NOVEMBER 1978

LEAGUE A.G.M.

The 30th Annual General Meeting of the League in Oamaru on 14 October was marred by the non-arrival of the Southland Branch and Administrative Committee contingent from Invercargill, due to the worst flooding in Southern NZ for over a hundred years. But the 'show must go on' and some 25 members, wives and friends met at the

Brydone Hotel for a luncheon followed by the meeting proper. DX Times Editor Bryan Clark was elected Acting Chairman and Peter Grenfell Acting Secretary.

1978 marks not only the League's 30th birthday but also 50 years of organised DX listening in NZ, for it was in 1928 that the forrunner of the "Listener" began a feature called 'The DX Club News and Views'. Throughout these years the name of Merv Branks was synonomous with DXing in NZ, and the meeting observed a minute's silence in memory of our late patron.

In matters arising from the 1977 AGM, Arthur Cushen advised that Radio New Zealand were still considering the proposal that a combined radio archives be set up by RNZ and the League. Rules for a Dxing category in the Duke of Edinburgh Award Scheme have been completed and some participants are already reported. Suggestions for reactivation of a Utility section in the Times did not receive any support from members.

In his annual report (circulated after the meeting), outgoing National President Sutton Burtenshaw noted the steady increase in membership past 500, the success –ful 1978 Convention near Invercargill, and the continued high standard of the DX Times. He also commented that the year had been a difficult year for the branches in maintaining an active membership. All members living near an est–ablished branch were urged to make contact with it, as there were many benefits to be gained from participation in a branch's activities. League accounts for the 1977/78 year recorded a drop in profit (ie excess of income over expenditure) from \$590.84 to \$207.62, while the Stationery Account, now handled by North Otago Branch, had a profit boost from \$29.12 to \$90.33.

The Editor's annual report highlighted the restructuring of editorial responsibilities during the year, with decentralising of shortwave and mediumwave section preparation to Auckland and Invercargill respectively. In anticipation of his resignation as Chief Editor in 1979, Bryan Clark stated that further diversification of duties was underway. A special plea was made for members to observe the contribution deadlines each month.

SPECIAL

INSIDE - a four page pullout draft listing of the Frequency Plan for Asia & the Pacific, effective 23 November 1978. The list is far from complete, but summarises all information received to date. No official Australian list has yet come to hand, so that info is tentative. The Japanese listings do not include stations of 1kw power or less. Info courtesy WRTVH Newsletters, IRCA, IDXCI, Tune In, Far East DX Review, Adrian Peterson & Kazunori Ushigome. For those wanting to keep their magazine intact, EXTRA COPIES of the 4-page listing are available from Box 2956, Wellington for a selfaddressed and stamped (11c) envelope of the 9" x 4" type. INSIDE - ORDER FORM for your 1979 World Radio TV Handbook. Prices apply to NZ members only . Aussies - send IMO for A\$13 for airmail copy

League PRO Arthur Cushen reported a record number of enquiries during the year, mainly arising from his feature in the "Listener" which has a weekly readership in excess of one million. Peter Grenfell advised that the League DX Archives had received several fine collections of early QSLs and DX literature during the year. Further publicity would appear in the DX Times to promote this activity. Stuart Forsyth presented archive material.. page 8.

CLOSING DATE FOR CHRISTMAS ISSUE - MONDAY 4 DECEMBER AT 12 NOON, ALL CONTRIBUTIONS TO P.O.BOX 2956, WELLINGTON - DON'T FORGET LADDER FINALS & BEST-OF-MONTH ENTRIES!

² FROM THE BRANCHES

SOUTHLAND The October meeting was held at Eric McIntosh's with 12 present. President Steven Greenyer welcomed Vic Tilling to the meeting, discussion on the Annual Meeting at Oamaru followed, while Sutton Burtenshaw talked about his recent visit to Australia and visits to Melbourne, Canberra, Sydney, Brisbane and Gold Coast. A DX chat followed and African reception at dawn being the highlight. Next meeting at Arthur Williams on 28 November, guest speaker member Kingsley Sampson from Uganda. Best of Month results: BCB Frank Glen KLCL Lake Charles La. 1470 5kw, merit Eric McIntosh 6NM Mt Newman 570 100w. SW to Eric McIntosh with Uganda 15325 250kw and XEQM Mexico 6105 250w.

AUCKLAND The October meeting was held at the NZART Clubrooms on the 28th with 16 present and 1 apology. Bryan Marsh gave a brief summary of the recent League AGM in Oamaru. It was decided that branch competitions would be reintroduced on a trial basis as from next month. A family barbeque-branch breakup for 1978 will be held at Bill Huddleston's, 10 Nile Road, Kelston, Auckland 7, on Sunday 10 December. If you and your family plan to attend, please notify Bill by letter or telephone 818–3178. The next branch meeting will be held at the NZART Clubrooms on 26 November at 2.00pm.

WELLINGTON The October meeting was held at Bruce Williams' on the 27th, with 8 members present and 4 apologies. The meeting featured a very interesting talk on the workings of the Shortwave Service of Radio NZ, presented by Geoff Haggett, the man behind the operation. Following Mr Haggett's talk Bryan Clark presented a report on the League's Annual General Meeting. This in turn was followed by a brief talk by Paul Edwards on a recent DX pedition he made to East Cape with Chris Mackerell. Following supper, the meeting concluded with a short listening session on a new Yaesu FRG7000 receiver. Competitions – SW Senior: John Mainland with NHK Sines 11825 and Bayrak Cyprus 6110kHz. The next meeting will be held at 8pm on Friday 24 November and will feature a talk by the local Radio Inspectors. The venue will be confirmed in the branch newsletter "Capital DX". Those not on the circulation list should ring Bruce Williams 859–121 for details.

HAMILTON Hamilton members held a get-together at Jim Benzoni's residence on 10 October, with 3 present and 2 apologies. An interesting discussion on receivers and DX generally was held. It is not envisaged that an organised branch be set up, rather the opportunity for a regular exchange of DX info amongst members in the Hamilton area. It is hoped to have get-togethers at regular intervals (approximately every 6 weeks), with the next to be held at the end of November. Any members who have not already been circulated should contact David Munn (Ph. 492667) or Jim Benzoni (54695) for further information.

(Ed's Note: We're always pleased to hear and report on any get-together of members to discuss the hobby. It makes a big difference to be able to share our hobby with fellow enthusiasts, to the benefit of all!)

BANDWATCH CONTRIBUTORS: Thanks to 21 members this month...CS Cecil Symmes CH Chris Hatten

AD Arthur De Maine PH Philip Hamlin
RCh Robin Chambers DO David Osborne
BW Bary Milliams JPB Jean Pierre Buoncore (France) and our
Australian contingent DW Dick Whittington & DMI Don Mitchell
Sorry for squeeze! A lot of material had to be held over this month!

DIDN'T WE DO WELL! League members scooped the pool in the 1978 DX Contest BOX 2958 sponsored by Radio Monitors International (see page 16 9/78 DX Times) with the first 4 places and 10 out of the first 26 places. First prize went to Douglas Doull of Auckland with 15 out of 16 interval signals identified. Douglas receives a bronze medallion. In second place, also with 15 points, was Victor Goonetilleke of Sri Lanka, followed by Bryan Marsh of Auckland and Leigh Morris of Palmerston North with 13 points. Other Kiwis on the prize list were Bill Huddleston Auckland (8th), Arthur de Maine Auckland (13th), David Hughes Pal merston North (15th), David Munn Hamilton (21st), Jack Searle Hawkes Bay (22nd) and Eric McIntosh Invercargill (26th). Congrats to all prize winners, and to Adrian Peterson of Adventist World Radio - Asia, for another successful competition. Broadcast times for Radio Monitors International are 0415 on 9720 and 15425kHz, 1900 on 9720, 11870, 15115 & 17850kHz - both these on Sunday GMT, and Mondays at 1115 on 11835, 15120 and 17850kHz. All are via the facilities of the Sri Lanka Broadcasting Corporation. FM WHEN? Jim Donachie of Upper Hutt has been hearing a mystery FM stereo station with album music right thru the evenings . Frequency 91 .5mHz or 91 .95mHz . Anyone else hearing this? Jim would also like recommendations on someone in the Wellington area to repair his Grundig Satellit 2000 receiver. Let us know at Box 2956 and we'll pass on. Incidentally the mystery FMer was first noted by Jim on 10/10 and still there 30/10. Ray Hobman wonders if the only way NZ will get FM is via satelite from some other source. He notes that the 1978 Social Credit Election manifesto promises FM radio licences. (My bet is now for 1979 Ray . Fingers crossed . Ed)

BROADCAST DX

From 23 October to 5 November inclusive, the Broadcasting Corporation of New Zealand station, "Radio Ashburton" provided community programmes during the Ashburton Centennial Celebrations. The caravan mounted 1,000 watt Toshiba SS 2683 E transmitter operated 24 hours daily on 870 kiloHertz. Although the callsign has been widely reported as 3ZE, one QSL card is clearly typed as ZL3XE. As we understand it, the X call is only assigned to private commercial and experimental stations. Therefore if RNZ operate permanent from Ashburton the call will then probably be 3ZE. (Arthur Cushen)

Radio Avon was apparently granted a short term licence for the same period as the above article, with 100 watts, but refused to go on air unless they also had 1,000 watts. Negotiations could not be concluded in time. (David Ricquish)

Radio Rhema, callsign 3KG, opens on air 11.00am, 11 November 1978, with speech by Mr Muldoon. Frequency is 1570 khz for 12 days until 23/11 when the change will be made to 1575 khz. Hours of operation; 6.00am-12 noon Monday/Friday, and 6.00am 12 midnight Saturday/Sunday. Power will be 2,000 watts. Reports are invited to P.O. Box 2420, Christchurch. (David Ricquish)

TV & Radio Services, Christchurch, carried out a field survey for Radio Otago late September into early October. Tests were made on 1360 khz from Alexandra, Cromwell, Queenstown and Wanaka. (Keith Robinson)

Radio NZ is applying for warrants to set up National Programme relay stations in New Plymouth & Taupo during the 1978/79 financial year. Warrants are also being sought to add local originating programming to the relay stations in Turangi, Hawera, Kaikohe, Kaitaia, Alexandra & Queenstown. Future plans include National Programme relays for Wanaka & Te Anau. (Radio NZ via Bryan Clark)

The short-term warrant for the World Rowing Championships at Lake Karapiro, turned out to be approval for three RNZ stations in the area, 1ZH 1310, 1ZC 1350, and 1ZD 1000 to broadcast 24 hours commercial programming 30 October-6 November.

(Bryan Clark)

Remember Radio U, Canterbury University? They have applied for a short term warrant for February-March, with slogan 'Radio Therapy' (presumably 3XT) and power of 100 watts on 1232 khz. QSL Manager will be member Stuart Forsyth who will gladly verify correct reports with return postage included. There may also be a DX Special, but more news as it comes to hand. (Stuart Forsyth)

"Radio NZ transmissions have been noted on 1116 khz and 1183 khz (somewhere South of here) since 26/10." (eeny meeny or minny mo.....(ed) (Ro≽in Chambers)

First out of the mailbag this month is stalwart of the North Otago Junior Section;

PAUL RAMSAY, Oamaru has reports out to 3XA,2ZG,2ZB,1ZB,4YW,2ZD,2ZK,1ZE,1YX,2YC,1ZO,2ZE,4ZA,3ZB,4ZB,1YC,1XA,1YA,1XI,2XW,3ZM,3ZA,2YA,1YZ,2YW,2YX.Postie has returned with QSLs from 2SM,2ZP,2YD,3XA,2ZG,2ZK,3ZB,2ZE,3ZM,2ZB,2ZD,3ZA,1XA. Tnx Paul.

KEITH ROBINSON, Kapuka reports BCNZ test 1190, R.Otago tests in Central Otago, KPOI, 3CR, 2BE 750, & WDIA 1070. (nice one) Veris are to hand from Bari 1115, Ahwaz 1386, 1ZB, 2YD. & New Caledonia 1260. Ta

SPECIAL See pages 9-12 this month for a draft list of Asian and Pacific area stations with their new frequencies effective 23 November, and page 5 for late corrections and additions. Next month, details of Middle East/European changes.

ROBIN CHAMBERS, Opunake reports a very quiet month with only log as ZL3XE 870. Veries have arrived from 2YD and 3XE. (those tests sound interesting....(ed)

DAVID RICQUISH, Christchurch, has reports off to RNZ CHCH T/T 4/10, R. Ashburton 870. Qsls are in from KCTA 1030,KGB 1360 (with Ekko stamp) KYNO 1300, KVEN 1450...oops nearly forgot, an Oamaru log of KATZ 1600. Gidday David.

IAN CATTERMOLE, Blenheim has lone QSL in from 2YD R. Yesterday.

KDLG, Box 670, Dillingham in Alaska 99576 has a DX Test on Monday 18 December for 1 hour commencing 1010 or 1015 GMT. Power 5kw ND. Reports to General Mgr Les Robinson. per DR & NRC. Also KADE Boulder Colorado tests 4/12 on 1190 1kw 0700-0800 GMT NRC.

MAILBAG continued

ARTHUR WILLIAMS, In-gill has logged KATZ at Tiwai and R.Ashburton at home. One terribly lone QSL is 2YD Congrats on your 'T' cert.

JOHN CAMPBELL, England has only QSLs from 2YD, Swaziland 881, Oman 1035. Have you erected an antenna yet John?

HANK WILKINSON, 5028 Maiden Lane, Santa Rosa, CA 95405, U.S.A., has reports out to R. Tahiti 740, 2BY, 2NU, 4QL, 4BH, CMAF 882/3 "Radio Progresso", & KBS 880 & 890. Veries have arrived from 4BH & 4QL. Thx. Hank would like to hear from down under DXers with experience in QSLing Asian stations. (Answers to your other queries should be found elsewhere in this issue....(ed)

BRYAN CLARK, Wellington has reported 3ZE 870, KATZ 1600, KCBQ 1170. While verifications are in from 2BS & 3ZE.

NORM MAGUIRE, New Mexico reports snow covered mountain tops and the next day's temperature to be a warming 27/28 deg C as well as XERPC, XEV 1390, TIJC 625, XETNT 650, XECG 1240, XEQR, KFAB, KAMA, XEZM 650, KAAM 1310, KIKK, KLBJ, KXEG, KKKQ. Still on tape & yet to be reported are Colosal 1005, CMRR 700, Rumbos 1210, 4VEC 1035, XETZ, CKRM, KVEG 1400 and an FF on 660. QSLs have come in fromKHLO, 2YX, WSZO, XERPC, XEHO, Tahiti 740, KFAB, KAAM, KLBJ & XEYJ. Tahiti made country 82. Tnx Norm. Always good to hear from States

LEIGH MORRIS, Palmerston North has a verie from 2YD and an equally lone report as 3ZE 870. Ta.

JOHN ALLCHIN, Auckland has one log In XZK-1 Rangoon 955 with QSLs from Hong Kong 545 and WCAU after 9½ mnth Hope those exams have gone 0.K.

DENE LYNNEBERG, Wellington has a lone report out to 3ZE 870.

ARTHUR CUSHEN, In-gill has reported 3XE 870. The postie has been with 2YD and wait for it, KGVW Montana 630 on a ppc, logged 6 Feb 1961!!!! Arthur says "all good QSL's come to those" etc.

PAUL RAWDON Eastbourne has a lone report away to WXLE. Now on 1386.BC

STUART FORSYTH, Christchurch has reports out to KVOO, ZK1ZC, KATZ, KCBQ from AGM and 4YW, 4YQ, 7SD, 3WM, VOA Thailand, 3ZE, and 2KY. The postie has left veries from Radio H Canty, 5CK, 5PI, KEX, KCBQ, 3ZE lst report & 1st QSL) Stuart comments "...further R.U. broadcasts are planned in New Year..." Thanks for info Stuart.(ed)

G. AGNEW, Auckland in two letters has reports and verifications seemingly mixed each time. However by process of 'luck' we think the following are actually loggings with reports out to 3TR, 2NX, 2ZM, 1ZU, 1ZO, 1XX, 4XO, 3ZM, 3ZB, 2MO, VOA 1580, 4IP, 2JJ, 2GB. 2BL,5MV,2ZD,2FC,1ZE,3YC,2ZC,1ZC,4ZB,2YB, 2ZB,2YA,1YZ,2YC,4YW,2KY,4YQ,1YW,3ZC,2YX, 2ZA, R Active, 3YA, 2ZW, 4XD, 1ZA, 3ZO, 2YM, 2YZ 4YZ, 4YA, 1YX/1YK, 1YE, 4ZB, 2YW, 4YC, 4BC, 3MP, 2ZK, 1ZT, 2NU,2KM,7LA,4CA??(ed),2CH,2ZE,USSR1250 2DU,2ST,2HD,4BK,5SE,KHVH,3VL or 3UL,7SD, 4AM, 4GY, 2GZ, 2VM, Fiji 560 & 680, 2RG, 3HA, 2GN, 4BH, 6WB, BBC World Service 1450 (can anyone help?) 7BU, World Rowing Radio(this is a Network only, not a seperate station ... ed) 3ZE. Hopefully, QSLs are 2XA,2HD,4AM, 2GZ, 2VM, 2GN, 3YR, 3YW, 4YW, 4YQ, 4BH, 4ZB, 2ZN 4GG, 6WB, 3TR, 2NX, 2ZH, 1ZO, 4XO, 3ZM, 3ZB, 2MO, VOA 1580,2GB,2BL,5MV,2ZD,2FC,1ZE,3YC,2ZC, 2YB,1YZ,2YC,2JJ,1YW,2YX,4ZA,2ZA,3YA,4XD, 2YM,2YZ,1YK/1YX,1YE,4YZ,3YZ,2YW.(As far as we know 2GL is still on 820 not 1210. You may have a case of mistaken ident. Loggings and reports go together and QSLs and verifications go together.. in other words, the same as..ED)

SUTTON BURTENSHAW, In-gill has reports out to 3EA 1120 while at Harry's in Melbourne, 3MT 720 from Cann River and 4CD from Noosa Beach while R. Ashburton was logged at home. The postie has left veries (all ppc) from 4CD, KBBQ 1590 & KLCL 1470. (Guess who blotted out 3MT? why, 4YZ in NZ of course...of course)

PAUL ORMANDY of Oamaru has a QSL from 2ZB at long last. Reports are out to 2ZB, 4QA,7NT,3CV 1070 ex 1060,7SD,5CK,KCBQ,7AD, RNZ site test Spencerville Beach 1190,1/10.

CHRIS MARTIN, Sydney, telephones in the nick of time his loggings of KATZ 1600, KDON 1460 KLO 1430, KARM 1430, WSAI 1360, & KART 1400. Veries have arrived from KATZ & 2CT 75 watts. Thanks Chris, I guess you're all set for the 'invasion'. Many logs should be had by all. (Ed)

BEST OF MONTH entrants - note that NZ and Australian stations (apart from the low powered 50/100 watters) are not eligible for this competition.

KYNO Fresno California U.S.A. 1300 khz. 1.000w. 116pts.

With thanks to AGM various members at the North Otago Branch Listning Post after the Camaru Annual General Meeting 14 October 1978, when a Sony ICF 6800W was used with a 700ft longwire. LM Leigh Morris of Palmerston North. KR Keith Robinson at Kapuka Southland.

HAWAIIAN HIGHLIGHTS

KAIM 870 is to increase to 50,000 watt in 1979. KNUI 1310 had an equaliser installed for an improved signal. KPOI 1040 is weakest signal in Honolulu. in fact weaker than 1 Kw KZ00 but puts ex signal into NZ. KPUA is also weak locally. KIVM may move to 570.

EQUIPMENT REVIEW

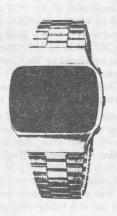

excellent DXing aid.

TRIO R-820 From Masami Onizawa comes a 10 page brochure 7 together with an English translation covering this receiver. Designed specifically for use on amateur bands converters are available that cover the SW bands from 75m - 13m in 500kHz sweeps. Performance figures are: Sensitivity, SSB .25uV (.5uV on SW bands). AV 1.5uV (3uV). Stability 100Hz. Image Rejection, 80dB (50dB). Variable IF Bandwidth,@-6dB 4.3-6kHz, SSBother filters from 150Hz min. to 6kHz max. are available. Notch Filter, -50dB. This set must come close to being an ideal, practical receiver for amateur use however the reduction in SW performance with the use of converters, (figures in brackets) does not exceed that of less sophisticated models. The addition of items as basic circuits such as variable bandwith tuning, IF notch filter and IF shift

facilites could well compensate. A price is not available at present.

And now for something completely different! Wellington Branch President Bruce Williams has recently bought himself a new watch. Here are his comments.

SEIKO FCOO1 WORLD TIMER 24HOUR DIGITAL WATCH. FEATURES: 29Time zones; Day, Date & Year till 2009; constant setting for GMT; provision for summer time in many parts of the world; all at the press of buttons on the side of the watch, including a light to let you tell the time in the dark. ADVANTAGES: With Beveridge parties becoming the 'in thing' it is possible for the wearer to have an immediate read-out of the local time in the country being heard or GMT. Provision is also made for the setting of two seperate time zones at one time. DISADVANTAGES: There are only a few, mainly no time or date provision for NZ summertime or for Tonga all observing +13 hours GMT. Neither is provision made for Central Australian standard or summertime at $+9\frac{1}{2}$ and $+10\frac{1}{2}$ hours GMT nor for Norfolk Island at +112 hours GMT. COST: They are not cheap in New Zealand at \$297 retail, but if you intend heading for Australia you can pick one up for about \$152 duty free from Sterling Nicholas Sydney. CPINION: Asthe owner you may consider I am biased but I never regreted buying it. It represents value for money and is an

SANYO RP8880 This set sells for A\$204 duty free in Auckland and has been given an extended air test by David J Duke of California in 'Receiver Review'. The RP8880 is a large set weighing around 4.5 kd. Frequency coverage is LW MW Marine and SW 1.6-10 and 11.7-30 Mhz in 5 bands plus FM. Performance details are; Sensitivity4.5uV MW, 3.1 uV SW all at 6dB s/n. IF Selectivity is Normal 4&18 kHz at 6&60 dB while on Wide it is 6&30 kHz respectivly. Two tuning dials are used one covering LW MW Marine and FM the other covering SWbands 1-5. When correctly adjusted the manufactures claim a frequency readout accurate to 2 kHz. Rotatable ferrite rod aerials cover LW and MW, a nonrotatable ferrite rod is used on the Marine band while a massive 1.5 metre whip is used on SW. Screw terminals are used to connect external aerials. The power is supplied from the mains (most voltages) 12V DC or 8 size D dry cells. Band changing is 2 sepcrate opperations while tuning to a new frequency can take a further 7! This is a set that a prospective buyer would do well to test fully before buying. The IF bandwidth is rather too wide and the tuning slow. There is also an IF 'gap' from 10-11.7 NHz, some broadcasters are using frequencies in this band and the 25 mb could move into this area soon. The Sanyo RP8880 is a set that would appeal more to a person who is interested in shortwave listening rather than DXing.

Parlier this year <u>REDIFON</u> announced their new model <u>R1000</u> continuous coverage 15 kHz to 30 MHz fully synthesized plus remote control and memory opperation of frequency, mode bandwidth etc. Digital readout is to 10Hz..... Oh well it's nice to dream, the mainframe is only 5000 sterling.

<u>COMING UP</u> in Equipment Review – details of the exciting new Sony ICF6800W communications receiver:

<u>EDITORIAL CHANGES</u> – This month we welcome BRUCE LISTER of Masterton (soon Wellington?) as incoming
Editor of Equipment Review, and JOHN MAINLAND of Wellington takes over preparation & typing "Sign Off'

IOBK Osaka 100kw

DZYT Cagayan ×780

864 4ZA Invercargill

donated by Mr L.Cufflin of Auckland. Stationery Officer Ted Sutton reported a good year, and it was agreed to publicise stationery items and current prices in the DX Times shortly. Brief reports on branch activity were presented by Bryan Marsh from Auckland, Bryan Clark Wellington, David Ricquish Canterbury, Paul Ormandy North Otago and Pete McKellar Otago.

Arthur Cushen was elected League National President for the 1978/79 year, and Arthur Williams National Vice-President. Charlie Chester and Mr Greenyer were reconfirmed as National Secretary and Treasurer respectively.

Subscription increases to meet rising costs were approved, with immediate effect. The annual sub for NZ is now \$7 (with \$1 joining fee for new members); Australian dues have been increased to \$12, and rates to other parts of the world have similarly increased.

It was agreed to approach the NZ delegation to the 1979 WARC Conference, seeking to retain the tropical bands for the exclusive use of the 'tropical' countries. Tony King and Bryan Clark of Wellington were appointed to prepare submissions in support of upgrading the Shortwave Service of Radio New Zealand.

Annual competition awards were announced by Life Member Jack Fox. The inter-branch trophies were awarded in a repetition of the 1977 results. The Albert Stanton Broadcast Cup went to Southland with 3321 points, followed by Wellington 3044. Wellington retained the Hope McGregor Shortwave Cup with 2838 points, and Southland were second - 2620 points. The agregate Columbus Trophy went back to Wellington, leading Southland by 287 points to 310. Disappointment that only 2 branches were participating in these inter-branch contests was expressed by the Chairman. Individual award winners were - Shortwave Best of Year Paul Edwards of Wellington Comoro State 3331 4kw 131 points, Broadcast Best of Year Cayman Islands 1205 1kw 163 points to Bryan Clark of Wellington, Junior DXer of the Year John Allchin of Auckland. Winner of the Keith Glover 'Boomerang' Award has yet to be announced by Adcom.

Mrs Netta Branks advised that she would be presenting an award in memory of her late husband, the Branks Memorial Cup. It will be awarded each year to the member with the most broadcast band verifications from the Pacific Asian area, that area in which Merv Branks was such a renowned authority. To qualify, verifications must have been notified in the NZ DX Times, and the first award will be made for the competition year ending 30 June 1979. In announcing the award, Mrs Branks said she hoped that the League would continue to prosper, and that younger and newer members would be encouraged to pursue the hobby. She believed it vital that everyone participated in a hobby, and that all would go along with Merv's thinking - that you only get out of a hobby what you put into it.

After formal proceedings were completed, an attractive and tasty anniversary cake prepared by North Otago Branch Secretary Muriel Bloxham, was cut by Mrs Fox. Jack Fox followed afternoon tea with a thoughtful address on the future of the DX hobby and some reminiscences of the League's earlier days. Finally Bryan Marsh of Auckland took the stage with a demonstration of his new Sony ICF6800W digital readout communications receiver.

Our thanks go once again to North Otago Branch for hosting another League AGM!

2958 JACK SEARLE Haumoana wrote to Jens Frost, Editor of the WRTVH re faulty binding of his 1978 Handbook. Mr Frost replied emphatically: "This will not happen again".('.) In a tribute to Radio New Zealand's 30th anniversary on SW, aired on his Radio Monitors International DX programme over SLBC Colombo, ADRIAN PETERSON reported that the first SW broadcasts from NZ were emitted from a utility transmitter under the callsign ZLT7. This was an outlet of $7\frac{1}{2}$ kw which was on the air for just 10 minutes a day, with a news broadcast for the Pacific and Australia. Transmissions began in 1944 and continued for about 3 years, setting the pattern for the new and regular SW service begun in 1948. GRAEME DIXON Auckland advises that he finds the present DX Times envelope troublesome if the weather is wet - the flap adhesive being stuck to the magazine itself. (We have some 9 month's supply of these envelopes on hand Graeme, but I have passed your letter to our publisher for future consideration. Ed) DES DAVEY Te Kuiti writes that "the best place to obtain antenna wire is from your nearest Stock & Station Agent "Des' antenna system is made up of electric fence wire which can be purchased in 5 or 10 chain coils at reasonable cost. Insulators similar to the old egg type, but twice the size, are also available. These are ideal for long antennas. Our sympathy to member CHRIS DAVIS on the recent death of his mother. Those who have visited Chris in Featherston will be interested to know that the listening den has been extensively renovated. ASH NALLAWALLA c/- P.O.Box 144 Dunedin is off to Bombay for a month's DXing and would appreciate advice on ham radio/DX receiver shopping in Singapore. Can anyone help Ash?

Draft Mediumwave Frequency plan for Asia and the Pacific.

Shortwave Mailbag

Two very choice verifications received back by League members this month. Bayrak Radio 7kW on 6110 khz (now reported on 6283v khz) has been received by John Mainland . Bayrak Radio is a shortwave radio based at Lefkosa in the Turkish Federated States of Cyprus and this would be one of the first veries from this station received in NZ . The other prize QSL is Sao Tome 10 kW on 4807 khz back to Paul Edwards . To my knowledge this would be the second verie from Sao Tome received in NZ over the last 15 years, so you can see it certainly is a very rare verification . Congratulations to both John and Paul .

We note that Uganda is still verifying many listeners so we suggest that those who have not yet verified Kampala get a report away now in case they return to their old ways and stop verifying . Well lets see what (SIs have come

back this month .

JIM BENZONI Hamilton , has 6 reports out and veries back from Kuwait 11825 ,12085, 15345 and with a new FRG7 we expect to see many more veries 11825 and Garoua 5010 khz . in the months to come .

STUART FORSYTH Christchurch .4 reports and QSL'd RN Madagascar 15220, Sofia 11750, AIR 9912, VOA Philippines 6110, VOA Kavala 9770, SIBC 15425. John has read your letter and see you before Christmas .

ARTHUR CUSHEN Invergargil, HCJB 6160, R.Garoua 5010, RNZ 17860, Budapest 21525 Tashkent 15460, ORU 11735, Taipeh 15225 KTWR, 11850, Madrid 9790, Uganda 15325, Sweden 21700, NHK Sines 17820 . I'm still trying to get Garoua back Arther .

<u>DES DAVEY</u> Te Kuiti, 2 out and veries from IBA 9835, NHK 17795, 15235,15195 Hanoi 10040, RA 17870,9560, AIR 11620 Tashkent ? Best regards Des.

NORM CLOVER Hamilton, 8 loggings with QSL's from RN Bonaire 9770, NHK 15195

DAVID OSBORNE Hastings has QSL'd Lisbon 6025, AFRTS Gvlle 6030, Spain 6065, Poland 7145, RN 9770, 9715 from Bonaire, Kiev 9800, Budapest 15160, IBA 17685, USSR 15130 21600, VOA 21460, 21610. Your cmts held over David. Ta:

SHORTWAVE BANDWATCH

Coordinated by JOHN ALLCHIN

There has certainly been increased activity on the higher frequencies this month, and there appears to have been some good openings on 13 metres in the past few weeks. The recent November adjustments has meant the introduction of new frequencies on this band, due of course to increasing sunspot activity during our summer. Radio RSA has introduced a new 13 metre band frequency of 21695 with French being noted at 1800 GMT. Some good quality low band Africans are still being heard in the early morning, while Australian members Chris Martin. Harry Weatherly & Brian Dodgson have proved their Southeastern Vice

que of course to increasing sunspot activity during our summer. Radio RSA has introduced a new 13 metre band frequency of 21695 with French being noted at 1800 GMT. Some good quality low band Africans are still being heard in the early morning, while Australian members Chris Martin, Harry Weatherly & Brian Dodgson have proved their Southeastern Victorian location with some excellent Australian reception of Latin Americans on 49, 60 & 90 metres, details of which appear in a separate survey. A good number of overseas contributions too - they have been marked with an asterisk *.

FREQUENCIES IN KILOHERTZ

ARTHUR CUSHEN'S SHORTWAVE REVIEW

Radio Moscow's World Service is operating for 14 hours a day and has replaced the regional programmes for various parts of the world. It is understood that over 40 transmitters of 500kW are now employed from 22 locations. This month African signals continue to be heard in the 60 metre band and with daylight time it is not necessary to listen so early. November 5 found many stations making major frequency moves. All times are in GMT, 13 hours behind New Zealand Daylight Time. Frequencies in kHz.

Australia: Radio Australia is using six new frequencies from November 5. 6060kHz 1530-2030GMT; 6080 1030-2030; 11800 1745-2000; 11865 1500-1730; 15105 1015-1530 and 15130 0030-0130.

Austria: Vienna is using some new frequencies including 5945kHz 0400-0600; 12015 2100-2400 and 17770 0400-0600 to Australia and New Zealand, while at 0600 21470 and 21550 are both well received.

Botswana: Gaborone on 4845kHz heard with march and identification at 1830GMT.

China: Radio Peking heard with the anti-apartheid programme from UN Radio and noted on Thursday 1630-1700 on 15040kHz in English.

Germany: Deutsche Welle broadcasts in English to Australia and New Zealand 0930-1030GMT on 9650, 11850, 15275, 17780, 17800, 21540 and 21680kHz. at 2100-2200 on 7130 and 9765kHz.

Greece: Athens on 11955kHz opening 0000GMT but mixed with BBC.

Israel: Jerusalem to Australia and New Zealand from November 5, 0500-0515 in English is using 11655, 17855 and 21495kHz.

Korea: Radio Korea using two new frequencies 7550kHz at 1600, 2000 and 2300 and 9870 0530 and 1330 for 30 minute programmes in English.

New Hebrides: Radio Vila has extended its schedule and now broadcasts on Saturday previously a silent day. They are operating on 1420, 3945 and 98mHz FM.

Nicaragua: Radio Nacional heard very strong on 5950kHz all night and best around 0800 is testing with 50kW on this frequency.

Norway: Oslo is using new frequencies to this area 0700-0830 is on 9590, 11850 and 21730kHz and 1100-1230 is on 17840 and 21730kHz.

Spain: Madrid in Spanish to Australia and the Philippines 0800-1100 is on 9520, 9790 and 11730kHz. Alternative frequencies are 9510, 11890 and 11995kHz. English to Europe 2030-2230 on 7155, 9505, 11840 and to North America 0515-0615 on 6065kHz.

Swaziland: Trans World Radio on 4760 heard in German at 1830, while at the same time 4790kHz has a broadcast in Portuguese.

Taiwan: Taipeh in English 2145 on 9685, 11825, 15225 and 17890kHz. According to a letter from the President, last year they received over 73,000 letters and they plan a new programme format for the future.

U.S.A: KGEI is using 9575 to November 5, this frequency replaces 9685kHz for English 1000-1100GMT. From November 5, 9575 will be replaced by 5980kHz.

U.S.S.R: The new Radio Moscow World Service noted 0400-1600 and 2100-2300 with a DX Session on Saturdays at 0533 on 17825kHz.

SPECIAL Holland's Happy Station for it's 50th anniversary broad-

cast on Sunday 19 November. Only 4000 printed so be guick! Nihon SW Broadcasting has a special QSL for 23 November when it will co-broadcast on a satelite link with KZOO Radio in Hawaii. Beginning 1530 GMT that day with the EE prgm "Tokyo

SPECIAL QSLs are offered by: Forum Get-together" on 3925, 6055 & 9595kHz, there will be some 15 hours of programming simulcast with the Honolulu station. Reports, with an IRC, to Nihon SW Broadcasting, 9-15, Akasaka 1-Chome, Minato-ku, Tokyo, Japan 107.
