

STATIC FROM HQ

As we sit here today (2/15) in Louisville, we have just experienced a super short winter season. Winter began for us "Southerners" on Tuesday 2/11 when the temperature dropped from 52 to 0 in less than 24 hours- we had an inch of snow and on Sat. 2/14 it reached 54. Today it is sunny and 64- Spring can't be too far away!

Per a phone call from Dan Myers in Toledo, we are pleased to announce the re-activation of the Flash Alert system. To participate, simply mail Dan a supply of self addressed-stamped postcards (8 to 10 preferably). As late breaking Tests materialize that are too late to get into DX News, phoned in tips to Dan will quickly be mailed to all participating members in time to hopefully log an otherwise unknown test. To participate, simply mail your supply of postcards to: Dan Myers, 4148 Royer Dr., Northwood, OH 43619. Dan also states that he has on hand many cards from the past, so if in doubt, write Dan to see if you already have a supply of postcards in his possession. For those last minute tips to Dan, phone (419) 693-5859 between 6 and 10PM ELT a minimum of 6 days before scheduled test date.

Word from Bob Mielcarek updates the following Silent Periods for otherwise all nighters: WSM-650 silent 6-7AM ELT, WLS-890 off 6/15/81 only from 1-6AM ELT, WONE-980 1st MM 12 midnight until ?, WWWE-1100 12 midnight til 2AM, WGAR-1220 off 3/16/81 only midnight to 4AM, WIRE-1430 2:30-3AM all MM's and WSPD-1370 12 midnight until ? ELT on second Sunday of each month. Bill Bergadano writes that WNEW-1130 is NEVER off per their engineer.

CPC TESTS

A last few CPC tests just arrived to give all another shot at three super rare stations, all who are eager to verify reception of their stations!!

- 2/23 WGIG-1440 Brunswick, GA 0000-0500 ELT with 5000 watts non-directional Mon. using cw music & tones. Reports to: Bob LaFore, CE WGIG, 801 Mansfield, Brunswick, GA 31523. Arranged by Bob LaFore/IRCA via DX Monitor.
- 3/2 WCWA-1230 Toledo, OH 0000-0400 ELT. Format not known at this time.
 Mon. Reports to: Denny Moon, WCWA, 604 Jackson, Toledo, OH 43604. Arranged by Ken Romstadt/NRC.
- 3/2 WFRA-1450 Franklin, PA 0200-0300 ELT using tones, sweep tones, code
 Mon. ID's and music. Will use 1000 watts day power. 1967 Test from here was
 widely heard. Reports to: Robert Sauber, CM WFRA, Box 908, Franklin,
 PA 16323. Arranged by Jerry Starr/NRC.
- 3/9 WSAJ-1340 Grove City, PA 0100-0130 ELT (possibly 0200) with tones, sweep tones, code and spoken ID's, march music, etc. This is probably the rarest US DX catch due to their short schedule (5 hours weekly during school months) and low power, 100 watts. They are the voice of Grove City College and still use their 1921 longwire antenna hung between two poles on the roof of the Science Building. Longwires can produce much skywave, so be sure to give this a try. Reports to: Jim George, Station Manager WSAJ, Grove City College, Grove City, PA 16127. Arranged by Jerry Starr/NRC.

Incidentally, the last two stations above were the only two from Pennsylvania listed as NOT being heard since Volume 41 in a recent issue of DX News!!

Musings of the Members

We are beginning to gather enough material for another BIG issue fairly soon.

JOHN BOWKER 14 CANOE BROOK DR. PRINCETON JCT., NJ 08550

Well, well. If any of you have been keeping count, you probably expected to see the next column of AM SWITCH sometime in March! Well, I'm trying to be good to see if we can keep things a bit more current...this means that next time I'll be a month late! Good to hear from all of you this month -- I guess the comment that hurt the worst was someone pointing out that, last month, I'd done in WXYZ in Detroit by giving away their frequency to a competitor (WMZK). As best I can tell from New Jersey, WMZK is really at 1400 kHz, not 1270 as I said.

So let's try again:

STATION CHANGES NOW IN EFFECT:

Changes in Call Sign of Existing Stations:

```
960 - WBOC - Salisbury, MD now WSBY
1190 - WPRL - Pearl, Miss. now WKKE
1340 - KVIC - Independence, TX now KCWM
1420 - WAMM - Flint, Mich. now WFLT
1490 - WWDE - Hampton, VA now MPEX
1520 - KLYX - Sioux Falls, SD now KRSS
```

New Stations On The Air (and may have been for some time now):

```
740 - WSVQ - Harrogate, TN
1050 - KTBA - Tuba City, AZ
1140 - WKMM - Kentwood, Mich.
1190 - WSVC - Dunlap, TN
1520 - WCSP - Crystal Springs, Miss.*
1550 - WKVL - Clarksville, TN
```

*If you were expecting them to be located in Port Gibson, so was I... but they applied for and received FCC approval to identify as Crystal Springs.

And Finally:

1230 - KLRR - Leadville, Colo. received permission to operate full time.

STATIONS AUTHORIZED TO CHANGE FACILITIES:

```
960 - WATS - Sayre, PA will increase to 5000 Watts, remain a daytimer.
1170 - WCLN - Clinton, NC - will increase to 5000 w. daytimes, 1000 w. CH.
1230 - WBME - Belfast, ME - will go full time with 1000/250 w. non-D.
1290 - WZUU - Milwaukee, WI will go full time, increasing to 5000/5000 w., DA-2.
1300 - WKTX - Aiken, SC will remain daytimer, but increase to 1000 Watts.
1330 - WENA - Penuelas, PR will remain daytimer, increasing to 1000 Watts.
1550 - KXRX - San Jose, CA will increase to 50,000/5000 w. with DA-2.
```

CONSTRUCTION PERMITS GRANTED FOR NEW STATIONS:

1330 - New - Mount Juliet, TN -- this will be a 500 Watt daytimer with DA!

STATIONS REQUESTING A CHANGE IN FACILITIES: (FCC usually takes months to act on these)

000 VIII 0 1147-117
850 - KHLO - Hilo HI wants to increase to 5000/5000 Watts
810 - WJJQ - Tomahawk, WI wants to go fulltime by moving to 640 kHz, 10,000/1000 w., DA2
1140 - WKCM - Hawesville, wants to go fulltime, moving to 1160 kHz, 2500/1000 w., DA-N.
1140 WINC Favority walls to go rull time, moving to 1160 kHz, 2500/1000 w., DA-N.
" " " " " " rayetteville. IN wants to increase day nower to 25 000 watts.
1190 - WLID - New York, NY wants to move to 1200 kHz, an fulltime with 10,000/10,000 w
1220 - WFKN - Franklin, KY wants to remain daytimer, increasing to 1000 w.
1280 - WMPO Aurora TI
1280 - WMRO - Aurora, IL wants to move to 1200 kHz, using 10,000/1000 w., DA-N.
1420 - KLFB - LUDDOCK, TX wants to go fulltime with 500 Watts.
1420 - KITI - Chehalis-Centralia, WA wants to increase to 5000 w., using DA-2.
1470 - KAPS Mt Warran III and Walles to Good War using 10 000 (1000 non D
1470 - KAPS - Mt. Vernon, WA wants to move to 660 kHz, using 10,000/1000 w., non-D.
1480 - WABB - Mobile, AL wants to move to 1160 kHz, using 10,000/1000 w., non-D.
1560 - KDFL - Sumner, WA wants to go full time with 1000 Watts, DA-1.
and a second sec

AM SWITCH Continues...

(3

APPLICATIONS FOR NEW STATIONS:

```
830 - New - Oceanside, CA wants a full time 1000 watter using DA-N.
1320 - New - Pleasant Prairie, WI wants a 500 Watt daytimer using DA.
1370 - New - Elloree-Santee, SC wants a 5000 Watt daytimer with DA.
1490 - New - Sidney, NY wants 1000 Watts days, 250 Watts at night, non-D.
```

CALL LETTERS REQUESTED BY EXISTING STATIONS:

```
980 - WAOP - Otsego, Mich wants WOAM

1050 - WSCV - Peterborough, NH wants WRPT

1050 - WZIP - Cincinnati, O wants WSOI

1080 - WPOK - Pontiac, IL wants WDAI

1250 - KSWW - Wickenburg, AZ wants KUUK
```

CALL LETTERS ASSIGNED TO NEW STATIONS (Not yet on the air):

```
1140 - New - Atmore. Ala will be WASG 1590 - New - Willmar, MN will be KDJS
```

MISCELLANEOUS:

1050 -	New	-	White Bear, MN	 the FCC has dismissed their appln for a new station.
1230 -	KLRR	-	Leadville, CO	 will be permitted to operate full time, not days only.
1330 -	WEVD	-	New York, NY	 FCC denied their request for new Call Sign WMNY.
550 -	WDLV	-	Pinehurst, NC	 FCC said no to their request for nite power of 60 Watts.
550 -	WDLV	-	Pinehurst, NC	 Yes, 60 Watts, and yes, the FCC said no.

The experiment last month about listing some of the station sales has created some mail and, as we all expected, has already been a predictor of actions that bear on our hobby. Still, before we compile more lists, and use up space in DX NEWS, I'd like to hear from a few more members as to whether they think its ofinterest. Please write; otherwise we'll just drop the subject.

Look for more AM SWITCH about April Fool's Day!

MORE STATIC

A note recently received from Mike Hardester is published in part in hopes that some club member(s) might be able to help a DXer in South Africa. Ronnie Swerling would like to trade occasional copies of Billboard Magazine for copies of a South African publication entitled "Sounds". Also he is interested in trading cassette recordings of off-air music/ID's from AM and FM stations in the USA with a format of Top 40, Oldies, and/or Country-Western. If anyone can help, his address is: Ronnie Swerling, 608 Senator Park, Keerom Street, Cape Town, REPUBLIC OF SOUTH AFRICA.

THEY JOINED

The following new members joined this week--- Welcome!! Muse soon and introduce yourselves!!

Bernd Heilig, Cordinger Strasse 34, D-3036 BOMLITZ 2, WEST GERMANY Curtiss Springstead, 4B Father Hayes Drive, Haskell, NJ 07420.

DOMESTIC

DAVE SCHMIDT 42 CHELWYNNE RD. CASTLE HILLS NEW CASTLE, DE 19720

Another nice sized column this week, thnaks to all who sent their tips in. When sending your items in, it helps greatly if you skip a line or two between tips, use ELT, type of neatly write, and keep your tips current. We had to drop a number of tips from one person since they were from December. And, here goes:

SPECI	AL:		Thin the second of the second
680	KWKA	NM	CLOVIS - 1/28 0145 noted w/CW format. (WH-CO)
710	KERE	CO	DENVER - Daily s/off 0200. (WH-CO)
860	KOAM	KS	PITTSBURG - Noted running AN 2/2 0230+. (JS-OH)
960	KGKL	TX	SAN ANGELO - Noted running a CW format 1/27. (WH-CO)
970	WYNZ	ME	PORTLAND - 1/28 1st day on new calls, changing to a
			Music of Your Life format soon. Add.: Elmwood Ave.,
			Scarborough, 04074. Net.: NBC. Ex-WCSH. (RA-MA)
1060	WNOE	LA	NEW ORLEANS - 1/29 noted w/new CW format, "The New
- 1		30 -	Country 10." Ex Top 40. (WH-CO) 2/3 noted on new
			CW format, 1815, "Brand New Country 10." (IH-MI)
			Ditto, info, from Billboard, (DS-DE)
1250	WREN	KS	TOPEKA - Has been noted off the last 3 MM's, maybe
			permanent. (WH-CO)
1400	WILI	CT -	WILLIMANTIC - 2/2 noted briefly w/ID, is now NSP
			w/Larry King stuff AN. (RA-MA)
1450	WCTC	NJ	NEW BRUNSWICK - Sked.: NSP. (JF-NJ)
1510	KDKO	CO	LITTLETON - Now running AN-NSP w/disco/soul mx format,
			noted 4 MM's in a row. (WH-CO)
1550	WYNX	GA	SMYRNA - 2/2 noted atop most of AM w/new night power,

could they be NSP? Used to be my favorite freq., now

ET at 0026. (KG-PA)

EMINENCE - 1/25 0005 weak to fair on ET w/CW mx, ID after every selection giving box & zip numbers. Local WSTL KY WAAM off! (IH-MI) A candidate for a CPC letter? (DS)

CINCINNATI AIRPORT - 1/26 0310 very loud, this time 1610 WXT613 KY starring Bobby Goldsboro, try to contain your excitment! Also has "now here's Kathy with the Travel Tip of the

Week!" Gives temps for other cities so don't let names confuse you! (JS-OH) 25G's for the PD job? (DS)

1/19 0040 w/strong signal, good quality, playing jazz, ID'ed as "Free Radio, someplace off the east coast!" (KG-PA) You say your loop pointed toward Easton? (DS) 1/19 0017-0050 noted w/jazz, s/off w/male annc'r, poor

to fair. (NW-ON) WQTU 2/2 0150-0230 back again w/strong but distorted signal, The Big Q-Two, still think this is around Cleveland, has rock mx. (JS-OH)

UNID's:

1616 PIRATE

NEIL WOLFISH notes CHWO has some type of East Indian programs, he knows they carry them but didn't know the time. STARR notes that WAQI is on 1600, not 1590 as listed. Does that straighten you out, REM MURPHY? And STARR notes WNOP-740 surely has to be Mike Tuggles' UNID from a couple of issues back. Thanks, you guys!

1/31, good w/man in FF 2232 2/1. (DeLorenzo)

PANAMA Chitre? R. Nacional stn w/very pretty mx. Many ID's but no location, calls had numbers in them, 0600 1/30. (George) SPAIN synchros gair w/SS talk in heavy WABC slop 0150 1/29. 774 (Connelly) 783 EAST GERMANY Burg at local level w/GG male vocal, way o/ feeble 762 background het. (Connelly) VENEZUELA "Radio 7-90, Radiodifusora Venezuela, YVKE" w/ 790 instrumental mx and ID at 0235 1/12. (Objio) PANAMA "La Exitosa", Chitre, extraordinarily strong fighting PJB at 0523 on 1/6 w/pop mx. It seems an increase in power, 800 naturally Bonaire is looped out. I was curious as I had hrd it before on the TRF so I tried the Lafayette and loop. (Objio) VENEZUELA "Radio Exitos Venezolanisma", Caracas, a probable move from 1090, ID this way at 0216 on 1/12, Venezuelan mx all the time w/PJB looped out, Panama not hrd. (Objio) EX 980 819 ANDORRA La Vieja fair w/man and woman in FF o/Morocco and others 0530 2/1. (Connelly) ST. KITTS R. Paradise 0304 1/17 with definite EE religious 825 pgm, soft voiced anner. Always around with a het, furst time for any readable audio. (Moman) 828 UNIDS OC/stn under w/Slavoc talk and evidence of third stn-SAH of about 10 Hz present, 0209 1/29. In addition Libys 827 was hetting the 828 mess. (Connelly) BELIZE R. Belize had a net here as early as 0030 1/17 but never grew to audio. A month ago it was audible on a stock TRF! (Moman) 880 USA WCBS with an ad where you can get money for your car, just dial CAR-CASH, funny, eh? This was at 0537 on 1/6. On 1/21 hrd them again with news about the release of the hostages at 0515, good. (Objio) GREAT BRITAIN Washford xlnt, creaming WCBS; MoR female vocal, 882 man in EE 0220 1/29. (Connelly) 891 ALGERIA Algiers xlnt, like a local w/agitated AA yelling by man, reducing WLS to a weak background het 2213 1/27. Many other lowband signals from North Africa and the Iberian peninsula were in as strong hets at the time on the car rx. (Connelly) Good w/lively AA vocal, string mx, woman in AA 2220-2226 2/1; lost to WLS at 2227. (DeLorenzo) GREAT BRITAIN synchros good to fair w/nightclub style jazz 909 oriented vocal mx //882 0222 1/29. (Connelly) VENEZUELA R. Punto Fijo 1/30 0900 very strong w/s/on and xtal 940 clear ID. Mostly dominating freq till 0930 when faded back and forth between Cuban ticker. (Kowalski) COLOMBIA R. El Sol w/ads and pop mx at 0547 1/6. (Objio) COLOMBIA HJAQ Cartagens supposed as HCN ID hrd a lot. 1/26 0803 RCN ID, 0607 EE version of "Via con dios". Xint level. 1000 (Kowalski) UNID net, probably Holland 0230 1/29. This was definitely a 4008 TA, not the drifty Cuban noted in the 1006 region recently. WEST GERMANY Mainz-Wolfsheim loud w/cl mx 0237 1/29. (Connelly) COSTA RICA TIAC 1053 1/18 presumed the one with a weak het. 1025 (Moman) R. Fides w/super signal w/cl mx and church mx, best ever, 0420 2/3. (George) HAITI ?? 1054 1/18 also had a weak het, presumed 4VEC. (Moman) EAST GERMANY Burg-Dresden to fair peaks through WHN buckshot; 1044 uptempo show tune style male GG vocal, then bouncy Muzak jazz 0241 1/29. (Connelly)
PORTUGAL Norte-Azumara loud and clear (at times equalling level of CJRP/KYW); PP male pop vocal, man in PP mentioning Radiodifusao, then female operatic vocal 0120 1/29. (Connelly) Good w/sporting event, excited man in PP, easily pushing aside KYW/CJRP 2224-2228 1/31. (DeLorenzo) VENEZUELA R. Petrolera 1/25 0905 in fairly well w/deep fades 1180 every couple minutes w/Cuban Minute Man. After each song drum roll and SID. (Lowalski) CAYMAN ISLANDS 1059 1/18 had been producing a net most of the night, finally had audio but faded for ID, later had EE pgm, hrd at 1125 with a chorus of Amazing Grace but again they fadedd before possible ID at 1130. (Moman) FRANCE Brodeaux very good w/man in FF 2215 1/31. (DeLorenzo) 1206 VENEZUELA R. Coro, Coro w/local mx of harp and singer, ID as "La Hora Coro" at Ollh1 on 1/21. (Objio) 1210 UNIDS OC, probably BBC, dominant; traces of cl mx under,

either USSR or Albania 0250 1/29. (Connelly)

1220 COLOMBIA R. Juventud, Bogota w/ID at 0443 on 1/21 and pop mx. (Objio) 1230 VENEZUELA R. Barovento, Caucagua, ID at 0216 on 1/7 with old songs, (Objio) 1269 WEST GERMANY Neumunster poor w/het, bits of mx in WTSN slop 0106 1/29. (Connelly) 1310 VENEZUELA R. Nacional de Venezuela, Puerto la Cruz, did not think this stn sould be on at this time, 0620 1/6. (Objio) 1314 UNID woman in unid lang noted here 0558-0604 1/26. SAH from 2nd carrier also; DF clearly indicated Europe. (DeLorenzo) 1320 PUERTO RICO R. Uno, San Juan w/pop mx in "La Fiesta de Reyes" at 0122 1/6, this is "The King's Party" in memory of the kings who went to present gifts to Jesus Christ when born. it is a local tradition on 1/6 (make that Latin American-CH) to give presents to children on this day. (Objio) 1360 VENEZUELA Catatumbo Internacional, Maracaibo, ID at 0616 on 1/6 also as "Emisora Musical" and giving the winning numbers off Zulia lottery and Oriente lottery, also pop mx. (Objio) COLOMBIA R. Mundial, Bogota ID at 0556 1/6, good. (Objio) HAITI 4VARH presumed at 1103 1/18, had a little audio and 1385 what sounded like sonar pips, could hear singing and mx. weak. (Moman) 1390 COLOMBIA Voz de los Andes, Manizales w/pop mx and ID at 0608 on 1/6 w/deep fades. (Objio) ALBANIA Lushnje good w/commentary by woman in EE 2220-2225 1/25; into FF w/man and woman 2230. (DeLorenzo) 1395 1422 WEST GERMANY Saarbrucken good w/soft instrumental mx then man in GG atop 2.5 Hz SAH from presumed Algerian under 0100 1/27. (Connelly) NETHERLANDS ANTILLES ?? 1107 1/18 had a very weak het here. 1445 no audio. (Moman) They're not here any more, don't know who you could have had-CH AUSTRIA Vienna fair w/cl mx 0544-0550 1/26. (DeLorenzo) 1476 1476 UNID maybe Austria, pop mx buried in slop 0255 1/29. (Con) COLOMBIA Em. Punto Cinco ID'ing at 0503 1/21, then pop mx. 1490 1503 POLAND Stargard 1&c w/man and woman in Polish, brief inter-ludes of light jazz piano mx 0518-0524 1/26; children's choral mx 0525; discussion between two women 0539; best signal ever from this one. (DeLorenzo) UNID : het against Cayman-1555 0050 1/29. (Connelly) Gabon 1554 still here-CH 1566 TUNISIA Sfax noted w/strong het but fadey carrier weakly modulated by male AA chanting through CKLM slop 0553 2/1. (Connelly) ITALY Genoa to fair/good peaks w/II talk and female vocal fighting fierce CKLM splatter 0520 1/31. (Connelly) 1575 PUERTO RICO WXRF Guayama very good, ID at 0600 1/6. Frequent mention of "quince-noventa" (15-90) instead of the name of the stn. (Objio) 1590 WEST GERMANY WDR Langenberg 1&c, exceptional signal w/man 1593 in GG, MoR vocal 0530-0534 1/26. (DeLorenzo) Fair in slop w/Muzak 0049 1/29. X1nt w/nx in GG 0304 1/29 o/feeble 1594 mystery het. (Connelly) UNID feeble het behind Langenberg; is this a straggler from 1594 the old TA frequency plan? Heard at 0304 1/29. I can't understand how any European still on 1594 could be heard outside its own backyard w/the 1593 master blaster as competition. (Connelly) DOMINICAN REPUBLIC R. Triunfo, Santo Domingo, moved here 1600 from 920 some time ago. No stn right now on 920 in the Dominican Republic. (Objio) GUATEMALA RAB 0343 1/17 with tone CW ID, very weak and 1612 only noted for a few minutes. Noth there at other checks. (Moman) HQ180A, SM2 Mark Connelly-Billerica, MA

NEW JERSEY NETS John Sterling, Mike DiTomasso 620 WVNJ-NJ Newark 1600WWRL-

1600WWRL-NY New York

NEW YORK KNICKERBOCKERS Marv Albert, Richie Guerin

1130 WNEW-NY New York WNEW will carry all home games, plus the 9

road games that are not televised in New York

City.

NBA PLAYOFFS The Mutual Network Stations will carry the final "best of seven" playoff series for the NBA Championship. Mutual will also cover eleven other NBA first-round, quaterfinal, and semifinal games. Consult your local station listings. The playoffs begin in April and continue

through late May or early June. NEXT YEAR There is some discussion in sports circles that next NBA season will start as much as a month later so as to not compete for air time with Baseball play-offs and the World Series. This could push

the 81-82 playoffs into July.
ONE LAST QUESTION??? Why is WNFL in GREEN BAY carrying Basketball?

5 ANTHONY STREET PROVINCETOWN, MA 02657

The opinions expressed in this column are those of the individual members, and do not necessarily reflect those of the editors, publishers or NRC.

BILL TOWNSHEND - 4500 Connecticut Avenue NW #901 - Washington, DC - 20008 I did some midday DXing there (in Bermuda) on Wednesday, bringing in several of the Big Apple (semi-local-yokels by DC standards) stations at high noon on the TRF, after a glass-bottom boat ride over the coral reefs. On the last night there, I had a pleasant visit at the home of MRCer CHARLES TAYLOR and his Filipina wife Leonor and kids. He even gave me a quick tour of the Naval Air Station at Kindley Field where he works, while picking up his wife (not WIFE-1310 Indy, hi) who works at an NCO club. I did the palm tree aerial trick again like I did in Tahiti, Samoa, and the Bahamas, this time with a Toshiba RP-1210F AM-FM rx, holding it up against the trunk of a cocoanut tree in the hotel's garden, bringing in WTOP-1500 on SSS with one of my favorite F's at mikeside, Jay Marie Morris anchoring the NX program (she used to work for WOL-1450). Temperature in DC was 18°F/-8°C while I was clad in shorts and T-shirt in Bermuda at 63°F/17°C (eat your hearts out, even in Florida, hi). The WX out in the Wobcrat Country was no better, milder but heavy rains (eat your hearts out in Aberdeen, WA (Venice, hi) BILL AND NANCY HARDY, hi). The KFI logging at the unearthly hour of 4am was a 3,000 mile catch over four time-zone changes (midnight in L.A.). I was lucky to bag this, nulling out the Cuban pest CMQ. Enough for now, so I'll go on SP. CLN 14 or 21. 73's and good DX de WPT.

LOOKING FOR PARAPHENALIA - RADIO & TV TYPE, THAT IS! MARK STRICKERT - 5900 North Washtenaw - Chicago, IL - 60659 1/31/81
Hello again. As I nervously await Groundhog Day (hi), DX has been kind of each for me. Totals have been stalled at around 550 since New Year's. Only news here of late is that WLS is in stereo...at least when simulcast on WLS-FM-94.7 from 7-11am & 8pm-Midnight, M-F. In Milwaukee, WEMP-1250 & FM WNUN are for sale. WEMP's sound quality here is attrocious. I think the signal was designed to sound great on a small portable two blocks from the XR but nowhere else; it seemed that way anyway when 1 was up there 1/27, visiting WEMP & FM, WAWA-1590 & FM, WMKE-1340 & FM, WOKY-920 & soon-to-be FM (WMIL-106.1 licensed to Waukasha), WZUU-1290 & FM, & WKTI-94.5 & AM (WTMJ, hi). All this in hoping to beef up my radio station paraphenalia collection; however, except for WEMP iron-ons it was strictly more (in some cases lots more) of what I already have. I'll send items from there, or from Chicago, Seattle, Eugene OR (as in Orygun), Vancouver or many other places upon request postage-free - all I ask is for similar items from AM, FM, or TV stations in your area, or from anywhere else even! Thanks, WAYNE MOSELEY, for nice package via "Oops", hi! Anyone I owe letters to, so sorry; it's not my fault - acute negligence is a family trait (maybe that's why many of my relatives have been involved in radio, hi). I very much enjoy "Mothball Memories" - I may even start sending some ineeventually. "BBCMS" is BBC Monitoring Service; monitors foreign broadcasts heard in Britain. Does anyone know about a WQPC Radio? All I know is that it existed long ago, & its building & XR tower is being used by the Illinois State Police District office on the Chicago-Norridge city lone.

LOOKING FOR REASONABLY-PRICED MECHANICAL FILTERS

WAYNE HEINEN - 427 East Caramillo Street - Colorado Springs, CO - 80907.2/1/81 I've been midlin' pleased with my mail man lately. V/1- KMJJ-1140 v/s is my old buddy from KCEE in Tucson, Joe Sands, CE, now doing it in Las Vegas. KJLT-970, KSKX-1440, KKIT-1340, KNMX-540, V/PP/c KDQQ-1150 (my fourth call from AlbuQQ on 1150 in five years...KDEF, KNWZ, KUFF & now KDQQ), KARM-1430. Total now is 882. There is nothing like a veri collection to look through to bring back memories of those great catches & those long mornings at the dials when fantastic openings come about. I have a v/q from Tirana-1396 from back in the late 60's in Buffalo. The morning I got them was a very good TA opening...which by a fantastic stroke of luck was the same AM that WYSK-1400, a sloppy pest, WAS OFF FOR THE ONE AM a year that they did their PoP. The right place at the right time. Many thanks and welcome to the NRC, BILL CROGAN, CE at KCEY-1390, also a former Colorado Springs resident. I am locking for a source of afford-able Mechanical Filters for my HQ-129X project; any help would be appreciated! While on the subject of RXes I hope a few NRCers get in on the Sony product review. If they time it the way it looks from their letter, the review will take place during a month in the middle of the Summer...great time to check out a BCB RX. With SSS getting near & a nice fire in the stove I think I'll warm up the RBB and the BC-453 and see if SSS has got any new ones to offer this first of February. 73 y best DX.

HARRISON'S GOT SOME TRF-FIC 1DEAS

HARRISON PIERCE REED III - 54½ Milton Avenue - Amsterdam, NY - 12010 Hello again, for yet one more Muse. 518-843-0150 I just want to stay in practice, hi! Here's one for the experts among you all: I have a problem: Does anyone know a transistor which will substitute directly for a 2SA15, which will have better gain, and especially LESS NOISE? How about for a 2SA12? One of my new TRF's has very good strong signal handling, and excellent selectivity, but a very high noise floor. Even semi-locals hiss like mad...and the ferrite loop is 8.75" long! My old pocket radio, with its 21 loop does better on quiet reception of weak signals! Otherwise, this particular TRF is a dream of a set, complete with an open-air three-gang condenser. Of course, being made by RCA in 1969 could explain its virtues, hi. So, if anyone can recommend transistor substitutes with significantly better noise/ gain specs than those listed above (especially the 2SA15), please write to me, or else Muse about it! Meanwhile, my 12-656 will never be the same; I have modified that poor thing all over the place! I have developed some audio improvements, a better ferrite loop (still internal), & an RF feedback scheme. The feedback, however, loses effectiveness toward 540 kc/s. and becomes potent - to almost unstable at 1600. More work is needed. As I have been highly successful with IF feed-back systems in the past (witness my success with the lowly pocket radio), I attempted it on the TRF's. The RCA went like a dream, with the feedback more efficient at 540 than 1600 (typical, I've discovered). The Radio Shack TRFs, however, do not respond. Somehow Radio Shack has stabilized the detector stage in such a way that I cannot seem to take a signal from there to feel back to the first IF. I'll find it, however...and when I do, you'll all hear about it, hi. WITH THE RF feedback peaking up the high end, and the IF feedback doing as well for the low end, I'll make a hot little radio out of the latest Radio Shack TRF yet! I am planning articles (if HQ will accept them) on my audio mods to the new TRF, as I believe them to be significant improvements over factory. One can actually get half way decent sound out of the little beast! If I can perfect the feedback business, I'll write an article on that too. And I am also preparing an article on tracking: a way to make those confounded oriental-type sealed-in-plastic tuning condensers perform with the accuracy of the open air ones - well, almost. Tracking has been a problem, & for those tired of constantly tweaking those trimmers for optimum on the frequency to which you are tuned at the moment, only to have to RE-tweak later (or else accept a compromise), this might be up your alley. Warning: patience & a delicate touch are required for this one! But l've done it successfully many times, & my article will show you how, step by fussy step. Now you can read something REALLY worthwhile in the next Muse on this page, hi. (Now watch ERC put this one at the bottom of the page: OK then, next page!) 73's!.

MORE ON SONY'S NEW S5W PORTABLE MARTIN M. WISHNEWITZ - 35-34 84th Street - Apt. D-10 - Jackson Heights, NY - Ladies and Gentlemen, after reading GERRY 2/2/8 THOMAS's article about the new Sony S5W AM-FM portable radio, 1 went a bought it at a store here in New York, the one he recommended. I wrote Gerry a letter describing the insides to him and received a letter back requesting more information about its performance. Well, here goes - On MM 2/2 from my Queens -ounty location in NYC, without the use of an outdoor antenna and on battery power the following stations came in: WWWE-1100, OF; WPEN-950 PA; CHML-900, Ont., WHAS-840 KY; CKLW-800 Windsor; WICC-600 CT. And surprisingly enough, R. Moscow's NX came in u/WICC-600. There were chines before 6am. Then a VID stating that it was Radio Moscow broadcasting on several SW frequencies. It was WEAR ENOUGH NOT TO HEAR ALL OF THE FREQUENCIES announced, but I guess it was the station in Cuba carrying it. These stations come in all the time at this location. Had I been up earlier and made use of the AC Adapter which was sold as a separate accessory, I may have received weaker and far distant stations. The batteries didn't last too long, about 40 hours. I will continue to use this radio and try to get the AC adapter so 1 can report again on its performance. The RF gain switch was in the ON position all the time. You can refer back to Gerry's article for a more detailed description he submitted a few issues back. If nothing else, it is a good portable to knock around with. 73s, and good DXing.

STAN DIGS OUT DX ON GROUNDHOG DAY

STAN MORSS - Route 3 - Bradford, MA - 01830

2:04am - WTVB, Coldwater, unn. WDNC-620 AN, 2:20. WLLH seems to be off MMs
now - WCAP is AN too & WYSL-1400 in today. PM, a good tape of WCIO-1060 5:54

for 6 s/off - no sign of CJRP & only a weak KYW. I have a tape of WCAS-740's

Fri. s/off 1/30 - TV report says they'll be off two months till new owner takes
over. WGOR-1520 has asked for WVOI, & WZIP-1050 to WSOI, so two more needed in
ellite 24 hours a day - all AMs are AN already except WHLO-640. (They're carrying L. King, Stan - I've heard 'em here occasionally -ERC)

LET'S SEE MORE MUSINGS, MEN! LADIES! OUR DEADLINE IS EVERY MONDAY IN PROVINCETOWN. PLEASE DOUBLE SFACE, AND PLEASE, NO PERSONAL COMMUNICATING IN A MUSING UNLESS IT IS TO ANSWER A QUERY ASKED BY A MEMBER PREVIOUSLY IN PRINT.

FITZHERBERT'S DX FITS NICELY

TONY FITZHERBERT - 116 Devon Road - Chalfont, PA - 18914 215-822-7242 1/31/81 Hi! DX here in the doldrums, but veries are back in the , last ten days from WUNR, CKPT, WCTC, WPTR (for 3/23/80 report), WACE, CKOT (inviting more reports!), WEEI, nice ltter from WAHT, CFRB, & WTAE. Thank you, KEN ONYSCHUK, for the letter and you too, ED MITKUS. I have only the DX-60 - and no tape recorder, having just got back into DX, so, I'm sorry I cannot do airchecks. Next step, a better receiver! In Philadelphia, WRCP is now Mutual net, & WFIL's xlnt AC format still lives! The new PD will keep it, no CWM! Due to lack of time, WLAM Capsule History will wait. To DX: 1/18-WACE/ WPIT-730 after many tries, also FFC CJRS-1510 for 20 minutes. Then on 1/23 two more FF stations! CJRC-1150 & CKSM-1220. The AM of 1/24 was good for WGET & WKTQ-1320, o/semi-local WKAP, and during SSS, tentative WYSL-1400 Buffalo w/preaching, WKCM-1140 w/KY Network NX, & WPRW-1460 atop the heap briefly w/ID. Also, on 1/25, WBNS-1460, w/Accu-WX, T-40, & an abrupt loss at 5:30pm due to pattern change. 1/26- Much-wanted WFIR-960 rolled in o/regular (but no verie yet!) CKWS. I thought I had a pirate on 940 on 1/26 when I tuned in a documentary entitled "Eegurgitation and Civilization", noting that the Arc de Triomph was built to "commemorate where Napoleon contacted the dry heaves", but 'twas CBM's "Variety Tonight" program! 1/28- Two goodies, CKPC-1380 w/c/w mx countdown, & WMEE-1380 w/T-40. I like the new Night Pattern Book, but where is my local #NPV-1440? They're U-4, night pattern is SE to protect WHHH WAJR & WFTQ, and they broadcast 6am to midnight seven days a week, power 500w.

VERY GOOD VERIE RETURNS TO REPORT KERMIT GEARY - R.D. 4 - Box 321 - Walnutport, PA - 18088 Jan. 31, 1981 The last two weeks of January were a bit less than exciting, DX-wise. The only two new catches were heard on 1/19: WKGM-940 @ 5:05-5:14pm s/off, folo by WBRG "Country Sunshine-1050" s/off \$ 5:15. Some unn stations were heard: 1/19- WLNG-1600 concluding a TT/ET @ 12:26am, & WSMA-1590 s/on w/ vocal SSB @ 5:58am. WOKX-1590 s/on two minutes later @ 6, but too much QRM for a report. Recent attention has centered on a nice verie response, as follows: Letters from WEYZ-1450-TEST, WJES-1190, WCRT-1260, R. Columbia-1525 (Turialba), EAJ23-1584 (R. Gandia), WDLW-1330, & WKYO-1360 (the last two on f/ ups); letters + CMs from WLMD-900 & WKGM-940; & a v/f from WCSM-1350 DX TEST, thanks, BRAD LOVETT for the added note). R. Columbia-1525 still claims that they are on 1520, but have never been there to my knowledge. Now a few words re R. Gandia: 1584 kHz was dominated last year by EAJ51 (R. Manresa), & their verie (reported in Musings), specifying a power of 5,000w proved them to be a giant among 2,000w pygmies. It was reported by IRCA in the 11/22/80 DX Monitor (via Arctic Radio Club) that EAJ51 has since moved to 1521 kHz. On 12/1, fantastic signals from Spain on 1584 @ 12:57-1:45am showed that the picture had indeed changed. Two new stations, EAJ6 (R. Requete) and EAJ23 (R. Gandia) were identified as jockeying for top spot, w/an unID third in the background. The EAJ23 verie says in part: (translation) "Your data of the programming on the morning of Dec. ist agrees fully." EAJ6, the better logging of the two, has not yet replied. TONY FITZHERBERT: Since there is no Quinn County in PA, I guess that WQIN stands for QUINN Broadcasting, Inc., owned by a Mr. Quinn. Onward to February, and good DX to all!

A PLUG FOR IRCA'S ALMANAC GREG MONTI - 1110 Fidler Lane #1424 - Silver Spring, MD - 20910 2/1/81 ''''' I've seen a couple of requests here in Musings for a list of stations that carry the Larry King Show. Well, (plug-plug), the new IRCA Almanac is out now (from IRCA Goodie Factory, Box 17088, Seattle, WA - 98107); I've already forgotten the price, but it's around \$5.00.) Sure enough, on P. 83 of the Almanac, there's what appears to be a complete Larry King list (it has about 200 stations on it). Perfect for an AN DX session. In addition, the Almanac lists all sorts of other networks, sunrise & sunset times, utility stations, articles on BCB DXing, & lots more. We had another meeting of the Washington Area DXers Association on 1/24 in Bethesda, MD. Dunno what happened, but all the SWers there outnumbered the BCBers! However, I met even more DXers and a good time was had by all. TOM WHITE even drove up all the way from Charlottesville. It was good to talk to him again about 9 kHz, stereo, nighttime allocations. & all sorts of other BCB talk. I brought lots of MW bulletins with me including some DX NEWSes, so maybe we can get some of those SWers to come over to real DX, hi! Speaking of real DX, we're having a heatwave here today and the UHF trops are already coming in! 73.

GEORGE WALTON - 314 High Street - Easton, PA - 18042 Feb. 2, 1981
Hello everyone. DX here has been fairly poor as CX and time have been the main culprit. My sunset sessions seem to be the same thing over & over. Nothing new so I guess sunrise will be next. Since the last time I Mused I've only logged seven new ones. On 1/2 WNAB-1450 in Bridgeport, CT surfaced for a short time. Shortly after that while sitting on 1310 another new one from NJ surfaced. This one WJLK in Asbury Park. Sunset on 1/9 provided one new catch. That was WUST-1120 w/GOS mx & a screaming minister from Washington, DC. On the morning of 1/12 I got up too early so I turned on the

(19

(George Walton, con'd.) the radio and it paid off as WKND was in very well on 1480 from Windsor, CT. Then on the evening of 1/31 another new station was logged on 1450. This one was WKXL in Concord, NH. On the morning of 2/1 two new stations were heard. They were KVOO-1170 in the silent period of WWVA. Also KFAB-1110 was heard while WBT was off. Totals now are 544 total heard. To DAVE QUINLAN in Roseland, NJ, I'm pretty sure you are the one who called in to WKBA on their test recently. I have the entire test on tape including your phone call so if you would like a copy just send me a tape. I hope to see everyone in New Jersey. Adios.

RAY'S WEEK OF VACATION NETS HIM MUCHO DX

RAY ARRUDA - 47 Burt Street - Acushnet, MA - 02743 A number of reports have been sent out the last week of January with everything appearing in DDXD. One verie is back, from WCSM-1350-TEST, thanks for the code, BRAD LOVETT! Reviewing some of the highlights of what's been heard...Wed. AM 1/28: WKBW-1520 noted leaving the dr @ 1:19 w/KOMA heard right after w/ID, WX, & c/w mx. WKBW was back by 3. WYNZ-970 Portland, ME (ex-WCSH) first day on new calls and plans to go to that MYL format from current T-40. Thurs. AM 1/29: WLAN-1390 finally good enough for a report, noted 3:06-3:40 u/WFBL/WEAM w/WLAN All-Night Club w/Ken Vincent. A bit later CBZ-970 was in at armchair level 4:28-4:45 w/O Canada and complete detailed s/on with listing of LPRTs and all folo by Soundings, Marine Fisheries Program with Mac Campbell. Fri. AM 1/30: WBEN-930 was off, leaving WPAT/CFBC, & WLKW-990 was running ET/OC, w/repeated IDs & short periods of FM audio 12:56-1:03. Still Friday, at SSS: WVLV-940 4:45-4:55 weak w/"AM-94" IDs, c/w mx, WX, u/CBM /WFNC. Over to 1000, a frequency I've spent quite a few hours at lately - to find a nice surprise in WRAR-VA 4:57-5:03 with local Nx & IDs w/Rick Morgan, then ABC NX @ 5. CBEF-540 was weak, but clear 5:22-5:36 w/NX in FF, two good IDs @ 5:30, then instrumental mx. Sat. AM 1/31: WINS-1010 noted leaving the air @ 1 w/SSB, leaving CFRB/KLRA. Report taken later that morning on CFGM-1320 1:38-1:54 w/c/w mx, IDs, spots. MM 2/2: WKLF-980-TEST tried but not heard. WPTR-1540 noted off leaving a very strong KXEL. Reports taken on two nearby stations in Connecticut this morning...WINF-1230 & WillI-1400. Highlight was WTVB-1590 Coldwater, MI 1:57-2:17 on ET/TT o/WAKR/WJSO w/ID 2:13. Our North East Network once again aided in RON MUSCO, ERNIE COOPER & myself in getting WTVB, as well as WLQB a few weeks back. Veries should pick up, as 18 recorts have been sent out in 12 days. 73.

CRAIG HAS VERIFIED ALL THE WHJJ-920 TEST REPORTS

CRAIG HEALY - Box 182 - Cumberland, RI - 02864 Now that the BHJJ TEST is a month past, I guess it's time for a report. Fifteen responses, as far West as Wisconsin and as far South as Florida. Short skip CX prevailed as all reports within 400 miles mentioned excellent signal strength. Reports outside that radius showed much weaker signals. This is, after all, a bad year in the sunspot cycle. All reports have been answered for a while now. If you reported and got no answer, write again. This time send it directly to my P.O. Box address. There seemed to be some confusion on how to use the 5,000 Hz tones. All you do is tune to 915 or 925 with a narrow (2 kHz or less) bandpass and the BFO on. with careful tuning the letters should show right up if CA are OK. The people who did get it were enthusiastic about the format. This is one way we can fight the NoP blitz, even if it means supplying the station with the tape. Many engineers are reluctant to put a "stupid-sounding" program on the air, even for a test late at night. Christmas music in January or February is great for a TEST, but a manager or worse yet, an advertiser, would question the engineer's sanity if it were heard. Most home & car radios don't pass 5 kHz too well, so all that would be heard is the lower tone CID and ViD. If I still am at WHJJ next Fall I'll try to do a TEST in mid-October when CX might be better. A late Spring TEST from WHIM-1110 is possible. If one is run, I'll use a similar format as the WHJJ TEST. Thanks to all who reported, and those who tried. Regards to all. (Craig, with WBT off SMs, a Sunday'd be the day for best results! -ERC)

MORRIS IS SETTLED IN AT AMARANTH & DXING MORRIS SORENSEN - General Delivery- Amaranth, MB - ROH OBO Feb. 2, 1981 First of all some corrections re previous Musings. In my Winnipeg bandscan in the 1/5 DY NEWS I left out an obvious semi-local, CKDM-730 which should have a ratin of 4. In my 1/12 Eusing the sport I mentioned was snoeshoeing, not snowmobiling, which I don't even consider to be a sport. ERNIE mis-read my handwriting, no doubt. I've finally got around to doing a little DX here in Amaranth. Some recent loggings are as follows: 1/29: KFH-1330 @ 10:35pm; WHBF-1270 € 10:37; KLMS-1480 € 10:42; KCOL-1410 € 10:53, KLAK-1600 @ 10:57, KVGB-1590 @ 10:58; KKJO-1550 11:22; WDAF-610 @ 11:25; WIND-560 @ 11:30, WHB-710 @ 11:36 &KGNO-1370 @ 11:59pm. 1/30: WONE-980 @ 12:05am; WEBR-970 12:06, WMT-600 & 12:08, KOTA-1380 12:12; KCRG-1600 12:17, WTSO-1070 12:18, KGLO-1300 @ 12:59, KOSI-1430 @ 1, KWSL-1470 1:02, CFAC-960 @ 1:05, CHYR-730 a real surprise after local CKDM s/off @ 1:06; XEX-730 topping CHYR \$ 1:13am. I don't have all my old logs here yet but to the best of my knowledge, KCOL-1410 & CHYR-730 were new ones for me at any DX location. 73.

JANUARY BRINGS GOOD DX TO RICH

RICH LEVIN - 7311 Cross Creek Boulevard - Louisville, KY - 40228 502-239-5693 Once again, a whole lot of DX to report, so here goes. 1/14: KNOE-540 @ 6:06pm alone w/Ae SX, local NX. KWT0-560 @ 6:11 weak u/WHBQ w/Wx, c/w mx. WFAA-570 @ 6:23 weak u/WAAX w/NX. KSKY-660 @ 6:29 w/REL program, leaving only KBOX-1490 to complete Dallas. KKDA-730 @ 6:38 w/pop mx, s/off. 1/18: KFMJ-1050 @ 6:17pm w/REL mx, "New KGMJ" ID. 1/19: KFDF-1580 @ 6:29pm s/ off. 1/21: WZYX-1440 @ 5:21pm w/local NX. KHMO-1070 @ 5:56 w/Mickey Gilley, SX. KWOC-930 @ 6:10 w/c/w mx, WX. KSUD-730 @ 6:15 w/s/off, no SSB. 1722: WPDX-750 @ 4:58pm weak in WSB null w/c/w, NX. KGBX-1260 @ 5:23 w/pop mx, ad for BKB tournament. KTIA-1540 @ 6:43 ending SS programming. 1/24: WQXI-790 @ 6:02 good in a great null on local NSP WAKY w/pop mx, ID. KQYX-1560 @ 6:15 w/ WX, pop mx. WCRA-1090 on 1/27 @ 6:02pm o/KAAY at s/off. CKSB-1050 also on 1/27 w/EZL, ID & 10:30pm, Long-awaited station #500 came on 1/30 w/KWMT-540 @ 5:25pm w/Howard Cossell, local SX (figures, doesn't it, hi). Also on 1/30, WM00-1550 @ 6:03 w/NX & WBIG-1470 w/poster contest ad @ 6:53pm. 1/31: KONO-860 @ 6:38 w/newspaper carrier ad, ID. WTNT-1270 @ 7:33pm w/CBS SX, c/w. R. Barbados-900 @ 7:46, strong w/ID. R. Nacional de El Salvador-655 @ 8:43 strong w/ID. 2/1: WPAQ-740 @ 5:57 w/EZL, s/off w/no SSB. WISN-1130 @ 6:13 strong in KWKH null w/ID, Blondie. WGUN-1010 @ 6:15 very weak w/s/off, much wanted. 2/2: WDSM-710 @ 4:27 w/c/w, NX, WX, SX, ID. QBAL-1090 @ 5:03 w/NX, frequent IDs. WGNY-1220 @ 5:12 w/unbelievable signal w/commentary, NX, Barry Manilow. KBUF-1050 € 6:32 strong w/NX, WX, rr. Others include KALB-580, WTIS-1110, KBYE-890, KBXM-1540, WYNX-1550, KFAL-900, WHGI-1050, KOKA-1550, WMTS-810, WEW-770, WROM-710, WSAO-1550, KQV-1410, WVOL-1470, WSJC-820. January was a good month, with 72 new loggings. Combinging that and ten more on 2/1 & 2/2, my total advances to 518. Verie requests out to KNBR-680 (post office didn't take the first one), KWMT-540, WDSM-710, WBAL-1090, WGNY-1220. Veries back from KNX-1070, WGSO-1280, WPGC-1580, WPTR-1540. The CX in Manuary seemed pretty good, but it got a little noisy near the end of the month and the beginning of this month, but willpower is stronger than static, hi. Good DX to all, and to all a good night. 73's.

WYNE-1150 IS NOW FLOWING NIGHT & DAY

DAN LESTER - 1219 Highway 55 - Seymour, WI - 54165 Greetings everyone; just a short note to inform DXers in the North-Eastern states and Eastern provinces, that there has been a change made radio-wise in the Fox River Valley. Local WYNE-1150, has gone from D-3 lkw to U-3/5kw directional to the NE, using a five-tower, & wave, in-line array. With a CWM format, they ID as "WYNE Kimberley", for political reasons. Their studios are still located West of Highway 41 in Neenah and the towers, East of 41 in Neenah. From my Seymour listening post, they're the strongest thing on the daytime dial, and at night rival the clears on 1140 & 1160 with splatter. This change took place on Dec. 19th & I sarcastically refer to it as my Christmas present, being the only real pest within 50 miles of here which does not reduce power at night to a level at-or-below the "DX Threshold." 1 can only hope that, locally, this sort of "improvement" will be the exception rather than the norm. In the past WNAM Neenah was about the most bodacious local on the band, and on a good night they could be lost u/CJJD from here. I guess I've been spoiled long enough. A call to J. Edwards, PD, revealed a silent period the first MM of the month from midnight to 4:30am ELT. That's it from Seymour more as I hear more.

TWILIGET TIME IS DX TIME IN MILLVILLE

STEVEN PARADIES - 18 Cornwall Avenue - Millville, NJ - 08332 I've been inactive and missing from these pages for too long. Firstly, I got myself a part-time job at the local bookstore here so many SSS sessions are out (hours for me are usually 4:30-9:45). The band has been a little noisy lately so not much heard these last two weeks, but mucho heard before the15th. Here is a sampling, all at SSS: 12/1- WGOE-1590 in good w/ Go-16" IDs @ 4:42. 12/4- WKLV (tentative) @ 4:52 and WNPV-1440 @ 4:53 w/mentions of 6am to 12 midnight. 12/6- WSOC-930 w/Mutual FB broadcast @ 4:59, WGTO-540 & WGBS-710 u/WOR between 5 & 5:14. Christmas Eve: WNCT-1070. WUST-1120. WHPY-1590, appeared between 4:40 & 4:52. Christmas Day brought a new tape recorder (to two others) and WJJD-1160, WTMA-1250 w/mx, ID € 4:30. 12/29- WGST-920 at 3: 59am, then the WHJJ TEST. Thanks to CRAIG HEALY for an excellent TEST. DX up to the end of January next time. Veries in include: WQTW, WKBA, WEYY, WVKO, WANB, WLIJ, WHJJ-TEST, WXRS, & WYAL. WKBA's, WEYY's, WVKO's, & WYAL's were just my letter returned w/an "OK" stamped on it. Oh well, it's better than no verie at all. Before I leave, a question (or rather, an explanation): For the last few nights, I've been getting a mix of Spanish, French, German and the VOA on both my FM and AM. The really weird part is the only time I hear it is with the volume all the way down and my ears right to the speaker. It comes in at any frequency and I get the same sentence even if I switch from the FM button to the AM one. Could someone out there explain? 73's and 94's.

REMEMBER, WE NEED MORE MUSERS. SURELY YOU CAN SEE THIS! ALL IT COSTS YOU IS A 15¢ STAMP! AND YOU MAY SEND IN MORE THAN ONE IN ONE ENVELOPE, TOO! WE WANT TO HEAR FROM MORE OF YOU. THE SEASON IS SOON GOING TO WIND DOWN - MUSE N-O-W-!

809-293-1435

BOB FOXWORTH - GPO - Box A-866 - New York, NY - 10116 (mailed) 2/4/81 AL QUAGLIERI raises an interesting (received 2/7/81) point on P. 33 of the 2/2 DX NEWS, regarding information from FBIS. The job of FBIS is to monitor broadcasts from stations in various areas of the world, for their news & information content. They reproduce the text of important broadcasts in written form in a booklet that is produced on a daily basis. This material is sold to newspapers, news agencies, other governments etc. Al asks why we are not privy to this information, but I doubt he would seriously want to know that Rdif. Voltaique announced last week that an extra two million hectares of land were taken out of wheat production due to drought conditions. FBIS decided some time back that, with reportedly only two men available, they could not realistically keep up with the job of updating logs of radio stations & that such books as the WRTH did a better job of it. The FBIS logs actually were not that great as far as accuracy goes. The last set 1 ever got, the 25th edition, still had ZIZ St. Kitts still on 570 well over a year after the NRC was regularly reporting them on 555. So, the problem of keeping the logs current, what with them being a means to an end (ability to reliably monitor stations) & not an end to itself, apparently made it obvious that no log was better than getting criticized for a bad log. I can't blame them at all. The BBCMS (ERC, that's BBC Monitoring Service - which is similar to FBIS) does publish periodic information on station movements etc. but no full-length logs. To MARK CONNELLY - Now that you can PFM everything in sight, how about finding out if Morocco is on 1196 or 1197, hi. I still want to know who that was at 6am s/on with an unfamiliar anthem, or does Portugal s/on with an unfamiliar anthem, or what is going on here on 1196? Congrats to LINDA BRODSKY for independently (of me, hi) hearing WSJU-685 St. John's U. in Jamaica, NY. I called them when they were being heard here and they told me they were running about 5w to a wire on the roof of their building. I haven't heard them for weeks now & guess they went back to a wired distribution system. I did get them on tape; they seemed reluctant to verify & I might visit them in person, armed with my cassette of them, to pry loose a verie. One report out (on MW) this year, and no answer - a letter in FF & tape to CKBM-1490 for Christmas AM reception, loud here. All I send to for QSL's are European SW pirates now. Too many BCB stations don't answer. 73.

EVAN IS PLEASED WITH THE NRC FOLK

EVAN RUDOWSKI - 257-43 149th Road - Rosedale, NY - 11422 Feb. 4, 1981 Hi everybody! I hope that you've DXed more than I have. My one night in the past two weeks was the same that my mother chose to do the wash, so on a night like that I was lucky to get WABC through all that QRM. Too bad the dryer is "broken" tonight (the plug will go back in tomorrow), but that's the breaks. Anyway, thanks to PAUL MOUNT for his card. 1 appreciate his offer of a ride, but hopefully 1 can get someone closer so 1 won't have to ask him to inconvenience himself. Since joining the NRC in November I've felt more and more at home and it's nice to see the good people who belong. Speaking of which, there must be a lot of good people whom we don't know about because they haven't contributed. You must have something you could say out there - send in a Musing or an article - it feels good to be able to contribute to your Club and communicate with other people who share the same interest. As for my previously mentioned MYL list, Al Ham was very prompt and cooperative & the list is in the hands of the USPS or the LPC. Surprisingly, MYL doesn't seem to be the wave of the future, with only 42 stations as of 3/1/81. But of course we have "Sounds of Your Life", "Music to Remember", etc. which are really the same. Well, until next time, 73's, and to any local DXers - please feel free to call or write - 212-528-9029 after 4:30pm.

WITS-1510 IS NOW USING ITS WALTEAM XR SITE JEFF LOCKWOOD - 77 Pond Avenue - Apt. C-1503 - Brookline, MA - 02146 2/5/81 An update is in order - I'm at the above address for the next few months while working at Badger America, Inc. in Cambridge. (What do you do, Jeff - raise 'em? -ERC) Mail can be sent to either address since I will be in Tampa about one weekend a month and mail received there will be forwarded here. Not too much DX lately, except for CBT-540 and CHRL-910 at 8pm 1/17. WEZE-1260 here gets ORM from ClHI's rr during their evening talk programs, not a very desirable background mx for religious programming, hi. WITS is received well here now that the XR is in Waltham (but still running 5kw). Seems like an apartment complex helped obliterate their signal at their previous location near Quincy. Some notes of interest: I am planning to compile a list of Southeastern Conference FB networks - if anyone knows the flagship stations for the following schools, please notify me: Alabama, Mississippi, Kentucky, Tennessee, & Miss. State. Suggestion for IDing a DX catch (or at least narrowing the possibilities down): Consult a Standard & Poor's reference to locate regional advertisers (the number of stores and location of the chain are given). I haven't tried this yet, but it could be helpful now that calls need only be given on the hour and any means of IDing via commercials will prove indispensible in the face of deregulation. A trip to the WC is planned later this year, probably in late May. Hopefully I'll have some "inspired" DX next time. from the Hub of the NRC (sorry, Lou-ah-vul!)

(FPO New York, NY - 09560) ************ Greetings from Bermuda. It looks as though we're not moving out of our present apartment in Smith's Parish, after all. Inability to locate an acceptable replacement is the reason. The problem with our landlord/landlady's son running his lokw stereo wide open (directionalizing to our bedroom at sunset) is cured. The landlord was most helpful, although his son's not too happy with the power reduction. A repaired SM-2 clears up most of our noise problems, except for that $\# @ \psi / X + \& "(-)?$ light dimmer upstairs. But that's on only briefly, as I think the landlord/ladysuspect that they're wrecking my reception when they turn it on (I can even hear it on my recorder!) Anyway, our local address remains Hadruth House, Harrington Hundreds Road, Smith's 3-28 (write to the above address, though). I've been having the most fun in years taping IDs. The fairly recent acquisition of a cassette recorder has made dubbing possible. I never retained recorded Din the past here in Bermuda, but recorded over after reviewing tape. I did record a very few IDs in Indianapolis; only the best. Where have I been for 20 years of DX? Don't nobody answer that!! I got a visit from Washington DC's very own WiPT mobile VP9, better known as BILL TOWNSHEND. Bill was so ingracious as to hear KPI-640 on his TRF without me having heard it. Anyway, we swapped lies (we bullshot), looked at each other's logs, DXed, and stuffed a pizza and cake down his (willing) gullet. All in all, I was glad that he came down. IF YOU ARE PLANNING A TRIP TO BERMUDA, CALL OR WRITE THE ABOVE PHONE/ADDRESS so that we can get together! That's an order! Last week, I became fully aware that I'm

suffering from horizon blockage to the South, due to Knapton Hill. WLUZ-1600,

WRAI-1520, to cite two, are barely audible on the SM-2 o/WWRL & WKBW (respect-

ively) at home, under best CX, but swamp both channels at LSS at seaside (An-

tilles-1450 is another example). Equipment: Drake SPR-4, Worcester SM-2, Mat-

sushita (Panasonic) RQ-500 reel-to-reel recorder, 100° LW, modified TRF. Added:

HIS TOWN GETS A NEW ONE ON 1290 KHZ

Matsushita RQ-548S cassette/AM/FM set. 73 de C-A-T.

WHEELER CONOVER - RR #8 - Box 344B - Manchester, KY - 40962 606-598-5763 Well, it's February already! Time for a Muse, but I don't have any DX at all! Mainly, it's more on my 2/2 Muse, other comments, & talk on school. I stuck my foot in my mouth when I said that there were three 15year-old sophomores from Kentucky in the NRC - well, TONY SHORT in Lexington makes four! (Right, Wheels - don't sell Tony short; -ERC) Now for the other comments. PAUL MOUNT, that application for 1290 in Manchester CT, should be MY Manchester. I don't see how Connecticut can come out of Kentucky, hi. By the way, they got their CP. As for FBIS, I believe that I can get info from them via a friend of mine who I think works for the FBIS. He sent me some important-looking SW news that had to be FBIS, so l'll look in on that. If anyone hasn't told you, ERNIE, BBCMS is the BBC Monitoring Service, where if you hear of a story being monitored out of London, they heard it. WRTH assistant editor Andy Sennitt used to work as a monitor for them. Now, on to school. We started on research, & I picked up a fitting subject -- radio. We got our teacher down to a minimum of 1200 words to 1000, after the librarian covinced her 1200. She came by last Thursday, saw a picture of FDR, and said, "Good ole FDR", and walked off. She's like that. Any mention of politics will get her started talking and keep her off of English. Oh well, hi. I got two 99s, two 96s, & a 90 on my report card for the semester, but I started this semester in geometry with a 60 on ten simple problems. I do better on hard things and test papers than I do easy ones, so I'm convinced that if I build an NRC Loop, I will do a better job than if I built a simple loop. I think I will, too. I am just about gone, but to PETE NOLAN, if you want the SxN, (???-ERC) I need some info on margins & stuff like that right away! Your 53# is coming, too. I am changing times on when to call - 5:30-10pm ELT Mon-Thurs., 12-8pm Sun., 5-9pm Fri. & 4-10pm Saturdays. Hoping we get out tomorrow, 73s de Wheels.

WHLO-640 HAS APPLIED FOR A POWER INCREASE TIM DAVISSON - Box 255 - Cuyahoga Falls, OH - 44222 I'm an aircheck swapper - anybody interested please write. Local WHLO-640 now carries L. King. The show had been on WAKR-1590, who is now back to mx AN. WHLO has applied for 10/1kw U-4 (powers are confirmed, separate patterns rumored) WCUE-1150 Cuyahoga Falls, the Akron-area station nobody ever hears (hi!) is about to go semi-automated & will change formats to "contemporary BFL mx" w/lots of Sinatra, Ray Conniff, etc. cover sersions of current T-40 hits. Yeech, hil Format change 3/1 or thereabouts. WCUE is among the never-ending list of rockers who eitherwouldn't or couldn't change with the times & have died at the hands of FMs, i.e. WMMS Cleveland is far & away the #1 rocker in the AKRON ratnands of ris, i.e. while claves a series of the series of WGTO...both weak & alone on their frequencies. 2/3- I finally logged semi-local WOBL-1320 Oberlin, OH. I'm in a WOBL null, & WSLR's 150% modulation splatter hurts me. Oh, WWWE-1100 OH was off again MM 2/2. 73's.

EASTERN CLEARS ARE HITTING THE WEST COAST

ALPHONSE B. TOBIA - 7603 Linden Court - Newark, CA - 94560 2/3/81 Hello Musers. Well I thought it was time to bring up some things that I have noted on the dial recently out here. First of all I'm hearing Larry King (occasionally) on KOA-850 in Denver??? Also a few MMs ago I am sure I heard an ID from WGTO-540 in Fla. but it wasn't positive enough to say 'Yes, I heard it.' Oh well, it would have been great. I've tried a few times recently but no luck. As others have reported in DX NEWS KXA is noticable in KOB's null out here...too bad they weren't louder...I like their format...beats KOB's (Everybody's doing it) c/w format!! Other stuff: There are still a fww stations that you can count on for an SP: KCBS-740 SM, & KMJ-580, KOMO-1000, KYA-1260, KFMB-760, KTRB-860 & KRLA-1110 are always noted off on MM starting around 4am EST. There are others I'm sure but these stations and frequencies are good choices due to their always SP. Also noted off recently each night is KDWN-720, maybe getting ready for their 50kw nighttime change (they're now 10kw nights). It also seems that KCRL-780 is no longer AN The most recent DX NEWS was a great issue (Vol. 48 #15) thanks to all who made it possible. I'm still enjoying that 1929 Radex station list... Thanks!! As many have seen in DX NEWS, KXRX-1500 may be going 50kw day. The EC clears have been in loud this season. WCBS was really in good last night, & as in the past WJR & WBBM have been poking thru the West Coast stations on those frequencles - KFMB & KCRL. KDIA-1310 in Oakland is carrying this all-sports talk show one night a week (MM). I would like to hear from a Northwest member who can tell me how KXA is sounding in Washington or Oregon o/KOB. Also how strong is KOB in that area? If I recall correctly BILL HARDY talked about it in DX NEWS a while back...anyone else up there??? Well, this is getting long but before I go if you don't know by now ... KSAN-FM in San Francisco (the once famous underground rock FM pioneer) is now...brace yourself...c/w!! Booo. 73s.

CLEAR CHANNEL STATIONS ARE GETTING BORING CHARLES GEORGE - 6407 Howard - Dallas, TX - 75227 I have heard the DX segments by EARL HIGGINS several times on HCJB. I have enjoyed Earl's MW DX reports; they were a major factor in my re-joining the NRC. I have noticed that WNOE has now gone c/w. I heard that they would while visiting New Orleans from the newspaper, but I had hoped it was just a rumor. The Clear Channel stations are starting to become boring with solid wall-to-wall c/w, big band mx, and talk formats (especially with Larry King). At least WLAC originates their own talk show instead of using Larry King. Since I enjoy folk music and progressive jazz, I enjoy it a lot when I can get stations with that type of programming like many of the foreign stationa play. I often find myself listening to XEEP-1060, Mexico City when the atmosphere is good enough to bring it to my listening post. I have tried to hear WJJD, since reading that they were going full time, but so far 1 have only been able to receive KSL & a Cuban. 1 get WJJD best around LSS. Because of my interest in DXing I recently started stamp collecting. I am still a novice at stamp collecting so I would be interested in trading duplicate stamps with other DXers. I have two boxes of various Colombian stamps to trade. What is the current policy on counting stations such as say KMZK, now full time Spanish, KTIA. 73's.

MEMORIES CHAPTER CLXIV - "THE LARGEST AM STATION IN THE SMALLEST STATE" - by PETER HUNN Some of my favorite radio stories are those which have been relayed to me via some long-forgotten source. The following first few paragraphs consist of such an account. During the last portion of the competitive 1950's, executive officials in the tiny state of Rhode Island were made aware of the fact that (although Connecticut and Massachusetts boasted giant AM outlets) "Little Rhody" had no 50,000w AW station. Soon that "We should have a super power radio station too" desire filtered down into the private sector & a frequency search was under way. As you can well imagine, anyone who was seeking a 50kw opening in an area not very remote from large population centers like Boston or New York City, had a difficult task. "Well, if we go very directional, shooting some signal out to sea, we might try this frequency at 50,000 watts daytime-only," an engineer assigned to the project may have said. A few weeks later, an application for 990 kc/s., 50kw DA-D, was in the mail & heading toward our nation's capital. A CP was granted, and (According to the 1963 Broadcasting Yearbook) Radio Rhode Island, Inc. opened the new 50,000w daytimer on April 12, 1961. Naturally, a station founded as a result of a longing for full power AM broadcasting would take pride in noting such transmitter punch in their call letter selection! So, the permittee of the new 50 kw station chose W L (L for the Roman number denoting 50) KW for Kilowatt). WLKW's studios were in the Loew's Theatre building in downtown Providence. The station employed radio personalities to handle the "MoR" programming. Some years later, after acquiring the 101.5 mHz FM dial position from the old Concert Network's WXCN, Providence, WLKW and the new addition WLKW-FM were beaming a beautiful music format to Rhode Island and Southeastern Mass. The WLKW stations grew in popularity, and by the mid-1970's, WLKW's competitors WPRO-FM and WPJB (FM) had dropped their EZL fare in favor of Top 40. WLKW utilized a clever billboard promotion which urged "pop-weary" radio listeners to "un-rock" with 990 AM/101 FM. Today, the largest AM in the smallest state enjoys top ratings in the Providence-Pawtucket-Warwick ARB Surveys.

HANK HAS A DX CHASE IN CHEVY CHASE HANK HOLBROOK - 7211 Chestnut Street - Chevy Chase, ND - 20015 Feb. 6, 1 In my last Musing we left with the logging of WSBY-960, MD, Feb. 6, 1981 heard on the 17th of January, which turned out to be the best BCB DXing month quantitywise since December of 1972 when I also logged & reported 28 BCB sta-So with this Musing we'll finish up January '81. On the 20th, WBDY-1190 VA o/WOWO 5:21-5:29pm EST. Verie back says the power is now at 6.4kw during a test period and then on to 10kw. Then on the 22nd WPLW PA 'plowed' in on 1590 @ 5:59am s/on and soon list when others signed on @ 6. I went South on the 23rd and logged my first Colombian in years with HJCY on 810 fighting it out w/WGY, 9:55 to 10:15pm. I have 29 QSLed in Colombia, all heard years ago. The 25th brought in CFLP-1000 Que. all in FF with nice signal from 6:05 to 6:45pm. Then early the next morning I noted CKPT-1420 Ont. W/WHK QRM & WBSM a poor third. This was from 2:04 to 2:30am. Also on the 26th I added the DX TEST from WPIC-790 PA crom 3:06 to 3:30am. Thanks for the code ID's! It barely made it. That evening I noted WNIS-1350 VA 9:21 to 9:38pm thru WSLR. WNIS seldom makes it up this way. On the 28th I noted WYZD NC at 7:15am s/on and held them for about a minute until they were clobbered. A very pleasant surprise on the 30th (in fact several pleasant surprises!!) starting with WMRF-1490 for some reason breaking atop that crowded channel from 5:08 to 5:15pm when I lost them. QSL letter slready back. Then more Canadians with GJEK-1290 Ont. 9:21-9:40pm fighting w/WH10 and then plenty of news from CKO-1470 Que. 10:28-10:38pm when lost in QRM and then early on the 30th I noted CJVA with an unbelievable signal in French from NB riding over WGY from 5:32 to 6:12am. Then into February but I will hold these till next time. Underlined above have verified. Other veries in since my last report (all letters): WSSA-2570 GA, R. Paradise-825 50kw; WBTS-1480 Ala. lkw; WKXQ -1600 1kw; and WPAD-1560 KY 1kw. All band veries at 11,134 now with 2,440 on BCB in 101 countries. List of verie signers in enclosed. More later! 73.

SIDNEY'S HAVING A FINE VACATION RADIO-SIDE

SIDNEY E. MARSHALL - 7224 Pam Drive - Millinton, TN - 38053 Feb. 2, 1981 Happy Ground Hog Day! Depending on which groundhog you go by it's a toss-up as to if Spring is just around the corner! I've really enjoyed the first week of my two week mid-Winter vacation with plenty of time at the dials! With some nice openings in all directions I've heard many stations that have been absent from my shack since I logged them for the first time over a year ago! l've also spent many enjoyable hours catching up on reading several good radio-related books. Four new stations were logged during the past week bringing my station total to 880 heard. Newies are as follows: On the morning of 1/26 at 6:20am, WKXV-900 Tenn. was in w/ID and station promo before being covered by an SS section. Nothing else until the evening of 1/29 when KTXJ-1350, TX, was in for a few minutes @ 6:18pm w/ID, spot that mentioned Jasper Mall, mx. & WX. On 1/30 @ 8:34am I finally logged much-wanted KBHS-590 Ark. who broke out over the splatter of semi-local WREC-600 with spot for truck dealer in Hot Springs, spot for weight watchers' outfit, temperature, ID & into local NX. Only three more Arkansas stations to go & I'll have 100% of them from this state until a new one goes on the air! Then on 2/1 3 8:36em KTOC-920 LA surfaced o/KARN w/announcement "The following is a community affairs presentation of KTOC", then gone. AL QUAGLIERI's Muse in Vol. 48, No. 15 DX NEWS expressed my feelings as to the logging of KTUC-1400, AZ. by one of our members in New England. I have now noted that this member reports that it was WFBL-1390, NY, he heard & not KTUC. This same member has also reported hearing CKBR-1340, Brooks, AB, which also seems like an extremely unlikely catch on this frequency at his New England location. As Al expressed his views on this subject, which track right with mine, I have nothing further to add. So, I too now feel better! Till next time, good DXing to all.

AURORA'S IN THE AIR ERNEST R. COOPER - 5 Anthony Street - Provincetown, MA - 02657 617-487-9337
Four veries have arrived this week: two PP/c's: At long last, and after SEVEN tries, WIBG-1520; also WGGM-1410; v/f-CM from WCSM-1350 TEST (Thanks, BRAD LOVETT!), and a great v/l-CM from WMCL-1060, whose female PD is a DXer! And v/s! That brings me to 4,184. DX: 2/4- TTer on 1490 @ 12:53; & WFTQ-1440 on OC @ 1 w/unn WQOK noted under w/rr. WYNX-1550 was running what they called "Mx Till Dawn" - hymns, & strong signal, but not noted since; musta been their 10kw non-D & not their new 500 U-2. 2/5- TTer on 1140 w/no IDs, 2:34-3:05+. 2/6- Nothing but the 1610 Tizzle trying to make it but not quite so doing. 2/7- Slightly AU; WJNO-1230 on top 1;45-2 w/their own teletalk show, into CBS NX, & a TTer 2:01-2:08 on next-door 1240. SM 2/8- AU continued, & a log on HIJP-1010 "R. Comercial" o/u WINS in the letter's null; both AN. CIRB-1240 was AN today. A bit of WRCN-1570 at SSS till their 5:33pm s/off, but not enough for a (third) report. MM 2/9- AU, unn WPDQ-1460 at times topping WCMB/WOKO. On 1060, somebody w/SS announcements, but sparse, but Bob Dylan-type EE singing, 3:22-3:51, also noted the next day. Is this Cuba's R. Enciclopedia? But w/EE singing? 2/10- Log on HJNF-1200, R. Super, with those typical Colombian rolled R's by their announcer. WHUE-I150 was off till 2:30, WNDB noted w/L.King & several unIDs, plus R. Punto Fijo. A call from ROD o'CONNOR says WLOB-1310 is back on, s/off @ midnight, now REL; WYNE-970 is NSP & has bought WLOB-FM which is now WYNZ-FM-100.9, & WJBQ-1440 is soon to go all-NX, & full time. My Jury Duty is postponed to begin 2/231 C U N 7.
