21 - WKJR-1520 at 12:24am with f/c. WAJR-1440 at 12:44am, WDXR-1560 at 1:02am s/off, WLIJ-1580 at 1:13 ending f/c, WILS-1320 at 1:22, WQMN-1320 at 2am with f/c, WINC-1400 at 2:04am, and WROK-1440 at 2:40am. 3/23- WDGL-1520 very loud and clear at 12:18am with ET, and WEEI-1570 at 12:30am with f/c. 3/26- WNPV-1440 at 12:25am with f/c. 3/27- WOKJ-1590 at 5am s/on, WCTT-680 at 5:03am s/on, WJMX-970 at 5:30am s/on, WATS-930 at 5:30 s/on, WHPE-1070 at 6:15am and WESA-940 at 6:40am s/on. Some of these stations were received after reading some tips in recent issues of DX NEWS. The f/c list has helped me considerably since I received it a couple of weeks ago and I look for it to help me even more in the future. That's about all the DX news for now. One more thing though, I have about 300 CKWS-960 SCs for trade. Does anybody want any? 73s. (Welcome to the NRC, Jerry, and we hope you'll keep DX NEWS posted regularly on your DX!ERC

Richard Cochran - Sweets Corner, Nova Scotia

No DX here for two weeks. There is a terrible roar from a power line. I complained to the DoT, but they don't seem too enthusiastic about doing anything. DX: 3/9- Senegal-764, Bordeaux-1205, Lille-1376, KOB-770. Lots of SS stations. Power line noise started again about 3am 3/9 and has been going ever since! I did manage to log WLKW-990 for a minute or so o/CBY. A few varies, cards from WAKR CKCK WWIL ZEM2-1340-AN WRAP WFBL CEW CBE. v/1- WMTR WTSL-1400 (emergency, ice jam in Connecticut River). v/f- Radio Belize, VOUS-1480, Argentina. VOUS uses a 250w. XR, but is restricted to 50w. output, 24 hours, non-directional. Back in January, I asked CHNS-960 if they plan a s/off - Assistant engineer Richard H. Parker replied "We nope not!" CHNS promotion says AN show "Mx Till Dawn" is heard "from Halifax to Vancouver." CJCH-920 claims they serve England with a consistant 12 midnight to 3am signal. I wish it would work the other way like that! This is my first report, and 73. (Welcome to the NRC to you too, Richard, and again, we shall all wish for many more fine DX reports from you! -ERC)

LET'S NOT FORGET THE BIG BUFFALO CONVENTION. PLANS ARE UNDER WAY - THERE'LL BE A DX QUIZ, AND A TRIP TO NIAGARA FALLS AND TO LOCAL RADIO/TV STATIONS. COME ON DOWN!

April 4, 1964

D X N E W S

Roy Barstow - 16 Harding Road - Walpole, Massachusetts

I am another member with full support behind the present NRC government body, and for Ray Edge, Ernest Cooper and Peter Taylor, whose jobs are a pleasure in the end result. A big thanks for the work they are doing. I have been lax in my reports so will list what's been heard here. 2/17, MM- CFSE-1425 at 12:40am in good. WMYB-1450 f/c 12:30 am. WDON-1540 in with ET @ 12:50. CFMB-1410 in and steady at 1:18am. Not listed in new VJ Log - where's their location? (Montreal -ERC) KMOR/KGA-1510 over a buzz-type noise. KCKW-1480 Jena, La. with f/c-TT 1:53. WHSC-1450 with their r/c-TT 2:05am. WSBP-180 in Florida with experimental tests saying they had a tremendous signal here. WBCA-1150 Bay Minette, Ala. with a test at 4am and last was WBVL-950 with r/c at 4:30. 2/24, MM- WARO-540 in with their TEST at 12:10am, in better with XEWA off around 12:15. This AM was very good toward the W and KSTT-1170 with r/c at 1:15am loud and clear. KXLF-370 also in easily around 1:45. The unk DX from WBNB-1000 in at 3am while tuning around. No info on this DX due to the mail slipup in Buffalo. They were in good and v/q in here very fast. They mailed the card 3/6 and here in my hands 11am 3/7 - how's that for speed? One day! KCEY-1390 for another WC station on for tests with TT and two IDs around 3:28. 3/2- Holland-1007 logged good at 12:45am to after 1:30. Then I find out I have no IRCs and none to be had around town! So it goes. Also Daventry-BBC 647 heard at 10:45pm 1/1. Best of the morning was KDBW-800 with their r/c at 3:20am with TT & Mx. 3/9, MM- KGON-1520 with TT at 3:56am. KLAJ-1600 in good around 3:30 and even in after WXKW's s/on. KPRO-1440 noted a little earlier at 2am but unnn. 3/16, MM- More K calls in this AM. Besides KMOR-1510, KLAJ, KWYO-1410 r/c and KORL-650 KYSN-1460 heard before their s/off u/KENO but not enough for a report. Later on 780 what sounded like EE heard and a play was being heard around 4am. Started fading out around 4:30, and would fade about every five minutes, so it might be N.Z. Nights are growing shorter though and will have to wait till another time I guess. On 780 a station s/on at 5am and could have been Ramey AFB but faded out very fast and looking out the window, it's light out already. This will have to wait, too. Am not sure if I have gone over 30 lines so will list veries next time. 73.

Wayne Plunkett - 124 John Street - Weston, Ontario

Missed the last two issues due to inordinately heavy work sked - almost invariably, however, have been able to add four/five new ones each of last four weeks. DX since last report: 2/25- Logs on WSPA-950 and WFHG-980, 5:45-6:10pm, believe I had unnn WLBB-1100 way u/KYW at 6:25. 2/26- 250watter on 1520 s/off 6:14 - think WYNZ; KS00-1140 even with WRVA, 6:50. 2/27- TT on 1380 during WMBG r/c time - no ID heard; ditto for probable KIXZ-940 r/c - too much CBM. WAQE-1570 o/CFOR, 5:25; WNIO-1540 s/off 6pm; CST on 1530, whoever this was, probably would be needed. 2/29- WCPC-940 reported for first day on that frequency, ex-1320. S/off 6:45, mentioned several times offering prizes for farther reports on this inaugural day, but nothing back as of 3/22. 3/1- Log on WFIL-560, 5:30-5:40; two long-sought new ones were WCEC-810 and WCPS-760, 6-6:15 WESC-660 even with WNBC, 6:15; WCAW-680 well on top 6:18, noted rocker on 1000 u/WCFL & CFRB slop - does WSPF qualify here? Another rocker on 840 way u/WHAS - maybe WTUF. Both WSPF and WTUF are needed here so would appreciate any info; WTIK-690 u/Cuban, 7pm. 3/2- As many of you have noted, a real good MM. Another try for verie from CKY-580, log 11:55-12:05am, WMAJ-1450 on top long enough for log around 12:06; s/off on 1400 at 12:11 mentioned Pioneer Valley Broadcasting Co. As far as I can determine, this would be WHMP. At 12:50, could hear WABC was coming in on 1300! Must be crazy, e? (WAVZ?-ERC) On 930 @ 1am, log on WTAD & tentative ID on needed KSDN; second report off to CKSO -790 s/off 1:04; first heartbreak of this AM came when GSQ filtered in on 900 u/CHML @ 1:06, CHNO or needed CKBI; KDLW-1300 r/c 1:10. WHAT testing on 1340. Big surprise was ID from WDCR-140 on f/c @ 1:15, only N.H. #5 here. KFBK-1530 good 1:30; WEOK-1390 testing at 1:52, new catch. After 2am, CBL-740 thankfully noted off for the first time in many months - only continuous mx (KCES?) until back on @ 2:50 except @ 2:30 heard K- now conducting ET - help, please! When CBL was off, CJBC came back on to carry CBC mx. CBL has also been off SMs 3/8 & 3/22 from 1:05 until OC back on about 7:30. Back to 3/2- Somebody had OC-730 2:37, more frustrations. On 1410 @ 2:51, "operates on a frequency of 1410 with 1,000 directional watts." Who? ID KGA-1510 2:59; WCOP-1150 AN this MM; KDBW-800 r/c no trouble at all, Montana #3; TT-630 during KGVW r/c time, no ID caught. KBUN-1450 end r/c 3:27; WJET-1400 AN; another unID TT-1250 u/WRYT, off 3:45 Anybody in E know for sure if this was KAKA? No WARD-DX, at 4am weak signal on 780 brought my first TP, no ID as such, but feel reasonably sure it was 4YA. To Joe Fela, "Night Watch" on 970 is indeed WEBR - s/off 2am.

Henry J. Wilkinson Jr. - 6620 Beeman Avenue - North Hollywood, California

Biggest news at this den was the logging of Dakar, Senegal, 764 kc/s., from 10pm to 11:06pm PST on 3/18. Also heard the following evening. Frught to my attention by a phone call from Pete Taylor 3/17. Thanks a lot, Pete, as this is my first African from the WC. Report out via air mail the following day. Hope he verifies soon. DX CX pretty good in this area even this late in the season. See Pete Taylor's column for foreign DX. I would like to see all the DXers who support the "Supremacy Ratings" to also support Pete Taylor's column with your foreign loggings and veries. This effort would complete the circle. I recently read an article where several New Zealand DXers felt that the chances of better DX catches are always better when there is much sunspot activity. At the present time we are at about the most INactive stage and with the great number of distant stations being heard so well in the last several years I'm inclined not to agree with them. Perhaps it would be true if based on "rare" catches but not for night-in, night-out DX I'd take the CX that have prevailed the last several seasons. Of course, if I were a DXer living in New Zealand, I wouldn't worry too much about a few sunspots, hi! They get our lkw. stations better and more frequently than we get their 60kw. station! I'm not griping - I'm just jealous! 73.

Mike Bugaj - 197 Boston Road - Middletown, Connecticut - 06457

Once again it's time for a Musing. There's been plenty of DX for the last two weeks, and here it is. 3/11- CFRS-1560 @ 6:30pm s/off. St. Pierre-1375 @ 5:30pm, Radio Rebelde-1165 @ 9pm. 3/12- WAGC-1560 @ 6:40pm. 3/13- WGTG-1580 @ 6:12pm, WBLU-1480 @ 6:30pm s/off, WSBP-1580 @ 6:30pm s/off. 3/14- WGUS-1580 @ 4:05am, WRSJ-1560 @ 4:30am s/on, CJON-930 @ 4:22am rr-AN; WJDA-1300 @ 5pm. 3/15- KLOU-1580 @ 1:45am-rr, KWNT-1580 @ 2:07am f/c, CJSP-710 @ 6:30pm s/off. 3/16- WDIC-1430 @ 1:28am f/c, WKSK-1600 @ 1:50am f/c, KCKW-1480 @ 1:50am f/c, KWYO-1410 @ 2:01 f/c. 3/17- WAGL-1560 @ 6:30pm s/off, WRIN-1560 @ 7pm s/off, WLWN-1560 @ 7pm s/off. 3/18- WAMY-1580 @ 6:47pm s/off. 3/21- WTHM-1530 @ 6:30 s/off. 3/22- KELO-1320 @ 2am s/off, KASI-1430 @ 2:48 PpP test. 3/23- WDGL-1520 @ 1:05am, KLMS-1480 @ 1:35am f/c, KTOK-1000 @ 1:55, KSEL-950 @ 2:27 w/rr, WJRC-1510 f/c all morning. 3/26- WABH-1150 @ 6:30pm with c/w. 3/27- WFKO-860 6:30pm s/off, WTAC-600 @ 9:05pm with rr. 3/28- CKLG-730 @ 3am. Only one verie in from KWNT-1580 for their f/c. Signer says their f/c is on the 15th of the month. My total heard is now 1,064 with 94 veries. On 3/23 I heard a tone on 1270 @ 2:05-2:25am which I'm pretty sure is KBOM, but no IDs were given. I'm desperate for a N.D. verie so off will go a report. If you hhaven't already heard, local WMMW-1470 has been sold, with the deal also involving KATZ-1600 and KCOR-1350. Rockville, Conn. may be in for a new BCB station (on 800 kc/s.) if the FCC will OK it. This is from the Hartford Courant. Joe Pela writes that WKEW's Joey Reynolds is a ---. Maybe so, but he's doing pretty well for one. If Senegal keeps playing rr, I may leave WPCA for good, hi. I'm not wasting one more cent on KXLF-1370. Their DJs and mx is OK, but I won't say what I think of their CE. That's it, I guess, so 73s, everybody.

Richard Gula - 56 Sears Street - Middletown, Connecticut - 06457

Finally, a verie from KOLL, a v/c. Now to DX. 3/21- WOND-1400 @ 6:02pm. 3/22- CBO-910 @ 2am, WRIB-1220 @ 7am s/on. 3/23- KLOU-1580 @ 1:05am, KFDA-1440 @ 1L26-1:31 f/c, KLMS-1480 1:31-1:45 f/c, ZFB1-960 2:09, KPRC-950 2:05-2:07, WDGL-1520, Douglasville, Ga. testing but not officially on the air, WJRC-1510 Joliet, Ill. testing, not on the air yet, KSEL-950 @ 2:36-2:45, WREX WITH-1230 @ 2:52, WSGN-610 @ 3:35. WONE-980 : 5am s/on WHOO-990 @ 4:55, WYPR-970 @ 5am s/on, KBO-1270 @ 2:10-2:25 f/c, KENO-1460 @ 2:55-3:01 then again 3:05-3:15 f/c, second report to them, hope they verify as I need Nevada, and lo and behold, finally got my first TP, KORL-650 @ 4:15-4:35 with signal that went as high as S-6 but also faded a few times. Hope they verify. 3/25- Senegal came through on 764 for a report @ 6:30-7 s/off. Barbados still coming in but not as well as before. 3/26- KRGI-1430 @ 1:59-2:05 f/c, f/c on 690, I think it was KHEY but not sure. Anyone else hear it? WYSH-1380 @ 2:30 f/c, WRCM-1590 @ WAKR at 2:33. 3/27- WCHN-970 @ 6:07. 3/28, heard f/c on 1370, call was either WPEC or WLTC - anyone else hear it at 1:45-1:55? Who was testing off/on on 1390 - had TT but no IDs. Finally managed to get a few reports to the following: KFDA KLMS KRGI KSEL KPRC KORL for the big one, KBOM & KENO for report #2. Also Senegal. Anybody have any ideas for Idaho? I need it here, as I do Wyoming. So far totals are like so: Logged, 835; Veried 37, states, 47 logged, 38 verified, provinces 8/2, and countries, 38 logged and only ten verified, b t I hope to change that soon. On 3/27 I noted an SS on 730 but it was not XEX or anyone else. They played cl mx and had few announcements. Anybody have any ideas who this was?(P.6)

(Richard Gula) is making its appearance here in the form of that horrible static, as I suppose everybody has found out. Hope it gets cool for a while. We have this coming week, 3/30 to 4/6 off, so I hope to DX then. 73s to all.

Ben Dangerfield III - 202 Governors' Drive - Sproul Estates - Chester, Penna. - 19013

Judging from some of the mail I've been receiving, some of our former associates are still reading Musings. Well gentlemen, and I say this soncerely, I apologize to anyone I might have offended by any remarks I made. I will always enjoy talking to anyone who wants to talk about the subject of DX. So don't go away mad. Sunday 3/22, found some Near East signals in the evening, most of them pretty weak. I logged Cairo-L773 from 9:25 to 1:25pm; Arabic programming and strong signal. Baghdad-908 was heard briefly @ 9:30. A much weaker station on 885 with Arabic type mx might have been Damascus. So an interesting evening. MM 3/23 was not successful; nothing new was logged. I heard 4YA-780 again at 3:45am, and ZFY-760 s/on at 4:15, but couldn't dig out the WJBO DX from behind WCOP-1150. This evening noted three and possibly four Senegal stations on to 7:40pm, instead of 7:00, and all parallel- 764, 1304, 1538 and maybe 1484. Also RNE-683, Sevilla, is still on with a special program at 9:30pm, which I think Peter Bengtson calls an "Operacion colecta" or money-raising program. I have had three veries this week: ELBC-650, Liberia, a specific v/c re my 12/30 repetition, and that's country #79. A surprise in the form of a v/l in EE from RADIKA-640, Surinam, answering my report of 2/25/63. It looks like they are now about to answer reception reports, so here's your chance, HTT! The third verie isa v/c from DDR-1052, Suhl re my 12/29 report

Roger Winsor - 3306 South Clinton Avenue - Berwy, Illinois - 60403

I regret to say that DX has had to take the back seat this last week because of the death of my small son who died four hours after birth. I did listen for the specials MM, but didn't write because of lack of enthusiasm. I didn't hear anything out of CHEC. Were they on? WJBO in the clear, and WDEL until 5:45 WJJD carrier on. Nothing except occasional TT out of WHLT. WJRC-1510 is conducting f/c 1:30-2 nightly. I called them today and they plan to be on the air RS in about two weeks, or about 4/5 or so. WYLO is not on the air any more, so we'll see what's up. I would like to find out who I'm supposed to write to if a station informs me of a definite test via a verie. I sent a nice letter to Ray addressed to the New Kensington P.O. about WBFJ going to be on 2:15-2:30 3/28. That was two weeks ago I sent it in, and in plenty of time to make last 3/23 issue, but nothing was there. I thought at least something would be put in, because 1540 is a hard frequency for many of us because of KXEL/WPTR. No new stations except WYND-1280 Sarasota, Fla. RS. Veries are: KBRX WVOB WRIN KWCB after five months, and WOAP. I haven't sent out a letter since 3/17, as all the punch is temporarily out of me. WVOB impersonal type of v/l does aggravate me no end. I'd rather get a QSL with no v/s that those mimeographed letters. 3/18- WYNR was off and KCBC heard. WJPF-1340 testing until 3:25. WPFB heard around 3:30, and at 5:00 again, but this time with soft sweet mx. Before strictly rr. Strange type format. WDBO heard AN along with CJCA. WSGW had f/c 5-5:15 with ID at 5:05, WSGW in Saginaw, WHIS f/c 5:30-5:45 with one ID at end. 3/23- KERC heard as per list, along with KFDA, WWJC. WYNR has been off the air after 2:00 every once in a while these last two weeks. Don't know what's going on there. Wish they'd go off for good, along with WVON/WOPA. 73s. (Send such tips either to Ev Johnson, or to Pop if no time otherwise, but it's not NEW Kensington P.O. - it's Box 63, Kensington Station, Buffalo N.Y. - 14215 -ERC)

Sheldon Miller - 840 80 Street - Miami Beach, Florida - 33141

DXing continues at a moderate pace. CX are steadily deteriorating, with static CX more often than not. Brand new WDGL-1520, Douglasville, Ga. was ETing on a clear channel for several hours MM 3/23, so I presume many heard them. They will begin RS soon, and they seem friendly toward DXers. Also got a good log on CX10-730 in Montevideo, Uruguay, AN with S 8-9 signals. Five kw. are listed by F.B.I.S. but considering the signal strength this is hard to believe. WMBM-1490 is now back AN MMs, but off Wednesday mornings only. Heard WMFJ-1450 Daytona Beach ANing MM for the college crowd; don't know how long this will last. WJNO-1230 still NSP, in Palm Beach. WFUN-790 surveys still available for an SAS. WINZ-940 is off some MMs, on others sporadically. The Cuban pest on 1012 kc/s. is off the air, opening 1010 kc/s. for me. My spies tell me to look for LA frequency changes by the dozen if that monster 800 kc/s. station goes on the air in Aruba. Senegal-764 sounds more like a CA here, except for the programming, hi. Loudest TA on the band, by far. I hope to meet scores of NRCers at Ron Schiller's on Ma. 24th. 73. (You said 5/23, Sheldon - it's Sunday, 5/24- ERC)

Ralph M. Johanne - 11 East Chippewa Street - Buffalo, New York - 14203

3/28, 1235 kc/s., and Radio One, ZBM Bermuda (he says) with half hour Italian program, then goes EE @ 5:15am, on DAK-3, hi, Roy Millar, I only use antenna #1 and Genio for coupling, you? 3/27- WMEX-1510 3:05-3:36am RS top, ing WLAC AN. 1340, a TTer @ 4:10, another @ 5:50 giving a K call @ 5:56 and 5:57, who? Took WNEW-1130 3:58-4:4qam top- ping WCAR AN; Radio One, ZBM-1230 Bermuda, nice @ 4:57 etc. 3/23- WJBO-DX poor and WDEL loud. Received "Verification Report", Radio One-500, WNDY, 4802 East 62 St., In- dianapolis, 5kw. directional, main lobe SSW and two minor lobes NNE and E. V/1, CM in green, WMOZ-960, Box 228, Mobile, Ala., Edwin H. Estes' station. Air Letter, Radio Barbados, Black Rock, W.I., 795 kc/s., 10kw, P.S. Watson, GM. V/1, v/q, CM WNOX-990, 4400 Whittle Springs Road, Knoxville, Tenn. v/1, CM, booklet & WSYD ball pen WSYD-1300 Office Box 1126, Mt. Airy, N.C. (My old v/1 was 1240 kc/s.). V/1, WAVY-1350, WAVY Radio-TV, 214 York St., Norfolk 10, Va. CE says WSAP call changed in '53, approximate pre-s/on tests daily for 40 minutes, weekday s/on 5:50, SM 7am. V/1, WVOB-1520, B/A Broadcasting Co., 800 Baltimore Pike, Bel Air, Md. CE was pleased that WKBW stood by and already many US-Canadian reports and furthest so far, Los Gatos, Cal. WHIS-1440, NBC in the Municipal Bldg., Bluefield, W.Va., went "all out" with v/1, v/q (they're out of v/qs presently and he used an AM/TV/FM v/q), CM, program, and three folders, also invited for a visit. (My old 1kw. WHIS card was for 11/44, shortly after joining that famous NRC!) A v/1 (beaut) WFBR-1300, 13 East 20 St., Baltimore 18, v/q (dated, signed) with one of the few remaining WFBR EKKO stamps. They're directional N/S from Balti- more. I love that one; my old 1944 v/q had none). Hank Tyndall, Jr., don't "waste- basket" your CMs - I love 'em, bring 'em to the NRC Convention for me. In re Pop E's plaque, don't write to me as ERC (Ernie) got elected (by me, hi, Ernie) to handle it & will do better. An FCC examiner again favored Seaport Broadcasting Co., Lancaster, NY for the pending new 1300 kc/s., 1,000D. Sorry to read in local paper, Dave Oved's father getting injured in auto accident. Hope he gets well soon. 73.

Rich Heald - 733 Arbor Drive - San Leandro, California - 94577

Guess I'm overdue for a Musing, so here it goes. DX for 3/16- KAAA WSPD WKBW KHOT KLYD KIQS KOLO KACY & KVEC. 3/17- KCKC and KFXD. 3/22- KAH1 KCFA KQIN KOAD KGEE KENO KCBQ & KEZY. These last three are re-logged stations. 3/23- KFDA XEAU KOGO KNYC KRKD XEMO WKYR WLEB KRNT WHNY WCAU KOLT & KINT. 3/26- KEYS and KWCO. Latest veries from KGEE KAH1 KHOT KGB KRLA LPFL KLOG KNGL & KRNY, all v/1; WGAR KIMN KYW & WOW, all v/q. Totals now are 390/251. Now here's some news of fairly great importance. KYA-1260 San Francisco will have a DX Test on MM 4/27 from 4-4:30am EST. There will be IDs ev- ery three minutes and tones will be used. So gang, listen and REPORT! I told the CE that he would get lots of reports from the Middle West and East so please don't let him down. Greg Jones and I arranged the TEST and we are also trying to arrange one with KSAY-1010. Speaking of NRCer Greg Jones, he was up here for Easter vacation and we went all over San Francisco looking for a station that would test. I don't see how you Easterners get stations to test as only two of all the Bay Area stations are even con- sidering a test. Couple of weeks ago I paid a visit to Bob Pietsch. Boy, he's not kidding when he says he gets a big noise from 740-900 kc/s. He says it sounds like a station over-modulating, but after paying a visit to Pete Taylor, who gets the same noise, it sounds like it's the P.G. & E. that's over-modulating, hi. To a fellow sen- ior, Mike Bugaj, thanks for your DX tips, but I'm afraid it was in vain. 1080 is blocked b MSP KRLD, 960 is blocked by local MSP KABL. I might try for WPOP, but WING might interfere. Oh, there's a big correction to be made in your VJ Log. KDIA-1310 is only 1kw, not 5kw. That word is straight from the manager. He said they'd be lucky to go to 5kw. by the end of the year. KABL-960 is also 1kw, not 5kw2. Their studios and XR are in San Francisco, not Oakland. That word is from the CE. When KABL does go to 5kw. sometime this summer, they will be directional fulltime to San Francisco. I have SCs from KJR CKCK WKNR KEWB CKCA KFXM, 30 SCs from KDIV, KAFY, KYA and some old KOBY. I'll trade the KOBYs for WABC WBZ or WLS. Any offers? I'm behind the NRC 100%. We must be great! Remember, listen and REPORT to KYA on 4/27. They want as many re- ports as possible. They will be 5kw. non-directional. John Olufield, Marv Robbins, Paul Hoffman, Larry Cowles and Pat Harlage, you're all two-three months overdue with a letter. 73s.

Remember, Joe Fela Jr-167 Goodwin Ave-Newark, N.J.-07112 will compile the NRC 1964-65 F/C List. During the summer send all positive F/C info you have directly to him, also keep members up to date thru DXDTDial.

DX NEWS

4xkkk

8

Paul R. Hoffman - Founders Hall - Box 108 - University of Dayton Dayton, Ohio

It's been a long time since my last Musing, but exams and other activities - hi - have kept me busy. I'm glad to report that the last three issues of DX NEWS have been right on time, and I think we all owe our Buffalo organization a word of thanks for clearing up the mess in the mails. DX has slowed down, both in quantity and quality, but some worthwhile new ones have been noted here in the past several weeks: 2/17- WDAX-1410 @ 1:30 r/c; WABG-960 ET @ 2:20. 2/18- WISL-1480 r/c @ 12:28, WACL-570 @ 12:57 o/WKBN which s/off @ 12:59, WSWA-550 very strong with ET after WKRC s/off @ 1am, KLZ-560 with weak ID @ 1:25, noted MST given on 630 u/KXOK with soft mx from 1:30-2am - who? Also thought I heard a woman announcer there. Forgot to mention an unk SS on 850 @ 2:34am and later on 2/16, but their mx faded before I could get an ID. It didn't sound like Mexican, so maybe HJKC, Bogota? 2/22- WKAM-1460 supposedly a daytime-only heard @ 1:18 am with what sounded like RS announcements, etc. 2/29- WKID-1580 ET @ 1:03; WIFE-1310 @ 1:29. I was surprised to note that this is the first I have heard them since they switched from WISH. They must have switched their patterns, as it's usually WKNR on 1310 now. 3/13- WNJH-1580 is good for their special TEST @ 12:01; then I was surprised to hear Montana NX on 790 from 12:34-12:46, and a report netted me a v/q from KGHL. 3/18- CKPR-580 Ft. William, Ont. noted briefly @ 12:51, but before I realized I had a good one, they faded out. I would like to have verified them. WCCN-1370 r/c @ 2:30-3 am; CKRC-630 @ 3am. 3/23, one of the best and quietest MMs in a few weeks. WKBH-1410 RS s/off @ 12:56; KFDA-1440 strong on r/c @ 1:32; WDGL-1520 Douglasville, Ga. testing all morning until 3:30 with mx; WJRC-1510 testing @ 1:40; WNMP-1590 very strong ET @ 1:14. At 2:35 noted AST on 960 which proved to be ZFB1, but they faded completely after two records and an unintelligible announcement, so no report. After that came KABL-960 Oakland, Cal. @ 2:59 with only an ID heard well. The WJBO DX was very weak on 1150, and the old S-120 was bothered by WNEW on 1130 so I didn't stay with them. I have to get a Q-Multiplier this summer. Later on, the WDEL DX did make it with a very strong signal on 1150, making Delaware my 40th state heard. 3/24- WIOI-1010 @ 6:21pm. Veries in are v/1 KXYZ KLVI (verie says they are directional to the SSW, so maybe a good catch here) WNJH CKEY (for report on 580 kc/s.). v/q- WPUV WKYB XEWA WILS WOHO WMAQ WING WBZ KGHL & KSO.

John Daller - 19997 Ward - Detroit 35, Michigan

Greetings from one of Michigan's numerous NRCers. Nine is the total number as it stands now but don't expect it to stay at that figure long. Six months ago the number of Wolverine State NRC members was a big TWO! Ken Butterfield, Frank Merrill and I seem to have reports in pretty often; the others at well-spaced intervals. DX, guys! Some of the guys came down again last Saturday for a teen-DX day and a good time it was! Frank Merrill brought his veries, tapes (one with Dakar, Senegal) and SCs from Milan; Jeff Stover came over from Southfield with his SW veries and other good stuff and Sheldon Rubini dropped over from across the street. Frank had never met a DXer "in the flesh" and was thrilled when DX, SCs, and radio were all talked about. The veries he has are terrific! His two boxes of QSLs and letters show just about every state & province well-accounted for in a very complete collection. Many SCs changed hands and quite a few new ones were added to my modest collection. Ken Butterfield, where were you? Spring vacation went so fast and back to school I go! Last MM DX for a while: MM 3/30- WGBF-1280 1:02am s/off, CHIQ-1280 1:10, WISM-1480 1:28, WARK-1490 umm w/Alfred E. Neuman belch record, hi, WLDB-1490 weak 1:46, KLOU-1580 La. 2:01 s/off, KLAK-1600 Colo. 2:01 plus, KAKC-970 Tulsa 4:45, WPEN-950 4:55, uses "Channel 95." WAVE-970 SSB 5am, WVQP-970 SSB 5am, WSIG-790 5:40, WHLL-1600 6am. HIBZ was wishful thinking for me. I now have twice as many veries as Randall J Seaver, hi. I went to WKNR-1310, Friday & surprisingly added some new SCs from Art Cervi, record librarian, who gets many SCs weekly, like KPOI, WELL, etc. WKNR distributes 70,000 charts weekly, anyone want a couple though, hi? DJs Bob Green and Jerry Goodwin are both ex-WQAM, Miami. Gary Stevens, ex-WIL St. Louis and WFUN Miami. He used to DX and knows his stations, hi. He read DX NEWS with interest and knowledge about the stations mentioned. Jerry Goodwin, ex-KFDA, Amarillo, Texas also. He says he used to put on Specials for the NRC. Does anybody remember? My SC plan may or may not emerge, more on it later. DX high. 73 AS THEY SAY IN NAUGATUCK, CONNECTICUT, "WOWW". Things are WORKING OUT WONDERFULLY WELL - thanks to so many of your fine, loyal members who have swelled these pages with your DX doings. Thanks a million from us to you! We all like large newsy issues, so as they say in SITKA, ALASKA, "KIFW." "KEEP IT FULL, WEEKLY." Let's hear from YOU too!

John Callarman - Box 1914 - Pampa, Texas - 79066

Announcing the formation of the N.R.C.C.! Titles for Everyone! A group of my friends, some 427 of us, have conducted an impartial vote, and by a score of 423-4 have decided, democratically, that the National Radio Club should institute a regular weekly SW section. Though most of us aren't NRC members, we feel our vote should be binding since we will join the NRC if it adds an SW section. We have held a Convention and it was determined unanimously that our vast majority rule should hold sway. Our vote holds particular legality since none of us (save myself) voted at the Omaha Convention in '59 to do away with the then-present NRC government and place all operations in the hands of those vile dictators, Edge, Cooper, and Van Voorhees. The SW position holds even further legality since the SW section was done away with in 1944 by vote of a government operation abolished in 1959 by Convention, hence any action taken in the past by that no-longer-functioning government must be deemed illegal. Thus NRC, was duly bound, since 1959, to furnish an SW section, and we SWLs demand five years' free membership to make up for the period 1959-1964 in which we were deprived of our legal rights. The 423 of us hereby threaten to call an extra-plenary session to meet in Kenmore over Labor Day to make nasty, anonymous phone calls to such undemocratic members as dare to show for the NRC Convention, and to Naugatuck, Conn. just on general principles. If the present NRC government refuses to give in, we will then be forced to form our own club, the N.R.C.C. (National Radio Club Corporation) in which we will sell stock instead of memberships and the largest stockholders will get the most tips. We will be a tremendously democratic organization. There'll be an official title for everyone, without any responsibility. Every member will get to vote on every issue. We will hold weekly, club-wide meetings by conference-call telephone (collect, of course) and everyone who votes "no" to a majority proposal will be automatically ousted from the corporation - I mean, club. That way, all votes are guaranteed unanimous. Arise, NRC SWLs and throw off the oppressive shackles of undemocratic BCB-Only-ism! (And don't let anyone know that since our primary interest is Constitutional Government, N.R.C.C. will have no club publication.

Maurice W. Nittler - 4590 South Julian Street - Englewood, Colorado - 80110

The following is for your "Musings" column. Let's see if you have the guts to give our readers the truth for a change. The NRC Government has been telling its members for some time now that a few "disgruntled" members have formed their own club. We do not deny that we are "disgruntled" with the NRC government. This has never been hidden. However, I still feel that the NRC members are entitled to both sides of the story. Certainly, as stated, a constitution and by-laws was formed at the Denver Convention by the participation of the 37 members in attendance. This constitution was sent out to the members and they were asked to vote on it. Now, what the NRC membership has never been told is that the vote taken was never forced on the NRC government nor the NRC. Why has the government felt it imprudent to call an election as was proposed to them. It is obvious that they did not feel their position very secure since they have not even seen fit to mention the proposal. This goes to prove what this whole controversy has been about all along: The NRC government is wholly dictatorial & in the true fashion of a dictatorship prints only what the leaders want the membership to hear. This is the reason the NRCI has come about to restore a members' rights to his say in club affairs. The NRCI will be in business permanently but we do welcome a reconciliation when the NRC government gives an ear to its members and allows both sides of an issue to be presented. The present National Radio Club is not a Club at all. If a club's purpose is to send out a bulletin, why, they don't you call yourselves "subscribers" instead of members?

Bob Pietsch - 124 Locksley Avenue - Apt. 3 - San Francisco, California - 94122

Another Musing from this Foggytown den. My activity at the dials has picked up a little lately with nine new stations during the last week. So latest additions to the log are: 3/16- KUI-1420 12:23am (12:45am s/off). 3/21- CHED-630 5:14am, KTW-1250 6:04am (6:15am s/off), WDXR-1560 6:35am, in very nicely, surprise - KTF0-1250 7am s/on, but quickly murdered by KMSL s/on at 7:01. 3/23- KGMS-1380 3:10am finally, KGVO-1290 4:50 am testing (the test ran from 3:32 to 5:00) and WACT-1420 5:08am. Veries a little slow lately, with only KMED-1440 and KCOK-1270. Had a visit from Rich Heald on 3/15 for a few hours of DX gab; we have tentatively planned a get-together with some of the members for 4/11. Totals now 433/189. 73s.

AS THEY SAY IN BEMIDJI, MINNESOTA, "KBUN." "KEEP BUILDING UP the NRC!"

Ron B. Schiller - Box 456 - Marmouth Beach, New Jersey - 07750

Canada came to Marmouth Beach this past weekend; at least that's what the band sounded like! Added a bunch of our Northern neighbors to the log (and so, hope to add to the 104 veries in the files from Canada). It started Saturday night 3/28, as the Stanley Cup Hockey game between Toronto and Montreal (via CBC) was noted on 23 different frequencies. New loggings were CKPR-580 Fort William, Ont., CBI-1140 Sydney, N.S. (heard later with NX at midnight); CBV-980 Quebec City with FF hockey broadcast. 610 had me a bit puzzled: unID Canadian heard at 11:01 with GSQ, then FF-Canadian to 11:59, no doubt CHNC, New Carlisle, Que. who has yet to answer an earlier report. 3/29 found CKCY-920 Sault Ste. Marie, Ont. AN booming o/WOKY 5:05-5:16am and later that day CHR6-1090 St. Jean, Que. RS through WBAL doing nicely with movie theme mx to 5:59 s/off with "Oh Canada." A whisper of long-desired CKCL-600, Truro, N.S. at 6:15 but not enough verifiable "poop" to report. TA CX almost non-existent, except for a few of the regulars: RNE-683/728; RTM-935; Portugal-782/755/1578. Algeria-1142 noted one evening through WRVA, though. 3/23 caught "Radio Cultura" YVKE-1100 o/HJAT & KYW at 7:30-8pm. 3/29, long-wanted WGIR-610 Manchester, N.H. s/off at 12:05am through WIP, turned around and heard him next evening at 7 through WIP/CHNC with NBC's Monitor. WSOR-1480 leaving only WINY & WICH to complete Connecticut, RS 4:33-4:45pm; WSRO-1470 through WJDY/WSAN 5:05-5:15; WILD-1090 spirituals through WBAL to 5:43pm s/off. 3/30, no sign of HIBZ DX Only new one was KBGO-1580, Waco, Tex. AN with rr. Veries to 1,360 with these added; v/l from Praha-1286; v/q from BGBS-560; v/q from XELO-800 back in two weeks, #8 from Mexico; v/l's from WGAN WPQR WAAT. Thanks to Dick Nelson, Sheldon Miller for letters, and Dave Pope, I enjoyed your picture of your DX den - looks like a dandy set-up! 73.

Russ Edmunds - 24 Rosslyn Court - Little Silver, New Jersey - 07739

Guess a Musing is in order! MM 3/23 was pretty productive, I reckon: 1:12am brought a real weird image! WBDS-1570 with a test, rolling in on 650, my most imaginary frequency. CSA3-755 the only TA apparent but it was in like a ton of rocks (S-6). 1:30 brought an EE CBC ID from CBU-690 in Vancouver to keep my record of a new province, state or country MMs. Well, my record was going strong! 2:00-2:11 brought ZFBL-960, for country #17 logged - report out. 2:20 saw Guadeloupe-650 u/WNVC's TT, country #18, no report. I'm afraid the winter evening DX session is fast leaving. Only things in were CAs! Tried again around 5pm. Found unnn WXVA atop 1550 so wrote out a report. 5:26, WKCW-1420; 5:30-6, WYNS beating w/unn WDEL. A minute report for WYNS. Well, since it's nigh the end of the season, guess evaluation is in order. As of 10/1 totals were 338 logged, 29 verified. States, 31 logged, 13 verified. Countries, six logged, two verified. Now, 3/25, totals stand: 477/83, 34/26; 18/3; 6/2, in the same order, showing gains of 149/14; 3/13, etc. That's kinda poor! Still, it's an improvement over the previous winter (pre-NRC) which showed gains of 24/3 in loggings and veries (ydiks!) If I hadn't joined, I might not have gotten 50 stations this season! P. Rizzo, do you still live? K. Butterfield, you owe me a letter & some SCs from two months ago. Hello, Lee Rand! Thanks for the compliments, Karl Seitz - hope my badgering will be appreciated! 73s. (Letter soon, Russ -ERC)

James A. Lee - 108 Seventh Avenue North - Long Branch, New Jersey

After being out of school nine years and then starting again is a pretty hard task. I hope this excuse will be acceptable as my reason for not reporting regularly. Just finished sixth week Phase Test and it was a rough one. It seems the Army crams three weeks of training into one. But, only 23 weeks more and I'll be a full-fledged Radio Wave Propagation Specialist, how about that? Now to DX. 2/27- S/on WRUN-1150, 5:55-5:59am. 2/28- RS, WHUN-1150, 5:40-5:55am. 3/2- RS, BEC-881 2:04-2:30am, RS Strasbourg II-1277, 2:34-3:06am. 3/3- RS, WLKW-990 6:21-6:35am, RS Lisbon, Portugal-755 6:28-6:45pm. 3/4- S/on WOTW-900 6-6:14; s/on WJWL-900 6:15-6:25am. 3/10- RS, WPOP-1410 7:30-7:50pm; RS WLEX-1510 9:31-9:40pm. 3/11- S/on, WBOC-960 5:40-6:02am. 3/12- RS, WKDN-800 4:47-4:56pm. 3/13- S/on, WGHQ-920 5:55-6:05am. 3/14- RS KQV-1410 1:40-2am. 3/16- RS CHNS-960 1:54-2:07am; RS WHAY-910 4:46-5pm; RS WORL-950 5:08-5:20pm; RS WRIB-1220 5:30-5:43pm. 3/17- S/on WBAB-1440 5:35-5:55am; s/on WGBB-1240 6-6:10am; RS WSTC-1400 4:8-5:02pm; s/off WGSN-740 5:55-6pm; RS WTRY-980 9:35-9:50pm. 3/18- S/on, WKOX-1190 6-6:14am; RS WPGC-1580 6:18-6:30am; RS WBUX-1570 11:45am-12:05pm; RS WBSM-1420 5:07-5:18pm. Veries are: WPRO WFIL WICC WDVA WHEB WNAR WJWL WFYI WHUN WTAG WLKW & WBOC. Verie return in last two years has been 53%. 73s.

AS THEY SAY IN SALEM, MISSOURI - "KSMO." "KEEP 4th SUNDAY in MAY OPEN." That's May 24th, the date all local (or otherwise) NRCers are invited to Ron Schiller's!

Bob Foxworth - 69 Elm Street - Summit, New Jersey - 07901

Notes of a tired DXer at 7am on a MM (3/23). Am working harder now than ever at this game, now that I am on "vacation" but enjoying it a lot. Thanks go to Ron Schiller (the DX killer) for a nice day at his place Sunday. I took my RX down and we ran A-B comparisons between my homemade tuner HC-10 and his HQ-180 and couldn't find any difference between them on split frequency TAs, which really came in down there on the shore. Glad I had my own RX there - else would have thought it the 180 and bought one of my own, hi. Also nice to see John Sampson and John Tweedie for first time in 1 1/2 years, and meet Russ Edmunds, another up-n-comer. DX 3/16 - had man/woman discussion way back of KGBS-1020 at 3:30, but couldn't copy. Went to 1000, found LZD at good level with Roy Orbison record (rated top ten in N.Z. this past month in mx trade magazine) and spot for store in Waukegan or so. Couldn't find it on my Brazil map, hi. This AM, PRB9 all over 1000 all AM long, so took a log on him as still need a Braziliano. 3/16, WVOB in well on TEST. Skipping around, 3/23 a complete bust on DXes, heard varying pitch TT on 1300 which indicates a PoP being made, didn't want that bad to stick with 'em. Continuous S-9 mx on 1150, dunno if WJBO or not, umm. WDEL beneath some tester later, also umm. CHEC not heard u/S-7 WHN spurious radiation with WINS on the air, same effect as hearing WEN on 840, except there are four or five different cases of this effect happening here in N.Y.C. Like on 650 - lots of guys are hearing "KORL" with rr after 4am but it's really WABC, also shows up on 830, so watch it. Discussion on 1510 at 4:20 this morning, three chimes at 4:30 followed by cl piano, EE, but not readily understandable; will send tape to 2NA and see if they respond. Castro still busy - put new Radio Progreso ANers on 660-6700680. Senegal still coming in well here, carrier still audible 3:15am. WDGL-1520 Douglasville, Ga. on ETs and asking for reports, S-9 signals. The code signals on 1000 kc/s. are second harmoni of a N.Y.C. coastal telegraph station on the international calling frequency of 500 kc/s. Stand by while yours truly reports JBC-750. Cassius Clay isn't talking much - the only time he opens his mouth nowadays is to change feet. Up to 30 1/2, so will go.

Joe Boatwright Jr. - 2 Cherry Lane - Basking Ridge, New Jersey

As I'm a new member, this is my first Musing, but I'll try to report regularly from now on. Down to DX: New veries are v/q- WGAR-1220 WRAK-1400 WIBC-1070 WHWB-1000 & CHML-900. v/l- WABI-910 WMTR-1250 & WLKW-990. DX this past week has been good, but Spring is beginning to snow. 3/22- 6pm, WCNX-1150 s/off. 3/23- 1am, KCRG-1600 s/off; 1:10am WNGA-1600 with TT; 1:20, WRAK-1400 with TT; 3:55am, WILS-1320 with rr; 4:50, WCDL-1440 with TT; 5am WONE-980 s/on; 6:15pm, WDMV-540, s/off; 7pm, WCPC-940 u/CBM, good signal. 3/24- 6:15pm, WCEM-1240, signal almost immediately lost. 3/25- 4am, WHOK-1320, s/on, some WUNO QRM. 5pm, WHWW-950, terrible WPEN QRM; 6pm, WING-1600 s/off; 6:06pm, WCMS-1050 with rr; 6:30pm, WAFC-900 s/off; also 6:30, WALD-1220 s/off, poor signal. 7pm, dead air on WWVA, heard WCOV-1170 ID; 9:35pm, WERI-1230, signal lost in about five minutes. 3/26- 6:07pm, WXTR-550, loud signal until 6:35. 3/27- 6:45pm, WVKO-1580, s/off, very loud signal, never heard before; 7pm, WDXN-540, s/off, loud signal, heard from about 6:30pm up. 3/28- Finally logged CFGM-1310, @ 1:50am; 2:02am, logged KELO-1320 s/off for state #37; 5:30am logged WTVN-610, s/on, good signal u/WIP; also @ 5:30, WGTM-590 s/on, good signal. Total now at 552. Would like to hear from some of my fellow members. 73s and good DX, if static permits. (Welcome to the NRC, Joe, and to our local gang too! How's the Shady Grove Restaurant on Route 202, hi?- ERC)

Gary S. Collins - 26 Holly Street - Cranford, New Jersey - 07016

Hello gang! No new DX since last time. "Radio Prague" answered a question of mine in my report for 1286 kc/s. over SW, concerning their Domestic Service on ECB, but it didn't come through well at all. I sent to them asking for a write-up on the answer and will put it in a "Musing" if and when it comes. I received a long letter from v/s Martha Trojanova for "Radio Prague" to supplement the QSL card. They are going to send me a bunch of postcards (along with the standard propaganda) in return for a local postcard sent with the report. Postcards with foreign reports really bring some nice results sometimes. Noted that CX28-1090 was the farthest station heard while KORL and Hungary-1187 are the two farthest veries (Szolnik, Hungary is farther than Warsaw, Rome on Polar Map). Sent f/ups to Sottens (who might as well not exist if Dakar goes AN). Countries verified have gone up 250% over last season, so far. Does anyone have a schematic for the R-23 in the ARC5 series (a surplus RX, 190-550 kc/s.). I would very much like to borrow it to make a photostat and return pronto! Thanks! Verie from "Radio Demerara-760" like RBS's for country #30. (Sorry not home for phone call, Gary!)

## INTERNATIONAL DX DIGEST

EDITED BY PETER V. TAYLOR, c/o KFOG, 420 TAYLOR ST., SAN FRANCISCO, CALIF. 94102 USA.

SENEGAL LOGGED ON THE WEST COAST? ISRAEL LOGGED IN NEW JERSEY? IS THIS FANTASY?

NOPE--JUST THE MEMBERS OF THE WORLD'S GREATEST BCB DX CLUB IN ACTION! HELLO DERE!:::

Lets have a full stencil next week again, how about it. Lots of DX yet.

#### About those Delays

Word from the P.O. Dept-Buffalo informs me that in so far as they can determine the delays to DX News during the month of February was caused during transfers from the Buffalo P.O. to the trains, plus the same cause at different transfer places enroute. Seems that at those times the mail sacks were not handled by P.O. employees, and there has been a little dispute between those employees and the carriers, so in many cases, not only here in Buffalo, but throughout a good part of the country, a bit of carelessness became involved. Anyway reports from members seem to indicate that this trouble has been, let's say eliminated and a bit of harmony now exists. That situation was, as the P.O. stated, was a blemish to their service, yet they actually had no control over the situation, other than to try to have the parties involved get it straightened out as soon as possible. So lets keep our fingers crossed, so it doesnt happen again. Thanks for all the info sent in regarding when your late issues of DX News arrived.
