October 30, 1979

Mr. Norman L. Maguire.  
6105 Del Campo Place NE  
Albuquerque, New Mexico 87109

Dear Mr. Maguire:

Thank you for your letter of October first and I apologize for my delay in answering you...Your reception report was quite accurate and you were hearing our Spanish language program "Programma Toca Disco" with George Gonzales...Throughout the rest of the week we are programmed 100% religious and deviate only for the Spanish language blocks as there is no local Spanish language station to serve a population of more than 65,000 Latin American citizens and many more migrant workers.

KBBX is a 5KW daytime station with PSA of 500 watts from 6:00am local to local sunrise and operates at full power to local sunset...At the time of your reception our sign off was 6:45am.. We are licensed to Centerville, Utah, and serve an area from the southern extremity of Idaho through Provo, Utah, to include Salt Lake City, Ogden, and points east and west since we are non directional...I would suppose your reception was due to "skip" on our skywave as you are approximately the right distance for our primary skywave signal..

Thank you for your report and please excuse the typos as I am having difficulty with the period key on this typewriter and the other is in the shop.....

Sincerely,

Clifton W. Glasgow  
Manager/CE

Dear Mr. Maguire:

Please accept my humble apologies for not answering your two previous letters regarding the Newark News Radio Club DX Broadcast a year ago, December 7, on K I X X Radio.

Requests for confirmation came at our busiest time of the year, and it was hard for us to acknowledge with accuracy all correspondence.

There is no doubt about it, you heard K I X X Radio on the broadcast, your details were identical with the broadcast.

Sincerely Yours,

  
General Manager

Norman L. Macquire  
1420 Columbia Drive NE.  
Albuquerque, New Mexico

Dear Norman:

It was certainly a pleasure to hear from you regarding your reception of our broadcast time January 14, 1958. Everything on your list is correct. Our sign on time is 8:00 AM and our sign off time is 5:30. This is because we are operating on a daytime schedule only. We transmitt at 730 kilocycles with a power of 1,000 watts. We find this very adequate for proper coverage of this area.

Because of our low frequency and high power, we are receiving many letters from DX'ers like yourself. I hope we will hear from you again with another favorable report monitoring our station.

Sincerely yours,

Lee Jorgensen  
Program Director

LJ/cm

March 17, 1955

Dear N.R.C. Member:

This letter is to verify that you heard a broadcast by this station on February 20, 1955 from 2:00 a.m. to 2:30 a.m. Mountain Standard Time.

Station details: 1000 watts, 1390 KC, hours: 6:00 a.m. year around to local sundown. On the air for the first time October, 1955. Primary coverage area fifty mile radius. Antenna 165 feet high built by owner, Professor Haycock. Manager is Mel Richardson. RCA Transmitter model ML-7100A. Collins console model 12-H. Location: Logan, Utah, population less than 17,000.

I am happy to report that I received over seventy reports from dx listeners which makes it impossible to answer each one individually. Every one had enough information to verify that they heard this station.

I am regretful that there were two interfering stations on the air at the time of my broadcast. One was unknown (Spanish speaking) and the other was WDEB Gulfport, Miss. Incidentally, we were heard as far as Southern California, Eastern New York and North to Ontario, Canada.

I wish to thank you for your report. We are very happy to find that our signals can be heard for such great distances.

Very sincerely yours

February 24, 1950

Mr. Norman L. Maguire  
434 North Maple  
Albuquerque, N.M.

Dear Mr. Maguire,

This letter is in verification of your reception of KMUR on the morning of January 16, 1950. We were very happy to have had you as a part of our DX audience at that time.

We had a rather tough frequency for DX'ing as there were several all night stations across the country on our frequency.

Thank you very much for your interesting letter. Sorry I couldn't answer sooner, but we have been quite busy up here.

Sincerely,

Fred J. Weibell, C.E.

Mr. M. H. Milton  
Radio Station KSOP  
Salt Lake City, Utah

Dear Mr. Milton:

I had the pleasure of tuning your station, KSOP, this morning while you were presenting the special DX program on 1370 kilocycles. I would like very much to receive a verification of my reception of KSOP if this report agrees with your log.

Program details: Mountain Standard Time

0131 A.M. Selection.

0134 "That was the "Flop Eared Mule". KSOP, 1370 on your dial. KSOP, Western Utah's all Western station. King Harmon is leaving tomorrow for Las Vegas, Nevada." Request for Rolf Luton, "That's What Makes A Jukebox Play"

0139 "That was Roy Acoff. Hope DX Fans are enjoying this program. KSOP, Utah's Western music station. Dedicate to all DXers. Red Foley and Betty Foley, "How About Me?"

0142 Unannounced change of selection.

0145 "Well you're tuned to western music for all the DX operators tonight. KSOP, hillbilly and western music station, presently daytime though. KSOP. Time for more western music." Selection, "Drunk, Drunk Again."

0149 "Well, this is Radio Station KSOP, Salt Lake City. Will be on until 2 o'clock MST with equipment tests. This is KSOP, Salt Lake City, 1370 on your dial. KSOP time is exactly 10 minutes before 2 o'clock." Selection, "More and More"

0152½ "KSOP time now 7 minutes before 2 o'clock. KSOP, Western Utah's all western and hillbilly station. Sorry boys if you don't like Western music." Selection, "Roulette".

Your signals were R5, S9. There was no fading or static. There was no interference from any other stations. The weather was fair with the stars bright and the temperature about 30°. My receiver was a Hammarlund HQ-129X using a 200 foot North-South antenna.

Hope that this report may be of interest to you and your staff and that I may have the pleasure of receiving a confirmation of my reception of KSOP if this report agrees with your log. Thank you all for putting on the fine program for the National Radio Club. We sure appreciated it greatly.

Yours truly,

  
Norman L. Maguire

Dear Mr. Maguire:

We are pleased to verify your reception of Station K.T.U.P., Tooele, Utah, during our transmitter check on the morning of November 18th, 1957, from 2:00-2:30, MST. Your comments concerning reception, your receiving rig, etc., were appreciated.

In case you are interested, our transmitter is a 1-KW Collins 20-v, with non-directional antenna. The transmitter is operated with a dust remote-control unit from our studios, some 9 blocks from the transmitter and tower. KTUT is a day-time station, of course; this month our operating hours are 7:15 a.m. to 5:15 p.m., MST.

Once again, our thanks for your reception report.

Sincerely,

*Bill Houghtaling*  
William Houghtaling  
Traffic Director

P.S. The static which you mentioned in your letter was very bad throughout most of the area east of the Rocky Mountains, especially. We did get a number of reception reports, but had almost as many negative reports from that area. West, it was a different story. One DX-er just outside of Seattle sent us a tape he made of the broadcast; not a trace of static; it was actually air-worthy; (that is, we could have broadcast it locally again, with little loss of quality). We had very "loud and clear" reception as far northwest as Powell River, British Columbia, Canada, coming in on many DX-er receivers better than the local stations. We'll probably hold another similar program early in 1958, and hope for better atmospheric conditions over eastern part of the country this time. Thanks for writing.

*Bill Houghtaling*
