Dear Sir:

Thank you very much for your report of reception of WBIS on April 11, 1952. Your detailed log of programs checks with our program logs, and hope this letter will serve as a confirmation of reception of WBIS.

We operate on a daytime schedule, with power of 500 watts. All equipment is Gates. Final amplifier is 450th. Modulators are a pair of 810's.

We have had a number of reports from your area, and glad to have your report to add to our collection.

Thanking you for your report, and your interest, I remain,

Sincerely,

C. Vernon Anderson

Dear Listener:

This is a verification of your report of reception of Radio Station WCNX programs on Nov. 8, 1954 at 0905-0423 EST. Your report has been checked and found to agree with our operations log.

Thank you very much for taking such an interest in our station, and we hope that you will continue to listen to us from time to time.

WCNX operates from 6:00 A.M. (Sundays 8:00 A.M.) to local sundown time throughout the year; with a power of 500 watts to the antenna. Occasional equipment tests are performed during early morning hours.

Thank you again for your co-operation in helping us to determine how we are "getting out."

Sincerely yours,

Dear Radio Friend:

Please consider this a personal answer to your letter of January 14, 1936, for we most certainly would answer each of our correspondents personally, were it not for the fact that the large amount of mail we receive makes it impossible for us to do so.

We have compared your report with our station records, showing the program broadcast by us, on the day and hour reported by you, namely January 14, 1936 at 7:30 P.M.

C We are pleased to confirm your reception of our station at this time, and hope that you will be able to tune in and enjoy our broadcasts on many future occasions.

Cordially yours,

Walter Haase

Albuquerque, N.M.

Dear Mr. Maguire:

We are indeed pleased to receive your report of reception of our National Radio Club test program. It is especially interesting to hear from you as a former resident of Stamford.

To date your report is the most distant ever received here at W.S.R.R. Your loggings are most accurate and we are glad to verify your reception.

Although we have no definite plans in the near future for a similar test, you might from time to time look for this station Thursday mornings between 12 A.M. and 2 A.M. Our transmitting equipment is tested during this period and frequently we have recorded music to check the modulation.

Yours very truly,

RADIO STATION W.S.R.R.
