CANADA

is boom country

... want a share?

Just speak up!

The Canadian is listening for you at his radio. He's listening in Alberta, where the oil's coming up richer and thicker than ever. In Saskatchewan, where uranium, oil and bumper crops are swelling the coffers. In Labrador, on top a new wealth of iron ore. In Quebec and Ontario, where heavy industry keeps getting heavier and light industry expands by leaps and bounds.

The Canadian is listening in every city, town and village . . . to a voice he already knows and trusts, the voice of his local radio station. The wife is listening — the youngsters, too. Millions upon millions of Canadians, with more money than ever to spend . . . and wanting to know what to spend it on.

Speak up. You'll be heard in 95% of all the homes in Canada . . . in the language familiar to each home, English or French. You'll be heard in the best of company — the big network shows *plus* the friendly entertainment.

news and services that only local radio can provide for its community.

Local radio in Canada is welcome, intimate, persuasive. It's *everywhere*, in a country where only 38% of the population lives in cities of 30,000 or over. It combines penetration, effectiveness and economy as no other advertising medium in Canada can. That's hard fact.

Purchasing power is booming. Canadians spent 10½ billion dollars in 1951, just in the retail stores . . . over 11½ billion dollars in 1952. And the Canadian buys more U. S. goods than any country other than your own. With cash — the stuff that's straining every billfold in the nation.

Want a share? Canada is waiting by the radio. Just speak up.

"In Canada you sell 'em when you tell 'em!"

A message from the 120 member stations of the Canadian Association of Radio and Television Broadcasters whose voices are invited into over 3 million Canadian homes every day.
