

WAZF
Where The Delta Begins

PHONE 1300

Taylor Roberts Building --- Yazoo City Mississippi

January 9, 1953

Mr. Norman L. Maguire
434 Maple Street, N.E.
Albuquerque, New Mexico

Dear Mr. Maguire:

In reply to your letter of January 5th, this is to verify your report of reception of WAZF on the morning of January 5th from 3:15 to 3:23 A.M.

To this date we have received twenty-six (26) reports concerning our broadcast. We received three (3) each from Ohio, Illinois, Pennsylvania and New York; two (2) from Iowa; and one (1) report each from Texas, New Mexico, Nebraska, Missouri, North Carolina, Tennessee, Washington D.C., New Jersey, West Virginia, California, and Massachusetts.

We see now that we should have given titles to the tunes as they were played, but at the time we didn't realize that it would have made logging easier.

We enjoyed very much the privilege of doing this small favor for all the DX fans and members of the National Radio Club.

We trust that WAZF has made another friend and that your DXing will be most successful in the year of 1953.

Very truly yours,

WAZF, INC.

CANTON, :: MISSISSIPPI

November 11, 1954

Mr. Norman L. Maguire,
1420 Columbia Drive NE,
Albuquerque, New Mexico,

Dear Mr. Maguire:

Many thanks for your report on WDOB's signal which you received on November 6th.

We have just recently converted from 500 watts to 1,000 watts, and have been tuning the transmitter for most efficient operation, as well as balancing the final RF power amplifiers.

I note that you are also a Radio Amateur. Although I can't place your call right at the moment, it's possible that we may have QSO'ed on the Amateur Bands. My call is W5FXZ, and before moving back to Mississippi, I was W4ZKZ, and W4ZKZ/3. I am set up now for only forty meter CW operation.

Well, thanks again for the nice signal report, and the good wishes.

Very truly yours,

Hampton C. Clark Jr.

Dear DXer,

This is to acknowledge as correct your report of listening to W E S Y at the time you specified during the month of April, 1958. W E S Y (Leland, Mississippi) is a new station operating on an assigned frequency of 1580 kilocycles with a power of 1000 watts.

I'm sorry your reception report hasn't been acknowledged before now, but I'm sure you realize all the work that must be done getting a new station into shape.

Best of luck in your DXing.

Sincerely yours,

Carnell Tucker
Co-Manager

Dear Mr. Maguire:

Please pardon the delay in answering your letter of February 23 regarding the test transmission we had on February 23.

The chief engineer has been sick, and when he returned to the office, was called out of the state on business, and I have just recently found the letter in his file.

We were certainly glad you picked our station up during the program, and were indeed surprised that you received it so well. We also had letters from Illinois and Iowa, as well as numerous telephone calls.

If you are ever over in this part of the country, be sure and drop in to see our station. We're proud of the "Ole South" ... the girls are just as pretty as you've heard tell!

Sincerely,

Maureen Clark
