- NOTE—It was at about this point that Columbia dropped the bright gold lettering on its label, and both the gold and red colors took on a duller tone. Some of these wartime labels had an odd "washed-out" look to them; others seemed to be somewhat like the original label. But most took on the duller tone that was used through the late 40s.
- A few among the next 25 records can be found either in the original coloring or in the duller tone.

VOCALION-OKEH Numerical List

3000-6747

In the earlier 3000 numbers there are cases where two records were issued for the same number. These are noted by an asterisk. Blues and hillbilly records in this series used the prefix "0" (e.g. 03001), but we have not included this prefix in the listing.

For some numbers both Vocalion and OKEH records were issued. Vocalion records dominate the issues until around 5600, from which point OKEH records dominate.

INDEX

Personal Names

In the index entries that follow, references in normal type (1925BM) refer to *Music Year-by-Year, 1900-1950* (Volume I of this encyclopedia). The small capitals refer to the subsection of the year cited: BM—BROADWAY MUSICALS, MM—MOVIE MUSICALS, PS—POPULAR SONGS, RR—REPRESENTATIVE RECORDINGS.

Single-letter references in larger capitals have the following meanings:

- A—ACADEMY AWARD WINNER OR NOMINEE FOR MUSIC (See *Appendix C, Volume IV.*)
- D—DOWN BEAT POLL WINNER (See *Appendix A, Volume IV.*)
- M—METRONOME POLL WINNER (See *Appendix A, Volume IV.*)

Sans-serif numbers (**692**) refer to *Biographies* (Volumes II and III). Numbers from **1** through **1047** appear in Volume II; numbers from **1048-2006** appear in Volume III.

Duplicate references in this index have been consolidated. The user of the index should bear in mind that any reference (such as 1945RR or **609**, for example) can be assumed to contain one *or more* mentions of the indexed item.
