UT new	Beaver	add 104.7 C2
--------	--------	--------------

WASHINGTON THIS WEEK

The FCC has upheld the Mass Media Bureau in the dismissal of Rebecca Radio of Idaho and Q Prime, Inc. for a new FM at Blackfoot, ID. The applications were dismissed because of inconsistencies in their geographic coordinates and pursuant to the Commission's "hard look" policy for accepting FM applications.

WFBR Baltimore has been found deficient in its EEO performance. As part of the stations license renewal it will have to file periodic progress reports with the FCC on EEO activities. WFBR was recently sold to JAG Communications who will be responsible for the reporting.

WASHINGTON THIS WEEK

The FCC has conditionally granted the assignment of WFAN (now WUKQ) New York City, from Emmis Broadcasting to Spanish Broadcasting System. They also granted Spanish a temporary waiver of the duopoly rules as they still own WSKQ Newark.

ELSEWHERE

Jones Intercable has announced a new talk service for its Galactic Radio cable service. The new service will carry WCCO in Minneapolis, KSJN also Minneapolis and KOA from Denver. The announcement did not make clear whether parts of each station are all off the three will be used.

WASHINGTON THIS WEEK

The FCC in four separate actions proposed changes in its rules to facilitate enhancement of nighttime AM operations. Stations involved are in Class II, III, II-S, and III-S. The commission is looking into improved methods of calculating skywave and groundwave field strength. The FCC will also review the methods used to calculate nighttime protection for AM stations.

Joanne Brehm's request for reconsideration of her application for a new FM station at Apalachicola has been denied. Her application was deemed not sufficient for tender.

The Commission has upheld a review board decision granting the application of Hampshire County Broadcasting Co. for a new FM at Amherst, MA. The application of Amherst Broadcasting, Inc. has been denied.

The FCC was closed on Monday October 10th in observance of Columbus day.

KUEZ	Lufkin	to 99.3 C2 from A

WASHINGTON THIS WEEK

The FCC has approved the sale of KQHU-FM at Yankton, SD to Flagship Communications, Inc. Last June the FCC ordered Oyate, Inc. the current licensee to show cause why its license should not be revoked. As a stipulation of the sale Oyate, Inc. can not benefit from the sale.

As you can see from the size of this weeks M Street it was a slow week at the FCC. All releases are included from the previous week.

ELSEWHERE

Technical problems delayed this weeks edition. We should be back on schedule with the next issue.

WASHINGTON THIS WEEK

The FCC has issued a policy statement reducing the scope and applicability of the cross-interest policy and has modified the Radio Duopoly Rule. Both are longer than we can reprint here but are worth reading.

ELSEWHERE

A correction to last weeks MSJ, under "New stations, applications" it is the 101.5 in Meredith and not the 107.9 in Laughlin that had been previously granted.
