The Ultimate 4K Toolbox

FS4: Offering Unparalleled Workflow Flexibility

FS4 is the most advanced all digital frame synchronizer from AJA Video Systems, offering unparalleled workflow flexibility. FS4 is a four-channel 2K/HD/SD or single-channel 4K/UltraHD frame synchronizer and up, down, cross-converter. This flagship frame synch and converter delivers incredible versatility and connectivity in a sleek 1RU frame for comprehensive 4K/UltraHD and 2K/HD/SD conversion needs.

Single Channel Mode

Bulletproof reliability.
Incredible conversion power.

In single-channel mode, FS4 provides a full suite of 4K/UltraHD processing and up, down, cross-conversion to and from 2K, HD or SD

Four Channel Mode

Multi-channel density in a 1RU Chassis. Space, energy and power possibilities preserved.

In four-channel mode it offers 4 x 2K/HD/SD channels of simultaneous conversion and processing, for multi-channel high-density delivery in a small footprint.

12G/6G HD-BNC and Fiber SFP+ Options

Expand your bandwidth.

FS4's SFP+ options include both 12G/6G-SDI HD-BNC and Fiber I/O options, as well as the choice of 3G-SDI Fiber SFP and CWDM multiple wavelength CWDM SFPs. Choose what you need for great flexibility and fiber cable runs of up to 10 kilometers

First class products offered with Service, Integrity and know-how...

Auratone 5C Amazing Sound Is Back

The original 5C, which became famous in the 1970's and 80's and has been used in virtually every major recording studio worldwide, is still the undisputed industry standard for "real world" referencing in the recording studio. After lengthy testing and remanufacturing our driver, we finally were able to achieve the purest sound equalling the sound of the original 5C Super Sound Cube. All components of our driver are made of the highest quality materials in the United States.

Blue Sky AMC

The AMC Audio Management Controller from Blue Sky International is an overall monitor system control which can be used with 2.1 systems and surround systems. The AMC controller provides precise, centralized control over levels, balance, mute, selection of house curves, and various other system configuration settings.

The unit is an 8-channel DSP-based system and supports configurations up to 7.1. Any input can be routed to any output and multiple inputs can be mixed and routed to any of the outputs. inputs have a built-in sample rate converter, which can be bypassed in pure-digital mode for 48/96 kHz operation.

EVENT OPAL

Opal represents the culmination of numerous patented technologies Event has been developing for years that they've now brought to fruition. To start, the Opal's 2-way driver design is nothing but world-class. Its EX8 driver boasts an impressive 30Hz-10kHz response with a high-power neodymium motor. Opal's ULD tweeter with rotatable wave guide is also worth note, as it blends beryllium with the extremely powerful neodymium motor for incredibly high SPL capabilities without the problem of distortion. Take your monitoring to the next level with Opal!

RØDE MICROPHONES

i-XLR

Take advantage of the studio in your pocket, with the RØDE i-XLR Adaptor. Connecting an XLR microphone to a lightning adaptor so you can record RØDE's signature crystal clear audio onto your iPhone is just the beginning. The i-XLR also features trimmable, zero latency headphone monitoring, a 3-metre cord and, with the RØDE Reporter App, one-touch recording. Fast, compact, versatile, easily monitored and captured: the i-XLR is a mobile recording essential.

Newsshooter Kit

The RØDELink Newsshooter Kit provides everything you need to start shooting video wirelessly with XLR microphones, including a camera-mounted receiver and an XLR transmitter. The receiver (RX-CAM) features an OLED display with information on level, battery status (receiver and transmitter), mute and channel selection. The unit can be mounted on a standard camera shoe mount, 3/8" thread or belt-clip, and for added versatility the shoe mount can be located in one of two positions. The transmitter (TX-XLR) easily connects to handheld presentation microphones as well as shotgun microphones, with a 3.5mm input and headphone output.

NTG8

Based on RØDE's award winning NTG3 shotgun microphone, the NTG8 is a broadcast quality RF-bias shotgun microphone that exhibits increased directionality across a wide frequency response range. This makes the NTG8 the perfect microphone for film, television, sports and outdoor broadcasting, live performance, and any professional distance miking application.

BoomPole PRO

Made from carbon fibre, the RØDE Boompole Pro weighs only 535gm (18oz) and, from a compact 810mm (2' 8"), extends to a full 3m (10'). Designed for use with professional shotgun microphones such as the RØDE NTG3 as well as the Blimp windshield system, the Boompole Pro joins RØDE's popular boom pole range which now consists of five models ranging in size, weight, and construction material.

Rycote

Premium wind protection and mounting solutions for microphones from the world leader and innovator.

By stocking and supporting different products lines at its newly expanded Montreal area warehouse, GCI Distribution provides dealers access to more inventory than ever before. GCI's commitment to a great experience doesn't stop at moving boxes on the web; every client's backed by top level customer service not often found in the industry. With phone and web support, plus warranty RMA - GCI staff does it all and with pride and passion for excellence. With growing presence and recognition from the Canadian market, GCI Distribution continues to provide reliable solutions in Broadcast, Corporate IT and AV, Commercial and Pro AV, Consumer and Home Custom Installer (CEDIA), OEM, Aerospace and Bio-Tech industry. In addition to GCI's knowledgeable Area Sales Representatives, many staff members have extensive experience in different field and technologies such as Film, Television, Pro-Audio-Visual, Radio, Sound Reinforcement, Recording Studio, Post-production Studio and Installation. They have the knowledge and close relationship to assist Canadian OEM, Dealers, Integrators, Resellers, and End-Users. The new lines add even more opportunity to the existing business relationships.

4K — ready when you are.

We make the complex, simple

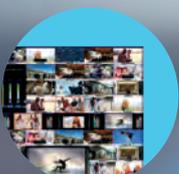

Concerned with another format and a huge increase in data rate, processing power, network bandwidth and storage capacity? SAM solves all these, simplifying 4K production.

Our switchers let you mix formats and organize processing resources as easy as working in HD or SD. Our super-fast 4K recording, editing and replay systems don't make copies, move files or consume network bandwidth like others do. Step into the future with SAM.
