

# *Classical Radio Guide*

Prepared by the WFMT  
Fine Arts Network  
December 1985

---

*Commemorating Ten Years  
of Nationwide Broadcasts of the  
Chicago Symphony Orchestra*

---

Compliments of Amoco Corporation

This Guide has been prepared to assist you in locating the numerous radio stations throughout the United States which play classical music. Please be aware that the criterion for selection for this listing was any station which played two or more hours of such music each week.

The Guide was prepared by using the *Broadcasting/Cablecasting Yearbook, 1985*, and the *FM Atlas and Station Directory, Ninth Edition*, as well as WFMT's contacts with over 400 of the listed stations. Every attempt has been made to obtain the most reliable information, but neither WFMT nor Amoco can be responsible for any omissions or errors.

Stations carrying the Chicago Symphony Orchestra broadcasts are indicated by asterisks and day and time of the broadcast is shown.

If you have any questions or comments regarding the Guide, please write to Mr. Dean Grier, Director of Syndication, WFMT, Inc., 303 East Wacker Drive, Chicago, Illinois 60601.

FM frequencies 88 to 108  
AM frequencies 540 to 1600
