Dear Mr. Geary:

We are in receipt of your letter of February 19th in which you state you picked up our Station at 12:21 A.M., Pacific Standard Time and listened to the broadcast until 12:45 P.S.T. on the morning of Sunday, February 18, 1940.

You were certainly tuned in to CKWX and this will serve to verify your reception of same.

Thanking you and trusting you will be successful in tuning in on this station often, we are,

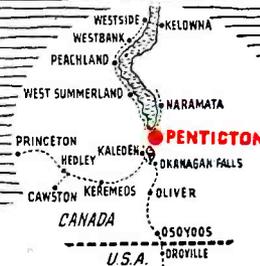

Yours very truly,

WESTERN BROADCASTING CO. LTD.

Dear Kermit :

Thanks a lot for your swell letter which arrived here a few days ago....We were very glad to hear from a listener so far away....We have checked our broadcast schedule with the information contained in your letter and find it matches O.K.

You are not the first in your state to pick us up, though, as we have received reports from various DXers throughout that part of the country....We credit it to our frequency and not our power....At present, we are rated at only five hundred watts, although we expect to have a thousand within a matter of a few weeks....Then we hope to move out of 1480 to a more civilized frequency...It might interest you to know that on the same day as your report arrived, we received one from a DX fan in New Zealand....That is the sixth we have had from "Down Under." We have also heard from listeners in Mexico, Alaska, and a good many of the eastern states and provinces....It seems strange that we should cover such vast distances at that time of night, when we can't even obtain full coverage of our own Vancouver Island, on which we are situated....

Thanks again for your letter, old man, here's hoping this letter will take its place in your collection...

Yours sincerely

Vern Groves (Chief Operator)

Dear Sir:

Thank you for your letter of March 10th and the excellent reception report enclosed. It is refreshing to receive a report as complete and businesslike as yours and we take pleasure in confirming it as correct.

In answer to your question as to our transmitter power, we transmit at a power of 10KW day and night; pattern directional with main lobe pointing WNW, radiation in other directions very low. Hours - weekdays 6am to 2:00 am, Sunday - 7am to midnight.

Thank you once again for your letter; may we wish you much continuing success.

Yours very truly,

MOFFAT BROADCASTING LTD.,

"THE GOOD MUSIC STATION"

Dear Mr. Geary,

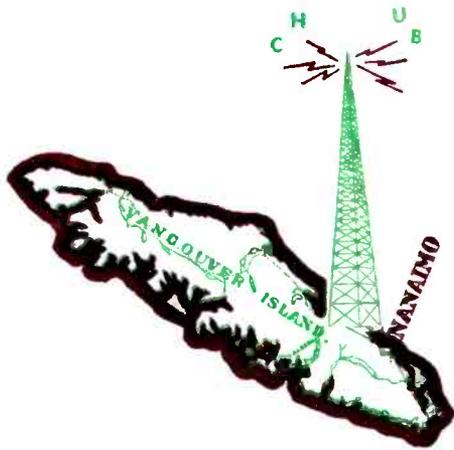

Many thanks for your letter of Jan 20th.

This note of mine is to verify your program, which was fed to CKLN by C.B.C. Vancouver.

Our D.K. program on Jan 28th was not so good & not good & reports all coming in thick & fast so if you like I shall send you details later.

Oh by the way what is Walnutport like? it has such an unusual name that I had to ask, I hope you don't mind but being a stranger to Canada, & not knowing a lot about the States I had to ask (sorry).

What are chances for women managers in the USA, you the only woman state manager in Canada & also the youngest manager being 22. (reporting on the back there) but I just wonder what chances one may have in the States? Will you sign off for me?  
 Sincerely,  
 Joan Orr

Mr. Kermit Geary,  
R.F.D. # 2  
Walnutport,  
Pennsylvania,  
U.S.A.

Dear Kermit:

This will confirm your report of reception from this Station. Your log is correct and coincides with the program schedule.

C.H.U.B. is an independent, privately owned Station, and we do not have any network affiliations. The staff consists of sixteen men and women. The announcer to whom you listened was Gordon Theedom, and incidentally, I've asked Gordon to acknowledge this letter (Your letter) on his program, and to dedicate a musical selection to you in appreciation of your writing. The time we've chosen is 11:45:00 P.S.T, Monday, December 11th, 1950.

4

In conclusion may I extend to you our sincere appreciation and trust that you will again at some future date drop us a line and let us know if you heard your dedication.

Very truly yours,

*Thomas S. Walsh*  
Chief Engineer.

Dear OM:

First of all my apologies for not answering your letter sooner.

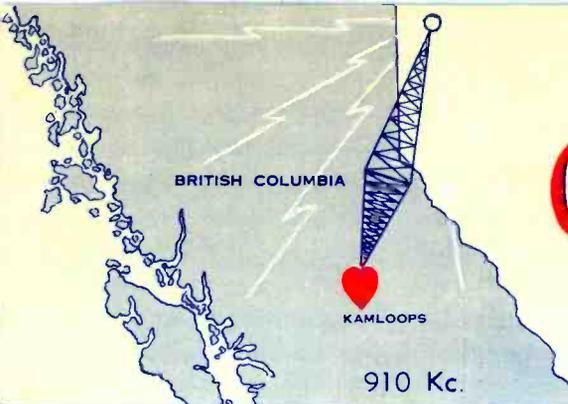

I am pleased to confirm your reception of CHQM on February 21st. Your description of our program coincides with notations on our program Log.

We operate with an extremely directional antenna array (3-towers), radiating no signal at 140° and 215°. Our radiation in your direction is approximately 1500 watts. We operate with 10,000 watts.

I am pleased to receive your report. Should you pick up our signal again when conditions improve, I'd be glad to hear from you.

Sincerely,

  
Robert Wm Service,  
Chief Engineer, CHQM- AM/FM
