### CPC Test Schedule

KICY ..... 850 ..... AK ..... March 2 .... 0430-0530

KICY-850 - P. O. Box 820 - Nome, AK 99762 <<kicy@dwarf.nome.net>> will conduct a DX test on Monday morning, March 2, from 12:30 am through 1:30 am Alaska Standard Time (this translates to 4:30 AM to 5:30 AM EST) and will consist of code ID's, with occasional voice ID's at 10 KW non-directional. Reports may be sent to Mr. Tom Guilliam, Chief Engineer. Arranged by Bill Hale for the NRC.

**From the publisher ...** Congrats to Bill for landing his first test ... now if he can just get KOA to stand by, hi!

**X-Band ...** Larry Godwin, Pat Martin, and Pete Taylor were the first DX'ers to report another station on 1620, KRIZ, Renton WA. Pete noted it parallel to 1420 on February 13. Sez Pete: "They always give dual KRIZ/KZIZ IDs even though KZIZ isn't on at night." It will be interesting to see how it competes with WPHG, which dominates the X-band here in Topeka.

**Kulpsville ...** The 11th Annual Winter Fest in Kulpsville, Pennsylvania is scheduled for March 12 through 14, and anyone who wishes to represent the NRC should coordinate efforts through NRC's rep, Dave Schmidt.

**BBC Audio ...** Jeffrey Bennett offers the following info, which should be of interest to those who need parallel confirmation: "If you don't have access to a shortwave radio and you like listening to the BBC WORLD SERVICE, well, you are in luck. I was surfing the net, and while looking at the audionet web site, I clicked on the radio link, and the first link brought me to the audio link for this station. To find the direct link for the BBC WORLD SERVICE just go to the following site, <http://www.audionet.com>. The sound quality is pretty good, although the source is over compressed."

### DX Time Machine

From the pages of *DX News*:

50 years ago ... from the February 21, 1948 DXN: Al Burson, Shiloh, OH, submitted a list of 28 frequencies on which he heard TA's on one recent morning between 1:15 and 2:07 am, with signal strengths ranging from S-1 to S-9.

25 years ago ... from the February 21, 1973 DXN: Greg Hardison, Granada Hill, CA, reported that he went to a 12/30 DX gathering at John Clements' place in Newhall, at which those in attendance included Jeff Braser, Jim Critchett, and an "obscure" DX'er from Riverside County (Don Erickson), perhaps as far east as Blythe.

10 years ago ... from the February 19, 1988 DXN: In one of the smallest DXN's in recent history (12 pages), César Objio reported receiving La Voz de la Romana, Dominican Republic, on 1545, recently having moved there from 1540.

### MEDIUM WAVE RAMBLINGS

- A computer glitch (gotta blame something!) popped up in last week's GY computation of **Morris Sorensen's** CKNR distance. It is actually 241 miles from Milton. So **Don Trelford**, at 244 miles from Scarborough, claims that one (for now). **Joe Kureth** also claims another record, and the **Johnson's** are on the GY prowl. From the "unofficial" NRC Services Department comes word that the Graveyard DX editor is offering a printout of the distance and bearing of every Graveyard station in the **AM Log** to your location. Post paid to your house . . . \$6.00. Your ZIP code is mandatory, as it's from there where I get your coordinates for the computation. No ZIP code? Try to get me close to your QTH.

After reading something on the Internet about the call sign I decided to call the station and confirm what it was. I talked to the engineer, Keith. The call (WPHG) means Proclaiming His Glory. He said that about the farthest he has heard from so far is from Oregon and Washington. They are using a 300' tower non-directional. He is interested in hearing from anyone who happens to hear the station right at their power up time and see just how much of a difference from 1000 to 10,000 watts is making at a distance. Their power up time currently is 0630 CST. So if anyone is up right before and during their power up time and hears them, you might let him know what the difference was. ### IRCA Mexican Log, 4th Edition

The IRCA MEXICAN LOG log lists all AM stations in Mexico by frequency, including call letters, state, city, day/night power, slogans, schedule in UTC/GMT, formats, networks and notes. In addition, stations that have changed frequency since 1990 are cross-referenced on the old frequency. The call letter index gives call, frequency, city and state. The city index (listed by state, then city) includes frequency, call and day/night power. The log has been completely updated and carefully cross-checked by IRCA members in Mexico and the U.S. This is an indispensable reference for anyone who hears Mexican radio stations. Size is 8 1/2" x 11" and three hole punched for easy binding (optional).

Prices: IRCA/NRC members - \$6.50 (US/Canada/Mexico/seamail), \$7.50 (rest of the Americas airmail), \$8.00 (Europe/Asia airmail), \$8.50 (Australia/New Zealand airmail). Non-members: add \$2.00 to the above prices.

### DX Digest

**Foreign DX Catches. Times are UTC; for ELI, subtract 5 hrs.**

I already feel like the X-Band is passing me by. I can't get that 1650 station in California due to strong local images, and I missed my chance at Argentina 1620 with WPHG signing on. Let's add an X-plus Band 1700-1800 kHz!

I may be out of town next week, so if you don't see IDXD 65-20 that is the reason. In that case, all reports will be held over until IDXD 65-21.

Time for a review of States and Provinces reporting to IDXD so far in Volume 65: NF, PQ, ON, BC (40%), MA, NH, CT, RI, NY, PA, MD, VA, NC, GA, FL, AL, TN, OH, MI, WI, MN, IL, IA, MO, OK, KS, CO, MT, OR, WA (we'll count the Grayland DXpedition), CA, HI (56%). Although we've already exceeded the number of states that checked in last season, only two additional provinces will probably win the 1997-98 IDXD North American Reporters' Cup for Canada, so let's hear from our members in Nova Scotia and New Brunswick!

Jim

 1620 NETHERLANDS "PCH" Scheveningen, FEB 6 0710 - noted at fine level cutting through WPHG. First TA from here; taped. No sign of any other TAs (no hets) above 1500 kHz [Taylor-WA]

*Bruce speaks:* "I wasn't able to hear any audio of the TAs all the folks were reporting right after Christmas but did hear a few hets on the TA frequencies. Mike Maloney, AC5P up in Bartlesville (50 miles N of Tulsa) did hear audio on Norway 1314 and an unID on 1215. Hope to be able to do some listening in the near future."

*Marc speaks:* "It was fun to read about all of the great DX that so many people heard in Manitoba, Missouri, Ohio, Alabama, and Japan heard by Ray Moore in Florida. Wow! Lately, I have been trying for Kuwait-1548 around 2300. All I have heard are bits and pieces of audio - language not readable - but I'll keep trying."

#### PAN-AMERICAN DX

- 530 TURKS & CAICOS, R. Vision Cristiana, JAN 31 1205 - SS talk still at a good S9 skip strength at local dawn. Groundwave (day) level is about S5. [Connelly\*H-MA]  
 555 ST. KITTS & NEVIS, ZIZ, Basseterre, JAN 31 0331 - reggae / rap fusion music; good. [Connelly\*H-MA]  
 640 CUBA, R. Progreso, Guanabacoa / Las Tunas, JAN 31 1158 - SS discussion about education and other issues; starting to fade under WNNZ. [Connelly\*H-MA]  
 670 CUBA, R. Rebelde, CMQ, Arroyo Arenas, JAN 31 1145 - SS talk about Cuba and "la revolucion"; mixed with WMAQ and others. [Connelly\*H-MA]  
 800 NETHERLANDS ANTILLES, Trans-World Radio, PJB, Bonaire, JAN 31 0403 - man in SS greeted his Venezuelan listeners. Huge and dominant signal. [Connelly\*H-MA] FEB 1 0030 - SS talk and R. Transmundial ID; loud / totally dominant. [Connelly\*Y-MA]  
 840 CUBA, CMHW, Santa Clara, JAN 31 1143 - woman in SS talking about events in Cuba. [Connelly\*H-MA]  
 860 BRAZIL, ZYJ459, Rio de Janeiro, JAN 31 2352 - PP talk; fair in CIBC null. [Connelly\*Y-MA]  
 870.38 unID, JAN 31 0504 - SS teletalk by man & woman; poor, but separable from 870.0 at times. [Connelly\*H-MA] + JAN 31 2306 - SS talk / shouting seemed to include advertising (so probably not Cuba). [Connelly\*Y-MA]  
 890 CUBA, R. Progreso, CMDZ, Santiago de Cuba, JAN 31 2350 - // 640 with SS talk, Cuban political speech; loud, way over WBPS. [Connelly\*Y-MA]  
 941 unID (likely Cuba), JAN 31 0320 - persistent het against CBM yielded bits of SS talk, but not enough for ID. Bruce Conti mentioned that a Cuban has been drifting near this frequency. I'd presume that it would be one of the R. Reloj outlets. [Connelly\*H-MA] JAN 31 2301 - weak het still here. [Connelly\*Y-MA]  
 1000 MEXICO Radio Mil, FEB 05 0157 SS music dominates. 0200 clear ID as Radio Mil. [Ziolkowski-NY]  
 1000 COLOMBIA RCN Cartagena, FEB 05 0120 - heard "Colombia" then anthem like male vocal. 0126 another Radio Mil comes up causing a Het, as two men talk with mention of Colombia. 0130 time pips and ID as "Radio de Colombia". Was parallel to 770 (weak behind WABC). Other SS in back with pop music. Strong signal, no domestic interference, sharing freq with Radio Mil Mexico. [Ziolkowski-NY]  
 1020 unID, JAN 31 2348 - SS religious program. Is Caribbean Christian Radio in SS now? It used to be EE at this time, but no EE was noted. A subdominant station had rhythmic SS music (this was probably YVRS). [Connelly\*Y-MA]  
 1160 BERMUDA, VSB3, Hamilton, FEB 1 0004 - // 5975 with BBC news about Iraq and the arms inspection crisis. Good & dominant signal, burying WSKW/WOBM/WVNI. [Connelly\*Y-MA]  
 1170 COLOMBIA HJNW Caracol Cartagena, FEB 05 0100 - 2 ID's "este es Caracol Colombia" then male talk. Way behind WWVA but a pause in talk allowed a clear ID to come through. [Ziolkowski-NY]  
 1375 ST. PIERRE ET MIQUELON, RFO, FEB 7 0129 - man and woman taking in French and playing pop and MoR music like "San Francisco"; good signal - although the het seems to always be strong, usually there isn't much audio. [Wolfish-ON]  
 1620 ARGENTINA R. Esmeraldas (presumed), FEB 4 0859 - SS preaching, low key music except for a Mahalia Jackson-like selection at 0915. Quite strong, wiping out WPHG; since it looped east from here, I thought it was a new domestic. First SA from Tacoma [Taylor-WA]

#### TRANS-PACIFIC DX

- 1575 THAILAND (assumed), FEB 1 1112-1201 - peaked 114-1156 with man speaking in oriental language. Musical interlude followed by man just before the hour, music with male vocal just after hour. No interval signal or time pips noted on hour. My Asian language expert's best guess from tape is Malay. I've been hearing a carrier here for years which never exhibited a null on the loop, characteristic of over-the-pole signals. The possibility of this being a South American can be ruled out since it is in sunlight at this time. The last time I had audio on this one was FEB 1975, but too weak to even guess at language. It is always heard at or after local sunrise in Thailand. 200 used to be heard there but was last noted at Christmas 1992 with carols and has apparently moved. WRTH lists 2RF here in Italian with 500 watts which is a possibility since 4QD was putting in a good signal on 1548 kHz. Language was definitely not Italian, however. My language expert does not have "Dxer's Ears" so I would appreciate someone familiar with Asian languages listening to the tape. If anyone is interested please let me know and I will ship out a tape right away. My local sunrise is 1210, by the way. [Moore-FL] (Ray's address is 1288 River Bend Drive, La Belle FL 33935 - Jim)

*Ray speaks:* "This has been the poorest season in years for "down under" stations. The only redeeming feature has been three exotic catches: Majuro, Marshall Islands 1098 KHZ on AUG 13, the Japan opening on DEC 26-29, and the above, whatever it is."
