# TOP PRIORITY

## Dandelion, "Weird Out," Ruffhouse/Columbia

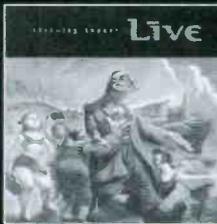

With a full court press slated for this one from Donnie and the folks at Columbia, you can bet your bottom dollar that this band from down around our neck of the woods will get noticed at rock radio. This effort from the band's second album is already a big improvement from their first record, and exemplifies the development in direction that comes with a certain amount of artistic maturity. Within the past few years there has been a resurgence in the Philadelphia music scene, largely the result of the Ruffhouse Records epicenter at Philadelphia's Studio 4, but with other angles as well. With rap artists from Ruffhouse scooping up much of the Philly spotlight in recent years, there has also been a growing under-

current\* of new, young rock bands in the region that, until recently, has gone relatively unnoticed. Dandelion is one of the new breed of rock bands, and one of the reasons that Philly is emerging from the musical drought of the mid '80s with fresh legs and a new perspective. "Weird Out" is strong enough to go long for Dandelion, and will make the cut at Heritage, COR and Alternative.

# COR

## Live, "White, Discussion," Radioactive

How much discussion is really necessary to decide to play any song from Live? The York, PA band has had the Midas touch since the release of *Throwing Copper*, with sales in the multi platinum stratosphere and videos in every-time-you-turn-it-on rotation on MTV. "White, Discussion" is purported to be the last single from this record, and one which was selected by the band. The strong point of Live's music is the vibrant intensity found in each song, and this song is no exception to that rule, but the extra energy comes from the politically charged lyrics. Adds at **KZAK**, **WLZR**, and **Z Rock** came in this week to join the early airplay at **WDIZ** and **KMLO**. No arm twisting is necessary this time. The mass appeal of Live can't be argued, and the listeners can't get enough of them. Simple discussion.

# HERITAGE

## Van Halen, "Not Enough," Warner Bros.

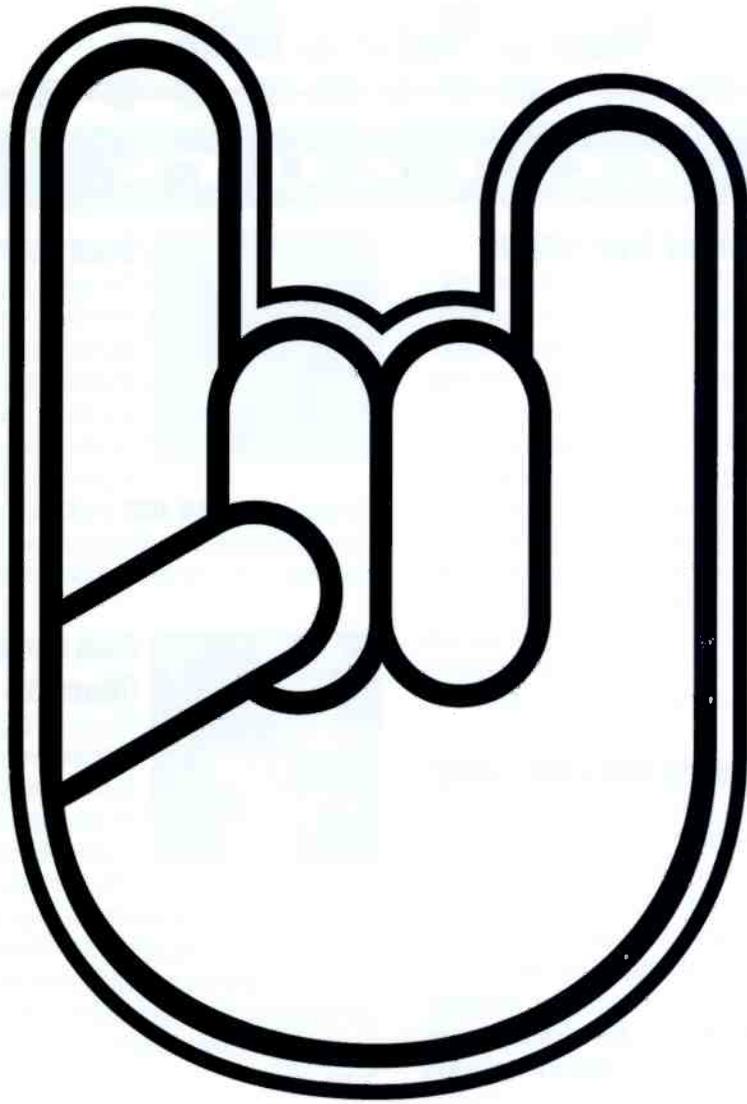

Here comes a ballad from the VH crew that will curve right in with the previous releases in terms of its familiarity. With a first week's worth of adds at the likes of **KIOZ**, **KQDS**, **WGIR**, **WRCN**, **WXRJ**, **KMJX** and others, Van Halen nails down the tie for #1 Most Added this week at Heritage. Given the entire history of this band at both radio and retail, it's usually a safe bet to add tracks from their records. And there has been considerable success derived from the airplay of the previous singles from *Balance* already. This, combined with the understanding that there are very few rock ballads out there to choose from right now, should ring your bell this week. Summer's here, and the time is right for a nice slow one to break the tempo that won't break your image in the process.

## COR CUTS

### Skid Row, "Breakin' Down" (Atlantic)

Most of you are familiar with Skid Row from older material - perhaps the ballad "I Remember You" or the metallic blast of "Youth Gone Wild" - and have already prepared your opinion of Skid Row based on '80s news. Despite any residual baggage from earlier records, you had to be asleep at the wheel not to notice the heavy call letters surrounding the release of the first single from this record. If a comeback is what you're looking for, these guys are clearly well on their way back. Not only would you be missing out by not dealing with "Breakin' Down" from the Skid Row fan's point of view, but you would be further denying your rock station the straight-ahead essence that is still doing a healthy business in 1995. The compelling melody and the gentle guitar work of "Breakin' Down" falls right in step with anything that's current in mainstream radio. There are too many signs available for viewing that suggest good business is still being done with artists from the '80s in 1995.

### Bonepony, "Where the Water's Deep" (Capitol)

Kinda like blue jeans, there is something comforting about a down-to-earth rock tune devoid of pretension or flash. Bonepony is a band that can appeal to your upper demos and anyone else who also enjoys an upbeat tune with a singer/songwriter's lyrical approach. Warmhearted and soothing, "Where the Water's Deep" has a southern tinge to it, but isn't limited to that appeal. It is already grabbing airplay at **KRZZ, KSPQ, KZBB, WXRC, WZAT** and **Digital Music Express**. "We first started playing Bonepony from a sampler CD" tells **KRZZ's Greg Bergen** "but the phones opened up when we started playing 'Water's Deep'. The 18-24 listeners are responding as well as the 25+, so we are getting both groups on this one." With a cross demo appeal and an inviting ambience, this Bonepony track serves as a solid selection for a format dry of many opportunities to play both sides of the fence.

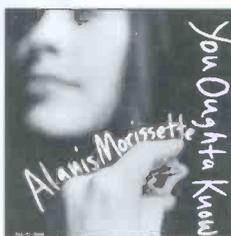

**K102** knows how to party at the shows! This shot was snagged during the pre-show party before the Van Halen/Collective Soul concert, with the openers doing the schmooze thang! Pictured (L-R) are: **Ray Kalusa, Margaret McArdle, Claudine Lewis (K102); Ross Childress, Dean Roland (Collective Soul); Kevin Demera (K102); Ed Roland (Collective Soul); Amy Stevens (K102); Will Turpin, Shane Evans (Collective Soul); and Amelia Carlton (K102)**

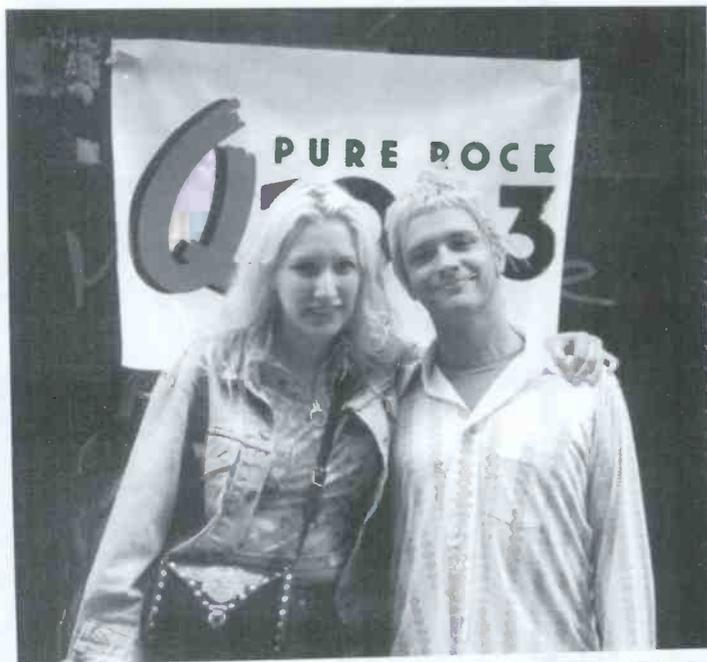

### Sweet Water, "Superstar" (EastWest/EEG)

This Seattle band may be a huge draw on their home turf of the Great Northwest, but their style supersedes that of other regional rockers. There are plenty of guitars to keep all kinds of hard rocking stations happy, and lots of melody to go around. There are hints of Britishness on "Superstar" a la Oasis, and an invigorating peppiness that comes off as purely universal. Early airplay has already been recorded at **KSPQ, KBPI, KISW, and KZAK**, where **Steve Funk** commented, "We started getting requests even before the record was released. There are a lot of Seattle trans-fers telling us about the band and the reaction is good so far, with lots of requests."

### Alanis Morissette, "You Oughta Know," (Maverick)

This woman has got it goin' on. With a soaring track record on the Alternative front in a scant few weeks of availability, Alanis has converted Top 5 numbers with virtually no history at that format. The 20 year-old writes with such clarity and understanding of life's battlefield that the storyline gets snapped up within the first listen. With the initial Soundscan figures depicting over 20,000 sold in the first couple of weeks of its release, her debut effort has quickly been termed successful. In this past week alone, she sold 25,000. That is basically unheard of output from a new artist at any level. And reason enough to add this to your list of things to do this week. **X107's Steve Blatter** notes, "This record has a nice buzz around it. It is reacting really well, and is definitely more of a female record."

Q104's **Ida Hakkila** is the hostess with most-ess with **Tim Delaughter** of **Tripping Daisy** at Tower Records in Manhattan where they performed for a full house at a recent **Q104.3 Store Tour**.

## TOP CHOICES

### Dandelion, "Weird Out," Columbia

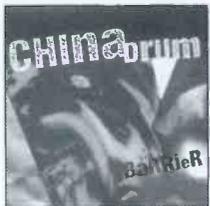

Philadelphia band Dandelion got their start in '89 amidst one of the latest chapters in the evolution of rock radio. As witnessed by this particular single, Dandelion exhibit a modern sound without backpeddling into categorical identification. "Weird Out" holds the same weight at a multi-format level as might a Smithereens cut. With a first week that includes adds at **KXRK**, **WCHZ** and **WMRQ** to go along with the early airplay at **WDRE** and **WUNX**, Dandelion are on their way toward significant status amongst today's new bands. Their time could very well be now.

### Wanderlust, "I Walked," RCA

Another Philly band has been making the climb for a few weeks now, as they move near the fold of the Rock Alternative chart 63-54\* this week. They blend a pop/alternative sensibility with very real guitar sounds and familiar-sounding vocal melodies. In short, this is a great radio song. With all of the talk that commercial radio generates surrounding the word "familiarity," it seems wise to dedicate some extra listening time to this song. You can cover the modern edge without losing your mainstream territory.

### China Drum, "Barrier," 510

From the new 510 label comes this trio from the northeast of England that have a sound that should fly quite high around these parts. A Green Day comparison is reasonable, but not fully appropriate. China Drum fuses the melodic sensibility of Del Amitri with the guitar edge of the aforementioned punkers, and holds it all together with uptempo Keith Moon drums reckless rat-a-tat snare drum fills. The blend that results in "Barrier" will meet the needs of the pop-seekers as well as the edgier presentations, and is a strong look forward to the future when you'll likely be adding this anyway. Get in early and be hip.

### Phish, "Bouncing Around The Room," Elektra

This band has captured the fan base that they have through constant touring, selling out dates with amazing regularity, and doing a brisk business at retail. Why wouldn't you consider this one for some exposure? Phish makes one of the stronger moves on the back half of the Rock Alternative chart this week, moving up to 72\* under triple digit spins. This tune comes from the Phish catalogue, and was dealt with mildly when the studio version came out. The new record features over 125 minutes of music including 6 previously unreleased tunes. Their 1994 tour put the band in Pollstar's Top 50 grossing acts of the year. Sounds like money bouncing around the bank.

## Ted Nugent, "Fred Bear," Atlantic

This new track from the 'Nuge has hunted down outta the boxers in a big way, and comes out tied for #1 Most Added at Heritage. The homage to the Father of Bow Hunting Fred Bear is a meaningful story to Ted, and therefore stands to hit home with the faithful followers of this artist who have accepted his every incar-

nation and stance at the radio level. The early ones in the game are **KATP, KATS, KJKJ, KMOD, KSFY, KSPQ, KZAK, WXRX** and **WZLS**, showing the early breakout to be rock stations covering rural areas as well as inland cities. Where the market bears a strong hunting contingent, it might support this new release from one of the great rock and roll figures from the past still slamming hard today.

## Tom Petty, "A Higher Place," Warner Bros.

With a Byrds-ish texture and other classic underpinnings, Tom Petty keeps the jangle coming with this release from Wildflowers, which comes in at #2 Most Added this week. The spin count rocketed this time around, launching this one to 20\* from nowhere, with a debut number of 410 spins. Petty has a knack for the

simple sound, and always stays relatable. In this moment of musical maturity, he wears his influences proudly while exhibiting the masterful mixology nobody else can provide. There's always room for a Tom Petty record at Heritage, and this one's so listenable it's scary. Among those already chalked in are **WFBQ, WDVE, WDHA, WIYY, WKLS, WMMR, WRCX, WNEW, and WRUF**.

## Silverchair, "Tomorrow," Epic

This band is working the room at rock radio of all shapes and sizes these days, partly because of their import status and partly because they fuse textural elements inherent in a few different formats. 7 more have bought in this week, including **WCCC, KMOD, WHTF, and WEBN**, adding up the total number of COR and Heritage

reporters on this track to 80. Not bad from a band virtually nobody knew about last year. After winning a demo contest in their native land of Australia, the recording that was cut with the prize-winning studio time made it to the air of the national Alternative station Triple J, and soared to the top of the Aussie charts in both radio and retail. We can see that the momentum has carried over to this country, where the story of Silverchair isn't about "Tomorrow," necessarily. It's about Today.

## CAPRICORN STAFF PROMOTIONS

Marcia Flowers-Simms

Capricorn's newly-appointed VP/GM Mark Pucci made two key management promotions — **Marcia Flowers-Simms** to Director of Operations, and **Jeremy Much** to National Director of Publicity, effective immediately. Flowers-Simms, who was most recently Director of Publicity, joined Capricorn

Jeremy Much

in 1991 as Publicity Manager. Prior to that, she held positions in the areas of special projects and events with Nashville's CMA and BMI, and was also Director of Operations for the Seattle-based Entertainment Ltd. Network. Since joining Capricorn in early '95, Much has served as a Publicist. His experience includes several years at Warner Bros. Records/Nashville in the Progressive Music Department, and a stint in college radio while receiving his degree in Communications from Vanderbilt University. Pucci commented on the appointments, "Marcia and Jeremy have both made substantial contributions to the success and growth of Capricorn Records. These appointments are a recognition of their talent, dedication and hard work."

## CRUSHMAN JOINS LBJ

The **LBJ Broadcasting Company** has named **Mike Crushman** VP/GM for the **KLBJ-AM, KLBJ-FM** and **KHHT-FM** triopoly in Austin. Crushman joins the company following a successful stay with **WWSW AM & FM** in Pittsburgh, a member of the Shamrock Group and owned by the Roy Disney family. Over the past fourteen years, he has managed stations in Pittsburgh, Nashville, Tulsa and Louisville. Crushman commented on the move, "A series of positives attracted me to Austin, but really it was the influential style of **Luci Baines Johnson** that did it. Their values (Luci and Ian's) seemed to match mine very closely, and that was very important." As for his approach to the position, he added, "I serve four constituencies — the staff, the advertisers, the listeners, and ownership. But the most critical relationship is with the staff, because you can't serve the other three without the staff." LBJ Broadcasting President and board member **Cactus Pryor** stated, "We conducted a nationwide search for the best people available and we got the one we wanted. Mike's background is impeccable. For him to leave a successful broadcast management position in a market the size of Pittsburgh is a testament to the growth and reputation of the Austin market. He's creative, has great management skills and is in love with this community. His getting to know and love Austin during the interview process played a big role in the sale. And the fact that LBJ has one of the finest broadcast facilities in the nation did not escape his attention either!"

**Atlantic Records' Low Power Radio Department** hosted a beach party for Manhattan-bound morning drive commuters traveling to work on the Long Island Expressway. While stuck in rush hour traffic, commuters saw sunbathers, lifeguards, beach umbrellas and palm trees twenty feet from the Expressway atop the Able Steel Building. Commuters also saw signs that directed them to the low power radio station, 1410 AM, where they heard new music from up and coming Atlantic artists.

# RADIO RUMBLE

**WLUP/Chicago's** morning host on **The LOOP FM 97.9** Kevin Matthews has been selected as one of five 1995 Fathers of the Year by the Chicago Father's Day Council. The Council presents annual awards to Chicagoland fathers involved in government, sports, education, communication, medicine, and business, and who represent responsible parenthood, family stability, and community involvement. Matthew and his wife Debbie have two children - Trevor 10, and Teague 6. Matthews is a devoted father who speaks often of his family during his 5AM-10AM radio show. His popular annual Jim Shorts Golf Outing, now in its 6th year has benefitted local charities such as The Infant Welfare Society, Chicago's Ronald McDonald House, and The Maryville Academy.

**107.9 The End/Cleveland** has teamed up with Shooter's for the second year in a row to bring you the "End"less Summer Concert Series. Every Sunday The End will sponsor a free concert on Shooter's outdoor stage located on the West Bank of The Flats. A different local or national rock band will perform each week. Bands scheduled to perform throughout the summer include Delicate Balance, the Clarks, Big Bad Freakies, and The Waynes.

**WRCX/Chicago** created complete chaos at the Deep River Waterpark, when WRCX's disc jockey Mancow lured roughly 3,000 young adults to hear the roaring sounds of such bands as Orphan Punks and Three Dudes and a Dead Chick. Cars were piled up along U.S. 30 shortly after 5AM, forcing the park to open early.

Prior to their recent Orlando appearance, **Better Than Ezra** stopped by **New Rock 100 DIZ** to hang out with DIZ's afternoon on-air personality Rocko. Pictured (L to R): **Kevin Griffin, Cary Bonnacaze, Rocko, and Tom Drummond.**

**The Upper Midwest Communication Conclave** presented two Rockwell Awards posthumously to members of the music industry who have long contributed to the midwest and the Conclave: **Joe Ianello** and **Charlie Minor**. The Rockwell Award is a special recognition given to individuals who have contributed to the professional growth of the industry in the midwest. Both Joe and Charlie were fixtures at the Conclave, encouraging attendance, conducting their personal brand of hotel lobby politicking, and contributing ideas to help both radio and records get the most out of the summertime meetings. Their spirit is missed - but through the Rockwell's - they will be enshrined in Conclave memory. Help us honor them at the Saturday Awards Luncheon, July 15th. Registration fees for The Great Reunion continue to prove that Conclave is the industry's best bargain: just \$175! For registration information call Conclave headquarters at 612-927-4487 (fax: 612-927-6427). Or write: 4517 Minnetonka Blvd, Suite 104, Minneapolis, MN 55416. The Conclave is a non-profit education organization. Portions of its fees may be considered tax deductible; contact the Conclave for details.

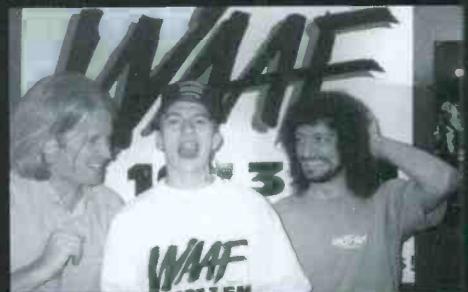

**KOMP's** new PD **Mike Culotta**, in his role as honorary host of Sin City, take personal pride in showing off Mannequin, a headless tribute to Elvis, located in the soon to be legendary Hard Rock Hotel. Caught in this candid shot is fellow high roller, the Promotion Department's **Kenny Ryback.**

**KSHE/St. Louis'** General Manager/VP was the Chairman this year of the 1995 Missouri Broadcasters Annual Convention. Over 350 radio and television broadcasters from around the state attended throughout the two days, and 18 industry leaders covering all aspects of radio and television were featured. Plans are already underway for the 1996 convention in Kansas City!

**KYYS-FM/Kansas City** held their fourth annual blood drive on Friday, June 23. The blood drive broke the Kansas City record for donations in a single day! Over 1,100 people came through the door to give blood, eclipsing the old record of 1,050 set in 1993 by KY-102's second annual blood drive. Donors were given two tickets to upcoming concerts at Sandstone Amphitheater and a KY-102 blood drive t-shirt.

**Q101/Chicago's** New Alternative, revolutionized the morning show radio format on June 12, 1995 by shifting the microphone over to two local "rockers." Lance and Stoley, two members of the Chicago based rock band, The Lupins, assumed the role as morning drive disc jockeys replacing current host Robert Chase. Present evening jock Brooke Hunter joined the new morning duo as their side kick. The innovative approach to Q101's new morning line-up will enhance the popularity and success of the station. As musicians, Lance and Stoley provide a different and unique edge that Q101 continuously strives to achieve in its programming. The Lupins, under control to RCA Records, are awaiting the release of their first album.

**Paul Robbins** of Medway (with crickets in his mouth) joined **WAAF's Opie** (left) and **Anthony** (right). Robbins won the WAAF Scott O'Grady Survival Contest by munching down two dozen crickets and two dozen meal worms. Robbins won the admiration of the WAAF staff and a white water rafting trip for two.

# Harry Guscott

by Bill Hard

Ever wonder why Harry Guscott always seems so relaxed and upbeat? It's probably because his job as Program Director at WRJF/Gainesville offers what few other industry positions do — security. When Harry attended the University Of Florida some twenty-five years ago, he got his first radio experience at the school's AM/FM combo. The AM core artists at the time were Como and Sinatra. As MD, Harry evolved the station into a Top 40, and later into an AC mode. In 1982, with his urging, the FM, which had been beautiful music until that time, switched to album rock. A year later Jeff Pollack came on board. It's two decades later, Jeff's still the consultant, Harry is now PD, Operations Manager and Assistant Director — and the station's still winning. Obviously a great situation, eh? Though the ratings have been great, the University tie-in offers freedom from book-to-book ratings tyranny. The University's presence puts a sophisticated intellectual spin on the already fun city, and you can work on your tan year round. And that's why Harry's smiling.

**Bill Pugh recently commented that your job is the best in radio. Would you agree with him?**

**Harry:** In many respects. I've been here a long time. Gainesville is a great city to live and work in. There is a lot of creative energy here. And being associated with a major university like the University of Florida offers a higher degree of job security than there is in the private sector. It's also fun working with students. They tend to keep you thinking young.

**Ratings stuff aside, what specific pressures does the University put on you?**

**Harry:** Basically, they're concerned about productivity in the manner of such where the station is commercially successful and the excess money the station makes goes back in the form of scholarships for other students. They are looking for us to be successful in that manner because it perpetuates the system.

**Give me a thumbnail of the market - what's going on there?**

**Harry:** It is a very strange market that Arbitron decided to hyphenate about four years ago to Gainesville-Ocala. Gainesville has a metro of about 125,000, and Ocala has a metro of about 140,000. Nice numbers that add up except it's like comparing apples and oranges. Gainesville itself is a very young town with about 50,000 University students, and a median age of about 26. Ocala on the other hand is a very old retirement town, conservative, and I'd say the median age there is about 55.

**Not a lot of Better Than Ezra fans driving their El Dorados in Ocala, are there? Do you even try to make a dent there?**

**Harry:** We program for whoever is going to listen to the station, but if you had to pick a city that you are going to have the most influence in, obviously it would be

Gainesville. For a contemporary radio station you are going to have demos that are going to be a little more receptive to what you are doing. We still consider Gainesville our home base.

## How does the Top 40 station perform?

**Harry:** They're really a typical Top 40, and my view of that station is really what's wrong with that format. They are trying to play a big mix of music. They will go from rap to dance to rock, and it is really hard to tell what the focus of that station is. Inconsistency is the key there. There are two Classic rock stations that have signals in the market; WRRX in Gainesville is ABC out of Dallas. They do live Triple A programming in morning and afternoon drives, and Classic Rock the rest of the day. There really isn't a focus for that station at all, other than at least the drive periods are consistent. The other station, WLTX/Live 95 out of Ocala, is also a Classic Rock station that uses the Unistar Classic Rock format.

## Kind of unusual to have two Classic rockers in a market that size.

**Harry:** That is one of the reasons we made a conscious effort to try and differentiate ourselves from that type of stations, to be more contemporary, '90s oriented, and blow off the old Classic Rock image.

## Is there any format that is conspicuously absent from the radio mix in the market place?

**Harry:** Yes, straight Alternative, and that's a gap we have been bridging for some period of time. We're more of a Rock station, but our playlist definitely has more of an Alternative flavor than most mainstream AORs.

## What is the co-presents situation like there? Is there any competition there?

**Harry:** It's really not an issue. If there is a show that we really want, it is pretty much ours. A lot of that is being in this job for so many years, I know so many people. Unless they can make a damn good reason why we shouldn't have it, we usually get it.

## What problems does the city acknowledge it has, other than too many Canadians in the winter?

**Harry:** Ours is growth. Gainesville is a former small town that has grown in-

to a medium sized town, and continues to grow. There are lots of growth issues and problems within the city and county. A lot of turf battles over who gets to have what.

## Are you tenured?

**Harry:** No, but it's the next best thing. Only professors are tenured, but as far as my longevity is concerned I have a very good job. There is no reason in the world that I would be let go, which is a nice situation to be in.

## What area of study is the school best known for?

**Harry:** There are so many renowned areas. They have a fine medical school and law school. As far as an undergraduate degree is concerned the journalism school is one of the best in the country, year after year they rack up the awards.

## Do you ever actually teach classes?

**Harry:** No. I talk to classes at times, but my primary function is to run the radio station.

## How are your ratings of late?

**Harry:** We don't subscribe to Arbitron so I can't quote exact numbers. Our fall book was down slightly. Normally, 12+ we average anywhere from a 6.5 to a 10. We get two books a year and they fluctuate for whatever reason.

This year, the fluctuation was influenced by more diaries being returned from Ocala where the country stations did much better than the contemporary stations. It depends on who gets the diaries and who returns them. They only do about 400 diaries, making room for a lot of fluctuation.

## Is the University happy with the type of format you are doing right now?

**Harry:** Yes, we try to have the station reflect the image of the University in some way. We can not be a station that has low values.

## For instance, if you are going to play an Alanis Morissette...

**Harry:** It would not be impossible to play, but I would look for an edit and probably play it at night only.

**Better find some room, Harry. Alanis sold 9,000 the first week and with some scattered Alternative play, then proceeded to move 12,000 the second week. This is going to be a big record.**

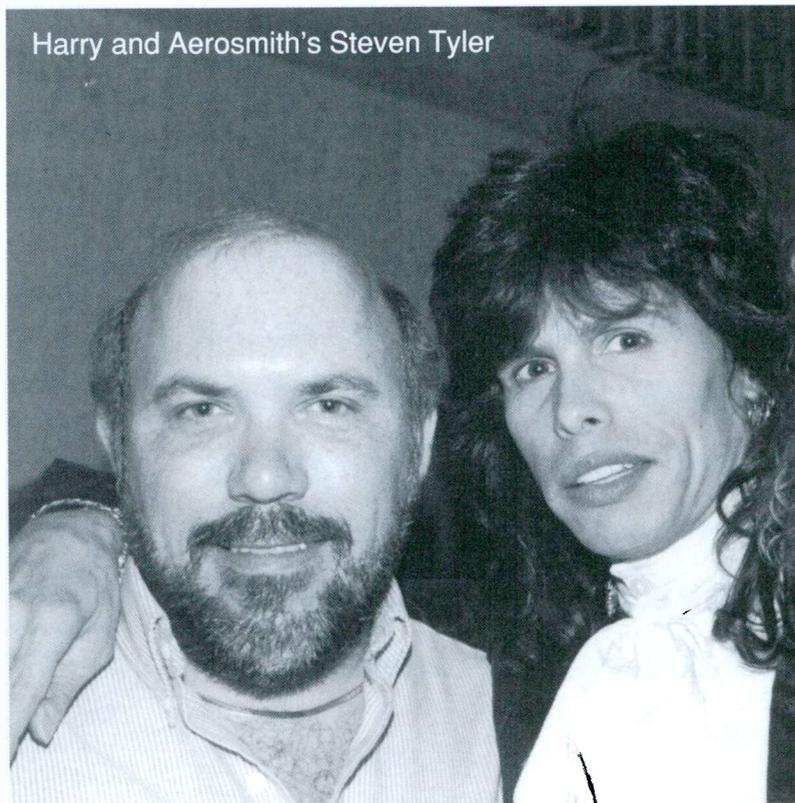

**Harry:** I agree with you. That record is a tough call for me. Tom Petty is from Gainesville, obviously, and we were the only station in the market that played the real version of "You Don't Know How It Feels".

## Have you had any problems regarding content?

**Harry:** Not really, but many years ago we had a problem with Lou Reed's 'Walk On The Wild Side'.

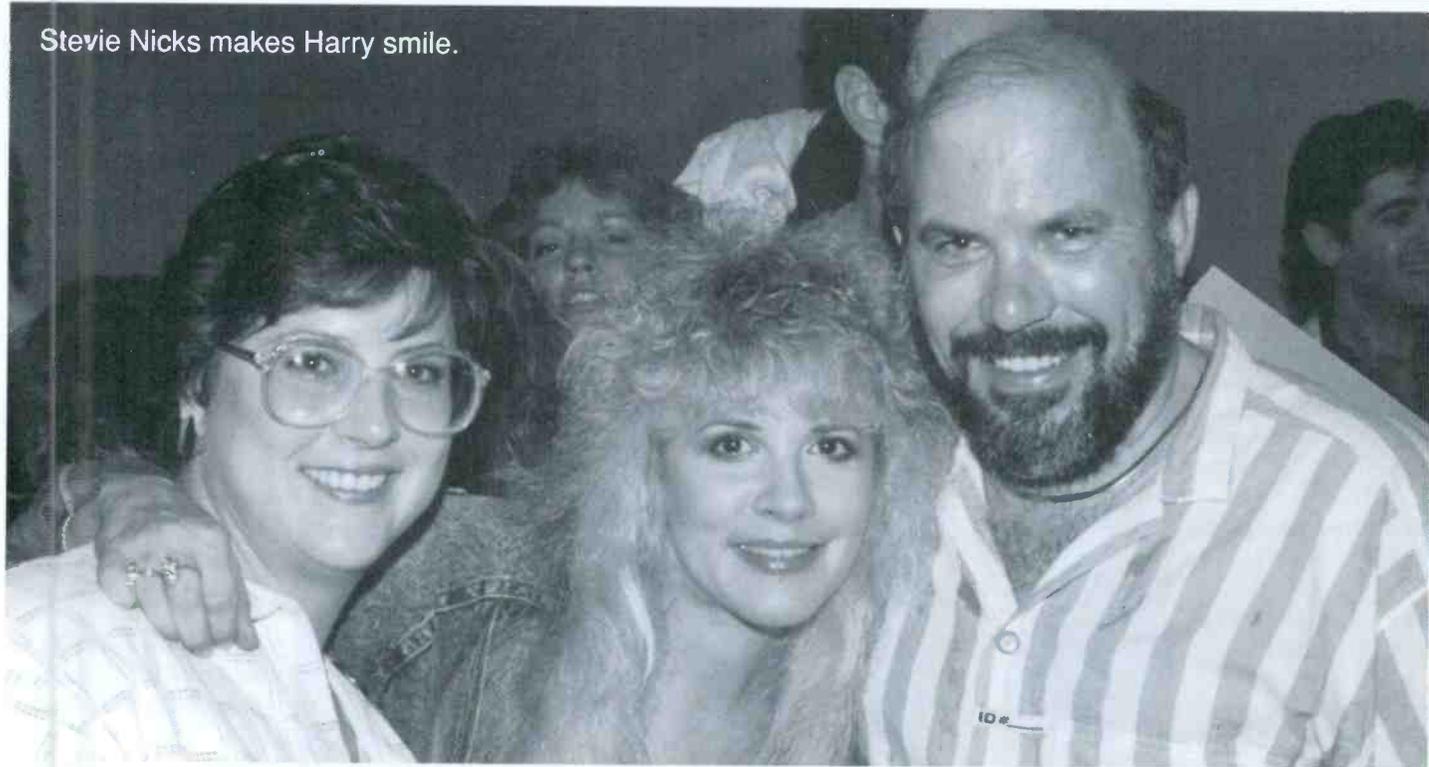

## Speaking of women, how are you doing with the Jen Trynin tune?

**Harry:** I love that record. It scares me to say so, but I think I am going through a metamorphosis of female rock stars at the format. The format has never really been female friendly, and the ones that come to mind, like Joan Jett, do nothing for me. It has always been a standing joke with promotion people who work me, that if it's a female rock singer, they have little or no chance of getting the record on the air. But I love the Trynin record and I think the Natalie Merchant record is brilliant. The Pollack people love that record and that was their call. I don't regret taking their advice at all, though

Harry and Aerosmith's Steven Tyler

Stevie Nicks makes Harry smile.

at first, I thought it was a bit Triple A. I try to be as mainstream as possible, and daypart heavily to the audience I know I'm reaching during the particular daypart. I really didn't hear the Natalie Merchant in the context of the radio station except for perhaps at mid-day at best. That record is probably one of my top four or five records as far as response. Basically, I let Pollack call the peripheral records, the ones that I am really not sure about.

**Are you sensing that there is an audience backlash to all this sort of dark, grungy somewhat negative stuff?**

**Harry:** Yes, the reason is that everything goes in cycles. It always has and always will. When you look at your releases, everything can't sound like Green Day, or Pearl Jam. After a while you reach a saturation point with all of this Alternative music where enough is going to be enough. It is the new hip thing right now. I'm not down on Alternative music at all. We've been leaning in that direction for many years, but it's just every song on your station doesn't have to be Alternative, there has to be a balance to be mainstream. People are looking for something new and different. You can still be Alternative, but everything can't be dark. I really believe that people want to be entertained. I don't think you entertain people by always being gloom and doom.

**Has that become an issue you address in your weekly music selections?**

**Harry:** Only superficially. If the record sounds like a hit and it looks like it has potential, I'm going to play it. If I keep it in the library as a recurrent, only time will tell. Depending on what's available, if I have two or three records that all sound the same, and have something else that I want to play, those records may get spaced out a bit. It depends on context more than anything else.

**How much catalog tinkering have you had to do to balance your revamped currents?**

**Harry:** We did, along with Pollack, a major library shift where we probably nuked 250-300 good testing Classic Rock songs, saying 'These records aren't relevant anymore, we don't care how they test.' We then added either a current or recurrent or a '90s oriented category in place of those things. At first it seemed like radical surgery, but it really depends on how well you daypart the music you are playing. I am very happy with the overall sound of the station. The station has never sounded fresher, or better as far as presentation goes.

**Does your situation with the school entail a higher degree of a public affairs commitment?**

**Harry:** Not really. We have the luxury of having two radio stations, an AM station and an FM station. Our AM is news/talk, and that's where we have a lot of our public affairs commitment and news. We do more news than most AOR stations would do, with at least an hour a week to public affairs. Plus, we will cover any breaking stories.

**At this juncture, are you dealing entirely with student air talent?**

**Harry:** Yes, that's an interesting job. I have about a two year turn over, so I look for people who have two, two and a half years left in school, assess their talent, recruit them if we think they have the ability to communicate. If they can do that, I can teach them how to run a board or anything else. It's that intangible ability to communicate that you have to be able to look for. After all these years I have a pretty good idea who has potential talent and who is not going to cut it.

**How often do you end up getting out of bed to cover that 2-6am shift that somebody blew off?**

**Harry:** Never. Anybody that works for me is treated as a professional. They are all at different levels of ability obviously, so the people working 2-6 are the people that are just starting out. I have a policy that unless it is a life and death situation, anybody who doesn't show up to do their shift is fired. You have to instill professionalism to do that. I can't say that I would never come in and do a shift, but there are very rare occasions.

**Is there much competition for the shifts?**

**Harry:** There is always competition for the jobs. I try to have as much competition as possible because it helps everybody. We run the station just like any other commercial enterprise. Unlike a normal college station

where they have one person working a shift on Monday, another working on Tuesday, all of our jocks are across the board jocks. There are always others waiting in the wings that have shown a lot of potential. You are always looking over your shoulder, but there isn't that threat you will lose your shift if you aren't performing. Just like at any other radio station, if somebody is doing a better job than you are they are probably going to get the shift.

**Do you have student sales people?**

**Harry:** No, the sales staff is four full time professionals.

**How would you rate your business?**

**Harry:** Very good. The station every year is consistently billing well over a million, and in this market that's not bad at all.

**What might we find surprising about the present day college mindset?**

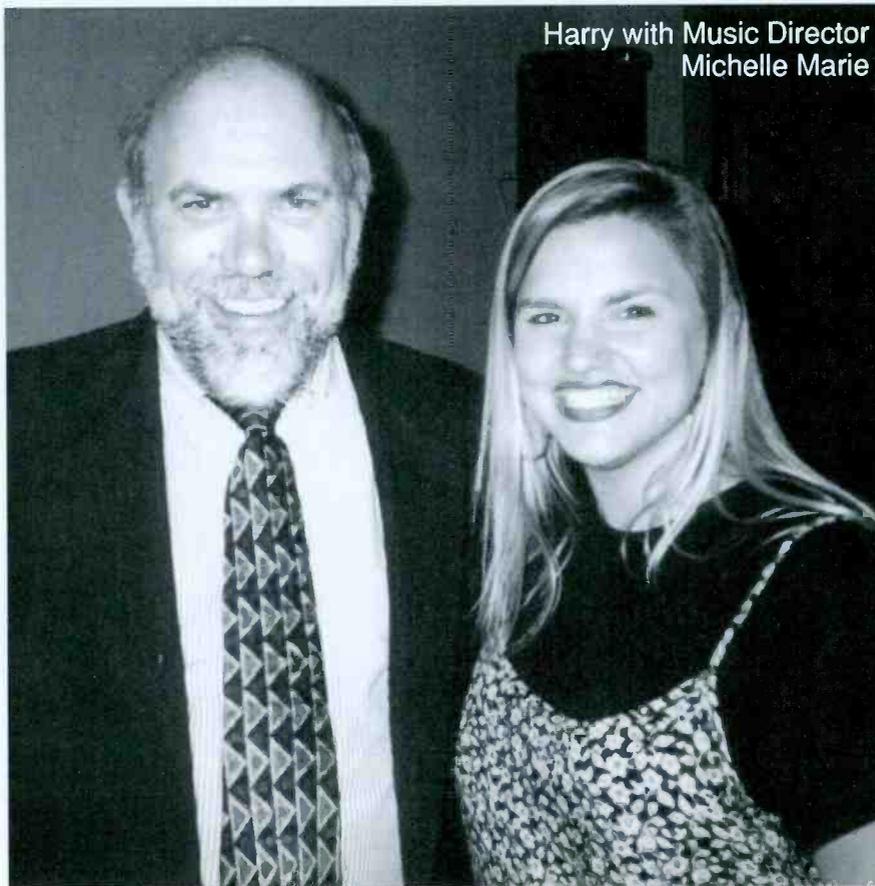

**Harry:** I don't think they're as liberal as people really make them out to be. They're liberal in certain areas, perhaps, but overall you would find a much more conservative group of people than you saw when you and I were in college.

**What might we find disturbing about their attitude?**

**Harry:** That they're cynical. Whether it's this job or any job, I think students coming out of college in general see a declining job market no matter what profession it is. That should give them some kind of clue that if there's less opportunities, they need to work harder, but you can't really convince a nineteen to twenty-two year-old kid that that's the reality of the situation. Someone that age has their own mindset and their own circle of friends and their own ideas about what works and what doesn't.

**Have you placed anybody in any cool jobs?**

**Harry:** Yes, I have people who have worked for me all over the place. Paul Castronova, formerly at WSHE and

Harry with Music Director Michelle Marie

now at WZTA, had his first job here. Christie Clark who was working at 'XTB for Greg Mull, just went over to the Thunder as Music Director. Will Douglas is at KLAQ and is also doing 'YNF in Sarasota. The list also includes Scott Gentle, former MD at WFYV, Virgil Thompson at KISS, Rick Gangi at WZGC and Rick Schmidt at WXWX.

**Do those snotty, opinionated college kids feel like what you present on the air is fairly hip?**

**Harry:** Oh, very much so. A lot of that has to do with Pollack. We've been with Jeff Pollack for 14 years. We're one of their oldest clients, and it's pretty much my decision who we want to retain, if we want to retain a consultant at all. I feel with using a consultant's advice, as long as you know what to do with the information, can definitely help you win. What they give us is a big market presentation in a medium market. We are not able to do our own call out research so at least we get some type of research back on a weekly basis. They also alert us to trends before they actually happen.

**Do you ever get pitched by anyone else?**

**Harry:** All the time. When you've had someone for 14 years, it is pretty hard to make a change, unless you are really dissatisfied with them. The thing is, we have nev-

er lost. We've won our demo since the station has been on the air. We used to win 12+ consistently until the market was hyphenated.

**How long have you been at the station?**

**Harry:** I've got twenty years here since I put the station on the air. I started with our AM station back in '71 and then I was hired in '75 as a full time staff member, worked as Music Director until '77 before becoming the Station Manager of the AM station. In '82 I convinced the powers to be to switch the FM station from Classical to Rock.

**Were the powers to be intrigued by the revenue potential in doing that?**

**Harry:** That was ultimately the reason for it. It was a sleeping giant - a 100,000 watt station that has great coverage area. They have no regrets.

**How about the music department...**

**Harry:** PM Driver/Music Director Michelle Marie is a very talented person. Unfortunately for me she has graduated and is currently looking for her next position, which leads me to that search process once again. Michelle has made my job a lot easier, because she has a very good ear for music. She likes all types of music. She is a person I really hate to lose. This is one of the hard parts of the job, losing somebody you really consider good, especially when you've watched their progress and you know you can count on them to make the right decisions and do the right thing for the station.

**Are you the primary contact for most of the labels or does Michelle get in on that?**

**Harry:** Michelle handles my secondary things. I'm a firm believer in that because I have such a high turnover. I guess when you think about it, having somebody for two years in a market this size, two years isn't really that short term. It's just important to me to have consistency with the radio station from one year to the next, so I keep my hand in the music because I am going to be here and they are not.

**You have regular meetings?**

# THE Hard INTERVIEW

**Harry:** We have meetings once a week, and then I usually go to the call with Pollack, and the music director handles all the other functions for me.

## **How much input does the staff have?**

**Harry:** Other than Michelle and David Singer, who does the Alternative show on Saturday night, really not a whole lot. I've got a focus for the station, and I pretty much know what I am trying to do. I've been with Pollack for so many years, I could probably hear a Pollack record before they hear it.

## **Really? How would you describe a Pollack record**

**Harry:** Something that is mass appeal, is very safe and has a huge hook in it - that is a guarantee for a Pollack hit.

## **Yeah? What are the best examples on your list?**

**Harry:** Currently, from a first listen Live 'All Over You', without a doubt Soul Asylum 'Misery', Foo Fighters 'This Is A Call'. Actually a record that we both agreed on very early was the Wanderlust record. I've been on it for ages and the rest of the world is just coming to figure out that record. The Dave Matthews Band was another one. As far as lesser known bands the Stone Roses and Hum. When I do music calls with Pat Welsh, it's uncanny that we have the same list in front of us. Again, it's from having done it for so long.

## **Give me idea of some things that you are on that you had to sell them on.**

**Harry:** Hootie & The Blowfish. They didn't hear it, but they do now. Collective Soul's "Shine" was another one. I was one of the first stations in the country that went on the first record and raved about it.

## **How are they are on records like Silverchair?**

**Harry:** Surprisingly, I liked the record and they liked it as well. That was one I wasn't sure how they were going to feel about. They were pretty high on that record out of the box.

## **What did you think about the Bon Jovi research project that Mercury sent out?**

**Harry:** I thought it was interesting. They certainly didn't need the study to know there's a problem. I'm not sure the research-though it was presented in a nice, neat and efficient package-really would do a lot to change people's perceptions. You either have a perception of Bon Jovi of liking them, or have a perception that this act is

a negative. I'm playing it at night to see what happens. The funny thing is I played that record for seven or eight people, not telling them who it was, but after about 30 seconds every person had figured it out. No one really had a problem with the record, it was just the name. I had a discussion with the local Mercury rep on this matter, and unfortunately Mercury wants it both ways, and from a financial standpoint I don't blame them. They have this wimpy ballad that's out at AC and yet they are still trying to make Bon Jovi out as a rock band. I don't think you could have it both ways. I think you could have released this song first, and then if you had some success with it, perhaps later in the project come back to AC, but I don't think the label knows themselves what they want Bon Jovi to ultimately be.

## **There has been tons of discussion on how the various trades were going to handle the fragmentation at Rock radio. If you ran a trade magazine, what would you do?**

**Harry:** I'm glad to see all of the trades trying to address the situation, but none of the charts really address what we do, and that's programming targeted 25-34. And every chart you see is either 18-34 or 25-49. After looking at all the charts, I guess I fit better in a young end because I play a lot more new music, and play less '70s stuff. I don't feel comfortable in the 18-34 and yet 25-49 doesn't reflect my radio station either. I'm trying to filter out what I think of each of the charts because they are still making some revisions. It takes time to get comfortable with looking at them, and figuring out what information you can glean from them.

## **Is the net result of all of these new charts just simply you are less involved in looking at them?**

**Harry:** I don't think I have ever been totally involved in looking at the charts. They are going to be important for no other reason than if you are trying to be a mass appeal station, you want to know what the rest of the country is playing. Beyond that, I don't make a whole lot of decisions on charts. Never have. It's good basic reference information, but as you said you can have one or two stations that have such a dominance that they weigh the charts down. Just because a song is rolling up the chart doesn't mean that I think it's a record relevant to my radio station.

## **What are the highest charting records you're not playing?**

**Harry:** I'm not playing the Primus, but I might down the road. And I'm not playing the Nine Inch Nails, either.

## **What's the local talent scene like? Do you air much unsigned material?**

**Harry:** There are two levels of local talent. There is one festival that we do here called Alachua Music Harvest, and we are a co-presenter every year of that. It is usually a three day event, 36-40 different bands, something like a very small version of Music Midtown that Atlanta does. Beyond that, we don't tend to play a lot of local music, other than on our one hour show called 'Florida Rocks', that showcases local talent.

## **What National person do you speak with most?**

**Harry:** Jimie Del Balzo. He makes a concerted effort to call on a weekly basis. The truth is, I like the calls, and it is good to talk to these people, but I pretty much have my mind made up before I talk to them. I think the National people are all dependant on the local staff. If you have a good local person it isn't so important that you talk to the National person on a weekly basis. It is also nice to know that if you have a problem or if you need something, you can pick up the phone and call them and they know who you are.

## **What label do you think has done the best job in anticipating the format fragmentation currently at hand?**

**Harry:** There are two labels, and only because I think it is the A&R departments are good at anticipating these things. One is Atlantic. They're very good at hearing these things. The other, to their credit, is Geffen. They have done a real good job, at least in the short term, of taking the big hits on the artists they've lost and filling the shoes with artists like the Stone Roses.

## **Do you think broadcasting students these days look at the computer science types as if it's those kids who have the most exciting jobs ahead?**

**Harry:** I think it really depends on each individual person. I'm sure some people would see it that way. There are people that are heading in that direction, but people who have a genuine passion for the music probably don't see it that way. They're in broadcasting because they love broadcasting. If they really thought computers were exciting, they'd probably be doing that.

## **Do your students tend to see their career field as music as much as radio?**

**Harry:** No, I think every student is different in that regard. Some see it as music, some see it as a related media field, and some are just doing it not particularly as a major but as something they are interested in and want to have a good time doing. I think you have all three of those elements. Those that are interested in the technology side are always offering me suggestions, as far as being able to access stuff on the Internet, and related technological advances.

# THE Hard INTERVIEW

## **How's the new technology impacting your station?**

**Harry:** One really big plus of the Pollack convention this year were two or three sessions on technology in the '90s and the future. It was an eye opening experience to really see some of these innovations that are just around the corner. For instance what they are going to do with call out research, computer wise, how stations should have a lot of access to the Internet, and how it is untapped potential for radio stations for the future. We've been doing a home page on the Internet for about 6 months. We checked last week and for the month of June we had 28,000 hits on that page. We are still in the experimental stage of putting things together in the format that we want to present.

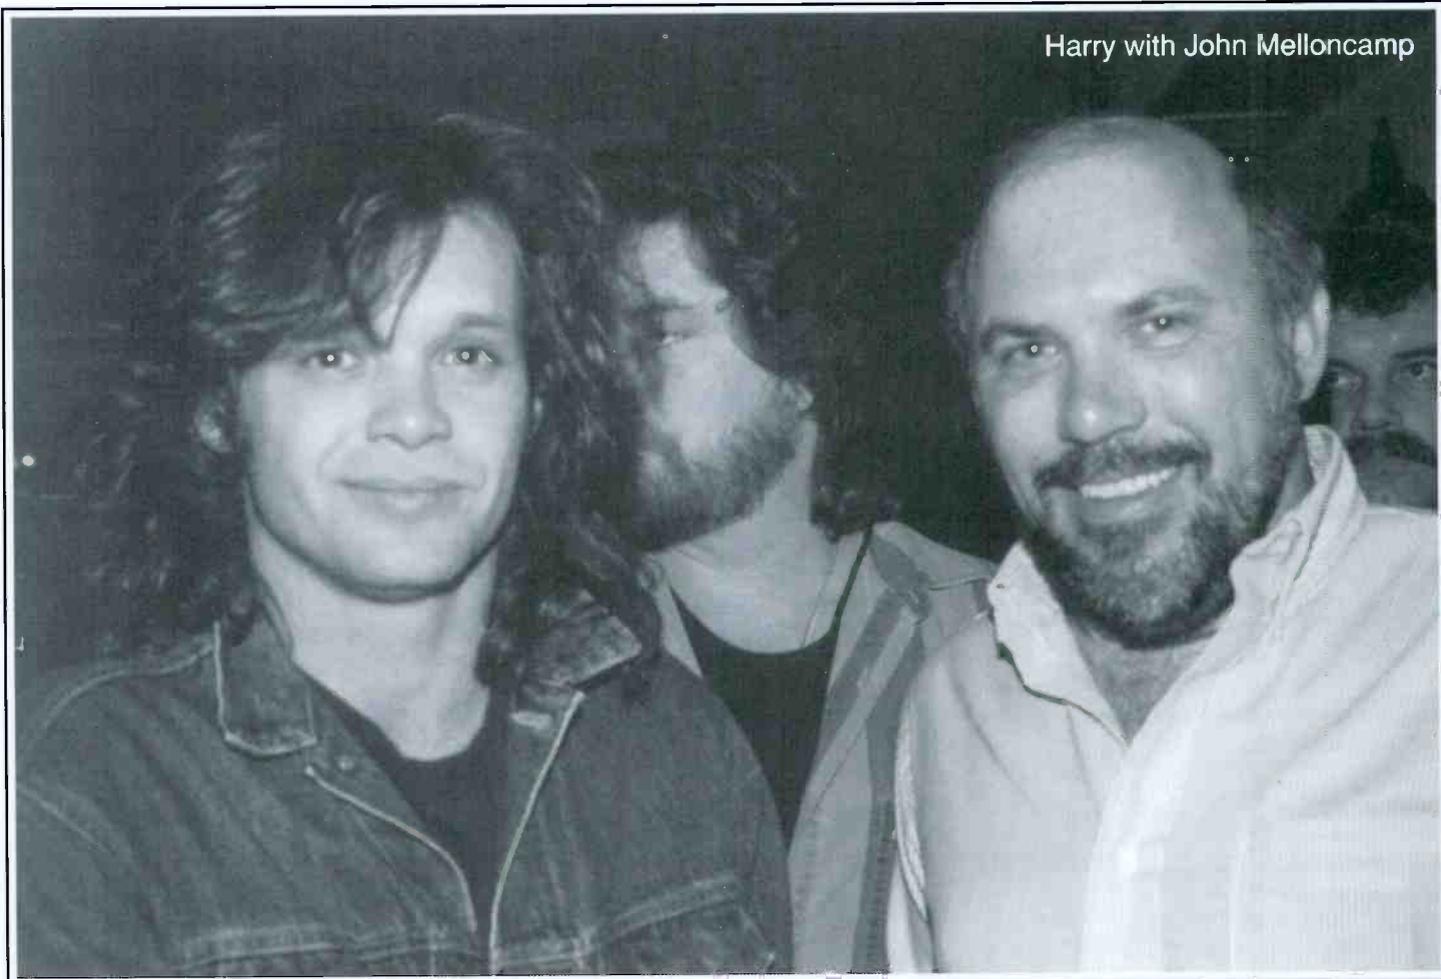

## **What did you glean from that?**

**Harry:** Unfortunately, we can not differentiate where those hits are coming from. We can't tell whether they are coming from Gainesville in our listening area or people just surfing the net, but my main focus obviously is to max-

imize the visibility of the radio station. Fortunately for us there's a free service in this town called Alachua Freenet. Anybody that has a computer and a modem can sign onto that, and rather than having to access the Internet itself, they can just access the page through that, so it costs no money. Basically what it tells us is there is an untapped potential out there for advertising our radio station. Down the road we will probably see advertising, at least in some limited sense. We also provide information that we don't have to clutter our air with that anybody can get to with the click of a mouse—top spins, album reviews, concert news etc. It's like a music magazine that we do on a weekly basis and update. We are the only station in town doing it, other than the NPR station, the real university station here. With a contemporary station you want to be viewed as the station is on the cutting edge, and there is no better way of being viewed that way than doing something like this.

## **Is there a part of you that would like to get into a hyper-competitive major market?**

**Harry:** I have had offers, not necessarily major markets, but descent sized markets throughout the years, but I probably would not move. I like the lifestyle, the security of the job, the community, and working with students. Competitors in the market will say that they are just a bunch of students, but it doesn't matter whether you are going to school or not. It's your ability to communicate and talk to the audience that matters. The audience doesn't care who you are as long as you entertain them, and you're focused in doing that. It's just the competitors that seem to care, as far as labeling you as such, so when I say students I don't mean that in a negative sense at all. The competition uses that as a sales vehicle against us, basically, some people buy it, but some people don't. I've been doing this for so long that the argument has been muted at this point. It's time to argue something new. The downside of having to always recruit, train, and teach these people is that this is either their first or second job in the business. The upside is that they have this unbridled energy and haven't been jaded by the system yet. There's a lot of creativity. These kids have an outlet to do what they really want to and do it very well.

## TRIPLE ACE

**The Mavericks, "Blue Moon," (from Music from the Motion Picture Apollo 13) MCA**

**Soundtracks** With sultry and sparse arrangements, *The Mavericks* and producer Nick Lowe have captured the essence of this vintage tune. Raul Malo's hauntingly sensual vocals almost melted our CD player. If we didn't know better, we'd swear that this song had been written especially for him. **Jody Denberg/KGSR**, "We had success with *The Mavericks'* last album, and this is a classic song done with a Chris Isaak type feel. I guess it's what they used to call a 'relief record'."

**Jon Peterson/WCBE**, "The Mavericks return with a heartfelt rendition of 'Blue Moon.' With an arrangement stripped to a lone acoustic guitar and bare-bones percussion, Raul Malo will tug at your heart stings with a gut-wrenching performance. If Chris Isaak and Lyle Lovett are core artists for you, this should be a no-brainer." **Tom Krumm/KLRF**, "The Mavericks surprised me with their version of 'Blue Moon.' It's got a wonderful atmosphere to it — no pun intended." **Dave Leonard/WKZE**, "I love it! It's perfect! This sound works very well for us." **John Briggs/WXHC**, "The Mavericks' 'Blue Moon' is a hauntingly beautiful tune. This is a great take on the original with their own flair added to it. We like it and so do our listeners."

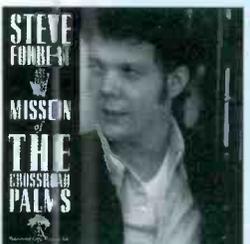

## THE HOT CORNER

**Troy Newman, "It's Like This," CURB/edcl**

Troy Newman is a killer! This Australian born singer/songwriter is the best import from Down Under since shrimp on the barbie (which, by the way, happens to be delicious). Extremely melodic and very powerful vocals coupled with excellent hooks and arrangements — what a powerhouse! The album, which should be in your hands in about two weeks, is produced by veterans Greg Ladanyi (Don Henley) and Waddy Wachtel. In the mean-

time, check out the tunes on this impressive 4-song sampler — "World Gone Crazy," "It's Like This," "I Go To Pieces" and "What Is Love" — going for adds the week of July 10. Newman is at times lyrically and vocally reminiscent of the aforementioned Mr. Henley, and we're willing to bet this young artist has the talent and fortitude to have an equally elongated career.

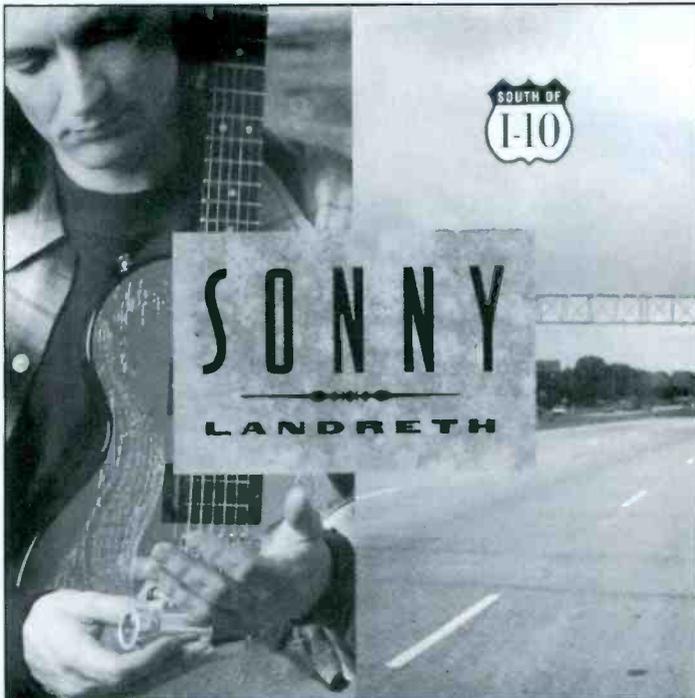

**Steve Forbert, "Mission Of The Crossroad Palms," Paladin/Giant**

No, it's not *deja vu*. Steve's distinctive, melodic-dry vocals are back for your radio pleasure on this re-mixed, re-release of *Mission Of The Crossroad Palms*. Forbert wasn't completely content with the commercial pressing of the CD, so he had special custom copies manufactured that have a better sound, with more clarity, therefore lending itself to a higher listening quality across the airwaves. Triple A should pay special

attention to track #5 — "So Good To Feel Good Again." To complete this mission with Steve Forbert also check out — "Is It Any Wonder?," "Real Live Love," and "How Can You Change The World?"

# SINGLE SPOTLIGHT

## Counting Crows, "The Ghost In You," Clueless OST

We don't have a clue as to what this movie is about, but if it's got a previously unreleased acoustic track from the Counting Crows recorded live at KBCO, how bad can it be? **Zeb Norris/WXLE**, "The Counting Crows' version of the Psychedelic Furs classic 'The Ghost In You' brings to the forefront Richard Butler's exceptional lyrics. If 'BCO gets a slice of the royalty from the movie, they will be able to buy an espresso, but airplay on this song should be huge." **Mike Richter/WVRV**, "It's classic Counting Crows. I've always liked the original version of the song from the Furs, but I think that a lot of people will want to deal with this. I wish the Counting Crows had a new album out instead of just a single." **Tom Krumm/KLRF**, "I haven't received it yet, so I'm clueless." **Greg Roberts/KFMU**, "I don't need to have the CD to know that once we get it, it will be thrown into medi-um. I've got a feeling our mailman may have absconded with it, and he's going to hold it hostage for a while."

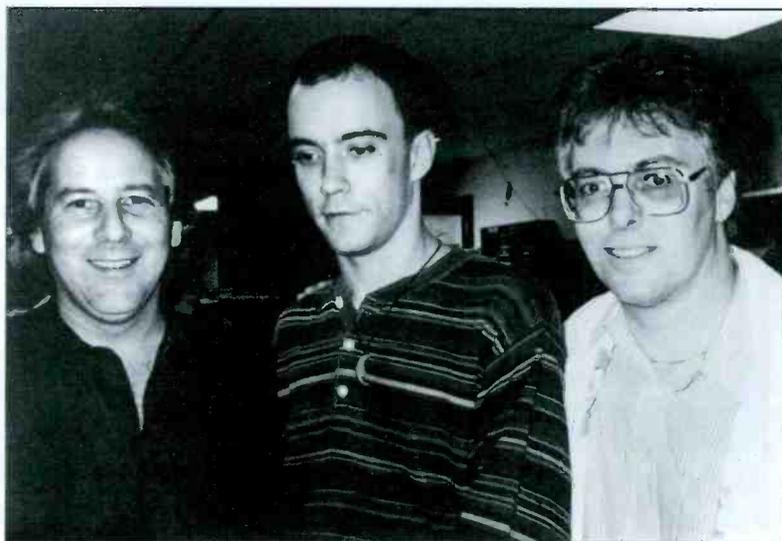

## Live, "White, Discussion," Radioactive

What a difference a year makes! At the beginning of last summer, Live was a little known band who had just released their second album, and the first single "Selling The Drama" was beginning to pick up radio and MTV airplay. Now, several singles later, the band has sold close to a gazillion albums and they've become a household name. Which brings us to "White, Discussion," the last track to be offered as a single from Throwing Copper. Like the rest of the album, the lyrics are brutally honest and thought provoking, and the music is relentless and edgy. Not exactly the recipe for a typical Triple A song, but then Live is not a typical anything. They have effortlessly crossed format boundaries and topped charts. While we're fully aware that "White, Discussion" is a little too hard for most Triple A stations, we also didn't want this album to come to its conclusion without the format's support. **Don Ferrell/KRVM**, "This song is great. Anything from Live is a definite winner. They're the most popular band in the Northwest right now. We've been all over this album. Live has been on our station for a very, very long time." **Dave Leonard/WKZE**, "My wife seemingly programs the entire radio station and she loves Live. She loves everything they put out, so we added it. This song is a great crossover for modern rock and Triple A."

There are only two men in the world who could get away with wearing this floor-length fur cape — **Isaac Hayes** and **Jeffrey Naumann**. It was Isaac who was wearing it for the filming of a video for "Thanks To The Fool," the first single from Branded. Pictured (l-r): PointBlank President **John Wooler**, Pointblank Manager/Special Projects **Alison Taylor**, Director **Erick Ifergan**, Hayes, O Pictures producer **Line Postmyr**.

When **Dave Matthews** was in the Windy City, he immediately headed to WXRT to thank them for doing their part in the phenomenal success of Under The Table And Dreaming. Pictured (l-r): WXRT PD **Norm Weiner**, **Dave Matthews**, RCA's **Andy Kemp**.

## Counting Crows

How they ended up on the Capitol soundtrack to the forthcoming movie *Clueless* (starring Aerosmith video vixen Alicia Silverstone) I don't know. The important thing is that, to your listeners, "Ghost Song" is a new song, never before commercially available to the U.S. It was recorded live at KBCO during promotional tours for *August etc.*

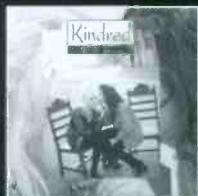

## Alan Williams

"Now entering into the record as people's exhibit #436-A..." (sorry, too much O.J. coverage!) comes *Evidence* (Shadow-box) from the New England-based, Carolina-bred singer/songwriter. Williams' self-produced solo debut is a pleasant, pop-inflected album. Standouts include "Tell All The World," "Anniston," "For What It Is," "Neon Dreaming," and "Take It On Faith," all of which would fit well alongside artists like Danny Tate and Charlie Sexton on your playlist.

## Cyril Neville

The antidote for complacency is contained within this release by Cyril Neville and the Uptown All-Stars, entitled *The Fire This Time* (Iguana). The album flows non-stop with spoken intros that serve as a sort of travelogue/narrative to complement its powerful multi-ethnic styles. Check out "Ayiti," "Big Chief," "Rock With Me," and the powerful "Confirmed Reservation," an important glimpse of African-American history in Neville's native New Orleans.

## Kindred Spirit

IRS/Gai Saber has re-serviced this album to bring your attention to cut 3, "Gravity," by the duo comprised of Debbie Peterson (the **other** former lead voice of the Bangles) and Siobhan Maher (ex-River City People). The song is a slick, catchy tune that fits nicely amid the rest of the album's selections, many of which reminded me of a "Rembrandts-of-the-gentler-sex," if you will. Now if the label could get them hooked up with a smash sitcom...

## Mark Germino

Some of you may remember a song called "Rex Bob Lowenstein" some years back about a DJ who is fired for playing his faves (it could never happen, could it?). The song's writer, Mark Germino, is back with a toned down revision of the song, just one of many fine story songs on the release *Rank & File* (Winter Harvest). We also like "Poet's Lament," "Fields Of Man's New Order," "Rosemary's Equilibrium," and "Fire In The Land Of Grace" on this quiet, thoughtful collection.

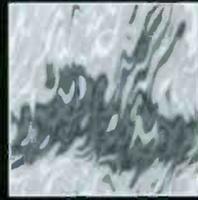

## Marillion

Returning with their debut on the IRS imprint, *El Dorado*, the band Marillion releases *Afraid Of Sunlight*, a frequently intriguing assemblage of "art-house rock" songs that may find some fans at the format. The uptempo "Cannibal Surf Babe," with its production nod to the Beach Boys, is featured on our next CD sampler. Listen for the audio clip from L.A.'s most famous "low speed follow" at the end of "Gaspacho." The ballad "Beautiful" lives up to its name.

## Donna Reed/Dick Van Dyke

With Jason away, how's about a nod to a new release pairing that Dennis and I are excited about. *Donna Reed's Dinner Party* and *Dick Van Dyke's Dance Party*, both issued on Nick At Nite/550 Records. The former includes Andy Williams' "Can't Get Used To Losing You" (hey, it was cool enough for UB40!), plus welcome CD pressings of hits by Donna's TV progeny Shelley Fabares and Paul Peterson, plus former *ark* host Mike Douglas. The hipper "party at the Petrie pad" collection includes Mongo Santamaria's "Watermelon Man" and the late Major Lance's "Monkey Time." The only thing missing is a picture of Laura in her pedal pushers!

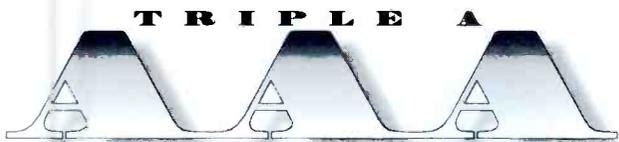

## The Rake's Progress

A clarification since last week's review: 'Almo Sounds' is the new label venture by former A&M founders Herb Albert and Jerry Moss, to be distributed through Geffen. We wish these two music giants tremendous success.

During a post-concert reception at Wolftrap in Vienna, Virginia, **Oh Boy Records** artist **John Prine** took time to catch up with **Damian Einstein** of **WRNR**, Annapolis, MD. Prine is currently on a U.S. tour to support his latest album, *Lost Dogs & Mixed Blessings*. ## Dave Hole Steel On Steel

Alligator

John Small, host of the syndicated  
Blues North, Rock Radio  
Network/Canada

*Guitar Player Magazine* says of Alligator Record's **Dave Hole**: "Once or twice in a generation, it seems, a ferociously good slide player emerges." *The Chicago Tribune* observes, "He's a player who plays with an intensity last heard in vintage Johnny Winter." *Billboard* comments: "Slide guitar fanatics will have their brains blown out... prepare to hear your jaw hitting the floor." If Australia's sizzling slide ace, Dave Hole, has one thing for sure, it's consistency! He's heated up Alligator charts with two previous hot releases and his latest, *Steel On Steel*, continues that upward momentum. *Steel On Steel* has had the blessing of production by Alligator chief Bruce Iglauer and seasoned producer Jim Gaines (who's launched albums for ZZ Top, Stevie Ray Vaughan, Luther Allison, and Albert Collins). The music stands up to the title of "ferocious," taking strong licks from people like Blind Willie Johnson, Tampa Red, and Robert Johnson. "Quicksand" brings to the CD a strong, infectious beat. "Counting My Regrets" is an astounding synchronization of both vibrato-laden voice and instrument; "Take Me To Chicago" borrows from those rude, rough, and ready to kick-ass sounds of Elmore James; "One Last Breath" brings out Dave's great ability to storytell in back porch style; "Hook Line and Sinker" will shake up the deadest party and "Blues Will Call Your Name" gives a hint of an early John Mayall. Hole has insisted that he's living proof that you don't have to be poor or live on a cotton plantation between Clarksdale and Memphis to play blues. Little did he know when flipping through those precious and few recorded releases back in Perth, Western Australia as a kid that he'd climb a ladder and live up to the title "overnight success." Difference is - it's taken him some twenty years to go from "down-under" to "up-top." Dave asserts frankly, he never chose blues - it came around and chose him. For all of us - it's not bad choosing!

THE HARD REPORT

## Reissue Spotlight

### Sonny Rhodes & The Texas Twisters

Just Blues

Evidence

Rich Gordon, Host of the Sunday Night Blues,  
WXXR/Rockford, IL

*Sherman and Mr. Peabody would be proud. This Evidence reissue captures Sonny Rhodes at his best. It's hard to believe that this recording cost under \$5000 in 1985. This figure included the recording and production expenses as well as the pressing and printing of the vinyl. From the opening track, this high energy release keeps the toes tapping. You can hear the Texas grit in Sonny's voice and feel that Texas swing. Fronted by his long-time bassist and friend, Jerry "Cowboy" Haynes, the band includes horn players Bernard Anderson and Jonathan Paul, guitar player Steve Gannon, and drummer Chris Daniels. Special guests are Troyce Key on guitar and J.J. Malone on piano. Sonny's lap steel guitar adds a different type of slide sound to "Cigarette Blues" and "It Hurts Me Too." This release features three originals and six well-chosen covers. When it comes to the blues, "Cigarette Blues" hits the nail on the head. You can't get more real than that. This recording started on February 14, 1985, and was called "The Sonny Rhodes 1985 Bluesacre," for the Valentine's Day Massacre. It's obvious, the band hit everything right on target. Percy Mayfield was a major force in the formation of the bluesman called Sonny Rhodes. Sonny acknowledges that by this excellent disc. It closes like it opens, with the toes tapping and Sherman and Mr. Peabody smiling.*

*Let's fire up the way-back machine and travel back into the eighties. Originally recorded in 1984, this French Blue Phoenix label release is now available on Evidence. Billy Boy Arnold delivers some great harp and strong vocals. Backed by some of Chicago's finest bluesmen, this release captures some tasty Windy City blues. The players include Jimmy Johnson and John "Mad Dog" Watkins on guitars. Fred Grady is the drummer. Bassist Larry Exum and pianist Saint James Bryant, who were both killed in an automobile accident in December of 1988, round out this excellent supporting band. When I first put this disc on, the distinctive sound of Jimmy Johnson's guitar caught my ear. With Jimmy in the right channel and John in the left, you'll find Billy up front blowing the harp and singing his heart out. A student of Sonny Boy Williamson, Billy shows his mastery of the harmonica. Ten selections make up the release featuring three originals. Variety is the key, as the group showcases its musical talents with several change of pace tunes. This is Chicago blues at its finest. Michael Point, who wrote the liner notes, said it best, "In short, the music doesn't require critical analysis. All it needs is to be put in your CD player and the rest will take care of itself because Billy Boy Arnold is indeed back with us."*

**Get Down With The Blues**

Tone Cool Records

Bruce Bjorkman, KBZY/Salem, OR

*If the temperature where you are is hot, be sure to put the air conditioning on HIGH! Because once you put on Tony Z's Get Down With The Blues, the temperature is sure to rise by a hundred degrees. This is a smoking album, especially if you're a big lover of that huge Hammond B-3 organ sound. Tony Z plays the B-3 and sings, and just cooks with his well-defined bluesy/jazzy style. There are some pretty awesome sidemen helping out too, most notably guitar virtuoso **Duke Robillard**, who plays throughout this release. Robillard is accompanied by the pyrotechnical harmonica playing of **Sugar Blue** on "Roger Pace." In fact, Blue's playing has never sounded better or bluesier! **Houston Person**'s saucy sax playing is like adding Hershey's Chocolate Syrup over ice cream, it just makes everything taste so good! I had never heard of former studio musician Tony Z, who has played behind such blues luminaries as **Saffire - The Uppity Blues Women**, **Son Seals**, and **Ronnie Earl**, until this Tone Cool release. Now, I am clamoring for more. There is plenty of solid instrumental playing, allowing each artist to stretch out some and come into the spotlight. Tony's singing is solid, too.*

## COVER Pick

### CIV, "All Twisted" (Lava/Atlantic)

The latest entry into the burgeoning hard-core onslaught may be a new band, but the players involved are some of the most revered on the scene. Although the members have cut their teeth playing in straight edge bands like Youth of Today, Shelter, and Token Entry, it was the legendary NYHC outfit

Gorilla Biscuits that set the stage for the CIV of today - with members, **Arthur** (bass), **Sammy** (drums), and **Civ** (vocals), all graduating from that group along with *Set Your Goals* producer Walter Schrifels, now in Quicksand. Guitarist **Charlie**, from Cleveland, played in *Outface* which helped make his mark on tour with Quicksand before landing in New York. It's no wonder that the buzz on the East Coast has developed so rapidly with a heritage like that - and a regional tour with Sick of it All didn't hurt either - while the CIV project grew from a collection of 7" indie releases to a major label priority. In fact, when this group first joined together less than a year ago the energy was so spontaneous that they wrote 19 songs in two months. The EP in your hands now is a quick three song preview to the *Set Your Goals* debut release, featuring the focus track "All Twisted", a cover that CIV makes all it's own with an old school punk feel and a high energy churning melodic groove. The onslaught of the second track, "State of Grace", is a quick fix of strength that you will miss if you step away for an instant, but it's worth sticking around for. "Blessed" finishes off the sampler with a changing tempo that starts off methodical and tentative, but kicks up the intensity early on. Next month the band will be joining the skater/punk version of Lollapalooza on the Warped tour with Quicksand and L7 (among others), where the music will go hand in hand with skateboard and in-line skating demonstrations. It is a tour that promises to get back to the street level and tap into the crowd that Perry Ferrell's circus has lost touch with. With both a nod to the roots of hard-core and a glimpse at what may be a mainstay at aggressive radio in the future, Hard Hitters stations should find plenty of what they're looking for in CIV.

## TOP PICKS

### Sheer Terror, "Not Waving, Drowning" (Blackout/MCA)

Sheer Terror

Just like Sick of it All and our CIV, **Sheer Terror** are alums of the now legendary Sunday night hard-core shows at CBGBs and have the battle scars to prove it. They have the relentless percussion of punk music, but with the growling vocals of **Paul Bearer**, fans of heavier metal and hard-core will find this very much to their liking. Their last release Old, New, Borrowed, Blue originally came out on Revelation with intermittent airplay on

the East Coast, but with a re-issue earlier this year on Blackout/MCA they found a larger audience and enough Hard Hitters airplay to land on the chart. With some of the groundwork already laid for Love Songs For the Unloved to impact the underground rock scene, the opening cut "Not Waving, Drowning" will have audiences all over the country not standing, moshing! Produced by Tommy Victor of Prong, the biting lyrics and bludgeoning guitars of **Sheer Terror** attack your senses like a mad slasher in a dark alley. Their first widely distributed LP arriving in a few weeks, but with "Not Waving, Drowning" **Sheer Terror** will leave your senses delighted - but black and blue.

### Kyuss, ...And The Circus Leaves Town (Elektra/EEG)

The grainy concoction conjured up when the **Kyuss** foursome (vocalist **John Garcia**, guitarist **Josh Homme**, bassist **Scott Reeder** and stixman **Alfredo Hernandez**) make music results in a soulful experience where a thick low-end heavy groove dominates. Their richly textured mode of musical transportation is built around a dense rumble that elevates the listener to the **Kyuss** plane of being. A trippy-esque atmosphere is created with thrashing waves of rolling guitars mixed with thunderous percussion that envelops you in an almost supernatural experience. Obviously a likeable ambience with 44 Hard Reporters already on the first single, "One Inch Man", and increases reported at **DMX, KDUR, KNDI, KQAL, KWVA, WLRA** and **XEQC**. Eight metal heads have already snuck the full length into rotation, even though this is the official add week, with spins on the likes of **KEYJ, KIOZ, WBGU, WFCS, WKKL, WKPX, WLFR**, and **WSUP**. Quite simply, **Kyuss** is the kind of band that you don't just hear their music, you feel it deep within. And the best way to feel it is to catch them live as they currently wander stateside with White Zombie.

## TOP Picks Cont.

### Belladonna, "Rob You Blind" (Mausoleum)

#### Belladonna

For anyone who has been a long time fan of Anthrax, **Joey Belladonna** is a familiar name. The singer joined the band in time to record *Spreading the Disease*, and was the frontman for their rise to prominence. Although the split with his former bandmates was far from amiable, most Anthrax fans will be eager to hear more from our favorite "Injun". It has been some time, but Joey has been able to collect the right combination of musicians and channel both his energy and his anger into music. With their self titled release around the corner, the first peek at Belladonna's new material is "Rob You Blind". The Alex Perialis produced track is heavy on thick guitars and biting lyrics, but it is the familiar smooth vocals of Joey Belladonna that are the focal point of the song. With the huge numbers of new bands on the airwaves, it is always comforting to hear from an old friend who won't "Rob You Blind"!

### Pennywise, About Time (Epitaph)

It seems that **Pennywise** are respectful of the heritage in their hometown of Hermosa Beach, CA. And they should be. Before they began stirring up the crowds in Southern Cal., legends of the punk scene like Black Flag and the Descendents were laying the groundwork for the bands of today. More deserving than the Top 40 strains of Green Day, **Pennywise** carry the punk rock torch with pride, keeping their indie rock credibility while packing halls across the country and selling over 200,000 copies of their last release *Unknown Road*. Whether you've been a longtime fan waiting for more music or a new arrival to this surf/skate lifestyle outfit, their latest CD will have plenty to offer. Full stocked with slashing and burning ditties at rocket speed tempos, **Pennywise** doesn't come up for air until the very last note. Unless you live on a musical diet of death metal alone, there is enough backbone to please the hardest rockers and enough melody for

the more commercial stations. Just listening should leave you drenched in sweat as if you were up front in the swarm of a live show. For programmers looking for fresh aggressive rock - like KIOZ, KMSA, KZAK, and WKLL - it's *About Time*.

## TOP Picks

### Sweet Water, Superfriends (East West/EEG)

Having begun to build their story at hard rock radio back in 1993 when they released their self titled debut disc, **Sweet Water** return now with the twelve track album, **Superfriends**. If you're not familiar with this alterna-leaning outfit, give a listen to their polished brand of music found on this Dave Jerden produced effort. This catchy gem of a record is chock full of smooth guitar lines and spirited vocals. Their vibrant, upbeat but edgy brand of music has a flair that's punchy enough to please even the most discerning ears in your audience. Of the available tracks, "Big Rock Show", "Cake And Strychnine", and impact track "Superstar" are some of the more guitar-driven tunes, while huge guitar swings and swift tempo changes makes "Slide" and "Painless" appealing for the auditory senses. Three new adds came in this week at **KWVA**, **WLRA**, and **WVUD**, with a large amount of spins coming in at **DMX**, **KTSC**, **KXFX**, **WHFR**, **WSGR** and **WSOU**. This band has all the ingredients to become a crossover hit. How 'bout being the first one on your block to check it out and help in the next chapter of the **Sweet Water** story.

### SNFU, "Eric's Had A Bad Day" (Epitaph)

To continue in the current trend of fast and furious, punk inspired, energy driven music that has been handed over to radio in the past year, **SNFU** bring something to the table that will be sure to have your listeners pogo-ing along at home. Musically, the five piece bring-on an immense sound. The density found among the frenzied vocals is courtesy of the buzzing of guitars, pounding of the bass, and the slamming of sticks on the stretched skin of the drums. You could spend hours searching your music library for the perfect angst-ridden tune, and if you want to, go ahead. But we recommend that you cue up the witty and fun, profane free version of "Eric" instead. Four stations are reporting interest in the whimsical track, with spins on the likes of **CFOX**, **WBAU** and **WVBR**. To get an earful live, look for **SNFU** as they travel the rock road gigging with the Bouncing Souls.

### Dandelion, "Weird Out" (Ruffhouse/Columbia)

Raised on the rock of the '60s and '70s, the members of **Dandelion** grew up out of **Kevin and Mike Moore**'s basement with that heritage to create their own stamp on the Philadelphia scene. But after their 1993 release *I Think I'm Gonna Be Sick* that impact stretched to rock radio across the country with their dreamy, atmospheric sound. But now things are starting to get "Weird". The first taste of their *Dyslexicon* release is the languid trip of "Weird Out". With a cosmic melody, ethereal layering, and thick churning guitars bubbling up from underneath, the music gives movement and life to the drowsy vocal delivery - like a *Magic Carpet* carrying *Sleeping Beauty*. Their edgy multi-format appeal will endear them to an even larger audience than before, but it's the cement heavy foundation of "Weird Out" that will sound compatible with Hard Hitter airwaves.

## FILINGS

Listen up folks - it's imperative that all of you, that's right, all of you add the full length album from the mighty **Kyuss** (Elektra/EEG) today! 44 stations have found that the **Kyuss** sound works for them (helping them climb up to a bulletted #13 position on the Impact Chart). In turn it should be a given that ...And The Circus Leaves Town will be found at the top of many July 10th/11th add lists. Keep in mind, you lucky people can catch this mind-numbing band on the road as they warm up the audiences from Rob and crew in **White Zombie** (Geffen)... Make room on your playlist this week for the **CIV** (Lava/Atlantic) "All Twisted" single. The track from the NYC hard-core bunch is the first taken from the band's upcoming album due out at the end of the month... **Joey Belladonna** put together a new outfit, found a new home at **Mausoleum Records** and now, returns to the metal front with the single, "Rob You Blind". Add the single July 10th/11th and then look to the not so distant future for the release of Belladonna's self titled debut album... **Sheer Terror** (Blackout/MCA) go for July 10th and 11th adds with the "Not Waving, Drowning" impact track from their upcoming **Love Songs For the Unloved**. The full **Tommy Victor** produced album is scheduled for release on July 31st/August 1st... Look at your July 10th and 11th add lists and make sure that you have included the **Dandelion** (Ruffhouse/Columbia) "Weird Out" single... If the more alterna-leaning stuff works for you then the new **Superfriends** album from **Sweet Water** (EastWest/EEG) should make it onto your add list. Twelve tracks have been included on the **Dave Jerden** produced effort, so you shouldn't have too much trouble picking and choosing... **Eleven** (Hollywood) debuted on the Impact chart this week in the 41st position from the strength of their single "Why". Now is the time to give them more spinnage by adding the full length **Thunk** LP. Do it July 17th/18th... **Motorhead** (CMC International) have serviced metal radio with the "Sacrifice" single, then when July 17th/18th comes around the full length album of the same name should land on your desk ready for adds and airplay... **Testament** (Burnt Offerings) will be offering the metal masses a live album recorded at the Fillmore in San Francisco. The record, **Testament Live at the Fillmore**, goes for adds July 17th and 18th... If you noticed the cover pick for last week's magazine, **Smile** (Atlantic) was the focus of the pick. Even though we jumped the gun a bit, the band (who have already begun making waves at metal radio with their "Staring At The Sun" single) deserve the coverage. Pay close attention to the hypnotic sound of "Staring", then get familiar with the full length **Maquae** album. Add the full length record the third week in July... Mark your calendar for the July 24th/25th arrival of the **Fates Warning** (Metal Blade) hits package, **Chasing Time**. The record comes complete with all of your Fates' faves... **Meshuggah** (Relapse) will be taking over July 24th/25th with the arrival of **Destroy, Erase, Improve**. You've been warned!... The trio known simply as **Fudge Tunnel** (Earache) are prepared to take over the metal radio frequency with the July 24th and 25th arrival of **In A Word**... Mr. Clarke and crew in **Warrior Soul** have landed in the **Futurist Records** offices and

are prepared to unleash their new material on the metal masses July 31st/August 1st. The album is called **Space Age Cowboys**... Also slated for arrival at the end of July/early August is the first single from **Seaweed** (Hollywood). "Free Drug Zone" should make your July 31st/August 1st add lists... **Paw** (A&M) took to an outdoor stage in NYC over the fourth of July holiday with frontman **Mark Hennessey** performing in sparkling Uncle Sam hat, coat and tails. Not a bad warm-up for the upcoming release of the band's new record, **Death To Traitors**, on August 8th. The first single to be taken from the album is "Hope I Die Tonight" and is set for arrival a couple of weeks before the album. Make a note that the CD-single will contain a Paw version of Nirvana's "School"... **Exit 13** (Relapse/Nuclear Blast) will be releasing **Just A Few More Hits** at the end of the summer, and are currently in the midst of writing for their upcoming full length album, **Didactic Grind**. And, they are also planning on recording a collection of Jazz/Blues songs from the '30s and '40s called **Smoking Songs** (gee, can you guess what they are about?!). **Smoking Songs** will feature guest appearances by **Dan Liiker** and **Rich Hoak** of **Brutal Truth** (Earache) and **Bliss Blood** from the **Pain Teens**... **Lee Dorrian** and crew in **Cathedral** (Earache) deliver **The Carnival Bizarre** September 25th... **Therapy?** (A&M) will have a new EP out in October. ☹☹☹☹ **The Nixons** (MCA) have taken the sounds of **Foma** to the road with shows July 10th in Lexington, Kentucky; July 11th in Grand Rapids, Michigan; on the 13th in Cincinnati, Ohio; on the 14th in Louisville, Kentucky and finally, July 15th back in Cincinnati, Ohio... Look for **Rob Halford** and Co. in **Fight** (Epic) to wind things down on their current rock n' roll stroll with shows July 11th in Las Vegas, Nevada, on the 12th in Tucson, Arizona; on the 13th in Phoenix, Arizona; and on the 14th in Albuquerque, New Mexico... The trio known to the metal masses as **Gwen Mars** (Hollywood) have six dates left on the current leg of their **Magnosheen** tour. Look for them to stop July 10th, 12th, 14th, 15th, 16th and 19th in Omaha, Nebraska; St. Louis, Missouri; Detroit, Michigan; Cleveland, Ohio; Cambridge, Massachusetts; and New York, New York... Confirmed dates on the August tour featuring **Crowbar** (Pavement), **Suffocation** (Roadrunner) and **Shank 456** (Roadrunner) run from an August 3rd blast off in Atlanta, Georgia. Nine more dates have been booked with the final stop being at Ozzy's in Winnipeg, Manitoba... Those of you who long to see Paul D. and **Killers** (Metal Blade) live and in person can do so when the band play a string of dates in September. The touring spree begins with a September 15th show in Old Bridge, New Jersey, and hits hot spots along the East coast before heading in a westerly direction. ☹☹☹☹ On the industry front, **Mausoleum Records** is now distributed through **BMG Distribution**... **Sony** ended their distribution deal with **Rockworld** thus putting the label on hold for now. **Russ Miller** will be leaving after next week (his last day is July 7th). He's looking for a new gig so if you know of anything or if you just want to say hi give him a call at (212) 879-3011. ☹☹☹☹ Peace.

Snapshots taken from the recent McGathy get together have begun to come in - and as expected, many in the metal community found themselves in line of the camera's eye. The endearing mug's of Mausoleum's **Beth Krakower**, WCDB's **Rob Babecki** and Skateboard Marketing's **Munsey Ricci** can be seen in this line-up of beer drinkin' metal heads.

This rowdy bunch of party goers include the likes of **Brian DeMoa** (WCDB), **Ken Recorr**, **Zach Lanier** (Energy), **Erin Lynch** (WDBK), **Mami Halpern** (Roadrunner), and someone who looks an awful lot like **Rob Babecki**, **Jay Hughen** (A&M) and **Leigh Taylor** (WJSE).

## PHOTOS

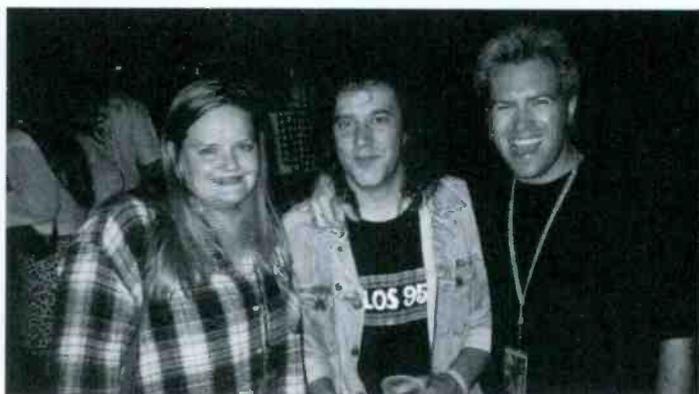

What perhaps are these people doing - odds are they don't even remember. All that is certain is that those sharing photo space are **Rob Babecki** (WCDB), **Jenn Brewer** (WRDL), **Joanne Grand** (AIM), **Smitty** (Epic), **Erin Lynch** (WDBK), and an unidentified party goer.

McGathy moment number four features the adorable mug of A&M's **Jay Hughen** (he would be the one on the left looking skyward) the two on the right have been identified as **Ken Fosters** (ex of WKGB) and **Matt Guipo** (WKGB).

This gives the viewer a great view of a NYC street, and of the smiling **Gary Horn** (WXU). That would be WXVU's **Brendan Schlitt** (who would be a beer if he had a 'z' on the end of his last name!) in the background sending a couple of birds skyward.

While on a current stateside trek with Skid Row, **Souls At Zero** frontman **Brad Divens** snagged some quality time with Energy Records' promo queen **Sheri Sinclair** and KLOS' **Long Paul**.

Another Kodak moment comes courtesy of the **Souls At Zero** camp where band members **Terry Carter**, **Jay Abbene** and **Brad Divens** do a little label bonding with **Sheri Sinclair** and **Rob Grant**.

A few issues back we gave you your very own Sergio finger puppet - this week we give you a snapshot taken the very same evening at the Wetlands in New York. Here **Overdose** vocalist **B.Z.** and bassist **Eddie Webber** are in the spotlight

## Circle Jerks, "I Wanna Destroy You" Mercury

The Circle Jerks are the latest entry into the neopunkrockscene. We're kidding, of course. They are as disrupting a force today as they were in 1980. They've always had the attitude. Their intensity remains the same after all these years. And now they have **Debbie Gibson** singing backgrounds on a track. Sure, it's a stretch. The **Soft Boys** couldn't have imagined the pairing when they wrote "I Wanna Destroy You." With the mock idolatry she received from the New York punk hardcore scenesters as she joined the Jerks onstage at the legendary CBGB's in June, it became apparent that the tongue-in-cheek pose was gonna fly with Jerks fans. "Debbie Gibson is Punk!" could be heard around the room, through smiling faces caught up in the celebratory rockfest. No one can handle a punk crowd like Jerks singer Keith Morris, anyway. They'll accept most anything he says or allows to be done. If the most ardent of Jerks fans can get happy with the (evidently former) teen mall queen with the pig-tails, your punk follower contingent in your neck of the woods shouldn't resist. And it's a campy, silly, fairly absurd story to tell. With **Niko Bolas** behind the production, there's always raw rock edge. You need this song right now.

## Foo Fighters, Capitol/Roswell

The full-length's in, and it is time to evaluate the entirety of the project that reaped more pre-release buzz than anything else in recent memory. Former Nirvana drummer Dave Grohl fronts, plays guitar, and writes the tunes for the band as we all know by now. The first thing that becomes evident in the mix is the drumming. No question Grohl has an ear for it, and William Goldsmith has the understanding of Bonham, Moon and other rock drummers that make more noise than just sticks on drumheads. On top of this foundation lies edgy modernist guitar, and consistently strong songwriting. For extra airplay over and above the first single, try your hand at "I'll Stick Around" (rock edge) "Big Me" (lighter pop), "Alone + Easy Target" (rock edge), "Good Grief" (uptempo punkpop), "Floaty" (airy electric/acoustic with tempo shifts), "Dr. George" (Soul Asylum-ish mid-tempo), "Exhausted" (fuzzed-out telephoned guitar with mid-tempo energy and lazy, melodic vocal) and "Watershed" (indie uptempo punk nastiness). There are plenty of angles to pursue.

## Bjork, "Isobel," Elektra

The lushness of a Bjork record never seems to completely squash tempo. As sparse as the rhythm is on "Isobel," the overall composition is lively enough to erase the traditional contrast. The eerie edge of her voice, coupled with Cannes cinematic string flourishes, helps makes "Isobel" a visual song as well. Colorful and emotional, "Isobel" rings more bells with Sade than it does with "Army of Me." In the face of resounding attention derived from the Tank Girl Soundtrack appearance and subsequent airplay of "Army..." the opportunity has never been better to showcase the rest of Bjork's moody secrets. **WRXS** adds it this week.

## more choices

### Live, "White, Discussion," Radioactive/MCA

Purported to be the final chapter from this overwhelmingly successful record, Live's "White, Discussion" is the band's choice for a curtain call. And since the record has been playfully renamed *Throwing Platinum*, the risk factor in picking up another one from the album has to be near zero. Especially when the song is full of the kind of energy and excitement that usually gets confined to stage performances. When "White, Discussion" gets wild, everything is left on the table. All the cards are up. The gelled togetherness of the individual parts is as evident as on any other offering thus far.

### Deep Forest, "Marta's Song," 550

The story for this band came in on their last record. Over 700,000 units Soundscanned, and a Top 20 Alternative hit with the song "Sweet Lullaby" marked the successes in the United States for this band. They scored double platinum in Australia, gold in Britain, and best-seller status in Europe and Japan. They were also nominated for a Grammy. Their new album, *BOHEME*, has already sold nearly 32,000 units in the first two weeks of release, topping any two week period in the band's history. The single "Marta's Song" was first exposed on the soundtrack to Robert Altman's film *Pret a' Porter (Ready to Wear)*. This worldly composition can be heard buzzing on **WCBR**, **KTOZ** and **WCHZ** at this point.

### Smile, "Staring at the Sun," Atlantic/Headhunter

The California trio has been compared to Bleach-era Nirvana, Robert Fripp and Rocket from the Crypt among others. Their newest offering was previously released on Headhunter/Cargo Records in November of last year, where it gained college radio airplay and more street buzz. The time has come for the major push, and "Staring at the Sun" is the first single. The electric guitar riff will knock you on your ass. If you choose to rock a little harder than the average alternative, you'll be pleased to hear this one. Ala White Zombie's "More Human Than Human," this cut will probably best be served in night time doses, and allowed gradual degrees of daylight after a few weeks. Like the previously mentioned band, Smile's "Staring at the Sun" can be a steady climber with plenty of phones.

### Big Sugar, "Ride Like Hell" Silvertone

The title says it all. No pussyfooting around here. Not only is this pure rock that makes your sternum vibrate a la SRV and Chris Duarte, it has plenty of alternative demeanor and lyrical content to justify its juxtaposed place amongst your more punk selections. Ethereal it ain't. Mutant delta riffage it is. **WNFZ**, **WCBR** and **WVBR** are in at this point, and you may have caught the cover story on Big Sugar in CMJ last week, as well as the Billboard piece which just came out. **KPNT's Jim McGuinn** says that Big Sugar "is Modern Rock's Cream." They use a 70's rock guitar sound with a 90's type of attitude, and the results are gaining ground. Check out their cover version of "Dear Mr. Fantasy" as well. What was heretofore logged in as an outmoded classic rock song is given new life with this version.

### Moris Tepper, "Bank Shot," Candle Bone

Former Tom Waits sideman Moris Tepper has a new record out on Candle Bone that sounds like a cross between Chris Rea and Waits himself. In his most manic state, Tepper utilizes the tuba, accordian, concertina, and other unconventional instruments to paint the edgy brushstrokes. This selection is the pick of the litter, a mid-tempo serenade that lives on the same block as Southside Johnny in some respect. It can work for some of our panel that lean AAA. He's been reviewed in *Rolling Stone* of late, and is scheduled for an upcoming Conan appearance. He's currently in England on a brief tour with PJ Harvey guitarist Joe Gore. The guitarist on Frank Black's two solo records, Tepper understands the modern rock idiom. He's an artist with a credible past

## making the climb

**WDST** and **WHFS** both add this one this week, adding to the impressive list including **REV 105**, **KUKQ**, **WFNX**, **WBCN**, **KXRK** and others, with 207 total spins.

### Babes in Toyland, "Sweet 69," Reprise

The Babes are climbin' up the back half, picking up 55 more spins in a slow week, moving to 55\* and scoring **WHTG** and **WRXS** in the process. **LIVE 105**, **Q101** and **CIMX** are already involved.

### The Cure, "Dredd Song," 550

This one from the Judge Dredd soundtrack is pushing ahead, logged in this week at 54\*, over 300 spins total.

### Jewel, "Who Will Save Your Soul," Atlantic

Jewel pushes the spin count over 200 this week, and lands a position of 64\*. **KROX** added up this week, too.

### Matthew Sweet, "We're the Same," Zoo

Sweet's up to 185 spins this week, picking up **WCHZ** on this pop rock track that will further enamour the alternative fan base.

### Buffalo Tom, "Summer," Elektra

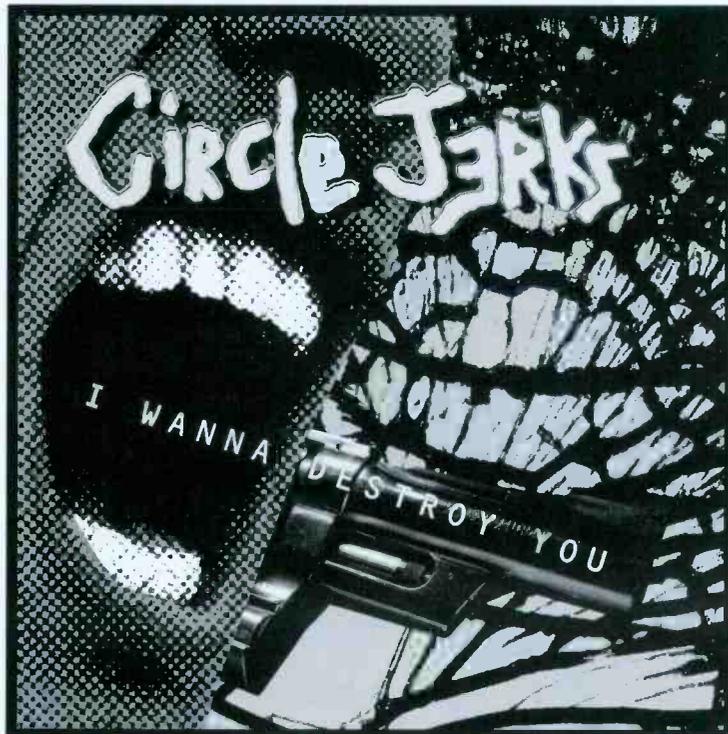

Timing is everything, and Buffalo Tom are making the most of it with the heaviest climber on the back half of the chart this week, sitting up at 90\* and moving fast from adds at **KPOI**, **WDST** and **WRXS**.

### Edwyn Collins, "A Girl Like You," Bar/None

This British artist is making sound impact on this side of the pond, moving to 73\* with 180 spins total and 3 adds including **KPOI**.

### H.O.R.D.E. FESTIVAL

The time is fast approaching for my turn at the interview thing. The Alternative section of The Hard Report has always been a provider of informative interviews with artists who are impacting the music world, and that tradition will continue. I just needed some time to get the essentials down first.

Like, finding out where I can buy the best cup of coffee in this town. By the way, it's a tossup between WaWa and this little newsstand called Ida's, should you happen to get lost heading to somewhere else and find yourself in Medford. Don't be fooled by the apparent convenience of the local 7-11. I think they use old dishwater as a key ingredient.

Anyway, the interview format might be a little different. I would like to do what I will call the Miniview. Essentially, it will be a shorter interview. The Miniview section could very well include more than one artist. There might be a common theme between interviews, as well. I'd like to get the interview subjects to speak a bit about our business, and the business at hand.

Please call in as others have done, and let me know the availability of the artists for whom you seek the exposure opportunities. We'll get started in a couple of weeks.

The winner of **WOXY/Cincinnati's 97Xposure '95** is The Jayne Sachs Band, which can be seen on their playlist of late... **KCXX/San Bernardino** is

holding its own "X" Fest on September 9th. They've got the Blockbuster Pavillion at their disposal (cap. 10,500+), and they need bands. Call **PD Chuck Summers** at 909-882-2575... **Capricorn Records** announces the upcoming release of the first-ever benefit recording to support **NORML** (National Organization for the Reform of Marijuana Laws). **Phil Walden**, President of Capricorn Records and a former NORML board member states "This project is not an endorsement of the usage of marijuana or any other illegal substance, but rather the belief that the criminal prosecution of marijuana imposes unjust and unfair penalties. *Hempilation* is a testament to these bands' support of NORML's efforts to reform these laws." Musicians slated to participate include **The Black Crowes, Blues Traveler, Cracker, Cypress Hill, Drivin-N-Cryin, Gov't Mule, Hater, Raging Slab, 311, Widespread Panic, Ziggy Manley & The Melody Makers**, and others. The artists are donating tunes, or in some cases their version of classics. Like, Cracker will do "One Toke Over The Line," Blues Traveler will perform "I Wanna Take You Higher" and The Black Crowes are slated for "Rainy Day Women." It will be released in September... **The Smithereens** have been confirmed for **WHTG's Surfstock** festival on July 21st... Philadelphia band **Edo's** new record is out, and it is full of tracks you can use to spice up a tame music sweep. It's Primus meets Zappa meets The Kids In The Hall. It's on

the Skoda label, out of Wilmington, DE. Upcoming Philly dates include the Middle East on August 18th, and an opener for Dredd Zeppelin on Septemeber 30th, also at the Middle East. For New York, catch them August 8th at the Spiral... Watch out for this new **Letters To Cleo** record. Since "Here and Now" and the other recent tunes were actually from a 1993 recording, their new one **Wholesale Meats and Fish** actually reflects the band's current artistic sensibility. It's a strong record. First single is "Awake," scheduled for the first week of August. And there are stronger tracks than that one, too... Also on your desks is a new record from Toronto band **Universal Honey**, called "Just Before Mary Goes." It's been on the air at **CIMX, CKEY, CFNY** and others, and Alert is working it starting this week to the US. Great pop song... **Pravda Records** in conjunction with the Independent Label Festival is announcing a showcase of Pravda bands at Lakeview Links in Chicago on 7/28 at 9 p.m.. **The Slugs, Willie Wisely Trio, Boom hank** and **Gringo** will perform...The Women in Music organization will present an evening of some of their most talented rock artists and bands at CBGB's in NYC on July 26th. The event will be hosted by **Ida Hakkila of Q104, Laura Black, Sophia's Toy, Paris by Night, Ghost of a God**, and **Li Mann** are scheduled to play...**KUSF/San Francisco** is focusing on the personal needs of people with AIDS by assisting Shanti Project on its volunteer drive this month...

**David Bowie**, who has not had a major hit album since 1983's "Let's Dance," will release a new album in late September called "Outside." It will be a concept album based on the diary of a futuristic detective investigating art crimes. The LP is described in sleeve notes as a "non-linear, Gothic drama hypercycle." "Outside" will feature 20 tracks including several instrumental and spoken-word segments.

**Bon Jovi** have had the highest sales figure of the year so far in Britain with 130,000 copies of the new album "These Days" sold during its first week of release. The album outsold **Michael Jackson's** new album by 2 to 1. The band's success was probably aided by six sold-out stadium concerts in Britain the week of the LP's release. Four of the band's catalogue albums — "Slippery When Wet," "New Jersey," "Keep The Faith," and last year's greatest hits LP — have all re-entered the top 75 album chart.

**Scott Weiland**, lead singer for the **Stone Temple Pilots**, has pleaded innocent to cocaine and heroin charges in Pasadena, California. Weiland was arrested May 15 after allegedly buying crack in a darkened motel parking lot. The judge in the case has ordered an investigation into whether Weiland is eligible for a drug rehabilitation program. Weiland is facing felony drug charges that carry a maximum penalty of almost four years in prison. Weiland's attorney, Steven Cron, says Weiland is already getting drug counseling.

Two Seattle cemeteries have decided not to accept the ashes of the late **Kurt Cobain** of **Nirvana**, citing security reasons. Cobain's widow, **Courtney Love** of **Hole**, is purchasing another home in New Orleans to get away from the stream of visitors who come to Viretta Park to see the house where Cobain killed himself. Love hired security because some of the visitors come onto her property. "Some of them are fine, decent people that have no place to go," Love says. Love told the Seattle Post-Intelligencer newspaper that one Seattle cemetery wanted \$100,000 every year for security and wanted Love to pay for a \$75,000 tombstone. "I don't have that kind of money, and Kurt didn't have that kind of money," Love says. Love says the park adjacent to her mansion on Lake Washington Boulevard has already been overrun by visitors. "You should see the bench... It looks like Jim Morrison's grave," she says. "I can't have this going on. I can't be spending this much on guards every month." In an interview in the June issue of Vanity Fair, Love talked about wanting to bury Cobain's ashes at Calvary Catholic Cemetery, because of its scenic location near the University of Washington. But the cemetery's attorney recently sent Love a letter asking for \$100,000 a year for security, maintenance and repair, and threatening to cancel the purchase arrangements Love made earlier this year.

**Bon Jovi** keyboardist **David Bryan** has released his first solo album, "On A Full Moon," which draws from Bryan's work composing background music for the films "Conflict On Interest" and "The Netherworld." The LP features Bryan and keyboardist **Larry Fast** going through piano-driven instrumentals. "I have a part of me that's completely different from what I do onstage with Bon Jovi," Bryan says. "I thought it was about time to introduce that part of me in a totally different kind of music than what people would normally expect." Bryan says the album is "not straight-out classical, it's not jazz or new age, and it's definitely not rock & roll."

**Michael Stipe's** film production company is working on a movie from **Drew Barrymore** called "Frigid & Impotent." It's described as a romantic comedy about two serial killers who fall in love with each other. Stipe says he wants to make movies "that don't suck."

**Sting** and his wife **Trudie Styler** are expecting a fourth child at the end of this year. A spokeswoman for Sting's wife told Entertainment Weekly "she just loves children." The couple already have Mickey, Jake and Coco, ages 10, 9 and 4, respectively.

The Recording Industry Association of America says **Garth Brooks** has become the fourth-highest-selling artist of all time, with sales of over 52 million albums. Brooks ranks behind the **Beatles**, **Billy Joel** and the **Eagles**. Brooks is technically tied with **Barbra Streisand** but has sold more albums than Streisand in less time. Brooks also ties **Madonna** for having the best-selling greatest hits album of the decade, with sales of 6 million of "The Hits." The RIAA says **Pearl Jam's** "Ten" has become the best-selling debut album of the decade with sales of 9 million, and **Metallica** has gone triple platinum with its multi-video boxed set.

Lancaster, Pennsylvania, trio **Suddenly Tammy!** chose their name because of Tammy Faye Bakker, the wife of television evangelist Jim Bakker. **Beth Sorrentino** says that when a friend told her she should wear more makeup, she said she'd start to look like Bakker. The group doesn't have a guitarist, just a drummer and bass player. "Opera doesn't have electric guitars because it's opera," Sorrentino says. "We don't have electric guitars because we're Suddenly, Tammy! It's just our thing, it's not a gimmick. If we thought a guitar would sound good on a track, we'd use one."

After canceling the rest of its summer tour, **Pearl Jam** decided to un-cancel shows in Milwaukee and Chicago. The band is still slated to play July 8 and 9 in Milwaukee, in shows that sold out within hours. There's also a July 11 concert still taking place at Soldier Field in Chicago. A spokeswoman for the band said the last-minute changes were due to uncertainty over the health of vocalist **Eddie Vedder**, who became ill with a stomach virus in the middle of a San Francisco concert. "The band and management felt that given Eddie's physical condition, it was best for the band to take some time and regroup," she said. "After a couple of days he's starting to feel better and they decided to do those three shows."

SoundScan estimates that **Michael Jackson's** "HIStory" album sold 390,000 copies during its first week, less than half the 900,000 copies **Pearl Jam** sold in a week in 1993 with "Vs." **Guns N' Roses** sold a total of 1.4 million albums in 1991 when they released two LPs at once.

The **Connells** "Ring" album recently hit number one in Greece, thanks to the European success of "74-75," which just went platinum in Norway. The band's touring Europe, but with **Tim Harper** playing bass instead of **David Connell**. Connell's wife, Jennifer, underwent surgery last month to remove a malignant brain tumor. The surgery is said to have gone well, but Mrs. Connell will require further treatment to ensure no malignancy has remained.

A Florida folk singer has begun a letter-writing campaign to have guitarist **Gamble Rogers** and songwriter **Will McLean** added to the Florida Artist Hall of Fame. Doug Gauss is trying to persuade the Florida Arts Council to add the names, since they've recognized actor Burt Reynolds. "I've always had the feeling that they don't consider the folk arts legitimate art," Gauss says. "The whole concept of fame is kind of strange to me; obviously, a folk musician's never going to be famous in the way that Burt Reynolds is famous, but that doesn't mean (McLean's and Rogers') contribution shouldn't be recognized. They're at the top of their particular heap." Both McLean and Rogers are native Floridians. McLean wrote over 3,500 songs, some of them about the state's ecology. Rogers is a well-known songwriter who drowned in 1992 while trying to rescue a tourist from rough waves at an Atlantic coast beach. "There's no reason in my mind that both Will and Gamble shouldn't be acknowledged for the contributions for Florida's people, her natural beauty and so forth," Gauss says. "Will ran completely on emotion, and I think Gamble ran on almost as high a percentage on intellectualism. He crafted; Will was a man of passion. They had a high regard for one another, too, and I think they were both right." **Jimmy Buffett** credits Rogers with having been a strong early influence. "In all my years of traveling this state... I always think of one of Gamble's songs or stories," Buffett says. "They are as much a part of the landscape as the palmetto palms, Spanish moss or slash pine."

A federal judge has ruled the **Kingsmen** can recover ownership of masters of over a hundred songs including "Louie, Louie." The band went to court in California contending they had not been paid royalties (by Sceptor/Wand Records) over the past three decades. U.S. District Judge William Keller ruled that the record label breached its contract by failing to provide any accounting of royalties. The decision also releases the band from the contract it signed in the 1960s.

**Pearl Jam's** record label refused to let the band or its members get any credits on **Neil Young's** new "Mirror Ball" album. Young told the USA Today newspaper that he's learned a lot from recording and touring with Pearl Jam. "In some ways, Pearl Jam seems older than I am," Young told the newspaper. "There is a certain ancient wisdom in the way they fill the spaces and leave other spaces. It's not something they learned in this lifetime. In Pearl Jam, I have been given a great gift." Young adds that he decided not to participate in this year's Lollapalooza tour because he might be perceived as "the dinosaur coming into ruin it... They might as well get **Neil Diamond**."

In anticipation of the settlement of his lawsuit against his record label, **George Michael** has been in the studio for a couple of months and a new single should be ready for release in October.

**Aaron Neville's** new album, "The Tattooed Heart," features three country songs recorded in Nashville, where Neville is thinking of buying a second home. "For The Good Times," written by **Kris Kristofferson**, has already been released to country music radio stations. This is not Neville's first foray into country music. His "The Grand Tour" album of last year and the single of the title track, both charted country last year. The **Neville Brothers** are touring Europe this month before beginning U.S. dates that will continue through October. After the group tour, Neville plans a tour with **Linda Ronstadt** and a symphony orchestra, a country album, a spiritual album, a childrens' album, and a Christmas LP with Ronstadt.

The family of the late guitarist **Stevie Ray Vaughan** has reached a settlement in a lawsuit against the company operating the helicopter that crashed and killed Vaughan in 1990. The lawsuit had been filed by Vaughan's mother, Martha, and his brother, Jimmie, alleging that Ominiflight Helicopters of Dallas, Texas, was negligent in allowing an unqualified pilot to fly the helicopter. They also claimed the pilot was negligent because he took off in dense fog. Vaughan was killed along with the pilot and three associates of **Eric Clapton** when the helicopter crashed into a hill near Elkhorn, Wisconsin. A lawsuit involving the families of two other crash victims was settled in November 1992 for over \$2 million.

A British television network plans a three-hour show based on the love affair between the late **Freddie Mercury** of **Queen** and his boyfriend Jim Hutton. "This is a hell of a love story and it is a big gamble to take," says producer Mike Smith, who estimates the show will cost over \$3 million to make. "This is a homosexual love story but this is 1995 and if people can't cope with that then that is their problem not mine."

A New York judge has ruled that a small New Jersey record label can sell unreleased master tapes made by **Elvis Presley**, **Frank Sinatra**, **Bob Dylan**, **Hank Williams** and **Louis Armstrong**, among many others. Almost 3,000 reels of used tape which turned out to include over 20,000 tracks of performances by many artists, were sold to an employee of a Nashville, Tennessee, studio for \$6,000. A New Jersey bankruptcy court has given Clark Entertainment Group the right to sell the tapes, but no rights to release the material. Judge William Gindin found that Columbia Records lost its claim to ownership "when the tapes were originally sold or otherwise conveyed." Sony owns copyrights for about 30 percent of the recordings.

**Carnie Wilson**, formerly of **Wilson Phillips**, will host a syndicated talk show called "Carnie" beginning in September. The program will be produced in New York.

A survey conducted by the Center on Addiction and Substance Abuse, which is affiliated with Columbia University, concludes that two-thirds of adults and three-fourths of children believe popular culture encourages illegal drug use. Two thousand adults and 400 teens aged 12 to 17 were polled in early May. Center president Joseph Califano said popular culture may not cause drug abuse but said parents, movie, television and music producers should "examine what they can do to stop encouraging drug use among children."

**Elton John** has reportedly signed a deal with Disney to write a new version of Verdi's opera "Aida," because of the success of his "Lion King" soundtrack. "I don't know what kind of music I'm going to compose but it's going to be modern," John says.

**Johnny Mathis** has been inducted into the Wall of Fame at the Greek Theatre in Hollywood, California. **Santana** is among those previously honored for having sold a total of over 100,000 seats at the outdoor venue.

**Bobby Brown** has been charged with aggravated battery and disorderly conduct for allegedly getting into a fight in Orlando. Brown, his publicist and his bodyguard were all arrested after police said they got into a scuffle with a Chicago man. Brown is scheduled to be arraigned in July 18.

Attorneys for O.J. Simpson threatened legal action against a Denver radio station (KRFX) because of a billboard that promoted **Bad Company** with pictures of Simpson and Charles Manson. **Bad Company** drummer **Simon Kirke** quickly rushed out a statement saying the group condemns "attempts by O.J.'s attorneys to violate what we believe is the station's constitutional right."

The **Grateful Dead** canceled a second concert scheduled for the Deer Creek Music Center near Indianapolis after the first show saw a near-riot that involved as many as 4,000 fans and 200 law enforcement officials. Police contend fans who didn't have tickets began to throw rocks and bottles, then stormed a fence separating a parking lot from a lawn seating area. Authorities used pepper spray and teargas and arrested 17 people. Four of the police officers suffered minor injuries. "We have had a positive and enjoyable relationship with Deer Creek and the local community for a number years," said a statement issued by Dead tour manager Cameron Sears. "We sincerely regret that the actions of a few have interfered with that relationship. We particularly want to commend and show our support for the performance of the area law enforcement personnel last night. They displayed consummate professionalism and great restraint under difficult circumstances. The behavior of that group of unruly fans was absolutely unacceptable and we condemn it." One officer and one civilian were each bitten by police dogs and 15 police vehicles were damaged in the disturbance. Two golf carts were also overturned and set on fire. Earlier in the day, police had made 25 arrests on drug charges, using canine units to search for drugs and spot checking vehicles at the facility. Meanwhile, over a hundred people were injured when a wooden deck at a campground near St. Louis collapsed in the rain. Many of them were fans of the **Grateful Dead** who were staying at the Pine Woods campground about 40 miles from where the Dead were playing in St. Louis. About 30 people suffered serious injuries and four were in critical condition after the second-story deck collapsed, injuring both those standing on the deck and below it. "A group went underneath and a group was on top dancing in the rain or something," says Sergeant Jim Kaimann of the St. Charles County Sheriff's Department. "When they were dancing, the pavilion fell down on the people underneath."

**Black Sabbath's** new album "Forbidden" reunites founding member **Tony Iommi** with drummer **Cozy Powell** and bass player **Nell Murray**. The record was produced by **Ernie C.** of **Ice-T's** band **Body Count**, and Ice-T contributes vocals on the track "Illusion Of Power."

Movie producer Dawn Steel says **Michael Jackson's** decision to re-record lyrics to a song on his "HIStory" album is "too little, too late." She wants Jackson to recall all of the copies of the album that are in circulation because the record is "every bit as dangerous to the human soul as a faulty car is to the human body." "The images and words and sounds you create don't just go away," she says in a letter to the Los Angeles Times. "They are indelibly etched into our consciousness, the damage is done. Your public relations problem might go away, but how can I forgive you for teaching my child the word 'kike.' She might have made it all the way to 9 years old without hearing that word." The letter went on to suggest that Jackson was striking back at being sued by a teenager who alleged sexual molestation. "Could it be you are enraged by a young Jewish boy who 'sued you,' 'Jewed you' and 'kiked you?'" Steel's letter says. However, Randy Taraborrelli, the author of "Michael Jackson: The Magic and the Madness," wrote in the same newspaper that he's certain Jackson "is not a racist." Taraborrelli says Jackson shouldn't have to change the lyrics because "as an American, he should have complete freedom of expression."

A Saks Fifth Avenue store has filed a \$263,000 lawsuit against **Aretha Franklin** over unpaid bills. The county lawsuit indicates there are government liens totaling \$561,458 against Franklin's \$1 million home in Bloomfield Hills because of unpaid taxes. An attorney for Saks told the Royal Oak Daily Tribune newspaper that Franklin opened an account but didn't pay her bills.

Greek singer **Nana Mouskouri** has celebrated her first anniversary in the European Parliament.

The New York State Comptroller, trustee of \$106 million in Time-Warner stock, says an executive has told him the company is about to change its policy on offensive lyrics. H. Carl McCall, says Chairman Gerald Levin told him last month that Time Warner would do something in the next couple of weeks. New York owns 2.6 million of Time-Warner's 380 million outstanding shares of stock. "I was satisfied that they are aware of the problem and they are moving to deal with it," McCall says. "And if they don't, I will be prepared to take further action."

**Garth Brooks** has put the masters to "The Hits" album under his star on the Hollywood Walk of Fame, symbolically marking the end of sales of the record. It's the first time someone's been allowed to bury something under their star on the Walk of Fame.

R&B singer **Phyllis Hyman** was found dead in her Manhattan apartment just hours before she was scheduled to perform at the Apollo Theatre in Harlem. Hyman was 45.

The Feile Festival may not take place this year. The event is due to take place in Cork, Ireland, but local residents have opposed the festival. It's the second time organizers have run into problems. Originally, the festival was due to take place in County Kildare, but the Irish High Court prevented the event taking place on the grounds that planning permission had not been sought. Cork residents are likely to use similar reasoning to attempt to have the Feile stopped. If Feile does go ahead, it will feature such artists as **Stone Roses**, **Blur**, **Black Grape** and **The Prodigy**. **New Order** are, yet again, set to reissue new mixes of their back catalogue. "Blue Monday," remixed by **Hardfloor** and **Jam & Spoon**, will be released as a single via London on July 17. The single was originally supposed to be released only on the European mainland, but the high cost of imports has persuaded the band to give it a UK release. An album, *The Rest Of Now Order*, featuring remixes of tracks featured on *The Best Of New Order*, will follow on August 7. The band have commissioned twice as many remixes as will eventually make the final cut... **The Levellers** have confirmed that *Hope Street* will be their next single, available via China on July 31. Other tracks on the single are: "Miles Away," "Leave This Town," and "Busking On Hope Street." The Levellers will tour the UK in the fall. Elsewhere, the band have financed "The Book," a directory of groups opposed to the controversial Criminal Justice Bill... **U2** say they will play at a UN 50th Anniversary concert in December 1998. **Peter Gabriel** and **Jackson Browne** have also said they will perform at the event... **Echobelly** bassist **Alex Keyser** has left the band. The group have just completed their second album, which is due for release in September. They are currently seeking a replacement and describe the split as "amicable." Echobelly's next single *Great Things* b/w "Auntie" and "One Before 5am" will be released via Fauve on August 14... **The Boo Radleys**' next UK single will be *It's Lulu* b/w "This Is Not About Me" and "Tambo-Donkey." The band will tour the UK in October... **Pink Floyd** have given a rare interview to the UK rock monthly *Mojo*. In the interview, **Nick Mason** defends the decision to release a live album after also putting out a live set of the previous tour: "Someone said, 'Why not just call it The Inevitable Live Album, and be done with it?' One reason for it was that we did like *Dark Side* as an entity, it takes on a slightly different quality when it's played through as a continuous piece rather than recorded track by track in the studio. When we recorded it in 1972 I don't think we were conscious of the fact that the tempo remains so constant throughout. Live, you perhaps alter the dynamics a bit to get away with it. In the studio, you go for the perfect take. The other reason for it was that, to forestall bootlegs, we should do our own version and make a better job of it." **Dave Gilmour**, meanwhile, says the band will not accept tour sponsorship again: "We took sponsorship by Volkswagen for the first time on this last tour. I confess to not having thought it through entirely and I was uncomfortable with it. Meeting and greeting Volkswagen people. I was not a popular chappy with Volkswagen. I don't want them to be able to say they have a connection with Pink Floyd, that they're part of our success. We will not do it again. I don't like it and any money I made from it went to charity. We should remain proudly independent, that's my view, and we will in the future." *Pulse* (EMI) remains in the UK albums chart... **Dusty Springfield** says England is now her home again. Speaking to *Mojo*, the legendary singer comments: "Only Britain could produce Absolutely Fabulous. I haven't forgotten how I missed England. For now, this is where I am, but my restlessness will take me somewhere else. I don't know where. My life seems to take me where I'm meant to be, sometimes for disastrous episodes, but all of it necessary."... **Gregory Isaacs**, the reggae singer, has signed to Acid Jazz. His debut album for the label, *Private Lesson*, will be released in August... **Vivian Stanshell**'s last film appearance is captured in *The Changeling*, a low budget UK release

which was premiered at the Glastonbury Festival. **Billy Connolly**, **Ian Dury** and **John Cooper Clarke** also appear in the film. Based on a Jacobean tragedy by Thomas Middleton, the movie was directed by Marcus Thompson... **Bob Dylan** has broken **Carole King**'s arm. Dylan was performing in Dublin when he was joined onstage by King (as well as **Van Morrison** and **Elvis Costello**) to run through a version of Van The Man's "Real Real Gone." Unfortunately, attempting to give King a hug, Dylan succeeded in pushing the unfortunate singer/songwriter into the photographer's pit. However, the two are reported to still be friends... **David Bowie** has been designing wallpaper for Laura Ashley. his first effort is a 1950's geometric motif combined with a Lucien Freud nude...

**Iron Maiden** will return to UK live action in November. The band's new album will be released via EMI in September. It will be the first release to feature new singer **Blaze Bayley** (who replaced **Bruce Dickinson**). Bassist **Steven Harris** says: "This is obviously a very important album for us. When Bruce replaced Paul Dianno we were able to quietly go off to Italy to tour before going in to record *The Beast*. Now, it's impossible for Maiden to do anything quietly, so we spent a lot of time in rehearsal just playing, relaxing, getting the feel right. Everything went really well with Blaze from the word go; we knew him from touring together and I always loved his vocals. He was just very Maiden. It was no surprise that things gelled so well, but it was very satisfying."... **Sepultura** are about to begin work on a new album. The band are reported to have written half the material for the project already. In the interim, the group will release a long-form video *Third World Chaos* via Roadrunner on July 31... **Emperor's** frontman Ihsahn has been talking to **Metal Hammer** about the violence which as dogged the Norwegian death metal scene. **Emperor** drummer **Faust** is serving a prison sentence for murder and Ihsahn says: "Faust did it because the guy was a homosexual. He just came on to him and Faust got extremely pissed off and killed him. I suppose he may have overreacted, but Faust is one of my best friends since we started the band and he can get very aggressive. The thing is that it took over a year before he was even called in for questioning. No one knew about it. But some people did and the rumors spread and someone told the police. It was bad because he was an excellent drummer and an excellent friend. I still have contact with him, mostly by letter. He was sentenced for 14 years, but will serve eight and ten years of the term." **Emperor** guitarist **Samoth** is also in prison, for arson... **Gene** frontman **Martin Rossiter** has been talking to *Melody Maker* about his childhood. According to the singer: "I was beaten up several times (by other children). I used to be hit in the face until I cried. That was the purpose, to make me cry, to humiliate me. The fact that, when I walked home from school, I had around 12 or 13 routes I used, simply to lose people who were intent on kicking the shit out of me, I think speaks volumes about the kind of anxiety I suffered." **Kossiter** also talks about cross-dressing: "Cross-dressing was never beyond me and it has since been something I have indulged in. I mean, I am a bit of an exhibitionist, as I've already implied. The reason, though, has less to do with a love of women's clothing and almost everything to do with the fact that it's a great way to tell the world to fuck off. That sense of rallying against the norm and really pissing people off; that I find genuinely aphrodisiacal." **Gene's** latest single *Olympian* will be in stores next week... **OMD** are working on a new album at London's Townhouse Studios. The band are producing the project themselves... **Cast** have been recording at **Who** bassist's **John Entwistle**'s home studio. **Cast** are fronted by former La's man power. Apparently, Entwistle allows only bands he likes to record at his studio and does not even know his way around his own (massive) home. In an interview with *Melody Maker*, **Power** recalls how Entwistle showed him around the country house and showed him an airing cupboard! **Cast's** new single *Finetime* is available this week via Polydor.

## RECKLESS ERIC & JULIE HOYT CHANNEL Z/AUGUSTA

Hello and a big happy Independence Day to all! Hope you are seriously enjoying this holiday. We sure are here in Augusta, Georgia. Channel Z has been cranking out a Top 500 Countdown all weekend, and it sounds fantastic! We kicked it off by giving away a trip to see **Peter Murphy** and **Jewel** in Boston, thanks to Todd Elmore at Atlantic for that. The winner works at the Medical College of Georgia and was incredibly grateful for a chance to get of town for some fun. A big "hello" to James "Hurricane" Heathfield from Silverstone for dropping by the office to introduce himself and some fabulous new music. We all love the **Big Sugar**, by the way. Julie celebrated meeting a quarter of a century, though she prefers to just call it her 25th Birthday. She wants to thank everyone for all the cards and flowers. Phil at Pagan Music sent a killer plant. The office even chipped in for a cake and flowers. Julie spent the rest of the weekend in the bottom of a bottle pretending her birthday didn't bother her. She was a drag, but we love her anyway. Tomorrow, we will be giving away a trip to the Reading Festival, which should be insanely fun. We'll update you on that next week! Until then, have a great July 4th, and remember to throw the fire cracker away from your family!

## JOHN LENAC KTOZ/SPRINGFIELD

We really know how to host a great party in the Ozarks! This weekend's Top 500 Most Requested Songs Countdown had an unbelievable response. What was #1? Why **Nine Inch Nails'** "Closer", of course. What fly-away vacation were we qualifying listeners for during this incredible weekend? That would be a four day trip to Nashville to check out **Dionne Farris**, **The Dave Matthews Band**, **The Jayhawks**, **Wilco**, and **The Samples**. Who's responsible for making this weekend so successful? Well besides the jocks who loved working during the countdown, Joe Shuld, Jon Cohen and everyone at Columbia. Of course, we're still reeling from the three bands that played here for us last week! Man, it was so sad to see **Maids Of Gravity** and **God Lives Underwater** have to part ways after their last show together on this tour. Those guys became such great friends and played an incredible show together Thursday night at this way cool rock climbing gym in Springfield called Radz. We have to thank Jeanie from Virgin for bringing the Maids in and helping Julie to have the smoothest legs in town! **Baby Chaos** came by the studio before their Friday night gig. They sounded fantastic

and everyone at Jordan Creek was screaming for more. Thanks to Brian Landau and all at E.E.G. for the help. We also had a visit from Charlie Foster last week who had to see Bass Pro once more. Thanks Charlie for showing us such a great time! Well I think it's a holiday or something so we're taking the rest of the day off. (Not really) Later!

## BRUCE WARREN, WORLD CAFE/WXPN

World of music... Riddle me this batfreaks. What is **Ben Folds Five**? **Ben Folds** is **Elton John** ("Amoreena"), **Todd Rundgren** (think early **Todd**), **Billy Joel** ("Allentown"/"Summer Highland Falls"), **Badfinger**, punk rock **Cabaret/Tin Pan Alley** styled rock and roll (**Joel Grey** meets **Jerry Lee** meets slacker pop); **Queen**-esque vocal harmonies, a totally blissed drummer who rocks like **Gene Krupa** on Fruit Loops, a bassist who weaves intricate, fuzzed-out melodies in and out of Ben's piano powerchords, and showbiz galore. **Ben** may look like an indie-rock **Tommy Smothers**, but when he comes to your town we highly recommend a dose of his live show. Opening for **Sonia Dada** here in Philly, **Ben** and his trio had the crowd eating out of his hand (and we all know how well unknown opening bands usually do) and deservedly so... The man knows how to entertain! His awesome debut self-titled album drops in a couple of weeks on Passenger/Caroline. We suggest "Best Imitation of Myself" and my favorite "Philosophy." Go Ben go!!!!... Weasels everywhere are rushing into Philly to check out the unsigned **June Rich**. The majors are flocking to the little Grape Street Pub to see these girls strut their stuff, and boy is it hot... Early predication: Never Mind Blue Mountain here's the **Marshall Tucker Band**. Alteracountrypunkrock is over, but not as over as lounge. Next up: A serious bubble-gum revival (where are the 1910 Fruitgum Company when you need them?)... Congrats to our very own all-world David Dye who recently hosted his first In Their Own Words at the Bottom Line; Thanks to **Patty Larkin**, **Chris Smither**, **Susan Werner**, **Guy** and **Travis Clark**, and **Richie Havens** for their excellent show at the Public Radio Conference in Washington, DC... Heavy rotation: **Alanis Morissette**; **Abra Moore**; **Southern Culture on the Skids**; The Legendary Magic of **Julie Brown** (No. 6 Records); **The Rolling Hayseeds**; **New Colony Six**; Heartbreaker by **Free**; **Southern Culture On the Skids** - Dirt Track Date (major label debut, suckers!) **Jimmy Smith** - Damn!; **The Geraldine Fibbers**, and **Vanessa Daou**. Until next week. Don't forget to eat your Grapenuts...

## ERIN CARMEN, WONE/AKRON

High on life and ready to rock! The Akron Rib and Music Festival was a huge success! Five days of food, drink, and rock n'roll! **John Kay** and **Steppenwolf** put on a killer show Sunday night, and **Eddie Money** stopped by the WONE studios on Monday. Thanks to Cynthia Parson and Jason Oronzi at Wolfgang Records. A lot more in store this summer, including the WONE Beach Dig, and our Tenth Anniversary concert. The excitement is just beginning! Just for the record, I have to say that the new **Van Halen** album Balance is a beautiful piece of work! I'm doing A lot of "sucking up" so I can get the night off to see **Van Halen** Jul 18. (if you would like to support my efforts, call J.D. and put in a good word for me!) In case you haven't heard, my new music call hours are Wednesdays and Thursdays 3:30 - 5:30pm. Talk to you then!

## BRUCE McDONALD WHTG/ASBURY PARK

If you haven't heard already, our big station event for the summer is coming up on Friday, July 21st. Surfstock II is a mostly acoustic free beach concerts for our listeners starting at 2:00 pm at Joey Harrison's surf club on the beach in Ortley Beach NJ. Scheduled to perform: The (World Famous) **Smithereens**, **The Caufields**, **Fossil**, **Green Apple Quick Step**, and Hoboken's own the **Gefkens**. The second stage will feature the post modern stylings of **Everlounge**. We are still looking for a choice band or two to round up the bill. If you are interested in participating or attending, please give me or Rob Acampora a call. Two indie releases you should definitely be aware of. **Solution A.D.** from Stroudsburg, PA has a new six song ep, A Week There One Night. Produced by Chad Taylor of **Live**, **This disc is deep!** In particular, check out the current FM 106.3 Fave, "Fearless". Call media five at 610-954-8100 for your copy! Also noteworthy is the latest from the folks at Revelation Records, **The Sensefield**. "Found You" is a tasty slice of pop core perfection. That's all for now, surf's up!

## JULIE, WOXY/CINCINNATI

I would like to announce the winner of 97Xposure '95: **The Jayne Sachs Band** of Dayton Ohio. The final four played off this past Saturday night at Bogart's putting the finishing touches on over 3 months of 97Xposure '95. From the original 196 entries, **Jayne Sachs** bested the competition to become the first ever female-fronted band to take home the top honors. Thanks to all label folks who judged, contributed, and expressed interest in the

# industry comments

contest. And thanks to Karen Holmes of Virtually Alternative, who will be doing a (cover) story on **Jayne Sachs** and the contest. Thanks to all. See ya next year. The next big undertaking is the 97X site on the World Wide Web. The web's address is <http://www.woxy97x.com/> and even though there's nothing up there right now, our little piece of real-estate in cyberspace is reserved. We plan lots of great things, so those who are "connected" will want to check us out. Also, if you have any ideas, or insights as to what works, and what doesn't, I would be more happy to hear the details of your vast wisdom, tips, and anecdotes of the 'net. Lollapalooza is up and running for us. As of July 1, we will be running "Lollapalooza Minutes" at 11 and 4, a.m. and p.m. These will contain information on the various front-of-house events, news and information from other tour cities, news pulled off the web site, and information on on-line chats with artists. We have also added a "Lollapalooza" category to our regular rotation to spike in the artists and take advantage of the artists entire libraries as opposed to just the most-recent-but-not-quite-current albums. The week of the 10th through the 15th we will give away lawn tickets each day, and then three days before Lollapalooza hits town we will give away third row seats, two days out... second row, and the day before... front row. Then, day of, we will take our place at the front of house to host the event from the time the gates open until they threaten to throw us out. It will be a great day of radio, and a great couple of weeks leading up to it. Now on to the **H.O.R.D.E** Tour. For the most part, re-read the above paragraph and substitute **H.O.R.D.E** for Lollapalooza. 'Nuff said. Please send CD singles. We are stock piling them for the back to school rush when we meet and greet about 130,000 new and returning students to the area. We will accept contributions of compilation CDs and Cassettes too. The Modern Rock Auction is on the horizon. We've been harping on this for the better part of the year, but this fall it will happen. I will be getting in touch with you to request specific items, and Dave will also be doing some wheeling and dealing. And finally - still looking for bands that will represent the 'flavor' of 97X: Blues, Reggae, Local, Breaking Bands, Baby Bands... You get the idea. Please call Julie Maxwell or Dave Tellmann with your ideas.

## THE TINK, WVUD/WILMINGTON

Why hello there! Ahhh, the summer breezes means another active concert going period. Here's what's been happening with your Administer of Sinister in the past stretch 'O' time. Smitty & Cheryl were down for **Fight** and **KoRn**. Maria A. would be pleased

at the reception of the **X-Cops** and **The Organization**. **Brutal Juice** rocked. **Planet Hate** made a high **Energy** pass through town. Gotta thank Jon Nara for the **Sugar Ray** and **Ted Nugent** tix. Ted stood up bold as day and proclaimed "You missed me didn't you?" **Warrant** actually came to Wilmington, DE and liked it. Couldn't have made that night without some help from Mark Roper of CMC. Rounding out this musical melange was the Sunday S.L.A.M. (Support Local Artist Movement) which featured; **Orus Abolish**, **Cryptic Warning**, **Ego Demon**, **Clockwork** and **Sadistic Soul**. All that in the rockin' confines of Philly's Troc. There's just never enough shows to go to but I'm damn well gonna try and cover 'em all as sure as I am walking.

## CHUCKIE THE VERVE

VIRGIN RECORDS, 212-332-0421

The masters of **Trip Hop** are bringing their soundsystem to the USA clubs. Get involved! The shows will sell out. This is a target demo soundsystem to the USA clubs. Get involved! The shows will sell out. This is a target demo for your radio marketing staff. Check out this fall Virgin release schedule: **Whale**, **Geraldine Fibbers** (already on Q101), **Ben Harper**, **Lenny Kravitz**, **David Bowie**, **Means To End**, **The Music Of Joy Division**, **Smashing Pumpkins** and **Blur**. I am preparing my mind and body for great tours, sales and target audiences to market new Virgin music. Today my efforts rest in developing our new artist to radio and street: **Maids Of Gravity**, **The Verve**, **Massive Attack** and **Royal Trux**. Please get involved in developing a new Virgin artist today. Your listeners will love you too. You will own sold out target audiences, and play a role in breaking new credible, critically acclaimed artists that will have careers. It all starts with a test spin. I am off to California next week. I will actually swim in the pacific ocean again. I might go surfing, too. I traded surfing for the NYC subways and camel lights. Fair trade? I am confused. Whatever. I've built my life on the Ray-O-Vac.

## JONATHAN GREVATT

I.R.S., (212)-334-2173

**R.E.M.** has left NYC, Lollapalooza isn't coming for weeks, and **Michael Jackson** says he may be leaving the country. So if you're finding yourself hungry for some good live music, performed by bands who have not yet become "Buzz" clips, "Unplugged" specialists, or multi-million selling, jaded pseudo-artists...listen up for a promising return to rock. I'm writing to let you know two wonderful new bands will be converging on NYC on Thursday, July 6. **Gren**, whose debut LP, Camp Grenada was recently hailed as "ultra radio-friendly" and "you're sure to catch yourself singing (the songs) for hours," will be playing at Brownie's at 9 PM. The record was produced by Tim O'Heir at the now famous Fort Apache studios. These fellers promise to give you a taste of what drove fans into a moshing frenzy when the band was opening for the **Offspring**. (The good quotes on these guys are contained in the bio. Read and learn.) Also playing at CBGB's that same evening at 11 PM is **hHead**, who recently finished a fabulous tour with the **Go Go Dolls**. After spending quite a while on CMJ's top 50 with their album Jerk, the magazine said "the members of **hHead** are skilled musicians, and **Noah Mintz's** thunderous guitar work and impassioned vocals are the album's greatest strength." Does CMJ lie? I think not. That's the menu for the evening. Both bands are highly available for interviews, and the guest list is awaiting your name and hey, I'll even send you one or both cds if you haven't received them already. If you want to attend a show or speak to one of the bands please give me a call and I'll set it up faster than you can say "is that the *Friends* theme song again?"

## MICHELLE KRUPKIN

VANGUARD RECORDS, 310-451-5727

Well, I'm doing a premature dialogue because it's Friday June 30 and I'm off to the east coast to see my folks for the 4th. Unabomber, schmunabomber, LAX here I come. I leave knowing that **Peter Case's** "Torn Again" is heading for even bigger things. If we have the kind of action we did last week, well by golly, we'll be in the Triple A top twenty! To remind you, **Peter** is on tour as well, starting off July 7th in Seattle, July 8th in Portland. He'll be singing near you soon, with the additional good news that he is also joining the **John Prine** tour for some special performances. A special shout out to **Mary Ramirez** at WVBR for faxing me the calendar of great things happening back east. She knows where to go! See you after the fireworks!

**Blue Mountain** has taken AAA by storm with 5 Songs From Dog Days. "Blue Canoe" seems to be the hands-down favorite track from the sampler but you can expect much more with the arrival of the full CD next week. Give me a ring if you have an event/concert series which may be appropriate. TTFN.

God Bless America and four day weekends. Hope everyone enjoyed their time off, even if you were working Monday. Along with food, drinks, and fireworks, the fourth had one more thing to offer this year, **The Tea Party**. The Edges Of Twilight was in stores just in time for this year's festivities. The full length is going for adds this week, July 10/11. Try listening to this one with headphones, and see if you can hear all the different instruments that **The Tea Party**, used in this record. The single is "Fire In The Head," but there is more where that came from. Check out "The Bazaar," "Sister Awake," and "Turn the Lamp Down Low" and let the dark sounds of The Tea Party fill the airwaves.. **Queensryche** continues to tour south of the Mason-Dixon. They just wrapped up shows in VA, NC and GA. They are finally heading North, and will be in the tri-state area in a couple of weeks. **Type O Negative** is still on tour with them. "Someone Else?" is the new single and continues to pick up supporters. Try the full band version for something different on your playlist.. "Whatever Makes You Happy" is the debut release by **The Dwellers**. "Rocket Ride" is the first single. It has the hooks and it rocks. It could be for you and your listeners, so don't be left out. Give this one a listen. For those who don't have it yet, give us a buzz and we'll hook you up. We should have tour dates for both **The Dwellers** and **The Tea Party** soon. Until next week don't forget to keep in touch.

By the time you read this, you should have Death Is Just The Beginning III in your greedy little paws. You've got 38 tracks, 2 disks, and over 150 minutes of music, play them all!!! I mean it! This disk deserves all the attention in the world, once you hear it, I think you'll all agree...**Kataklysm** is #1 at WVUD, they're also touring with **Incantation**; call me if you want giveaways or to be on the guest list. **Pyogenesis** is #1 at WERG, check out "These Roads" if you haven't already. On deck: **Meshuggah** (yes, the full length), and **Mindrot**.

For those who do read my dialogues and noticed I've been mentioning tidbits about our new artist, **Shank**. Well, please note they added "456" to the end of their name. Therefore, their newly completed name is **Shank 456**. If you really have a need to

know why they lengthen their name, just call me and I'll tell ya. **Shank 456's** debut release, The Big Paycheck, will be heading your way, ready for adds on July 17th. **Fear Factory** is getting more and more spins every week. Their tour with **Megadeth, Korn** and **Flotsam & Jetsam** will be starting this week. Don't forget, my band is on first, get there early!! Call me for interviews. Word has it **Suffocation** will be heading out with **Crowbar** and **Shank 456**, I will have more details soon... **Machine Head** and **Downset's** tour starts July 19th in California. **Life Of Agony** and **Souls At Zero's** tour started July 5th in D.C....

**JILL CASTELLANO**  
VICTORY RECORDS, 312-666-8661

I wrote my first dialogue last week and already I lied to you!! In regards to my statement about not using add dates, that's not entirely true all of the time. It will depend on a few different things. That would have been more accurate. Like in this case for example, **Earth Crisis** and **Integrity** will be going for adds the 17th and 18th. Munsey is helping out on these so you can contact either of us. Interviews with these bands should be especially interesting to your listeners, obviously they have some very interesting views. Also these bands are touring so call and I will fax you dates. You must see them live. All retailers please call if you need posters, or stock!! We can also set up instores and live interviews at the venue. In case you aren't familiar with Victory, here are the vitals! We can be reached at the #'s above or at P.O. Box 146546 Chicago, IL 60614. Our roster includes **Earth Crisis, Integrity, Strife, Snapcase, Doughnuts, Guilt, Cause For Alarm, Warzone,** and **Hi Fi And The Roadrunners**. I look forward to talking soon!

**ROCKWORLD RECORDS, 212-996-2727**

All good things must come to an end. This will be my final dialogue for Rockworld. Unfortunately, Rockworld is putting many projects on hold for the time being which leaves me without much to work at radio, therefore I am being laid off. Yes, I am a little bummin'. People may think I'm crazy, but I actually enjoyed my job. In the meantime, I can be reached at (H)212-879-3011, anyone can feel free to call me there, I am looking for new job opportunities. You can still leave messages at the office for me as well. I am not being replaced by anybody, but if you need anything from Rockworld, Mike Wilson should be able to help you out. Thanks to everyone for their coolness, and especially to **Bad Seed** and **Sex, Love & Money** for the awesome music (Radio-just cause I'm not calling don't stop playing, it's great shit!). I will leave you for now with these words from my favorite philosopher, Nietzsche: "Have you ever said yes to a single joy? O my friends, then you said yes to all woe. All things are entangled, ensnared, enamored; if you ever wanted one thing twice-then you wanted all back. All anew, all eternally, all entangled, ensnared, enamored-oh, then you loved the world. Eternal ones, love it eternally and evermore; and to woe too, you say: go, but return! For all joys wants eternity." 'Til next time-eternal joy and peace.

**METAL BLADE RECORDS, 212-529-6198**

**Sacred Reich** signed to Metal Blade! New album early next year. **King Diamond King Diamond King Diamond**. I shouldn't have to say it three times. As Mistress of The Blade I command you to make The Spider's Lullaby top priority. No excuses, no exceptions. Don't expect to see a mind altering live show either unless you're showing your Mistress the proper respect now. "Moonlight" and "From The Other Side" should be spun now. Don't say a word! I didn't tell you to speak! **The Organization** had to return home prematurely but will return soon. Certain dates still stand so call for info. "Doomsday Eve" is the track you'll play. **Beats The Hell Out Of Me** (or you if you don't listen up) are supporting **X-Cops** in California and then headlining a national club tour. "Track" is a great song so don't make me repeat myself. It makes me so angry. **X-Cops** are coming for you so you best be on the ball with You Have The Right To Remain Silent. I'm not responsible for their actions toward disobedient DJ's. **Grip Inc.** supporting **Morbid Angel** throughout July and August. Betcha wanna go and chat with Dave, eh? Guess what ya gat-

ta do..."Innate Affiction" is your ticket. **Broken Hope** back on the road soon. Milwaukee Metalfest: **Broken Hope, Six Feet Under, The Organization, Generation, Thought Industry** and ME! You're dismissed.

The 4th of July is a funny holiday, it's just an excuse to drink a lot and blow up things, which makes it very much like other holidays except on holidays like Christmas it's not appropriate to blow up ten M-80's in your background. Anyway, my 4th was cool! I spent it in Bryant Park, NYC...Q104 put on a free concert. I just wished Earache could have gotten **Misery Loves Co.** on the bill. Have no fear, Misery will be here soon. Keep playing them. **Extreme Noise Terror** is on the road for another month, don't miss them. New **Fudge Tunnel!** **Coalesce...**and **Silencer** soon..please respond 212-343-9090 or email: Earacherec@aol.com. Seeya.

With the all - American respite behind us, it's time to march boldly into the future (or at least July). Dear AAA, we just moved the release of the Michael McDermott album back to January, to give us more set-up time. You will be hearing plenty from us about this project through the fall. **Sinead** kicked off her way high profile Lollapalooza stint in Washington state on the 4th. Make sure you see this show. Johnathan Shapiro of the UN caught her performance at Glastonbury (thanks to Brian and Phil at Capitol for footing the bill), and was impressed. Call him up and he'll tell you more. While you're at it remind him to send back the advance copy of the Pulp Fiction video we lent him. Guru's Jazzmatazz Volume 2 will arrive at Alternative and AAA on or about July 18th. We will chase official, real airplay on this swell album in August. Highly sought after **Gregory Gray** singles should start arriving by July 19th. Remember, "The Pope Does Not Smoke Dope". If you don't believe us ask Les Aaron and Steve Masters. To trumpet the release of the new **Pet Shop Boys** b-side comp Alternative (which arrives on August 18th), we will be setting up **PSB** weekends. If you want to be involved, give us a call. the rebirth of **Moist's** "Push" continues as airplay was spotted this week at 99X, WZRH, WXWX, CKEY, CFNY and WMMS this week. This one feels mighty real to us.

**Testament Live** at The Fillmore will be in your hands in the next week. The record goes for adds July 17th and 18th. This live album contains **Testament** classics recorded live, the way you were meant to hear them. It also included bonus acoustic tracks recorded at an American Indian benefit in NYC. Tour dates to follow soon!! **TAD** continue on the road with **Clutch!** This is one show that you do not want to miss!!

In the news... I hope all of you lucky enough to be in the path being trailblazed by **Tiamat** (out with **Sabbath** and **Motorhead**) are showing up to relish in their wonderful sounds. Don't forget to wear your mood rings! A limited amount of tour EP's were sent out so spin 'em if you got 'em. The industrial-ridden mess that is the **Strapping Young Lad** album is some of the most spastic ear candy of the summer. Lap it up! Our **Royal Lunatic** on the **Fringe Devin Townsend** is available for interviews. Your **Iced Earth** supporters rule my world. A big Dio salute to you all! From all reports **Nevermore**, presently on the Death tour, are going over not like a lead zeppelin, but more like a raging fit of metallic splendor (!). Call me with reports. I'll be at the Milwaukee Metalfest so make sure to stop by the CMR booth and hassle me. **Stuck Mojo**, **Grief**, and **Demolition Hammer** are set to play out. Up 'n coming: the godly **Moonspell** in late summer (just you wait...), and Boston mosh-core 454 Big Block (add 7/24 and 25). Drop me a line if you haven't already!!

Yo, it's time to peep out a shout to some of my crazy fresh homies... Chuck from Immortal, Jonathan at Epitaph, Yigal, X-Man and Posse from Interscope, Jeremy at Mercury, Everitt from World Domination, Craig at Zoo, Greg from Album Network, yo, y'all know who you is!
