

The

KMA GUIDE

March, 1961

COVER STORY

Josie Dee Modrow, nine-year-old daughter of your KMA Guide Editor, is shown on this month's cover trying out her new "walking cast". She's been hopping around on crutches for two months and was very happy with the freedom the cast gives her. She has become an expert hopper, so this game should come quite natural. The neighbor's cat, Tiger, ambled up to watch. He probably wondered what people will think of next. There are several ways to chalk out a game of hopscotch. It seems everyone who saw the picture had a different idea of how to play the game. Josie is wearing her Brownie uniform. Girl Scouts' 49th birthday and Girl Scout Week are this month.

The KMA Guide

MARCH 1, 1961

Vol. 7

No. 3

The KMA Guide is published the first of each month by the Tom Thumb Publishing Co., 205 North Elm St., Shenandoah, Iowa. Owen Saddler editorial chairman; Duane Modrow, editor; Doris Murphy, feature editor; Barbara Stimson, copy editor. Subscription price \$1 per year (12 issues) in the United States, foreign countries, \$1.50 per year. Allow two week's notice for change of address and be sure to send old as well as new address.

Meet the Navens, our feature family of the month. Dean is a multi-dutied man on the KMA staff. He is news director, program director, and on the KMA sportscast team. Dean has been with KMA 7½ years. He is up at 4:00 a.m. every morning editing and rewriting the news for complete newscasts at 6:00, 7:00, 7:45, and NOON. Dean also does a daily editorial feature heard at 6:25 every evening, "As Naven Sees It". He is very active in the Little Theatre group and has performed feature roles in several plays. He is on the Vestry and is a lay reader with St. John's Episcopal Church. Claudine is an avid painter. She has a number of fine artwork hanging in their home on south Elm. Sewing and knitting are two of her most popular pastimes in addition to caring for the three

fine girls shown with them on the stairway of their home. Tamara, 10, is in 5th grade. She has been active in girl scouts and now has taken up 4-H work. She is also a member of the Children's Drama Workshop being conducted by Mrs. Robert Read to develop a junior thespian group in Shenandoah. Tammy is also taking piano, so she's a very busy girl. Next is Jeri, 8, who is in the second grade. Jeri is not too busy with extra curricular activity as yet but plans to take dancing lessons in the next year. Kim, 4½, on top of the stairway starts school next fall. All the family likes horses. The girls share their dad's interest in rodeo and get a big kick out of going along on his broadcast stints to the Sidney Rodeo each August.

A Chat With Edward May

About the time you will be reading this column of the Guide, I imagine many of you will either be doing some gardening or about ready to do some. We have had an extremely mild winter. With the exception of a few cold days and a little snow, our winter has been about as mild as any we have had in recent years. I haven't heard anyone complain about the weather because I think most of us had enough cold weather and snow last year.

Most of the people I have talked to are of the opinion we are going to have an early spring. Several signs indicate this. For example, one sign which nearly everyone follows is the date upon which Easter falls, and this year we have an early Easter. However, there are probably other signs which may indicate that perhaps our spring won't be quite as early as most of us think. For example, there is a weather sign which says, "Fog in February indicates the frost on the same date in the month of May." We had some fog in February so we will have to wait and see whether or not we have the frost in May. There is another sign which has something to do with thunder and lightning in February. I am not too sure of what this particular sign is, but since we did have some thunder and lightning on the 17th of February I would like to know what the sign indicates. If you happen to know of a sign which, in part, says something about lightning and thunder in February, would you kindly drop me a line and let me know what the saying is.

March, 1961

Insofar as signs are concerned, we have two barometers of spring which we go by at the seed house in Shenandoah. Both of these have something to do with the planting season of garden seed and nursery stock. One is the aroma of onion plants, and the other is the pleasant cedar aroma of the packing material called "shingletoe" which we use to pack our nursery stock in the bins in the store in Shenandoah. Just as soon as we smell the shingletoe and the onion plants we know that spring is here, or it's just a matter of a few days from being here.

Like most families, our family seems to keep quite busy; and, being a proud father, I want to tell you about our daughter, Annette, and her participation in speech contests. She has no trouble becoming enthusiastic over speaking, so she decided to enter the local high school contest in the division known as "Interpretive Prose." Fortunately, she was one of several chosen to represent the Shenandoah High School, which made her eligible to participate in the next contest which was held at Essex. She again was given a Number 1 Rating, and then participated in the District Speech Contest which was held in Red Oak on Monday, February 20, where she again received a Number 1 Rating. From here she goes on to the State Speech Contest which is to be held in Atlantic, Iowa, sometime in the month of March. I don't know how well she will do there, but it is a wonderful experience for her and she seems to enjoy doing it. Naturally, we are very proud of her.

Frank Comments

By FRANK FIELD

I am writing this column on Wednesday, March 1; and I am just about back to normal again, but my car is still in the hospital. Yes, I finally had an accident with the car after all of these years, and I can't say that it was not my fault either because partly it was. Luckily the only serious damage was to the car and no one was hurt, but me.

You see, it was this way—on Friday morning, February 17, I started to Omaha about 10 o'clock as I do, regularly, five days a week to take my television program on station KMTV. It was spitting rain here and the pavement was quite wet. The temperature was just above freezing and it was quite misty and foggy, but driving was fairly good. As I proceeded up highway 59 it began to rain a little harder but the windshield wipers were working nicely; however, a little ice began forming on the windshield which the defroster took care of in good shape. Soon I was at Carson at the intersection and turned onto highway 92 and headed west toward Omaha. The rain slacked up a little, but the pavement was still quite wet. I was driving along about 55 or maybe 60 miles an hour and was congratulating myself on getting along better than I had anticipated. About 2½ miles west of Carson, I came up over

a hill; and suddenly, without any warning whatever, the road ahead of me was a glare of ice. In considerably less than a second the car was completely out of control and going down the hill crossways of the road. Luckily for me there were no cars coming from the opposite direction because I was in the wrong lane and picking up speed all the way down the hill. In a matter of seconds the car was out on the shoulder on the wrong side of the road and crosswise at that.

Naturally I didn't dare put on the brakes, but I began feeding it a little power and was gradually getting the car back under control again, and in another 50 feet I would have had it back on the road again; however, before I could get straightened out, the car hit a signpost, snapped it off at the ground and threw me out of the car in such a manner that I came down on my back on the broken stub of the signpost. The shock of hitting the signpost spun the car half way around so that it headed straight down the embankment which was about 50 feet high at that point. The car came to rest in a ditch at the bottom of the grade with its nose embedded in the bank. No, the car didn't turn over, and the principal damage was to the left-hand, front door which was completely caved in from hitting the signpost.

I crawled up to the highway and hitched a ride on to Omaha with some folks from Red Oak who were going in to a sales meeting at the Paxton Hotel. From there I took a cab on out to the Television Station and put on my program as usual

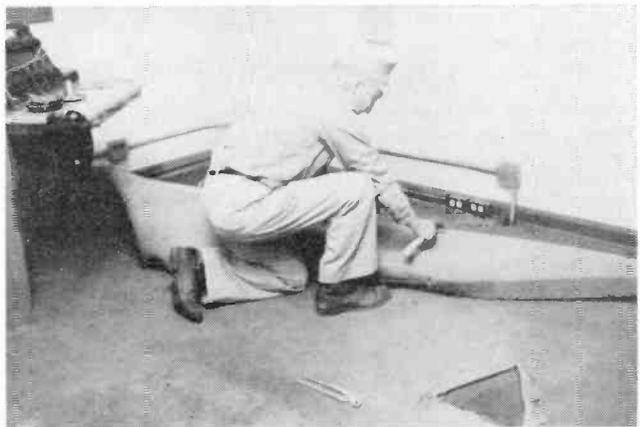

Continued on Page 15

X marks the spot where Frank's car came to a halt. Post was along shoulder in center of picture.

STUDIO DILEMMA

As the Southwest Iowa Little Theatre Group was all set in studio "A" to present their latest play, "Night Must Fall", the KMA engineers were also experiencing a "nightmare" in studio "B". This particular nightmare was the very distasteful project of laying new carpeting in the control room, or studio "B". Carpet laying is quite a project under the most ideal conditions, but in the case of the KMA control room all the wiring running from the various control instruments must be taken up through the flooring, carefully tangled up in a corner, equipment moved out (no one knows quite where to, but "out"). After the new carpeting is down, every article and wire must be carefully replaced. This is such a major undertaking that new carpeting is laid only under extreme duress, about once every 10 years or so. "Olie" Frizzell, building custodian, is shown tearing out the old carpeting. While the control instruments were out of commission, it was necessary for the announcers to move out into studio "A". Al Austin is shown in a small nightmare of his own as he works from the announcers desk jammed up against the set of "Night Must Fall". Usually Al "cues" his own recorded music, but it was necessary to have one of the engineers spin his records in the old control room. All the moving was inconvenient but soon everything was back in its original shape, plus a brand new carpet. We might add, Al Austin was also a feature performer in the play, too, so he spent his working hours in studio "A", then

when he got off duty he returned to studio "A", this time "on stage". Al does a superb job both as deejay and as an actor with the Little Theatre Group.

Pictured here are exterior and interior shots of one of the nicest little playhouses any little girl could ever hope to have. Denise Hanzlick, eight-year-old daughter of George and Isabella Hanzlick, is pictured with a guest, little Eddie May. They are enjoying cookies and coke with all the comforts of home. Denise's mother is a clerk in the Shenandoah May Seed Store. Last Thanksgiving Denise's father decided to build her a playhouse for Christmas. It is fully insulated and can be warmed up to room temperature in just a few minutes, even on cold wintery days, with an electric heater. Denise has planters in a cornice above the long row of windows on the south side. A radio of her own (tuned to 960). Storage space for toys under the bench on which she is sitting. The small hole in the lower left corner of the bench is a little "dog room" for pet chihuahau, Pocoa. The interior decor is a beautiful aqua blue walls, pink curtains and textured cream colored ceiling with a modern recessed light fixture. Her father also made an elaborate weather vane for the roof. While George was building the playhouse as a Christmas gift, Denise said, "It won't be a surprise present, but it sure will be a surprise if Daddy gets it done by Christmas".

Feb. 18 - 19, Ice Storm Downs Phone Lines — KMA Relays Information

Rev. Paul Musser, Dean of Students at Tarkio College in Tarkio, Missouri, serves as supply minister each Sunday at the Presbyterian Church in Red Oak, Iowa, some 40 miles distant. His Red Oak congregation didn't want him to risk the icy roads that weekend but could not get word to him. KMA made the announcement. Eight people called him in Tarkio. Rev. Musser, a recent transplant from the east coast was quite surprised, hadn't yet acquired the KMA listening habit, said, "From now on I'm listening to KMA".

The Villisca and Shenandoah, Iowa basketball teams were to have a Saturday night game on the Villisca court. Shenandoah did not want to take a chance traveling their boys by bus on the sheet of ice. Villisca was willing to go ahead if Shen-

andoah wanted to, but neither could reach the other. The Shenandoah Superintendent asked KMA to relay the message to Villisca with instructions on a police radio relay. Villisca got KMA's message, relayed by police radio to the Sheriff in Red Oak and thence to the Shenandoah police. The game was cancelled.

In times of emergency, KMA has been most effective in sharpshooting information to the desired individuals. Credit must go to our loyal listeners. It's somewhat of a relief to know communications can be maintained during a period of disaster. KMA is always alert and can be depended upon to act during such times. As Rev. Musser now knows, too, as you probably already do, KMA is the spot to stay tuned to.

Jerry Elton Joins Announcing Staff

Jerry Elton is the new voice you hear on KMA during the evening hours. Jerry comes to us from Arkansas City, Kansas, which is his home town. He was staff announcer on station KSOK there. Al Austin also comes from Arkansas City and the two fellows knew each other back in school days. In fact Jerry is staying with Al until he finds suitable housing. Jerry served two years in the Army Medical Corps. After his duty with the armed forces he attended Ottawa University at Ottawa, Kansas. He then transferred to Oklahoma University at Norman, Oklahoma in order to major in radio and television broadcasting. While on duty with the Medical Corps in New Orleans he met his wife, the former Patricia Albright. They have two children, Mark, 2½, and Ruth, 4 months. The family will move to Shenandoah when suitable housing is located. Meanwhile Jerry brings a wealth of background and

experience in radio and TV broadcasting. He has an excellent taste in music and quick, wry wit, so give him a listen when you're out for a drive in the evening, traveling along the highway, or letting your radio keep you company at home.

Gayle Maher Back to Help in Office

Gayle Maher, who retired last year after 17 years with the KMA office staff, responded to a plea to come back to work for a while and has been helping in just about every department. Here we found her working in the Guide mailing room last month helping Helen McCullough put out the Guide. Every time Gayle caught up with the overflow, more work would appear in another department. Her temporary employment was extended week after week until finally she had to set a definite stopping point. While she was with us she fell right into the routine as if she had never been away and turned out a mountain of work. Gayle is great on outdoor activity and during the winter months when there isn't much going on is glad to have something to do besides homemaking. She is an avid golfer. Once the fairways turn green you'll find her on the golf

said she'd help any time we got in a tight course nearly every day. She has always pinch. It's good to know you have a dependable gal who can fit just about anywhere in the office when you need help in a hurry. Possibly the only stipulation she would have would be to just not get caught in a tight pinch during golf season.

On the KMA PARTY LINE

By MORIS MURPHY

An ice storm which left a glaze of ice on roads, trees, telephone and electric wires the weekend of February 17, presented many problems to the KMA personnel. FRANK FIELD, driving to Omaha for his regular noonday television show on KMTV, was the first to encounter trouble. Three miles west of Carson, FRANK'S car struck a patch of ice that was hidden by the morning rain, causing his car to skid across the road, hitting a "No Passing Zone" sign. As the sign snapped off it struck the driver's side of the car, throwing Frank out of the car, and caving in both doors. Most of the damage was to the left-hand, front door. Frank was taken to Omaha by a passerby where he appeared on television as scheduled. Later he underwent X-rays which showed no injury to his back—only a big bump on his hip and bruises. Next morning, JOE HUNTER of the May Seed Company who was to take FRANK'S program at 7:15, encountered problems before he finally made it to the studio. The storm had broken the electric wire leading into his home, so the house was without heat and lights. Heading for the garage to get the car, he discovered a big broken branch across the driveway. That meant he had to walk to the studio on the ice-covered streets. Station Manager ANTHONY KOELKER who had also gone

to Omaha on a quick business trip, had precarious driving home. Early morning announcer MERL DOUGLAS feared he might have a problem awakening in time for his show in case the electricity should go off again in the night and his alarm clock would fail to go off. And that IS exactly what happened, but DOUG had prepared for such an emergency by having the night watchman call him at 4 a.m. You can bet DOUG had some good advice for his listeners when he came on the air at 5 a.m. He told them when they got to the door that morning ready to go out, to just sit down and start scooting. If they didn't they would fall down anyway! KMA's two homemakers BERNICE CURRIER and FLORENCE FALK were kept busy checking their telephone lines, as REA linemen and Iowa Power linemen had worked all night repairing broken wires that had snapped under the heavy weight of the ice. But their lines held, and their remote broadcasts direct from their homes, were not affected by the storm. Ice broke a limb off a tree and the stump hit the hood of Guide Editor DUANE MODROW'S car, caving it in. DUANE had just had the tree trimmed, so when the ice took off three more branches, the family decided to call the tree "Old Baldy". Yes, there are many emergencies that arise during storms, but KMA personnel are always right on the job giving you valuable weather and news information.

Birthday cakes always add fun to the occasion, especially when they are different. This year, Holly Nielson had a real thrill on her 7th birthday, February 20, when mother presented her with a beautiful Gingerbread House birthday cake. We knew you would like to see it, so DUANE MODROW took a picture of Holly with her unusual cake as she appeared for her annual birthday broadcast with her daddy, WARREN NIELSON, on the 6:45 p.m. May Seed show. It was made of solid gingerbread baked in a mold and frosted with white,

pink and green frosting. Pastel mints were used to simulate the shingles on the roof; windows and doors were made of chocolate sugar wafer cookies; shutters were gay with pink frosting; and with the aid of the frosting tube, green grass and pink flowers decorated the lawn. It was such a delight to see, the family hated to eat the gingerbread house! Taking a treat to school and gifts also helped to make her birthday a happy occasion. Holly was especially thrilled with a toy typewriter that really works, from Grandad—and a Raggedy Andy doll to go with her Raggedy Ann.

Going from Iowa ice storms to Arizona sunshine should be a pleasant change! And that is exactly what KMA's assistant record librarian BETTY JANE RANKIN did in February. BETTY returned to the University of Arizona for her second semester's work. She had been unable to attend the first semester because of illness. Two weeks later her parents Mr. and Mrs. J. D. RANKIN, JR., drove BETTY'S convertible to school for her, taking along summer clothes she would soon be needing. Mr. and Mrs. RANKIN then spent two weeks vacationing in Phoenix and Tucson. During their absence BETTY'S sister, Diane spent the time with her uncle and family, the Ed Mays.

Congratulations to Annette May, daughter of Mr. and Mrs. EDWARD MAY, who won a Division 1 rating at the District Speech contest in Red Oak, February 21. She will appear in the competition in the state contest to be held in Atlantic, March 18.

Wowie! How lucky can you be! HELEN McCULLOUGH of the Mail department recently won \$25 cash in a Magic Number contest held at a local supermarket. Bet HELEN will get a new Easter coat THIS year!

The little lady so wide-eyed over her first glimpse of the KMA GUIDE is 5-month-old Marcia, pictured here with her daddy Guide Editor Duane Modrow. "Marcie" was literally going to "digest" the magazine, as the first thing she did was put it in her mouth. Then she became intrigued by the pictures, and held it up like an avid reader. This was the first time she had ever held a magazine in her hand, so no wonder she was getting a thrill out of the proceedings. Her deep blue eyes and dark hair complemented the sweet yellow nylon dress she was wearing. The dress was one that had been given by the

KMA staff to her sister Julie who is now 3 years old. I am sure you will all agree with me that Marcie is a doll! And she couldn't have chosen a better magazine for her "first reading" than the KMA GUIDE. From the smile on her daddy's face, I am sure he agrees!

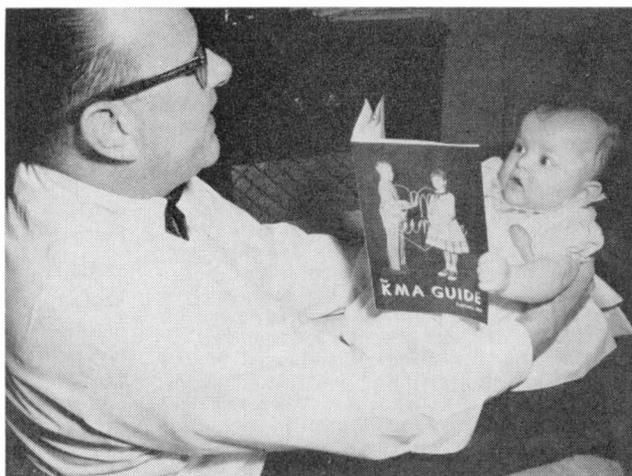

Jeffery, 5-year-old son of CHARLES BUNN, KMA's new Sales Manager, is now recovering from a month's illness with a massive infection in his throat and ears. With temperatures of 105 and 106 the child was taken to the Hand Hospital the latter part of February, where he remained for four days until his condition improved. Jeffrey attends kindergarten in the Far-ragut schools.

Pets in the DON BURRICHTER family change pretty often. The new kitten has now found a home in the country; and Mary, age 12, has a new young hamper. The line-up now consists of a bird, a dog, and a hamper. The new arrival has no name as yet!

Newscaster DEAN NAVEN didn't have to wait until the Fourth of July for his Christmas sweater. The beautiful grey sweater with high turn-up collar his wife was knitting him for Christmas is NOW finished. Happy day! Just in time for the spring yard work!

Broadcasting the basketball tournament games night after night is a chore in itself, but DEAN NAVEN and ANDY ANDERSEN found that nature's padding just doesn't stand up on the hard bleacher seats. After hearing them complain, Station Manager TONY KOELKER came to the rescue with two leather blow-up cushions. If the broadcasts sounded a little gayer during the latter part of the tournament, it's because the boys were sitting a little lighter.

Continued on Page 15

A Letter From The Farmer's Wife

Greetings from the farm this March of "61".

Time again for a letter from the farm, and it seems just last week one was being written to you from the farm but that was the latter part of December.

There have been added many, many new names to the ever increasing list of Guide readers, and we welcome all of you to our big circle of friends. You new subscribers will find interesting reading each month. To those of you outside the radius of the broadcasting beams, we are glad to visit with you each month. We hope you will like all the regular as well as feature pages. The KMA Guide magazine goes from east to west and north to south, and copies have been sent to several countries across the waters. We feel we have one of the "friendliest" of magazines. In fact, if you have the Guide laid out on a coffee table and a friend drops in for a chat and picks up the Guide, you might as well go put the coffeepot on, for your friend will enjoy this magazine.

Well anyway—WELCOME!

Since last writing, we came through the Holiday season and New Year's in fine shape—should have, as we had so many friends in and out and had several "coffeefeas".

January gave us some of the most beautiful of winter's weather—nice, balmy, spring-like days. In fact, many people in this area had a good start on outside work in "spring cleaning" such as raking sticks, leaves etc. Then the ice storm hit this Midwestern area, February 16 and 17, and now for sure there is yard work to do. We were very fortunate to have just a few hours of discomfort without electricity. The Farmer's Wife program was on the air as usual each day, although Bernice Currier did stand by in case of need. We were certainly aware of our dependence on man-made comforts, electricity and telephone services.

The ice storm was especially disastrous to the trees. We lost a greater portion of the "big old maple tree" in our back yard. We have a bit of sentiment for this tree, as our family has spent many happy hours in, around, and under the old maple. Over the years the children moved from a sandbox under the tree to a treehouse in the tree, and eventually graduated to the trapeze artist stage and performed swing stunts among its branches. We even had a birthday party for Tippy I—our first Tippy—on her first birthday. We invited as a guest our neighbor Pat's big brown

dog. We had individual birthday cup cakes topped with a big bone for each of them. Tippy even received a gift.

January was certainly dominated by the sports scene especially in this area. Our Essex Trojanettes came through without previous heralding to take the top trophy in the Corner Conference tournament. They came through the tournament in Villisca, and by virtue of playing in the finals in the sectional went on to the District at Council Bluffs. (At this writing we are wondering hopefully if we can keep on to that goal of all teams—the Iowa State tournament.) The Essex Trojans came through the first round of the sectional at Villisca. In fact, we have been to the towns of Sidney and Villisca more in the last few weeks than in years before. Karenann is a cheerleader and those girls had their work cut out for them. The farmer and I enjoy being with the teams, as we realize that all too soon "ours" will be out of school, too.

The farmer has made good use of the fine January weather; and now at this writing, he is getting farm machinery in top running order for the season ahead. It seems as though everyone gets imbued with the "urge" to prepare for the spring soon to be here. The Farmer has built several gates, added on to the disc, and overhauled other deals. The young people here on this farm as well as yours keep up with the ever increasing pressure of learning in this day and age. As they mature more and more duties are theirs and this is good, too.

In the farm kitchen several new recipes have been tried, although the recipes on The Farmer's Wife page this month are from my files—beloved recipes requested again and again.

The south windows in the utility room are the flats being readied—the little egg cups for seeds. This summer I hope to budget my time a bit better and at least have some flowers; I love them so. We have a corner in the field west of the orchard staked out for a bit of garden, too—not a big one but one large enough for tasty fresh vegetables in season.

So from our house to your house, best Easter greetings; and may you and yours have health to enjoy the lovely days to come. And so until my letter in the May Guide—Keep Smiling!

Florence Falk

The Farmer's Wife KMA

The KMA Guide

Homemaker's Guide

"The Farmer's Wife"

By FLORENCE FALK

The following recipes seem so very spring-like I know you can use them for enjoyment of good foods for you and your family and friends.

LEMON LIME SALAD

- 1 package lemon-flavored gelatin
- 1 package lime-flavored gelatin
- 1 c. boiling water
- 1 carton cottage cheese
- 1 c. milk (yes, that's right)
- 1 c. mayonnaise
- 1 No. 2 can crushed pineapple, juice and ail
- Nuts if desired

Dissolve lemon and lime gelatin together in the boiling water. Stir until well dissolved and add other ingredients in the order given, mixing well. Pour into large 9 by 11 by 12 pan or dish. Chill. Serve garnished as desired.

* * *

CHEESE PUFF

(A meal in one dish)

- 8 slices of day-old bread
- 2 c. milk or tomato juice
- ¼ t. salt
- 1 c. grated cheese
- 3 eggs
- pepper
- paprika

Trim crust from bread. Cut in half diagonally (make triangles). Make pinwheels of 8 pieces of the bread and put in greased shallow 8-inch casserole. Cover bread with layer of cheese about ¼ inch thick. Top with remaining halves of bread. Beat eggs slightly; add salt, pepper, paprika, and milk. Beat thoroughly and pour over bread and cheese. Let stand awhile. Bake until puffed and brown in a 350° oven for 20 to 25 minutes. Serve at once.

* * *

ORANGEADE CAKE

- ¾ c. butter
- 1 c. sugar
- 2 eggs
- 2¼ c. flour
- 1 t. baking powder
- 1 t. soda
- 1 c. sour milk or sour cream
- grated rind of 2 oranges (or) 2 t. orange flavoring)
- ½ c. seedless raisins
- 1 c. pecans, chopped

Cream together butter and sugar and add eggs, beating well. Sift dry ingredients and add alternately with sour milk or cream. Fold in grated rind, raisins and pecans. Stir until smooth and well-blended. Pour into 9-inch tube pan which you have greased (use an old angel-food pan for this). Bake

in a 350° oven for 1 hour. When done remove from the oven—do not remove from pan but immediately pour the following over the hot cake:

- 1 c. orange juice combined with
- ½ c. granulated sugar

Let cake stand in pan until cool before removing. May be served with hard sauce, ice cream, whipped cream or just as is.

* * *

YELLOW ANGEL FOOD CAKE

- 11 egg yolks
- ½ c. ice water
- 1 c. sugar
- grated orange rind
- 1 t. orange flavoring
- ¼ t. lemon flavoring
- 1½ c. cake flour, sifted and measured
- ½ t. baking powder
- ½ t. cream of tartar

Beat egg yolks and ice water together for at least 15 minutes. (In any cake calling for this many egg yolks it is very important to beat very well, until almost white.) Add sugar, a spoonful at a time; then the flavoring. Sift flour, baking powder and cream of tartar five times. Add to egg and sugar mixture. Bake in ungreased tube pan. Put in cold oven. Then turn oven on to 325° and bake 1 hour. Cool in pan. Do not invert.

* * *

FROZEN CHEESE TORTE

Line a spring form pan with a mixture of:

- 1 c. sugar
- 1½ c. crushed corn flakes
- ½ c. melted butter
- 1 t. cinnamon

If you haven't a spring form pan use a large oblong pan.

Save 1 cup of above mixture for topping.

- 2 eggs, separated
- ½ c. milk
- 1 c. sugar
- 1 t. salt
- 1 pound carton of rather dry cottage cheese
- 2 T. unflavored gelatin
- ¼ c. cold water
- rind of 2 lemons, grated
- Juice of 1 lemon
- 2 t. vanilla
- 1 c. whipping cream

Soften gelatin in cold water. Combine slightly beaten egg yolks with milk, sugar and salt in double boiler or heavy sauce pan. Cook until thickened, stirring continuously. Add gelatin and lemon rind to hot mixture. Cool. Beat in ground cottage cheese (or mashed with fork until very fine), lemon juice and vanilla. Fold in stiffly beaten egg whites and whipped cream. Put in lined pan and sprinkle with remaining crumbs. Chill at least 5 hours or freeze. (I prefer mine not frozen).

Homemaker's Visit

By BERNICE CURRIER

EASTER LILY COFFEE CAKE

- A— 1 package dry yeast
1/4 c. warm water
B— 1/2 c. milk scalded
1/4 c. sugar
1 t. salt
2 T. melted shortening
C— 2 1/2 to 3 c. sifted flour
D— 1 egg beaten

Combine "A" and set aside in warm place. Combine "B" and let cool a few minutes. Add enough "C" to make a thick batter. Mix well. Add "A", add "D" and beat well. Add remaining "C" to make soft dough. Turn out on floured board and knead until smooth and elastic. Put in greased bowl, grease top, cover, let rise to double. Punch down with fist; let set for 10 minutes. Put out on board and knead till all bubbles are gone. Roll out into a circle 1/4-inch thick—put circle on greased baking sheet—Cut into 6 pieces as pie wedges, but leave the center uncut. Brush with melted butter and put a spoonful of raisin nut filling on each wedge. Beginning at 1 inch from outer edge, fold one side of each wedge over filling down to center. Curve each roll in same direction and spread outer edges to resemble lily. Let rise to double. Bake 35 to 40 minutes at 350°.

Raisin Nut Filling:

- 2 T. sugar
1 T. flour
1/2 c. raisins
1/4 c. boiling water
1/4 c. chopped pecans

Combine sugar and flour, add the raisins and boiling water and simmer 10 minutes. Add nuts; then cool.

* * *

FROSTED PINEAPPLE SQUARES

- A— 1/2 c. sugar
3 T. cornstarch
1/4 t. salt
B— 1 egg yolk lightly beaten
1 can (1 pound 14-ounce) pineapple chunks undrained
C— 2/3 c. milk scalded
1 t. sugar
D— 1 package dry yeast
1/4 c. warm water
E— 4 egg yolks lightly beaten
F— 4 c. sifted flour
G— 1 c. butter or margarine

Combine "A" in saucepan. Stir in "B" and cook over low heat stirring constantly until thick and smooth, about 7 minutes. Set aside. Combine "C" and cool to warm. Combine "D" and let set 10 minutes to start working then add to "C". Stir in

"E". Sift "F" into large mixing bowl, cut in "G" with pastry blender until like coarse meal; stir in the "C", "D", and "E" mixture. Dough will be soft and moist. Divide dough in half. Roll out one half to fit bottom and sides of 10 by 16 inch jelly roll pan. Spread this with the "A" and "B" mixture. Roll remaining half out to fit top. Place over filling and seal edges. Cut slits to allow steam to escape. Cover, let rise in warm place to double (about 1 hour). Bake in 375° oven for 35 to 40 minutes. Frost with powdered sugar icing and serve warm.

* * *

SANDWICH COOKIES

- A— 1 c. sugar
1/2 t. salt
3/4 c. butter or margarine softened
B— 1 egg
1 t. vanilla
1 t. grated lemon rind
C— 3 c. sifted flour
1 t. baking powder

Cream "A", beat in "B", Sift "C" and stir in. Divide into thirds. Form each into a ball. Pat down on floured board then roll out to 1/8 inch thick. With floured, heart-shaped cookie cutter, 2 and 3/4 inches wide, cut out cookies from all the dough. Then using a small heart shaped cutter, cut the center from half the large hearts. Place all hearts (plain, cut-out and small ones) on ungreased cookie sheet and bake 7 to 8 minutes at 350°.

Filling:

Beat 1 egg white, add 2 to 2 1/2 cups powdered sugar, and 1 tablespoon melted butter or margarine, 1/8 teaspoon salt and 1/2 teaspoon vanilla. Add a few drops of red food coloring if desired. Make sandwiches by spreading FILLING on plain hearts and pressing the hearts with cut out center on top. Make tiny sandwiches by spreading FILLING between small hearts. Makes 2 1/2 dozen large sandwiches and 2 1/2 dozen small sandwiches.

* * *

CASSEROLE CHEESE BREAD

- A— 1 c. milk scalded
3 T. sugar
1 T. salt
1 T. butter or margarine
B— 1 c. warm water
2 packages dry yeast
C— 1 c. grated cheddar cheese
4 1/2 c. sifted flour

Combine "A" and cool to lukewarm. Combine "B" in mixing bowl and stir to dissolve. Add "A", then add "C". Stir until well blended, about 7 minutes. Cover and let rise in warm place until more than doubled. Stir batter down, beat vigorously; then turn into greased 1 1/2 quart casserole and bake about 1 hour at 360°.

"My Best" Recipe Selections for March

"HE-MAN'S CASSEROLE"

- 1 ten-ounce package noodles
- 3 medium onions, chopped fine
- 2 T. butter
- 2 pounds ground beef
- 2 t. salt
- ½ t. pepper
- 1 t. thyme
- 1 can cream of celery soup
- ½ can water
- 1½ c. grated sharp cheese
- 3 eggs well beaten

Cook noodles in salted water until barely tender. Drain; then mix in the soup thinned with the half can of water. In a big skillet, fry onion in butter until yellow. Remove onion. In the same skillet, cook meat, stirring to break up particles. Add salt, pepper, thyme, and onions. Don't brown meat. Simply stir it around until it loses its redness. Combine meat and soup mixture and pour into 1 big or 2 medium oiled casseroles. Refrigerate over night. (Don't skip this part—it's important to the flavor of the dish).

When ready to bake, sprinkle top with grated cheese and pour beaten eggs over cheese. Bake at 350° for one hour until bubbly. Makes 12 big servings.

* * *

APPLE CREAM PIE

- 1¼ c. sugar
- 1 c. sour cream
- ½ t. vanilla
- 3 c. sliced tart apples
- 2 T. flour
- 1 beaten egg
- ¼ t. salt

Combine and place in a pastry-lined pan. Bake 15 minutes in 450° oven; then 30 minutes at 325°.

Combine:

- ½ c. sugar
- ½ c. flour
- 1 t. cinnamon
- ¼ c. butter

Mix until crumbly and sprinkle over pie. Bake 20 minutes at 325°.

MACARONI & CHEESE CASSEROLE WITH TUNA OR CHICKEN

Make the following sauce first:

- 4 T. butter
- 4 T. flour
- ½ t. salt
- 1 t. dry mustard
- 2 c. milk
- dash of pepper
- ½ pound cheese (mild)
- 1 T. Worcestershire sauce

Melt butter in sauce pan, add the flour, salt, dry mustard, pepper, and milk. Cook until a white sauce consistency. Remove from stove and add the cheese and Worcestershire sauce. Cook 2 cups macaroni until done, drain, and put in strainer and pour some cold water over it. Use one can tuna or one cup cooked chicken, add the macaroni and sauce. Grease a 13 by 9 by 2-inch pan. Add all the ingredients and bake for 20 minutes in a 350° oven.

* * *

FRUIT COCKTAIL CAKE

- 1 egg, well beaten
- 1 c. white sugar

Cream together the above.

Sift together and add:

- 1 c. flour
- 1 t. soda
- ½ t. salt

Add:

- 1 t. vanilla
- 1 medium can fruit cocktail, well drained

Mix together and pour in greased 8 by 8-inch pan. Top with ½ cup brown sugar and ½ cup nuts. Bake 25 to 30 minutes at 350°.

* * *

TOMORROW SALAD

- 2 eggs
- ¼ c. vinegar
- ½ c. sugar
- 2 T. butter
- 2 c. white cherries
- 2 c. crushed pineapple
- 2 c. small marshmallows
- 3 cut-up oranges
- 1 c. whipping cream

Mix eggs, vinegar and sugar and cook until thick. Add butter and cool. Pit cherries. Drain cherries and pineapple. Mix first mixture with fruit and fold in whipped cream. Pour into glass dish and let stand for 24 hours.

FRANK COMMENTS

Continued from Page 4

after phoning back to Shenandoah to have a wrecker come up and pull the car out of the ditch and haul it back to Shenandoah—which they did. In the meantime I hitched a ride back to Shenandoah and had the family doctor look me over for broken bones, but he didn't find any. The next morning I had a series of X-ray pictures taken which showed very clearly there were no broken bones at all—just bruises and contusions.

Naturally I was extremely stiff and sore for the next week or ten days; but as I said before, I am just about back to normal again but am still taking a great deal of ribbing and razzing from folks, saying they thought I was a better driver than that and telling me I should please try to keep the car between the fences.

As you probably remember, it kept on raining all Friday afternoon, all Friday night and the temperature went down to about 20 or 25. The result was by Saturday morning every twig on every shrub and tree had a coating of ice from half an inch to as much as an inch thick. The trees really took a beating in this section of the state, and many phone lines and power lines were broken—partly from the weight of the ice but mostly by tree limbs breaking off and falling across the wires and breaking them as they went down. It has been many years since we had such a disastrous ice storm, and it would suit me just fine if we never had another one like it.

KMA PARTY LINE Continued from Page 9

Engineer JACK JOSEPHSON claims he was "hot, lucky, and everything else" when he shot a 708 series, February 18, during a bowling tournament game. That is the next to the highest score that has ever been bowled in Tebbe's Lanes. BUCK DILLEY has the highest score of 712, so JACK wasn't far behind. His average is 181, so it was quite a thrill when he came up with a 708 series.

Homemaker FLORENCE FALK found it relaxing and enjoyable attending some neighborhood Quilting Bees this winter.

Remember the picture of announcer JOHN RUSSELL in last month's Guide with the snow tires he wanted to sell? He didn't get 'em sold and he didn't eat 'em. Guess it was a good thing he still had them because he had a flat tire on the four-lane highway while driving to Kansas City recently. Yes, it was the snow tire he had tried to sell that came to his rescue and got him on the road again.

Letters telling of his exciting experience of flying a hurricane hunter plane to look for the Santa Maria, and hovering over it, while he was in contact with the head of the rebellion who was in charge of the boat, were received by announcer ALAN AUSTIN from his brother, Jim. Jim is a Lieutenant Commander in the Navy Air Corps stationed in Puerto Rico. After the Santa Maria had reached Recife, Brazil, Jim was in charge of the boat for a period while it was in dock. Later it returned to Portugal.

Writing this column was my first duty after returning to the office after a five-weeks' absence. It is so good to be back telling you about the things that have happened to the folks at KMA. January 20th I entered Clarkson Hospital in Omaha where I underwent my second operation for the removal of a cataract from my eyes. After leaving the hospital I stayed in Omaha with my sister, Mrs. Edward Plaster, a week so I could be near the doctor for the first checkups. My eye is coming along nicely now and will soon be completely healed. My first eye operation was two years ago this month. I want to extend my heartfelt thanks to all you GUIDE readers and KMA listeners who sent me wonderful letters of cheer and Get Well cards. I can assure you "Mail Call" was the bright spot of the day! Some of you told me you had been readers of my column ever since the Guide started in 1944, so naturally that made me feel so good that you considered me your friend. I wish it were possible for me to write all of you notes of thanks, but I am sure you will understand I still have to be careful of my eyes and not use them too much right now. But I appreciated your thoughtfulness and will keep you informed through our friendly visits over the KMA PARTY LINE.

The weekend of February 18 - 19 mother nature covered every tree, shrub, and wire with a thick glaze of ice. There were many downed wires, a few damages from falling branches, but the beautiful glistening splendor of the resulting diamond-studded fairyland more than made up for the inconvenience. Pictured here is a white birch at station manager Tony Koelker's home on south Elm. The birch normally stands tall and straight in three sections.

It was bent all the way to the roof of the house and to the ground on the right. Tony had spent many hours carefully nurturing this decorative beauty on the southwest corner of their home. For a while he thought all his work was going down the drain as the heavy ice bent its slender limbs. However, when the ice melted they straightened back to their original shape, much to Tony's relief. Meanwhile, the tree made a very pretty picture.
