CANADIAN BROADCASTING CORPORATION

Moncton,  
January 25, 1955.

Mr. Kermit Geary,  
R.F.D. No. 2,  
Walnutport,  
Pennsylvania, U.S.A.

Dear Mr. Geary:

I thank you very much for your letter of January 18th in which you mention listening to our special DX programme aired from 5:00 to 6:00 a.m., AST, on January 17th.

The details you are giving us are quite accurate and very interesting. I also thank you for giving us details on reception. You will find attached a copy of log of the DX programme and the correct details given in your report have been checked in ink.

By the way, we have received quite a large response to our programme and we are very happy about this. Up to now, over 30 letters have come in from different points in the United States.

May I take this opportunity to thank you very much for your good wishes and in return, may I extend to you all the best success in your DX activities.

Yours sincerely,

  
GEORGES HUARD, Manager,  
Radio Station CBAF.

Dear Sir:

We are writing in reply to your letter of December 13, 2001 regarding your reception of CKHJ-AM on 1260 kiloHertz.

We apologize for the delay in responding. As you are doubtless aware, Christmas is a very busy time for us.

We confirm your reception as reported and appreciate you taking the time to notify us, and your interest in our station.

CKHJ-AM is owned by Telemedia Radio which has approximately 80 radio stations across Canada – all of which have been recently sold as part of the ongoing consolidation in our industry.

So, while we undergo ownership change we do not expect that it will materially affect the programming we offer on CKHJ-AM or on any of our other radio stations.

Again, thank you for your interest and we trust you will have a pleasant and prosperous New Year.

Regards,

John F. Eddy  
Executive Vice President

Kermit Geary;  
RFD #2,  
Walnutport,  
Pennsylvania, USA.

Dear Sir:

It is with pleasure we confirm your reception of Radio Station CKCW on the morning of May 10th-1947.

Your report was interesting, in view of the fact that CKCW shares the frequency of 1220 KC with WGAR-Cleveland, resulting in considerable interference at much shorter distances than your location.

For your information, CKCW transmits with the power output of 5000 watts, non-directional until sunset, and then directional during the evening hours. The transmitter is an RCA 5 E/F located at Cherryfield, approximately 5 miles from the city of Moncton. New Brunswick.

We thank you for the report and extend best wishes for your ~~santined~~ good reception.

Yours very truly,

*A. J. White (s.)*

**CARLETON-VICTORIA BROADCASTING CO. LTD.**

P. O. BOX 920, WOODSTOCK, N.B.

September 25th, 1961

Mr. Kermit Geary,  
R. D. 2, Box 298,  
Walnutport,  
Pennsylvania, U. S. A.

Dear Kermit:

Thank you for your complete report on CJ CJ's signal there about 6 A.M., A.D.T., September 11th, 1961.

We are most surprised to learn that you heard us loud and clear, and your identification of our program content tallies with our log for the day and time.

The CJ CJ transmitter radiates 1000 watts, (1200 input to the array), with the same directional pattern used day and night. The maximum signal radiated is to our North North West, with about  $\frac{1}{4}$  radiated to the reciprocal bearing. (Main lobe is  $350^{\circ}$  true).

After doing a little calculation, it seems that we radiate about 115 mv. 10 degrees above the horizon in your direction, 90 mv. at  $20^{\circ}$ , 64 mv. at  $30^{\circ}$ , and 40 mv. at  $40^{\circ}$ .

Our transmitter is located at,

N. Latitude	$46^{\circ}$	07'	30"
W. Longitude	$67^{\circ}$	35'	10"

The array consists of two guyed elements, base insulated, series fed, 182 feet high, spaced 268', or 90 electrical degrees apart.

We radiate minimum signal towards WMMN, Fairmont, West Virginia.

Mr. Kermit Geary

You certainly must have a fine receiving location, and your setup is obviously well designed.

Being an ex-DX'er myself, I know the pleasure of pulling in a tough one, and certainly at your location, they won't come much tougher than CJCJ!

Wishing you the best of luck in future, we remain,

Sincerely,

CJCJ-RADIO - 920

R. J. Morrison  
Chief Engineer
