FAMILY RESEARCH COUNCIL A POWERFUL FORCE IN WASHINGTON, D.C.

FRC is actively involved in bills affecting family tax credits, family planning programs, pornography, Americans with disabilities, abortion and child care.

The merger in 1989 of the "Family Research Council" with FOCUS ON THE FAMILY has created a powerful force in our nation's capitol. Gary Bauer, former Domestic Policy Advisor to former President Ronald Reagan, is president of the "Family Research Council" arm of FOCUS ON THE FAMILY.

The work of the Council is crucial in reaching the American people in bringing about change in future policy affecting pro-family issues. As such, it is also a vital source of information for the "Family News in Focus" feature stories and for other programs prepared for FOCUS ON THE FAMILY release.

The Council works actively with other pro-family organizations on both a federal and state level. In Washington, the FRC is a member of a task force that meets regularly with the Under Secretary of Education to promote free choice in education. The FRC has also developed a task force on judicial selection. In consultation with attorneys familiar with the appointment

process, the FRC has formed a low-key advisory group to provide pro-family input on the selection of federal judges.

Gary L. Bauer, President of the Family Research Council, Inc., and Vice President of FOCUS ON THE FAMILY.

One of the major goals of the FRC is to become a credible voice in the media for the pro-family movement. It has devoted a significant amount of its time during the past year to strengthening ties with the media. In so doing, the organization has successfully represented their position in major newspapers ranging from the Washington Post and New York Times to USA Today, as well as on television news programs such as ABC's "Nightline."

For information on "Family News in Focus," contact Ambassador Advertising Agency.

Gary L. Bauer

Prior to appointment as Assistant to President Reagan for Policy Development and Director of the Office of Policy Development in the White House in October, 1988, Gary Bauer served as Under Secretary of the U.S. Department of Education. As Under Secretary, Mr. Bauer was responsible for the day-to-day operation of the Department.

Mr. Bauer served in the Reagan-Bush campaign as a Senior Policy Analyst and worked in the Office of the President-Elect as Assistant Director for Policy/Community Service Administration.

In June, 1986, Gary Bauer was named Chairman of President Reagan's Special Working Group on the Family. His report, "The Family: Preserving America's Future" was presented to President Reagan in December, 1986.

In 1968, he received his Bachelor of Arts degree from Georgetown College in Georgetown, Kentucky, and Juris Doctorate from Georgetown Law School, Washington, D.C., in 1973.

FAMILY FACTS: FOCUS ON THE FAMILY headquarters in Pomona, California, receives 50,000 letters weekly covering a broad range of family issues and concerns about family policy. ◆ "Focus on the Family" magazine is received by 1.7 million households nationwide. ◆ "Citizen" magazine reaches 220,000 households. ◆ The "Washington Watch" newsletter goes to 41,000 households.

*Now, "Issues of Life" can be heard Monday through Friday
from 2:00 to 3:00 p.m. (PT) via satellite on Ambassador Inspirational Radio*

John Jolliffe is a licensed therapist with a thriving Southern California practice. His diverse background and education give him a unique, integrated perspective that enables him to help callers look past specific problems to the deeper issues that shape their lives. That's the distinctive difference between typical talk counseling and John's refreshing "talk therapy."

John has also developed a well-rounded series of educational audio tapes and presents periodic seminars typically attended by as many as 1,000 people.

The "Issues of Life" broadcast contains nine commercial minutes for local sponsorship and is available by calling (213) 595-8466.

"Issues of Life" is a highly popular talk show that is consistently sold out. Ratings are unusually strong. It's a striking programming alternative to other daytime options, including counseling broadcasts."

WHAT ARE OUR STANDARDS?

by Jeffrey E. Tobin*

How often have I heard; "Gee, that's not bad - for Christian radio." There is little which gets my dander up as much as a Christian broadcaster who thinks that Christian radio is doing well if it sounds only half as good as secular radio. While we cannot alone save the world, we can at least save ourselves from belittling a medium which *can* change the world.

Set your sights on being better than secular radio! The rest of the radio world should look to you for leadership, enthusiasm, and quality. *CBN Radio demands quality, and CBN affiliates are among those who strive to offer the best. But all too often I find*

that the limits reached by many are self-imposed. It is as if we don't even expect ourselves to achieve the goals and ideals which we hold so dear.

Being Christian does not mean that we must be weak and ineffective. It means that we, more than anyone, are obligated to lead, not follow: to set the pace, not tag along. I urge you to be as Jesus is - bold, strong, serving, and unswerving. Give yourself the challenge of leading your community to the truth. *Wait for no one. Begin now.*

*Jeff Tobin's feature article comes to us from Tobin Communications, Hermitage, Pa.

Have you heard the old saying, "March comes in like a lion..."? Well, look for next month's issue of Watt's New. Beginning with our March issue, we will be taking a *bold new* interest in you! *We want to hear about your station; your accomplishments, sales tips that can be beneficial to other stations, promotional events that made you shine in your market, people at your station who deserve recognition, goals set and achieved, and sales success stories!* Whatever information YOU think would benefit other Watt's New stations across the country. That's WATT we want to hear! Don't hide your light under a bushel any longer! Write, FAX, or phone in your HOT TIPS today! We aim to be the best source of Networking this side of the Satellite.
