

THE SPEEDX AWARDS

It's time for another update and I can tell that Winter is on its way. More of you are starting to stay indoors and catch some of that great DX. Next update I will be announcing two more new awards: the Commercial Air and RTTY awards. Don't worry, I have more to announce at a later date. Congrats to the following for receiving new awards or upgrades:

Asian:	Bruce Robinson - 50 Steve Bagozzi - 25	Richard Hankison - 50
Americas:	Bruce Robinson - 25	Richard Hankison - 50
VOA:	Richard Hankison - 10	
Journeyer:	Bruce Robinson	
360:	Richard Hankison - 100 George Neff - 100	Exuperio Zamora - 50
European:	Bruce Robinson - 25	
Middle East:	Steven Willers - 10	
Orient:	Steven Willers - 10 Richard Hankison - 20	Betsy Robinson - 5

For a copy of the Awards Pamphlet, drop me a note along with a check made out to me for US\$2.00 or 4 IRC's. Initial awards are \$1.00 and upgrade stickers are available for an SASE. Till the next time, good DX!!

Harold

NOVEMBER 1992

GREETINGS FROM WHEELING

Here in Chicagoland, the temperature has dipped below freezing a few times, I'm up to my ankles in leaves, and I'm driving home in the dark. That must mean it's DX season again!

I wish I could regale you with stories of my fantastic catches on the bands, but between a wicked electrical storm and homecoming week at the high school, I haven't listened much lately. Now it's late Sunday night and I've gotta put this all together in one evening and

send it off to Eddie before tomorrow afternoon. But that's okay, because I fully intend to hear Radio St. Helena on Friday for my logging of the year. I wish all of you luck as you go hunting for it along with every other DXer on several continents! I hope to see all of your names in Paul Wakefield's Africa column next time!

Lots of fun news this time from all over, so let's get on with it . . .

WEWN TO HIT THE AIRWAVES BY YEAR'S END

from the Monitoring Times Convention via Mike Schulsinger

As an adjunct to its successful nationwide cable TV ministry, the Eternal Word Television Network now prepares to reach the most remote corners of the world via shortwave radio. EWTN, broadcasting 24 hours a day, reaches some 30 million homes on 960 cable systems. This latest venture expands this already miraculous achievement into a worldwide radio service called WEWN. "My dream and desire is to feed the people of God by being a vehicle of evangelization for the Church," says Mother M. Angelica, chairman of EWTN and WEWN.

WEWN launches December 28, 1992, providing the same spiritual growth, Catholic-oriented programming so popular on EWTN, and will transmit programs in over 20 languages. "We will begin with a partial broadcast schedule, and by March 1993, we will be at a full broadcast schedule of 21 hours a day," says Matt Scalici, Vice President of Engineering.

The programming is broadcast from a site about 15 miles from Birmingham, Alabama using four Continental Electronics 500 kW transmitters. WEWN signals target North America, South America, East and West Europe, Africa and Australia. Programming

includes, but is not limited to, Scripture readings, traditional prayers, The Rosary, and devotionals. The North America programming will also feature popular series and specials seen on EWTN. WEWN's programs are produced in Rome, Italy and at EWTN's corporate headquarters in Birmingham.

Besides this press release, Mike sent along WEWN's slick looking frequency schedule for 12/28/92 to 3/28/93. It shows broadcasts in English, Spanish, Portuguese, Arabic, French, Mandarin, Russian, Czech, Slovak, Byelorussian, Croatian, Serbian, Albanian, German, Dutch, Polish, Romanian, Ukrainian, Bulgarian, Lithuanian and Hungarian. There will be four separate programs broadcast simultaneously from 1300-1000 UTC. Watch for English to North America from 0000-0600 and 0700-0800 on 7540 kHz, 0800-1000 and 1300-1600 on 9870 kHz, and 1700-2300 on 13615 kHz. They also have some out of band frequencies such as 9350, 9985 and 5825 kHz in the works as well as 18930 kHz in the new 19 MHz band.

It seems to me that this will greatly enhance the Vatican's radio presence in the Americas as well as Asia. Best of luck to them in their new endeavors!

With news from all over, it's the DXperience!

THE 1993 PASSPORT TO WORLD BAND RADIO

I recently decided to buy a copy of the Passport to World Band Radio, or PWBR. Having been a devout WRTH reader for years, I thought I would take a look at the competition. I was quite pleased with what I found!

The New York Times calls the PWBR a "TV Guide for world band radios." This is an accurate description. While the WRTH is an indispensable reference listing every station and every frequency in the entire world, the PWBR highlights in greater detail the programming it is possible to receive on shortwave. This is great for the novice, but there is also plenty of interest to the seasoned vet.

The book begins with its picks for the top ten shows on the bands beginning with Radio Moscow's "Folk Box." It then goes into detail on the twenty or so easiest stations to find on the bands from all over. Equipment reviews highlight the Philips DC777 shortwave car radio and world time clocks as well as over 60 portable and tabletop receivers. The reviews are more complete than the WRTH and include those listed as "Editor's Choice" in each price range—sort of a Consumer's Reports guide to world band radios.

In the actual station info section, there is an hour-by-hour guide to the most interesting programs with descriptions, times and frequencies. Then there is a listing of English broadcasts as well as "Voices from Home," which details transmissions in a country's native tongue aimed at compatriots abroad.

The "Addresses PLUS" sections goes beyond the WRTH's "V by QSL. Rp." by listing several addresses, contact people, idiosyncracies and free stuff from each station.

"The Blue Pages" are a unique way to ID signals heard on the bands. For each frequency, a horizontal bar graph is given showing each station on a time chart. For example, there are 11 stations on 6085 kHz. This much can be determined from the WRTH. However, the PWBR allows you to determine which station is broadcasting when, in what language, with how much power and to what region. Therefore, you can tell that if you hear German at 0500, it's most likely DW via Canada, but if you wait until an hour later, you might catch Bayerischer Rundfunk. This format is great for exploring the bands one channel at a time. Like the WRTH, there are many CIS transmitter sites listed, but how long these will be current is anyone's guess.

Now you might ask, will I still buy a WRTH? Yes, because its country-by-country listing is much more comprehensive, providing complete schedules from the tinnest Vietnamese regional to the megapowers. The PWBR is more slickly produced with many full color pages, but the two actually act as complementary volumes, both containing useful but different information. If you have an extra \$16.95 lying around, I suggest you get the PWBR now and save your pennies for the 1993 WRTH which we should see in January. You'll be glad to own them both!

KOKU - 100.3 FM - NO. 1 IN GUAM

from Billboard Magazine, 10/10/92 via Peggy Thompson

"Jammin' three islands, 19 villages, five bases, and a few brothers in Saipan, this is Hit Radio 100!" If you hear this ID, you must be listening to KOKU, the number one station for over eight years in Agana, Guam. At first, it sounds similar to its mainland counterparts, giving away concert tickets and cash and promoting in-office listening with its top 40 format and syndicated countdown shows. However, they are broadcasting from the extreme Western Pacific in a time zone 15 hours ahead of New York. This means not having to deal with Arbitron or record reps, but it also means getting very little service from record labels and extra hassles working

with stateside suppliers.

KOKU's 2.5 kw transmitter and 190-foot mountaintop antenna tower broadcast the signal from the capital of Agana (pop. 180) to a potential audience of 130,000 Korean, Filipino, Micronesian, Salanesian and American listeners. While their programming is in English, they include some local music in the native language of Chamorro and attempt to support the island artists as much as possible. KOKU was also involved in relief efforts after Typhoon Omar. Future plans include building another station in Saipan in the coming year to increase coverage.

Thanks for the article, Peggy!

THE D XPERIENCE

ALL NAVAJO RADIO - KNND 960 AM

from the Chicago Tribune, 9/29/92

"This just in: Dorothy Benally of Beclabito needs a reliable shepherd. He must be willing to take the flock up into the mountains for at least two months." If you hear this announcement, you must be tuned into KNND, Farmington, New Mexico, the only Navajo station in the U.S. Their 5 kw signal reaches 85% of the 160,000 residents of the reservation. They broadcast a mix of C&W, squaw dance chants and the occasional Phil Collins tune. Among the music is news, gossip, and the free message board where Navajos can communicate information about meetings, funerals and want ads. For these people, KNND is a conduit to the outside world, bringing word of crisis and calamity—just as soon as an announcer can translate a news bulletin into their native language.

The station is managed by founder Jim Gober, an Anglo who developed the format in 1977. The only phrase he can speak in Navajo is "I don't speak the People's language," a tongue that is so difficult to master that it was

used to code messages in WWII and was never cracked by the Japanese. Many technological terms don't exist in Navajo, so radio becomes "air that speaks" and pickup truck is "metal with a tail."

All of KNND's DJs are natives, and they provide a very important service to a region where only 10 percent of homes have telephones and there is no home postal delivery. "Dine Speak" is a daily program that allows the workers at Navajo Tractor to speak their minds via a remote hookup, and much of the music played includes native chants. Listenership is highest among older Navajos, many of whom are uncomfortable speaking English. Many tune in religiously each day and stop by the studios when they come to town.

This must be fascinating to listen to! In a time when most American radio is programmed by someone in a high rise office far from the actual audience, it's nice to see a station that means so much to its listeners.

NEW PRODUCT FROM GROVE

direct

The October/November catalog from Grove Enterprises includes not only the new SW-100 tabletop receiver but also the Grove SDU-100 Spectrum Display Unit. Plug this into any receiver with an IF output jack and you can "locate jammers, identify sources of radio interference, study signal propagation, test antennas, align receivers and transmitters and much more!"

Connect the SDU-100 to any TTL monochrome monitor (or order their VID-100)

and you will see the receiver's tuned signal in the center of the screen with 100 kHz to 10 MHz of the spectrum displayed graphically.

Now, if you understand this or are interested in its applications, you are well beyond me. Anyway, you can contact Grove at (800) 438-8155 for more info or a catalog. They plan to have the SDU-100 ready in December, but you can reserve one now for a mere \$499.50.

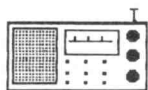

NOVEMBER HOLIDAYS

from Federal Express via Donald Weber

Algeria - Anniversary of the Revolution, 1
Angola - Independence Day, 11
Bangladesh - National Solidarity Day, 7
Brazil - Proclamation of the Rep, 15
Canada - Remembrance Day, 11
Chad - Proclamation of the Rep, 28
El Salvador - 1st Cry of Independence, 5
Ivory Coast - Peace Day, 15
Jordan - H.M. King Hussein's Bday, 14
Latvia - Independence Day, 18
Lithuania - Natl Day of Hope & Mourning, 1

Mali - Liberation Day, 19
Mauritania - Independence Day, 28
Mexico - Mexican Revolution, 20
Morocco - Independence Day, 18
Poland - Independence Day, 11
Taiwan - Dr. Sun Yat Sen's Bday, 12
Vatican City - John Paul II Name Day, 4

Oops Department: Sorry about missing last month's holidays! My early deadline came the same day I received Donald's fax, so it didn't

Page Four

OOPS DEPT. CONTINUED

make it into the column. Also, thanks to John Corthorn who caught my listing mislabeled "August Holidays" in the September edition. I guess I find it hard to think a month ahead. I'm typing this on October 18, and November seems quite far off!

THE 1978 TRIVIA CONTEST RESULTS

Thanks for all your entries on the last contest! Since I ran it twice because of slow mail service, we actually have two winners—one from the September issue and one from October:

BRUCE ROBINSON
West Jordan, Utah

M. FRANCES MERRIFIELD
North Collins, New York

My favorite entry actually came from someone who is ineligible due to the fact that he's on staff, our own Don Weber who sent xeroxes of late-70s QSLs for several of the answers. Thanks!

Anyway, here are the answers:

- 1) Clayton Howard was the host of HCJB's "DX Partyline."
- 2) R Nac de España was relayed via the Canary Islands.
- 3) The Central African Republic was known as the C.A. Empire.
- 4) Grønlands Radio, Greenland used the ID "Kallaallit-Nunaata Radioa."
- 5) KGEI, WINB, and WYFR were the three independent US stations.
- 6) R Grenada broadcasted on 15105 kHz.

Again, congrats to Bruce and Frances who will receive a nice batch of station stickers donated by several SPEEDXers, including Bob Fraser.

ANOTHER DXPERIENCE CONTEST

This month I have selected questions from a more recent source, the 1987 WRTH. The first person in with the correct responses will win an as yet unnamed prize, worth thousands of lira. Here we go:

- 1) What present-day Middle Eastern country was still split into two separate nations?
- 2) What Caribbean Island nation was home to a major relay station that is no longer on shortwave?
- 3) Name two European countries that had stations in 1987 that can no longer be heard today.
- 4) What feature of interval signal identification used in the WRTH is no longer present?
- 5) Give the 1987 names of the following stations: R Romania Int, Channel Africa, R Iraq Int, Golos Rossii and R Czechoslovakia.
- 6) What African nation was home to a VOA relay that is no longer used?
- 7) SPEEDX's mailing address was in what state?

Good luck to all, and get those entries in the mail!

SEE YA NEXT MONTH!--DB

THE SPEEDX CLASSIFIED ADS

FOR SALE: 20 shortwave/ham/electrical/software disks. PC/MS-DOS format. \$39.95 + \$5.00 s/h. Contact Howard Bacon, 213 Holly Ave, S Pittsburg, TN 37380.

WANTED: Popular Communications, August '83 issue. Will pay \$5 for a copy in good condition. Contact William Via, 1870 Marshall Rd, Baltimore, MD 21222-3139.

WANTED: Letter exchange with SPEEDX members to swap DX info, station addresses, stamps and stickers. I am a student and a member of AfriDX. Contact Mr. David Eka E., Jr., P.O. Box 1801—DIObu, Port Harcourt, Nigeria.

DAK DMR-3000
by Steve Evanchuck, OH

My eternal search for the budget SW receiver panacea has led me to the California import firm of DAK, which has recently unveiled their DMR-3000 direct-entry portable. For \$69.90, the radio is chock full of bells and whistles, some good and some worthless. The worthy ones include dual clock display for local and UTC time, sleep timer, lock switch, and 36 memory presets (18 for SW).

On the critical side, the push buttons are very tiny. Frequency coverage includes FM broadcast, AM broadcast up to 1610 kHz, and SW bands of 75, 60, 49, 41, 31, 25, 19, 16, and 13 meters. Unfortunately, the 21 meter band is omitted entirely. There is no tuning knob, only up-down buttons to change frequency. The radio has SW1-SW2 buttons, but they don't need to be used when direct frequency entry is punched. The scanning function, as with most SW receivers, is quite useless. The radio is powered by four AA cells and an optional AC adapter is accepted.

The antenna is a fairly long whip which swivels and rotates, a plus for this price radio. The radio is insensitive using the built-in whip, which is useful only for the high powered stations.

On the positive side, the radio offers good sensitivity with an external antenna. The difference was amazing when I plugged in my Eavesdropper. Then, the DMR-3000 actually approached my Sony ICF-2010. However, the 75 meter band and also 13 meters are trouble spots in this receiver, with virtually nothing heard. On 60 meters, Radio Tachira on 4830 came in quite well as did others.

Selectivity is decent, with slop over apparent but not excessive. Some quirks are WWV clearly heard on 4100 kHz (455 kHz IF?) and the dial light comes on when other buttons are held in. Dimensions are about $5\frac{1}{2}$ by $8\frac{1}{2}$ by 2 inches, and workmanship seems satisfactory. In such a small bundle the speaker is correspondingly tiny and tinny; par for the course for a small portable. AM and FM reception seem decent, but I haven't really tried them out yet. The instruction manual is well written and even a novice can get the feel of it quickly.

In summary, I cannot recommend the DMR-3000 as a travel portable because of the poor performance with its built-in whip, even though this is somewhat remedied by a clip-on wire. With a good outdoor antenna hooked to it, I find this to be a good nightstand radio, probably better than anything in its price range. I judge it to be a decent performer and a better value. And of course, DAK has a 30-day return policy, no questions asked, if you find it lacking.

EDITOR'S NOTE: This review has been waiting in my file to see what would happen to DAK after they declared chapter 11 bankruptcy. Their customer service advises the company is functioning normally. They had the DMR-3000 in stock as of Oct. 12; all their policies (return privilege, etc.) continue as before (I know this from recent experience of returning an item). According to DAK, they do not charge a purchase against a credit card until the merchandise has been shipped. What you may have read recently in a national SW magazine was not true, as I understand it.

On another subject, this probably will be the last column in this series. I will accept reviews, but from the past few months I really will be surprised to receive any; the membership interest just isn't there. My thanks to all of you who did contribute; as you know, we couldn't have done the column at all without your fine receiver reviews.

73 and good DX - Don

Trash & Treasure

Donald J. Weber 2169 Walter Road Westlake, OH 44145

Last month it was your tip of the iceberg with the alert to you of the new effort from Tiare Publications--SECRETS OF SUCCESSFUL QSL'ING. If you want that confirming card or piece of paper from Radio Whatamacallit this "new and improved" edition could be your key to enhance your enjoyment of our crazy and wonderful hobby. The price is \$12.95US with \$2.00 shipping to anywhere this country or \$3.00 to any other country. A bargain with all that new and improved information!!

BUT, there's more from TIARE PUBLICATIONS, Post Office Box 493, Lake Geneva, Wisconsin 53147, (414) 248-4845. How about two more NEW books before the close of 1992--

INSIDE YOUR SHORTWAVE RADIO written by Ted Benson, WA6BEJ, is publicized as "a readable book about how your shortwave radio works - presented in a clear and understandable style" and I would agree. My own technical knowledge of shortwave or any radio is summed up with--if the radio is plugged into the wall socket and the on switch in the correct position, I hear something or I'm in trouble. I actually understood a good portion of this book and if technical terminology is a hang-up for you, give this book a chance. **INSIDE YOUR SHORTWAVE RADIO** is ninety (90) pages set up by Introduction, Chapters of--A Typical Super-Heterodyne Receiver, CW and SSB Reception, Special Reception (which translates into RTTY and FAX), Tuning and Displays, Receiving Enhancements, Accessories, followed by an appendix on Antenna and Ground Connection and another appendix entitled Commonly Asked Questions. The price is \$14.95US, \$2.00 additional for shipping (\$3.00 to an international address) directly from Tiare Publications who accept cash, VISA and MasterCard. I think the true description is VISA/MasterCard "welcome"--what an easy way to spend money. It IS a readable book and its Glossary covers most of what you need to understand to wander your way through basic radio.

The other new effort is **AIR-WAVES, THE AVIATION MONITOR'S HANDBOOK**. Yep, this is a specialized book which will be of great interest to some listeners and of no interest whatsoever to others. The authoress Laura E Quarantiello is the aviation communications editor for the National Scanning Report and is a qualified pilot. Maybe her writing is over my head but it seems as though she has hit the major questions involved with VHF/UHF air/aero communications. Again, ninety (90) pages of information, frequencies, code prefixes, abbreviations and a pilot/controller glossary for monitors--more than you might have known would be available for air communications. A slightly higher price but more technical information; \$17.95US with the same \$2.00/\$3.00 shipping costs and, as before, the availability of VISA/MasterCard use. Address and phone number as above.

The only complaint I can give you about these three efforts from Tiare is that they weren't published through the SPEEDX Supermarket--remember the other wonderful literary efforts available from the address on our back cover, CARL HUFFAKER'S LATIN NOTEBOOKS and THE LITERATURE OF SHORTWAVE RADIO.

And now for something from somebody else--1993 calendars from EDUCATIONAL EXTENSION SYSTEMS, Post Office Box 259, Clarks Summit, Pennsylvania 18411, 1-800-447-8561 for complete information. Two different offers, both appear to be wall calendars rather than appointment books but that 800 number could give all the needed answers. One calendar is entitled "ETHNIC CULTURES OF AMERICA" and within its information on ethnic groups in the United States, it lists the dates of cultural and religious holidays. The other calendar, THE 1993 WORLD CALENDAR might hit the spot a bit better--this calendar lists national, civic and religious holidays of over 100 countries. Maybe some of these dates will coincide with special national broadcasts from the countries involved--better chances for you to pick up ("successfully") that wanted country QSL. The price for each is \$11.25US plus \$3.00 for postage. Call and ask your questions.

WHAT'S ON

ENGLISH BROADCAST TO NORTH AMERICA

Daniel Sampson 4 Turtle St. Arcadia, WI 54612 CIS 73540,3025

How's everybody doing? For your reading enjoyment here comes another edition of What's On just in time for Thanksgiving Day. After all, you can do more than watch the football games and eat your share of turkey, right? Thank you for the schedules, John Carson, Jr. Remember I'll also take schedules or just plain correspondence via e-mail on Compuserve 73540,3025. These will also get to me through INTERNET: 73540,3025@compuserve.com.

On November 1 I will be going to the Viterbo Fine Arts Center in La Crosse to see Africa Oye!. Africa Oye! is a group of over 50 performers executing an array of traditional music and dance with traditional costumes from eight African countries. It should be very interesting. There are some things you can't see on shortwave. This give's new meaning to VOA's Musictime in Africa!

Hello! Welcome to the column. This looks to be ANOTHER good month for DX news in the column, with many of the broadcasters changing to different frequencies for the winter. We should have a final report on initial winter changes next month. (That's not to say many will not change again before the end of the winter season, but that's what makes this hobby so interesting and challenging!) Good DXing till next time, please inform me of any DX changes you find!

First Edited Sept.27th Last Update Oct.18th, 1992

WESTERN HEMISPHERE

- WOCR, Nashville, TN, USA:** The Dr. Gene Scott programs will be on 13815 from 1200-0100 UTC, and on 5920 from 0100-1200 UTC using a New WOCR East to West antenna array as of Sept.28th. *World of Radio* will no longer run Mondays at 2045 UTC on 15690 as WOCR has other programs they plan to run at that time slot. (WoR #661)
- WOCR:** *World of Radio* has been given some changes on WOCR replacing some airings of *WoR*. The Changes are: Now on Sunday at 2300 UTC using 15690, and again Monday 1230 UTC using 15690 also. (These replace the airings on Sunday 2200 UTC, and Monday 2045 UTC.) (gh, WoR #663)
- WYFR, USA:** has made a couple of changes for the VOFC, Taiwan relay; now on 2200-2300 UTC using 11915 and 9850 to Europe. (WoR #661)
- KJES, NH, USA:** received in New Zealand in EG 1800-1900 UTC, and again 2000-2100 UTC on 9510 KHz. (Arthur Cushen, DXPL, 10/17)
- WQWN, Alabama, USA:** has now started low power antenna testing using CW on 21840 KHz sometime after 1800 UTC. The high power testing will start soon. (RNMN, 10/15)
- R. Havana Cuba:** will be starting up a "Worldwide" SSB FR service starting Sept.28th. using 13660 from 2300-0000 UTC daily. This will complete a 5 hour SSB block. SP from 2100-2300, FR 2300-0000, and EG 0000-0200 UTC (DXers Unlimited, 9/26)
- R. Havana, Cuba:** some of the new frequencies they will use for EG starting Nov. 1st are: 0000-0500 UTC on 6060 KHz, 0200-0430 UTC using 9655, and their SSB frequency will be 6000 KHz. RHC is planning to use that frequency from 0000 till at least 0200 UTC but, may extend it to the end of their EG transmission at 0500 UTC. (DXers Unlimited, 10/17)
- Spanish National Radio, Costa Rica Relay:** was in operation as of Oct 6th 1800 UTC on main frequency in SP. 5970. Looks like they will use the site for SP only. (RNMN, 10/15)
- R. Centro, Ambato, Ecuador:** station picked-up on 3289 KHz in SP at 0753 UTC. Poor signal, and noise was heard. They had on announcements, an ID, and slogans. (Jim Clair, DXPL, 10/10)
- R. Tingo, Peru:** heard at 0050 UTC on 4760 with music, announcements in SP, good signal. (Ken Mc Harg, DXPL, 9/26)
- R. San Martin, Peru:** on in SP using 4810 at 0941 UTC. Heard an ID, promos, announcements, and music. Fair to good signal. (Jim Clair, DXPL, 10/10)
- R. Tarma, Peru:** SP talk, commentary, ID at 0100 UTC on 4775 KHz. (Ken Mc Harg, DXPL, 9/26)
- R. Eco, Bolivia:** had on special DX program Sept.20th, heard at 0029 with poor signal, best at 0100 UTC. (Rich Mc Vicar, DXPL, 9/26)
- R. Fides, La Paz, Bolivia:** has activated another SW frequency on 9625 KHz. They also use 6155, and 4845 KHz. The new frequency is running at 15kw of power! (RNMN, 10/15)
- R. El Espectador, Uruguay:** received this station on 11835 at 0817 UTC in SP with a Rlg. program. Signals were fair. (Jim Clair, DXPL, 10/10)
- R. Nacional, Argentina:** is now back on 6060 KHz at 0900 UTC with news in SP. Heard well in New Zealand. (Arthur Cushen, DXPL, 10/17)

EUROPE

- R. **Japan:** a few changes for their frequencies via Skelton relay. 0500-0600 UTC using 7230 (not listed 7280) and 6085. 0700-0800 UTC on 5970, and 6025. 2300-0000 UTC on 6125, 6050 as of Sept. 6th. (WoR #661)
- YLE, R. Finland:** has been announcing that their morning broadcast to NA (3 of them) will move 1 "real" hour later as of Sept. 27th, and also making frequency changes 1230 UTC on 15400, 11735, 1330, + 1430 UTC using 15400, 21550. No longer using the frequency of 17800. (WoR #661)
- R. **Sweden:** found a typo in their schedule to Asia at 2130 UTC on 11955 NOT the printed 11995 KHz. (gh, WoR #661)
- R. **France Int'l:** sometimes audible on 11 meters around 1400 UTC using 25820 KHz usually the best time of the year for such HIGHER band openings over the Trans-Atlantic path. (GH, WoR #661)
- R. **Vlaandren Int'l:** has changed frequencies as of Oct. 12th. They are changing from 5910 to 5900 KHz for EG to Europe at 0730, 1000, 1900, and 2200 UTC. The other frequencies they use for EG are not affected. (R. Vlaandren Intl., 10/10)
- Deutsche Welle:** EG to the S. Pac now heard 2100-2150 UTC dropping 3 frequencies but, replacing them with 6185 + 9690. Also heard are 9670, 9765, 11785. (Arthur Cushen, DXPL, 10/17)
- R. **Austria Int'l:** on broadcasts to the S. Pac. 0830-0855 UTC in EG on 15450, 21490. A new broadcast is heard 1030-1055 UTC also using the same 15450, 21490. (Arthur Cushen, DXPL, 10/17)
- R. **Portugal:** English still to Europe at 1900 M-F on 11740, to Africa on 15250, and from 1530 UTC in EG using 21515 KHz. (RadioWorld, 10/10)
- European Christian Radio, Italy:** has made a slight frequency change, a move from 6210 to NEW 6220 KHz. (RNMN, 9/24)
- IRRS, Italy:** is continuing its omni-directional service using 7125 trying to reach N. America with EG from 0200-0300 UTC, and starting its regular European service from 0630-0730 UTC also using the same 7125 KHz. (WoR #663)
- Polish Radio Warsaw:** has a NEW EG transmission from 1830-1925 UTC on 7145 and 9525 KHz. (WOR #661)
- Czech and Slovak Radio International:** at 0400-0430 UTC have added a couple of new frequencies 11985 to the ME, and 13715 also to the ME. (Andy Sennitt, RNMN, 10/15)
- Croatian Radio, Zagreb:** makes the time change on 13630 now EG news at 2203 UTC with parallel frequencies 6210, 9830, and 5085 after 2245 UTC. (WoR #663)
- R. **Yugoslavia:** is now being heard in EG from 2200-2229 UTC on 6100 + 7200 KHz. (WoR #663)
- R. **Yugoslavia:** heard in EG at 0105 UTC on 9580 with news, a commentary, and pop music program. Did not hear them at their usual 0130 UTC spot on 11870. (Dale Vanderpoel)
- R. **Tirana, Albania:** has retimed and lessened its EG broadcasts but they have shifted their N. American Svc. 1 hour earlier from their usual time now on at 0130, and 0230 UTC using 9580 + 11840. Also on at 1530 UTC using 7155 + 9760, and again in EG at 2200 UTC using 9760 + 11825 KHz. (WoR #663)
- R. **Tirana:** on 11825 at 2215 UTC in EG, heard a mailbag program. (Jim Clair, DXPL, 9/26)
- TWR-Albania:** TWR has indeed hired airtime on R. Tirana, Albania's transmitters from 2030 UTC daily using 1395 KHz mw. (RNMN, 10/15)
- R. **Sofia:** is now popping up on 6220 KHz in Greek; and is on 6235 KHz to Eur. 1130-1300 on 11630, 11720, 13670, + 17780, 17825 to the ME, and NA. 1830-2000 to Eur. on 6235; 2045-2130 to Eur. on 6235 NA starts at 2245, 01, and 0400 UTC on 9700, + 11720 (Andy Sennitt, RNMN, 10/15)
- Voice of Greece:** is now broadcasting to Europe 1 hour earlier, on from 1900-2000 UTC with EG Monday-Saturday 1905-1915 UTC using 7450, and 9400 KHz. (RadioWorld, 10/10)

C. I. S. AND EX-SOVIETS

- R. **Ukraine Int'l:** moved 1 hour later now on to N. America 0100-0200 UTC using 7195, 7240, 9665, 9685, and 11790. They also shifted earlier EG broadcast now on from 2200-2300 UTC using 5960, 7240, + 9785. (Bob Thomas, WoR #663) 9665 KHz is the best frequency coming in here in S. Fla. at 0100 UTC, I would give it a good 444 SIO rating. (Dale Vanderpoel)
- R. **Vilnius, Lithuania:** has also made the 1 hour shift forward. N. American broadcast now begins at 0000 UTC using the same frequency as does Spanish Foreign Radio namely 9530 causing a real mess there. (Bob Thomas, WoR #663)

AFRICA

- R. **Cairo**: one EG schedule for NA being 0200-0330 UTC on 11865 and 9475 replacing the old 9675 KHz. To S. Asia 1215-1330 UTC using 17595; To Afr. 1630-1830 using 15255, Afr. again at 2030-2200 on 15475, and to Eur. 2115-2245 on 9900. (RNMN, 10/15)
- Sudan**: heard in EG at 1800 UTC on 9190 KHz, had AR after that till 2200 UTC, signals were very good. (DXPL, 9/26)
- Burundi**: heard EG from this station 1750 UTC on 6140.1 with the News in EG, FR ID at 1801 UTC. (DXPL, 9/26)

CRTV, Cameroon: using 4795 KHz heard at 2304 UTC in FR with music, and talk in FR. (Jim Clair, DXPL, 9/26)

RIG, Gabon: heard this station on 4777 in FR at 2240 UTC with some announcements, pop music, and an ID. Signals were poor, lots of noise on the frequency. (Jim Clair, DXPL, 10/10)

R. **Nacional, Angola**: in PT at 0002 UTC using 4950, had clear ID. (Jim Clair, DXPL, 9/26)

TWR, Swaziland: English is being noted at 0430 UTC on 4 different frequencies 5055, 5965, 9655, and 11740 each is for a different duration, some 1/2 hour, others lasting up to 4 hours. (BBCM, WoR #663)

ASIA/OCEANIA

Kol Israel: changes for 1400 S-TH broadcast, GH is only hearing 15650 at 1400, and not other listed frequencies 15640, 17575, 11603, 11587, and 17590. (WoR #661)

R. **Damascus**: EG to ME 2030 UTC using 15095 with an ID, letters were read. (DXPL, 9/26)

R. **Kuwait**: on the now ever-popular 13620 KHz heard 2040 UTC with pop music program. (DXPL, 9/26)

VOA-Kuwait Relay: the VOA has given up on trying to establish a relay site in Israel, and instead have come to an agreement with Kuwait. Under the agreement Kuwait will provide the site at no charge and provide services such as electricity, and water. In return Kuwait will be allowed to use the facilities for its own broadcasts free of charge on a "time available" basis. The Site will consist of a MW station as well as up to 10 SW transmitters. (DXPL, 10/17)

R. **Iraq Int'l**: heard s/on 0155 UTC on 4750, jamming began at 0159. (Tony Orr, DXPL, 9/26)

VOIRI, Iran: made the 1 hour time shift to wintertime. English to North America now starts at 0030 UTC on 9022, 11790, + 15260. It is reported that 9022 is the only frequency audible here in NA. (Bob Thomas, WoR #663)

SLBC, Sri Lanka: is looking for reports from their broadcast to ECNA UTC mon's 2330-0000 using 15425 KHz, They have not heard too much back on this broadcast? (RNMN, 9/24)

R. **Ulaan Baatar**: picked up EG s/on, News at 1200 UTC using 12015 KHz. (DXPL, 9/26)

R. **Pyeongyang**: has replaced 13730 with 13785 for EG broadcasts to Europe at 1500-1550, and 1700-1750 UTC, 9325 KHz remains in parallel. Frequencies directed to Africa at those same times are 9640 + 9977. (RadioWorld, 10/10)

ABC, Perth: heard on 9610 at 1147 UTC with poor signals, heard ID. (Jim Clair, DXPL, 10/10)

NBC-Port Moresby, Papua New Guinea: heard EG program on 4890 KHz at 1055 UTC, pop music, then News at 1100. (DXPL, 9/26)

R. **Free Bougainville**: is now being heard on 3870 KHz at 1100 UTC (This is down from former 3880 KHz.) (Arthur Cushen, DXPL, 10/17)

Kiribati: has dropped longtime used frequency 14917 now on new 17440 from 0500-0830 UTC. (s/on sometimes falls back to 0600) (Arthur Cushen, DXPL, 10/17)

Guam: KSDA and KTWR have overcome the hurricane that hit the island in Sept. KSDA heard EG s/off at 0200 on 15225. KTWR EG s/on 11665 at 0900 UTC in EG. At 1500-1600 UTC KTWR moves EG to 15610. (formerly using 11650) (Arthur Cushen, RNMN, 10/15)

FILL THAT GAP! No gap to fill this month, I even had some loggings which I couldn't fit in. Until next month, remember to have fun with your radio!

73 & prog OK

ONDA CORTA

Gabriel Iván Barrera

Casilla 2868 1000 Buenos Aires Argentina

Argentina: RAE, Radiodifusión Argentina al Exterior, from October 18, broadcast with this schedule, all daily Mondays to Fridays:

Japanese: 0900-1000, 11710 kHz (ex 15345); 0100-0200, 9690 kHz.

Portuguese: 1000-1100, 11710 kHz; 0000-0100, 9690 kHz.

Spanish: 1100-1300, 11710; 1700-1800, 15345; 2200-0000, 9690, 15345; 0000-0100, 15345.

English: 1800-1900, 15345; 0100-0200, 11710.

Italian: 1900-2000, 15345.

French: 2000-2100, 15345; 0200-0300, 11710.

German: 2100-2200, 15345.

The Arabic programme continues to be suspended by the "absence of announcer."

Saturdays and Sundays, connection with LRA1, Radio Nacional Buenos Aires. Moreover, after 2100 the transmissions of RAE may be discontinued by special soccer transmissions; in which case, these frequencies will be used by LRA1.

Bolivia

4900

R. San Ignacio, San Ignacio, Beni, broadcasts here only *1100-1300*. (Rolmán Medina, Bolivia)

4925nf

R. San Miguel, Riberalta, now reported here.

9625nf

R. Fides, La Paz, noted here on 19/9 at 1900 with program "El Sábado es de Ustedes," and announcing this new frequency. (Cecilia de Salas, Perú). Noted here after receiving this information from Cecilia on 26/9, 1142-1232 w/ news program *La Hora del País* in // 6155; ID at 1232 as "Somos La Hora del País, transmitiendo en las siguientes bandas y frecuencias: 770 kcs amplitud modulada, 9625 kcs banda internacional de 31 metros, 6155 kcs banda internacional de 49 metros, y 4845 kcs banda tropical de 60 metros." Good. Heard again on 27/9 at 2104-2210 with *Radiodeportes* program. (GIB)

Chile

Radio Nacional de Chile, Santiago, QSL'd 6060 kHz after visiting the station, v/s Juan Ramón Cid. The station broadcasted programs directly from Chile through 1140mw, 6060, 11710, and 15345 kHz during special soccer transmissions with pgm *Mas Deportes* during the Copa Libertadores on 18/3/92. Mr. Cid informs me that probably the station will come back to SW in the future.

Dominican Republic

4962.07ns

R. Cima Cien, Santo Domingo, heard on 10/9 between 0138-0356 w/ abrupt s/off. On the same day also noted at 2125 UTC. This station probably is the same listed as Radio Cima on 99.9 MHz and 100.5 MHz FM in Santo Domingo. (Terry Krueger, DXSF)

Mexico

6105rf

Tus Panteras, hrd at 1227 on 20/8, back on after brief silence. (David Sharp, DXSF)

Perú

4237.8

R. Cajamarca, Baños del Inca (not R. Inca), hrd on 4/8 at 0045 w/pgm *Antena Deportiva*, ID as "Radio Cajamarca en su reapertura," "Una sola vos para todo el país, ayer, hoy y siempre: Radio Cajamarca," good. R. Inca not heard any more on this frequency!

4297

Radioemisora Orión, Huaca Huamalies, in the Andrés Avelino Cáceres region, heard 24/9 at 1120 with program *Alegre Amanecer Huamalino*, good. (Cecilia de Salas)

4925ns

R. Onda Verde, Pichahaki, in the Peruvian forest, discovered by Cecilia on 17/9, heard at 1035, also heard on 18/9 at 0010. On the same frequency on 21/9, heard the Bolivian R. San Miguel.

Uruguay

6125.02nf

SODRE, Montevideo, noted here after phone call from Daniel Camporini, heard 29/9 at 1036-1102 with program *Mirando al Sur*, with strong signal. ID as "CX38 Emisora del SODRE," also "Emite CX38 en 1290 kilohertzios, Radiodifusión Nacional SODRE, Montevideo, Uruguay," by M. Also heard at 2230 the same day with musical programs. Thanks, Daniel.

 A few months back I asked Bob Fraser, (a monitor for RAI) if the "Dead Lady" was still around? He kindly responded:
 She seems to be gone, I haven't heard her in some months. A new younger-sounding lady came on a couple years back and seems to be one of the main hosts now. I have written them letters, which have yet been unanswered, asking if the U.S. transmissions were live. If so, it would explain why the old lady would sometimes doze off as it would be 2 a.m. there. No one is awake then except people working (like me). We are the ones who come into offices late-at-night to wave that magic wand about to try to make things right. (Right on, I've worked it, too! It's tough! BC) It would be a joke on us all if the "Dead Lady" was just a cleaning woman doing the late night English program for a few extra lire. I always felt sorry for her and hope she is enjoying a retirement somewhere and hadn't died in harness. (Thanks Bob! I hope so, too. BC)
 15245 0015 RAI: II: "Nel corso della storia", seemed abt Italian history from 1910-1920 period. (343 9/24 Westenhaver-PQ)

EUROPE

BOB COLYARD
84 HARRISON AVE
BRICK, NJ 08724

This month is interesting. there's a lot of political, sociological and just plain shortwave listening banter here. Sometimes I think this column is a perfect benchmark for history and international affairs. The one I like is the one about the DXing cat. Hank, have you ever found the 2010 next to the litter pan? Boy, would I be peeved. (Cat soccer time!)

TS. Bob

1900-2200: 7280, 15340

[Euronews via USEnet]

Bob Fraser received the following letter from R. Moscow answering some questions he asked for Moscow Mailbag, which he was kind enough to forward to me.

Dear Mr. Fraser,

Unfortunately, our postal service is not working as it should. Many letters get lost. As for renaming our station, this is so far only a rumor. Let's wait and see. We have not asked for any refunding for return postage. It is paid for by the budget. I'm sure we will continue broadcasting for years to come. Thank you for your good wishes.

Yours,

Joe Adamov (signed)

And so ends my 60th column! Hard to believe I have been editing this column for 5 years now. Thanks again to all my contributors and happy Thanksgiving. -Jason

AFRICA

Paul Wakefield Box 188

West Branch, IA 52358

(Dates/Times in UTC - Freq. in kHz - Deadline the 12th)

It looks like SPEEDX went back to it's radios with a vengence last month, with another fine turnout. I've just gotten out of a tree, myself. "Look, there's that Wakefield guy again, stringing more wire!" I guess I'll do just about anything to keep the neighbors entertained!

QSL REPORT

Mike Wolfson
1842 Mifflin Ave.
Ashland, OH 44805

Hello everyone and welcome to November (and fall). The weather has certainly changed in Ohio. So has the input to the mailbox. Thank you one and all for answering my call for submissions. I've been spending more time listening lately and have been surprised by the openings into Latin America and Africa. Speaking of Africa, lets start there.

AFRICA

Botswana VOA: 13710 f/d cd (map of Africa) 60 ds rpt E (Humenyk, Ont.)
Burkina Faso R Burkina: 4815 p/d cd (ltr) 156 ds (1 f/up) 3 IRCs rpt FF v/s Pierre Tassemedbo (Hankison, Ks.)

US WLW: 26450 (remote B/C) p/d cd (antenna) 13 ds rpt EE (Owsley, Ca.)

For those of you who might not have heard, China is changing the name of **RADIO**

BEIJING to CHINA RADIO INTERNATIONAL soon. There are also rumors that RADIO LUXEMBOURG might be no more soon. As always the only constant is change. Its a shame that change has to be bad as well as good. On the topic of change, according to the current issue of NASWA's Journal the old USSR's republics have been named separate countries. What they don't mention is how they should be listed. What do you think? Should they be listed as part of the CIS, as European stations, or what? Your input is sought. If it has already been decided, please let your ignorant editor know. If you want a copy of the list, let me know. Also, include a mint stamp for return postage. Now for the "goodies" and until next month.....

Mike
