

Station WABC
ATLANTIC BROADCASTING CORP.
485 MADISON AVENUE
NEW YORK

November 7, 1935

Mr. Norman Maguire
101 Hope Street,
Stamford, Conn.

Dear Listener:

This will verify your reception of station WABC on June 1st, 1935.

WABC is the New York key station of the Columbia Broadcasting System, operating on 860 kilocycles from its new 50,000 watt transmitter at Wayne, New Jersey, which is approximately 20 miles from New York City.

This station is on the air daily from 7:30 A.M. until 1:30 A.M. the following morning, current New York time.

We thank you for your comments and hope that you will continue to receive and enjoy our programs.

Sincerely yours,

ATLANTIC BROADCASTING CORPORATION

E. A. Tucker

Lodi , New Jersey.

December 9, 1953.

Mr. Norman L. Maguire,
1420 Columbia Drive NE,
Albuquerque, New Mexico.

Dear Sir:

Thank you for the letter of November 25, 1953.

Our log shows that the program details therein are correct. We are happy to hear that we carry our programs into New Mexico.

Our antenna is a vertical structure and that accounts for our being slightly less powerful as compared with the other New York stations, which have directional arrays favoring towards you.

Let me compliment you on the excellent receiving gear you employ. It was news to us that a Japanese station on our frequency was strong enough to get into New Mexico.

Very truly yours,

N. Hagemann,
Station Engineer.

5-30-45

Mr. Norman L. Maguire,
101 Hope St.,
Stamford, Conn.

Dear Mr. Maguire:

Thank you for your reception report of our
Midnight Newscast (morning of 29th). We are glad
to verify it.

Incidentally, we return the postage, as we
never require any postage to be sent for our response.
We consider it a favor to us, when a DXer sends us a
reception report.

We really think your reception of our program
at midnight is more interesting, from our standpoint,
since all stations in the East are still on the air, as
compared with our Frequency Check at 2 am, when most of
the stations are off the air.

Kindest regards.

Cordially yours,

WATERTOWN BROADCASTING CORPORATION

G. H. Righter, President

Dear Sir:

It gave us considerable pleasure to hear from you. First, let me say that your reception of WHUC was correct in every respect. As a matter of coincidence, we were being monitored by our station manager in Teaneck, N.J. at the identical time that you had tuned us in. Teaneck is a distance of about 100 miles from us and at the time of monitoring, a portable was being used.

Our equipment consists of a Collins 300-G 250/100 watt transmitter. At the time you heard us, we were operating on ~~100~~ 250 watts. The rest of our equipment is a combination of Collins and General Radio.

Your report afforded us considerable satisfaction as to our signal and your best wishes are appreciated by the entire staff.

If you are ever in Hudson and have the time and inclination, you are cordially invited to visit our studio and transmitter.

Again, thanking you for your best wishes and consideration,

Yours truly,

Michael Tackach
Chief Engineer

Port Washington, N.Y.

Dear Sir:

I was browsing through the records and found that you had not had an acknowledgement on your letter of June 4th as having heard WKBS. Being an Engineer, I fully understand your desire for an acknowledgement of the stations that you log, so consider this an acknowledgement, though somewhat delayed. We had one from Tenafly, N.J. who stated that we were ~~was~~ as strong as WJRL, now 5,000 watts in New Jersey. The fellow probably didnt realize that WJRL has a four-Bay directive, which would account for us being comparable to them in strength at Tenafly. Our farthestst DX report is Elizabeth City, N.C. to the South and Northern Mass., to the north, with direct sales (P.I.) as far away as Hartford and Providence, Morristown and Peekskill. Reports indicate that we are rather strong up the Hudson River Valley.

August 7, 1946

Mr. Norman L. Maguire
185 Williams Street
Glastonbury, Conn.

Dear Sir:

Refer your letter of August 3rd, 1946. Thank you very much for writing us and telling of our reception up in Glastonbury. This will confirm that your enclosure of "Program details" checks with our logs here at W O L F.

W O L F signs on the air at 6:00 AM every morning but Sunday when we sign on at 8:00 AM. Sign off time is 2:00 AM the following morning every day except Sunday when we sign off at 1:00 AM. All times Eastern Daylight Time.

W O L F is a Mutual station and operates with a power of 250 watts output. Vertical quarter wave antenna, 155 feet over all length. Collins transmitting equipment and RCA studio equipment.

We hope that you will give us further reports in the future. Our intentions are to construct a "distance coverage graph" and all reports are welcome.

Thanking you again for your acknowledgement of receipt of our signals.

Sincerely yours,

John F. Cleary
Asst. Control Super.

Dear Sir:

Thank you very much for the report of your reception of our Special DX transmission at 3:36-3:52am Feb 10, 1958. Your description of our programming was 100% correct, so this confirms your report. I'm glad to know that we're getting into your part of the country so well, despite the interference.

Hope to here from you again when we run another test. Once again, many thanks.

Yours truly,

April 12, 1948

Mr. Norman L. Maguire
434 North Maple
Albuquerque, New Mexico

Dear Sir:

Thank you very much for your letter reporting reception of WNYB on March 28, 1948 from 4:04 A.M. to 4:29 A.M. Eastern Standard Time on 1080 kilocycles. Your letter is sufficient to indicate to us that our signal is doing all right, and that you have correctly logged the program material featured at that time.

On April 1, 1948 we changed our call letters to "WXRA". Here is a wish that you continue to hear us ("WXRA") with clarity and good signal strength in the future.

Yours truly,

WESTERN NEW YORK BROADCASTING CO.
