Dear Sir:

Your report of hearing W D C F on February 27th, 1956 between 4:32 and 4:45 A.M. EST is very complete and accurate and is hereby verified. Thank you for the report, our only one from New Mexico. Perhaps we can put on another broadcast some day in the future. I would like to contact you by amateur radio some time, also. I am not on the air, right now, my final being in the process of being built in to the same cabinet as my VFO. I have a home-built vfo, built into one-half of a tuning unit of a BC-375. I am putting a final consisting of an 807 in the other half of the tuning unit cabinet. This will serve as vfo and exciter for my big rig when I get it built. Oh, for oceans of money with which to buy ham equipment. I hope to be on the air in the near future with about 150 watts on 80, 40, and 30.

Yours truly and best of 73's

WFTL BROADCASTING STATION

Phone 1300

"Serving The Tropical Wonderland"

2700 South Andrews Ave.

FORT LAUDERDALE, FLORIDA

May 31, 1940.

Mr. Norman L. Maguire,
101 Hope Street,
Stamford, Conn.

Dear Mr. Maguire:

This will verify your report on our test program of May 7th, 1940. We certainly wish to thank you for this report and for the fine interest you have shown in our station.

This station has been on the air since December 4th, 1939. We are completely Western Electric equipped. The xmitter is a 310-B feeding a Blaw-Knox 175 foot tower. This is a perfect quarter-wave antenna for this frequency. The ground is standard Bell Lab System using 120 radials a quarter wave long with an 8 foot ground rod at the end of each radial. On a circle 15% of the tower height away from the tower base there is a circle of 4 inch copper strip to which each radial is soldered. Inside the circle mentioned above there is a radial run to the tower base between each of the long radials.

Our regular test programs are scheduled to be broadcast from 3:00 to 3:15 a.m. EST, on the Tuesday of each month. The next regular test program will be broadcast on June 4, at this time. We would be very glad to hear from you again.

Again thanking you for your interesting report and with best wishes,

Sincerely,

WFTL BROADCASTING STATION,

Francis G. Carroll

1320 ON YOUR DIAL

P. O. BOX 539

HOLLYWOOD, FLORIDA

TELEPHONE WA 3-3030

December 23, 1957

Gentlemen:

This will verify your report of reception of Radio Station WGMA, 1320 KC, Hollywood, Florida, on Monday morning, December 16, 1957, between the hours of 3:30 to 4:00 A.M. E.S.T.

WGMA is licensed to operate with 1000 Watts of power, however due to technical difficulties beyond our control it was necessary to operate with only 600 Watts of power, during the broadcast.

The announcer conducting the program was the executive Vice President of Home Federal Savings & Loan Association, Mr. Robert Landis, an avid radio fan. Mr. Fred Wheelehan, our program director slept through the program having forgotten to mark his calendar correctly.

We are enclosing a coverage map of WGMA and a WGMA, Home Federal Hurricane Map as a souvenir of the broadcast.

We would like to take this opportunity to thank you for your report of reception of WGMA, and may we wish you the best of DX in the future.

Sincerely,

Charles C. Castle

Albuquerque, New Mexico

Dear Norman:

We at WILZ are pleased to send this letter as verification of your reception of this station between 4:00 and 4:30AM EST, March 20, 1961.

WILZ is a daytime station, operating on 1,000 watts of power with a two tower directional array. The towers are 155' each and spaced 155' on a line bearing 175 degrees true. This puts our directional signal to the northward as we are protecting a station on the same frequency in Cuba by International agreement.

Our normal operating hours are sign on at 6:00AM weekdays, and 7:00AM Sundays, until local sunset. Our longest day during the summer months of June and July requires our sign off at 7:30PM.

All studio and transmitting equipment is RCA. The studios are located at St. Petersburg Beach, and the transmitter eight miles distant in the south of St. Petersburg, Florida.

We enjoyed participating in your program. Best of luck from the entire staff on future DX!

JACKSONVILLE is located on the St. Johns River, which empties into the Atlantic Ocean with a channel of 30 feet at the bar and is navigable for 200 miles into the heart of Florida.

Jacksonville is served by 5 trunk line railroads; 144 passenger trains from all parts of the country entering and leaving daily. Its steamship service extends to the ports of the world.

Jacksonville owns and operates its municipal docks. Has over 400 manufacturing plants with an annual production output of \$100,000,000.

Jacksonville is a terminus for the Dixie Highway, the Atlantic Coastal Highway and the National Highway. It is the hub of Florida's good roads system.

Jacksonville has the finest driving and bathing beach in the world. It is 30 miles long and 600 feet wide at low tide. It is as smooth as velvet and hard as concrete. A 32-foot concrete boulevard, electrically lighted joins Jacksonville and its beach.

Jacksonville has a rich back country which is especially attractive to specialized agriculturists.

Jacksonville has many public-owned utilities. Its municipal electric plant, in addition to furnishing cheaper power and domestic rates than any plant in the United States, earns a net profit of over \$500,000 annually which goes toward the reduction of taxes.

Jacksonville has a cosmopolitan population, with every state in the Union well represented. Here they share a common happiness. It is AMERICA'S ideal city.

W L C O

SERVING THE GOLDEN TRIANGLE

EUSTIS, FLORIDA

EUSTIS - TAVARES - MOUNT DORA - UMATILLA

March 14, 1956

Dear Mr. Maguire,

It certainly was wonderful to hear from so many of you N R C members. When I cranked up our little 250 Watt coffee-pot on January 23rd at 3.30 A. M. Eastern Standard Time, I had no idea that so many ears and antennas would be pointed in the general direction of Eustis.

This (although typically radio-late) is to verify your reception of our specially arranged N R C broadcast on the aforementioned date. That definitely was W L C O that you heard. Thanks to all for your many gratifying comments. It sure took the curse off getting up so early.

Winner of the box of Citrus from the Livingston Fruit Company, Eustis (which, incidentally, was modified to jams, jellies, and other less perishable Florida goodies) was K. A. Mackey in Dunedin, New Zealand. Aside from New Zealand, Canada was the only other country outside of the U. S. A. heard from on this broadcast. The States were well represented from coast-to-coast and border-to-border, for an over-all total of 63 replies.

Would like to have been able to write a personal note to each one of you, but, with being tied up at W L C O, and making a change of jobs, it is necessary for me to take this easy way out. Right now I am lying on Florida's prettiest beach, soaking up the sun that only Florida can boast, and dictating this to my favorite Secretary, Mom. Tomorrow morning I leave for my new job at W R O D in Daytona Beach, Florida. (If you haven't logged them yet, let me know and we'll rectify that.)

Till I see you on the air again, 73s to you all!

Radiocordially,

Nancy Cox

J. ALLEN BROWN
EXECUTIVE VICE-PRESIDENT
AND GENERAL MANAGER

Mr. Norman L. Maguire
434 North Maple
Albuquerque, New Mexico.

Dear Sir:

Thank you for your report on the reception of our signals. A check of the log for Tuesday October 16, 1951, 4:00 to 4:15 AM shows that your report is essentially correct.

The equipment here consists of an RCA model BTA-5F with a power of 5000 watts. We use a 5 tower directional array during the hours of darkness. The array is oriented 074 true.

Sincerely,

W. D. Daniel

Hi DX'er:

Here's verification of your reported reception of the special DX Broadcast from our station on March 20, 1957, at 4 a.m. to 4:36 a.m., EST.

I was very glad to hear from you and that you had received our program in conjunction with the NNRC. Your information as reported was substantially correct.

I am grateful for your response to my request and correspondence from those who recieved the Broadcast.

Broadcastingly yours,
From the SUNSHINE State of
Florida,

JIM DRISCOLL

Sales Manager of the Weather,
News, Time, and Music Station in

Dear Mr. Maguire,

We thank you very much for your accurate and most helpful reception report which we read today.

We are keeping your letter in our engineering files as it provides an excellent cross check of our sky wave radiation. We will appreciate any further information or observation which you can make known.

-WORZ- is utilizing a three tower quarter-wave array end-fired by a 1,000 watt composite transmitter one mile due west of Orlando, Florida. As a frequency check -WORZ-'s frequency has been maintained by nightly checks with RCA communication at 740,000 kilocycles.

Yours is a distinct and valuable service to a broadcaster. Thanks again.

Very truly yours,

CENTRAL FLORIDA BROADCASTING COMPANY

NOVEMBER 28th, 1958

Dear Listener:

This is to thank you for your letter, and is also verification of your report of the DX program which WPCF broadcast on the morning of October 20th, 1958 from 1:30-3:30AMCST.

WPCF is a fulltime 5,000 watts Mutual affiliate, located in Panama City, Florida. After the magnificent response we have had from that one DX program, we are seriously considering operating 24 hours a day. Keep listening for us.....1430 on your dial.

Thank you again for your kind words, and your cooperation.

Sincerely,

E. L. Dukate
General Manager

RE: Verification

Dear Mr. Maguire:

Thank you for your report on my 'equipment test' broadcast of January 20, 1951. Your report covering the period 4:25 to 4:50 AM EST is quite correct.

Your verification is the 31st that I have given of this broadcast, and your report adds the 15th state to my list, for your report is the only one from N.M. The most distant report has come from Oregon. Our rival state, California, made a good showing with 4 reports while Penn. led with 8 reports.

This broadcast was the first that DXers really had the chance to log us, since we are a 1000 watt daytime station (680 KC) and took the air Aug. 13, 1950. Our facilities, however, are not new. The station was prior to Aug. 13, 1950 owned by Clearwater Broadcasters and operated under the call WCLE.

I want to wish you the very best of luck with your DX hobby.

Respectfully,

Manly St. Jean, CH. ENG. WPIN

Dear Mr. Maguire;

Up to date you have the most distant report and I have doubt about any more coming in so I guess I'll send you the \$500. Leslie Smith, the one who said he would offer it, beat it to the West Coast with the \$500. I guess I'm responsible, so rather than disappoint you after listening especially for it, I am going to remit it, myself. Your report was accurate as to what you did hear. We're trying to get another DX when KHS is off, by Lefty.

Georg would have verified this ^(you) report but he left all this up to me. Your clock was minute off, tho. Announcements were on even minutes. Say, do you use WWV for time sigs? I usually set the clock down here at the Xmitter and tell the boys at the studios how much the W. V. clock is off. WWV is supposed to be accurate at A. F. the $\frac{1}{5,000,000}$ part. They sent me a jib of stuff.

Well, congratulations on winning the \$5 and many thanks for your report. We've got 26 repts. and 2 TNX cards. (One TNX card from Hawaii)

Dear Sir:

We have your letter of October 29th reporting reception of Radio Station WSUN on Thursday, October 29th, 1936.

We are indeed pleased to verify your report of hearing this Station on October 29th, 1936 from 9:00 to 10:00 P.M. at which time you listened to the Maxwell House Showboat from the National Broadcasting Company and the time signal and station identification from our local studios at 10:00 P.M.

This Station broadcasts on Tuesdays, Thursdays and Saturdays. Our sister station - WFLA at Clearwater - occupies the time the other three week days and we broadcast jointly on Sundays.

Thanking you for your interest and trusting you will be able to tune in on WSUN again in the near future, we are

Very truly yours,
