INTRODUCTION.

THE reception awarded the first edition of N. W. AYER & SON'S NEWSPAPER ANNUAL justified the belief entertained by them that there was room for a newspaper directory, which, while it should give all the information that an advertiser could desire in order to make a judicious selection of mediums suited to his purpose, should at the same time exclude such matter as is irrelevant; one, too, which should be thoroughly impartial in its statements, owning no preferences nor prejudices, aiming continually at publishing the truth, so far as it could be ascertained; in short, an accurate, reliable, and thorough guide, just to publishers, serviceable to advertisers, and a credit to its compilers: its primary object—a business guide for business men—rather than an advertisement for the house from which it emanated.

How well we have succeeded in our efforts to produce such a work, the hundreds of testimonials from newspaper publishers, advertisers, and others abundantly testify. Attention is called to a few of these, printed on the following pages; the list could easily be supplemented by over one thousand others, but it is sufficient to show the generally high estimate placed upon the work by those qualified by experience to pronounce judgment upon it.

Anxious to maintain the good opinions elicited by the former edition, and to deserve yet higher praise, great care has been taken in the revision and production of the edition for 1881, and many improvements have been made in it. All the features of 1880 have been retained, and such others added as, in the light of our own experience, or from the suggestions of others, have been deemed advisable.

GEOGRAPHICAL ARRANGEMENT.

The arrangement of the States by geographical sections, a leading feature of the first edition, has been continued. Speaking of this plan, the *Christian Advocate*, of Buffalo, N. Y., says: "Grouping the different States of the country into sections, the advertiser can easily turn to that region to which his business actually belongs, and readily determine what it is his interest to do." The Storrs, Harrison Co., nurserymen and florists, Painesville, Ohio, say: "The geographical arrangement of States and Territories is an innovation that especially merits commendation, and cannot fail to be appreciated by the advertising public." The H. A. Pitts' Sons Mfg. Co., of Chicago, Illinois, write: "Your geographical arrangement of the States makes it a book of ready reference, the information so easily accessible that an advertiser can post himself in a very short time so as to know to a certainty how and where to place his advertisements to the best possible advantage." The manager of the Land Department of the St. Louis and San Francisco Railway Company, says: "Your method of arranging the sections geographically is a very great saving of time and labor in making up advertising lists;" and so on through a large number.

For those, however, who prefer the alphabetical arrangement generally adopted in works of this class, the alphabetical index, running head-lines, and title-pages, afford ample means for ready reference.

STATISTICAL INFORMATION.

The most important addition to the present volume will be found in that part of the work arranged by counties, and consists of a very carefully prepared description of every county in the United States, giving the location, area, character of the surface and soil, the chief products and leading manufactures, county-seat, population, etc. Advertisers of specialties, by examining these descriptive headings, can readily determine which counties are likely to prove remunerative territory, and so adjust their outlay as to ensure the greatest return for their money. A similar description is also given of each State and Territory in the United States, and of each Province in the Dominion of Canada. The county descriptions have been omitted in Canada in this edition, owing to the difficulty of obtaining satisfactory information. In agricultural products, the most important crops are placed first, but the manufactures have been arranged in alphabetical order, as their relative importance could not be ascertained by counties. In the State descriptions, however, manufactures are placed in the order of the value of their products, as determined by the census of 1870. We believe this will prove to be a very important and useful addition to the book, and shall be glad to receive such information as will tend to still farther enhance its value.

POPULATIONS.

United States populations given in this edition are almost exclusively taken from the official bulletins of the Census Bureau. All State, Territorial, and County populations, with the single exception of New Mexico (which has not yet been published), are derived from that source, as are also those of all the larger cities and towns, and a very large proportion of smaller places. In a few States no reports of civil divisions smaller than counties have yet been issued from the Census office, and in such cases the populations given are the same as those reported in the previous edition of this work, and which are believed to have been copied from the reports filed by supervisors in the several District Courts. All such are marked "est." (estimated); all not so designated are official. In the far West, South, and Southwest, where definite statements could not be obtained, and where the population is of more or less recent or rapid growth, no figures have been given. Wherever it was possible to do so, the population is stated of the place itself; but there are many instances in which the figures represent that of the next larger civil division. These civil divisions are known by various names in different parts of the country. In some States they are called townships, in others towns, hundreds, precincts, beats, school districts, military districts, etc. We have uniformly designated all such as *townships* (twp.) In the Southern States, in Missouri, and several counties of Kansas, the colored population has been noted, but is in every instance included in the population of the State or county. On the Pacific slope the number of Chinese is also given, more as an item of interest than in anticipation of any special value. Populations in Canada are from the census of 1871; the census of 1881 having not yet been published.

The political majorities are those of the presidential election of 1880. We have stated the Greenback vote in all cases where it has been reported. The number of papers advocating the principles of this party is steadily increasing in some sections, and the announcement of the vote in each State and county may not be without interest or value to some.

CIRCULATIONS.

For remarks on this subject, see page 8.

There are several instances in which we have been unable to obtain definite information in regard to papers, and the fact of their existence is one of doubt. In such cases the words "Publication doubtful" follow the name of the paper. In other instances we have received late information of the establishment of papers, but have not succeeded in getting reports or copies of them in time, and have therefore added the words "No information."

Among other improvements in this edition, may be enumerated the distinguishing the several editions of a paper by copious references, and a better system of paging and foot-notes.

In presenting the edition of 1881, we desire to say that we have endeavored to give to the advertising public a work which shall meet every want, unburdened by useless detail, containing solid and valuable information, simply arranged, readily referred to, easily understood, fresh, accurate, and trustworthy, and believe that we have, in a great measure, succeeded. Conscious, however, of the constant liability to error in works of this description, we solicit the co-operation of all who use it, in our efforts to make each succeeding edition nearer perfect and more valuable, by calling our attention to any inaccuracies or deficiencies that may come to their notice through examination or use of the present one.

American Newspaper Annual for 1880.*

WHAT NEWSPAPER PUBLISHERS SAY.

From The Evening Journal, Chicago, Ill.

It is well that a new firm has taken hold of this newspaper directory business, as the old book upon which all publishers and advertisers have leaned hitherto was very imperfect, and succeeded in eliciting as many exclamations of condemnation as of praise. We are glad to say that the volume before us is a vast improvement upon that which has been; and as the projectors of this new enterprise promise to take the present volume as only a starting point, and from it to go on unto perfection, we shall undoubtedly in a few years have a newspaper directory which will be all that is wanted or needed by the public.

From The Religious Herald, Richmond, Va.

The classification of the different papers is admirable, and the entire contents have been arranged with respect to their usefulness to the advertiser.

From The Daily Gazette, St. Joseph, Mo.

Foremost among the newspaper directories is the volume issued by N. W. Ayer & Son. Their ANNUAL for 1880 is perhaps the most complete directory ever published. It contains, besides a full catalogue of American publications, all information concerning their character, age, rates, and the like, that advertisers could wish.

From The American, Nashville, Tenn.

N. W. Ayer & Son have supplied us with the latest and most complete directory of all newspapers and periodicals published in the United States and Canada. Its quotation of the circulation of the various papers is, so far as we are able to judge, given without partiality, and much more truthfully than in many similar publications. The publishers are painstaking and prompt business men, and their Book of Newspapers shows that they carry their industry and fairness into all their undertakings.

From The Times, Kansas City, Mo.

Of the newspaper directories published during the present year, none is more complete and reliable than that of N. W. Ayer & Son; in fact, we consider it the standard publication of the kind. It is the only newspaper directory we have ever seen that gives anything like an approximation to the number of newspapers printed in Missouri. We take this little detail as a fair indication of the care and accuracy with which the book has been compiled. Altogether the work is of cosmopolitan value, and its vast mine of information makes it indispensable alike to the journalist, the scholar, the politician, and the business man.

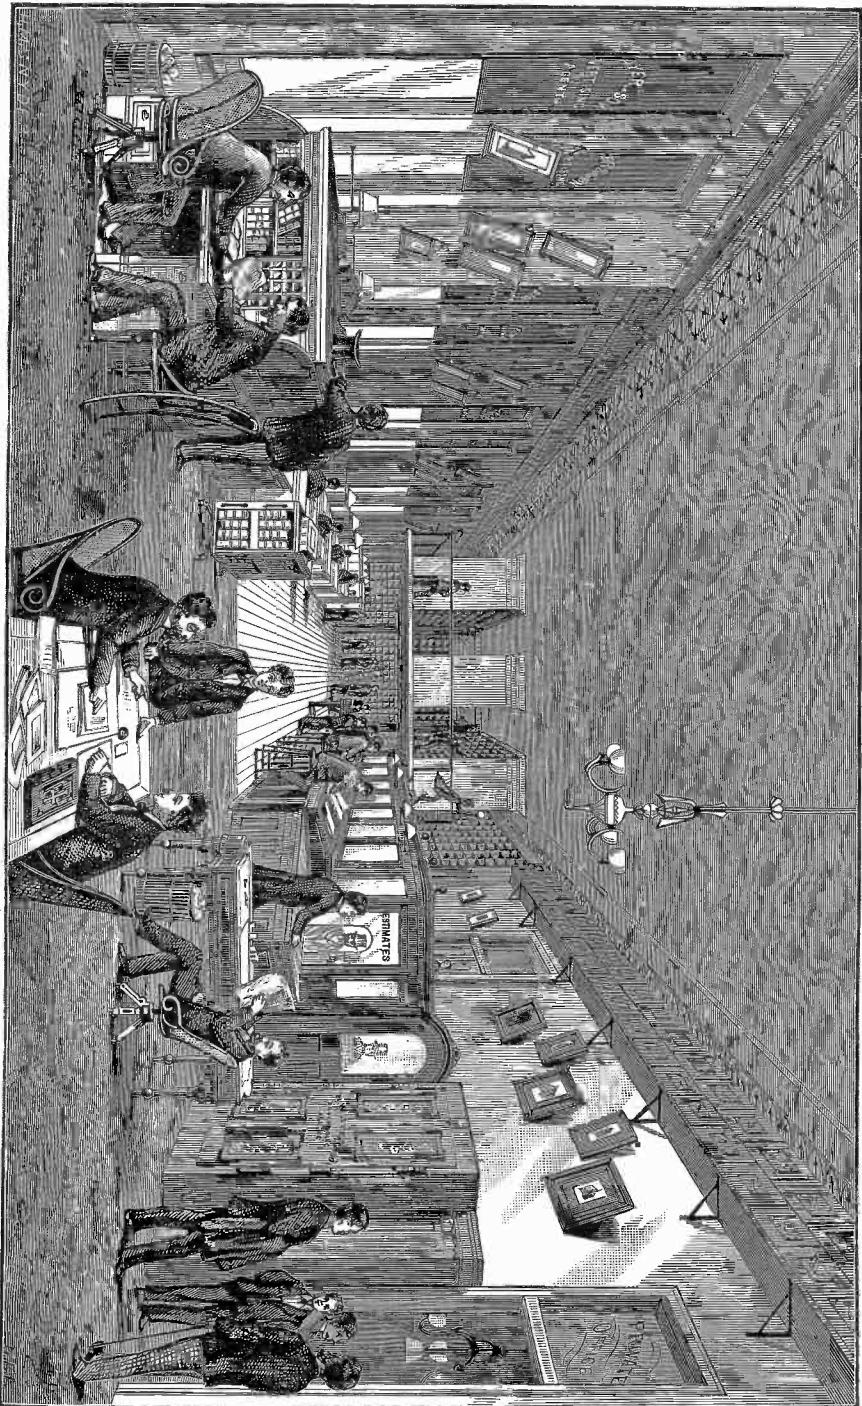

From The Journal, Indianapolis, Ind.

We are glad these gentlemen have taken hold of this project, for we feel confident that they will improve on former efforts, as they have a well-earned reputation for accuracy, and will bring to bear on the work the experience of years.

From The Evening Express, Rochester, N. Y.

THE AMERICAN NEWSPAPER ANNUAL is by far the most valuable book of the kind ever issued in this country, and probably in the world. There is nothing to be desired as to fullness of information. Its accuracy we judge to be as great as is attainable.

WHAT ADVERTISERS SAY.

From Isaac A. Sheppard & Co. Baltimore, Md.

Excelsior Stove Works.

Your NEWSPAPER ANNUAL is a remarkably complete and satisfactory work. It gives evidence of large experience, intelligent appreciation of the wants of advertisers, and rare enterprise and painstaking effort in supplying them. It is convenient in arrangement, complete in details, and can not fail to be of service even to those whose advertising is confined within narrow limits, while it seems to us almost indispensable to any advertiser who wishes to place advertising judiciously in a largely extended territory.

From Starkey & Palen, Philadelphia, Pa.

The Compound Oxygen Treatment.

Undoubtedly the most comprehensive and valuable work of its kind yet issued. Those who desire to advertise successfully will find it not only a treasure-house of information but a guide to an intelligent selection of the best mediums for reaching the public.

From Wm. S. Kimball & Co. Rochester, N. Y.

Peerless Tobacco Works.

We can not speak too highly of its many superior qualities. Its compactness and simplicity of form render it the most valuable work of its kind in existence, and it will be of the greatest assistance to us in our advertising department.

From Brown Chemical Company, Baltimore, Md.

We have just gotten through a critical examination of the new ANNUAL. As advertisers, we can consistently say it is the best of the kind we have ever seen. We have discarded all other lists, and now use yours for information in your line, which we are constantly wanting.

From A. Vogeler & Co. Baltimore, Md.

Proprietors St. Jacobs Oil.

Unquestionably a valuable guide to the advertising world. The census statistics are a commendable feature and appreciably enhance the value of your book.

From James Pyle, New York.

Proprietor Pyle's O. K. Soap.

A careful examination satisfies me that it is the result of prolonged labor by a competent hand. No one unskilled in the advertising business could edit so complete and reliable a digest of the American Press in its relation to advertising. It seems to me that the work is more elaborate than anything I have seen of the kind.

From White Sewing Machine Agency, Cleveland, O.

We consider it the most perfect work of the kind we have ever seen or examined.

From The Bradstreet Company, Philadelphia and New York.

Improved Mercantile Agency.

In all respects it surpasses anything of the kind we have ever seen. The method and matter of the compilation seem perfect.

From W. W. Sherar, Rochester, N. Y.

Can not see where your excellently convenient book could be at all improved upon for the purpose for which it is intended.

CIRCULATIONS.

Acting upon many suggestions received, and urged by our own desire to obtain as accurate information as possible, we resolved, when commencing the revision of the work for the present year, to request publishers generally to furnish affidavits of the circulation of their respective journals; about sixteen per cent. of them have done so, and such reports are printed in bold-face figures in the Catalogue, and distinguished by an asterisk (*) in the County and Special Lists. Where the statements made by publishers which were not sworn to have been adopted, they have been designated by a double-dagger (‡) throughout the work. When unmarked, the figures represent our own estimate. No circulation is quoted for papers established during the current year, for those issued for advertising purposes, or which do not insert advertisements, or where the information given was deemed unsatisfactory. When publishers have requested us not to make any statement of circulation, the word "decline" has been printed in the proper column.

Aiming at strict impartiality in this important part of our work, and desiring in all cases to be just to publishers while seeking the interests of advertisers, we shall gladly receive communications from any who may consider themselves unfairly dealt with in the estimate placed upon the circulation of their papers, and will cheerfully correct in future editions any mistakes made in the present one, if furnished with satisfactory evidence of our error.

HOW TO OBTAIN AN ESTIMATE.

In writing to ascertain the cost of advertising, please observe the following suggestions:

1. When possible always send copy of your advertisement. If you have no printed copy, send it in writing.
2. Mention the space you wish it to occupy in LINES OR INCHES. Don't say anything about squares. The size of an advertising square varies from four lines to two and a half inches.
3. Name the papers you wish to use. If undecided on this point, state the cities and towns, or at least the particular section of country you would like to reach.
4. State the length of time you desire it inserted in the different papers.
5. In case your plans are not fully matured, it is always well to state about the amount of money you purpose expending. By so doing you will enable us to make the most suitable selection for your use, including only the best and cheapest papers to cover the ground.

EXPLANATION.

In the United States, populations are from the official bulletins of the Census of 1880 which have been published up to the time of going to press. Those derived from other sources are marked "est." (estimated). Populations in Canada are from the Census of 1871.

Circulations for which affidavits have been furnished, are printed in the Catalogue in bold-face figures, and designated by an asterisk (*) in the County and Special Lists. Statements made by publishers, but not sworn to, are distinguished by a double-dagger (‡) throughout the work; those unmarked are estimated.

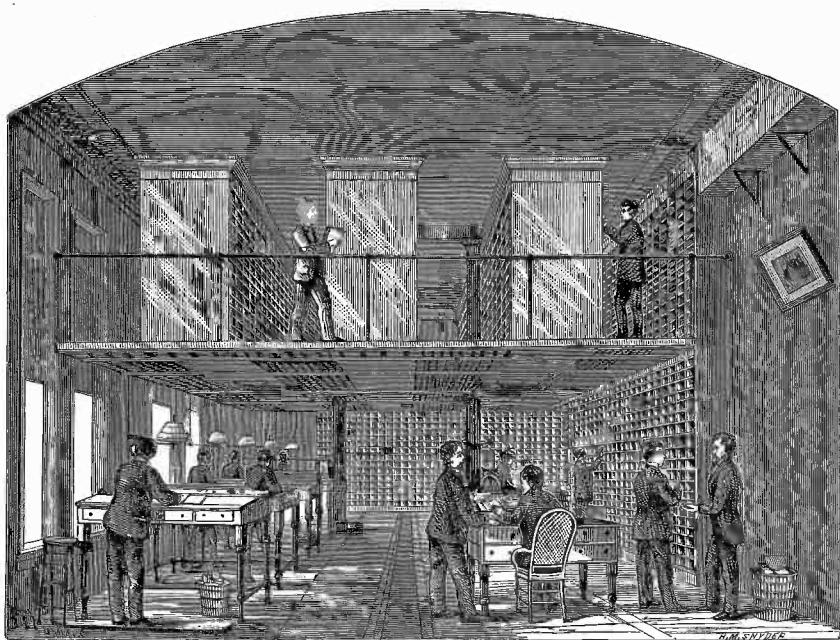

A statement of circulation is omitted when we have been unable to obtain any satisfactory information, when the paper was established during the current year, or when it is an advertising sheet intended mainly for gratuitous distribution, in which case "issued for advertising purposes" follows the name of the paper in the Catalogue, and the letters "adv." appear in the circulation column of the other lists. The word "decline" indicates that the publishers have declined or objected to make any statement for publication.

The circulation affixed to a paper printing editions under other headings is believed to be the approximate circulation of all editions issued by it.

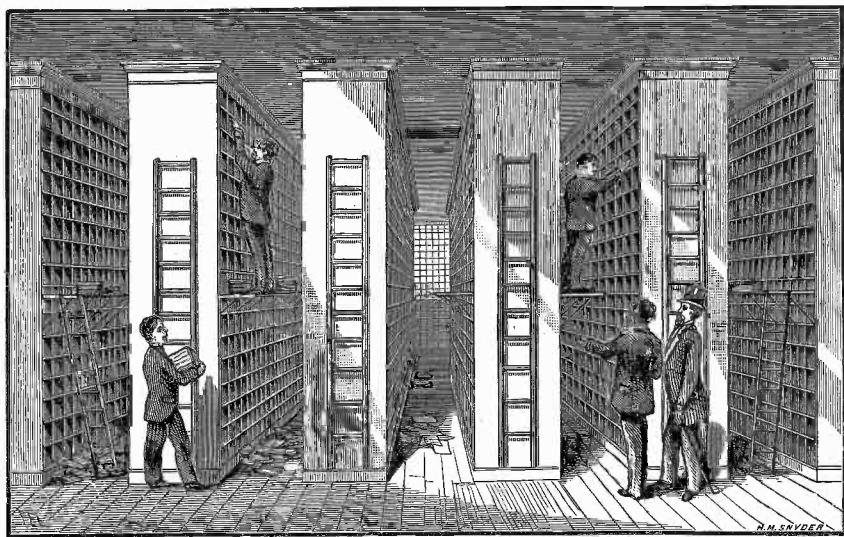

Political majorities are of the presidential election of 1880.

All blank spaces, except in the circulation of papers as mentioned above, or any deviation from the regular plan of the book, is evidence of inability to obtain accurate information in time for publication.

Papers which are believed to decline general advertising are so noted.

CATALOGUE

—OF—

AMERICAN NEWSPAPERS

GIVING THE PLACES IN WHICH THEY ARE PUBLISHED IN THE UNITED STATES, TERRITORIES, AND DOMINION OF CANADA, ARRANGED ALPHABETICALLY IN STATES BY GEOGRAPHICAL SECTIONS; THE COUNTIES IN WHICH THE PLACES ARE SITUATED, AND THE POPULATION OF EACH; AND IN CONNECTION WITH THE PAPERS THE FREQUENCY OF ISSUE, POLITICS, DENOMINATION OR GENERAL CHARACTER, YEAR OF ESTABLISHMENT, SIZE, CIRCULATION, AND PUBLISHER'S PRICE FOR TEN LINES ONE MONTH.

The List is arranged by States in geographical order, for the convenience of advertisers who desire to cover any particular section of the country, the grouping together of neighboring States affording greater facilities for reference than an alphabetical arrangement.

In the United States, populations are of the Census of 1880. Canadian populations are of the Census of 1871.

TO PUBLISHERS:

MAINE.

Population 648,945.....Rep. Plur. 8,868
 Gbk. vote, 4,408.
STATE CAPITAL, AUGUSTA.

MAINE is the most northeasterly State in the Union, bounded on the north by Quebec and New Brunswick, east by New Brunswick, south by the Atlantic Ocean, and west by New Hampshire and Quebec; area about 35,000 square miles. The northern part is mainly a wilderness of forest-land with rugged surface and groups of detached mountains: thinly peopled, except in the fertile tracts of Aroostook County in the northeast inhabited by French Canadians. The southern part is varied, seldom much broken, and has tracts of great fertility, while others are only moderately fertile, especially in the southeast. The hay and potato crop is large and excellent; corn thrives in the south, and winter wheat in the northeast; oats are very fine and prolific, and barley next. Dairy products are of great value. Large numbers of horses and cattle are exported. Wool is abundant and of good quality. The principal fruits are the cherry, plum, pear, and apple. The State holds a prominent position in the lumber trade; fisheries are important, and the canning of fish, lobsters, green-corn, fruits, and vegetables is extensively carried on. The seaboard towns enjoy a large coasting and West India trade. Cotton manufacture is one of the leading industries. Large quantities of lime are exported. Granite is largely quarried. Ice is an important and profitable article of export, and manufactures are varied and extensive.

There are 16 Counties in Maine. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 59, of which the 13 designated by a dagger (†) are county-seats.—Of the 117 papers which insert advertisements published in the State, 11 are daily, 1 tri-weekly, 89 weekly, 2 bi-weekly, 13 monthly, and 1 quarterly.

NEW HAMPSHIRE.

Population 346,984.....Rep. Plur. 4,058
Gbk. vote, 528.

STATE CAPITAL, CONCORD.

NEW HAMPSHIRE is bounded on the north by Quebec, east by Maine and the Atlantic Ocean, south by Massachusetts, and west by Vermont. Its length is 180 miles from north to south; its extreme breadth 93 miles; average breadth 50 miles; area about 9,280 square miles. Most of the State, except the southeastern part, has a rough and hilly surface. In the northern part are the White Mountains. The State is generally well wooded, and the yield of timber is very large. The Valley of the Connecticut is famed for the beauty of its farms and villages. In productions, the hay-crop is by far the most valuable, and while this is steadily increasing the agricultural interests have for some years been gradually declining. While there are some very fertile tracts among the valley lands, the greater part of the surface is rugged and stony, and much more valuable as woodland or pasture than as tilled land. Oats, barley, rye, buckwheat, and corn are very generally cultivated. Dairy farming and wool-growing are followed to some extent. Tobacco is grown in Cheshire County, in the southwestern part of the State. Fruit-raising is generally profitable. In some localities southward the peach is successfully cultivated. Fine building granite is extensively quarried. Manufactures constitute by far the largest industry. There is scarcely a town of any considerable size without its important manufacture. It is especially noted for its textile interests. According to the census of 1870, in the value of cotton goods produced, New Hampshire was excelled only by Massachusetts, Rhode Island, and Pennsylvania. The other main industries are boots and shoes, carriages, flouring-mills, saddlery, clothing, starch, etc.

There are 10 Counties in New Hampshire. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 45, of which the 10 designated by a dagger (†) are county-seats.—Of the 92 papers which insert advertisements published in the State, 10 are daily, 72 weekly, 3 bi-weekly, and 7 monthly.

VERMONT.

Population 332,286.....Rep. Plur. 27,251

Gblk. vote, 1,215.

STATE CAPITAL, MONTPELIER.

VERMONT is the most northwesterly of the New England States, bounded north by Quebec, east by New Hampshire, south by Massachusetts, and west by New York. It is 130 miles long by from 35 to 85 miles wide, with a land area of about 9,056 square miles. The Green Mountains traverse it from north to south, mainly in two ranges, generally covered with dense forests, but affording excellent pasture. Western Vermont and a large tract of the eastern part comprise beautiful pastoral regions, but the central part is rugged and mountainous. The best soil is found on the western slope of the mountains near the border of Lake Champlain, and in the valley lands of the Connecticut River. The State occupies a prominent position in agriculture. When its area, population, amount of forest-land, and long severe winters are considered, there is perhaps no other State that yields so large a return. All the ordinary agricultural staples are abundantly produced; wool and dairy products are large and excellent; cattle, sheep, and horses are raised in large numbers, and the yield of maple-sugar is unequalled. Manufactures occupy a prominent position in its industries, and cover a wide range of goods. Large quantities of lumber are exported, and marble and slate extensively quarried.

There are 14 Counties in Vermont. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 37, of which 11 designated by a dagger (†) are county-seats. Of the 75 papers which insert advertisements published in the State, 3 are daily, 66 weekly, 1 bi-weekly, and 5 monthly.

MASSACHUSETTS.

Population 1,783,086.....Rep. Plur. 53,245

Gbk. vote, 4,548.

STATE CAPITAL, BOSTON.

MASSACHUSETTS is bounded north by Vermont and New Hampshire, east by the Atlantic Ocean, south by the Atlantic Ocean and by Rhode Island and Connecticut, and west by Rhode Island and New York. Its extreme length is 160 miles, and breadth from 47 to about 90 miles; area about 7,800 square miles. The surface is greatly diversified: mountainous in the extreme west; hilly and broken in the east and northeast, and in the southeast mainly low and sandy. Toward the east is the fertile Valley of the Connecticut River. The mountains are the Green, the Taconic, and the Hoosac, with detached members of the White Mountains. The soil is generally somewhat sterile, but energy and intelligence have succeeded in making it very productive. The Connecticut Valley, however, can hardly be excelled for fertility. Dairy products are very extensive, as is also the yield of wool, hay, maple-sugar, and honey. Corn and potatoes are very largely produced. Of grain, the crop of oats, rye, and barley is large, buckwheat moderate, and wheat (winter), small. The tobacco crop is very great; live-stock abundant (cattle largely in excess). More than half the fishing vessels owned in the United States belong to Massachusetts. Its direct imports in 1874 amounted to \$32,737,580, and its exports to \$30,746,777. Manufactures, however, constitute by far the largest of its industries. Not only is it the center of the American boot, shoe, leather, wool, and cotton trades, but all the large towns are busy seats of more or less numerous branches of manufacture. The State is rich in building-stone, and has some coal and iron-ore.

There are 14 Counties in Massachusetts. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 413, of which the 18 designated by a dagger (†) are county-seats.—Of the 413 papers which insert advertisements published in the State, 41 are daily, 1 tri-weekly, 10 semi-weekly, 268 weekly, 9 bi-weekly, 2 semi-monthly, 74 monthly, and 8 quarterly.

CONNECTICUT.

Population 622,683.....Rep. Plur. 2,656

Gbk. vote, 868.

STATE CAPITAL, HARTFORD.

CONNECTICUT is bounded north by Massachusetts, east by Rhode Island, south by Long Island Sound, and west by New York. Its average length from east to west is 86 miles; its average breadth, 55 miles; area, about 4,674 square miles. The eastern part is principally composed of rounded hills, which, though stony, afford rich pasture; and the valleys support a thrifty agricultural and manufacturing population. The Connecticut Valley, near the river, and at a distance from the Sound, is very fertile. In the south the land is broken and the soil sandy and gravelly, but when well manured yields good crops of potatoes, rye, oats, and corn. In the west the surface is rough and the hills are abrupt. Agriculture is not a leading industry. Dairy products and hay are the principal staples of the east and west. Tobacco is largely grown in the Connecticut Valley. Corn, rye, oats, and potatoes are grown in nearly all sections. The land near the large cities and towns is chiefly devoted to market-gardening. Connecticut is mainly a manufacturing State, and its industries are very extensive and varied.

There are 8 Counties in Connecticut. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 54, of which the 7 designated by a dagger (†) are county-seats.—Of the 140 papers which insert advertisements published in the State, 21 are daily, 1 semi-weekly, 95 weekly, 2 bi-weekly, 1 every third week, 1 every ten days, 15 monthly, 1 bi-monthly, and 3 quarterly.

NEW YORK.

Population 5,083,810.....Rep. Plur. 21,083

Gbk. vote, 12,373.

STATE CAPITAL, ALBANY.

NEW YORK is bounded on the north and northwest by Lake Ontario and the provinces of Ontario and Quebec, east by Vermont, Massachusetts, Connecticut, and the Atlantic Ocean, south by the Atlantic Ocean, New Jersey, and Pennsylvania, and west and northwest by Pennsylvania and Lake Erie. Its greatest length from north to south is 312 miles; its greatest breadth 412 miles; its area about 47,000 square miles. The surface is exceedingly diversified. It has numerous ranges of mountains, chains of hills, many beautiful valleys, much undulating land, some broad plains, and numerous beautiful lakes. The greater portion of the soil is arable, much of it exceedingly fertile. The mountainous districts are mainly good grazing land, and the dairy products are enormous, notably in St. Lawrence County. Immense crops of cereals are grown in the valley lands; tobacco is raised in several counties, and corn generally throughout the State. In the neighborhood of the large cities, market-gardening is extensively carried on. The State is well wooded, and the timber varied and excellent. In 1870 New York ranked first in the value of her manufactures. The industries cover almost the whole range of business, and are well distributed over the State. In 1874 it had in vessels of all classes a tonnage of over 1,700,000 tons, more than a third of the tonnage of the country. The fishing industry is relatively large and valuable.

There are 60 Counties in New York. PENNSYLVANIA.

Population 4,282,786.....Rep. Plur. 37,276

Gbk. vote, 20,668.

STATE CAPITAL, HARRISBURG.

PENNSYLVANIA is bounded north by New York and Lake Erie, east by New York and New Jersey, south by Delaware, Maryland, and West Virginia, and west by West Virginia and Ohio. Its greatest length from east to west is about 302 miles; its greatest breadth about 175 miles; mean length 280 miles; mean breadth 158 miles; area about 45,086 square miles. The surface is exceedingly varied, chiefly level or slightly undulating in the southeast, hilly and mountainous in the interior, and generally rolling or broken in the west. A series of parallel ridges, members of the Appalachian system, each with a distinct name, traverse the State from northeast to southwest. The easternmost of these is the South Mountain, an extension of the Blue Ridge, and the westernmost and highest the Allegheny, from which the surface slopes generally toward Ohio. Nearly one fourth of the State is wooded, and a very large amount of lumber is manufactured. The soil of the valleys and plains is generally fertile, and some of it exceedingly so. Lancaster County, and some of the counties bordering on the Ohio River, are the most productive. The State excels in dairy and market-garden produce and all the agricultural staples of the Northern States. Its beds of anthracite and bituminous coal and iron-ore, and the great oil basin, are sources of immense wealth. It is rich in minerals, slate, and building-stone of many kinds. In manufactures it is second only to New York, and Philadelphia is one of the principal seats of foreign and coastwise trade. The leading exports are grain, provisions, petroleum, tobacco, oil-cake, lumber, tallow, hides, leather, shoes, cotton goods, machinery, and coal.

There are 67 Counties in Pennsylvania. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 283 of which 67 designated by a dagger (†) are county-seats.—Of the 928 Papers which insert advertisements published in the State, 100 are daily, 4 tri-weekly, 5 semi-weekly, 652 weekly, 4 bi-weekly, 6 semi-monthly, 145 monthly, 2 bi-monthly, and 10 quarterly.

Its agricultural products generally, including market-garden produce, are very extensive. Large quantities of grapes and small fruits are grown in the south. Cranberries are one of the leading productions. It is celebrated for its marl deposits, peat, bog-iron ore, and glass-sand. It has become one of the leading States in the value of its manufactures, ranking seventh in this respect in 1870. The manufactures embrace a wide range of goods. Its iron-mines, quarries, and clay-banks are very valuable, and the fisheries (deep-sea, oyster, and fresh-water) a source of great profit.

MARYLAND.

Population 934,632.....Dem. maj. 15,191
(209,914 col'd.)

STATE CAPITAL, ANNAPOLIS.

MARYLAND is bounded north by Pennsylvania, east and southeast by Delaware and the Atlantic Ocean, west by West Virginia, and south and southwest by Virginia, West Virginia, and the District of Columbia. The Chesapeake Bay divides the greater part of it into two unequal parts, known as the Eastern and Western Shores. Its extreme length from east to west on its northern border is 198 miles, and its width, following the course of the Potomac, varies from 3 or 4 miles to about 120 miles; land area, about 9,356 square miles. The surface of the Eastern Shore is mostly level, and in parts low and swampy, but towards the north rocky and broken. The Western Shore, between the Potomac River and Chesapeake Bay, presents mainly the same general features. The northwest is very mountainous: five or six ridges of the Alleghenies, principally the Blue and Laurel, traverse that section. In the extreme west are the beautiful elevated valleys named Glades. The soil of the Eastern Shore and the lower part of the Western is generally light and sandy, well adapted for peaches and market-gardening; that of the central and northern parts very rich, yielding immense crops of tobacco, wheat, and corn. The mountain slopes are thickly wooded. The oyster fisheries are more extensive than in any other State. The manufactures are very numerous—canned goods, (fruits, meats, and oysters) being one of the most important. Boots and shoes, bricks, cement, chemicals, clothing, cotton and woolen goods, cooperage is tobacco, flour, leather, lumber, machinery, and metallic wares are leading industries. Its commerce is confined principally to Baltimore, whose foreign trade is very important. Maryland coal is used extensively in all the Atlantic States.

There are 23 Counties in Maryland. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 50, of which 23 designated by a dagger (†) are county-seats. Of the 143 papers which insert advertisements published in the State, 12 are daily, 112 weekly, 5 semi-monthly, 13 monthly, and 1 quarterly.

VIRGINIA.

Population 1,512,203.....Dem. Maj. 43,956
(Colored, 631,827.)

STATE CAPITAL, RICHMOND.

VIRGINIA is bounded north by West Virginia and Maryland, east by Maryland and the Atlantic Ocean, south by North Carolina and Tennessee, and west by Kentucky and West Virginia. Its greatest length from east to west is about 440 miles, its greatest breadth 192 miles; area about 38,348 square miles. The surface is divided into six great natural divisions; the Tidewater comprising the south and southeast; the Middle, an undulating plain, extending westward to the Coast Range; the Piedmont from the Coast Range to the Blue Ridge Mountains, and from the Potomac River to North Carolina; the Blue Ridge stretching across the State in a southwesterly direction; the Valley—a part of the great Appalachian Valley, reaching from Canada to Alabama—a broad belt of rolling country between the Blue Ridge and the Kittatinny or North Mountain; and the Appalachian, a mountainous region traversed by the Alleghenies. The soil in the Tidewater region is a light sandy loam, yielding large crops of vegetables and small fruits. The Valley Region has a rich fertile soil, well adapted for cereals. Much of the Mountain Region is uncultivated and chiefly forest land; but the parallel valleys are very fertile. The Piedmont, Blue Ridge, Valley, and Appalachian regions are noted for their grasses. The yield of tobacco is only equaled by that of Kentucky. Some cotton is grown in the Tidewater Section; fruit grows all over the State. Dairying and stock raising are important industries. The timber export is large. There are profitable fisheries of bass, shad, etc., and the oyster trade is very important. The manufacturing interests are comparatively small, but are increasing, the chief seats being Richmond, Alexandria, Danville, and Lynchburg. Virginia has excellent natural advantages for commerce, but it is only lately that she has begun to take a prominent part in foreign trade.

There are 100 Counties in Virginia. Newspapers are published in 66.—Cities, towns, and villages in which papers are published number 86, of which 53 designated by a dagger (†) are county-seats. Of the 189 papers which insert advertisements published in the State, 19 are daily, 4 tri-weekly, 6 semi-weekly, 124 weekly, 3 semi-monthly, and 33 monthly.

STATE CAPITAL, CHARLESTON.

WEST VIRGINIA is bounded north and east by Pennsylvania and Maryland, east and south by Virginia, and west by Kentucky and Ohio. Its greatest length from north to south is about 240 miles; greatest breadth, 160 miles; area about 23,000 square miles. A large part of the surface is mountainous and hilly; about two thirds is covered with forest. The soil of the ridges is fertile to the tops, and the summits of many mountains are flat, natural meadows or glades. The valley of the Great Kanawha is the finest grazing region of the State. Blue grass is indigenous; the lumber trade is important. Nearly the whole of the State lies within the Allegheny coal system, and large quantities of coal are exported, although comparatively few mines have been opened. It is generally bituminous. The Kanawha Valley is one of the great salt-producing regions of the United States. Petroleum is extensively produced, chiefly in Ritchie, Pleasants, Wood, and Wirt Counties. Limestone, sandstone, and grindingstone abound generally through the State. The minerals and mineral springs are inexhaustible. West Virginia is especially famous for wool. Other great staples are corn, wheat, oats, and tobacco. Manufactures are comparatively undeveloped, except in the towns along the Ohio River. The leading industries are iron in various forms, flour, salt, liquor, lumber, leather, and machinery.

There are 54 Counties in West Virginia. Newspapers are published in 45.—Cities, towns, and villages in which papers are published number 57, of which 44 designated by a dagger (†) are county-seats. Of the 100 papers which insert advertisements published in the State, 4 are daily, 1 tri-weekly, 2 semi-weekly, 88 weekly, and 5 monthly.

NORTH CAROLINA.

Population 1,400,000..... Dem. Maj. 8,326
 Colored, 532,533

STATE CAPITAL, RALEIGH.

NORTH CAROLINA is bounded north by Virginia, east and southeast by the Atlantic Ocean, south by South Carolina and Georgia, and west by Tennessee. Its extreme length from east to west is 490 miles; extreme breadth, 185 miles; area about 50,704 square miles. The surface is very varied. For nearly 100 miles inland from the coast the country is level, marshy, and swampy; soil sandy but very fertile. It is estimated that there are nearly 3,000,000 acres of swamps in this region. Next is the middle section, with varied surface and fine soil. The surface then rises into small hills, increasing in altitude until they reach the mountainous region in the west. Some of the peaks in the Black Mountains and the Blue Ridge attain an elevation of from 5,000 to 6,000 feet. This region contains good grazing land, much hard timber; and stock-raising is largely carried on. In the coast region the river bottoms and reclaimed swamp lands are very fertile, and here rice, cotton, corn, honey, beeswax, apples, peaches, and pears abound. The Scuppernong and Catawba grapes are native here; cranberries are extensively produced. The pine region is mainly uncultivated, but a large trade is done in timber, tar, and turpentine. Cotton is raised chiefly in the southern counties. The middle section is adapted to the growth of cereals, tobacco, and cotton; sweet potatoes are a leading staple. The principal manufactures are flour, lumber, tar, turpentine, rosin, cotton and woolen goods, tobacco, zinc (smelted and rolled), carriages, boots and shoes. It exports coastwise and to foreign ports large amounts of lumber, cotton, tobacco, flour, and fish. The fisheries are very large and valuable.

There are 94 Counties in North Carolina. Newspapers are published in 54.—Cities, towns, and villages in which papers are published number 68, of which 44 designated by a dagger (†) are county-seats. Of the 127 papers which insert advertisements published in the State, 11 are daily, 2 semi-weekly, 104 weekly, 2 semi-monthly, 7 monthly, and 1 quarterly.

SOUTH CAROLINA.

Population 995,306..... Dem. Plur. 54,241
 Colored, 604,235. Gbk. vote, 566

STATE CAPITAL, COLUMBIA.

SOUTH CAROLINA is bounded north and northeast by North Carolina, southeast by the Atlantic Ocean, west and southwest by Georgia. Its greatest length from east to west is about 275 miles, and its greatest breadth about 210 miles; area about 34,000 square miles. The surface presents nearly the same features as that of North Carolina. The coast for 100 miles inland is low and level, with sandy soil, numerous swamps, and extensive pine forests; then follows a tract of low sand-hills, the soil of which is moderately productive. The land rises abruptly on the western edge of this belt, and continues to rise until it terminates in the Blue Ridge, the highest peak of which, Table Mountain, is 4,000 feet above the sea. The swamps embrace over 1,000,000 acres, and the pine lands 6,000,000. The sea islands are mainly devoted to sea-island cotton and rice, and the palmetto grows on them; the tidal swamps to rice; inland swamps, when drained, to rice, cotton, corn and pease; the salt marshes to long cotton; the oak and pine and oak and hickory lands to corn and cotton; and the pine-barrens to fruits and vegetables. Rice, cotton, and corn thrive best in the central and southern counties. The northwestern region produces corn, wheat, barley, oats, tobacco, and many fruits. Stock-raising and wool-growing are carried on with profit. Figs and pomegranates grow in the lower counties, and the peach and grape thrive over the State generally; strawberries abundant. The manufactures are principally cotton goods, flour, lumber, machinery, tar, turpentine, carriages, fertilizers, the latter being largely bone-phosphate from Charleston County. Commerce is mainly confined to Charleston, Georgetown, and Beaufort. Exports are chiefly rice, cotton, lumber, phosphate, naval stores, cotton-seed and its oil, oil-cake, fish, and spring vegetables. Considerable shad and oyster fishing.

There are 33 Counties in South Carolina. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 40, of which 32 designated by a dagger (†) are county-seats. Of the 78 papers which insert advertisements published in the State, 6 are daily, 3 tri-weekly, 1 semi-weekly, 64 weekly, 1 semi-monthly, and 3 monthly.

STATE CAPITAL, ATLANTA.

GEORGIA is bounded north by Tennessee and North Carolina, northeast by South Carolina, southeast by the Atlantic Ocean, south by Florida, and west by Alabama. Its extreme length from north to south is 320 miles, extreme breadth 254 miles; area about 58,000 square miles. The surface is varied: along the coast and Florida line it is low and swampy; the great Okeefinokee Swamp is in the southeast. Back from the coast is a stretch of sandy land, mostly pine barrens, and yielding large amounts of timber and naval stores. A series of terraces bring the land in the middle of the State to about 575 feet above tidewater, from which elevation it rises toward the north more rapidly, until it becomes mountainous, being there crossed by spurs of the Appalachians. The soil of the islands is sandy, producing sea-island cotton; that of the mainland, rich alluvial, producing corn, cotton, and rice; the middle region is red loam, yielding good cotton, corn, tobacco, etc. In the north there is much fertile soil: grain, tobacco, fruits, and vegetables are largely grown, but not much cotton, which is mainly raised in the central, west-central, and southwestern regions. Sugar-cane is grown in the south, and considerable pork fattened, mainly for home consumption; sweet potatoes are largely produced; wool is prominent, but corn and cotton are the leading staples. In 1870 the manufacturing establishments numbered 3,836, employing nearly 18,000 hands. Among the leading industries are lumber, flour, boots and shoes, carriages, cotton and woolen goods, wool-carding and cloth-dressing, leather, saddlery, metallic wares, furniture, castings, machinery, farm implements, etc.

There are 137 Counties in Georgia. Newspapers are published in 101.—Cities, towns, and villages in which papers are published number 107, of which 86 designated by a dagger (†) are county-seats. Of the 198 papers which insert advertisements published in the State, 16 are daily, 3 tri-weekly, 4 semi-weekly, 157 weekly, 1 semi-monthly, 16 monthly, and 1 quarterly.

FLORIDA.

Population 266,566..... Dem. Maj. 4,310
 Colored, 125,317

STATE CAPITAL, TALLAHASSEE.

FLORIDA is bounded north by Alabama and Georgia, east by the Atlantic Ocean, south and west by the Gulf of Mexico and Alabama. The peninsular portion of the State is about 375 miles long by an average breadth of 90 miles; the upper portion 360 miles from east to west by from 30 to 90 miles from north to south; estimated area, about 59,000 square miles. Surface is diversified with numerous lakes, the largest, Okeechobee, being 40 miles long by about 30 miles broad. The largest portion of the southern part of the peninsula is occupied by the Everglades, an evergreen marsh or swamp, impassable in the rainy season, and resembling an immense lake dotted with innumerable islands of from half an acre to hundreds of acres in extent, the whole comprising over 2,000,000 acres. From the northern end of the swamp to Georgia is mostly a dead level, with occasional undulations and small hills. West of the neck of the peninsula the surface becomes a little more uneven; the central portion is the most fertile, but there are many pine-barrens there. There are numerous gentle eminences called hammocks, which are remarkably fertile, as are also the swamp-lands when ditched and drained. The soil of the east and west peninsula districts is generally sandy and poor. Sugar-cane is raised chiefly along the Gulf coast. Both long and short staple cotton and tobacco are grown, but corn and rice are the principal cereals. Oranges, lemons, limes, pineapples, olives, and grapes flourish luxuriantly; garden vegetables are largely produced. Cattle require little care, are not housed in winter, and large numbers are raised and shipped to Havana. Hogs fatten on the roots and mast of the forest. Sponge is found on many parts of the coast. Manufactures of pine-lumber, ship-timber, tar, rosin, turpentine, cotton-seed-oil and cake, palmetto hats and braids; salt is made by solar evaporation; cigars are manufactured at Key West in large quantities. There are considerable fisheries.

There are 39 Counties in Florida. Newspapers are published in 27.—Cities, towns, and villages in which papers are published number 33, of which 24 designated by a dagger (†) are county-seats. Of the 46 papers which insert advertisements published in the State, 2 are daily, 2 semi-weekly, 40 weekly, and 2 monthly.

ALABAMA.

Population 1,262,344.....Dem. Plur. 34,509
 Colored, 600,358. Gbk. vote, 4,642.

STATE CAPITAL, MONTGOMERY.

ALABAMA is bounded north by Tennessee, east by Georgia and Florida, south by Florida and the Gulf of Mexico, and west by Mississippi. Its extreme length north to south is 336 miles, breadth varying from about 150 to 200 miles; area about 50,722 square miles. The Alleghany range enters the State at the northeast, and extends towards the centre, finally losing itself in mere hills; then follows a tract of rolling prairies, interspersed with pine barrens and exceedingly rich alluvial bottoms, including the cane-brake region, one of the richest cotton producing districts in the world. From this to the Florida border and the Gulf the land is generally flat. This part is thinly settled, and is mostly covered with pine forests. North of this is the broad belt of rich black soil, a space of several miles in breadth, constituting the great cotton producing section of the State. The soil then becomes sandy and poor, but abundant water-power renders it capable of becoming a fine manufacturing district. The mineral region occupies the northeast part, while the northwest is a good agricultural and stock-raising country. Cotton is grown throughout the State, but mainly in the central belt alluded to; tobacco chiefly in the north very fine wheat in the north and northeast; rice in the south; corn largely all over the State. Dairy products, fruits, wool, oats, and sweet potatoes are produced in considerable quantities. Manufactures have been unimportant until lately, when considerable increase has been manifested, but agriculture is by far the leading industry. The chief manufactures are flour, lumber, leather, cotton goods and cotton gins, thread and yarn, iron, and machinery. Commerce centres at Mobile. Cotton and lumber are the chief exports.

There are 66 Counties in Alabama. Newspapers are published in 56.—Cities, towns, and villages in which papers are published number 69, of which 54 designated by a dagger (†) are county-seats. Of the 114 papers which insert advertisements published in the State, 4 are daily, 105 weekly, 1 semi-monthly and 4 monthly.

MISSISSIPPI.

Population 1,131,592.....Dem. Plur. 40,896
 Colored, 652,221. Gbk. vote, 5,797

STATE CAPITAL, JACKSON.

MISSISSIPPI is bounded north by Tennessee, east by Alabama, south by the Gulf of Mexico and Louisiana, and west by the Mississippi River, which separates it from Louisiana and Arkansas. Its extreme length from north to south is 332 miles; average breadth 142 miles; area about 47,156 square miles. The surface is generally hilly or undulating, except in the Mississippi bottom from Vicksburg to the Tennessee line, and between the Mississippi and Yazoo rivers, where it is low and swampy, subject to inundation and covered with a dense growth of timber, but with soil which, if reclaimed, would be exceeding fruitful. Below Vicksburg the surface for some miles inland is hilly, and known as the "cane hills" or "bluffs," and with a generally productive soil. There is a very fertile prairie region in the northeast. The southern part is chiefly a level pine region, and furnishes good pasture and large quantities of timber, tar, turpentine, etc. The soil of this tract is poor and sandy. Cotton and corn are the great staples. Wheat is grown in the north, and rice and sugar-cane in the south. Grazing is an important industry, much pork is fattened, and the clip of wool is large. Dairy products, sorghum, tobacco, and sweet potatoes are produced in considerable quantities. The manufactures are neither varied nor very extensive, lumber and grist-mill products being the most important. Its commerce is carried on principally through New Orleans and Mobile; coasting and river trade large.

There are 74 Counties in Mississippi. Newspapers are published in 61.—Cities, towns, and villages in which papers are published number 71, of which 54 designated by a dagger (†) are county-seats. Of the 105 papers which insert advertisements published in the State, 4 are daily, 4 tri-weekly, 93 weekly, and 4 monthly.

LOUISIANA.

Population 940,263.....Dem. Plur. 33,419
 Colored, 485,200. Gbk. vote, 438

STATE CAPITAL, NEW ORLEANS.

LOUISIANA is bounded north by Arkansas and Mississippi, east by Mississippi and the Gulf of Mexico, south by the Gulf of Mexico, and west by Texas. Its extreme length from east to west is about 300 miles, and breadth 240 miles; area about 41,346 square miles. Surface generally low and level. There are low hills in the north and northwest, from which the land slopes gradually to the Mississippi and the Gulf. Much of the land along the river is below the surface at the spring freshets, and is protected from overflow by the levees, which are built on both banks below Baton Rouge, and on the west bank throughout the State. Many of the principal rivers and bayous are protected in like manner. It is estimated that one fifth of the surface of the State is liable to more or less frequent inundation. The soil of the river-bottoms is exceedingly fertile, and yields large crops of cotton, sugar-cane, rice, etc. Its prairies are not generally productive, but afford good pasture in places. The hilly section yields good cotton crops, but is largely covered with pine barrens. The great staples are cotton, sugar, rice, and corn. The State produces nearly all the sugar made in the United States. The yield of rice is very large, and the quality excellent. Cattle-raising is an important interest. The manufacturing interests are not large. The leading industries are lumber, naval stores, castings, machinery, tobacco, clothing, flouring-mill products, cotton-seed-oil, and ship building. Its commerce, carried on chiefly through New Orleans, is extensive and important.

There are 58 Parishes in Louisiana. Newspapers are published in 52.—Cities, towns, and villages in which papers are published number 55, of which 49 designated by a dagger (†) are parish capitals. Of the 109 papers which insert advertisements published in the State, 10 are daily, 1 tri-weekly, 1 semi-weekly, 93 weekly, 1 bi-monthly, 2 monthly, and 1 bi-monthly.

TEXAS.

Population 1,592,574..... Dem. Plur. 98,383
 Colored, 395,081. Gbk. vote, 27,405
STATE CAPITAL, AUSTIN.

TEXAS is bounded north by New Mexico, the Indian Territory, and Arkansas, east by the Indian Territory, Arkansas, and Louisiana, southeast by the Gulf of Mexico, southwest by Mexico, and west by New Mexico; greatest length about 825 miles; greatest breadth about 740 miles; area about 274,356 square miles. From the Sabine River to the Trinity River is the great timber region, generally level and sandy miles. In the south, rolling and fertile in the north. From the Trinity to the Colorado is prairie, timbered along streams, with an extensive forest in the north called the "Cross Timbers." Western Texas embraces the counties between the Colorado and Rio Grande; four fifths of it is prairie; timber generally confined to banks of streams. Between the Colorado and the Brazos Rivers are the Comanche and Leon River Mountain ranges. In the north and northwest are the Church and Double Mountains, and the surface is generally broken until the Llano Estacado, or Staked Plain, is reached, when the surface is gently undulating, and vegetation scanty. Between the Pecos and Rio Grande are several ranges, sometimes attaining an elevation of 5,000 feet. The chief crops are cotton, corn, and wheat. The former two may be grown in nearly any part of the State, but especially in the eastern and central sections; the latter chiefly in the north and centre. Sea island cotton is grown on the coast. Sugar cane is raised chiefly on the Brazos and other rivers, near their mouths, and rice in the southeast. Oats, barley, tobacco, and sweet and white potatoes are grown to a moderate extent. Swine thrive on the abundant mast of the forests. The chief occupation westward is stock-raising and wool-growing. Figs and oranges thrive in the south. Manufacturing interests are increasing.

There are 225 Counties in Texas. Newspapers are published in 124.—Cities, towns, and villages in which papers are published number 151, of which 115 designated by a dagger (†) are county-seats. Of the 283 papers which insert advertisements published in the State, 33 are daily, 1 tri-weekly, 3 semi-weekly, 229 weekly, 2 semi-monthly, 14 monthly, and 1 quarterly.

 Colored, 210,853. Gbk. vote, 4,079.

STATE CAPITAL, LITTLE ROCK.

ARKANSAS is bounded north by Missouri, east by Missouri, Tennessee, and Mississippi, south by Louisiana, southwest by Texas, and west by the Indian Territory; great est length from north to south 240 miles, and breadth from 170 to 250 miles; area about 52,198 square miles. The eastern part is low and level, with dense forests and many swamps and lakes, and is frequently more or less inundated by the Mississippi, Arkansas, and other rivers. The surface rises toward the centre, where it is hilly and diversified with forests and rolling prairies. Further west are branches of the Ozark Mountains, comprising the Black Hills in the north, Cane Hills in the northwest, and the Ouachita Hills in the south. The Valley of the St. Francis, in the northeast, is nearly all swamp; the soil is very varied. The river bottoms are very fertile, and yield large crops of cotton, corn, sweet potatoes, tobacco, and fruit. The soil is less productive on the uplands, but in many places, especially north, produces good crops of wheat, oats, etc. Cotton is the chief staple; corn next. Hay is an important crop. The principal manufactures are flour and grist-mill products, cotton-gins, leather, wool-carding, and lumber.

There are 74 Counties in Arkansas. Newspapers are published in 63.—Cities, towns and villages in which papers are published number 73, of which 56 designated by a dagger (†) are county-seats. Of the 118 papers which insert advertisements published in the State, 6 are daily, 2 semi-weekly, 105 weekly, 1 semi-monthly, 3 monthly and 1 bi-monthly.

KENTUCKY.

Population 1,648,599 **Dem. Plur. 43,449**
 Colored, 271,522. Gbk. vote, 11,498.

STATE CAPITAL, FRANKFORT.

KENTUCKY is bounded north by Ohio and Indiana; northwest by Illinois; east by West Virginia and Virginia; south by Tennessee; and west by Missouri; greatest length from east to west 350 miles, greatest breadth, 178 miles;—area about 37,680 square miles. The surface in the east and southeast is mountainous, being broken by numerous parallel ranges of the Alleghany system, with deep valleys. Northwest of this section is the famous Blue Grass Region, with a gently undulating upland surface, with deep valleys at the rivers. Between the Green and Cumberland Rivers the surface is level and known as the "Barrens," with occasional low round-topped hills, which are covered with oaks. The western part is generally level, varied by slight undulations. The soil is generally fertile, that portion between Lexington and the Ohio River especially so, being commonly known as the "Garden of Kentucky." The chief products are tobacco, corn, wheat, oats, rye, barley, potatoes, and hemp. Kentucky has acquired a world-wide fame for its thoroughbred horses and short-horn cattle. The wool clip is very large, and immense numbers of swine are raised. Dairy products are very extensive; also sorghum-imolasses, maple-sugar, honey, and wax; some cotton is raised in the southwest, near the Tennessee, Cumberland, and Mississippi rivers. The manufacturing interests are varied and important, and are carried on chiefly in the towns on the Ohio River; the most extensive industry is the smelting and working of iron. Whisky is an important product of the central counties. Salt is made in large quantities from the springs of Clay and other counties.

There are 117 Counties in Kentucky. Newspapers are published in 77.—Cities, towns, and villages in which papers are published number 90, of which 71 designated by a dagger (†) are county-seats. Of the 183 papers which insert advertisements published in the State, 11 are daily, 2 tri-weekly, 7 semi-weekly 139 weekly, 2 semi-monthly, and 22 monthly.

TENNESSEE.

Population 1,542,463..... Dem. Plur. 20,514
 Colored, 403,343. Gbk. vote, 5,916.

STATE CAPITAL, NASHVILLE.

TENNESSEE is bounded north by Kentucky and Virginia; southeast by North Carolina; south by Georgia, Alabama, and Mississippi; west by Arkansas and Missouri; greatest length from east to west 432 miles, breadth 109 miles;—area about 45,600 square miles. The State is popularly divided into East, Middle, and West Tennessee. East Tennessee comprises the eastern mountain border, the beautiful East Tennessee Valley, and about half of the Cumberland Mountain plateau. Middle Tennessee reaches from about the centre of the plateau to the Tennessee River, and is a region of fertile terraces, including the vast elliptical basin of nearly 5,000 square miles, known as the Garden of Kentucky. West Tennessee extends from the Tennessee River to the Mississippi, and is somewhat broken in the east, succeeded by a rolling plain descending to the latter river. The Mississippi bottom is a low, flat, alluvial plain, covered with forests and abounding with lakes and swamps. West Tennessee is extremely fertile, and produces corn and cotton in large quantities. Middle Tennessee is generally fertile, giving excellent grain, tobacco, and much cotton, especially toward the south. East Tennessee valley lands are fertile, producing corn, cotton, and winter-wheat; potatoes, oats, hay, and hemp are extensively produced; great numbers of stock are raised, and the wool-clip is large and excellent. Tennessee is rich in marble of various kinds, limestone and other building-stone; valuable copper mines exist in Polk County; coal and iron-ore are very abundant. Iron mining and smelting is becoming very extensive, and much iron-ore is exported to the iron-working towns on the Ohio River. There were 40 cotton mills in operation in 1875. The lumbering interest is very great. Wool-carding and cloth-dressing are carried on extensively. Flouring and grist-mill products are very large.

There are 94 Counties in Tennessee. Newspapers are published in 68.—Cities, towns and villages in which papers are published number 87, of which 64 designated by a dagger (†) are county-seats. Of the 168 papers which insert advertisements published in the State, 11 are daily, 2 semi-weekly, 135 weekly, 1 bi-weekly, 4 semi-monthly, 13 monthly and 2 quarterly.

OHIO.

Population 3,198,239.....Rep. Plur. 34,227
Gbk. vote, 6,456.

STATE CAPITAL, COLUMBUS.

Ohio is bounded north by Michigan and Lake Erie, east by Pennsylvania and West Virginia, south by West Virginia and Kentucky, and west by Indiana; greatest length from east to west 225 miles; greatest breadth 200 miles; area about 39,964 square miles. The general character of the surface is that of a plateau from about 800 to 1,000 feet above the sea. The most prominent feature is the great divide which separates the drainage of Lake Erie from that of the Ohio River. This passes diagonally across the State from Trumbull County in the northeast to Mercer and Darke Counties in the west. Its average height is about 600 feet above the lake; and from it the surface slopes gradually northward toward the lake and southward toward the River. The rivers and streams have excavated deep valleys, which give to the surface its distinctive undulating or rolling character. The soil is universally fertile; and Ohio holds a leading position in every branch of agriculture. The uplands are well suited to wheat, the southern slope of the water-shed to grain generally, the northern slope for grazing and dairying, and the northeast section or Western Reserve especially so. The bottom lands of the Miami, Muskingum, and Scioto rivers are very rich in corn; the Western Reserve and Miami regions are famous for apples. Flax and linseed are staple products, and tobacco is largely grown in most of the southern counties. The fishing interests of Lake Erie are important. The manufactures of the State are very numerous and valuable. Iron, pork-packing, farm implements, clothing, flouring and grist mill products, lumber, malt and distilled liquors being among the most important.

There are 88 Counties in Ohio. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 255, of which 88 designated by a dagger (†) are county-seats. Of the 698 papers which insert advertisements published in the State, 49 are daily, 7 tri-weekly, 5 semi-weekly, 547 weekly, 3 bi-weekly, 7 semi-monthly, 71 monthly, 1 bi-monthly, and 8 quarterly.

INDIANA.

Population 1,978,362.....Rep. Plur. 6,642
Gbk. vote, 12,986.

STATE CAPITAL, INDIANAPOLIS.

INDIANA is bounded north by Michigan and Lake Michigan, east by Ohio, south by Kentucky, and west by Illinois. Its extreme length north and south is 276 miles; average breadth 140 miles; area about 33,809 square miles. About two thirds of the surface is undulating or level prairie; near the Ohio and other streams the surface is hilly and often abrupt and rugged. In the extreme northwest there is a sandy tract, with considerable marsh-land. The northeast abounds in oak-openings-and prairie land, interspersed with many small lakes. The soil is generally fertile, much of it exceedingly so; the richest is found along the Wabash, White, and White Water Rivers. There is abundance of coal of good quality. The iron-ore product is considerable, and there are several salt-springs. Indiana ranks high as a grain-producing and stock-raising State. Corn, wheat, oats, tobacco, and potatoes are raised in large quantities. Butter, wool, hay, maple-sugar, and sorghum-molasses also, are important products; timber is largely exported. Manufactures are numerous and extensive, the chief industries being flouring and grist-mill products, lumber, woolen goods, furniture, carriages and wagons, iron and iron-ware, machinery, agricultural implements, pork-packing, liquors, metallic wares, leather, boots, shoes, and clothing.

There are 92 Counties in Indiana. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 175, of which 92 designated by a dagger (†) are county-seats. Of the 454 papers which insert advertisements published in the State, 44 are daily, 2 tri-weekly, 1 semi-weekly, 373 weekly, 8 semi-monthly, and 26 monthly.

ILLINOIS.

Population 3,078,769.....Rep. Plur. 40,716
Gbk. vote, 26,358.

STATE CAPITAL, SPRINGFIELD.

ILLINOIS is bounded north by Wisconsin, northeast by Lake Michigan, east by Indiana, southeast and south by Kentucky, and west by Missouri and Iowa; extreme length north and south 385 miles; extreme breadth 218 miles; area about 55,410 square miles. The surface is mostly level table-land, inclining gently toward the south, with bluffs along the principal rivers. A small tract in the northwest, around Galena, is somewhat broken, and a low mountain ridge extends across the southern end from Grand Tower, on the Mississippi River, to Shawneetown, on the Ohio, about 850 feet above sea-level. This is a great fruit region. The prairies are sometimes level, but generally undulating. More than two thirds of the State is a productive bituminous coal-field. The iron-ore is good only when mixed with Michigan and Missouri ores. Much lead and zinc are mined in the northwest. Limestone and freestone abound. The prairie soils are deep and fertile; that of the river bottoms is often inexhaustible. A tract called the American Bottom, extending along the Mississippi River a length of ninety miles by about five in breadth, has an alluvial soil about twenty-five feet in depth. Illinois is unequalled as an agricultural State, and is among the first in manufactures. Spring and winter wheat, corn, and other cereals, dairy produce, wool, and hay, are leading products. The industrial pursuits embrace a wide range of articles, and the seats of manufacture are distributed generally throughout the State. Fishing interests centre chiefly at Chicago.

There are 102 Counties in Illinois. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 332, of which 102 designated by a dagger (†) are county-seats. Of the 872 papers which insert advertisements published in the State, 72 are daily, 5 tri-weekly, 16 semi-weekly, 669 weekly, 3 bi-weekly, 13 semi-monthly, 87 monthly, and 7 quarterly.

MICHIGAN.

Population 1,636,335.....Rep. Plur. 53,890
Gbk. vote, 34,795.

STATE CAPITAL, LANSING.

MICHIGAN is bounded north by Lake Superior, east by Lakes Huron, St. Clair, and Erie, and their connecting rivers, south by Ohio and Indiana, and west by Lake Michigan; land area about 56,451 square miles. It consists of two peninsulas, of which the southern is the principal seat of wealth and population. It is a very level region, abounding in lakes and streams, with very extensive forests of pine and other timber in the north, oak-openings or natural parks in the south, and prairies in the southwest. The soil contains sufficient sand to make it easily tilled, and few sections excel this part of the State as a farming region. In the west and southwest is the great fruit-belt. Winter wheat, oats, and potatoes are abundant and of excellent quality; corn and other cereals are largely grown. Dairy products are very valuable. Wool is raised in very large quantities; live-stock is plentiful. Peppermint is raised extensively in the southwest, and grapes in the south. The surface of the northern peninsula is generally rough and mountainous, with a severe climate and poor soil; but its mineral wealth is very great, especially in copper, iron and silver. Manufactures are important and varied in extent. Among the leading are iron, lumber, salt, wooden-ware, furniture, farm implements, leather, cotton and woolen goods, machinery, castings, and hollow-ware.

There are 78 Counties in Michigan. Newspapers are published in 74.—Cities, towns, and villages in which papers are published number 229, of which 72 designated by a dagger (†) are county-seats. Of the 452 papers which insert advertisements published in the States, 33 are daily, 4 tri-weekly, 3 semi-weekly, 334 weekly, 3 bi-weekly, 4 semi-monthly, 18 monthly, 1 bi-monthly, 1 every six weeks, and 1 quarterly.

WISCONSIN.

Population 1,315,480.....Rep. Plur. 29,763
Gbk. vote, 7,980.

STATE CAPITAL, MADISON.

WISCONSIN is bounded north by Lake Superior, northeast by Michigan, east by Lake Michigan, south by Illinois, and west by Iowa and Minnesota. Its greatest length from north to south is 300 miles; greatest breadth, 260 miles; area about 53,924 square miles. The surface is generally an elevated plain, with high bluffs along the rivers and lakes, and elsewhere gently undulating, diversified with prairie, woodlands, and numerous lakes. The State ranks high in agricultural products. The forest region in the north is but thinly settled, has a rigorous climate, and the soil is poor. Wheat, corn, rye, oats, barley, potatoes, dairy products, and maple-sugar are all raised in large quantities; hops are exceedingly prolific; fruit-growing is an important industry. Large numbers of horses are bred; sheep are numerous, and the wool clip large and valuable. Copper-ore is worked at several points; galena, limestone, lead, and zinc in the southwest. The lakes and streams abound with fish, especially trout and grayling. Manufactures are thriving and numerous, lumber and wood-work of all kinds holding a very prominent position. Leather, boots and shoes, saddlery, metallic wares, bricks and lime are important branches of manufacture.

There are 63 Counties in Wisconsin. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 152, of which 61 designated by a dagger (†) are county-seats. Of the 330 papers which insert advertisements published in the State, 22 are daily, 3 tri-weekly, 2 semi-weekly, 273 weekly, 2 bi-weekly, 7 semi-monthly, and 21 monthly.

MISSOURI.

Population 2,168,804..... Dem. Plur. 55,042.

Gbk. vote, 35,045.

STATE CAPITAL, JEFFERSON CITY.

MISSOURI is bounded north by Iowa, east by Illinois, Kentucky, and Tennessee, south by Arkansas, west by Indiana, Kansas, and Nebraska; length north to south, 277 miles; average breadth, about 244 miles, ranging from 208 miles in the north to 312 miles in the south; area about 65,780 square miles. The Missouri River divides the State into two distinct parts. The surface north of the river is generally nearly level, while that south of it is undulating, becoming rougher and somewhat mountainous as it approaches the Ozark Mountains. There are also here open treeless plains, an extension of those in Kansas, and in the southeast, bordering on the Mississippi River, is an extensive marshy tract, called the "Sun Country," the result of the earthquake of 1811-12. It contains every variety of soil. Corn, wheat, oats, and tobacco are the staple products, but barley, rye, hay, fruit, white and sweet potatoes, dairy and market garden products, wool, cattle, and pork are raised largely in excess of home needs. Sorghum and castor-oil-beans are largely produced. Cotton, hemp, and flax are cultivated to some degree in the southern counties; so are grapes, and much wine is made. The principal live-stock are sheep and swine. Iron and lead ore are mined and manufactured in very large quantities, and the supply is inexhaustible. Many other minerals abound; also marble, limestone, glass-sand, kaolin, fire-clay, etc. Beside iron and lead, there are important manufactures in many branches of trade.

There are 114 Counties in Missouri. Newspapers are published in 113.—Cities, towns, and villages in which papers are published number 201, of which 109 designated by a dagger (†) are county-seats. Of the 509 papers which insert advertisements published in the State, 42 are daily, 4 tri-weekly, 3 semi-weekly, 402 weekly, 9 semi-monthly, 45 monthly, 3 bi-monthly, and 1 quarterly.

IOWA.

Population 1,624,463.....Rep. Plur. 78,059
Gbk. vote, 82,337.

STATE CAPITAL, DES MOINES.

IOWA is bounded north by Minnesota, east by Wisconsin and Illinois, south by Missouri, and west by Nebraska and Dakota. Its greatest length from east to west is 300 miles, and breadth 208 miles; area about 55,045 square miles. The surface is generally rolling prairie, with no mountains nor even high hills, but with frequent bluffs along streams; and in places near large rivers it presents a broken appearance, caused by erosion from torrents. The southern part is the most level, beautifully diversified with prairies, groves, and the numerous affluents of the two great rivers. In the northeast the surface is more elevated, with numerous low hills with tops covered with oaks, and abounding in lead and other ore; but the distinguishing feature of Iowa is its beautiful diversified prairies, which are everywhere fertile and easily tilled, and having few stones or stumps, are especially adapted for the use of agricultural machinery. The valleys of the Red Cedar, Iowa, and Des Moines rivers contain the richest soils; northward of these the soil becomes less fertile, but still productive and remunerative. Building-stone is abundant; coal and lead are very extensively worked. Iron-ore and other minerals are found. The cereals generally, dairy and market-garden products, wool, linseed, sorghum, and live-stock of all kinds are very largely produced. Grapes grow well in the south, and fruit-culture is increasing. The manufacturing interests are rapidly developing, the leading branches being flour, lumber, wood-working, carriages, woolen goods, boots and shoes, pork-packing, saddlery, furniture, malt liquors, and farm implements.

There are 99 Counties in Iowa. Newspapers are published in all.—Cities, towns, and villages in which papers are published number 272, of which 95 designated by a dagger (†) are county-seats. Of the 538 papers which insert advertisements published in the State, 33 are daily, 1 tri-weekly, 5 semi-weekly, 474 weekly, 1 bi-weekly, 1 semi-monthly, 21 monthly, 1 bi-monthly, and 1 quarterly.

MINNESOTA.

Population 776,940.....Rep. Plur. 40,588
Gbk. vote, 3,267.

STATE CAPITAL, ST. PAUL.

MINNESOTA is bounded north by British America, east by Wisconsin and Lake Superior, south by Iowa, and west by Dakota. Its extreme length from north to south is 380 miles; breadth varies from 183 miles in the centre to 262 on the south line, and about 330 on the north border; area about 83,531 square miles. The surface is generally an undulating plain, diversified with rolling prairies, dotted with lakes and groves, with frequent timber belts. The northeast is generally rugged and hilly, with immense forests and much marsh-land. The Red River Valley is a dead level. The southeast is a beautiful rolling prairie region, while the surface rises from the undulating prairies of the south and southwest to the Hauteur des Terres or Heights of Land in the northwest. It is thought that the northeast may develop valuable mineral resources, but the yield of minerals is at present unimportant. The soil is fertile, about two thirds of it being adapted to the cultivation of cereals and general farm produce. Very large quantities of spring wheat are raised even as far as the Manitoba line, while corn grows well all over the State. Oats, barley, hops, flaxseed, and hay are leading products. Wool-growing is remunerative in the southwest. Maple-sugar is an important product. Cattle, horses, and swine are largely exported, and pork-packing is a valuable industry. Manufactures are rapidly increasing in number and value. The leading branches are flour and grist mill products, lumber and woodenware, carriages, furniture, and cooperage, while boots and shoes, brick, leather, lime, saddlery, and woolen goods are also extensively manufactured.

There are 78 Counties in Minnesota. Newspapers are published in 73.—Cities, towns, and villages in which papers are published number 124, of which 61 designated by a dagger (\dagger) are county-seats. Of the 219 papers which insert advertisements published in the State, 12 are daily, 197 weekly, 1 bi-weekly and 9 monthly.

KANSAS.

Population 995,966.....Rep. Plur. 61,731
 Colored. 43,910. Gbk. vote, 19,710.

STATE CAPITAL, TOPEKA.

KANSAS is bounded north by Nebraska, east by Missouri, south by the Indian Territory, and west by Colorado. Its length from east to west is 410 miles, and from north to south 210 miles; area about 81,318 square miles. The surface is chiefly undulating in the east, while the western part has a rolling and varied surface, with every requisite for grazing. There are no mountains, very few lakes, and those small and shallow; no marshes but salt marshes, and these are valuable; and probably only five per cent. of the area is forest, and this is distributed mainly along streams and in occasional groves and small tracts. The western half, however, is very scantily supplied with timber but there is an abundance of coal, which is used for domestic purposes, but not for export, and several varieties of good building-stone. The bottom and table lands are chiefly a rich black loam, and highly productive. Winter and spring wheat, corn, rye, oats, and potatoes are the chief products, while broom-corn, sorghum, flax, hemp, castor-beans, tobacco, and hay are also largely produced. Cattle raising is a prominent industry, and sheep farming is becoming frequent in the western part. Dairy products are increasing rapidly, and progress is also being made in fruit-growing and wine-making. Manufactures are being developed, and the number of establishments is rapidly increasing, but at present the chief industries are agriculture, stock-raising, and fruit-culture.

There are 104 Counties in Kansas. Newspapers are published in 85.—Cities, towns, and villages in which papers are published number 177, of which 76 designated by a dagger (†) are county-seats. Of the 327 papers which insert advertisements published in the State, 20 are daily, 289 weekly, 1 semi-monthly, and 17 monthly.

NEBRASKA.

Population 452,432.....Rep. Plur. 26,456
Gbk. vote, 3,853.

STATE CAPITAL, LINCOLN.

NEBRASKA is bounded north by Dakota, east by Iowa and Missouri, south by Kansas and Colorado, and west by Colorado and Wyoming Territory. Its extent from north to south is about 210 miles; greatest length about 420 miles; area about 75,995 square miles. The surface is generally a vast gently undulating plain, with a gradual ascent toward the mountains; the river bottoms are level. There are some bluffs along the Missouri River, some hills in the northwest which is also partly occupied by the Mauvais Terres or Bad Lands. The Missouri is the only navigable river. East of the Bad Lands and south of the Niobrara is a tract of sand hills which afford some pasture. Timber is scarce. There is little coal, and that poor, but peat abounds. Brick and potter's clay plentiful, and there are extensive saline deposits; good building-stone abundant. The eastern half of the State is a rich agricultural region, and the west is mainly adapted to grazing; the bottom lands are very rich. The leading products are wheat, corn, barley, oats, sorghum, flax, and hemp; vegetables, small fruits, and grapes are raised extensively. More than 150 species of wild grasses have been classified, which afford excellent pastureage to large numbers of cattle and sheep. There is some manufacturing of various articles, chiefly needed for home consumption.

There are 70 Counties in Nebraska. Newspapers are published in 59.—Cities, towns, and villages in which papers are published number 105, of which 59 designated by a dagger (†) are county-seats. Of the 186 papers which insert advertisements published in the State, 11 are daily, 166 weekly, 3 semi-monthly, and 6 monthly.

COLORADO.

Population 194,649.....Rep. Plur. 2,803

Gbk. vote, 1,435.

STATE CAPITAL, DENVER.

COLORADO is bounded north by Nebraska and Wyoming Territory, east by Nebraska and Kansas, south by the Indian Territory and New Mexico, and west by Utah. Average length from east to west 380 miles, breadth, 280 miles; area about 104,500 square miles. The surface consists of three divisions—the mountains and parks, the foot-hills, and the plains. It is intersected near the centre by the Sierra Madre Range of the Rocky Mountains, including the highest peaks, among which are Pike's and Long's Peaks, Mts. Torrey, Lincoln, Gray, Yale, Harvard, the Spanish Peaks, etc. The mountains enclose the wonderful valleys or basins known as parks, many of which are small, but others larger than some entire States. These parks are well timbered, and abound with beautiful scenery, being diversified with low hills and ridges, which contain the sources of all the great rivers that rise in the State. The eastern part of Colorado is an immense plain, well adapted to stock-raising. Agriculture is not carried on to any great extent, as extensive irrigation is in most cases necessary to render the soil productive. Where this is resorted to, the yield is very good. Cattle raising and sheep farming are the chief agricultural pursuits. Lumbering is an important industry, but the mining of gold, silver, and other metals is the chief source of wealth.

There are 32 Counties in Colorado. Newspapers are published in 28.—Cities, towns, and villages in which papers are published number 45, of which 23 designated by a dagger (†) are county-seats. Of the 106 papers which insert advertisements published in the State, 19 are daily, 84 weekly, and 3 monthly.

NEVADA.

Population 62,265..... Dem. Maj. 879

Chinese, 5,420.

STATE CAPITAL CARSON CITY.

NEVADA is bounded north by Oregon and Idaho, east by Utah and Arizona, and southwest and west by California. Extreme length from north to south, 485 miles in the eastern, and 210 in the western boundary; greatest breadth, 320 miles, decreasing to 310 miles in the north and to a point in the south; area 104,125 square miles. Surface generally is a table-land about 4,000 feet above the sea, traversed by nearly parallel mountain ranges, between which are valleys varying in width from 5 to 20 miles, in some cases narrow canyons, and in others broad deserts, covered with sage-brush and other scanty herbage. The soil when irrigated is fertile, and produces spring wheat, barley, oats, potatoes, butter, hay, wool, etc. There is much good pasture, and cattle fatten readily upon it. Cotton and sub-tropical fruits do well in the south. It has for years been the leading State in the production of the precious metals. The milling and smelting of ore is the leading manufacturing pursuit. Lumber sawing, once important, is declining, owing to the rapid disappearance of the forests.

There are 15 Counties in Nevada. Newspapers are published in 13.—Cities, towns, and villages in which papers are published number 17, of which 12, designated by a dagger (†) are county-seats. Of the 30 papers which insert advertisements published in the State, 13 are daily, 16 weekly, and 1 monthly.

CALIFORNIA.

Population 864,686..... Dem. Plus. 78
 Chinese, 75,025. Gbk. vote 3,392.

STATE CAPITAL, SACRAMENTO CITY.

CALIFORNIA is bounded north by Oregon, east by Nevada and Arizona, south by Lower California, and west by the Pacific Ocean. A line drawn through its centre, following the curves of the eastern and western borders, would measure about 770 miles. Its greatest breadth is about 330 miles; least breadth 150 miles; average breadth 230 miles; area about 188,981 sq. miles. It is the largest State in the Union except Texas. The surface is traversed by two great ranges, the Sierra Nevada in the east and the Coast Range in the west, while between them is the beautiful and fertile valley of the rivers Sacramento and San Joaquin. The Yosemite and other valleys are on the western slope of the Sierra Nevadas, and the eastern slope teems with minerals. The north is an elevated mountain region, with a rugged surface and poor soil. The soil of a large part of the State is very deep and rich, and the yield of agricultural products generally is very great. The wheat crop sometimes amounts to over 13,000,000 bushels, and the wool-clip to 24,000,000 pounds. As many as 5,000,000 gallons of wine and 150,000 gallons of brandy have been made in a single season. Dried fruits are extensively produced; oranges, lemons, and other tropical fruits, and honey, are raised in the south, and tobacco, corn, barley, and hops in various parts of the State. Indeed, California is famous for her wheat, wool, vineyard produce, and agricultural products generally, scarcely less than for her yield of the precious metals. Manufacturing interests are growing rapidly, the principal being lumber, flour, woolens, wine, brandy, tobacco, cigars, machinery, and metallic wares. There is considerable fishing and coasting-trade.

There are 52 Counties in California. Newspapers are published in 51.—Cities, towns, and villages in which papers are published number 107, of which 50 designated by a dagger (†) are county-seats. Of the 313 papers which insert advertisements published in the State, 50 are daily, 2 tri-weekly, 9 semi-weekly, 219 weekly, 1 bi-weekly, 7 semi-monthly, 23 monthly, 1 bi-monthly, and 1 quarterly.

OREGON.

Population 174,767.....Rep. Plur. 671

STATE CAPITAL, SALEM.

OREGON is bounded north by Washington Territory, east by Idaho, south by Nevada and California, and west by the Pacific Ocean; average length from east to west about 360 miles; average breadth about 260 miles; area about 95,274 square miles. It is divided unequally by the Cascade Mountains. East of this range the surface is generally undulating table-land, with high cone-like hills and deep canyons. Between the Cascade and Coast Ranges is the Willamette Valley, 40 miles wide by 140 miles long, and exceedingly fertile; from the Coast Range westward the surface is mountainous, hilly, and broken. This section is suited for wool-growing, stock-raising, and the growth of winter wheat, barley, oats, and hay. The eastern portion does better as a stock-raising region, but good wheat is grown there. In the valley, wheat, hops, tobacco, wool, flax, fruit, linseed, dairy products, and potatoes are raised in large quantities. Corn does not thrive, as the summers are too cool. Manufactures are lumber—the large Douglas spruce affording the best masts and spars in the world; leather, boots and shoes, saddlery, milling and smelting of ores, carriages, furniture, liquors, linseed-oil, etc. The packing of beef and pork, and canning of salmon are successfully carried on. Gold and silver are produced, but not in very large amounts; copper and iron-ore are abundant; potter's clay, glass-sand, granite, marble, etc., are plentiful.

There are 23 Counties in Oregon. Newspapers are published in 21.—Cities, towns, and villages in which papers are published number 32, of which 19 designated by a dagger (†) are county-seats. Of the 70 papers which insert advertisements published in the State, 8 are daily, 56 weekly, 1 semi-monthly, and 5 monthly.

ARIZONA.

Population 40,441..... Dem. Maj. 489 (Congressional.)
 Chinese, 1,630.

TERRITORIAL CAPITAL, PRESCOTT.

ARIZONA is bounded north by Utah and Nevada, south by New Mexico, and west by California and Nevada. Area about 113,916 square miles. It lies entirely within the Valley of the Colorado. The streams generally flow through deeply eroded chasms. The soil is very fertile when irrigated, even on the alkaline plains; and the mountain lands are well adapted to stock-raising and wool-growing. Wheat, barley, and corn appear to be the principal crops; but pastoral occupations are better suited to the country, and more profitable than strictly agricultural pursuits. The chief wealth of the Territory, however, lies in its mineral deposits. Gold, silver, lead, copper, iron, cinnabar, salt, borax, etc., abound, and the mining and working of gold and silver ores is at present the leading industry.

There are 9 Counties in Arizona. Newspapers are published in 7.—Cities, towns, and villages in which papers are published number 10, of which 5 designated by a dagger (†) are county-seats. Of the 26 papers which insert advertisements published in the Territory, 8 are daily, and 18 weekly.

DAKOTA is bounded north by Manitoba, east by Minnesota and Iowa, south by Nebraska, and west by Wyoming and Montana; area about 148,932 square miles. It is intersected by the Missouri River, which is here navigable. Most of the eastern part is dry rolling prairie, with many lakes and streams. The southwest contains large tracts of the Bad Lands, while to the north and west of this region are the Black Hills. Some of the highlands and river bottoms are well wooded, but the Territory as a whole is rather deficient in timber. The soil is exceedingly varied; that of the Bad Lands and some high land is inarable, but the Missouri River bottoms are exceedingly fertile. The northeast or Pembina country is a fine wheat section, as are also the prairie lands along the line of the Northern Pacific Railroad and the smaller river bottoms. Corn and other cereals, potatoes, tobacco, etc., grow well in the south. A great part of the Territory affords every requisite for successful stock-raising. Gold and silver are found in the Black Hills. There are no manufactures of importance.

There are 61 Counties in Dakota. Newspapers are published in 34.—Cities, towns, and villages in which papers are published number 50, of which 26 designated by a dagger (†) are county-seats. Of the 74 papers which insert advertisements published in the Territory, 9 are daily, 1 tri-weekly, 2 semi-weekly, and 62 weekly.

IDAHO.

Population 32,611..... Dem. Plur. 1,514 (Congressional).

Chinese, 3,878.

TERRITORIAL CAPITAL, BOISE CITY.

IDAHO is bounded north by British Columbia, east by Montana and Wyoming, south by Utah, and west by Oregon and Washington; area about 86,294 square miles. The surface is chiefly mountainous, but there are also large tracts of prairie and fertile valleys. In the southeast is a volcanic region, abounding in geysers and saline springs. It is generally better adapted for grazing than agriculture. Corn is not profitably raised, owing to the shortness of the summer. Barley, wheat, oats, potatoes, dairy products and wool are the staples. There are vast tracts covered with sage-grass, on which cattle fatten readily. Many of these plains, if irrigated, would make excellent wheat-growing districts. Gold and silver are plentiful in all parts of the territory, and are largely produced.

There are 18 Counties in Idaho. Newspapers are published in 8.—Cities, towns, and villages in which papers are published number 9, of which 5 designated by a dagger (†) are county-seats. Of the 14 papers which insert advertisements published in the Territory, 1 is tri-weekly, 2 semi-weekly, and 11 weekly.

MONTANA.

Population 39,157..... Dem. Maj. 1,428 (Congressional).
 Chinese, 1,737.

TERRITORIAL CAPITAL, VIRGINIA CITY.

MONTANA is bounded north by British America, east by Dakota, south by Wyoming and Idaho, and west by Idaho; area about 145,776 square miles. Surface generally mountainous, especially in the west. Along the three forks of the Missouri River, as well as elsewhere through the Territory, there is much undulating prairie, with a fertile soil. The Missouri River is navigable to Fort Benton; the Yellowstone is also navigable. Perhaps nowhere else are such advantages offered to the stock-raiser and wool-grower as are here found. Very little hay or winter foddering is needed, the stock feeding on the rich grasses and rausing all winter in the sheltered valleys. Of agricultural staples, spring wheat, potatoes, butter, barley, oats, and vegetables are the most prominent. The chief minerals are gold and silver, of which large quantities are obtained. Leading manufacturing interests are lumber-sawing, quartz milling and stamping, flour, etc.

There are 11 Counties in Montana. Newspapers are published in 9.—Cities, towns, and villages in which papers are published number 10, of which 7 designated by a dagger (†) are county-seats. Of the 16 papers which insert advertisements published in the Territory, 3 are daily, and 13 weekly.

NEW MEXICO.

Population 118,430.....Rep. Maj. 1,273 (Congressional).

TERRITORIAL CAPITAL, SANTA FE.

NEW MEXICO is bounded north by Colorado; east by the Indian Territory and Texas; south by Texas and Mexico; and west by Arizona;—area, about 121,201 square miles. Its general surface is a region of high plateaus, traversed by mountain ranges with isolated peaks. The valleys are generally nearly level, and their soil fertile when irrigated. In the east is a part of the barren "Llano Estacado" or "Staked Plain." Stock-raising and wool-growing are the leading occupations, the bunch-grass affording rich pasture, and neither hand-feeding nor shelter is ever necessary for the herds and flocks. Agriculture is successful only when irrigation is resorted to, and wheat, corn, beans, and onions are the chief crops. Of fruits, the apple, peach, melon, fig, apricot, pomegranate, and especially grapes, flourish. Gold, silver, copper, iron, and lead exist, and all are worked to some extent. Manufactures are confined principally to grain, quartz, and lumber milling, the making of blankets by the Navajo Indians, and coarse pottery by the Pueblos.

There are 12 Counties in New Mexico. Newspapers are published in 7.—Cities, towns, and villages in which papers are published number 9, of which 6 designated by a dagger (†) are county-seats. Of the 19 papers which insert advertisements published in the Territory, 3 are daily, 1 semi-weekly, 14 weekly and 1 monthly.

UTAH.

Population 143,907Mormon Maj. 17,203 (Congressional).

TERRITORIAL CAPITAL, SALT LAKE CITY.

Utah is bounded north by Idaho and Wyoming; east by Wyoming and Colorado; south by Arizona; and west by Nevada;—area about 84,476 sq. m. The surface is very mountainous, interspersed with arid plains, valleys, and basins; much of it is utterly sterile. Irrigation is nearly everywhere necessary; but if a perfect system were adopted, much of the soil now worthless would produce good crops, as it contains most, if not all, of the elements of fertility. Wheat, oats, barley, corn, potatoes, dairy produce, hay, and wool are the chief products. Cattle raising is a profitable industry, and is often successfully carried on where farming is impracticable. The chief wealth of the territory, however, is in its minerals. Gold and silver are largely produced, as are also lead, iron, copper, coal, and salt. Manufactures are chiefly those of goods needed for home consumption, but of late extensive works for the mining and smelting of ores have been established.

There are 23 Counties in Utah. Newspapers are published in 7.—Cities, towns, and villages in which papers are published number 9, of which 5 designated by a dagger (†) are county-seats. Of the 23 papers which insert advertisements published in the Territory, 4 are daily, 7 semi-weekly, 7 weekly, 2 semi-monthly, and 3 monthly.

WASHINGTON.

Population 75,120.....Rep. Maj. 1,797 (Congressional).

(Chinese, 3,182.)

TERRITORIAL CAPITAL, OLYMPIA.

WASHINGTON is bounded north by British Columbia, east by Idaho, south by Oregon, and west by the Pacific Ocean; area about 69,994 square miles. It is divided by the Cascade Mountains into two distinct sections. The western is a heavily timbered country, rugged and broken, with a few fertile prairies. The eastern has extensive plains, although it has also some broken surface; timber, as a rule, much less abundant. This section is admirably adapted to stock-raising, the soil of its prairies well suited for agriculture; but the chief agricultural region however, is in the western section, although corn does not thrive so well there, because the summers are too cool. Wheat, barley, oats, hay, and butter are the chief crops; a little gold and silver are mined; salt abounds on the Spokane Plain, and there is good coal. The chief article of export is lumber; some ship-building is carried on. There is considerable fishing, especially salmon, the canning and salting of which is a prominent industry.

There are 23 Counties in Washington. Newspapers are published in 12.—Cities, towns, and villages in which papers are published number 16, of which 9 designated by a dagger (†) are county-seats. Of the 28 papers which insert advertisements published in the Territory, 9 are daily, 1 tri-weekly and 24 weekly.

NOVA SCOTIA.

PROVINCIAL CAPITAL, HALIFAX.

NOVA SCOTIA consists of a very narrow peninsula called Nova Scotia proper, and of the island of Cape Breton. It is bounded north by Prince Edward Island and the Gulf of St. Lawrence; northeast, southeast, south, and southwest by the Atlantic Ocean; northwest by the Bay of Fundy and New Brunswick. Greatest length from northeast to southwest 350 miles; greatest breadth about 120 miles; area about 21,781 square miles. The Cobeguid Range runs through the interior, the soil on both sides of which is very fertile; also in the beautiful valley of the Annapolis River. Agricultural productions are very extensive; wheat, rye, oats, barley, buckwheat, corn, vegetables, and fruit grow abundantly. The minerals are gold and iron, the latter inexhaustible and of a fine quality. Manganese, gypsum, and roofing-slate abound. Manufactures are numerous, and include coarse cloths, flannels, blankets, carpets, boots and shoes, saddlery, furniture, and farm implements. Ship-building is important. The fisheries are very abundant, those of Newfoundland alone, perhaps, exceeding them in value.

Newspapers are published in 14 Counties of this Province.—Cities, towns, and villages in which papers are published number 19, of which 9 designated by a dagger (†) are county-seats. Of the 48 papers which insert advertisements published in the Province, 5 are daily, 3 tri-weekly, 34 weekly, 2 bi-weekly, and 4 monthly.

MANCHESTER, N. H. is a large, live, and growing city. According to the census of 1880, it contained 32,458 inhabitants, and was in population the first in the State, the seventh in New England, and the fifty-fourth in the Union. Since that time, two new mills, employing nearly 1500 operatives, have been started, and her population is to-day more than 35,000. The city is situated in a section of the State which is populated more than one tenth of the entire State. She pays one ninth of the State tax, is the fourth city of the Union in the value of her cotton and woolen manufactures, and the third in New England in growth during the last decade. She makes 179 miles of cloth per day, can build fifteen locomotives a month and fifty steam fire engines a year, and an endless variety of other products of skill and industry. Her corporations run nearly 400,000 spindles, employ 10,000 operatives, and pay in monthly wages nearly \$400,000.

ITS TWO LEADING PAPERS:

The Daily Mirror and American

Has been for thirty years the leading, most widely circulated, and most influential daily in Manchester. It has grown with the city from small beginnings to great strength and stability. It is read in nearly every intelligent and well-to-do family in the city and its vicinity, and is the one paper which reflects at once the best opinions and the enterprise, courage, and thrift of the best classes. It issues *three editions daily*, and as an advertising medium is worth more than all others that circulate here.

The Weekly Mirror and Farmer

Is an eight-page weekly, issued every Thursday morning. It has a larger circulation than any other newspaper published in New England out of Boston, and stands confessedly at the very head of the list of New Hampshire journals. Its Agricultural Department is without a rival in State papers, and commands the support of farmers of all classes and parties, and its Soldiers' Department makes it a household word in the family of every Union veteran in New Hampshire and Vermont.

No advertiser can reach the best patronage in these States through any other source.

Advertisements in MIRROR and FARMER, 10 cents a line or \$1.20 an inch each insertion, or \$45 an inch a year; in DAILY, the same for one insertion, all editions; three insertions, \$2.25; one week, \$3.37; one year, \$30. No extra charge for unobjectionable cuts, but they must be on solid metal body. No discount from rates. Don't send offers under price. Specimen copies sent free on application.

THE NEWSPAPERS OF THE NATIONAL CAPITAL:

The Evening Star AND The Weekly Star

ESTABLISHED THIRTY YEARS

WASHINGTON, D. C.

THE EVENING STAR—on Saturdays a double sheet or eight-page paper of fifty-six columns the size of the New York dailies—is everywhere recognized as the leading newspaper of Washington. With two exceptions only, it has a larger circulation than any other daily paper published south of New York, and more than treble that of any other paper published in Washington.

Every issue of THE STAR is carefully read, not only by the citizens of Washington and adjacent cities and towns, but by the throngs of strangers constantly visiting the National Capital on business or for pleasure, and who constitute in a very large degree the purchasing population of every State and Territory in the Union, thus making it for most purposes the best advertising medium in the United States.

The evidence of this is the number of new advertisements it printed in the year 1880, which was 21,482, averaging from 1700 to 2000 per month in the busy season. The advertising books are open to the inspection of advertisers to verify this statement, or an affidavit of its truthfulness will be submitted.

THE WEEKLY STAR is a double or eight-page sheet, containing fifty-six columns of fresh news and literary and agricultural matter every week, and is pronounced by competent judges to be one of the cheapest and best weekly papers in the United States.

The Cleveland Leader

DAILY, TRI-WEEKLY, WEEKLY, AND SUNDAY EDITIONS.

Circulation of the several editions combined, 50,000 copies.

NOTICE THE FOLLOWING FACTS:

FIRST. The circulation of THE DAILY LEADER is larger than that of all other Cleveland newspapers combined, and is larger than that of any other daily paper in Ohio, except one in Cincinnati.

SECOND. THE CLEVELAND LEADER is the leading daily paper in the towns and villages of the northern half of Ohio and in Western Pennsylvania, which contain a larger number of readers in proportion to population than any other section of the United States.

THIRD. The circulation of THE WEEKLY LEADER is **20,000** copies, which is three times larger than that of any other competing paper.

FOURTH. In 1876 THE LEADER was obliged to purchase its first perfecting press and stereotype its forms in order to print its Daily and Weekly editions. After that time the circulation increased so rapidly that in 1880 a second press was necessary. This was built by Messrs. R. Hoe & Co., and is one of their fastest and most improved machines. Both presses print, paste, fold, and cut the sheet at one operation, and cost \$45,000.

FIFTH. Our books are open to the inspection of advertisers, or affidavits will be furnished giving circulation, which can be made a basis for contracts.

SIXTH. THE LEADER prints *The Evening News* as an afternoon edition, which is the largest two-cent daily in the United States, and is the leading evening newspaper in Cleveland. All advertisements for THE DAILY LEADER appear in *The News* without extra charge, unless specified to the contrary.

Benton County Blade

Second Volume.

A LIVE NEWSPAPER, PUBLISHED EVERY FRIDAY MORNING AT

CORVALLIS, OREGON.

One year, \$2.50; six months, \$1.50; three months, \$1.00.

THE BLADE will be devoted: first, to the dissemination of General and Local News; secondly, to the advancement of the interests of Benton County and its inhabitants; thirdly, to the advocacy of the time-honored principles of the Democratic party.

While its columns will be kept free of all matters unfit for the family circle, we shall make them lively, spicy, original, and reliable.

A large department will be devoted to select reading matter, choice stories, sketches, and miscellaneous articles especially designed for the household. It will therefore commend itself to the head of every family as a fit companion for wife and children.

As we propose devoting but a limited amount of our space to advertising purposes, a few advertisers, by applying early, can obtain superior advantages to get their announcements before the people. Our charges for yearly or quarterly advertisements will be fair and reasonable. All communications should be addressed

The Milwaukee Herold

PUBLISHED DAILY, INCLUDING SUNDAYS, AT MILWAUKEE, WISCONSIN.

THE DAILY HEROLD has the largest circulation of all Milwaukee daily papers, and a larger circulation than that of all other Milwaukee German dailies combined.

No daily German paper published outside of New York City prints a larger weekly edition than THE WEEKLY HEROLD.

Indisputable evidence of the large circulation of THE HEROLD has from time to time been presented to the advertising public, and is now at its disposal. No general or special advertiser should allow THE HEROLD to be omitted from the list of first-class papers.

Advertising rates reasonably low, and will be furnished on application to

Acker und Cartenbau Zeitung

Established 1870.

THE GERMAN AGRICULTURAL AND HORTICULTURAL JOURNAL,

MILWAUKEE, WISCONSIN.

THE JOURNAL is published on the first and fifteenth of each month, in form of sixteen pages, suitable for binding. It is the only German publication west of New York City devoted to Agriculture, Horticulture, Stock Raising, Dairying, etc.

Its circulation (more than 20,000 copies), has extended to every State and Territory of the Union, the bulk of it being in States like Indiana, Michigan, Illinois, Wisconsin, Minnesota, Iowa, Kansas, Nebraska, Missouri, Texas, and other States and Territories containing a large and constantly increasing German population, outnumbering, in some sections of country, all other nationalities. Its large circulation is proof of its popularity and influence.

Of its value as an advertising medium, Mr. J. L. Simons, manager of the Bickford Knitting Machine Co., Brattleboro, Vt., says:

Referring to our advertisements in your paper, after a trial of two years must say they have given us the best returns of any publications west of New York City, and even brought us orders from foreign countries. We feel that we do not exaggerate when we say it is one of the best mediums in the United States for our goods.

Similar testimony has often been volunteered by others, all uniting in pronouncing this journal a first-class advertising medium. For rates, etc., address

The Golden Rule

AN INDEPENDENT RELIGIOUS AND LITERARY FAMILY JOURNAL

PUBLISHED WEEKLY AT BOSTON, MASSACHUSETTS.

\$2.00 a year.

THE GOLDEN RULE is noted for the beauty of its typography, its sound editorials, its choice original and selected articles, and for its general excellence.

It is the favorite family paper of New England. No paper in the country can surpass THE GOLDEN RULE for attractiveness and intrinsic value.

It is the popular religious paper wherever introduced. It has something for every member of the family, and is always pure, bright, helpful, entertaining, and pre-eminently readable.

As an advertising medium for the New England States, it can not be excelled. The highly finished paper and fine ink so happily blended in THE GOLDEN RULE, render every advertisement prominent and attractive.

THE GOLDEN RULE circulates largely in Boston and its vicinity, and in towns within easy reach of Boston.

It is patronized by the better classes—by people of intelligence, culture, and refinement—and reaches that class so eagerly sought after by advertisers—people with money.

We therefore claim for it that it is the best and cheapest advertising medium of its class in Boston.

The following list of papers is from an advertisement of one of Boston's leading advertising agents, and classed by him as "invaluable to all who desire to reach the very best class of buyers."

THE GOLDEN RULE SUPPLEMENT

As to circulation, influence, and reliability, do not take the word of the publishers, but read the certificates of the following disinterested officials of the town and county in which it is published:

This is to certify, that as post-master of Hartford I have very good opportunities for ascertaining the circulation of THE HERALD, published here, as nearly all the papers issued to subscribers in or out of the county pass through this office. My predecessor, Judge C. J. Lawton, in March, 1879, certified that the circulation of THE HERALD was then not less than 1800. I became post-master in July, 1879, and know beyond doubt that the circulation has increased since then, exactly how much I could not say, but think about 200. This is a large county in area and population, having considerable mining interests, fifteen thriving little villages and towns, and sixteen post-offices. I regard THE HERALD as a good advertising medium, it having the reputation of being a reliable, progressive newspaper.

R. P. ROWE, Postmaster, Hartford, Ky.

I am well acquainted with the editors and publishers of THE HERALD, Hartford, Ky., and am a regular reader of their paper. I regard it as a reliable, newsy paper, one having the confidence of the public, and having a very large circulation for a local paper. Free from any suggestions from the publishers, I would estimate the circulation to be about 2000 copies.

We concur in the statements made by Judge Newton.

C. HARDWICK, Clerk Ohio Circuit Court.
J. P. SANDIFER, Attorney for Ohio County.
SAM. K. HIX, Clerk Ohio County Court.
SAM. T. HIX, State Senator.
R. P. HOOKE, Representative.
F. P. MORGAN, Police Judge, Hartford.
ARMISTEAD JONES, Assessor Ohio County.
J. EDWIN ROWE, School Commissioner.
W. H. GRIFFIN, Marshal Hartford.
E. L. SULLINGER, Jailer Ohio County.

THE HERALD is an excellent advertising medium, and its rates for advertising are reasonable. It has four pages (26 x 40.) and eight columns to a page. Its circulation is 2000. One of the adjoining counties has no paper.

The time for business in North Carolina has come.
Crops are better, labor steadier, politics quieter, money
easier, and our people more hopeful of the future, than
at any time since the war, resulting from railway strikes
(fifteen hours from New York) and two steamship lines,
for months past have been clogged with freight. Railroad
men say that more machinery, fertilizers, agricultural
implements, blooded stock, wagons, furniture, and all
manner of general merchandise and Yankee notions have
come South within twelve months than in any five years
previous. From four to five millions of \$50 cotton bales
each year are putting money in the Southern purse; and
under the impulse of new ideas and methods our people
are becoming perpetual buyers. Northern men who have
a good article need not fear to advertise it. It will pay.

Issued Daily, Weekly, and Sunday

By THE GERMAN LITERARY SOCIETY,
SAINT LOUIS, MISSOURI.

The Germans in the Mississippi Valley form an important and thriving element in the population. With the revival of business in general, the people of the West are in a better position than ever to be a purchasing people; and no better means for reaching the prosperous German population can be obtained than those afforded by AMERIKA.

We beg to invite the attention of advertisers desirous of reaching the German public to our great weekly,

The Familien Journal

It is a large eight-page paper, devoted to news, instruction, and miscellaneous reading. It circulates over the whole country, having a specially large circle of readers in the smaller towns and country districts, and is to be found on the news-stands of almost all German booksellers. Being essentially a family paper, as its name implies, combining news and much interesting reading of a miscellaneous character, as well as a full and very detailed market report, its circulation is unsurpassed by that of any like publication in the land.

Its news is always fresh, and so condensed as to cover the whole field of events in this country and Europe during the week. Its news from Germany, filling a whole page of closely printed matter, makes it a specially desirable journal to Germans of every class and condition. In a word, it fulfills all the requirements of a great weekly, and this accounts for its success. It will strike advertisers at once that a paper which combines so many excellencies must be a very superior advertising medium.

RATES FOR ADVERTISING: One line (nonpareil), one time, 15c.; one month, 50c.; three months, \$1.00; six months, \$1.75; one year, \$3.00. Special rates for column advertisements.

no exceptions, believing it to be unjust to charge one individual
or firm one price and others different prices.
The prices we offer are as low as we can afford, and as
proof that it pays to advertise with us at these rates, we
find no difficulty in filling all of our available space at
the prices designated. We do not advertise for parties
taking their wares and paying a part of the price in cash
in any case. If an article suits us, we will pay the full
price at lowest cash rates of the same in advertising at
our cash rates. All advertising must be paid for quarterly
in advance, unless the parties are known to us to be
perfectly responsible.

OVER 1,000,000 COPIES

CITY OF PHILADELPHIA, ss.

Personally appeared before me, the subscriber, William H. List, Magistrate of Court No. 5, of the said city, L. LUM SMITH, Publisher and Proprietor of THE AGENTS' HERALD, 717 Sansom Street, who being duly sworn according to law, doth depose and say that the actual circulation of the May (1881) issue of THE AGENTS' HERALD was over 75,000 copies; for June (1881) issue, over 50,000; and **he further guarantees that the circulation of the July (1881) number shall exceed 50,000 copies, failing in which no charge whatever will be made for advertisements inserted in that issue.** Further than this deponent doth depose and say, that since and including the issue of December, 1879, over 1,000,000 copies of THE AGENTS' HERALD have been printed and mailed, during which time the circulation reached as many as 127,000 copies per month; and further deponent saith not.

L. LUM SMITH, 717 Sansom Street, Philadelphia, Pa.

Sworn and subscribed before me, this twenty-seventh day of June, A. D. 1881.

WM. H. LIST, Magistrate of Court No 5.

PHILADELPHIA, PA., Jan. 15, 1881.
We have had a card in every issue of THE AGENTS' HERALD since published. We take great pleasure in recommending THE HERALD as especially adapted to the wants of advertisers and agents.

NATIONAL PUBLISHING CO.

PHILADELPHIA, PA., Jan. 17, 1881.
The best endorsement an advertiser can have is a card in THE AGENTS' HERALD, for already many agents are suspicious of, and loth to patronize new firms, whose advertisements do not appear in that paper.

GLOBE NOVELTY HOUSE.

PHILADELPHIA, PA., July 11, 1880.
We send you herewith a renewal of our last year's contract. The Old Franklin Publishing House is well satisfied with its receipts from its AGENTS' HERALD advertising. Every day brings something.

C. W. ALEXANDER.

PHILADELPHIA, PA., Jan. 15, 1881.
Out of over 11,000 letters received from agents during 1880, we were not a little surprised to find that over 8,000 came in answer to our advertisement in THE AGENTS' CHRISTIAN FIRESIDE.

READING, PA., Jan. 5, 1881.
THE HERALD has brought more returns than any paper I ever used.

W. C. KATNER.

TYRONE CITY, PA., Jan. 5, 1881.
We assure you THE HERALD has paid us better than any three mediums we have yet tried.

TYRONE PHOTO-COPYING HOUSE.

NEW OXFORD, PA., Dec. 30, 1880.
We must say that THE AGENTS' HERALD is the very best paper we ever advertised in. The agents we have obtained through THE HERALD are of the very best.

E. ROTH & BRO.

CHICAGO, ILL., Jan. 4, 1881.
Have received \$175.00 direct from agents in answer to my \$14.00 advertisement in your November number, and of course am well pleased.

L. R. HARSHA.

CHICAGO, ILL., Dec. 31, 1880.
We consider THE AGENTS' HERALD the very best advertising medium in the country, especially so for anything sold by subscription. We wish it success.

HOUGHTON, MIFFLIN & CO.

CHICAGO, ILL., Dec. 30, 1880.
We consider THE HERALD the best medium in existence by which we can come into communication with active and working agents.

RICHTER & HUSCHE.

NEW YORK, Jan. 11, 1881.
I have received a great many replies from my advertisement in your paper, and it pays me well.

T. LEEDS WATERS.

CHICAGO, ILL., 1880.
I have received more applications for agencies for sewing machines, etc., quoting THE HERALD, than from all other sources, although my advertisement was running in sixteen hundred weekly papers, many of them selected at least more than double those of THE HERALD.

C. G. AKAM.

NEW YORK, Jan. 11, 1881.
Continue our two-inch advertisement for the year 1881 for \$120. This is our third yearly contract, and we are well pleased.

HAASIS & LULRECHT.

NEW YORK, Jan. 12, 1881.
THE AGENTS' HERALD continues to give us entire satisfaction. Its enterprise and efficiency have made it a popular exchange with the best agents in the country.

BRITISH NEEDLE ASSOCIATION.

NEW YORK, Jan. 8, 1881.
We have advertised in a very large number of publications during the past year, yet none of them have begun to equal THE AGENTS' HERALD in actual results.

SMITH BROS. & CO.

NEW YORK, Dec. 30, 1880.
We are happy to state that we have always found THE HERALD all that its energetic young proprietor claimed for it.

CONTINENTAL CHROMO CO.

NEW YORK, Dec. 8, 1880.
As this will close our year's contract, we will say that THE HERALD has paid us better for the \$44.00 invested than any other medium we have used in 1880. I will take one hundred and twenty inches for 1881 at your price.

WORLD MANUFACTURING CO.

NEW YORK, Jan. 10, 1881.
When we wish for agents, we find THE AGENTS' HERALD the very best medium for reaching them. We received over one thousand applications from a single insertion of our one inch advertisement. If other advertisers in other mediums can make as good a showing, I would like to benefit by their experience.

J. H. BURTIS, of BURTIS & CO.

NEW YORK, Dec. 15, 1880.
Having paid you during 1880, \$480.00 for advertising, I am prepared to say that THE AGENTS' HERALD is the very best advertising medium in the United States for those who wish to place their goods in agents' hands.

E. G. EIDOUT.

NEW YORK, Dec. 31, 1880.
I inclose a renewal of my yearly contract for 1881, ten inches twelve times, for \$600.00. I feel that too much can not be said in praise of THE AGENTS' HERALD as an advertising medium. It is pre-eminently the best. There can be no controversy on that point. In every respect, the uses and requirements of both advertisers and agents are so admirably subserved that little more can be desired.

Thirty-third year.

Brooklyn Daily Times

Nos. 24 and 26 BROADWAY, BROOKLYN, NEW YORK.

A SOLID NEWSPAPER GROWTH.

From THE NEW YORK TELEGRAM, February 2d, 1880.

No paper that has lived in a community for thirty-three years can be said to be without a history, without a title to respect, without a value as a measure of the social forces which animate and mould that community. Were THE BROOKLYN DAILY TIMES to-day only what it was up to the period of ten years ago, it would be still well worthy of a place in a series of sketches on American journalism. It happens, however, that no daily paper in this country has made more steady or more wonderful strides within the past ten years than THE BROOKLYN DAILY TIMES. Other journals date the era of their modern development to the American civil war. Since the excitement and inflation of war times, nearly all American newspapers have labored heavily in their struggle to keep appearances up to the mark of vanished war circulations and flush times—and not a few have gone down. The prosperity of THE BROOKLYN DAILY TIMES is upon a surer basis. The way in which it has kept pace with the remarkable growth of the Eastern District of Brooklyn in population and resources is entertainingly told in THE TELEGRAM's article elsewhere. Brooklyn is to be congratulated upon having so flourishing a newspaper; and the circulation and patronage of THE TIMES show that Brooklyn people appreciate the advantages of having a newspaper publisher who adequately reflects their enterprise.

Littell's Living Age

ISSUED EVERY SATURDAY.

\$8.00 A YEAR. FREE OF POSTAGE.

THE LIVING AGE gives fifty-two numbers of sixty-four pages each, or more than three and a quarter thousand double-column octavo pages of reading-matter yearly; enabling it to present with a combined freshness and completeness nowhere else attempted, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific, Biographical, Historical, and Political Information, from the entire body of Foreign Periodical Literature, and from the pens of the Foremost Living Writers. The ablest and most cultivated intellects, in every department of Literature, Politics, Science and Art, find expression in the Periodical Literature of Europe, and especially of Great Britain. THE LIVING AGE, forming four large volumes a year, furnishes from the vast and generally inaccessible mass of this literature, the only compilation, that, while within the reach of all, is satisfactory in the completeness with which it embraces whatever is of immediate interest, or of solid, permanent value. It is therefore indispensable to every one who wishes to keep pace with the events or intellectual progress of the time, or to cultivate in himself or his family general intelligence and literary taste.

LITTELL'S LIVING AGE AS AN ADVERTISING MEDIUM.

I. The circulation of THE LIVING AGE, in all parts of the country, is notably among people of intelligence and of means to gratify their wants.

II. Advertisements are limited to a very few pages. Each advertisement is therefore sure to be seen by every person into whose hands the magazine falls.

III. The magazine is not destroyed as soon as read, but carefully preserved, and the advertisements are thus kept before the eye of the reader.

IV. Nothing is intentionally admitted to the advertising pages of the magazine which is not of intrinsic merit, and special value is thus added to every advertisement to which this magazine gives circulation.

For these reasons THE LIVING AGE is unequalled for the cost, as a medium for advertising New Publications, Colleges and Schools, Works of Art, Pianos and Church and Parlor Organs, Insurance Companies, Loans, Sewing Machines, and valuable Inventions, Manufactures, and Merchandise, of all sorts—whatever, in short, is of interest to the class of readers above mentioned.

Considering the character of its circulation, and the other advantages offered, the rates of advertising in THE LIVING AGE are very low. The subscription price of THE LIVING AGE is eight dollars a year. Advertisers are entitled to a copy of every number in which their advertisement appears, free of charge.

The Missionary Herald

BOSTON, MASSACHUSETTS.

This is the oldest Monthly Magazine in the United States, and is one of the largest in mail circulation.

Its subscription list includes every State and Territory in the United States.

It also includes Canada and the other British Provinces in North America; Mexico; the West Indies; South America; most of the countries in Europe; the Sandwich Islands and Micronesia; Australia; South Africa; and the cities of Turkey, India, China, and Japan.

Although the publishers of a magazine are not regarded as responsible for statements contained in advertisements, yet such has been the standing of THE MISSIONARY HERALD for more than half a century that nothing will be intentionally admitted, even upon an advertising page, which is not of intrinsic value. By limiting advertisements to works of high merit, it is hoped to make the pages of special value, both to advertising patrons and to the many thousand readers.

Advertisements are not admitted unless of such character as to be believed to be above question, and from parties so reliable that the readers will be safe in ordering from any distance. Advertisements of articles offered at less price than the same of good quality could be manufactured, agencies which promise improbable income from trifling investments, etc., etc., are neither solicited nor admitted.

There is no better evidence of the value of the advertising pages than the fact that advertising patrons use them continuously, month after month, and year after year.

Advertisements intended for a given number must be received before the tenth of the previous month.

Advertisements are limited to four leaves and one cover page.

NOTICE.

It is a well known fact that the farmers and planters South of the Ohio River raise a class of farm products almost entirely different from those of their brethren in the Northern States; and while the enormous circulation of **FARM AND FIRESIDE**, which is greater than any other Agricultural Journal ever attained, is a proof that the **FARM AND FIRESIDE** is the most popular Agricultural Journal for all States ever published, yet we have found it impossible with one paper to do justice to all sections of our great and growing country; therefore we opened an office in Louisville, Ky., during September, 1881, and divided the subscription list of the **FARM AND FIRESIDE** into two sections. Those subscribers living south of the Ohio River now receive the **Louisville Farm and Fireside**; those in Northern States receive the **FARM AND FIRESIDE** published at Springfield, Ohio. The latter paper still retains all of its many features which have made it so popular, while the **Louisville Farm and Fireside** has an entirely different corps of Correspondents and Editors, who are familiar with all the varied industries and products of the South; so that the **FARM AND FIRESIDE** published at Louisville, Ky., is a Journal especially adapted to those States where we shall push its circulation, and therefore should soon equal, if not surpass, in circulation, any paper in the South, and prove a valuable advertising medium to those desiring to reach Southern trade.

THE BOOKWALTER ENGINE.

These Engines are made of the very best material, by first-class workmen, and are just what we guarantee them to be — safe, simple in arrangement of parts, durable, and complete in every particular. Thus they are adapted to the wants of any place for running a cotton or corn-mill, and of the mechanic for driving small machinery, and there is no better engine for the printing-office.

The simplicity of their construction enables any one with ordinary intelligence to operate one safely.

They are made for durability, yet every part liable to get out of repair can easily be replaced by any mechanic, or duplicates can be secured at reasonable rates.

We quote the following extra low prices for first-class engines:

Engine and Boiler, with Pump and Governor:	\$240
3 Horse Power.....	280
4½ Horse Power.....	325
6½ Horse Power.....	355
8½ Horse Power.....	440

Each engine is warranted to have fully the power given above. We give the purchaser thirty days for a trial; if the engine does not give satisfaction, money will be refunded. Send for fully illustrated descriptive catalogue.

45 WARREN STREET, NEW YORK.

THE FREEMAN'S JOURNAL was established in 1840; since 1848 (that is for the last thirty-three years), it has been under the management of its present editor and proprietor. It is the only Catholic weekly in the United States with a general circulation. Being a class paper, as an advertising medium it is a *specialist* among Catholic weeklies.

A prominent feature of THE FREEMAN'S JOURNAL is its extensive production of the liveliest translations of the raciest, most important and instructive documents and information from all parts of Christendom.

It reaches the best families in every part of the United States, and its Canadian and Foreign list is larger than that of any of its contemporaries.

It guarantees that strictly unobjectionable advertising only will be admitted to its columns, which makes it a splendid advertising medium for standard goods.

Country Merchants, the Reverend Clergy, Catholic Colleges and Academies, and the well-to-do Catholic Laity are of its readers, and among these it will be found to be an invaluable salesman, as they place entire confidence in its advertising patrons.

Its advertising rates are as low as are commensurate with the advantages it enjoys. Estimates for advertising given direct by addressing as above, or

The Drover's Journal

CHICAGO AND LIVERPOOL.

THE BEST AND MOST WIDELY CIRCULATED LIVE STOCK PAPER IN THE WORLD.

Published daily semi-weekly and weekly at the Union Stock Yards, Chicago, Illinois (U. S. A.)

And weekly at 20 Chapel Walks, Liverpool, England.

THE DROVER'S JOURNAL is invaluable to the Stock Raiser, the Stock Dealer, the Stock Shipper, and every man interested in the product of Cattle, Hogs, or Sheep.

The American Edition of THE DROVER'S JOURNAL employs four first-class and thoroughly experienced Live Stock reporters on the Chicago market constantly, and publishes every item of interest regarding it in the minutest detail. It gives the market of all the Live-Stock points in the United States by telegraph, and those of the important points in Europe by cable, and the complete record of foreign Live-Stock matters by mail, reported by one of its own editorial staff resident in Liverpool. The Associated Press quotes daily THE DROVER'S JOURNAL as authority for the Chicago, New York, Indianapolis and Liverpool, England, Live-Stock reports, and telegraphs it all over the United States for publication. Considering its vast and rapidly increasing circulation in every State west of the Alleghanies its advertising rates are very low. Write for them.

The European Edition of THE DROVER'S JOURNAL (published every Saturday) is to the Live Stock trade of Great Britain and the Continent of Europe what the American Edition is to the United States, and was a success from the day it was established. Its reception in England, Ireland and Scotland was enthusiastic, and the evidences of its continued appreciation are thick on every hand. Its circulation is increasing fast throughout Europe, and its American orders for the paper and advertising space is rapidly on the increase. Large numbers of the paper are distributed upon all steamers leaving for the United States, being placed in the hands of all emigrants embarking in search of homes in America.

MINNEAPOLIS, MINNESOTA.

The attention of advertisers is respectfully called to the peculiar value of THE MINNEAPOLIS MORNING TRIBUNE as the only medium for reaching a large, intelligent, prosperous, enterprising and *buying* constituency.

As the United States census shows, Minneapolis is now, by many thousands, the largest city in Minnesota or west and north of Chicago and Milwaukee; it is growing faster than any other considerable city in America and it is the principal business center of the New Northwest, which is advancing in population and wealth more rapidly and substantially than any other section of the United States.

THE TRIBUNE is a first-class metropolitan morning journal of the same size and form as the New York *Herald*. It is the newspaper representative and exponent of Minneapolis—the only morning paper published in this city of 60,000 people, the leading Republican Daily northwest of Chicago, and has a general circulation throughout the whole of Minnesota and adjacent portions of Iowa, Wisconsin and Dakota, a region embracing an unusually intelligent population exceeding 1,500,000.

Judicious advertisers do not ignore such a constituency, or neglect to employ the best means of reaching it.

THE WEEKLY TRIBUNE AND FARMERS' UNION reaches a large and prosperous farming population in Minnesota and the Northwest. For all advertisers who wish to communicate with an agricultural constituency there is no better medium.

THE MINNEAPOLIS TRIBUNE COMPANY, Minneapolis, Minnesota.

Illustrated Weekly Advance

FALL RIVER, MASSACHUSETTS.

SALISBURY & NEWELL, Publishers.

Price: Five cents a copy, or two dollars a year.

THE ADVANCE is published every Saturday, is a bright, live, chatty, and humorous paper, and is a great favorite with the reading public. Though only established in March, 1879, it has already become the most popular and best read papers in the district. It is a family paper, a home paper, and a business man's paper, and has already won a circulation second to none in the city, and a popularity greater than that of any of its local contemporaries. As an advertising medium it has no equal in the district, reaching every class of readers, and being appreciated by all.

GEORGE SALISBURY, Editor.

Union Advertiser

WAYLAND, NEW YORK.

CHARLES BURHAM, Editor.

Weekly. Established 1873. Size 30x42.

An independent local journal. Its circulation has been extended with great pains, so as to render it valuable as a medium for advertising; new sections are reached every week. Pays strict attention to advertisements and notices of its patrons, to whose interest it is especially devoted, no matter from whence they come, or how large or small the order. As a medium for advertisers to reach an unlimited people, it is unequalled. As to merit, we can, if necessary, refer to prominent advertisers, who have been its patrons. This journal is on file with all honorable advertising agencies. Send for list. The best and most extensive advertising medium in Steuben County, used by prominent advertisers everywhere.
