# INTRODUCTION

AMERICAN RADIO is in its 23<sup>rd</sup> year of publication. We sincerely appreciate your support of our work today and, over the years.

We strongly urge you (especially new clients/subscribers) to read carefully the definition pages that immediately precede the individual market reports. They will help you understand all the information given in the individual market reports. If you have any questions, comments or suggestions, please feel free to call me or Thom Moon. We believe that our time is included in your purchase price. And, we always enjoy talking about AMERICAN RADIO. Thom or I can be reached at the following address or phone numbers:

Every effort has been made to make this book as accurate as possible. However, we are responsible for errors only to the extent subscribers will be notified if such action is justified. If your copy is defective in any way, call the Cincinnati office and we will promptly mail you another copy.

Release of the Arbitron market reports began on 14 October and ended on 30 October. Compilation of this edition was completed 9 November. Mailing will begin on or before 23 November. Any corrections made by Arbitron to earlier published reports are included if they were received before 9 November. Station sales through 31 October are included.

Audience data in AMERICAN RADIO is extracted by our proprietary computer software from Arbitron's "R-sale" data files. Due to Arbitron's method of rounding audience estimates, there may be very minor (and usually insignificant) differences between what is found in a given Arbitron market report and what is found in this book. Our software, however, follows Arbitron's published rounding procedures to the letter. The software was developed by our Software Thaumaturge (one who causes apparent miracles to occur), Dave Allen.

Again, thank you for your continued support of our efforts.

## INDIVIDUAL MARKET REPORTS

### Definitions, Clarifications and Explanations

Even long-term subscribers should review these pages carefully. We have made numerous changes and additions to American Radio. Your understanding of the Individual Market Reports will be far greater if you are familiar with the systems and methodologies used.

The best way to explain an Individual Market Report is to go through it section by section. We'll use Akron from this report as an example, starting at the top left of the report:

Arbitron Rank: 68	Pop (12+):	572,900
MSA Rank:		77
MSA Pop:		687,000
DMA #	Cleveland (#13)	
Average Persons Ratings:		16.8
Market TSL In Hours:		22.00

The Arbitron rank is based on the 12+ population of the Arbitron metro survey area. The rank number (68 in this case) is Akron's ranking among the Arbitron radio markets.

The MSA (Metropolitan Statistical Area) rank is shown along with the total (0+) estimated population. Where the market is split into two or more MSA's, at least the largest is listed.

The Nielsen TV DMA (Designated Market Area) ranking is found directly below MSA rank. We note those cases in which a radio market is combined with others within a single DMA (such as this instance, in which Akron is part of the Cleveland DMA, which ranks #13).

The Average Persons Rating indicates the percentage of the metro 12+ population which is using any and all radio in an average quarter-hour anytime during the standard survey week, Monday-Sunday, 6 AM-12 Midnight. The Average Persons Rating is roughly comparable to television's Persons Viewing Television (PVT) figure.

Market TSL (Time Spent Listening) is the time the average radio listener spent with any and all radio over the entire week. In this case, the average listener spent 22.00 hours listening to radio over the broadcast week.

Now we'll move to the top center column of information.

Stations:		28 / 6
Diaries	1,781 / 331:1 / 51.4%	
Sample Target:		1,760
% Below Line:		55.7
% Not Listed:		17.8
Pop per Station:		95,483

There are 28 stations listed in the Akron Arbitron market report. Of those 28, 6 are home to the Arbitron metro survey area – listed "above the line." Thus, 22 stations listed are licensed to cities outside the metro, but they still accumulated enough listening within the Akron metro to rate inclusion in the market report. Please be aware, however, that some stations appear above the line by virtue of its chosen home city of identification rather than by its FCC authorized city of license.

The information contained in "Diaries" is a bit complex but is all quite important. It gives you a thumbnail sketch of Arbitron's success in sending out and retrieving diaries in the market.

1,781 – the number of usable (in-tab) diaries return from respondents in the metro survey area (In general, the higher the number, the better.)

331:1 – an approximate "persons per diary" value: in the metro, the typical diary represents 331 persons 12+ (generally, the lower the number, the better)

51.4% – this is "return rate": total usable (in-tab) diaries expressed as a percentage of the total individuals who were sent a diary (again, higher is better). This number represents total diaries from the metro and does not necessarily indicate return from any individual sex/age group. It is not a percentage of total people contacted, but rather, a percentage of the total number of diaries sent out.

Sample Target is the number of usable (in-tab) diaries Arbitron designates for the market – its goal for return. Over the past few years, Arbitron has raised its market sample targets by at least 15% (and, in some cases, by as much as 70%) in response to broadcasters' concerns over unstable results.

The "% Below Line" figure indicates the percentage of total radio listening accumulated by "below the line" stations. This figure, along with the next, "% Not Listed", indicates how much listening in the market is not available to the local commercial stations. This may affect CPM's as well as the effectiveness and salability of local radio. "% Not Listed" reflects listening to stations that did not qualify for listing: distant stations, marginal local stations and public/non-commercial stations.

However, the "% Below Line" figure does not include the listening to home to the market which were placed "below the line" for violating one of Arbitron's policies on "special station activities" (which include on-air mentions of the radio ratings, or any other acknowledgment that the market's radio listening is being surveyed). The audience estimates of such stations are still considered as home to the market, although, in accordance with Arbitron policy, we will note local stations that have been placed "below the line."

The Population per Station shows the number of persons 12+ per metro area radio station. The figure is calculated by dividing 12+ metro population by the number of "above-the-line" (home to the metro) stations.

Next, we move to the top right column:

Last Year's Revenue: \$17,900,000  
 Household Income: \$42,512  
 Retail Dollars: \$7.0 Bil  
 #1 Biller: WKDD-F \$4,800,000  
 #1 Billing Portfolio:  
 WAKR/WONE-F/WQMX-F \$9,000,000

The revenue estimates are based on figures found in the 1998 edition of Duncan's Radio Market Guide. The figures are gross, excluding "trade."

"HH Income" is Median Household Income within the Arbitron Metro Survey Area. The estimate for Akron is \$42,512.

"Total Retail Sales" is the metro survey area's estimated Total Retail Sales – in this case, \$7.0 Billion. Both median household income and total retail sales figures are based on census data, updated to 1/1/98 by Market Statistics, Inc. for Arbitron.

The #1 Biller is that station we believe to be the leading biller in the market, along with its estimated 1997 gross revenue. It is extracted from the 1998 edition of Duncan's Radio Market Guide.

The next section is the trended 12+ information:

12+ Metro	Format	Summer 98 Spg 97	Win 97	Fall 97	Sum 97	4 Book Avg	12+ Metro Cume / Rating	Spg 97	Sum 97	12+ TSA AQH / Cume	Revenue Level
2 WQMX-F	C	58 / 6.0	7.5	7.5	7.8	8.2	7.2	805 / 14.1	14.5	16.5	E WQMX-F

All the figures in this section are based upon the standard survey (broadcast) week (Mon-Sun, 6 AM-12 Mid). All audience figures are in hundreds (00); ratings and shares are always percentages.

First is the station's 12+ Broadcast Week ranking, based on its average quarter hour persons figure. Next to the station's calls is a format code. The legend is as follows:

- |  |   |

| G - Gospel (B/G is Black Gospel)                   | ? - Others or Unknown                         |

These codes may be joined to best represent a station's individual format. The code that comes first is the one that represents the station's primary programming: FS/C is a Full Service station that also plays some Country music.

Within the numbers, reading from left to right, WQMX-FM has 5,800 listeners per average quarter hour in the metro. This gives it a 6.0 share of audience during the latest survey period. Shares from the previous four surveys follow. In Continuous Measurement markets (those measured four times a year, we also present a four-book average (the most recent survey, plus the three that precede it).

Next is the metro cume (cumulative) audience and cume rating (cume audience expressed as a percentage of 12+ population). WQMX-F has 80,500 cume listeners 12+, which give it a 14.1 cume rating. Historical cume ratings follow (prior major survey and prior year).

In Fall and Spring reports, the TSA (Total Survey Area) 12+ average persons (AQH) and cume estimates follow metro cumes. These columns will be blank in the Winter and Summer American Radio ratings reports (Arbitron does not measure the TSA in Winter and Summer).

Revenue Level provides an estimate of revenue of most, but often, not all, stations home to the market. No revenue level is provided for out-of-market stations; for those, look in their home market. For some stations – indeed, entire markets, in some cases – no revenue estimates are possible. Revenue levels are based on the stations' estimated revenues contained in the latest Duncan's Radio Market Guide.

The codes for revenue levels are:

A -	Less than \$500,000	G -	\$ 5,000,000 to \$ 6,999,999
B -	\$500,000 to \$1,000,000	H -	\$ 7,000,000 to \$ 9,999,999
C -	\$1,000,000 to \$1,999,999	I -	\$10,000,000 to \$14,999,999
D -	\$2,000,000 to \$2,999,999	J -	\$15,000,000 to \$19,999,999
E -	\$3,000,000 to \$3,999,999	K -	\$20,000,000 to \$29,999,999
F -	\$4,000,000 to \$4,999,999	L -	\$30,000,000+

Then there's a line by itself:

12 + FM Share (Metro): 82.78% ( 654 of 790 ) ( Summer 97: 74.51% )

These figures indicate how much of the market's listening goes to FM stations. These figures are calculated by adding up the Mon-Sun, 6 AM-12 Mid quarter-hour audience estimates for all the listed stations and dividing into it the total quarter-hour audience estimates for all listed FM stations. There is, of course, listening to stations which do not qualify for a listing in the Arbitron report. However, by definition, this amount is small and should not significantly affect the percentage.

Next are the 22 demographic and daypart rankings. We are not allowed to print actual ratings figures, per our agreement with Arbitron. The number of stations listed depends on the size of the market. All of these rankings are based on metro area average quarter-hour persons audience estimates:

Teens:	Persons 12-17, Mon-Sun, 6 AM-12 Mid
18-34:	Adults 18-34, Mon-Sun, 6 AM-12 Mid
18-49:	Adults 18-49, Mon-Sun, 6 AM-12 Mid

If a station's call letters are followed by a >, there is a very large difference between that station and the next-ranked station. A >> means there is a huge difference between the marked station and the next ranked station – around 10 shares or the marked station has twice as much audience as the next one. In a few cases, you'll see a >>>, which means the marked station has triple the audience of (or a lead of 15 shares over) the next ranked station. Conversely, the < symbol indicates the marked station has a very small lead over the next-ranked station -- 10 % or less.

A few stations from inside and outside the metro that have relatively small average quarter-hour audiences are found under "Other Rated Stations". For them, we show only their call letters/band identifier, format, frequency, city of license, metro 12+ total week share and metro 12+ cum rating.

Next is the Consolidation Report, which provides summed 12+ and 25-54 audience shares and the share of last year's revenue accountable to consolidated radio operations in the market. Here's an example

	12+	25-54	Revenue
Local	15.2%	14.8%	50.3%
WAKR-AM, WONE-FM, WQMX-FM			

The three operations owned by a local firm in Akron, WAKR, WONE-F and WQMX-F together attracted 15.2% of the 12+ total week metro audience and 14.8% of the adults 25-54 total week metro audience, as well as 50.3% of last year's revenue in the market.

In most cases, the consolidated operations presented in this report were in effect during the survey, or were acquisitions announced sometime during the survey period.

The last two sections provide an update on station facilities and happenings in the market. For example, following are sample listings from Akron

WAKR	1590	5 kw (DA-N)	Talk/Full Service	Westwd, ABC, ESPN	\$37.00	Christal	WQMX-F/WONE-F
WKDD	96.5	50 kw @ 441	CHR/AC		\$80.00	D&R	Barnstable

The facilities data (power, directionality, antenna height) are taken from the FCC technical files. In this case, the AM, WAKR, operates on 1590 with 5,000 watts fulltime, with a directional antenna at night. Abbreviations you may find accompanying AM stations' power information are:

Days	Daytime-only operation
DA, Days	Directional daytime-only operation
DA-N	Directional antenna at night only (non-directional days)
DA-1	Same directional pattern day and night
DA-2	Different directional patterns day and night
DA-D	Fulltimer that's directional only during the day (very uncommon)

WAKR has a Talk and Information format we call Talk/Full Service.

Next comes the station's network affiliation if it has one:

ABC	ABC (includes former SMN)	Source	Westwood One Source
AMFM	AM/FM Radio	SRN	Salem Radio Network
AP	Associated Press Radio	Talknt, Tlknt	Westwood One Talknet Radio
AURN	American Urban Radio	TARN	Talk America Radio Network
BNN	Business News Network	UBN	United Broadcasting Network
Cara	Cadena Caracol Network	Unica	Radio Unica Network
CBS	CBS	UPI	United Press International Radio
CNN	Westwood One CNN+	USA	USA Radio
JRN	Jones Radio Networks	Westwd, WW1	Westwood One
SBUSA	Sports Byline USA	1-on-1, 1/1	One-on-One Sports Radio

The spot rate is our estimate of each station's average unit rate. The unit rate estimate is what we project is the average rate for all spots run on the station. This estimate usually is derived by taking the station's gross billings and working backwards, with a formula based on spots per hour, the percentage of inventory sold and other factors.

Following spot rate are the station's national sales representative firm (if any), the station's group ownership (if any) and its city of license if it's somewhat removed from the population core of the metro.

In the case of the FM, WKDD here, the only differences occur in the facilities section. For an FM, we present the station's licensed effective radiated power (ERP) and antenna height above average terrain.

The next-to-last section for each market is "Notes," in which we attempt to provide a thumbnail sketch of significant changes in the radio market, including:

Call letter changes – both old and new of stations which have changed their identity since the last issue of American Radio, with a date of change, if available.

Major format changes – with indication of their old and new place within our format categories.

Station sales – proposed sales in each market, with price and broker, where possible. In some cases, the price has been estimated by Jim Duncan. Please understand these sales may not necessarily close.

Miscellaneous comments – relevant comments and observations which come to mind as we prepare the book.

Finally, in most markets, you'll find Jim Duncan's Comments on results from the Summer 1998 Arbitron.

We hope you find this edition of American Radio interesting and useful. Let us know what you think and any improvements you'd like to see.

Notes: 9/98 KAJZ-F changed from Jazz to Country; new calls will follow . . . 10/98 KVET (AM) changed from Talk to Sports as "The Zone" . . . 10/98 KTXZ (1560) changed from Tejano to Hispanic-Tropical as "La Nueva Planeta"

Jim Duncan

Comments: Listening levels are steady . . . KQBT-F quickly has had an enormous impact on the market and has hurt KHFI-F seriously

Comments: Overall listening to radio is up slightly . . . WBOS-F has its lowest share in many years . . . WBMX-F is at its highest share in more than two years . . . WCRB-F slipped to its lowest share in more than two years, but I predict it will be back above a four share in a book or two . . . WXRV-F has climbed into the top 20 stations

Comments: Total listening to radio is down slightly . . . WGCI-F has an eight share for the first time in several years . . . WBBM-F is at its highest share in more than two years . . . WVAZ-F also is at its highest point in more than two years - this was a very good book for Urban and Urban-leaning formats in the market . . . WUSN-F has hit its highest share in more than two years . . . With these highs, somebody must be down and WLIT-F, WXCD-F and WRCX-F are the ones hit

Comments: Total market listening is off significantly (-1.3 ratings points) . . . KKFM-F bounced back strongly from a series of weak books . . . Both KKFM-F and KKMG-F have their highest shares in several years . . . KVOR is at its highest share in over two years . . . KCCY-F is becoming less of a factor in Colorado Springs

Comments: Listening levels are steady . . . KNAX-F shows fine growth after its format change . . . KJWL-F has its lowest share in many years . . . KSKS-F has picked up some listeners from the "old" KNAX-F . . . Fresno remains one of the two or three most crowded radio markets in the nation

Notes: \* WGZB-F revenue level includes WMJM-F revenue . . . 9/98 WRVI-F changed from Classic Hits to all-80's; we'll continue to classify it as Classic Hits . . . 10/98 Jacor sold these stations to Clear Channel in a merger valued at \$4.4 Bil.; WDJX-F; WFIA; WLRS-F; WSFR-F; WVEZ-F. Some divestitures will be required.

### Jim Duncan

Comments: Listening levels are steady . . . WHAS has its lowest share in more than two years but co-owned WAMZ-F jumped back above the 15-share level . . . WBLO-F shows some length and strength (that's a contract bridge term)

## Notes

Jim Duncan

Comments: Listening levels are down somewhat (-0.5 ratings point) . . . WTDY (1670) is the first expanded band AM station we've seen to make a significant showing (most of the WTDA/WTDY combined share is from listening to WTDY)

Comments: Listening levels are up moderately (+0.7 ratings point) . . . A "worst-to-first" story: Barnstable's WRBO-F came out of nowhere to lead the market 12+; all other Black FM's were hurt badly . . . It will be interesting to see if WRBO can maintain these levels -- most likely not. However, if they can stay above a 5.5 share and rank in the top five or six in 25-54's, the station will be very successful

Notes: \* KZNY-F revenue is included with KZNR-FF . . . 9/98 KMJZ-F changed from Smooth Jazz to Modern AC (AC-NR) as "The Point" (after the Summer survey ended)

Jim Duncan

Comments: Listening levels are down moderately (-0.7 ratings point) . . . WLTE-F has its lowest share in two years . . . KTCZ-F has its highest share in more than two years . . . KMJZ-F had one of its best books ever and still, they dropped the Jazz format

## Notes:

Jim Duncan

Comments: Overall listening to radio is up slightly . . . WSIX-F recovered from its weak showing in the Spring . . . WNRQ-F retreated somewhat from its outstanding Spring book . . . WRMX-F posted its best share in several years . . . WGFX-F has been hurt by WNRQ-F; WNRQ-F appears to be a "young" classic rocker

Comments: Listening levels are up slightly . . . KATT-F turned in its fourth straight increase and is at its highest share in several years . . . KXXY-F slipped to its lowest share in many years . . . KRXO-F has its best showing in more than two years . . . KTST-F is in a sharp decline; this was an awful book for all three local Country stations

Comments: Total market listening is up moderately (+0.8 ratings point) . . . WWKA-F had its fourth consecutive down book and its lowest share in years . . . WOCL-F has had two weak books in a row; usually, the Fall book is the station's strongest of the year

Comments: Listening levels are steady . . . Most stations are fairly steady as well . . . Exceptions were KEDJ-F, which enjoys its highest shares in more than two years; KOY, which dropped to its lowest share in many years; and KOOL-F, which had its fifth consecutive down book

Comments: Listening levels are down slightly . . . WQDR-F has its strongest book in years while WQOK-F has its weakest in years . . . WNNL-AM has its fourth straight up book and the highest share ever for the 103.9 . . . WRAL-F bounced back from its weak Spring book

Comments: Listening levels are down a bit . . . WDKX-F shows a rising trendline and its highest share in more than two years . . . WBBF-F also shows moderate growth . . . WVOR-F fell off from its strong Spring book . . . WPXY-F suffered its worst book in many years . . . WNVE-F also had its worst book in several years . . . WZNE-F fell sharply . . . There seem to be some significant shifts occurring in the market

### Jim Duncan

Comments: Listening levels are fairly steady . . . This was a "Mark McGwire" book for KMOX and the station definitely benefitted . . . WIL-F fell to its lowest share in about two years . . . WXTM-F showed some growth with its new AOR presentation of New Rock; in so doing, it has hurt KPNT-F

Comments: Total listening to radio is up a bit . . . KABL is at record-high levels . . . KITS-F, having assumed the programming of San Jose's KOME-F, is up strongly from more than two years of weak books . . . KBLX-F fades to its lowest share in many years . . . KZQZ-F fell off some from its recent strength

Notes: San Jose is a portion of the San Francisco metro survey area. Only stations home to the San Jose market are included in the rankings . . . 10/98 KLDZ (104.9; Fremont) changed from simulcasting KUFX-F to a "Gold-based Alternative" (AOR-P) . . . 10/98 Jacor sold these stations to Clear Channel in a merger valued at \$4.4 Bil.: KLDZ-F; KSJO-F; KUFX-F

Comments: Listening levels are steady . . . KSJO-F and KUFX-F are showing signs of recovery . . . KBAY-F was the big loser in this book

Comments: Listening levels are down moderately (-0.6 ratings point) . . . KIRO leads the market in 12+ as it is helped by baseball, but is down 2.1 shares from last Summer . . . KBKS-F has its highest share ever (in its current format) . . . KVI has its lowest share in several years

Jim Duncan

Comments: Listening levels are fairly steady . . . WQYK-F leads the market for the first time since Fall '96 . . . WFLZ-F falls way off to its lowest share as it has been hurt by WLLD-F . . . WLLD-F has become a strongly viable station . . . WTBT-F has its highest share ever . . . WHPT-F has had four straight 2.0-share books

Comments: Listening levels are down significantly (-1.2 ratings points) . . . WGMS-F recorded its highest share in more than two years . . . WJZW-F has its highest share in two years . . . The WPGC-F/WHUR-F/WKYS-F battle is fun to watch - three very interesting radio stations . . . WMZQ-F has its lowest share in many years

**NOTES & COMMENTS ON  
THE PUERTO RICO MARKET REPORT**  
Thom Moon

Summer 1998 marks Arbitron's first survey of radio listening in Puerto Rico. Arbitron has chosen to measure the entire island as a unit. We have mixed feelings about that decision.

On one hand, it makes sense, as much of the listening (more than half by our estimates) goes to twelve island-wide, full-time-simulcast operations such as "Cosmos," "Salsoul" or "Super Kadena." Twenty-nine of the 59 listed stations belong to these "networks." Arbitron has not chosen (possibly due to software limitations) to report total audience shares for these simulcasts. We have attempted to do so in our "Island Network Report," which replaces for this market only our "Consolidation Report."

On the other, the expansive market definition means 59 stations (of 139 on the island) are listed in the market report. Thirty of them have less than a 1.0 share, and another 14 have between a 1.0 and 1.9 (both, 12+, total week). Providing meaningful information in our usual format for this number of stations is virtually impossible, given the lack of combined-station data for the networks.

We sincerely believe broadcasters and advertisers would be better served by access to several syndicated reports for Puerto Rico: one for the entire Commonwealth, and others for areas centered on major population centers such as San Juan, Mayaguez and Ponce. In this way, both the island-wide networks and local stations would receive reasonable representation, allowing advertisers to make better decisions.

We have some reservations about Arbitron's using its normal procedure of surveying only members of telephone households in an area where as many as 40% of households do not have telephones. To us, this resembles too closely the infamous *Literary Digest* poll published in 1936 which predicted Alf Landon would win the Presidency from Franklin D. Roosevelt. It, too, surveyed only telephone households, which represented fewer than 2/3 of the U.S. total at the time. The long-standing *Asesores* survey of Puerto Rico radio listening uses a personal interview technique (which offers its own challenges), which allows surveying within non-telephone households.

While we are reporting only total week 12+ average persons and come data for this first Puerto Rico Arbitron, we are listing every station shown in the Arbitron market report. This is to give as thorough an overview of listening on the island as possible. Frankly, we're experimenting – trying to get a handle on the market – and we hope to provide more extensive reviews of future reports. Our initial impression is that the structure both of radio, and how people use it, is far different than in the rest of the U.S.

There are a few differences between this report and our usual market summary. First, under "Format," assume the station's programming is in Spanish unless the format code is followed by an (E). We only used that for one station which we are reasonably certain broadcasts in English. Most of the codes are similar to our regular codes; the exception is "TP" for "Tropical." In other markets where this format is found, its code is "SP-TP."

While the format descriptions supplied by the stations and published within the Arbitron market report are a primary source, we also consult the independent listings provided to us by *M Street Corporation*, which we find in the rest of the U.S generally to be more reliable. In most cases, we have used the M Street descriptions for this Puerto Rico summary. In a couple cases in which the station's own format description was at substantial variance with M Street's, we have simply used the format code "SP" (Hispanic).

Where we normally publish the "Revenue Level" codes, we have substituted a "Network Code," which corresponds to the numbers next to the names of the groupings shown in the "Island Network Report." For example, the "9" one finds in the WPRM-F line on the ratings summary means the station is part of the "Salsoul" network. The Island Network Report presents 12+ and 25-54 average persons shares for these groupings.

Some of the findings of the report are very interesting. Primary among these are the high Time Spent Listening and resulting Average Persons (using Radio) Rating of 27.5 hours and 21.0% respectively. These are by far the highest respective rates we've seen in any market in some time.

# RADIO PUBLICATIONS FROM DUNCAN'S AMERICAN RADIO

## DUNCAN'S RADIO MARKET GUIDE

\$335.00

This is our flagship publication. Since 1984, **DUNCAN'S RADIO MARKET GUIDE** has been the standard reference for radio station buyers, sellers, lenders and brokers. **DUNCAN'S RADIO MARKET GUIDE** examines the economic conditions of nearly 190 radio markets. Here's just some of the information you'll find in it:

- Market radio revenue histories and projections covering a ten-year period (five years back; five years forward).
- Radio revenue projections calculated on three separate bases for greater reliability: historical (past performance), population growth (revenue per capita) and retail sales growth.
- Revenue estimates for more than 1,600 individual radio stations, plus viable operating entities (standalones, combos, duopolies and super-duopolies).
- Revenue estimates for competing media – television, newspaper, outdoor and cable TV.
- Radio station sales for each market during the past five years.
- Jim Duncan's comments about each market, as well as a 10-point mathematical grading of each market – a Duncan's **exclusive**.
- Population and retail sales histories and projections.
- Revenue-per-share point and revenue-per-AQH figures for each market.

And much, much more. Published every April – 400+ pages.

## AMERICAN RADIO

Since 1976, **AMERICAN RADIO** has been the radio industry's most complete and timely source book for radio ratings and programming information. Published quarterly (plus an annual "Small Market" edition), **AMERICAN RADIO** is published within a month after issuance of the Arbitron market reports. Each report includes more than 30 ratings tables for each market, and after the Spring edition, our National Rankings report details nationwide format and station performances (it's free to anyone who receives the Spring report, but also is available separately). **AMERICAN RADIO** is considered the "bible" of the radio industry and is required reading for everyone involved with radio.

Issue	Release Date	# of Markets	Price
Spring Report	September	170	\$97.00
National Rankings Summary (if ordered alone)	October	170	25.00
Spring Small Market Report	September	97	55.00
Summer Report	November	94	55.00
Fall Report	March	170	97.00
Fall Small Market Report	March	96	55.00
Winter Report	June	94	55.00

## DUNCAN'S RADIO COMMENTS

\$100.00

This is our latest addition – a publication that reads more like a radio journal than a newsletter. Jim Duncan offers his expert perspectives about events and trends in the radio industry, as well as in-depth analysis of issues. It is opinionated and well researched. **DUNCAN'S RADIO COMMENTS** gives Jim the chance to offer you interpretations and elaborations on the data we use in our other publications. We guarantee you will find it informative, interesting and useful. Six or more issues per year.

(**DUNCAN'S RADIO MARKET GUIDE** subscribers receive **COMMENTS** at no charge.)

## DUNCAN'S RADIO GROUP DIRECTORY

\$150.00

**DUNCAN'S RADIO GROUP DIRECTORY** is a complete and comprehensive directory of group radio owners in the U.S. All groups with three or more stations in rated markets and revenues in excess of \$3,000,000 are included – more than 200 groups in all. **DUNCAN'S RADIO GROUP DIRECTORY** includes for each group: ratings performance; station purchase price and date of purchase; station revenue estimates; senior management; addresses and phone numbers; group financial data; major shareholders; boards of directors; key suppliers; company histories and far more. Published yearly in August.

**AUDIENCE-TO-REVENUE CONVERSION/FORMAT PERFORMANCE ANALYSIS \$95.00**

This annual report provides two important analyses. First, it examines the relationship between a station's audience share and its share of revenue (Conversion ratio, sometimes called "power" ratio). Over 1200 stations are listed, with all the following given for each:

- Call letters, market and format
- Revenue rank, 12+ and 25-54
- Revenue and revenue share
- Conversion (or "power") ratio

Additionally, national means are provided for formats by market size

The second part of this book analyzes the audiences of more than 1500 stations, with the following provided for each:

- Time Spent Listening
- % Male, % Female
- Turnover Ratio
- % Exclusive Cume
- % 12-24, % 25-54, % 55+
- Highest cume-sharing station
- % of listening at home

Finally, this report offers a comprehensive analysis of the concentration of both audience and revenue shares for all Arbitron-rated markets (262). Published every April.

**THE FACILITIES OF AMERICAN RADIO - FM STATIONS, TOP 100 MARKETS \$335.00**

A total update of J.T. Anderton's 1989 classic "FM Map Book." City-grade and 1-millivolt contour maps for more than 1300 stations are provided, including over 250 new stations and 500 facility changes since the first edition. It also offers complete listings of station power, antenna height above average terrain, tower coordinates and height above ground, and our exclusive description of transmitter locations by address or physical siting, all gathered during exhaustive research of FCC technical files. It features new, custom-designed base maps for easy readability. **The original and only publication of its kind; a must-have for station buyers, lenders and brokers; rep, network and group executives and radio consultants.**
