STATIC FROM HQ

It's a nice clear week here in Louisville, which is a polite way to say we're all out of static...it's not even snowing for the first time in weeks, but there are a couple inches still left from last week, so on this not-so-snowy afternoon Pat, Dick, Gary and Wolf are out here editing....just one note which is that we have some items we are holding for a large issue in a couple weeks. Please continue to send them cards and letters in, folks! On with the show!

THEY JOINED

We welcome these new members--please Muse soon and introduce yourselves (even though one of you appears to be a company!)

820 EL SALVADOR San Salvador YSKT "Radio Cadena Central" believed to be the one here at 0115 on 1/19 w/WBAP nulled out. (Ponder)

825 PANAMA Macaracas HOR56 good in 3 KHz bandpass w/R. Peninsula SID by QM 0550 12/4. No trace of Titania, are they still here? (Kaz) Yes, but Peninsula seems to have raised power and often covers them-CH

830 VENEZUELA YVLT R. Sensacion l&c, alone w/ID between 2 MoR SS vocals 2307 1/22. (DeLorenzo)

832 UNID have noticed someone here drifting in recent weeks. Usually hrd around 0400 and logged on 831.5 1/17, 831.8 1/9, and 832.4 1/26. Carrier nil-fair but no audio yet. (Thomas)

854 PERU Lima, the familiar Peruvian carrier arriving here 0403 1/17 but cx not quite good enough for steady audio. (Thomas)

860 MEXICO Tijuana heard way u/KONO w/usual religion 0830 12/18. (Kaz)

860 VENEZUELA YVOL San Cristobal fair in CJBC OC w/R. Vision ID. 0547 12/4; this and 810 were AN that morning. (Kazaross)

870 VENEZUELA YVMP Barquisimeto suspected here from 880 w/mentions of Venezuela u/WHOA 0045 11/25. (Kazaross)

870 UNID LA, ID'ed at 0128 on 1/19 with "Radio de la Republica... Radio-difusion... muy buenos noches" then s/off at 0130. Hrd T40 singles just before ID. (Ponder)

885 MONTERRAT Plymouth ZJB 1/22 w/"You Light Up My Life" at 2330, then "This is Radio ZJB from Montserrat" at 0003. This was followed by a newscast whose sponsors included Amis Austin. Who or what is Amis Austin? (Krueger) Maybe a dealership for the British car Austin-CH

914 SURINAM RANI R. Nickerie xlt w/man chanting, flute and drum mx 2321 1/22. (DeLorenzo)

915 UNID better than average SA cx produced nice carrier and bits of LA mx around 0410 1/17. Ecuador presumed. (Thomas)

925 COSTA RICA San Jose TICM R. Juvenil w/slogan ID at 0140. Plays quite a bit of American mx. (Krueger)

950 VENEZUELA Caracas YVKG very good w/Venezuela mention 0216 12/22. (Kazaross)

960 COLOMBIA HJHN Magangue R. Sutatenza very good w/R. Sutatenza ID 0230 12/22. (Kazaross)

980 VENEZUELA YVTB Maracaibo good w/WTRY aurora'ed out 0203 12/22. (Kaz)

990 VENEZUELA Barquisimeto YVTA suspected here w/SS ballgame 0205 on 12/22. (Kazaross)

995 ECUADOR HCEW2 R. Suceso, Guayaquil making it 0413 1/17 w/fair sig and bouncy LA rhythm. (Thomas) Fair-good w/Guayaquil mention after nx at 0703 12/3. (Kazaross)

1008 UNID maybe Morocco-possible AA talk by man, fair carrier, but audio butchered by WINS 2308 1/20. (Connelly)

1010 CUBA QMKM Holguin suspected here per DF u/WINS ground wave w/cl mx, YL SS announcer about 0200 12/22. (Kazaross)

1015 EL SALVADOR San Salvador YSC fair in some WINS slop 0155 12/22. (Kazaross)

1037 COLOMBIA Pasto HJBN suspected w/Colombia mention in WBZ slop. Do you know power? The strength was right for a 10 kw central Colombian considering the cx. (Kazaross)

1044 MOROCCO Sebaa-Aioum fair to good on peaks but fading badly: African influenced avant garde jazz w/a bongo drum solo 2305 1/20. (Connelly)

1045 PANAMA HOJ2 Ondas del Canajagua poor w/slow SS mx 0035 11/25. (Kaz)

1075 COSTA RICA San Jose TIFC poking thru WTIC slop w/slow SS mx 0030 11/25. (Kazaross)

1080 VENEZUELA YVQJ R. Barcelona good w/WTIC groundwave and several ID's at 0236-0238 12/22. (Kazaross)

1089 GREAT BRITAIN Crowborough 1/23 at 0120. Orchestra played Spanish one step, Bavarian Rathskeller mx, EE male sang "Santa Lucia". 30 dB o/noise, 300 Hz het. First time in several weeks. (Bailey)

1090 COLOMBIA HJBC Cucuta poor-fair o/u unusually weak WBAL; SS talk and ID first time sounded like "LV de Bogota". After playing the tape back several times, I finally got "LV de Cucuta" out of it-noted at 2256 on 1/20. (Connelly)

1090 GUATEMALA in reference to Joe Krueger's recent tentative, TGZ does ID as "Romantica" per a logging last spring. (Baskind)

1110 HONDURAS El Progreso HRPL 1/22 0430, two slogan ID's and music. (Krueger)

1110 VENEZUELA Valencia YVRX fair w/soft SS mx and R. Mia ID, WBT nulled 0517 11/24. (Kazaross)

1120 VENEZUELA YVMF Ondas del Lagos, Maracaibo w/lively SS mx, "Mas Musical, Ondas del Lagos" ID's 0045 and 0048 12/4. (Kazaross)

1140 COLOMBIA Medellin HJBL fair w/TODELAR ID 0800 12/3 w/another LA, WRVA off. (Kazaross)

1170 COLOMBIA HJBP Valledupar xint w/Ondas del Macondo ID 0730 12/3, "Macondo, Macondo, Macondo" yelled by OM during mx at 0734, WWVA off. (Kazaross)

1170 HAITI 4VRFL Port-au-Prince w/FF talk and soft FF mx o/WWVA 0055-0110 12/22 during aurora. (Kazaross)

1176 COSTA RICA Limon TIQ fair in 3 kHz bandpass w/calls, very fadey at 1200 12/2. (Kazaross)

1180 CUBA calls unknown, march mx and "premier territorio libre" ID at 0500 11/24. I don't think this was listed R. Relej in WRTH. (Kazaross) Probably one of the new 1180/90/1200 chain-CH

1160 COLOMBIA (out of order, sorry) HJBL R. Aeropuerto, Barranquilla 1&c w/SS MoR vocals, 0448-0456 1/17; hrd on TRF. (DeLorenzo)

1210 VENEZUELA YVMN R. Coro, Coro xint briefly in WCAU null w/ID, SS MoR vocal 2223 1/19. (DeLorenzo) Suspected here w/YV anthem at 0355 12/22. Ernie Cooper has heard Coro AN. (Kazaross) They can't make up their mind from month to month-CH

1220 COLOMBIA HJVF R. Vision, Barranquilla weak w/WWWE, R. Vision ID 0233 12/22. (Kazaross)

1224.4 COSTA RICA San Francisco de Heredia TIPJ R. Victoria suspected here w/weak audio and low het from Ecuador 1224 0220 12/2. (Kaz)

1230 UNID LA in weak in AU w/lively LA mx 0227 12/22. (Kazaross)

1260.5 UNID LA here w/very lively SS mx and OM announcer putting a low het on WEZE groundwave 0120 12/22. (Kazaross)

1270 CUBA CMJG Camaguey poor-fair w/Relej nx and TC's o/growl 0255 12/22. (Kazaross)

1332 ITALY Roma very good w/cl mx, woman in II, then pop mx 0510-0530 1/16. WHET off at the time. (Connelly)

1349 MAURITANIA Nouakchott poor w/bits of chanting, strong het against WHNE 2238 1/20. (Connelly)

1375 ST. PIERRE ET MIQUELON fair in slop w/FF mx and talk 2220 12/15. (Kazaross)

1377 FRANCE Lille fair in slop 0630 12/5. (Kazaross)

1395 ALBANIA Lushnje likely w/talk by man, possibly GC, poor 0507 1/16. (Connelly)

1395 TOGO Lome suspected here w/FF mx fair in slop, possible ID at 0130. This was along the same bearing as Conakry 1404 which was very loud at the time. 12/4. (Kazaross) Dunno.... The 1502 stn in Togo is still on it's old freq. Therefore I'd doubt that your 1395 stn would be Togo, but anything's possible-CH

1404 GUINEA Conakry very good w/FF 0115 and vernacular wails at 0140.

1413 SPAIN Huelva suspected here w/SS during high end TA opening 12/18 at 0225. (Kazaross) Huelva not here per European lists which I will run next week CH

wu

1416 DOMINICAN REPUBLIC Dajabon HIOS R. Marien w/ID poor at 0130 11/25. (Kazaross)

1420 VENEZUELA Maracaibo YVZO suspected here w/ballgame u/WBSM ground-wave during severe aurora cx 0243 12/22. (Kazaross)

1422 WEST GERMANY Saarbrücken good w/man in GC; low pitched het audible on low side (about 400 Hz) 0506 1/16. (Connelly)

1467 MONACO TWR Monte Carlo xint w/man in GC 0458 1/16. (Connelly) Very good at 0645 12/5. (Kazaross)

1476 AUSTRIA Wien good w/GG mx and talk 0640 12/5. (Kazaross)

1476 UNID Cotonou, Benin suspected w/choral mx, poor, looping Africa 2234 1/20. (Connelly) On 1475 as of 12/15 per Bill Bailey-CH

1485 UNID GY carriers here. Not strong enough for audio 12/5, 18 and 19. (Kazaross)

1494 FRANCE Bastia listed, weak to fair w/FF //1557 0635 12/5. (Kazaross)

1503 SPAIN Bilbao listed, suspected here w/SS in weakly at 0730 12/18. (Kazaross)

1520 COLOMBIA HJLQ Barranquilla fair w/lively SS mx and R. Minuto ID 0311 12/22 w/WKBW aurora'ed out. (Kazaross)

1521 CZECHOSLOVAKIA Kosice must be the stn heard here the eve of 12/23 from 2205-2220 w/Slavic type lang and poor-fair sig. AA like that heard on below stn was often hrd underneath. (Kazaross)

1521 CHINA Urumqui (tentative) 1/23 at 2250, YL talk in RR (or similar), 8 Hz SAH, 42 dB o/noise. Chinese type music box at 2254. Silent carrier til 2300. Few notes w/chimes and IS w/bells three times followed by RR (?) male annrc w/"Govorit Peking" (?) each time. AA mx and talk usually heard here in the past. Station not very readable 1/2 hour later. (Bailey)

1521 SAUDI ARABIA (tentative) suspected w/continous AA religious sounding chanting from 2135-2150. Poor to fair audio. There was a strong het on a very weak WKBW until WKBW faded up at 1650 (??-CH) and I suspect that this is Saudi Arabia and not Tunisia because there was no trace of the listed superpower on 1566. The religious nature of the broadcast reminded me of what I've heard on the shortwave services from the Arabian countries. Daba is located in NW Saudi Arabia near Sini. At the time of this reception I couldn't even copy any audio from any other TA's except very weakly regulars 1044, 1404, and 1593. What do the Europeans report here? With 2 megawatts should really get out. (Kazaross) I don't have any European loggings for 1521 here. The fact that TA cx were so poor makes me a bit uneasy. It is not sure that the 1566 Tunisian is indeed on the air, so that piece of evidence may not be valid-CH

1521 TUNISIA (tentative) AA talk by man and woman, then AA flute and violin mx; potent, jamming WKBW 2229 1/20. Het has been noted here before at local sunset, but this is the first time this one has been strong enough to push audio right past pest WKBW. (Connelly)

1530 CUBA Moron believed to be the one w/WGKY w/operatic type SS mx 0315 12/22. Loop bearing was Cuba. (Kazaross)

1548 GREAT BRITAIN Middlesborough BBC local R. Cleveland here weakly at 0657 w/British EE/BBC mention o/another station with Billy Joel. At 0700 BBC ID "Radio Cleveland" and pips. My best catch ever. Date was 12/19 during great high end TA cx. (Kazaross)

1550 COLOMBIA Barranquilla HJCB fair during AU 0300 12/22 w/several 15-50 mentions in SS. (Kazaross)

1554 GABON Libreville 1/23 at 2228, National Pgm (mostly native mx) 7/4777. 36 dB/noise. BCB better than SW. (Bailey)

1557 FRANCE Nice fair to good w/male AA vocal during multi-cultural pgm 0500 1/16. (Connelly) Good 12/5 morning. TC and ID 0630 12/19. Local like 0600 12/20. (Kazaross)

1560 DOMINICAN REPUBLIC Santiago HIJC suspected here per loop bearing at 2350 12/21 during pauses in WQXR audio. (Kazaross)

1566 SWITZERLAND Sarnen good 12/5. Local like 12/19 morning w/variety mx and male-female GC annrcs. (Kazaross)

1571 DOMINICAN REPUBLIC HIAJ Santo Domingo suspected to be the one w/slow SS mx poor to fair audio in .5 kHz bandpass, ripping up CKLM w/het during severe aurora 0235 12/22. (Kazaross)

1575 EAST GERMANY assumed the one here w/woman in GC, fair 0501 1/16. (Connelly)

1575 ITALY Bari fair in II at 0535 12/5. (Kazaross)

1575 SPAIN Madrid R. Peninsular way o/Italy w/guitar IS before 0602 s/on 12/19 and 12/20. Lasted till 0750 12/18. (Kazaross)

1584 UNID GY mess of weak carriers noticed here during high end openings of 12/5, 18, 19, and 20. Slight audio 0730 12/18, language undeterminable, weak garbled SS type language here 0652-0654 12/19. (Kazaross)

1593 WEST GERMANY Langenberg fair w/man reading news in GC 0503 1/16. (Connelly) Good to xint 12/5, 18, 19, and 20. (Kazaross) Fair w/GG MoR vocal 0649 1/15. (DeLorenzo)

1600 COLOMBIA HJJH Armenia here between 0800-0900 MM 12/4. Signal was weak w/fades. Looped Colombia. Bogota was mentioned. Pests WWRL and WUNR off. (Kazaross)

1602 UNID weak SS or PP TA, folk mx poked thru 0735 12/18. Mx was similar to Spain 11575. Are there any Iberians here? (Kazaross) Yes-CH

For DDXA purposes, 50 U.S., D.C., and all Canadian stations count. Do not include Puerto Rico, Mexico, or any other foreign stations in any of the counts, please, to maintain conformity.

Previously stated 25-mile radius may be ignored. Apply whatever standards best suit your individual taste. If you are combining all locations into a single count, please indicate the # of locations and which they are. If, however, you wish to submit separate listings for each DX location, please indicate both the year you started DXing and the year you started at that location. An attempt will be made to expand the format to present the material in a meaningful way.

NOTES: Steve Bezilla: 2 locations 8 miles apart. Peter Taylor: 6+ locations coast to coast. Robert Foxworth: Totals from Mineola, NY, and northern NJ, both within 25 miles of New York City. Dick Truax: DXing since 58; since 72 in Louisville, KY. Kelly Andrews: Goldsboro & Greensboro, NC, and Richmond, VA. Greg Hardison: Heard totals from Atlanta, GA; verified totals from vic Los Angeles, CA. Wayne Heinen: Heard totals are reports sent. John W. Hoogerheide: DXing since 48; Louisville totals since 9/77. Morton D. Meehan: Most veries received at Elizabeth, NJ, between 32 and 39. 1948-78 DXing from CA, about 20 locations; no longer keeps log and only rarely verifies. Jim Wallace: Started 69; since 72 in Columbus, OH. Bill Hardy: These totals reflect domestics only; previous listing was all loggings. Dave Korinek: Final count from Oceanside, CA; now located in Seattle, WA.

To distinguish between a count of ZERO where a count is being made, a ZERO for not applicable (in the case of someone who doesn't collect tapes or veries), and an unknown quantity since no count has been made, it is suggested those who do not keep certain totals but do have the items in question, use a - and those who have no veries or tapes use 0.

Any suggestions will be appreciated and those already made will shortly be acknowledged and questions asked will be answered as soon as possible. 73 Don Erickson

GRAVEYARD DX ACHIEVEMENTS

BILL HALE
1451-B FAITH DRIVE
RANTOUL, ILL. 61866

Since this starts a new round of Graveyard DX Achievements, I thought it the best place to institute a slight change of format. Beginning this issue, the achievements will be divided into two categories. The first will be the pre-1960 loggings, followed by the post-1960 loggings. This will serve two purposes: one, to recognize the older and in most cases, farther loggings; second, it gives a better perspective of what is possible in these not-to-ideal days of DX'ing. Especially on frequencies with a minimum of 150 stations fighting it out. Deadline for the 1240's coming up in March is Feb 21. Let's check out...

Several new entries are added this time. The last time 1230 appeared was Feb 6, 1978. Thanks to all those who have sent in their loggings, both new and updated. If anyone has news about GY stations that doesn't appear in the 'AM SWITCH' column send them in, and it'll appear here. I don't want to steal any of JOHN's thunder or deter from his great column, but anything that's 'newsy' or interesting about any of the GY stations to you, would probably be the same to others, too. So pass them along. That's it for this month...73 to all.

YET ANOTHER CORRECTION to the recent article from Brian Sherwood (Page 30, 1/29/79). Your typist (Pat) and his proof-readers mauled a line or two. Brian writes: "Using the loop for L1/C1, without a longwire attached, the loop will still null as before. Using the loop as a longwire tuner, with the longwire attached, you lose the nulling capacity."

WRITE LIKE YOU TALK!

BILL HARANG - 811 Nevada Avenue - San Jose, California - 95125

The new Carmichael station on 710 seems to get out here very good both day and night doing a good job of blotting out KMPC. I believe that one of the major reasons why many members don't contribute to the bulletins of the individual clubs they belong to is that they feel they don't know what to say. If you complain that you never know what to say to the Club, it's because you are still thinking of writing to a club as a largely different matter from talking. It isn't! Talking is an expression of thoughts and ideas in spoken words. Writing is, or should be to a large degree, those same words in paper. The only person who can truthfully say he has nothing important to write about is the person who sits alone in an empty room 24 hours a day, seeing no one, doing nothing, just sitting and staring. And even he could write an interesting story telling his impressions of complete solitude! So don't ever say you don't know what to write about to this Club! Write about the things you see and hear and do, and plan to do! Write to express your thoughts and ideas on whatever subjects are mutually interesting to your fellow Club members. Many people become "tongue-tied" when they sit down to contribute to a radio club publication. They find it difficult to express themselves in a simple, natural way because for some reason, they think they must write "better" than they speak. As you know, people almost always talk best when they don't stop much to think about what they're speaking of. And the same is often true of writing to our fellow Club members.

A GREAT WEEK FOR DOWN UNDER DX

HANK WILKINSON - 5028 Maiden Lane - Santa Rosa, California - 95405

1/19/79

The period between Jan. 10 & 17th was the best ever for "Down Under" reception fir many many DX seasons. I heard approximately 20 stations of which six were new for me. Details were sent to CHUCK HUTTON. Of course, the big factor was that these Aussie - New Zealand stations are now on 9 kHz separation which has opened a lot of possibilities that never existed before. I am hoping that the 9kHz separation for the Pacific-Asian area will bring a lot of former West Coast DXers back into action again. For those who are interested the best hours for Down-Under DX were from 1030 to 1400 GMT. (5:30-7am EST -ERC) Many N.Z. stations go off at 1200 or so. And many Aussies go off at 1400 or so. These stations should be coming in earlier and earlier as we get into February, March, & April. By the way, the CHRIS MARTIN Pacific-Asian Log is a MUST for serious TP DXers. Try it - you'll like it!

PREFERS THE SM-2 to the PALOMAR LOOP

CARL DABELSTEIN - 8209 West 78th Street - Overland Park, Kansas - 66204

Not too much time to DX so far this season, but here is what I've bagged since my last Muse. On 10/15 I got the s/off of KBNO (ex-KFSC)-1220 in Denver @ 8:15 in both EE & SS. 10/21 brought WONA-1570 Winona, Miss. s/off @ 7:30. Later KQNK (ex-KNEI)-1530 in Norton, Kan. s/off @ 8. On 10/22 I got KMAR-1570 Winnsboro, La. s/off @ 7:30. 10/28 - I finally heard KPWB-1140 Piedmont, Mo. w/rr @ 7:15 up to 7:30 s/off. Thanks to a tip from ROB KEENEY, I finally logged KKAN-1490 Phillipsburg, Kan. @ 6:45pm. This leaves only the 1290 station in Pratt to complete Kansas (Nebraska is my only other 100% logged & verified state). On 1/6 I heard two ETs simultaneously on 900 @ 1:30 - WJTH, Calhoun, Ga. & WATV in Birmingham. On 1/15 both Keeney & I heard someone Tting on 1600 for a couple of hours but no ID. Later, I logged WQBC-1420 in Vicksburg, Miss. w/Miss. State-Ky. BEB @ 10. Veries to come this way have been: KKOA-1390, KYNN-1490, WSSA-1570, KQNK-1530, KCTE-1140, KPIX-1140, KKAN-1490, KSOH-1050, KPBA-1590, KUFF-1150, KWSH-1260, WFFM-1150, WNMT-1520, KCJJ-1560 & KETX-1440. Total veries are now at 1,979. I agree with most of the people who have complained about the CPC efforts this year. I disagree, however, with a couple of the comments of JOHN KROMKA and his recent Musing. There wasn't a lot of CPC TESTS five years ago - only 24 NRC TESTS were sked (including 'no shows') of which I set up mine. The CPC effort was so poor, that at the Toledo Convention JERRY STARR declined to nominate anyone as CPCer of the year. We actually haven't had a real successful team effort since the 60's. As for another item that may be of interest to some of you, I would NOT recommend the Palomar Loop. I purchased one & was very dissatisfied. Although the nulling was satisfactory, the sensitivity of the antenna was poor. My \$20 homebuilt 2' unamplified loop outperformed the Palomar Loop. The unit I received also had a manufacturing defect. The antenna plugs into the amplifier via a phono-jack. This unit's jack had a short. I returned the unit to Palomar stating that some of the advertising was overstated, the unit had a manufacturing defect, & it was not worth \$115. They only refunded \$98, saying the difference was a restocking charge. For those of you looking for a manufactured loop, don't look past our own JOE WORCESTER'S SM-2. Well, 73's for now & good DX.

LET'S HAVE THOSE MUSINGS, FOLKS! REMEMBER, OUR PROVINCETOWN DEADLINE IS EVERY MONDAY, AND REMEMBER ALSO THAT MONDAY, FEBRUARY 19th IS A POSTAL HOLIDAY, SO FOR THE ISSUE OF MARCH 5th, BE SURE TO HAVE YOUR CONTRIBUTIONS TO THIS SECTION IN HERE BY SATURDAY, FEBRUARY 17th! -ERC PLEASE USE E.L.T. VISITS PROCTOR & GAMBLE, and SOFT-SOAPS THE PROFESSORJEFF LOCKWOOD - 3131 E. Prado Boulevard - Tampa, Florida- 33609 1/20/79

Hi. Some DX to report, although not too much due to a fairly heavy course load this quarter. First of all, the field trip in December to Proctor & Gamble plants in Perry, Fla., Albany, Ga., & Augusta, Ga. brought some good catches (at least in the limited time I had, hi): WFLA-970 12/13 @ 3pm in Perry & again the next morning in Albany @ 1am with Jepko. KFI was also heard in Albany that same night; this was all on the TRF; TVI wasn't too bad in the motel. WLCY-1380 was heard as well in Augusta as it was in Dade City, Fla. at night; the latter is 40 miles NE of their XR. We had 16 students and three faculty members from the engineering department at the University of South Florida on the trip, and DXing became one of the main sidelines of not-so-serious discussion after I astonished one of the profs by identifying almost every station he tuned on the car radio (clears like WMAQ, WSM, WSB, WNBC, etc.) Some copies of DX NEWS taken on the trip elicited little more than bewilderment and a few laughs from that bunch of radio tyros (hi). Now they want to form their own "club". Please do not call and ask why. DX this month: KLVI-560, 11:50pm 1/16, WMC-790midnight 1/17, WSMB-1350 11:35pm 1/5, KXKW-1520 6:05pm 1/3. Taft Broadcasting has purchased the rights to the Bucs' broadcasts; WDAB-1250 will be the new flagship station. WFLA-970 still carries the Rowdies as well as USF Brhman "Basketball". Brooks-Gallogly Productions, whose contract with the Bucs just ran out, now handles U. of Florida BKB and is seeking the rights to the FB broadcasts as well. That's it for now; 73 from the "Thunderflushers" of the USF Engineering Department.

WKEM in IMMOKALEE - PART ISTEVE KENNEDY - Box 231 - Immokalee, Florida - 33934

Greetings from the Ear of the Everglades. I hope Santa brought all a new RX or other DX goodie. All Santa brought me was another year in NRC! DX has been a bit fat zero for me - seems that it has been that way for quite a while. I have just moved into a trailer camp, and the AC utility wires are alive with noise. I am considering moving into an apartment some time this Spring, and the landlord said "no antennas." Looks like I may be shopping for a loop soon, because the apartment is Heaven if you want to compare it to what I am living in. Since I last sent ERC a Muse, I am now working fulltime a gain at WKEM-1490, and it's like old times. But now I am only a jock, and work 6-10pm Mon.-Fri. & Sat.-Sun., 2-10pm. I don't want any days off - I need the cash. As I did when I was in Avon Park, here is a mini-tour of WKEM-1490. If you hear us write me direct c/o the station, and you will get a speedy reply. Immokalee is located about 32 miles ESE of Ft. Myers, Fla. inland, just N of the Everglades. The swampy country is perfect for good groundwave coverage - about 8-9 mhos. (17-ERC). Immokalee has an average population of 10,000 but swells to 17,000 during the Winter season. Our main industry is agriculture, and there is a good chance that the tomatoes or green peppers in your salad came from this area. Almost 75-80% of Immokalee is Mexican migrant labor during the Winter months, & SS is generally the language usually heard. In fact, because of my living here off & on since 1975, I have learned a lot of SS myself. It helps DXing LAS. WKEM is located in a small block stucco building just W of downtown on a three acre lot. The antenna is a 140' guyed tower which is not even $\frac{1}{2}$ wave on 1490, and has a ground system which is pretty poor. It seems ten years ago there was a fire in the field adjacent to the station, and the forestry service plowed up over 50% of the radials on the ground system! We never have yet managed to replace the radials, but it is amazing that the station is heard easily 35 miles away! However, I believe the short antenna gives us a potent sky wave & some of our 'distant' reception is from a 'scatter' type of programming.

SHE HAS SEVERAL UNID SSES SHE'S WORKING ONDEBRA HIDDEN - 7310 Autumnvale Drive - Orlando, Florida - 32807

Greetings from warm, sunny Florida! I thought I was due for another Musing. I have only started into Winter DXing - not much happening. I located two new Cubans on 860 & 1180 plus possibly one on 1430 but haven't been able to ID yet. I have a real puzzlement with a Spanish one on 900 that IDs as "R. Centro." Any ideas? Latest catches during SSS include: WYHI-1570, WMOG-1490, WGNP-1520, WIPC-1280, & WMLT-1330. I've been trying for TAs with no luck. I got some nice catches last Winter. I got a police scanner for Christmas so I have been fooling a lot with that. It's a programmable Bearcat 210 so I can have fun searching for unknowns. I recently joined the WFDFA & am trying my hand at FM when AM seems bad. It will be a long time before I can ever reach FM totals like my AM. My latest totals are: 535 from 31 states, 26 countries and two provinces. I'm glad to see BROCK WHALEY joined the Orlando ranks of DXers! The more the merrier. Now if only more women would get interested! I have several unID SS stations to ID on 1130, 1140, 1150, 1190, 1330, 1460, 1520, & 1600. One year of Junior High Spanish just doesn't seem to help much unless they ID regularly. What's the possibility of printing an up-to-date Cuban list in a future bulletin? Well, 73's & I'm hoping to Muse again soon. (Soon as RON SCHATZ sends it, we'll print it, hi-ERC)

FLORIDA NEWS NETWORK IS NO MORETERRY L. KRUEGER - 84 Winter Park Drive South - Casselberry, Florida - 32707 1/22/79

I did a little investigating into the Florida News Network that I mentioned a few weeks back, and it seems that FNN will die a natural death on 1/26. The four-month-long network couldn't muster the support of advertisers. Most DX the past month has been confined to SW, but I did not R. Aeropuerto-1160 @ 8pm 12/27, YSKLD-765 12:58am s/off & unID -1500 in SS @ 1:20am w/many garbled IDs like "R. Anes" or similar 1/25 - any ideas? The 1 watt beacon NTD-189.3 is back on. Jack Ross, Oakland, has been running this one for some time. I picked up a TRF at Radio Shack a few weeks back. Now I'll have to work (con'd.)

(Krugger, con'd.) it over to get the most out of it. I also added a \$320 stereo system to my car, and find that the Sanyo FT488R I installed is more sensitive than any home set on FM. I can't wait until the E-skip rolls in a few months. I haven't really listened on MW, but it too seems good enough to do some DX on due to good separation and no images. Does anyone know the details of the R. Reloj outlet on 540? I have noted it for months. As friend David Crawford says, "Don't let the WRVH know about that, or they'll go mad re-numbering the Cuban stations to conform with the addresses." All, 73.

STEVE HAD 65 NEW CATCHES IN 1978STEPHEN FRANCIS - 1620 Lodge Street - Alcoa, Tennessee - 37701 1/20/79

Here they are: MM 12/11- At 6:05, long-elusive WOHs-730 N.C. was in fair w/WX & SID, semi WJL still hadn't signed on. 12/12- Per TOM BULL'S tip in Musings, I parked on 770 for the umpteenth consecutive Tuesday morn, but this time it paid off: KUOM TEST good, in WABC null w/ID @ 1:45 sharp - naught else heard fore or aft, so it must be OC only. 12/29- The New Panamanian on 800 heard @ 2:40am in XEROX null w/SS mx & "La Exitosa" ID, CKLW weakened by AU. KCRV-1370 Mo. up briefly w/5:45pm s/off announcement, then gone. SX 12/31- The 65th & last newie of the year was WOTC-1450 N.J., fair & atop @ 2:01 w/ID & into regional NK. MM 1/1- UNID "R. Mambi" ANING on 1200 w/live shindig, announcers seemed Cuban. SX 1/7- In heavy AU, the unlisted Dobleve Cuban noted @ 5:40 on 1290, 11184 which had blotted out HIAS entirely. 1/10- With AU continuing, YQV-1170 was in fair w/HUNW @ 5am s/on w/presumed NA & "R. Acarigua" IDs. 1/12- Three new ones! I haven't even been able to pull that off on a MM since 3/77. At 6am, WTR-1470 Md. readable for a few seconds during s/on, then local WEA popped their OC on; long-wanted WCCF-1580 Fla. fair but in the clear @ 7:17 w/SSB, s/on, and into Christopher Thought for the Day; XERT-1170, Reynosa, Tams. fair w/WVVA 7:30-7:45am with detailed shouted ID after each disc. Their slogan is "R. Grande" which isn't among the three WRTH '78 lists for 'em. They seem to be in at least poor/fair every morning until WSNE's s/on @ 7:45. 1/13- 7am, WGYV-1380 Ala. good w/wake-up sounds (alarm clock, yawns, etc.) & s/on 1/14- WNAR-1110 Pa. poor @ 7:15 s/on w/HREPL. Pennsylvania is now the top Northern state here Ohio had always had that honor since I started DXing in 1970. End of an era, hi. MM 1/15- Two 1240 newies bagged during local WHRR's SO: WULA Ala. good @ 1 s/off, no SSB; WSDR Ill. in & out 4:06-4:35 w/blizzard emergency info, probably on full day power. An unID SS 11-1184 was heard around 5:45 on 1200, probably another unlisted GM. That evening, KZRE-1540 Ark. in fairly well @ 6:30 s/off, no mx. 1/20- WPTI-1330 Ga. atop WFCB @ 7:40am w/NX read by F; the new WYZD-1560 N.C. rose out of the pileup w/local spot and "wise" promo @ 7:40am, after many a sunrise of trying for them. MM 1/22- KAOK-1400 La. excellent on ET/TR 3:05-3:13, w/CIDs @ 3:09 & 3:12, & SID @ 3:13, possibly a f/c. Looks like KDKA & WXYZ are NSP. TESTS from KILG-670, KXIO-1290, & unnn WJAP-860 didn't make it. Outa space, 73 & good DX.

GETS A VERIE FROM MANITOBASTEPHEN H. PONDER - 4105 Glen Street - Bossier City, Louisiana - 71112 1/24/79

Greetings to all from windy Louisiana! The WX bureau issued a wind warning yesterday, calling for winds up to 40 km/hr, and that's pretty blustery this far South! Plus, the wind chill factor brought the temperature down to -14° Celsius (that's 7° above zero, F.) Brrrr! Anyway, I have had a little more time to DX some since I've been home from school, so to the DX: TGW-640 @ 12:30am EST on 1/20; KFNV-1600 @ 11:15am on 1/23; & KFRM-550 @ 6pm on 1/22. All three were quite unexpected catches, but all were very needed. If you hear TSSB on 1580 around 6pm EST, & you're looped toward Louisiana, you've probably tuned to KJUV in Haybesville. I've noticed that they sign off a little bit earlier than do the other daytimers in this area. Now to the verie department: Not much to report except a long-awaited card from CKSB-1050 in St. Boniface, Man. This was a Fort Worth reception during one of XE's few-and-far-between SP's. It took two letters and a PP/c to do the trick - they sent me their own card! I might add that they are part of the CBC FF Network, so they were all in French. It was easy to hear that station, since most on 1050 are in SS at night, hi! During one of the big windstorms we had here last year, my 40m dipole was snapped from one of its mounts. This past afternoon I got upon the roof & re-strung it, this time pulleying and counterweighting it at one end. It works great - I can use one side of it on the BCB for super good reception on my Heathkit GC-1A RX! That's about all for now, except that I'm curious about fellow NRCer DALLAS LANKFORD - are you enrolled at Tech there in Ruston? I am a grad of Tech, Class of '75, in Electrical Engineering! Go, Bulldogs! 73.

LOGS HIS FIRST EUROPEANRICK KENNELLY - 8132 Ashgrove Drive - Cincinnati, Ohio - 45244

Greetings, TA's have come to Cincinnati! 2:09am 1/15, I found a funny he on WAKR-1590. Sure enough, WDR-1593 was in w/a beautiful signal. Earlier that night I heard CKL-1140 for a new province so all in all, it was a good night. Another surprise came the following evening @ 7:01pm when KHOB-1390 in Hobbs, N.M. popped in just long enough for an ID & state #37. New state, new province, and new country in 24 hours! That makes DXing fun. Otherness: new R. Reloj on 930 heard @ 4:12am 1/21, any ideas? UNID domestic sounded like WJWF w/BFL mx ID on 1320 @ 6am 1/17. WJVM ETING @ 2:25am 1/20. That's it for DX. I drilled a hole in my TRF to tune it and the difference is fantastic; thanks, Mr. CONNELLY. I'm doing a term paper on the early days of broadcasting for my American History class. I would like to use the Mothball Memories. Any input from those who remember such things would be cherished & all letters answered. I've got to go down to dinner so I'll make this short. Totals at 62 heard in four provinces, 37 states, & 27 countries since 3/23/78! Best of luck to all. 73.

THE NEXT DEADLINE FOR MUSINGS IN PROVINCETOWN IS SATURDAY, FEBRUARY 17, SEEKING AS HOW'S THE USUAL MONDAY (FEBRUARY 19) IS PRESIDENTS' DAY, WITH NO MAIL DELIVERY. PLEASE DOUBLE SPACE!

GOBBLE; GOBBLE; GOBBLE!

BILL WURTZEL - 32 West 31 Street - New York, New York - 10001 1/14/79
 Ernie added to MARC DeLORENZO's Musing that "it never snows on Cape Cod." The day I was there, Monday, Nov. 27, it snowed most of the afternoon while I rode the bus back to New York, all the way from Provincetown to New York. Remember? (That wasn't snow you saw, Bill - that was "Angel Dust"! -ERC) That might have been your first snow, but it sure wasn't ten below! Are people still mad in Cape Cod? I really enjoyed JOHN CALLARMAN's poem in the Jan. 8 DX NEWS, especially the part about me - the Rhyming Turkey; gobble, gobble, gobble! I wrote him a nice letter and urged him to continue sending in his poetry. See what my gems of verse are causing to happen out there in DX-Land? It looks like you can expect the DX NEWS to turn into a versified anthology of radio rhymes.

PAUL'S STILL LIVING IN THE PAST

PAUL MOUNT - 35 1/2 West Columbus Street - Nelsonville, Ohio - 45764 614-753-3280 11/12/78
 Yes, I'm behind everyone in Musings, but I've just had to much to say, hi. Sat. 11/11 in the kitchen (by Mr. Plumb with the pipe, hi), sitting down before sunset, CHOW-1470 ending Sat. SX Special, mentioned their country estate as studio into mx w/Wald Bill. 4:08pm CFOR-1570 also before sunset (5:19 in Columbus today) w/ID 4:12. FF on 1250, at times I thought I had two foreign language stations, maybe one was Italian. The stronger I didn't get, & instead played Anagrams with the calls & IDed CHWO, Oakville, talk about program times 4:30. First stop on 730 showed WFIT, guess where, Pa. w/talk about 101-FM, 4:35. "I keep it on Kicks" pay phone contest promo on WKIX-850 N.C. 4:48, the new idea in radio contests is that they'll call a pay phone and whoever, if anyone, answers it w/the phrase that pays (w/apologies to WWDJ) wins whatever, like a YAD T-shirt & a pic of Rick Shaftan. FB & c/w on 940, the country song IDed as WFNC. Back to 730, the station I'd pick to hear, WPKX w/WXRA mention (it's FM) w/c/w 4:58pm. WFMC Goldsboro N.C. s/off, mentioned 1,000w, Broadcast Group, then overtaken by WPKX s/off. 5:00, UPI NX & ID from WJIM, a big mystery to me till NRC Log came as I sent the tips to DDXD Monday & Bowling Green, O. call change. A six minute nothing gap, becoming typical of SSS frequencies till 5:13, group MoR, then s/off like "WOMJ 730 on your AM..", QRM from station w/black DJ, 5:18 scores, c/w & TC. 5:22, talk about Americans in war, promo agriculture report on the station, & more talk about Indians & N.M. history though I doubted I had KDAZ, hi, as it was early yet, & this sounded more like a documentary than a DJ chattering. That ended 5:28, then into c/w, then 5:30 said Barbra Mandrell is #1 on the KWRE Survey, 55° on Country Service Radio. Around this time the tape I was recording on (also the one w/Swedish Radio sold at the auction) got caught in the machine & I devoted more attention to that than DX, since the station was IDed. Back @ 5:43 w/new tape, CBE a big loud pest on 1550 but still a good signal from "Your radio station, WAAY" after spot for I-Hop on South Parkway, & the debut of the "Hand Enhanced Signal." By putting my hand over the handle of the TRF with my thumb around 120-140 on the dial, & the other fingers at a similar horizontal place on the back, the signal from WAAY increased considerably (but CBE's didn't.) On 1600 there was a lot to enhance, first WBJP w/soul 5:46. Next "16-FRC" loud at times but then would fade to equal with the others, like WAAM, talking about traffic near Stadium Blvd., so guess who was at home today. They had SID on 6:00 hour, WFRG had similar JX on hour too. Next, mention of the Hungarian Hall in Delphi, spot Stelco's Barbed Wire, for use in rural Simcoe, Ont., WI @ CHNR. Then CHNR & WFRG were atop till 6:18 tuneout. Your question - what are the call letters on the camera in Grease? Totals: 239/32d/2/4/8. (Signed, no name or address).

LOGS HIS 400th STATION

JOHN CLEMMER - 2937 West Gilbert - Peoria, Illinois - 61604 1/20/79
 DX continues to be very good here. Best catches were WXGR-1190 (ex-WFUP), on 1/17 @ 6:10pm and KMCW Ark., 1190, @ 6:16. A report was sent to WXGR. CX are still good at SSS here. KMCW was station #400 heard. Almost 100 new stations have been heard here since Thanksgiving. Rest of DX is in DDXD. Starting this week I'm sending out reports to all the 50kw clears such as WML & KOA that have never been verified. I'm doing this while it is still possible to hear these stations easily. School starts soon (by the time you read this I'll be back), so DX time will again be severely limited. ERC, the unID on 12/22 & 12/27 w/a late SSB was on 1570. Don't forget August 24-26, the dates of the IRGA convention here in Peoria! Activities will include tours of WXQL-1350 and WZRO-FM. There will also be a tour of WXQL/WZRO's transmitting site. It is also possible that there will be a supply of Coors Beer here. This is not definite but I hope to have some "Colorado Kool Aid." How does that sound, ERC? (Yummy! -ERC) As Steve McGarratt says, "Be There and Aloha." The weather here has been a little better, but still 20° of snow on the ground. Good DX & 73.

AS THEY SAY IN FREEPORT, N.Y., "GOBB-1240". CONVENTIONS? WE'VE GOT 'em BACK to BACK! THAT'S IRCA's in PEORIA, and NRC's in ST. LOUIS; THE FORMER AUGUST 24-26, AND THE LATTER, THE LABOR DAY WEEKEND, AUG. 31, SEPTEMBER 1-2-3. WHY NOT TRY TO MAKE BOTH THIS YEAR! HAVE FUN! BE GOOD TO YOURSELF AND TAKE CARE OF NUMBER ONE - YOU! MAKE YOUR PLANS EARLY - RIGHT NOW!

HEARD 232 NEW STATIONS

ERIC FADER - 23-35 Bell Boulevard - Bayside, New York - 11360 1/24/79
 Hi guys. Here's a nice long... er, Muse. SM 1/21: unID TT-1540 on top, 2:49 tune-in till 2:50 cut. Newie WEVA-860 w/Billy Joel LP mx 2:56-3:01 ID on ET, good clear signal on an empty channel. Sun. SSS: Unn WTTT-1430 u/WNJR w/s/off, 4:41pm. Unn WGR-1550 strong w/ABC's "SportsWorld," 4:49. Pest KCRB-1460 loud as usual, 4:51. I think Bayside is in their primary. WDRG-1360 had no chance u/CJVL's EE mx (Andy Gibb), 4:55. Newie WFAQ-1250 on top 5:07 w/ID & c/w. Unn quasi-local WTGR-1520 S.C. killing WKWB by 5:10. MM 1/22- WNJR-1430 noted off, 1:10, only CKFH there. Unn ZEMZ-1340 really blasting in w/"Hit Parade" steady signal o/everything 1:15-1:22 with familiar recorded voice doing TC. Then, a femme chorus sang/mumbled "Zed-B-M", & what sounded like "Midnight" (as in the possible name of the AN Show). UnID LA loud w/soft semi-cl mx (piano, etc.) on 1200, in/out 1:27 to 2:44 checks. A male announcer gave only the song titles between selections. Unn ID TT-1550 strong w/pulses, 2:17 cut. TT in three-minute segments @ 2:19 & 2:24 & finally 2:28 w/variable/high tones. I gave up @ 2:38 after a temporary hearing & patience loss. Tues. 1/23- All this DXing done w/an Economics final exam the next morning. "Dedication or stupidity? You be the judge." (I aced it anyway, hi). WHIO-1310 unheard on extended r/c-TEST, only regular WALK heard, 12am & up. UnID MOR-1400 w/Boston's "Feelin' Satisfied", possibly unn WILL Conn., or maybe WLLH Mass. which was in there later. The unID was heard 12:08. WKVJ-1490 a "definite tentative", heard w/s/off w/hymn (?), 12:14, sort of per log. They came back immediately w/unreadable announcement & TT 12:15-12:16, then gone, the typical Cambridge f/c. WFOR & at least three rockers were in there also, but at 12:30 one turned out to be WBNC, which generally is heard around 610-690 and not on graveyards. I felt ill. R. Tiempo-1200 YVOZ topping two others @ 12:45am, neither was a Reloj. One was IDed later as HIBS, Republica Dominicana. They had a "R. 23 (R. Viente(static)) ID very loud on top, then apparent s/off w/trumpet fanfares (short version of NA, or normal version of short NA, hi), @ 1:02am. Four newies this report - big deal. In 1975 I added 232 new stations to the log; the last three years less than 50 per year. Well, like an old flame of mine once said, "I don't owe you anything". Back in seven with more. 73s & remember, slopcauses catadysm.

HE'S PESSIMISTIC ABOUT THE NEW PROPOSALS

DAVE YOCIS - 85 Vesper Street - Fairfield, Connecticut - 06430 1/20/79
 Greetings to all. In the 16 days since I acquired an SM-2, I have added 46 new stations, mostly in SSS or the big Aurora of 1/4. Some of the more unusual of these catches: WOTO-540 in well nearly every night at amazing level, I don't see how they possibly could be using 250w of power. This could be possible as they were recently given 1,000w nights (but still s/off @ 6pm). Speaking of s/off, I may as well add my 2¢ about the various proposals to reduce or eliminate daytimers. The 9 kHz plan won't work, since all domestic frequencies will be 1 kc away from a Geneva plan frequency, & there will be hets galore all along the coasts. Ten kHz separation through 18-whatever kHz won't work either, since few radios are equipped to handle the new frequencies, and very few daytime stations would increase coverage by switching to 1730 kHz fulltime. It won't get the simulcasts that got FM off the ground, either. Lastly, the proposal to place 250-500w stations on 1-A frequencies is possibly the best from the DXers' standpoint (imagine MMs with a couple dozen GYers 750 miles away the only domestics on the air?) Either way, the loss of SSS DX for the most part is tragic, as for those who rise early it is the only way to add new stations. I'm glad I finally got 400 before the switch: Totals now 405/35d/8/21. 73 & good DX (what's left of it).

LOTS OF REPORTS OUT, INCLUDING THE WHIO-1310-TEST

RAY ARRUDA - 47 Burt Street - Acushnet, Massachusetts - 02743
 A few items noted for a short Muse this time. WWEL-1430 is now WKKS-1430 programming commercial-free disco with IDs twice an hour as "Boston's Disco Station." MM 1/22- Report taken on WUNR-1600 for another try at a verie 1:35-2:05 w/Ken Mayer Show, spots, and pre-recorded s/off & three stanzas of vocal SSB. UnID TTer on 740 w/tones, but no ID 2:32-2:41 tune-out. WXVA-1550 heard wall on ET/mx w/IDs between songs 2:51-2:57. Same date but at SSS WPM-730 noted fighting CKAC with 5:30pm s/off, no SSB. Up to 1/23 Tuesday morn w/WHIO-1310 N.J. f/c heard very weak in WORC/WLOB jumble with TT starting at 12:09 to VID @ 12:15½, then lost. Mx might have been played right after ID, but I can't be sure. Reception confirmed by phone call, but tape and written report sent just to be sure. Reports have recently gone out to WITS-1510, WHUE-1150, WROL-950, WAVS-1190, WZIL-1350, WHNE-1350, CKSO-790, WVNA-1590 (tentative on f/c), WTHM-1530, WIEG-1520, WKKS-1430 & WUNR-1600. Phone call to WJAT-800 prompted a very friendly CE to check the mail box and answer reports for f/c of Nov. & Dec. while CKLW was off. He said he would check all the reports, so hopefully veries will be coming from this rare one! I feel that the CPC effort has been there this season, but the willingness of the station letting us know of upcoming TEST dates has not. Station testing schedules are becoming hush-hush business! My CPC score? A poor 4-for-50. Many of you could take the time out to contact your local station in regard to upcoming testing. You might not need 'em, but I'm sure many others would welcome your hometown station in their logs! ST. LOUIS is still a toss-up. 73.

REMEMBERS "WOO-WOO" GINSBURG

ANDREW F. RUGG - 668 De Gaspe - Apt. 408 - Ile des Soeurs, Quebec - H3E 1H9
 Thanks to the new f/c list, I finally logged WHHO-1320 on their r/c from 12:47-12:57am on MM 1/15. They certainly obliterated everything else on the channel. (I have a verie from their old call, WHHG, dated 7/8/61). That's my DX. My new NRC Log just arrived, and as usual I am impressed with it. MARC De LORENZO: I think I can answer your query in 1/15/79 DX NEWS. In your Musing you pondered whether it was KOKA-1550 that you logged on 12/18. I note in the very next Musing that NEIL ZANK nabbed them a few hours earli-

(Sugg, con'd.) ier that same MM. In that same issue I enjoyed PETE KEMP's recollections of Woo-Woo Ginsburg and Dick Summer. Sixteen years later I still can recite Dick Summer's tongue-twister, including the five pompous porpoises, not to forget "Nine apathetic Sympathetic Diabetic old men on roller skates with a marked propensity towards procrastination and sloth." 73. (How about "rubber baby buggy bumpers," Andy? -ERC)

A LIFE SENTENCE!

JOHN KROMKA - Box 86 - Montville, New Jersey - 07045 201-335-2412

Well, I'm averaging one new station per day - 30 newies each month, which is the quota I would like to keep going. My current total as of this writing (1/26) is 1,361. I keep saying to myself that sooner or later I'm not going to hear any more stations, they're just going to run out, hi. To break down my total stations, approximately 90% have been heard at SSS, about 5% each have come from SRS and after-midnight sessions. I don't make a habit of collecting veries any more, I guess I've just lost interest in that facet of this hobby. My verie total currently is about 100. It is certainly something I don't brag about. MM's have been very unproductive all season for me, which is very unfortunate. I have IDed only a handful of TESTers, whereas in the past I used to hear many. I attempt to listen every MM, usually between 3:30-6:15am. Sometimes, though, I'm just too beat and can't lift my carcass out of the nice warm bed. I am sure many of you know the same feeling. I DX practically every SSS when possible, but some days I just say the heck with it. I find I am easily bored when CI are poor and lose interest quickly and off the radio goes. I find it impossible to DX more than four hours at once, as the interest dwindles, unless the CI are extra good. When CI are hopping I really get into it. This might sound crazy to some of you, I know DXing is just a hobby and all, but I find that I feel generally better psychologically over a period of time if I have done well DX-wise. I guess this hobby has got such a hold on me, it profoundly affects my lifestyle. It becomes an obligation after a while. If I don't DX a few SSS in a row, or fail to get up for a MM session, I get mad at myself for my laziness. DX, to me, is not a hobby to relax by, I relax by listening to the stereo or watching television. DX to me is something I confront as a daily challenge. I find that sometimes I hate the hobby, other times I love it. I know that DXing for me will be a hobby for life and I am content to leave it at that.

HE WENT TO JOHN ROUSE'S GET-TOGETHER

HILL TOWNSHEND - 4500 Connecticut Avenue N.W. #901 - Washington, D. C. - 20008 202-966-8046

Speaking of MARG DeLORENZO's pipeline into Florida (1/8/79, p.29), I had a pipeline of my own open into Florida, especially on 1/15 & 1/16 (Mon. & Tues.) During that week (10-16) I logged 13 newies on domestic, including five from Florida, three of which were Miami-area stations. The Fla. catches were: 1/10- WNWQ-1430 Panama City; 1/15 WNW5-790 South Miami & WAVS-1190 Fort Lauderdale; 1/16- WCCF-1580 Punta Gorda (ETling) & WCCG-1080 Coral Gables. I met several NRCers at JOHN ROUSE'S GTG last Saturday (1/20) despite the freezing rain and ice pellets at his pad in Bowie, Md. Most of the 18 people there were SWlers (Speedy, Friendx, etc.) The NRC people there were TOM MATTHEWS, DICK KIMMEL (WA3OWN), TOM WHITE and host John as well as yours truly. PITT McNEEL and poet HILL WURTZEL (he was planning to come from N.Y.C.) couldn't make it because of the weather. Four days later (1/24) the temperature hit 59° F. (15°C), the warmest since New Year's night (63°/17°C). The first sub-freezing WX didn't come to the Riverfront and Center-City areas of D.C. until 12/10, two weeks before Christmas, making this the latest ever for the first hard freeze. This makes the 63° on 1/1 our Indian Summer. One of the partygoers at Rouse's pad slipped on the ice and his two albums of QSLs landed in the gutter-stream of icy water (I hope the damage was minimal, hi). With reference to the Almighty Dollar in my last Musing (1/22, p.17), the word "God" should have been in quotes with a little "g" (no irreverence or blasphemy was intended, hi). For those of you who are oldies freaks like me, Barrett Strong tells it like it is in his song "Money" which is the first Motown record to come out (around 1959). As implied in the Musing, "Money" (\$\$\$\$) is the name of the ball game these days. Also "awfully almighty" was meant "like holy Hell Almighty" with reference to the rr sloppers. WEAM-1390 changed format, dropping SS 11pm-6am and is now AN-7 (NSP). WRC-980 is now silent 12-5am ME, as is WTOP-1500 (this had an SP every night, is now AN-6 like it was in the 50's). Jack Rouse's 14-year old son John Jr. is really into BCB DXing and is a potential future IRCAN and/or NRCer. 73s.

RECALLS RECEIVER PRICES IN 1962

ALPHONSE B. TOBIA - 7603 Linden Court - Newark, California - 94560

I hope everyone's DXing is great! I was looking through a 1962 Radio Amateurs Handbook and came across many ads for receivers, both ham & general coverage. I thought other DXers would enjoy the following information from a period when it seemed everybody made receivers. Hammarlund listed the following models: HQ-100A \$189, JQ-145X \$269 and the HQ-180 \$429. The HQ-100A & HQ-180 for an extra \$10 you could get a clock, also for these models the matching speaker was \$14.95 or \$19.95. Noational listed three: NC-190 at \$219.95 & Gonsset had their GR-212 at \$99.50. Hallcrafters S-120 was \$69.95. Lafayette HE-30 wired was \$99.95 & semi kit-320 \$79.95. Their HE-10 wired was \$79.95 & kit KI-200 \$64.50. The prices given were all amateurs net. DX wise, 1350 kHz is a good bet out on the WC for getting Hawaii's 5kw K1VM in Lihue. It's been in strong following KSRO, Santa Rosa's s/off. Only problem is K1VM s/off @11pm Hawaii time which is 1am PST so you only have an hour after KSRO goes off. KFTA is now on the air on 710 kHz as a daytimer as of approximately two weeks ago, located in Carmichael, Cal. That's it for now. 73's.

EVER SEEN THE MIGHTY MISSISSIPPI? YOU WILL IF YOU COME TO THIS YEAR'S NRC CONVENTION! IT'S IN ST. LOUIS, OF COURSE, OVER THE LABOR DAY WEEKEND, AUGUST 31 & SEPTEMBER 1, 2, & 3. COME!

CESAR OBJIO - Calle Enrique Henriquez 69 - Santo Domingo, Dominican Republic

Hi friends, Happy New Year to you all. The planned Santo Domingo Christmas Convention did not come true, just RONALDSCHATZ visited us. It seems that nobody else could come, perhaps another time. From Ron I bought his old frequency counter (almost for nothing and brought to this country, thanks Ron), this is a piece of equipment I had been wishing to buy since a long time ago, now it is very easy for me to know the exact frequency of any station heard in any band, no more guessing, interpolations and calculations. I don't have to tell you how happy I am with this counter. Well, we had a meeting with two members of Santo Domingo DX Club (they are José and Patricio) who came to meet Ron and talk about DXing. Patricio had the biggest gift for Christmas: a National Panasonic portable receiver RF-2200, very good. It has a special rotatable ferrite rod antenna on top of the set, very good for MW. As many other DXers I have heard on 800, when PUB was off, @ 6:15am on 1/1 one station IDing as "La Gran Cadena de La Edtosa de las Provincias Centrales" in Panama, that is surely your station, Ernie. By the way, the members of S.D. DX Club are willing to help all DXers in getting verifications from Santo Domingo stations - they have more time available than myself. Please address your letters to: Santo Domingo DX Club, Apartado 17-12, Santo Domingo, Dominican Republic, and please enclose IRCs instead of mint stamps. I have just read MARK BAILEY's Musing and his "DX Down the Dial." I will prepare one from Santo Domingo, can somebody do the same thing from his location? Thanks & 73s to you all.

URGES MORE OF YOU TO CONTRIBUTE

STEVEN D. MILLER - Boston, Massachusetts

"Hello everyone!" I'm back in this very good column. To those of you who care to know I plan to rejoin IRCA the last week of February. And for DX achievements since my last MUSE I've managed to catch 12 new ones. Two of those are WVNJ-620 N.J. & a GYer WKIP-1450 N.Y. That makes my total on the graveyards seven. States I've yet to log are Miss. Okla. Ga., Ala., Col., Del., Vt., Wis. So far I've somewhat of a habit of sending one log report with one MUSE. That's my way of continuing my support to help the NRC complete its goal. By the way, what is the NRC goal? If anyone of you knows please say so in your next Musing. By the way I sent an interesting article to HQ for publication in probably DX NEWS #15, 16, or 17. Who knows? The title is "Question or Regretion". I hope you like it. I just finished Logbook page #5. My total so far is 136 stations heard, total states heard, correction from last DX NEWS (#12) total states heard is 26. Total Canadian provinces heard is 6. As many of you may have read on the cover of DX NEWS Vol. 46 No. 11 the LPC in its own way told you the 700+ membership that all they had for contributors for all of '78 were the regulars whose names you see the most in each issue of DX NEWS. So as a member to you members please support NRC & all of its columns. With your help & support the NRC will reach its goal. Well, that's close to the 30 line limit. My next Musing will be strictly DX-related, in contents. Until next time, 73's and the best of DXing to you.

SOME INTERESTING CATCHES

DANIEL L. BARTEK Jr. - 4 Hanford Way - Fairport, New York - 14450

DX since last MUSE is as follows: 7/17/78- WHK-1400. 7/24- WELW-990, CFRB-1010. 8/1- CFOR-1570. 10/30- WSKI-1240 ET, thanks, Harley Steward, CE. 11/11- CHOK-1130. 11/17- WJCA-570, CKTB-610. 12/17- WKY-930 OHQ-shoma City, my farthest W to date, about 1200 (?) miles. 12/18- WSOQ-1220. 12/23- WFRM-600 (tentative), WFRB-1300. 1/6/79- WHHO-1320, WYSL-1400. 1/12- WTEA-1250. 1/22- CKOC-1150, WNDR-1260, WZLA or WBLI-1310 (?) @ midnight. 1/29- WHIO Dayton, O. 1290, will this decrease my chances of KKIO-1290 Santa Barbara on 2/5 @ 3am? Second country, PJB-Bonaire-TWR-800 on 12/21 w/Christmas greetings of staff & their families. Along with SM-2 & good CX (atmospheric & AU) gives me some hope for Radio Shack's TRF. 73's. PS - More rain yesterday - ahuuu! (KKIO's impossible in the East! -ERC)

NOTE THOSE NEW TESTS LISTED ON PAGE 11 KINDLY SUPPORT THEM WITH REPORTS AND/OR THANK YOU!

ROBERT WIEN - 945 Desert Isle Drive - San Jose, California - 95117

BILL WURTZEL's comments on the new GE TRF were very interesting. I'm the only one in existence I know of who uses this RX, other than a DXer in Virginia (I'm unsure of his/her name). My 17-year-old TRF has served me well to date, easily outdoing a Realistic TRF. In 1962, when I was 2, the GE TRF sold for around \$60, according to my parents. My 1962 TRF has a 9" ferrite loop, and six IF's on AM. But, the speaker is only 4 1/2". If I ever decide to sell it (I doubt it), I won't ask less than what it cost back then. All of my 720 catches have been on this TRF, a fantastic portable. My model is known as a "Musa-phonic 14 Transistor". Unfortunately, I've never seen a phonic Muse, hi. One new catch this week, HJAR-1000, #8 on 100, Colombia #5. Other new catches: KSRV-1380, KBGH-1380, KGEN-1370, KPCC-1370 (not heard in S.J. in 15 years, first time on RS), KRED-1450, KAHL-1410 f/c, KEYY-1450, HJAJ-760 & KOKA-1550-ET. No reply to WCWA-680-TEST yet after a month. Do they verify? W. Va. is a rare state from the WC, so I'd like to get it varied! F/up sent. ERC, when is the new Log coming out? (Hey Robert - it's been out for at least three months now! -ERC) Veries in (since 12/1): CFAG-960 (beautiful 3-D v/q), KGEN-1370 (heard, along w/KPCO when local 24 hour KKEEN was knocked off by a storm), KSRV-1380, KAHL-1410 (nice card), KRED-1450 (a v/q!), KMVI-550, CFRG-690, CHPO-1370, KCMH-580, KRKO-1380, KOWE-1490, KTKT-990, KPNW-1120, KPTR-1400, KRER-1360-TEST, KDLR-940, KXDA-1470 & KPRQ-1230. Veries are now at 390 stations, 397 veries, 113 in '78. I'm working on a set of maps for NRC showing NSF stations in South & Central America, Caribbean, Mexico & Cuba, and the NSPers in U.S. & Canada on GY frequencies, using a 1978 WRTM & updated NRC Log. WRTM is copyright - do you need their permission to use info from their book if the maps are to be used in a non-profit publication? (I would think 'YES', Robert, but I'm not a lawyer. It wouldn't hurt to ask them -ERC)

EVENING DXING PAYS OFF FOR MARK

MARK STRICKERT - 5715 Shovelfulls-of-Snow - Chicago, Illinois - 60660

1/24/79

I don't mind leaving for work 45 minutes early to get there just a little late, or stumbling over 4-5' snowdrifts on the way home, but when I don't get mail for six days I get violent, hi! The 1/15 DX NEWS arrived 1/19, just one day short of the record set last January. So much for life in the Big City. DX was...uh, interesting on 1/18: Three rockers & a talker on 1600k w/peet KCRG popping up at all the wrong times. WCLS-1580 fair @ 10:55pm w/AC NX & rr, o/another rocker (I was hoping for WSRF, but no dice). Much needed WTOP-1500 found way u/KSTIP/WDEE w/NX & what sounded like an editorial, @ 11:10pm. 1/20- TRF was tuned to 550 kHz when I turned it on @ 9:45pm - it immediately proclaimed.. "KFYR in Rismarck", then WX for Central N.D., good enough for State #35. I hope the last 15 pop up half that easily! On 1/23- WBNS-1460 u/KSO 10:45pm w/talk show - caller was complaining that Columbus can't support pro sports, and other important issues. CFPM-1320 o/WLLS & a disco station @ 11:20pm w/a talk show & ad for a Richmond Hills auto parts dealer. WWKR-1310 o/u/W WIFE/KAMM @ 11:30pm w/"Music Station" record store ad. KAMM-1310 o/u/W WIFE/WWKR 11:32pm w/"Sex Pistols" punk-rock mx. Also two stations not heard in months & months: WIRE-1430 "Wire Radio" w/c/w 10:50pm & WIZM-1410 u/WING @ 10:55 w/mention of NBC NX "on the hour" & Larry King live from New York" at midnight. I was horrified by the number of Chicago suburban stations planning on nighttime operation (as mentioned in the back section of the new NRC Domestic Log) (no, not a maid listing, hi). Most of them are in my most productive frequency range, 1300 to 1450. If it all really comes off, I think this DXer will walk over to Lake Michigan with the TRF and scuttle it. Oh well - das ist it for now - I'll leave thou w/these words of wisdom: "T'ain't no excuse - not to Muse". The preceding line was a totally unsolicited plug for my favorite column. Actually, "excuse" rhymes with "moose" but it's close enough - I'll leave the poetry to BILL WURTZEL, and I'll leave you till next time. '79's & O.K. DX.

CHAPTER CLII - "HI HO SILVER, AWAY!"

-by PETE KEMP

Hi-Ho Silver - That call, the sound of hooves and the pulsating William Tell Overture introduced the Lone Ranger. The adventures of the masked man began on WXYZ in 1934. With Brace Beemer in the starring role the champion of justice ruled the air waves. On this excursion through the mind, the voice of Fred Foy rings clear as he begins, what I believe to be the most famous introduction in broadcasting, "A fiery horse with the speed of light, a cloud of dust, and a hearty 'hi-ho Silver' - The Lone Ranger. With his faithful Indian companion Tonto, the daring resourceful masked rider of the plains led the fight for law & order in the early Western United States. Nowhere in the pages of history was there a greater champion of justice. Return with us now to those thrilling days of yesteryear. From out of the past come the thundering hoofbeats of the great horse Silver, the Lone Ranger rides again." I don't think there is an adult alive today who doesn't stop in his tracks and reminisce when the William Tell Overture is played. Recounting how a band of Texas Rangers, led by Captain Dan Reid, went after the Butch Cavendish Gang meeting their demise in Bryant's Gap. Brace Beemer had a masculine, deep voice, and being a big solid man created quite an image at all his personal appearances, of course with Silver and replete with mask and silver bullets. The Lone Ranger is still available through the magic of audio wizzardry, and is playing in various radio markets around the United States and abroad. (I can add to this that truly the William Tell Overture brought the Lone Ranger to mind, as virtually every time the late Dr. Edwin Franko Goldman and the Goldman Band would play this overture in Prospect Park, Brooklyn, during his Summer free concert series (which still continues to this day), some young fellow in the audience would, as the fourth section of the overture began, would, after the trumpet fanfare, holler out in that pause, "Hi - Yo Silver!" - and the audience'd laugh, and the conductor would turn and glower at the audience! -ERC).

NEXT WEEK WE'LL BEGIN GARY SIEGEL'S MOTHBALL MEMORIES ABOUT ONE PARTICULAR GREAT MONDAY A.M. ALSO ON HAND - MORE BY PETE KEMP, AND BY BILL WURTZEL AND GARY SIMPSON. PLEASE SEND MORE!

ERNEST R. COOPER - 5 Anthony Street - Provincetown, Massachusetts - 02657 617-487-9337 1/30

Please do not call between 9pm & 1am ELT (8pm Sundays) as that's sleeping time here, preparatory to getting up for a 1am DX session. Calls have come in from ROLLAND LINDELADE, BRYAN LEE, STAN MORSS, as well as from TED FLEISCHAKER & PAT HARTLAGE, who said, "No more poetry in DX NEWS." Sorry fellows - I tried. Again, no veries - things are very discouraging. Oops - also calls from RAY ARRUDA & FRANK DAILEY. DX Down the Week: 1/24- Unn WZIX-1350 noted ANING, and now that channel is infested with them, WHNE & WWHW. UnID TT on 1430 1:29-1:39+, no IDs. 1/25- Gale Easterly winds & heavy rain, and a minor flooding here at high tide time (8:20am), but no damage at #5. I heard this interesting sequence of words on WHN: First, an item about a lady firefighter fired for breast-feeding her baby on the job, immediately followed by "This is the American ENTERTAINMENT Radio Network!" @ 1:35am. No additional comment is necessary, hi. My 1/24 unID TT-1430 will never be heard now, as today a tremendous AN Cuban has taken over 1430 - they must be running 50kw or better - they knock out everything on the frequency. Unn XEUN-860 in nicely w/AM-FM ID in SS, after classical organ music, @ 1:53. 1/26- Unn CHSJ-1150 o/mulled WHEU @ 1:42 - at first I thought Boston was off. "Tropicana"-540 on top 1:46-2:31, they must be AN now (Ecuador). On 1620, some sort of beacon sending in CW, "SBT". SM 1/28- Unn CFQM-1320 heard for the first time on this frequency today, quite loud, too, 1:13. An OC on the unlikely frequency of 820 @ 2:07, & R. Clarin-860 loud ANING @ 2:08. On 1430, no Cuban today, but the TTR was back, 1:18-1:31+. On 1200, R. Super, Cali, o/R. Tiempo, Caracas, 2:02. Correction, the 1430 TTR was u/the Cuban, my notes were not too clearly written, hi. MM 1/29- I was not much in a DXing mood, so I sorta diddled & worked a crossword puzzle, but heard: unID SS u/WINS-1010, also there on 1/30 when they were louder, but still unID, but I did hear, "Colombia" so we're narrowing it down. Unn WDAT-1380 o/u WBNX on AM-rr, their fades were extremely sharp and complete. 1/30- My DX Blues were somewhat over today. At 1:02am on 1200, I heard Colombia's NA but that s/off left two more SSES there, no WOAI. At 1:04, the famous "Hallalujah Chorus" noted in the 1240 band, but it faded down and out and gone soon. The RCN-610 Colombian was in the clear most of a half hour 1:38-2:04, with RCN & R. Suceso IDs, but 'tis HJKL, still needed for a verie, and so, reported. UnID SS mentioning "Bahia" on 1450 @ 3:06-3:18, heard only in short spurts but occasionally on top, but they too were eventually lost to the hubbub. "La Esfosa de la Proviencia Centrale"-800 good @ 2:13, even heard when PJB s/on @ 2:23, not //-Esfosa-740-CUN7.

YAD-VI APRIL 15-16

That's right folks, it's time again for YAD, the quasi-annual mini-convention in beautiful downtown Hubbard, Ohio (almost). YAD will be held over Easter weekend, April 15-16. This year we're going to try something new for YAD. If there is sufficient response the gathering will be moved into motel facilities right on I-80 just north of Youngstown, about 6 miles from our former location at my place in Hubbard. This will be more convenient for the annual influx of crazies who show up and will solve several major problems. Since I live at the end of a deadend street, parking has always been a problem. (Over 50 showed up for YAD-I and next year we had to postpone YAD at the last minute when the city refused to grant us a parking permit....in Hubbard, parking on residential streets is prohibited without written permission from the local cops). Secondly, nearly everybody who YADs ends up staying on the motel strip by the I-80 Belmont Avenue interchange, so this way less traveling will be involved. We'll have a number of receivers for those who want to see what-Y-town DXing is like. The first five YADs were completely free but if we move into a motel, we'll ask for a donation of a dollar or two from each member to defray the costs of the meeting room. As always, the brew and pop is free. There are eight motels within a block in this area including several cheapies if all you want to do is sleep and shower. You might contact others in your area or along your route about car pooling and room sharing to cut your expenses even more. IF YOU ARE PLANNING TO COME TO YAD OR IF YOU ARE FAIRLY SURE, PLEASE WRITE ME AT ONCE. Within two weeks from the time you read this, we'll have to make a decision on where to hold YAD and the final choice and size of room we'll need depends on how many are coming. EVERYONE IS INVITED, WHETHER NRCS OR NOT so make your plans now to get down and get crazy at YAD-VI !!! Watch for complete details on locations, times, etc in mid-March here in DX News. MAKE YOUR PLANS TO COME TO YAD (Youngstown Area DXers) NOW!
