WASHINGTON THIS WEEK

After approving the settlement agreement for RKO's KHJ-TV Los Angeles and WHBQ Memphis the FCC noted that settlement agreements for WGMS AM/FM Bethesda-Washington DC, and WRKO/WROR Boston are still pending commission action.

ELSEWHERE

The sale of WPBD in Atlanta, GA to Jefferson-Pilot, owner of WQXI AM/FM has been called off. An article appearing in the Atlantic Constitution reports that at least 14 liens have been filed in Fulton County Superior Court by companies that have helped build the station. Jefferson-Pilot is seeking the return of \$150,000 it paid in earnest money on the deal. It is not known if WQXI will now hold off on selling WQXI AM as had been the plan.

WASHINGTON THIS WEEK

Applications to extend broadcast construction permits or to replace expired permits should now be filed on FCC form 307. The new form replaces form 701.

The FCC has reaffirmed that applicants for construction permits, transfer and assignments are required to provide a brief narrative description of their proposed programming service.

The commission has established an "FCC Reference Room Executive" who will serve as an ombudsman for the Washington D.C. reference rooms. The position will rotate every 60 days, the first lucky "RRE" will be Alan McKie, Deputy Managing Director.

WASHINGTON THIS WEEK

The FCC has denied the renewal applications of KUKQ and KUPD-FM, Tempe, AZ and granted the competing application of Grimm & Gliggord for a CP on the same frequencies.

RKO General, Inc. has gained approval of the settlement agreement for WGMS AM/FM, Bethesda/Washington. The stations will go to Classical Acquisition Partnership for \$33,885,000. Only \$23,525,000 will go to RKO, the rest to be split between other competing applicants. As part of the approval Classical Acquisition will be granted a temporary waiver of the duopoly rules to allow up to 12 months for the sale of WCEM, Cambridge, MD.

WASHINGTON THIS WEEK

The new U.S. Army stations authorized will be KIFH, Fort Hood, TX, on 89.9 MHz with 40(h) w at 33 ft and KNTC, Fort Irwin, CA, on 88.5 MHz with 50(h)w at 49 ft. Both stations will program information and educational programs.

The FCC has issued a filling window for Mamou, LA. The window opens Sep. 13 and closes Oct. 12.

The Technical and Allocations Subgroup of the Advisory Committee on Radio will hold a joint meeting September 8th at 1:30 in the McCollough Room of the NAB at 1771 N Street, N.W., Washington, D.C. The Agenda will include: Use of the extended AM Band (1605-1705 KHz), Methods for improving AM Radio Broadcast service and FM allocations, with reference to the use of directional antennas, Class A upgrades, creation of a class C3, and FM translators. The meeting is open to the public and all interested persons are invited to participate.
