Principal Short Wave Stations of the World

Classified according to continents and arranged alphabetically by countries. Frequencies are given in kilocycles which may be converted into megacycles by placing a decimal point three places to the left; for example 7170 kilocycles is 7.170 megacycles. The type of program is indicated by the symbol at the beginning of the second line in each listing: P—Commercial phone; B—Broadcast; X—Experimental. The symbol (*) in the column headed "Dial" indicates stations broadcasting fairly regularly and those most likely to be tuned in satisfactorily.

You'll be surprised when you see
and hear this radio wonder. Re-
ceives standard, police, amateur,
aviation broadcasts. Beautiful
cabinet. Come in!

WHATEVER HAPPENS...
You're *There* with a **~~CROSLEY~~**
