1974

world dx handicapped aid year

March 1974

Vol. IV — No. III

KEYNOTES

THIS MONTH WE CONGRATULATE 3 NEW FULL MEMBERS

DON MOORE
MILESBURG, PA.

LEONARD DAVIDONIS
ATHOL, MA.

ROBERT A. BECK
CANTON, OH.

Certificates of Full Membership and a copy of the SPEEDX Constitution were mailed to each of the above in February.

SUPPORT OF HAP PROGRAM

In further support of the HAP program, the SPEEDX Board of Directors has unanimously approved (5-0) an organizational chart change which removes HAP from the jurisdiction of SPEEDXTRAS, and also changes Gene Moser's title from "Chairman" to "Director" of the program.

Basically, the operations and direction of the HAP program are intended to remain as they have been in the past, under the capable management of Gene Moser. While HAP originated under the guidance and support of SPEEDXTRAS, its development and its proven success are based upon a philosophy of a universal need which can most effectively be dealt with through the cooperative participation of ALL HOBBY GROUPS, and free from the dominance of any.

SPEEDX WELCOMES THE FOLLOWING NEW ASSOCIATE MEMBERS

HOBERT BEAL
WALLA WALLA, WA.

STEPHAN SCHILDE
FED. R. GERMANY

SAMUEL MASLANEY
PITTSBURGH, PA.

LARRY K. MARSHALL
CHULA VISTA, CA.

SHAUN CARRICK
BOWIE, MD.

MICHAEL CHABAK
BOULDER, CO.

KENNETH MASSA
ORANGE, CA.

ANDRE BEAULIEU
MON. QUE. CANADA

JOHN E. MOSMAN
PALATINE, IL.

MICHAEL STINE
PARKLAND, MD.

LAWRENCE BEAT
TOLEDO, OH.

WENDELL WEATHERFORD
THE NETHERLANDS

JOHN RYAN
WOBURN, MASS.

EARL CHAPMAN
HARRISBURG, PA.

JOSEPH KANNRY
BRONX, N.Y.

WILLIAM SAMSELL
FALLING WATERS W.VA.

SPEEDX urges you to support your club by submitting your loggings to the various editors.

SOUTHERN CALIFORNIA AREA DXERS

Long lines of cars to the gas pumps at the few stations that were open in Southern Calif. on February 16 and 17 did not stop 51 DXERS from getting together those two days for the second meeting of SCADS in Tustin, Calif. The two days were crammed with interesting topical talks, question and answer periods, contests and time to get better acquainted with your DX neighbor. Thanks to Perry Ferrell of Gilfer's Associates for his up-date of equipment, on tape, which was very interesting. First prize for the In-Signal & ID Quiz went to SPEEDX Publisher, Wendell Benedetti. Dan Henderson of Laurel, MD. walked off with first prize in the DX contest, Dan logged many exotic early morning stations including Radio Kashmir on the SPR-4 and SX-190. The antenna was a short piece of wire lying on the deck of the balcony. An auction of used equipment and articles netted \$ 57.50 for HAP.

Editors note: To bring you the quarterly Propagation Report, Tips & Topics has been pre-empted. T-&-T will be back next month.

OMAN: Radio Oman, 7150/11890, f/d Date Palm Folder QSL in 5 months, also rcvd sked (Wilczek-IL); 2735, same in 31 days, 2 IRC (Kpnen-WI); 11890, same in 32 days (Mahoney-FL).

SAUDI ARABIA: BCSKSA, 15060, f/d white card, sked and letter in 81 days for an EE report on an AA program (Ledford-NJ).

UNITED ARAB EMIRATES: Radio Dubai, 15320, f/d Map card, sked and paper pennant in 29 days, 2 IRC (Brenesal-FL); in 24 days, 2 IRC (Card-RI); 21655, same in 31 days (Cleveland-NY).

YEMEN ARAB REPUBLIC: Radio Sana'a, 9780, f/d mimeo form letter in 30 days, FF report (Van Horn-TX); same in 58 days, 2 IRC (Konen-WI).

AFRICA

ANGOLA: Radio Nacional, 11955, f/d form letter in 57 days, PP report, 2 IRC (Konen-WI). As mentioned previously, EE reports are OK (kap).

CAPE VERDE: R. Voz de Sao Vicente, 3930, p/d card in 25 days for PP report, 2 IRC (Hall-CA); 7155v, same in 3 weeks, 2 IRC (Howard-CA). Nice to see 2 QSLs from this toughie this thime (kap).

EQUATORIAL GUINEA: R. Nacional, 5005, freq only personal letter and photo via registered mail in 7 weeks, SS report, 2 IRC (Wilkins-CO). Thanks to Bill Annis in Lafayette, IN (and also apologies for misplacing this item for a couple of months) for the following info. Bill sent a report to Radio Malabo and received a letter in response. The letter was not a QSL but a brief autobiography of the writer and a request for good old U.S. money. Interestingly enough, the request for funds was in perfect grammatical SS, but the personal parts were in not-quite perfect SS. Two things come to mind here, #1, that someone other than the writer had prepared a "canned" form letter and, most importantly, #2, we QSL hounds often do the same when using a prepared form letter in a foreign language and then "fill in the blanks" with some lousy grammer (kap).

GABON: Radio France Internationale Moyabi Relay, 15435, f/d card in 250 days, IRC (Kivell-NM); same along with pennant in 112 days (Stephany-NY).

KENYA: Voice of Kenya, 4804, f/d aerogramme in 6 months after 2 follow ups, 2 IRC (Cleveland-NY); 4915, same in 30 days, 2 IRC (Konen-WI).

MADAGASCAR: Radio Netherlands Talata Relay, 15220, 11735, 15560, f/d cards via Hilversum in 15 days (Weikel-MI), in 14 days, IRC (Brewer-AR), in 12 days (Streeter-NY), in 56 days (Welch-MA), in 23 days (Konen-WI).

MOROCCO: RTV Marocaine, 15105, f/d Antenna Sketch Card in 37 days, FF rpt (Ruckman-OH); 15335, same in 41 days, FF report (Barto-CT). Sam. glad that that VOA tip I gave you resulted in your receiving that most rare and elusive reception (kap).

NAMIBIA: Radio South West Africa, 4965, f/d "Aloe Dichtoma" card, sticker and book in 82 days, 3 IRC (Stephany-NY).

NIGERIA: FRCN-Kaduna, 4770, f/d mimeo letter in 424 days, 2 IRC (Speer-CA), same in 40 days, 2 IRC (Starr-GA), in 13 months (Latko-AZ), in 2 months for taped report, 3 IRC (Kapinos-MA). No, I wasn't especially lucky, it was the 4th report in 3 years (kap); Cross River Radio, 6145, f/d mimeo letter in 59 days for IRC (returned) (Leite-MA); Voice of Nigeria, 7255, f/d Remembrance Arcade card in 5 months, 2 IRC (Wilczek-IL); 15120, same card in 7 months (Sugai-Japan); same in 190 days (Sienick-NJ).

SAO TOME e PRICIPIE: Radio Nacional, 4807, f/d tri lingual letter in 62 days for PP report, 3 IRC (Leite-MA).

SENEGAL: O.R.T.S., 4890, date/time Blue and White Logo card in 32 days, 3 IRC (Kivell-NM); same in 22 days, 2 IRC, FF report (Streeter-NY).

SIERRA LEONE: SLBS, f/d personal letter in 18months total, 6 months after follow up, IRC (Wilczek-IL).

SOUTH AFRICA: SABC, 4835, f/d card in 23 days long with sked and pennant (Sharp-FL); Radio RSA, various frequencies, f/d cards in an average 30 days (Wettersten-OH, Lipman-NY, Hecht-PA, Rising-CA, Card-RI, Opitz-VA, Weikel-MI). Pennants also rcvd by those who asked.

DX MONTAGE

RESEARCH/COMPILATION/REDACTION by A. W. BROOKS

74 Massachusetts Road

Oakdale, Connecticut 06370

GREETINGS FROM DISASTERTVILLE (or "It's Not Nice To Fool Mother Nature"): Just prior to the recent holiday season much of Connecticut was greeted by the unprecedented ice storm "Felix"...bringing with it prolonged power outages, severe tree damage, and much general inconvenience...all sufficient in scope to result in declaration as an official disaster area. Quite naturally, DXing is low on the priority list under such circumstances...but among the casualties of the storm was your editor's painfully constructed long wire antenna which had counter-balanced properly between roof apex and near-by oak tree. Anybody wanna buy a "U-shaped" long wire?

WISHING YOU A PLEASANT ST. VALENTINE'S DAY:

"Remembering the hue and cry from those who missed FEB's April, 1972, program entitled "Sexual Freedom In Finland", we wish to take this opportunity to remind those so inclined that on 14 February Radio Finland

aired "The Sex Life Of Finns" as their weekly Spotlight feature. Missed it again, huh?

HAS MAN INVENTED A BETTER MOUSE TRAP?: Long Island listener Julian Kratter has received his autographed photo-card of the Radio Nederland "DX Juke Box" BC gang of Van Gelder, Vastenhoud, and Neumann...no, that's not the latest college draft list of Team Ajax. If your inclination is toward one-dimensional likenesses of International radio personalities, why not post such a request to Radio Nederland. By the way, return postage would be appreciated because Neumann needs either a raise or the IRCs...otherwise he may have to give up DXing...after all, he's already given up driving on Sundays because everyone neglected to send a gallon of gasoline with each reception report...

ACORNS FROM OAKDALE:

The toughest part of dieting isn't watching what you eat; It's watching what your friends eat...

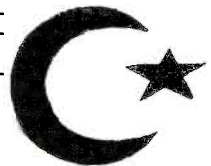

SWEET CAROLINE?: A recent report indicates that Radio Caroline returned to the air on Christmas Day...after a silent period from last June...from the ship "Mi Amigo" formerly used by now defunct Radio Atlantis...

YOU'RE NOT LIKELY TO HEAR IT ON THE VOICE OF TURKEY, BUT... anyone convicted in Turkey as a drunk driver is required to fulfill a rather unusual condition of sentence...upon being found guilty the offender is taken out of town some twenty miles and forced to walk back under police escort...which may or may not be as severe as the penalty imposed in Malaysia for the identical offense...in that Far Eastern country when the driver is jailed, if married, the offender's spouse goes to jail too! And does not collect one hundred dollars, of course!

TIME WAITS FOR NO MAN...USUALLY: The City of Canton, Ohio, is famous for two things... the Football Hall of Fame and SPEEDXer Bob Beck. The latter of these two landmarks did record, indeed, the last GMT and the first CUT announcements by WWV...admitting in the process his theory that it might be a collectors' item...perhaps by 2074! Bob's real purpose, though, is to remind us that as of January 1st both WWV and WWVH are using CO-ORDINATED UNIVERSAL TIME in place of Greenwich Mean Time...same time...same station... only the names have been changed to protect Guy Lombardo...which reminds us that Gotham DXer Richard Shaftan thought that final day of 1973 was a bit lengthy...and he was soon provided with confirmation of that fact as the New York Times indicated that the Paris Bureau International de l'Heure had decreed insertion of a "leap second" immediately before midnight...thus 1974 arrived a second late...but don't tell Ben Grauer!!!

PHILATELY HONORS RADIO:

four countries have quite recently issued commemorative stamps honoring the respective anniversaries of radio broadcasting in their nations. West Germany released a "50 Jahre Deutscher Rundfunk" issue during the waning months of 1973. During November the Australian Post Office honored the Fiftieth Year of Regular Radio Broadcasting with a single commemorative. Almost simultaneously Belgium issued a single denomination saluting the 50th Anniversary of Belgian Broadcasting. Another European postal organization...Austria...becomes the first to issue radio philately in 1974 with a January release honoring 50 Years of Austrian Radio.

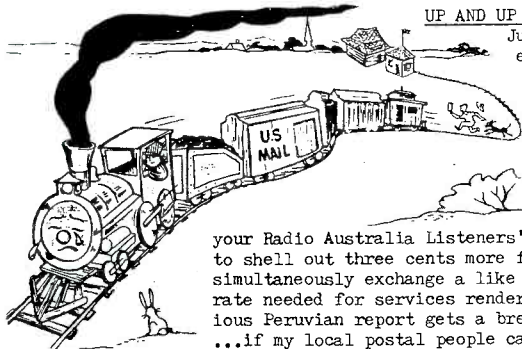

DX MONTAGE

.....IF YOU MUST BLAME SOMEONE FOR THIS CONTINUATION, MAKE IT ALAN W. BROOKS!

"PROSZĘ MI POMOC?": How many times have you wandered across the bands only to encounter an unfamiliar tongue which causes you to shout "nie rozumie" and then plead "bonvolu paroli pli malrapide"? Nevertheless, be of good cheer because "aole ia he mea e hila hila ai". One of the problems faced by most shortwave broadcast enthusiasts, especially those who are new to DXing, is the confusion of so many different languages on the shortwave bands. Not being able to understand the language in question is only part of the problem. Half of the difficulty is being able to simply recognize the language being heard...much less being on top of the content of these programs. For those of us who must say "mi parlas nur Angle" help may, indeed, be on the way. When one is able to determine the language it is then a comparatively simple matter to combine that knowledge with time and frequency of the transmission and then use a reference book to find out where the station is located, or at least narrow the possibilities down quite a bit. In response to cries of "tafadhali nionyesne njia", or "vaer sa snild a hjelpe meg", or, occasionally, "lütfen bana yardin edin", the Radio Canada Shortwave Club will be starting a new series commencing March 2nd which should be of interest to DXers everywhere and one which will go a long way towards helping DXers to solve that problem of "what language am I hearing". This series will feature spoken examples of over fifty different foreign languages, the ones you're most likely to hear on the various shortwave broadcast bands. Undoubtedly, at a given point in these sessions you may well exclaim "gizack badanta, wami d jagwanc wigowag, ni-ya-yo" and further conclude that "cred ca nu e greu de loc". RCI will also be telling you the names of the various countries where these languages are spoken. Thus, while you may not come away with an understanding of the absolute urgency of the request "kiko wapi choo cha wanaume" nor share the discreet embarrassment of "tafadhali badilisha zipu", chances are excellent that you will be able to identify more readily the language employed, if not the country of origin. This program will be an especially valuable series for those who are able to tape record it, keeping it for future reference. I feel certain that when this programming has been terminated you will feel "bardzo mi bylo przyjemnie" and will want to express your gratitude to Radio Canada International along the lines of "nui wale kou kokua ana ia makou". A regular Saturday feature, Radio Canada Shortwave Club can be heard at 1200 GMT on 15315, 11825, and 5970 with repeat transmissions at 0100 GMT on 11945, 9755, and 6085, and again at both 0400 and 0500 GMT on 9655 and 6135. And so, my friends, "dovidzenia" and "lykke til"...or failing that, at least accept a hardy "selamat mendengar lagi"...

UP AND UP AND UP SHE GOES AND WHERE SHE STOPS...

Just as though you needed another reminder that the brief respite granted us in January by the cost of living council is over, those reception reports to the Maldives, Tristan da Cunha, Rarotonga, and Reykjavik posted after March 1st will cost you five cents more resulting in another USPS record of twenty six cents per one-half ounce. Those airmail postcard reports to keep up

your Radio Australia Listeners' Club requirements will now require you to shell out three cents more for a new bite of eighteen cents; as you simultaneously exchange a like amount for that international aerogram rate needed for services rendered toward NHK's report form. That precious Peruvian report gets a break, though...a hike of but a single cent...if my local postal people can be trusted to relay information verb-

ally in an accurate manner. Another eighteen cent rate seems to have been assigned to the international first class surface charge...used by American DXers solely to mail congratulatory messages to General Amin...while that "thanks for the verification" postcard sent in sheer gratitude to Damascus, Kabul, or Conakry by surface mail will now make you twelve cents poorer. Of course, these are all subject to change...but, hopefully, WITH notice!...

THIS IS MY FIRST AWARD...SO PLEASE BE KIND: At the February 24th gathering of the Boston Area DXers the February edition of "DX MONTAGE" was the recipient of the Mike Macken Appreciation Award For Excellence In Journalistic Absence. In his presentation speech, Mike noted that the February column was the best "Montage" he ever read. Actually, the copy for last month was sent to our publisher, but when it arrived eighteen minutes had been mysteriously erased!...

Poway, CA 92064

RADIO NEDERLANDS Radio Components Course will start on March 7th. Tune in and learn a little more about what makes your receiver tick. No charge, of course (boo). Enroll by writing PN, Box 222, Hilversum, Holland.

Recommended reading: the Jan. 1974 issue of "Radio-Electronics" has a very good 7 page article on 'Modern Receiver Circuits'. Look for it on your newstand.

Per don Johnson "Conserve Energy, DX in the dark." Seriously, with many of us facing possible power blackouts during the next year, give much thought to being able to use a receiver on battery. The SPR-4, SX-190, HRO-500, and Barlow-Wadley would all be nice to have for that time. They all can be connected to run from external power very easily. You'll need both news and entertainment during the blackout, and it's the best possible time to DX with all your local sources of QRM shut down.

I have a number of lightning arresters available free. Write.

Jim Whitehead is using a folded dipole (two parallel conductors), and is having trouble with the wires twisting at the ends. Most people use T-V lead in for the two wires, which is conveniently held apart. The twists themselves don't matter to the radio waves, as the voltage induced in the wire is not dependant on which wire is on top or bottom. However, with open wire and spreaders, there is the chance that the two wires will short out to each other, degrading the performance of the antenna. The easiest way to avoid this is to use a standard dipole, instead of folded. Spacers should be every 4 to 8 inches for a FD. a swivel at each end should help some.

Mahlon Hale is using a audio filter following his receiver to help remove QRM, and wants to know wheather Telex communications headphones would do a better job than Hi-Fi types. I don't have a schematic of the audio filter in question, but in general, filters are not designed to drive low impedance loads such as speakers or Hi-Fi type headphones. Telex, and other communications type, including most surplus, headsets would be 600 to 2,000 ohm, and would present a much better match to the filter. If the filter is doing it's job at all, the headset would not improve it's restricted frequency response very much.

From the conversion at the recent SCADS meeting, (you should have been there) it seems like everyone has questions about antennas. THE PURPOSE OF THE ANTENNA IS TO DELIVER A SIGNAL TO THE RECEIVER STRONG ENOUGH TO OVERCOME THE NOISE GENERATED WITHIN THE RADIO ITSELF. If it does that, it's done it's share. It's the job of the receiver to amplify that signal enough to rattle the headphones. Tune your receiver to a clear spot on the dial, and note the volume of the static. Now disconnect your antenna. If the noise level goes down markedly, your antenna is adequate for the conditions at that time and freq. Notice also that receiver noise is a smoother hiss than static. The antenna cannot tell the difference between static and the desired station, except by the direction of arrival. If your receiver has a high internal noise level, a antenna tuner or preamp will help, but a antenna tuner or preamp will not pull a weak signal out of static and interference picked up along with the desired signal. The only help for that is a antenna with directional characteristics favoring the direction of the station you want. Most modern receivers have enough gain, and low internal noise-sets that don't, quite possibly, are defective and can be brought up to like new condition with tube replacement and proper alignment. Second test: if your antenna is OK by the above definition, you should never have to turn the volume control all the way up. If so, the receiver doesn't have enough gain. If your receiver has a low noise front end, and high gain, a external preamp or antenna tuner will not help much. While a preamp between the antenna and receiver will cause the S meter to read S-9 instead of S-3 on some particular station, you just end up turning down the volume control; you have the same mixture of desired station and static, and can't understand the audio one bit better. A preamp is most likely going to hurt, by causing the receiver to overload on the strong stations. Can you hear Yankee Doodle in the background faintly, whenever you are tuned within 50 kHz of a VoA station? VoA doesn't splatter- that's cross modulation in your receiver, one of the lesser known receiver faults. Where this is most noticable is when you are tuned to a ham band and a guy a couple of blocks away goes on the air on the same meter band. With a bad case of overload, your receiver might go completely dead. Enough heresy for one month, see you in April.

SPEEDXTRAS

THE PROJECTS DIVISION of SPEEDX

Projects Coordinator — Jack White • 780 NW Wallula Ave • Gresham Oregon • 97030

Since January 1968 we have continuously prepared at least one regular monthly column for an SWL club bulletin. Also during that period, several other organizational offices or positions have been held as well.

In recent months, professional obligations, family considerations, and what seems to be developing into a chronic medical problem have combined to place unprecedented demands upon our time. Despite congressional action to swap darkness for sunshine, the Good Lord has seen fit to maintain the daily quota at twenty-four hours. Clearly the establishment of priorities is in order.

With some regrets, but also wishing to insure that SPEEDX will continue to hold its position as the active SWL organization, the Projects Division (SPEEDXTRAS) is being placed in the capable hands of Art Glover. Also after this issue we will no longer be preparing the quarterly propagation supplement to the SPEEDX magazine.

Thanks go to those many who have supported and assisted us through the past six years.....and if it can be remembered how to go about it, we'll be meeting a lot of you once again along the late night DX trail.

73,

JACK WHITE

ALL FUTURE "SPEEDXTRA" and/or SPEEDX PROJECTS DIVISION CORRESPONDENCE SHOULD

HAPENINGS

News about the
HANDICAPPED AID PROGRAM

GENE MOSER, HAP DIRECTOR
6805 Woodland Court
Coloma, Michigan 49038 USA

"1974 WORLD DX HANDICAPPED AID YEAR"

INDEPENDENCE!

This is a special day for HAP. As reported last month, HAP is no longer a part of SPEEDXTRAS. Instead, we are now a separate department within SPEEDX. Our changes being the following:

1. Our official printed "voice" will remain in SPEEDX. This is our main tie with this club.
2. HAP, as most of you know, was founded by SPEEDX. In all future reference to SPEEDX we will list them as "SPEEDX(parent club)". This will identify them as our founder.
3. In the past the SPEEDXTRAS/SPEEDX Treasury has subsidized our operation. Over \$320 was needed last year, 90% of which you & they provided, with 10% from other clubs. Because the Xmas Tree Fund Drive was so successful (\$168.50) and an add'l \$66 was raised, I have asked SPEEDX not to support HAP financially as of 12-73. Instead we are depending on every club in North America, and every SWL/DXer. Our hope is that all concerned will purchase some HAP items offered over the years, or make a donation. By having the hobby support us we hope to serve every club equally.
4. I want all SWLs, DXers, club editors, BODs and broadcasters to consider HAP as an INTER-CLUB ORGANIZATION. As soon as possible we will serve not only SW clubs but, BCB, FM, TV, Utility clubs, etc. We call on clubs specializing in areas outside SW to help us.
5. Our project is now completely run by a HAP BOD. It consists of Bill Paschke, Vice Chairman, Ted F. Poling, PALS Chairman, and myself. We have a revised HAP Operations Leaflet which guides us. This leaflet is available for a #10 SASE from: Bill Paschke, 855 Elm St., Beloit, WI 53511.
6. As reported last month HAP has its own bank account. All checks, MOs, etc, should be made payable to: HANDICAPPED AID PROGRAM when making donations or purchasing HAP items. But don't worry, we're not going to hound you for donations, Hi. If we have to do that, HAP becomes a "drag" for you and a "pain" for us. HAP is providing a useful and badly needed service. When the SWL/DXer supports HAP he is in fact sponsoring a HAPee, paying for an antenna, shipment of equipment, etc. So, you are very important to us. We don't exist without the SWL. There's nothing wrong with being an advanced DXer. We need them too. But the so-called 'Little Guy' is important to HAP. We must have your help.
7. We will offer various items to you this year. Among them will be our HAP Jacket Patch(\$1). A new rubber stamp has been produced by HAP and we will offer it to you this month. I think you'll enjoy using it.

** SMILE ** SMILE ** SMILE ** SMILE ** SMILE ** SMILE ** SMILE ** SMILE **

HAPPY Stamp is a new rubber stamp which looks exactly like the smile face in my masthead. Headphones and all, Hi. Its 7/8" in size and looks GREAT on letters, reception reports, cards, and envelopes! The price is US\$2 for 1st class delivery in Mexico, Canada and USA. US\$3 for Air Mail delivery to all other countries. This stamp is available to all SWLs regardless of club. We wanna sell a million of um....so put a SMILE on your face.....order a HAPPY stamp today. Your support is appreciated!

That does it for this month. Thank you for reading this over. Your comments pro or con, are always welcome.

- REFRAN -

"Hablando se entiende la gente"

Got a bumper crop of loggings this month so I will skip the chit-chat and get right into them. Lots of goodies too!! Check out Colombia, Ecuador, Peru, and Costa Rica as well as the many interesting 90 mb catches. So, with a reminder that all times are GMT, dates are in the month/day format, and reception conditions are given in the SIO code, its off to the races for another month. That reminds me, incidentally, that last month's refran was "Don't put the cart before the horse". Get it??

SWAZILAND: Trans World Radio Manzini Relay, 5055, f/d folder card in 56 days, 2 IRC (Hosmer-MI); 9730, same in 48 days (Taylor-MO).

TOGO: Radio Togo, 5047, f/d Map card in 92 days, FF report, 2 IRC (Ruckman-OH); 7265, same in 68 days (Ledford-NJ); 5047, same in 183 days, 2 IRC (Welch-MA).

UGANDA: Radio Uganda, 5027, f/d mimeo letter and personal letter in 66/77 days, 2 IRC (Konen-WI).

UPPERVOLTAGE: RTV Voltaique, 4815, f/d form letter in 98 days for FF report, SASE (Hall-CA). Stu Hall brought up an interesting point that bears publishing. He has had excellent luck with the Africans by sending a SASE rather than the traditional mint stamps or IRC. (kap)..

ZIMBABWE: ZBC - Radio 1, 3396, date/freq large Map card in 88 days after follow up, 343 days total, 2 IRC (Stephany-NY).

EUROPE

ALBANIA: Radio Tirana, 7120, f/d Spiriti of the Revolution card in 87 days (Sharp-FL).

AUSTRIA: ORF, 5945, f/d Picture of an old Winepress card, sticker and sked in 34 days (Hesch-NY); f/d "Glass Towers card in 48 days, 2 IRC (Robinson-TN). Austrian Radio welcomes taped reports, especially from the "hitherlands" of the U.S. and the rest of the World. These tapes are most valuable to their engineering people. (kap).

BELGIUM: BRT, 7465, f/d form letter and DX Club application in 36 days (Opitz-VA); 11645, same in 26 days (Cleveland-NY); 21525, f/d Market Place card in 38 days (Sharp-FL); "La Voix de L'Amitie", 21460, f/d "Boilers" card and colorful sticker in 17 days (Stephany-NY).

BULGARIA: Radio Sofia, 7115, f/d cards in 42 days (Mahoney-FL), in 63 days (Hecht-PA); 9700, same in 63 days (Robinson-TN), in 44 days (Cleveland-NY). Radio Sofia has an interesting "pyramid scene" to obtain full membership in their DX club. Folks who know tell me that the effort is worth what one winds up getting (kap).

DENMARK: Radio Denmark, 15165, f/d $\frac{1}{4}$ Painting card in 22 days, 2 IRC (Schulsinger-OH); f/d "Aerial Tower" card in 44 days, IRC (Ward-PQ). Hmm...the old "Tower" cards are back, perhaps they are out of the paintings set (kap)

ENGLAND: VOA Woofferton Relay, 7200, f/d "Golden Gate Bridge" card in 12 days (Streeter-NY).

FINLAND: Radio Finland, useless form letters were received by (Shryock-MO, Cleveland-NY, Starr-GA). Yes, BOO HISS. First, "we are not a supermarket", then not even a n/d card. Coupled with a lack of a true "North American Service" (evenings local time), one tends to wonder if they are interested in the North American Audience at all. Folks do remember when Radio Finland was a reliable QSLer and has a decent NA Service (kap).

FRANCE: Radio France Internationale, various frequencies, f/d cards in varying times (due to RFI reorganization) were received by (Jones-VA, Drollinger-WI, Wettersten-OH, Philip-BC, Cord-RI, Rising-CA).

GERMANY-EAST: Radio Berlin International, 9560, f/d card in 3 months (Cleveland-NY), f/d Discone Antenna Card (Instructions how to build your own) in 49 days along with pennant and newsletter (Greenbauer-AZ), f/d scene card and several very nice First Day Covers in 2 months for taped report and used U.S. stamps (Kapinos-Miller Country); 15240, f/d card in 31 days (Leite-MA); 21540, f/d card in 50 days (Ward-PQ).

GERMANY-WEST: Deutsche Welle, various frequencies, no data Broadcasting Center cards in 28 days, 2 IRC (Trager-CA), in 34 days (Thunberg-PA), in 57 days (McCants-AL), in 34 days along with 2 books about DW (Renn-WA); Sudfunk, 6030, f/d Building card in 95 days, 2 IRC (Stephany-NY); Radio Bremen, 6190, f/d Blue/Yellow Antenna card in 59 days, IRC (Parks-FL).

GREECE: Voice of Greece, 9865, f/d "Plomari" card in 47 days, IRC (Robinson-TN); 15050, f/d Ydra Isiano cd in 145 days, 2 IRC (Kivell-NM); Voice of America Kavalja Relay, 7205, f/d "41 years - San Diego Scene" (new card) in 10 days (Kapinos-MA); 9700, f/d 40th anniversary cd in 9 days (Hosmer-MI).

SWBC DX - EUROPE/AFRICA

Deadline: 15th
Times & Dates: GMT
Frequencies: kHz

Robert Butterfield
P.O. Box 398
Belmont, Massachusetts
02178 U.S.A.

Highlights: This month we have a great many excellent loggings. In Europe we have some loggings from the Azores. In Africa we've got reports from Afars & Issas, Reunion, and Somalia. In general the Africans have been coming in with consistency. On to the loggings.

EUROPE/AFRICA ROUNDUP:

Ciao! A very special thanks to the 61 reporters to Europe/
Africa this month, making it the biggest since SPEEDX's start.
Let's try for 75! And of course, a special welcome to new reporter
Dave Browne, Dave Butler, Shaun Carrick, Ken Earhart, Mark Eckman,
Craig Hannan, David Romani, Mike Savu, and last but not least,
Evelyn Turner. Hope you all will become regular contributors.

We've got a back log of mail piled up here and hope to start
digging into it as soon as possible. But, if you do have any
questions or comments do not hesitate to ask or write.

Also, let me thank Jon Fay for the great job he did for
January, ran out of space in last month's column and didn't have
a chance to thank him. Jon is our DPH, and a good one at that.

On to the news then. A reminder that all WDXC items appear with their permission.

U.S.S.R. goes DX: Gus Miller sends word: "Radio Moscow has a good DX program. The announcer starts the show by saying 'Hello there, Hams'. Some of the topics covered are the frequencies of domestic Soviet Stations, when and how to hear them, DX news from various DX Clubs, and answers to listener's questions. The DX program is broadcast Thursdays, at 0015 GMT as well as at other times during the daily feature program."

International Waters - A new entry: "In March or April a new station is expected to operate from a vessel which comes from France. The station will have the name Radio Victoria or Radio Skylab. Already on board the vessel is a shortwave transmitter of 100-200 watts, a medium wave transmitter and an FM transmitter."

(WDXC)

Belgium - ORU: Jim Whitehead sends this item in: "According to Sweden Calling DX'ers, ORU is about to begin testing two (2) new 250 kw transmitters. The transmitter installation is complete but the antenna switching mechanism is not yet in operation. It is anticipated that full scale operational testing will begin soon. ORU is presently using 6055 and 11855 to North America."

Jamming - Greece and U.S.S.R.: "According to the political daily newspaper The Guardian, Deutsche Welle's and the BBC's broadcasts in Greek to Greece are being jammed, though it does not specifically come out and say the Greek Military Junta is behind it."

(Serge Neumann)

"The U.S.S.R. resumed jamming against Deutsche Welle on January 16th, when the latest book of Alexander Solshenizyn was introduced. It is expected that the jamming will stop after the end of broadcasts concerning lectures on the book."

(WDXC)

Swaziland - Trans World Radio: From the wilds of Nekoma, Steve d'Adolf quotes a letter he received from a friend at TWR, Bonaire: "... construction is progressing but it will be well into this year before anything goes on the air. In fact I suspect it might be next year before it goes on. I haven't seen any 'Pert' charts for the Swaziland station but they are having some unusual problems. Parts aquisition is one, and weather is another. We saw some pictures of the guys trying to work in mud up to their knees. Swaziland is having its rainy season right now. You can imagine the difficulties that that causes."

Algeria - Radiodiffusion Television Algerienne: The RTVA has been observed with an English transmission at 1900-1930 on 15150, 17745 and 17825 kHz.

(WDXC)

Chad - Radiodiffusion Nationale Tchadienne: "This station does indeed seem to have a new transmitter with a power of 100 kw or so (listed 30 kw) on 4904.5 with excellent reception in Europe."

(WDXC)

Austria - Osterreichischer Rundfunk: "From February 17th to march 17th the ORF is running a contest to gain an insight into the popularity of the station. During the period in question a different question will be asked each day in the foreign language programs as well as the German Service. In addition to their answer, listeners will be asked to give reception date and time. In addition to the daily questions, special questions will be repeated each day for a whole week. Entries should be posted by March 31st 1974. Prizes include trips to Vienna, radios, cameras, binoculars, books, records, and (even) a rubber dinghy."

(ORF)

HOLLAND: Radio Netherlands, 17605, f/d Flevo Groundbreaking card in 22 days (Hesch-NY); 9590, f/d Authentic Costumes cd in 13 days (McKinstry-VA).

HUNGARY: Radio Budapest, 9570, f/d card in 2 months (Cleveland-NY); 9835, f/d card in 90 days (Miller-CA); Special 25th Anniversary Souvenir cards were received by (Soomre-MA, Leite-MA, Kapinos-MA).

ITALY: Radio Milano International, f/d sheet with QSL message, personal letter and sticker in 86 days, 3 IRC, v/s was Dario Montferini (Stephany-NY); f/d card in 34 days (Barto-CT).

LUXEMBOURG: Radio Luxembourg, 6090, no data Staff Photo Cards in 199 days, IRC (Rising-CA), in 212 days, IRC (Schulsinger-OH).

MALTA: Radio Mediterran, 5960, f/d Map cards in 19 days (Wilczek-IL), in 21 days, 2 IRC (Streeter-NY), in 27 days (Sharp-FL); IBRA Radio, 9555, f/d "Stockholm card in 20 days, IRC (Stephany-NY).

MONACO: Trans World Radio - Monte Carlo, 9610, f/d World Map Card in 22 days, IRC (Ward-PQ).

POLAND: Radio Polonia, 9675, f/d card in 85 days (Sienicki-NJ).

PORTUGAL: Radio Portugal, 6075, f/d "Seal" (the mammal kind) card in 18 days (Konen-WI); 11925, f/d "Centerpiece" card in 18 days (Starr-GA).

SPAIN: REE, 9630, f/d Art Works card in 31 days, SS report (Mahoney-FL), f/d card for monitor report (Miller-CA).

SWEDEN: Radio Sweden International, various frequencies, f/d cards in an average 45 days (Trager-CA, Sill-MA, Lipman-NY, Wettersten-OH, Barto-CT)

SWITZERLAND: Swiss Radio International, 3985, f/d card for taped report and 2 IRC (Kapos), 6135, same in 40 days (Lipman-NY); 9725, same in 58 days along with sticker, IRC (Hosmer-MI); 21570, same along with sticker in 20 days (Muzyka-NY), same in 31 days (Welch-MA); 25780, same in 26 days (Opitz-VA); 402 Geneva (UN Radio Transmission to the USSR), 14500, f/d Logo card in 17 days, this is SWBC, not a UTE, as the transmission is meant for the general public as well as Radio Moscow (Stephany-NY). Nolan, thank you very much for this information (kap).

VATICAN: Radio Vatican, 6210, f/d card in 3 months (Jones-VA).

YUGOSLAVIA: Radio Yugoslavia, 9610, f/d card in 42 days, 2 IRC (Baxter-KS); 9620, same in 32 days, 2 IRC (Leford-NJ).

OCEANIA

AUSTRALIA: Radio Australia via Shepparton, 9760, f/d Regency Bower Card in 19 days, IRC (Hull-WA); 15115, f/d Koala Bears card in 21 days, IRC (Brewer-AR); 21680, f/d Kookaburras card in 18 days (Radtko-CA); 21740, f/d Regent Bowerbirds card in 14 days (Baxter-KS); f/d Kookaburras card in 22 days, 2 IRC (McKinstry-VA).

GUAM: KTWR, 11920, f/d Antenna Slew Switch card in 30 days along with pennant and sked, for EE report, U.S. ms (Cord-CA); 9505, same in 18 days (Konen-WI). Don't forget, Guam, as is Saipan, are part of the United States for Postal purposes and U.S. mint stamps are a lot cheaper than IRC (kap).

NEW CALEDONIA: FR3, 7170, frequency only letter and folder in 30 days for FF report (Lorc-CA); Adventist World Radio via FR3 Noumea, 7170, f/d map card marked "First for USA for Noumea Site" along with sked, calendar, DX Stamp, RMI DX News Sheets, all for report to Poona, India AWR Asia HQ in 3 months (Wilczek-IL).

NEW ZEALAND: Radio New Zealand, 11960, f/d scene card, pennant and sked in 18 days, 3 IRC (Welch-MA); 15485, same in 14 days, IRC (Weikel-MI).

SAIPAN: KYOI, various frequencies, f/d "Bird" QSLs were received in an average 60 days by the following (Leite-MA, Konen-WI, Huffaker-MEX, Stephany-NY, Welch-MA, Jones-VA, Greenbauer-AZ, Barto-CT, Sharp-FL, Kivell-NM, Evans-TN, Schulsinger-OH, Lobdell-MA, Drollinger-WI, Baxter-KS, Rising-IA, Hesch-NY, Brewer-AR, Card-RI, Witte-CA, Hosmer-MI, Muzyka-NY, Streeter-NY, Ulmer-LA); certainly one of the most reported QSLs in the history of the SPEEDX QSL column. Don Hosmer came up with a great idea for a contest, so a tip of Kap's cap to him. Let's name the bird. Keep it clean, Mrs. Kap and I to be sole judges. Nice prize. Deadline will be 1 June. Have fun (kap).

SPRING 1974

Following a somewhat mediocre winter DX season we wish we could be the bearer of glad tidings in the form of a prediction for better overall conditions going into the spring.....unfortunately, the odds are rather against it at this point. After about mid April some improvement may become apparent, although the situation is likely to be one of two or three really "good" days followed by several of a lesser grade.

As summer comes, the long-range outlook would be for more stable day-to-day conditions with the general prospects improving. In the meantime DXers concentrating on long hauls should devote their attention to the highest frequency bands open into a desired region....particularly during the late afternoon/early evening period. For at least the first half of the coming spring, this is where the most consistent action will be located. Based on what could be considered as normal for a given band and time, should it appear that a "good" day may be at hand (and the odds also say an "excellent" or two may be in the offing), the opportunity to grab a rare bird on frequencies approaching the lower reaches of the predicted range would be well worth exploring. (See the accompanying forecast charts and legend).

For those (ute DXers in particular) who might be in the mood for some "off-beat" fare between mid-March and late April, try taking a quick pass across a band that is perhaps five to eight megahertz higher than the maximum indicated on the forecast chart. Some really unusual reception patterns could be observed if the band is producing. However, this is a chancy prospect, and while worth investigating occasionally, certainly not deserving of any great expenditure of time....a few moments of fast scanning should be all that is necessary to determine the probable course of events.

Through the years we have received many requests for information about propagation reference material. In responding, we have usually attempted to determine the extent of math or general science background possessed by the writer since there is very little material available between the categories of "overly simple" and "highly technical". However, an SWL now wishing to begin compiling some data in order to prepare his own general forecasts has the material at hand to do it for the next few years.....if he gets started right about now.

As most know, the 11 year sun spot cycle is now heading toward its low...where it will remain for maybe 5 or 6 years. If a very accurate log or journal is begun that will include such details as date, GMT, transmitter site, SINFO etc; then when that same date rolls around the following year, it may be expected that the general reception patterns will once again be duplicated. A few moments taken each time the headset is applied to note the quality of even those stations which are considered regulars can provide an extremely useful tool twelve months hence...and increase its value in twenty-four or forty-eight if regularly maintained. If such a record is developed, there will be little need for concern in five or six years when the sun spot curve begins to ascend again, because by that time you will probably have acquired sufficient first-hand practical knowledge to cope with the situation as it unfolds.

DE JW AR K

SPEEDX RECEPTION FORECAST

SPRING 1974

WESTERN NORTH AMERICA

EASTERN NORTH AMERICA

SIGNALS FROM

Latin

America

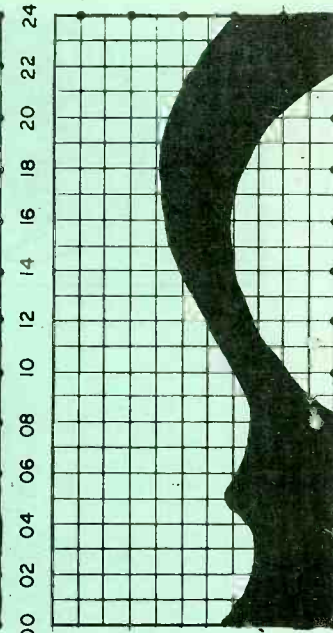

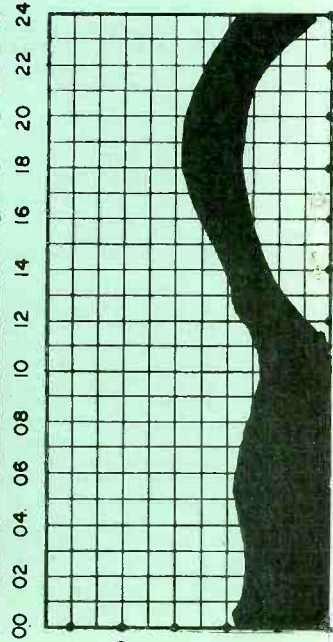

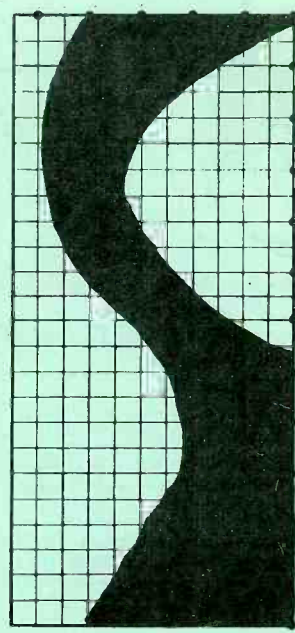

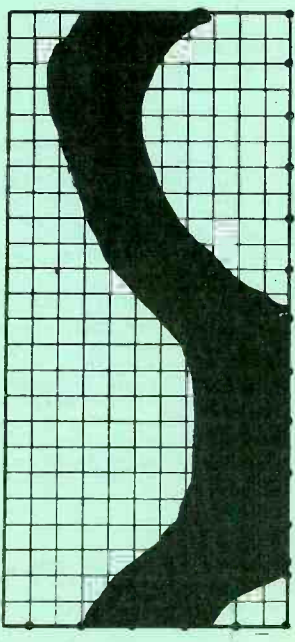

Europe

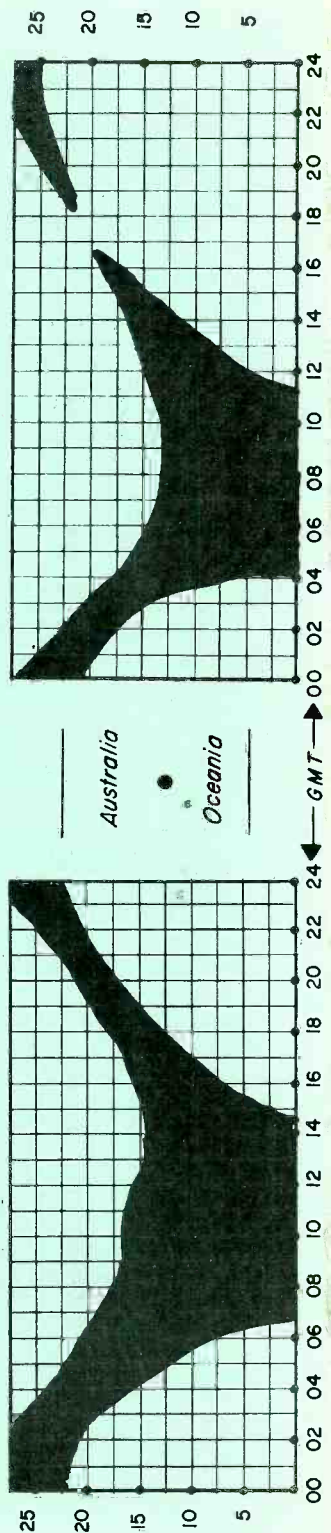

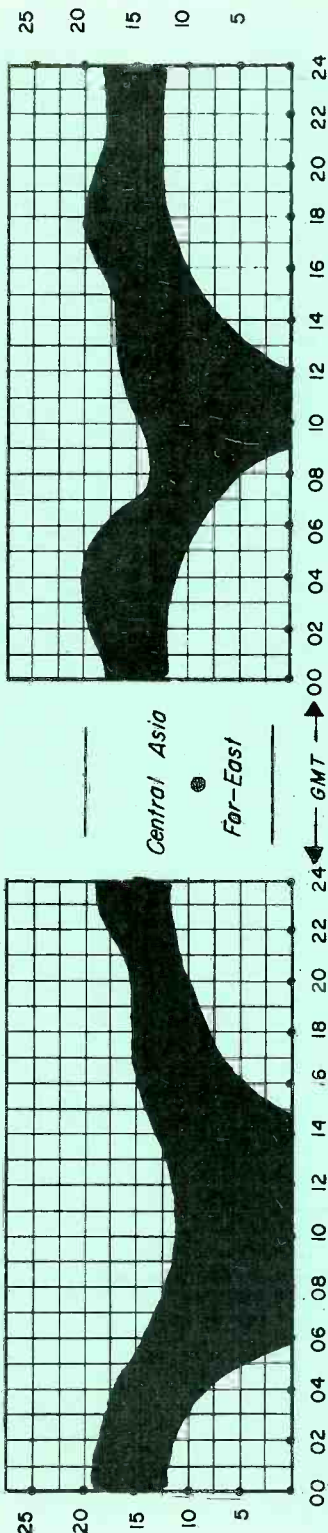

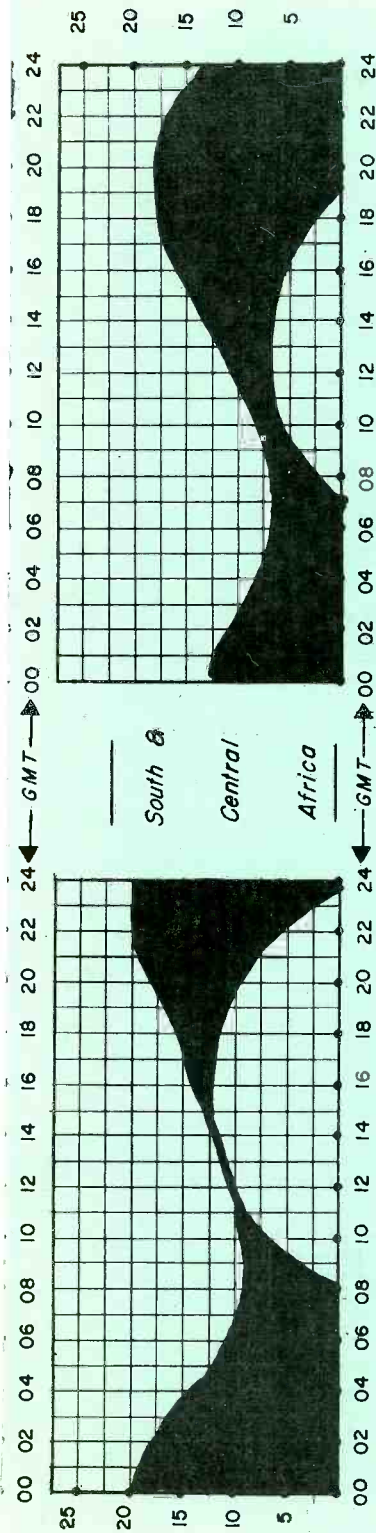

N Africa

Mid-East

FREQUENCY (mHz)

FREQUENCY (mHz)

The forecast chart is arranged in three vertical columns. The one on the left consists of five graphs depicting anticipated reception for Western North America (MST & PST time zones). Similarly, on the right is another set of five graphs representing Eastern North America (EST & CST time zones). Down the center is a series of notations indicating the world regions from which a radio signal might originate.

Each individual graph is indexed with GMT on its horizontal axis (the "00" following the hour has been deleted), and Frequency (in megahertz) on its vertical axis.

There are actually two curves plotted on each graph...one representing the maximum useable frequency, and another representing an estimated lowest useable frequency. Therefore, the darkened area between these curves (called an "envelope") illustrates the frequency range most likely to produce reception at the given hour.

As an example, let's consider an SWL in Western North America wishing to tune to Central Asia around the hour of 2200 GMT. Selecting the fourth graph from the top (Central Asia/Far East) in the left column (Western North America), and then reading across the horizontal axis to "22" (2200 GMT with the "00" deleted), the predicted frequency range would be between 11.0 and 17.0 megahertz.

Long distance radio reception is noted for its almost daily variations in quality, but as a very general rule, frequencies appearing in the upper 20 to 25% of the envelope will provide the most stable and reliable signals for the path at the given hour. For the Western North America/Central Asia example above, this would mean that frequencies between 15.5 and 17.0 megahertz would be the the most productive. Overall reception quality may be expected to decrease quite sharply as the lower limits of the envelope are approached.

If desired, the reader may remove this entire section from the magazine and fold the charts vertically to show only the reception graphs for his region. This may then be placed near the receiver for a handy reference at all times.

THESE GRAPHS REFLECT PROPAGATION CONDITIONS ONLY !!!!! There has been no attempt to adjust or modify this forecast in consideration of transmission schedules. Such references as World Radio-TV Handbook, the SPEEDX World Utilities DX Handbook, log sections of this publication, or other such sources should be consulted to determine such information.

This Propagation Section is supplied as a quarterly BONUS supplement to the SPEEDX Magazine. Permission to reproduce and/or broadcast information contained herein will be granted, provided proper credits are given to both SPEEDX and Jack White. Thank you.

5490A	1350	332	CA	Indonesian? with talk fighting severe CW QRM, several "Inilahs" heard, into music at 1400. (Cleveland 2/5)
9458A	0815	232	PA	U/lang with talk by OM 0815-0830, then fast talking by YL, ID at 0900 not caught, 0905 fade. (Earhart 1/20)

DATELINE...

PORTLAND, OREGON --- Your editor has moved to the City of Roses, Rain, and No Gas to seek his fame and fortune. In case you didn't notice it on the nameplate, the new address is 7409 S.E. 82nd, Portland, Oregon 97266. I'm already starting to rust, hi.

BRUNEI --- According to SCDX, the BBC will move its Far Eastern Relay to this island when the present contract in Malaysia runs out. It is not known if the will move the existing station or build another. (Kevin Szot)

BHUTAN --- From the DX Club of India comes word that this small country has inaugurated its first SWBC service. The new service runs from 0730 until 0930 on Sundays using a 10 kilowatt transmitter on 7050 kHz. Programming is in English, Nepali, and Bhutanese(?). This item comes from Bob Bodell via HCJB's DX Partyline.

LAST MONTH'S UNIDENTIFIEDS --- Mike Hardester reports that his UNID on 7861 turned out to be Radio Moscow, possibly a relay. Mike also suggest that John Larkin's reception of R. Australia on 9900A could have been a relay to the Darwin transmitter. He notes RA will QSL their relays by letter for a correct report.

AFGHANISTAN --- WRTH '74 notes that Radio Afghanistan will close down its Overseas Service if more letters from listeners are not received. Can DX'ers bring about another Austria?

CHINA, REPUBLIC OF --- Reports are AFRTS is planning to build a 10 kilowatt station to operate in the 19 and 25 metre bands. No idea is given as to how soon this station will go on the air. (WRTH)

Many thanks for your support recently, ladies and gents. For those of you worried the change in format has resulted in a loss of logging space, the only reports I have omitted are those that are sent in by the same reporter covering reception on the same frequency and time, but different dates. Also some reports that were incomplete or too old. Have a good March, 73's.

SOLOMON ISLANDS: SIBC, 5020, f/d Logo card in 28 days, ms (Ledford-NJ); same in 5 weeks, 2 IRC (Baxter-KS). Don't forget, folks, SIBC does request an IRC of two to defray their costs (kap).

VANUATU: Radio Vanuatu, 7260, f/d "Head of Slit Gong" card in 5 months for EE report, IRC (Wilczek-IL).

SOUTH AMERICA

ARGENTINA: RAE, various frequencies, no data cards, skeds, stickers, a few pennants, all kinds of stuff were received by the following, varying return postage (save your IRC-kap) (Renn-WA Poitz-VA, Card-RI, Drollinger-WI, Konen-WI, Ledford -NJ)

BRAZIL: Radio Oito de Setembro-Descalvado, 2320, no data personal letter in 22 months (3 weeks after f/u), PP report, SASE, station now operating on new frequency of 2490 (Lobdell-MA); Em. de Educacao Rural de Natal, 3335, n/d personal letter 2 weeks after f/u, 261 days total, PP report, ms (Parks-FL)-----full address (not in WRTVH-83) is Praca Pia X, 335, Natal-----Radio Emiss. Rural, 4765, f/d personal letter and postcard of cathedral, 29 days, PP report, ms (Schlesinger-TX); same in 38 days, PP report, IRC (Drollinger-WI). V/S in both cases was Bishop James Ryan, a Chicago native, who has been a missionary in Brazil for 40 years. I feel than an EE report will be OK, but also that return postage is a must. Bishop Ryan's work is a tough job, please do not expect him to pay for postage to send your QSL to you (kap); Radio Cultura de Sergipe, 4775, p/d form letter and postcard in ?? for PP report (Wilczek-IL), same in 51 days after 2 follow ups for 1976 reception, PP report (Barto-CT); Radio Clube de Pernambuco, 6015, f/d personal letter in 126 days for PP report, ms (Parks-FL); Radio Marumbi, 9675, f/d "Juverê Beach" card in 22 days for PP report, ms (Streeter-NY); Radio Clube, 15415, freq only personal letter along with post card in 38 days, PP report, ms (Streeter); Radio Nacional (Radio BRAS), 17830, f/d cards in 70 days (Konen-WI), (Jones-VA), 55 days (Starr-GA), in 53 days (Greenbauer-AZ), in 32 days (Tilley-CO). Might I suggest at least one IRC be sent to Radio Bras. (kap).

COLOMBIA: Radio Guatapurí, 4815, 2 pager personal letter along with copy of my original report received 17 days after follow up, 343 days total, SS report, ms (Streeter-NY); Ondas del Meta, 4885, date/freq letter and "Certificado de Sintonia" in 45 days, SS report, ms (Huffaker-MEX), same in 56 days, SS report, ms (Kivell-NM), same in 6 weeks, SS report, ms (Wilkins-CO), in 55 days, SS report, ms (Streeter-NY); Armonías del Caquetá, 4915, p/d Palm card and personal letter in 53 days, SS report (Wilczek-IL), same in 60 days SS report (Huffaker-MEX), in 29 days, SS report, ms (Schlesinger-TEX); Ondas del Ortegúaza, 4975, frequency only personal letter and 2 pennants in 99 days, SS report (Wilczek-IL).

ECUADOR: Radio Iris, 3381v, f/d prepared card in total of 701 days, 3 f/u, SS reports, ms (Wilkins-CO); Radio Federacion, 4960, p/d Map card in a total of 67 weeks, 6 weeks after f/u, SS rpt, ms (Wilkins); p/d map card in 4 years, 6 weeks after f/u, SS reports, ms (Lobdell-MA), same in 150 days, SS report (Huffaker-MEX); Radio Quito, 4920, freq only logo card in 26 days, SS report, IRC (Konen-WI); Radio Baha'i, 4995, freq only (wrong) cd poster, Christmas card, personal letter and station bulletin in 46 days, SS report (Wilczek-IL); card and form letter in 47 days, SS report, ms, along with same items as Wilczek received (Schlesinger-TX).; Radio Splendit, 5025, date only letter in 40 days, SS report, ms (Huffaker-MEX); HCJB, various frequencies, f/d cards were received by (Greenbauer-AZ, Cleveley-NY, Soomre-MA, Salmon-CA).

FRENCH GUYANA: France Regions 3 - Cayenne, 3385, f/d Hand Colored Folder Map card in 64 days, FF report, IRC (Ledford-NJ).

PERU: Radio Tarma, 4775, f/d personal letter and prepared card in 22 days, SS report, ms (Lazarus-IA); Radio Andahuaylas, 4840, "Typical Girl of Cusco" color photo card and personal message in 10 weeks, SS report, ms (Lobdell-MA); Radio Tarma, 4775, freq only personal letter and post card in 34 days, SS report (Wilczek-IL); Radio Cooperativa, 4785, date/freq personal letter in 29 days, SS report (Wilczek); Radio Pampas, 4855, f/d personal letter and prepared card in 1 month, SS report, ms (Lazarus-IA); Radio Los Andes, 5030, f/d "Certificado de Sintonia" card and photo of religious procession in 20 weeks total, 2 weeks after f/u, SS report, ms (Wilkins-CO); same in 196 days, SS report (Tanaka-Japan), in 160 days, SS report (Huffaker-MEX), in 6 months, SS report, ms (Jones-MS); Radio Rioja, 5045, "Thank you for your report" letter in 170 days, SS report, IRC (Stephany-NY).

STATION SKEDS

BBC
WORLD SERVICE

ISRAEL BROADCASTING AUTHORITY

MARK KOUKOL
1232 N. Eagle Street
Naperville, Illinois 60540
DEADLINE: 15th

We are right in the midst of the Spring frequency changes so be on the watch for schedule additions and deletions.

Belgium: BRT frequency of "6035" to North America reported last month should read 6055; this error based upon misreading of handwritten schedule alteration. In use 2215-0100 daily, English 2255-2315 and 0040-0100 as usual. Splash from HCJB 6050. 11855 to South America is in parallel//.(R. Wood)
Chad: In case you're wondering why you don't hear "Fort Lamy" in Chad's ID anymore, it's because the capital's name has been changed to NDJAMANA.(Roger Giannini)
Chile: Radio Portales has changed to its earlier name of Emisoras Diego Portales. Noted so on 9570 at 0403 s/off. Transmitter seems more powerful than listed 10 kW. (Richard Wood) La Voz de Chile, the international service of Radio Nacional (ex-Radio Corporacion) has been xmtng in various languages starting around 2150 on 15150. No regular times, but recently observed 2150-2200 Italian, 2200-2220 French, 2220-2235 English, 2235-2250 Spanish, 0000-0025 Italian, 0000-0050 French, 0050-0115 English. Programs consist of anti-communist commentaries interspersed with a guitar melody.(Jim Whitehead, Richard Wood)
China, Rep.: Voice of Free China, Taipei, has this English sked sent effective to March 2-

To Japan, Australia, N. America
0200-0320 7130, 11825, 15125,
15345, 17720, 17780,
17890

To Africa, West Europe
1800-1900 9510, 9685, 11825, 15125,
15370, 17720, 17890

(Henry DuRant)

Ghana: Radio Ghana has this English schedule-

To N.A., Caribbean, S. Africa
2000-2100 11850

To Central Africa
1445-1530 15285

To Australia
1445-1530 21545

To West Africa
1400-2215 6130

To Europe
2045-2215 9545

To East Africa
1400-1430 15285
1445-1530 21720
1645-1730 15285
1815-1900 15285 (G. Semko)
Great Britain: BBC sends this latest English sked to the USA, Canada, and Mexico, effective to May 4th-

17840 1430-1615(A)
17790 1300-1615
15260 1500-1515, 2000-0330(A)
15070 1100-1615,
11905 1100-1215
11780 2115-2330
9740 2300-0030(S)
9580 2115-0330
9510 2300-0415(A)
7325 2300-0330
6175 2300-0030(S)
5975 2115-0415

(A)- via Ascension Island, (S)- via Sackville, Canada (direct)
Guinea Rep.: Conakry is again active in its all-night service on 11965, parallel 9650 which drifts to 9648. Noted 0000-0600. No English noted recently. No jamming observed lately on 9650, never on 11965.(Richard Wood)

Holland: Radio Nederland sends the following English sked, valid until May 5th-

To Australia/New Zealand
0630-0750 11730(B)
0800-0920 9715(B)

To Far East(test transmission)
0930-1050 15420, 15305(L)

To Europe
0930-1050(S) 7210, 6045, 6020(L)
0930-1050(W) 7210, 6045(L)
1400-1520(S) 6045, 6020(L)
1400-1520(W) 6045(L)
1830-1950 6085, 6020(L)

To South & Southeast Asia
1400-1520 11740(M), 15425, 21480,
21570(L)

To Africa
1830-1950 11730(L), 6020(M)

To East North America
2130-2250(W) 11730, 9715(L)
0200-0320 11730(B)

To West North America
0500-0620 9715, 6165(F)

(W)- weekdays, (S)- Sundays,
(L)- via Lopik, (B)- via Bonaire,
(M)- via Malagasy
(Radio Nederland via Serge Neumann)

Iran: Radio Iran, Tehran, 9020, is now apparently on a 24-hour daily schedule; noted 0000-0200, all in Persian. (Richard Wood)

Israel: Some more info since last month! IBA Jerusalem sends this revised English sked dated December 1973-

0500-0515 15140, 11745*, 11725*,
9785, 9625, 9495, 9009*,
7095*, 6205, 6170
1130-1200 17710*, 15130*, 10250*
2000-2045 15100, 10250, 9495,
7095, 9785, 9009**,
6205, 6170

(*)- to N.A. & Europe, (**) - to South Africa

A new feature is the Saturday "Calling All Listeners" broadcast at 2030. At 0000-0030, 9009 carries Spanish to L.A. (Richard Shaf-tan, editor, Richard Wood)

Mexico: La Hora Exacta, Mexico, nominally on 9550, has been reactivated after a long silence; observed on 9553 at 1600-1800 with poor modulation & intense hum. Time checks & ads. (Richard Wood)

Neth. Antilles: TWR Bonaire has replaced 11835 with 9735 in English to the Far East at 0030-0130. Well heard in N.A. (Scott Sigel)

Norway: Radio Norway has this English sked to N.A. valid to May 4-Sundays G.M.T.

1600-1630 15175, 15345, 21730
2000-2030 21730
2200-2230 6185

Mondays G.M.T.

0000-0030 9645
0200-0230 6185, 11860
0400-0430 6185, 9610, 9645
0600-0630 11850

(Chris Lobdell)

Portugal: Radio Portugal sends this latest English sked-

To East U.S.A.

0200-0245 11935, 6025

To West U.S.A.

0345-0430 11935, 6025

To Canada

0300-0345 11840

To Britain & Scandinavia

2045-2130 6025

To Australasia

0730-0900 21495, 17880

To South-East Asia

1345-1430 21495, 17880

To South & East Africa

1900-2000 11875

To West Africa

1900-2000 21495

(Joseph Kannrv)

Tahiti: Radio Tahiti has this latest sked in French and Tahitian-

Mon-Fri: 1600-2330 (0000 Tues);

0300-0700

Sat: 1600-0700

Sun: 1800-0700

Frequencies used are 6135, 9570, (sorry-9750), 11825, 15170. (Bill Trubee)

Turkey: Voice of Turkey has this English transmission valid until April 1- 0000-0030 on 11880.

Sked indicates that they now have a weekly DX program, but no times are given. Their address for reports is- Voice of Turkey- TRT, Mithatpasa Cad. No:37, Ankara, Turkey. (Sandy Eichenhorn)

U.S.S.R.: Jamming of Radio Liberty has been resumed because the station has been reading Solzhenitsyn's "The Gulag Archipelago" in its Russian broadcasts to the U.S.S.R. (Tom Gavaras)

Venezuela: If you're having trouble getting program details from a station here, try Radio Barquisimeto well heard evenings on 4990, which features American and British pop music often. Radio Rumbos now broadcasts its extended news program "Note Rumbos" at 0330 rather than former 0430. The morning program is still at 1100. Frequencies are 4970 and 9660. (Brandon Lovett)

ADDITIONS

Israel: This is an UP DATE to the previous information given about this station. From Julian Kratter comes this English sked of IEA Jerusalem dated February 1974-

0500-0515 15100, 11725, 10250,
9785, 9495, 9009,
7095*, 6205

1130-1200 17710, 15130*, 15100*,
10250

2000-2045 15100, 15245, 10250,
9785, 9495, 9009**,
7095*, 7280*, 6170,
6205

(*)- beamed to Europe, U.K., North America; (**) - beamed to Africa.

Reception reports are solicited to P.O. Box 1083, Jerusalem. (Julian Kratter)

So we close another column of Station Skeds. I have been most pleased with the good, steady turnout of reports to Skeds. Remember: this column thrives on up-to-date info, so please pass on anything you may have. If possible, try to include the effective date of the info, particularly with transmission schedules.

73s, Mark Koukol WDX9JKV

UTILITY REPORT

STEVEN J. HANDLER

1270 Carol Lane
Deerfield, IL 60015

Deadline: 13th of the month

Once again we are pleased to announce the availability of some more Utility Information Sheets. The cost is 1 IRC for each 3 pages of material ordered, unless otherwise stated.

DXing Stations Located in Antarctica (ANT:100) 10 pages..... only 2 IRC's

Using the MAPOR Weather Information System 1 page

US Government list of world time stations (12 pages).....only 2 IRC's

Loran Stations, What are they?..... Free

We hope to add 2 or three new lists each month. All lists mentioned last month will be available from now on. Instead of printing a few of each BIP we are now printing a large supply so that there will be enough to go around.

NEWS: ITT is selling the Puerto Rico Telephone Company to the government of Puerto Rico. This may be the forerunner of the sale of the All American Cable & Radio Inc. Station in San Juan to the Puerto Rican government.

A reject letter was received from Cable & Wireless Ltd in Belize this week. A few months ago this station was QSLing, but now appears to have stopped.

US Navy Control in Norfolk is using the transmitters of NSS. Transmitter sharing has long been used in Europe by NST and other Navy stations. It now looks like the practice may be started in the US.

Last month Rich Koret received a QSL from the Naval Air Station in Oceana Virginia. This week I received my PFC back with all information listed as classified and no veri of reception due to security. The interesting part is, that Rich's card was full data. Oh well, it looks like it makes a difference as to whom opens your letter.

Rep. Les Aspin announced that during 1971, Emergency transmitters on Polaris submarines mistakenly signaled that they had been sunk by enemy action. Since submarines can not transmit or receive while underwater, they could not advise Washington that it was an error, until after they had surfaced. Oh well, you can't win them all.

On President Nixon's recent trip to San Clemente via commercial airliner, he was able to keep in touch with the White House via a communications facility package that fits into a briefcase. The Suitcase Satellite package transmits via Dept. of Defence satellites which relay the Presidents communications to Washington.

QSL's

AUSTRALIA: AOTC VIS5 12952.5 Sydney sent card w/full data by air for 2 IRCs, VS: Phillip Huggen (Hardester) AORTS-Sydney 8789 sent card in 9 days air, VS: W.H. Cato. AOTC Sydney 8060 w/fall data card same as above (Hardester)

AZORES: Lajes Field 6738 SSB send card, discone & log periodic directional 3.5x10 KW

BERMUDA: USCG NOL SSB 550w, whip ant, PFC rcvd via air in 8 1/2 months (Griffith) via Miami

BRAZIL: EMBRATTEL Rio de Janeiro 11670 8kw card in 24 days for IRC and EE rpt. Also rcvd info about station on card VS: Ara Aphar Minassian, Chief Eng., Santa Cruz Station. (Raymond)

BRITISH HONDURAS: C & W Ltd sent reject letter direct from T.H. Maciacchio, letter dated 1-21-74 letter said-not policy to QSL reports! Oh well looks like we lost this one!

FRANCE: St Lys Radio sent nice letter w/all data in 14 days for 13133.5 from VS: R. Valot, Le Chef de Centre. Sent them IRC, US stamps, Valot is an avid stamp collector. He asked for more reports (Koret)

Guyana: C&W WI Ltd 8RB47 Georgetown sent PFC in 3 months. VS: F.C. Simmondo, Engr. C&W Guyana Thomas Land, Georgetown sent ltr veri from engr for 2 IRC's. One returned (Griffith)

UTILITY QSL's
Continued

HAWAII: NMO-Honolulu 2670 PFC full data 22 days via surface vs: RMCS D.L. Cloud, USCG (Hardester). NOBATS-Naval Operational Radiotelephone Station, Honolulu (Wahiawa) 13117.5 khz working the USS Wabash (AOR5) returned PFC in 7 days. U.S. Naval Communications Facility-Honolulu (Wahiawa) with Tactical ID as "Dunkirk" 5768 1 month PFC. FAA-Honolulu Radio in 8 days from C.G. Amerling, Facility Chief (Testa). WVVH-NBS sent their card in 4 weeks. (Nebron)

ITALY: ITALCABLE-Rome IRH28 10846 sent card in 8 months for 2 IRCs (Testa). ROMA RADIO IAR-17293 sent letter with full data in 7½ months for IRCG by seamail (Fleming) USCG LORAN STN-NCI-Simiri Cricchi, 7442.5 sent card (PFC) in 29 days for ms (Griffith) USCG LORAN STN-Lampedusa-NCI3 7441 SSB 1kw 35 ft whip full data PFC, vs: C.M. Cate. PFC 17 days for ms (Griffith) USCG LORAN STN-NCI111-Cagliari 7441 1kw 35ft whip full data PFC. vs: Anthony Orchard. 35 days for ms. (Griffith)

JOHNSTON: USCG LORAN STN-NRO5 4050 full data PFC 750w, vs: CWO3 Thomas W. Hart. Also sent data booklet in 73 days (Simon) Same-Koret, says station is on Sand Island in the Johnston Atoll.

LIBERIA: LIBERIAN TELECOM CORP. Monrovia, 7720 sent letter w/partial verification. 6 months by air for rp 4 IRCs. (Warren)

NIGERIA: NETL Ikordu 20715 50U99 30kw rhombic antenna to London, sent green & white card w/date/time/call/freq/mode/power/antenna/beam. 20 days air for 3 IRCs (Griffith)

POLAND: Gydnia Radio SPC8 17287.9 sent religious statue card w/full details in 47 days for 3 IRCs. (Simon)

PUERTO RICO: NMR26 USCG Air Stn-Ramey AFB, 5692 returned full data PFC in 15 days. Thanks to Simon & Koret for tip (Handler) USNAVCOMSTA-NAU Ponce, sent MARSGRAM with full data veri after receiving letter with call sign only on it. Letter first, MARSGRAM from N9NAU in 2 years, 3 months. (Griffith)

SAUDI ARABIA: PTT-Jeddah HRZ66 20kw 20660 sent form letter w/full data via registered airmail in 38 days air for 2 IRCs rp. VS: M. Mirad (Compton)

ST PAUL & AMSTERDAM ISLD: 8690 Coastal Stn FJY4 returned full data PFC in 141 days for EE rpt w/2 IRCs. power is 1kw (Greenall)

SPAIN: Posueta del Rey Radio, Spain sent letter in SS for SS rpt and 2 IRCs recvd via air in 12 days. Pre. listed as 17321.5 EHY6 (Koret) Rich brings up an interesting problem, the freq. listed is not the one heard on, it is off by about 13 KHz. I have had the same experience from many stations. All I can say is that something is better than nothing. The letter clearly indicates that you heard it, and this is a valid QSL. I would even go so far as to say, that if a station just sent back a simple veri statement text with no data, that you could even count that as a QSL. Utility stations are not like shortwave stations. If you get a reply, don't knock it. If you disagree with me, let me know. Spain continued- AOB60 USCG LORAN STN Estaca de Vares, 7442.5 sent photo of Loran tower with partial data veri in 40 days. PFC sent but not used. 40 days for ms (Griffith) AOB50 USCG LORAN STN-Estartit 7442.5 returned PFC in 19 days for ms. full data 700w and 35ft whip antenna (Griffith)

TURKEY: USCG Loran Stn NC14-Targaburun 7442.5 1kw 35 ft whip antenna returned PFC vs: A.V. Naber. 16 days for ms. (Griffith)

WEST GERMANY: Norddeich Radio DAJ 17307.5 sent personal EE ltr w/no details except power as 15kw. 16 days for 2 IRC's. (Simon)

ZAMBIA: ATE Radio Int. Trans Stn-Lusaka 13390 sent card, a pic of a suckling Rhino in color w/full data. 69 days by 2nd class air for 2 IRCs and EE rpt. vs: Mike Cutler (Compton)

PACIFIC OCEAN: USS WABASH AOR-5 13117.5 khz, qth listed as Long Bch, they were working NOBATS-Honolulu. 1kw 35'ft antenna. PFC.

ATLANTIC OCEAN: USS DENEY returned full data PFC in a week for ms; address via WUDXH-(Handler)

ADDRESSES:

Coastal Radio Station FJY4; Amsterdam Radio Maritime Station Manager; Isle of St. Paul and Amsterdam. (Yes you can mail direct)

Nigerian Telecommunications Limited; QSL Mgr; P.O. Box 173; Lagos, Nigeria

Cable & Wireless WI Ltd; P.O. Box 239; Bank of Guyana Bldg; Georgetown, Guyana

That's all for this month. Sorry about the unlabeled QSLs and loggings, please list your name on them!

PREVIEW

So much to cover this month, lets get on with it! Thanks to all 56 members who reported and special welcomes to new reporters Dick Bruiser, Lee Butler III, Shaun Carrick, Ken Compton, Len Davidson, Ken Earhart, Craig Hannan, Ted Lawson, John Mosman, Mike O'Shea, Maureen Raymond and especially Evelyn Turner. Glad to hear from you folks and hope you will continue to report as SPEEDX grows and grows. Also a big thanks to all who sent QSL photocopies - I will try to use as many as possible as space permits. Keep 'em coming!

Without further ado, a stupendous month for QSL's. Africa has come alive and there are many interesting QSL's, including 3 reports for La Voix de la Revolution, Conakry, Guinea. Mike Hardester, Al Mayer and Carl Radtke had that good fortune while Rich Koret received a definite verification from ORTF, Djibouti, Afars & Issas. In Asia, BBS, Burma has been heard from again, this time by Ted Lawson, and Dick Bruiser out Nevada way received his verie from The Maldives. Dan Henderson reports that RRI Jayapura (and maybe other RRI stations) is issuing a colorful new card, with full data and in English.

Californian Bill Sparks has captured these Oceania trophies - Radio West New Britain, New Britain; Radio Northern District and Radio Chimbu, New Guinea; and Radio New Ireland, New Ireland. Some really great QSL catches, eh?

On the Latin scene, there are also many great catches. Be sure to check Brazil, Colombia and Ecuador. And what did I get? WYFR!

EUROPE

BELGIUM: ORU, 6055; Map card w/date & freq. only + sked & copy of Mailbag; 32d air, 1 IRC, EE rpt. (CARRICK MD) 9655; same, 90d surface, no rp. (BODELL OR)

NORTH AMERICA AND THE ISLANDS

Folks, space is at a premium this month, so, contrary to normal practice, we are forced to truncate this area quite a bit.

ANTIGUA, BBC relay, n/d cards rcvd by (Cord-RI and Hecht-PA); BELIZE, Radio Belize, f/d card in 21 days, 2 IRC (Ruckman-OH); BONAIRE, Trans World Radio, 9535, f/d card in 48 days (Philip-BC), 9755, same in 105 days (Ruckman-OH); CANADA; CFCX-Montreal, 6005, card in 37 days (Parks-FL); CFVP-Calgary, 6030, cards in 10 days (Greenbauer-AZ); CFRX-Toronto; 6070, card in 20 days, 2 IRC (Ruckman-OH); CKZU-Vancouver, 6160, cards in 59 days (Parks-FL), in 21 days, ms (Schulsinger-OH), in 12 days, IRC (Greenbauer-AZ); CKZN-Saint Johns, 6160, cards in 43 days (Stephany-NY), in 29 days (Mahoney-FL); COSTA RICA; Rdo Reloj, 4832, date/freq cd in 20 weeks total, SS rpt, ms (Wilkins-CO); 6006V, same in 9 days, SS report, ms (Schlesinger-TX); TIFC, 5005, f/d card in 171 days, IRC (Drollinger-WI); same in 150 days, IRC (Sienick-NJ); CUBA, Radio Habana Cuba, 11930, f/d card in 95 days (Claytor-MI), in 4 months (Jones-VA); GUATEMALA, Radio C ortis, 3380, date/freq combo QSL and pennant in 24 days, SS report, 2 IRC (Shorrock-KS); HONDURAS, HRVC, f/d Logo card in 16 days, EE report, ms (Evans-TN), p/d Logo cd in 13 days, 3 IRC (Ulmer-LA); MEXICO, XERMX, 15430, f/d thin paper QSLs with uses Mexican stamps attached in 97 days, SS rpt (Mahoney-FL), in 35 days, EE report, IRC (Starr-LA); NICARAGUA, Radio Zinica, 6120, p/d personal letter in 128 days, SS report, ms (Wilczek-IL); UNITED STATES OF AMERICA; KGEI San Francisco, f/d QSLs rcvd by (Thompson-CA, Renn-WA, Hosmer-MI, Demmitt-PA); WYFR Okochobbee, f/d cards were rcvd by (McCants-AL, Hecht-PA, Coutemarsh-VT, Cord-RI); WRNO-New Orleans, p/d card in 32 days (Lipman-NY); Voice of Free China via WYFR, 5985, f/d cards received by (Pagano-DC, Wilkins-CO, Lipmar-NY); VOA-Bethany-OH, 21485, f/d card in 46?? days (Schulsinger-OH); VOA-Delano-CA, 11740, f/d card in 26 days (Lipmar-NY); USA PIRATES; Voice of Venus, 7425; Voice of Syncom, 6225, Radio Free Radio, 7431, W TDF, 7425, KQSB, 7426, f/d QSLs were received by Streeter-NY and Baxter-KS., also WDX Free Radio, 3240 (2x1620), p/d QSL in 62 days (Jones-VA).

KAP'S KOMMENTS:

WELL, this was certainly an experience. Too many reports, too little space. Rather than eliminate some valuable information, the truncated NaatI route was chosen. Virtually every report (except for repetitions and illegibles) was included this time around. As per our notice last month, anything rcvd after 12 April will be included next month. Our sked insists that we go to press on the 13th.

I do wish that I could include some of the great photos that have crossed this desk in the past month. However, I feel that you, the readers, would prefer hard facts rather than a "photo gallery".

Also, you might note that many of the African and South American QSLs were the result of just plain hard work, including follow ups. In another SW mag several years ago, I made the comment "if you don't care to do your homework, don't condemn those who do". That feeling is still true today. Yes, QSLing is a hobby, but if every report one sent out would result in a QSL, it wouldn't be fun, and that's what the QSL chase is. If it is not, to you, I would suggest that you find another pastime, pronto. Let us not take ourselves too seriously, or we might as well go back to our stamp collections, or model trains, or trying to figure out what the authors in the latest "Ellery Queen Mystery Magazine" are trying to say.

And, now, since I am not the elected mayor of a major U.S. city, I had best get to completing my 1982 Tax Return. Why have I procrastinated in doing dear old form 1040? Simply. those of us who are lucky enough to have made a couple of bucks on Wall Street owe Uncle Ron some money....

CHINA (REPUBLIC): VOFC, Taipei, 15125; F/data green Jade Cabbage card + sked in 105d surface, no rp.(DURANT TH.) 17780; Same card + sked & mag. & pennant; in 30d air, 1 IRC. (TRUBEE HI)

Thanks to HCJB via SWL International for list.

Following is an excerpt from a letter received by Jim Whitehead from Radio Colosal, Colombia; note reference to SPEEDX.

Mucho agradecemos a Ud. el reporte de recepción de fecha 4 de Noviembre de 1973 que

se sirvió enviarnos acerca de nuestras transmisiones de Onda Corta en la banda de 60.67 metros y en la frecuencia de

4.945 kilociclos. SU INFORME ES CORRECTO.— ES UD. UN INGENIERO COLOSAL, LE NOTERAMOS NUESTRO,

CORRESPONSAL INTERNACIONAL—SALUDOS PARA TODOS LOS AFILIADOS AL "SPEEDX"

SU CARTA ES MUY VALIOSA, ESPERAMOS SU RESPUESTA, O? GRACIAS.

Aprovechamos esta oportunidad para suministrarle algunos datos acerca de nuestro país. Pues bien, Colombia es el primer

productor de café suave en el mundo. Tiene 21.000.000 de habitantes y se halla dividido en Departamentos, uno de los

cuales, el Huila, cuya capital es esta ciudad de Neiva. Está ubicada a 300 kilómetros al sur de Bogotá, capital de la República. Cuenta con 125.000 habitantes y su temperatura promedio es de 28 grados centígrados. Nuestro Departamento pro-

duce principalmente café, cacao, arroz, algodón y es además, centro ganadero importante. Lo atraviesa de sur a norte el

Río Magdalena, el Río mas largo de Colombia con una longitud de 1.700 kilómetros. Otra ciudad del Departamento que

merece mencionarse es San Agustín, situada a 230 kilómetros al sur de Neiva, unido por magnífica carretera y uno de los

#####

If the above summation is of interest to you, let me know; I will try to include it every month. (Africa, Asia, etc.)

Thanks for the many reports that contained verification signers. This is a big help to many DX'ers and I hope that all of you will continue to send this bit of information when it is available and legible. Also, if you notice an address that is different from what is listed in WRTH, please let me know. Thanks!

The total countries reported in 1974 has climbed to 117, up from 102 in February. Where, O where is the SPEEDX Country List?

Again, any suggestions, comments, questions, criticisms, lemon meringue pies are welcome here in San Jose, home of the first MW station in the United States.

Bad news of the month - increased postal rates. Enough said.

*7/3/74
K. Sny*

Number indicates credits earned. Asterisk shows carry over credit has been included. List includes all regular columns.
