WASHINGTON THIS WEEK

The Commission has proposed implementing a random lottery procedure as an alternative to the comparative hearing process in selecting new licensees for AM, FM and TV stations. The lottery processes is already in use for low-power TV selection.

The FCC has stayed the establishment of a window for 96.9 A at Dry Ridge, KY. In the same action the Commission denied LM Communications, Inc. request for deletion of the allotment at Dry Ridge. The window had been January 30th to March 1st.

In a declaratory ruling the Commission has clarified that, regardless of channel type, preference will be given to former daytime only AM stations with secondary status authorizations to operate at night in comparative hearings for new FM allotments.

M Street

If you notice format changes in your area please let us know! You can phone us at (703)684-3622 or write to us at PO Box 3568, Alexandria, VA, 22302. We do our best to cover the country and Canada, with your help we can do even better.

Should you need radio station mailing labels we have them available. You can select stations by format, state, zip, markets or just about any way you can think of. Prices are very reasonable and turn around time is fast.

WASHINGTON THIS WEEK

The FCC denied Double Eagle a request for reconsideration and motion to stay concerning the Report and Order allotting 92.3 A to Roland, OK. Eagle's counterproposal to substitute 92.5 C2 for 92.5 A at Heavener, OK, was denied.

The application of Royce International Broadcasting for KWOD, Sacramento, CA, has been renewed. The competing application of Wong Communications, LP has been denied.

The FCC's Miami office has moved to the Rochester Building, Room 310, 8390 N.W. 53rd Street, Miami, FL, 33166. The new phone number is (305)592-0399, hours are 8:00 am to 4:30 pm.

M STREET

We are putting together a test of M Street by fax machine, if you would like to be part of the test please give Dave Brazier a call at our west coast office, 800 522-7626. The fee is no charge for the test.

--------	-------------------	-----------------------------

WASHINGTON THIS WEEK

The United States Court of Appeals for the District of Columbia Circuit has upheld the FCC's decision to eliminate the fairness doctrine.

High Country Broadcasting has been ordered to forfeit \$5,000 for twice engaging in unauthorized transfer of control of KIRM-FM and for not failing to file timely copies of network affiliation and ownership agreements.

The FCC has conditionally renewed the licenses of WGBR and WEQR at Goldsboro, NC, for a short-term and subject to periodic reporting conditions. The Commission also notified the licensee, Eastern Carolina Broadcasting Co., Inc. of an apparent liability of \$7,000 for its repeated failure to comply with the commission's affirmative action provisions set forth in the rules.

M Street

One more reminder that we are looking for people interested in a test of M-Street by fax. There will be no extra charge. If enough people are interested we will begin the test soon. If you are interested please give Dave Brazier a call at 800-522-7626.

KPEZ	Austin	to 102.3 C2 from A

WASHINGTON THIS WEEK

The renewal of Catootin Broadcasting Corp.'s licence to operate WBUZ, Fredonia, NY, has been denied. The FCC found the licensee to have violated EEO rules, failed to conduct a contest as advertised, and misrepresented to the FCC details concerning its public file.

The FCC has proposed new rules and procedures to reduce interference between AM stations. The Commission has proposed allowing stations to reduce their protected contours through power reduction, antenna reconfiguration, reduction of tower height, changing transmitter location or by going dark. Under current rules a station can give back their licence, but the parameters are protected for one year while the FCC accepts applications for a replacement station. Secondly the FCC is proposing to accept contingent applications from AM stations seeking to implement interference reduction agreements. The third item proposed is the establishment of a "service floor" to be used when analyzing AM modification proposals.

The Commission has revised its intermediate frequency minimum distance separation requirements for all classes of FM stations. This is the last of a number of proposed technical rule revisions that became necessary by the creation of three new station classes.

The application of David W. Freeman, Sr., et al., to move WKLG, Rock Harbor, FL, from 102.3 A to 102.1 C2 has been approved over the objections of Tampa Bay Broadcasting, Inc.

103.7 C2 and 99.7 C2 have been allotted to Vero Beach, FL, over the objections of Treasure Coast Media, Inc.

The Commission has affirmed a Review Board decision dismissing the application of Long Island Music Broadcasting Corp. for a new FM at Bay Shore, NY.

The FCC announced a few personnel changes. David Siddall has been named Acting Assistant Chief, Law. Jonathan David will retire after 27 years at the FCC, he currently serves as Chief of the Mass Media Bureau's International Negotiations Group. Also to retire is Wilson La Follette, he had been Assistant Chief in the Mass Media Bureau's Policy and Rules Division.

The NAB has asked the FCC to adopt a rulemaking to consider "non-applicant buyouts" in comparative new AM, FM and TV procedures.
