Dear Mr. Maguire:

We were indeed glad to receive your letter of September 16, stating that you tuned in on our station on that date. I checked with the announcer and also the log and find that your report agrees with our records of the program at that time.

I want to thank you for letting us know our signal was heard out there in New Mexico. Anytime you pick us up again let us know.

Yours truly,

Becky Bellamy

Dear Mr. Maguire:

Thanks for your letter dated October 28.

Your report was correct in every respect this time. We were very sorry that we couldn't send you a verification the first time you requested it. But of course, we knew you had rather have a correct report than an incorrect one.

The equipment here at WBHB is Gates equipment throughout. The transmitter is Gates Model 250-C-1 using RCA 810's push-pull in the final, with 250 watts. The Modulators are also RCA 810's class B.

Hoping to hear from you again.

Yours very truly,

R. M. Ware, Jr.

November 26, 1954

Dear *NORMAN*,

Thank you for your reception report of the November 15, 1954 program. Your report was accurate and this is to verify your reception of our station.

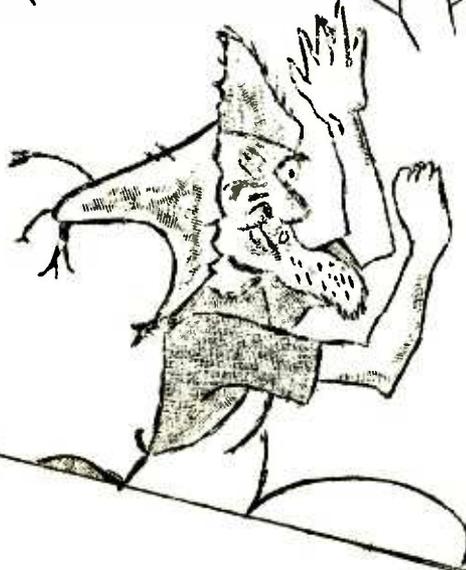

Sorry there was so much QRM and static. The broadcast was a success though, with reports from most of the States, Canada, and New Zealand.

We have 250 watts feeding into a 200 foot series tower. Our equipment is entirely Gates. We use two 810's in parallel with a pi network. Our primary and secondary is surprising for our power and frequency.....roughly 25 and 50 miles. Cornelia is located in the foothills of the Blue Ridge mountains with a population of 3500 people. The climate is Ideal here year round. Fishing and Hunting ~~is~~ are both very good here with many lakes to pass the summer months.

Thanks you again for your report. It was pleasing to recieve so many reports. Success to you and your club.

WALTER E. BARDEN, GEN. MANAGER

October 30, 1947

Norm Maguire,
WLQNK
185 Williams Street,
Glastonbury, Conn.

This is to verify that WKMA was operating at the time that you were tuned in Oct. 13. Your report was pretty garbled due to picking up KXRJ, Russelville (Little Rock) Ark. with ~~that~~ that damnable tone it sends out all the time, and some other station who signed off 33 minutes before my freq check was over.

*something was
QSD-ed!*

All northern reports said that our signal faded out at 30LAM, altho we were on the air until 334AM. Where our signal went to then, goodness only knows. Only other report was from from some guy who lives a $\frac{1}{2}$ mile away from the xmtr. who fell asleep at regular sign off time and was awakened by his radio that was left on. Big deal!

'Bye now and lets hear from **you** again!

Sincerely, yours,
Charles L. Widney

Dear Sir:

We regret the delay in verifying your reception of W R Q N but due to rush of business in going on the air we have been unable to catch up with correspondence heretofore.

Your communication of Dec. 9-1946 reporting reception of W R Q N from 4:05 AM to 4:11 AM on Dec 9-46 is correct.

Norman Maguire:

This is in answer to your very nice letter I received as a result of the DXing show that I did for the National Radio Club on the morning of Jan. 20th from 4:30 till 5:00 AM, an a verification of the fact the show was conducted as you had it logged.

Thanks very much for the nice letter, glad too that you enjoyed the show, if you would like to then listen in on WSM in Nashville, Tenn., Friday night Feb. 7th, 10:15 till 11:00 CST, as that is my date to appear on the Mr. Dee Jay USA show, until then thanks again, I remain,

Very Truly Yours,

Stacy Kelly

Dear Mr. Maguire:

Thank you for your detailed letter regarding reception of test broadcast from WWGS. It is gratifying to know that our signal is getting out so well.

Your program list checks with our log.

If you are ever in the "Deep South," stop by Tifton and visit us at WWGS.

Very truly yours,

TIFTON BROADCASTING CORP.

Albuquerque, New Mexico

Dear Sir:

We are pleased to verify your report of reception of our station on December 9, 1957. We have only recently discontinued the early morning hours, so that you received us at a good time.

Our equipment consists of a new Gates BC 5 P five kilowatt transmitter feeding a single vertical radiator with an overall height of 200 feet. The studio equipment is primarily RCA with Rust Remote Control system in use.

Thank you for your fine report and best wishes for continued good DX'ing.

Sincerely yours,

A handwritten signature in blue ink that reads "R. L. Leake". The signature is fluid and cursive, written over a white background.

R. L. Leake, Chief Engineer.
