CALGARY, ALBERTA

THE STATION OF THE CALGARY HERALD

OPERATED BY
TAYLOR, PEARSON & CARSON BROADCASTING CO. LTD.

Calgary April 21 / 45

Norman L. Maguire
1210 E. Grand
Albuquerque
New Mexico
U.S.A.

Dear Sir :

Regret the delay in answering your letter as it got sidetracked in the office in town.

Would like to say that your letter describes the program of that date correctly; this was a special broadcast to promote the sale of war savings stamps.

The bundles of merchandise were donated by various firms in the city and the whole project was organized by the commercial travellers association of this city.

Might say that we raised close to \$30,000.00 on that night.

Our daily program schedule is as follows ; Mountain War Time

6:00:00 A.M. to 12:00:00 Mid. - Sundays - 7:45:00 A.M.

Due to present war conditions we are staying on the air to 1:00:00 A.M.

We intend to increase power to 5 KW in the near future instead of our present 1 KW. We hope you will receive our programs more regular then -

Our rig is a Marconi 1 KW driven by a 100 W unit of the same make. The Antenna is a vertical radiator 175 Ft high. Ground system consists of radials buried at 3 deg. over a circle of 500 ft. Dia. in a slough 500ft from xmtr.

Thanking you for your letter and hoping to hear from you again -

We are your truly - W.H.Guerin
G.S. Guerin
K.O. Bardwell

Norman L. Maguire,
1210 E. Grand,
Albuquerque, New Mexico,
U.S.A.

Dear Mr. Maguire,

Many thanks for your letter of March 1st reporting on your reception of our DX programme of that date. Our official card of verification is enclosed. It is unfortunate that reception conditions were not the best, but for some reason we seem to invariably run into this condition when presenting a special DX programme.

For your information, Grande Prairie is located 110 airline miles south-east of Peace River, which you may or may not be able to find on your map, and 250 airline miles north-west of Edmonton. The main industry in the Peace River country is not mining as you expected, but agriculture. We have one of the finest agricultural districts in Canada here in the Peace River country.

We are in the course of preparing a brochure on the history of CFGP and will have pleasure in forwarding one to you as soon as copies are available.

In closing let me assure you that it was a pleasure to cooperate with the National Radio Club and we hope to be able to do so again in the future.

Kind regards.

Yours for VICTORY,

NORTHERN BROADCASTING CORPORATION LTD.

Dear Mr. Maguire:

This will acknowledge your
letter of November 24th, 1945, indicating
that you heard a small portion of our recent
DX program.

Reception was apparently
generally poor in the East, due to the high
noise level you mention.

We remember having the
pleasure of verifying your report on our
program last spring.

Yours very truly,

Gordon L. Sadler

CHAT

Covers the Southern Prairie

1000 WATTS
1000 HERTZ

MONARCH

Transmitter: Roytal, Alta.

BROADCASTING CO. LTD.

Studios: 520 First St., Medicine Hat, Alta.

December 8, 1948.

Mr. Norman L. Maguire,
434 North Maple,
Albuquerque, New Mexico.

Dear Norman:

Just this morning we received your report on reception of our DX of November 30th ayem. The details which you gave are correct in every respect.

There is absolutely no doubt that it was our station to which you were listening.

Accordingly, we are pleased to send you this letter of verification. We trust that this letter will be satisfactory, as we do not issue cards - in view of the fact that there is insufficient demand to have cards made specially.

CHAT is powered at 1,000 watts, and is fully equipped with R.C.A. gear. Our studios are the most modern in Western Canada. We have an exceptionally large Studio "A", and two smaller studios, also two control rooms - identically equipped - either one of which can feed the transmitter at a moment's notice. Our second control room has recording equipment for two tables, and we are fully equipped for all types of remote broadcasting. Our staff numbers fifteen at the present time.

You will be interested to know that we were operating directionally with a two tower array, the null directed south, and the major lobes of the pattern extending east and west! This is our normal pattern, and we did not change it for the DX, as this is against the Department of Transport regulations.

Thanking you for your interest in our station, and best 73's, we remain

Yours very truly,
BROADCASTING STATION CHAT

Dear Sir:

Thanks for your letter of March 20th. I checked back through our files, but could find no trace of a previous letter from you around October 11th, so I presume it went astray in the mail.

However, I checked your report of reception on October 11th, 1945, with our station log and am pleased to verify same.

For your information, Station CJCA also operates short-wave station VE9AI, carrying the same schedule of programs, on 9540 kc in the 31 meter band.

We would be pleased to hear from you again.

Yours sincerely,
BROADCASTING STATION CJCA

LETHBRIDGE - ALBERTA

BASIC C. B. C. STATION

Jan. 2, 1944.

Norman L. Maguire,
626 north Girard,
Albuquerque, N.M.
Dear Sir,

I am pleased to verify your report re- reception of our station on December 26/43 from 10.00 P.M. to 10.15 P.M. Mountain War Time on 1060 Kilocycles.

The Transmitter is an RCA model I-K , 1000 Watts, which we installed and put on the air on Nov. 1/42, on 1060 Kilocycles. A six wire transmission line feeds the 1/6 wave vertical antenna.

Previous to this we used a 100 watt Marconi Xmitter on 1400 Kels.

It was interesting to note that it was snowing in Albuquerque, for this winter, so far , we have had no snow in Lethbridge and we have been playing golf, tennis, softball etc., because the weather has been so mild.

Thanks again for your report.

Yours Truly,

U. S. A.

Dear Sir:

Many thanks for your prompt reply reporting reception of our signal on the occasion of the DX program on November 18th, 1946. We are pleased to acknowledge your letter and we appreciate your report.

As you probably know, our station is operated by the Government of Alberta as a non-commercial station. We began operation on November 1st, 1927. Our daily schedule of 17 hours is devoted to educational and entertainment as well as non-sponsored network programs. As we are seldom on the air after midnight we don't receive many reports from far beyond our usual service area.

We hope to be able to put on another DX program when again it becomes our turn to offer a contribution to an interesting hobby. Wishing you the compliments of the season, I remain

Yours very truly,

CKXL

CALGARY, Alberta

September 22, 1952

Mr. Norman L. Maguire
434 Maple Street N. E.
ALBUQUERGUE, New Mexico

Dear Sir:

Thank you very much for your interesting DX letter of September 14, 1952. I have checked it with our log and am pleased to report it is accurate.

CKXL normally operates 24 hours per day with an RCA 1 kw rig on 1140 kcs. We normally use two 200 foot towers oriented 35 degrees West of due North and our night-time directional pattern of signals are pulled in from the south-west to protect KDGM, Stockton, California and from the east-south-east to protect WRVA, Richmond, Va.

At the time of your DX we were operating under a technical handicap by having only one tower in operation and therefore we had to cut our power down to 250 watts, non-directional. You can see from this why we are very pleased to receive your DX report at this time.

I hope this confirmation will be sufficient for your files.

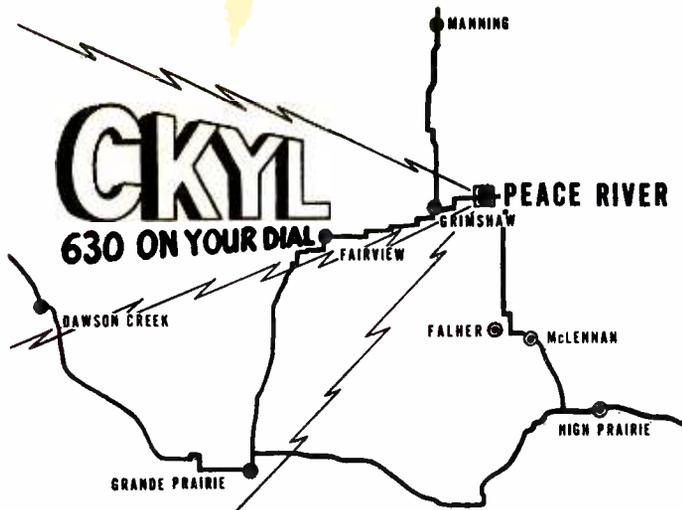

Yours truly,

John Newbery

Engineering Dept.

With best wishes for your continued D-X success, I am

Yours sincerely,

Al Reusch, Program Director

PS Verification card enclosed.

434 North Maple
Albuquerque, New Mexico
20, March, 1952

General Manager
Radio Station CHUB
Nanaimo, British Columbia

Dear Sir:

I am enclosing a copy of a report of my reception of CHUB as received a year ago when you were presenting your regular program schedules on 1570 kilocycles. I never received a reply to my original letter, nor to follow up letters sent your station. I would appreciate any assistance that you could give me in helping me to obtain a verification of my reception of CHUB. Thank you very much.

Program details: (March 23, 1951) (1570 kcs)
11:15 P.M., PST Newscast.
11:20 Weather forecast for Vancouver and Nanaimo.
11:22 Selection. Bad local interference.
11:24 "RCA Victor Orchestra "Pagliacci".
11:27 Piano solo.
11:31 Chatter about music.
11:33 Operatic selection.
11:41 Announcement and selection.
11:45 Announcement,
11:47 Orchestral selection with piano solo.
11:53 "Stan Kenton and" Orchestra and chorus.
11:56 Announcement and selection, with male vocalist.
12:00 Announcement and theme.
"Your station, CHUB, in Nanaimo. 1570 on your dial."
News summary and weather forecasts.
12:08 A.M. (March 24) "Your station, CHUB, in Nanaimo.
And so ends the day from CHUB in Nanaimo, B.C.
Operate on 1570 kcs with 250 watts."
Signed off after "God Save The King".

Your signals were R-4, S6-9. There was considerable static and slight fading. There was no interference from any other stations, but there was some local interference as noted above. The weather was fair with the temperature about 45°. My receiver was a Hammarlund HQ-129X using a 115 foot East-West antenna.

Hope that I may have the pleasure of receiving a confirmation of my reception of CHUB and would appreciate your cooperation. Thank you very much.

Yours truly,

Norman L. Maguire

Dear Mr. Maguire:

This will acknowledge your letter of January 3, 1948, and verify your reception of our station, CJIB, during the broadcast of the opening of the new curling rink in Vernon.

We are a new station on the air - four months now - and appreciate any reports and comments.

Our transmitter is a 1000 Watt RCA job. Antenna is 3/4" copper pipe strapped to a 195 foot wooden pole which stands on three large insulators, and is fed by an RCA, 5 wire transmission line. The transmitter is located by a small lake four miles north of town and part of the ground radials run into this lake. All studio consoles and speech equipment was designed and constructed by our own engineering staff. We have one main control room and one standby and recording room.

I thank you again for your report on our station and wish you the best of DX in the coming year.

Yours very sincerely,

Dear Sir:

We're sorry to be so tardy in replying to your letter. But finally it was delegated to me, due to other commitments just didn't seem to get the time.

First of all we were happy to hear from you and are sincerely sorry that you had trouble picking us up however you did log a great deal of the program and this letter will confirm that it was Radio Station C.K.D.M. that you heard from 2 A.M. to 4 A.M. (CST) Monday January 23---with a power of 250 watts on a frequency of 1050 Kilocycles.

Its to bad XFG gave you somuch trouble. We hope we'll be hearing from you in our next DX Broadcast and we'll try to be a little faster with the reply.

Yours sincerely,

H.W. Thomas,
Technician.

Dear Mr. Maguire:

We are very pleased to verify your reception of this Station on July 19th, 1945, between 3.45-4.30 AM, EWT. We have made a careful check of our Log and find that you undoubtedly were listening to our programs which were carried on throughout the night of July 18th-19th, as we stayed on the air beyond our normal close-down to keep the public informed during the explosion scare.

At present we are operating with only 100 watts power and it is with considerable interest we learn that you received our signal with greater strength than that of CHNS who at present are operating with an output of 1000 watts. We will be pleased to receive further reports from you at your convenience.

Yours very truly,

Manager.

CKBW

The **ACADIA BROADCASTING COMPANY Ltd.**

BRIDGEWATER, NOVA SCOTIA

One Thousand Watts

One Thousand Kilocycles

399 King Street,
March 22, 1955.

Mr. Norman L. Maguire,
1420 Columbia Drive NE,
Albuquerque, New Mexico.

Dear Sir:

I am pleased to verify your reception report of our station CKBW on February 21, 1955, from 4:17 a.m. to 4:35 a.m. Atlantic Standard Time.

The following is a brief description of transmitting facilities:
Our transmitter is RCA Victor Type BTA-1L.

1000 watts day pattern and 1000 watts night pattern.

Description of Arrays:

Number of Towers: Two.

Identical guyed towers of uniform cross sections,
insulated at the base for series feed.

Height above base insulator:

West Tower: 164' 60°

East Tower: 164' 60°

Overall height above Ground:

West Tower: 170' 62°

East Tower: 170' 62°

Height above Sea Level:

390' (approx.)

Orientation of Array:

Towers located on a line running due East and West.
Towers spaced 246' or 90°. West current leads East
current by 92.0°. This forms a Cardioid Pattern
with the Null due West. (This is the night Pattern).
Day pattern uses one Tower.

Thanks again for your reception of CKBW on Feb. 21, 1955.

Very truly yours,

THE ACADIA BROADCASTING CO. LTD.

BROCKVILLE, ONT.

January 1, 1953.

Mr. Norman L. Maguire, W5NXF,
434 Maple Street N.E.,
Albuquerque, New Mexico.

Dear Sir:

I am very pleased to verify your report of reception of our signals on 1450 kc. from 0448 a.m. to 0459 a.m. EST on December 7, 1952.

This was our first DX Special using our new transmitter, which has been in service since July 29, 1952, we are especially pleased to receive reports at this time.

Our transmitter is an RCA BTA 250M, with a power output of 250 watts, feeding a vertical quarter wave tower, against a buried radial counterpoise.

Regarding your doubt about the accuracy of your times in your report: we got rather carried away up here with seeing what the new rig would do, so we stayed on till 0516 a.m., not realizing that WTSA was trying for DX the same morning.

Incidentally, I haven't finished mapping all reports received, but I think yours will be the farthest received.

Many thanks for your interest and your report. Hope to put in a stronger signal next time. 73's for now.

Yours very truly,

Sid Penstone

Key Station to Over Half a Million listeners 18½ Hours a Day

"The Voice of the Golden Acres"

February 14, 1952.

Mr. Norman L. Maguire,
434 North Maple,
ALBUQUERQUE, New Mexico.

Dear Mr. Maguire:

Please accept my deepest apologies for not answering until now your prompt report of our DX broadcast of January 19, 1952. At the moment I am in the process of design of a new Control Room and its associated equipment, and for this reason time is at a premium and only now have I got around to answering yours and other DX reports.

Your report quite agrees with our log for the night, although Mr. Bal-lantyne, my technician, misunderstood the time of transmission, and went on the air one half-hour later than scheduled and due to this more DX reports would have been received and vica versa, some that were received would not have been received had we been on the air at the correct time.

Many thanks for your report, and I hope that this letter will serve as a verification for you and that at a later date we can go on the air again for you and other DX fans.

Following is a list of information concerning Radio Station CHLO which may interest you:

Power: 1 Kw.
Frequency: 680 Kc.
Antenna: DA - 1 (Same pattern Day and Night)
Transmitter Site: Lat. 42 deg. 50 min. 40 sec. north
Transmitter Site: Long. 81 deg. 08 min. 40 sec. west

Transmitter and Studio Equipment: All Northern Electric.
Transmitter Type: N. E. 443-Ar-1

Many thanks again for your report, I remain,

Yours sincerely,

Dear Sir:

At long last we have gotten around to answering your letter of Feb. 12, regarding our DX broadcast, arranged by, and dedicated to the National Radio Club. Judging from the times or the musical selections and announcements, you must have been listening to our station. I might say that you must be several hundred miles farther away than any others who heard us.

If we ever plan to have a test broadcast which we contemplate a few days ahead we will drop you a line, because we would like very much to have another report from you. Would New Orleans interfere there at all? They signed off for that Feb. 12 broadcast.

Thanks again,

Gordon E. Smith

Albuquerque, New Mexico.

Dear Norman:

We are pleased to be able to verify your reported reception of CJLX Radio on the day of November 11th, 1960.

We operate on an assigned frequency of 800 KC with a power of 5000 Watts night and day.

After checking our station log, we find that your reception report was correct in all details.

We wish you every success in your radio adventure.

Yours very truly,

LAKEHEAD BROADCASTING COMPANY LIMITED

Dear Mr. Maguire:

This will acknowledge your letter of March 1
in reply to our DX program.

We were very glad to hear from you, and as
requested we are sending you a verification, also taking
the liberty of mailing you under separate cover one of
our Royal Visit Spoons which we are sending you with our
compliments.

If you would like some more we are only too
pleased to accept U. S. currency in payment at 15 cents
each, in fact you might be pleased enough with it, in
being a student at the Lehigh University, to show it
around to the other students and if they would care to
have one of these Souvenirs, or as many as they would
like, we would be only too glad to send them to them.

Yours very truly,

January 26, 1941.

Mr. Norman L. Maguire,
101 Hope Street,
Stamford, Connecticut.

Dear Sir:

We wish to thank you for the report of reception of CKOC, and also for the return postage you enclosed. We are going to verify your report on the basis of what you heard, although two of the selections you list are not in our library of Ray Noble recordings, namely -- The Last Time I Saw Paris, and A Nightengale Sang. We have them however by other orchestras. We do not keep a list of numbers played, and the announcer who picked out the program does not remember what he used, but I am certain that you must have made a mistake in the titles, as the rest of your report is without a doubt correct.

Yours very truly,

BROADCASTING STATION CKOC,

Mr. Norman L. Maguire,
83 Prospect Street,
East Hartford 8, Conn.

Dear Mr. Maguire:

We are pleased to verify your reception of
CKWS between 8:00 and 9:00 P.M. EDT on August 27, 1945.

Our directive array is designed to give
maximum radiation in a northerly direction and relatively little
south, in order to protect U. S. A. stations on the same frequency
against interference, therefore a high signal level should not
be expected at Hartford except under unusual propagation conditions.

We are always very glad to hear from our listeners
and will appreciate any future reports.

Yours truly,

Dear Mr. Maguire,

We are pleased to confirm your reception of Canadian Marconi Station CFCF from the details given in your letter of September 1st. A verification stamp is enclosed for your records.

Regarding our FM Station VE9CM which operates with an experimental license on a frequency of 48.8 mcs, we shall be very grateful to receive any report you may be able to give us from time to time but feel your chances of reception are quite remote.

However, for your guidance I would like you to know that this transmitter uses the Armstrong method with certain improvements, is of relatively low power - 25 watts - and is on the air daily from 5.00 p.m. to 1.00 a.m. During this period it carries the same programmes as are broadcast over CFCF.

Sincerely yours,

DIRECTOR, SALES PROMOTION

Granby, Que.

P.S. I just come across
another report you sent
and which is correct too.

La Voix des Cantons de L'Est

The Voice of the Eastern Townships

LA TRIBUNE
SHERBROOKE QUE. June 12th 1945.

Norman L. Maguire,
83 Prospect Street,
East Hartford 8, Conn.

Dear Sir:

I have received your report of reception dated June 6th and 7th.

The report is correct, except that instead of being a news commentary from 10.15 to 10.20, it was a political speech on behalf of a candidate in the coming Canadian Federal Elections.

Your details for early morning reception are correct.

CHLT is operated by the french daily newspaper La Tribune of Sherbrooke, Que. It is a bilingual station with 250 watts of transmitting power. The frequency is 1240 kcs. We are on the air from 7.25 a.m. EWT every day untill 11.30 p.m.

On June 6th we had a bit of transmitter trouble which was repaired after operating hours. The music you heard from 2.34 to 2.38 am was a test.

Within a few months now we will change frequency and increase our power: 1 kw at 900 kcs. Should you hear us then we'll be glad to receive a word from you.

Yours' very truly,

Roméo Paquette, Op. in Chg.
Radio Station CHLT,
Sherbrooke, P.Q. Canada.

Dear Mr. Maguire,

This is to acknowledge with great pleasure your report on our DX Pro-gram transmitted from our Station on the morning of the 14th. inst., from 4.30 am. to 5.30 am. We are glad to inform you that the musical selections, songs, etc., as reported are in conformity with those inscribed on our program. As further confirmation, we submit for your personal a copy of our complete program.

Contrary, however, to the belief of the majority of those who have sent in reports our Station operates with a power of 100 watts only, though we have hopes to increase it to 250 watts in the near future.

We wish to thank you for the technical details which you have given us. These details should prove to be useful.

You will no doubt be pleased to hear that we have received to date some 30 reports from various places in the United States as well as a few from parts of this country (list is attached herewith).

In conclusion, we should like to say that this has been a most interesting experience and we shall look forward to participate in another DX Pro-gram at the request of the National Radio Club, particularly if, and when we have increased our power to 250 watts.

We take the opportunity to invite you to visit Sorel and our Station, should you have the occasion at some future date to be in this vicinity.

With cordial thanks.

Yours very truly,

Radio Station C J S O.

Your reception indicated by our check mark:- GOOD FAIR WEAK POOR BAD

DEAR DXERS:

Our first experience on the air to the DXERS is indeed a very gratifying and pleasant one. The Management of CKRN is proud to thank you for writing giving us your comments as attentive and interested listeners on our first DX experiment.

The volume of letters received from all over Canada, the United States and even from remote villages make us indeed very happy as CKRN is hardly over a month old. His Worship Mayor J.O. Tardif of Rouyn, Managing Director of CKRN personally read and carefully noted each and every letter confirming our DX broadcast.

The Mayor thought you might be interested in knowing more about Rouyn and its twin sister Noranda (one mile apart). Rouyn-Noranda have a joint population of approximately 16,000. The famous Noranda Gold Mine alone employs 2500 men. There are no Relieffees here as everybody works. Rouyn-Noranda are at about an equal distance from Montreal or Toronto. Tourists come here via North-Bay, and after visiting the famous Canadian Dionne Quints at Callendar, their next point of interest is Rouyn-Noranda, where visitors are welcome, and Hotel accomodation is second to none.

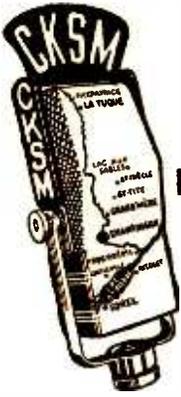

Again thanking you for your wonderful encouraging cooperation, we remain,

Sincerely yours,

POSTE DE RADIO C.K.R.N. RADIO STATION.

J.O. Tardif, Managing Director.

January 9th, 1945.

Mr. Norman Maguire,
1210 E. Grand,
Albuquerque, New Mexico,
U. S. A.

Dear Mr. McGuire:

Thank you for your communication of recent date concerning the fact that you picked up a portion of our sign-off Christmas morning. This will confirm the fact that what you heard is correct except that the name is "Priestly" not "Pressin" and, as you might be tempted to enquire as others have done, there is no known relationship to "J.B. Priestly" the English writer and BBC commentator.

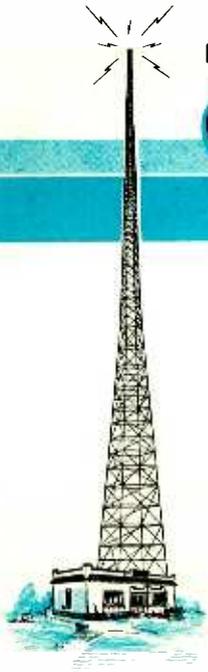

It may interest you to know that S. R. Morss, R-3, Bradford, Mass., and Ralph M. Johans, 364 Elm St., Buffalo, N.Y., also heard a portion of the same sign-off.

Yours very truly,

RJPriestly/A

MANAGER

P. S. The broadcast period on Christmas eve was longer than our regular schedule.

PRINCE ALBERT
Saskatchewan

December 18th, 1941.

Dear Norman;

Thanks a lot for your letter referring
to our broadcast.

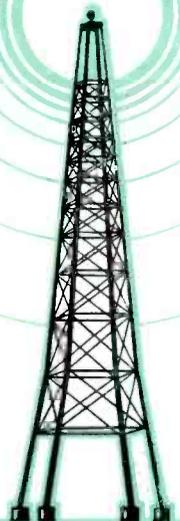

There's little doubt that you were listening
to CKBI. Please accept this letter as a verification
of your report.

Would like to have you listen to our morning
show, 6 to 7 AM M.S.T., and report on it.

Thanks and a Merry Christmas,

A handwritten signature in cursive script that reads "Gerald Prest".

Gerald Prest.

January 31st, 1944

Mr. Norman L. Maguire,
626 N. Girard,
Albuquerque, New Mexico,
U.S.A.

Dear Sir:-

We acknowledge your report of reception on January 11th of CKCK - 620 kilocycles at 11.00 p.m. fast mountain time when you heard our Station call sign and time signal followed by a program of dance music; this we have pleasure in giving you verification for and, at the same time, thank you very much.

Yours very truly,
