### DAVE SENDS A RAVE

"DX NEWS has helped me in my DXing in the past year. I also think that the NRC report forms also help in getting veries. The work put in DX Down the Dial, Musings, and the IDXD can't be put in other words but THANKS to the Editors and the many NRC members for making the best paper devoted to the DX hobby. - Dave Schmidt, Chester, Pa.

### SPECIALS ON MONDAY MARCH 15

**W D A Y.** "Our C.E. has asked me to reply to your recent letter regarding a special DX broadcast. In your letter you suggest Monday, March 15th from 2:00-2:30am, CST. During March we will be on the air until 1 a.m. each evening. So I would suggest moving your time up an hour or so, advising your members to catch us between 12:30 and 1 o'clock." (CST -ERC). Thus writes r. Norman Engstrom, Radio Program and Production Manager of WDAY. So, this program will be a part of WDAY's regular schedule, & they will try to make mention of NRC, the DX try, and give many IDs. The channel of course will have the western stations, plus WWSW & KAKC, but we hope that a careful try will reward you with this fine old DX friend in North Dakota, WDAY. JOE FELA.

**W K R T.** WKRT, a daytime station, has permission to sign on as early as 4:00 a.m. and this they are going to do on 3/15 for a DX broadcast. We believe that only CJCJ and KQEO will be on this frequency at that time with WKRT, meaning most of us should have a good shot at logging this fine, friendly, station, which is non-directional. Mr. Bruce L. Mackey, C.E. of WKRT, informs us that all letters received will be answered, but that only those containing correct program data will be verified, which of course is as it should be. We do not know what sort of programming we will hear, but you may be sure there will be many station IDs given during this half hour. Our thanks to Mr. Mackey! This & the WDAY program are for NRC & NASA. JOE FELA.

**C K B M.** For NNRC. Reports to Mr. Andre Mercier, Manager, Radio Alleghany, Inc., 8 Rue ~~Street~~ St. Thomas, Montmagny, Quebec. Info from Bob Koppelon of NNRC. THIS IS ANOTHER GREAT ISSUE OF 'DX NEWS.' ARE YOU REPRESENTED IN IT? PLEASE REPORT!

My first Musing has been a long time in coming. Most DXing confined to MM. 2/15- WHHL-1440 2:05-2:15am w/a f/c; WSEM-1500 2:30-2:44 also w/ a f/c; WSUN-620 3-3:32am. I also heard WMEK that Monday even though it is listed as being off on MM. 2/19- CHFI-1540 5:17-5:40pm. Domestic loggings stand at 159/45, states stand at 31/21 and countries stand at 5/2. Veries have been good lately. Recent ones: v/q- WMAL WBAL WKER WDVA CBA WICC CKLW WTIC. v/l- CKCY. What's the best bet for a Maine station? 2/21- WAEB-790 12:42-1:43pm; WLSV-790 5:40-5:45pm s/off. 2/22- KSTP-1500 2:30-2:46am; KOMA-1520 2:48-3am s/off; WGLC-1090 3:05-3:30am on a special test; XERL-1570 3:35-3:50am, Del Rio, Tex. Why the X call for a Texas station? WAKR-1590 3:57-4am & WGKB-1500 4:05-4:17am. This is all for this month. 73. (Welcome to the NRC & Musings, William. XERF is 1570, but XR is in Nuevo Laredo, Mexico; mailing address in Texas -ERC)

Eric Nelson - 92 Carman Road - Huntington Station, L. I., New York - 11749

Hi gang! It's been a few issues (two or three) since my last Musing. During that time I have been DXing like MAD. I don't want to waste too much space "rag-chewing" so down to DX: 2/8- BBC-881 Wales at 2am, XERF-1570 @ 4am & gave location as Del Rio, Texas. 2/15- XEQR-1030 @ 2:30am, KLIF-1190 @ 3am. KNBR-680 @ 3:30. 2/16- WWDC-1260 @ 7pm, WLBR-1270 @ 7:30. 2/17- CJCE-1270 @ 6:10pm. 2/18- WIOD-610 @ 9pm. 2/19- WSLS-860 at 7am s/on, WEDO-810 @ 5:15pm, VMTS-810 @ 6:30pm s/off, Radio Belize-834 @ 7pm, 4VEF-1035 at 7:30. 2/20- KFI-640 @ 12:30am u/o CMQ, WCBG-1590 at 5:20pm. 2/21- WLNG-1500 (financially, hi) at 4pm. 2/22- TGJ-880 @ 12:10 after WCBS s/off (some s/off, they did nothing but throw carriers, hi), CBN-640 @ 12:30am o/u KFI, CMDD-1200 @ 1:30am w/Reloj Nacional bit, XEB-1220 @ 1:40 (one of the few Mexicans who use call letters and station name), WNOR-1300 at 1:50am, CBV-980 @ 2:25, WAKR-1590 @ 4am, WQXI-790 @ 4:20 w/good rr. WDNC-620 @ 4:55am s/on, WIRC-630 @ 5am s/on, plus two UNIDs; a FF at 1000 kc/s. at 1:15 am and another FF at 1210 or right next to Reloj Nacional at approximately 3am. Is it too late in the morning for France-1205? I think so! Any ideas anyone? Anyone want to give me some advice on some decent headphones? The ones I have now really flatten and stop circulation in the ears, hi. That's what I get for getting the \$3 phones! By the way I had a brain storm the other day on a non-loop directional antenna for DXers like me who can't make loops work, hi. Would a vertical antenna shielded from unwanted signals by a long sheet of sheet metal grounded to a cold water pipe work? For example if you wanted to get a station from the W, but a station in the E was knocking it out, you could turn the sheet-metal between the E station & the antenna so no signals from the E station would reach the antenna. Do you think it would work? If it would, many DXers unable to build the loop (like me, hi) could get directional reception. C U 7-21.

Martin Siegel - 2251 Knapp Street - Brooklyn, New York - 11229

I had some free time this week so I decided to send in this Musing. DX MM 2/22: Usual Cubans including one on 660 kc/s. in EE. I heard a new station, WIDD-1520, Elizabethton, Tenn. running an ET from 12:45-1:15am, also WSIZ-1380 testing at 1:50am w/WBNX looped out. Recent veries include Simferopol Ukraine-647, Rome-845 WDEE & WRAN. I am still botheredd by a severe buzz due to fluorescent lamps & the oil burner. I have been experimenting w/circuits which take advantage of the 60 cps character of the noise, but w/little success. I am sure many people have this problem. I would be interested in any ideas on it other than a simple limiter which I now have. 73s.

Ronald J. Musco - 124 Park Avenue - Windsor, Connecticut - 06095

Not too much DX to report this time. Veries have been coming in though; I now have 25- v/q from WSUN & WAIT; v/l from CJSS, v/f from WFYI WOSU & KOMA. What's the big problem about verifying KOMA? It took less than two weeks for me. Of course there was one small problem. I probably got the last one from the mimeo 'cause I can just barely make out what it says. DX: 2/15- I figured it was about time I verified CJSS-1220 so I took a log between 12:05 and 12:15am s/off when they are in at S-7, then XEB took over w/a request program & ads for Majestic radios so report out to them, finally. Down to 790 w/WTAR Norfolk for a log from 1:15-1:30 w/WQXI underneath. Cuban noted strong on 780 also at this time. Up to 1340 where WKGN Knoxville was on top 2:29-2:33 w/ID of Bermuda Calling heard in background, & I need ZBM2 to complete Bermuda so I'll try again. About what ERC said a few issues back - where he doesn't log something he can't verify (a Cuban jammer was the case in point, I think). I've adopted pretty much the same attitude. No report or entry in the log for WKGN since I didn't get enough for a report. Have to try again. Till next time, 73. Oh yes, Broadcasting Yearbook finally made it here, beat up & torn wrapper has been the case for the past three years w/this book.

Permit me to introduce myself; I have been a BCE DXer for about six years, w/three years of that time shot, I mean, spent w/the Army. I was stationed in Germany for the last two years & was separated in June '64. While there I did very little DXing (the beer kept me away) except for an occasional unsuccessful try for the States. I recently acquired a Lafayette HE-80 RX (before that having used an old Zenith "cathedral" shaped monster). My antenna is an 85' inverted L about 20' high. I have about 240 stations logged in 32 states, 2/five veries! I have just recently started to send out reports & I hope to continue to bring my verie number up to a decent level, just like all the rest of the good ole NRC & someay surpass the best of you! I know I am just dreaming but nevertheless I too have my eyes out for those European phono oscillators, hi. Speaking of them, while I was going to radio school at Lengries, Germany, I had at various times passed the QTH of Radio Free gurppe. They are located about 15-20 miles S of Munich in Holzkirchen. There is quite an impressive antenna farm there (I think the VOA also has a few XRs there) & it seemed their antennas were quite directional E. Perhaps this is the reason for not being able to hear them in the States. Nov I'll try to decipher my "neat" logbook for some DX: 12/28- 656 @ 2:25, S-9 unID rr in Italian; was this Napoli? 1/29- 1580 @ 1:30 unID SS about S-8. 810 @ 1:35 unID SS 10 db over. WMPR-1460 2am 40db over, report still out. 2/1- KFBK-1530 3:20 20db, verified in three days. WSUN-620 @ 2:23 40db, veried in three days. RSTP-1500 @ 4:04 S-9 unreddable w/deep fades. 2/3- WIBC-1070 1:22 35db. WFLI-1070 1:40 came on w/test overriding WIBC. Report still out. WBOL-1560 @ 2:40 w/test very weak just above HNL. CBK-540 @ 3:35 w/CBC, 30db, veried w/nice v/q in a week. 2/8- Dakar-764 @ 1:20 w/native chanting. 2/21- WDXR-1560 @ 1:45 25db over. 2/22- Who is tick-tock on 1200 AN? Who was SS in the background? It sounded too strong to be Cuenca. ZBML-1335 2-3 20db. A VOA NXcast @ 2 threw me. I thought I was hearing a new VOA XR. I sent them a three page letter about it, kidding about the trouble I sent through to figure out who it was. 2/23- WFEA-1370 12:50am o/the frequency at 40db. unID FF-1295 @ 1:45 just barely o/HNL. Is this Crowborough? (Welcome to the NRC, Raymond, & you should have our abbreviation list by now. FF-1295 is undoubteely Crowborough - ERC)

My thanks to Rolf Blodorn, of West Germany, for the info on "Deutscher Soldatensender" & to David Gnauck & Don Eggert for comments on my recent suggestion re reception report forms. Aye, that's the rub! Co-operation is a "will-o'-the-wisp-" in all human endeavor. It is also a sign of sincerity. Complaining comes a lot easier than constructive action. I'm certain that some CEs don't care to receive reports. Please! I said "some". When approached about a DX program their reaction may be, "No - had one once. No interest & no response. Received only three letters." If you let this ride for a week or so, then ask them why they have a no verification policy, they will probably say "Low budget. If we wanted to verify all those reports we'd go broke." So, who's kidding whom? Indidentally, if anyone knows of an unscrupulous DXer who needs PRH9-840, Radio Bandeirantes, Sao Paulo, Brazil, their harmonic on about 1680 is being heard here w/great strength but w/some QRM from State Police. Evenings, usually w/pop mx - good copy. So long & good DX.

Hi again. Veries in since last time are v/q from KTAR-620 KRUX-1360 WOW-590 CJGX-940 & KYMN-1520. v/1 from WSMA-1550, KELO-1320 KAYO-1150 (v/f) & KROW-1460. Verie total 185. Other DXes tried for but not heard were KXKW-1520 (if on, WKBW killed them) KGHM-1470 (WMBD & CFOX), HIBZ-1340, WHOD-1290. PD at WSMA wrote they'll change call soon & that soon as WQXI gets its FM stuff off WSMA's antenna WSMA will get out better. Reading about Canadians, the only ones who have failed to verie for me are CKXL CKY CHWO and CHNC. Anyone know for sure? CJNR-730 sent me a hand written card, v/s Alan Thom, for a 10/63 report. Graduation from broadcasting school is 3/18. JAC & PVT, got any tips for a guy trying for his first job? Rick Marr? My recorder is a Webcor "Regent Coronet" three speed & it's burned out twice. Ron Schatz, what's your opinion of Webcor, hi. Adding my 2¢ worth to all that's been said on the subject, I think a DXer, if he has a good location & RX shouldn't confine himself to either domestic or foreign DX. Variety is the spice of life, right?

Guess it's about time I Mused, so here goes. I won't try to go back where I left off, so here's the more recent DX. WERK-990 Muncie, Ind. is now on the air! "Werk Radio" - I suppose some sort of labor union station; s/off at 6:45. The only TEST heard since last time is WGLC. Here's DX except for those Ind.- Mich.- Ohio stations logged: 1/31- FF CKSB-1050 at 12:10. KJLT-970 North Platte, Neb. s/c at 1:44. CKCK-620 at 2:15. 2/1- YVLW-890 Valencia, Venezuela "Radio America" at 5:04am. 2/3- KYND-1580 (Ariz. #1) at 7pm (IDed "KY time is 5" KPIK-1580 Colorado Springs, at 7:14. About a six minute report sent to KPIK. KGLC-910 Miami, Okla. finally at 7:45. 2/4- KLTR-1580 Blackwell, Okla. s/off at 7:10 w/ America. 2/5- WINR-680 at 6:15am. 2/21- KGLO-1300 Mason City, Iowa r/c at 1:05. 2/22- WGLC TEST. WHOC-1450 at 3:30. After getting new WERK, I thought I'd try for WAYK-1500 Valparaiso. Instead I got new WBRI Indianapolis, ex-WNDY! Bill Bens - So all you get on 1520 is Caroline! Maybe I should move to Cincy! About a month ago I was listening to KXEL early morning when they suddenly went off the air for about a minute. This happened two or three more times and I got a nice copy on the Haitien-1530. The same morning I remember WBT signed on about ten minutes late because of XR trouble! Veries? None here - of course, I never send any reports. The Lafayette store here had an HE-30 last summer for \$60. I'll never pass up a bargain like that again! Best DX.

There may be a day in the near future when I shall finally get a typewriter. Until then you shall have to read this scribbling, for which I apologize, Getting down to DX. Since my last Musing, I note the following additions to my log: 2/20- CKPC-1380 at midnight EST. Then MM 2/22, things broke loose. WOW-590 at 12:18am for first Nebraska; WTAJ-620 at 12:49am for second Wisconsin, WARM-690 at 12:43am, WHOM-1480 at 12:57 s/off, TT. KSTP-1500 at 1:05, WVOC-1500 1:17am TT, and then the big surprise of the night came at 1:30am w/European Service of the BBC on 647 in FF/EE at 1:45am. This was Europe #1. CBAM-1490 at 2:30am, WSUN-620 at 2:45am, WATE-620 at 2:47aj TT, NRC TEST from WGLC-1090 booming in at 3:15am; WNDR-1260 at 3:45 & WFEM-1260 at 3:56am, TT. Totals now are 283 logged. Incidentally the BBC s/off was at 2am. Reports are out to the following: WABC KYW WOW BRW-647 w/a tape recording, WGLC WTMJ WSYB KOMA KSTP WSUN WVOC WATE WHOM. I would like to hear from other NRC Tapesponders who are interested. If anyone is, kindly send a tape & I shall reply. I have facilities for 1 7/8, 3 3/4 & 7 1/2 IPs. Finally, I hope TT means Test Transmission, because, if it doesn't, this will be one nicely confused Musing. Good DX to all. 73. (TT means Tone Test, Tom!-ERC)

After the great MM of 2/15 I've had a letdown and there has been very little DXing from this location on the weekend of 2/19-22. Only three loggings and these being WPPA-1360 Pottsville, Pa. heard on 2/21 @ 5:40pm "Rosary Hour" in Polish? WDAK-540 finally logged for report at 6:05-6:20pm on 2/21 as the "Johnny Reb" station. WPLO-590 @ 4:45 on 2/22. Any ideas who the "Radio Portuguesa" around 1220 is? Help! Recent veries include WRFC WEAJ WJAS WJAP WSJS v/ls, and WRCV WCHS & KNOX v/qs for #state #31 verified. So much for current events, C U soon, 73, best of DX. (Could your 1220 be "Radio Corobesa," HJAV, Monteria, Colombia? See my Musings of last issue -ERC)

(Rich Heald) Anchorage I heard on 790, but a 50 watter from Fairbanks! So that verie is really a prize ~~xxx~~ for me. Totals now stand at 657/443. Well, guess that's it for this week, no editorials this time, hi. See you soon, 73. Please note new address.

The response to the Award Certificates has been quite gratifying to date. I am attemping to mail a few each day until all those requests and those NRC members who contribute to "Supremacy Ratings" have been covered. Remember, Members, this is a progressive program which makes you eligible for further awards as your veries increase in count and you verify additional countries. It is time for a "tip of the hat" to the following hard working members: John Callarman, Ernie Cooper, Ben Dangerfield, Len Kruse, and Dick Cooper. What a team! Recent veries from Radio Montserrat-985 and WUPR-1530 in Utuado, Puerto Rico have made me quite happy. The Radio Montserrat verie states 250w. The WUPR verie included a letter, eight photos and a two page write-up about the station, its activities, and the surrounding area that it serves. Isn't this the Puerto Rico station that is so rough to verify? Seems I read this someplace in DX NEWS. Looking forward to a two day weekend for the coming week. Maybe some DX! 73

Happy DX again. Nothing new logged the past week until MM which was the best MM in four weeks. 2/21, late Sunday night heard the new WWTC-1280 Minneapolis, ex-WTCN on RS at a good level. 2/22, on our first President's Birthday, was a day to celebrate for me too! Wonderful KOIL in Wonderful Omaha was off for the first time on a MM in o/ four years. Believe they used this time to move their XR or something along that line. Logged the WGLC-1090 TEST poor at first, but greatly improved later. Then, lucky me & many of you too, KOIL being off made it good for the CFAM-1290 DX w/only light QRM from unnn WIRL. Surprised that CHSM-1250 DX was not heard as well as CFAM, but report sent for both. Later, at 4:58 logged & reported to WHKY-1290 in Hickory, N.C. w/SSB s/ on & NX. I forgot to mention earlier the interference problem I had for three weeks after Christmas. Our neighbor had an Aquarium Heater which would cause a buzz lasting from one to three seconds, averaging three times per minute. If you have such a buzz, mostly on the lower end of the ECB, call your local power company & have them track it down. I spent \$7.50 for another make & now there is only a click when it comes on. Last week I bought a new Buick Skylark. If anyone interesting is going to the NW beginning 7/10, let me know. It's a vacation for two weeks. This past Sunday, member Larry Lehmer of Council Bluffs & his brother & I went to the Omaha Sports Show & afterward came to my den, DXed & showed pictures of the past Conventions & area radio stations. I've been having trouble w/the recorder, but now seems to be working OK since I oiled it, hi. My files are now up-to-date, w/totals at 1,214/811. The other night we had a fire in my folks' apartment - we don't live there, & it really burned out everything, reminding me that if one should break out here, it would burn or wet the priceless veries. Therefore - I believe we all should buy a metal container or file to prevent our veries from loss by fire or water damage. 73s.

Hello again. DX very poor this past month so no Musings. Great work, NRC, on getting DX NEWS here mailed Friday, received next day; used to be MMs. I have just renewed my DX NEWS for another year. Thanks to all you fellows who correspond w/me. I will answer soon as possible. I hope all out there heard the WGLC TEST. Mr. Morgan & his Engineer had some kind of mixup in the date so Mr. Morgan called Sat. to verify correct time & date. He said he was looking for a copy of NRC DX NEWS to look at before the test! I understood that all radio stations that TESTed received one w/write-up week before. Veries have been very slow coming back but a few have come in. Radio Caroline v/f 1520 said all out of QSL cards. Fine card from KYMN-DX, poor v/f, KROW. KGBT sent v/l. WAKK Ppc, Oct. report, 1320. WPGM-1570 WHRY-1600 & KXLW-1320 heard while KNIA TESTed. Total 2,611 now. Reports out to KNIA-TEST 2/14. On 2/12 I thought I heard WKNT-1520 on ETs but not sure so no report sent, static bad all month. 2/8-CKPM-1440 AN. 2/15, not a DX heard, all noise, even KYMN not in. 1/25- WENG/KAPT TESTs great. 2/10- WVIC-730 on ETs but no verie. Overdue report out to CJRN-1600 for 10/6 report, WHHL-1440 10/19 report. WWGM-1560 no veri from 11/29 report & 11/30 WERT TEST nothing yet. In Dec. no veries from KFDI-1070 KLOE-730 WMEG-920. 12/21-Jan., no veries from CKSA-1150 WERX-1530. John Callarman, I had your mystery on 1180 this AM 2:00, did not sound like SS. I could not understand a word & in like a local here. HJED-820 took care of Argentine, HJED asking for reports in EE @ 2:05. All for this time.

Veries, KYMN & Radio Andorra-998 for country #70 finally, both v/qs. 2/16- Copied YNL-1115 Chinandega, Nicaragua from 9:11 to 10pm for a report. Nice letter from PJD-2 St. Maarten, saying my reception (starting at 2am) was first from North America - while "Mr. Cooper's" report was first received. What do you have, private mail service? (Evidently from his letter you must have mentioned I let you know about their show) - says AN every four months - U.S. stations, please copy! Country #71? What's the verdict on this? Verie, CFLM for NNRC DX. 2/20- RNE-638 San Sebastian, Spain 6:03-6:30pm - second station also underneath w/Arabic - all gone at 6:30, & WHLO stopped over. Verie, AFN-1142 Bremerhaven and WUPR, w/two page history of station & story about the Utuado area - very friendly, & in EE! 2/22- WIDD-1520 Elizabethton, Tenn. 1:10am w/WKWB OC/TT, KOMA, & Radio Caroline for QRM. RNE Valencia 1:29-2am w/Rosary - tape & report sent. WRAD-1460 Radford, Va. 2:25. WHHL-1440 Holly Hill, S.C. 2:35. WSIZ-1380 O-cilla Ga. at 2:40. WGLC Mendota, Ill. strong on TEST; QRM by SS. HJAY-1580 La Voz de Cordialidad for report 3:48-4:15am. HJAV-1220 Radio Cordobesa 4:30am, Monteria, Colombia w/dedications to NRC & rancho mx. WJJJ-1260 Christiansburg, Va. s/on 4:59 to be covered by WMUU & others 5:00 & 5:01. "Radio America"-890 5:06, but fast covered by TT from WLS. "Radio Libertador"-880 5:15am but WCBS finished them. On replaying tape HJAV's dedications were to Ron Schiller. If you'd like a copy of the tape Ron, let me know - maybe no verie & that could substitute?

Today, my High School closed because of ice. I thought I'd better write a Musing while I had the chance. Three new states added, bringing my totals in states to 37/34. Recently, a man was found frozen under one of WRAN's towers! On 2/21 I heard WWDR. I heard their f/c on 1080. It is located in Murfreesboro, N.C. Anyone else heard it? Greetings from the Soth's largest metropolitan area! On the MM of 2/22, CX here were summerish. Temperature here was 74, while WLS was announcing 80 above. In the Specials department, HCRMS-1200 may have made it, as someone was u/the Cuban, but nothing really audible. No sign of KGHM; solid XESM & WMBD. Unable to ID tester on 1090 during WGLC's sked DX; sent them a few scanty details & I'm hoping for a verie. How many of you noticed CX28 during this program? They were way o/S9 here, w/American & LA pop mx & some gringo rr. CFAM-1290 & CHSM-1250 both eliminated by domestics & very poor CX. Other DX. 2/22 included "La Voz de Medellin" on till 1am on 990 kc/s. I don't know if this is regular. KYMN-1520 in very weak; first Oregon here, but unable to get a decent log. WRAD-1460 Radford, Va. had ET w/cl-mx around 2am. The IRCA DX from LS5 630 made it w/a poor signal; ID is "Radio Rivadavia" but this test sounded more like a RS. No sign of CFCY this AM. UNID LA-1120 way u/KMOX which I think may have been Radio Reloj in Guatemala City if not a deep SA. Almost certain I had KUDL-1380 K.C. but very weak u/EEter. Are they AN MM? CB2-1480 likely the slow mx station u/KBOX - I'd like to verie them before the switch to 970. Finally UNID Colombian AN on - get this-1490! They were overmodulating terribly & slightly off frequency. I'm positive not HON & they are still ANing on 1500. Does CHMS really use 50kw. fulltime? Seems hard to believe, from their signal. Hey you guys, how about Miami in '66? Finest facilities for small conventions in the nation! The NRC has never had a Convention in the South,

but rates to/from Miami are lower than to most seldom-visited inland cities! Rates in early Sept. are lowest they ever are & if you want to bring the family they'll love it more than someplace else! I'd appreciate any comments or suggestions regarding this proposal, especially from those of you who have attended previous NRC Conventions. 73

Milestones: Verie \$6,475 in last week. Domestic struggled away in Feb. but little activity in foreign veries. Comments and suggestions on replies from stations - "Black Lists" etc. are not new. Ideas & arguments have been popping up in radio club news since the early '30s. And we did have "Black Lists," long before WW-II. I sincerely hope we will never have them again because there is no such thing as a "non-verifier." No matter how bad they may seem, somebody manages to obtain one. Since 1923 I have never failed to get a reply from a station. Dick Cooper wrote "I find it a challenge to track down a station that won't answer me." I agree 100%. In sports, hobbies, and life itself is a constant challenge. If it were not for adversity, then there would be no battle. No portion of DXing is handed to you on a platter; you've got to work for it. Many older members will remember back in 1952 when KFMA-1580, Favenport, Ia. apparently hid their veries under this same "Davenport." I finally wrote the President a two page letter on business stationery & gave him the whole concept of our hobby. I received a fine letter from him. They got out QSL cards & I got nine PPs back, all signed. KFGT, the 100 watter in Fremont, Neb. put on a special DX & then failed to reply. I wrote the manager, on a hunch, and sure enough, they were offended by several letters from DXers demanding veries - some were pretty nasty! Anyhow, he conceded to my explanations & apologies on behalf of the few beginners who did not understand patience and decency & the veries came forth. Dick also remarked about the constant movement of personnel in radio stations. This is very true w/small stations. Frankly I rarely use the v/s list w/domestics, although I am in favor of it w/foreign (LIAs for sure). During tests, it is often an "acting engineer" who is there for a while & if you use his name, it is forwarded to him, whither or where his new residence is. Sorry to take up so much space but let's have patience. DXing is a challenge, from the first touch of the dial to filing the verie away. Don't hesitate to f/up, but please be polite and never demand an answer. 73. (Wonderful explanation, Hrk! -ERC)

Is WCKY-1530 considered Ohio or Ky.? QSL says XR in Ludlow, Ky. Is Radio Americas-1165 considered Swan Island or Miami? I have just transferred all my U.S.A. QSLs from my wall to a notebook. 2/27. Hi guys! DX has slackened off a bit this week, I don't get around to weekday DX anymore, it seems - too many other things to do. The list of additions/changes to the VJ5 Log is sure going to be helpful here. I see one minor error; WETC-540 should be N.C., not S.C. Hey, what ever happened to the station application for 910 kc/° in Mishawaka, Ind.? The mail just came and includes the DX NEWS so I must tip the hat to Mr. Cooper and the gang for getting DX NEWS here on Saturdays - not bad for third class! Little bit on the thin side this week, guys - let's go! Thanks to Ray Edge for the letter re my request. DX here is: 2/20- WCRA-1090 @ 4:22pm. 2/21- KRNT-1350 @ 12:55pm. 2/22-MM- I woke up late but managed to catch end of WGLC-1090 TEST @ 3:22-3:29 w/S-7 signal. WGUS-1380 @ 4:50am, WMIK-560 @ 5am s/on SSB, WCKI-1300 @ 5:01 s/on WCVP-600 @ 5:04 s/on SSB, WJCW-910 @ 5:34 s/on SSB. 2/23- WOKZ-1570 @ 6:30pm s/off o/CFOR w/SSB. One verie this week, from local WNDU v/1. That about takes care of the doings here. Gotta go shovel the walk, hi. 73. (Does WNDU ever f/c, Don? -ERC)

Utilizing a new 43" spiral (11 wire) loop, I've been chasing "fleas" again; unfortunately, none ID, but here's score: 2/20- 838, 2:45-3:05am when s/off w/SSB; couldn't read s/off announcement prior to NA, but mx level was fairly good. 2/22 878, 7:15-8:45 pm w/never a break from monotonous rr, quite strong, although had hetro from 880; had to loop out local noise to bring in decent signal. Now, to the more "legitimate" DX logged since last report: 2/14- CFPR-580 Prince Rupert, B.C. s/off 3:03am, announcing back at 11am (being a SM). After s/off, CBU LPRT w/B.C. WX could be heard. 2/15- PJD2-1295 philipsburg, St. Maarten 4:30am (s/on apparently judging from "Musings" in 2/20 DX NEWS - an item that should have been sent to JC for IDXD, lads, as some may have missed this s/on time in Musings) to 5:32am w/positive IDs made through mail order advertisements. 2/17- WM00-1550 Mobile, Ala. ET 5:03am ID. 2/21- CJME-1300 Regina, Sask ID w/call & "Radio Thirteen" slogan @ 11pm as I managed to null local KOL somewhat w/loop. That AM, unID ET on 1560 9:30-9:37am very weak; think TP, who?? 2/22- CMDE-1200 Bayamo, Cuba quite weak around 1:30am w/"Castro Tic-Toc" while looking in vain for DX from HCRM5; all covered by YVOZ s/on @ 5am. No CHSM-1250 DX heard either, just WREN/WRYT during their sked period. Veries? So few; just two: KYMN-1520-DX, Roma II-845. OK, Sheldon M., you're way ahead of me on 1180 veries (11 to 7) but closest to me is WILDS (about 1,600 miles) w/all others over 2,000, so 'tis "quality" if not "quantity," hi! If I counted 1178, I'd have a couple more veries. Foreign DX contest standings in 2/20 DX NEWS indeed interesting; nice contests! Strangely, I still do not have Oceania verified. Remember last season how I really made hay w/veries from DU? Now I can't beg or borrow one! Reports are out to 2KP-680 (since 10/13/64); ABC-Sydney sure slow, but I wonder if I'll ever hear on this one!) & KNIU-1310 (since 12/7/64). While unintentional, yet rather interesting, my present total of 16 foreign veries cover that many countries - 16; no doubling up yet! Among the so-called "easy" ones not verified for this season's contest are Hawaii, Australia, New Zealand, Japan, Puerto Rico, Colombia. Reports are out to all these, plus some not so easy ones such as Lithuania, Lebanon, Senegal, St. Maarten, etc.! Anyway 'tis lots of fun, eh John? 73.

Since my last report (many moons ago) the domestic DX I've heard: 11/16- KABH-1510 TES1 @ 3:40, bad night. 11/22- KOLO-920 @ 7pm. 11/30- WPON-1460 s/on 4:31, WRPB-1350 @ 6:02, WHBC-1480 @ 5:31 s/on. 12/7- KETO-1590 @ 3:30, KYMN-1520 @ 3:47 DX, KROW-1460-TEST @ 4:04. KSUB-590 r/c @ 4:12. 12/14- KVRE-1460-TEST @ 4:08, very weak. 12/5- CKDM-730 1:32. 12/21- WWJC-1270-TEST @ 3:04, WSBP-1580 r/c @ 3:47, WKMF-1470 s/on @ 4:30, WILS-1320 @ 5am. 12/22- KAJ0-1270 AN, KVIP-540 ID @ 4, KRED-1480 AN for the floods. 12/28- My all-time DX AM as all conceivable goals were shattered - four TAs heard but no tape recorder that AM. Oy. WAPA-680 @ 4:45 s/on, WIFE-1310 @ 5, WRCV-1060 @ 5:07, WPIN-680 s/on @ 5:58 for my best domestic, right through KNBR OC. WMT-500 @ 5:59, WRVA-1140 @ 6:04. 1/4- I can't remember a MM w/so many unID TTs. Only newbie CRA-1070. 1/10- KNDI-1070 @ 3:58, KGBT-1530 DX @ 4:18. 1/25- KEED-1050 @ 3:08 ET, KAPT-1220 3:34 reported,, WTCR-1420 @ 6:16. 2/1- KRCB-1560 s/on 7am, KUBC-580 @ 7:05. 2/6- KINY-800 3am, CFPR-860 @ 3:07 s/off, reported & CBC card back. KLAV-1230 @ 4:15. 2/7- KLOK-1170 right through local KCBQ @ 1. 2/8- KWIL-790 @ 3:30. 2/14- WEF-770 s/on @ 7, WKVM-810 s/on 4:28, WSLR-1350 @ 4:30, WOR-710 s/on @ 5, WBBB-920 @ 5:56. 2/22- CFAM-1290 DX made it, ID @ 3:52, WCTA-920 @ 5:23. LAs have been consistantly good, w/best signals on 12/21, 1/25 & 2/22. I got BBC-881 & 1214, 3AM2 & Senegal over Christmas vacation while camping out next door in an empty flat w/a good antenna. The TPs have been the most unpredictable, DUs have been virtually non-existent. Radio Peking is the only consistant Far East station, Pyongyang-655 a close second, Japs on 750 & 830 are heard MMs only. My DX is limited somewhat by school & TV but I've been up every 15 till after 5 & the last few till 7. This has undoubtedly been the NRC's best year, in all fields, & I think it has been shown that "you just can't keep good men down" meaning you can't place a limit on the size of the bulletin, or parts thereof. If a dues raise is necessary, then I'm for it. John's column has been fantastic, & that's where I'll be putting my foreign stuff from now on. In closing, I'd like to invite any of the WC contingent who might not make it to Cedar Rapids, to drop in on our DX Convention, 8/20-23. This is a DX Convention, the business will be IRCA, but the fun is for all. We'd like to see all you fellas. One PS, I haven't received my 2/13 DX NEWS yet, all others have come on Tuesday after publication. It's probably in some dank corner in the Los Angeles Post Office. 73 all.

Ronald F. Schatz - 510 N.E. 158 Street - North Miami Beach, Florida - 33162

Greetings, icicles, from the only tropical area in the continental U.S.! The temperature outside at 4pm this 2/25 is a bitter 67°F - mercy! Anyway, my HE-30 is back from the shop & working fine, so I'm in business again. The only new DX is a Nicaraguan on 1057 kc/s. heard 2/22 eve, the first & last date noted. Anyone ID the thing? I think it was YNLL in Masaya; that city mentioned often. Also noticed a few TAs showing their usual stuff: Cairo-773 // to 818, s/on 11pm. Baghdad-764 wobbling over Kiev 10-10:40 pm; no sign of the 908 outlet. Now, for those who keep asking when I started DXing, I did so in 1957 in a suburb of Camden, N.J., called Somerdale. In August of '59 I moved to Fort Lauderdale, then to Miami Beach a month later. On 11/18/61 I became an all-out foreign DXer w/the logging of Radio Americas & YVLL-1110. I inquired about the NRC in March 1962 & joined three months later. I logged my first TA, Mihich-1196, the following season along w/KORL-650, my first TP. First Brazilian was PRF4-940 logged April 1963; now I have 25 of them. Also I have 126 TAs, including five Asians & five TPs. I keep away from reception reports & veries like some DXers avoid foreign stations, hi. Speaking of that, here's an infamous quote from a half-DXer: "I keep away from that foreign jazz, like Belize, Brookman's Park, CMCA, etc. 'cause I just don't understand the darn lingo." Enough said. C U in 7 and Miami in '66.

Hi there. The past week has been pretty good for DX but awful for veries. 2/20- WGIG-1440 r/c ID 12:30am, WINF-1230 4:40pm RS. 2/22- WEMJ-1490 s/off 12:14am, CFRA-580 12:30 NX, in very good, WIDD-1520 testing w/mx, ID @ 1:10am, WSIZ-1380 ET/M ID @ 2:17 am, CFAM-1290 heard just ID & that they were on for all North American DXers. Nothing heard of CHSM as WRYT too strong here and when they paused I still didn't hear anything under them. WGLC-1090 in very good as I heard most of the program, report out. WDIX-1150 s/on 4:55am for anyone reading S.C. Only one verie back, that being local WRAN. 2/22- CHSJ-1150 4:28pm, a good catch at this time for N.B. #5. 2/23- WLLH-1400 12:34 am, WHUM-1240 5:31pm NX. Who signed off on 2/23 at 6:47pm to s/on at 6:45am the next AM w/no NA or anything else? This was on 1580. 2/24- WWBZ-1360 4:35pm. This leaves just WDWL for all stations in New Jersey. Who signed off on 2/25 at 6:32pm on 1580 saying "---wishing you a good night." This was followed by no anthem or anything. 2/26- At 11:42pm, I heard a sports event in EE u/CHML-900. Anybody know? 2/26, who ended their TT on 1340 at 12:15am w/no ID? That test antenna I mentioned last week is now pointing towards Alaska & Oregon in hopes of getting either one. Anyone know what time KWTX-1230 signs off on MM? I seem to have heard them on 2/22. Oh well, the two hands are on the 12 so I better end it now. See you in a few.

Hi gang. DX has been good w/one new station logged & one new country verified, it being HRTV-715. They gave address as follows: Companis Televisora Hondurena S.A., Apartado 734, Tegucigalpa, Honduras, & the w/s was Antonio D. Lardizobal & was in a letter in perfect EE. Latest DX is as follows: 2/14- WVIC-730 4:30pm. WFAW-1470, 5:40pm (while looking for WOHO). 2/15- KWLA-1530 1:08am f/c. KEEN-1370<sup>6</sup> :30am w/NN gospel programming. KDON-1460 3:01am. WRIT-1340, 3:25am f/c. 2/16- TIOS-822, 9:20pm. 2/18- WGLD-1560 5:45pm (#3 from Ohio on 1560). 2/19- HCLW2-995 10:15pm. 2/21- WTVB-1590, 6:12pm, finally. 2/22- WGLC-1090 3:01am S-10 on TEST. CFAM-1290, 3:15am w/very nice IDs, DX. CBLK-1090, 4:01am w/CBC programming. KOLQ-920, 4:20am for state #45 & just caught tail end of test signing off. WJFW-810, 4:59pm tentatively reported. Veries are as follows: v/f- WSIV. v/q- WHLS. v/1- WTHM WSGW WSBT HRTV (country #16 verified) CJCH (#2 from Nova Scotia). Latest totals stand at 770/667. No TAs on 2/22 or 2/15, so maybe season is going out. At least here it seems like it. I know that this is supposed to be only ECB listings/questions, but can anyone tell me who the foreign language station on 4995 kc/s. is? They aren't heard till at least after 11:15pm & it sounds like Arabic or something. Well, das ist alles so 73 & will see all in 7.

Gene Allen - 134 Bret Harte Way - Vallejo, California - 94590

Not so much work at this QRA means more time for DXing & more time for reporting. I just returned from vacation to Palm Springs & Santa Barbara. As usual, I couldn't locate that "rover" Mort Meehan as we were in Santa Barbara on Sat. & Sun. I did talk w/Raleigh Biss, who was down w/the flu while in beautiful Palm Springs. Missed the Specials on 2/15 & had poor luck on the 22nd as heard only one Special. Veries since last report: KGBT-1530 KCCL-1460 KROW-1460 WERT-1220 & CHQR-810. Total now, 2,504. Heard log, 3,225. Best AM recently was 2/8 when Radio Pyongyang was heard on 635 645 & 655, Japs on 830 840 & 1370. This eve @ 9:50pm Radio Belize-835 S-9. Enough rabble, CUL. 73e

Hi, fellows. DX has picked up quite a bit for a change. Say, I like Bob Pietsch's idea - then we could kick out Steve W. & P. Barton into the Central Division & I'd only have to worry about Alan M. in the Contest! Oh well, I'll be in there plugging. I have 221 points as of today, 2/28, & I have lots more coming in. DX: 2/20 WRVM-680 c/everybody at 5:50pm. 2/21- WCRO-1230 @ 1:38am, are rr. 2/22, a good MM for semi-distant f/cs. WDDY-1420 @ 12:28 w/ET/M. KSTT-1170 @ 1:21 r/c tentatively - anybody else hear them? WKBO-1230 @ 1:26 w/ET, WJBK-1500 @ 2:18 w/ET/OC. WFEC-1400 @ 2:15 r/c, also tentative - anybody? CKY-580 @ 2:50am rr, KDON-1460 @ 3:02, WTRC-1340 @ 3:10 r/c-TT, WGLC-1090 TEST good 3:11-2:29, LR3-950 w/IRCA DX @ 4:12, & finally WALG-1590 @ 4:55. 2/23- WMAJ-1450 @ 1:06am, WQSN-1450 @ 1:19 rr, & WMOO-1550 @ 6:46pm s/off - do they s/off then, or was it someone else? They seemed to say Skw, but call was WMOO. 2/24- WNPV-1440 AM @ 12:25 w/f/c. Then I fell asleep & missed all those beautiful f/cs drat. 2/27 PM, WLSV-790 @ 5:12 w/rr. 2/28- CKLD-1230 @ 2:43am in FF. Oddly enough, they signed off w/GSQ @ 3:00. Was this CKLD or not? Any of you Northern members hear them? Funny time to s/off it seems, in Quebec. KXOL-1360 @ 3:17. This is the rr us Easterners have been hearing along w/KRUX & WKAT. WLES-580 @ 7:13am s/on. Veries b back this week are v/q WXTR-550, v/1 WVNA-1590, v/f WCAR-1130, and WOTW sent v/c & v/1. Did all you CHED SC getters get your 45 RPM record key chain? It's real nice, for free. I am finally going to begin contributing my f/c heard, skeds, & other info to JWB's column, as Steve W. is getting too much publicity. Everybody send in something- we can't let Steve get away w/this, hi. Come on, you guys, give JWB something to print. 73s & good DX. C U in 7 I hope.

Andy Rugg - 16 Lake Breeze - Pointe Claire, Quebec

New veries are RAI-656 Sofia-827 Austria-1025 Bratislava-1097 RAI-1115 WERT-1220-TEST, Bulgaria, Czechoslovakia & Italy put the countries verified total here upto 48 w/Belgium, Hungary and Ireland as yet unanswered. Also, a CKSO-790 v/q replaced 1961 v/r. DX remains poor: 2/22- WGLC-1090 TEST fair from 3-3:20am tune-out, umm ZBM2-1340 o/WKGN & TTs often; delinquent WHOT-1330 reported again; CBM & ABCer (KRSI?) killed LR3-950 DX. Seabrooke's info on P. 12, 2/13/65 DX NEWS is inaccurate regarding Canadians; Corner Brook-790 and Chatboro-1170 did not get approved. Additionally, Kapuskasing, Ont. got lk2. on 580. CKXL power hike may be wrong but I'm not sure. Anyway, Edmonton did get 1110 and CBZ will go to 970. 73.

John Edward Paul Drauk - 210 West 251 Street - New York, New York - 10471

Looks like I'm going to do a little bit of arranging of equipment here. I got a Hallcrafters S-55 from a friend of mine for nothing, 2/two 12" speakers and two tweeters. This is the best bargain I've ever got on equipment here. Here is the DX on 2/22, MM: CBZ-1480 12:57-1:15 w/very good signals here; WERE-1300 1:32-1:55 good signals but a lot of QRM; KSTP-1500 2:02-2:20 good signals, then a test from WJBK-1500 came on at 2:18. I logged both. And finally the WGLE-1090 Special from 3:18-3:30. I got a verie from WTRY for last week's report, so I guess it pays to relog a station if you can. Oh, and if anyone has any data, schematic or other information on the S-55 it would be appreciated very much. 73 & C U in 7.

Ernest R. Cooper - 438 East 21 Street - Brooklyn, New York - 11226

V/q-SS from San Sebastian, Spain-638, & two-page handwritten v/1-EE & CM from CFILM-1240 NNRC DX. A special hello to Dick Myers, CE of WRIN-1560, Rensselaer, Indiana, who phoned me Monday at work to thank me for my DX report on his station's 2/26 AN emergency broadcast for their biggest snowstorm this century! He said they had several DX reports from that broadcast in this AM, all from NRC members, & all will get their veries soon - thanks, Dick! Not much DX here this week. 2/26- Up to look for the r/c of WSHF-1290 (not heard) but tuning around netted me afore-mentioned WRIN-1560, w/some background hum, probably due to their tower being grounded in the mountains of snow. 2/27- Radio Tri-Color-730 (HJCU, Bogota) seems to be AN Saturdays only - they seemed to be advertising bull fights or wrestling matches or something in hard-sell SS, plus rancho mx. Noted umm WGOV-950 @ 2:43am, AN? Somebody, weak, Tting on 1560 2:9-2:57 w/no IEs heard. 3/1- Worst CX of any MM this season; nothing added. If you were looking for ZYD-8-840 at 2:30, that wasn't they, but "Ondas del Caribe" AN today, probably AN for pre-Lenten fiesta, HJBI-840, that is, in Santa Marta. "Adams Family" theme on 1590 u/WAKR @ 1:51, who? The 1200 Cuban minute man showed up today on 1210. An ET/M & OC atop 1290 w/no IDs heard here. No sign of KSTR-620; CX very poor. PM, noted unusual reception on 1330; at 7pm, WHOT-1330 was on top w/much better signal than ever noted on their AN show! Thanks for pictures, Don Eggert, Dave Doswell, & Ron Musco! C U in 7

Hi. A lot of DX this week, so I'll get right into it. MM 2/22- WISN-1150 1:02am s/off WVJS-1420 1:01am s/off w. My Old Kentucky Home. KGHM-1470-TEST in clear but an hour early, 1:20-1:45am s/off. Really a cool test. WAKR-1590 off again this MM, so got KTOD-1590 1:45-2am s/off. While there, I heard WSMN-1590 w/ET/TT/OC 1:48am. I found out my 910 s/off at 2am was WGBI. WHSC-1450 r/c on top. KOZE-1300 3:01am s/off. WGLC-1090 TEST in at S-8. Unn CFAM-1290 the same. The SS underneath WGLC was CX28, Montivideo, Uruguay, in case anybody couldn't ID it. WJOB-1230 ET/M 3:40am. Pretty sure I had LS5-630 3:55am & positive I had ER3-950 4am. WGAS-1420 4:30am s/on. WXRF-1590 4:45am, thanks to JWB's tip. WXLI-1230 5:09 s/on, WMOA-1490 5:16am. WNNC-1230 5:31am s/on. 2/23- WTNT-1270 12:34am. WSTH-860 ET/M 12:45am. WFAA-570 1:12 ET/OC. A real surprise, KVI-570 1:11-2:55am on top of WMCA most of the time, SSS, Fabulous CX! KYND-1580 8-8:15pm s/off & KDAY-1580 at 8:14pm for my best SSS catch! 2/24- WHAV-1490 2:06 am. KROX-1230 r/c 2:15 & KPOW-1260 r/c 2:30am. 2/25- WNPV-1440 r/c 12:25am. WMBG-1380 r/c 12:30. Unk s/off on 1420 @ 1:02am w/Oh Canada, who? WDXE-1370 f/c-TT 1:06am. WSWW-1590 r/c, but to 1:25. KRGI-1430 r/c 2am. WCTC-1450 2:05am s/off. PM, another unk Managua, Nicaraguan, this time on about 1057, 9:45-10:30pm. Had a fantastic S-8 signal at times, but also had a lot of fading & QRM from WRCV. Had a lot of LA songs, commercials, & announcements. Gave call a few times & sounded like YNMM. 2/27- KWEW-1480 r/c 2:05am. PM, WARI-1480 & WIXI-1480 s/off, WIXI w/Dixie. 2/28- WAKI-1230 ET/TT/OC 1:31am. PM, WSEL-1440 6:44 pm s/off w/Dixie. v/1- WENN WLON KFMB WDAY KAYO WGVW WERT-TEST GFCY WLBB. v/q- KSCJ & one from KELO, my second one recently from them, the other being a v/1. Hey guys, thanks a lot for giving me my own private column! Come on now, how about everybody supporting DXDD? If the NRC is to continue to be the #1 publication of its kind, it has to be #1 in everything! This includes Musings, IDXD, v/s, Specials, & DXDD. It just costs 5¢ extra to sort out skeds, etc. in your Musings & send them to Joe Brauner. How about it, huh? 73.

Dave Schmidt - 44 Green Lane - Green Ridge - Chester, Pennsylvania - 19014

Well, greetings from the worst DXer in the NRC. Veries have been coming in two a day for the past two weeks. New veries: WMCA 2/7, WWBZ 2/13, WANN 2/19 WBAL 2/20 WKUR 2/20 WTOP 2/21, CHFI 2/18, WNEW 2/21, WCOJ 2/22, & WAPE 2/6 signed Ken Fuller, PD. I finally got down to WAMS in Wilmington of which they showed me their studios. They are clean & well painted as well as the rest of Wilmington. What I think of Chester & its stations (even WEJT) are just too much to put in here. ERC, sorry for the two Musings but that was my mistake. Also, what time is WABC off? (About 12:30-3:45am MMs -ERC) If anyone in the Club wants my WPE QSL, I'll send one as soon as they come back from the printer. Now about WEJT, I think it would be a good idea if we try to get a good location on these finks. What I mean by "finks", they must be WW-II nutty because the way they play those records, it just makes you sick to listen to it over & over. On the morning of 2/26 there was a station on 1385 kc/s. w/the program "Negro in America" then it went off @ 7am. maybe this is WEJT #2? It was down on 640 again on 2/27 from 11:30am on & it is still on while I am typing this Musing. Thanks to Rick Marr for telling me that he picked up an outlaw on 880 last Summer & it went off around July & he hasn't heard it since then. I think this might be the present WEJT. I just wish the FCC catches them & they put a good end to him. 73, evil minded & good DX. (Why not send your WEJT data to the FCC office in Philadelphia, Dave? They'll ACT! -ERC)

James A. Lee - 352 Pinebrook Road - Eatontown, New Jersey

the most difficulty I have in writing a Musing is trying to think of a witty opening line or a good excuse for not reporting more often. But I will dispense w/the usual formalities & begin w/DX as follows: 1/7- Roma-II-845 @ 6:30. 1/9- RS, RNE-737 Barcelona @ 5:30pm. 1/12- RS TIU-675 San Jose @ 12:25am, RS Sofia-827 @ 12:28 (tentative). 1/17- WEZE-1260 Boston @ 1:50. 1/21- RS HJED-820 Cali (second report) @ 5:15am; S/on WHWH-810 @ 5:59am, RS, Warsaw-1502 @ 11:29pm. 1/22- RS VOA-1196 Munich @ 12:39am. 2/9- RS WALE-1400 @ 11:55pm, s/off WHMP-1400 @ 12:10am. 2/12, s/off WTSA-1450 midnight. 2/150 RS Radio Caroline-1520 @ 1:30, RS ZFBI-960 Bermuda 3:08am, ET WHHL-1440 (second report) 2:40am. 2/22- RS WKBR-1250 @ 12:08am. Veries: WWJC WPLM WAGL KFVS WMDD CFNB R. Des Valles, Andorra, WKEW RNE-Sevilla, BBC-Brookman's Park, WQXL R. Belize, WHIS (after 5 months) & Roma II. Four week & I'll be on my way to the Aleutians. I'm going to spend several weeks in Omaha, the home town, then 5 days at National Bureau of Standard Lab at Boulder, Col. I'll drive to Seattle then plane the rest of the way to the island. Maybe I'll see some of the members along the way. 73s & I hope DX gets out of the slum

Joe Fela - 167 Goodwin Avenue - Newark, New Jersey - 07112

Veries since my last report are y/l's from WQXI-790 CFILM-1240-DX WERT-1220-TEST KWLA-1530 RNE-683 Sevilla (w/a beautiful pennant); v/q from KYMN-1520-DX, CJGX-940, WRAN-1510 (after eight months) KTAR-620, v/f from KROW-1460-TEST, KRGI-1430 & WTYN-1550 signed the report & returned it along w/a hand-written letter which I fine 50% illegible, hi. Veries now stand at 707. Recent DX: 2/15- 12:30 s/off WLEE-1480; 12:59 s/off WCMI-1340; 1:02 s/off WSOK-1230; 1:10 KWLA-1530 r/c; 2:04 KPRC-950 noted; 2:18 WHHL-1440 ET/M; 3:02 CBAG-1550 ID (Maritime ID) during a moment of dead air on CBE; 3:03 WTYN-1550 f/c-M, not much better than CBAG, hi; 3:30 WRIT-1340 TT; 3:43 WBIR-1240 r/c-TT. 2/17- 1:20am, CBE-1550 off, only WAAY/CBAG there; 1:27 WGVA-1240 TT; 1:50 WJEM-1150 r/c; 1:59 s/off KIOA-940. 2/18- 2:20am approximately, WVMT-620 ET/OC while trying for KTAR. 2/20- KTAR-620 logged 2:35-3am s/off. 9:35pm, CFDA-1380 I suppose, FF equal to WBNX/CKPC. 2/22- 1:08am, WIDD-1520 ET/M; 1:21 WVOC-1500 ET/TT; 1:22 WGV-1490 atop mess; 1:39 KLMS-1480 r/c u/WISM/CBZ; 3:00 WGLC-1090 TEST, up to S-7; 3:23 CFAM-1290 DX w/cl mx, too spotty to report. 2/26- 1:24am, WRIN-1560 AN due to snow-storm; 2:00 SSB behind DBE-1550, guess KKJO, also ETer there, think he said 5kw, but too weak to get through CBE. 2/28- 1:44am, WSIZ-1380 ET; 3:06 KSTR-620 r/c-TT, one day earlier than listed. Other things - WBNX-1380 is now having the roughest time down here. It's hard to get a good signal from them even after CKPC's s/off - two or more ANers commonly just u/them, almost equal at times! Dave Oved - never got your reply so assume I have a free hand at arranging programs. CKOX-1340 wasn't on for NASA - 'twas NNRC program, right? I'm 100% for a \$5 dues but I'm also 100% against further condensation. I feel that Musings have been reduced so much now that further reduction would lead to deletion of some DX. Besides, this was one of the hot issues 18 months ago & let's not go through that again! Thw switch is to NRC! 73!

David Gnauck - 444 Old Hook Road - Westwood, New Jersey - 07675

Well, w/no school this Monday I stayed up till 4:30 and got the following: MM 2/22- WIMA-1150 on RS till 11:59pm s/off w/SSB; WNDB-1150, 12:03-12:28 s/off w/pop mx; SSB; WFBM-1260, RS 12:43-1:04 s/off w/SSB w/light mx; KDHL-920, RS 12:59-1:02 s/off SSB; WOOD-1300 r/c 1:05-1:15 w/TT. I spent time on 1510 trying to ID KDKO, WJCO would put on a TT at all the wrong times. I heard half hour religious programs & mention of MBS Was this they? (I think the religious programs are KGA, David-ERC) I need them for call change. WGLC-1090 easy on NRC TEST w/mx 3:01-3:19. ERC, I have the same problem here w/the image on 1090 of WINS/WHN. Very pesty. CFAM-1290 hard on NNRC DX w/cl mx. No sign of CHSM; WRYT too strong. WNOO-1260 4:30 s/on w/SSB; 4:45 w/Gospel mx. Left recorder on 1260 & got WJJJ for call change & WMUU at 5 s/on but the tape ran out in the middle so I'll wait till next week. Veries in are KPMC KYMN WERT WHIS WGAU not for DX but for f/c the same morn. Cheap form w/no mention of the program, WKWF from 1/64, WCAR from 6/64 & #500; KTAR, second from Arizona. CMS from WHIS WERT. ERC, "Surfin' mx" is for sidewalk surfin' only. It merely refers to the song "Sidewalk Surfin'" b the Beach Boys, hi. George A. Santullu, mx on 1520 3:30-4 should be KYMN. R. Selleck, try WDEV-550 Vt. at 5am s/on weekdays, WCSH-970 Me. @ 5:30am s/on weekdays & WTND-920 S.C. at 5am s/on MM. Steve Weinstein: You're great & have my bet for winning the Contest. Big problems, who s/off SM @ 3am on 1320 w/SSB? (WILS, David-ERC) Some s/ons for R.I. & Vt. daytime only stations needed badly & quickly (s/off too.) DX NEWS is great - one of you guys heard something on 2/22 & I'm reading about it 2/26

Chris Lucas - 89 Round Hill Road - Fairfield, Connecticut - 06431

Not much to report this week, as only seven additions to my log bringing my total now to 914. Biggest news here though is my logging of state #47, Idaho, w/KTFI. States now 43/47, w/my awaiting of veries from Mont. Nev. W.Va. & now Idaho. Only one continental state to go, N.D. DX this week has been as follows: KNOE-540 Monroe, La. 6:54 pm on 2/22. SM 2/28- WEMP-1250 u/someone, I think CHWO, @ 3:22, & WEBB-1360 s/on 5:01 Baltimore. ?? 3/1- KTFI-1270 @ 2:06am u/Cuba very weakly, stare 47. WINU r/c @ 2:21 Highland Park, Ill. WJCO-1510 Jackson, Mich. test @ 2:30am. WCOL-1230, Columbus, O. o/WITH @ 2:52am for first Ohio graveyarder. No sign of KSTR-620 test, just WSUN. I tried a couple of times for CFGP-1050, but close to impossible w/WHN using 50kw 50 miles away, w/water at least 85% of the way between me & N.Y.C. I heard someone weakly u/them, but probably CHUM. Dave Gnauck, it definitely was KXLW Clayton, Mo. w/ET/OC @ 3:14am on 2/14. I got a very specific verie from them, back in six days, too. I'm sure hoping to catch on to WDAY DX on 3/15as I now want N.D. badly to complete continental USA this season. Recent veries: v/q- WBIR, v/l & CM from KFIV, v/f & CM CKCY & WERT. v/f- WTRX, v/c WTOP & WJSO sent CM w/verie note on it. That's at - 73.

Ben Dangerfield - 202 Governor's Drive - Chester, Pennsylvania - 19013

There's been some new DX here, but not much, & some veries back, but not many. I think many of the oft-reported foreign stations have been besieged w/reports this season, & consequently have been slower in answering them. I hope this is the reason. I've been pretty slow in answering my correspondence, too, but the reason is just me. Getting caught up now, though. DX since last report: 2/14- I found WENC-1220 atop frequency @ 6pm s/off. 2/15-MM- I slept right on through! I hope I didn't miss too much. 2/17- Noted Ecuadorians HCEW2-995 & HCMC2-955, in w/pretty good signals round 11pm. 2/20- Signals on 665 & 737 behind Lisbon & Barcelona @ 7:30pm, off at 8pm, & think they were Iceland again (see below). 2/21-SM- I tried for the LU2 DX @ 2am & got 'em on 820 kc/s. behind a very strong HJED. "Radio Bahia Blanca" was clearly heard at least once. I hope my few details are enough to prove reception, because HJED had the usual non-stop mx. TAs good that AM included Paris-863, EAJ29-953 & BBC-1457, all between 2:30 & 3am. MM 2/22- The only easy logging was the WGLC-1090 TEST, & this w/an LA behind. I did not hear LS5-630; only a strong CFCY, so I guess my ears are not as sharp as yours, Ernie. Also unfortunately, I did not tune to 840, but now I wish I had! Did hear a "radio Itai" ID on 880 @ 3:48am, & I think, a "Radio Aerial" ID on 730 @ 4:10am. 2/26- Really scratching for DX. I sat on 1145 kc/s. much of the evening, occasionally taping but couldn't get a clear ID. It's an SS LA, & I think it sounds like "Radio Nuevo Mundo", Quito. Later, on 2/27 to be more specific, the TAs from 1088 to 1602 kc/s. were quite good, though nothing new was logged. I sat on 1594 kc/s. from 1-1:30am & taped a nice program, but mostly musical, & I don't know wh, as the language was very hard to read, & it faded before ID time. I plan to go over my tape again for clues. There are almost 60 TAs assigned to this frequency. Also, from 1:30-1:45am Tirana-1358 was again logged, w/many IDs, & the strongest signal ever noticed on this frequency. No trace of Bremen. Veries have come in from Moscow-1115, a welcome addition & country #88; KROW & WERT re their tests, letters, and a nice v/l re my 11/7 reception of the Iceland stations, Eidar-665 and Akureyri-737, after one f/up. Country #89, & a real challenge for several years.

On this lovely 3/1 day (as far as WX is concerned) let me write a Musing while I am sitting in front of the typewriter. 1/24- CKPM-1440, Ottawa, Ont. @ 2:06am w/Mx Till Dawn. 1/25- WHCU-870, Ithaca, N.Y. @ 5:35pm w/sports, NX, WX, & dinner mx until s/off @ 6:15pm. 2/22- WIDD-1520, Elizabethton, Tenn. @ 12:09am w/XR Test. During this test & all through the morning, WKBW had OC & were f/cing almost constantly. Also 2/22, KSTP-1500, St. Paul, Minn. @ 2:26am w/ Jim Shannon Show; WGLC-1090, Mendota, Ill. 3:05 am w/TEST. 2/26- CHFI-1540, Toronto @ 5:13pm w/Carousel until s/off @ 5:44pm. All stations reported here were received w/the loop, & in some cases (such as WIDD & CHFI) I don't know what I would do without it. Veries received were@ v/q- WPLM CKPM WMEX (finally) & WHCU. v/f- WAGL & Radio Barbados. Local WNAB-1450, which is AN, s/off every SM @ midnight, & before <sup>which</sup> they have an all-SS program so don't get confused. That's it for now, so good DX & 73.

John Jackson - 14603 Rayfield Drive - La Mirada, California -

KBLA, Burbank, Cal. has gone to 1500 full time, & KGLM has changed its calls to KBIG on 1/11. Roger Winsor made one mistake in his changes for the VJ Log, that was in listing KFMB as having moved to 760. It is still on 540 - I'm listening to it right now. Does anyone know who on 970 is rr & IDs as Channel 97? Is Jamaica SS? I would have no objections to raising dues if it was necessary, but this is an exceptional year. Now to DX. 12/27- XEOY-1000 "Radio Mil". 1/13- Radio Emperador-840 w/an S 7-9 signal. 1/16- CHEC-1090. 1/19- XERP-600 from out of KFI's nasn. Does anybody know how I can eliminate all the hash I get from KFI? It covers from 620-669. I am only one mile from the XR - please somebody, help. 2/3- KBVM-1380. 2/8- KRSY-1230. 2/21- KBOX-1480. 2/22- KFQD-730 for second Alaskan, CJOR-600, KGGM-610, WKMF-1470 s/on. On 770 I get an SS station and Venezuela mentioned several times, so I guess it was YVQQ as it was the only one listed in IDX. 2/37-28- VOA-1040. What is the name of the mx the VOA uses at the end of a program? KTOK-1000 u/KOMO TT. That's it for this time. If you are interested, the February 1963 Popular Electronics had an article on the HQ-130-A. What day did you get this on? (Received here on Tuesday 3/2 -ERC)

Ralph M. Johanns - 11 East Chippewa Street - Buffalo, New York - 14203

Vive les Francais, CBM-940, Jack Busby, Aud. Rel., Box 6,000, Montreal. See RHC "How to report to CBM." He sent 50¢ postage stuff, v/l, v/q, CM etc. & was nice. I (P.15)

(Ralph Johanns) told him, & Toronto & Ottawa, about NRC etc., so don't spoil it! Sent a report with details & be sure you hear "CBM, Montreal" mentioned, if CBC. I suggest a CBC & a regular program (two dates) for report. Nxt a v/q by CE from CKCK Regina, Sask. This has 620 kc/s. on it. V/1, CM by CE Thomas Epps, WERT-1220, Box 487, Van Wert, O for 11/30 TEST. V/1, CM, WCBL-1290, Purchase Bg. Co., Drawer 7, Benton, Ky., Roger D. Dowdy CE mentions an Ohio fellow reported previous week & complained that only two Ky. stations out of 42 varied for him. Who was he? He said the (2/14 heard) pre-s/on SM monthly test 5:45-6am may vary five minutes either way. March seven-day sked 5:45am-7pm EST (They use CST.) It's Mardi-Gras Time soon & in Rio de Janeiro (and other places for DXing) & its 400th anniversary celebration starts 3/5 till dawn of 3/10 w/some 12,000 police & militiamen to keep order during the Carnival, so forget about tuning/reporting "Castro-stuff." Heard 2/22 loud Mendota (hi, Ev. J) 7 the classy-mx DX by CFAM-1290 called on NA DXers to 4am, then Peoria (#2 AN) WIRL, WICE, a poor K station & a TTer till 4:58 s/on by WNEF. 2/24- WBEN-930 had a long-long test OC/TT; WEZE-1260 w/"Night Watch" AN; CEW-990 (Wed. of f) @ 4:09; Programa Nacional & WNOX AN came 4:19am. 2/27 was odd & @ 2:50-2:58, XEQ "Radio Mexico" cut @ 2:59; Don Jenkins gave the complete KFRE-940 Fresno s/off. At 3:02-3:30 OC/TT possibly CBM (usually has 1-2 hours silence during week, between 2-4am, I've noted often). Finally got a good report, WKOA-1480 Hopkinsville, Ky. SSB s/on 4:58 sounded like WHOM (yes, ERC?) (Yes - ERC! Hi) then a short TTer & loud @ 5:14; WKOA w/c/w mx time to 5:30 when WABB talked; later @ 5:53 SSB no-go, then 5:55:30, SSB & WMSJ Sulva N.C. & the end @ 6:02 when WCIN s/on. Had "Coffee And" w/old '34 RCA table-radio & 4' wire going, when @ 7:45am (full daylight) & SSB, then WMIR Lake Geneva, Wis. came OK to 8am & CBE said I should quit. I hope you get this Musing on time Mr. ERC. (Received this one 3/2; other on 2/24-ERC)

Dave Bennett - 926 Diamond Road - Richmond, British Columbia

Little new DX since my last lengthy report, but CKNW-980 has been off nights lately while testing their new 50kw. XR, so I took a look in on 2/20 & got loggings for CKRM @ 3:56 (report sent) & noted KUPI @ 4:10, evidently testing as no program material was noted, just ID & QTH. Also noted KFWB mostly u/CKRM, for the first time in 5-6 years. The CKNW tests are made for about three minutes in every six & consist mainly of OC or at least did on the above date. S/off is at 3:30 usually, & s/on again @ 8:30. Anyone still collecting SCs? I have a few here from the following: WABC KWMT WAKR KEWB WING & KRLA. I don't collect them myself, but if anyone wants these, drop me a line, first come, first served. 73 for now.

 Det. - c/o EPO - NY NY (sailing for Europe). / DX has been very good for the past few weeks. 2/9- CKLW-800 @ 8:20pm way on top w/a strong signal. Usually DJB on top of 800. Glad to hear Tom Shannon ex-WKBW DJ on CKLW. 7:45 WMBG/WAOK-1380 about even w/QRM from a third station. Also heard WZOK-1320 c/w mx but lost the time. 8pm, SS on 830, probably CMCA as Cuba was mentioned at 8pm ID. 2/11- Now sailing across Atlantic for Europe & DX great so far. WKIX-850 @ 7pm, good signal w/QRM. 2/12- About 300 miles out to sea. WKBW-1520 in at 9am w/heavy QRM, probably WFYI. Heard a WJJC(?) on 1430-1460 at 8:50am. Any help? WGAI-560 @ 8:55, WRAP-850 at 7am w/qrm. WQAM-560 Fla. & WPLO-590 Ga. both heard around 6:30pm. CKLW-800 still on top all evening w/QRM from PJB. KQV-1410 in much stronger than KDKA-1020 all evening, both Pittsburgh. 2/13- WWRL-1600 in at 6am EST, best signal from all N.Y.C. stations, heavy QRM, but way on top. WKBW-1520 & WWRL-1600 both in as late as 10am w/weak signals. Now passing by Bermuda as ZFB1-960 ZBM1-1235 (they ID as 1230!) & ZEM2-1340 in strong all day. WFUN-790 Fla, w/mx @ 7pm. Heard what sounded like WGSU-820 as WOSU-FM was mentioned at 7pm. but heard no more, s/off? PJB-800 on top, no sign of CKLW. Heard a station on 1420 @ 7:45pm w/the 1420 Dance Party. Calls sounded like WC?J, possibly WCOJ Pa. Mentioned Chester Co. but no city. Any help? Heard XERF-1570 @ 6:55am w/their usual records of-fers & good signal w/QRM. WMEX-1510 @ 9pm w/ID & WLAC-1510 was about even/ Surprised to hear WMEX as I was just getting ready to turn off the RX when I heard them ID. 2/14- Nothing heard during the day except weak signal from the above-mentioned Bermudans. WANN-1190 w/fair signal & QRM, probably WOWO. CBA-1070 @ 6pm. WHDH-850 on top at 6:20 w/QRM, probably WKIX. WHDH 850 much stronger than WBZ-1030 as WBZ in very weak. WMCA-570 NY w/good signal @ 6:25 & WPAT-930 NY in at 6:35 w/fair signal & QRM. WGAN-560 Me. @ 7:30 w/WX & ID, weak, but clear signal. Slight QRM, probably WQAM. WFUN-790 7:45 w/ID & heavy QRM. 2/15- About 1,200 miles out. WCOP-1150 Boston @ 7:15 w/ID, fair signal but heavy QRM. WGAN-560 again w/good signal & QRM. WMCA-570 weak but audible @ 8:30pm (WE'll continue this report in our next issue - ERC)

"Good evening, sports fans"! And since the last time, nothing hasn't happened. First, the mysteries: On 2/20, 1210kc.: 2 rockers around 5PM one of which was WKNX. Who's the other one?? Now I, too can qualify for the 1090-CBC relay club !! I got mine with the Texaco Opera // to CBL, CBM, CBI, CBE. So, is it CBLK or CBEC?? And where's Elliot Lake, anyway?? This was u/ CHR's FF talk. My money's on CBLK. Ideas? Now on to DX: On 2/15: 1803- WPRC-1600; 1838: CKCH-970 in FF; 1851: KFAB-1110 w/ NBC Nx u/ WBT's CBS Nx.; 2115: WSLR-1350, ex-WADC. 2/20- 1540: WGGO-1590; 1605: KGBT-1530; 1609: WTHM, also 1530; 1623: WJLL-1440; 1723: WFNC-940; 1725: WGRP-940, both rr.; 2/21- 0158-0215, HJED-820, ASKING for reports!! Wonders shall never cease! Well, I obliged 'em, hi. 0243: WQXI-790; THEN: 0301-0311, KFQD-730!! No ID's or commercials, but where else could be -5 hrs. from EST and 2° below zero?? Reported. Another rr in there... is this CKDM or CKLG ?? 0317: CMAN-550 and jammer; 0356- WKBO-1230; 0412: WCLS-1580. Still 2/21: 1607: WCBA-1350 u/ WRNY; 1729: WRFD-880 o-u/ WCBS!!; 1953- XELO-800 at this wierd hour!; 2008: WPOW-1330. No test from LU-2 on 820... HJED a solid s/3. 2/22: 0055-0117, the ET of brand-new WIDD-1520, Elizabethton, Tenn. cutting thru KOMA's RS and WKBW's test. Reported. XERF-1570 in s/7-8 0115-35, so reported him, too. How they've changed from when I first got 'em in NJ 3 years ago! 0147: WCSS-1490 w/ WOLF off. 0158: trying for KGHM but if that was him I heard way back, he was bucking omni-present WMBD and a newie for me in XESM-1470. I thought I had a TA!!(hi). 0300-15, WGLC-1090 test solid S/5 w/ my fool relay way back. Then off to 630, but no LS-5, just a het. Tuned 650 hoping for KORL, but , as G. Nelson says, "RATS". KOB-770 hiding too. Rats again! 1250 was WRYT all the way, and 1290 had about 6 stations, none readable. So much for the "Twin Giants" of Alberta. From 0325-0335, CMHB (Iguess, not in RFS log... a recent addition??) w/ La Voz de Cuba. British Columbia on a graveyard, you kidding?? An oddity here: Don Eggert reports WNDU-1490 has an image on 580. Local WOLF-1490 also has an image at 580. All S/4 of it. Jim-Neff: Yes, the food at Watson is worse. Ron Schiller: What's RNE-620's s/on You forgot about us people w/ WHEN in our backyard (20/9). Steve W. and anybody else who wried WKY-930, who signed and how long did it take? Same with KOMA... how long ?? Thanx to a tip from Alex Bowab, my 1600 Gospel Hour station is KATZ. Thanx to a Steve Weinstein tip, my 1590 c/w u/WAKR turns out to be WISZ. Dave Schmidt: No WEEZ up here... Have logged WIBG, but for unreportable lengths of time. No sign of WVCH or WCHE yet either. I've noticed some people getting all excited about a girl DJ on WOLF from 1AM to 6. Name's Arline Dee, and she's been on almost a year. She also runs a show Sat. PM from 3-6. A question: Who was running a NASA program on 580 on 2/28 from 0115-0123? Mike Silvera: CJBC is all-FF. NOTICE: Re the 1090 CBC relay dea CBLK is registered to the CBC FF net... under the Montreal Engineering division. Unfortunately, BE & FF NK's carry identical pgms on many occasions. F/ups out to: CKRC, WSGW, WKY & WOKY. Letter from home says I got a letter from the Netherlands, so maybe a month-old verie from PJB! I'll know soon. SC'ers write!! All whom I owe letters be patient... I'll answer some year, hi.. Room change over the weeken Mailbox # the same. Am now in a single, so maybe I can do some more AM DX!!! J. Peterson- I may see you between 3/25-4/4!!! 73's and CUin7

SWITZERLAND. Sottens heard from time to time at 1700. (Lutzenberger, Wis.)
- 770 VENEZUELA. YVLL, R. Puerto La Cruz, P.L.C., always the best Venezuelan, heard 2/22 over WADC at 0505, news and chimes after each item, parallel (?) 560, 670, 940. (Seaver, Calif.)
- 773 U.A.R. Cairbo, Egypt, was blasting WADC at 1845 on 2/18. First time this one has been heard since 11/64, when I verified it. (Fountain, Ga.)
- 775 COSTA RICA. TIW, R. City, San Jose, with a good signal 2300 on 2/24. (Bartels)
- 780 CUBA. CMHD, Sancti Spiritus heard 1/22 0325-0335 w/La Voz de Cuba. Who, where and what power??? (Edmunds, N.Y.) That's what's listed, but who knows power. (Ed)  
VENEZUELA. YVOD, Ecos del Torbes, San Cristobal, seems to be slightly off frequency, hets 780 badly. (Seaver, Calif.)
- 782 PORTUGAL. CSB9, R. Clube Portugues, Miramar, in with strong signal 0225-0300 2/1. (Bartels, Wis.) (berger, Wis.)

- 820 ARGENTINA. LU2, R. Bahia Blanca, logged behind HJED 2/21 between 0200 and 0230, at intervals. HJED very strong here, so I was lucky to get a handful of LU2 details, when the non-stop mx on HJED occasionally slowed down and stopped. (Dangerfield, Pa.) Anyone else? (Ed.)  
COLOMBIA. HJED, La Voz del Rio Cauca, Cali, heard 1/21 0159-0214, asking for "comments on our programs" giving address as HJED, Box 1941, Cali. Since when! do they verify, or should I wait to count my chickens til they hatch?? (Edmunds, N.Y.) GUATEMALA. TGKL, R. Emperador, loud 0015-0102 or so s/off - are we sure this is Guatemala City? I thought I heard "Quezaltenango" mentioned??? It is not listed in '65 WRH. (Cooper, N.Y.) Larry Godwin visited this one in Guatemala City, and said has same address as TGHR-700. (Ed.) Finally got it at the right time very clear with good music 0032 2/20. (Silvera, Jamaica)

- 860 BRAZIL. PRA3, Rio de Janeiro, still AN and usually atop all around 0230. (Cooper)

This page wraps up another fine issue; a tribute to the excellent support so many of you have given our club this year. We'll be just a little later getting this in the mails this week since John Callarman sent his stencils in two sections. John had to cover a basketball tournament in El Paso over the weekend and he "pooped out" on Monday night before completing the stencils. Personally, I'm glad to see him slow down a bit, just the one time. It is proof that he's human after all. The way he has been grinding out stencils and correspondence, I was beginning to think he was some kind of machine!!

We are getting considerable correspondence concerning the proposed dues hike to \$5. Almost unanimous in favor. While we are running in the red, we are spending the surplus that Ray Edge had accumulated, so it won't be necessary to mortgage anything. However, it's a simple truth that you can't spend more than you take in and stay in business. By the time the convention at Cedar Rapids rolls around we expect to have a proposition worked out that will be to the best interests of the majority. Meanwhile please express your thoughts and ideas.

THE FOLLOWING LETTER WAS SENT TO RALPH JOHANNIS BY CBM, Montreal, Quebec in reply to a query about the station's verification policy:

(On letterhead of Canadian Broadcasting Co.  
and marked "Specimen only")

POST OFFICE BOX 6000  
Montreal, Quebec

We have your report of distant reception but unfortunately are unable to send you a Q.S.L. card, much as we would like to. Q.S.L. cards are issued when we have sufficient programme details reported with the frequency indication to demonstrate beyond any real doubt your reception of our service.

This should include some timings, and if possible, the title of the programme and/or details of the programme content. Any additional information you may care to send would be of interest to our engineers and those concerned with our programmes.

We thank you for your interest in writing and if you care to provide us with more information the next time you write, we shall be happy to confirm your reception report.

Faithfully yours,  
(S) JACK BUSBY

PAGES FROM THE PAST

- My recent comment about letters from John Tweedie and Walter Goldy with discussion about WMBJ and WBAK brought interesting letters from Hank Tyndall who sent me his logs on both stations along with a most interesting letter. Also a most encouraging letter from our old friend Herb Campbell. And Joe Brauner added some notes about the old timers that were certainly interesting to me. Joe reports as follows:
- WMBJ McKeesport, Pa. 1290 kcs., 100 watts, logged 4/26/1928 at 8:40 p.m.
- WBAK Harrisburg, Pa. 1430 kcs., 500 watts, logged and verified 11/18/1929.
- WPSC State College, Pa. 1230 kcs., 500 watts, with a football game on a cold, dreary Saturday afternoon 10/26/1929.
- WWSW Pittsburgh, Pa. 1500 kcs., 100 watts logged 5/15/1931 at 3:05 a.m. (AN already?)
- WLBW Oil City, Pa. 1020 kcs., 500 watts logged 6/12/27 and sent a free EKKO stamp with QSL card showing a picture of their wooden oil derrrick towers.
- WABF Kingston, Pa. 1460 kcs., 500 watts logged 8/11/1927 at 8:10 p.m.

- 1.14 ENGLAND. B.B.C. Light Programme verified by nice letter from M.D. Stanger for the head of Engineering Information Department. He even returned my tape, but sent no standard BBC QSL card. (Fountain, Ga.) I'd much prefer the letter. (Ed.)
- 1235 BERMUDA. ZIML, R. Bermuda, Hamilton. Sent same QSL described here 2 weeks ago in 12 days, signed by Tom Lewis, Programme Director. It's always good news when a non-QSL'er suddenly begins again... and makes proposals for non-verifier list seem unnecessary. (Callarman, Texas)
- 1295 ST. MAARTEN. PJD2, Philipsburg, verie says that by the clock I was first to report reception from N.A., but "Your Friend, Mr. Cooper's report was first received." Country #71 (if it is OK'd as a separate country. (Morss, "as.)
- 1300 ST. MAARTEN. PJD2, Philipsburg. Proclaiming Jesus Deliverance 2 the Leeward Islands. V/1 says they're now on 1295 kc/s and operate till around midnight EST on Sunday nights, w/AN about every four months of a MM. Clarence Burnham says they s/on 0430 weekdays, EE gospel music. Address is "The New Testament Baptist Church" Box 175, St. Maarten, Netherlands West Indies. & v/s is Robert A. Mayer, Managing Director. (Cooper, N.Y.)
- 1315 PANA. A. HOL55, R. Reforma, Chitre, sent an embossed SS Christmas greeting bearing the name of Pedro Solis Villalaz, Gerente General, but no verie! (Cooper, N.Y.)
- 1322 COLOMBIA. HJHY, Transmisora Sucre, Sincelejo. Verie nice Spanish letter from the Gerente, Rafael Hernandez M., then a couple of weeks later, a two-page letter from Victor Montes Bertel, Avicultura Representaciones Comisiones with photo of a bullfight and information on Sincelejo, a very friendly station. (Holbrook, Md)
- 1375 ST. PIERRE & MIQUELON. R.T.F., St. Pierre, sent form letter in French. English translations were typed in. (Lutzenberger, Wis.)
- 1530 PUERTO RICO. WUPR, Utuado, with letter in English and 2-page story about the station and the area. Sked 0430-2130. Said short-handed and correspondence piled up. Very friendly letter from Jose Ribas. (Morss, Mass.) Sent a fine verie letter, station literature, and 8 photos of their town. Verie signer is Jose A. Ribas. Their friendliness is almost unbelievable. (Wilkinson, Calif.)
- 1560 PUERTO RICO. WRSJ, Radio San Juan, sent a v/1 for my 1/24 report signed by Manuel S. Martinez, General Manager; address: R. San Juan Inc., P.O. Box 5621. (Dartels)

Veronica, Postbus 218, Hilversum, Holland, sent beautiful v/q and pix of their ship and a letter saying their antenna is only 48' long (2x24') and 66' above the water, power 5 kw. V/s is Jos Hogen, Technicus. (Cooper, N.Y.) V/c rec for 1/20 report. Located about six miles off the coast. Lists 1563, not 1562. (Dartels, Wis.)
