KAPT-1220 Salem, Oregon 12:30-1:00am PST Word comes of a special TEST broadcast by  
Jan. 25 3:30-4:00am EST this station, on what is expected to be a  
----- WES RYAN, P.D. clear channel. "Capitol Radio" has been on  
the air since 12/12/61, yet not many DXers have heard them as they have no early AM  
test periods. But here's the chance, on this test, and we hope they get out coast-to-  
coast, and perhaps even beyond. Our thanks to Mr. Ryan for this info! LEN KRUSE

WENG-1530 Englewood, Fla. 4:00-4:30am EST This is a two-month-old station which few  
Jan. 25 have heard, and we have word of this first  
----- GREGORY L. UTLEY, P.D. TEST by them as listed. WENG should have  
little trouble topping HIDL in the Dominican Republic, which s/on at 4am, and ought to  
have an otherwise clear channel, so they ought to be heard extensively, perhaps coast  
to coast or better! Our thanks to Mr. Utley for letting us in on the test, LEN KRUSE.

New '65 Broadcasting Yearbook will be sent around middle of month via notification to  
me. Cms, v/1 by Wm. K. Miller, CE, WCLG-1300 Morgantown, W.Va. He says XR is across  
the river & had its tenth anniversary. After nine years of using their lkw. according  
to FCC pre-sunrise provision, for nine years, WFBR complained & so now they got FCC OK  
to use 25 watts only from 6am to sunrise & then full lkw. to SSS. He believes and so  
do I, WCLG is the ONLY station w/25w. like that & it does good for a 7/5 mile radius.  
(Go ahead now & tune 'em @ 6am!) F/c is during RS. V/q, CM for 11/30 DX by WPLM-1390  
Route 3 By-pass, Plymouth, Mass. v/1, WKMF-1470, Carroll Bg. Co., Flint 2, Mich, J.M.

Wis. 54602. A printed v/1 for 11/9 TEST by WDCJ-1220, Jones College, Jacksonville, Fla.

tioned WPIE in '29 was w/four other locals on 1500 kc/s, 100w., then went alone & 250w

Wm. Penn Bg. Co., is at 2212 Walnut St., Philadelphia 3. Unrequested v/1, CM by Lou Dar-

tions WLBZ-620, 861 Broadway, Bangor, Me., does attenuate its signal at SSS towards  
WSUN & Cambridge Crystals checks 'em RS the 15th of each month. As verie reply is so  
poor, I'm only DXing when I feel like it. One dozen Specials don't seem to strain  
themselves, WHEC WFBL KWOC HJED and many many others. Save your stamps - they don't  
answer. Registered mail HJKL-605 Bogota, got no reply. C U next time. 73.

Anybody in the area feel like hosting a get-together? I feel like getting together!  
One sole verie this week, very prompt reply from WTUF-840, v/f. I had enjoyable phone  
chats this week w/Ron Schiller, Bernie Duffy, Billy Andres, Joe Fela and Len Kruse, all  
the way from Duguque, with the info on the tests, above. DX: 1/7- I listened and logge  
an hour on 782 w/out IDing my station, language I couldn't be sure of, 8-9pm. NX at  
8:45 & I heard mention during it of "New York Times." (Not a WQXR image, hi). 1/9-  
CEM-940 noted off, SS there. 1460 had two ANs, WMBR w/WBNS underneath. Logged new  
WKVK-1550 way atop powerful CBE w/ET/M most of AM. 1/8-SM- Heard WHUT-1470 s/on 4:59,  
but quickly lost in maze; a 5kw-er also s/on at 5am, unID. Attention, WTIC-area lads  
needing YVQJ, Barcelona, Venezuela. They s/on around 5am SMs o/KRLD-AN; easy here, on  
1080. Who had mx like "Waltz Bluettes" & "Temptation" around 6am SMs, WRSJ? CHRS? S-5  
here, weak. 1/9- ET/TT/OC, announced 5kw., but ID missed, on most of AM, loud, prob-  
ably WMEX. HIBL-1530 s/on 3:59am & killed any chance of a KGBT logging here. Noted  
KYMN's new AN-rr coming in on 1520 so logged 4:05-4:50am, o/WSVL-DX after 4:29; u/WKBW's  
OC & KOMA's OC & occasional TT - and we had hoped for a clear channel for 25Gw. WSVL!  
They met three 50kw.ers instead! But they were happily logged; a station I visited  
during the Indianapolis-'62 NRC Convention. So, two new loggings, both on 1520. As  
far as veries go, it's not a new year - just a new number - they surely are scarce! I'd  
like to compliment Joe Brauner & John Callarman for terrific columns every week! CU in 7.

Tues. 1/5, back to school to simply read of the fantastic DX to be had instead of actually doing it! Soon to come to the NRC - one of the Key Men of Music, more later! Thanks to Dick Cooper for the DX NEWS at home for holidays, now back to MSU. Two bits Herb writes in & tells about some Bowl game in Pasadena! To DX: 12/29- KTWO-1470, my second Wyoming s/off 1:59am, good signal w/WMBD match! KQRS-TEST never verified, but many others got it from last season. WIFE-1310 4am w/WKNR-1310 "KeeNeR 13" off Tuesday AM 1-5am but carrier was on from a little after 4 till 5. WCHP-1440 ET ID 2:40am. They're a local so I called to learn they are testing preliminary to AN operations. H'mm. Nealy is CE. Also that date a newie on 1560, KBEW, in Blue Earth, Minn. My Broadcasting Yearbook is three years old & did not have it, so I called NRCer Jeff Stover in Southfield for correct call & city. It sounded like Duluth at first. I'm due for a new one, hi, which I strongly recommend to everyone. However, in sending the \$5 they want your occupation and company. Solution: Put down "free-lance announcer." Does the trick, Nick. Oh, KBEW-1560 SSS @ 5:45pm. 12/30- WVMT-620 s/on 5am, first Vermont & state #43. WTRP-620 5:05am, KDAL-610 Duluth 5:10am. 12/31- Searching for WMAQ & rock, I accidentally chanced upon CKDM-730 & unknowingly punched a push button for it in my Galaxie LTD, hi RJS, imagine my surprise when they gave an ID clear as a bell & weren't WMAQ! About 8:30pm before a party at which I didn't DX, hi! Did-ja bring in the new year in the right way, Rugg? Or did those Highway cops confiscate the stuff? Now to unIDs and questions. 12/21MM - Parkersburg??-1020 w/"regular broadcast day doesn't start until 5am." & then off at 4:30, no TT even. 12/23- WJFF?-1480 who, now on 1470--" - on behalf of staff of WJFF? wishing you Merry Christmas?" Negro station. These two are separate, hi. Is WJDY, Md. Negro? WAPM-1590 5:50pm. 12/25- TT-1580 2:42-2:56am, Winston spot segway F. Waring program on 1170 at 4:08am, who? 12/28- CKCM?-1440?? River, 1:44am, what? Who is "Ici Radio Canada" on 1480, not 1490 as I thought last week? Is there such a thing on 1030 on that MM as "Radio Cinco" SS? At 4:30am on 1020 "regular broadcasting at 4:58 w/Farm Program" then TT for ten seconds & off? MM 1/4 DX was fantastic on last session for a while! Southern skip fabulous! WYUF-840 TEST in OK as well as a great many others! Why does school have to start? 1/4 DX is lengthy so I will report next week. 30 & 73.

DX here has been the worst in three months. On MM 1/4, not even regular Bordeaux was in. I didn't try for the Specials, but caught up on my f/ups instead. Christmas was spent in St. Louis, so no DXing was done and no Musings were sent. Latest DX: 12/14- WLIJ-1580 f/c w/ID every two minutes until 1:09, then TT until ID & out, 1:24. Then KCNI-1280 f/c 1:35-1:50, then took log on VOA-1196, 2:10-2:30 w/NX mainly. Noticed KDON-1460 in California s/off at 3am, back on at 9:00. Also noted KEEN-1370 s/off in the clear at 3:00 followed by the Lord's Prayer. Then WGOH-1370 on for ET @ 3:01 w/OC only, off 3:05. Then CSB9-782 copied in the clear w/nice signal at 3:15. KVRE was not on, I believe, as no sign was seen & KROW came in strongly w/the same power. I got a mystery station here in Milwaukee, not licensed, but not a carrier current station. I called the FCC and they are coming up here to check it. The station says it's on 990 but I picked it up at 1062 kc/s., probably an image from WOKY-920. Anyone hearing this station please let me know. The call is WAMR. Veries in v/s list, but veries from WEMD-1460 says they are going on nights about 2/1. They have been testing every MM for about a month. Power ~~1/1~~ will be 1,000w. WKBH-1410 is AN, off MM w/ c/w type largely. Thanks to ERC & John Callarman for the cards. To those who think Canadian stations verify nicely, you ought to see my list of non-verifiers. Some are CKPR-580 CKEY-590 CKLW-800 CJOC-1220 CKOY-1310 CKLC-1380 w/CKPR getting two reports & three f/ups. That's all for this week.

Greetings to all members who got new RXes for Christmas, hi. The totals have climbed w/great vigah since last report, due to a new RX, a Hallicrafters S-76. I now use a 200' longwire w/three elements, two running N/S & one E/W. Latest DX is as follows: 12/29- WSGW-790 1:15pm. WREO-970 3pm. 12/30- WLAQ-1410 1:15am f/c, WAPI-1070 1:29am f/c, WFLI-1070 1:31am f/c, WTRX-1330 3:02am, WSYD-1300 5:03am, KMA-960 6am s/on. WTTC 1550 6:03am w/Mutual NX. 12/31- WNYC-830 2:55pm. They are in good almost every day, but I couldn't get a decent ID. WESC-660 4:14pm. CHOW-1470 5pm. YSS-655 10:03pm w/ID as YSS, "Radio Nacional" in the song "Rudolph, the Red-Nosed Reindeer." (Ken Butterfield) RIAS-854 10:25pm. RME-683 10:48pm. 1/2- WMRO-1480 12:15am. CFOX (hi Andy) 1470, 2:10am. CBH-860, 2:21am for a much-needed province. WRYM-840 (call change from WKNB) 4:15pm, w/Great Music ads. Latest veries: v/q- WKOP w/beautiful card for NRC DX & back in four days after mailing. v/1- WDCJ, finally, for TEST. I still can't get that KTTT-1510 verified, & they are desperately needed. Does 30 or 40 feet of extra longwire make that much difference in reception? Well, will close now, say 73s & I'll see all soon. Ernie, what is the price for NRC EE Report Forms? (100 for \$1 or 200 for \$1.90 - ERC)

I hope that everyone had a good Holiday season, & that the New Year will be a healthy & prosperous one. I guess that we all could use a little prosperity as far as veries go. They just don't seem to be answering. Maybe it isn't so surprising when a station receives over 200 reports for a TEST. In these cases, I suggest that we all be very patient w/those stations that conducted Specials, and go easy on the f/ups until they get a chance to catch their breath. Here is my DX for the month of December: 12/7- Specials from WBZB WPSL & KYMN heard - no Radio Caroline, hi! 12/11 was a profitable AM w/three new ones heard within an hour. KSDR & KRAE, both 1480 were conducting simultaneous ETs from 2-2:30. Then the new WBCE-1590 had an ET of their own 3:05-3:30. 12/13- WATH-970 was heard w/s/on & RS 7:03-7:13am. 12/14 was terrible - nothing new at all. 12/17- WMSL-1400 w/TT 1:30-1:45. Then nothing of interest till 12/28 when both CBR-1010 & CFCY-630 were heard w/their AN CBC programs. These CBC stations are surely head totake a log on, at least one that would prove you have heard them definitely. 12/27- WKOP-DX in easily. 12/30- WENN-1320 w/a couple hours of TT, heard IDs 3:23 and 3:33. Then on the evening of 12/30 a hockey game from CFOB-800, w/CHAB QRM, & no sign of CKLW. Finally, the first logging of the New Year was an ET from WNEA-1300 on 1/2, from 1:50-2:10 & on. Veries are averaging about two or three a week. Latest to be received are WABD WIKB WCSH WCMA CFCH WBZB WPSL KRAE & CBR. Some time, if someone feels like conducting a research problem with me I'd like to see what an HQ-180 could do w/local WVON, so if anyone is ever in the neighborhood w/a first rate RX, please drop in.

Here's a summary of my latest DX loggings. On 11/29 Station CBR-1010 Calgary, Alta. was logged w/its RS of programs from 6-6:30am. The same morning the RS s/on of Station WKEE-800 Huntington, W. Va. was heard, & their first 15 minutes of programming. This was from 7:15-7:30am. The DX TEST from Station WAGL-1560 Lancaster, S.C. was heard for a new catch on 11/30 in the clear. Also on 11/30 Station WPLM-1390 Plymouth, Mass. was heard w/difficulty w/its DX, having QRM from both ANers KCBC & WEAM; however, sufficient logged for a fair report. And the #3 station logging that morning of 11/30 was Station WERT-1220 Van Wert, O. w/a TEST 4:15-4:30am. The final 15 minutes of RS of Station WWMG-1560 Nashville, Tenn. was heard for the first time on 12/5 from 5:15-5:30 pm w/some WDXR QRM. The hour-long DX Program from Station KYMN-1520 Oregon City, was logged for the first time on 12/7. The same morning Station WSET-1410 Glens Falls, N.Y. YL was heard for a new logging, broadcasting a special Storm Emergency program. Station WPSL-1510, Monroeville, Pa. was logged on 12/7 w/a DX TEST for a new logging, as was KROW-1460 Dallas, Ore. w/a special TEST program. The fifth logging of the morning of 12/7 was Station WBZB-1510 Selma, N.C. w/a DX TEST. Then on 12/14 Station WBER-950 Moncks Corner, S.C. was logged for a new catch w/a TEST, using c/w mx, but QRMed by the RS of WPET. The DX TEST from Station KVRE-1460 Santa Rosa, Cal. was on w/its DX TEST on 12/14, but unable to hear at this location. The first logging in 1965 was Station WTUF-840 mobile, w/its TEST on 1/4. The latest verifications received at this der included these: KCLR KSMW WKEE WDGL CBR WWMG WPSL WBZB WPLM WDCJ. This brings my total verifications to 3,805.

This has been a pretty good week here for DX. This HQ-180-A is a real fine RX & I recommend it highly to anyone thinking of buying a new RX. Now to DX. 1/2- WAVZ-1300 New Haven, Conn. at 1:35am. WBRN-1460 Big Rapids, Mich. @ 2:20 w/an ET. CFOX-1470 Pointe Claire, Que. @ 3:30, completely on top of frequency. WEZJ-1440 Williamsburg, Ky. @ 4am w/a r/c. Also took a log on CKPM-1440 Ottawa, Ont. for a report. 1/4- WGKV-1490 Charleston, W.Va. @ 1:30am. Found WBT off for a change, & took the chance to log CBD-1110 St. John, N.B. @ 2am. The next is a tentative report to KAST-1370 Astoria, Ore. heard w/s/off following religious program at 3am. I am fairly sure I heard the call KAST during s/off announcement, but not sure, so tentative report sent. (Page 5)

Hi there, this is my first Musing as a new member of the NRC. I guess I should tell you something about myself. I am 17 years old & have been DXing only three years. In that time I have logged 47 states & eight countries. Total veries to date are 367 for 1,100 (give or take ten). Recent DX has been good. 1/4- KRDS-1190 Ariz/ s/off @ 2am new station #47. KTFI-1270 Idaho s/off @ 2:07am, KSEN-1150 Montana r/c via list. Other new stations are WASA-1330 WTUX-1290 WNEF-1290 WHGR-1290 & WEBR-1580. Maybe some of you guys can help me. At about 2:55am every MM I hear a station on 1460 that has a show which is sponsored by the University of Detroit. Call letters definitely begin w/ a K. Anyone know who it is? Seems to go off @ 3am. I am so mad that I missed the KYMN & KROW TESTs as I still need Oregon for a log. I could kick myself. I tried for the KSAT TEST on 1/8 but no dice. WINS & CFRB were blasting in here in Cranford, just 19 miles SW of NYC. Well, that is it for now - C U soon. 73s to all. (Welcome to the NRC, George, & take a deep sigh of relief - KYMN-1520 is now AN-NSP - try MMs -ERC) Pfc P.E. Crocker - 2098531 - 3rd Plt. F 2-8 - 2nd Mar. Div. - FMF - Camp Lejeune, N.C.

DX has been fairly good for the last couple of weeks considering I use only a five-tube transistor RX. Local calls heard were WRFD-880 WKIX-850 WMFD-630 WMBL-740 WKLI-980 WELS-1010 WRNB-1490 WHIT-1450 WGTM-590 WPTF-680 WPGF-1470 WFNC-940 WFTC-960 WGBR-1150. All these are local N.C. stations. 11/21- WMFD-630 N.C. @ 7:30am. At 9:30pm possible CMHB-880 w/good signal & QRM. SM 11/22- 8:25am, WMPM-1270 N.C., some QRM. 8:30, WLSC-1570 S.C. w/weak signal. 12/11- Neth. Antilles PJB-800 Trans-World Radio w/very good signal. Rather surprised me on a five-tube transistor. Just back from ten days of Christmas leave & bought back the SW-54 w/me. I have to have some work done on it. Only receives between 1150 & 1260 kc/s. w/a couple of stations around 1500-1600 kc/s. The barracks isn't really the best place for DX. I get WJJD-1160 WWVA-1170 WOWO-1190 & Radio Americas-1165(?) & of course local WJNC-1240. I will not be going to Cuba as stated in my last report. Instead, I'm supposed to go on a cruise for six months to Europe. That's about it for this time except to say that I plan to be in the NYC area around the end of January & I hope to call some of the area members. (73s best of DX. Recd 1/8 - ERC)

(Alan Merriman) WTUF-840 Mobile, 20/8-9 on their TEST program from 4:25am. WVMT-620 Burlington, Vt. a surprise at 4:35pm, on top. 1/6- Kishinev, Moldavia-998 heard at 8:14-9pm relaying Radio Moscow, good signal w/ID at 8:14 but faded rapidly. 1/7- Tunis, Tunisia-962 good signal 1:10-1:45 in FF. WAQY-1220 Birmingham, Ala. heard w/ET at 2:20am, apparently the call WAQY a change from WEZB. KEYH-1220, Oakes, N.D. w/an ET @ 2:30-3am. Eleven new veries this week. They are v/q- Caroline-1520 WKOP WBME CKCK WEZJ. v/1- BBC-881 Wales, WDEL KRKD WJVA CKTR, & a form from W.I.B.S.-695, Dominica. WBME said I was tied for most distant reporter to DX program. Still lots of reports out, 59 this season. Seventeen of these are foreign, 42 domestic. I'll say 73 & DXnow.

Dave Bennett - 926 Diamond Road - Richmond, British Columbia

DX in recent months, while not exactly overwhelming, has produced some fair catches & re-loggings. Going back into October: 10/12- XEAI-1320 "Radio Tropical" noted at 2:35 w/CHQM off for once. PJB-800 logged w/SS ID of Radio Transmundial at 2:55-3am. 10/14- CBR-1010 logged for first time @ 1:40am, after noting CBX on 740 on 10/12. CKAY-1500 new one in Duncan, B.C. @ 2am. This is a lkw. private station which carries CBC programs. S/off appears to be daily at 3am. 10/25- YSS-655 "Radio Nacional" smuck in between XERPM & my CKLG image on 650 at 11:10pm, only heard once though. 10/26- KGEN-1370 noted at 3:16am o/WMGO/JOKD. WMGO noted for ID @ 3:31 finally. KGEN was TT. 10/3- 4VE-1035, noted w/VOA England NX at 8pm. YNOL-828, showed up at 8:04pm. And Radio Belize-834 at 8:15pm. KASL-1240 logged at 12:42pm, o/u KFLY & several others. 11/4- TISS-875 at 10pm, but too much TGJ/WCBS/WWL for a decent log. TIW-775 at 10:3pm, but ditto for them (I think I need a good loop, hi). 11/5- Het noted on 823, presumably TIOS, at 8pm. 11/6- Radio Peking-1020 at Changchun, logged o/u KDKA @ 2:20am. 11/8- KAAV-1090 finally logged at 4:13am u/either CHEC or KING. JOPK-880 noted at 3:35. Al so many other Japanese, including JOLE JOIB JONR JOQK JOBB etc. 11/9- WTAR-790 at 3:43 am in the clear & offering prizes for the most distant reception report (I wonder who won? I would have to lose my log details, hi!) Radio Pyongyang-785, at 3:48. This one is listed at 20kw. but they have a better signal than some of the 100kw. JOs. Radio Pyongyang-655 at 4:25, even better than 785. Radio Shantung, Tsinan-920 at 4:38am. (I believe this was Leo Fox's UNID station of some time ago). JOBK-670 @ 8:35am. 11/12- JOKP-1150 @ 3:45. This one is listed at Kitami, which is not on any of my maps, but FBIS says XR is at Abashiri, which is. I wonder which is the bigger town? 11/14- CEUE-860 at 3:30am. I finally pulled something out of that mess on 860, hi. 11/16- CHED-630 at 8:52pm, for first logging since the move from 1080. 11/20- KSHA-860 at 7:45pm s/off. CMCA-830 at 11:30pm u/WCCO. 11/23- TIAC-1025 at 10:20-11:05pm w/LA pops & light classics. 11/20- This was the only day in November I heard a hint of the Aussies, 4RK-840 spluttered in along w/LZD-1000. 12/20- Unusual CX - CKBI-900 noted at 6:15pm, 3:15 local time w/CJVI having XR troubles, on/off all afternoon, & running at reduced power. Also KINY-800. KGRL-940 @ 6:59 o/y KFRE. DX so far in 1965 has produced a few new ones. 1/2- CJRN-1600 at 4:40am. KYMN-1520 ex-KGON I guess, & presumably w/50kw. now. Too bad their programming hasn't changed too! 1/3- Station on 1470, w/call like KREL at 1am. Have they moved from 1340, or is this an entirely new one? KBKW-1450 @ 1:30am. KYAC-1460 @ 4:33pm. And I think I've gone o/the limit for the first time in history, hi. 73 for now.

Michael A. Silvera - 5 Trenton Avenue - Kingston 8, Jamaica

Hi folks! DX here has been about the same. I have sent all the foreign stuff (that is to you) to JAC, & if he prints all that I will be running a monopoly on IDXD. Here, US WHAM-1180 Rochester @ 3:45am, KMOX-1120 St. Louis & YVMF, then all YVMF at 4:35. WMBR-1460 Jacksonville @ 6:15am. WMIE-1140 7am w/jammer. All this 12/28. 12/29- WOKC-1570 Okeechobee @ 4 :20am. WDBO-580 Orlando @ 4:35am, WRSJ-1560 Bayamon, P.R. ID @ 5; WJAX-930 Jacksonville, 6:20am. WHOO-990 Orlando 5:10pm. WMEG-920 Eau Gallie @ 5:21. 12/30 WPTF-680 Raleigh @ 2:40am. WMAQ-670 Chicago @ 2:52, WHN-1050 N.Y. @ 3:20. WTIC Hartford/KRLD Dallas-1080 @ 3:30. Finally KRLD @ 4am, WKRF-1590 Guayama P.R. o/much QRM at 5:30 & WMBM Miami 6am, 1490. 12/31- KTOK-1000 Oklahoma City o/WCFL Chicago @ 4:16. WING Dayton & KQV Pittsburgh were prominent on 1410 o/about four others until 5:00 when WMYR s/on. WACT-1420 Tuscaloosa @ 5:30am. KXEL-1540 Waterloo o/WPTR @ 5:49. 1/2-WKTX Atlantic Beach 1600 4pm. 1/4- WGUS-1380 N. Augusta @ 4:45. WEGO-1410 Concord at s/on 4:48 o/another, didn't get ID, probably WALA. WPNX-1460 Phoenix City @ 5:04. Then at 5:11 WCWI w/ID, positive, serving the Bay Area on 1470 - which bay area? Tampa Bay? Help somebody!\* Not listed in '64 M.W. Guide & then best of all WRAC-1460 Racine, 500wL @ 5:30 w/NX headlines. If anybody hears an explosion in the Carribbean it will be me, when I log my first Canadian. 30 lines exactly! 73s to you all.

1/7. Hello again. I had an interesting visit w/Ernie & the gang 11/23. I'm already looking forward to seeing everyone again the Saturday after Thanksgiving in 1965. Gordon Nelson came over to visit & we had an extremely interesting technical & DX discussion. I talked to Mr. Del Watkins, CE at WCOP-1150. They always verify correct reports. I saw four reports he had just received & hadn't sent to the office yet. Actually, only one letter from a CDXC member could be verified. The other letter described two song titles plus an ID. Insufficient information. WCOP, along with most stations, does not log song titles. The other reports were postcards. One had NO program info, although local WX & the RX set-up was included. The other gave the times of three "Savings Bonds" commercials, nothing else. Again insufficient info. Mr. Watkins suggested about 15 minutes of program material is needed to prove it was a particular station. As for DX, since 11/16 when I Mused last, I've heard: 11/16- WAGM-950-DX, WMDD-1480-DX, WJRC-1510-TEST (they killed KABH TEST for me) but no verie, why? WONS-1410 ET WKTE-1090 TEST, no CJCB-1270 DX possible. 11/19- Logged WCPS-760 at SSS. 11/20- CJRN-1600 RS. 11/21- CJBR-900 SSS. 11/23- CFJR-1450-DX, CFRY-920-DX (w/time out for WOKY ET), WDGL-1520-TEST. 11/30- WJOB-1230 ET (w/WIRO DX ID, not enough for a report) WAGL-1560 TEST 5kw/lkw equal. Noted WPRO-630 off at 4am; CFCY dominant; WERT-1220 TEST. 12/7- WPSL-1510-TEST, WBZB-1510-TEST. 12/14- Nothing heard. 12/21- WWJC-1270 TEST, WBME-1230 DX, re-log WIP-610 3:34-3:58am, WPRO-630 off again, tentative report to CFCY-630 3:59-4:03am, & included CFCY heard on 11/23. I heard only Maritimes ID, therefore, the tentative. 12/28- Unn XEB-1220 2:30-2am. Logged three good fade-ins of KKRD-1150 DX 3:06-3:22am for report. Sent tentative to CKTR-1150 because I don't understand FF & could report only song titles & times. WDEL-1150-DX 4-4:23am. 1/1- CKCY-920 AN/rr, not logged. Veries: WAGM WCPS WDEV WKTE CJBR WONS CFJR WDGL WBZB WPSL CFRY WJOB & WDEL. So far this season: 31/19 stations, 19/13 countries, 3/3 provinces, 3/2 countries. Note: SS\$ means Spanish, not sunset. SSS is sunset or sunset skip. 1/4- Logged Radio Belize-834 finally, 8:54-10:37pm s/off, like a local at times. Thanks, G.N. for the v/s. Sort of makes up for not getting up this morning. 1/7, received veries for WWJC TEST and my CFCY-630 tentative report. 73s.

Stan Morss - Route 3 - Bradford, Massachusetts - 01832

12/29- Weak ID u/WWSW/CKCH at 12:30am, sounded like WANV? Are they on the air? German speaker on 935 @ 1:09-1:15am but very weak so no copy. CKDM good at 1:21, unn. CBE off at 2:15, but GBAG covering 1550 very well as usual. WADC still using this call this AM in spite of call change listed in Broadcasting. Nice verie from ACE-1200 San Juan, P.R., studios in Moro Castle. PM, 827 kc/s. a madhouse around 5:00 & later w/ Barcelona, Sofia & a German all in and out. 12/30 PM- Tried 827 again & a WKEL, Lowell) an outlaw till 6pm s/off, so of course, no TAs. 12/31- TT on 1490 2:14-3am and later w/QRM by AN show of WHSL but no IDs. CKCY AN 3:10am and way on top of 920. TT-970 ~ 12-3:40am, no IDs. TT-1290 3:39-4, no ID. WICE on day pattern at 4am covered. 1/4- WADC announcing "Watch for the Whistler (WSLR) next month." WVOP-970 Vidalia, Ga. test 1:30. CBD-1110 now AN, copied 2:45-4 - no local ID, just CBC; WBT off. WTUF-840 Mobile 4:25 w/TEST also had WHAS on/off 840 but enough for a report. Very windy & evidently a bare wire someplace near me, as like Summer static ahl AM, made DX difficult.

Roy H. Millar - Box 91 - Marysville, Washington - 98270

Very little DX other than foreign (which has been spectacular). Domestic doings: 12/21 - WWJC-1270-TEST very difficult u/AN-CBC (CHWK I guess as relaying Vancouver, but no ID); KYMN-1520 announcing AN-7 - disgusting. 12/25- WAVE-970 Louisville "accidentally" logged as I was taping 973; must have really been putting in a tremendous signal as normally nothing bothers 973 before KOOK-970 s/on @ 7am (WAVE ID @ 4:58am). That is it domestic-wise since last report. 12/31 is 11th anniversary of first TA reception, NDR synchronized group on 1586 kc/s, logged 7:45-8:10pm w/New Years celebration, which still stands as my best TA catch as far as power is concerned. This "11th anniversary week" has been highlighted by what I believe to be the best TA opening yet, with Africa, Europe - Asian Near East, all logged on a spectacular Northerly path that brought reception from all eight of my "most easterly stations" except Roma-II-845 and included first Asian Near-East in Beirut-836, as well as that frequent visitor on 764 from West Africa, "Radio Senegal." Now, if only some of these would verify! Only three veries in since last report, i.e.: KUXL-1570 WPSL-1510 (my best domestic of season) and KVRE-1460, the latter two from DX TEST broadcasts. Thanks, CPCmen! 73.

WE REMIND YOU - PLEASE DOUBLE SPACE YOUR MUSINGS! INCLUDE DATES & TIMES OF CATCHES!

Hi gang! I hope everyone had a very Merry Christmas and a Happy New Year. I know I did. DX has been slow here, but the veries sure haven't, thanks to all the reports sent out during the holidays. Down to DX: 1/1- Turned to 1100 kc/s. at 5:15pm to listen to KYW, and there was needed WLBB on top for about five seconds w/West Georgia NX. 1/2- Logged WGHN-1370 on r/c, and reported unkn WBRN-1460 w/r/c. 1/3- Logged WLIJ-1580 at s/off at 6pm. MM 1/4- Logged my most wanted station in LOUD at 2:55am s/off, KENO-1460, w/slight QRM from KDON. KDON s/off about 3:02am. KENO made the mornin worth it! At 3am, I logged the son of PRB9 or such on 1000 kc/s. At 3:33am, logged ANer WFOR-1490 on top of the channel. At 4am, KFAB-1110 was logged w/WBT off. Only QRM from CBD. Logged CKTR-1150 taking dedications at 4:20am in FF. At 4:31, the WTUF-840 TEST was logged in the clear w/a great S-9 plus 30db signal. WHAS' OC at 4:50 did little damage to the signal. 1/7- Logged the new HISD-620 at 4:29am s/on, loud, mostly c/WSUN. Latest veries: v/q- WPLM-1390 for DX, WXUR-690 CKCK-620, Radio Caroline-1520, WINZ-940 CBK-540 WILS-1320 & KSTP-1500. v/1- WDCJ-1220 for TEST, WJVA-1580 for same, w/CM, window sticker, & five SCs, KIOA-940, WTHB-1550 for r/c, WWJC-1270 for TEST, WLEC-1170 AN on Chrismtas w/WWVA off, thanks to ERC, WRFC-960 ACE-1200 & WPON-1460. 73s.

David Nager - 1160 Burke Avenue - Bronx, New York - 10469

It's Musing time for me again, so here it goes. Loggings have picked up little by little, with the following in my recent loggings: CKCY-920 at 9:19pm, WSAI-1360 at 5:05pm, WSPD-1370 at 6:03pm, WADC-1350 at 6:10pm, WHK-1420 at 9pm, WJR-760 at 9pm. I also logged a station from Bluefield, W. Va. between 1400-1500 kc/s., but I couldn't get a clear ID. It sounded like WHIS, but I'm not sure. Does anyone know what it is? Veries are coming in very slowly, w/only one new verie recently, WBEM-780. I'm also saving up for a new RX. I'll probably get a Lafayette HE-30. If anyone has any information on this RX, please write to me & tell me about it. I should be getting my WPE call sign soon, so I'll be happy to swap QSLs w/anyone who wants to. Just send me your QSL card and as soon as mine are made up, I'll send you mine. I also would like to takespond (7/5 or 3 $\frac{3}{4}$ ) w/anyone around High School age. Well, that's it for this report, so I'll jst say 73s.

Sheldon Miller - 840 80 Street - Miami Beach, Florida - 33141

The DXes were a total bust as WTUF was unkn, OAX2Q-1210 was either not on or else was completely bombed by HJFF, La Voz Amiga, which is still ANing. No sign of CKUA-580, just a weird hum AN. However, the log added an ET from WRAN-1510, Dover, N.J. all TT. Also on 1510, KCTX Childress, Tex. logged on r/c w/rr mx. XEL-1260 Mexico City in @ 2 am w/Beatles, Supremes, Rolling Stones, etc. That's the station for you when you visit Mexico, Ernie! XEP-1300 Cd. Juarez in @ 1:40 w/ads in EE & SS for El Paso, another goodie. WNDR-1260, guess the unID rr u/CMCI/XEL ANs, needed here. 1ZD-1000 Tuaranga, N.Z. has gotta be the EE heard around 3745, barely audible. Key words like Pacific, Malasia, heard for sure but no IDs. They're the first Oceania here except for KHVH & KORL. Reports are out to WRAN & XEP, but no new veries in this week. Report also out to CKSB-1050, the FF station from St. Boniface, Man. Thanks, Andy! A couple of long-standing and nighly tempting mysteries were there 1/4 as well: A weak SS AN on 1170 which is probably a deep SA (Uruguay?) A very weakie on 1530 after KFBE s/off, Brazilian graveyarder? Something AN on 880, not 881! My money's on Brazil for this one! Subdued SS-830 before WCCO/CMCA s/on @ 6am, Venezuela? In other DX, here's a tip if anyone still needs Ecuador: HCAW2-975, Onias del Pacifico, Guayaquil, runs well past 2 am SMS w/a simply booming signal, much louder than anything on 970-980. They now run 5kw. and should not be confused w/HCEW2-995 in the same city! WWGM-1560 logged all day 12/29! 73.

Howard Fountain - 128 Williamson Street - Rome, Georgia - 30163

Hello again. Christmas wasn't as good as I had hoped it would be, but I did manage to get some new DX. 12/25, the YNOL program was received here quite well. 12/26- KOAM-860. 12/28- WIMP-1150 while waiting for WDEL, also received well. CFCN-1060. 12/30- CKLG-730. The New Year brought several new additions on 1/4 with the Wales Home Service on 881 kc/s. and some re-loggings of RNE-773 RTF-1205 and BEC-1214. That evening brought WADE-1210 and 4VEF-1035 in at 5:30pm. New veries: TIFC c/1, WLKM-1510 from Vic Vigansky, CE, who wants reports from everywhere, but he says they have no special TT and finally a "friendly verie" from CMCA from Angel Hernandez. Best DX to y'all. 73. LET'S KEEP THOSE MUSINGS REPORTS POURING IN EVERY WEEK, GANG! REMEMBER TO DOUBLE SPACE THEM, AND PLEASE GIVE DATES & TIMES OF YOUR CATCHES? SO AS TO HELP OTHERS!

After the hustle and bustle of the Christmas season I can finally return to the routine way of life, including reporting to the Musings Section. I have had a few fruitful DX mornings during that season, but they haven't been MMs as it seems I am being sabotaged. Every MM for the last three weeks the band on my radio has been nothing but unadulterated buzzing. The rest of the week I have TVI which I can overcome, but the buzzing, which occurs only on MM, has me buzzing. My loggings to date, including several new countries, are: 11/23- TEST WDGL-1560 @ 4:02. RS CJSS-1220 @ 10:19am. 11/29- S/on WFBD-1310 @ 6am. 11/30- WRSST WAGL-1560 @ 3:25am, RS CBH-860 @ 5:08am. 12/10- RS UAR, Batra, Egypt-818 @ 11pm. 12/11- RS WBSC-1550 @ 5:10pm, RS WKFW-1520 @ 10:03pm. 12/13- RS EAJ29-953 Madrid, Spain @ 2:03am, RS RNE-728, La Coruna, Spain @ 2:44am. 12/14- S/on WKYR-1270 @ 4am. 12/21- TEST, WWJC-1270 @ 2:45am, s/off XEJP-1150 3:59am, RS WBAX-1240 @ 2:55am, RS WRSJ-1560 @ 5:05am. 12/22- RS RNE-584 Madrid, Spain @ 1:06am, RS RNE-683 Sevilla, Spain @ 12:25am, RS Radio Des Valles, Andorre-818 @ 1:47am, RS RTF Paris I France, 863, @ 2:21am, RS BBC Brookman's Park-908 @ 2:41am. 12/26- RS RNE-638 San Sebastian, Spain @ 1:31am. 12/29- RS CFNB-550 @ 12:04am. 12/31- f/c, KFVS-960 @ 1:21am. Veries are: CBO WADO WFBL WGH WONS 4VER WBFD Radio Bonaire WDGL CBH WKYR & WBAX. I hope to report regularly now and will submit some more propagation forecasts as they become available. 73s.

Joe Fela - 167 Goodwin Avenue - Newark, New Jersey - 07112

Veries since last report are v/l's from KRKD-1150 IRCA DX, WPOR-1490, WHIE-1320 KEEN-1370, a v/q from CJCA-930, and a v/f from WAGL-1560 TEST. Recent DX goes like this: 12/29- 12:58am s/on Paris-863; 1:09 WPAT-930 on OC, then off completely, so CJCA logged w/good signals w/some QRM (from WSOC?) WPAT back abruptly at 1:20 however. 2:03 KRUX-1360 o/WSAI/WKAT, wonder how they did that? 2:03 WMID-1340 s/off so no longer AN. 1/1 - 3am, CKPT-1420 u/WHK/WBSM celebrating the New Year, I guess. 1/4- 1am, WRGL-1540 ending ET/M; 1:01 s/off WJBK-1500; 2:30 KRSI-950 AN; 2:33 KNX-1070 in but u/CBA; 3:01 KEEN-1370 s/off; 3:15 no CKUA-580 DX but CKY in well so reported; 3:42 KVOO-1170 ID, seemed to be ET/OC; 4:04 WHVW-950 w/XR ET, or so they said. 4:31 s/on on 1470, guess WKMF, but too much CFOX/SS/WMBD in that order; 4:33 WTUF-840 TEST in fair. 1/6- 1:08am WLPO-1220 ET/TT; 2:00 CBC on 1490 w/"Ici Radio Canada" etc. but no ID as to the station & they seemed to cut the EE NX in favor of mx on the hour. Any guesses? 2:04, WEED-1390 ET. 1/9- 2:31am, WKVK-1550 ET/M; 2:43 CBM-940 off, TT there w/no IDs but did log CJGX finally. Also noted a s/off at 3, believe KHOS but too far u/CJGX to positively ID; 3:00 WJAR-920 w/just what we needed - an AN program! 3:32- WGTC-1590 ET/M way o/ all. Also noted WMER-1460 on AN announcing as the "new WMER." I guess they're AN because WPDQ is. To note, ZFBL-960 is not AN weekdays but they seem to be on weekends. Perhaps someone has more specific info on this. Questions: Is that loud OC on 920 MHz CKCY's? Is WOWY-1590 off for good or is it back on the air? To those of you interested in awards on the ECB, the North American Shortwave Ass'n offers a number of awards to ECBers. For a complete list, drop a line, along w/an#SAS to NASA at 1503 Fifth Avenue, A2, Altoona, Pa. 16602. These awards do not conflict w/the upcoming NRC awards in any way. Guess that should do it for now. 73.

David Gnauck - 444 Old Hook Road - Westwood, New Jersey - 07675

M#3. I guess first of all a summary of 1964 is in order. End year totals: 463/672; 42/44; 9/10 for provinces and 11/16 for countries. That's an increase of 227 veries (150 since July) and 281 stations, I can thank the NRC for many of the best. DX since last time: 1/1-PM- The new (fairly) WGCH-1490 Conn. 2:45-3:15. 1/4AM- Most disgusting MM in a long time. WPAL-730, r/c 1:08-1:22 s/off w/TT; CBD-1110 w/WBT off for a change CBC AN 2:20-3:03. Here I got desperate. CKLM-1570, RS 3:58-4:17 and at the same time I relogged XERT w/ c/w & sent a report. WTUF-840 TEST for NRC in at 10/9 & simple 4:26-4:42. My goals for 1965 are at least 365 veries & stations new and so far returns on the former are good. ~~xxx~~ v/l- CJBR WAMO WABJ who says it was they I heard. v/f- WWJC WDCJ who are both overwhelmed, and v/q, ESPD (after report #4) WKOP WBSM. I still haven't mounted my lopp and so I just stand it on my dresser or bed, etc. in an adequate position. Of course it doesn't always balance itself and keeps crashing down on my head all night. Oh well, at least it keeps me alert, hi. Just this minute I got the mail, with veries from WGCH WDEL WAGL for ten more Contest points! That's all for now. C U in 7 - I hope and 73s.

(Don Eggert) 12 hours to get back into the groove. I was over at semi-local WTRC-1340 in Elkhart and the set-up, and also looked at the reception reports of the last three-four years. Remember seeing reports from NRCers Mike Tilbrook, and Jim Smedley, plus others, and I was happy to see that all the reports on NRC letterheads were generally exceptionally good. Jim Isham, the v/s, said they've been heard in Greenland, but the most distant report was from New Jersey in recent years. DX since last report is: 1/3-KSO off this SM, & heard WMBR-1460 @ 2:06 w/rr, WTOB-1380, @ 4:08, and later in the day KKJO-1550 at 7:30pm u/o CBE. 1/4- WDXN-540 @ 6pm s/d f, & KNOE-540 @ 6:23pm. 1/6-WHBN-1420 @ 5:45pm s/off and KXGI-1360 s/off @ 6. 1/7- WAAK-570 @ 12:25am and WMPO-1390 w/amazing signal @ 5:30 s/off SSB. Veries since last report, WBIG returned my report signed by the CE; v/q- WKOP-TEST KLCN WSAU. v/1- KXRA WOSC KAVS. That brings total up 114 veried and verie return @ 78%, an all-time high. Speaking of high, we broke a record for warmest 1/8 in history, 60°. It's now down to 20°, only 24 hours later. Dave Deutsch - WFPG's v/s is Douglas M. Kellner, E. Took about five months. 73.  
Walt Breville - 9127 Coral Drive - Affton, Missouri - 63123

Hello fellow members. My QTH is now permanently changed to the above address, as I am now discharged from the Air Force. Affton is an unincorporated southwestern suburb of St. Louis, home of the world champion baseball Cardinals and Wonderful WIL. So now, of course, I have started jy logged/verie total count from scratch all over. Final totals after six months of active DXing at Watertown, N.Y.: 259/34, states 33/22, eight countries heard. It was a lucky find to discover fellow member Jerry Bond located only three miles from my QTH in Watertown - in nine months of reading Musings, I have seen none reporting from the St. Louis area or anywhere nearby, in a local area nearly 50 times the population of Watertown. I shall be happy to plug this gap here. I notice that I'm away from the CBC ANers and FF Canadians and can once again listen to XERF & XEG. Isn't that nice? Speaking of that pair, local 50kw. daytimer KXEN-1010 has programming identical to XERF/XEG, and I wonder why I've never seen any of you guys report reception of it in Musings? Can't find their s/on and s/off times listed in the paper. DX in St. Louis got off to a start k2/25 at 11pm when PJB-800 came in strong on the transistor RX. Regularly heard here are WDAF-610, WAKY-790 Ky., KGLC-910 Okla., WKY-930 Okla. KIOA-940 Ia., WNOE-1060 La., KOIL & WHIO on 1290, WRBC-1300 Miss., WRR-1310 Dallas, WSAI-1360 & WING-1410, Ohio, WMBD-1470 Ill., WCLS-1580 Ga. among others, also: 12/29- KLZ-550 1:40am. KTOK-1000 5:47pm, KLIF-1190 6:10. WKBW instead of the usual KOMA at 9:53pm to revive Watertown memories. The stroke of midnight on New Year's found me listening to CKDM-730 Man. 1/4- WKDA-1240 Tenn. 12:03am rr, for first graveyard catch here, report out to them, and WKBW. I am hopefully waiting for PJB verie. 1/7- CX & WX Bahama Islands visit - record high of 73° in St. Louis today. ZNS-1540 in good at 9:45pm w/the temperature still 70° here. 1/9- As of now I have logged 90 stations since Christmas here. Colder WX moving in - temperature drop of over 30° in past four hours. Last Watertown verie WIRE; first St. Louis veries, WSAI & KOIL. 73.

Ron Schatz - 510 N.E. 158 Street - North Miami Beach, Florida - 33162

Greetings (as always) from the Land of Milk and Honey! Not much DX since I returned to college. HCAW2-975 was logged 1/4 AM; also "Cee Bee Zed"-1480 w/ID @ 2:30am, same date. Interesting - except for relays, CBZ is the only call in Canada w/a Zed in it, unless someone can correct me on that. Say, IDXD, you've sure grown! Re Lars Ryden's comment on my 1560 Brazilian, ZYK30 just might be it instead of ZYI6. The former is "Radio Cultura do Nordeste" and the latter is "Radio Cultura do Oeste." Under such CX it isn't easy to distinguish between "WESS-tee" and "noor-DESS-tee" hi. I'd better listen again. Major mysteries here include LA-947, HC-1206, TG-1064, TA-1412, & LA-1530. The faint SS on 887 seems to be Avila, Spain. There's also a very faint LA almost drowned by Washford on 881 MMs. PRG2-1040 reported in my best Portuguese for 1/3 reception, I mean reception: I can even hear the cracks in the records! Editorial: I have previously given the opinion the NRC SS report form is bad. Why? Because, for one, it is a "form" & it is in the "form" of an outline. A person who mails an outline instead of a letter may be considered cheap & disrespectful at the other end. Anyway, isn't it silly to write "Dear Sir: I. E. Z. --"? Then again, the printed form itself should be copied from, not posted as it is; the gemente appreciates originality, you know, as well as a letter, not an answer sheet. No offense to the member who composed the NRC form, hi. I hope to be up late 1/11 searching for ZYs, JOs, ZLs, VLs, HLs, etc. I hope you will, too. Flash! Weak Arabic chanting on 1223 kc/s. past 9pm! And SS on 1245 gone past 9pm! Wow! 73s.

Leo Fox - c/o United Keno Hill Mines - Calumet Camp - Elsa P.O., Yukon

I am a crumb. How anybody could display such a total lack of ambition in the midst of the absolutely fabulous CX here, I don't know - unless it's the fact that Santa brought me a case of Scotch for Christmas, and my head has usually been far too big to accommodate earphones! With reference to Wilkinson's remarks about ice and snow (you dog, bathed in California sunshine!) we're on the 23rd day of a cold "snap", not once has it been any warmer than 25° below. On the way back from Whitehorse after Christmas, we noted, by my mother, the truth - 84° below at Stewart Crossing, and 77 at Pelly. Lucky nothing went wrong w/the car, hi, since in 295 miles we met no traffic, going either way. Coekeyee shift swing at New Year gave me five days off so I dashed off a bunch of reports, most of them foreign. Only domestics in a long time are CJMS, and CJQM. F/ups are out to CHNS and CFMB. Returns on foreign reports have been most disappointing; in particular, my report to the BEC on eight Home Service outlets. 1214 Light and 1295 Foreign Services never answered. Rats. I have a horrible noise here from the bottom of the band to about 1000 kc/s., impossible to hear anything good through it. Only "trash" like KFAR KJNO CBDD. CBDD is another headache, produces harmonic on 1120, horrible squeal on 560 plus 455, and sundry other images. Countries heard now at 47 with White Russia and Austria added, but it's all in the Twxan's spread. I'm toying with the idea of a trip to Aussie at the end of February, maybe, maybe not. If not, C U in C-dar. Of interest - I haven't seen the sun since 10/25! Why he left his home in the South to roam around the Pole, who knows? Ah well, tearing minerals from the bowels of the earth has its moments. 73 from the Land where Asian reception encounters European QRM!

Ross Hansch - 302 East Dean - Madison, Wisconsin - 53716

I'd like to start this out by bragging about a possible scoop but I'm afraid too many other DXers heard it also. It was KFQD, Anchorage MM 1/4, and I have already received verification - makes me 32/1! About a quarter to four, I started following a religious program on 730, S4-o/SS S-2, which turned out to be "The Religion of Churches" but it ended at 59 and a half just as a s/on killed the ID. Unfortunately, KFQD says this (easy to ID) program will be moved to an earlier hour shortly and also (att: Len Kruse's excellent compilation) they are no longer AN, off daily 5:00-10:00am. After countless listens on 930 for N.J., I caught WPAT's ID on the way to work Tuesday AM so w/Alaska now, I have 45 states, lacking Vt., N.H., Idaho, Wyo. & Nev. I hit the dial MM 1/4 at 2:59 and heard KNX S-8 ID @ 3am, KFI S-9 SSB, and KXOK at 3:02 saying "back in three hours". That left what I wanted on 630 but it was 4:03 before I got it, after NX from Vancouver. "You are listening to a network of CBC and affiliated stations in the Maritimes." That wouldn't be good enough for a CFCY verie but it's BEI for sure. 4:48am on 960, "Time, 11 before six" IDs CHNS but still another Nova Scotian at 5:00 "Good morning, everyone, this is CKBW," through WCFL OC, gives me ten provinces heard. 580 too tough for umm CKUA. 4:05, WDAK-540 ID S-7. WTUF TEST s/on lkw. S-8 and 4:40 Q-5 through WHAS' OC. I took Joe Boatwright's tip and caught St. Pierre's s/on 1/5 @ 1/8 @ 5:01 for #32 for signal S-5 & KFK beating them to pieces. 1/8 at 5:15am, end of NX "Santa Rosa Placa en Bayamon" IDing WRSJ-1560. That's it for now, back to 1030. How much of that WBZ rr do you have to take to ID Buenos Aires? Ralph Johannis: Thanks for the clippings, but never did find a letter. 10-7.

Jim McCann - 3 Timber Creek Road - Startford, New Jersey

DXing has been great! I have pulled in at least one station every night since 1/1. What I did get was WMHI @ 4:57am, WWRL @ 5:56pm, WHIO @ 10:03pm, came in real clear, WASA @ 9:37am clear mostly, CMBL @ 10:55, came in blaring, and CJMT @ 7:14, just could get a report. Verie is WVOK. Totals are 103/170. I hope this new year will be a good one for everyone, especially in DXing. 73s.

Roy H. Millar - Box 91 - Marysville, Washington - 98270

Only domestic reception since last report was WTUF-840, Mobile, Ala., DX TEST, and exactly as call, "Tuf," but I did log IDs at 4:38 and 4:51am. Lots of fine TAs around 12/27, 28 & 29, all reported to J.C.'s IDXD, but would comment that late evening 12/28 through early morning 12/29 was best such opening yet, with three Soviet Republics heard, plus first Asian via TA route, Beirut, Lebanon, on 836. No veries in this period, no foreign veries since 12/14, so not holding out on you, Ben Dangerfield! as only three foreign veries since my report to you of 11/10! 73.

Don Eggert - 1925 East Bowman Street - South Bend, Indiana - 46313

Hi guys! DX back to its usual slow grind here again, as I'm back in school. I didn't do any DXing last MM since I had to go back to school, & I knew I'd need about (P. 10)

.....  
 Some time back, Joe Piechuta suggested to me that the most useful report is one which would give just enough program details that would enable a newcomer to the DX ranks to identify his unid., or, in the case of an unid., that would enable someone who had specifically ID'd the station to clinch the ID for the questioner. Joe also said he had heard objections to this on the grounds that someone could cheat, make up a report from the notes in the IDXD columns ... but any station that would verify anything as scanty as our two and three line program details would verify a report that could be obtained by scanning World Radio Handbook. Besides, the percentage of hobbysts who would knowingly cheat in such a manner is so small as to be negligible. I want to encourage all of our newer, younger members to participate in the foreign end of this great hobby, and those of us who've been at it for a longer time can give of our experiences to help produce B.C.F. DX-perts as rapidly as possible. This, more than anything else, is what a radio club is truly for. More to say on this later! j.c
