RADIO-TELEVISION DAILY

Presents

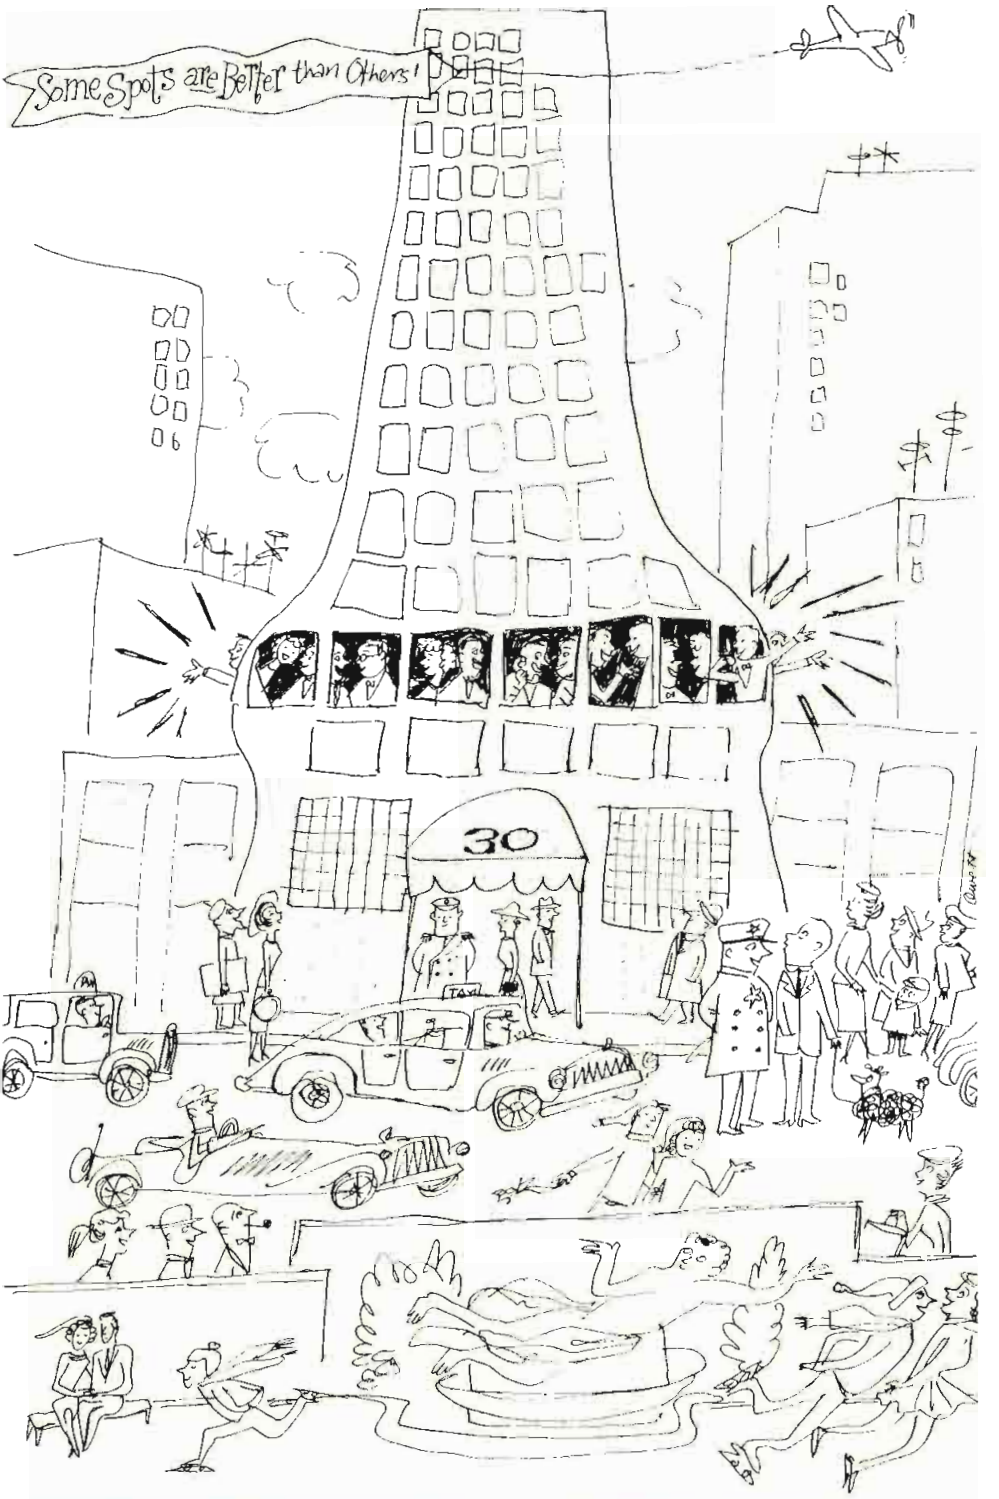
1954 RADIO ANNUAL

SEVENTEENTH ANNUAL EDITION

JACK ALICOATE
Editor-in-Chief

Copyright 1954 by RADIO DAILY CORP., 1501 B'way, New York 36, N. Y.

www.americanradiohistory.com



www.americanradiohistory.com

Foreword

THIS year's edition of Radio Annual is a progress report on radio broadcasting. Page after page tells the moving story of radio's continued gains despite the growth of television. The wealth of information about networks, stations, programming agencies and allied services is proof positive that radio as a commercial communications service is vital and continues to prosper.

☆

THE enthusiastic support received from the radio broadcasting industry in compiling this seventeenth annual edition bespeaks their sustained interest in the volume and their confidence in the future of radio. It is documentation of the untiring creative efforts of all who have contributed so much to the success of this indispensable medium.

☆

AGAIN we are grateful to all who have contributed to the success of this volume. Without their contributions the dramatic story of a growing service could never have been so completely told.

JACK ALICOATE
Editor-in-Chief

1400 radio stations from coast to coast receive from United Press an average of more than 40 news programs and news features every day—in addition to scores of extra shows of seasonal and special topical interest throughout the year. And some 200 kinds of sponsors buy them. The U.P. bureau nearest you is ready to present further information promptly.

* Take MODERN for T.V. Film Traffic Problems

Modern fills the gap between production and telecast projection to supply agencies, syndicators, and producers with a reliable custom tailored service for the traffic of television films.

Clients being served by Modern can be assured that their film program with its proper commercial content will be at the right TV station on the right date, at the right hour for advance scheduled telecast.

Expansion of Communications Highlights FCC Annual Report

For Fiscal Year Ended June 30, 1953

HISTORICALLY, the fiscal year 1953 marked the 25th anniversary of early television experiments, pioneer trans-ocean radiophoto transmission, inauguration of the first police municipal radio system, and the initial functioning of the Federal Radio Commission which preceded the Federal Communications Commission.

Currently, the 19th year of the Federal Communications Commission closed with nearly 1,100,000 radio authorizations on its books. Over 235,000 of these were for safety and communication purposes on land, sea, and air, almost 5,500 others were broadcast, and the remainder consisted of various types of radio operator authorizations. The radio station authorizations cover the use of about 600,000 transmitters, of which number more than 430,000 are mobile.

Television—In the first 12 months of processing applications for new TV stations following the lifting of the freeze, 398 new TV stations were authorized and about 600 applications (mostly competitive) were pending. Eighty-nine of the new grantees received authority to go on the air with interim equipment, to augment the 108 pre-freeze operating stations. Of the post-freeze TV grants, 256 were for operation in the new UHF (Ultra High Frequency) bands, and 142 were for VHF (Very High Frequency) operation.

Seventeen grants were made to noncommercial educational TV stations, one of which started operating. Municipalities in which channels have been reserved for noncommercial educational use were increased to 245.

TV stations have been authorized in all states except Vermont (where the only two applicants were in competition), and grants have been made in Hawaii and Puerto Rico. TV authorizations at the year end totaled 500.

In mid-1953 the Commission received various petitions to adopt the National Television System Committee (NTSC) "compatible" color TV specifications to replace the present "noncompatible" standards.

AM.—The older commercial AM (amplitude modulation) broadcast service continued to expand. The 2,584 authorized stations at the close of the year was an increase of 164 over 1952. Most of the newcomers were low-power daytime stations.

FM.—The number of authorized and operating FM (frequency modulation) stations continued to decrease — to 601 and 551 respectively — which was a loss of 47 construction permits and 31 licenses during the year. However, noncommercial educational FM gained 12 stations.

Miscellaneous. — In addition to the broadcast services mentioned previously, there were 259 auxiliary TV stations (an increase of 38); 1,305 remote pickup stations (a gain of 130); 47 studio-transmitter links, 1 developmental station, and a fluctuating number of international broadcast stations.

Safety of life and property at sea, in the air and on the land is aided by many of these services. There are nearly 40,400 stations in the marine services, more than 39,000 in the aeronautical services, and over 13,600 land public safety stations such as police, fire, forestry-conservation, highway maintenance and special emergency. The marine services use nearly 39,000 transmitters; the aeronautical services, over 44,000, and the public safety services, nearly 142,000. Of the latter number, more than 97,000 are employed for police communication.

The land transportation services embrace nearly 10.000 stations and 116,000 transmitters. They are utilized by railroads, city transit systems, intercity buses, taxicabs, highway trucks, and automobile emergency services.

Broadcasting Industry Nears Billion Dollar Mark

By FRANK BURKE
Editor
Radio-Television Daily

WHEN Hal Fellows, President of NARTB, recently made the prediction that the broadcasting industry would have its first billion dollar year in 1954 he was not amiss, for indications are that both radio and television will enjoy their greatest year of revenue in the months ahead.

The NARTB president thinks that television will gross over $500 million during the 1954 business year and that radio will come close to matching that figure. This forecast holds prospect of coming true and leaders of both the radio and television industry share his enthusiasm.

With about 2½ radios for every American home and upwards of 2,500 radio stations now on the air the coverage and commercial impact of radio has reached an all-time high. Over 13,000,000 radio sets were manufactured in 1953.

The television story is even more impressive. Upwards of 27,000,000 receivers are now in American homes and the prospects are that the total will be well past the 30,000,000 mark before year's end. During the past year approximately 7,250,000 TV sets were produced by RETMA manufacturers and production for this year should be comparable, if not higher than in 1953.

Match the production and distribution of TV receivers with the rapid expansion of TV stations in key center cities and secondary areas of the United States and you obtain a greater appreciation of phenomenal growth of the sight and sound medium. On January 1st there were 343 VHF and UHF stations in operation and about 25 others testing to go on the air. By next January the total number of TV stations in operation should come close to reaching the 500 mark with virtually all the nation's population within range of a TV transmitter.

Television's expansion was given added impetus last December when the Federal Communications Commission approved National Television System Committee's standards for compatible, electronic color television and allowed the commercial networks to proceed with color programming. The subsequent developments have been significant. NBC and CBS have begun experimental commercial colorcasting and major manufacturers have been tooling up for production of color receivers using the new tri-color tube. Already some sets have been produced and before year's end about 100,000 color receivers are expected to be on the market.

The outlook for color expansion is not the only aspect of the progress of television. Recently RCA at their Princeton Laboratories gave a dramatic demonstration of use of tape recording both in color and black and white and stressed the economic savings that would follow when the system is released for commercial use. On the west coast Bing Crosby Enterprises have also perfected a system of tape recording which they forecast will be ready for commercial use this year.

While television has pretty much held the spotlight during the past year Broadcast Advertising Bureau has been hard at work driving home the potency of commercial radio. Their campaigns have been productive of good and many new clients have been attracted to radio especially on the level of local stations. NARTB, like BAB, criticized by some of its membership for having devoted too much time to television at the expense of radio, took steps at the recent board meeting to establish an office of vice-president in charge of radio to further the industry organization's crusading for the medium.

The year 1953 was a good year for the broadcasting industry and the year 1954 promises to be better. This outlook, without question, dispels some of the pessimistic prophecies that we are in for a business recession.

JACK BENNY

www.americanradiohistory.com

Chronology of Color Development from 1941 to 1953

1941: FCC allocates spectrum space for black and white television.

1945: FCC expands frequency bands for black and white television; reserves ultra high frequency bands for future expansion of black and white and color TV.

1946-47: CBS petitions for commercialization of color TV. After lengthy hearing, FCC denies request.

Sept. 26, 1949: First phase of TV hearing, dealing with color, gets under way.

Nov. 22, 1949: Color sessions recess; field-test notice issued by commission.

Feb. 23, 1950: Comparative color demonstrations held by FCC; systems shown by CBS, RCA and Color Television Inc.

July 11, 1950: FCC begins deliberations on color TV. Participants submit final summations July 10.

Sept. 1, 1950: FCC issues its "First Report" on color TV favoring CBS system but advancing plan for manufacture of TV receivers with "bracket standards" as means of delaying final decision to permit further studies.

Oct. 11, 1950: FCC issues "Second Report" on color, adopting CBS standards effective Nov. 20, 1950.

Oct. 17, 1950: RCA and two subsidiaries, NBC and RCA Victor Distributing Corp., file suit against FCC on color decision in U. S. District Court in Chicago.

Nov. 16, 1950: Chicago court, after two days of hearings in which seven manufacturers, servicemen and others took RCA's side, grants temporary restraining order.

Nov. 20, 1950: National Television System Committee, all-industry group of engineers and technicians, appoints committee to study the possibility of developing color TV standards.

Dec. 22, 1950: Chicago District Court, in a 2-1 decision, upholds FCC's approval of CBS color system, but prohibits start of commercial operations pending a ruling by the Supreme Court.

Jan. 26, 1951: RCA initiates appeal to U. S. Supreme Court for itself and two subsidiaries.

March 26-27, 1951: Supreme Court hears oral argument on color TV case.

May 28, 1951: Supreme Court, by 8-0 vote, affirms lower court ruling in favor of CBS color.

June 25, 1951: First commercial color telecast by CBS.

Oct. 19, 1951: At request of Defense Mobilizer Wilson, manufacturers agree to cease color equipment production for duration of Korean War.

March 6, 1953: Sen. Edwin C. Johnson (D-Colo.) charges "powerful interests" are seeking to delay introduction of color TV.

March 13, 1953: Rep. Charles A. Wolverton (R-N.J.), chairman of House Interstate and Foreign Commerce Committee, announces color TV inquiry.

March 24-27, 1953: House Commerce Committee holds inquiry into status of color TV.

March 26, 1953: National Production Authority revokes ban on manufacture of color TV equipment.

April 14-15, 1953: House Commerce Committee views compatible color TV in Princeton, N. J., and New York City, demonstrated by RCA, CBS and Chromatic Television Labs Inc.

June 25, 1953: Petition to authorize NTSC compatible color TV standards filed with FCC by RCA and NBC.

July 21, 1953: NTSC approves final specifications for compatible color TV signal.

July 22, 1953: NTSC files petition with FCC asking authorization of its compatible color TV signal specifications.

Aug. 7, 1953: FCC issues notice of proposed rule-making relative to authorizing NTSC specifications for color TV.

Sept. 8, 1953: Comments on FCC's proposal filed by NTSC, Westinghouse Radio Stations Inc., Admiral, Hazeltine, CBS, American Television Inc., Paramount Television Productions, Chromatic Television Labs., and two radio engineers, Soghoian and Cooke, of Richmond, Va.

Oct. 15, 1953: Comparative color TV demonstration held in New York for FCC by NTSC and industry members.

Dec. 17, 1953: FCC approves NTSC compatible color TV signal specifications, effective 30 days after publication in the *Federal Register*.

GROWTH OF BROADCASTING REVEALED IN FCC TABLES

Editor's note: At the close of each fiscal year the Federal Communications Commission issues a comprehensive report on the year's activity in the field of broadcasting. Statistical information, presented on this page, is taken from the 19th Annual FCC Report for the fiscal year ended June 30, 1953.

The number of authorized and licensed commercial AM, FM, and TV broadcast stations at the close of each fiscal year for the past 11 years is shown in the following table:

	AM		FM		TV		Total	
	Author-ized	Licensed	Author-ized	Licensed	Author-ized	Licensed	Author-ized	Licensed
1943	912	911	48	37	6	6	966	954
1944	924	912	52	45	9	6	985	963
1945	955	931	53	46	25	6	1,033	983
1946	1,215	961	456	48	30	6	1,701	1,015
1947	1,795	1,298	918	48	66	6	2,779	1,352
1948	2,034	1,693	1,020	142	109	7	3,163	1,842
1949	2,179	1,963	865	377	117	13	3,161	2,353
1950	2,303	2,118	732	493	109	47	3,144	2,658
1951	2,385	2,248	659	531	109	81	3,153	2,863
1952	2,420	2,333	648	582	108	96	3,176	3,011
1953	2,584	2,439	601	551	483	101	3,668	3,091

Broadcast Authorization Deletions

Commercial broadcast station deletions in fiscal 1953 numbered 108 as compared with 72 in 1952 and 161 in 1951. FM deletions rose from 36 in 1952 to 79 in 1953. The 23 AM deletions in 1953 were 2 less than the year previous. There were 6 TV deletions in the past year; 1 in 1952. Monthly figures for 1953 were:

Month	AM	FM	TV	Monthly total
1952				
July	1	4	0	5
August	1	5	0	6
September	1	4	0	5
October	4	5	0	9
November	3	3	0	6
December	2	12	0	14
1953				
January	2	5	0	7
February	0	1	0	1
March	3	5	0	8
April	2	12	1	15
May	2	11	1	14
June	2	12	4	18
Year's total	23	79	6	108

Impact of Compatible Color Will Highlight New Year

By BRIG. GENERAL DAVID SARNOFF

Chairman of the Board
Radio Corporation of America

THE date December 17, 1953, on which the Federal Communications Commission approved standards for the commercial broadcasting of compatible color television, will be remembered in the annals of communications along with the historic date of April 30, 1939, when RCA-NBC introduced all-electronic black-and-white television as a new broadcast service to the public at the opening of the World's Fair in New York.

RCA is proud of the leadership its scientists and engineers achieved in developing the all-electronic compatible color television system and the RCA tricolor tube.

Fortunately, the color television system developed by RCA is compatible. This means that existing television sets can receive color programs in black-and-white without any changes or additional devices. For this principle and feature of compatibility in television, RCA fought hard and long, not only to achieve it scientifically, but to advance such a system as the only logical and practical service in the interest of the public and the television industry.

Because of compatibility, no one need hesitate to buy a black-and-white television set. It will not be obsolete because of color, and it will perform many years of service. Color television sets at the outset will cost from $800 to $1,000, and production will be in relatively small quantities until the industry is geared for mass production.

The National Broadcasting Company has completed program plans for color television's introductory year that call for each of NBC's regular productons to be broadcast in color at least once during the year—at the average rate of two programs a week.

Intensive color producton activities are under way at NBC's Colonial Theatre, world's first fully equipped studio for compatible color. At the Colonial, NBC's color corps has pioneered in techniques of lighting, staging and make-up. NBC also has in operation another color studio in Radio City, and plans have been laid for conversion to color of studio facilities in Brooklyn and in Burbank, California.

Television stations throughout the country are alert to the tremendous possibilities of color television and by slight modifications in their transmitting equipment they are enabled to pick up from the network and broadcast color shows. Five NBC-owned stations and 65 NBC affiliated stations have announced their intentions of doing so and more will follow in 1954.

Orders have been accepted by RCA Victor from one or more stations in 57 cities for color broadcast equipment. Throughout December, color equipment was air expressed as rapidly as completed and tested while crews of the RCA Service Company rushed the installations. As a result, 30 stations were equipped for colorcasts by December 31.

Color television presents a myriad of opportunities for broadening the services of electronic communications. Color adds a new dimension to the entertainment arts. It gives a new power to advertising and greatly increases merchandising opportunities through the use of television. A new realism is added to journalism. Television as a social and educational force is greatly intensified by color, thereby opening the way for significant advances in broadcasting.

During the past year television service was expanded and improved. Today, there are more than 27,000,000 receiving sets, or almost 60 per cent of American homes are television equipped.

Progress continues in television programming, as both the art and science of this great new medium advance hand in hand.

Progress in the use of UHF (ultra high frequencies) in television broadcasting during 1953 is convincing evidence that expansion of television in this direction will continue during 1954. Already

CARTB Enters New Year With Strong Membership

by **T. J. ALLARD**
General Manager
Canadian Association of Radio and Television Broadcasters

THE Canadian Association of Radio and Television Broadcasters starts 1954 with its membership at the highest level in its history—120 member stations out of a potential of the 140 non-government stations located in Canada.

Formerly known as the Canadian Association of Broadcasters, a change in name was effected during 1953 because of the Association's activities bearing fruit in one most important direction. There are now four television stations operating in Canada, apart from government TV stations, due to the CARTB's attempts to secure non-government TV licensing. Hence application was made to the proper authorities to have the name officially changed to "The Canadian Association of Radio and Television Broadcasters."

Although government policy now permits licensing of non-government TV stations in some areas, the CBC still maintains its own television monopoly in the six major cities of Canada. During 1954, a large part of CARTB's efforts will be designed to rectify this unfortunate situation.

Another forward step marked the past year in the semi-political field. Following the customary CARTB presentation to the now annual Parliamentary Radio Committee, that body recommended that the CARTB's case for a "separate regulatory body" merited further study. Previous pleas of CARTB for such a non-competitive regulating body have been dismissed. There now seems hope that the government of Canada is studying with greater care and sympathy the CARTB's often reiterated request for a "separate regulatory body," similar to the FCC, which would hold regulatory authority of proper degree and extent over both CBC and the non-government stations, in place of the present situation wherein CBC holds the regulatory authority, a monopoly on all networks and network arrangements, and competes with the non-government stations at the same time for both audience and business.

While not agreeing with the CARTB case concerning a separate regulatory authority, the CBC itself seems to be showing signs of desiring greater cooperation with the non-government stations on operating problems and policies. The new CBC regulations are an improvement on the old, and an even greater improvement upon the new proposals originally published.

In the year just past, the CARTB undertook an extensive and ambitious job-analysis and cost accounting survey of broadcasting stations in Canada. The survey set up job specifications, gave average ranges, and undertook detailed analysis, by types of business, of station sales, costs and like statistical material.

The Sales office of the Association widened its presentations to agencies and advertisers outlining the benefits of broadcast advertising. An accurate listing was prepared which gives, for the first time in Canada, a detailed accounting of what accounts and types of accounts do and do not purchase broadcast advertising, and the extent to which all accounts invest in any type of advertising.

Arising from action taken at an Annual Meeting of CARTB, plans are being explored in Canada to set up an impartial research directorate to outline standards for program popularity polls, to validate this and other types of research, to set up a sort of "good housekeeping" seal of approval for research companies which meet these standards, and to provide information to agencies and advertisers on the use of researchers figures. This research directorate, it is planned, will function under the general direction of the Bureau of Broadcast Measurement, jointly supported and financed by broadcasters, agencies, and advertisers.

Sales Outlook Good in Radio-TV Industry

By FRANK M. FOLSOM
President
Radio Corporation of America

THE growing importance of the radio-television industry in the progress of America was demonstrated convincingly in 1953. New dimensions of television and sound, in particular, and the continuing electronic requirements of government and military services, provided major areas of development and production. The industry reached an annual going rate estimated at nearly $8 billion.

It proved an excellent year for the Radio Corporation of America, with sales of products and services attaining an all-time high volume, well over the $800 million mark.

RCA's dollar backlog of government orders at year-end was the largest in the company's history, exceeding by a considerab e margin that of the World War II period.

Abundant sales opportunities are ahead in such fields as black-and-white television, compatible color television, industrial TV, transistors, high fidelity phonograph instruments and records, office and home communication systems, radio sets, and electronic equipment for industry and military uses, as well as the older lines of communication apparatus.

RCA recognizes that American merchandising reached a significant turning point in 1953, presenting new challenges and opportunities for the coming year—a year that can be good for business.

The new trend in merchandising represents a closer approach to normal business operations. The 14-year old sellers' market is gone. Many industries are now adjusting their operations to meet the demands of a buyers' market. Careful planning and hard work are needed to maintain the sales volume developed during the years that business enjoyed a sellers' market.

The changed market condition requires evaluation by business leaders, not only along economic lines, but in overall strategy of operations.

RCA is charting a positive course of action to maintain relatively high volumes in production and sales during 1954. Among major steps being taken to achieve this aim are:

1. Reshaping of productive capacity to meeting changed merchandising trends and to increase efficiency so that values of products may be enhanced for the consumer.
2. Streamlining of operations and selling organizations.
3. Establishment of closer teamwork between retailers, wholesalers and manufacturers.
4. Strengthening of distribution system so that consumer demands in certain areas can be more readily met by wholesale outlets nearer to dealers.
5. More assistance to dealers.

Television continued to expand and improve its service to the American public during 1953, with more than 27 million black-and-white receivers in use by year-end. This represented an increase of approximately six million over the previous year.

Two significant trends were reflected in consumer television buying patterns—one was the increasing popularity of larger screen sets, such as the 21-inch RCA Victor models, and the other was the impact of UHF (ultra high frequency) television stations as added programming outlets. Many of the sets sold were equipped to receive both VHF (very high frequency) and UHF transmissions.

RCA expects sales of black-and-white television sets to continue in the millions, during the orderly introduction of compatible color television in 1954, and plans to accelerate promotional activities to achieve this. The importance to the public of compatibility in television cannot be over-emphasized. It means that color programs can be received in black-and-white on all existing sets, at no additional cost to set owners, and without added devices. Color sets can also receive black-and-white programs in black-and-white.

1953 NETWORK NEWS SELECTIONS

The network's evaluation of the top ten news stories follows:

— ABC RADIO —

1—The signing of the Korean truce.
2—The death of Premier Stalin.
3—Execution of the Rosenbergs.
4—The Harry Dexter White case.
5—Russia's hydrogen bomb.
6—The Greenlease kidnap-murder.
7—Inauguration of Eisenhawer.
8—Coronation of Queen Elizabeth.
9—Death of Senator Taft.
10—Yankees win fifth Series.

— ABC-TV —

1—Korean Truce.
2—Eisenhower takes over.
3—Stalin's death and Red unrest.
4—McCarthy vs. Eisenhower.
5—Taxes.
6—Atomic crisis.
7—White case.
8—Rosenbergs' execution.
9—Queen's coronation.
10—Taft dies.

— CBS RADIO —

1—Inauguration of Eisenhower.
2—Death of Stalin and rise of Malenkov.
3—Armistice and Prisoner Exchange in Korea.
4—Coronation of Queen Elizabeth.
5—The Rosenberg Case.
6—Death of Senator Taft.
7—Harry Dexter White Case.
8—Big Three Conference.
9—Eisenhower world atomic stockpile plan.
10—Battle for European Defense Community.

— CBS-TV —

1—Power shift in Russia—death of Stalin, Malenkov's accession, ouster of Beria.
2—Signing of Korean Armistice, and subsequent negotiations, prisoner return, prisoner explanations.
3—Eisenhower speech to UN on atomic controls.
4—Berlin riots.
5—Coronation of Queen Elizabeth.
6—Harry Dexter White case.
7—Inauguration of Eisenhower.
8—Execution of the Rosenbergs.
9—Death of Senator Taft.
10—Greenlease kidnapping.

— DU MONT-TV —

1—Korean Truce.
2—Death of Stalin.
3—Soviet Hydrogen Bomb.
4—Eisenhower Address to U.N.
5—Inauguration of Eisenhower.
6—Greenlease Case.
7—Rosenbergs' Execution.
8—Dutch Floods.
9—Death of Senator Taft.
10—Coronation.

— MUTUAL-RADIO —

1—Armistice ends fighting in Korea.
2—The death of Stalin.
3—Coronation of Queen Elizabeth.
4—The Harry Dexter White case.
5—East German Riots.
6—Execution of the Rosenbergs.
7—The death of Sen. Taft.
8—The Greenlease kidnapping.
9—The Eisenhower Atomic Plan.
10—Changes in the United States Supreme Caurt.

— NBC RADIO —

1—The Inauguration.
2—The Coronation.
3—The Berlin riots.
4—The Greenlease kidnapping.
5—The McCarthy-Dulles Conflict.
6—Korean coverage: atrocities, POW's: Mrs. Howe and her son; reluctant GI's, and the POW exchange.
7—Death of Stalin.
8—Brownell-Truman.
9—Death of Senator Taft.
10—Farmers' fight on Benson.

— NBC-TV —

1—Inauguration of Eisenhower.
2—Coronation of Queen Elizabeth.
3—The Greenlease kidnapping.
4—Death of Stalin.
5—Berlin riots.
6—Korean truce and POW exchange.
7—The Harry Dexter White case.
8—The tornadoes.
9—The Trieste problem.
10—The McManus case.

Surveys Uphold Constancy of Television Audiences

By JAMES W. SEILER
Director
American Research Bureau

WITH the television industry well out of its swaddling clothes and now passing into a rapidly achieved adult state, the myriad questions which could not be answered during the youngster's uncertain infancy are receiving increased attention.

American Research Bureau, Inc., in the course of its individual market and nation-wide audience surveys for the last four and a half years, has been coming up with many of the answers.

Certainly one of the long-standing $64 questions has involved the constancy of television audiences. Would they love the medium in December as they did in May?

In the late 1940's, it took something less than a gross of slide rules or a mechanical brain to determine that the family's first television set was likely to be in almost constant use. Practically all program fare was received enthusiastically. Dire predictions that prolonged small-screen viewing could lead to myopia or spots (20-second) before the eyes, failed to curb an audience prepared to take all that the tube could bear.

Such immediate response, however, could not quiet an ever-present fear in the industry that the first flush of enthusiasm would subside. The peak of viewing time among owners of new sets, many felt, would inevitably be followed by a substantial drop to a much lower plateau of hours spent watching TV once the novelty had worn off.

ARB studies now indicate these fears were unfounded.

Since 1949, ARB has been conducting diary surveys of television viewing and publishing reports which have gained acceptance among those who must have reliable and statistically accurate figures. During these sampling operations, respondents have been asked to supply the purchase date of their sets. By now, ARB has on file thousands of week-long viewing records of families of all categories in terms of length of set ownership.

ARB reports from a group of representative markets where television programming has been in effect for a few years quickly lay to rest the fear that enthusiasm for the medium is short-lived. The accompanying chart shows today's average viewing hours per family in these areas, broken down by date of set purchase, both for the Monday through Friday daytime hours and for the evening hours of the entire week.

FAMILY VIEWING HABITS

DAYTIME

Set purchased	hrs. M-F
1949 or earlier	8.2
1950	7.8
1951	7.8
1952	8.1
1953	9.7

EVENING

Set purchased	hrs. per wk.
1949 or earlier	21.7
1950	20.0
1951	18.9
1952	19.0
1953	21.0

These figures amply demonstrate that there is not too wide a variance in time devoted to viewing among families who bought their sets in recent years. True, the weekday viewing in homes where the set was purchased in 1953 exceeds that of the family who acquired a set in 1950 by over 20 per cent. It is to be expected, however, that the impetus of new set ownership must reveal itself to some extent. Yet the same comparison with 1949 purchasers of sets shows only 18 per cent more viewing during the daytime period by those who became set owners in 1953. And the 1949 purchasers are now watching television 0.7 more hours per week during the evening than the johnny-come-latelies whose purchase of a set was made last year.

The figures put the viewing picture into focus.

The complete picture is a cheerful one for the industry, cancelling out the stereotype of the jaded set owner increasingly turning away from television once the first rapture of enthusiasm has passed.

New Production Records Set by Manufacturers

By JAMES D. SECREST
Executive Vice President
Radio-Electronics-Television Manufacturers Association

THE radio-TV and electronics industry broke all production records in 1953 by turning out sets, electronic equipment, transmitters, and tubes and parts with a combined factory value of more than $5 billion. This was $1 billion more than the industry's output in 1952.

About one million more television receivers and above two million more radios were manufactured in 1953 than during the preceding year. While neither production was an all-time high, their combined value was exceeded only by that of 1950 when the outbreak of the Korean War started a buyers' panic due to fear of wartime shortages.

Preliminary tabulations show that about 7,250,000 television receivers and 13,500,000 radios, including auto sets, were produced in 1953. Their total factory sales value was more than $1.5 billion.

The broadcast equipment segment of the industry experienced a boom as the Federal Communications Commission surprised everyone by the rapidity with which it issued TV construction permits.

Sales of replacement parts through jobbers and service shops continued to rise as TV set ownership throughout the United States passed 27 million.

An upsurge in public demand for good music in the home brought high fidelity equipment from the custom shops to the mass ready-made market. Even the radioless phonograph—with high fidelity accessories—returned to the high price shelf.

The most significant long-range development in 1953, however, was in the engineering research field. The National Television System Committee, which was formed by the Radio-Electronics-Television Manufacturers Association three years before, did what many thought impossible in 1950 and recommended to the FCC tested standards for transmission of a compatible color television signal. The Commission, which had previously approved non-compatible standards proposed by the Columbia Broadcasting System promptly adopted the new specifications.

Indicative of the expanding character of the industry, the manufacturers' trade association added the word "electronics" to its title only three years after it incorporated "television." Thus the radio industry which existed before World War II and which did an annual business of $250 million (factory sales) became the radio-electronics-television industry with a yearly output valued at more than $5 billion.

The essentiality of electronic equipment in modern warfare and defense was responsible for the greatest part of the expansion of plants and facilities since 1950. Much of this type of manufacturing is expected to turn to new industrial and commercial electronic equipment once military procurement declines. However, there appears little prospect that this decline will occur in 1954 or for several years to come.

The outlook for 1954 TV set production is not as clear as heretofore due to the uncertainty of the effect of color television on black and white receiver sales.

Many manufacturers believe that the display of a few "sample" color sets at from $700 to $1,000 in 1954 actually will stimulate the buying of black and white sets. They believe the comparison of prices and values of black and white against color sets, together with the limited number of color programs, will win over many persons who have been waiting for color in the mistaken belief that it would be as cheap and have as large screens as black and white.

Set and parts manufacturers in an informal poll following a RETMA meeting estimated that about 5,000,000 black and white sets and under 200,000 color receivers will be manufactured in 1954.

Radio receiver production, which has maintained a remarkably high level in spite of television, is expected to continue at twice the rate of the TV set output.

Progress On The Overseas Information Front

By THEODORE C. STREIBERT
Director
U. S. Information Service

ON August 1, last, the President formed the U. S. Information Agency to carry on the overseas information program of the United States. The new Agency has responsibility for programs formerly conducted by the Department of State and the Mutual Security Agency. The Director of the new Agency is responsible to the President through the National Security Council.

In a public announcement on October 22, the President gave the new Agency its mission. This was the first time in history that any government had ever announced to the people of the world what it was trying to accomplish through its overseas information program.

The President has given the new Agency the job of presenting factual evidence to the other peoples of the world that the U. S. shares with them the same aspirations they have for freedom, peace, and progress. Further, the Agency has the job of trying to persuade these people that they can best achieve their legitimate aspirations in cooperation with the U. S.

In doing its job, the U. S. information Agency is directed to concentrate on objective, factual news reporting and appropriate news commentaries.

Distortions or misrepresentations of fact are not permitted. Use of a strident, antagonistic tone must be avoided.

This does not mean that the U. S. Information Agency is going to be "soft" about communism. Quite the contrary. The Agency will continue to hit hard at Soviet lies about the United States.

But by sticking to the facts, not haranguing, we should be able to do a better job. For if we are to succeed, our message must be credible if it is to be convincing. Facts and comments associated with facts are, of course, far more compelling than accusations or mere assertions.

Our radio broadcasts to Russia and the satellites provide a good example of the new policy in action. Important distinctions are being made in the contents of our broadcasts to these areas.

In our broadcasts to Russia, the attempt will be made to gain a reputation for credibility and factual news reporting, instead of being only anti-Soviet.

In the satellite countries, the situation is somewhat different. Here there are captive peoples who have known a hetter system than communism. The U. S. Information Agency will give them straight news too. But it will also hit hard at Soviet imperialism and try to keep alive their hopes that someday they will again he free.

The radio operations are one example. Less reliance than before is being placed on long range, short-wave broadcasts from the U. S. Instead, more emphasis is being placed on relaying short wave broadcasts on the standard band from points closer to our listening audiences.

The broadcasting service of the U. S. Information Agency is also providing our overseas missions with prepared programs on tapes and recordings. These are being placed on local stations abroad.

In addition to these radio activities, the broadcasting service is also supplying TV material regularly to 15 countries.

The revised program of the new U. S. Information Agency also gives much greater emphasis to the importance of the cooperation of business and civic groups. To date, over 750 private organizations have participated in projects of value to our overseas information effort. Their cooperation has saved American tax-payers several million dollars. More important, they have accomplished things which the Government would not have done.

Active participation is needed by more civic groups and industrial organizations. Non-government resources must be utilized to a far greater extent to help in the big job there is to do.

The U. S. Information Agency is striving in every way possible to stimulate and assist this private participation.

Neither Boom Nor Gloom in Broadcasting's Destiny

By HAROLD E. FELLOWS
President
NARTB

TO me, the current hue and cry concerning this nation's economic outlook is reminiscent of the period six scant years ago when prophets of doom were chanting that radio was a "dead duck."

Perhaps this is an inevitable result of long-standing American custom of her heralding in each new year with backward analyses and forward prophecies. So-called experts are called upon to bespeak themeselves with authority and all at once 'til they have to shout over the crowd to gain audience.

"Downward curve," "levelling-off," "recession" whatever the pessimistic definition, may, as I have indicated, be likened to the year of 1948 when television suddenly swept into popular acceptance and radio was labeled a "dead duck." History has since written that radio was not destined to be so labeled—any more than newspapers were destined to lock their doors when radio appeared.

Such shouting from the roof-tops about recession is a clarion call to arms—it heralds clashes, controversies, sometimes temporary bitterness, but the final, end product is readjustment—then the renewed march forward.

Personally, I am not convinced by the gayer economists that business will soar to new heights in 1954, nor am I persuaded by the sadder among this gentry that we shall descend into the slough of depression. But some place between those two extremes, it would appear, lies our destiny in the field of business activity for 1954.

In too many of our approaches to the daily problem of living, we are frenetically trying to run forward while looking backward. Forward lies the challenge —forward where one can see even more prosperous living for all of our people; expanding markets; new developments in transportation, in housing, in communications. Forward lies the challenge to men who are so dissatisfied with this day that they would make tomorrow better.

And therein lies the forward challenge of media—*all media*, newspapers, magazines, outdoor, direct mail, radio and television. Perhaps media muscles got a little flabby during the immediate post war years when we were in a sellers' market. Now in 1954, the pendulum has swung to a buyers' market and it is up to media to move the goods.

Indisputably, this nation has the finest advertising talent in the world. Moreover, this nation is blessed with the kind of leadership in its industries which does not falter in the face of adversity.

The goal before all media is consumption. Since people are the ultimate consumers, it bodes well that the field of research has at long last come into its own. It is through research that we can study the consumer and his motives for buying.

The markets of America will be served even more widely by the great communications media of radio and television in 1954. As this is written, FCC statistics show that at the conclusion of 1952 there were on the air 2399 AM stations, 672 FM stations and 137 TV stations. At the end of 1953, the FCC reported on the air 2521 AM stations (an increase of 122); 560 FM stations (a decrease of 52); 356 TV stations (an increase of 219).

As for the NARTB, we're 1116 strong in AM against 1024 at the end of 1952. In FM, we've dropped from 365 to 340—nearly holding our own despite the fact that many FM stations went off the air. In TV, we've gone up from 102 to 229.

The figures will be even greater next year this time. The broadcasting industry has never stood still. It never will. We're moving ahead. There will be color tubes and vest-pocket radios, new horizons in broadcast education and service to the public. There will also be new and continuing problems. If we stick together and work together as an industry, we'll handle them all. That's a challenge and a promise.

The Radio Revolution; Analysis of Programming

By FREDERIC W. ZIV
President
Frederic W. Ziv Company

THE revolution in radio has been taking place for several years now. It is a peaceful revolution, although a far reaching one. And it has been going on long enough now so that certain patterns have emerged and taken shape.

It is increasingly evident to all, even the most pessismistic, that the radio industry will not only survive the television revolution, but that it will emerge as an infinitely more stable and perhaps, even stronger entertainment and advertising medium.

It is at the local and regional level that radio is vitally alive. It is here that radio is setting new records and giving ample promise of new goals yet to be reached. And we of the Ziv Company are keenly aware that it is our function to supply, at the local and regional levels, the new, modern programming techniques that radio demands.

Our "Hour Of Stars" series is an outstanding example of the success which awaits those who program in the new way for today's radio. At this moment the "Hour Of Stars," is being broadcast by 527 radio stations in the United States. But more important, never before in our history, have we received so many glowing and enthusiastic reports from the stations, telling us of their success in securing local, regional and national spot advertisers. The decision to program an hour long segment of time, every weekday — to program it imaginatively and with showmanship, has certainly paid off for our stations. It was our belief that a show with four of America's greatest stars — Tony Martin, Ginger Rogers, Dick Powell and Peggy Lee — presenting the kind of entertainment America loves best, just couldn't fail. It didn't.

Encouraged by the success of the "Hour Of Stars," we determined to take an even bigger step. What we wanted was one of the top three radio stars of all time. We wanted in short, a comedian who had sky-rocketed to success in radio. We were convinced that one of radio's top comedians, a man who had always been able to command a tremendous listening audience, could, if programmed in the new and modern technique, rise to even greater heights.

We have been fortunate to secure the services of Red Skelton. Red is indeed, one of the three all time comedy greats of radio. And we have been able to make Red Skelton available in a half-hour show to stations, agencies and sponsors on a five time a week basis. I think you will agree that the impact of the "Red Skelton Show," programmed five times a week across the board, is exciting to contemplate. And because of the vitality and growth of local and regional radio, we can look forward to extending this program into more markets than we have ever reached before and thereby offer it to each station or sponsor at prices that are among the lowest in our history.

As this piece is written, we have been offering the "Red Skelton Show" for just two weeks. It has been the biggest two weeks that our company has ever enjoyed from a sales standpoint.

This is the new radio. This is radio's dynamic answer to the demand of its audiences and advertisers for a new approach — a top comedy star in five half-hour programs every week — a form of programming not contemplated in the 1940s, never before available to the stations and sponsors on a local and regional basis. The immediate, enthusiastic response to this new plan for radio programming and selling today is a real tribute to the growing vitality of this medium.

These successes are not *ours*. They are industry successes. They stand, I believe, as testimony to the strength and power of radio, to its ever increasing appeal as an advertising medium. They stand too, as evidence that radio still offers a challenge to the showman and to the salesman. And further, that new successes and new achievements await those who successfully meet the challenge.

www.americanradiohistory.com

Merchandising Methods As Practiced by Network

By FRED N. DODGE
NBC Merchandising Director

FIRST, let us remember always, that advertising is bought, whether it is in a newspaper, magazine, billboard, radio or television, for just one reason; that is to help an advertiser sell his services or product. For years advertising media of all kinds have created and presented glowing presentations of the selling effectiveness of their medium. However, in most cases when the order was booked they considered their responsibility discharged and when any advertiser asked for help in merchandising his advertising at the point of sale and moving his product, the howls were long and loud. This was particularly true in radio and television. However, during the past two and one half years the picture in this field has changed.

When NBC launched its Merchandising Department on January 1, 1952 no other network offered a complete merchandising service and few stations had embraced merchandising, despite the pioneering of the granddaddy of them all, WLW in Cincinnati, for over 17 years. Being a subject that was new to most broadcasters, merchandising erupted in the industry during the past two years in many and sundry forms and concepts. Unfortunately, in many cases, much of this so-called merchandising is designed to impress the advertiser, with nothing concrete being done about the real target, SALES. Further, in many cases, these merchandising plans have constituted a form of rate cutting. However, gradually the sounder merchandising techniques are prevailing and merchandising, a subject to which scant heed had been paid in the past, is becoming firmly established.

Although we are concerned with network merchandising, emphasis here is being placed on the growth of merchandising among stations because a network's affiliated stations make a most important contrihution to network merchandising. This is for the simple reason that all merchandising is local and no advertising medium could afford to foot the bills accruing to the establishment of local merchandising operations in all of the key markets. However, a network, and only a network, can present a well rounded and sound media merchandising service to national advertisers because it is represented in these markets by its affiliated stations. When a sound cooperative program between a network and its affiliates is established in the interests of network sponsors then, and only then, is true network merchandising effectiveness achieved.

Obviously, an understanding of the advertiser's problems, his sales goals and his methods of distribution are essential to the cutting of a merchandising pattern suitable to his individual needs. This requires experience and the "know-how" of professional merchandising men. Accordingly, the NBC merchandising field force is made up of men who average better than twenty years of advertising, sales, marketing and merchandising experience and are fully qualified as sales and merchandising, consultants. Further, any merchandising plan in which the promise is not performed is bound to lead to distrust and, to say the least, loss of interest on the part of sponsors. Therefore, one of the most important functions of the NBC Merchandising District Supervisors is the policing of the cooperative agreements with retail factors which they have obtained in the interest of our advertisers.

The importance of merchandising is fast being recognized by both advertisers and agencies and the demand upon media growing. Daily the case histories are piling up as indisputable evidence of sound merchandising's value and place in today's sales battle. In brief, the day has passed when advertising media can consider their obligation to the advertiser fulfilled when they have made the sale of time or space.

IAAB Activities Expand In Latin America

By EMILIO AZCARRAGA
President
International Association of Broadcasters

ON October 4th of this year, the Interamerican Association of Broadcasters was eight years old. This date has been christened in this Hemisphere as "Broadcasting Day" and it marks, shall we say, the reaching of age of this wonderful medium of diffusion.

In fact, the great progress and maturity reached by radio in the different countries of America had not had, prior to that time, an organized entity for the purpose of determining and summarizing the duties of the broadcasters toward the people whom they serve and to point out the moral responsibilities inherent in the privilege of addressing them and to accept as one of those duties, undoubtedly the most sacred one, the defense of the ideals of liberty, democracy and respect of human dignity, as the most secure path to permanent peace and tranquility.

The IAAB also promoted liberty of expression and made a reality of it through practice, which in its double aspect of free communication of ideas and the rights of the people to free access to all events and opinions, without obstacle or deviation, should be considered as the most efficient guaranty and safeguard of the rest of the essential rights of man.

The IAAB proclaims that there are no theoretical liberties. Each individual is entitled to practice and enjoy all of them and it is liberty of expression which in great measure contributes to strengthen in men the consciousness of their rights, enable them to repudiate lies and deceit and save them from becoming new victims of ideologies that poison the spirit and spread destruction.

Notwithstanding all the formulae of protocol which, it is assumed, are international obligations, the IAAB, as well as its twin sister, the Interamerican Press Association, has a very difficult task to perform, because day by day liberty of expression is a victim of violations and abuses in one place or another, and has become in some countries a permanent victim of a dictatorial will built upon a sole and supreme law.

In all its activities the IAAB propounds and supports the principles of living together, solidarity and cooperation, which serve as a basis for the United Nations Organization and the Organization of American States. In summation, all of its work is but the application and defense of the purposes and goals of such organizations. Thus the IAAB has been recognized and has been given the category of a non-governmental cooperative medium, by virtue of which it maintains a permanent contact with them.

During the coming year of 1954, intensive work awaits all Directors of the IAAB. Furthermore, we are creating special commissions with representatives of all regions of the Continent who, together with the Committees of the Interamerican Press Association, will keep vigil over liberty of expression and the application of the "Panama Doctrine." These Committees will be permanent and it is expected that their performance will contribute, in a very effective way, to the aims of the Press Association and our Association.

We also have before us the task of persuading the Organization of American States to call a conference to unify, in broadcasting matters, the legislation of the countries of this Hemisphere, not in its technical aspects which have been the subject of several world, continental and regional treaties now in existence, but as to the contents of the transmissions themselves, in order that the domestic legislation of each country confirm and guartee the liberty of expression.

The IAAB is filled with great faith and an indefatigable persistence. It places both at the service of liberty, within the formulae which the people of our countries have chosen as the best to reach their fulfillment.

NTSC and Color Television
A Review of Developments

By DR. W. R. G. BAKER
General Electric Vice President and Chairman
National Television System Committee

COLOR television, long-awaited and much discussed, today is a living, growing monument to more than 200 top electronics scientists and engineers from several score television and broadcast companies and laboratories.

In what must be an unparalleled example of industry cooperation, more than one million man-hours and an estimated $10,000,000 was expended in the development and the testing of the technical signal specifications for color television proposed by the National Television System Committee. No one company, nor any single individual can claim the credit for the development of the FCC approved color television standards. It must be shared by all.

Certainly Chairman Charles A. Wolverton of the House Committee on Interstate and Foreign Commerce expressed it well when he said that the words of former Chairman Fly of the FCC concerning the work of the first NTSC on monochrome television "are as appropriate today as they were when he uttered them." Chairman Fly said, "This is another example of the best that is in our democratic system, with the best in the industry turning to on a long and difficult job in an effort to help the government bodies in the discharge of their functions so that a result may be achieved for the common good of all."

The National Television System Committee concerned itself solely with a significant and highly challenging technical problem; how best to achieve the optimum in terms of a color television system. Those persons on the Committee and associated with its work were scientists and engineers of special technical qualifications, or others with a deep interest in the progress of color television. The Committee did not concern itself with any phase of production equipment, nor with considerations involving the proprietary interests of members or companies in the industry.

Taking two fixed points; (1) the 6-megacycle band width established by the FCC for this service, and (2) the physiological and psychological characteristics of the human eye—the NTSC attempted to evolve the finest conceivable system, one not only practical for the immediate public interests to be served, but one which also contains the necessary growth potential for the long-range public interests.

In the development of the standards for a compatible color system, the NTSC had the full and complete cooperation of the companies comprising the industry. The source of an idea was disregarded completely. The only questions were: Is this the best idea? Is this the best way to do the job? During its two and a half years of active work the NTSC produced a number of significant contributions, not only on a system basis, but also in details. The standards evolved by the NTSC provide first, the transmission of excellent pictures in full color to color receivers. The detail is practically equal to that of monochrome telecasts. In chromatic quality—that is, fidelity of color reproduction—the color television images match or excel color movies.

Secondly, the NTSC system fulfills the compatibility requirements. It produces the program on monochrome receivers, producing images in black and white which are better than those provided by standard monochrome broadcasts. The investment of the public in 25 million monochrome receivers is fully protected. No modification of these receivers is required, in fact, no adjustments whatever are needed except the normal operation of the front panel controls used in monochrome reception.

This is the successful result of the work of the NTSC and of the engineers and the scientists of the television industry.

Future of Tape Recording in Television

By BASIL F. GRILLO
Executive Vice President
Bing Crosby Enterprises, Inc.

THIS year — 1954 — looks like the year for introduction of television recording on tape. And we mean not just another "demonstration" of technique but a practical, commercial device such as our VTR (Video Tape Recorder), that will accomplish the promises we made and revealed physically more than a year ago.

In July of this year, we illustrated near perfection of our black and white picture. It was a picture that any technician working in this newest field of electronics would be proud to achieve in such a comparatively short period of experimentation as we have experienced.

Readers of the Yearbook may ask: "What's this fellow talking about black and white tape recording when everybody else is working on color?"

The best answer to that is, "First things first." Let it hastily be added that we are taking second place to none in the development of color TV tape recording.

The most important thing about the perfection of black and white tape recorders is the extent to which they will advance color television programming. We believe that our VTR will so revolutionize the TV industry and its present system of black and white broadcasting, that by virtue alone of the tremendous savings it will enjoy through simplification of techniques, resources now employed in present methods may be put to use in developing color programs.

The ability of the television industry to achieve a great transformation from black and white to color TV has been questioned, in view of the motion picture industry's inability to accomplish a general switch to color after more than 20 years of trying. We feel the impracticability of such a transformation is just as real to TV as long as expensive color film must be employed. But, with the introduction of color tape and its comparative minor cost, this change may be expected with little effort.

What are Bing Crosby Enterprises doing about color tape?

It might better be asked: What are manufacturers doing about color receivers?

For, until suitable receivers are obtained for color broadcasts at costs that are within reach of a majority of viewers, color tape is virtually a surplus commodity.

That doesn't mean that we are sitting idly by waiting the day of general color TV broadcasting nor until everybody in America has a color receiver. Our engineers have virtually perfected tape recording of black and white television signals. To include color is a matter of a few refinements that already are known and being perfected. It is a matter of present minor concern because we know we have answered this need and will supply it when the industry is ready to adopt it.

One other new factor worth consideration in the rapidly changing picture of TV broadcasting is the possible general advent of subscription type receiving, now undergoing trial in various communities of the nation. Unquestionably, the American public is usually a discriminating audience on most occasions. It has not proven particularly so with respect to television, perhaps because it still is quite a novelty in many areas. TV on tape may prove extremely helpful in the promotion of subscription viewing however, and the profitable conduct of this type of operation.

Tape recording will also eliminate expensive filming processes and provide numerous and timely duplicate pictures for many widespread areas.

After all, viewers can look at only one show at a time. So what happens when two or more first rate productions are in direct competition. Some advertiser must be a loser. But, if he can salvage his production on tape, he can salvage audiences by showing it again at another time or another place, and, with tape he achieves the highest quality duplicate at extremely low cost. That's the real beauty of this coming process—tape recorded TV.

Casting for Television As Viewed by Expert

By MILO O. FRANK, Jr.
CBS-TV Talent and Casting Director

CASTING for Television involves public relations on an international scale. Let us start out by saying that the Casting Director is generally not the most popular man in the world. It is true that at certain times with certain people he is very popular, but this is liable to change as quickly as one is able to say "no." No matter what nationality the actor may be, "no," seems to be understood in any language. Unfortunately, part of a Casting Director's job is to say, no. The above is on the negative side and actually there are many wonderful and exciting things in casting for television.

Obviously we deal in actors; however, many strange and varied performers come our way. Among these, one of the most notable was a horse which waited patiently outside the building. We do not have many horse parts, so there was not much we could **do.**

Seriously though, the actual method of casting is to the best of our abilty a fast and accurate process. A script is broken down, a budget is applied to the breakdown, a casting meeting is held with the producer and the director of the show, the choices of actors are made, the availabilities ascertained, the offer made to the agent, the deal is set, the contracts are drawn, and we are ready for the next show. Probably one of the most interesting phases of casting is the ever increasing search for new talent. In my opinion, Mr. Hubbell Robinson deserves a great deal of credit for his planned thinking in this respect. Being Vice-President in charge of the CBS-TV Program Department, he is a pretty busy gentleman, but nevertheless he always finds time to discuss and think about new talent. CBS approoaches this problem in three ways:

1. Auditions
2. Artist's Representatives
3. Field trips

We hold auditions twice a week; on Tuesday — Variety auditions, and on Thursday—Dramatic auditions. These are open to any and all artists who wish to appear on CBS Television. The appointments are secured by interview, letter, or phone. Appointments are given for specific times and we generally are booked some time in advance. For the dramatic audition an individual must furnish his own material. This is necessary because we want the performer to do whatever he likes and feels he is best in. It would be impossible for us to have on hand sufficient material to cover this wide range. We are always glad to suggest material if a performer is doubtful about what to do. The actor prepares his own scene, memorizing the lines, and presents it at the appointed time. The audition board consists of two or more Casting Directors who are qualified to determine the value of a performer. A written report is made and the actor is notified whether or not he has passed the audition.

The Variety audition is run in a similar manner, with the one exception that we furnish a piano and accompanist if the artist desires.

All of the members of the Casting Department attend as many of the forms of entertainment as frequently as they can. Field trips are made and every possible avenue of new talent is looked into. These field trips are not limited to the state of New York, but extend as far as necessary.

It is interesting to note that the CBS Casting Department goes beyond the call of duty in that we suggest performers for night clubs, legitimate stage, and other allied media. For this the network gets no monetary gain; however, we gain in another direction. We have the good will of the actor and we enable the actor to gain more experience and become more proficient in his chosen field.

Contrary to many opinions, Casting Departments are anxious and ready to help actors. They do not wish to cut an actor's salary, nor do they wish to cut his billing. They only wish to get the best possible show on the air within the limitations imposed upon them by the nature and budget of the show.

RTNDA Gains Stature As Radio-TV Organization

By JAMES A. BYRON
President
Radio-Television News Directors Association

IT no longer is news to the broadcasting industry that news has become firmly established as a primary rather than supplementary factor in station programming. Polls of the past year have rather clearly indicated that radio stations with good news programming were the first to emerge from those television-inspired doldrums that settled over some areas. And television stations are beginning to learn that there is no more readily marketable commodity than intelligently presented news programs handled by competent newsmen.

The Radio-Television News Directors Association is not inclined to take undue credit for this most satisfactory turn of events. Its officers and members know full well that there still remains room for considerable improvement. But RTNDA does feel its aims now have become the industry's goal to a remarkable degree, and that the association's opportunity for service both to news departments and station management never was greater.

During 1953 RTNDA sponsored jointly with the Medill School of Journalism, Northwestern University, Evanston, Illinois, a television news seminar whose praises still are being sung by those who attended. Faculty members were drawn from the top bracket of television newsmen who provided a wealth of visual and oral material on "how to do it." A great part of the seminar's value lay in the fact that the problems of the "beginners" were placed foremost, and that the entire program was arranged in full awareness of the fact that there are more small- and medium-size stations than large ones.

The jointly-sponsored seminars are to be continued annually under the direction of Prof. Baskett Mosse of Medill.

Other services to newsmen and management in the broadcasting field are being expanded as RTNDA itself expands. Five regional vice-presidents provide "field" representation for the organization and they, together with RTNDA's other officers and board members, frequently are called on for talks to journalism students, regional and state radio and television news organizations and civic bodies.

The continuing work of RTNDA's Freedom of Information Committee has received recognition not only within the industry itself but within similar committees set up by other news media as well. The right of the radio and television newsman to carry the tools of his trade into many places is still being resisted by some. But the determination of the organization to see to it that radio and television news people receive equal access to the news now has been fully established and more bans are lifted every year. These benefits accrue to all radio and television newsmen and women whether members of RTNDA or not.

Membership in RTNDA provides radio and television news directors with correspondents and reporters all over the country. The association has stressed since its beginning the value of interstation cooperation in news.

The 1954 convention of the association will be held at Chicago in line with RTNDA's ever-present desire to meet in the city most readily accessible to most members. Under a recommendation adopted by the 1953 convention the association's annual meetings henceforth will be held at Chicago in alternate years.

Since its organization in October of 1946, RTNDA has had as its first objective the establishing of all possible methods of help to its members and their stations in presenting radio and television news accurately, fully and interestingly. This and other objectives of the association have the endorsement and full support of many of the leading managers and owners of radio and television stations, and of other organizations which concern themselves with the progress and general well-being of the broadcasting industry as a whole.

U.N. Radio Does World-Wide Job of Serving Listeners

By DOROTHY LEWIS
Coordinator
U. S. Relations, United Nations Radio

PERHAPS the most important factor in diplomacy is that mass public opinion is a living force in international affairs. News reaches us from all corners of the globe almost as quickly as if we had been eye-witnesses. We are parties to an action practically at the very moment it is undertaken. It is the expression of a democratic mass civilization that is still in its infancy, giving to the man in the street and to group reactions a new significance in foreign policy."

These comments made by United Nations' new Secretary General, Mr. Dag Hammarskjold, during his address before the Foreign Policy Association on October 21, 1953, indicate his awareness of media's role and particularly that of radio and television as instantaneous means of intelligence transmission. This new factor of public opinion and government action inspires increasing responsibility on the international staff of the United Nations. Moreover, each year that horizons of the United Nations and its specialized agencies are extended, thus requiring greater skills in accurate interpretation. The year 1953 saw the cessation of hostilities in Korea. United Nations Radio watched and reported on this day-to-day drama with circuits from Korea, from Paris and many U. N. Information Centers around the world. These furnished the daily recorded news interviews and proceedings for inclusion in all daily U. N. Radio broadcasts in 25 languages, to member states.

Of special note were two documentary programs aired over ABC entitled "The Korea Story." Narrated by Dick Powell and Helen Hayes, these broadcasts gave the political history, as well as an account of Korean Reconstruction. During the summer, U. N. Radio produced another series of six documentaries called "We Saw Tomorrow," aired over NBC, based on recordings made in eight Latin American countries on a 25,000 mile tour by a U. N. information team.

In cooperation with NARTB and the U. S. Committee, U. N. Day, October 24, was celebrated with special radio and television programs. Of particular note was a transcribed documentary 'The Grand Alliance," narrated by Joseph Cotten, which was released to 2,800 U. S. stations, and a spectacular television tour of United Nations Headquarters entitled "U. N. Open House," produced by CBS jointly with the U. N. Department of Public Information, carried coast to coast, giving to millions a glimpse of the setting for the sixty government operation.

Human Rights Day, December 10, was highlighted by a documentary program entitled "Letter from Father," narrated by Sir Laurence Olivier, produced by U. N. Radio and UNESCO in cooperation with the American Broadcasting Company and heard during the week over 600 independent stations.

A survey of 2,300 U. S. stations yielded a 29 per cent return from 48 states and Alaska and Hawaii. An average of 1,000 U. S. stations carried the regular prize-winning network programs: MBS—"U. N. Today"; CBS—"U. N. On The Record" and transcribed series "U. N. Story." As a result of the survey, 100 more subscribing stations were added. In addition, 350 more stations requested the "Weekly News Summary" for their news directors and 283 women broadcasters' names were added to the 3,500 subscribers for the monthly "U. N. News for Women Broadcasters." U. N. Radio will add another service in 1954 in the form of regular news releases to radio editors of local newspapers coast to coast.

U. N. television coverage reached an all time high during the special session of the Seventh General Assembly. CBS carried a daily half hour coverage of the entire Eighth General Assembly sessions. Climaxing this operation was the full TV and AM network coverage of President Eisenhower's address on December 8, kines and circuits of which were sent around the world.

Local Radio Reported "Healthier Than Ever"

By PIERRE WEIS
General Manager
World Broadcasting System, Inc.

"MORE than 1,000 Radio Stations now subscribe to World." This announcement was made by the World Broadcasting System at the end of 1953. Radio's health and radio's success are reflected in this new record, as well as in a tremendous increase in local sales reported by World affiliate stations during the past year.

In spite of the competition of television, radio has continued to grow and it is estimated that the total radio revenue for 1953 will have reached a new high and be in the neighborhood of 490 million dollars. When analyzing these figures, it is most interesting to note that the greatest increase was made by the local radio stations in their billings to local and regional advertisers. Ingenuity in programming and aggressive sales efforts at the local level not only offset the reduction in so-called national business but also enabled the stations to show a substantial increase in their billings, in scores of cases to new record highs.

Gone are the days, however, when radio station salesmen were merely selling time. To be successful today, a salesman must be equipped with ideas, have the proper tools to enable him to attract a local sponsor; he must have a definite plan which has been tested and at the same time be able to back the on-the-air campaign with the proper merchandising and promotion which will insure its success. With this in mind, in 1953 World furnished its affiliate stations with a great number of diversified new features, and station managers continuously report that with the help of our sales features their business is steadily increasing and they have been able to secure a host of new sponsors who, up to this time, had not been using radio.

The function of a transcription service has completely changed in the past few years. No longer does it supply only new music accompanied by script shows. A successful transcription service today must be a constant well of new ideas designed to help the sales department as well as the program department—to open up wide new areas of business from new advertisers and expanded schedules from veteran radio users.

A typical example — World's new telephone quiz show, "YOU WIN!" was released in mid-year, and by the end of the summer over 3 million dollars in local business was reported by World affiliate stations selling this show. Stations reported selling the program to individual sponsors, but in many instances they expanded the earnings potential by offering it on a participating basis either 30 minutes or one hour a day on a 52 week schedule. "YOU WIN!" brought as many as 30 participating advertisers to many World stations, which reported a waiting list of dozens more anxious to get on this show's return through sales to spot advertisers at premium rates ranging upwards of 25 per cent above the station's one-time spot announcement rate, and the net figures reported ranged from $3,000 to more than $10,000 in a 52-week period.

The need for aggressive selling on the part of radio stations in 1954 will be greater than ever. World affiliates will be ready to meet this challenge. We have allocated the largest budget in the history of our Company for the release of new features of unusual appeal and entertainment and selling value designed to produce sales returns far surpassing anything that has ever been attempted before.

The business is there — it is up to us to build sales tools to help the local radio station get it.

World's next premiere feature, soon to be announced, will be another step forward and will top by far anything that has ever been done in the transcription field. The magnitude of this new project is definite proof of the confidence that this Company has in the future of local radio.

Yes! Local Radio Is Healthier Than Ever.

Canadian Broadcasting Corp. Activities in 1953

By DAVIDSON DUNTON
Chairman, Board of Governors
Canadian Broadcasting Corporation

THE tempo of the past year's broadcasting activities has produced considerable advances in both Canadian sound broadcasting and the development of television. Naturally, the greater impetus was evident in the latter field, but this did not detract from improvements in Canadian radio. During 1953 several new repeater stations were added to CBC radio networks in the continuing effort to complete radio coverage in all remote parts of Canada. These repeater stations now number thirty-five. More independent private stations joined CBC networks during the year as well, bringing to 94 the total of private stations now receiving CBC network program service.

CBC radio schedules in 1953 continued to offer the same quantity and variety of program fare as in the past. Among the special program highlights was CBC participation in radio coverage of the Coronation in June. The interest of sponsors in Canadian radio programs saw very little change, despite the advent of TV.

In the International Service, the CBC's shortwave service, expansion continued with the addition of two more language transmissions — Ukrainian and Polish— bringing to 16 the number of different languages in which I. S. presently transmits. The International Service is now reaching 30 countries around the globe.

While Canada's domestic and shortwave facilities continued to grow steadily throughout the past year, the most dramatic expansion was recognized in Canadian television. By January, 1953, four months after the CBC's first Canadian television stations opened in Toronto and Montreal, the program schedule had grown from 18 to 30 hours a week. In January also live shows from American networks joined the Canadian schedule for the first time with the completion of the microwave relay link between Buffalo and Toronto. By the end of May the microwave facilities between Toronto, Ottawa and Montreal were ready for service and in June the first Canadian TV network connecting these points became a reality. This brought a new CBC station, CBOT in Ottawa, into operation on Coronation Day. Thus, in less than a year, Canadians had built three television stations (two of them major production centres) to carry Canadian TV to one-third of Canada's population.

This year has also seen the commencement of work on CBC stations in Vancouver, Winnipeg and Halifax, and a second transmitter (for telecasts in English) in Montreal. The Vancouver station, CBUT, is expected on the air by the middle of December. Fourteen privately-owned stations have also been authorized in the past twelve months, in Sydney, N. S., St. John, N. B., Rimouski and Quebec City, P. Q., Kingston, Hamilton, London, Kitchener, Windsor and Sudbury in Ontario, Regina and Saskatoon, Sask., and Calgary and Edmonton in Alberta. Two of these, CKSO-TV, Sudbury and CFPL-TV, London have commenced operations within the past two months.

The seven CBC and fourteen privately-owned television stations now authorized will, upon completion of construction, bring Canadian television within range of 75 per cent of Canada's poulation within the next two years. Until the microwave relay reaches from coast to coast in Canada—it is expected to reach Windsor, Ontario on the west and Quebec City on the east sometime in 1956—all Canadian television stations beyond the present network will receive about 10½ hours of kinescoped CBC programs each week. All Canadian TV stations are required to serve as outlets of the national television service in addition to producing their own programs.

It is reasonably safe to assume that the pace established in television in the past year will continue to be more than matched by public interest in the medium in the year ahead. In fact, we look to a decided increase in the tempo of CBC sound and television activities for some time to come.

www.americanradiohistory.com

HELEN *(Barbara Welles)* HALL

www.americanradiohistory.com

Impact of Compatible Color

By BRIG. GENERAL DAVID SARNOFF

(Continued from Page 47)

there are 120 UHF stations in operation, included in the total of more than 350 TV stations now on the air.

Radio broadcasting in 1954 moves into its 34th year and during that period has become intimately integrated with American life. Naturally, over such a long period, any service undergoes fundamental changes to keep pace with the times, and in the case of radio it has confronted television as a new competitive service.

Nevertheless, radio has continuing economic opportunities for it performs where television and other media of communication and information do not reach. Today there are more than 45 million radio families in the United States. There are 26 million automobile radios, and many millions of portable sets. In 1953 alone, 13 million radio sets, including nearly 5 million auto radios, were produced.

Since the end of World War II, great advances have been made in the military application of communications, radar, missile control, airborne television and many other phases of electronics which fit into the modern ramparts of our Nation's security. Our objective is not only to produce electronic weapons and instruments, but through research and engineering to keep the United States at the forefront of science in its relationship to military electronics.

A new era of "Electronic Photography" was ushered in during 1953 when on December 1, RCA demonstrated magnetic tape recordings of both black-and-white and color television. This is a development of great significance to the motion picture world as well as television.

Eventually magnetic tape recording of video signals should make it possible for television set owners to make their own recordings of television pictures in the home. Then they can be "performed" over and over through the television receiver just as a phonograph record is played at will. Many more new uses will undoubtedly be developed as means are found for the packaging of magnetic tape in low cost cartridges.

Transistors, introduced only 5 years ago, already have proved their worth in many varied applications. Because of their small size and low current demands they will make possible smaller electronic computers as well as more compact radio and television receivers. The transistor is finding increased use in equipment for the Armed Forces especially where size, weight and battery consumption are vital factors.

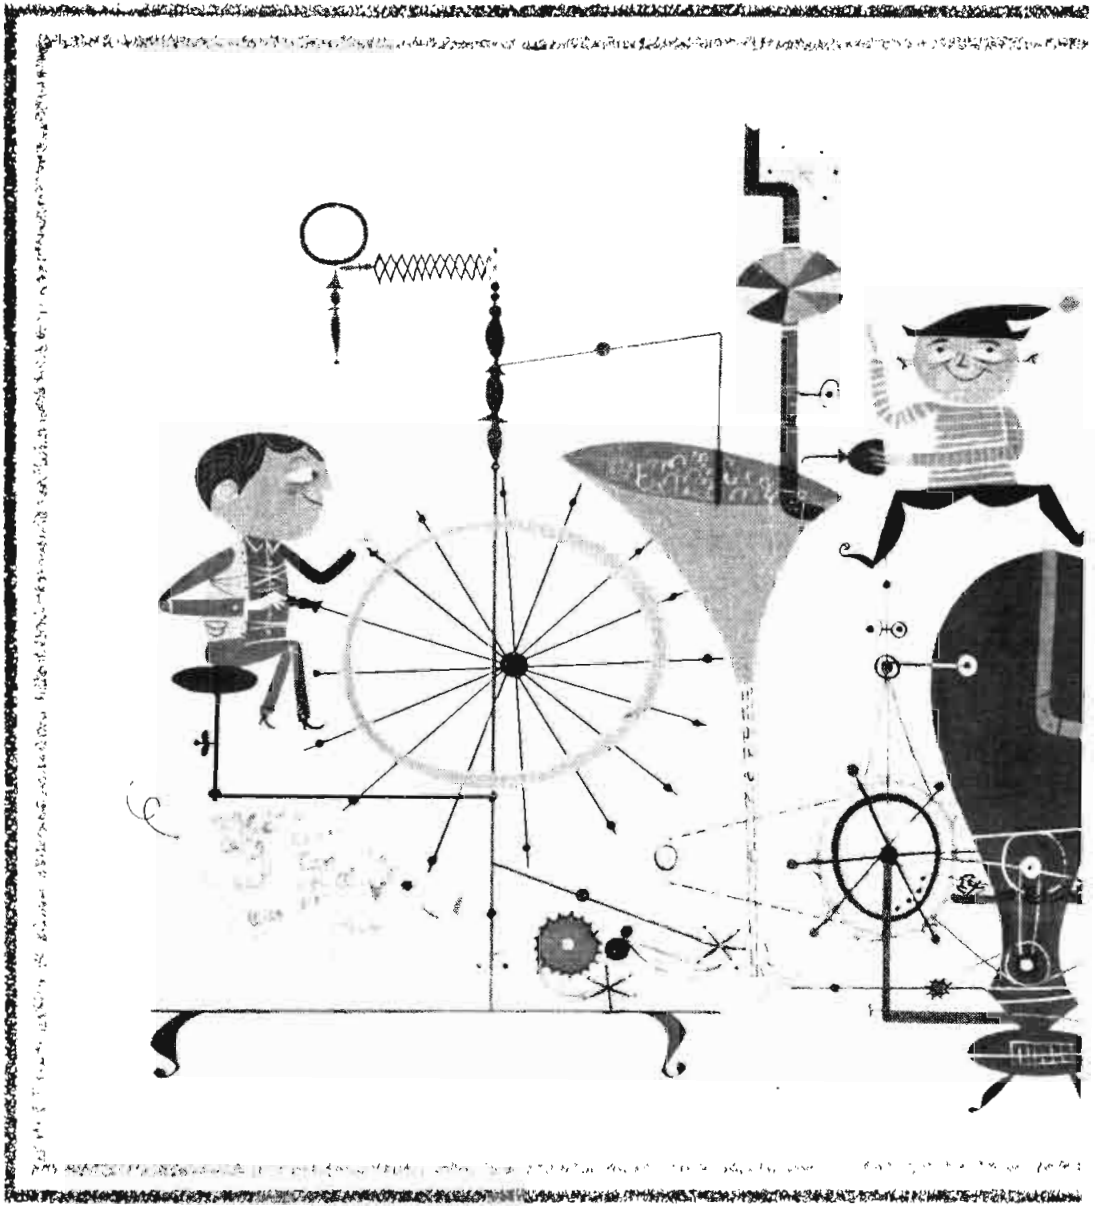
Electronics, the advent of which began with discovery of the electron in 1897, has progressively expanded into four great fields—(1) Communications; (2) Radio Broadcasting; (3) Radar and other military applications; (4) Television. Each of these has signified new and expanded services for some segment of our national life, and from each have stemmed discoveries and inventions which have motivated each succeeding era.

The year 1953 brought into focus the electronic developments which augur expansion into a new or fifth great area—electronization of industry. Electronics, by performing tasks that relieve human drudgery and make the most efficient use of man's productive efforts, promises to make manufacturing plants far more automatic than ever before.

Major developments such as rapid freezing have provided food of improved quality at lower year-round cost. Now the technique of sterilization of these foods with high-voltage electrons offers the possibility of increasing benefits such as reduction of waste through spoilage and less expensive packaging. Tests reveal that this influence of electronic sterilization may first be felt in the preservation of grain. Annually throughout the world a substantial percentage of the grain harvested is lost through the ravages of insects, bacteria and other organisms. Electronic sterilization, therefore, is expected to reduce such infestation.

RCA now enters its 35th year dedicated, as in the beginning, to pioneering and steadfast in purpose to give America preeminence in communications. Pioneering, vision and scientific research are vital factors in long-range planning. The opportunities ahead for business and industry, for employment, for new and useful services to the public are truly great. We will continue our efforts to do our part to advance and to merit the faith and confidence the American people have in "RCA" as an emblem of quality, dependability and progress.

www.americanradiohistory.com



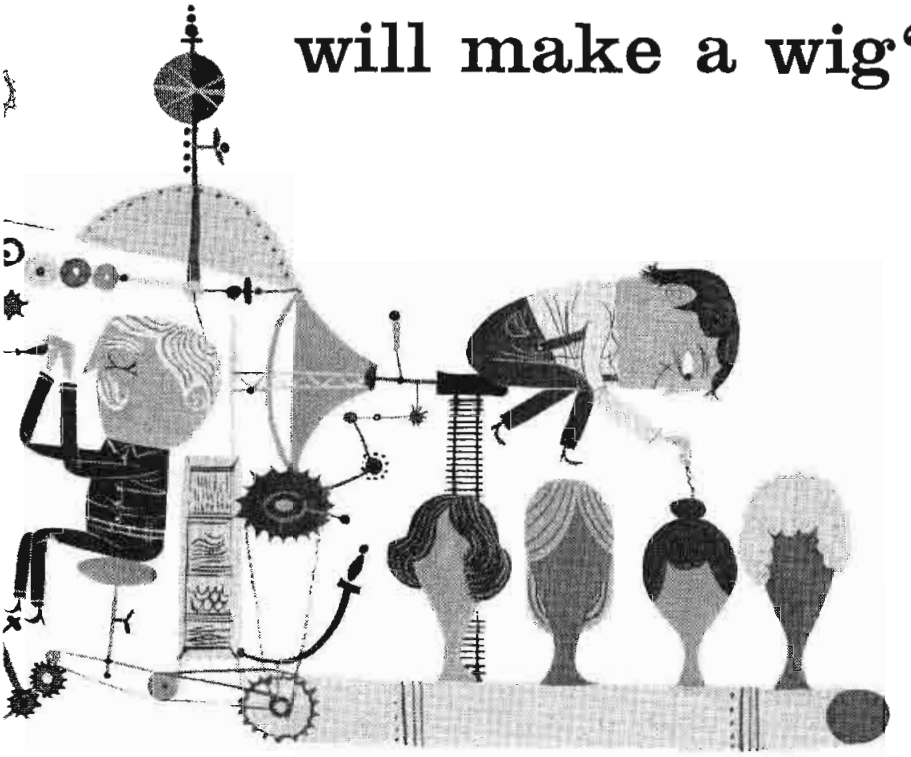
Frankly, we don't know, but it takes a great many. And a great many of anything – whether they be hairs or homes – are valuable. That is why an advertising franchise on ABC Radio is growing increasingly valuable. Today, ABC's morning schedule delivers more homes than a year ago... more than two years ago ...and no other network can make that statement. *(Nielsen)*

Not only are more homes listening to ABC's morning programs,

www.americanradiohistory.com

Barber, barber, shave a pig

how many hairs will make a wig?



ZELVIN

but they are *better* homes. Better for the advertiser because there is a larger proportion of young-housewife homes, and of large-family homes in the ABC audience than that of any other network. *(Nielsen)* These homes use bigger market baskets.

If you want to fill *your* basket with audience bacon... if you want to shave costs-per-thousand instead of pigs... ABC Radio is *your* advertising razor.*

ABC Radio Network

**and you can invest the savings (if you wish) in the prettiest peruke this side of Pocatello.*

Radio Girds for Action As TV Invades Parlor

By MURRAY ARNOLD
WPEN, Philadelphia, Pa.

LET'S kick off the New Year and this minor radio epic by underscoring a very basic fact—television is calling the shots!

TV's pushed us out of the comfy, all-inclusive living room, and swept us into the exclusive bedroom, bathroom, kitchen, den, and garage. With that fact, we must live, like it or not, forever and a day.

And along with a change of location, TV has radically shifted the frontiers of time-listening, causing an advertising revolution which is just now beginning to come to fruition. I believe that certain very definite patterns have already emerged from this welter of crises, and it is with these changing tides that I wish to confine myself in this paper.

However, before exploring these new facets of broadcasting, and programming for broadcasting, I must get this point through to you. I believe it is extremely imperative that we in radio divorce ourselves from a great chunk of the past. Sales executives from the networks and from many individual stations have spawned many new and intriguing ideas in the commercial field. But the field of exploration has hardly been scratched.

From my own vantage point, it appears that the ideal approach to our problem in broadcasting is to begin clean and spanking new. Suppose we start with the following assumption.

There is no radio. Every home in our area has a TV set. We have been granted an AM license by the FCC, and after the usual tribulations and trials, we bring forth a radio station. Now, Brother Broadcasters, how do we program same? Perforce, our credo must be "as much audience as we can get most of the time."

Do we follow the patterns of radio programming circa 1940, when TV was just a gleam in General Sarnoff's eye? Every station operator in the country will rise with vehemence and shout a resounding "NO"!

Yet, what do we find in radio in this year of 1954?

1940 programming!

And we in radio broadcasting sit back and smugly say to ourselves, "That TV competition is sure brutal"!

But sooner or later, we must swing with the times. And before it is too late, shouldn't we now ask ourselves. . . .

What does the TV audience want for radio fare when it tunes out TV at night?

Are there enough youngsters listening from 5 to 6 to warrant kid shows?

Since TV viewing is comparatively low on Sunday mornings, am I driving radio audiences away with religion instead of Dave Rose or Ralph Flannagan?

Can we step up our value to our listeners by sprinkling in more news headline station breaks? Weather Reports? Traffic Bulletins? The questions are endless; the answers as wide and broad as our own imaginations.

But as sure as you hold "Radio Daily Annual" in your hands right now, those questions will have to be asked; answers will have to be formulated.

If your area has already been smitten by the optical marijuana of video, you know this to be true. If it hasn't, your day is coming, sooner than you think. And even those who already have felt the big blow of the TV hurricane, remember the successive shock waves are still to come . . . when color TV smashes through; when subscription TV hits the videolanes; when three-D TV color becomes a reality, when heaven alone knows what else follows these fabulous innovations.

It seems clear that the time has come to take stock of the situation. To review right now the over-all picture, to decide which track we intend to travel on. If we flounder with indecision, we may wake up some morning and find our audience captured by our competition, and we wind up with the buggy whip manufacturers, full of glorious memories and no business.

...She shall have radio wherever she goes

Funny about radio: the lighter it gets, the more weight it carries.

For no other advertising medium turns up in so many different shapes and sizes, to reach out to so many different customers. And no other's on such intimate terms that it goes wherever the customer goes—from home to car to pocketbook, *right up to the point of sale.*

All because of one thing: wherever they go, whatever they're doing, Americans like to listen to radio.

Today—by adding a new outlet every 3 seconds—radio is growing faster than any other advertising medium.

Radios now fit any pocket... *Radio* always has.

"Never A Dull Moment" Describes D.C. Developments

By TED KELLOGG

Washington Bureau, Radio and Television Daily

"NEVER a dull moment" can be applied no more appropriately than to Washington developments affecting radio and TV during 1953, and as 1954 gets underway the quip appears unlikely to lose any of its succinct verity — in fact, the odds are that this year's developments will be as important to the industry, as well as to its X-million audience, as any since the human voice began traveling the air waves via electronic gadgets built by man.

In the past year we have seen such major "news breaks" as FCC's adoption of the new compatible color standards, following hundreds of thousands of man-hours of industry research and labor; we have seen the commission dig into the pile of applications for new television stations and bring the number of authorized stations from approximately 300 at the beginning of the year to more than 550 at its end; we have seen the industry "investigated" and given a clean bill of health, and we have seen a new President in the White House who recognizes the value of radio and television reporting.

At the other end of Pennsylvania Ave., radio and television reporting of the activities of Congress and Congressional Committees has been given a wider field of operation, constituting evidence of the recognition by Congress as well as the executive of the increasing importance of radio and television in reporting to the people the story of their government.

These, of course, have been highlights. Between the highlights have come numerous lesser peaks rising above a high plateau of day-to-day activity. Some of these peaks may be ticked off as:

The outstanding coverage given the Inaugural parade and other activities in connection with the swearing in of President Eisenhower. It was one of the biggest events in the industry's history.

Approval by FCC of the merger of ABC-UPT.

Decision of the Commission that theater applicants for transmission of programs by common carrier TV channels would receive consideration on an individual basis, but that specific channels would not be set up for theater-TV.

Departure of Paul A. Walker as chairman of the commission, of which he had been a member for 19 years, and appointment of Rosel Hyde, a veteran of 7 years as a member of the commission and an employee for the FCC and its predecessor FRC since 1928, to the chairmanship.

The marked upswing in activity looking toward establishment and operation of non-commercial educational TV stations, and the first national conference in Washington on educational TV.

One of the few soft spots in the otherwise healthy progress of the industry in 1953, as measurable and possibly correctable from the Capital, has been the plight of the FM's, and, to a degree, of the UHF TV stations.

Already, just before 1953 expired, the commission has taken at least one step to help the FM stations (which decreased in number by more than two score during the past year) to improve their financial status and at the same time make further use of the FM broadcast band. The step, which became effective early this year, permits the FM broadcasters to engage in certain non-broadcast utilizations of the band. More help may be expected to be forthcoming during the year.

The plight of UHF licensees and permittees, as considered by the commission, is less serious in degree perhaps only because the number of stations is not so great nor so widespread. Both are suffering from the fact that they are Johnnies-come-lately, after AM on the one hand, and VHF on the other, had been established, stations were operating, receiver manufacture was on a production basis and the newcomers have had an uphill battle.

It has been recommended from several sources, some of them within the commission itself, that sweeping investigations be held of both the suffering media to see if regulatory steps may be taken to correct their ills — these may be among the 1954 highlights.

Radio-TV Manufacturing Turns in Peak Performance

By ROBERT R. GALLAGHER

Associate Editor

Radio Annual & Television Year Book

PREDICTING business trends can be a risky business, but those staunch citizens who heralded 1953 as a peak year in radio and television manufacturing certainy knew what they were prognosticating about. New television markets, record radio set demands, and hectic requests for television studio and transmitting equipment joined forces to send dollar volume of business soaring well beyond the $2 billion mark.

Manufacturers, hustling to keep pace with their industry, turned out 7,250,000 television receivers, 1,000,000 units above the 1952 total, and more than 13,000,000 radios, a 2,000,000-unit increase. A record harvest of TV set sales was reaped during the year as the FCC introduced more and more new markets to the medium. Radio receiver sales were similarly hypoed by vast technical improvements and the now universal realization that "sound-alone" is still a welcome companion in the home.

Transmitter manufacturers, on the other hand, spent 1953 facing up to the herculean task of supplying needed equipment to the many new post-freeze television stations. This industry facet experienced the most productive year in its history, with the major portion of its work still to be done.

An unusual element amidst all the feverish activity during 1953 was the trend taken by a major portion of the industry stocks on the New York Stock Exchange. With the exception of a few of the more diversified manufacturers, such as General Electric and Westinghouse, a general downhill pitch was felt in stock prices. The trend, however, becomes less significant, when one considers that the stock market, as a whole, spent the most part of the year below sea level.

CBS A and B stock turned in the best performance, A going from 39 to 48⅛, and B from 39⅛ to 48. American Broadcasting-Paramount Theater prices showed a slight increase for the last three quarters, running from 14¾ to 14⅞. Admiral stock was down 30½ to 19¼, as were the others: Philco, from 35¼ to 28½; RCA Common, 28⅜ to 23⅛; Avco, 7⅞ to 4⅝; Stewart-Warner, 22⅛ to 20¼, and Zenith Radio, 81 to 63¼.

Bleak as the 1953 stock prices may seem, don't be misled. There is a brighter and more realistic approach in analyzing the year's business return. Let's take a look at a few year-end statements. RCA, for example, reported the largest volume of business in its 34-year history with an $830 million return on its products and services. Seventy per cent of this total was attributed to manufacturing.

Similarly, Emerson Radio and Phonograph Corporation, for the fiscal year, ended October 31, 1953, reported an all-time record volume for the company, amounting to $75,926,546. Magnavox Company, for the last six months of 1953, registered a 37 per cent business increase with sales in excess of $35,500,000. Looking at 1953 from a profit and loss angle there were few, if any, who suffered.

Apart from business volume, the greatest single achievement of the manufacturing industry during the past year was the development of compatible color television standards. December 17, 1953, the day on which the FCC voted its approval of the NTSC-proposed standards, will be looked upon, always, as a red-letter day in the history of television. The effects which the proximity of color-TV will have on the traffic of black-and-white sets, during the coming year, are dubious. Consensus of opinion holds that the new medium will not be ready for mass-consumption, either from an economical or practical standpoint, until, at least, 1956.

Meanwhile, manufacturers are concerning themselves with what the public appears to want "now." Production schedules for 1954 are optimistically aimed at higher levels than were achieved during 1953. All of the elements which favored the industry throughout the past year, at present, show promise of multiplying rather than diminishing. Will '54 top '53? Let's wait and see.

Sales Outlook Good in Radio-TV

By FRANK M. FOLSOM

From Page 55

Only because of this compatibility, designed and engineered into color television by RCA, can color and black-and-white television extend their magic harmoniously, without the slightest disruption of service, or inconvenience either to the owners of black-and-white or color TV receivers.

RCA commercial planning for color TV made substantial progress in 1953. Production schedules were mapped to provide more than 30 stations with necessary equipment to broadcast network-originated color programs in key cities by the end of 1953. Pilot production of color components—including the RCA tricolor tube—was underway. Pilot production of RCA Victor compatible color receivers was begun. During the fall of 1953, RCA followed the same policy in preparing for the introduction of color as it did for black-and-white television, making its developments and technical know-how available to the industry by means of clinics and seminars held for broadcasters as well as competing manufacturers.

Sales of radio sets—the "hardy perennial" of home entertainment—continued good in 1953. The industry manufactured nearly 13 million new radio receivers, and the number of sets in use established an all-time high of 115 million. Technical improvements and attractively styled cabinet designs pointed the way toward increased public acceptance.

Particularly in demand were battery-powered portables in lightweight plastic cases available in many colors; clock radios which can function as alarms; and improved table models which found expanding acceptance in almost every room of the home.

During 1954, radio will play a major role as a communication and entertainment service to the public, and sales of receivers can be expected to continue in substantial volume.

A new potentially important market for industrial television was opened by RCA in 1953, with the introduction of the "TV Eye" closed-circuit or "private-line" camera system. With a price of under $1,000 the "TV Eye" is finding widespread acceptance in schools, stores, hotels, prisons, hospitals, small factories and even homes.

A new magnetic sound tape recorder, developed by RCA for non-professional use, was introduced in 1953, and found wide acceptance in homes, schools, and businesses. It incorporates advances that are proving attractive to customers. These include automatic push-button operation; light-weight portability; easy tape-threading; smart luggage-type case; and dual-speed operation for maximum recording time. Also available is a complete line of RCA tape recorder accessories.

The phonograph and record industry is expected to continue its impressive growth in 1954, with a 10 per cent rise in record sales—on top of a 12 per cent increase in 1953—expected to push industry volume past the $250,000,000 mark.

Chief factors in the increase in record sales have been notable improvements in both the making of records and in their presentation to the public.

Records produced today, thanks to recent advances in the art and science of recording and reproduction, mean better sound for music buyers. Introduction of high fidelity instruments and records provided the trade with powerful, new selling ammunition and the public with added musical enjoyment.

One of the most sweeping advances in home entertainment came in the field of high fidelity sound recordings and reproduction. Until 1953, high fidelity—more commonly known as "Hi-Fi"—was the special interest of relatively small groups of music lovers, electronic technicians and hobbyists who made an expensive pasttime of seeking perfection in recorded sound by assembling component parts into a super-quality music reproduction system.

During the fall of 1953. RCA introduced to the public high fidelity "Victro'a' 'phonographs, designed to provide the average family with a new concept of life-like realism and quality in recorded music, at relatively low cost.

Now being mass produced by RCA Victor, these instruments give promise of providing millions of Americans with a whole new world of musical enjoyment. In addition to the complete "Victrola" phonographs, the company also is marketing a full line of intermatched highest quality components for persons desiring to assemble their own high fidelity systems.

More Americans saw

BULOVA ON TV

than any other product

Thanks to America's Largest Spot Campaign and Your Fine Cooperation

● Again in 1953, as in years past—more Americans chose BULOVA than any other fine watch in the world.

Again, we at BULOVA continued to depend upon spot television and spot radio as our principal advertising media. In fact, more than 200 TV stations carried BULOVA messages in 1953! And, we know that the success of these campaigns was due, to a large extent, to the magnificent cooperation of the radio and television stations and their representatives throughout the country.

So, once again, to all of you—our sincere appreciation. We look forward to many more years of pleasant and profitable association.

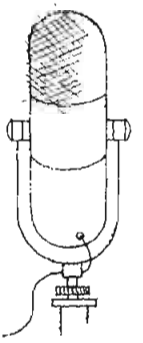
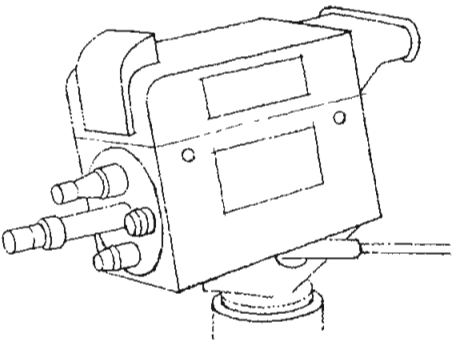
To the people who help us spread the word

It takes as many as 38 people to put together a 20-second chainbreak.

And thousands can be involved in the broadcasting of a network show.

To all you announcers, performers and technicians who help us sell our clients' wares on radio and TV, BBDO sends appreciative greetings.





BBDO

TV moves fast.
Are your commercials giving you the jump on competition—or are they lagging a couple of years behind? Think it over. Could be your sales curve is caught in a creative backwater.

Cecil Stewart's Royal Rogues

AMERICA'S GREATEST SINGING GROUP

CHICAGO SUN-TIMES "Cecil Stewart's Royal Rogues, a singing quintet, each of whom also has featured solo parts, blend their magnificent voices in a medley of stirring songs They bring the show's first stanza to a sock climax

LOS ANGELES EXAMINER "Truly one of the greatest singing organizatrons to come out of the West Coast in many a year"

MILTON BERLE. "This is the greatest group I have ever had the privilege of working wth"

Now Playing the Current Nite Spots on the West Coast

Cecil Stewart's Roguettes

TV's Five Sweethearts of Song

●

For past 3 years the singing stars of Ina Ray Hutton's all-Girl TV Show

●

With half million TV Fans this sensational group is a "natural" for your program.

● ● ●

These two acts can be combined with sensational effects, using special choral arrangements of favorite show tunes.

Cecil Stewart

A WORD ABOUT The Producer

Cecil Stewart originator and director of "The Roguettes," "The Royal Rogues," "The Royal Revellers" and "The Vigilantes," is also well known in Southern California musical circles. Director of highly successful musical comedies and light operas, he has been associated with many outstanding musical stars, as well as with the late Sid Grauman in the production of his fabulous prologues. A composer of note, Mr. Stewart has recently completed the score of a new Musical slated for production soon. Stewart as well as being director of his various groups, also makes all their vocal and orchestral arrangements.

HOW TO APPLY FOR FCC LICENSE

Official FCC Procedure for AM, FM and TV Licenses

ANY qualified citizen, firm, or group may apply to the Federal Communications Commission for authority to construct a commercial standard (AM), frequency modulation (FM), or television (TV) broadcast station.

Licensing of these facilities is prescribed by the Communications Act of 1934, as amended, which sets up certain basic requirements. In general, applicants must satisfy the Commission that they are legally, technically and financially qualified, and that operation of the proposed station would serve the public convenience, interest or necessity. The Communications Act also recognizes broadcasting as a competitive industry and invests the Commission with the responsibility of allocating facilities so as to provide a fair, efficient, and equitable distribution of radio service.

The licensing procedure is detailed in Part 1 of the Commission's "Rules Relating to Practice and Procedure," while station operation is covered by Part 3, "Rules Governing Radio Broadcast Services," and "Standards of Good Engineering Practice" for AM stations.

Following is a summary of the consecutive steps required in applying for authorization to build and operate a commercial broadcast station.

Selecting a Frequency

Standard (AM) broadcast stations operate on "local," "regional," or "clear" channels. Local stations are of 100 to 250 watts power and serve smaller communities; stations of 500 watts to 5 kilowatts power cover larger centers of population and surrounding areas; stations of 10 to 50 kilowatt maximum power are for large area coverage, particularly at night.

To determine whether an AM frequency is available for assignment in a particular area, it is necessary for the applicant to have a frequency search made by a competent engineer.

An applicant for a commercial FM station must specify a frequency available to the area to be served. The Commission has tentatively allocated geographic blocks of frequencies to accommodate Class A stations (community) and Class B stations (metropolitan and rural) throughout the United States. The demand for FM stations has not yet exceeded the supply of available frequencies.

An applicant for a new television station must request a channel assigned in the Table of Assignments to the community involved. However, a channel assigned to any community listed in the table can be requested for operation in any unlisted community within 15 miles of the listed community. Commercial TV stations are authorized for unlimited hours of operation and are of a single class with minimum power determined by the size of the principal city and maximum power dependent on antenna height and allocation zone. Channels are reserved for noncommercial educational TV operation.

Applying for a Construction Permit

Once a prospective licensee has decided upon the type of station he wishes to apply for, the next step is to make application for a construction permit. This application must be in writing on a form supplied by the Commission (Form 301, "Application for Authority to Construct a New Broadcast Station or Make Changes in an Existing Broadcast Station," which covers AM, FM, and TV broadcast). This form requires information about the citizenship and character of the applicant, as well as his financial, technical, and other qualifications to construct and operate a station, plus details about the transmitting apparatus to be used, and the proposed new service. Triplicate copies are required, one of which must be executed under oath or affirmation.

Application Processing

Applications are reviewed in their engineering, legal, and financial aspects by the Broadcast Bureau, which makes recommendations to the Commission.

If, upon examination of an application, the Commission determines that there are no engineering conflicts, that the applicant is qualified, and that all other requirements are met, the application is granted without hearing and a construction permit is issued.

Any grant made by the Commission without a hearing is subject to protest within a period of 30 days, during which the protesting party may request a hear-

www.americanradiohistory.com

ing. Within 15 days thereafter the Commission must determine whether the objection merits a hearing.

The law requires that, in general, final decision on noncontested applications be rendered within three months from the date of the original filing, and within six months from the conclusion of a hearing in those cases which go through a hearing.

Hearings

Where it appears that an application violates provisions of the Commission's rules and regulations; that interference would be caused to another AM or FM broadcast station; or that the minimum separation requirements for TV stations are not met; or if other serious questions of a technical, legal, or financial character are involved, a hearing usually is required before a final decision on the application can be made. Often a hearing is necessary because two or more applicants seek to use the same frequency or immediately adjacent frequencies with such a proximity of stations that excessive interference would result. In such instances, the Commission is compelled by law to accord a hearing to the competing applicants and to make a comparative judgment as to which, if either, should be granted.

If unable to grant an application, the Commission is required to notify the applicant and other known parties of interest as to the reason. The applicant usually is given 30 days in which to reply. After that, if the Commission is still unable to make a grant, a hearing is ordered.

In designating an application for hearing, the Commission gives public notice of the issues for the information of the applicant and other parties who may be concerned. The hearing notice generally allows the applicant a period of 30 days or more in which to prepare. Even after being designated for hearing, an applicant may sometime find it possible to satisfy the issues by amending his application, especially if the apparent deficiencies are of an engineering nature.

All competing applications for the same facility are required to be on file at least 30 days before the start of the scheduled hearing.

Within 20 days after the close of a record by the hearing examiner, each party and the Chief of the Broadcast Bureau of the Commission has the privilege of filing proposed findings of fact and conclusions in support of their contentions. After review of the evidence and statements, the hearing examiner issues an initial decision.

In the event he wishes to contest the initial decision, the applicant or any other interested party has 20 days from the date on which the initial decision was announced to file exceptions and to request oral argument before the Commission. In all cases heard by an examiner, the Commission will hear oral argument on request of either party. After oral argument, the Commission may adopt, modify, or reverse the hearing examiner's initial decision. Within 30 days thereafter, any party involved may petition for rehearing.

If no exceptions are filed, and the Commission does not initiate a review of the hearing examiner's initial decision, the latter becomes effective 40 days after the issuance of the initial decision, unless otherwise ordered by the Commission.

Construction Permit

When and if an application meets statutory and other requirements, it is granted and a construction permit is issued. A maximum of 60 days from date of grant is provided in which construction shall begin, and a maximum of 6 months thereafter as the time for completion (or 8 months in all). Application to modify a broadcast construction authorization, or to make changes in an existing station, or to modify a license, is made on the same form (301) used in seeking initial construction authorization. If the permittee is unable to build his station within the time specified, he can apply for extension of time on Form 701 ("Application for Additional Time to Construct a Radio Station"), giving the reasons. Upon completion of construction the permittee can engage in equipment tests.

License

The final step is to apply for the actual license. All applicants for broadcast license are required to fill out Form 302 ("Application for New Broadcast Station License"). Applicants must show compliance with all terms, conditions, and obligations set forth in the original application and the construction permit. After applying for a license and receiving authority from the Commission, the holder of a construction permit can conduct program tests. A station license is then issued if no new cause or circumstance has come to the attention of the Commission that would make operation of the station contrary to public interest.

AM, FM and TV broadcast stations are licensed for the statutory limit of three years. Applications for renewal of license are made on Form 303.

RADIO BOARD OF DIRECTORS 1953-1954

In accordance with Article IV of the By-Laws, the Board of Directors has designated the following composition of each of the 17 NARTB Districts.

Director	District	States Comprising District
Robert L. Krueger..... WTAG, Worcester	1	Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont.
E. R. Vadeboncoeur..... WSYR, Syracuse, N. Y.	2	New York and New Jersey.
George H. Clinton..... WPAR, Parkersburg, W. Va.	3	Delaware, Pennsylvania, West Virginia and Maryland, excluding the counties of Prince Georges and Montgomery.
Harold Essex ..... WSJS, Winston-Salem, N. C.	4	District of Columbia, North Carolina, South Carolina, Virginia and Maryland, including the counties of Prince Georges and Montgomery
John Fulton ..... WGST, Atlanta, Ga.	5	Alabama, Florida, Georgia, Puerto Rico and Virgin Islands.
Henry B. Clay..... KWKH, Shreveport, La.	6	Arkansas, Louisiana, Mississippi and Tennessee

www.americanradiohistory.com

Director	District	States Comprising District
F. Ernest Lackey..... WHOP, Hopkinsville, Ky.	7	Kentucky and Ohio.
Stanley R. Pratt..... WSOO, Sault Ste. Marie, Mich.	8	Indiana and Michigan.
Hugh K. Boice, Jr..... WEMP, Milwaukee, Wis.	9	Illinois and Wisconsin.
E. K. Hartenbower..... KCMO, Kansas City, Mo.	10	Iowa, Missouri and Nebraska.
John F. Meagher..... KYSM, Mankato, Minn.	11	Minnesota, North Dakota and South Dakota, excluding the counties of Fall River, Shannon, Bennett, Todd, Mellette, Waushabaugh, Washington, Custer, Pennington, Jackson, Jones, Stanley Haakon, Meade, Lawrence, Butte, Harding, Perkins, Ziebach, Armstrong, Dewey and Corson.
Jack Todd ..... KAKE, Wichita, Kan.	12	Kansas and Oklahoma.
Kenyon Brown ..... KWFT, Wichita Falls, Tex.	13	Texas.
William C. Grove..... KFBC, Cheyenne, Wyo.	14	Colorado, Idaho, Utah, Wyoming, Montana, New Mexico, and South Dakota, including the counties of Fall River, Shannon, Bennett, Todd, Mellette, Waushabaugh, Washington, Custer, Pennington, Jackson, Jones, Stanley, Haakon, Meade, Lawrence, Butte, Harding, Perkins, Ziebach, Armstrong, Dewey and Carson.
William D. Pabst..... KFRC, San Francisco, Cal.	15	California, excluding the counties of San Luis Obispo, Kern, San Bernardino, Santa Barbara, Ventura, Los Angeles, Orange, Riverside, San Diego and Imperial, Nevada, excluding the counties of Mineral, Esmeralda, Nye, Lincoln and Clark, and Hawaii.
Albert D. Johnson..... KOY, Phoenix, Ariz.	16	Arizona, California, including the counties of San Luis Obispo, Kern, San Bernardino, Santa Barbara, Ventura, Los Angeles, Orange, Riverside, San Diego, and Imperial, and Nevada, including the counties of Mineral, Esmeralda, Nye, Lincoln, and Clark.
Richard M. Brown..... KPOJ, Portland, Ore.	17	Alaska, Oregon and Washington.

Decline in Reign of Ratings Forecast by ABC President

By ROBERT E. KINTNER
President
American Broadcasting Company

THE reign of the great king of broadcast advertising — Rating — may be over. He may be dethroned in 1954 by a new monarch of the advertising world who's symbol will be sales — audience cost per thousand.

Those who keep an eye on the nation's economic weather vane predict it could happen in 1954. Here are the economic weather signals already flying: there will be a 10 per cent reduction in personal income taxes in 1954 and, in many cases industrial inventories are at high levels.

Industry looking both at its inventories and at the 10 per cent increase in take-home pay in the hands of the public will be seeking to improve its share of the anticipated increased consumer buying.

This means that advertising will face a severe test in 1954. It can no longer bask in the comfort of spending "tax dollars." Advertising will have to generate peak sales impetus. This will mean that the rating will become second in importance to whether the advertising sells the sponsor's product.

There are many examples of low rated programs paying off for advertisers on a cost per thousand basis coupled with a demonstrated ability to move goods.

I believe that 1954 will bring a widespread search for more of this type programming in radio and television.

In line with this changed emphasis will be a study on the costs of programming to reappraise the advertising values of some of the more costly programs. Where this could lead, of course, is anyone's guess. If advertisers determined they wanted greater exposure for their dollars one avenue would be in more rotating sponsorship of programs. This would be one way in which they could steady their costs and yet spread their dollars and messages to reach a larger audience.

Within our own industry—radio and television broadcasting—I am certain the competition for the audience will be greater. This I know to be a certainty since my own company, the American Broadcasting Company, has materially strengthened its position both with the audience and the advertiser as a result of our new programming during the final quarter of 1953.

In 1954 we plan to improve our audience position further with more important radio and television programming. In radio, we opened 1954 with the important "Martin Block Show" going out to the afternoon audience over the ABC Radio Network. In February we plan to bring early morning radio's most popular network program, ABC's "Breakfast Club," to the television audience as a simulcast. Beyond this we have further plans for adding to our talent roster with important program and star additions.

Thus, in girding for 1954—a year in which industrial competition will be at its peak, ABC has strengthened its position within the industry in 1953 and has further plans for scaling greater competitive peaks in the year ahead.

Aware of this new era of competition, ABC entered 1954 with completely separate advertising, promotion, sales, programming and research staffs.

This separation within ABC we feel will impart the creative drive and energy so necessary on an individual basis to sell radio and sell television in 1954. From the inventiveness of personnel solely devoted to each medium on a separate basis will come competitive thinking that will meet the tests of what we believe will be newly designed advertising objectives.

In summary, these objectives I feel will tie advertising costs directly to consumer sales during an era of increased consumer income when all industry will be striving to increase, or at least hold, its share of the market.

Viewed in this light, one thing seems certain for radio and television in 1954: sponsors will be more interested in sales than in ratings.

From AMPEX
the best answers to broadcast recording

YESTERDAY

Transcriptions so "live" they defied detection — this ideal became a reality when Ampex introduced the Model 200. Within months of their introduction, AMPEX Tape Recorders had been installed by a major network throughout its facilities from coast to coast and others were following fast.

TODAY

Ampex has brought the cost of ultra high fidelity tape recorders down to a quarter of the cost of the original Model 200. The low maintenance cost, durability and fidelity of the AMPEX has made it the established standard of the broadcast industry — yet its superlative performance is within reach of every station from 50,000 watts to 250 watts.

TOMORROW

The AMPEX you buy today will still be giving unsurpassed fidelity and performance, and Ampex will still be setting the pace for the recording industry.

AMPEX
CORPORATION

AMPEX CORPORATION
934 Charter Street • Redwood City, Calif.

For your recording requirements, your best answers today or tomorrow will come from the leader in the tape recording field. If you plan for tomorrow, buy AMPEX today.

Growth of Radio Audience Indicates Medium's Vitality

By ADRIAN MURPHY

President
CBS Radio

DURING 1953 the American public purchased 13 million new radio sets. which not only kept radio out front as the nation's favorite medium, but, in terms of new units added, made it the fastest-growing. Today, U. S. families (over 98 per cent) own an estimated 115 million sets—114 million of them bought new since 1946. Directly supporting this testimony to radio's continuing prosperity and vitality are the 1953 figures for advertising revenue, which overall (network, national spot, and local) exceeded the 1952 total.

More time was sold on the CBS Radio Network in 1953 than during the previous year. The number of clients using the network increased from 90 to 93. As result CBS Radio has the good fortune to enjoy a greater lead in billings than ever before. The reported prosperity across the country of radio stations generally is borne out by the experience of the six radio stations wholly owned by CBS Radio, whose billings too were up over the previous year.

Recently, eleven of the nation's large radio stations joined forces to commission a joint study by Alfred Politz, Inc., in television markets. One of its findings gave a graphic answer to why radio continues to play such a vital role in the nation's life: when asked what they considered the *dis*adantages of radio, 71 per cent of the people interviewed couldn't think of any! As the survey noted, "People actively *like* the medium that is so much their *companion* in fun and information." If people like the companionship radio offers today, they can look forward to even greater companionship tomorrow. 1953 introduced the first truly personal portable radio, a set so small the listener can take it in his pocket wherever he goes.

What gives radio such continuing vitality? One cause is the nature of the medium. It is human and personal: in its simplest form, the voice of one person sharing an experience with, or informing another. And the capacity of the human voice on radio to involve the listener's emotions is powerful. Even so relatively sophisticated a radio fan as Mercedes McCambridge—whose years of experience in serial dramas contributed to her Academy Award for "All the King's Men"—reports that she still finds *listening* to serial drama a compelling emotional experience.

In the past year, radio strengthened its vitality by creative programming efforts. CBS Radio unveiled "Stage Struck," the hour-length program that looks into every corner of the world of the theatre. "21st Precinct," "Crime Classics," "Cathy and Elliott Lewis Onstage," all top-notch dramatic programs. In variety and comedy, "The Johnny Mercer Show," "The Robert Q. Lewis Show," and "That's Rich."

In the field of news and public affairs CBS Radio reported the Coronation, President Eisenhower's Inaguration, the Korean Truce and Prisoner Exchange, and the Bermuda Conference.

In the area of documentary journalism, CBS Radio's Feature Project series presented eight programs which considered social problems as diverse as parole traffic safety, and baseball. And such week-to-week network features as "U.N. on the Record," "Twentieth Century Concert Hall," and the Columbia University Bicentennial series, "Man's Right to Knowledge" brought enlightenment to people everywhere.

1953 saw the record sum of $170 billion dollars spent by American consumers for the retail goods they want and need to maintain, as somebody said, "their neighbor's standard of living." And by and large, it is advertising which passes along the news of the standards next-door.

Since only advertising can move so many goods to so many people, radio must continue to flourish as the most efficient mass medium.

Vitality of Web Radio Ends Obituary Disputes

By THOMAS F. O'NEIL
President
Mutual Broadcasting System

IN any field, the invitation to weigh a new year's outlook against a past year's progress is a dubious honor. In the broadcasting business, this invitation has too often become a summons to membership in the Guild of Clouded Crystal Ball Gazers, a club already overcrowded with prophets of the death of radio. As one who never could detect any signs of rigor mortis in network radio, I am particularly gratified by the great vitality this medium has shown in 1953 — ending (forever, I hope) all need for obituary dispute, and enabling all of us to focus our efforts on the lively future of sound broadcasting.

Even a casual review of the past year reveals several sure symptoms of radio's liveliness. Some of these signs indicate the depth to which radio continues — and increases — to be indispensable to the American people in their round-the-clock living. Other signs make clear the scope to which radio continues — and increases — to serve American industry in its round-the-year selling.

On its bare, over-all dimensions alone, radio set new records in '53. The ownership and maintenance of 110,000,000 receivers by 45,000,000 U. S. families is a landmark in itself. So, too, is the emergence of the medium as an unprecedented *personal* force, through continued uptrends in multiple sets in multiple places-to-listen. And so is the development of America's automobile audience, enormous in mass and mobility, though still inadequately measured.

Radio '54 needs none of these facts of life elaborated in such space as this—but it needs all these facts and more made clear to the leaders of industry, week after week. A shining beacon in this direction was lighted last year by the Politz study of radio in TV areas, with its *qualitative* revelations of listening. In my opinion, this study provides not only an authoritative appraisal of the individuals-in-mass millions whom radio must serve — it also offers a challenging cue to the sort of market research that will best educate the industrialists whom radio must sell. The "how many" factor of this medium is still an unmatched asset, but the "how" and "why" factors are worthier study subjects today than ever.

Meanwhile, the facts already at hand keep right on affirming the persistent vitality of radio. On one network, anyway, the standard research systems reveal *increased* listening — even at night, and even in time periods when TV has its peak appeal. Over here at Mutual, Sunday afternoon of course continues as a high-level stronghold for radio. But we're also showing listener strength in the evenings, with nearly one-fifth *more* homes tuned in, 8-8:30 p.m., Monday through Friday, than a year ago.

On the record for this one network alone, improved programming, sensibly integrated with the public's entertainment interest, seems to point the way to still more effective broadcasting, day and night. It is this policy which we plan to pursue in the months and years ahead.

As for the fiscal, bodily health of radio at this juncture, the temperature-chart of our own network is better than reassuring. When clients increase their annual investments here by a solid 10 per cent ('53 over '52), when they add to their use of our facilities by an average of 19 per cent more stations per broadcast, and when the over-all result is the second biggest year in our history — then my personal beliefs about network broadcasting seem to be shared by an important panel of judges.

A year ago, on this page, I acknowledged television's contribution to radio in the degree to which advertisers who had never before ventured off the printed page were coming into radio via experiments in TV. During the past 12 months, more new-to-radio advertisers than ever before have discovered — for one reason or another — how well this medium can work for them.

Advent of Color TV Era Finds Broadcasting Ready

By SYLVESTER L. WEAVER, JR.
President
National Broadcasting Company

THE year of 1954 finds the broadcasting industry in the most exciting and significant era in the history of communications—the era of color television.

Color brings to advertisers their most potent tool. Here is the perfect advertising medium, combining sight, color, sound and movement.

And now color television is a reality. On Dec. 17, 1953, the Federal Communications Commission approved color television signal standards for the industry.

We at NBC have been fortunate because it was our parent company, the Radio Corporation of America, under Brig. Gen. David Sarnoff, which pioneered, the compatible color standards which were endorsed by the whole industry and approved by the FCC. In working with RCA, as its broadcasting service, during years of developmental work, we were able to get off to a head start in the color broadcasting sweepstakes.

This head start was demonstrated most graphically when, in the immediate wake of the FCC decision, NBC broadcast four outstanding commercial programs in color in a period of two weeks. These were: "Amahl and the Night Visitors," the Gian-Carlo Menotti Christmas opera; "Season's Greetings," a one-hour all-star variety show; the Christmas episode of "Dragnet," which marked the first use of color film in commercial colorcasting; and the brilliant Tournament of Roses Parade, which was the first West-to-East transcontinental color transmission.

We at NBC are proud that it is our network which paved the way for commercial color telecasting by developing program techniques that are setting the standards for the entire industry. Even before FCC approcal came, these techniques had been demonstrated time and time again during 1953 in experimental colorcasts which drew acclaim in New York, Chicago and Los Angeles.

We have welcomed inquiries from the entire industry on color programming techniques we have developed. Our color corps specialists have given lectures to technicians and program people representing all the networks. The techniques we have learned are available to all.

Color will give the broadcasting industry an even greater opportunity for service. And a greater responsibility. For, as communications people we are entrusted with the most important instruments since the invention of print.

We have made tremendous strides in color television. But black-and-white television will still be top dog for many years to come. And developments in our black-and-white operation have been considerable. During 1953, we increased the usefulness of television to the advertiser. Through the creation of new programming and sales policies, we made the sales impact of television available to a broader base of advertisers.

In the realm of public service, NBC increased its scope during the past year, with an increase both in quantity and quality of news, information, public discussion and special events.

On the radio side, NBC enters 1954 with a tried and proven medium completely revitalized. The program, sales, advertising and promotion activities of the radio network have been separated from those of television in the interests of strengthening the operation.

On the sales side, new and smaller program packages, making big-time radio available to small-budget advertisers, has placed the best in the audio-only medium within reach of the advertisers who up to now have not been able to afford the best.

The trade press has spoken much in recent months of the "Pat and Bob" team at NBC. Bob Sarnoff, NBC executive vice-president, and myself consider ourselves as a team, and work as a team on program and sales policies. With Bob as team-mate, I am most optimistic about forward strides NBC can make in 1954 in further improving our broadcasting service both as a public service and as a sales medium.

For television personnel turn to TELEVISION YEAR BOOK in this volume

www.americanradiohistory.com

Local Radio Still Potent Despite Television Gains

By SIDNEY J. WOLF
President
Keystone Broadcasting System, Inc.

AGAIN in 1954, the advertiser is confronted with another period of adjustment, created by increased TV coverage—represented by stations presently operating who will expand facilities, and by those that will be in operation by the end of the year. Keystone has, at present, 244 radio stations beyond effective TV coverage area, and as new TV stations are built, there will undoubtedly be many advertisers who will use TV—supplemented with radio, to achieve forceful national radio and TV coverage. Within the past year, many advertisers have effectively supplemented TV operations with Keystone, and as TV markets increase, we believe that the trend to supplement TV schedules with Keystone will be even greater.

Keystone was established to enable advertising agencies to buy a practical "package" of small stations with a single order . . . providing a simplified method for their clients to reach this "plus" audience in the fertile "Home Town and Rural America" market. Entering its fourteenth year of operation, Keystone is proud of having shown a consistent increase in business with each succeeding year. The number of present station affiliates is now in excess of 700, and during 1953, 27 new major advertisers were added, and 79 new affiliates. These figures are evidence of satisfactory performance, and substantiate the advertisers' faith in Keystone as a medium to increase their sales and profits. And there is every indication that 1954 will be an even better, more profitable year for Keystone, its affiliates and clients.

During 1953, Keystone subscribed to Nielsen Coverage Service for its entire network, enabling us to give advertisers and their agencies the most accurate information regarding market coverage and listenership.

During the past several years, Keystone has strongly emphasized to affiliates the importance of follow-through merchandising. In 1953 this practice has proved to advertisers using Keystone, that merchandising activities done by our stations as "part of the job," have effectively increased sales of the many products advertised. Typical merchandising follow-through by Keystone stations includes such activities as personalized local mailings, distribution of displays, messages to merchants encouraging promotional tie-ins, personal calls by the station manager and staff, public demonstrations in keeping with the promotion, etc. We intend to step up even further such merchandising follow-through during the future. No set formula is used for any product; the problems of each advertiser are individually and carefully studied, worked out with the advertiser — who is most familiar with his own sales problems—giving each campaign the best possible advantage in a most practical way.

Keystone merchandising of this type is so effective primarily because the manager and personnel of our type of station is usually *personally* acquainted with all the local business men, and this personalized contact appeal brings about the desired cooperation most easily.

Keystone looks forward to another year of progress . . . helping more advertisers discover and benefit from the richness of America's "Home Town" stations, whose combination of sales producing ability and merchandising power is the sole factor in the success of the Keystone network.

In 1954, Keystone Broadcasting System — the only national transcription network — will become a medium of even greater importance to the nation's advertisers who want to reach the world's most lucrative market. We believe that the coming year will show increased coverage by currently affiliated stations, who improve facilities — and through the addition of stations in new markets not as yet covered by Keystone.

SERVICES OFFERED: The Keystone Broadcasting System is a transcription network which services local radio stations with programming transcriptions, and KBS makes their time available to national advertisers and their agencies at an attractive network package rate.

At present, there are more than 700 Keystone affiliates, located in towns with 10,000 to 100,000 population where they reach both the small town and rural markets. For the most part, these Keystone stations serve those areas which are beyond clear reception areas of the large metropolitan radio stations or other high-power stations. The number of radio homes in these Keystone markets, based on Nielsen Coverage Service areas is 17,181,040. There are an additional 1,382,810 homes in the primary area of 59 KBS stations for which the Nielsen reports were not available, therefore, the total radio homes within the primary area of Keystone represents a total of 18,563,850.

Keystone is a flexible media easily purchased, whole or in part. Entire areas or spot coverage may be selected . . . whichever meets the needs of the advertising program. Regardless of the schedule, Keystone makes its time available at a considerable savings.

In operation, Keystone offers the same advantages as the wired networks. Instead of a large number of individual transactions, KBS reduces your problem to one order, one time clearance, one series of Affidavits of Performance, and one invoice.

Many of the nation's largest advertisers are using the facilities of Keystone. Types of programming vary from 25 word spots to one hour shows.

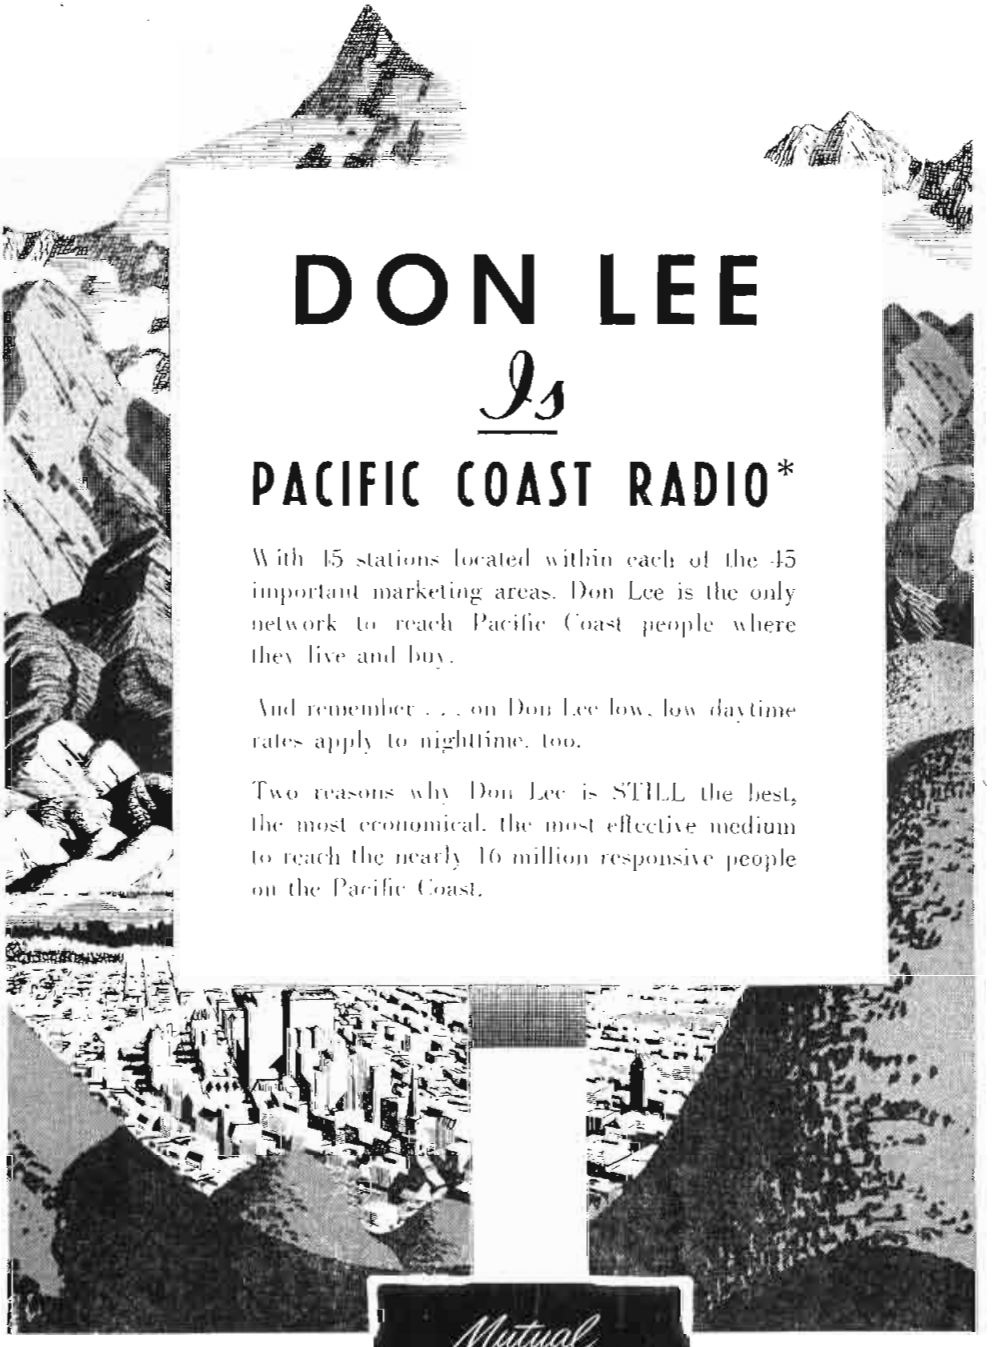
THOSE WHO KNOW FAMOUS BRANDS . . . .

Says a locker plant president: "Through daily use of this **AP** program I have found my business has increased to maximum present capacity. The coverage of The **AP** and its completeness has made it possible."

. . . . KNOW THE MOST FAMOUS BRAND IN NEWS IS AP

www.americanradiohistory.com



DON LEE

Is

PACIFIC COAST RADIO*

With 45 stations located within each of the 45 important marketing areas, Don Lee is the only network to reach Pacific Coast people where they live and buy.

And remember . . . on Don Lee low, low daytime rates apply to nighttime, too.

Two reasons why Don Lee is STILL the best, the most economical, the most effective medium to reach the nearly 16 million responsive people on the Pacific Coast.

** The Nation's Greatest Regional Network*

Mutual DON LEE RADIO

Keep your eye on KBIG!

Our advertisers report sales increases, which are reflected in increased schedules.

Business is Good!

KBIG last quarter sales were 72% more than same period last year.

Increase your sales in ALL Southern California.

Reach America's Third Market with the KBIG 10,000 watt signal from Catalina.

Good Availabilities do go fast!

Call your KBIG sales representative or Robert Meeker Associates, Inc., for costs and schedules.

740

This is the "high-traffic" point on the dial where advertisers and listeners meet. The powerful KBIG signal is boomed from Catalina Island across salt water (best conductor of radio waves) to reach all Southern California... Los Angeles, San Diego, Long Beach, Pasadena and 103 other incorporated cities PLUS the vast rural populations of 8 big counties. This is truly the Giant Economy Package of Southern California Radio.

REACH AMERICA'S RICHEST AGRICULTURAL VALLEY WITH

KBIF 900 KC

Center of the Dial

Advertisers use KBIF independently or in combination with KBIG to reach Fresno County and its adjoining counties—KINGS, MADERA, MERCED and TULARE—all in the prosperous San Joaquin Valley of Central California.

www.americanradiohistory.com

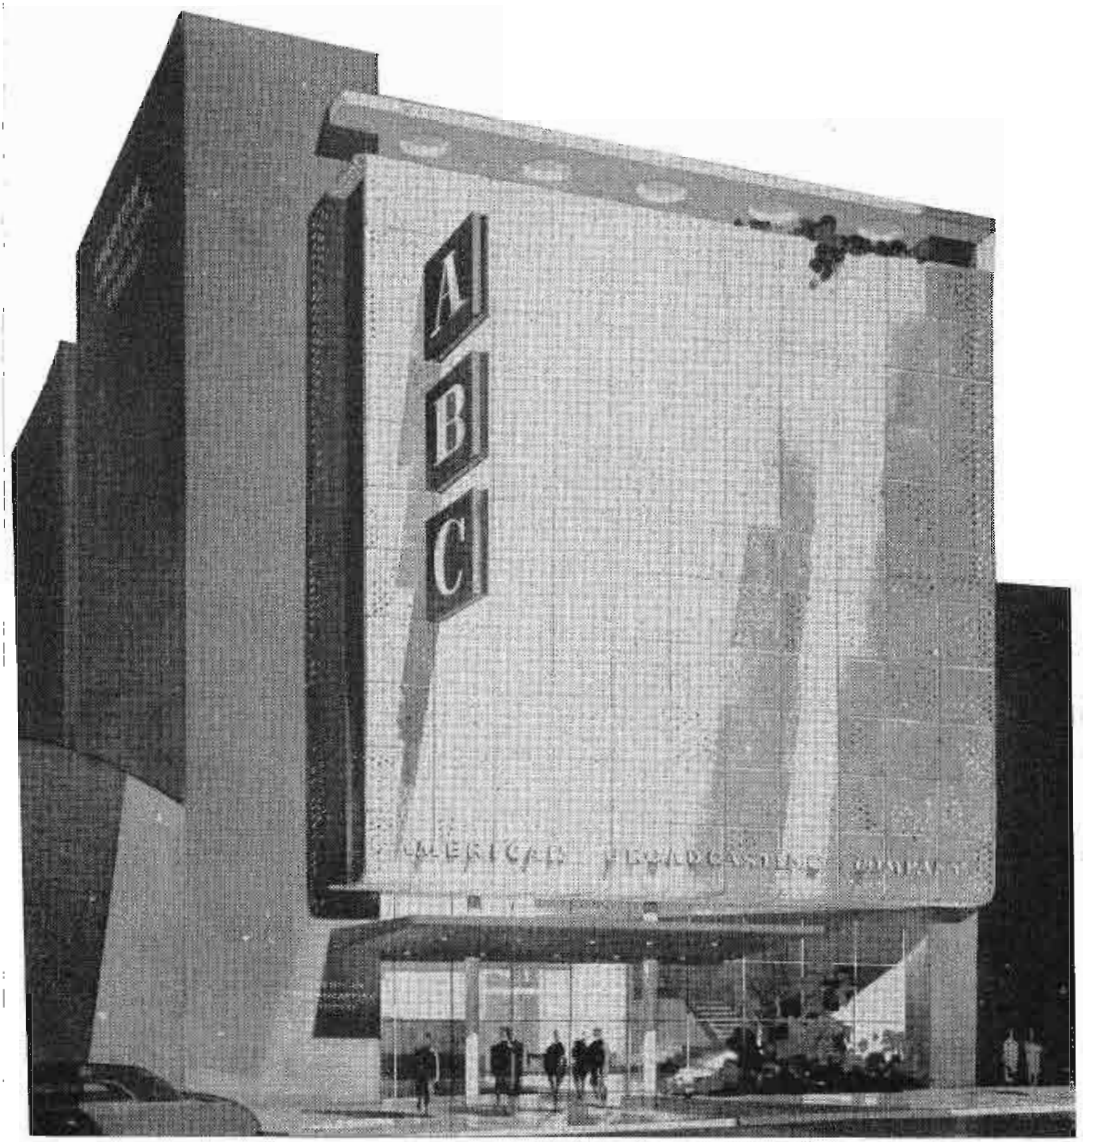
. . . finest radio-TV facilities in northern California!



This is ABC Radio-TV Center in San Francisco . . . *new* home for ABC's owned stations, KGO and KGO-TV. Just completed, this ultra-modern center, costing in excess of a million dollars, provides KGO and KGO-TV with broadcasting-telecasting facilities *superior to any* in the important San Francisco-Oakland Bay Area market. Better facilities mean better service to listeners and advertisers . . bigger audiences for KGO and KGO-TV advertisers.

50,000 WHATS ?

Station power by itself is only part of the story, and the fact that WTIC is the most powerful station in Southern New England would not interest an advertiser were it not for the confidence and loyalty of our listeners. Over the years, WTIC's policy of careful screening of advertisers, high standards of entertainment and public service has made our programs unexcelled backgrounds for messages that sell.

FOR YOUR SELLING . . .
USE WTIC

WTIC DOMINATES THE PROSPEROUS SOUTHERN NEW ENGLAND MARKET

THOSE WHO KNOW FAMOUS BRANDS . . . .

Says a station executive, speaking of a Cadillac dealer's program: "Our sponsor believes Cadillac is the ultimate in automobile quality. We at the station believe just as firmly that the ultimate in news is **AP**. The marriage, you might say, was inevitable."

. . . . KNOW THE MOST FAMOUS BRAND IN NEWS IS AP

www.americanradiohistory.com

If you're looking for coverage which umbrella would you choose?

Measure dollars expended. Measure audience obtained. POWER is radio's *only* successful answer to the competition of television.

In Georgia, Atlanta's WSB is your clear channel 50,000-watt voice. This one *power* station gives you the major share of the Atlanta audience; it delivers for you a worthwhile audience in Georgia's secondary markets—and a tremendous number of listeners elsewhere.

No other Georgia station or combination of Georgia stations gives you as many listeners per dollar as you can get on WSB.

Clear channel *power* alone gives you this complete, low cost umbrella-type coverage.

Get more for your radio dollar in Georgia . . . *get on WSB*. One rate, day and night, 7 a.m. to 11 p.m., class B all other.

wsb

The Purpose of Advertising is to get

RESULTS

Evidence of WLS position as a result producing medium for advertising is found in the impressive group of advertisers who, like those listed below, use the station consistently year after year. They and many others have found that listener loyalty to WLS extends to the station's advertisers —and that midwest people *buy* the products they hear about on WLS.

Listener loyalty produces advertising results.

QUAD-CITIES
AS CLOSE TOGETHER AS THE BOROUGHS OF NEW YORK
IOWA
DAVENPORT
EAST MOLINE
ROCK ISLAND
MOLINE
ILLINOIS

In the 10 Iowa-Illinois Counties circling the Quad-Cities there are:

21,220 FARMS

with an average acreage of

160 ACRES per FARM

and a gross cash farm income of

$14,400 per FARM

- Three of these counties were among the nation's top ten for hog raising.
- Four of these counties were among the nation's 100 leading counties in Gross Cash Farm Income.
- And in all 10 counties that circle the Quad-Cities the farmers who live there averaged over $14,000 a year income.
- Huge acreages of grain and hay crops as well as top production of cattle, hogs, and sheep bring in the money.
- Figures from Sales Management and U. S. Census.

THOSE WHO KNOW
FAMOUS BRANDS . . . .

Says a sales-minded station executive: "We buy news for re-sale. We find **AP** news is not only favored by our sponsors, but **AP's** complete coverage gives us a gratifying revenue potential because of the variety of packages we can make of it."

. . . . KNOW THE MOST FAMOUS
BRAND IN NEWS IS **AP**

THOSE WHO KNOW
FAMOUS BRANDS....

Says WLBJ's Commercial Manager Bob Proctor at Bowling Green, Ky.: "Our merchants — like merchants everywhere — are brand conscious. When we offer them **AP**, they know they're getting the best brand in news."

....KNOW THE MOST FAMOUS BRAND IN NEWS IS **AP**

WIDE

BIDDEFORD—1948—MBS-YANKEE

Frequency: 1400 Kc.....Power: 250 Watts

WIDE

BIDDEFORD-SACO, ME.
MBS-YANKEE

Since it went on the air November 6, 1948, it has been growing steadily in acceptance as a proven sales medium in this industrial recreational marketing area. WIDE's prime daytime service area covers a population of 201,785 . . . During the spring and summer months the population increases enormously because WIDE is located in the heart of Maine's richest resort area . . . Old Orchard Beach, Kennebunk Beach, Pine Point and many others. Here, too, are located the famous textile plants of Pepperell, Bates and Saco-Lowell with large year-round payrolls.

Together with WIDE, WAZL, WHOL, WILM and WVDA are under the supervision of Victor C. Diehm, radio pioneer and executive.

www.americanradiohistory.com

This Is What WWJ Coverage Of The Detroit Market Means:

WWJ Primary Listening Area covers 1,190,000 radio homes, and 5,330,000 people who spend $6,031,000,000 annually in retail stores.

WWJ *today covers 125,000 more people than in 1951 . . . 22,500 more radio homes . . . and an area that does $1,252,000,000 more retail business.*

WWJ covers 69% of Michigan's total population and total retail sales . . . and centers its sales efforts on a market that is first among the nation's major markets in retail sales per family, in factory wage rates, in drug and automotive sales per family.

WWJ *covers the world's greatest car-radio audience . . . nearly one mill on passenger cars that are driven a total of 15 million miles, to and from work EACH DAY, within Metropolitan Detroit.*

WWJ covers 33 years of broadcasting, during which it has received radio's highest merit awards. Its programming leadership and community prestige make WWJ the ACCEPTED station of the nation's selective advertisers, in the richest market concentration of family buying power.

The time to sell Detroit is now . . .
the station is . . .

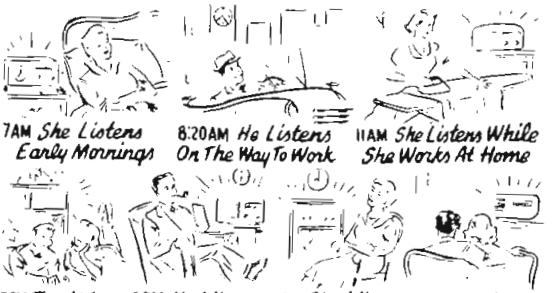
SATURATION

GIVES YOU ALL THE AUDIENCE

IN BUFFALO and WESTERN NEW YORK



SO Pitch your sales message at ALL hours

. . . NOT once a week; NOT five times a week . . .

BUT 26 TIMES A WEEK!

WKBW

offers alert advertisers

SATURATION!

The most successful advertising technique is "Telling your soles story to as many people, as many times as you can, within the limits of a sound budget." This is the WKBW SATURATION FORMULA which is bringing increased sales results far WKBW advertisers; and we have the renewals to prove it. Call Avery-Knodel or WKBW.

WKBW

offers you MORE THAN TWICE AS MANY LISTENERS FOR YOUR DOLLAR!

No matter whot your yardstick is for buying radio time . . . Nielsen . . . Pulse . . . coverage maps . . . or special local surveys, you'll find a WKBW SATURATION CAMPAIGN gives you MORE THAN TWICE AS MANY LISTENERS for your advertising dollar. That's why your sales results will be MORE THAN TWICE AS GOOD! For details about this and other WKBW saturation campaigns call Avery-Knodel or WKBW.

the WHLI long island story

Strong LOCAL Programming Gives Audience Domination to WHLI In the Major Long Island Market

- Familiar good music Long Islanders prefer
- LOCAL Long Island—national—international news
- Railroad—bus—school and industrial plant information
- LOCAL special events—editorial leadership in Long Island issues
- Long Island traffic and complete highway condition information
- Long Island weather—boating—fishing—beach and garden reports

WHLI "THE VOICE OF LONG ISLAND" has a larger daytime audience in the big booming major Long Island Market than any network or combination of independents . . . (Conlan)

WHY ADVERTISERS RENEW CONTRACTS
with

WEVD AM 1330 K.C. 5 K.W.
FM 97.9 20 K.W.

For more than twenty years some of the foremost national and local advertisers have renewed their contracts with WEVD to reach the Jewish population of the New York Metropolitan area.

Here they find an amazing market of vast buying power, represented by more than 600,000 families with a population exceeding 3,000,000.

To this adult listening audience WEVD's selected cultural, educational and entertainment features in Jewish and in English are an eager "must" on the dial.

Through the years advertisers have proved the loyalty of WEVD's unique audience . . . it stays tuned to WEVD . . . it responds quickly to quality . . . it has the means to buy.

That is the ONLY reason why sponsors renew their WEVD contracts year after year.

Advertisers who wish to cover the Metropolitan New York area need the voice of WEVD. Send for Your copy of the distinguished roster of

WHO'S WHO AMONG WEVD's SPONSORS

Why WQXR is more than a radio station to 600,000 families

It's because WQXR means something very special and personal to its listeners.

It's because WQXR provides New York's *only* consistent source of good music. It's because WQXR's listeners tune to it as a *station*, not just for a special program.

It's all summed up by the reaction you get whenever you mention WQXR: "Oh, that's my *favorite* station!"

This very personal listener loyalty brings very generous results to WQXR advertisers. This year nearly 300 of them have found out how the nation's No. 1 good music station in the nation's No. 1 market pays off in more sales for them. Let us tell you more!

WQXR AM · FM

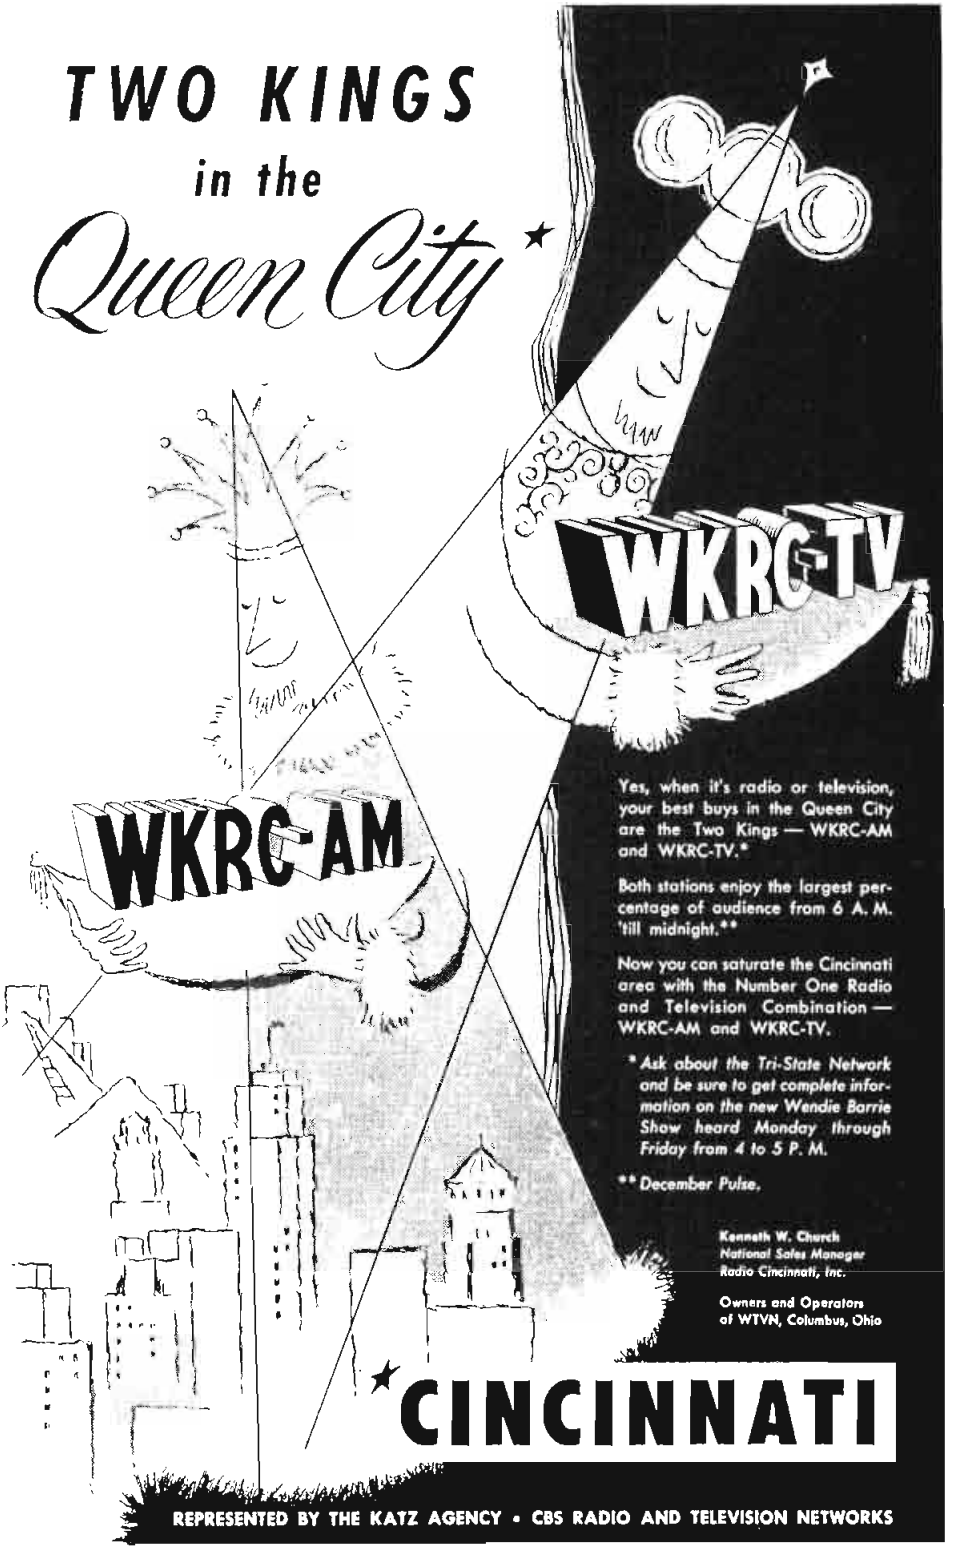
TWO KINGS in the Queen City ★



Yes, when it's radio or television, your best buys in the Queen City are the Two Kings — WKRC-AM and WKRC-TV.*

Both stations enjoy the largest percentage of audience from 6 A. M. 'till midnight.**

Now you can saturate the Cincinnati area with the Number One Radio and Television Combination — WKRC-AM and WKRC-TV.

** Ask about the Tri-State Network and be sure to get complete information on the new Wendie Barrie Show heard Monday through Friday from 4 to 5 P. M.*

*** December Pulse.*

Kenneth W. Church

You! A Dictator?

Were you the kind of man pictured here, we would refuse to do business with you. The kind of *power* a dictator seeks is an anathema and abomination in the minds of free Americans. But there is *another* kind of *power* you should have . . .

Broadcast power, day and night, is what we sell. Around-the-clock programming with *selling power* is our business. From Cleveland, WTAM saturates a daytime area of more than 1,212,550 radio homes. And at night, 48 states comprise the tremendous WTAM market area. You can't beat that kind of *broadcast power* developed to usefully serve both *audience* and *advertiser* on a mass scale.

When seeking *powerful* results with an advertising message, investigate WTAM *radio power* with its most distinguished record of community service.

WHOL
ALLENTOWN, PA. CBS

Serving a progressive and prosperous area of diversified manufacturing plants; rich farms and splendid educational institutions; WHOL should definitely be your choice in the Allentown-Bethlehem market . . . 3rd in Pennsylvania . . . 42nd in the Nation.

The last census showed approximately 105,000 residents in the area served by WHOL. Retail sales in 1951 amounted to more than $550,000,000 . . . and farm dollars exceeded $28,000,000. You certainly want some of this business for your client's products, and WHOL can deliver it to you.

Together with WHOL, WAZL, WHLM, WIOE and WVDA are under the supervision of Victor C. Diehm, radio pioneer and executive.

CHAS. G. HELWIG, Esq.

WHLM

BLOOMSBURG, PA.

The 1951 retail sales in the area serviced by WHLM amounted to $147,346,000. Add to this $21,847,900 of farming dollars and you get a pretty fair idea why we say, "Time Buyers, you can't afford to pass up the selling power of WHLM."
Located in WHLM's primary coverage area are the famous Magee Carpet Company, American Car & Foundry, Wise Potato Chips and Merck Drug Company, to mention just a few with good, big payrolls. Together with WHLM, WAZL, WHOL, WIDE and WDVA are under the supervision of Victor C. Diehm, radio pioneer and executive.

Harrisburg—

Pennsylvania's Best LARGE Market

WHP & WHP-TV

Best Buy In Pennsylvania's Capital City.

The most powerful advertising medium for tapping this high Per Capita income market, plus the rich South Central Pennsylvania orea.

It gives you the insurance of a well established oudience for your sales messoge. The staff of WHP ond WHP-TV has the showmanship and experience to present your sales story in the most effective way possible in this top quality market of Pennsylvanio. The stability gained through 30 years af service to the Harrisburg oreo makes this the outstanding medium far moking sales.

The some audience loyalty which WHP has enjoyed thraugh the past 30 years also prevails in television — and the results of the two mediums tied together are inevitable.

The tested medium for selling Harrisburg and the South Central Pennsylvania area is WHP and WHP-TV. It's your best buy.

WAZL

HAZLETON, PA. NBC-MBS

WAZL is uniquely located at the southern end of Luzerne County and its coverage reaches into Carbon, Schuylkill and Columbia counties. This brings Hazleton's metropolitan buying population to 127,000.

Hazleton enjoys the rare distinction of having a higher effective buying income per family than the U. S. average . . . $6,570.00 per family and they use it to buy the products advertised on WAZL. Here is a station that will deliver to you 70% of the radio listening audience from 8:00 in the morning until 10:30 at night.

Together with WAZL, WHOL, WIDE, WHLM and WVDA are under the supervision of Victor C. Diehm, radio pioneer and executive.

In WFIL-adelphia ONE POINT OF SALE FOR

7,407,400 Good Customers

WFIL is the station that increases the dimensions of the Philadelphia Market—gives you the greatest one-medium coverage of a 4-state area almost TWICE THE SIZE of the Philadelphia Retail Trading Zone.

WFIL-adelphia is the area—37 counties in Pennsylvania, New Jersey, Delaware, New York—where a population of 7½-million annually has $13-billion to spend.

For Philadelphia's top radio coverage . . . most effective promotion . . . most complete merchandising—Philadelphia advertisers place more spot advertising with WFIL than any other station.

ECONOMY COVERAGE OF PENNSYLVANIA'S ANTHRACITE REGION

COUNTIES: Luzerne, Lackawanna, Wyoming, Carbon, Northumberland, Schuylkill, Columbia, Monroe, Sullivan.

Total Retail Sales	*Radio Families*	*Population*
$1,034,174,000	276,470	1,172,900

— Data from 1953 Consumer Markets - SRDS —

FOOD	$247,722,000	FILLING STATIONS	38,581,000
GENERAL MERCHANDISE	101,169,000	BUILDING MATERIALS-HARDWARE	53,752,000
APPAREL	72,815,000	EAT-DRINK	73,825,000
HOME FURNISHINGS	55,657,000	DRUG	19,662,000
AUTOMOTIVE	146,815,000	FARM INCOME	60,303,000

TWO stations could not conform to a particular region more perfectly than WHWL and WISL! In combination they offer complete coverage of Pennsylvania's rich Anthracite region with rates based on an exceptionally low cost-per-thousand families. It PROVES that the combination of WHWL and WISL is your BEST BUY in the Pennsylvania Anthracite Region. TWO 1,000-watt stations driving into this region from their strategic north and south locations, are sure to deliver through programming of definite local interest.

No trick at all!

For KSL Radio to produce results. We've been doing it for years — because ¼ million listeners in the Mountain West are tuned to KSL Radio regularly.

IN CANADA

more people listen regularly to*

CFRB Toronto

than to any other station . . .

* The 1952 BBM figures show CFRB's coverage as 619,430 daytime and 639,720 night time — more than one-fifth of the homes in Canada, concentrated in the market which accounts for 40% of the Dominion's retail sales.

CANADA

is boom country

...want a share?

Just speak up!

The Canadian is listening for you at his radio. He's listening in Alberta, where the oil's coming up richer and thicker than ever. In Saskatchewan, where uranium, oil and bumper crops are swelling the coffers. In Labrador, on top a new wealth of iron ore. In Quebec and Ontario, where heavy industry keeps getting heavier and light industry expands by leaps and bounds.

The Canadian is listening in every city, town and village . . . to a voice he already knows and trusts, the voice of his local radio station. The wife is listening . . . the youngsters, too. Millions upon millions of Canadians, with more money than ever to spend . . . and wanting to know what to spend it on.

Speak up. You'll be heard in 95% of all the homes in Canada . . . in the language familiar to each home, English or French. You'll be heard in the best of company . . . the big network shows *plus* the friendly entertainment, news and services that only local radio can provide for its community.

Local radio in Canada is welcome, intimate, persuasive. It's *everywhere*, in a country where only 38% of the population lives in cities of 30,000 or over. It combines penetration, effectiveness and economy as no other advertising medium in Canada can. That's hard fact.

Purchasing power is booming. Canadians spent 10½ billion dollars in 1951, just in the retail stores . . . over 11½ billion dollars in 1952. And the Canadian buys more U. S. goods than any country other than your own. With cash . . . the stuff that's straining every billfold in the nation.

Want a share? Canada is waiting by the radio. Just speak up

"In Canada you sell 'em when you tell em!"

A message from the 120 member stations of the Canadian Association of Radio and Television Broadcasters whose voices are invited into over 3 million Canadian homes every day.

THOSE WHO KNOW FAMOUS BRANDS....

Says Everett Rudloff, Manager, WJLK, at Asbury Park, N. J., of his own program *As I See It:* "Judging from the reactions of my listeners, the result of using **Associated Press** material has been to give 'As I See It' an authority and impact that attracts regular listenership."

....KNOW THE MOST FAMOUS BRAND IN NEWS IS AP

Video in Latin America: The Outlook for 1954

By FRANK FOUCE
President
Pan American Television Corporation

TELEVISION while in existence some three and a half years now, can, nevertheless, be considered as being in its infancy in Latin America. At the present time there are six stations operating in three markets in Mexico; eight stations operating in five markets in Cuba; one station in the Dominion Republic; two stations in Venezuela; five stations operating in three markets in Brazil; one station in Argentina and C.P.'s issued for several of the other countries in Latin America.

The reason for so few stations is due to the fact that receiving sets are not being delivered as yet in sufficient quantities to allow existing stations to raise their basic time rates, and since these stations form the nucleus for further expansion, they must obviously be on a paying basis in order for the other principal cities in each country to obtain stations. The chief difficulty at the present time is that receiving sets cost a great deal more than they do in the United States, due to such factors as freight, duties, and so forth, combined with the fact that the per capita income in these countries, in most instances, is much less than in the United States or Great Britain, where sets are manufactured.

For the present only Cuba can afford a micro-wave relay network system and it is highly doubtful that any other country will have such facilities, at least on a national basis, for many years to come.

With these thoughts in mind, Pan American Television Corporation was formed to supply filmed and kinescoped programs throughout Latin America. We have arranged to obtain from the leading motion picture producers in Latin America all of their backlog together with their current and future production, guaranteeing them ample protection for their theatrical playdates. At the present time our catalogue shows many thousands of hours of feature productions. In addition, we are constantly receiving short subjects and complete series in Spanish for the Stations.

For the present, it is not economically feasible to dub English product into Spanish, unless a Sponsor demands it and is willing to contract for a sufficient number of stations to cover the cost involved.

With the interchange of programming between the various countries, I feel certain that each country's culture will be much more easily assimilated by other countries than in the past, resulting in a greater understanding of each other's problems. However, most countries rely on the local type comic for their comedy and variety formats.

The future of live television in Latin America is dependent upon the technical advances made by the Scientists of the industry in devising some means of long distance transmission such as we now have in AM radio. Of course, this is the answer to world-wide television and we find ourselves in the same position exactly as almost all other countries with the possible exception of the United States, insofar as national or regional telecasting is concerned.

In conclusion, our major problems then can be met by lowering the price of the receiving sets to the ultimate consumer and by the technical advancements of long distance transmissions or relay and faith in the future of our markets.

MORE THAN

1000

STATIONS

NOW SUBSCRIBE TO

WORLD

Never before, have so many stations turned to one source for the answer to hundreds of local sales problems!

M-M-M-M-M MORE AND MORE FOR '54!

The pot's boiling now with World's biggest, brightest sales-booming ideas.

www.americanradiohistory.com

ALTHIER THAN EVER!

Stronger . . . ***sturdier*** . . . this vital advertising medium is now enjoying the most aggressive selling year in its history.

Yes, radio at the local level, where it hits hardest and produces the best is booming . . . setting new business records in market after market!

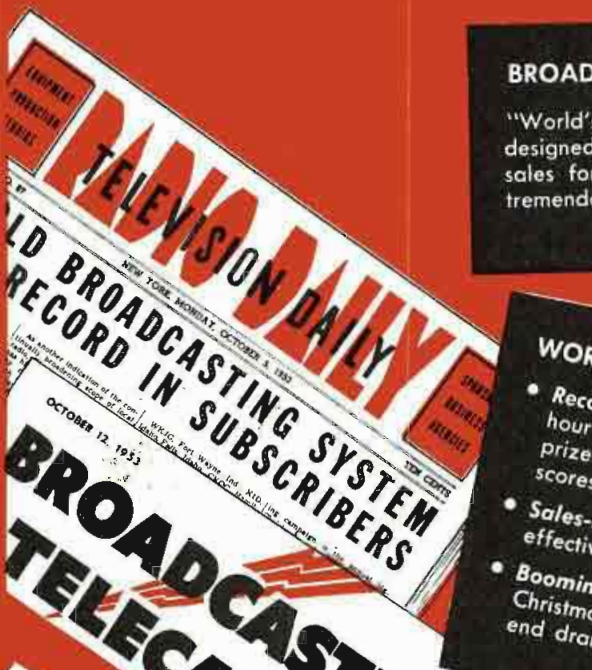
RADIO DAILY REPORTS:

WORLD BROADCASTING SYSTEM HITS RECORD IN SUBSCRIBERS

"As another indication of the continually broadening scope of local radio, World Broadcasting System has hit a history-making record in the radio transcription industry with over a thousand station subscribers to its services."

BROADCASTING REPORTS:

"World's emphasis on more merchandising designed for local spot business and local sales for radio has been confirmed by this tremendous upsurge of subscriptions."



WORLD-AFFILIATES REPORT:

- ***Record-breaking sales*** with "YOU WIN"—½ hour telephone quiz series . . . stars, excitement, prizes. "FOOTBALL TIME"—¼ hour shows with scores, predictions, songs, thrills.
- ***Sales-making jingles series*** gives advertisers the effectiveness of commercials on network shows.
- ***Booming sales*** with World's annual package of Christmas programming including ½-hour, open-end drama starring Charles Coburn.

IN 1954...

RCA's *Thesaurus* will

to more sales!

because *Thesaurus* gives you planned programming — and sales aids such as —

Big-name talent in complete shows . . . Exclusive singing Jingl-Library . . . Special feature program signatures . . . Tailored sound effects for sponsor identification . . . Sales-clinching audition discs . . . Sponsor-selling brochures . . . Exclusive Monthly Marketing Bulletin . . . Sponsor success stories!

to more profits!

because *Thesaurus* cuts operating costs!

Only with *Thesaurus* do you get so many exclusive services that save valuable staff time and reduce your sales expense. Big weekly continuity service . . . Specially prepared marketing research . . . Time and money-saving sales packages that produce peak sales with minimum time and minimum effort on your part!

to more listeners!

because *Thesaurus* gives you top shows, popular big names and plenty of promotion aids!

You can build audiences faster . . . and keep them . . . with these popular, big name *Thesaurus* shows. Plenty of the kind of promotion you need to *sell* — mats, photos, press releases, tune-in announcements — to keep folks in your area talking about . . . and tuning in . . . your station!

Only with Thesaurus do you get so many exclusive door openers!

1 BASIC LIBRARY OF BIG-NAME SHOWS:

Look at that *Thesaurus* talent roster! Not just big names . . . but big name shows complete with full continuity, open end for local announcements. The basic library has a minimum of 52 new musical selections added each month!

2 EXCLUSIVE MARKETING BULLETIN:

Here's a really thrifty way to save staff research time. Marketing Bulletin gives you the latest information on what are the "hot items" for the coming month . . . what to promote . . . who is your likeliest prospect. And, it's exclusive with *Thesaurus*!

3 EXCLUSIVE JINGL-LIBRARY:

The world's largest collection of singing jingles! More than 1800 jingles, for every kind of product, for every situation . . . something to hit the mark with every prospect. Open end for local tie-in.

4 CONTINUITY SERVICE:

Every week you get expertly written continuity for 31 different shows. In addition the library includes production aids such as voice tracks, theme music, tie ins, cross-plugs, sound effects . . . plus signatures for sports, news and feature programs.

5 SALES TOOLS:

Thesaurus provides you with sales aids — sponsor-selling brochures, sales-clinching audition discs, testimonials, case histories, success stories, publicity and promotion kits, advertising assistance . . . the works!

No other Library offers all these features

And no other service opens doors to more profits, more sponsors and more listeners the way Thesaurus does. Get in touch with a Thesaurus representative today for all the profitable details.

RCA's Thesaurus . . . the library that pays its own way!

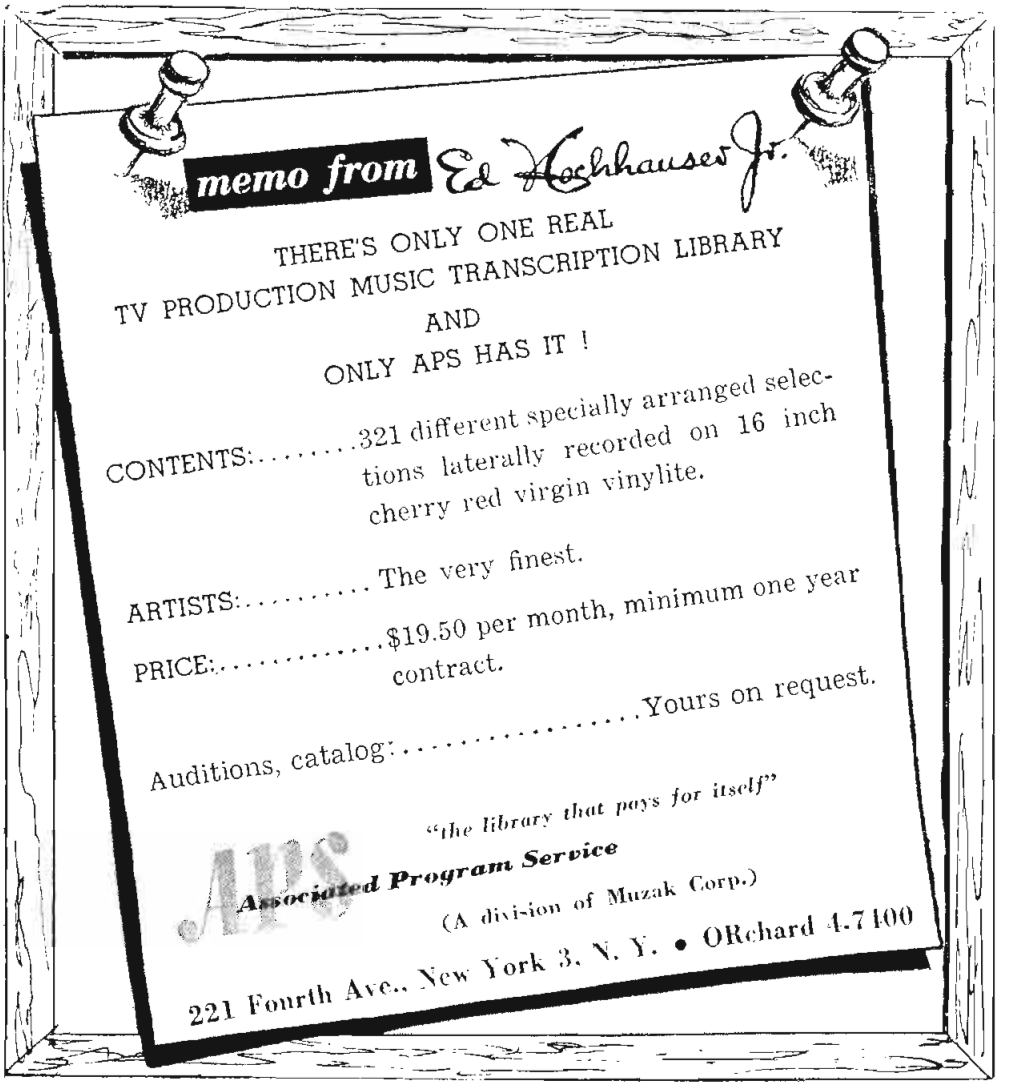
Services Offered: The Keystone Broadcasting System is a transcription network which services local radio stations in their programming with transcriptions, with KBS making their time available to national advertisers and their agencies at an attractive network package rate.

At the present, there are more than 700 Keystone affiliates, located in towns with 10,000 to 100,000 population where they reach both the small town and rural markets. For the most part, these Keystone stations serve those areas which are beyond clear reception areas of the large metropolitan radio stations or other high power stations. The number of radio homes in these Keystone markets, based on Nielsen Coverage Service areas is 17,181,010. There are an additional 1,382,819 homes in the primary of 59 KBS stations for which the Nielsen reports were not available, therefore, the total radio homes within the primary area of Keystone represents a total of 18,653,850.



www.americanradiohistory.com

Keystone is a flexible media easily purchased, whole or in part. Entire areas or spot coverage may be selected . . . whichever meets the needs of the advertising program. Regardless of the schedule, Keystone makes its time available at a considerable savings.

In operation, Keystone offers the same advantages as the wired networks. Instead of a large number of individual transactions, KBS reduces your problem to one order, one time clearance, one series of Affidavits of Performance, and one invoice.

Many of the nation's largest advertisers are using the facilities of Keystone. Types of programming vary from 25 word spots to one hour shows.

LANG-WORTH FEATURE PROGRAMS, INC.

Gains of AWRT Emphasized As Membership Grows

By BETTY ROSS

Director at Large of National AWRT and President of Women's Radio Guild

SIGNIFICANT strides in both size and stature were made in 1953 by the industry's professional women's organization, American Women in Radio and Television, Inc., with membership now nearing 900, more than double the initial number at our organizing convention just two short years ago. The majority are active members, those who are full-time employed in the radio and television industry or its related fields; and about one-sixth are Associate members, those whose work partially involves radio and TV activities. The entire membership is selected on the basis of professional standing, either in creative program and production work or in administrative and executive functions at the various stations, networks, agencies, service organization, trade associations, and business concerns.

Through the fine stewardship of our national president, Doris Corwith, the counsel of our immediate past president, Edythe Meserand, and the able assistance of our executive secretary, Betty Chapin, our Association has made significant strides during its organizing years.

On the credit side of the ledger for 1953 certainly would be the work and accomplishments of AWRT's Chapters. These are city, state, or regional groups which formed because of their enthusiasm and strong belief in the purposes of AWRT and the important value of women serving in the industry. To give recognition to these Chapters the national office was proud this year to prepare and issue "Certificates of Organization" to eleven AWRT Chapters—New York City, Philadelphia, Atlanta, San Diego, Illinois, Michigan, District of Columbia, Western New York, New England, "Heart of America" including Iowa, Kansas, Missouri, Nebraska, North Dakota, and South Dakota, and "Deep in the Heart of—Texas! These Chapters hold regular meetings, transact business, devise projects, and translate into action at the local area level the objectives and interests of the national organization.

And, AWRT is not without its "Projects." Two such projects have been adopted nationally for consideration by women broadcasters and telecasters across the country. The first was on "Civil Defense" in an attempt to arouse our nation's citizenry to the danger of aggression and attack and inform them of defensive measures which could be taken to protect the home and family. Rather than the usual approach based on fear and destruction, this project stressed the positive side of woman's natural, far-reaching influence in the home. A second project of AWRT was "Woman and her Money." This was undertaken to help women understand their role in our national economy and the importance of their actions in buying, investing, will-making, and handling a major portion of the nation's wealth.

So with these statistics and for this year's work—in substantial increase in membership, in the high personal standards and attractive qualities of its women members, in its projects of national influence, in its monthly publication of "AWRT News and Views," in its good public and community relations, in its advice and counsel to young people contemplating careers in the industry, in its constant attunement to listener and viewer preferences, in its spirited interest in its own endeavors, and mostly in its firm belief and support of the American system of broadcasting and telecasting —we, the *American Women in Radio and Television*, submit our "Statement of the Year" and let our record stand, knowing full well that any true balance of accounts comes through the new challenge of every year and the results of each day's work; for it is through the concerted effort of all members in the industry that significant progress can be made.

THE RADIO PIONEERS CLUB

580 Fifth Ave., New York 19, N. Y.
PLaza 7-1800

OFFICERS

President....Poul W. Morency
1st Vice-President....Arthur B. Church
Vice-President....Raymond F. Guy
Vice-President....Victor Diehm
Secretary....John Patt
Treasurer....Charles A. Wall

FUNCTIONS

"To establish a membership organization of persons who by their long years of service in the field of Radio desire to become associated for the purposes of friendship and education. The Club shall be a central clearing house for the exchange of information and historical data about the Radio industry and shall record in form to be determined facts and data about the history of the Radio industry and its traditions for use by this and future generations. It is felt that this organization with the resultant exchange of information would make a valuable contribution to the public interest."

The purposes as outlined in the constitution are sufficiently broad to enable the Radio Pioneers to undertake almost any task which the Club may desire for the furtherance of the Radio Industry.

Accordingly, 1950 will mark the establishment of a Radio Hall of Fame in which the memories of men and women whose contribution have placed them among the immortals will be perpetuated.

OPERATION SUCCESS!

with du mont telecasting equipment

The rich heritage of over 12 years' experience in the design, manufacture and use of telecasting equipment is reflected in every piece of Du Mont equipment today. This experience results in equipment without peer for performance, dependability and operating economies.

Du Mont-equipped stations were among the first to "break into the black" a few years ago. Today a roster of the most successful stations in the television world shows an impressive percentage of partial or 100% Du Mont-equipped operations.

It was Du Mont who first advocated the "Grow As You Earn" basis of station equipment. This has paid dividends to the many stations who recently increased their transmitting power through the Acorn-to-Oak Series Transmitters. Such power increases were achieved with no loss of "time on the air" or loss of former equipment.

Truly, a Du Mont-equipped TV station exemplifies OPERATION SUCCESS!

Television--1954

THE moving story of the modern miracle —television—unfolds in the pages that follow as Radio-Television Daily presents the 1954 edition of Television Year Book.

THIS is an authoritative report on the day-to-day progress of the sight and sound medium based on the facts, figures and feature data compiled from many sources which have contributed to the matchless progress of the expanding new industry.

THE progress of black and white television, the future of color and the expansion of program production are just a few of the many categories covered in this year's volume. In addition there are sections devoted to networks, stations, FCC statistics, TV film producers and many other services which have played important roles in the unprecedented advancement of the new art.

TO the many sources of information who have contributed to this volume we express our gratitude. Their contributions have made this year's edition of the Television Year Book the most comprehensive reference volume yet produced in the interest of the video art.

JACK ALICOATE
Editor-in-Chief

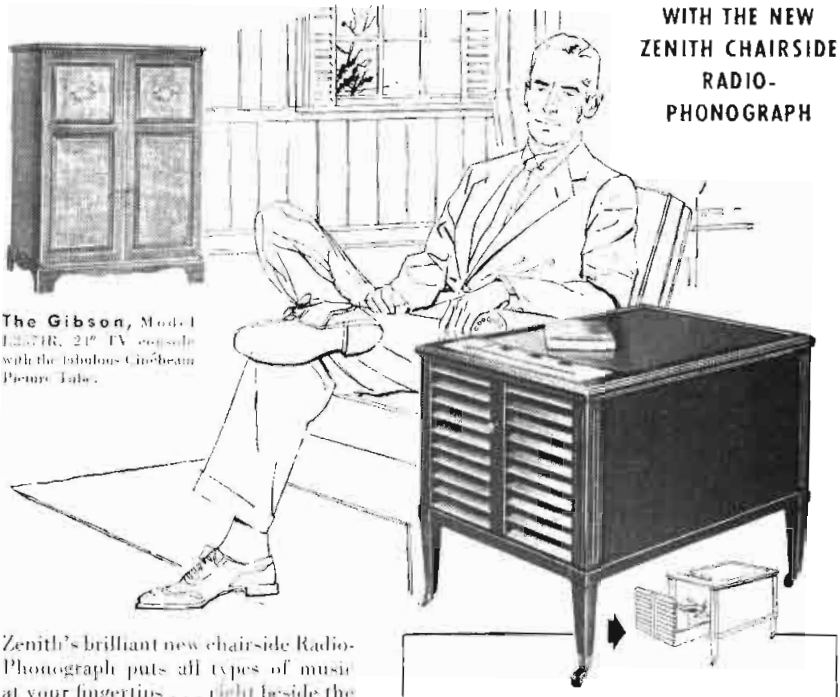
Now Zenith completes your "home entertainment center"



WITH THE NEW ZENITH CHAIRSIDE RADIO-PHONOGRAPH

The Gibson, Model [illegible], 21" TV console with the fabulous Cinebeam Picture Tube.

Zenith's brilliant new chairside Radio-Phonograph puts all types of music at your fingertips . . . right beside the chair where you watch TV! Even more than a radio-phonograph, it's a strikingly handsome piece of furniture that will lend no end of style to your living room. Serves beautifully as an end table, in any sectional or conversational grouping. Put flowers on it . . . books, ashtrays, anything.

The tone is no less than superb, whether you're listening to Super Sensitive FM . . . Long Distance AM . . . or hearing (very possibly for the first time) the beauty of the original music that went into your favorite recordings. All your Zenith dealer asks is that you *hear* it . . . and *see* it!

Zenith gives you History-Making Pitch and Tempo Control!

Hear your records at exact recorded speed . . . at perfect pitch and tempo. On Zenith's Cobra Matic Record Player with built-in Stroboscope, a dot of light *shows* you when your records are playing at exact recorded speed, whether 78, 33⅓ or 45 RPM. (The Cobra-Matic lets you play records at *any* speed from 10 to 85 RPM, including the new 16⅔ RPM talking book speed.)

The result is music . . . more than fidelity of tone . . . it's music with a new reality.

"Lazy Bones" Remote control let's you "click" on the station you want, without getting out of your chair. Optional.

THE TELEVISION CODE OF THE NARTB

PREAMBLE

TELEVISION is seen and heard in every type of American home. These homes include children and adults of all ages, embrace all races and all varieties of religious faith, and reach those of every educational background. It is the responsibility of television to bear constantly in mind that the audience is primarily a home audience, and consequently that television's relationship to the viewers is that between guest and host.

THE REVENUES from advertising support the free, competitive American system of telecasting, and make available to the eyes and ears of the American people the finest programs of information, education, culture and entertainment. By law the television broadcaster is responsible for the programming of his station. He, however, is obligated to bring his positive responsibility for excellence and good taste in programming to bear upon all who have a hand in the production of programs, including networks, sponsors, producers of film and of live programs, advertising agencies, and talent agencies.

THE AMERICAN businesses which utilize television for conveying their advertising messages to the home by pictures with sound, seen free-of-charge on the home screen, are reminded that their responsibilities are not limited to the sale of goods and the creation of a favorable attitude toward the sponsor by the presentation of entertainment. They include, as well, responsibility for utilizing television to bring the best programs, regardless of kind, into American homes.

TELEVISION, and all who participate in it are jointly accountable to the American public for respect for the special needs of children, for community responsibility, for advancement of education and culture, for the acceptability of the program materials chosen, for decency and decorum in production, and for propriety in advertising. This responsibility cannot be discharged by any given group of programs, but can be discharged only through the highest standards of respect for the American home, applied to every moment of every program presented by television.

IN ORDER that television programming may best serve the public interest, viewers should be encouraged to make their criticisms and positive suggestions known to the television broadcasters. Parents in particular should be urged to see to it that out of the richness of television fare, the best programs are brought to the attention of their children.

ADVANCEMENT OF EDUCATION AND CULTURE

1. Commercial television provides a valuable means of augmenting the educational and cultural influences of schools, institutions of higher learning, the home, the church, museums, foundations, and other institutions devoted to education and culture.

2. It is the responsibility of a television broadcaster to call upon such institutions for counsel and co-operation and to work with them on the best methods of presenting educational and cultural materials by television. It is further the responsibility of stations, networks, advertising agencies and sponsors consciously to seek opportunities for introducing into telecasts factual materials which will aid in the enlightenment of the American public.

3. Education via television may be taken to mean that process by which the individual is brought toward informed adjustment to his society. Television is also responsible for the presentation of overtly instructional and cultural programs, scheduled so as to reach the viewers who are naturally drawn to such programs, and produced so as to attract the largest possible audience.

4. In furthering this realization, the television broadcaster:

a) Should be thoroughly conversant with the educational and cultural needs and desires of the community served.

b) Should affirmatively seek out responsible and accountable educational and cultural institutions of the community with a view toward providing opportunities for the instruction and enlightenment of the viewers.

c) Should provide for reasonable experimentation in the development of programs specifically directed to the advancement of the community's culture and education.

ACCEPTABILITY OF PROGRAM MATERIAL

Program material should enlarge the horizons of the viewer, provide him with wholesome entertainment, afford helpful stimulation, and remind him of the responsibilities which the citizen has toward his society. Furthermore:

a) (i) Profanity, obscenity, smut and vulgarity are forbidden, even when likely to be understood only by part of the audience. From time to time, words which have been acceptable, acquire undesirable meanings, and telecasters should be alert to eliminate such words.

(ii) Words (especially slang) derisive of any race, color, creed, nationality or national derivation, except wherein such usage would be for the specific purpose of effective dramatization such as combatting prejudice, are forbidden, even when likely to be understood only by part of the audience. From time to time, words which have been acceptable, acquire undesirable meanings, and telecasters should be alert to eliminate such words.

(iii) The Television Code Review board shall maintain and issue to subscribers, from time to time, a continuing list of specific words and phrases, which should not be used in keeping with this subsection. This list, however, shall not be considered as all-inclusive.

b) (i) Attacks on religion and religious faiths are not allowed.

(ii) Reverence is to mark any mention of the name of God, His attributes and powers.

www.americanradiohistory.com

(iii) When religious rites are included in other than religious programs, the rites are accurately presented, and the ministers, priests and rabbis portrayed in their callings are vested with the dignity of their office and under no circumstances are to be held up to ridicule.

c) (i) Contests may not constitute a lottery.

(ii) Any telecasting designed to "buy" the television audience by requiring it to listen and/or view in hope of reward, rather than for the quality of the program, should be avoided.

d) Respect is maintained for the sanctity of marriage and the value of the home. Divorce is not treated casually nor justified as a solution for marital problems.

e) Illicit sex relations are not treated as commendable.

f) Sex crimes and abnormalities are generally unacceptable as program material.

g) Drunkenness and narcotic addiction are never presented as desirable or prevalent.

h) The administration of illegal drugs will not be displayed.

i) The use of liquor in program content shall be de-emphasized. The consumption of liquor in American life, when not required by the plot or for proper characterization, shall not be shown.

j) The use of gambling devices or scenes necessary to the development of plot or as appropriate background is acceptable only when presented with discretion and in moderation, and in a manner which would not excite interest in, or foster, betting nor be instructional in nature. Telecasts of actual sport programs at which on-the-scene betting is permitted by law should be presented in a manner in keeping with Federal, state and local laws, and should concentrate on the subject as a public sporting event.

k) In reference to physical or mental afflictions and deformities, special precautions must be taken to avoid ridiculing sufferers from similar ailments and offending them or members of their families.

l) Exhibitions of fortune-telling, astrology, phrenology, palm-reading, and numerology are acceptable only when required by a plot or the theme of a program, and then the presentation should be developed in a manner designed not to foster superstition or excite interest or belief in these subjects.

m) Television drama shall not simulate news or special events in such a way as to mislead or alarm. Reference is made to the section of the Code on News.

n) Legal, medical and other professional advice, diagnosis and treatment will be permitted only in conformity with law and recognized ethical and professional standards.

o) The presentation of cruelty, greed and selfishness as worthy motivations is to be avoided.

p) Excessive or unfair exploitation of others or of their physical or mental afflictions shall not be presented as praiseworthy.

q) Criminality shall be presented as undesirable and unsympathetic. The condoning of crime and the treatment of the commission of crime in a frivolous, cynical or callous manner is unacceptable.

r) The presentation of techniques of crime in such detail as to invite imitation shall be avoided.

BMI PRODUCT and SERVICE REACH A NEW HIGH!

With each succeeding year BMI's products and services attain new highs in volume and value.

The large and growing catalog of BMI-licensed music in all classes—popular, folk, standard, symphonic, operatic, educational—gives continuing evidence of the quality and ability of the composers and publishers affiliated with BMI.

BMI Service, too, is reaching new highs. BMI not only serves its broadcast licensees—AM, FM and TV—with a steady flow of practical program aids, but provides its repertoire and facilities to every user of music . . . ballrooms, night clubs, motion pictures, hotels, restaurants, skating rinks, amusement parks, wired music, industrial plants, symphony orchestras, chamber music groups, choirs and choruses, motion picture exhibitors using intermission music and many others.

BMI-licensed pop song hits are maintaining leading positions in all of the music trade popularity charts—the Hit Parade, the Variety scoreboard, Billboard charts, Downbeat polls, the everyday best-seller lists—and, for the past four consecutive years, were voted Number One in all categories by the nation's juke box operators in the Annual Cash Box Popularity Poll.

In the field of Concert Music, BMI continues to foster composition and encourage public interest through its annual Student Composers Radio Awards, its support of the American Composers Alliance, and the extensive publication of Concert Music through its wholly owned subsidiary, Associated Music Publishers, Inc.

Similar BMI services and efforts in the entire field of music are being conducted throughout the Provinces of Canada by BMI Canada Limited.

s) The use of horror for its own sake will be eliminated; the use of visual or aural effects which would shock or alarm the viewer, and the detailed presentation of brutality or physical agony by sight or by sound are not permissible.

t) Law enforcement shall be upheld, and the officers of the law are to be portrayed with respect and dignity.

u) The presentation of murder or revenge as a motive for murder shall not be presented as justifiable.

v) Suicide as an acceptable solution for human problems is prohibited.

w) The exposition of sex crimes will be avoided.

x) The appearance or dramatization of persons featured in actual crime news will be permitted only in such light as to aid law enforcement or to report the news event.

y) The use of animals, both in the production of television programs and as a part of television program content, shall, at all times, be in conformity with accepted standards of humane treatment.

RESPONSIBILITY TOWARD CHILDREN

1. The education of children involves giving them a sense of the world at large. Crime, violence and sex are a part of the world they will be called upon to meet, and a certain amount of proper presentation of such is helpful in orienting the child to his social surroundings. However, violence and illicit sex shall not be presented in an attractive manner, nor to an extent such as will lead a child to believe that they play a greater part in life than they do. They should not be presented without indications of the resultant retribution and punishment.

2. It is not enough that only those programs which are intended for viewing by children shall be suitable to the young and immature. (Attention is called to the general items listed under "Acceptability of Program Materials.") Television is responsible for insuring that programs of all sorts which occur during the times of day when children may normally be expected to have the opportunity of viewing television shall exercise care in the following regards:

a) In affording opportunities for cultural growth as well as for wholesome entertainment.

b) In developing programs to foster and promote the commonly accepted moral, social and ethical ideals characteristic of American life.

c) In reflecting respect for parents, for honorable behavior, and for the constituted authorities of the American community.

d) In eliminating reference to kidnapping of children or threats of kidnapping.

e) In avoiding material which is excessively violent or would create morbid suspense, or other undesirable reactions in children.

f) In exercising particular restraint and care in crime or mystery episodes involving children or minors.

DECENCY AND DECORUM IN PRODUCTION

propriety, and shall avoid such exposure or such emphasis on anatomical detail as would embarrass or offend home viewers.

2. The movements of dancers, actors, or other performers shall be kept within the bounds of decency, and lewdness and impropriety shall not be suggested in the positions assumed by performers.

3. Camera angles shall avoid such views of performers as to emphasize anatomical details indecently.

4. Racial or nationality types shall not be shown in television in such a manner as to ridicule the race or nationality.

5. The use of locations closely associated with sexual life or with sexual sin must be governed by good taste and delicacy.

COMMUNITY RESPONSIBILITY

A television broadcaster and his staff occupy a position of responsibility in the community and should conscientiously endeavor to be acquainted fully with its needs and characteristics in order better to serve the welfare of its citizens.

TREATMENT OF NEWS AND PUBLIC EVENTS

News

1. A television station's news schedule should be adequate and well-balanced.

2. News reporting should be factual, fair and without bias.

3. Commentary and analysis should be clearly identified as such

4. Good taste should prevail in the selection handling of news:

Morbid, sensational or alarming details not essential to the factual report, especially in connection with stories of crime or sex, should be avoided. News should be telecast in such a manner as to avoid panic and unnecessary alarm.

5. At all times, pictorial and verbal material for both news and comment should conform to other sections of these standards, wherever such sections are reasonably applicable.

6. Pictorial material should be chosen with care and not presented in a misleading manner.

7. A television broadcaster should exercise due care in his supervision of content format, and presentation of newscasts originated by his station; and in his selection of newscasters, commentators, and analysts.

8. A television broadcaster should exercise particular discrimination in the acceptance, placement and presentation of advertising in news programs so that such advertising should be clearly distinguishable from the news content.

9. A television broadcaster should not present fictional events or other non-news material as authentic news telecasts or announcements nor should he permit dramatizations in any program which would give the false impression that the dramatized material constitutes news. Expletives, (presented aurally or pictorially) such as "flash" or "bulletin" and statements such as "we interrupt this program to bring you . . ." should be reserved specifically for news room use. However, a television broadcaster may properly exercise discretion in the use in non-news programs of words

www.americanradiohistory.com

or phrases which do not necessarily imply that the material following is a news release.

Public Events

1. A television broadcaster has an affirmative responsibility at all times to be informed of public events, and to provide coverage consonant with the ends of an informed and enlightened citizenry.

2. Because of the nature of events open to public, the treatment of such events by a television broadcaster should be effected in a manner to provide for adequate and informed coverage as well as good taste in presentation.

Controversial Public Issues

1. Television provides a valuable forum for the expression of responsible views on public issues of a controversial nature. In keeping therewith the television broadcaster should seek out and develop with accountable individuals, groups and organizations, programs relating to controversial public issues of import to its fellow citizens; and to give fair representation to opposing sides of issues which materially affect the life or welfare of a substantial segment of the public.

2. The provision of time for this purpose should be guided by the following principles:

a) Requests by individuals, groups or organizations for time to discuss their views on controversial public issues, should be considered on the basis of their individual merits, and in the light of the contribution which the use requested would make to the public interest, and to a well-balanced program structure.

b) Programs, devoted to the discussion of controversial public issues should be identified as such, and should not be presented in a manner which would mislead listeners or viewers to believe that the program is of entertainment, news or any other character.

Political Telecasts

Political telecasts should be clearly identified as such, and should not be presented by a television broadcaster in a manner which would mislead listeners or views to believe that the program is of any other character.

Religious Programs

1. It is the responsibility of a television broadcaster to make available to the community as part of a well-balanced program schedule adequate opportunity for religious presentations.

2. The following principles should be followed in the treatment of such programs:

a) Telecasting which reaches men of all creeds simultaneously should avoid attacks upon religion.

b) Religious programs should be presented respectfully and accurately and without prejudice or ridicule.

c) Religious programs should be presented by responsible individuals, groups, and organizations.

d) Religious programs should place emphasis on broad religious

www.americanradiohistory.com

truths, excluding the presentation of controversial or partisan views not directly or necessarily related to religion or morality.

3. In the allocation of time for telecasts of religious programs it is recommended that the television station use its best efforts to apportion such time fairly among the representative faith groups of its community.

PRESENTATION OF ADVERTISING

1. Ever mindful of the role of television as a guest in the home, a television broadcaster should exercise unceasing care to supervise the form in which advertising material is presented over his facilities. Since television is a developing medium, involving methods and techniques distinct from those of radio, it may be desirable, from time to time, to review and revise the presently suggested practices.

(a) Advertising messages should be presented with courtesy and good taste; disturbing or annoying material should be avoided; every effort should be made to keep the advertising message in harmony with the content and general tone of the program in which it appears.

b) A sponsor's advertising messages should be confined within the framework of the sponsor's program structure. A television broadcaster should avoid the use of commercial announcements which are divorced from the program either by preceding the introduction of the program (as in the case of so-called "cow-catcher" announcements) or by following the apparent sign-off of the program (as in the case of so-called "trailer" announcements). To this end, the program itself should be announced and clearly identified BOTH AUDIO AND VIDEO before the sponsor's advertising material is first used, and should be signed off BOTH AUDIO AND VIDEO after the sponsor's advertising material is last used.

c) Advertising copy should contain no claims intended to disparage competitors, competing products, or other industries, professions or institutions.

d) Since advertising by television is a dynamic technique, a television broadcaster should keep under surveillance new advertising devices so that the spirit and purpose of these standards are fulfilled.

e) Television broadcasters should exercise the utmost care and discrimination with regard to advertising material, including content, placement and presentation, near or adjacent to programs designed for children. No considerations of expediency should be permitted to impinge upon the vital responsibility towards children and adolescents, which is inherent in television, and which must be recognized and accepted by all advertisers employing television.

f) Television advertisers should be encouraged to devote portions of their allotted advertising messages and program time to the support of worthy causes in the public interest in keeping with the highest ideals of the free competitive system.

g) A charge for television time to churches and religious bodies is not recommended.

ACCEPTABILITY OF ADVERTISERS AND PRODUCTS

General

1. A commercial television broadcaster makes his facilities available

www.americanradiohistory.com

for the advertising of products and services and accepts commercial presentations for such advertising. However, a television broadcaster should, in recognition of his responsibility to the public, refuse the facilities of his station to an advertiser where he has good reason to doubt the integrity of the advertiser, the truth of the advertising representations, or the compliance of the advertiser with the spirit and purpose of all applicable legal requirements. Moreover, in consideration of the laws and customs of the communities served, each television broadcaster should refuse his facilities to the advertisement of products and services, or the use of advertising scripts, which the station has good reason to believe would be objectionable to a substantial and responsible segment of the community. The foregoing principles should be applied with judgment and flexibility, taking into consideration the characteristics of the medium and the form and content of the particular presentation. In general, because television broadcast is designed for the home and the family, including children, the following principles should govern the business classifications listed below:

a) The advertising of hard liquor should not be accepted.

b) The advertising of beer and wines is acceptable only when presented in the best of good taste and discretion, and is acceptable subject to federal and local laws.

c) Advertising by institutions or enterprises which in their offers of instruction imply promises of employment or make exaggerated claims for the opportunities awaiting those who enroll for courses is generally unacceptable.

d) The advertising of firearms and fireworks is acceptable only subject to federal and local laws.

e) The advertising of fortune-telling, occultism, spiritualism, astrology, phrenology, palm-reading, numerology, mind-reading or character-reading is not acceptable.

f) Because all products of a personal nature create special problems, such products, when accepted, should be treated with especial emphasis on ethics and the canons of good taste; however, the advertising of intimately personal products which are generally regarded as unsuitable conversational topics in mixed social groups is not acceptable.

g) The advertising of tip sheets, race track publications, or organizations seeking to advertise for the purpose of giving odds or promoting betting or lotteries is not accepable.

2. Diligence should be exercised to the end that advertising copy accepted for telecasting complies with pertinent federal, state and local laws.

3. An advertiser who markets more than one product should not be permitted to use advertising copy devoted to an acceptable product for purposes of publicizing the brand name or other identification of a product which is not acceptable.

ADVERTISING OF MEDICAL PRODUCTS

1. The advertising of medical products presents considerations of intimate and far-reaching importance to the consumer, and the following principles and procedures should apply in the advertising thereof.

www.americanradiohistory.com

a) A television broadcaster should not accept advertising material which in his opinion offensively describes or dramatizes distress or morbid situations involving ailments, by spoken word, sound or visual effects.

b) Because of the personal nature of the advertising of medical products, claims that a product will effect a cure and the indiscriminate use of such words as "safe", "without risk", "harmless", or terms of similar meaning should not be accepted in the advertising of medical products on television stations.

Contests

1. Contests should offer the opportunity to all contestants to win on the basis of ability and skill, rather than chance.

2. All contest details, including rules, eligibility requirements, opening and termination dates should be clearly and completely announced and/or shown or easily accessible to the viewing public, and the winners' names should be released and prizes awarded as soon as possible after the close of the contest.

3. When advertising is accepted which requests contestants to submit items of product identification or other evidence of purchase of product, reasonable facsimiles thereof should be made acceptable.

4. All copy pertaining to any contest (except that which is required by law) associated with the exploitation or sale of the sponsor's product or service, and all references to prizes or gifts offered in such connection should be considered a part of and included in the total time allowances as herein provided. (see Time Standards for Advertising Copy.)

Premiums and Offers

1. Full details of proposed offers should be required by the television broadcaster for investigation and approval before the first announcement of the offer is made to the public.

2. A final date for the termination of an offer should be announced as far in advance as possible.

3. Before accepting for telecast offers involving a monetary consideration, a television broadcaster should satisfy himself as to the integrity of the advertiser and the advertiser's willingness to honor complaints indicating dissatisfaction with the premium by returning the monetary consideration.

4. There should be no misleading descriptions or visual representations of any premiums or gifts which would distort or enlarge their value in the minds of the listeners.

5. Assurances should be obtained from the advertiser that premiums offered are not harmful to person or property.

6. Premiums should not be approved which appeal to superstition on the basis of "luck-bearing" powers or otherwise.

Time Standards for Advertising Copy

1. In accordance with good telecast advertising practices, the time standards for advertising copy are as follows:

www.americanradiohistory.com

Length of Program	News Programs	Length of Advertising Message (minutes and seconds) All Other Programs	
(minutes)	Day and Night	Class "A" Time	All Other Hrs.
5	1:00	1:00	1:15
10	1:45	2:00	2:10
15	2:15	2:30	3:00
25		2:50	4:00
30		3:00	4:15
45		4:30	5:45
60		6:00	7:00

2. Reasonable and limited identification of prize and statement of the donor's name within formats wherein the presentation of contest awards or prizes is a necessary and integral part of program content shall not be included as commercial time within the meaning of paragraph 1. above; however, any oral or visual presentation concerning the product or its donor, over and beyond such identification and statement, shall be included as commercial time within the meaning of paragraph 1. above.

3. The time standards set forth above do not affect the established practice of reserving for station use the last 30 seconds of each program for station break and spot announcements.

4. Announcement programs are designed to accommodate a designated number of individual live or recorded announcements, generally one minute in length, which are carried within the body of the program and are available for sale to individual advertisers. Normally not more than 3 one-minute announcements (which should not exceed approximately 125 words if presented live) should be scheduled within a 15-minute period and not more than six such announcements should be scheduled within a 30-minute period in local announcement programs; however, fewer announcements of greater individual length may be scheduled, provided that the aggregate length of the announcements approximates three minutes in a 15-minute program or six minutes in a 30-minute program. In announcement programs other than 15 minutes or 30 minutes in length, the proportion of one minute of announcement within every five minutes of programming is normally applied. The announcements must be presented within the framework of the program period designated for their use and kept in harmony with the content of the program in which they are placed.

5. Programs presenting women's services, features, shopping guides, market information, and similar material, provide a special service to the listening and viewing public in which advertising material is an informative and integral part of the program content. Because of these specal characteristics the time standards set forth above may be waived to a reasonable extent.

6. Even though the commercial time limitations of the Code do not specifically prohibit back-to-back announcements such a practice is not recommended for more than two announcements, either at station break or within the framework of a single program.

7. Any casual reference BY TALENT in a program to another's product or service under any trade name or language sufficiently descriptive to identify it should, except for normal guest identifications, be condemned and discouraged.

www.americanradiohistory.com

8. Stationary backdrops or properties in television presentations showing the sponsor's name or product, the name of his product, his trade mark or slogan may be used only incidentally. They should not obtrude on program interest or entertainment. "On Camera" shots of such materials should be fleeting, not too frequent, and mindful of the need of maintaining a proper program balance.

Dramatized Appeals and Advertising

Appeals to help fictitious characters in television programs by purchasing the advertiser's product or service or sending for a premium should not be permitted, and such fictitious characters should not be introduced into the advertising message for such purposes. When dramatized advertising material involves statements by doctors, dentists, nurses or other professional people, the material should be presented by members of such profession reciting actual experience or it should be made apparent from the presentation itself that the portrayal is dramatized.

Sponsor Identification

Identification of sponsorship must be made in all sponsored programs in accordance with the requirements of the Communications Act of 1934, as amended, and the Rules and Regulations of the Federal Communications Commission.

★

REGULATIONS AND PROCEDURES

The following REGULATIONS AND PROCEDURES shall obtain as an integral part of the Television Code of the National Association of Radio and Television Broadcasters:

I

Name

The Name of this Code shall be the Television Code of the National Association of Radio and Television Broadcasters.*

II

Purpose of the Code

The purpose of this Code is cooperatively to maintain a level of television programming which gives full consideration to the educational, informational, cultural, economic, moral and entertainment needs of the American public to the end that more and more people will be better served.

III

Subscribers

Section 1. Eligibility

Any individual, firm or corporation which is engaged in the operation of a television broadcast station or network, or which holds a construction permit for a television broadcast station within the United States or its

* "Television Board. The Television Board is hereby authorized:—(4) to enact, amend and promulgate standards of practice or codes for its Television members, and to establish such methods to secure observance thereof as it may deem advisable; —". *By-Laws of The National Association of Radio and Television Broadcasters, Article VII Section 2, B. (4).*

www.americanradiohistory.com

dependencies, shall, subject to the approval of the Television Board of Directors as hereinafter provided, be eligible to subscribe to the Television Code of the NARTB to the extent of one subscription for each such station and/or network which it operates or for which it holds a construction permit; provided, that a non television-member of NARTB shall not become eligible via code susbcription to receive any of the member services or to exercise any of the voting privileges of a member.

Section 2. Certification of Subscription

Upon subscribing to the Code, subject to the approval of the Television Board of Directors, there shall be granted forthwith to each such subscribing station authority to use the "NARTB Television Seal of Good Practice", a copyrighted and registered seal to be provided in the form of a certificate, a slide and/or film, signifying that the recipient thereof is a subscriber in good standing to the Television Code of NARTB. The seal and its significance shall be appropriately publicized by the NARTB.

Section 3. Duration of Subscription

Subscription shall continue in full force and effect until thirty days after the first of the month following receipt of notice of written resignation. Subscription to the Code shall be effective from the date of application subject to the approval of the Television Board of Directors; provided, that the subscription of a television station going on the air for the first time shall, for the first six months of such subscription, be probationary, during which time its subscription can be summarily revoked by an affirmative two-thirds vote of the Television Board of Directors without the usual processes specified below.

Section 4. Suspension of Subscription

Any subscription, and/or the authority to utilize and show the above-noted seal, may be voided, revoked or temporarily suspended for television programming, including commercial copy, which by theme, treatment or incident, in the judgment of the Television Board constitutes a continuing, willful or gross violation of any of the provisions of the Television Code, by an affirmative two-thirds vote of the Television Board of Directors at a regular or special meeting; provided, however, that the following conditions precedent shall apply: (1) The subscriber shall be advised in writing by Registered Mail of the charges preferred; (2) Such subscriber shall have a right to a hearing and may exercise same by filing an answer within 10 days of the date of such notification; (3) Failure to request a hearing shall be deemed a waiver of the subscriber's right thereto; (4) If hearing is requested by the subscriber, it shall be designated as promptly as possible and at such time and place as the Television Board may specify. Oral and written evidence may be introduced by the subscriber and by the Television Code Review Board (hereinafter provided for). Oral argument may be had at the hearing and written memoranda or briefs may be submitted by the subscriber and by the Television Code Review Board. The Television Board of Directors may admit such evidence as it deems relevant, material, and competent and may determine the nature and length of the oral argument and the written argument or briefs to be submitted. The Television Board of Directors shall decide the case as expeditiously as possible and shall notify the subscriber and the Television Code Review Board in writing of the decision.

www.americanradiohistory.com

Section 5. Additional Procedures

The Television Board of Directors shall, from time to time, establish such additional rules of procedure as, in its opinion, may be necessary for the proper administration of the Code; provided, that special considerations shall be given to the procedures for receipt and processing of complaints and to necessary rules to be adopted from time to time, taking into account the source and nature of such complaints; such rules to include precautionary measures such as the posting of bonds to cover costs and expenses of processing same; and further provided, that the Board of Directors shall take the steps necessary to insure the confidential status of any proceedings before it.

Section 6. Amendment and Review

Because of the new and dynamic aspects inherent in television broadcast, the Television Code, as a living, flexible and continuing document, may be amended from time to time by the Television Board of Directors; provided that said Board is specifically charged with review and reconsideration of the entire Code, its appendices and procedures, at least once each year.

Section 7. Termination of Contracts

All subscribers on the air at the time of subscription to the Code shall be permitted that period prior to and including the earliest legal cancellation date to terminate any contracts, then outstanding, calling for program presentations which would not be in conformity with the Television Code, provided, however, that in no event shall such period be longer than fifty-two weeks.

IV

Rates

Each subscriber shall pay 'administrative' rates in accordance with such schedule at such time, and under such conditions as may be determined from time to time by the Television Board (see Article VII Section 2.B (3) and (4), *By-Laws of the NARTB*); provided, that appropriate credit shall be afforded to a television member of the NARTB against the regular dues which he or it pays to NARTB-TV.

V

The Television Code Review Board

* Section 1. Composition

The Television Board of Directors shall establish a continuing committee entitled the Television Code Review Board, upon the promulgation of the television code. The Review Board shall be composed of five members, all of whom shall be from the Television membership of NARTB. Members of the Television Board of Directors shall not be eligible to serve on the above specified Review Board. Members of the Review Board shall be appointed by the President of the NARTB, subject to confirmation by the Television Board of Directors. Due consideration shall be given, in making such appointments, to factors of diversification of geographical location, company representation and network affiliation. Those members appointed, following promulgation of the Code, shall serve until immediately following

* Amended February 4, 1953.

www.americanradiohistory.com

the annual NARTB Convention of 1953. Immediately following the end of the meeting in 1953 there shall be appointed three members who shall serve for two years and two members who shall serve for one year starting at the time of appointment.

Starting in 1954 and every even numbered year thereafter, two members shall be appointed for two-year terms; and then in every odd numbered year thereafter, three two-year members shall be appointed.

Limitation of Service

A person shall not serve consecutively as a member of the Review Board for more than two two-year terms or for more than four years consecutively, after April 30, 1953.

Section 2. Quorum

A majority of the membership of the Television Code Review Board shall constitute a quorum for all purposes unless herein otherwise provided.

Section 3. Authority and Responsibilities

The Television Code Review Board is authorized and directed:

(1) To maintain a continuing review of all television programming, especially that of subscribers to the television code of the NARTB; (2) to receive, screen and clear complaints concerning television programming; (3) to define and interpret words and phrases in the Television Code; (4) to develop and maintain appropriate liaison with government agencies and with responsible and accountable organizations and institutions; (5) to inform, expeditiously and properly, a subscriber to the Television Code of complaints or commendations, as well as to advise all subscribers concerning the attitude and desires program-wise of accountable organizations and institutions, and of the American public in general; (6) to review and monitor, if necessary, any certain series of programs, daily programming, or any other program presentations of a subscriber, as well as to request recordings, aural or kinescope, or script and copy, with regard to any certain program presented by a subscriber; (7) to reach conclusions, and to make recommendations or prefer charges to the Television Board of Directors concerning violations and breaches of the Television Code by a subscriber; (8) to recommend to the Television Board of Directors, amendments to the Television Code.

A. Delegation of Powers and Responsibilities

The Television Code Review Board may delegate, from time to time, such of its above-specified responsibilities, as it may deem necessary and desirable, to a Staff Group of the NARTB-TV.

B. Meetings

The Television Code Review Board shall meet regularly once each quarter of the calendar year on a date to be determined by the Chairman. The chairman of the Review Board may at any time on at least five days' written notice call a special meeting of the Board.

www.americanradiohistory.com

Film's Place in Color TV As Viewed by Producer

By JOHN L. SINN
President
Ziv Television Programs, Inc.

THE position of film in black and white television is now self-evident. The trend toward filmed television that began four years ago has proceeded at an accelerated pace. The exact proportion of filmed shows to live shows is unimportant —all agree that film is a tremendously vital and important part of black and white television programming.

But color is just ahead, and coming faster perhaps than most people realize. What will be film's position in color television? Before we speculate, let's study the facts as we know them.

The Ziv Company has been a pioneer in the field of color films for television. Since as long ago as early 1949, we have been shooting color film on a regular production basis. During those four years we have used every existing color film stock. We have exposed these various emulsions under every conceivable lighting condition. We have tried all of the time proven techniques, developed by the motion picture industry, and pioneered new lighting and photographic techniques especially suitable to the television medium. We have run literally hundreds of tests in conjunction with the laboratories to determine the proper method to obtain prints from our negatives in order to achieve maximum results in telecasting.

We have had an opportunity now to run many of these tests over the television color system. We have been able to see for ourselves exactly which tests looked best on the color tube. In short, based on the actual production of 228 films in color, plus 286 separate and additional color tests, we have developed a technique of lighting, photography and printing which we call Zivcolor, which produces an excellent *color* picture.

Zivcolor produces as well a fine compatible black and white picture. Our engineers and cameramen believe that it is superior to the black and white picture from black and white prints.

As a result, we now have the proof positive that color film made under the proper conditions is perfectly adaptable to the color television system. This is the resounding affirmative answer to the question you have heard so many times during the past two years — "Will color film work in color television?"

To all of us who have been literally head over heels in color during the past 18 months, another point has become clear, too. There has always been a wide gap between the production values possible in the best television film as opposed to the best television live shows. In color television, this gap becomes even wider and more pronounced. Painted backings and scenery look false. Process shots look faked and unreal. The wonderful color that exists naturally in the finest exterior locations just cannot be created artificially. Therefore, the mobility that has always been one of the great qualities of film, the ability to take cameras into distant exteriors, into practical and exciting interiors far removed from the studio, these will enable us to bring to the tube, through the medium of color film, an area of color excitement and interest beyond the reaches of the live camera.

And just one final word of caution. Let the entire industry not forget that color is a wonderful adjunct, a great and wonderful new addition to this modern theater that is television. But it is not an end in itself. A bad play in black and white will not suddenly become a good play simply because it is in color. Although the audience will find eye catching interest in the fact that the leading lady is wearing a beautiful red dress, they will quickly become much more interested in what that leading lady says.

A good play on the other hand, becomes more thrilling and impressive by the addition of color presentation. We have seen with our own eyes one of our "Favorite Story" productions, which won much critical acclaim everywhere in black and white, become even more dramatic and satisfying in color.

Major Steps Taken For Audience-Sponsor Approval

By ALEXANDER STRONACH, JR.
Vice-President in Charge
ABC-TV Network

THE wonderful "magic" of television is no longer a parlor trick for the average American viewer. Electronically, it may still be "magic" to the average viewer—but selection-wise, it certainly is not. Viewers have become highly selective in their choice of programming. They now want a variety of good, substantial video fare—and what's more—they get it. And they get it because sponsors, stations and networks are well aware of this fact—that in order to gain the greatest number of viewers—a program must offer top quality entertainment—of a sort that will hold the viewer and bring him back week after week.

ABC-TV knows this too—and with this in mind, has set out to gain the hearty approval and endorsement of the public and sponsors alike. The network took major steps in this direction in 1953.

Nineteen hundred and fifty-three was a year of signal significance highlighted by the FCC-approved merger of the American Broadcasting Company with the United Paramount Theatres, Inc. (in February), which resulted in the formation of American Broadcasting-Paramount Theatres, Inc. The merger brought with it additional assets—personnel-wise and financial—to give ABC new vigor and still greater goals.

Immediately, the network embarked on a broad program of acquiring, creating and expanding its television facilities and programs. In rapid succession, ABC signed exclusive contracts for the services of such top-flight entertainers as Ray Bolger, Danny Thomas, George Jessel, Sammy Davis, Jr. and the Will Mastin Trio, Joel Grey, Paul Hartman, Bill Stern and Martin Block.

To help guide its course unfailingly toward an ever expanding horizon, ABC acquired the services of such brilliant executives as George T. Shupert to head up ABC's newly formed Film Syndication Division as Vice President; and John Daly, Vice President in charge of Television News, Special Events and Public Affairs.

The full effects of the merger unfolded with the fall program schedule, ABC's first major season since the merger.

Within a short period of time, ABC-TV established undisputed leadership in the field of drama. Four major drama series were added to the new program schedule. These are the United States Steel Hour, Kraft TV Theatre, The Motorola TV Hour and the new Sunday series, The Mask.

Advertisers, anxious to establish a franchise on the new ABC-TV, brought many new programs and stars to our audience. The fall program schedule attracted twenty-three new national advertisers who placed a record total of $20,000,000 in gross annual television billings—the greatest single volume ever placed with the ABC-TV Network. This peak figure does not include renewal orders. Gross time sales for the last quarter of the year were up 50 per cent over the previous year.

ABC Film Syndication, the company's newest division, within a week wrapped up a quarter million dollars of sales on two of its top rated properties, "Racket Squad" and "The Playhouse."

And so the network moves on to 1954, riding the crest of this contagious tide of success in every phase of its operations. What new developments will 1954 bring to ABC-TV?

First, the network will move into early morning programming on February 22 with a simulcast of Don McNeill and the ABC Breakfast Club, a 20-year favorite on radio.

Additional "star power" will be added to the network's talent roster with even greater frequency than that of 1953 in program vehicles designed to make the ABC-TV Network an even greater part of the every day American scene.

www.americanradiohistory.com

A. B. C. TELEVISION NETWORK

ROBERT M. WEITMAN
Vice President in Charge of Programming and Talent

One of the most valuable executives that the broadcasting-telecasting industry could acquire is ROBERT M. WEITMAN who joined ABC last year as a vice president in charge of programming and talent as a direct result of the merger of the American Broadcasting Company, Inc., and the United Paramount Theatres, Inc. Bob Weitman is well known to the people in show business. His acumen as a showman and developer of outstanding talent had far reaching effects in the success of the original Paramount Pictures, Inc., and as a vice president of UPT, Inc., sparked that company's immediate success as an independent operation. He now brings all of his outstanding abilities to the newly strengthened American Broadcasting Company and its new era of "star power" in his executive capacity as vice president in charge of programming and talent.

WEITMAN

GEORGE T. SHUPERT
Vice President in Charge of ABC Film Syndication

Rich with experience in both the motion picture and television industries, GEORGE T. SHUPERT joined ABC in August as vice president in charge of ABC's newly created Film Syndication division. His dynamic leadership and organizational ability have gained for him recognition in both industries as an outstanding executive in the visual media field. He has held executive positions with Paramount Pictures where he organized its Industrial Film Division; Paramount Television Productions where he organized the company's nation-wide TV film supplying network; Peerless Television Productions, Inc., which he helped organize and United Artists Television Corporation.

As vice president in charge of ABC Film Syndication, Shupert is responsible for the overall supervision of the division's purchasing, selling and servicing of television films to the entre television industry.

SHUPERT

CHARLES R. ABRY
National Sales Director For the ABC-TV Network

Heading the ABC-TV sales department is CHARLES R. (CHICK) ABRY who last year was promoted to the position of national sales director for the ABC-TV Network a rather phenomenal rise considering that he first joined ABC in June 1951 as an account executive in the network's television sales department. And it was only a short while after he became associated with ABC that he proved himself one of the most capable account executives in the network field. His salesmanship meriting greater executive latitude, brought him the appointment of Eastern Sales Manager for the ABC-TV Network in November 1952. His present duties as National Sales Director for the ABC-TV Network entail the close supervision of a large selling force of account executives as well as close surveillance of a number of top level national accounts currently using the facilities of the ABC-TV Network.

www.americanradiohistory.com

One year ago, a "new" TV network was born, rich in showmanship, know-how, ambition and (last but not least) in money.

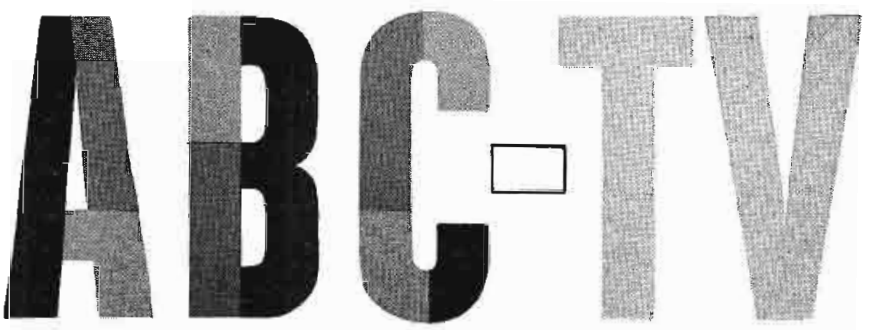
Since that time, no network has come so far so fast. Or provided TV and business editors with so many headlines . . . like these, which recall some of the exciting things that happened at the new ABC in its first 12 months:

- *Ray Bolger, Danny Thomas, George Jessel, Brandon DeWilde and Paul Hartman among many stars to sign with ABC.*
- *United States Steel, Motorola, Du Pont and Kraft place top dramatic shows on ABC.*
- *ABC-TV network expands with key affiliates...total is now 193.*
- *ABC-TV programs show steady rating growth.*
- *ABC's gain in new sponsors, new business, new billings lead all networks.*

Even as this issue goes to press, news is made at ABC-TV. January '54 billings set a new record, 71% over the same month last year. This is the fifth straight month the network has shown an increase in billings. More important, 8 new advertisers are included in January's business.

It certainly looks like this year, too, the big news in the big 3 will be ABC-TV.

ABC Television Network



www.americanradiohistory.com

Network Efforts Aimed At Daytime TV Audience

By J. L. VAN VOLKENBURG
President
CBS Television

IN every way, 1953 has been an exciting year for CBS Television. Total advertising billings for the network enjoyed a 40 per cent increase over 1952, the greatest gain of any network. Station outlets for our programs were more than doubled, bringing to a total of 157 the stations which next year will carry CBS Television to the citizens of the United States, Mexico, Canada, Alaska, Honolulu and Cuba. Program quality was sustained throughout the year, with CBS Television dominating the top 10 shows on the air, month after month. But the most impressive development of the year has been the undisputed supremacy which CBS Television has gained in daytime programming.

From our year-end figures, we learned that, during 1953, CBS Television broadcast nearly twice as many sponsored hours of daytime television as the second network. On a basis of 10 a.m. to 5 p.m., Mondays through Fridays, CBS Television daytime billings averaged 50 per cent more than those of any other network. And since April, 1953, CBS Television has maintained a continuous rating leadership in the daytime, finishing the year with a 12-month average nearly 30 per cent higher than the second network.

This imposing record of growth could not exist without sales, which last year CBS Television delivered for sponsors on an unprecedented scale. Much of this merchandising success can be directly attributed to our great daytime team of personal salesmen — Arthur Godfrey, Garry Moore and Art Linkletter—all of whom set new individual records for moving their sponsors' products during 1953. Their strength with the consumer is well testified to by the fact that all of the commercial time on their programs is sold for months to come. This hard-hitting team is rounded out with a fourth member, personable Robert Q. Lewis, who has moved into the 4:30 p.m. spot on the network with a new show of his own.

CBS Television has also built a strong feminine audience for its five daytime serials, "Valiant Lady," "Love of Life," "Search for Tomorrow," "The Guiding Light," and "The Brighter Day," designed to provide the housewife with pleasant hours of diversion from her housework. All of these shows are solidly sponsored and provide a sound base for our afternoon programming.

During the coming year, advertisers will spend a record $8 billion to stimulate consumer buying. But for every dollar spent in network television, they will expect an unprecedented return in sales.

Many advertisers with modest budgets will find the answer to their advertising requirements in daytime television which, now that receivers are installed in more than 28,000,000 homes, is becoming an increasingly profitable buy. For in this low-cost medium, the advertiser can demonstrate his product simultaneously to millions of potential consumers at the place where his product finds its ultimate use—the American home. With the aid of television's top salesmen, he can build a direct pipeline to the greatest economic force in our society—the American housewife.

The advertiser who ventures into daytime television this year will be following an upward trend in the viewing habits of the nation. During 1953, average daytime viewing increased to 82 minutes daily, a rise of 34 per cent since the end of 1951. This increase is the direct result of better programs—strong entertaining network shows which hold the attention of audiences for a longer period each day, just as the highly creative efforts of our Program Department attract a constantly increasing number of viewers. To the job of producing more and more of this kind of daytime program, we will be ardently dedicated in 1954.

C. B. S. TELEVISION NETWORK

HUBBELL ROBINSON, JR.
Vice President in Charge of Network Programs

HUBBELL ROBINSON, JR., joined CBS in July, 1947, as vice president in charge of network programs. In 1951, when CBS was reorganized into separate network operations for television and radio, he was named vice president and director of CBS Television network programs. Previous to his CBS affiliation, Robinson had been vice president and director of radio for Young & Rubicam. He was with the agency for sixteen years, from 1928 to 1944. He joined the Blue Network, now ABC, in 1944, as vice president and director of programs. In 1945, he switched to Foote, Cone and Belding as vice president in charge of radio. Robinson was born in Schenectady, N. Y., on Oct. 16, 1905, and is a graduate of Brown University. He was a reporter on the Schenectady Union Star and the Knickerbocker Press in Albany after graduation. In 1928, he moved to New York and entered advertising.

ROBINSON JR.

HARRY S. ACKERMAN
Vice President in Charge of Network Programs — Hollywood

HARRY S. ACKERMAN was named vice president of the Columbia Broadcasting System in charge of the network's Hollywood programs in June of 1951. His position includes general supervision of all CBS operations in the California entertainment capital.

Ackerman joined the Columbia network in 1948 in the capacity of executive producer. In June of the same year he transferred to Hollywood, where he served as director of network programs.

ACKERMAN

Ackerman attended Dartmouth College, from which he was graduated in 1935.

Following graduation from College, Ackerman became a writer and also filled roles as actor as well as director and producer of many radio shows. In 1936 he joined Young & Rubicam, Inc., as a program director. In 1946 he was made vice president of the advertising agency in charge of all program operations.

Ackerman was born in Albany, N. Y.

WILLIAM H. HYLAN
Vice President in Charge of Network Sales

WILLIAM H. HYLAN, associated with CBS for sixteen years, was named vice president in charge of network sales for CBS Television in December, 1952. After four years as an account executive with CBS Radio Sales, from 1937 to 1941, Hylan entered military service with the army. In November, 1945, he returned to CBS Radio and was appointed assistant to the director of station administration. In 1948, Hylan switched to the network's new TV sales staff as an account executive. In July 1951, he was named assistant sales manager. In January, 1952, he was appointed eastern sales manager.

Hylan is a native of New York City, having been born in the town of Father Knickerbocker on October 16, 1905. He spent a goodly portion of his youth as a resident of the Island of Puerto Rico. Following his secondary school education he entered Yale University, of which he is a graduate.

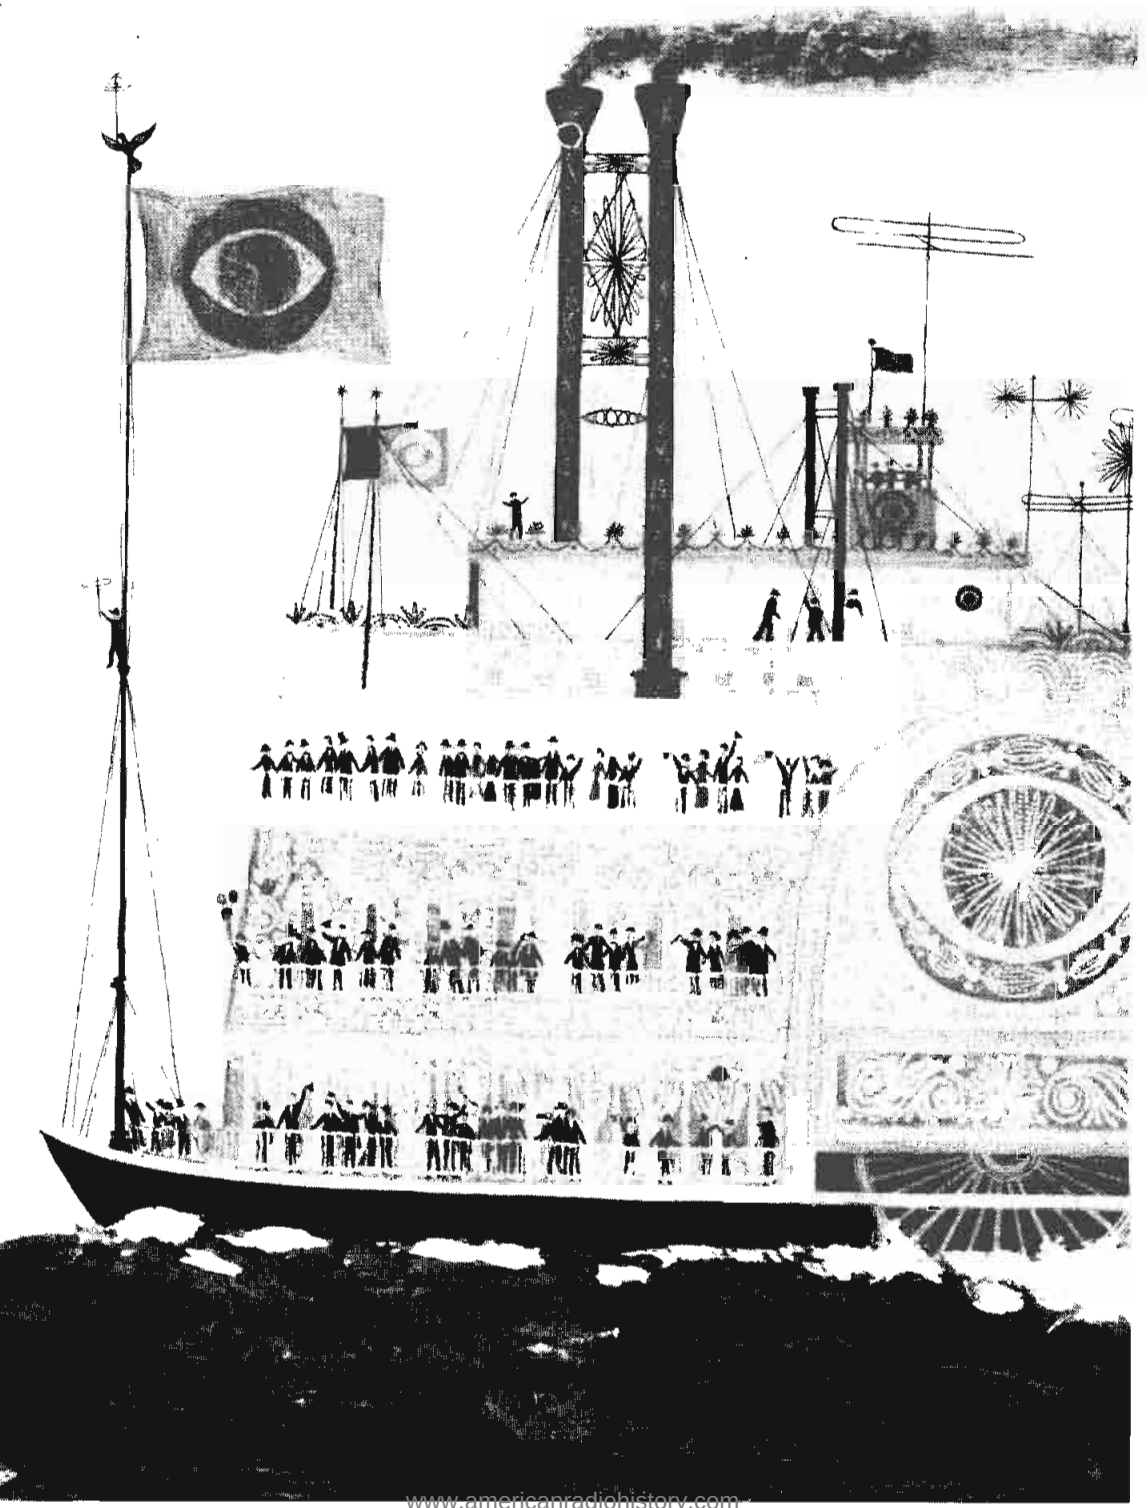
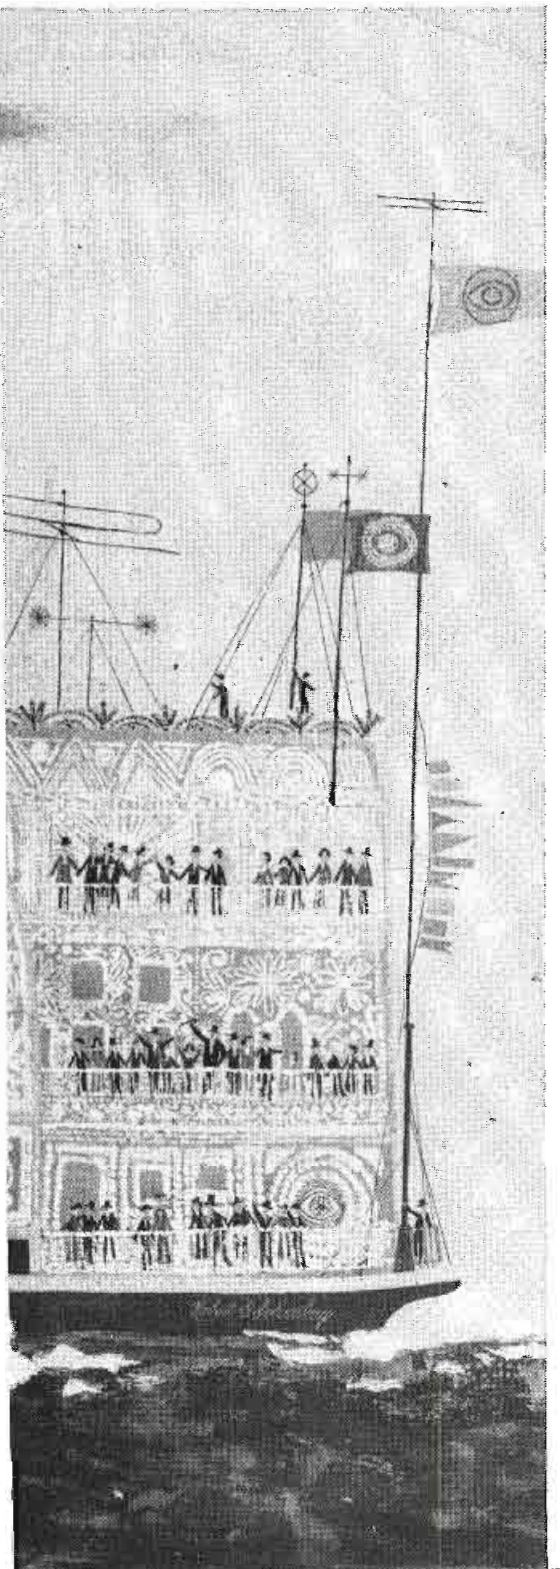
THEY'RE ALL



www.americanradiohistory.com

ABOARD



Television today is as much a part of American life as the great showboats were to the people of the big river towns.

It fills the same needs, brings the same excitement to more than 28 million families – who welcome it for almost five hours every day.

But whether a show reaches its audience by boat, by train, by theatrical van – or by electro-magnetic radiation – the most important thing to most people is the quality of the show itself.

And it's the show itself that matters most at CBS Television, where leadership in program popularity is the result of a continuous effort to secure and create programs that please people's tastes and sponsors' budgets.

In this 1953-1954 season alone it has presented 20 new programs to its audience ... and started the season with a 21% higher average rating than any other network at night–a 35% lead during the day.*

This popularity has specific meaning for advertisers. For it's a measure of network competition in the markets where you can best measure competition – in the major markets where networks compete ... and the audience has a choice of what to see.

Bringing this popularity into more and more markets, the CBS Television Network has grown from 74 stations last year to 156 today. And our sponsors are using an average nighttime network bigger by 68%.

This ever-widening popularity explains why advertising billings on CBS Television are bigger than on any other network – and bigger today than ever in television history.

CBS TELEVISION

1953 Groundwork Promises Profits Rise for '54

By TED BERGMANN
Managing Director
Du Mont Television Network

IN 1953 the Du Mont Television Network made excellent progress, most important of all in some phases which promise a substantial increase in billings for next year.

Heretofore, the Network needed two major items:

Production facilities which would enable it to handle the type of programs many of its sponsors wished to air.

Ability to clear sufficient stations to make such an investment a wise one.

In 1953 both of these were attained.

Our new Tele-Centre, described by authorities as the finest production facility on the East Coast, went into use and has already proved its ability to mount the most elaborate productions on an efficient and economical basis. The Tele-Centre provides a smooth flow of production giving every possible advantage to cost-conscious advertisers.

Also in 1953, the Network developed the largest television station roster in the industry, with a total of 205 stations at the end of the year. These included 178 formal affiliates and 27 outlets on letter agreement. Through them the Network can now reach virtually every television set in the United States.

The Network's station clearances in 1953 were 50 to 100 per cent greater than the year before. This enabled Du Mont to put together some of the most extensive commercial networks in television.

In December, Du Mont purchased station KCTY in Kansas City—a move that enables all divisions of the corporation to pioneer in studying commercial and technical problems peculiar to UHF. Our organization thus became the first network to embrace the new medium.

Gross revenues of the Broadcasting Division in 1953 were 30 per cent greater than the year before, while Network billings rose 22 per cent—from $10,140,090 in 1952 to approximately $12,350,000 in 1953. Also, the Network was substantially ahead of 1952 in sponsors signed and in commercial hours telecast. Forty-three national advertisers were served.

Each of the three Du Mont owned and operated stations improved its position during the year. WABD, New York, applied a successful new sales formula for its participating programs, and had last-half net billings which were 24 per cent ahead of 1952, for the same months.

WABD became the city's third station in dollar billings. WTTG, Washington, moved into new and larger studios in the Raleigh Hotel, continued as leader in local programming with over 70 hours a week, and had billings in 1953 which were 32.9 per cent ahead of 1952. WDTV, Pittsburgh, prepared to move into ultra-modern studios in the new Gateway Centre early in 1954, and to increase its effective radiated power to 100 kilowatts. The station made the notable record of producing 127 local shows weekly in 1953.

Du Mont's substantial expansion of its station list in 1953 also sparked a considerable increase in activity in the cooperative program field, partly on telephone company facilities and partly through teletranscriptions. This field is a steadily growing enterprise which should continue to show gains in 1954.

The broadcasting division, which pioneered in the development of closed circuit television, expanded its activity by offering a complete service in connection with sales conferences, board meetings, demonstrations of the arts and sciences, entertainment programs and sporting events. The closed circuit department cooperated with the Atlantic Refining Company and the Esso Standard Oil Company in the use of this video service to launch new products before their national marketing organizations.

The film syndication department, in its second full year of operation, also saw considerable growth in the volume of its film sales to local stations and to advertisers.

All of the advances by the Du Mont organization in 1953 contributed greatly to the industry's magnificent service to the American people.

www.americanradiohistory.com

DuMONT TV NETWORK

TED BERGMANN
Managing Director

TED BERGMANN became director of the broadcasting division of the Allen B. Du Mont Laboratories, Inc., and managing director of the Du Mont Television Network on January 1, 1954. Joining the Du Mont Television Network's sales staff in 1947 as an account executive, the first TV network sales group in the industry, he rapidly became the web's top salesman and has had an effective hand in signing most of the major time contracts bought by national advertisers since that time. He was made the network director of sales in July, 1951, and its general manager in July, 1953. He established an impressive list of TV "firsts." His presentations were responsible for first bringing into television sponsorship such important time buyers as the P. Lorillard Company and Procter and Gamble. He helped develop the Drug Store Television project which laid the pattern for multiple-sponsorship of high-budgeted network programs which is now widely followed. More recently, he negotiated the contracts for the first nation-wide pro football TV game series for Westinghouse and a group of regional sponsors. As chairman of the Contract Standardization Committee of the NARTB, Mr. Bergmann was instrumental in helping to standardize TV time contracts for the industry. New York City-born, he started with NBC radio in 1941 and presently is, at the age of 33, the youngest man to head a major national TV organization.

JOHN H. BACHEM
General Manager

JOHN H. BACHEM, with a long record of success in sales and advertising in television, radio and national magazines, moved up on January 1, 1954, from national sales manager to general manager of the Du Mont Television Network. He joined the organization in 1949 as an account executive, then became assistant sales head. His promotional and research-minded selling was responsible for many of Du Mont's initial sales at several of New York's major advertising agencies. Starting his career in New York as an advertising salesman for Cosmopolitan, House and Garden, American Home, Smart Set and the Butterick quarterlies, he became thoroughly grounded in the needs of national advertisers. He entered the young radio industry in 1932 as an account executive for NBC, was promoted to Eastern sales manager, and then to assistant to the vice president in charge of sales. Next followed 12 years on the radio sales staff of CBS, where he served as sales supervisor for Philadelphia and the Southern territories, until joining Du Mont.

BACHEM

DONALD H. McGANNON
Ass't. Dir., Allen B. DuMont Laboratories, Inc.—Gen. Mgr., O & O Stations

DONALD H. McGANNON, a member of the New York and Connecticut Bars and the Federal Bar, and an experienced industry representative in labor-management matters, is assistant director of the broadcasting division of the Allen B. Du Mont Laboratories, Inc., and also general manager of the four DuMont Laboratories, Inc., and also general manager of the four Du Mont owned and operated television stations in New York, Washington, Pittsburgh and Kansas City. He came to Du Mont in February, 1952, as administrative assistant to the managing director of the network after several years of law practice. He was promoted to his present double-duty position in July, 1953. His responsibilities have been to a large measure centered about the development of the Du Mont station organization and the representation of Du Mont in various industrial negotiations, including ASCAP and labor organizations. He is a graduate of Fordham College and Fordham Law School.

Du Mont

1953...205 STATION AFFILIATES

SINCE THE END of the freeze the Du Mont Television Network has *tripled* in size! It now has 205 stations . . . *and still continues to grow!*

Leading this rise, in October 1953, Bishop Sheen's outstanding "Life Is Worth Living" program became the first network series to be scheduled over 165 stations. Du Mont's "Dollar A Second" program and *weekly* Professional Football broadcasts also topped 100 stations . . . setting another clearance record. Even this record was broken by the Professional Football Championship Game of December 27th with 131 live stations . . . the largest *live* clearance in network television history.

In its 57% average annual rise in billings since 1950 . . . in its network growth . . . and in the creation of top programs . . . the rising success of the Du Mont Television Network reflects new pleasure for its public, new profits for its advertisers.

VISION is the Du Mont Dimension

"Magazine" Sales Concept Unfolds In TV Industry

By GEORGE H. FREY
National Broadcasting Company Vice President In Charge of Television Network Sales

AN exciting sales plan that differs radically from the buying and selling design inherited from radio is unfolding in the television industry.

I'm writing, of course, about the "magazine concept"—the flexible new sales pattern pioneered by NBC to help the large advertiser use TV more fully and effectively, offer the moderate budgeted manufacturer the opportunity to participate in the highest rated hits, and, above all, put network television on the media schedule of the small advertiser.

Make no mistake about it, the magazine concept has arrived.

Basically, the plan is designed to head the network advertiser away from single-program sponsorship to a broader use of the entire program schedule. Instead of putting all his TV budget into one limited audience show, the advertiser spreads it across the network's varied program fare to achieve greater audience penetration. His advertising might be positioned in a high circulation variety show, in a news program, perhaps a women's daytime show and in a special event of national interest. The total dollar value might equal what he would invest in a single show, but the effect is the same as if the advertiser branched out from the Saturday Evening Post and added the plus exposure of Good Housekeeping, Life, Better Homes & Gardens and Time. The advertiser's commercials can be rotated according to the market groups he is most interested in reaching, and in the ultimate pattern he can increase commercials when he needs that extra sales push and ease off at other times.

At NBC, "Today," the network's early morning news and special events television program, was deliberately designed and scheduled as a springboard for the magazine concept. "Today" works for advertisers of all shapes and sizes. Commercial time can be ordered as late as a day in advance of a "Today" show. The client may order one or more participations for any day or week of his choosing. Local station cut-in announcements can be arranged at nominal cost to provide the audience with where-to-buy-it price information.

Has the magazine concept as practiced on "Today" been successful? Look at the figures: In 1953, time billings on the program topped the $5,000,000 level. Ranging from little Appian Way Pizza Pie to giant General Motors, "Today" boasted of 90 different clients participating on the show during the year.

With "Today" a solid hit with audiences, clients and agencies, NBC-TV took a further step incorporating this new theory of selling television time with the introduction on March 1, 1954, of "Home"—the mid-morning, hour-long electronic magazine for women.

It is obvious that flexibility is a basic feature and attraction of the entire magazine concept operation. It is equally clear that the job of supplying the programs, or editorial content, in the magazine concept rests mostly with the network. Talent and production costs being what they are, and considering the rate at which television burns up material, it is necessary to centralize the source of programming to stay within reason. Only the network can divide up the operation into cost units that make sense and at the same time average out the hits and misses.

With such a system of centralized control, the network can afford to do far more program experimentation than in the past, trying out new ideas and testing new talent in the never ending search to enrich the service to the American audience. Certainly, few advertisers and no agencies can afford to run on-the-air laboratories, yet both are quick to agree that this experimentation is vital to a healthy future for television.

Under the system of program control that goes hand-in-hand with this stimulating new magazine concept, the networks will be able to assume the burden.

N. B. C. TELEVISION NETWORK

DAVID SARNOFF
Chairman of the Boards of RCA and NBC

SARNOFF

BRIG. GEN. DAVID SARNOFF, chairman of the Boards of RCA and NBC, entered the communications field as a messenger boy at the age of 15. As the importance of radio grew, he became successively Chief Inspector, Assistant Traffic Manager, and in 1917, Commercial Manager of the Marconi Wireless Telegraph Company of America. In 1919, when RCA was formed, it acquired the Marconi Company and appointed General Sarnoff commercial manager. During the following eleven years, he advanced from Commercial Manager to General Manager, then Vice President, Executive Vice President, and in 1930, at the age of 39, he was elected president of RCA. He was elected chairman of the board and chief executive officer of RCA in 1947. During World War II, he served as Special Consultant on Communications to General Dwight D. Eisenhower at SHAEF in Europe.

SYLVESTER L. WEAVER, JR.
President of NBC

WEAVER, JR.

SYLVESTER L. WEAVER, JR., joined NBC in the summer of 1949 as head of television, after 23 years of outstanding accomplishment in the advertising and broadcasting fields, including service as advertising manager of American Tobacco Company and vice president in charge of radio and television for Young and Rubicam. After three years as Vice President in charge of TV for NBC, he was made Vice President in charge of both radio and television networks in the summer of 1952. In December, 1952, he was named Vice Chairman of the Board and in December, 1953, he was elected NBC President. Weaver was born in Los Angeles and was graduated magna cum laude from Dartmouth, where he was elected to Phi Beta Kappa. He started in radio as a writer, then became program manager of the Don Lee network in San Francisco. In 1935, Weaver came to New York, where he joined Young and Rubicam. During World War II, he spent two years in the Navy in command of an escort vessel.

ROBERT W. SARNOFF
Executive Vice President of NBC

SARNOFF

Elected Executive Vice President of NBC in December, 1953, ROBERT WILLIAM SARNOFF joined the network on January 1, 1948, as an account executive in the sales department after three years of service in the Navy, followed by three years with the Cowles publications. After serving NBC in a variety of capacities, including television production manager and television program sales manager, he was appointed director of unit production for TV in 1951. It was in this capacity that he launched "Victory at Sea," the famous NBC-Navy documentary of the Navy's role in World War II, for which he received the Navy's Distinguished Public Service Award. In June, 1951, he was elected a Vice President of NBC and a year later was placed in charge of the newly created NBC Film Division. Sarnoff was named executive assistant to Sylvester L. Weaver, Jr. in September, 1953, and a month later was elected to the NBC Board of Directors. He was born in New York City, was graduated from Harvard and, after a year at Columbia Law School entered the Government service in August, 1941.

SHOW AND SALES

In these two words you'll find the crux of NBC Television's program philosophy. In application, it means that the subject of the program, whether it's news or a musical revue, should be created with pace and glamour, with all the showmanlike trappings that can be used. But also it should be designed to be an efficient selling vehicle which will make maximum use of television's special selling talents.

To see how this policy is working, let's look at the record: ⟶

28.5 Million TV Sets Manufactured Since 1946

Over 28.5 million television receivers were shipped to dealers in the United States, Hawaii and Alaska during the eight year period from 1946 to the end of 1953. The bulk of the sets, according to statistics released by the Radio-Electronics-Television Manufacturers Assn., went to dealers in the United States. TV dealers in Hawaii received 25,308 receivers in 1953, while a total of 2,330 sets went to Alaska.

The following table shows state-by-state shipments.

State	Total	State	Total
Alabama	252,860	Nebraska	203,133
Arizona	88,910	Nevada	12,061
Arkansas	87,670	New Hampshire	85,966

WHY IS AP THE BEST?

BECAUSE—AP has more news correspondents, more news bureaus, more miles of news wire than any other news service.

www.americanradiohistory.com

See how they run

(and re-run, too!)

All eleven of these television film shows give you the best possible run for your money — high ratings and high-quality production *at low cost*.

Two of them are in Telepulse's first seven syndicated shows, nation-wide.* *All* rate high, wherever they go. Second or third run, they're doing as good as or better than on the first. Sample: one show almost *doubled* its rating, third run over second, in San Francisco.

You're 'way out front with the showmanship and technical craftsmanship of such producers as Bing Crosby Enterprises and Flying A Pictures . . . not to mention our sales-building merchandising kits and on-the-spot counsel.

See how they run yourself. Ask your CBS Television Film Sales representative *today* for a private showing and the whole story. You've never seen such buys in your life.

CBS Television Film Sales

New York, Chicago, Los Angeles, San Francisco, Atlanta and Dallas

*Telepulse multi-market ratings for September 1953

UHF Advancement Seen As Prime Project For '54

By HERBERT E. TAYLOR, JR.
Manager, Communication Products Division, Allen B. Du Mont Laboratories, Inc.

EMPHASIS on color research and equipment development will continue in 1954 and laboratory equipment will be installed and operated in a few major market stations capable of the financial luxury of color telecasts with few receivers. The basic pattern of expansion will be in the direction of added stations, higher power transmission in both UHF and VHF, higher quality film and recorded program transmission and additional accessory equipment designed to simplify operations.

The increasing availability of higher powered UHF transmitters and improved UHF television receivers may mark 1954 as the year when the terms UHF and VHF become just plain television to the viewing public and the UHF broadcaster becomes competitive with VHF for the advertising dollar on an equal basis.

Du Mont in 1953 proved that with higher power and careful installation UHF could be competitive with VHF. The fruits of the study made at WGLV in Easton, Pa., increased the assurance to the UHF broadcaster of financial success.

It takes little imagination to realize that a truly nationwide competitive television broadcast system is largely dependent upon UHF for success. The reason is simple. The Federal Communications Commission plans to license many more UHF stations than VHF. Of the approximately 2,000 stations now possible under the FCC allocation plans, more than two-thirds will be UHF. In order that television service may reach the nationwide scope planned, it is vital for UHF stations to provide strong area coverage.

Until recently, the rapid expansion of UHF had been retarded by the lack of high-power UHF transmitters and the resulting inability of UHF stations to provide strong local coverage. With high-power UHF now available, stations in the upper frequencies are now able to transmit signals which are as strong, as reliable, and as free from interference as are VHF signals.

Advertisers therefore know that their dollars spent for commercials and time are resulting in sharp reproduction of their programs and messages. Manufacturers are finding a stronger demand for UHF receivers. Television networks can rest assured that UHF affiliates can be worthy and strong affiliates. And most important, the American public on an increasing scale is getting to know that UHF provides good reception. Educational television is also beginning to see its opportunities for service realized.

Therefore, major expansion for the equipment industry will have to be in this field. Transmitter power then becomes the hub for continued growth and 1954 may mark the first year of maturity for UHF transmission.

Color problems will not seriously disrupt the television broadcast equipment industry in this year of transition. The broadcasters' demand for color equipment should not be great considering the projected limited hours of programming and receivers that will be available. It would appear that the major problem lies in the receiver which must meet the public's requisites of large screen, simple operation and price, the combination of which represents a goal not obtainable in 1954.

The coming year will undoubtedly continue the growth trend of this industry extending the nationwide service through black and white. When color receivers meet the needs of the public and are capable of reproducing black and white reception equal to that of a standard monochrome receiver, the great rush will be on. This will not be in 1954. An excellent example of the public's attitude may be found in the action of a Wyoming man who wired associates in New York his answer to the FCC's approval of color. His wire read, "Color television? Hell, we just want television, period."

Results That Count...

A LOCAL AGENCY told WGN-TV:

"The leads developed from a single announcement on your program were better than four times any other television show we have utilized."

A NATIONAL ADVERTISER said:

"Out of five markets used in this promotion, WGN-TV delivered 40% of the returns."

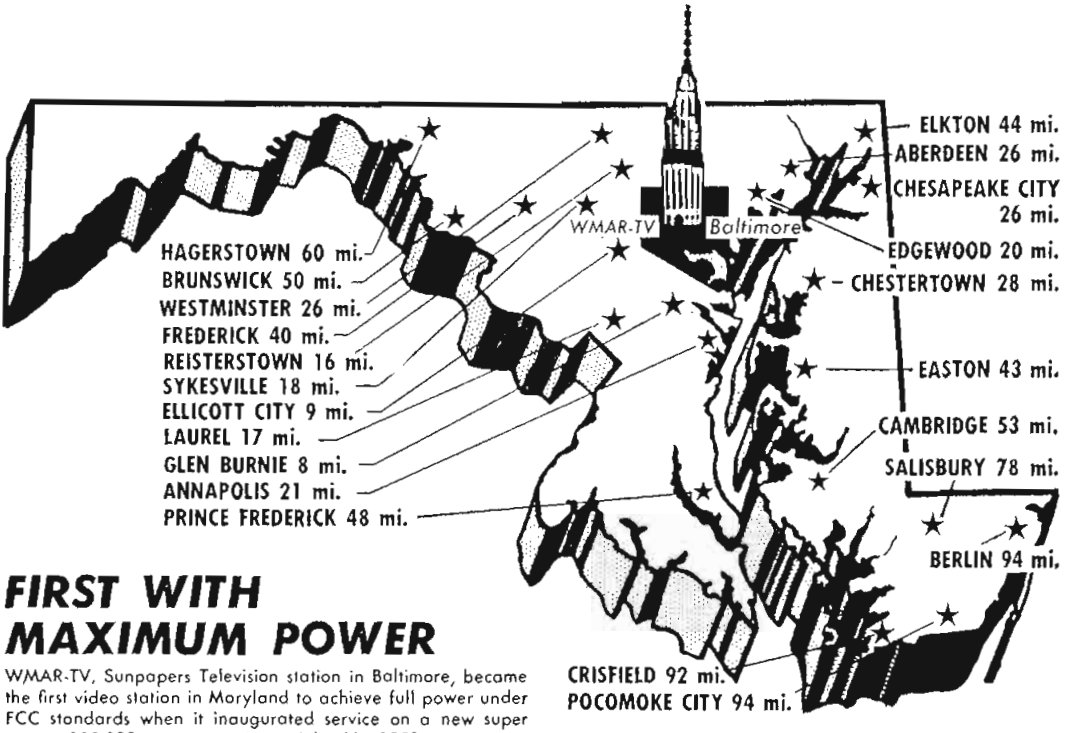
BALTIMORE'S NEIGHBORS

From the Blue Ridge to the blue Atlantic, Maryland's communities have been bound into a closer kinship to Baltimore through WMAR-TV's 100,000 watts of maximum "super power" . . . and each of the indicated neighbors has been "saluted" in a continuing series of half hour programs that combine film sequences with personal appearances by leading personalities of each locality.



FIRST WITH MAXIMUM POWER

WMAR-TV, Sunpapers Television station in Baltimore, became the first video station in Moryland to achieve full power under FCC standards when it inaugurated service on a new super power 100,000-watt transmitter, July 22, 1953.

FIRST WITH LOCAL COLOR

The first broadcast of color slides using the new WMAR-TV color originating equipment took place in the early morning hours (after regular sign-off at 2 A.M.) on December 30th, and continued for several nights thereafter. The first announced telecast went on December 31st and on January 5th, 1954, WMAR-TV initiated regular daily color telecasts.

Make Sure of More in '54

with

WJBK-TV

CHANNEL 2

FACT No. 1

POWER

Farthest reaching TV signal in the Michigan area . . . gigantic 1,057 foot tower with maximum 100,000 watt E.R.P . . . plus favored Channel 2 dial position add up to

MAXIMUM CIRCULATION

FACT No. 2

PROGRAMMING

Daytime and nighttime, viewers customarily turn to Channel 2 for the best in entertainment, news and sports. And that means

MAXIMUM VIEWING

FACT No. 3

RATINGS

Consistently leading with high-rated CBS, Dumont and local programs. For example, Pulse ratings for December, '53, show 9 out of the 15 top shows on WJBK-TV. And that gives you

MAXIMUM IMPACT

Eliminate guesswork when you're buying TV time in the rich Great Lakes area. Make your money go farther, literally and figuratively, on WJBK-TV, Detroit's only full power station. Look at the facts! Prove to yourself that Channel 2 is the place for you. Get maximum return for your TV dollars on WJBK-TV.

In its 15th year—
and STILL GROWING!

from

16 KW

832 feet above

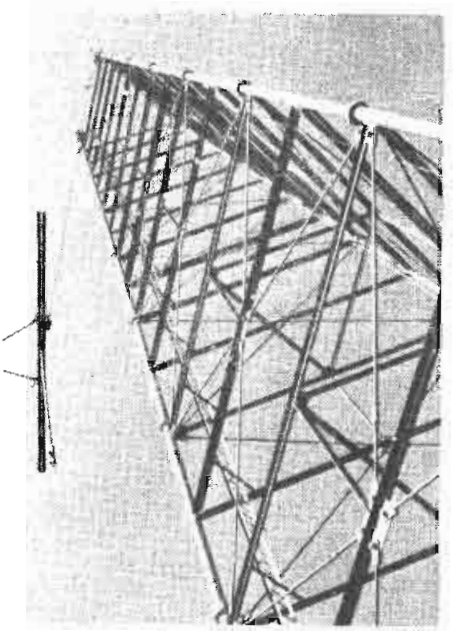
average terrain

channel 4

Very

High

Frequency



to

93 KW

1020 feet above

average terrain

channel 6

Very

High

Frequency

On January 4, 1954, WRGB increased its power from 16 KW to 93 KW; its antenna height from 832 feet to 1020 feet above average terrain, and, at the direction of the FCC, switched from channel 4 to channel 6. Now transmitting with the maximum signal permitted by the FCC, WRGB still sells the rich capital district, as it has for more than 14 years, plus Northeastern New York and Western New England. The more powerful signal adds some 10,000 square miles and more than 500,000 people to the old coverage area that previously delivered 301,750 sets.

EVERYWHERE YOU GO THEY'RE WATCHING...

In Paris they're watching . . . in Texas, and Delhi, and in more than 250 similar communities in Central New York. Exotic place names notwithstanding, they're all good New York Staters, 2¼ million of them, but they've ridden the magic carpet of Channel 8, and they're all cosmopolitans, too.

(P. S. A little more worldly than their forebeors, perhaps, but it's still good old American dollars that they spend. WHEN shows 'em what to buy . . . and where . . . and how!)

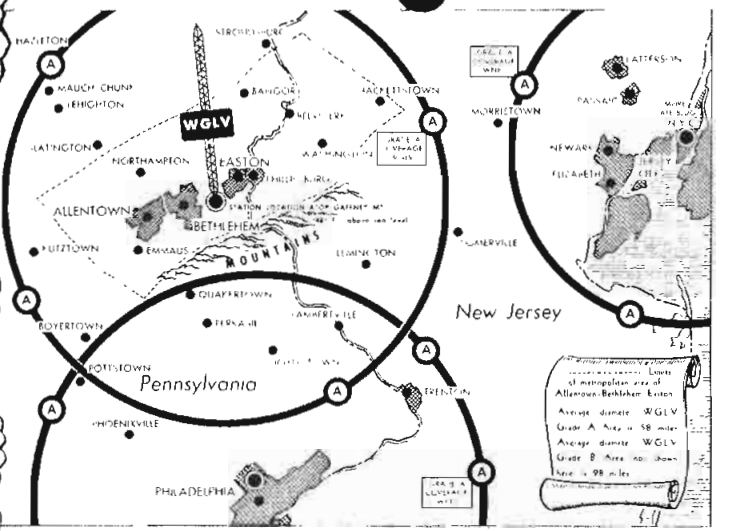
HOW! ONLY 1 TV STATION

Blankets the ENTIRE GREATER LEHIGH VALLEY AREA

PENNSYLVANIA'S 3RD MARKET

WGLV



"This map shows Grade A, or reliable coverage areas as published by strongest stations in New York, Philadelphia, and Allentown-Bethlehem-Easton area (44th market in U.S.)"

CHANNEL 57
100,000 WATTS
AT 1481 FEET

ALLENTOWN-BETHLEHEM-EASTON METROPOLITAN DISTRICT

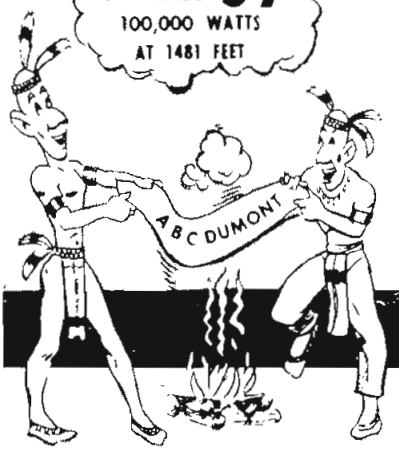
POPULATION	RETAIL SALES	AVG. FAMILY INCOME
A —566,197	A —$722,426,000	A—$5,725
A & B—3,069,700	A & B—$4 750,326,000	B—$5,692

45% of the TV homes in the Allentown-Bethlehem-Easton area have converted to UHF in the past four months. This is proven by the monthly set count by Palmer & Company, certified public accountants, based upon receivers sold or converted by regular TV dealers.

*UHF SETS IN USE

July 1, 1953	3,000 est
October 1, 1953	41,343
November 15, 1953	51,944
January 1, 1954	65,098
February 1, 1954	79,340

*Allentown-Bethlehem-Easton area representing only 40% of the WGLV primary coverage area



WGLV (Television) and the EASTON EXPRESS (Newspaper) are owned and operated by the Easton Publishing Co., Easton, Pa.
J. L. Stackhouse, President
Richard W. Hubbell, Assistant to the President in charge of Television and Radio.

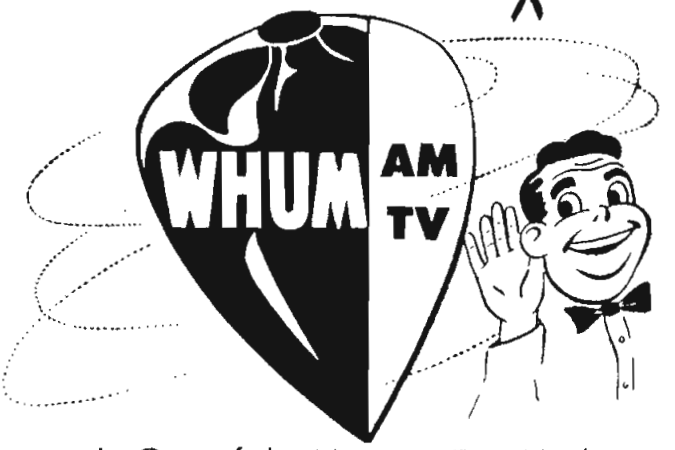
We've Got Reading WHUMming!



In One of the Nation's Top Markets

WHUM-AM

- Serving the Pennsylvania Dutch Country.
- WHUM is the most listened to station in the Reading Metropolitan Area.
- The WHUM audience exceeds the other two Reading stations combined . . . Pulse.
- WHUM is the only CBS station in Berks, Schuylkill, Lebanon, Lancaster, Chester and Montgomery Counties (4243 square miles).
- The WHUM Market is a Billion Dollar Market.

WHUM-TV
CHANNEL 61

- Serving one of the nation's top 10 television markets with 2.7 million population in the Reading-Allentown - Hatrisburg - York - Lancaster - Wilkes-Barre area.
- World's most powerful television station with 260,000 watts.
- Antenna height of 2680 feet above sea level (actual antenna height: 1050 feet), nearly twice the height of the antenna on the Empire State Building.
- Only General Electric Klystron transmitting equipment in the nation.
- On the air February 22, 1953.

READING, PA.

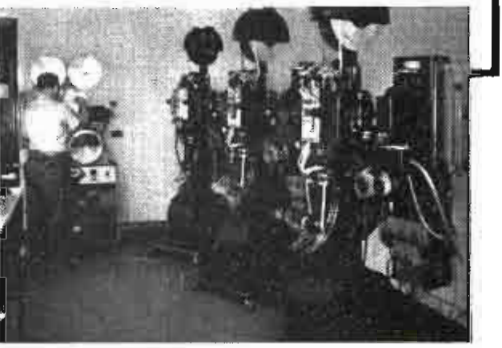
PERFECT TV PRODUCTION REQUIRES

Precision Prints



STEP PRINTING ELIMINATES CONTACT SHIFTS

The sharpness of a print depends on close contact between original and print stock. In step printing at Precision, the two films are absolutely stationary during exposure. Timing and effects are produced without notching original. One-to-one optical sound printing assures broadcast quality.

YOUR ASSURANCE OF BETTER 16mm PRINTS

15 Years Research and Specialization in every phase of 16mm processing, visual and aural. So organized and equipped that all Precision jobs are of the highest quality.

Individual Attention is given each film, each reel, each scene, each frame — through every phase of the complex business of processing — assuring you of the very best results.

Our Advanced Methods and our constant checking and adoption of up-to-the-minute techniques, plus new engineering principles and special machinery enable us to offer service unequalled anywhere!

Newest Facilities in the 16mm field are available to customers of Precision, including the most modern applications of electronics, chemistry, physics, optics, sensitometry and densitometry—including exclusive **Maurer**-designed equipment—your guarantee that only the *best* is yours at Precision!

Precision Film Laboratories — a division of J. A. Maurer, Inc., has 14 years of specialization in the 16mm field, consistently meets the latest demands for higher quality and speed.

PRECISION
FILM LABORATORIES, INC.
21 West 46th St.,
New York 19, N.Y.

TV FILM PRODUCERS AND DISTRIBUTORS

☆

ABC Film Syndication
7 West 66th St., New York 23, N. Y.
V.P. in Chg.....George T. Shupert
Sales Mgr.....Donald L. Kearney

●

Academy Film Productions, Inc.
123 W. Chestnut St., Chicago 10, Ill.
Phone: MIchigan 2-0128
Pres. & Dir. of Pro.....Bernard Howard
Services Offered—Producer of films for television—commercials and shows: Complete planning, writing, producing and directing of all kinds of motion pictures; industrial and educational films: animations; TV consultant to agencies.

●

Acme Film Laboratories
1161 North Highland Ave., Hollywood 38, Calif.
Phone: HOllywood 4-7471

●

Acus Pictures Corporation
165 West 46th St., New York 36, N. Y.
Phone: PLaza 7-2265
President .....Patrick Shanahan
Services Offered — Films for television rental.

●

A. F. Films, Inc.
180 E. 60th St., New York 19, N. Y.
Phone: MU 8-1370
Pres. .....Rosalind Kossoff
Services Offered — Distribution of short films internationally produced. TV films for distribution in U. S. and Canada.

●

Aladdin Television Productions, Inc.
165 N. La Brea Ave., Los Angeles 36, Cal.
Phone: Webster 3-9437
President.....Harry M. Popkin
V.P., Assoc. Producer.....Julius F. Tuchler
Secretary.....Kenneth N. Chantry
Treasurer.....Jack Y. Berman
Producer .....Harold Helvenston
Director.....Erle C. Kenton
Production Mgr.....William Persons
Services Offered — Producer of films in series form for TV.

●

Alexander Film Co.
Alexander Film Bldg., Colorado Springs, Colo.
Phone: MAin 3-1771
N. Y. Phone: PEnnsylvania 6-3028
President.....J. Don Alexander
V.P. in Chg. Prod.....Don M. Alexander
V.P.....Don Alexander, Jr.
Sec'y-Treas.....E. B. Foster
V.P. in Chg. Sales.....M. J. McInaney
Production Mgr.....James Anderson
Dir. Advtg., Pub. Rel.....R. H. Geddy
Services Offered—Producer of TV commercials.

●

M & A Alexander Productions, Inc.
6040 Sunset Blvd., Hollywood 28, Calif.
Phone: HOllywood 4-3414
President .....Arthur Alexander
Vice-President .....Max Alexander
Services Offered—Distributors of motion pictures for television: features, westerns, half-hour series, shorts.

●

All-Scope Pictures, Inc.
7525 Beverly Blvd., Hollywood 36, Calif.
Phone: WYoming 1128
President.....Gordon S. Mitchell
Vice-President.....C. D. Owens
Secretary-Treasurer.....L. B. Mitchell
Chairman of Bd.....Gordon S. Mitchell

●

Allegro Pictures, Inc.
4238 Mammoth Ave., Sherman Oaks, Cal.
Phone: STate 9-4952
Pres., Exec. Producer.....William Lava

●

Allen & Allen Productions
3947 W. 59 Place, Los Angeles 43, Calif.
Phone: AX 3-3314
Directing Mgr.....George E. Allen
Services Offered—TV package programs.

●

American Film Co.
1329 Vine St., Philadelphia 7, Pa.
Phone: WAlnut 2-1800
Mgr. .....Ben Harris
Services Offered—Serving 35 and 16mm. film to TV stations, also cutting, editing, and photographing of events of all kinds. Also handle any form of advertising.

●

American Film Producers
1600 Broadway, New York 19, N. Y.

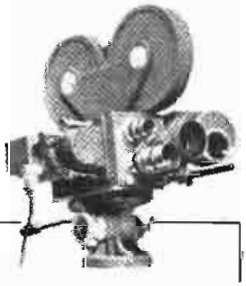
Photographing the celebrated Columbus Boychoir and Founder-Director Huffman in action, with the Maurer "16"

From Maine to Texas

...MUSIC STRANGELY SWEET

A glorious twentieth century American cultural accomplishment is the founding, training and development of the Columbus Boychoir. Singing to packed houses in America's finest concert halls, and in hundreds of cities and towns throughout the land, "America's Singing Boys" are bringing the joy of music to millions.

"Movies, records and radio have brought our story to the public thousands and thousands of times," says Founder-Director Herbert Huffman, "Now we want a record of our own so we bought the finest camera we could find, the Maurer '16'."



THE MAURER 16MM. designed specifically for professional use, equipped with precision high-power focusing and view-finder. Standard equipment includes: 235° dissolving shutter, automatic fade control, view finder, sunshade and filter holder, one 400-foot gear-driven film magazine, a 60-cycle 115-volt synchronous motor, one 8-frame handcrank, power cable and a lightweight carrying case.

RAMAR of the jungle

starring ***Jon Hall***

It's the *only* show of its kind in all television! No chance of sponsor *mis*-identification with RAMAR, because there's no other show like it on the TV screens.

It's a show for children – with a host of adult fans. The jungle locale provides an exciting background for stirring episodes which appeal to the young and old of both sexes.

Sold in more than 85 markets. Act now for franchises on an individual market basis.

All of these TPA features are offered as complete selling packages, with effective, integrated merchandising and promotion plans to lift sponsors' sales.

tpa

for station operators . . .

THE EDWARD SMALL FEATURES

28 full-length feature films people like to watch . . . stations like to run . . . advertisers like to sponsor.

They're all produced by Edward Small, that outstanding Hollywood impressario whose sensitivity to public likes have given his productions a gross of more than $100,000,000.

Features top name stars in every picture.

Now profitably shown by more than 100 station operators. If you're not one of them, you ought to be!

www.americanradiohistory.com

YOUR* STAR SHOWCASE

with your host, ***Mr. Edward Arnold***

Here's a successful, *tested* program – that's *first-run* in over 150 markets!

It's a series of 52 star-studded network calibre half-hours which, as The General Electric Theatre, won ratings of 22.9 in Cleveland . . . 30.5 in San Antonio . . . 20.3 in Chicago . . . 32.6 in Kalamazoo, etc. (ARB, Feb., 1953).

YOUR* STAR SHOWCASE is a weekly parade of marquee names, sparkling scripts, tight direction and lavish production. It can be *the* showcase for your product.

bigger profits three ways!

Here is how you increase your profits with the new combined Studio Telescription Library*

1. **BIGGER AUDIENCES** are attracted to programs featuring Studio Telescriptions. With the Studio Telescription Library, over 1,100 three minute films produced especially for TV, you have the nation's top musical stars in lavish settings creating unprecedented popularity for your shows.

2. **LOWER PRODUCTION COSTS** are made possible because, with all talent on film, it takes only minutes to build any number of sparkling, production-type programs. The Library is complete with handy index files, sample scripts, program ideas and background material for your MC, and the monthly charge is unbelievably low!

3. **MORE SPONSORS** flock to Telescription shows with their high listener ratings. Now, even local advertisers can capitalize on the miracle selling power of top quality television and top name stars, wherever Telescriptions have eliminated high production costs

Find out today how the Studio Telescription Library, with its complete programming and merchandising service, can bring bigger-than-ever profits to you.

N T A

has *more* of everything you need...

more *new* **top-notch quality television programs on film . . . to sell *more* productive time to sponsors . . . to sell *more* sponsors' products to *more* consumers . . . in *more* markets . . . at low, low costs!**

N T A *has a huge, new library of successfully sponsored properties already delivering mass audiences to advertisers in many markets!*

these are the programs:

HALF-HOUR:

China Smith • The Beulah Show • Cowboy G-Men
Orient Express • Play of the Week • Pantomime Quiz
International Playhouse • Televideo Theater

QUARTER-HOUR:

The Passerby • The James Mason Show • The Bill Corum Sports Show • The Eva Gabor Show • TV's Baseball Hall of Fame • Bobo the Hobo • Find a Hobby • Telecomics

PLUS:

Man's Heritage • Viz-Quiz • Superman (Cartoons)
Layman's Call to Prayer • Music of the Masters
Sands of Time

and over 100 feature films and westerns

Each N T A series is backed by a realistic, yet powerful, complete sales-merchandising and promotion package to support and tie-in entire campaigns.

*CALL YOUR N T A MAN TODAY! * HE'S Only Minutes Away!*

Films to Play Major Role in Television Broadcasting

By ARCHIE MAYERS
President
Unity Television Corp.

To forecast the responsibility and future use of films on television, one need not resort to the crystal ball. There is sufficient background, history and documentary evidence to furnish most of the answers regarding the part that film has played and will play in future telecasting. However, before looking into the future it may be well first to review the past.

In the so-called early days of television, assuming that 1946 would serve as a springboard, the motion picture as related to television was an orphan and stepchild; and quite often referred to as a 'dirty word' spoken of only in hushed tones. And why not? Wasn't television supposed to be the electronic transmission of live figures and live shows? And was it not the intention and hope of the commercial producers to substitute live television for mechanical devices, meaning in one instance motion pictures? This certainly was the basic aim of television but quite often theory is superseded by reality. In the minds of many of the producers and telecasters, reality represented that form of visual projection, regardless of whether it was "live" or on film.

To project this viewpoint to a conclusion of the present-day, facts and statistics prove that motion pictures are as great a reality as live shows, the only difference being that one is projected electronically from a live stage, whereas the other is transmitted mechanically. Thus, it poses the question "What Is The Difference?" Actually, there is no discernible difference. It takes a practical expert and one highly attuned to these respective arts to look at a screen and differentiate between "live" and film. Given a good positive print with intelligent understanding of the electronic arts, with proper timing and projection, a play on motion picture film serves the same purposes as a live show without any of the failures that quite often occur in live production - particularly when one considers that a motion picture film may be edited, the rough spots removed and generally primed to perfection before it is projected.

During the past seven years, the usage of motion picture films on television has grown beyond anyone's conception. From 1946 to 1948, film being considered a stepchild, was mostly employed for program fillers and standby usage. But in 1949 its practical and economical values were "discovered." Most of the 108 stations on the air at that time developed an awareness that motion pictures were more than a substitute; it being divined that motion pictures were the real McCoy. This discovery was no mere accident; it was based upon:

(1) Quick availability of many thousands of shows. (2) Public acceptance of predetermined values and star names. (3) Ease of handling and operations, and last but not least; (4) The economic aspect.

The latter had great significance to station operators, program directors, technicians and sponsors. They quickly saw and determined that motion pictures, having all of these qualifications, could be purchased at a fraction of the cost of live shows, could be obtained at a reasonable portion of the rate card and furthermore, could be auditioned beforehand to determine acceptability for the respective markets. Also, a tremendous economical factor not to be ignored is the advantage of residuals, which may be enjoyed only through film production and certainly not through live shows. Thus, the general idea of using motion pictures on television began to snowball, and in the year 1950 grosses realized by distributors and station time sales catapulted into substantial figures. So the momentum continued through 1951, 1952 and 1953, until the gross volume done through motion pictures totalled in excess of thirty or forty million dollars for 1953.

TV PERSONALITIES

E. K. JETT, v.p. and dir. of WMAR-TV, Baltimore, Md., joined the Federal Radio Commission in 1929 as a senior engineer. He was advanced two years later to asst. chief engineer, then chief engineer in 1938, and Commissioner in 1944. He resigned from the Commission to assume his present duties on Jan. 1, 1948. Jett was a member of the Censorship Operating Board during World War II and the chairman of the Coordinating Committee of the Board of War Communications.

LESLIE C. JOHNSON, v.p. and gen. mgr. of WHBF - AM - TV - FM, Rock Island, Ill., took his present post on Jan. 1, 1939. After a year as a reporter for the Decatur Review and a year on the Argus, he became editor manager for the Democrat Publ. Co. at Aledo, Ill. Leslie returned to the Argus as adv. mgr. in 1929. He is an enthusiastic civic worker, having served on the Community Chest board, and being a present member of the Chest Budget Committee. He is a 32nd degree Mason.

GAINES KELLEY, gen. mgr. of WFMY-TV, Greensboro, N. C., has been with the station since it went on the air on Sept. 22, 1949. He was classified Adv. mgr. of the Greensboro Daily News and the Greensboro Record for 18 years. When the News Co. expanded into radio operation, he was given manager of WFMY (FM) in 1948 and served in that capacity until FM operations ceased in April, 1950. Kelly was one of the organizers of the Frequency Modulation Assn. and active in it until its merger with NAB.

FRANK E. KOEHLER, gen. mgr. of Radio Roanoke, Inc., operator of WROV-AM-TV, began his career as an NBC page boy. In 1950 he filed the first application in Roanoke for TV. In Sept., 1952 his CP was granted and the station went on the air Feb., 1953, becoming the 9th UHF station to begin operating. WROV-TV went off the air on July, 1953 when a VHF channel 7 application was filed for Roanoke, Va. Frank joined WROV in 1946, after an Army tour, which was just prior to the air.

JAMES M. GAINES, v.p. and gen. mgr. of Southland Industries, Inc., owners and operators of WOAI-AM-TV, San Antonio, Texas, was formerly v.p. and a member of the board of directors of General Television, Inc., heading the WOR-WOR-TV, N. Y. Jim joined NBC in 1941 in the station relations dept. and held successive posts as asst. adv. and promotion dir., until 1946, when he was named gen. mgr. of WNBC, N. Y. In 1947, Jim was named to the post of dir. of all NBC owned stations and later v.p. of the web.

ROGER W. CLIPP, gen. mgr. of the Phila. Inquirer stations WFIL-AM-FM-TV, was elected a member of the board of directors of the Chamber of Commerce of the U. S. in April, 1953. He is a veteran of the radio-TV broadcasting fields, and a 1925 graduate of the Wharton School of the University of Penna. A past chairman of the ABC stations planning & advisory committee, Clipp recently concluded his term of office as president of the Penna. Assoc. of Broadcasters.

www.americanradiohistory.com

JAMES T. AUBREY, JR., general manager of KNXT, key station for CBS TV in Hollywood, took his present post in 1952. In 1941, Aubrey graduated cum laude, with a B.A. in English literature from Princeton University. Upon graduation he was commissioned as a Second Lieutenant in the U. S. Field Artillery and was called to active duty immediately. He was discharged in 1946 with the rank of Major. In 1948 he joined CBS for KNX, moving to TV when CBS purchased channel 2 in Los Angeles in 1951.

CAMPBELL ARNOUX, pres. and gen mgr. of WTAR and WTAR-TV, Norfolk, Va., took his post in 1933. During the years at WTAR, he has installed WRTD, Richmond, and obtained, built and staffed WPID, Petersburg, Va. In 1949 he was engaged in building and installing WTAR-TV which began operations on channel 4, April 2, 1950. Both WTAR and WTAR-TV switched after 19 years from NBC to become basic stations of CBS's radio and TV network. Arnoux has been very active in civic affairs in Norfolk.

HARRY M. BITNER, JR., pres. and gen. mgr. of WFBM, Inc., Indianapolis, worked in the circulation and editorial dept. of metropolitan newspapers in Pittsburgh during summer vacations from college. In 1942 he was named gen. mgr., and after being discharged from the U. S. Navy in 1946, he was named pres. Harry is also supervisor of WEOA, Evansville, Ind., dir. and V.P. of WFDF in Flint, Mich. and V. P. of the Grandwood Broadcasting Co., (WOOD, WOOD-TV). He is a member of the city's Rotary Club.

LESLIE G. ARRIES, JR., gen. mgr. of WTTG, Washington, D. C., took his present post on June 29, 1953. He enjoys the distinction of being the only member of the DuMont organization to have worked in its 3 owned and operated stations. After serving as a junior engineer, he became a WTTG cameraman, production assistant and director of special events. In Feb. 1949, Arries was sent to WDTV in Pittsburgh, where as program operations manager, he helped establish the station.

GEORGE M. BURBACH, gen. mgr. of the St. Louis Post-Dispatch stations KSD and KSD-TV, has been a TV enthusiast since 1936 when he viewed a BBC demonstration in London. Immediately on his return to the U. S., he inaugurated a series of discussions and events which resulted in the establishment of KSD-TV on February 8, 1947 as America's first completely post-war equipped TV station. He was appointed adv. mgr. of the Post-Dispatch in 1913 and has been a director of Pulitzer Publ. Co. since 1922.

PAUL ADANTI, gen. mgr. of WHEN, Syracuse, N. Y., has held that post since 1948. He started in TV with WRGB when he joined that G. E. pioneer station on its origination in 1939. After four years of work in all TV phases at WRGB, he was made head of TV operations, a post he held until joining WHEN. In 1950, he was elected to the board of directors and made vice president of the Meredith Syracuse Television Corporation, operators of WHEN.

www.americanradiohistory.com

GLENN C. JACKSON, managing dir. of WAGA AM-TV, Atlanta, Ga., took his present post in March of 1952. His radio career began at WHIO, Dayton, as an announcer, staying there three years. Glen then moved on to WSPD in Toledo, where he became prod. mgr. in 1943. From there he spent two years in the U. S. Navy, and was released in 1946. He returned to WSPD and when WSPD-TV came into view, he was assigned additional responsibility. Jackson has become pres. of the Georgia A.P. Radio Assn.

GEORGE D. COLEMAN, gen. mgr. of WGBI-TV, Scranton, Pa., became WGBI manager in 1932. Graduating from Technical H. S. in 1918, he joined the U. S. Army and served until after the Armistice ended World War I. He then went to the Hudson Coal Co. and later to the General Electric Co. in Schenectady. In 1929 Coleman joined Frank Morgrage as manager of the radio store, moving directly and exclusively into broadcasting in 1932. He has served as first v.p. of the Scranton Rotary Club.

ROBERT EDWIN DUNVILLE, pres. of the Crosley Broadcasting Corp., is a native of St. Louis, Mo. In 1931 he joined the sales dept. of KMOX, St. Louis, and soon thereafter became assistant gen. mgr. On Nov. 17, 1949, Dunville was elected pres. of the Crosley Broadcasting Corp., having administrative responsibility for WLW and WLW-T, Cincinnati, WLW-D, Dayton, WLW-C, Columbus, and WLW-A in Atlanta, as well as the Voice of America, which Crosley operates for the U. S. State Dept. at Bethany, Ohio.

KEN CARTER, gen. mgr. of WAAM, Baltimore, spent his first year in radio with WITH as a time salesman. From there he went to WBAL, becoming gen. sales mgr. of the combined radio-TV operation. He joined WAAM in 1949, as local sales mgr., and was made gen. mgr. in 1950. He is a member of the Baltimore Advertising Club and the Baltimore Press Club. He is serving his second elected term on the TV Board of Directors of the NARTB. Carter, a native of Baltimore, is a Boumi Temple Shrine member.

MARTIN B. CAMPBELL, supervisor of WFAA and WFAA-TV, Dallas, Texas, has served as staff correspondent of the AP. In 1927 he was made assistant mgr. and program director of WHAS, Louisville, Ky. In 1932 he served a few months as manager and program dir. of WDEV and WILM in Wilmington, Del. From there he came to WFAA in May, 1932, as general mgr. In May, 1950, he directed the launching of WFAA's TV service. In 1952 he was made supervisor of radio and TV properties.

CHARLES H. CRUTCHFIELD, exec. v.p. of the Jefferson Standard Broadcasting Co. and gen. mgr. of WBT-WBTV, Charlotte, N. C., is a native of Spartanburg, S. C. In 1946, when the station was purchased from CBS by Jefferson, Crutchfield became gen. mgr. Then 33 years old, he was the youngest 50 kw. gen. mgr. in the nation. In 1951 he spent several months in Greece and the Near East as special State Dept. consultant to the broadcasting industry there. Charles' chief hobby is hunting in his native S. C.

www.americanradiohistory.com

CHARLES A. BATSON, v.p. and director of WIS-TV, Columbia, S. C., acquired his present post in 1952. Previously he was dir. of TV for the NARTB, after serving as assistant dir. of the BAB. Batson served during WW II in the Army. He was assigned to the War Department's Radio Branch, following earlier service with Gen. Eisenhower's North African headquarters. Born in Greenville, he was graduated from Furman University in 1938 and launched his radio career as an announcer with WFBC.

H. LESLIE ATLASS, v.p. in charge of the Western Division of CBS and gen. mgr. of WBBM, Chicago, was born in Lincoln, Ill., where he spent his boyhood. In 1923 when radio listeners wore earphones, the brothers Ralph and H. Leslie founded their first station, a 200 watter at Lincoln. Leslie and WBBM first became affiliated with CBS in 1928. Later, when WBBM was purchased by the Columbia nelwork in 1933, he was named to his present post. Atlass, his wife and three children live near Wheaton, Ill.

RICHARD A. BOREL, dir. of TV for the Dispatch Printing Co., owners of WBNS-TV, Columbus, entered the radio field in 1933, first serving as business mgr. of WBNS. In the spring of 1949 he was named to his present post in addition to his duties at WBNS. During World War II, Borel served with the U. S. Army, emerging with the rank of lieutenant colonel. A graduate of Ohio Slate University, Borel was prominent in such extra-curricular activities as Strollers and lhe Scarlet Mask, while in school.

FREDERIC S. BAILEY, gen. mgr. of WTAO-TV, Cambridge, Mass., joined the Middlesex B'castg. Corp. operators of the station in Oct. 1951, as manager of WTAO-TV. Fred is a graduate of Dartmouth College, and has been associated with radio in and around Boston for more than 17 years. He was formerly commercial mgr. of WORL. just prior to his appointment as gen. mgr. of WTAO-AM, Fred served as sales mgr. of WBMS. He continues his executive duties with the radio sta., in addition to TV.

OTTO BRANDT, v.p. and gen. mgr. of King Broadcasting Co., Seattle, Wash., operators of KING and KING-TV, was named to his present post in 1951. He was born in N. Y. C., and attended Columbia University. Otto has been a resident of Seattle since 1951. He began his business career in 1933 as a NBC page boy in Radio City, N. Y. In 1942 he enlisted in the Air Force as a B-25 flying instructor, until 1945, emerging with the rank of first lieutenant. He is married and has two children.

JAMES C. COLE, manager of WFTV, Duluth, Minn., is a graduate of State Teachers College at Superior, Wis. Jim first ventured into the business world as an announcer for WEBC, 5000 watt outlet for NBC. Jim remained with WEBC for 10 years prior to his entrance in 1942 inlo the U. S. Air Force. On June 7, 1953, he gave the Iwin ports, Duluth and Superior, their first television station WFTV on channel 38, owned and operated by Great Plains TV Properties of Minnesota, Inc.

www.americanradiohistory.com

BILL FAY, v.p. and gen. mgr. of WHAM-TV-FM, Rochester, N. Y., moved to Rochester in 1938 as program mgr. of WHAM and named gen. mgr. the following year. In 1942 he was elected v.p. of WHAM's parent company in 1942, and the following year he became a member of the Stromberg-Carlson board and in 1948 he was appointed v.p. and gen. mgr. of the company's broadcasting division. Bill is v.p. of both the Rochester Chamber of Commerce and the Automobile Club and member of Rochester Adv. Council.

HAROLD ESSEX, exec. v.p. of Triangle B'casting Corp., operators of WSJS-TV, Winston-Salem, N. C., joined the Piedmont Publishing Co. in 1939 as sales manager of its radio affiliate, WSJS. In 1942 he was named mgr. of WSJS and in 1946 was upped to v.p. in charge of broadcasting for Piedmont. In May 1953 the Piedmont Publ. Company merged its application for TV with that of former movie star Mary Pickford, and the Triangle Broadcasting Corporation was formed.

WALTER J. DAMM, v.p. and gen. mgr. of the Milwaukee Journal stations WTMJ and WTMJ-TV, was a leader in the formation of Broadcast Music, Inc., and was on the board of directors of that organization for five years. During World War II, he was a member of the Broadcasters' Victory Council and of Committee IV of the Board of War Communications. Walter was chairman of the NARTB committee that drafted the commercial section of the national TV code, and has been a member since its inception.

ROBERT W. FERGUSON, exec. v.p. and gen. mgr. of Tri-City B'casting Co., operators of WTRF-AM-TV, Wheeling, W. Va., is a graduate of Ohio State University. During World War II, he was in the U. S. Navy and was released in 1946 with the rank of lieutenant. In April 1947, the Tri-City B'casting Co. was making preparations to establish radio stations WTRF and WTRF-FM and Ferguson was appointed gen. mgr. in Nov. 1947, he was chosen as a member of the Tri-City board of dir and elected v.p.

C. RICHARD EVANS, v.p. and gen. mgr. of KGMB-AM-TV, Honolulu, and KHBC, Hilo, T. H., started as a technician with KSL in Salt Lake City, and advanced to v.p. and gen. mgr. of KSL. In 1952 Evans was invited to Honolulu by the Bd. of Directors of the Hawaiian B'casting System to survey the territory for TV. He did such a thorough job they persuaded him to return immediately to get KGMB-TV on the air just three months later, on Dec. 1, 1952. Evans is a member of the Rotary Club.

JOE EATON, pres. and gen. mgr. of the Mid-America B'casting Corp., operators of WKLO and WKLO-TV, Louisville, Ky., is a past pres. of the Kentucky Broadcasters Assn. In 1948 he organized and constructed WKLO, and put Louisville's seventh station on the air Nov. 23, 1948. WKLO-TV started programming Oct. 18, 1953. Eaton has gained a nationwide reputation as being one of the pioneers of commercial radio. He went to Kentucky in 1929 and remained when offered a position by NBC.

www.americanradiohistory.com

JOHN REED PORTERFIELD, v.p. and gen. mgr. of WNET, Providence, R. I., was formerly mgr. of WSEE-TV, Fall River, Mass. John became active in the TV Field in 1938 when he directed programs for the National TV Corp. in N. Y. and later in the production department of NBC. His book, "We Present Television," was chosen the June 1940 selection of the Scientific Book Club and was later reprinted in Spanish as "He Aqui la Television." John has also been associated with the Radio Corp. of America.

FRANK G. KING, station manager of KABC-TV, Los Angeles ABC affiliate, has a background of wide experience in the broadcasting industry. Born in England, he came to the United States while still an infant, and spent his early days in and around the City of New York. He was an infantry officer in World War II, and following his service was in charge of the N. Y. office of the Armed Forces Radio Service. He has been sales mgr. of KNX, and while with CBS King secured the rights to the Rose Bowl game for that net.

F. VAN KONYNENBURG, executive v.p. and gen. mgr. of WCCO-AM-TV, Minneapolis and St. Paul, Minn., is known to everyone as "Van." A graduate of the University of Wisconsin, Van has had heavy experience on newspapers in Milwaukee, Madison, and Minneapolis and after joining WTCN in the Twin Cities, was made general manager ten years later. When WTCN was merged with WCCO, Van turned his managerial talents to maintaining top shows and ratings. Under his leadership, personnel has increased from 18 to 230 at WCCO.

KLAUS LANDSBERG, general manager, KTLA, Los Angeles, and vice-president, Paramount TV Productions, Inc., is well known in the broadcasting industry as a pioneer of KTLA. Born July 7, 1916, in Berlin, Germany, he amazed his boyhood friends by his keen and avid interest in the new form of communication — Television. Working 16 hours per day, he completely disproves the old theory that engineers should stick to engineering and showmen to show business. He has combined the two most successfully.

PHILIP G. LASKY, vice-president and general manager, KPIX, San Francisco, is regarded as one of the industry's "heavyweights." Stations that profited by his guidance were KDYL, Salt Lake City, KROW, Oakland, and KSFO, San Francisco. It was while at KSFO that Phil and Guy Earl, owner of KNX, L. A., established the "western network," California's first successful regional chain. This two station network was absorbed by CBS in 1937. Now as KPIX begins its sixth year of operation, Lasky embellishes his role.

NORAN E. KERSTA, exec. v.p. and gen. mgr. of WFTL-AM-TV, Ft. Lauderdale, Fla., came to the Tri-County B'cstg. Co. as one of the leaders in the industry, having spent 17 years with NBC in the development of TV. He journeyed to Ft. Lauderdale in Feb. of 1953 to purchase part-interest in, and supervise the installation of WFTL-TV. Noran also represented NBC during Federal Communications Commission hearings for TV stations in L. A., Chicago, Cleveland and Washington, D. C.

www.americanradiohistory.com

WILBUR M. HAVENS, [illegible] and gen. mgr. of Havens & Martin, Inc., owners and operators of WMBG-WCOD-WTVR, Richmond, Va., organized his own automotive-electrical business in 1922. Havens became the Philco battery distributor and later took on the Philco power socket receivers. From there he secured a license from the Dept. of Commerce to place WMBG on the air with 15 watts power. The station has not been off the air since. WCOD went on the air in 1946 and WTVR took to the air in 1948.

JOSEPH HEROLD, station mgr. of KBTV, Denver, Colo., was technical director and manager of TV for WOW, Inc., Omaha, in 1945. Joe supervised construction and organization of WOW-TV in 1949-50. The following year he became TV consultant for CMUR-TV, Havana, Cuba, later going to Radio Televisao Paulista, Sao Paulo, Brazil. He then became station planning consultant for RCA, and authored TV station cost and planning studies. Herold took his present post on Sept. 1, 1952.

JOHN S. HAYES, president of WTOP, Inc., operates WTOP-TV, AM, Washington, D. C., is exec. dir. and v.p. for radio and TV of the Washington Post Co., which owns 55 per cent of WTOP, Inc. (CBS owns 45 per cent). He began his radio career at WIP, Phila., later moving to WDR. He entered the U. S. Army in 1941 as aide to the Quartermaster General. After the war he went to WOXR. The N. Y. Times station. In 1948 he went to Wash. as exec. v.p. of WINX, just moved to WTOP in 1949 when the Post bought control of CBS outlet from [illegible]

JAMES COLEMAN HANRAHAN, gen. mgr. of WEWS, Cleveland, O., has had that post since its founding in 1947. He enlisted in the U. S. Army in 1942, served with rank of major, later lieutenant colonel, until 1946. In 1935 he joined Scripps-Howard Radio, Inc., affiliated with the Scripps-Howard Newspapers, under Karl August Bickel. Since that time he has acted as vp. of the company and has been gen. mgr. from time to time for WNOX, Knoxville; WCPO, Cincinnati. He is married and has two children.

STANLEY E. HUBBARD, [illegible] gen. mgr., and [illegible] of KSTP-AM-TV, Minneapolis-St. Paul, established Hubbard Field at Louisville, Ky., in 1919. A few months later he organized the first commercial airline in the U. S. and had [illegible] air routes still used by airlines today. In 1924 Hubbard started WAMD in Minneapolis, then in 1928 WAMD, then 1000 watts, was given a power increase to 10 thousand watts and became KSTP, presently operating with 100,000 watts. KSTP-TV took to the air in April 1948.

E. K. HARTENBOWER, gen. mgr. of KCMO-AM-FM-TV, Kansas City, Mo., took his present post in June, 1953. In 1929 he joined the H. K. McCann Co., now McCann-Erickson, Inc. In 1943, Hartenbower joined NBC, Chicago, as assistant to the promotion mgr., and in 1946 was selected to be NBC's counsel to handle the network broadcasts of the Democratic and Republican National Committees. Hartenbower is a member of the board of directors of the NARTB. He belongs to the Kansas City Press Club.

www.americanradiohistory.com

FRANK P. FOGARTY, gen. mgr. of Meredith WOW, Inc., Omaha, Neb., was with the Omaha Chamber of Commerce for 15 years, serving as gen. mgr. He joined Meredith WOW, Inc., as general manager in Aug. 1950. In 1944 Fogarty became v.p. of Paxton & Gallagher Company, wholesalers of groceries, hardware, appliances, and liquor. He is currently vice president and chairman of the executive committee of the Omaha Chamber of Commerce. He is married and the father of four children.

RICHARD J. GOGGIN, gen. mgr. of KETC, St. Louis, was a member of CBS, N. Y.'s program dept., prior to World War II. He started in TV production during CBS's experimental period in 1939. After wartime service he became writer-prod.-director of both live and film programs for ABC-TV in N. Y., Phila., Schenectady and Chicago. In 1948 he was prog. dir. of WFIL-TV in Phila., later re-joined ABC, and subsequently, in L. A., became senior dir. of KECA-TV. He has taught radio-TV at UCLA.

HAROLD FREDERICK GROSS, president and owner of WJIM and WJIM-TV, Lansing, Mich., is a graduate of the University of Michigan. He built WJIM 20 years ago, and has been continuously owned and operated by him ever since, and built WJIM-TV four years ago. Gross built WGFG (now WKMI) Kalamazoo, in 1947 owned and operated the station, until he sold it in August, 1952. He has been a resident of Lansing and East Lansing, Michigan for 30 years. He is a native of Ann Arbor, Michigan.

ROBERT B. HANNA, JR., manager of General Electric Company's Broadcasting stations dept., is responsible for all activities in the company's AM, FM and TV operations. When Hanna was named station manager on Sept. 1, 1949, he had just completed his 20th year with G. E. During World War II, he served three and one half years with the Signal Corps, and was discharged with the rank of Captain in 1945. He is a past president of the Schenectady Chamber of Commerce, and past pres. of Lions Club.

PATRICK J. GOODE, pres. of WNHC-AM-FM-TV, New Haven, Conn., with his friends Aldo DeDominicis, initiated the first TV station in New England. He also inaugurated New Haven's first radio station in 1935. In 1936 President Roosevelt appointed him Postmaster of the New Haven P. O. He retired from this post in 1950 at the age of 70. In 1943 he sold his radio interest and joined Aldo DeDominicis, and thus the Elm City Broadcasting Corp. was born with Pat elected pres. WNHC-TV began operations in 1948.

JAMES LEONARD, vice-president and general manager of WLW-C, Columbus, Ohio, is a television pioneer in Ohio's capitol, having opened the first station in that city on April 1, 1949. Born in Bristol, Tenn., he is a graduate of the University of Florida. Leonard joined WLW, Cincinnati, in 1936 as executive announcer and master of ceremonies. In 1944, he was appointed program director of WSAI, and he remained at WSAI until he was appointed general manager of WLW-C, Crosley Broadcasting Corporation's Columbus television station. Leonard was made a v.p. of the Crosley Broadcasting Corporation in 1953.

www.americanradiohistory.com

GORDON GRAY, General Teleradio v.p. in charge of WOR and WOR-TV, N. Y., started as a reporter with the Kansas City Star. From there he managed the Kansas City offices of the Katz Agency, station reps. He took his present post on Jan. 1, 1954. Gordon has been associated with Central States Broadcasting Co., operating stations KFOR, Lincoln, Neb., KOIL, Omaha, WDGY, Minneapolis-St. Paul in the capacity of gen. mgr. Early in 1951 he became v.p. of Goodwill Stations, Inc.

CRAIG LAWRENCE, general manager of WCBS-TV, key station of the CBS Television network, is no newcomer to New York City, although he was born in Wisconsin, educated in Michigan and Iowa, and spent a goodly portion of his broadcasting career outside this city. After serving as an account executive and commercial manager of WMT, Cowles station in Waterloo, Iowa, in August, 1944, Lawrence returned to the N. Y. area to manage both WHOM in Jersey City and WCOP in Boston. When Cowles sold WHOM to Il Progresso, the Italian-language paper, Lawrence devoted his time to WCOP. Craig, with family, resides in Conn.

G. BENNETT LARSON, president and general manager, KDYL-AM-TV, Salt Lake City, Utah, is a native of Salt Lake City, and began his career in radio when he joined the staff of KDYL at the age of 16. A graduate of the University of Utah, he has had a distinguished career as manager of radio stations in Philadelphia, Washington, and New York. He was vice-president and general manager of television station WPIX in N. Y. before assuming his new post with KDYL and KDYL-TV in his native city.

HAROLD C. LUND, general manager, WDTV, Pittsburgh, although born in New Jersey, is practically a native Pittsburgher as his family moved to Pittsburgh while he was still an infant. A former general manager with Ross Federal Research Company, World War II altered his business plans and he entered the Navy as a lieutenant. Served four years and was raised in rank to Lt. Commander before the war ended. In July, 1951 he was named general manager of WDTV and since that time, WDTV enjoys top success.

C. HOWARD LANE, managing director, KOIN-TV, Portland, Oregon, has a background with a wealth of experience in the broadcasting industry. He has seen broadcasting grow in nearly every aspect of the industry. In 1942 he became central division manager of the stations relations department for CBS, and in 1943 until 1945 he was director of stations relations for CBS in New York. From 1940 until 1950 he was a member of the board of directors of the National Association of Broadcasters. Educated in Fresno, California public schools, he received his BA from Stanford University in 1930.

W. H. LINEBAUGH, vice-president and general manager of Mountcastle Broadcasting Co., Inc., is a native of Tennessee, born and reared in a small town, about 40 miles from Knoxville. Prior to coming to WROL in 1944 as business manager, he was with the Knoxville News-Sentinel in the advertising department for twenty-three years. Linebaugh has developed a well rounded and hard-hitting sales force since he was made the vice-president and general manager in July, 1950. Linebaugh and his wife, Ethel, have two children, a daughter who is married and a son who attends the University of Tennessee.

www.americanradiohistory.com

RICHARD A. MOORE, vice-president and general manager, KTTV, Hollywood, Calif., has in six short years established himself as one of the creative pioneers of television and probably the industry's leading exponent of local TV. He became head of KTTV in July, 1951, following a most successful career with the ABC television network, which saw him rise from the legal staff to the post of director of television for ABC's Western Division and manager of KECA-TV in Los Angeles. He was a captain, holding the Legion of Merit, when he was mustered out in 1946. Shortly later he joined the legal department of ABC in N. Y.

NATHAN LORD, vice-president and general manager for WAVE, Inc., Louisville, started his career as a reporter for the Louisville Post in 1921. In September, 1933, George W. Norton formed WAVE, Inc., an NBC outlet and the second radio station to commence operations in Louisville. Lord joined WAVE as vice-president and general manager at that time and has continued in this capacity ever since. In November, of 1948, WAVE, Inc., commenced operation of WAVE-TV, Kentucky's first TV station, and the nation's 44th. A native of Louisville, Kentucky, Nathan Lord is married and has three sons.

GEORGE BASTIAN, exec. v.p. of the Stuart Investment Co. and temporary mgr. for KFOR and KFOR-TV, Lincoln, Neb., first became associated with the Stuart Investment Co. in 1942. He was named to his present post in 1948. George was born in Nebraska, and except for a brief term of duty in the Navy, has given his complete time and efforts to Nebraska business and industry. His duties as temporary manager of KFOR and KFOR-TV, will be for a period of three to six months.

H. P. LASKER, vice-president and general manager WLW-D, Dayton, Ohio, was born and educated in Europe. In his eleventh year with the Crosley Broadcasting Corporation, Lasker was appointed sales manager for the company's TV outlet in Dayton, WLW-D. In 1951 he was named manager of WLW-D, a post he held until being promoted to vice-president in July, 1953. Lasker claims that the "harder you work the body, the harder you can work the mind" and ably proves the truth of his observation as a devotee of sports. It is not unusual to see him leading staff parties at skating, swimming, and tennis.

BEN K. McKINNON, general manager, WGVL-TV, Greenville, S. C., assumed his duties April 1, 1953, organized the entire staff, and put the station on the air August 1, 1953. Formerly Carolina sales manager of WBT, Charlotte, N. C., McKinnon is also a former associate editor of Robeson Country's Hometown Newspapers in Lumberton, N. C. Ben is a native of Maxton, N. C., and a graduate of the University of North Carolina. He holds the rank of Lieutenant in the U. S. Naval Reserve, having served three years of active duty in World War II. He is also a member of the Board of Directors of the UHF Association.

JOHN A. BARNETT, owner of KSWS and KSWS-TV, New Mexico, is a graduate of Southern Methodist University, Dallas, in 1926. He is a geologist and petroleum engineer, and decided to go into business for himself seven years ago. In 1952, John decided to build the first regional TV station in the U. S. where the trade area includes no large cities. Later in 1952, he purchased KSWS. Barnett is a member of many geological and oil associations, being one of several oil men in the industry.

www.americanradiohistory.com

THOMAS E. MARTIN, executive vice-president and general manager of the Hawley Broadcasting Company, owner and operator of WEEU AM-TV, Reading, Pa., was born in Carthage, N. Y., and is a graduate of the University of Syracuse. He made his first radio appearance at WSYR, Syracuse in 1934. In the spring of 1941, he was named station manager of WWNY, Watertown, N. Y. He came to Reading in May of 1950 as a station executive of the Hawley Broadcasting Company and was named general manager in the summer of that year. In 1953, Martin was advanced to the position of executive vice-president and general manager.

VAL LAWRENCE, general manager, KROD, KROD-TV, CBS affiliates in El Paso, Texas, took Horace Greeley's advice and went west. Leaving his native New York City he became associated with the El Paso Times and Herald where he served as advertising director. He is still active in the newspaper field holding the office of vice-president of the El Paso Times, Inc. During the baseball season Lawrence can usually find an excuse to be in N. Y. on business and his office is along the first base line in the Yankee Stadium. He is married to the former Gladys Pickett, and they have one married daughter.

JOHN A. COLIN, gen. mgr. of WICA-TV, Ashtabula, O., is a native of that city. He also serves as assistant publisher of the four Rowley publications in N. E. Ohio and also acts as gen. legal counsel for the newspapers and WICA. John was admitted to the Ohio Bar in 1941, having received his degree in 1939 from Cleveland Law School. During World War II, he served in the U. S. Army for five years. Colin is an active member of church and fraternal organizations.

BUD CLARK, gen. mgr. of The Montana Network, operators of KOOK and KOOK-TV, Billings, Mont., spent 3½ years in the U. S. Coast Guard during World War II. Upon discharge he took an announcing job at KVOS, Bellingham, Wash. Bud joined the Montana Network in 1950, when KOOK was in the blueprint stage. He took his present post in 1951, and began double duties when KOOK-TV began telecasting Nov. 9, 1953. Bud's hobby is hunting and fishing, which was a big contributing factor in moving to Montana.

THOMAS P. CHISMAN, pres. and gen. mgr. of WVEC-AM-TV, was born and educated in Hampton, Va. He served as a U. S. Naval officer from 1943-46. Thomas started with WVEC in 1948. He was recalled in 1950 with the National Guard and served in Wash. in the Air Defense. In his spare time he prepared his TV application for the FCC. He filed the application in July, 1952 and received approval in Feb., 1953. Thomas is a member of the Rotary Club, and on the Bd. of Directors for the Red Cross.

JAMES HOWARD CONNOLLY, ABC v.p. in charge of San Francisco office, KGO and KGO-TV, started with N. W. Ayer & Son in Phila., in 1926. He joined ABC in 1944 in the station relations department. Jim made the results out of N. Y. for two years prior to ABC assigning him to establish its station relations office in Chicago. This accomplished he returned to N. Y. and assumed an even stronger role in the network's station relations picture. In March 1952 Connolly was named to his present post.

www.americanradiohistory.com

HENRY P. JOHNSTON, pres. of The Television Corp., operators of WAPI-AM-FM and WABT, Birmingham Ala., is also serving as exec. v.p. of the Birmingham News Co., and pres. of the Huntsville, Ala. Times. He was general manager of WSGN from 1937 until July, 1953, when the Birmingham News Co. sold that station to acquire WAPI. Since his graduation from Washington and Lee College in 1929, Henry has served as a Kelly-Smith newspaper rep., and local adv. mgr. of the Birmingham News.

CLAUDIA T. JOHNSON, pres. of the Texas Broadcasting Co., operators of KTBC-AM-TV, Austin, Texas, acquired KTBC in 1943. KTBC-TV was one of the first stations to get into operation after the freeze was lifted, going on the air Thanksgiving Day, 1952. Claudia is a graduate of the University of Texas. She married Lyndon B. Johnson in 1934, and has two daughters. He is the present senior senator from Texas. She is a native of Alabama, and moved to Texas as a young child.

DOUG KAHLE, pres. and gen. mgr. of KCSJ-AM-TV, Denver, Colo., purchased the station in June, 1952, in partnership with Bob Clinton. KCSJ-TV was established in June, 1953. In 1946 he established KCOL in Ft. Collins and was part owner and gen. mgr. until 1950. He established KOWB in Laramie, Wyo., in 1948 and held an interest in this station for about a year. He purchased KOKO in La Junta early in 1950 and sold this station in 1951. Kahle is a member of the Rotary Club and Elks Club.

J. ROBERT KERNS, v.p. and managing director of WBRC-TV, is a veteran of 14 years with the Storer Broadcasting Company, and began his broadcasting career as a salesman at WHIZ, Zanesville, Ohio, in 1939. In June, 1947, WHIZ was sold and KERNS was transferred to WLOK, Lima, Ohio, where the station under his dynamic leadership established new records in both sales and audience. He is married, has three children, and attended the Linsley Military Academy. He is also a member of the Elks.

ALFRED H. KIRCHHOFER, v.p. of WBEN Inc., was a national figure and a leader in the newspaper world even before he became the managing editor of The Buffalo Evening News in 1927 and a WBEN official in 1930. Born in Buffalo May 25, 1892, he started cub reporting in 1910, and is now known across the country as managing editor and a director of The Buffalo Evening News as well as v.p., secretary, and director of WBEN Inc. Married and a member of the Buffalo Club, he's also a member of SDX.

www.americanradiohistory.com

CARLETON D. SMITH, NBC vice-president and general manager of WNBW and WRC, NBC O & O stations in Washington, D. C., has been in broadcasting for 26 years. He joined NBC in Washington as a staff announcer in 1931, and became manager of WRC in 1941, and in 1947 put WNBW on the air as the nation's first postwar TV station. Carleton is married, and has a son twelve years old. He is a member of the Columbia Country Club, the Burning Tree Club, the National Press Club, and Sigma Chi.

P. A. "BUDDY" SUGG, vice-president, WKY Radiophone Company, manager WKY-AM-TV, Oklahoma City, became interested in radio when it was still only a squealing and intriguing infant. A Navy reservist, "Buddy" was called to active duty in October, 1940, and had a major role in the development of radar during the war. He held the rank of captain when he was released in 1945. He also did additional radar work at MIT. "Buddy" is married and makes his home in Oklahoma City. He has one daughter, Nancy.

ERVIN F. LYKE, president and general manager of Veterans Broadcasting Company, Inc., operating WVET and WVET-TV, began his radio career at WOLF, Syracuse in 1940. He worked at WENY, Elmira, and was chief engineer at WSLB, Ogdensburg, when in 1941, he went to CBS, N. Y., as an engineer and worked on the construction of the CBS-Office of War Information transmitters during World War II. He came to Rochester and WVET in 1947 as chief engineer. He became general manager in 1950 and president of the company in 1951. Ervin is a member of the Rochester Advertising Council and the Institute of Radio Engineers.

ROBERT LEMON, station manager, WTTV, Bloomington, Indiana, is a young man straight from a local daily newspaper advertising staff. He spent a year as a sales manager for WTTS, radio division of the Sarkes Tarzian Corporation, and then threw his energies into the sprouting television station as sales manager. In 1952, he was named station manager, and since then the sky's the limit for him with the direct supervision of Indiana's highest tower, a 1000 foot structure for WTTV's new channel 4 operations. With the WTTV expansion under way. Bob's leisure hours are spent at home with his wife and two daughters.

BEN LUDY, general manager, WIBW-AM, WIBW-TV, Topeka, Kansas, and KCKN, Kansas City, is a native of Cedar Rapids, Iowa, and attended the University of Iowa. He has spent all of his working years in the radio and sales game. In 1929 he went with KOIL, Omaha, Nebraska, where he remained until he came to Topeka and went with Senator Arthur Capper's station, WIBW in 1933. WIBW is one of the oldest stations in Kansas and today is one of the most prominent, building a wide following under Ludy's leadership. Married, and the father of a daughter, 8, Ludy is a Mason and member of the Shrine.

EDWARD G. SMITH, general manager, WTCN-AM, WTCN-TV, Minneapolis, is a 25-year veteran in the broadcasting business. He started out for WXYZ in Detroit, then managed a station in Grand Rapids, Michigan. After being with WGN in Chicago for six years as production director, he took on the responsibilities of looking after General Mills' radio and television programs. For two years he was director of the ABC Radio Network-Central Division. In 1951, he became general manager of WTCN-Radio, later WTCN-TV.

www.americanradiohistory.com

HECHT S. LACKEY, president and general manager of WEHT, was born in Paducah, Kentucky, August 9, 1901, one of seven sons, four of whom are in radio and television. Lackey entered radio in 1939 when WHOP was built. In addition to his duties as president and general manager of WEHT, he is owner and manager of WSON-AM and FM. Lackey also serves his town as mayor, chairman of the Methodist Hospital Board, director of the Red Cross Chapter, YMCA, Chamber of Commerce, Community Chest and director of the Kentucky Broadcasters Association. He is married and has three sons, ages six, eight and eleven.

WILMER C. SWARTLEY, station manager, WBZ-TV, Boston, was born in North Wales, Pa. in 1908. Wilmer has an engineering degree from Cornell University, and during World War II, he received a leave of absence from WBZ to serve with the Army as a major in the Ordnance Department. Wilmer is a director of the Boston Chamber of Commerce, a past director and member of the Radio Executives Club, and has served on numerous civic and charitable committees. He is a resident of Newton, Mass., married and a father.

CHARLES DE YOUNG THIERIOT, general manager of KRON-TV and KRON-FM, born February 1, 1915, graduated from Princeton University and served in the Navy from 1942 to 1945. Mr. Thieriot is vice-president of the Bakersfield Broadcasting Co., vice-president and director of the Chronicle Publishing Co., and director of the Bureau of Advertising, ANPA. Under him, KRON-TV has been commended by the City of San Francisco for notable achievements.

VICTOR A. SHOLIS, vice-president and director, WHAS-AM-TV, Louisville, Ky., was born in Glasgow, Scotland, and in 1929, after his family had moved to Chicago, became a citizen of the United States through the naturalization of his father. An honorary journalism graduate of the University of Illinois, and a member of Sigma Delta Chi, Victor has often aided Democratic nominees for the presidency. Married in 1943 to Jane McDonald, he is the father of three children, all boys, Victor, Robert and David.

FRANKLIN SNYDER, vice-president and general manager, WXEL, Cleveland, Ohio, has headed the station's operation since its opening in 1949. After leaving Carnegie Institute of Technology in 1933, he later joined the Empire Coil Company to supervise the final phases of construction of their station, WXEL in Cleveland. During the past four years he has directed the activities of WXEL's rapid and progressive growth, and finds his berth in TV broadcasting as one of the most interesting in his career.

ALVIN D. SCHROTT, manager, WJAC-TV, Johnstown, Pa., was appointed manager of the station six months before it went on the air. He is treasurer and secretary of the Johnstown Tribune Publishing Company, parent of WJAC-TV, and has been with that organization since June 1932. In January, 1934, he began national advertising for the newspapers and remained in the advertising department until he entered the U. S. Navy in March 1941. He was on submarine duty until his discharge in December, 1945.

www.americanradiohistory.com

LOU POLLER, owner and operator, WCAN-AM, WCAM-TV, Milwaukee, Wisconsin, and president of the Ultra-High Frequency Television Association, is an old hand in radio, and a new, vigorous hand in television. He started in radio at the age of 16 as a sportscaster in Scranton. His first ownership venture in radio came in Scranton also, when in 1942, he built WARM. Shortly after this venture, he enlisted in the Marine Corps, serving until the end of World War II. Lou's primary purpose is to make WCAN-TV a model UHF station for the entire country, and his efforts have already focused national interest.

GENE O'FALLON, gen. mgr. of KFEL-AM-FM-TV, Denver, Colo., came to Denver in 1906 to enter the plumbing and heating supply business. During World War I, he served in the 320th Aero Squadron. In 1925 he assumed ownership of KFEL, established KFEL-FM in 1948, and on July 18, 1952, KFEL-TV started operation on channel 2. From 1929 to 1938 Gene served three terms as a director of the NAB. From 1943-45 he was a member of H. V. Kaltenborn's 20 year radio club.

A. R. HEBENSTREIT, pres. and gen. mgr. of the New Mexico Broadcasting Co., operators of KGGM-AM-TV, Albuquerque, N. M., was graduated from Notre Dame University with a Civil Engineering degree in 1911. He became city manager of Albuquerque in 1921. In 1927, after the Pyle Bunion Derby's portable radio station settled in Albuquerque as KGGM, he bought the station. Hebenstreit purchased KVSF in Santa Fe, N. M. in 1938. KGGM-TV began program operation October 4, 1953.

HUGH R. NORMAN, pres. of the Davenport Broadcasting Co., Inc., operators of KSTT, came to Davenport in 1946 and organized KSTT. He graduated from the University of Missouri in 1927 with a B. J. degree. He was associated with a few newspapers in the capacity of editor, business manager, and advertising department. From 1941 1946, Hugh was manager of WCOB, Cape Cod. He is a member of Kappa Tau Alpha, Kiwanis, Chamber of Commerce, Elks, and the Iowa Press and Radio Association.

VERNON A. NOLTE, managing dir. of WHIZ and WHIZ-TV, Zanesville, O., attended the University of Missouri. Upon completion of his studies in 1937, Vern entered the broadcasting industry via WTMV, East St. Louis, Ill., as an advertising copywriter. From there he went to WMBD, Peoria, in 1939. His first job was a radio copywriter, from where he advanced through the ranks of continuity dir., program manager and finally sales promotion mgr. Vern is a member of the Rotary Club and Masons.

ARMISTEAD RUST, president and gen. mgr. of KTXL-TV, San Angelo, Texas, has been one of the owners of KTXL-AM since its opening in 1947. During his university days at Princeton, he was a musician, actor, and producer of the famous Triangle Club musical comedies, working with among others, Jimmy Stewart, Josh Logan, and others. He was a major in World War II and is now mayor of San Angelo. This combination of "show business" talent, public service education and experience, plus proven ability as an able administrator and coordinator has made him a natural for television.

www.americanradiohistory.com

JOSEPH H. ROHRER, president and general manager of the Pikes Peak Broadcasting Co., put KRDO radio on the air in 1947. He put its sister station KRDO-TV, Colorado Springs, Colorado, on the air in the 1952 World Series. His first radio job was with NBC in Denver in 1934. Two years earlier, he climbed Pikes Peak and transmitted the event for NBC from coast to coast. He is coordinator of civil defense, and in 1951, directed the Local Current Crusade. Married. He has one son, Joe Jr.

CHARLES W. PITTMAN, president and general manager, WCOS-AM, WCOS-TV, Columbia, South Carolina, began his radio career in Macon, Georgia, in 1941. He constructed WBML and served as its general manager until 1952. In 1952, he purchased the stock of WCOS, and moved to Columbia, South Carolina, as president and general manager. WCOS-TV received approval for television September 1952, and WCOS-TV began operation on May 1, 1953. It is South Carolina's first television station.

HOWARD O. PETERSON, general manager, KTVH, Hutchinson, Kansas, broke into the radio field in 1935 in charge of promotion advertising for WOW, Omaha, Nebraska. In World War II, Pete entered the Army as a dollar and spent 4½ years in radio during his tour of duty. In 1945 he became sales manager for KMA, Shenandoah, Iowa, and when KMA started KMTV in Omaha, Pete became a pioneer in TV and sales manager for both stations. Early in 1952, Pete and himself started KTVH from scratch, and the station had the honor of being the first Kansas TV station on the air. The Petersens have two children.

TED NELSON, gen. mgr. of WTIC-TV, Evansville, Ind., took his present post in July, 1953. In 1952 he bought a substantial interest in WIRO, Ironton, O., and at the same time became gen. mgr. of the Polan Industries three TV stations. In Jan. 1954, Ted purchased an interest in WOHP, Bellefontaine, O. Ted attended Washburn College, University of Tulsa and Case University in Cleveland, O., holding two degrees, one of which is in communications engineering. He is a native of McPherson, Kansas.

LAWRENCE H. ROGERS, vice-president and gen. mgr., WSAZ-AM-TV, Huntington, West Virginia, is a veteran of five years in the television industry, in spite of the youthful age of 32 years. He is an honor graduate of Princeton University, and served as a captain during World War II. A native of New Jersey, before settling in Huntington, West Virginia, he is credited with many of the firsts in his television station. An example is his first order for color equipment which has now arrived at WSAZ.

WILLIAM B. QUARTON, gen. mgr. WMT-TV, Cedar Rapids, Iowa, was born in Algona, Iowa, on March 27, 1905, and attended both the University of Iowa and George Washington University. Since he first became interested in radio back in 1935, when he started with KWCR, in Cedar Rapids, Bill has held many outstanding executive positions in the radio and television industry. He has been a director of the NAEB, vice-president of American Broadcasting Stations in Washington, D. C., and president of the Iowa Broadcasters Association. He is married and the father of one daughter, Diane.

www.americanradiohistory.com

J. HAMPTON MANNING, vice-president of WJBF-TV, in Augusta, Georgia, joined the staff of WJBF-TV in October, 1953, after having been associated with the aviation industry for more than fourteen years. Born in Dillon, South Carolina, on March 31, 1923, Hampton now makes his home in Augusta, having lived there since 1946, after completing five years as a pilot with the Air Force.

HERBERT MAYER, president of Empire Coil Company, Inc., is best known, for his outstanding achievement of bringing television to Portland, Oregon viewers, with Brig. Gen. Sarnoff, heading the list of notable speakers who paid tribute at the opening of KPTV. He was born in 1908 in New York City, son of a successful builder, and at Colgate he led both the track and debating teams. He got his legal education at the University of Wisconsin and in 1936 married Wisconsin's Frances Leaper, a commercial artist. The Mayers have five children and make their home in Larchmont, New York.

ROBERT Z. MORRISON, JR., general manager, KCRI-TV, Cedar Rapids, Iowa, spent ten years with NBC in New York, San Francisco, and Washington, D. C. For many years, Bob worked and lived in New York City, selling AM & TV for NBC Spot Sales. He also managed the Syndicated Sales office for NBC in Washington, and San Francisco. He joined KCRI-TV as sales director when a CP was granted in Aug., 1953. Bob became general manager in January, 1954, succeeding Frank D. Rubel, who since has moved to Des Moines to look after his theater interests. Bob is 39 and a graduate of the University of Pennsylvania.

TROY McDANIEL, general manager, KGBT-AM-TV, Harlingen, Texas, was in the advertising business in 1931. He worked as business manager for the Valley Morning Star in Harlingen, and was, for two years, the business manager for the Nevada State Journal in Reno, Nevada. Troy was also general manager for KGBS Radio, now KGBT, in Harlingen, Texas, for twelve years before being made the general manager for KGBT Radio and Television.

H. MOODY McELEVEEN, JR., general manager, WNOK-AM, and WNOK-TV, Columbia, S. C., entered the radio business in 1939 as an announcer. In 1942 he was program director of another station in Columbia, S. C., until 1947, and the following year, in 1948, he was manager of WNOK. When WNOK entered the television field in 1953, he was made general manager of both the radio and television operations. For the past 15 years he has been very active in the broadcasting field and presently serves as a member of the board of directors of the South Carolina Radio and Television Broadcasters Association.

HARRY Y. MAYNARD, general manager, WCIA, Champaign, Ill., had served as sales manager for KTLA, Los Angeles, since 1948. Before joining KTLA he was with BBD&O, Hollywood. Before World War II, Harry operated an ad agency and public relations service in San Francisco, handling among others, Italian Swiss Colony Wines, and Tidewater Associated Oil Company. He served in the United States Marine Corps from 1941 through 1944 as a major in the recreation and athletic department at the base in San Diego, California. He is a native of California, born in San Jose, is married and has three daughters.

www.americanradiohistory.com

DONALD WAYNE THORNBURGH, president and general manager of the WCAU stations in Philadelphia, has played an outstanding part in building radio from its crystal-set infancy into one of the greatest advertising mediums during the past 22 years. He had been vice president of CBS in charge of the western division when he resigned to assume on Aug. 1, 1949, his present position. He is active in many of Philadelphia's civic and community organizations and is also a member of NAB.

FRANK P. SCHREIBER, manager and treasurer of WGN, Inc., Chicago, has been with the Tribune Company and its broadcast operations for more than 35 years. In addition to his leadership of the Tribune stations, he has been extremely active in the operations of the Mutual network. He is a member of the board of directors of Mutual, WGN, Inc., and WPIX, New York. He is a member of the RTES in New York, Sigma Delta Chi and the Chicago Press Club. Married to Ann Walker, they reside in suburban Riverside.

HAMILTON SHEA, general manager, WNBC, WNBC-FM, and WNBT, returned to New York in Sept., 1953 after a period of two years as general manager of WTAM and WNBK, the NBC O&O stations in Cleveland. Prior to his association with NBC he had been treasurer, controller, and a member of the board of directors of the Emerson Drug Company, Baltimore. A native of Brooklyn, he is a graduate of Middlebury College, Middlebury, Vermont, and a member of the RTES in New York. He is married, has four daughters and lives in Chappaqua.

OWEN SADDLER, executive vice president and general manager of the May Broadcasting Company, respectively manager and radio station KMA in Shenandoah, Ia., while headquartering sixty-five miles away at his KMTV office in Omaha. To save time he usually flies to Shenandoah in the company plane. He received his BA and MA from Bucknell University and at one time was seriously considering the teaching profession. Owen is married, and has three children. He and his family reside in western Omaha.

M. C. WATTERS, gen. mgr. of WCPO-AM-FM-TV, Cincinnati, O., is a graduate of Georgetown University. In 1939, Watters joined Scripps-Howard Radio, Inc., as gen. mgr. of WCPO, and in 1940 he became a vice-president of Scripps-Howard Radio, Inc., and was made a director of the Corp. in 1941. Mort was honored in 1950 by being awarded the Variety Magazine Phil Berg Variety Key for his leadership in that year of TV. He is a member of the Broadcaster's Advisory Council to the president of the U. S.

E. R. VADEBONCOEUR, president of the Central N. Y. Broadcasting Corp., operators of WSYR-AM-FM-TV, Syracuse, came to the station in 1939 after 19 years in the newspaper field. In 1941, Vadeboncoeur became gen. mgr. of WSYR, and a member of the board of directors of Central N. Y. Broadcasting Corp. In a few years he became vp. In 1952 he became president of the corporation. He has been chairman of the Radio News Committee of the former NAB, and twice a member of NBC's SPAC.

www.americanradiohistory.com

WILLARD SCHROEDER, gen. mgr., WOOD-TV, and WOOD, Grand Rapids, Michigan, was born in St. Louis, Mo., and is a graduate of the University of Missouri. In 1950, he became general manager of WOOD-AM, owned by the Grandwood Broadcasting Company of Grand Rapids. Willard's wife is the former Barbara Will, a former teacher at Briarcliff Junior College in Briarcliff, New York. They met at WINS in New York, where he at the time was general manager and she was a member of the station staff. They now live in Grand Rapids.

ELDEN H. "DENNY" SHUTE, JR., president of the Lewiston-Auburn Broadcasting Corporation, Lewiston, Maine, station manager, WLAM-AM-TV, Lewiston-Auburn, Maine, is a graduate of Boston University. He entered radio in 1937 as an announcer with WCSH, Portland, later moving to WFEA, Manchester. WILLIAMSON, JR., pres. and gen. mgr. of WKBN Broadcasting Corp., operators of WKBN-AM-FM-TV, Youngstown, O., obtained a government license authorizing construction and operation of WKBN in 1926. In 1947, WKBN-FM went on the air, and on Jan. 11, 1953, WKBN-TV began telecasting. His special hobby is candid photography. He is past president of the Ohio Association of Broadcasters, president of the Youngstown Board of Education, and a members of the Elks.

WILLET H. BROWN, pres. of the Mutual-Don Lee Broadcasting System, is a native of Detroit, Mich. In 1932, he joined Don Lee Inc., the state-wide distribution agency for Cadillac and LaSalle Automobiles in Calif., soon becoming assistant gen. mgr. Meantime, the organization had taken on a subsidiary, the Don Lee B'casting System. Brown soon became asst. gen. mgr. With the expansion of MBS, with which Don Lee is affiliated, Brown was named a member of the board of directors.

D. L. (TONY) PROVOST, vice-president and member of the board of directors of Hearst Radio, Inc., as well as in charge of all Hearst operations, supervise WBAL and WBAL-TV, Baltimore, is a graduate of William and Mary College. He has been associated with Dorenus & Co. and Miller Tape Recording Co. In 1942, Tony joined NBC and in short order became program director of the network's principal station. From there he moved to his present position with Hearst Radio, Inc.

www.americanradiohistory.com

GAYLE V. GRUBB, vice-pres. and gen. mgr. of WJBK-TV Detroit, is a graduate of Nebraska University. In 1924 he joined KFAB, Lincoln, where he was manager, program dir., entertainer and stenographer. He later went to WKY, Oklahoma City, as gen. mgr. In 1945 Gayle was appointed by ABC as gen. mgr. of the network-owned KGO in San Francisco. In May, 1949, when ABC opened its TV station, KGO-TV, Gayle found himself once more in a pioneer role. Gayle is one of the nation's honest to goodness pioneers of b'castg.

HAROLD H. THOMAS, president of WEAM in Arlington, Va., is one of the principal stockholders in the Inter-City Advertising Company, owners and operators of WAYS, and WAYS-TV, Charlotte, WCOG, Greensboro; and also has an interest in WTSK-TV, Knoxville, Tenn. He has two established television stations — WISE-TV, Asheville, and WAYS-TV in Charlotte. He is a graduate of Purdue and began his radio career in 1939 with WISE. His home is now in Asheville, where he resides with his wife and daughter.

IRVING WAUGH, commercial mgr. and executive assistant to the pres. of WSM, Inc., in Nashville, Tenn., has been associated with WSM since 1941. Irving became comm. mgr. of WSM-AM TV in 1948, and in 1952 was appointed to the office of exec. assistant to the pres. During the war, he served as WSM's war correspondent in the Pacific and Japan. Waugh is a native of Norfolk, Va., and a graduate of William and Mary College. He is married and the father of two sons, 17 and 4 years old.

ALAN C. TINDAL, vice-president of WWLP, in Springfield, Mass., and the Springfield Television Broadcasting Corporation, and president of WSPR, Springfield, is a graduate of Harvard, and the Babson Institute of Business Administration. During the war he was a B-29 pilot and completed 28 combat missions over Japan. He is a member of the Springfield Rotary Club, the Advertising Club, the Springfield Sales Executive Club. He is married and lives with his wife and two sons in Longmeadow, Massachusetts.

LINUS TRAVERS, executive vice-pres. and gen. mgr. of the Yankee Network, operators of WNAC and WNAC-TV, Boston, is a graduate of Brown University. He began his radio career while still a senior in college by joining WEAN, Providence. After a year he was transferred to WNAC, where he became production chief. Later, became v.-p. in charge of sales and production, and in 1943 he was elected exec. v.-p. and member of the board of the Yankee Network. He makes his home in Wellesley, Mass.

PAUL E. TAFT, president of Gulf Television Company, KGUL-TV, Galveston, Texas, was born in Wallingford, Vermont, attended the University of Vermont for two years, and then went to Annapolis, where he graduated in 1938. He served with the Navy during the war as a lieutenant. He moved to Texas in 1938, and after a position as assistant to the president for Duncan Coffee Co., he left in 1952 to take over the management of the Gulf Television Company. He is married, has three children and lives in Houston.

www.americanradiohistory.com

ROBERT DWIGHT SWEZEY, gen. mgr. of WLSU-AM-FM-TV, New Orleans, La., was gen. mgr. and v-p. of Mutual from 1944-48, and as gen. counsel and secretary of the Blue Network (ABC) from 1942-44. Originally, Swezey's profession was that of attorney at law, having practiced in Boston, N. Y., and Washington from 1932-38. He is a graduate of Harvard where he obtained his A.B. and LL.B. He is a past president of the Radio Executives Club of New York and v-p. of the New Orleans AB Club.

HENRY W. SLAVICK, gen. mgr. of WMC-AM-TV, Memphis, Tenn., is a native of St. Louis. At 17, he became interested in radio, and in the Merchant Marine Service got his apprenticeship in installation of radio transmitting apparatus on Miss. transports. He joined WMC in 1925, and by 1929 was chief engineer, and has shown such ability that he was placed in complete charge of erecting WMC's transmitting plant, one of the first directional systems. In 1930 he was appointed gen. mgr.

MARIA HELEN ALVAREZ, gen. mgr. of KOTV, Tulsa, Okla., started her radio career in 1943 as a continuity writer for a Tulsa radio station. In 1947 Maria was drawn to the TV industry which offered opportunities for creative expression and devoted herself to full time study of the new medium. Helen made the acquaintance of George E. Cameron *Jr.*, head of the Cameron oil interests, who was interested in TV as a business venture. Cameron TV, Inc., was formed and Helen headed up KOTV.

J. L. STACKHOUSE, president of the Easton Publishing Company, parent organization of WEEX-FM, and UHF television station WSLV, Easton, Pa., entered the public communications field more than fifty years ago as a carrier for the Philadelphia Bulletin in his native Bucks County. Married in 1913, he has three sons and one daughter. He is a member of Sigma Delta Chi, and the National Press Club in Washington, D. C. He has received a number of official honors for his efforts to elevate standards in the industry.

LESTER P. ETTER, pres. and gen. mgr. of WLRB-TV, Lebanon, Pa., is a graduate of the University of North Carolina. Upon graduation he entered the U. S. Army, and at the end of WW II was returned to inactive service with the rank of 1st Lieut. in the Field Artillery. Les then became one of the founders of Lebanon's radio station WLRB. He is secretary of the station and until assuming his duties as gen. mgr. of WLRB-TV, he served in the same capacity for the radio station.

JACK HARRIS, gen. mgr. of KPRC-AM-TV, Houston, Texas, considers coverage of the Miss. flood in 1937 as one of the three most important big stories he took part in. At the time Jack was director of news and special events at WSM, Nashville. Together with Jack DeWitt, chief engineer, he staged short wave broadcasts from half a dozen hilltops interpreted key spots in the flood area. During the war he covered initial Army maneuvers and took over Radio Tokyo facilities for Gen. Mac Arthur.

www.americanradiohistory.com

GEORGE WHITNEY, gen. mgr. of KFMB-AM-TV, San Diego, Calif., is a graduate of the University of California. From 1937 to 1946 he was associated with KFI and KECA, L. A., as a salesman. From 1946 to 1948 he was a partner in the Harrington, Whitney and Hurst Adv. Agcy. of L.A. and San Francisco. From 1948 to 1949 he was gen. sales mgr. of radio and TV of the Don Lee Network. In 1951 he returned to Don Lee as v.p. in charge of television. He assumed his present duties on Nov. 6, 1953.

ALLEN M. WOODALL, president of Radio Columbus, Inc. licensee of WDAK, Columbus, Ga., is also president of the Middle Georgia Broadcasting Co., licensee of WBML, Macon, executive vice-president of Radio Augustus, Inc., licensee of WRDW, Augustus, president of Radio Brunswick, licensee of WMOG, in New Brunswick, and executive vice-president of WETV, the new NBC-ABC television station in Macon. He's a member of Sigma Delta Chi, has two sons, age 19, and 15, and his hobbies are, you guessed it—radio and television.

JOHN E. FETZER, owner of WKZO-TV, Kalamazoo, Mich., started as a radio engineer, helping to build a number of pioneer stations in the middle west. John is pres.-owner of the Fetzer Broadcasting Co., operating WJEF, CBS outlet in Grand Rapids and also heads up WKZO and WKZO-TV. He is a veteran of 10 years in the old NAB board and during the war served with Byron Price in the Office of Censorship as the Radio Censor, later joining the Eisenhower radio mission in ETO.

EDGAR B. STERN, JR., president of the WDSU Broadcasting Corporation in New Orleans, is responsible for the planning and building of WDSU-TV. A graduate of Harvard, he spent three years in the Army, and entered the broadcasting field when he became president of International City Broadcasting Service, which subsequently became WDSU Broadcasting Corporation. A pioneer in television, he is an active civic and cultural leader in New Orleans, heading the many local organizations there.

JAMES W. WOODRUFF, JR., pres. and gen. mgr. of WRBL-AM-FM-TV, Columbus, Ga., is a native of Columbus. His early education was gained in the Columbus public schools. He attended the Episcopal H. S. in Alexandria, Va., where he graduated in 1934, and also attended the School of Commerce at the University of Georgia. James is a member of the Columbus Rotary Club, and a member of the Radio and TV Executives Society. He is also a director of the First National Bank of Columbus.

WALTER E. WAGSTAFF, gen. mgr. of KIDO-AM-TV, Boise, Idaho, went to Boise in 1944 when he went to assume the management of and minority ownership of KIDO. His career in TV began July 12, 1953 when KIDO-TV became the first TV station in Idaho to get on and stay on the air. He had served as vice president of the Advertising Association of the West, and presently, he is a member of the Planning Committee of Broadcasting Advertising Bureau. He is the father of two girls.

www.americanradiohistory.com

CECIL D. MASTIN, gen. mgr. of WNBF and WNBF-TV, Binghamton, N. Y., entered Syracuse University to study law but after two years left to pursue the study of voice in N. Y. He produced a vaudeville act, Mastin and Melvin, and gained theatrical experience from about five years with three different acts which he wrote and produced. Cecil became program director of WNBF in 1929. In 1932 he became gen. mgr. and in 1942 WNBF-FM was added to his chores. WNBF-TV was launched on Dec. 1, 1949

U. A. (JAKE) LATHAM, gen. mgr. of WKRC-TV, Cincinnati, O., switched to the field of television in 1949. Before entering radio he had been a factory representative and sales mgr. for Cincinnati automobile distributors. Jake sold the mgr. of WKRC some automobiles in such a quick fashion, he was immediately hired on the sales staff. In 1941 he was made local sales mgr. and three years later became gen. sales mgr. He was appointed gen. sales mgr. of WKRC-TV in 1949 and was named manager in 1950.

JOHN ROSSITER, gen. mgr. of WJTV, Jackson, Miss., began his broadcasting experience as sales manager of WIKK, Erie, Pa. When WICU was built in Erie, John went there as a salesman and rapidly rose to commercial manager. His tireless energy and ability made him logical choice for helmsman at the WTVN operation when it was built and took to the videowaves in 1949. John is a World War II Air Corps veteran. He is interested in sport cars and has participated in many races throughout the country.

JAMES LEONARD REINSCH, managing dir. of the Cox TV and radio properties in Atlanta, Miami and Dayton, O., became associated with Gov. James M. Cox of Ohio and in 1934 helped set up WHIO. In 1942 he was made managing dir. of the three Cox stations. He developed WSB-TV, Atlanta, which went on the air in 1949 and WHIO-TV which took to the airwaves the same year. In 1944 he was radio dir. of the Democratic National Committee and TV dir. at the Democratic National Convention in 1952.

ALBERT WAYNE COY, pres. of KOB-TV, Albuquerque, New Mexico, was chairman of the FCC. Born in Indiana, he broke into the newspaper field in 1919, rising from reporter to city editor in 1926. Wayne got his introduction to radio in 1944 when he joined the Washington Post as assistant to Eugene Meyer. Before that he had been assistant director of the budget, from 1942-44, after having served two years as one of President Roosevelt's special assistants and liaison men.

STAN WILSON, gen. mgr. of KFDA-AM-TV, Amarillo, Texas, took his present post in Sept. 1953. He graduated from Texas Christian University in 1940, as class president. He started his radio career while still in college as merchandising representative for the Texas State Network. During World War II, he served as communications officer in the amphibious force and later was chief staff officer for an LCI Flotilla in the South Pacific. He was manager of KRIO at McAllen, Texas.

Where Do We Go From Here? And Where Is Here?

By CHARLES B. BROWN
Vice President
Bing Crosby Enterprises, Inc.

EACH new year or at the end of given periods of stress or prosperity, as the case may be, we read so many articles entitled, "Where Do We Go From Here." It would seem fair to ask, Well, where in 'll are you now? Certainly everybody isn't in the same place even theoretically and by no means economically or sales-wise. Then too, it would seem sensible to inquire, "Where does one want to go from wherever one is?" In the business of television, whether as producer, buyer or user in any event, you are bound to be somewhere else by the time you finish the question because television, as one wag put it, is the one business about which you can't lie fast enough to keep up with the truth. This factor of speed is so dynamic an element that where any of us in TV may be going, including the sponsor, is not as important for the moment as is the point, are we moving in the *right* direction. The most fearful thing in business is motion without direction, it seduces the mind's eye with soothing panoramic vistas while denying it the opportunity of reading the names on the stations en-route and thus, pinpoint somewhere looks just as good as passport nowhere.

The purchasing of creative, productive television material so often is hindered by arid arguments as to which is best, live or film, origination East or West, half hour or quarter hour, etc., etc. No one ever heard a "live" or a "film," a half hour or a quarter hour. They heard people and saw them doing and saying something interesting or uninteresting, dynamic or static. All too often, entirely too much has already taken place before the thinking has been done and twilight has overtaken the stillborn spirit of a promise before the dawn of its acceptance by the public it was supposed to serve.

Selling, through any medium, is a process. There are no short cuts in human emotion; it never changes; it only reacts and the real problem of tomorrow is that of retaining all of the human prerequisites in the moving of minds while using all of the mechanical means in the operational moving of merchandise. The mechanics of operation cannot be successfully used to effect confidence, imagination, intellect or the will itself. Sales problems will be aided but will never be solved by mechanical robotry.

The mind of man is a very strange world
'Tis filled with equations complexive
Never indeed will its processes heed
Machines which would make it indexive.

The profitable production and sale of TV film will become increasingly more complex in '54 and the years ahead. Competitively, the business is bound to see an increase of new producers and distributors. More star names from the motion picture field will be seen in "starter" series and the economic promise of better days because of more markets will be offset by an ever-increasing flow of new product.

The action, will of necessity, be as dynamic in one area as the other. There can be no "bleacher bleating" by money at the expense of creative and production quality, nor any creative or production puerility because of lack of market information from the sales group, nor must sales make any errors in opportunistic advice based upon a quick dollar.

Properly integrated and activated teamwork of the character envisioned here will give agency and client, local or national, a service which will permit long-term association so that should a specific program have served the purpose, that condition will be recognized by *all*, accepted by *all* and the *same* group, along with agency and client, will be ready with the new show rather than with the axe which cuts both the relationship and the advantages which can only come from long term, efficient service and mutually profitable association.

BETTER PROJECTION THROUGH PRINT PROTECTION

A Message of interest to:

Motion Picture Producers,
Distributors, Advertising Agencies,
Sponsors, Film Libraries,
TV Film Producers and Distributors . . .

Without exception,
ALL film should be treated,
if you are to get maximum results
in terms of good projection and number
of showings. Without treatment, your film –
from initial release to the last booking – is much
more susceptible to damage. And damaged
film can result in an indifferent audience.

Peerless Treatment is the finishing touch and the least expensive item in the whole process of picture-making. Yet it safeguards millions of dollars invested in finished prints.

Peerless Treatment assures: seasoned, toughened, smoothly projecting prints. Peerless-treated prints start off right and keep in good condition longer. So when you order prints, don't forget to include "PEERLESS TREATMENT" in every purchase order.

Peerless Services include:

Peerless Protective and Preservative Film Treatments

Release Prints, Trailers, Television Shows on Film, Kinescopes, TV Commercials, Theatre Screen Advertising, Prints for Continuous Projection, Negatives, Masters, Originals, Filmstrips, Transparency Slides, Microfilm

Film Rejuvenation

Shrinkage Reduction, Scratch Removal, Remoisturization, Cleaning and Repairs

Film Library Servicing

Shipments, Inspection, Cleaning, Repairs, Inventory and Booking Records, Storage

Servicing TV Shows on Film

Insertion of Commercials, Shipments to Stations, Booking Records, Follow-up, Inspection on Return, Cleaning, Repairs, Replacements, Storage, Substitution of Commercials, Reshipments

Film Distribution Servicing

Storage pending orders, Inventory Records, Shipments to Purchasers

Filmstrip Packaging

Breakdown of rolls into strips, Packaging in cans, Labeling, Boxing of Sets, Storage pending orders, Shipments

PEERLESS

TV Film Distribution Looks To Record Year

By MICHAEL SILLERMAN
Executive Vice President
Television Programs of America

TV film distribution in 1954 should reach an all-time high. The phenomenal rise in the use of TV film by advertisers, both national and local, indicate the highly accelerated trend toward film. According to the latest figures of the NARTB, the average hours of film programming exceed the average live hours. This success of TV film may be attributed to a combination of many factors, namely: the advertiser has more flexibility with TV film; the film operation cost less and it permits the advertiser the opportunity of getting better time availabilities. In addition to these factors, the TV syndicators have developed outstanding merchandise programs to support their film series, thus, in effect, when the advertiser purchases a TV film series he also purchases a complete sales campaign including star endorsement, a title buildup and a long list of premiums which will bear the product's name. TPA as well as a few of the other leading film distributors recognized the great value of merchandising to the advertiser and have developed intense promotions and strong merchandising techniques which were more than welcomed by sponsors and the stations.

In terms of advertisers results, there are dozens of success stories. Perhaps the best evidence of their value is the length of time some advertisers have stuck with their programs. Even the blue-chip advertisers are going more into TV film. The huge operating cost of live network shows are forcing certain types of advertisers to TV film.

The market for the TV syndicators is becoming larger and larger. In addition to the fast trend toward film by the national and regional advertisers, there is also the fact that many new stations are opening or planning to open soon. There were approximately 350 stations in 1953 and by the end of 1954 there should be close to 600 stations actively broadcasting. The opening of these new markets and the increase of competing stations, all of which are ready clients for syndicated properties, should result in an improvement in the quality of product. The residuals realized from this expanded market will be put back into production of new and better series.

The telefilm business emerged in 1953 as a sound and stable industry. TPA launched its first product "Ramar of the Jungle" with amazing success. In less than three months "Ramar" had been sold in over 115 markets proving that TPA in a short time had set up one of the most powerful sales organizations in the industry. TPA believes in concentrated selling policy, that is, to only sell one product at a time. We believe that this enables the salesman to become thoroughly acquainted with the product and give a presentation that the advertiser will be able to understand. By releasing only one film at a time our organization has been able to concentrate its efforts on making that one film "click" and by click we mean by doing the best possible sales and merchandising job for the advertiser. All our promotion efforts, all our services are aimed at this objective. 1954 will present a buyer's market in the entertainment as well as in the commercial sense. There is a new type of individual sitting before the TV set in ever increasing numbers. He is the selective viewer. We are gearing all our efforts towards this viewer for our new 52-week series "Your Star Showcase" hosted by Edward Arnold. We screened 345 plays before selecting 45 we considered worth showing. To these we are adding 7 new plays.

Looking ahead then, the year 1954 will be one of ever increasing demand for the syndicated product, for program quality, and for specific market by market sales and merchandising techniques. As one of the newest, largest and most imaginative organizations in the field, we at TPA are dedicated to supply some explicit and effective answers to these demands.

Morning Radio Programming; A Pattern for AM Stations

By SAM SLATE
Program Manager
WCBS, New York

RADIO is anything but a static business and even though WCBS has been New York's top station for a long time we've made a number of program changes the past two years.

Our first problem was to find a "different" disc jockey for the 5:00 to 6:00 P.M. time slot. He had to be different as he'd be in direct competition with Martin Block and Art Ford, two long established performers.

I interviewed talent and listened to audition discs from all parts of the United States for several weeks. Finally John Henry Faulk came to see me and I decided he was the ideal person for this time period. Faulk had an interesting background. He'd been a professor at the University of Texas, had two degrees and specialized in Americana and folk music. He had a decided Texas drawl, an ability to tell both folk and "tall tales," and a rather unusual viewpoint on everyday events.

Johnny made his debut on December 17, 1951 and has become one of the station's best liked personalities.

The next problem was our morning schedule. It was obvious there was too much talk and not enough music. It was my belief that having music by a personality, combined with news, would be proper programming. I suggested to General Manager Carl Ward that we cut Bill Leonard's "This Is New York" from 45 minutes to a half-hour. He agreed, and we put in a live musical show, that meant WCBS programming would be a half hour of talk and a half hour of music. In April, 1952, a leading singing star, song writer and entertainer made her bow on WCBS in the person of Joan Edwards, today rated the top morning show among the local network stations in the Metropolitan area.

A short time later we were ready for another change. We still felt that there was still too much talk on the morning schedule. More music was wanted and so we brought in Bob Haymes in August, 1952. Haymes was programmed for the 8:15-9:00 A.M. spot, preceding "This Is New York." At the same time WCBS acquired an additional 25 minutes in the afternoon and we promptly filled it with author-lecturer, Emily Kimbrough.

We next decided that the "Jack Sterling Show," on the air from 5:30-7:45 A.M. Monday thru Saturday, needed a "shot in the arm." In October, 1952, we added a 5 piece live musical unit, the Elliott Lawrence group, that gave the program live musical lead-ins for commercials and records, and which built the show materially.

As the WCBS morning programming shapes up today, we have one hour and fifteen minutes more music in addition to live units. Joan Edwards and Bob Haymes are stars in their own right. They write their own music and sing as well. In the afternoon we have 50 minutes more music than was on the air prior to the fall of 1951.

From a news standpoint, we have put in five minutes of news at 6:00, 6:30, 7:00, and 7:30 A.M., as well as at 5:00 P.M. In addition, our "Let's Find Out" program, a show that turns the spotlight of interest to New Yorkers every Sunday from 12:00 Noon to 12:30 P.M., has built tremendous public service.

Our "all-night show," which went on the air early this year, has increased listener interest. We were fortunate in finding a sponsor in American Airlines. Taking a look at the competition we decided to put in semi-classical music and add five minutes of news every hour on the hour, running from midnight to 5:00 A.M.

We are extremely careful about our selection of music. We are always trying to give our listeners the type of music we think they want. Our policy is to stay clear of novelty discs in the morning, play as many top ten and all time standards as possible and use the type of music that blends with Faulk's humor.

TELEVISION LIFE MAGAZINE

JANUARY 1954

After 19 years at NBC, Bill Stern made headlines by suddenly switching to ABC. The top sports commentator moved trophies, portable recorder, and Inga (secretary)—despite the year left on his NBC contract. What's more, Bill had just been wooed & won by a new sponsor. The question making the rounds was: *Why did he hand over this lucrative setup to ABC instead of NBC?* The inside story is that Bill was not happy at NBC—hadn't been for several years. He felt that he was being wasted. Furthermore, he was obliged to slant his sports news. The same Stern who'd reached the top by way of fresh, hot news—plus a resonant voice and diction that left no doubt as to *who* was on first. The taboos and pressures from within inevitably resulted in stale news items. There was also the rule of eternal praise for the Yankees, right or wrong. Stern's not anti-anything. He simply feels that there are several worthy ball clubs. As an impartial reporter who likes to do his work in his own way, Bill did the only thing possible - he opened the nearest door, and walked out. . . .

Many Projects Included In Public Service Program

By T. S. REPPLIER
President
The Advertising Council, Inc.

THE people who read Radio and Television Daily throughout the year do not need to be told about the work of The Advertising Council. Radio and Television Daily reports to them regularly and frequently the generous time, effort and energy that broadcasters, advertisers, performers and persons in all phases of advertising contribute to The Advertising Council's campaigns in the public interest.

However, it might be encouraging to all those who participate in public service campaigns at one time or another during the year to see before them, in this Annual, the impressive roster of national public service projects and events that broadcasters and advertisers assist so effectively in a 12-month period.

I think broadcasters and advertisers should feel proud of the many areas in which they work so hard and so faithfully to help solve national problems by voluntary public action. Let me list these national efforts that are helped so forcefully:

American Economic System, American Education Week, American Heart Month, American Heritage Foundation, American-Korean Foundation Drive, American Red Cross, Armed Forces Day, Arthritis & Rheumatism Drive, Better Schools, Big Brother Week, Boy Scout Week, Boys Club Week, Brotherhood Week, Canada Day, Cancer Control Month, CARE, Cerebral Palsy Drive, Child Health Day, Child Safety, Civil Defense, Community Chest.

Also Crusade For Freedom, Diabetes Week, Easter Seals Appeal, Employ The Physically Handicapped Week, Engineers Wanted. 4-H Achievement Day, Farm Safety Week, File Income Tax Returns Early, Fire Prevention, Flag Week & Flag Day, Freedom Foundation Awards Program, Girl Scouts Birthday; Girl Scout Week, Girls Club Week, Ground Observer Corps, Home Demonstration Week, Home Gardening and Food Preservation, Hospital Day, Jr. Red Cross Annual Enrollment, Letters From America Week, Mail Call, Mail Early For Xmas, March of Dimes.

Also Mental Health Week, National Blood Program, National Defense Week, National Guard Recruiting, National Hearing Week, National YMCA Week, Needlework Guild, Prevent Forest Fires, Religion In American Life, Salvation Army Xmas Appeal, Sight Saving Month, Social Security For The Self-employed, Stop Accidents, Student Nurse Recruiting, TB Xmas Seal Sale, United Defense Fund, United Nations Day, United Negro College Fund, U. S. Savings Bonds, and YWCA Week.

Also, I believe that broadcasters and advertisers should feel a sense of pride in scanning such quick statistics as the following figures that the Council pulled together at the end of 1953:

> In 1953, advertisers and broadcasters, through the Council's Radio and Television Allocation Plans alone, contributed major national coverage to 17 different top-priority campaigns and gave additional support to 39 other causes.

> The circulation contributed to these campaigns — by commercial network programs alone—was more than 5½ billion radio and television home impressions. This figure is based on Nielsen ratings. The additional circulation given by networks and stations on sustaining programs would undoubtedly double, perhaps triple this figure.

And 1954 will be bigger! Yes, the combination of broadcasters and their advertisers (who devote vast amounts of valuable time and talent to public service campaigns on the programs that they sponsor) is a powerful one, serving the nation and the community forcefully every day of the year.

Bright Future Seen For Transcription Services

By A. B. SAMBROOK

Manager

Recorded Program Services, Thesaurus and Syndicated Sales

I'M sure it's no news to anyone in the broadcasting industry that we're now going through a period of transition. Bound up as it is with the industry, RCA Thesaurus, together with every other transcription library, will be affected by the changes that come about through this transition.

What do I think this will mean to transcription libraries? I think that it can mean nothing but good. Let me explain.

Now that the freeze is off, television stations are sprouting up all over the country. It's only a question of time, then, until TV evolves from a high-priced advertising medium to a lower-priced one.

Let's take a look at the localities where this has already begun to happen. How has the competition been met? Some radio stations have invested a large part of their time in the "music and news" formula. Either they have scheduled long hours of "mood music" with participating sponsors, or they've extended their disc jockey time. Is this the answer?

On first examination, it might appear to be, but let's take a closer look; let's ask a few questions. Is the "music and news" audience unlimited? Obviously, no. It would seem likely, then, that the stations doing the best programming job for both his listeners and his advertisers will win out.

Next question: How many top disc jockeys can one town produce? As anyone in the broadcasting business knows —not many, not nearly enough.

A few more questions: With either of these two applications of the "music and news" fomula, is the best interest of the advertiser served?

Is it possible for the local advertiser to identify his product or services with really big name talent, with a show that produces proven results? Is it possible for the advertiser to merchandise his radio time? Can he tie in newspaper ads and point-of-sale displays with a spot announcement? Again, obviously, no on both counts.

Actually, then, there is really only one way for the broadcaster to give the advertiser more than ever before at very low cost and thereby beat competition. A library service — as exemplified by RCA Thesaurus—is the answer.

For an unbelieveably small investment, broadcasters can acquire the personalized services of name shows like the famous Phil Spitalny, and his All Girl Orchestra and Evelyn in the role of emcee, The Sammy Kaye Show, "The Freddie Martin Show." And this is only the beginning of what RCA Thesaurus offers its subscribers.

Promotion kits, supplied by RCA Thesaurus, give the advertiser every opportunity to fully merchandise his radio purchases; ad mats, tie-in announcements, and publicity stories for local release, give the advertiser a planned and packaged campaign.

All of this is just a part of the RCA Thesaurus' regular service. And we are continually working with the future in mind. To demonstrate: Only a few months ago RCA Thesaurus presented its new subscribers with what was practically a gift—and a very valuable gift at that—1,600 singing jingles to fill the needs of every conceivable type of local advertiser. Recently, we announced the signing of June Valli as a new RCA Thesaurus artist. By the time this is published we will have announced the acquisition of the Melachrino Strings. Melachrino is being presented by us in a show entitled "The Melachrino Musicale." This program is of a calibre that would have been available only on a high-priced network show a few years ago. And in the months to come, RCA Thesaurus will announce even more exciting news about new shows, new big name artists, new sales tools, new promotions that will give the local advertiser even more than ever before for his advertising dollar.

An Independent View Of TV Film Syndication

By EDWARD D. MADDEN

V. P. and General Manager, Film Syndication
Motion Pictures for Television

USUALLY, the spokesman for film syndication in a piece like this is the head of a film syndication operation allied with a television network. In such cases the gentleman in question is always conscious of his network affiliation and cannot speak with real freedom about film syndication. Speaking for a leading independent in the film syndication field I have no such inhibitions.

Let's start with the fact that the quality of film syndication shows is being upgraded to the point where in story, cast and production value, they are in many cases the equal of, and in some cases superior to, the network film shows. If this starts anyone on a rebuttal line, let him first carefully examine the rating records of film syndication shows vs. film and live network shows market by market. He will be in for some distinct surprises. In many areas, including the biggest television population markets, film syndication shows, in what might be termed "fringe" time are achieving ratings equal to, and in some cases superior to, network film and live shows. Some of these ratings are so good that you will find cases in individual markets where the station has opened up really prime evening time for film syndication shows.

In addition to the overall quality of the syndicated film show noted above there is an important plus in terms of the attitude of the regional and national spot sponsor and his approach to the local-level merchandising, publicity and sales promotion support of his show. Despite the quantity of able manpower in the publicity operation of any network, they cannot hope to equal the performance of a team composed of a regional advertiser, his agency, and the film syndicator.

Today there is an increasing trend on the part of network advertisers to turn to national spot placement of their television dollars through the avenue of film syndication. This is not only due to the "must buy" market policy of the networks and its impact on total advertising appropriations, but is also brought about by the much greater flexibility given to the advertiser in putting his television advertising pressure where he needs it most and where it can be most productive for him.

The swing over to color film has been progressing steadily in the film syndication field. The tremendous importance of the impact color will make on the consumer has alerted the advertisers and agencies to prepare for the beginning of a new cycle. There are many practical applications to merchandising and selling at retail to be considered for the color TV audiences of the near-future. Color advertising will make any and every commercial attractive. The great increase in self-service retail stores in almost every product classification makes brand identification outstandingly important.

The networks have done a fine job in promoting the importance of color, even though there has been some criticism in certain quarters that they have not been as attentive as they might be to the proper means of projecting color film. I think this is an unfair criticism because, to my knowledge, they are all experimenting with proper projection techniques for color film and I believe, are just as anxious to lick this problem as anyone in the film syndication field. The real engineering pros in the business will tell you that any color film that projects well on direct viewing will come through satisfactorily on the television system and that it's only a matter of time until they have the projection problem thoroughly in hand. For our part, we are so convinced of this that we are in production in color with "Duffy's Tavern" and "Junior Science." We will shift to color on "Janet Dean, Registered Nurse" this year and produce "Paris Precinct" in color, starting May first. So when color TV homes are available in quantity during the fall of 1955, our clients will be there first.

Musical Commercials Gain Stature As Sales Technique

By PHIL DAVIS
President
Phil Davis Musical Enterprises, Inc.

THE penetration of the musical commercial — on the buying habits of the American public — is one of the phenomena of advertising. Once the hybrid of broadcasting and the butt of critics' jibes, it's emerged not only as an important medium of the advertising world, but also as big business.

Gone are the days when every mother's son from Brooklyn to Boise fancied himself a copy man and a musician, forcing sales lyrics to music and music to sales lyrics. Gone, too, is the monotonous ransacking of public domain tunes — on all levels: local, regional, and national — that dissipated all sponsor identification in the deluge of product confusion and triteness of music.

It would be a blatant over-statement to contend that the era of such irritating musical commercials is over. But the outlook for 1954 is most promising, and more promising as one views the widening horizon of the television picture. For television — more than any other mass medium — is establishing a national standard of quality that invites comparison. It is the only selling medium that impinges both on the eyes and the ears of the public, making a two-fold impact.

It's an impact that is also intimate, going into the hearts of homes in their most relaxed moments when faculties — free of outside influence — are most critical. This intimacy of impact psychologically establishes every viewer as supreme arbiter of the good, the bad, and the mediocre entertainment, commercial or otherwise. If a viewer sees and hears an excellent musical commercial for a national beer, let us say, that is entertaining, in good taste, and featuring talent, musically and vocally, equal to the best popular recordings, he — consciously or unconsciously — associates the quality of the television commercial with the quality of the product.

On the other hand, if — later in the evening — he sees a television commercial for a local or regional beer that is inferior to the television commercial of the national beer, he again — by the same psychological process — associates the inferior quality of the television commercial with the product, though it may not be necessarily true.

This is one of the factors that accounts, in part, for the national growth of the musical commercial as a standard advertising technique.

Today, advertising agencies, servicing local and regional clients, demand and buy — on the whole — the same high quality radio and television musical commercials for local and regional advertisers as those usually purchased for the national advertiser.

But probably the main factor responsible for the expansion and growing prestige of the musical commercial field is the men who have made it a business that commands the respect of sponsors and advertising agencies, many of whom have established musical commercial departments, though these agencies, too, frequently call in outside firms, as ours, for example, on particular assignments.

Recognizing the highly specialized talents that go into the creation of effective musical commercials, agencies and sponsors also know that it is neither accident nor chance that dictates the effectiveness of a musical commercial; but the blood, sweat, tears, and often sleepless nights of men trained in advertising, public psychology, meter, and music.

It's this training that's behind the new direction sales technique of the musical commercial's foremost practitioners. It's a technique that utilizes and embraces, in originating musical commercials, not only sales impact of performance and sales impression created; but also the highly important bonus impression that accrues to a sponsor every time someone whistles, hums, or sings the melody of the musical commercial thereafter.

NICHOLAS J. GILIO

Gilio Publications

39 PARK AVENUE, RUTHERFORD, N. J.

www.americanradiohistory.com

1914 1954

The American Society of Composers, Authors and Publishers will be forty years old in 1954. During these forty years many important changes have taken place in the entertainment world.

America's listening audience has increased by the millions with the growth of new media—such as sound pictures, radio, television and juke boxes. And the one ingredient in the field of entertainment which has survived all technological changes—not only survived, but has increased and expanded—is Music! It has remained a basic requirement for all phases of show business. For a good song always is good entertainment!

ASCAP—entering its forty-first year—is justly proud of the repertory of its more than 3,000 songwriters and composers. ASCAP also is proud of its many years of service to its licensees, and pledges itself to a continuation of making available to the entertainment world the best in music.

AMERICAN SOCIETY OF COMPOSERS, AUTHORS AND PUBLISHERS

575 MADISON AVENUE, NEW YORK 22, N.Y.

www.americanradiohistory.com

A. S. C. A. P.

By STANLEY ADAMS
President

☆

USERS of copyrighted musical works in public performance for profit are required under the United States Copyright Law to first clear performing rights of such works with the copyright owner. Because of the vast use of these musical works in radio and television, copyright clearance is one of the major responsibilities of the operators of franchises in these fields.

Performing rights societies exist throughout the world for the purpose of expediting these copyright clearances. Notable among such groups is the American Society of Composers, Authors and Publishers—familiarly known, wherever radio and television are known, as ASCAP. In the great reservoir of the ASCAP repertory are musical works of every conceivable sort in great number, covering two generations of composers and authors and their publishers. With the simple machinery of a blanket agreement between ASCAP and the user, hundreds of thousands of performing rights become instantly available, at a cost to the user that reflects the Society's high operational efficiency. It spends some three million dollars yearly to make its repertory readily available, absorbing in great part the music clearance costs that otherwise would be borne by the users.

ASCAP now enters its 41st year of service to its members and its licensees, wtih membership approaching the 3,500 mark, and a repertory to meet every possible need of its patrons. ASCAP is proud of its contributions to the incredible growths of both radio and television. As its president, I am happy to speak for all our members in pledging continued and greater effort to make available to radio and television, as well as to the entire entertainment world, a repertory of ever-increasing usefulness.

ASCAP maintains headquarters at 575 Madison Ave., New York City, with 25 branches throughout the country. Officers as of Jan. 1, 1954, are:

Stanley Adams ..... *President*
Louis Bernstein ..... *Vice President*
John Tasker Howard ..... *Secretary*
George W. Meyer ..... *Asst. Secretary*
Saul H. Bourne ..... *Treasurer*
Frank H. Connor ..... *Asst. Treasurer*

The Board of Directors comprises 12 writer- and 12 publisher-members, elected biennially, the writers by writer-members, the publishers by publisher-members, for two-year terms.

ASSOCIATED MUSIC PUBLISHERS, INC.

By CHARLES A. WALL
President and Treasurer

☆

Associated Music Publishers, Inc. is one of the foremost publishers of serious music in the United States. It has an extensive catalog of orchestra, instrumental, chamber, and choral music. In addition, it represents exclusively in the United States many of the principal serious music catalogs of Europe, such as Breitkopf & Haertel, N. Simrock, B. Schott's Soehne, of Germany; Universal Edition and Ludwig Doblinger of Austria; Schott & Co., Ltd. of England; Editions Max Eschig and Enoch & Cie of France; Songs of Spain, Spain; Suvini Zerboni and Casa Musicale Sonzogno of Italy.

•

AMP also is sole selling agent for BMI and BMI Canada, Ltd. publications. The AMP Board of Directors is as follows:

Sydney M. Kaye, Chairman of the AMP Board and Vice President, BMI; Carl Haverlin, President of BMI; William S. Hedges, Vice President of National Broadcasting Company; Paul W. Morency, WTIC Hartford; J. Harold Ryan, Storer Broadcasting Co.; Charles A. Wall, President AMP and Vice President in Charge of Finance and Treasurer, BMI.

AMP Officers: Charles A. Wall, President and Treasurer; Karl Bauer, Vice President; Richard F. French, Vice President; Robert J. Burton, Secretary.

BROADCAST MUSIC, INC.

By CARL HAVERLIN

President

IN 1953, as in each of the previous 14 years of its active corporate existence, Broadcast Music, Inc., continued to increase its repertoire of performing rights and to develop further its many services to all licensees.

During the past year, authors, composers and publishers affiliated with BMI made significant contributions to all fields of American music. BMI licensed material has continued to appear among the most performed music on radio and TV. Extensive juke box use of BMI music is indicated by the fact that for the fourth consecutive year BMI songs not only took top awards in all categories of the *Cash Box* magazine pole but scored 50 out of 76 positions. Last year 15 BMI licensed or published songs appeared on "Your Hit Parade," holding 131 out of a possible 364 positions.

BMI also made gains in its non-radio licensing activities, concluding agreements with members of the National Ballroom Operators Association and issuing contracts to cover motion picture intermission music.

Another valuable aspect of BMI service has been the BMI Program Clinics, held throughout the United States and Canada. These clinics were initiated in 1951, and the 137 clinics presented in three years have drawn a total attendance of nearly 12,000. (Current year, 1954, not included.)

During 1953 we devoted further effort to develop an awareness of contemporary foreign composers and their music as well as that of American composers. The first major concert of all-Canadian music ever to be held in the United States was sponsored by BMI, conducted by Leopold Stokowski at Carnegie Hall. BMI's subsidiary, Associated Music Publishers, Inc., while maintaining its position as an outstanding representative of major European music catalogues, increased its output of leading American contemporary music. Through our agreements with European performing rights societies, other outstanding works by foreign composers and publishers have been popularized in the United States by many BMI affiliated publishers.

During 1954 we at BMI will continue our efforts, through energetic competition, promotion and service, on behalf of music of all types—popular and concert. For in only that way can anyone aid in the growth of all musical creativity in the United States.

OFFICERS OF BMI: Carl Haverlin, President; Sydney M. Kaye, Vice-president and General Counsel; Robert J. Burton, Vice-president in charge of Publisher and Writers Relations, Secretary; Charles A. Wall, Vice-president in charge of Finance; Roy Harlow, Vice-president in charge of Station Service; Glenn Dolberg, Vice-president in charge of Station Relations; Jean Geiringer, Vice-president, Foreign Relations; Harry P. Somerville, Vice-president, Non-Radio Licensing; Robert Sour, Assistant Vice-president, Publisher Relations.

DIRECTORS: (elected annually): Sydney M. Kaye, Chairman; Herbert V. Akerberg, CBS; John Elmer, WCBM; Jos. E. Baudino, Westinghouse Radio Stations, Inc., Carl Haverlin BMI; William S. Hedges, NBC; Herbert Hollister, KBOL; Leonard Kapner, WCAE; Paul W. Morency, WTIC; Ernest Lee Jahncke, Jr., ABC-PT; J. Leonard Reinsch, WSB; J. Harold Ryan, Storer Broadcasting Co., and James E. Wallen, MBS.

SESAC, INC.

By PAUL HEINECKE

President

☆

IN this, SESAC's 23rd year as the second oldest performance rights organization in the United States, I would like to tell you about its prowess and growth, not only as a firm offering a vast repertory of copyrighted musical and dramatic-musical works which are found on thousands of phonograph records, electrical transcriptions, transcribed programs and live shows, and as the producer of the top-flight SESAC Transcribed Library now in its 10th year, but also as an organization dedicated to serving the entire entertainment industry particularly fulfilling the program needs of radio and television broadcasters everywhere.

During the year, SESAC representatives, as in the past, attended and participated in State Broadcasters Meetings, NARTB District Meetings and the national convention of both the NARTB, the AWRT, and the CARTB. Further, the successfully inaugurated SESAC Speakers Bureau offered the services and talents of SESAC representatives. They have also participated as guest speakers at schools, colleges and State Broadcasters Meetings, and are continuing to do so.

A number of our new publisher affiliates have come to SESAC from other performance right licensing organizations. The repertory keeps growing; thousands of new copyrights add up to millions of additional performances for SESAC. That's why more AM, FM and TV stations call for SESAC music—the answer to the demand for the best music in America.

Supplementing and co-ordinating the efforts of the SESAC family of publishers, representatives, producers, salesmen and musicologists, is the monthly bulletin, SESAC MUSIC. During the thirteen years of our bulletin's existence, SESAC's Promotion and Editorial staffs have brought to the broadcasting industry, as well as to the producers of phonograph records, motion pictures, transcribed programs, and television shows, "program helps" and information concerning SESAC's 263 publishers' catalogs and their new works.

News of radio and television stations, and articles of interest and value written expressly for SESAC MUSIC by members of your own radio and television stations, are all included in the bulletin. I am delighted that SESAC MUSIC has an extensive and growing circulation, for just as SESAC music is heard wherever music of lasting value is played, so SESAC MUSIC is read wherever people are doing a top-notch job throughout the entertainment industry, public service organizations, educational and government institutions.

For me it is an honor and a privilege to work hand in hand with you, the leaders, in developing a vital segment of our national culture.

Dual Operator Evaluates Impact of Television

By EDWARD LAMB
President
Edward Lamb Enterprises, Inc.

WE no longer talk about the future of television as "tremendous" or even "fantastic." We realize clearly enough that the video industry has now become almost national in scope and in the foreseeable future it may become globe encircling.

Although we accept the sound-sight medium as a part of our daily living pattern, we must not lose sight of certain elementary truths. Its use in politics, in education and in entertainment will increase and become much more effective.

For half a dozen years video has proven that it is the world's ideal way to demonstrate merchandise under almost perfect conditions before a mass audience At the outset we learned to our surprise that regardless of the hour of the day or night we have a certain number of viewers in attendance. Now, through the test of trial and error, we have found certain times during the broadcast day much more suitable than others for the sale of certain products.

But as the number of stations and the broadcast hours increase, our viewing friends have become much more selective. I don't say that the largest number of viewers will turn to the best programs Folks may not turn from a variety show to an opera, and they don't dial a worthwhile educational program in preference to watching the antics of an alleged comedian.

None of us are soothsayers and none there are who can outline the course of future commercial trends. As broadcasters we must, of course, perfect our own product. We can adopt efficiency, economy and good business practices.

There are many signs abroad of slackening retail activities. And yet, as many businesses become more competitive, there are reasons to believe that advertising media, at least those elements which are built solidly, may survive and even prosper.

We'd kid ourselves not to admit that there are going to be a lot of casualties among the TV broadcasters. Even now we see more frequently the "For Sale" signs appearing in the broker's portfolios. And the marginal operators will be counted among the dead ducks irrespective of the part of the broadcast spectrum they occupy.

We're trying in our operations to improve programming to the extent that each operation is much more closely wed to every phase of community life. We believe that additional competitors will be a good thing for us—if we have sense enough to broaden our base and make our media a more essential part of local affairs.

Again, we're trying to get and stay in sound financial condition. We're pouring every available dollar into improvement of property and personnel. Being too deeply in hock to the banks, or equipment suppliers, just as being over-staffed with needless labor, pointed the road to disaster when the last depression started

Of course, the ownership of the second, the third or even the tenth radio or TV operation diversifies and strengthens each. Every businessman is conscious of the savings derived from multiple operation. There are some activities we can handle from a central office, like relationships with the networks and placement of advertising. Other experiments, like billing from the central office, just haven't turned out successfully.

As long as we keep a station keyed to local needs, and under aggressive leadership, we can see that each is a training ground providing expanded opportuninty for each employee.

Have you seen and tried the newest PRESTO EQUIPMENT?

Here is a sampling of the complete Presto line of precision disc and tape recording and reproducing equipment specifically designed for ease of operation and professional results.

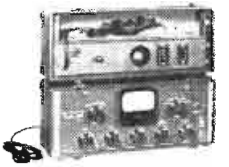
PRESTO PRECISION-ENGINEERED "UNITIZED" TAPE RECORDER RC-11

Presto's revolutionary RC-11 has self-contained capstan drive with dual-speed motor plus two torque motors. Tape speed of 7½" and 15" per sec with complete push-button operation. Takes reels up to 10½".

PRESTO RELIABLE LONG-PLAYING TAPE REPRODUCER PB-17

Automatically reversible for continuous playback of background music. Frequency response uniform from 50 – 8,000 cps (± 2 db.) Tape speed 3¾" per sec. Reels up to 14" dia. (4,800' of tape) with dual track. Mechanism will re-cycle or stop after 8-hours of play.

PRESTO PRECISION FIELD TAPE AMPLIFIER 900 A-3



High quality amplifier to match Presto's RC-7 and RC-11 tape recorders. Separate power supply eliminates noise. Three microphone input, low distortion. 900-A-1 amplifier identical except for single input transformer.

PRESTO 92-B RECORDING AMPLIFIER FOR VERTICAL RACK MOUNTING

Has low internal output impedance and high degree of feed-back and its response is virtually unaffected by changes in load. Holds distortion to minimum. 60-watt output ample for transient peaks. Push-button selector for recording characteristics.

PRESTO 16" TRANSCRIPTION TURNTABLE 10-B FOR RADIO STATIONS AND RECORDING STUDIOS

An improvement on the long popular model 10-A. Operates at 33⅓, 78 rpm and 45 rpm. With its 3-speed mechanism, the Presto 10-B is an extremely accurate rim-driven table. Available as chassis only or in console cabinet.

PRESTO PORTABLE, HIGHLY ACCURATE PROFESSIONAL-TYPE RECORDER 6-N

A fine, high-quality recorder for portable or stationary operation. Especially designed for professional use. Presto 1-D cutting head supplied. Precision overhead mechanism including spiraling feedscrew. May be equipped for microgroove recording at extra cost.

THOSE WHO KNOW FAMOUS BRANDS....

Says WLEU'S General Manager Philip B. Hirsch at Erie, Pa.: "Since banks make their mark on dependability and prestige, what's more natural for them than a program of **Associated Press** news?"

....KNOW THE MOST FAMOUS BRAND IN NEWS IS AP

COMMERCIAL AM PROGRAMS OF 1953

(NETWORK)

The following pages contain a complete alphabetical listing of program titles of the four national networks' commercial programs heard during the 12-month period ending Dec. 31, 1953. Listing includes program title, sponsor and product, network and the advertising agency handling the account. Compilation has been made through the cooperation of ABC, CBS, MBS, and NBC. Programs are all of 13-week duration or longer.

COMMERCIAL TV PROGRAMS—1953

(Network)

The following pages contain an alphabetical listing by program title of the four national television networks' commercial programs during 1953. The programs listed are for the 12-month period ending Dec. 31, 1953. Listing includes program title, sponsor and product, network and the advertising agency handling the account. Programs are all of 13-week duration or longer. Compilation has been made through the cooperation of ABC, CBS, DuMont and NBC.

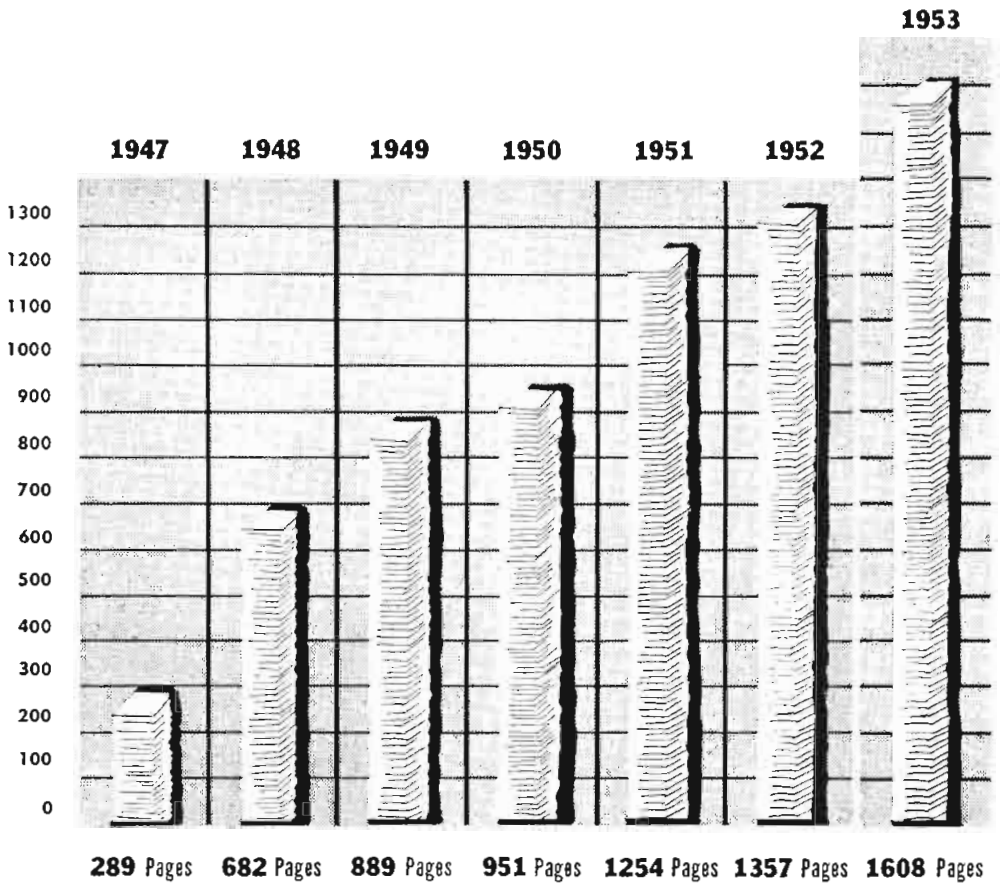
BUILDING!



SPONSOR ***The magazine radio and tv advertisers use***

SPONSOR builds on a solid basis. Our policy: turn out useful issues and the advertising will follow. This common-sense approach to tv and radio trade paper publishing has appealed to station advertisers increasingly since our first issue in November 1946. Our promise for 1954: new, improved use departments, more use articles for buyers of radio and television.

6 Major Reasons

Why Advertising in The ADVERTISER Magazine . . . and, MARKETS of AMERICA

BRINGS TOP RADIO and TV TIME SALES

UNPARALLELED MARKET ATTENTION . . .

Profit by exclusive, practical experience articles . . . creating unequalled readership. Written by the nation's top advertising executives . . . they serve the people YOU want to SELL!

BASIC EDITORIAL FORMULA . . .

Our unique treatment of *basic* advertising techniques, on an *industry-by-industry* basis, guarantees *buying power attention* to your advertisement.

WE BLANKET ALL BUYERS OF TIME . . .

Both The ADVERTISER Magazine . . . and, MARKETS of AMERICA offer a select audience comprised in the main of Radio and TV Time Buyers, Account Executives, plus National and Regional Advertisers! Our more than 15,000 circulation offers you ALL of YOUR *buying* prospects.

CONTINUITY PAYS OFF . . .

Radio and Television stations with us for 3 to 24 years have found both our monthly, The ADVERTISER Magazine . . . and our annual, MARKETS of AMERICA outpulling *all* other publications . . . at lower cost.

LOW SPACE RATES . . .

Priced right to win and hold your schedule year in and year out . . . gaining incomparable results for your ad dollar at lowest "per prospect" cost. Page rate $390 . . . scaled down to $320 on a 13-time contract.

MORE READER IMPACT . . .

The ADVERTISER Magazine . . . and, MARKETS of AMERICA have the added reader impact you ***need*** for your time sales promotion story. Join the scores of Radio and Television Stations who continually *profit* by selling in The ADVERTISER Magazine and in MARKETS of AMERICA.

Radio-Television Daily's Almanac

of

Holidays and Special Events

1954

January

1: New Year's Day (In all States, Territories, District of Columbia and Possessions).
Paul Revere born (1735).
Emancipation Proclamation (1863).
Blue Network organized (1927).
2: Georgia admitted (1778).
3: Battle of Princeton (1777).
William S. Paley is elected president of CBS (1929).
4: Utah admitted (1896).
5: Stephen Decatur born (1779).
George Washington Carver Died (1943).
Week of Prayer, first week in January.
6: Carl Sandburg born (1878).
New Mexico admitted (1912).
7: Millard Fillmore, 13th President born (1800).
Electronic system for television, including a dissector tube to scan the image for transmission patented by Philo Taylor Farnsworth (1927).
8. Anniversary of the Battle of New Orleans (Louisiana).
9: Connecticut ratified the U. S. Constitution (1778).
Connecticut admitted (1788).
10: Ethan Allen born (1737).
11: Alexander Hamilton born (1757).
12: John Singer Sargent born (1856).
13: Salmon Portland Chase born (1808).
14: First Written Constitution adopted at Hartford, Conn. (1639).
15: Mathew B. Brady died (1896).
17: Benjamin Franklin born (1706).

No Puzzler for TV FILM USERS and DISTRIBUTORS

Whether you're an advertising agency, film producer or distributor, station or network, handling 16mm or 35mm film, don't be puzzled when these and similar questions arise: *Will the film be shipped on time? Are the commercials spliced in properly? Where can we store surplus film? Where can we consign returned film? Who will examine and repair damages? Who will remove out-dated commercials?*

Call Bonded, the world's largest film service organization servicing and shipping over 5,000,000 reels of film yearly for the film and television industries.

Bonded's Television Film Service Division is organized to handle as many film service operations as you require—storage, inspection, shipping, splicing, keeping records and preparing reports and data on all your film—at a nominal fee.

You'll find that Bonded offers the largest film service facilities available anywhere—from storage through screening:

FILM STORAGE—six huge, centrally located warehouses equipped with the latest and best means of protecting film.

PHYSICAL DISTRIBUTION & HANDLING—thoroughly experienced personnel to insure maximum efficiency for both 16mm and 35mm film.

SCREENING—Bonded's *Film Center Theatre* available for day and night 16mm and 35mm screenings.

For additional information, call JUdson 6-1030.
